

Super D. S 366

Chapter 366: 10% heat

Before Ye Xuan had used a few times the Beastmaster violent, if it was used again, it would have to consume the body of a hundred sacred beasts, which is a big number.

He did not know that the next time he used the Beastmaster violent, would it be necessary to have the body of a sacred beast of a hundred dragons?

Can save the province!

But now, he seems to have no choice, not to kill the two, he can not go.

"Since you are sincerely looking for death, then I will fulfill you!" Ye Xuan flashed.

Waste a beastmaster violent, although it is a pity, but don't forget, the two are likely to have a heavenly body of martial arts.

"Changed!"

Ye Xuan's eyes widened, ready to display the Beastmaster violent.

If he is the violent savage of the Beastmaster, he will be promoted directly to the 25th Dragon, and he will be able to kill the two people in front of him.

However, at this time, a burst of system sounds suddenly sounded in his mind.

"Oh, the proficiency of the Tianfeng sword method has increased by 10%. Currently, it is 10% hot, and the power is doubled!"

When he heard such a tone, Ye Xuan's look condensed.

Ten percent of the fire!

Double the power?

"Haha, it's really helping me!"

Ye Xuan suddenly snarled loudly, and the offensive immediately doubled up.

"what?"

The one-eyed old man and the middle-aged people were shocked. They originally played a close match with Ye Xuan. Now, why did Ye Xuan's attack suddenly become stronger?

"Ten percent of the fire, this person's Tianfeng swordsmanship, has actually been trained to 10% of the heat?"

Someone in the Shuiyuezhong camp exclaimed.

"What, ten percent of the heat?"

When this was said, everyone else was wide-eyed and could not believe it.

The Tianfeng sword method is actually created by a master of Shuiyuezhong hundreds of years ago. After he created this martial arts, it took several decades to perfect.

He is the first person to train the Tianfeng swordsmanship to the top ten.

However, after him, no one can train this martial arts to the top ten, and none of them.

If a martial arts trains to a 10% fire, the power can be greatly improved.

None of the people present at the scene has trained a martial arts to a 10% chance, which makes it difficult.

And now, it has appeared.

"Two old thieves, give me death!"

Ye Xuan is so angry that he is directly chasing the one-eyed old man and the middle-aged man.

Twice the power, plus 40% of the swordsmanship of the Sword of the Sword, the power of the sword, let Ye Xuan fight more and more brave.

The two have already emerged from resignation. They understand that Ye Xuan at this time is not the only one of them who can fight for one.

"go!"

The one-eyed old man sipped low.

"Just kidding, come over, want to go and leave?"

Ye Xuan sneered, holding a pair of dragon swords, and squinting at the two men.

Eight ridiculous dragon sword, the dragon's ruling!

"Not good!" The one-eyed old man reacted faster and quickly jumped open.

"call out!"

A cold mangling flashed, and instantly passed the body of the middle-aged man, and he gave him two halves.

This move, but Ye Xuan's bottom of a pressure box, the power is huge, is waiting for the other side to escape the moment of this exhibition, come out unexpectedly.

Seeing the middle-aged man fall, the one-eyed old man couldn't help but swallow and quit at full speed.

Ye Xuan swallowed a few medicinal herbs and quickly followed.

Only two to one, can be a close match with Ye Xuan, now one-on-one situation, the one-eyed old man can not live long.

After three seconds.

"Do not....."

The one-eyed old man screamed in the sky, and then he felt the cold in his throat, and he was cut off by Ye Xuan.

The masters of the two twenty-one dragons died in the hands of Ye Xuan.

This strength has already shocked the three masters who followed.

"We, do you want to shoot?" asked an elder of Yinyuezong whispered.

"Never, this person is strong, and there must be a great background behind him. You can't take the enemy!"

An elder immediately said.

At this time, the three masters here have more than ten people, each of which is more than the power of twenty dragons.

However, Ye Xuan's strong strength makes them jealous.

After killing the one-eyed old man, Ye Xuan also took the first look at these elders, and then he took away the corpses of the two bodies and disappeared in front of the group.

.....

After leaving, Ye Xuan called Megatron, and then found a quiet place, a mountaintop.

"Hey, the host has broken through the power of the Twenty Dragons!"

The one-eyed old man and the middle-aged man have a lot of good things in the ring, and Ye Xuan directly swallowed it, successfully breaking through the power of the twenty dragons.

As for the other things in the Qiankun ring, naturally there is what Ye Xuan expects, that is, the martial arts of the heavenly body, and both of them are still the same body martial arts.

"Hey, the host has learned the law of the day, and it is currently a fire!"

I have to say that Ye Xuan made a big profit this time.

The day of the body is the best in the martial arts of the next grade. The only drawback is that it will damage the meridians of the feet. Regular use of expensive medicinal herbs.

However, this is a perfect match for Ye Xuan, who has a lot of blood.

"Tianfeng swordsmanship has the blood of the sword, so the cultivation is very fast. I am afraid that I will work **** this day."

Ye Xuan murmured.

At this time, the stone spirit on the side suddenly jumped onto his lap and waved with two match-sized arms.

"You want those heavenly devices? Cheng, all for you!"

Ye Xuan nodded and poured out a large number of celestial devices. There are more than 50 scorpions. If these celestial devices are sold out, they can buy two martial arts.

However, if these are given to Megatron, it should be able to raise it to the realm of nearly twenty dragons.

This time, in addition to these gains, Ye Xuan has a lot of heavenly martial arts. He has included these martial arts into the phagocytic system, and then merged with martial arts.

"Hey, the fusion of martial arts failed!"

"Hey, the fusion of martial arts failed!"

"Hey, the fusion of martial arts failed!"

A series of prompts sounded, Ye Xuan's face became more and more helpless, full of ten-level martial arts, even the fusion failed.

Although the martial arts that failed the fusion can still be learned, Ye Xuan, who has mastered the 10% fire-fighting swordsmanship method, has no such necessity.

In the days that followed, he practiced the law of the sacred body here. With his qualifications, he also cultivated the method of the sacred body to the heat of 40%.

At this point, the end of the martial arts conference, it is already seven days.

"Four seasons of the martial arts of the heavenly body, so that my strength has at least doubled, with the realm of my twenty dragons, I am afraid to be able to compete against the master of the twenty-eight dragons, if using the Beastmaster violent, Thirty dragons can kill!"

Ye Xuan's confidence is overwhelming.

In the seven days, Megatron also digested those celestial bodies, and the strength grew to the power of twenty dragons.
