Chapter 3641: Years tide

Although Medusa is a little princess of the Choi nationality, the blood of the ancestors of the body is very rich, but after all, it is the younger generation of the Caisong people. It is not very strong to cultivate the strength. At least it is far from being able to be transformed into a colorful color. The cockroach's main star is the same as the old monster.

Even so, when she first exhibited this kind of star-studded power in the Shennong Ding's inner space, she suddenly lost all the vitality of the blood, and Ye Xuan was still shocked and deeply jealous.

Now, this kind of magical power is displayed by a lord of the family who is far more powerful than Medusa. The power of its power is obviously no doubt, and Ye Xuan, who is sitting in the soul of the soul, is trembled. It is a little nervous.

Naturally, there are some means to deal with the star blame, but now, since the celestial family does not disclose the secret of his identity, then Ye Xuan can not easily use those means, otherwise it will not wait for self-violent identity?

He now helps the Devils to fight against the Second Universe and the Allied Forces. Whether it is the Linghu Shaozhu or the Netherland or the Emperor of the Emperor, it is not appropriate. The same is true of the Tianji minority and Changsha Baofeng.

Therefore, Ye Xuan can't go to the various means related to these identities.

The only thing he can rely on and use is that there are only three warlords, or he can go back and make a few ideas on the 106 pieces of Jiu Jin Jin Jing, and then devour one of them to get a new kind of wild magical power.

But now, in the face of the singer's shot of the star-studded star, Ye Xuan can only rely on three battles.

Among the major groups in the Second Universe, the Choi people are among the top ten in terms of comprehensive strength. Although they are not as strong as the top three **** Yi, Qingpeng and War Lions, they are also famous.

The blood ancestor of the Caishao nationality is said to be a colorful konjac. The nine-colored konjac existed in the early ancient times. It is said that the source of blood is the ancient sacred dragon that disappeared between the heavens and the earth in the late period of the ancient times.

In the inheritance picture of Yu Tiangong, Ye Xuan once saw a huge body of horror in the image of the ancient wars of the ancient world. It is indeed the existence of the ancient supreme level, and the golden dragon and the ancient Yaksha is the same, but it is a hostile camp.

Therefore, Ye Xuan has no good feelings for the Caisong people!

In this case, the use of the most powerful years of war in his view, Ye Xuan naturally has no pressure, even if this killing of the colorful smashing, there is no relationship, even if the identity is exposed in the future, this The account counts on his head, Ye Xuan does not matter, he and the Caishao people are destined to be only hostile.

In fact, in addition to the years of war, now, in the absence of any identity, there seems to be no other means to perform.

The Void War is far from enough to force back the star lord, even if it is a great power. At the time of the first battle, it was also because it was caught in the sudden vortex of the emptiness of the emptiness, and it was degraded. It's just the power of the Void War, and it seems that it's impossible to annihilate the power of Qiankun.

The same is true for the soul war, and the talent has already been used, and it is impossible to fight again in a short time.

And its power, it seems that it is not appropriate, killing the mighty power, and hitting the star lord, for the current sorcerer, there is still a long way to go.

Perhaps, in the future, the tens of millions of sacred beasts in the thousands of hive nodes in the garrison will be able to show this power when the individual strength is stronger, but now, the scope of the indiscriminate attack Under the circumstance, only the strongmen below the beginning of the thirteenth realm can be instantly destroyed.

If you want to deal with Qiankun's power and the star lord, you can only use the years of war, which is the only expectation of Ye Xuan.

At the same time as the two huge petrochemical powers were blasted, he was the first to move from the sorrow to the side of the battle, and the three major battles were refining and reciprocating. There is a small fixed transmission array, and Ye Xuan can move.

As Ye Xuan's figure appeared in the core hive node of the war, he looked up and saw the squatting slime on the ground.

When Ye Xuan gave instructions to it, he made a full blow!

The Slim king of this all-in-one purple gold is huge in size and has a huge body. Although it is far more powerful than Ye Xuan, it is all given by Ye Xuan, and it obviously wants more and desires. The second drop of the evil source of water.

Therefore, for Ye Xuan's instructions, it did not hesitate, and immediately launched an action.

"Hey!"

As this extremely slight humming sounds, a circle of invisible ripples spreads out of its body, plunging into the walls of the core honeycomb nodes, and along the pipes connected to the outer wall, it is instantly transmitted to the battlefield. Among the thousands of honeycomb nodes.

At this moment, the tens of millions of gold slimes in all the hive nodes are all in shape, and the long golden thread under the belly bursts into the luxuriant, and then the whole body is golden.

These Jinmang are actually the biological wave frequency of the gold slime. If it is only one end, it will not be a climate, but the number of gold slime is more than one, the layers of gold curtains are superimposed on each other, and they are gathered together. It becomes a rich golden color. If it is spiritual, it rushes into the four walls of the honeycomb node and traces back along the outer wall.

In all directions, to the core hive node where Ye Xuan and Qiankun Slime are located, rushing!

All of this is long-lived, but it is done in an instant, and it happens inside the years of war, and tens of millions of gold Slims are full of gold mans, and outside the years of war, there is no trace of traces. .

Only at the end, when the rich golden mantles gathered in the thousands of honeycomb nodes all come together, after entering the core honeycomb node, this core hive is located in the central area of the ninth circle inside the huge trumpet of the war. The knot suddenly became bright.

In an instant, the core honeycomb structure with a diameter of three kilometers is completely transformed into a golden world. At the same time, a wave of waves like a tidal golden cymbal spreads along the war, and the huge bell mouth is positive. In front, a golden fan-shaped ripple is derived, and it is rapidly expanding forward, pushing away...

Blinking, the golden fan-shaped front edge line touched the two giant petrified light beams.

"brush....."

A sound like a real tidal wash, the two large columns of light representing the power of the Caisong petrochemical powers, were instantly eroded by layers, as two layers of starry sky were stripped. It was only a short time, but it has disappeared completely.

It was also at this time, in front of the void, the huge body of the fascinating body, there was also a scream of fear, showing the infinite despair: "The tides of the years? No! ...it is impossible!"

Chapter 3642: Ten thousand years

Heaven and earth are not benevolent, and everything is a dog.

People are old and sick, and there is a lack of cloudy and sunny months. Wind and rain, thunder and lightning, the world of heaven and earth, the alternation of the world, the cycle of life and death, all have their own rules of operation.

In the atmosphere of the universe, the level of the law is different from that of the relatively small independent star. It is more transcendent and more complex.

The starry sky, only the level of life evolved into the fifteenth world of the starry sky, and entered the level of the mighty power of the universe, and was qualified to touch the existence of the law of the universe, and after the star's main territory, it was specialized in the body. In terms of the laws of the universe, basically it can only be regarded as a slight understanding of the fur.

Every star lord, the law of the universe is different. No one can follow all the rules of the sky, basically picking some of the easier to get started, exhausting the power of life, and carefully studying and understanding.

The law of space and time is one of the most mysterious and mysterious rules of the universe, and the starry sky that can get involved in this field can be described as the phoenix scale.

But this does not mean that the power displayed by the law of the sky and time is unrecognizable. I have never eaten pork. I have always seen pigs running.

For this reason, after the full blow of the years, the fan-shaped golden power wave that emerged from the core honeycomb node of the ninth lap of Lakou appeared, and the surrounding void immediately sounded like a tidal wave. Exclamation.

Almost all of the great powers of the Qiankun and the lords of the stars are all erect, and the ruthless years of erosion that are captured in the consciousness have completely shaken them.

Especially in the face of this fan-shaped golden power wave, the screaming, the body shape is a quick retreat, such as avoiding ghosts, I am afraid!

Unfortunately, its speed is fast, how can it be faster than the tide of the years?

In the blink of an eye, the golden fan-shaped energy of the two petrochemical power beams was eroded in an instant, and the entire space of the Wanzhang color scorpion was covered. The mysterious power was dispersed and opened for the first time. The shape of the color smashing retreat came to an abrupt end, as if it was banned, it was fixed in the void and could not move.

Almost at the same moment, the huge body of the colorful scorpion suddenly became gray and bright by the colorful and colorful, and the colorful scales covering the entire surface of the giant body were picked up in pieces. Out, and quickly turned into gray spotted dust, completely dissipated.

This scene, it seems that this eternal color is squatting in the emptiness of the sky, and the life of the ancestors of the ancestors evolved into the star's main territory, and its blood is true, only once every 10,000 years. Only.

In a short half-short, the eternal years passed quietly, but the cultivation of the main star of the first star did not rise in the air, and if it passed without a reason, it would have passed away.

Although he did not let him fall on the spot immediately, he did not even let it be weakened with strength, but this is only the first wave of the tide of the years.

It's just that this wave of years and waves is not enough, and it's lost for a long time.

It's not just this one-and-a-half color, but also a large number of star-ship battleships that are also shrouded in this fan-shaped area.

Before the second cosmic united army in the hurriedly retreat after the savage battle, the more than half of the more than 200,000 warships and fortresses and fortresses that were thrown away were all within the golden sector. The rear of the colorful enamel.

Nowadays, with the tidal wave of this first wave of years, the more than 100,000 warships of all kinds are instantly grayed out and broken.

The eternal ecstasy of the star's main territory can still be caught, but it is completely different for these inanimate icy warships.

It was only the tidal wave of this wave of years, and by the end of the day, some warships had already begun to disintegrate.

"Booming!"

"boom....."

Soon, the overwhelming roar of the rumbling came, but there was no explosion of fire. The walls of a large number of warships were grayed out, eventually broken, the keel collapsed, and completely melted into a awning. Garbage, floating in the void, turned into a back, so that the huge body shape is no longer a colorful and colorful body, it seems so lonely and old.

There was no pause, just as the waves of the first wave of the year were still far away, at the source of the inner corner of the entire golden sector, the second golden ripples and ripples visible to the naked eye had whistling ruthlessly from the mouth of the bell. coming.....

"Hey!"

Seeing that the second golden tide is approaching, the eternal shape of the fascinating fascination is full of horror, the huge shackles are full of fear, and a flustered scream.

Ten thousand years!

As a starry sky with a star's main territory, the limit of his life is only two or three thousand years. This kind of tidal wave is a few waves, he will completely aging in the golden ripples of the road. In the blink of an eye, the tens of thousands of years of vain, due to the drooping old man, eventually decayed!

Not waiting for its whistling sound, the second wave of years has already arrived, and the golden ripples visible to the naked eye have washed away from the body of the colorful enamel.

The sound of its whistling sound was weak and then disappeared.

After the tidal wave of the first wave of years, the Wanzhang color enamel is like washing the lead, the whole body is no longer stunned, the whole body is gray, but its repaired breath has not been affected, it is still strong.

Now, with the invisible tidal wave of the second wave of years, this gray body has finally begun to fall, its gray body surface, flesh and blood began to wilting and dry, and in the end, countless flesh and blood so the first wave of the tide The color scales underneath are generally stripped from the body and turned into dust.

In a short period of time, Wanzhang Caiyan has already eroded blood and blood, revealing a lot of white bones and internal organs. Although it has not been completely annihilated under the erosion of this second wave of tides, its breath has weakened to the extreme, cold and not At first glance, just like the same old cockroach that has been decaying through the years, it is already a dying year, and it is dying.

At this time, the tide of the second wave of years has completely disappeared, and the numerous alloy cosmic garbage floating in the void in the back of the body has been disappeared in the first wave of invisible years, and it has disappeared into the fly.

More than 200,000 warships, fortresses and fortresses are just two waves of tides. They have been completely annihilated and disappeared. The remaining hundreds of thousands of ships have been spared, because they are suspended in the universe. The reason for being located on both sides of the huge fan-shaped area has not been shrouded in these two waves of tides and has not been eroded by the power of invisible years.

Nowadays, this vast fan-shaped area is in the void, and everything has disappeared. After a short period of two, the 20,000 years of ruthless years have disappeared.

Only the decaying and cruel remnants of the colorful paintings are still lingering...

Chapter 3643: Lord of the Stars

There are tides in the years, for ten thousand years!

This scene is too horrible!

In the vast expanse of the golden fan-shaped sky, the short two-time period, the 20,000-year-old time, has already disappeared!

The warships and fortresses and fortresses thrown away by hundreds of thousands of second-century allied coalition forces were eroded by the power of ruthless years, and their eyes disintegrated.

In the end, even the hundreds of thousands of warships were completely dissolved and scattered in the void, and the numerous alloy debris garbage was wiped out!

The Cailu nationality has the horror of the horror of the lord of the star. It was originally a prime year. With the repair of his star's main territory, the number of lives is more than 20,000 years.

But now, in a short two-time period, 20,000 years old, ruthlessly passed!

If it is under normal circumstances, the 20,000-year-old period, its repairs can definitely go further, from the 16th Daxing Xingzhen, into the 17th major territory, even the 18th realm!

By then, the number of lives will also rise.

If it can be repaired in a bounded realm, the number of lives will be 100,000 years. At that time, when this kind of horrible years of tides are encountered, they can basically hold back.

But now, the 20,000-year-old glory has passed by. In this short-lived time, he has suffered a ruthless eclipse of 20,000 years in this short period of two years, but in the past two thousand years, He has been vain, and there has never been any growth in his cultivation. Therefore, this time, the tide of the tide, he is destined to be unable to pass!

Because the last wave, the third wave of golden tides, has come to a halt without any pause...

In the face of this wave of turbulent years, it is already a slap in the face of the eternal years, even before the arrival of the second wave before, the ability to scream in the sky is gone.

I am dying, just to die!

But its pair of huge but already faint eyes, but clearly have a strong unwillingness and anger!

This third wave of tides is not complete, even if he is clearly aware of it, perhaps, its power has not reached 10,000 years, at most it can only bring seven or eight thousand years The moment passed by.

This is a fact, related to the tens of millions of gold slimes that are the dynamism of the years, and also related to the purple gold slime that dominates this age killer in the core honeycomb node.

Even if they do their best, at most, only three waves of tides can be formed, and the third wave is still incomplete and has not been completely formed.

And if these tens of millions of gold slime's cultivation is strong, they can generally strengthen a big realm, and at the same time, the cultivation of the Zijin Slim king can reach the star's main territory and even the domain from the current ruin. Main territory.

Then, with the full blow of this years of war, the power will be stronger.

The tides of the years and tens of thousands of years can continuously promote the six or seven roads, or the power of every wave of tides, representing not only the ruthless lapse of 10,000 years, etc.... This is possible!

Now, this tide is exactly three waves, and the last wave is still incomplete.

However, this is meaningless, even if it is exactly the same, it will make Wanzhang Caishui's heart unwilling at this time, it is more intense and intense!

Because his lifespan is also less than 10,000 years old, the body has lost too much under the erosion of the two waves of the previous years.

The rest of the life can only last for five or six thousand years.

Even if this wave of power is not complete, it will not reach the last wave of the tide of 10,000 years... It can kill his life!

Time to enter the third interest, silent, the third wave of tides, finally arrived!

The golden color that is visible to the naked eye turns into a ruthless ripple of time, radiating outward from the narrow fan-shaped corner of the void covering this corner.

Soon it covered the body of the colorful body.

His huge body was originally a white bone scale, and his flesh and blood remained less than 40%. The whole body is like a rag bag full of sores, through a decadent flesh-and-blood wound, you can see it clearly and incomparably. The inside of the body also withered a lot of various organs!

Nowadays, with the advent of the third wave of years, the power of ruthless time erosion reappears, the whole body of Wancai Caishen is completely defeated by the naked eye, and the flesh and blood of the body will not be washed away. It has disappeared, and even the internal organs have fallen from the gap of a large bone joint, and turned into fly ash after leaving the body.

Only half-interest, what you can see in the void, is just a huge white Sensen skeleton.

This is the eternal beauty of the horror of the Stars, and it has been completely degraded!

However, everything did not end there!

Although the tide of the third wave of years is not complete, it still has not completely disappeared. Even if the eternal color has fallen, the golden ripples are still like a sly, ruthlessly on the Baisen skeleton that hangs over the void. Scouring...

In the blink of an eye, the huge white bones of the colorful scorpion, as if it were completely weathered, turned into countless white powders, and they rushed to the void and finally disappeared.

This kind of scene did not stop there. As the last ruthless eclipse of the third wave of years fading gradually came to an end, the weathering and erosion of the skeleton of Wanzhang began from the huge white bones of Wanzhang, and all the way to the end. The tail extends over.

This process is also only half-baked. In the end, when the whole piece of the fan-shaped area is large, the undulating golden ripples are completely disappeared.

The sturdy skeleton of the fascinating face in the emptiness of the sky is only one-third less than a small one.

It was so extremely abruptly swaying in the void, silent.

When you look at it, it's clear that it's a remnant skeleton that is no longer left in the breath of decay.

The people who left it have been at least for a long time, and even the wreckage is eroding under the cosmic rays and the ruthless years, and it will soon be completely wiped out...

All of this is a long story. In the void in the golden fan-shaped area that has just disappeared, even the ruthless years of nearly 30,000 years have just passed away strangely.

But in fact, for the eyes of the golden fan-shaped area, witnessing all of this, witnessing all the star-space powers that happened in this scene... Time, in fact, just passed the just-right interest.

Three interest, more than ten thousand ships of various types of warships annihilated!

Three interest, a star-studded old monster with a star-like main repair!

After realizing this, all the strong men in the emptiness around the world all shuddered, and a chill of incomparable Mori floated from the bottom of his heart, instantly covering the whole mind.

Void, plunged into death...

Chapter 3644: Terrorist damage

Among the three major wars, it is still the most horrible power of the years of war. Under the attack, even the star lords can't hold back, and they fall down directly. The horror of the blood is huge, and finally only Leave a small piece of Sensen bone, so effective, even Ye Xuan are very satisfied!

This is because the head of the star has no color, and the blood is so bloody. If it is replaced by other star owners, it may be faster and worse, and it is very possible that Mao can't stay. !

The only thing that made him regret was the hundreds of thousands of warships and fortresses and fortresses that he had buried with him!

Before the second cosmic coalition forces slammed the battle, they dropped nearly 250,000 warships. But now, there are only eleven twenty thousand, and all others are Under the ruthless erosion of the golden years of ripples in the fan-shaped area, it turned into fly ash and disappeared without a trace.

This is too bad!

Let Ye Xuan feel satisfied at the same time, his heart is also faintly guilty of pain, more than 100,000 various warships and fortresses, fortresses, even if the devils do not want to, they can completely find a way to close up, and then handed over to the Arc de Triomphe Well!

Even though the Arc de Triomphe is now like a paradise, no one is disturbing, and the quiet head of the death star is developing rapidly. Even if there are countless stars in the entire star field, it can be used as a mining star to mine resources, but these resources should be refined. Starship alloys, and then these starship alloys into hundreds of thousands of warships, also require energy and time.

But just now, when Ye Xuan couldn't get enough interest, it would make more than 100,000 warships of all kinds.

If Naples is here, it is estimated that you have to stop your chest!

In shaking his head and smiling, Ye Xuan also secretly reminded himself that when he took time to look back, he had to study the controllability of the three warlords. Otherwise, every time this is a full blow, not only the battle of kinetic energy groups. The loss ratio is too high to bear.

It is because the scope and target of the power can not be precisely controlled, or not shot, a large fan-shaped area is directly covered by a shot, and there is no difference covering the rolling, which is too speechless.

With such an idea, after the fall of the star-studded lord of the Caisong family, Ye Xuan extended the spiritual power for the first time to see the battle damage in the thousands of honeycomb nodes in the battle.

It doesn't matter if you don't look at it. I almost didn't surprise him to spray blood on the spot!

The previous sorcerer's war was full of blows, and more than 40 million sacred beasts were only less than 100,000, and the war damage ratio was around two thousandths.

Even so, Ye Xuan is extremely distressed.

Now it's good, after the attack of the years of war, nearly 50 million gold slimes in thousands of honeycomb nodes have annihilated nearly five million!

The proportion of war damage has reached 10%, which is one hundredth of a thousand, which is fifty times the proportion of the war damage of the soul war!

Moreover, the rest of the other 40 million gold slime, at the moment, all of them are languid, and the tens of millions of sacred beasts in the sorcerer's battle, must be recuperated for a while before they can fight again.

Fortunately, the gold slime is not the same as the unrepleasable sorcerer, and there is also a source of energy to create a new member of the slime mother's nest, this time the battle of five million gold slime, not long after Can be added from the mother's nest.

But 10% of the battle damage ratio is indeed too high. Even if there is a mother's nest, can live with it, does Ye Xuan not feel bad?

It seems that this problem is really serious. If you look back, you must take the time to study it carefully, and make the attack of the three major wars to achieve the level of power and the full controllability of the two levels!

Otherwise, you have to bear such a large battle damage once, Ye Xuan really feels that even if his nerves are thicker, more than a few times, I am afraid I can't help it!

The root of the disease that has to fall into the heart and pain!

Earlier, Ye Xuan also felt that a star lord was so easily killed by himself, and it felt a little bit strange in his heart. There is no such thing as a hint of compassion. It is absolutely false.

But now, when I thought that there were five million gold slimes to the old guy to bury, the faint feeling of compassion in his heart disappeared without a trace.

Instead, I bite my teeth!

The old guy was too profitable. He actually took five million gold slimes to bury him. Ye Xuan simply couldn't wait to pull him back again, and he was reconciled with a slap in the face!

After sighing, his attention quickly returned to the front of the void battlefield.

At this time, the three major forces camp around the void of the battlefield, after a brief death caused by the madness of the heart, and this morning has once again become full of people, and countless screams of screams come and go.

The two layers of starry air defense inside and outside the Emperor Samsung in the rear of the Three Wars are not the same, but the first cosmic slaves behind the Devil's Samsung are allied forces, and the front of the battlefield is empty, and there is only a second universe with a scale of 500,000 warships.

On the other side of the coalition forces, there was an exclamation and a roar of anger, and the ears were unspeakable...

"Roar!"

"Damn! Who the **** are you? Actually, I am a star-studded master of the Caisong family. This family and my family are not dead, not good! Hehe..."

"God! Is this all true? A star lord, has it completely fallen?"

"Too horror! Just three short-lived, not waiting for everyone to come back to God, the starless color of a star's main territory, it has completely vanished, leaving only a small piece of bones."

"Is this the power of the law of the sky and the sky? It is so horrible..."

"It's against the sky! It's really against the sky! These three star-studded killers are simply nightmares. One can inspire spiritual storms, and the universe's voids will burst, and the void will spiral."

"A second powerful army of the second universe that can scream and scream, without physical lethality, can instantly destroy the thirteenth world."

"In the end, this place is even more perverted. Even the terrorist forces of the law of the universe's space and time can be provoked, forming the tides of the years, and even the stars and monsters can't hold back. Within a short three-degree interest, they have fallen."

"There are three star-studded killers, who can destroy the devil? Yes, there is a more critical question... Is this all related to the Celestial family? These three big killers are the devils. The handwriting, or the celestial family and participated in it?"

"If it is the latter, does it mean that the scientific and technological strength of the Tianji nationality has reached the level that can be related to the law of the universe? This is too shocking, the real starry sky black technology!"

.....

With the sound of these exclamations resounding through the void, the two layers of the starry sky defense inside and outside the magic king Samsung are far and wide, representing the two coalition forces of the various universes. The eyes of countless powerful people are all toward the magic king Samsung. Gathered together.

At the moment, the existence of the three star-studded slayers in the sky, whether it is a celestial family or a high-ranking person of the devil's group, has become the most concerned issue for everyone.

Chapter 3645: My Emperor Mo Yufeng

Three star-studded killers, the town is full of audience!

There are both years of war against the existence of Qiankun Power and Star Lord, and there are also those who have been trained as the star-level powerhouse at the beginning of the thirteenth world, and launched a range of indiscriminate killings. The meaning is absolutely great!

The forces that control these three horror wars are the Tianzu or the Devils, and now they are the most concerned issues of the high-level groups in all camps.

And this issue is extremely sensitive, and it has a major and far-reaching impact on the general situation of the first universe and even the overall situation of the three universes!

This issue, Ye Xuan also thought of it!

In fact, he is considering this at this time.

With the fall of the star-studded lord of the Caisong family, the second space coalition in front of the void battlefield has stopped to continue to entangle, although the entire coalition has more than 500,000 warships and fortresses, fortresses, and even even There are still eight of the stars and monsters.

The two shots of the soul war and the battle of the years, the deterrent effect is too amazing, they simply do not dare to act rashly.

God knows that these two killing horrors are still capable of issuing the same attack again.

In case the answer is yes, isn't it asking for trouble?

Whether it is to dispatch a large number of star warships or star owners, the final result will be dismal.

Even if the two war lords have only one blow, they can no longer launch the same attack in a short period of time. However, at the moment, it is clearly three battles, and the other one has not been used yet.

Of course, this virtual warfare is actually used and can't be used. The reason why Ye Xuan sacrificed it is completely a number. The three are more scary than the two.

However, apart from him, even the top members of the royal family of the Devils are not aware of it. Therefore, the deterrent power of the three warriors still exists, and the second universe of all ethnic groups can only assemble the last more than 500,000. All kinds of warships are going forward.

Before the follow-up main force arrived, or found a way to deal with the three star-studded killers, the second wave of offensive, fearing that it could only be dragged on in the foreseeable future.

They even surpassed more than 100,000 warships and fortresses and fortresses that survived the battlefield in the void, and they did not care to send the strongmen of the tribe to enter and take them away.

In the process, in the process, the three big killers that lie in the void will come back again. Doesn't it mean that the lives of countless people are sent away?

In a short period of time, the remaining two hundred thousand warships and fortresses and fortresses of the Second Universe Allied Forces retreated to tens of millions of miles. This distance has exceeded 100,000 meters. The range of the gun.

Even if the star lord suddenly sneaked, under such a long distance, it is impossible to come instantly.

In other words, the threat of the Second Universe Coalition has been completely dissipated for the time being!

Ye Xuan's line of sight swept to the front of the void, falling on the various warships of about 110,000, and fell into sinking.

If it is according to his temper, these 110,000 warships, fortresses and fortresses, Ye Xuan will never let go, must find all ways to put away, turn back to Naples, presumably the overall strength of the Arc de Triomphe, there will be An increase is not small.

But this thing can only be thought of now. Under the eyes of the public, he is really inconvenient to do this. Besides, more than 100,000 warships of various kinds are spread across the void and a large piece of film. Its income is immortal, but it is bound to be laborious.

His cultivation is still too weak to be able to make a wave, and at the same time charge thousands of warships.

If Shennong Ding is sacrificed, and then the Devil's strongman is sent into the battleship, a ship will drill into the Dingkou and enter the space inside the Ding, but it will save a lot of effort.

But that is obviously more impossible, and it is necessary to expose the identity directly.

After some trade-offs, Ye Xuan could only helplessly give up.

The devils of the deity are now enemies, and when it is necessary to have a large number of warships, as an ally, Ye Xuan is also embarrassed to really take away all the more than 100,000 urgently needed warships at this juncture.

What's more, people have already sent him a void battle!

Thinking like this, Ye Xuan quickly broke the idea of playing the idea of the more than 100,000 warships. After a little indulging, he changed his body shape into a three-and-four-year-old middle-aged man, and then stepped out of the years. La, the figure appears in the void of the outside world.

In the next moment, hundreds of millions of dawns came together at the same time. At this moment, everyone's attention is humble!

Whether it is the second universe of all ethnic groups, or the top leaders of the various universes in the First Universe, even the royal elites including the Devils, Mo Qigong, Mo Wentian, and Mo Taiye, etc., are coming with these three battles. In the end, how strong is the strong, all tightened the heartstrings, and at this moment, I saw someone coming out of the battle of the years, the heartstrings of all the strong, instantly tightened!

Then, a stranger, no matter who has never seen a face into the line of sight, the top forces of the major forces subconsciously at the same time, and then a variety of different ideas.

Especially the tops of the royal family, Mo Qigong, Mo Wentian, and Mo Taiye, after the slightest sigh, the original tight heartstrings, instantly loosened more than half!

Because this strange star-studded strong, clearly is the flesh and blood, and its cultivation as the realm, is also the first level of the virtual environment of the twelfth world!

Since it is the flesh and blood, it is absolutely impossible for a certain high-level person of the celestial family.

Moreover, Xuan Huangzi's cultivation is the seventh stage of the eleventh dynasty, and the stranger of the twelfth emptiness of the twelfth emptiness. The disparity is not big, only the gap between the three small steps. Only.

With the enchanting temper of the kid, this half-time has passed, and it is not completely impossible to repair the three small steps of the Jin.

It hasn't happened before.

Coupled with the Void War in his hands, then his identity can basically be determined, the possibility of ninety-nine is the Xuan Prince!

It was also at this time that the figure took a step from the time of the battle, and after coming to the outside world, Ye Xuan had waved for the first time, and in the blink of an eye, three large killers that swayed in front of the void, one bones and brains. All of them have earned the immortal world.

Seeing this scene, several of the devil's royal family who knew his identity and the secret alliance between him and the devil's ethnic group suddenly turned a blind eye.

Because this means that within the three wars, there is no possibility that there will be no other strong people... for example, the heavenly family!

That is to say, the other two war lords are mysterious and puzzling, but at least one thing is certain. That is, the matter has nothing to do with the Tianji people. Although the Tianji people have the ability to be in the short majority. The two warlords were built in a month, but Xuan Huangzi apparently did this through other channels.

This is enough!

For the devils, as long as the Emperor Xuanzi did not sell them and instead colluded with the Tianji, then everything else was not important.

As soon as I read this, the Emperor Mo asked how the mood was very pleasing, even when he looked up and laughed: "Ha ha ha... This is my royal family, Mo Yufeng. For many years, he has been retreating in the magic king, studying war, Today, with his results, the first official public appearance, live up to expectations, the emperor is very comforting..."

Chapter 3646: The devil's flesh and blood

My royal family Mo Zhenfeng!

In just seven words, not only gave Ye Xuan's new identity a certainty, but also became a royal family member of the Devil's group. Even the name helped him get it, and it was quite powerful. Mo Yufeng, Mo Kezhen Feng, it is with him to offer the three major battles, the town of a virtual power, complement each other!

Ye Xuan stunned, and his heart secretly smiled, and Mo Wentian was clearly trying to tie his new identity to the rhythm of the demon group.

Even if the secret of Ye Xuan's true identity is disclosed in the future, he will be marked to a certain extent by the close relationship with the demon community.

Although this is a somewhat selfish element, Ye Xuan does not care. Anyway, his identity as a prince is also fake. Isn't it the same as the immortal dynasty tied to the same chariot in the Ming Dynasty?

I really want to say that if I compare the immortal dynasty with the devil's group, Ye Xuan's help and help from the devil's group is actually far greater than the immortal dynasty!

If there was no trial of the black mosquitoes, let Ye Xuan enter the Forbidden City of the Devils, that is, the secret of the ancient cage. It can be said that there is basically no Ye Xuan now.

Even if he has other encounters, the height of his growth and the various details he holds in his hands are definitely far worse than now!

From this point of view, now he is pushing the boat to smash the meaning of the Emperor Mo Qiaotian, and this new identity and the demon people are tied to the same chariot, in fact, it can only be regarded as a retribution.

Besides, the situation in the first universe is now chaotic. As long as the secret of his true identity is not disclosed by the Tianzu, then Ye Xuan will not easily return to the Death Star Triumph, lest he will bring back the troubles and troubles.

Then, in the case that the status of Linghu Shaozhu, Netherland and Shabaofeng are temporarily unavailable, Ye Xuan and his casually change his identity, it is not as good as the identity of the devil's

ethnic group. Temporarily parked here, so it is convenient for him to carry out subsequent arrangements and deal with some matters!

Think about it like this, Ye Xuan even if he smiles lightly, don't have no words, but across the void, toward the distant magical stars outside the atmosphere, Mo Wentian and other devils and royalty, and hugged the boxing!

This is clearly the default, which means that Ye Xuan has already recognized the words of the Emperor Mo Tiantian, acknowledging the identity of the devil's royal family Mo Zhenfeng!

Several devils of the royal family all sighed with relief. Then, the Emperor Mo asked Tian Tian to laugh again and waved at Ye Xuan, and called out with relatives: "The emperor has worked hard, come over quickly!"

Then he waved his hand and shouted: "Check the order, immediately lead a fleet, and bring back the arbitrage of the matter. In this battle, the Emperor Feng Feng made great contributions and passed on tonight, tonight, The Emperor wants to reward the whole family, the whole magic city, celebrate the night!"

Soon, a fleet emerged from the inner defense line of the Emperor Samsung and rushed to the front of the void battlefield. There are a large number of demonic strongmen in the fleet, and they will enter the tenth place quietly hovering in the void battlefield. More than 10,000 ghost ships, driving them back to the magic king Samsung.

After that, after clearing out the bodies of the second universe powerhouses who have already been inside, the more than 100,000 warships will become warships of the demon people, and they will enter the battlefield of the devils and gallop the battlefield of the stars.

Of course, before the official participation in the war, the more than 100,000 warships will obviously undergo a certain degree of transformation, at least the astronomical brain center needs to be dealt with. Otherwise, once the receiving function of the external satellite network signal is turned on, it is highly probable. Invaded by the remote control of the second universe of all ethnic groups!

At the same time, when Ye Xuan heard the words of the Emperor Mo Tiantian, he actually mentioned Chanas after his face, and his face looked slightly faint. Then he thought of something, and

subconsciously turned to the outside of the Emperor Samsung. On the edge of the line of defense, the flagship fortress of the Celestial Pioneer Fleet was expelled and looked over.

Sha Bao Feng casts the Devil's family, and even the guy of Chanas, actually returned to the Magic City?

Calculating the time, although his injury is basically fast, but after all, it is the anger of the star lord, and the good fortune in the middle of the month, not to be able to get to the battlefield now?

In this matter, Ye Xuan always felt that there was a stupid child, but when he thought about it, he couldn't figure out any clues. Now he can only pay attention to it and temporarily put it aside.

Then, his body shape leaped forward, crossed the void, and soon came to the void outside the atmosphere of the Magic Emperor, and fell in front of the high-ranking royal family.

In addition to the more than a dozen of the devils who had just been rescued from the inner city imperial prison, and the Mo Qigong, Mo Huang Mo Tiantian and others, the devils and royals standing in the rear The tops are all confused.

They did not know that the demon group and the Emperor Xuan secretly ally, and naturally it is impossible to guess the true identity of Mo Zhenfeng standing in front of him.

There is no such number in the middle of the family. At this time, they can't ask for it. It's really hard for them. The whole brain is water, the other side is flour, and it's a little bit of brainstorming. !

With the arrival of Ye Xuan, the sights of Mo Taiye and Mo Qigong, Mo Huang Mo Wentian and others all gathered together. Although there is no speech, the communication of sight is enough, and they laugh at each other. Greed.

"The bodies of the second cosmic strongmen in those battleships will be disposed of at the location of the Devil's Star at a later time. I use it a little..."

Ye Xuan nodded and spoke slightly, then he took it: "On the last time the valley was good, quiet enough, and concealed!"

These words, he whispered out, only in front of Mo Taiye, Mo Qigong and Mo Huang Mo asked a few people can hear.

The latter did not think much, and immediately nodded.

The reason why these second universe cosmic strong men's bodies are needed, Ye Xuan wants his soldiers to succumb to a flesh-and-blood meal, which is in a state of evolution and is in the process of evolution. Blades and spirits have great benefits.

Although they are only the second cosmic strongmen below the beginning of the thirteenth world, they are not very powerful, and they have not activated the blood and the body, the blood in the body before they are destroyed. The abundance is limited.

But after all, the number is huge enough.

More than 100,000 warships and fortresses and fortresses, all the powerful corpses in the interior add up, at least tens of millions, even if the soul is already smashed, the flesh and blood are still there, it is the blood and meat required by the devil's blood blade. !

Subsequently, Ye Xuan turned to the far behind the Devil's Samsung internal defense line. The first cosmic servant of the warships with more than one million ships looked at the past and sneered: "The first universe of all ethnic groups. The whole line is retreating, and the foreign enemies have been temporarily worried. Next, it seems that it is time to deal with the problem of internal problems..."

Chapter 3647: The sixth deities

"What? Devil's brother Mo Zhenfeng? Who has heard of this person?"

"The devil's group is really the first three survivors of the first cosmic servants. The water is too deep. I don't think that there is such an enchanting royal family hidden in the family. It has been hidden in the snow."

"Even at the end of the first battle of the Star Wars in the front of the Devil's Star Field, when the first war smasher was born, this Mo Zhenfeng was never exposed until the three major battles of the Devil's group. And moving, smashing the second space coalition once, only finally emerged the level, really special enough to endure!"

"Don't be afraid of it? Who can guarantee that there are only three warlords in the devil's ethnic group? When only one war lama appeared, I was afraid that no one thought about it. This kind of horrible starry sky kills. The demon community has a total of three?"

"Yes, people can come up with three, can't sacrifice more for Mao? We are in trouble, this is the supreme killer that even the star lord can kill. If there is a ten Eight, the first universe is big, except for the Tianji, which ethnic group can suppress the devil?"

"And all of this is all Mo Zhenfeng's drums. I don't think that after the Shabaofeng of the Tianji nationality, the devil's ethnic group actually has a statue that can compete with the Emperor Xuanzi, the invincible **** of war, and the sorcerer and the sorcerer. The world's enchanting cockroaches turned out! Its name is Mo Zhenfeng, and its potential is inexplicable!

"Yes, I can create a big killer of Star Wars, and I will sacrifice three of them. The power can be completely different. Each has its own focus, but all of them are terrible, so talented. This Mo Zhenfeng can definitely be a present. The sixth is the enchanting lord! The demon family must rise in full swing..."

.....

With the words of the Emperor Mo Motian, the words of the royal family, Mo Yufeng, followed by Ye Xuan did not deny, but the default is generally, through the void to the devil, Mo Tian, and other devils and royalty. Arched hands, the first cosmic servants of all ethnic groups, once again, suddenly again.

At this moment, the total number of warships, fortresses and fortresses has surpassed the huge army of millions of giants. The commanding officers of the major slave servants have gradually sinken to the bottom.

Whether or not the Devils are really colluding with the Tianji people, just the appearance of these three Star Wars, it is enough to explain the terrorist power of the Devils.

Although the first cosmic servants of all ethnic groups are powerful and have a million warships, in the face of these three mighty horror stars and wars, the commanders of the servant groups are in the heart, but all of them are all cool. , gave birth to a feeling of powerless resistance.

Compared with the second-class cosmic army that took the initiative to invade this plane-level starry sky battle, the first cosmic servants, although entangled together, formed a huge coalition of a million warships and jointly crusted. The devil family.

But in fact, this crusade-fighting coalition does not have much cohesiveness at all. Although it does not become a rabble, it is really not good enough.

If the demonics are weak, once the democrats show that they can threaten the entire crusade, even if it is only the overall strength of their defeat, then the possibility of this so-called crusade is rapidly collapsed from within. , at least more than 70%.

At the moment, even the second cosmic coalition forces, which are still quite good in cohesiveness, have been stunned by the three star-space wars that have emerged from the demon community. I would like to ask, this is the first cosmic group that is better than the Uighurs. How many waves can be tossed by the crusade against the coalition forces?

For this, not only Ye Xuan and Mo Taiye, Mo Qigong, and Mo Huang Mo Wentian and other democrats of the royal family are well aware, the first cosmic servants of all ethnic groups, the command of one ethnic fleet High-level people, all of them are in my heart!

When Ye Xuan was erected, he went to the Emperor Mo, and asked him to go. At the same time, in the Devil's Samsung internal defense line, the receiving fleet led by Chamous led by the Devil's Guard also drove out and rushed to the front. In the battlefield.

With the magical emperor Samsung separated by thousands of miles, the first cosmic servant in the distant battle to fight against the army, the commanders of the various ethnic fleets have all been eager to move, all to give birth to leave.

It's just that this group of birds doesn't have any ethnic group to do. For a time, the first fleet that took the lead has not yet appeared.

However, when Ye Xuan and the top of the demon royal family, all turned around, the light in the eyes clearly showed the incomparable meaning of the bad, the commanders of the major ethnic groups, suddenly formed a body Trembling, my heart all floated a very bad feeling!

Don't look at them, they are now with the Emperor Samsung for more than a thousand miles, but for the devil's emperor Mo Zhenfeng who has the twelfth dimension of the empty space, this is a few teleports. A short span of space that immediately straddles.

They are not afraid of the starship army of the devil's group. After all, the fleets of the slaves and the various nationalities have a total of more than a million giant warships and fortresses and fortresses.

The three star wars of the servants of the devil's emperor Mo Zhenfeng alone, the commanders of the major slave servants, are without exception, all are extremely jealous!

Once the guy started a virtual teleport, several of the ups and downs came to the front, and then waved the three mighty horror wars together...that is definitely a big deal!

In fact, people don't have to be so troubled at all, because the facts have already proved that the three star-space wars, once activated and activated, are in front of the huge flare of 300,000 meters and are in the shape of a war The area, the farthest can even cover a thousand miles away!

That is to say, the devil of the devil, Mo Zhenfeng, does not need to carry out a teleport, and the three star-studded battles are directly waved away from a thousand miles away, and they can be crushed immediately at the first time. .

If it is to make a teleport to ensure the lethality, and to advance into two or three hundred miles, and then sacrifice the war, and bombardment, it is even more perfect.

With the scale of their crusade against the millions of warships, they could not be completely evacuated in an instant. If three Star Wars, La Qifa, and a million warships, at least half of them will be damaged here, and the blood will flow into the river. !

In light of this, the high-ranking commanders of the major slave servant fleets in the coalition forces, after a full-fledged earthquake, almost did not hesitate to immediately release all the battleships to all the battleships. .

It was also at this time that Ye Xuan, who was thousands of miles away, slowly floated a smile on his lips, and his body shape began to vacate the void, and his body shape was approaching two or three hundred miles. With a wave of hands, the three major battles, once again smashed the void...

Chapter 3648: The top three slaves

The three major cosmic planes known today are all vast. Even the third universe occupied by the Terran has other non-human ethnic groups, but all are weak, dependent on the human race, and low-key, so it is rare. appear.

The first universe and the second universe, there are many people, the first universe is dominated by the heavenly family, and its majesty is known as the servant and the mortal. This is naturally an exaggeration, but in fact, in the first universe, various Ethnic groups, the number is also over a thousand.

Since all the ethnic groups in the first universe are attached to the celestial beings, and they are still ruthlessly enslaved by the celestial beings, even though the first universe has thousands of ethnic groups, it is not like the Second Universe. Like the family, the so-called top ten is discharged.

But in the servants of the first universe, there is a well-recognized statement of the top three.

That is to say, among the servants and ethnic groups, the ethnic group's comprehensive strength ranks among the top three.

Of course, here is the comprehensive strength of the ethnic group, not the combat power or blood talent of the individual. The entire first universe is respected by the heavenly family. They are the hegemony, other ethnic groups, even if they are truly individualized. Very strong, can only be a low-key man with a tail!

Among the first cosmic slaves, it is recognized that among the three ethnic groups in the top three, in addition to the demon group called the Heavenly Scout, the other two groups are the space mouse and the **** ant!

These two ethnic groups sounded as if they were not on the table, not the mouse or the ants, but in fact, the continuation of the ethnic group is quite interesting.

It is said that the source of the blood of the space mouse is the empty mouse of the ancient times. By listening to this name, it is basically able to guess the power of its blood talent.

Yes, the Nether Mouse is born with a certain space law, and their body is the perfect magic weapon. It not only hides the body shape in the universe, but also the secret environment or some independent small space. The barriers cannot block their body shape.

As for the so-called banned ban, it is even more a joke. This is definitely far beyond the horror of the broken boots.

There is even a saying that when the Nether Mouse grows to a certain extent, even the planes between the Great Universe planes can be ignored, which is horrible, representing the starry sky travel of the plane level. It is no longer necessary to carry out through the cosmic wormhole. This technology, even the celestial family, has never been mastered.

However, in the system's subordinate ability of Ye Xuan's body phagocytic system, the plane-level interplanetary coordinate jumping ability seems to be similar or even more powerful.

From this point of view, the pioneer of the Terran technology pioneer who created the phagocytic system is simply a ghost. The more Ye Xuan knows about the system, the stronger his sense of awe, because he is increasingly discovering the phagocytic system. Terrible and incomprehensible.

The **** genus space mouse of the Nether Mouse, one of the top three in the second cosmic servant, is not because the individual strength of the space mouse is very strong, but for other reasons.

On the one hand, because the reproduction ability of this ethnic group is too strong, the number is terrible, on the other hand, it is because the Tianji people pay more attention to this ethnic group than other slave groups.

Although the space mouse has only a small amount of extremely thin hollow mouse blood, the Tianji family has never stopped studying the blood talent of this ethnic group.

It is said that the Tianji nationality had successfully cultivated a space mouse with a **** height back to the ancestors as early as nearly 10,000 years old. Although it cannot be called a virtual mouse, the distance is not too far.

Later, it was through the in-depth study of this quasi-empty squirrel that the top members of the celestial family were inspired and eventually invented the space folding technology!

In addition to the space mouse, the head of the **** ant is also not small.

It is said that the source of the blood of the Hells is the ant in the ancient times!

Like the Nether Mouse, the ant is a mysterious group of the ancient times, and it has long since disappeared in the present world.

The real ants are said to be completely immortal. Of course, this is a relative statement. It refers to conventional methods and means. It can no longer threaten the existence of their lives, but everything in the world is in harmony with each other. Since the ants have disappeared in the world today, and the suspects have long since become extinct, then in the era of the ancient times, there must be species that are natural enemies for them.

The ant is said to be living in the legendary prison, and the whole body is black and flaming.

The **** ant, although not like the source of its blood, is full of black horror flames, but the body of the **** ant can secrete a black liquid, which is extremely cold and has no temperature, but even The hardest emptiness of the emptiness of gold, can not hold back the erosion of this **** ant liquid.

After a long time, it can definitely be worn out by the ablation hole.

From this point of view, Ye Xuan's immortal glass glaze can't help but bite the ant's bite. You know, even the emptied beast, which claims to be able to devour the universe's voids, is the void squad. If you can't bite the void, it won't kill gold.

However, if Ye Xuan was infused with a piece of emptiness and gold, it would encounter a large group of **** ants. After a long time, most of the results were group ants, and eventually they still had cups.

The reason why the **** ants can become one of the top three of the second universe servants, the reason is similar to the space mouse, the ability of this group to breed is equally horrible, the number is too large.

In the western territory of the Second Universe, there is a vast expanse of void, called the prison ant star field, where the infernal ancestral group of the Hell ant group.

The whole prisoner's horoscope is three times as wide as the magician's star field. Each of the stars is home to a large number of **** ants. This life has low requirements for the living environment, even if it is not a life planet, but Abandoned mineral stars, they can all go to the ground.

And they can be another reason for the top three triads, but also similar to the space mouse, but its blood talent is extremely valued by the heavenly family.

The black liquid that has the horrible corrosive power secreted by the **** ants, the **** ant liquid, is a rare raw material for the industrial construction, because it can be used to decompose almost Any hard metal.

In addition, this **** ant liquid has a variety of other magical effects, including the body of the Tianzu ethnic group, but also has some wonderful forging effect.

In fact, even in the two camps of the third universe, the **** ant liquid secreted by the **** ants is also a hard-to-find sacred product, especially the star-studded strongmen who walked the body, and The top families who study genetic fluids are even more eager for it.

Because the **** ant liquid is added to the culture solution after treatment, it can greatly improve its effect. It is said that there are some great powers, and there are **** ant liquids directly, which are used to forge the body of the body...

Chapter 3649: Revolt and assassination

"boom!"

As Ye Xuan's figure swayed, he directly launched a virtual teleport, and his body spanned two or three hundred miles of the universe, appearing in the distant starry sky only seven or eight hundred miles away from the First Universe, and was preparing to panic. The commanders of the first cosmic servants of the various universes who fled in a hurry scared the fart on the spot.

Soon, Ye Xuan's warning words came out, claiming that if any warships started to jump out of space, he wouldn't mind immediately ordering the three star wars, and then hit a shot.

The commanders of the servants' fleets were stunned on the spot. Before that, they were only smashing the battles of the souls and the battles of the years, and they killed tens of millions of the second universe. And a star-studded singer.

If the three major wars are volleyed at the same time, and they jointly attacked, it is estimated that they will be at least 70% of the deaths.

What's more, although the servants of all ethnic groups have basically sent a fleet to attack the democrats, the commanders of the various fleets are all powerful, and the existence of the star-level blame is not in their respective ethnic groups. But it will not be easily dispatched.

In the face of the singularity of the stars, the squadrons can kill the years and battles.

In desperation, the commanders of the various servants of the servants, even if they ordered, ordered all the warships of the fleet to stop storing energy. In this case, the space jump could not be started immediately, regardless of the situation. The one with the fastest jumping ability can survive, and all others will be destroyed!

But this does not mean that the servants of all ethnic groups really intend to take this soft, and temporarily ordered all the remaining fleets to stop jumping and storing energy. In their view, this is just a procrastination policy, or a deliberate move to confuse the enemy. .

At the next moment of the order, the fleet commanders of the major slave servants have already conducted secret discussions through the internal encryption band, all of which are extremely angry and murderous...

"Too arrogant, how about the devil's emperor? I dare to drink alone to block my million army, but it is only the ants who are only the twelfth emptiness of the emptiness. Who gave him such courage? How many of us can drink three?"

A dragonfly of the nine-winged silkworm family roared and seemed to be indignant. He seemed to have forgotten that not long ago, even a star-studded singer of the Caisong family did not have the hands of the ants who he said. Can support the three interest rates.

"How can it be dissatisfied? The horror power of the three warlords in the hands of everyone has also been seen. It is the star lord who can't hold it. Can I wait for it? It is definitely the rhythm of being destroyed. "

A weaker group of Qiankun had a weak and weak return, and he obviously favored softness.

When the voice just fell, this statement was responded to. Another group with the same weak strength, the commander of the fleet's Qiankun powerful commander said: "It seems that the devils should not collude with the Tianji people. They In the hands of the power of such a horrible killer, is it still necessary to join forces with the Tianji? In my opinion, the reason why Jero's Pioneer fleet appeared on the external line of the Devil's Samsung was mostly detained..."

"Yes, in the face of the three star-studded killers, the Pioneer fleet in the hands of Jero is only a tens of thousands of warships. You simply can't afford the wind and waves, you can only serve soft, so basically you can rule out the demon and the heavenly The possibility of collusion with the family."

"It seems that the so-called crusade of our coalition forces is not true."

Another group of Qiankun Powerful Commander said, the first half seems to be supporting the soft side, but when it comes to the middle, but the words turn around, sneer: "The more we can, the less we can let go, don't you Want to see the second universe in the first universe? The devil is trying to take advantage of this opportunity to fully rise. Today, high-profile worship of the long-lasting star-studded killer is iron proof!"

"Yes, the Tianji clan has gone. As long as I wait for the slaves and the various ethnic groups to unite closely and resist together, they can't do anything in a short time. It is impossible to let the first universe return to the previous Tianji family's dominance. The slavery of the servants of the ages has long been vigilant, and the enemy is enemies!"

"But the devils are different. They used to be the same as me. They are the slaves of the celestial family. From a certain point of view, all of our other ethnic groups have no strong hatred like the celestial family. This is extremely dangerous. They have a chance to make a sigh of relief. Each of them breaks through and eventually replaces the Tianji family and becomes the second supreme hegemon of the first universe!"

"At that time, waiting for me to wait for the various races, is still the fate of being ruthlessly enslaved as in the past!"

"Never compromise!"

"It is impossible to accept slavery again!"

"The first universe is the first universe of all ethnic groups. In the past, the situation of the group of tens of thousands of years of pilgrimage to the dynasty must not appear again. The first universe and the various races should bloom everywhere and realize unity and co-prosperity!"

"Yes, any ethnic group with ambition and destruction of the first cosmic unity of the universe should be subject to our resolute boycott, and the devils will not do it, even if they have three big battlefields in their hands!"

"Seconded!"

"Seconded!"

"If this is the case, then it is the war and... just raise your hand!"

Soon, the results of the vote came out, and more than 70% of the ethnic groups decided to resist, and even the countermeasures have come out.

The reason why the devil's emperor Mo Zhenfeng is so strong and arrogant, the only thing he relies on is the horror power of the three star wars in his hands.

However, its own cultivation is not strong, only the first empty world of the twelfth world.

As long as they can not be prepared for a thunder and kill this, then the threat of the three Star Wars will naturally disappear, and it should not be able to respond in a timely and effective manner.

Maybe you can still take advantage of this opportunity, and you will be able to grab the three major battles.

Even if you can't use it yourself, you can't fall into the hands of the devil's group.

As long as there is no threat of these three Star Wars, the size of the millions of warships that are currently under pressure from all ethnic groups, the Devils' population is only less than 500,000 troops, and it can be suppressed only by one war. Once, the ambitious Devil's big tumor is completely eradicated!

As for the task of assassinating the devil's emperor Mo Yufeng, the chief and deputy commander of the entire servant's fleet of allied forces, that is, the two former three triads, the space mouse and the **** ant group, are two great powers. Implemented after the joint.

The space mouse follows the blood talent of the Nether Mouse. This family of Qiankun will be responsible for the first wave of assassination, and the infernal power of the Hell ants will be used as a backhand.

Chapter 3650: Kill the space mouse

Opposite the emptiness of hundreds of miles away, the devil's emperor Mo Yufeng stood alone, hundreds of miles behind him, repaired as horror, reached the star of the nine-step grand rendition of Mo, and now returned to the magic star, The figure disappeared and disappeared.

This scene does not need him to shoot!

Ye Xuan has eight levels of spiritual strength, and he is fully confident in dealing with this first cosmic servant of all ethnic groups.

The other party dispatched the mighty assassination, the possibility of a thunderous strike, and the royal tops such as Mo Taiye also thought about it, but they also did not worry. The real horror of Xuan Huangzi is actually far from the three Star Wars, but Its own strength and means.

The dying power in his hands is not even the lord of the star. If he dares to go forward so alone, there is nothing to worry about, too nervous, but it is a distrust of allies. This is big. avoid.

Therefore, in addition to Mo Taiye, even other star lords and geeks, including the demon emperor Mo Tiantian, have all disappeared from their physiques and returned to the Magic Emperor.

In the back of the void, only the top ten demons of Mo Qigong and others are mobilizing the warships, and will soon be coming over, arrayed in Ye Xuan and the three warlords. The purpose is actually just a strong momentum!

It's just that all of this falls in the eyes of the commanders of the various ethnic groups in the First Universe, and it's obviously another matter. In their view, this is the numbness of the Devil's group, and it's only a void. The Devil's Emperor, who was repaired by the order, stayed alone in the front of the battlefield, and all the stars and monsters left.

There are several ethnic groups, and the great powers are even furious. They think that this is an insult to them. The demon people are too mad. In the face of the millions of coalition forces of all ethnic groups, the red fruit and fruit are completely ignored.

However, some people secretly hid the joy, urging the space rats and **** ants two great groups of talents, immediately shot, squatting at the other side to be prepared for defense, a thunder blow, as soon as possible to kill the devil's emperor Mo Yufeng, as for The three star-studded wars can win and win. If you can't take it, you will be destroyed on the spot.

The assassination took place in an instant!

The genius commander of the Hell ant group did not immediately rush to the front battlefield. Instead, after hiding the figure, he stepped out of the flagship fortress and crouched nearby, not too close.

Even if it is a great power, when there is a virtual teleport, there will be some spatial fluctuations. The strongest of the twelfth virtual void has been able to capture this faint wave of volatility.

Even if the devil's emperor Mo Zhenfeng can't avoid the close-up lore that this teleporter represents in time, it is too close to the Emperor Samsung, and it is still within the sensing range of the star lord.

Once the masters of the demon family, such as Mo Taiye, feel the fluctuation of this space, they will come to the scene in an instant, and they will directly shoot, and then they will not be able to assassinate, but they will have cups.

Therefore, the ant force **** can only squat far from the void near the front of the fleet of his own fleet, and he is guarded by the whole god. If the singer of the space rat group is able to kill him, he naturally does not need to shoot again.

And if the other party fails, what he needs to do is just to look at the situation and decide whether to force another test and immediately rush to make up a knife.

At the same time, the singularity of the space mouse group, Mao Jin, also hides his body shape, leaving the flagship fortress of his fleet and breaking into the void.

Although he is not a real emptiness mouse, he has the horror ability to completely ignore the space gap and integrate his body into the void. However, there are some blood vessels in the body that inherit the blood, although only the fifteenth world has been repaired.

But as long as he mobilizes the power of the body, activates the blood talent, and integrates into the void, then even if the star is nine-orderly perfect, that is, the horror of the half-step domain owner, it is absolutely impossible to capture a trace of it with him. Action-related spatial fluctuations.

The fact is also true. Hundreds of miles away, the body shape of the mouse hair brocade is completely integrated into the void, and there is no trace to follow, and the speed is extremely fast. The short and short interest rate is close to the side of Ye Xuan.

"call out!"

There is no space fluctuation, only the cold mangling flashes, a chilly mang, flashing from the empty sky on the right side of Ye Xuan's figure, going to his neck, this is clearly a blow to the dagger, absolutely belongs to Thunder hit.

Although it has long been expected that the other party is likely to use this method to open the situation and resolve the dilemma, Ye Xuan even calculated the means of coping in the heart, but the assassination of space is too abrupt.

This Dawson's cold and cold mansions have reached the neck side. Ye Xuan's body is even erected because of the conditioning, and the cold hair of the back is erected, but he still does not feel any space fluctuations.

"Space mouse? It really deserves a name!"

In the brain, the flash of light flashed, and Ye Xuan even guessed the identity of the other party.

At the same time as the words came out, his eyebrows suddenly disappeared. An invisible beam of light was shot, and a human-shaped Jinmaoshuo was seen from the void in the side.

Under the eyes of both sides, the eyes of the thief's thief's sneak sneaked round, and the offensive of the claws in the hands of Ye Xuan's throat was slightly stagnation, and he exclaimed: "How is it possible? You Can you see me?"

This is naturally the power effect of Ye Xuan's enchanting glimpse of this source.

It's just that I'm just seeing each other. It's obviously not useful. The enchanting is magical. Even after it's said that it's a certain level, it's also a mysterious demon soul effect, but now Ye Xuan's enchanting Only evolved to the intermediate stage, the power displayed is basically only an auxiliary effect, and it is not lethal.

However, almost at the same time that the rat Mao Jin's voice was whispering, the spiritual source core that Ye Xuan's brain hangs in the sea is also running at full speed: "Psychic reversal!"

At this moment, Ye Xuan's fine flashes, he did not hesitate to start the spiritual power supernatural power that had just been upgraded to the intermediate level.

Soon, with the crazy operation of the spiritual core in his brain, the mighty spirit of the majestic spirit was instantly vented, and the eight-level spiritual power did not like money, but it was invisible and inferior, but In an instant, he spread out over the cold mang of his neck.

This icy mans is the left-handed claw of the space mouse. At this moment, it is covered by this invisible spiritual power, which instantly affects the trajectory of its force field and forms a mysterious reversal effect.

"puff!"

Seeing that the face of Ye Xuan's neck was instantly retracted, the blink of an eye was completely reversed, and the rat's hair was still screaming, and the head was cut off and rolled into the void.

After all, it is the great power of Qiankun. In this kind of close combat, Ye Xuan really can't do it under one blow, but he can kill it at will, but if it is shot by someone else, then it is a matter of course!

"thump!"

In the next moment, a headless corpse fell from the void, and Ye Xuan did not hesitate. He waved his body to the immortal world, and then turned to the front of the millions of warships of the various national coalition forces, grinning...
