### Chapter 367: Silver moon thief

Today, Ye Xuan wants to go to a city to buy some materials, and then refine the heavenly and medicinal herbs. He rode Megatron and went straight to the largest city in the neighborhood.

At this point, the sky is already dark.

However, just as he was about to land in the city, there was a group of people in the city who quickly rushed out.

"Fast, catch up with him, don't let him run!"

"It's really daring, even the things of my silver moon daring dare to grab, find death!"

"The goods are worth a lot, so be sure to catch them back!"

"Silver Moon Thief, take a break!"

Under the hustle and bustle, the roaring sound continued, and Ye Xuan, who was riding on Megatron, heard it clearly.

Silvermoon thief?

When he heard the name, Ye Xuan's figure was also a tremor.

The name of this silver moon thief, he also heard that this person formed a stealing force, this force called the silver moon group, specializing in the silver moon, Shuiyue and Xiaoyue.

It was also because of this silver moon thief that he was misunderstood before and was chased by Xiaoyuezhong store manager.

"This silver moon thief is the leader of the silver moon group. It is said that the body is martial arts. If you come and go like the wind, even the masters of the power of the 30 dragons can't catch up with him. How can they be chased by a group of dozens of dragons today? What?"

Ye Xuan is very surprised to think.

"On, everyone is on, this silver moon thief was seriously injured by the lord a few days ago, the strength is only 30% at most, whoever kills him is a great achievement!"

A general manager of Yinyuezhong shouted.

Hearing this, Ye Xuan finally understood, and the daring was seriously injured.

For a time, he also became interested in this silver moon thief, a silver thief who stole three large amounts of heaven and earth treasures, his family is certainly not cheap.

In this world, things like the strong, the killing and the treasure are everywhere.

Therefore, he is trying not to shoot directly.

However, he considered that it is close to the city, so wait a second.

"Silver Moon Thief, don't run!"

More than a dozen masters chased the silver moon thief in silver, wearing a silver mask, and Ye Xuan, was watching in the air.

The two men ran for ten minutes and then stopped.

No, exactly, the Silver Moon thief stopped.

"I don't think I can't run, do you want to kill?"

Ye Xuan in the air paused and looked at the two people who were deadlocked underneath.

At this time, the silver moon thief suddenly took out a dagger and attacked the silver moon.

"court death!"

At that time, more than a dozen people surrounded the silver moon thief and launched an attack.

But these people, in ten seconds, were all packed up by the silver moon thief.

One is not left!

"Well? Isn't it true that the silver thief is seriously injured? How can there be the fighting power of the Twenty Dragons?"

Ye Xuan, who witnessed all of this, felt very surprised.

The strength of this silver moon thief is probably around 22 dragons, very good.

"It seems that the news is wrong!"

In the heart of Ye Xuan's heart, at this time, he was already behind a big tree and quietly observed.

When the silver thief and the chasers of the silver moon squad fight, he is quietly falling into a forest on the left, using the blood of the shadow leopard to hide.

Now, the silver moon thief has killed these people, and he is also time to do it.

螳螂 螳螂 蝉, the oriole is behind!

He likes this cheaply.

However, when he was ready to take the shot, a team suddenly came to a close not far away, and he could not help but stop.

There are five people in this team. They are dressed in the costumes of the silver moon ancestor. They are strong, and each one is around twenty-five dragons. The team leader is the master of the twenty-seven dragons.

"Come to catch the silver thief's master."

Ye Xuan resisted.

Four twenty-five dragons, plus one twenty-seven dragons, he can still deal with it.

However, this way he is going to do it with Yin Yuezong.

This team is extremely fast, and quickly rushed to the front of the silver moon thief. The strange thing is that this silver thief does not run away. Is it self-aware that knows that he can't get away?

"Silver Moon thief, I finally caught you, I will smash it, and return the things of my silver moon sect, maybe the lord can still leave you a life!"

The twenty-seven dragons who led the team shouted coldly.

"Oh, are you kidding?" Silver Moon thief smiled.

After hearing this voice, the five silver moon elders present were also stunned, and they seemed to have heard the sound.

"Hey, since you are looking for death, then we are ruthless!" The elders of the twenty-seven dragons screamed and rushed out.

The four twenty-five dragon masters behind him also rushed to the silver thief.

Just then, a black shadow suddenly appeared in the forest on the right side, and quickly swept to the silver thief.

"And accomplices?"

The five elders were shocked because they saw the speed of the shadows even faster than them.

After the black shadow was killed, it was blocked in front of the silver moon thief, and then killed in the past, and his body shape flew outside, it is three big flying dragons.

The power of the thirty dragons!

"Not good, withdraw!"

The elders who led the head widened their eyes and drank a word.

How could he think that there is a master of the power of the 30 dragons here, you know, this is a master of their ranks with the silver moon patriarch.

Even if these five people join forces, I am afraid that they are not the enemy of the other hand.

So can only retreat!

"Want to go?"

The black man flashed in the light, and instantly killed an elder, and then a sword in his hand, a skull was thrown away.

Spike!

"Chen Elder!"

An elder who had a good relationship with the deceased saw it immediately. He was red-eyed and shouted: "The dog thief, I am fighting with you!"

However, the twenty-five dragons and the thirty dragons are far apart. Unless they are geniuses, it is impossible to fight for them.

"Oh!"

Another head flew up and the second elder fell.

The power of this shadow is amazing, killing two elders in the blink of an eye.

And time is only a second.

One second and two people, this is the gap.

After another second, the elders of the other two twenty-five dragons were also killed by him.

Now, only the power of the twenty-seven dragons is left.

"Stop, I am a silver elder, you dare to kill me?" This panic for the first elder, hurriedly shouted.

However, the sword of the black man did not hesitate to cut out and directly cut the throat of the elder.

"Oh!"

The last head flew up.

This elder team responsible for arresting the silver moon thief is completely destroyed!

"Awful terrible strength, if I use the Beastmaster violent, I am afraid I can only fight for one, it is difficult to kill it!"

Ye Xuan in the air made a chill, the black man started to sizzle, and the speed was extremely fast, and he did not have the confidence to win.
