

Super D. S 3661

Chapter 3661: Demon recovery

"call out!"

A fierce sound of breaking the air rang, the wind was rolling, the size of a hundred meters, the blood of the whole body, the incomparable **** blade of the devil, slammed on the huge mountain of hundreds of feet.

"Hey!"

"Hey..."

The sound of screaming screams sounded instantly, and the whole valley was over the sky, and there was an overcast cloud in the moment, just like the end of the day.

This road is screaming, and I don't know if it's the **** flesh of the corpse in the corpse of the corpse.

It is still the last roar and roar that has been smashed by the sorcerer's sorrow and screaming, the corpse of the soul, and the remnant souls left in the body, because of unwillingness and fear.

At this moment, the whole valley is like a **** on earth, the black wind bursts, the whistle is harsh, and the white sky is green for the endless night...

Even Ye Xuan can only glimpse into the huge corpse of hundreds of feet high, which is strewn at a speed visible to the naked eye.

The bodies of countless second-world cosmic strongmen piled up in layers are rapidly drying up.

Although these corpses have all fallen, the body is still warm, the body is slightly remnant, and the flesh and blood essence has basically not dissipated...

Nowadays, all of this has been turned into the flesh and blood of the blood of the demon, and as these corpses quickly dry up, the **** essence of the majestic is squandered by the blood of the devil.

Although some of this is lost, even if only a small part of it remains in the blood blade, it is a terrible quantity.

"Oh la la..."

"Hey!"

As the huge corpse of the corpse continually dwarfed, a large number of wrecks of the corpse of the dead corpse collapsed, and under the layered stack, some even turned directly into powder, completely smouldering.

The black clouds shrouded in the sky above the valley are getting denser and denser, and there is already a faint scream of thunder.

Ye Xuan frowned, is there a thunder robbery?

This is very likely, even if the three major planes of the world are empty, not like the legendary period of the ancient times, there is a will of heaven that can be turned into a concrete form, but only a cosmic starry sky that exists in ancient times. law.

However, after all, this incident is a big injury, and it is not completely incomprehensible to trigger the air-conditioner to sense and lock, and then to drop the penalty.

Just as Ye Xuan was in doubt, a familiar system sound was heard in his mind.

"Hey, congratulations to the host, the warrior's **** blade advances! The current grade: starry sky to treasure level! Current quality: no shortage of imitation! Current attribute: Blade Spirit and Demon recovery process..."

Ye Xuan was so excited when he even clenched his fists.

Starry sky to treasure!

Sure enough, he did not hesitate, his soldiers finally advanced, and now it is no longer the starry sky to the treasure, but the real starry sky to treasure.

This man-made magic weapon can reach the starry sky to the level of treasure. It is definitely a phoenix scale. It is said that when it comes to this level of magic weapon, there will be some kind of qualitative transformation, and the power level will climb.

But now is not the time to verify, because the warning signs of Ye Xuan's heart have been extremely strong.

This feeling is very similar to the one he used to be in the third universe of death stars. He has a kind of hunch. If he wants to continue all this, once the blade spirit in the war is completely recovered, then the day will be The robbery will surely come.

Ye Xuan is not afraid of robbing, but it is just some thunder penalty. He has Lei Diyin, this treasure is the birth of the thunder and the treasure, the thunder is called the emperor, it has the whole body, Ye Xuan even in Walking in the sea of thunder and robbery will also be without loss.

What he is worried about is once again attracting the attention of the ridiculous heaven and earth. Nowadays, because of the serious injury, the blue eye of the ruthless sky is not known to hide in the distant unknown emptiness, but this does not mean that it does not pay attention to other cosmic planes.

The mound in the depths of the core hinterland of the first universe is the proof.

It is very likely that Tiandao Qingyan was left before the first cosmic plane, and the arrangement made before the healing of the squatting. After all, the end of the chain of the smoldering of the smoldering of the evil spirits is basically the strong existence of the enemy camp.

That is to say, although the Qingyan Heavenly Road is not in the first universe, but in fact, people have been paying attention to it here. Once there is any abnormal change, it has reached the standard that can alarm him. It is possible that the projection will come!

Last time, Ye Xuan relied on the headless baby corpse, and it was hard to break its sensation. This time, the guy's attention could never be attracted.

Otherwise, in addition to yourself, I am afraid that the devils will also suffer together!

He immediately made a decision, immediately interrupted all of this, waved, across the huge **** peak of the huge corpse, and was taken by Ye Xuan in the immortal world.

With the blockage of the immortal world, the outside world's gas turbine could no longer be sensed, and the dense clouds over the valley quickly dissipated quickly.

At this point, Ye Xuan was a sigh of relief.

Although the blade spirit and the demon are not completely awakened, but the grade of the demon blood blade has been successfully promoted, and now it is the real starry sky to treasure, this meal is not busy.

Moreover, at this time, at the critical moment before the demon wakes up, it will be interrupted. Perhaps it will become a killer in the future.

In a specific place, at a specific time, Ye Xuan can completely sacrifice the blood of the demon, and continue all the interruptions that have just been interrupted. Eventually, the demon will wake up, attracting the inspiration of the ridiculous heaven and earth, and reducing the terrorist thunder.

Of course, by then, Ye Xuan must grasp the opportunity, put it away in the first time of the full recovery of the demon, quickly escape, and leave the thunder to the target object calculated by him, presumably let the other party drink it. A pot.

After all, from the point of view of the thunder and robbery that is still in the midst of brewing, once the momentum is completely formed, the power is absolutely extraordinary.

This also makes Ye Xuan realize the extraordinariness of the demon.

Ye Xuan is still in the ear of the system introduction of the real devil blood blade.

It is said that when the heavens and the earth are not divided, there are foreign magicians who have lost their memories, and their minds are no longer evil. They are immersed in the depths of the undead, and chaos all day long!

One day, the evil thoughts are completely revived, and the great devil is born, turned into a dry blade, dark black light, killing endless creatures, and the soul is destroyed, it is the blade of the devil!

Although Ye Xuan's hand is a high imitation, although the blade is named after him, it is not the one in the era of the ancient times, but it has some power of the demon, but it will never Leading to the world.

Thus, he is not fascinated by the true blood of the stalk.

It's just a high-quality imitation. It's already so powerful. If you can get the real demon blood blade and melt it with your own star-to-treace warfare, it's so horrible. Meteor...

Chapter 3662: Disappearing Sky City

In the end, it has been promoted to the starry sky to the treasure, and the blade of the demon is also about to wake up the blood of the devil, by Ye Xuan before the thunder robbery, timely income in the body of immortal world, blocking the outside world of the machine, the risk It has also dangerously solved a crisis that may be extremely difficult.

Until the dense clouds of the valley sky were all scattered, the heart that Ye Xuan had hung up was completely put down, and I looked around and found that the original mountain was as high as hundreds of feet, like a giant peak. Changed like a small hill, at most it is about a hundred meters.

Hundreds of millions of fresh corpses of the second universe and the strong of the various ethnic groups, now only a few million are left, at most millions, the other is either a piece of dead bones, or simply because of the corpse The weight of the mountain itself was pressed into the powder, and the ground around the valley was thickly covered.

Ye Xuan's face is stunned. This is the fresh corpse of hundreds of millions of star-studded powerhouses. The blood and blood of the body is highly preserved. I didn't expect it to remain in the end. It is estimated that the last few million corpses are all turned into dead bones, and it is just that the only thing that can make the blade spirit completely recover.

This gave him a wake up, although the current blade of the demon seems to be fully recovered soon, but this small final step is not the flesh and blood of the strong body. Can be achieved.

If Ye Xuan really wants to use this as a means of yin, then at least before the shot, at least the body of the strong man who can be used at the scene must be determined to be around 10 million. Otherwise, if it is a little worse, it cannot be used in the war. The blade spirit and the demon completely recovered, and then the failure of the thunderstorm was caused, and it was fearful that it would be depressed to speechless.

The last remaining millions of the second universe, the strong corpses of the various races, smashed by the moment of extinction, did not activate the blood before the fall, now all human forms, even if they are all similar to the starry beasts Various ethnic groups, but under the psychological effect, Ye Xuan was not interested in keeping the food, he decided to give up.

Although it is piled up here, the Devils will naturally deal with it later. In fact, even if they don't pay attention to it, they will slowly decay. This valley is not the space inside Shennong Ding, so Ye Xuan has not been there. Do not care, no longer stay, even when they set off, plunder toward the Emperor City.

On the way, I met the imperial uncle Mo Qigong who came in a hurry. Seeing Ye Xuan's short two-day time has been promoted to the current third level of the void, and in the twelfth Jin, suddenly shocked him.

In the end, it seems to be reminiscent of the enchanting Ye Xuan's past, and the white-eyed sighed and said: "I know that it's the cause of your kid's anger. The entire northern valley and its nearby areas are all looted. The sound is not small, the Emperor City is full of people, thinking that there will be a big murder, this kind of thunder is rare in this world, your kid can really get into trouble..."

In this regard, Ye Xuan shrugged his shoulders, did not explain too much, with the knowledge of Mo Qigong, he did not say that people can basically guess seven seven eight eight eight, it is definitely not doing good things, mostly evil. The actions of the people, the wounds of the sky, will lead to the appearance of this vision, otherwise the body of the second universe of the strong people who had been smashed and smashed before?

"You can be a little bit better, although the old man doesn't know what you are doing, but since it has almost attracted the levy of the sky, it shows that this way is a big injury, and the accumulation is too deep, and the cause and effect are too deep, don't be too quick and quick!"

Obviously, Mo Qigong's cultivation of Ye Xuan was linked to the second stage of Jin Jin in just two days, and it was linked to the bodies of the hundreds of millions of powerful people of the second universe. It is estimated that he is practicing something. What about magic?

However, Ye Xuan did not explain the meaning, Mo Qigong also did not intend to entangle more in this matter, smart people can be a word in a word, otherwise it would be useless to say more.

He believes that Ye Xuan is a smart person and should have his own size.

Therefore, after mentioning a sentence, Mo Qigong's voice suddenly turned abruptly, his face became serious, and he raised the matter: "The reason why the old man rushed over was mainly another thing, Tianji City... disappeared. !"

"what?"

Ye Xuan did not understand at first, but thought that he had misunderstood it. In addition to the core city of the main plane, there is a defensive circle and a broader peripheral industrial circle. Is it that disappearing disappears?

This is too unreliable, basically whoever listens will not believe it!

"Don't look at me like this, I don't want to believe it, because this is not a good news..."

Seeing Ye Xuan staring at him, he was speechless for a moment. Mo Qigong sighed and reluctantly answered: "The Tianji people are not the kind of weak people. On the contrary, they can dominate the first universe, precisely because of its ambitions and the wars in the bones and the desire for conquest, let alone the great situation of the first universe has changed, but the overall combat power of the Tianzu people has not been affected, and the situation has not yet reached the level that allows them to migrate. It's far from..."

"But the truth is that this matter has been confirmed by more than one ethnic group. Some slaves around the Tianji domain have discovered this situation. In just a few days, the whole Tiantian domain has gone to the sky, let alone the core. The main city of the sky and the inner circle of defense, even in the peripheral industrial circle, now can not see a warship, all industrial stars as if plowed, all industrial facilities have been removed and taken away!"

"They have countless intelligent robots and a lot of star-level machinery, and it's not difficult to do this in just a few days."

"This news has just been revealed. The entire first universe is immediately screaming. Now all the major slaves and servants are in danger, because everyone knows that this is definitely not because the celestial beings are weak, but they are brewing some kind of Worrying means and conspiracy."

"Maybe soon, maybe the time will be a little longer, but there is no doubt that no matter when, when the disappearing heavenly city reappears, basically they will once again unite the first universe, and even extend the tentacles A wider range, longer distances!"

"With the consistent style of Emperor Yi, any major move of the Tianji nationality must have profound meaning and a strategic level. They should not take the shot. Once they have shot, there will be few failures..."

"This news will soon be mastered by the federal people of the Second Universe, as well as the Terran of the Third Universe and the Federal Base of the Vatican. At that time, the three cosmic planes will face a huge earthquake with a starry sky. ""

"Not only because of the hidden dangers represented by the disappearance of the Tianzu nationality family, but the more critical issue is that the situation of the entire first universe will be rapidly deteriorated and more confusing in the current situation. Up..."

Chapter 3663: Ten million army

Mo Qigong's words made Ye Xuan fall into deep thought and feel heavy!

He felt a strong sense of crisis!

As Mo Qigong said, with Ye Xuan's understanding of the Tianji clan, this time the entire Tiancheng City disappeared as a whole, and it was not a good thing for the first cosmic servants and even the entire three cosmic planes.

It seems that everything is calm, but this is the illusion before the storm. Once the celestial family reappears, most of the three universes will soon fall into a storm.

The real big crisis has gradually begun to open!

I have to say that this move of the Tianzu people is beyond the expectations of everyone. It is too tricky, too embarrassing, too poisonous!

A large Tiancheng City, even if they have countless intelligent robots and a large number of star-level mechanical equipment, but the entire ethnic group wants to completely migrate in just a few days, the movement is not too small, and it is impossible to encounter it on the way of migration. To other Starfleet fleets, even a commercial fleet.

But until now the news of the disappearance of the city of Tianji City has not been heard, and no fleet of forces has been heard. It has been found abnormal in the sky navigation. This can only explain a problem, all of which were unfortunately encountered on the way of their family migration. The fleet, all of them were ruthlessly nested.

The means are so fierce, which shows that their plots are not small.

Of course, not long after, through the distribution of the stars of all the fleets that disappeared and lost in the first universe during the period, the migration direction of the Tianji family could be roughly analyzed.

But Ye Xuan can think that the other side can't be without prevention. If there is no accident, they should send some fleets to the distant areas outside the migration star road to hunt and kill the innocent fleet sailing in the stars.

In this way, it is basically impossible to analyze the movements of the Tianji people in this way.

"One thing is ok!"

Seeing Ye Xuan fell into sinking, the devil's uncle Mo Qigong thought a bit, and then said: "The destination of the Tianji ethnic group migration is definitely not the main space of the first universe, otherwise, even if they shrink the defense line, dwelling in a remote star field, sooner or later will be discovered."

"If there is no accident, the current celestial family should have left the first cosmic plane, but it is absolutely impossible to go to the third universe where the second universe or the human race is located, but through some still undiscovered. The cosmic wormhole enters a safe, at least stable, new cosmic plane!"

"Since they have dominated the entire first universe, since the tens of thousands of years, the celestial family has always had a large number of mysterious fleets operating outside the city of Tianji. The scope involves three major cosmic planes, and more unexplored Cosmic void..."

"You also know that they are different from the third universe and the federal family of the Second Universe. The Celestials have a unique advantage, that is, they have the most advanced and powerful intelligent robot manufacturing capabilities of the three planes. The Pioneer fleet that you have led by more than 10,000 warships, only you and Jero are two so-called celestial people, and all others are intelligent robots."

"In this case, any of their tribes can lead a large fleet at any time, or go to the unknown universe and explore."

"Thousands of years have passed, it is said that the celestial family did not find some cosmic wormholes that have not yet been revealed, and the unknown planes connected to these cosmic wormholes, for fear that no one will believe..."

"What do you mean... the Tianzu people disappeared this time, through an unknown cosmic wormhole, into an unknown universe that is only under their control?"

After waiting for Mo Qigong to finish his speech, Ye Xuan had already frowned, and his heart became more and more heavy: "If there is no accident, this should be the truth. So it seems that to find their traces, basically It is unlikely that this is too passive. All the ethnic groups and forces in the three universes will be worried. In this case, the situation will soon fall into full chaos, and everyone will be at risk... ,What do you plan to do?"

"This move is very poisonous!"

Mo Qigong nodded and said with anxiety: "Original, with the chaos of the Tianji City not long ago, the imperial prison was emptied, and all the royal hostages of the first cosmic servant group detained by the Tianzu nationality escaped and returned to their respective ethnic groups."

"If there is no accident, the final alliance of the various ethnic groups will be formed sooner or later, and they will be consistent against the Tianzu."

"In addition to the approach of the Second Universe and the various ethnic groups, the pressure on the plight of the entire Tianzu nationality is unprecedented. If one fails to handle it, it will collapse in an all-round way and there will be no chance to reverse the situation..."

"It's just that no one expected it. They actually came to the bottom of the game and they didn't care what they were doing. They directly moved the entire Tianji City and evacuated the first universe."

"This is clearly to retreat, throwing the mess of the first universe to the first cosmic slaves who are secretly happy."

"As a result, the original situation is that the first cosmic servants and the second cosmic coalition forces at the same time force the palace of the heavenly family, and it is even more likely to unite."

"But now everything has changed, and the Tianzu people have gone out of the game, and the situation has become a tit-for-tat and contradiction between the Second Universe and the First Cosmic servants."

"After all, the second universe has suddenly invaded the first universe, and the purpose is suspicious. Although it is still uncertain, there is no doubt that it is definitely not for the Tianzu people, but for the first universe. An important reason for this."

"In this case, after the disappearance of the Tianji family, the first universe of the various races have no choice at all, they must resist, otherwise they will lose the soil of the ethnic group..."

Having said that, Mo Qigong once again sighed: "If there is no accident, the first cosmic servants will soon take action, and on the second space coalition, according to our ethnic group from a reliable channel. The news, the second universe of the various ethnic groups, has assembled a huge main fleet at the end of the cosmic wormhole, the scale is terrible, all kinds of warships have reached nearly 10 million."

"And this is still the military force that was assembled before the Tianji nationality family disappeared."

"Obviously, as the news of the disappearance of the celestial family spread out, the second universe of the various races will immediately have greater measures. I am afraid that soon after, a superfleet coalition with a number of warships exceeding 10 million will be comprehensive. Come on, come to the devil's field!"

"For the Devils, this is definitely a huge crisis like never before. It is related to the survival of the ethnic group. Now, the royal family, such as Mo Taiye, is in urgent consultation..."

In the end, Mo Qigong sighed and sighed: "Let's go, go to the Magic City, and the results should come out soon. If there is no accident, this time, the demonic group is afraid to be forced to evacuate..."

Chapter 3664: Jiang Yu's plan

"Would you like to evacuate? Give up the magic star?"

After listening to the words of Mo Qigong, Ye Xuan suddenly, he immediately thought of the ancient cage, even he could not accept that the place fell into the hands of the second universe of the various nationalities, let alone the devil who regarded it as a holy place. Ethnic group?

"How can we not evacuate? How many ethnic groups are we in the whole demonic group? This time, there is a super coalition with thousands of warships..."

Mo Qigong smiled bitterly: "Even if you count the squad of this time, plus the eight Devils tribes are all withdrawn to the Emperor Samsung, and concentrate on building a star defense line, our Devils will also make up about three million. The warships, and the second cosmic super coalition that is about to be under pressure, are not at all equal."

"Of course, you can also join other slave groups in the first universe..."

"This is also the reason why several star owners in the family did not immediately issue the evacuation order. They are now communicating with other slave groups, but the results are difficult to predict."

"You also know that for the other slave servants of the First Universe who had just suffered a big loss in the Devil's Star Field, although they did not want to see the Second Universe's allied forces in the first universe unscrupulously unrestrained, but In the same way, they are even less willing to see the democrats replacing the former celestial family, gaining the time and space to continue to grow, and eventually become the new hegemon of the first universe..."

"So, in this matter, if there is no accident, the response of the first cosmic servants can already be imagined. They will not immediately refuse to unite, but they will not act immediately. The biggest possibility is that The devils are perfunctory, but they are secretly combined with each other in secret."

"Until the super coalition from the second universe annihilates the demonics, they will appear and show their strength. At that time, there should be a huge battleship coalition that is not inferior to each other. The end result is extremely It may be that the coalition forces of the two major planes started peace talks."

"But at that time, the demon family... has been destroyed!"

At the end of the day, Mo Qigong's tone has revealed a deep sense of powerlessness, and at this time, the Emperor City has finally arrived.

The two did not continue to talk, Ye Xuan followed Mo Qigong, entered the inner city of the emperor, went directly to the royal palace, just stepped into the hall, and heard some fierce arguments in the ear, Mo Taiye waited for more than ten The devils are all present in the emperor's dynasty, in addition to some of the devil's royal high-level officials that Ye Xuan has not seen before, among the star owners who have previously presided over the spiritual war.

In addition, there are three other devils and old men in the main territory. Ye Xuan has never seen it. It must be the old man of the devil's group, but Ye Xuan believes that the royal world in this royal palace is now strong. It is definitely not the whole of the devil's royal family. Such a huge and powerful group must have no real foundation.

After all, although the democrats have suffered from the crisis of life and death, things have not happened yet. Everything has the possibility of variables. Any powerful group can't be done at this time.

Compared with more than 20 people in the Qiankun and the main lords of the Stars, the current demon of the Emperor Mo asked the heavens. At this time, in this hall, it became a completely inconspicuous character, even on the The position of the seat is not the first. It can be seen that the nature of the meeting should be a private secret meeting within the royal family. The so-called demon emperor is not counted here.

It is precisely because of this, when Mo Qigong took Ye Xuan into the hall, the three devils who had never seen Ye Xuan, all of them wrinkled their faces, and their faces showed an unpleasant color.

They obviously know Ye Xuan, and perhaps they all agree with his current alliance with the Devils, but it does not mean that Ye Xuan can participate in the internal secrets of the Devil's Royal High School. This is tantamount to letting one The strong outsiders join the core government of the Devils!

Ye Xuan and Mo Qigong just came, and they did not know the progress of the discussion among the high-level people in the temple. However, Mo Qigong saw the past when he asked the Emperor Mo, and the latter looked worried and left without traces. Sighed.

This action did not escape the attention of Ye Xuan. He has counted in his mind. It seems that even if there is no final result yet, the general trend is not inclined. It should be the three star owners who have never seen it before. Withdrawal, all three of them are the perfection of the ninth-order grand perfection of the star's main territory, just like Mo Taiye.

Under this circumstance, even if Mo Taiye and the other ten or so demons insisted on the uncle, it is difficult to change anything. After all, the star of the square camp is full of the 9th order, only Mo Taiye is alone. It is weak.

"Although the Second Universe and the various nationalities are powerful, they claim to have thousands of warships, and maybe even more, but we don't seem to be weak."

Seeing that everyone's eyes are all projected to themselves, Ye Xuan is not afraid, and he will not let the land talk: "The magic king Samsung and the Eight Great tribes can make millions of warships together, plus four star wars. La, hey, this deterrent is still very impressive!"

"Four Stars and Stars?"

When I heard Ye Xuan's words, Mo's grandfather's glimpse of the brilliance, his expression seemed a little excited: "Are there still a war in your hand that is hidden by snow?"

There is no war in the hands of the devil. Ye Xuan is also aware of this. Therefore, in the view of Mo Taiye, since he now speaks the words of the four Star Wars, there must be one in his hand.

And it can be hidden by Ye Xuan. In the previous war, there was no war that was exposed. How could its power be weak?

It must be the strongest war.

I think of this, and I think of the horrible power of Ye Xuan's previous sorcerer's war and the war of the years, not only the grandfather, but even the three star lords who have never seen Ye Xuan. Not a little excited.

"Yes, there is still a war in my hand. At that time, the one you gave me before will be returned to you. It was only a few days before it was rebuilt. I must revert it back to spiritual warfare. How much time does it take?"

Ye Xuan did not say that, even if it would return to the Void War, let the devil say it back to the spirit of war. Of course, before that, he will once again use the system's newly opened forging system to copy a similar void war in a half-day period.

At that time, when the transformation of the spiritual warfare is completed, the four camps will have four battles. Although only the spiritual warfare and the soul war can be used, it is enough. Mainly a deterrent effect...

He did not believe that his own camp had activated the spirit war and the soul war, and the commander of the other camp could continue to fight **** regardless of regardless.

Of course, the more important thing is that Ye Xuan is full of confidence in the soul of the war.

Chapter 3665: Fourth battle

"Returning the Void Battle to the Spiritual War?"

Hearing the words of Ye Xuan, the top of the royal family in the hall was also at the same time, even the devil of the Ye Xuan side, the uncle Mo Qigong was the same, subconsciously sighed, asked Ye Xuan: "So, how do you settle down the tens of millions of Void soldiers?"

"The Void Wars were originally tailored for them. Like this, they have a unique biological wave frequency, and they are highly proliferating like mosquitoes. The ethnic group has a large number of ethnic groups and can be mastered. Less, it's a pity, right?"

The speaker is unintentional, the listener has the heart!

Mo Qigong's remarks reminded Ye Xuan that he would let his heart move and smash it!

How to forget the mosquitoes?

In the mind of Ye Xuan, he immediately recalled the scene of controlling the indoor volume at the top of the Black Wind, and raiding the big winds of the Black Wind with Limos and Neboshan.

The extreme speed exhibited by the mosquitoes at that time made Ye Xuan very impressed.

The vibration of the cockroach of the genus Mosquito will have a low-pitched, low-pitched humming sound, which may also be like the unique biological wave frequency of the squad, which turns into a certain kinetic energy that drives the Star Wars.

If this is the case, will Ye Xuan's hands not add another war?

Although the mad ant emperor gave him the tens of thousands of mosquitoes that brought out the ant beast star, Ye Xuan was left in the two scouts of the black mosquito and the black wind, and is now in the triumphant city.

However, if needed, Ye Xuan can fully expand the plane-level interplanetary coordinate jumping ability, from the magic star directly across the cosmic plane, returning to the death star of the third universe, and then rushing to the Triumph City of the Death Star from there, Tens of mosquitoes and beasts were received and placed in the new battle of the mosquitoes.

In fact, there are more convenient channels.

After all, the number of mosquitoes and animals is too small. Ye Xuan can go to the mosquito star again and borrow more mosquitoes from the mosquito king.

It's just that I haven't been there for a long time, and I'm taking this opportunity to explore the old bottom of the crazy mosquito king. In addition, let the **** king of the mosquito be seen with his father and son once.

Thinking of this, he suddenly moved again in his mind, and his mind was hesitant.

Previously, when the Void War was handed over to the forging system and the instructions were issued, based on the existing ones, and the customized automatic search was started immediately, the results came out very quickly. There were only two suggestions for the system's personalized forging. The soul of the war and the battle of the years!

No other results were mentioned.

It should be known that this automatic retrieval is carried out through the phagocytic system. Based on the existing meaning, it is to search all the resources and conditions in Ye Xuan.

The blood of the mosquito beast has always been within the ring of the beast. Ye Xuan is not wearing it in the wrist, but is in the immortal world. In this case, the system cannot search for it.

But in fact, the result did not mention it.

Is it the talent of the mosquito family that is not suitable for the individualization of the war, that is, it cannot be a special kinetic energy of the war?

If this is the case, then the sudden emergence of the idea can only be lost.

When Ye Xuan's consciousness entered the immortal world, it was strange that it was impossible to detect the breath of the **** prince, until the consciousness entered the ring of the beast, only to find that there was a huge **** inside.

It should be the promotion, the evolution of life level, and in this process, its breath has not leaked out, perhaps, this is the system does not capture its existence when carrying out conditional search, so there is no mosquito in the result The reason why a family is listed is.

Ye Xuan did not disturb the blood, and even if he retired, he decided that before the arrival of the first universe of millions of coalition forces, he would leave for a mosquito star, and the devils could just take advantage of this. Time will transform the Void War La again into a form that was previously driven by the spiritual power of the Devil.

All of this is a long story, but it is actually done between the thoughts.

When Ye Xuan's glimpse of consciousness quits from the immortal world, the sight of Mo Qigong and other demons of the royal family is still on Ye Xuan's body. In their view, Ye Xuan is only after hearing

the inquiry. , slightly indulged for a few moments, but did not know the time of such a bit of interest, Ye Xuan hands, and will soon have another battle.

"Reassure, there is still a spare on my hand, so after the original is given to you, there are still three battles in my hands. One of them is the Void War, and the soldiers are still settled in the battle. Inside."

Speaking of this, Ye Xuan made a slight meal, and then threw a blockbuster again, shrugged his shoulders and said: "In fact, the total number of wars in my hands should be four, but there is still one that is currently driving. There is a lack of kinetic energy, so before the arrival of the tens of millions of coalition forces in the First Universe, I must first go to the mosquito star of the Black Mosquito tribe."

"What? Four?"

This time, it was the Emperor Mo who asked Tian Tian to be shocked, and then he returned to God, and understood the purpose of Ye Xuan to go to the mosquito star, his face floating.

And Mo Qigong is a bright spot, even if he whispers: "Do you mean that there is still a war La is intended to drive with tens of millions of mosquitoes? This is obviously a good idea, within the mosquito star There are so many murderous beasts, and the ability of this group to multiply is also super metamorphosis. It is a big nest in life..."

"But this thing is not only for you, but no one can do it. The murderous mosquitoes are insulting, not to mention tens of millions of mosquitoes, that is, dozens of hundreds of heads. It is not an easy thing to surrender all! "

"In fact, it is basically impossible to capture a large number of murderous mosquitoes from the mosquito star at once. The crazy mosquitoes are not so good. Some low-order demons of the black mosquitoes are strong. The person enters it and captures one or two mosquitoes as a pet beast. He will not pay attention to it at all."

"But if the demonic strongman who enters the mosquito star is too high, then the old guy obviously can't sit back and ignore it. It is the star lord who goes there. I am afraid there is no return. Except you, no one should be able to Bringing tens of millions of fierce mosquitoes from the mosquito star..."

Mo Qigong's words are not clear, but they have already pointed out that Ye Xuan's relationship with the crazy mosquito king is extraordinary. At this moment, all the demons and royals in the hall have all the expressions on their faces, which are the stars of Mo Taiye and so on. The main blame is the same.

This is clearly a jealousy of the crazy mosquitoes, and indeed does not dare to enter the rhythm of the mosquito star.

Seeing this scene, Ye Xuan even smiled bitterly: "It seems that he was put together by the old madman. He is also awkward to say what is crazy to sell, to avoid the attention of the top of the devil. It's not good to walk or annihilate the entire mosquito star, now it seems..."

"Hey, the old guy is really not something! You can say so sly in the blink of an eye, the key Laozi really believed in it..."

Chapter 3666: Re-mosquito star

Looking at the top of the demons of the demons, when they mentioned the taboo expression of the mosquito star, Ye Xuan suddenly understood, and his face was unhappy, sighing: "Hey, the old guy is really not something!" The blink of an eye can make the swear words so slippery, the key Laozi really believed in the beginning..."

Listening to this tone, his relationship with the crazy mosquito king is obviously not a familiar familiarity. At least, the devils of the royal family are present, but no one dares to say this.

Including a few masters such as Mo Taiye.

"If you want to go to the mosquito star, the old man may not be able to accompany him. It will cause misunderstanding."

Seeing that Ye Xuan is going to the mosquito star, Mo Qigong took a look, and then he smiled and shook his head: "For the grievances of the crazy mosquito and the people, in fact, we are completely ignorant, the trilogy is slightly recorded, only crazy. The Mosquito Emperor has a great relationship with the Devils, and it started from a generation of demons. In the tribe, only the tops of the devils and the royal family can not easily access the mosquitoes and stars, and the other words are not mentioned!"

"When the emperor was in the early generation, he had already had a grudge with the devil's group? Isn't this a whole number of years? It seems that the repair of the old thing is not a star or a half."

Ye Xuan stunned, and the vagueness of the gas was a bit gnashing: "I lost the old man and asked him to ignore the life of the entire mosquito and herd. He was perfunctored by the excuse of escaping from the sin, and he was really cheated. This time I return to the mosquito star, I have to liquidate the old account!"

Having said that, Ye Xuan turned to Mo's, and then said: "As an ally, my suggestion is this, with millions of warships and five star wars, and the so-called tens of thousands of coalition forces from the second universe. , hard time."

"The strength of this level, although still not an opponent, is definitely enough to make them hurt. All this, the commander of the opposing fleet cannot be ignored. Don't forget, the second universe has suddenly invaded this time. The first universe, obviously, has more important other purposes. Do they need to burn **** the edge of the first universe?"

"So, their purpose is not to destroy the democrats, but to pass through here and enter the depths of the first universe as soon as possible to reach their true destination..."

"If there is no accident, as long as the attitude of the democrats is strong enough, they will stick to it. Most of the negotiations will be made by them at that time, hehe."

Having said that, Ye Xuan's mouth quickly floated a strange and funny smile: "In a word, we still occupy a little initiative. If they are really eager to pass, they don't want to be too much entangled here. Maybe you can take the opportunity to extort money on the tolls, and you don't know!"

As soon as this discourse came out, all the devils and royaltys in the hall, all of them were so open-mouthed and stupid, staring at Ye Xuan, his face was completely thundered.

This product is too daring to think about it. The people of the royal family have been battling the situation. The top officials of the demons are still discussing whether it is a war or a problem. He is good, and they are all beginning to ponder the extortion of others. It's a good thing.

Thinking jump is too horrible, and the brain is too big. For a time, even Qi Qigong has no words, and his mind is in a chaotic manner. He does not know how to pick up his words.

"Don't look at me like this, that's just to talk about it."

Fortunately, Ye Xuan also realized how many words of his own words were shocked and laughed. Then he said goodbye to a group of high-ranking royals. He said that he would immediately return to the valley of the North Valley and leave the Void War. Set off and head to the mosquito star.

After he left, the entire royal palace was in a state of silence. All the people were thinking. After all, Ye Xuan's coming is fast, but the shock brought to them is not small. On the one hand, his suggestion. It is indeed feasible, millions of devil warships, plus four, no, five star wars, the devil's group has a full force.

Even if the First Universe coalition has more than 10 million real warships, they obviously have other purposes in the first universe. It is impossible to die here with the democrats, as long as the democrats show that they can make them hurt. Strength, then everything can sit down and talk.

I dare not say that, like Ye Xuan's screaming, the entire ethnic group robbed in the void and collected people's money for the road. But as long as the democrats stand out and temporarily get out of this matter, it is entirely possible.

On the other hand, the reason why the demons of the demons are indulged, what they consider and think about is the background behind Ye Xuan.

"This kid is really a demon king. It's no wonder that you can toss the three planes into such a scene..."

"It seems that the identity of the immortal dynasty prince, for him, seems to be nothing to him, and it is completely out of sight!"

After a short while, Mo Qigong shook his head and smiled: "It is no wonder that this kid has been escaping from the immortal dynasty to the death star of the third universe. He has never been concerned about it. He has been tossing outside, no returning to the immortal star. , with his emperor brothers fighting for the future imperial power..."

"Don't mention it, just his close relationship with the crazy mosquitoes and the mosquitoes and grotesques is enough for him to ignore all of this, and these two old monsters can maintain this close relationship with him. There is obviously a reason for this, and it is more and more invisible. There is obviously a bigger reliance behind him!"

"Is it the mysterious force that helped him build four big wars in a short time?"

"It's really confusing. In today's three major universe planes, apart from the Tianji family, I really can't figure out which ethnic group or power has this ability..."

At the end of the day, Mo Qigong has been bitter and sorrowful. The look of the other tops of the demon royal family has become more and more weird. It is the star lords who Ye Xuan has never seen before. At the moment, I suddenly changed my mind.

Before, they also felt that the private alliance between the whole demonic group and the Emperor Xuanzi was somewhat self-descending. Now it seems that it seems very likely to be a big bargain...

.....

At the same time, Ye Xuan returned to the northern part of the Magic Emperor Star, emptied the tens of millions of Void squads in the Void War, and then went to the battle, and stayed in the northern valley, even when From the beginning, leaving the magic king star, in the void to sacrifice the hole in the void, the speed of the explosion, toward the direction of the black mosquito tribe, galloping away.

For the first time, it was the first time that he prepared to capture a pet beast, and then Ye Xuan came to the second time before leaving the first universe to return to the third universe of the Terran.

Counting this time, he is the third time to come to the mosquito star.

Calling him speechless and really uncomfortable is that every time he comes, his cognition of the crazy mosquito king will change. This old guy, like the mosquito and the old ghost, has been cheating Ye Xuan, and there is no truth at all. , just playing around the group...

Chapter 3667: Definitely intentional

With the speed of the hole, the speed of the wormhole jumped again and again, Ye Xuan only took a day to come to the black mosquito star field.

Soon after, the starry river in front of the sky, a huge incomparably huge star entered his sight!

It is the mosquito star!

The mosquito star also has an atmosphere, but it is black, condensed by a courtship gas emitted by the mosquitoes. In this layer of black atmosphere, there are two black mosquitoes who have been squadrons in the past. But now I can't see it. The eight major tribes should have received the order and are gathering with the Emperor.

In the past, once there were some black mosquitoes in the mosquito star, they wanted to get out of the atmosphere, and they would be caught and even hunted on the spot.

As long as it is a demon person, they are free to enter the mosquito star to hunt. After all, there are too many black mosquitoes in the world, and there is no limit.

Of course, after entering, it is also life and death conceit. The massive mosquitoes are a huge threat. There are few separate demons entering the area to hunt.

At that time, in Ye Xuan's impression, the mosquito star was almost completely replaced by the black mosquito tribe as a planet for captive pigs and dogs, but now it seems that all this is because the crazy mosquitoes don't care, after all, the breeding of the mosquitoes and beasts The ability is too strong, I really want to take care of every mosquito, it is estimated that this planet has been smashed.

The old guy is clearly pushing the boat, and perhaps there is another purpose, that is, letting his own people go out and move around. In his eyes, this may be a special form of experience.

Soon, Ye Xuan put the hole in the virtual shuttle, and stepped into the atmosphere of the mosquito star.

Everything is the same as the previous two arrivals. All that you see in the eye is the tide of mosquitoes and beasts, and the endless mosquitoes are turned into black waves.

These mosquitoes flying in the air are basically the kind of existence that does not give birth to the saga, and those who have truly produced the wisdom have already had the consciousness of hiding their body shape, to go to the land below. Can be found.

The more you go deep into the mainland, the stronger the mosquitoes you encounter.

Even in this part of the air, the higher the flying, that is, the outer, the weaker, the lower, into the inner circumference of the star, the strength of the mosquito is also straight.

With Ye Xuan's current strength, even if there are no mosquitoes or mosquitoes and **** brethren around, in the face of these low-level mosquitoes who have never produced a sense of intelligence, the pressure that comes from his body can basically generate enough The deterrent, so that they dare not come near.

After the mosquitoes passed through the black atmosphere and entered the mosquito star, all the mosquitoes retreated backwards and gave way.

It was also at this time that Ye Xuan's body was instigated, causing him to stagnate. After the consciousness entered a certain investigation, Ye Xuan quickly withdrew, and the ring of the beast had appeared in his hands. The movement is from the inside of the ring of the beast. Obviously, the breakthrough of the **** mosquito and beast is coming to an end.

After breaking through, his life level will be improved, and it is inevitable to cultivate the growth of strength, that is, if he does not know his congenital addiction and madness, will it improve?

Soon, as a red mans flashed, the **** scorpion of the mosquito and beast rushed out of the beast ring, and the figure appeared in the void in front of Ye Xuan.

At the same moment, countless mosquitoes and beasts in the distance around the void, while screaming at the same time, they felt the pressure of the royal blood, which is worshipped in Qiming.

What makes Ye Xuan unexpected is that after the blood stasis has completed this transformation, the body is exactly the same as before, and there is no change at all. It is still the head of the mosquito, even the crazy **** kill in the shackles, as always, It seems that his addiction to madness is still not good.

However, in terms of strength, it has risen sharply.

Bloodyness was originally in the early days of the original point, but now it is the beginning of the black light.

Once changed, the strength was repaired from the ninth state of the starry sky, into the eleventh state of the starry sky, and even the two realms of Jin, even Ye Xuan could not help but be amazed.

It's just that the transformation of the mosquito family is not always a problem. Some mosquitoes may not be able to encounter it once in a lifetime. When thinking about this, Ye Xuan is also balanced.

As Ye Xuan's pet beast, even if the **** repair is stronger than Ye Xuan, he is not likely to reflexively, not to mention that Ye Xuan is now the niche of the twelfth world, just on the surface. For the realm, it can also suppress blood stasis, so even if the other party's madness is still there, at the moment, after the clearance, the **** sputum is speechless, but still as usual, the body shape will come to Ye Xuan. Slightly fluttering and floating, waiting for his instructions.

The master and the servant did not stop, and immediately fell to the bottom of the mosquito star mainland, and soon came to the dense forest that met with the crazy mosquito king. In the line of sight, the huge ancient tree covering the sky It can be seen that all the surrounding distances are all high-level mosquitoes.

These high-level mosquitoes have not only become strong, but have also produced a sense of ingenuity. Even the body is no longer completely a murderous mosquito. Some grow human limbs, while others grow with mosquitoes and queens. Like blood, it has a human head.

This scene is very strange, even horrified, but Ye Xuan has long been used to it, not to mention that even these high-level mosquitoes, for the **** blood behind him, is only a subordinate courtier, see Ye Xuan and **** master and servant Appeared, they even shouted and cheered, and they swarmed and gathered to pay homage.

However, Ye Xuan's most wanted crazy mosquito at the moment, but it never appeared, which made him frown, and his heart was even more unhappy. Before he came all the way, he had already smashed his stomach in the chest. Kind of not feeling unpleasant.

Although the blood of the mosquito king has a human head, it does not directly communicate with Ye Xuan in words, but communicates with each other through spiritual strength.

Seeing that the crazy mosquito emperor did not appear, even if the **** prince flew to the towering tree, and returned after a few moments, the news brought back to Ye Xuan was actually the retreat of the crazy mosquito, like the **** prince. After entering the state of metamorphosis, after **** sputum entered the internal cave of the giant tree, he did not see him, only a huge **** mosquito!

Ye Xuan was even stunned.

It's not that the transformation of the mosquito family can be met and not available. Occasionally, when the chance comes, will it come?

How did the **** prince just become transformed, and the crazy mosquito king also encountered this kind of thing? The father and son both hit the big fortune together, and the chance is coming. Is this a bit too clever?

"Deliberate! The old guy is absolutely deliberate. Most of the time, he himself knows that the previous things have leaked out. This time I will meet again, I must be questioned, so I just found an excuse to hide!"

"The key is this so-called transformation, the old guy actually can come, it is clear that the repair is too strong for the sake of strength, guess is confirmed!"

Ye Xuan quickly realized that he was so angry that he jumped his feet: "It's too mean, too shameless, actually avoiding the face..."

Chapter 3668: Blood mosquito war

Although Ye Xuan is extremely skeptical that the crazy mosquito king is deliberately avoiding it, and the old guy's repairing strength must be concealed too much, and it has reached the realm of easy change

into the realm at any time, maybe Ye Xuan And the **** prince just left, he immediately broke free from this state, and went out on the spot.

But even if everything is true, people are hard to avoid, and it's useless for Ye Xuan to be uncomfortable. Can't always spend it here?

In desperation, he can only temporarily put the matter down, go back and find the opportunity, and then look for the theory of crazy mosquito king, and with this experience, Ye Xuan also secretly decided that the next time can never come again so brightly So, lest it be noticed by the old guys, and immediately become a huge **** escape.

After a lot of depression, Ye Xuan will need tens of millions of murderous mosquitoes to admit to the **** emperor, the latter did not hesitate, even if the sky sent a sharp scream.

Soon, there were high-frequency buzzing sounds in the air around the sky. A large number of high-level mosquitoes came from all sides of the mainland. The blink of an eye, the low altitude around them, all appeared. Huge black clouds.

These black clouds are formed by a large number of high-level mosquitoes and come together, following the call of the **** emperor, rolling in...

After leaving the Magic Emperor Star, Ye Xuan issued instructions to the system at the first time, activated the forging system, and once again built two Star Wars.

One is the Void War, which is prepared for the soldiers and clans, exactly the same as the previous one.

The other one is personalized. In terms of the driving kinetics of the war, the custom requirements given by Ye Xuan are suitable for the evil mosquito family.

Although the mosquito and beasts were still in the state of metamorphosis, Ye Xuan could not provide a mosquito to the forging system for various tests, but the various characteristics of the mosquito and beast family, the data of the phagocytic system, And very detailed, after all, this group of Ye Xuan contacts very early, many, the phagocytic system has been detected clearly.

The two battles, on his way to the mosquito star, have been completed.

The tens of millions of emptiness soldiers who were removed from him in the valley of the North Valley of the Magic Emperor, have now even entered the newly created Void War, only the **** mosquitoes prepared for the murderous mosquitoes. It is still empty now.

However, this time, Ye Xuan spent a lot of resources and materials, counting the three wars of the previous years, such as the war, and now Ye Xuan has four star wars, but the vast resources and materials collected in the immortal world. However, it also cost nearly half of it, which really makes him feel very distressed.

The shape of the blood-mosquito warfare is basically the same as that of the other three warriors, but the colors are different.

The Void War is gray-black, and the sorrowful war is bloody, while the years of war are the golden gold.

The color of the blood-mosquito war is a dark red color that is black, like dry blood, giving a very heavy feeling of depression.

In addition, the reason why it is said to be basically the same as the other three battles is because there are some subtle differences.

The whole **** mosquito battle is not cold, and there is really no abnormality. It is exactly the same as the other three battles, but the core node of the ninth ring on the inner side of the bell mouth is different from the other thousands of honeycomb nodes.

The first half of this core node is densely covered with a sharp and sharp alloy thorn. At first glance, this core node is like a huge alloy hedgehog.

Ye Xuan has calculated that the core node with a diameter of three kilometers is only covered with alloy thorns on the side of the bell mouth, but the number is extremely amazing, the arrangement is too dense, and the total number is more than ten million. huge!

And the hardness of these alloy thorns is also extremely amazing, more than several times the main keel material of the 100,000-meter-diameter starry sky fortress. It must be built with a special mineral or crystal, each of which has a length of a hundred feet. If it is projected as a spear, at a certain speed, it will be like playing with a warship or even a fortress or a starry fortress.

These nearly 10 million pieces of special alloy thorns are obviously tailored to the forging system according to certain characteristics of the mosquito family.

In the four major wars, the Void War La has the power of the void, and the sorrowful warfare is lazy, and the war of the years is even more terrifying, and it can issue the tides of the years related to the law of the universe.

The power of these three warlords is invisible. There is only one void in the Void War. The sorcerer and the sorcerer are only the horror of the horror that can make the souls scream. The years and tides inspired by the years of war are actually a kind of Invisible law power, only in the outbreak, the slightly golden Jinman disappeared!

And this newly created blood-mosquito war, according to Ye Xuan's estimate, its attack should be related to the nearly ten million special alloy thorns. If this is the case, this blood-mosquito will be Among the four major wars, the only one has the existence of a physical attack mode.

Ye Xuan has been extremely looking forward to it. Just think of the tens of hundreds of hundred feet of alloy thorns and spurs, just like the arrows and rains, the caves in front of the fan-shaped void innumerable battleships and fortresses, the magnificent scene of the fortress, he stood Feel passionate, can't wait to try it right away, and see what its power is!

Soon, with Ye Xuan waved the dark red blood-mosquito, the large number of high-level mosquitoes gathered from the surrounding world, under the direction of the **** mosquitoes, directed to the **** mosquitoes. Thousands of hive nodes rushed and entered the town.

Thousands of hive nodes, each node has entered 40,000 murderous beasts, a total of 40 million, the strength is not weak, basically all black hole or even the above repair!

This made Ye Xuan very surprised. When he came two times ago, although he saw a lot of intelligent mosquitoes in the mosquito-stricken continent, the black hole was not too much. It was basically a planet or a star. I didn't expect to gather 40 million black hole mosquitoes now.

It can also be seen that the crazy mosquito king did hide the cockroaches, not only his own cultivation, but also the overall strength of this mosquito star, which was also hidden by him.

Losing what he said at the beginning, let Ye Xuan take away 10 million mosquitoes and orcs, and then meet the right planet in the future, let the ethnic groups bloom outside, so that if the mosquito and beast stars are in trouble, the whole ethnic group will completely cover the words... .. now it seems that all are shit!

Thinking of this, Ye Xuan's heart was suddenly stunned and gnashed.

The 40 million murderous mosquitoes that entered the blood-mosquito war have all produced their ingenuity, and the command and control are extremely convenient. As for the main control mosquitoes in the core honeycomb node, Ye Xuan directly threw the burden to the blood.

He is the ancestor of the murderous beasts. He has a **** deterrent against these murderous beasts. If he is under the command of the town, he will be foolproof. Otherwise, he will be replaced by other murderous mosquitoes. Even if the strength is strong, it may not be banned. The nature of the mosquito family is too fierce, and the real unruly...

Chapter 3669: Tens of thousands of troops

Although the number of 40 million murderous mosquitoes is huge, these murderous mosquitoes are extremely sensitive to the **** suppression of the **** mosquitoes, and they are all very well-behaved. After the **** instructions are issued, even if they turn around, To the thousands of hive nodes of the blood-mosquito war, it is orderly, and soon, the number is enough.

At this moment, there are a lot of empty areas in the middle of the sky. After all, 40 million mosquitoes and beasts are not a small number.

However, compared with the total number of mosquitoes of the entire mosquito star, I dare not say that it is a slap in the face, but it is not too much. Therefore, Ye Xuan took the 40 million high-level mosquitoes away, and I must avoid the crazy mosquitoes. The emperor will not have any opinions.

He even gave the only descendants of blood to Ye Xuan to take it out, and he would care about the tiny 40 million ordinary mosquitoes?

Now Ye Xuan has come to realize that the old guy had handed over the 10 million mosquitoes to him. At the end, it was not for the prevention of mosquitoes and beasts. At that time, the whole ethnic group will be extinct. This is a change in the way. I am close to myself and close the relationship.

Including the **** beast of the Queen of the beast and let Ye Xuan take away, giving him the beast, is also based on this starting point.

This makes Ye Xuan associate with the wretched mosquito, the old guy is more direct, with his mysterious degree even surpassing the supreme power of the crazy mosquito emperor, he did not hesitate to descend his identity, and tried his best to lurk in the black mosquito scout fortress. Inside, wait for the future to meet with Ye Xuan...

"All this should have nothing to do with myself. It's all because of the headless baby..."

Thinking of this, Ye Xuan could not help but be a little lost, muttering to himself, but only half of the words, but suddenly stopped.

Because even he himself feels that this argument is somewhat far-fetched. Is it really because of the headless baby body? Or is it just because of the existence of a headless baby?

If this is the case, then... Why is the host of the headless baby corpse chosen to be itself?

Earlier, the old ghosts of Wenxing also said that he had also entered the mysterious corpse in the ancient cage. In addition, the entire tribe of the tribe, as well as some of the elites and descendants of the ethnic group, almost all entered the valley of the imperial city. The old cages of the ancients, and even some of them have not only entered once, but can revisit the old land every hundred years.

But the headless baby corpse has never had any change, and they have not chosen them until they appear, they chose to become a corpse lamp tattoo attachment, and then walked out of the ancient cage with themselves, until now, never left, still I am crouching in my body...

If all of this is explained by coincidence, it would be too far-fetched. In the vagueness, Ye Xuan felt that there must be something special for himself, which led to all this happening, including the attachment of the headless baby body!

Unfortunately, this question he tried to ask the wretched mosquitoes, and also asked the headless baby corpse, even this time originally intended to see the Queen of the crazy mosquito, to explore the old guy again.

However, these efforts have all had no results. The crazy mosquitoes are not blindly looking for an excuse to avoid them. Perhaps there is a reason for this. It is because they are worried about asking these roots.

Thinking of this, Ye Xuan suddenly shook his head and smiled, did not dare to think more, because this is destined to just ask for trouble, and then have a chance to explore later.

At this time, with the 40 million murderous beasts entering the **** mosquitoes, the **** mosquitoes of the mosquitoes and beasts also took a step and entered the core honeycomb nodes of the ninth floor of the battle, and the purpose of this came to the mosquitoes. , has been successfully achieved.

Ye Xuan did not stay too much, waved the **** mosquitoes into the body, and then left the mosquito star, rushed out of the star's black atmosphere, and sacrificed the hole, and quickly returned to the magic star.

Another day later, on the edge of the magical star field in front, a long void defense line jumped into the eye. Nearly five million warships and fortresses and fortresses were densely arranged in the void, roughly divided into five camps. Lined up, the battleships of each camp are around one million.

In the two days since he left, the main tribes of the eight tribes of the devil's group were all brought in. At the moment, in the camp of the five million warships, the four camps on the left and the right are separated by two demons. The main fleet of the human forces is composed.

Each camp represents the total strength of the two devil tribes.

In the middle of this camp, the millions of warships were made up by the Emperor. In the previous battle, the various warships, fortresses and fortresses that the Emperor's star confiscated and extorted reached more than 600,000 ships. These warships have already All of them have completed the necessary transformations, and now all have been sent to the battlefield.

The other more than 400,000 are the forces of the Emperor's own, and tens of thousands of them, even the battleship of the Pioneer Fleet of Jero, were also incorporated into the central camp.

The camp of the five million warships spread to the end of the line of sight in the void, blocking the starry channel leading to the depths of the first universe.

In the void of tens of millions of miles behind the battleship camp, the Emperor Samsung formed the second and final line of defense.

There, there are also millions of battleships. If the front camp loses, the last million warships in front of the Emperor Samsung will become the last of Ye Xuan and the entire demonic group.

At that time, either the mountains will be exhausted, the devils will be all raised, or they will use the millions of warships with the people of the Emperor Samsung to escape as much as possible...

Of course, in this case, Ye Xuan will not allow it to happen. The five-million warships with frontier defenses, plus five star-studded wars, Ye Xuan has more than 90% of the grasp, so that the entire demonic group is safe. After this crisis.

Moreover, there must be some gains... tens of millions of troops crossing the border, how many have to pay the tolls!

At this end, the Devils' group mobilized and raised their families, and the main fleets of the Eight Great Foreign Pan tribes were all transferred. They formed a five-million-strong battleship-scale camp at the forefront of the Devil's Star Field. The line of defense cuts off the entire line. The main route of the starry sky in the depths of the universe.

At that end, the frontier zone of the Devil's Star Field, which is connected to the large cosmic wormhole around the first cosmic plane, also has a large number of ... no, massive warships and fortresses, fortresses in the assembly .

Almost every moment, a ship of warships rushed out of the wormhole, and then immediately reorganized and gathered together according to their respective ethnic groups.

This time, the second universe and the various ethnic groups also made a fuss. The total gathering of more than 10 million troops, reaching more than 12 million, has now been assembled more than half.

The total number of warships, fortresses and fortresses that are congested around the plane-level giant cosmic wormhole has reached more than eight million.

In another two days or so, the entire army will be assembled, and then, after the completion of the pre-war reorganization, this huge fleet will go straight to the magic king.

For the Devils, this is an unprecedented test of survival...

Chapter 3670: Smoke rises again

This time, the tens of millions of troops of the second universe are still bloody, Qingpeng, war lion, silver sui, barbarian, golden eagle, Cailu, greedy wolf and tree spirit. The nine major groups are headed.

There are also a large number of other ethnic groups ranked in the top ten!

Although this time the second universe of the various national alliances of the main fleet, basically the commander of the fleet of each ethnic group is still a great power, and occasionally some ethnic groups have also dispatched the star owners to sit in town.

But the significance of the main fleet is far from being comparable to the Pioneer Fleet. This is only a million troops from the Pioneer fleet, and the main fleet is 12 million warships and fortresses and fortresses.

Therefore, in addition to the power of the various national fleets responsible for command, and some ethnic groups have dispatched the star owners to sit in the town, this time, the entire second space of the second space coalition main fleet, there are even two beyond the star territory , repaired to achieve the terrible existence of the domain's main territory.

From the **** family, and the coloring family!

The **** lord's domain lord is called the hollow, but it is a top-ranking old man who has not been born for many years. The generation in the family is higher than the patriarch of the **** family.

The reason why the **** people have sent out the supremacy of a domain's main territory is naturally not directed at the devil's group. The goal of hollowing out is the source of all evil.

This time, the Second Universe and the Allied Coalitions invaded the First Universe. The ultimate goal was to occupy the source of the evil and to control it. On the one hand, it was found that the blood of the ancestors of the family had been plunged into a violent fall. Even the only descendants of the **** big egg were affected by the behind-the-scenes.

On the other hand, it is necessary to completely control the occurrence of similar incidents by controlling the entire source of the evil source. After all, those blood sources hidden in the depths of individual ancestral lands or some independent virtual air injuries The ancestors, that is, the ancient powers and supremes of the Tiandao Qingyan camp, are still very dependent on the supply of one or two drops of the evil source liquid per year.

In order to ensure that this supply is not interrupted, and there will be no similar accidents, it will be completely understandable to take the lead to promote this **** squad of the plane-level war and dispatch a domain lord.

As for the color scorpion, the lord of the lord also came to the first universe with the main fleet. In addition to the source of the evil, there are some reasons, because the family had previously fallen a star owner. It's strange, and it's still a scorpion ant who was only the twelfth in the early days of the demon community, using a new type of star-studded killer.

This matter is very shameful and shameful for the Caisong people!

Although this time of the war was a plane-level star wars, before the fall of the singularity of the singer and the singer, the top leaders of the second universe, never thought that there would be stars in this battle. The existence of the Lord's level is degenerate.

In their view, God also degraded a few great powers in the fifteenth world.

But in fact, the entire fleet of the second universe of the Pioneer, not only was hit almost half-residual, but had to retreat to the void near the cosmic wormhole waiting for the arrival of the main fleet, it is like a tortoise.

Moreover, under the premise of the destruction of the seven or eight statues of Qiankun, the final loss of a star owner!

[illegible]

Two days later, this large-scale plane-level wormhole, which has been rushed out by warships in recent days, has finally quieted down.

The 10 million army of the Second Universe and Allied Coalition Forces has been assembled.

Since the fall of the star-studded lord of the Caisong family, the entire line has retreated, and the hundreds of thousands of Pioneer fleets that have been huddled here have been broken up and incorporated into the fleet of their respective ethnic groups.

The entire army, the total number of all kinds of warships, reached more than 12 million.

After some rectification, they will start at the same time, and will go forward with great enthusiasm and gradually approach the Magic Emperor.

Behind the entire huge fleet, the three thousand-meter castles that opened the hidden array were followed.

An observer group consisting of several high-level factions from the two camps of the Terran and the Federal Headquarters did not return after the temporary end of the previous war. It has always been in the emptiness of the wormhole area. Note.

Nowadays, the big fort of the observation group dispatched by these three major forces is still hidden in the dark. On the one hand, it is more convenient to carry out the action, on the other hand, it avoids the misunderstanding of the coalition forces of the Second Universe.

Among the 10,000-meter-tall bastions representing the Federation of Varo, the seat of the Federal Supervisory Academy is the deputy, and the deputy, the first deputy of the dynasty, is also in the wind.

On behalf of the thriving dynasty of the science and technology camp, it is the old ancestral plaque of the old ancestral hall, as well as some royal high-level, including the two emperors, Long Xiao, also known as Long Sui, and the uncle, who has always supported Long Xiao, is also accompanying Column, there are several high-level empire's top and its guards.

As for the representative of the Terran camp, it is a deputy palace of the Imperial Palace, named Gonggutian, and the uterus of the Palace of the Palace is also accompanied by the uterus, and there are also some small masters. .

In the 10,000-meter-large castle that represents the Terran technology camp, the war-torn old ghosts are no longer there. I don't know where to go. This time, he and his old friends have no eyebrows to calculate Ye Xuan, and the result is that the chickens are not anti-corrosion. A handful of meters, no eyebrows and ancestors fell, the war and the torment were taken away a lot of resources and treasures, can be described as heavy losses, although no one knows about this, but he has no face left!

At the same time, in front of the tens of millions of miles away from the edge of the magic star, Ye Xuan and Mo Wentian, Mo Qigong and other democrats of the royal family are riding the Great Fortress, now also from the devil The star set off and headed for the front line of the Devil's Star Field, which is more than 30 million miles away.

In front of the magic sign, the stealth method was opened, and the mental warfare, which had just been transformed a day ago, was also rushing toward the first line of defense in front.

This war has gathered tens of millions of demons, and basically the whole magic star is empty. After all, the devils of the eight tribes need to sit in the millions of warships and fortresses and fortresses. Among them, as the devil who drives the kinetic energy, it can only be pulled from the magic king.

As for the top of the devil's royal family in the core node of the spiritual warfare, it is the grandmother of the ninth-order grand perfection of the star's main territory, which is much stronger than the one in the early days of the star. many.

Therefore, if this spiritual warfare has a chance to roar again, the power will definitely exceed the previous one!

Half a day later, when the Great Fortress reached the edge of the Devil's Star Field, the front of the void was far away, and a front line reached the end of the line of sight at the left and right sides. The huge fleet that is still unfinished is already visible.

The devil's star field, the smoke is rising again!
