

Super D. S 3681

Chapter 3681: Void period

"In the previous two wars, my demon community has already harvested nearly one million warships. The million warships that have been acquired this time are naturally what your kid deserves!"

Inside the Imperial City, the royal palace, listening to Ye Xuan raised the issue of the ownership of this million warships, Mo Taiye waved a big hand, did not hesitate to shoot the board on the spot, smiled: "including the toll, is also your kid I will try my best to get it."

"Don't forget, we are now an allies of close cooperation. Since it is equal cooperation, my devil's ethnic group should not be a big one. These resources are used in your triumphal city, so that your family members can grow up quickly. My devil's group, cooperation between you and me, is also beneficial!"

"Just, the Arc de Triomphe is located in the death star field of the Third Universe. The star is far away. The army of millions of warships is huge. It is also a very headache to send these ships to the past..."

This is indeed a problem. There are millions of warships of various kinds, and they are sprinkling on the air in the sky. Although Ye Xuan can make it into the immortal world, it is bound to be laborious and hard. His cultivation is actually weak and cannot be done. To the wave, it will charge thousands of warships at the same time.

However, if Shennong Ding is sacrificed, and then the Devil's strongman is sent into the battleship, a ship will drill into the Dingkou and enter the space inside the Ding, but it will save a lot of effort.

However, this matter cannot be carried out in the void of the universe other than the Emperor Samsung. In that case, the Shennong Ding will be exposed, and the trouble will be even greater.

Fortunately, although this tripod will be a giant star, but Ye Xuan has refining it, the size can be controlled, can be controlled a little larger than the 100,000-meter-diameter big fortress, so that in the devil The inside of the star was sacrificed.

At that time, a million warships will enter the Diankou in a ship.

The interior space of Shennong Ding is like a star. Although there are many million warships, it can still be easily installed.

This was all started very quickly, and it was carried out in the huge valley of the North of the Magic Emperor. For this reason, the Emperor Wei's commander Chanas took the initiative to take charge of the general dispatch, and worked hard before he was busy.

Ye Xuan took all of this into his eyes. From time to time, he flashed a touch of gloom. I don't know why. He always felt that seeing Chanas again this time, it seems to be a little different from the previous one, but careful exploration has no result.

In the end, the matter can only be temporarily left behind, but the mind has secretly noticed it.

A million warships, even if they are sailing non-stop, to the Shennong Ding's tripod, all the transfer is completed, it will take some time.

After the completion of the time, Ye Xuan took the air and directly activated the plane-level interplanetary coordinate jumping ability, and directly returned to the Death Star of the Third Universe. From there, he rushed to the Triumph City to deliver the battleship to Naples, and then the same. The way to return to the first universe.

But it is obviously not realistic at present. Don't look at the democrats to survive this crisis, but everything is only temporary. For the ultimate purpose of the tens of thousands of troops invaded by the second universe, Ye Xuan's heart already has Guess.

In order to confirm, he will then leave the magic star, quietly trailing behind the tens of thousands of troops to see if they came to the first universe this time, whether it is as if they guessed it, but it is against the evil. Source.

Before that, with the opportunity of Chanas to command the transfer of a million warships to Shennong Ding, Ye Xuan decided to re-close in the temporary Dongfu in the depths of the valley to see if he could break through again.

Before entering the temporary Dongfu in the depths of the valley, Ye Xuan re-condensed 20 drops of intermediate **** liquid by Shennong Ding. After the completion, he entered the temporary Dongfu, set up a ban and began to retreat.

During the wave, the twenty drops of **** ant liquid that had just been condensed appeared in the shape of Ye Xuan. The size of the longan was suspended in the void, and the size of the longan before it was condensed was reduced to the peanut grain, some of which were dross and impurities. And some substances that have a bad effect on the forging and quenching body have been completely melted.

In order to ensure the success of the breakthrough, after a little hesitation, he took a drop of all the evil source liquid and swallowed it with the 20-grain peanut-sized intermediate-level **** ant liquid.

After entering the abdomen, it instantly turns into a hot energy, spreading toward the limbs of his entire body, and the five internal organs spread.

In the twinkling of an eye, a strong tingling sensation soon came. He even heard the faint sound of flesh and blood cells tearing in the clear, faintly, there seems to be some mysterious chain squeaking from the body, it is the physical potential 桎梏The signs of being shaken!

Slowly, with the strong effectiveness of these twenty drops of intermediate-level **** ant liquid gradually, Ye Xuan is turned into a fiery red, and one hundred and eighty million pores are all sprayed out on Xia Rui Bao Guang, and the head is more transpiration. Starting with a faint mist of mist, the whole person is sitting in a cloud of clouds like a knee-high, extraordinary.

At the end of the day, his consciousness entered an extremely mysterious state, and he could not feel the pain at all. Even the flesh seemed to no longer exist. The whole body and mind seemed to fall into a kind of nothingness, like sublimation!

I don't know how long it took, Ye Xuan suddenly opened his eyes, and the golden glory of the scorpion, flashed away, and then, a familiar system sound was heard in his mind.

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the fourth level of the void!"

"Hey, congratulations to the host, the breakthrough of the physical body and blood! The current realm: the fifth level of the void!"

After all, it is only a second use, plus in addition to these twenty drops of intermediate-level **** ant liquid, Ye Xuan this time also swallowed a drop of more precious allergens.

Let him once again get from the body to the heart, from the inside out of the forging and baptism, climbed two small steps in one fell swoop, and since then entered the twelfth world of the void period!

When he got up, Ye Xuan found that the surface of the body still had a hard layer, but it was thinner than the last time. This is still the rhythm of the body's enamel being discharged. It is rare to use the treasured intermediate ant liquid and the evil source. At first sight, the cultivation resources, his deity body, are rapidly moving towards a crystal clear and perfect environment...

At this time, Ye Xuan found that only half a day has passed, and the millions of warships outside have not been transferred so quickly, and the time will probably take about two days!

After a little indulging, he decided not to go out for a while. Taking advantage of this time, he could melt the three bodies of the emperor and the electronic consciousness of the younger generations of the nine Taoist people such as Sha Baofeng and Emperor Shaofeng.

Otherwise, once you leave the Magic King, you are afraid of being busy with other things, and you can't find time to deal with this nephew.

According to Ye Xuan's original plan, he wanted to carefully examine the three bodies of the emperor's body, and determined that there would be no traps such as hidden doors, and then settled in the electronic consciousness of Sha Baofeng and others. Three consumables, not afraid of ruined avatars...

Chapter 3682: Electronic avatar

According to Ye Xuan's original plan, he wanted to carefully examine the three bodies of the emperor's body, and determined that there would be no traps such as hidden doors, and then settled in the electronic consciousness of Sha Baofeng and others. Three consumables, not afraid of ruined avatars.

But at the moment, I carefully examined the three bodies of the emperor, and retrieved the information related to the electronic consciousness of the Tianzu from the system's data repository. After careful research, Ye Xuan suddenly changed. idea!

It turns out that the electronic consciousness of the celestial family can be fused, and it can be condensed by the avatar system attached to the phagocytic system. In the end, not only can the electronic consciousness of the ninth celestial celestial priests such as Sha Baofeng and Emperor Shaofeng in Ye Xuan's hands Melting into one, and this new melting electronic consciousness is extremely special.

Because in this process, it is necessary for Ye Xuan to be swallowed after the treasure, the refining and phagocytic avatars, and the differentiation of a sacred god, as a seed, or a drug to promote, so, after the successful smelting Electronic awareness will no longer have any traces of Sha Baofeng and Emperor Shaofeng.

It is brand new, and it belongs to Ye Xuan completely. It seems that there was an intelligent robot, which gave birth to the ingenuity and became the avatar of Ye Xuan.

Because it is an electronic conscious body, it has a high degree of freedom, can be stationed in any intelligent robot, and can quietly walk between any electronic device.

Of course, Ye Xuan's hands now have three bodies with one emperor and one body. This is the body of the patriarch of the celestial family. The grades are not to be said, and all three are the best.

After Ye Xuan intends to smelt his own electronic consciousness, he will be stationed in it. By then, the electronic avatar will be born!

In addition, this electronic consciousness will also have the horror ability to devour the same kind of electronic life. That is to say, as long as Ye Xuan has successfully integrated this electronic consciousness, then he can fully cooperate with the Tianji people in the future. The use of this electronic consciousness in the avatar, like the soul out, the gods travel, quietly enter the other party's electronic system, and devour.

Once successful, the heavenly strongman who was eyed by Ye Xuan would wait for the soul of the strong people to scream and scream, the body is still there, and the consciousness disappeared.

And this is also the only way for the electronic consciousness in Ye Xuan Electronics to grow up!

In theory, if he is an electronic consciousness in the electronic body like a monk, he can get enough time and space for development. After the future grows up, he even invades the electronic intelligence system of Tianji City and lurks it. When it comes to the opportunity, there is a possibility that the electronic consciousness of the Emperor of the Heavenly Kingdom will be swallowed up in one fell swoop!

After all, Ye Xuan has never heard of any Tianji strongman, with this kind of engulfing the same kind of electronic consciousness, thereby strengthening his own terrorist ability!

Of course, this is only a theoretical statement. Even if it can be realized, it will take a long time to let this electronic consciousness grow up. In addition, the Tianji people may not really have the ability to devour the same electronic consciousness. Perhaps it is hidden in the snow and it has not been announced.

Even so, Ye Xuan decided to give it a try.

It is too strong for him to have a temptation to completely belong to his own electronic consciousness. Once completed, he can even directly invade any enemy battleship system with this electronic consciousness, instead of through personal star communication. The system goes to do it all!

Invading each other's warship network through the star-to-air communication system, and directly invading it with its own electronic consciousness, it is obviously completely different. The starry-sky communication system is smart again, and it takes one instruction to complete everything. Is it easy and quick to change your own time?

Soon, Ye Xuan activated the avatar system that has not been used for a long time. The first step is to integrate the nine electronic consciousnesses such as Sha Baofeng and Emperor Shaofeng.

All of this was done to the avatar system. In the process, the electronic memories of the nine people of Shabaofeng were all removed and stored in the data repository of the phagocytic system so that when Ye Xuan needed it, Check it out at any time.

In addition, all the trademarks related to the Tianji City, including these nine electronic consciousness, have all been removed, saved separately, and may be used in the future.

What is finally left is the purely electronic consciousness of life, so that the whole process is not complicated compared to the melting, and the system of the system is specialized and quickly completed.

Because it was formed by the integration of nine electronic consciousness, the resulting electronic consciousness became extremely solid, but it was only half completed.

The latter half, like Ye Xuan's previous refining and devouring avatars, differentiated into a sacred god, and merged with the successful electronic consciousness of the smelt. After the success, Ye Xuan's electronic avatar was completely completed.

It has no entity, it is only a special one, and it is quoted by the monk of the Terran monk, and then with the solid electronic consciousness of the Celestial family, which is finally refined.

However, it is precisely because of the speciality of the monk Yuanshen, this electronic avatar has the ability to devour other similar electronic consciousness living organisms, absolutely worthy of the talent!

In addition, because it has no entity, it is even more unpredictable. Since it can live quietly in any electronic system for a long time, it can also be settled in any physical robot or the body of a Tianzu nationality. The materialization of life forms...

Since the latter half needs to be integrated into the **** of the Ye Xuan deity, the time is slightly longer. In the process, Ye Xuan once again suffered the division of the gods, but a drop of evil source made up for it. All this, let his gods recover.

After half a day, this process was completely completed, and Ye Xuan's electronic consciousness was successfully melted!

It's just this electronic consciousness, and the realm of cultivation has reached the first level of the thirteenth world.

Subsequently, Ye Xuan picked out one of the three emperors and one body, and gave it to the avatar system for a little transformation. At the end, the appearance of the whole body became the appearance of Ye Xuan.

After Ye Xuan's electronic consciousness was placed in this body, a thirteenth big territory began with a nine-step great perfection, and the realm on the surface far exceeded Ye Xuan's deity.

However, if it is said that the real comprehensive combat power, it is obviously far from the same, Ye Xuan's deity means and too many top-level magic weapons, these are one of the factors that constitute his own comprehensive strength!

With the completion of this electronic avatar, time is only a day in the past. Until the migration of the millions of warships outside is completed, and one day, Ye Xuan will turn his eyes to the remaining two emperors.

Nowadays, the nine electronic consciousness of Sha Baofeng and Emperor Shaofeng and others have been used, but the remaining two emperors have a body shell, and Ye Xuan has no use for a while...

Chapter 3683: Inheritance of the ancient konjac

Looking at the two bodies of the emperor, Ye Xuan sighed, this is definitely a good thing, even if it is the skin of every inch of the body, it is definitely made with the most advanced materials. After all, Emperor Yi It is the patriarch of the Tianji nationality. With the foundation of the Tianji nationality, the body of the patriarch's electronic consciousness is different.

Unfortunately, he really can't think of the way to use these two avatars.

Of course, Ye Xuan can use the avatar system again, like the condensed and swallowed avatar, to differentiate the two gods and refine the two avatars.

But this obviously can only be thought of and cannot be implemented.

The avatar system attached to the leaf phagocytic system of Ye Xuan is still only the primary stage. In the primary stage, the method of merging the Yuanshen **** as the seed of the gods is used to refine the avatar. The quota is only one, and it has been used by the devour.

Refining electronic avatars before is not counted in it because of the different ways!

In fact, even if there are still two places, Ye Xuan will not make such a choice. Even if it is an affiliated system, it is difficult to promote once. This kind of refining the number of places in the way of cultivating the gods is too much. Precious.

That is to say, in the face of the devastating treasure, Ye Xuan will choose to spend a quota and refine it into a perfect avatar.

Although the two bodies of Emperor Yi's electronic consciousness are also the top goods, the gap with the engulfing treasure is obviously not a little bit. It's just these two shells. It's not worthy of Ye Xuan's use of the Yuanshen seed quota of the split system. Its refining is perfect!

After some depression, Ye Xuan can only reintegrate the two emperors into the body of immortality!

Then, after some indulging, Ye Xuan decided to use this last day to collect another Jiu Jin Jin Jing and see what kind of ancient gods will be won this time!

Among the many chanting crystals, even if it is the Eight Diagrams Silver Crystal, it is not perfect. Only the Jiu Jin Jin Jing contains the blood heritage of the ancient creatures who gave birth to this crystal.

It may be a supernatural power, it may be a practice!

Previously, Ye Xuan received a total of 108 pieces of nine gold crystals in the mysterious corpse of the ancient prison cage connected to the valley of the Forbidden City.

Two have been used now!

The two nine-necked gold crystals, in addition to letting Ye Xuanzhen take a large number of high-level elite spiritual strength gathered in the crystal, let Ye Xuan have obtained two kinds of ancient and supreme blood and magic.

They are the sacred bow of the ancient night fork, and the ghost claw of the Nether Emperor!

Now, I am still idle, and Ye Xuan decided to take out the third Jiu Jin Jin Jing to start collecting!

There are still a total of one hundred and six nine gold crystals in his hands, which are roughly the same. Although there are subtle differences, they cannot distinguish each of the nine gold crystals from these subtle differences. It is the age of the Supreme Supreme.

That is to say, before the collection, Ye Xuan couldn't know what kind of ancient **** inheritance he would receive after the completion of the harvest!

It is completely random!

Of course, even if it is a **** inheritance or a supernatural power, it is definitely not weak enough. After all, it can still be turned into a dead body, and the result can still be turned into a corpse flower and the result is that the existence of Jiu Jin Jin Jing is basically born. It should all be the existence of the ancient and supreme level, at least it must be the ancient power.

The existence of this level, its blood talent and the inheritance of the magical powers, can you be a chicken rib?

After the decision, Ye Xuan even took out a space box from the immortal world, which contained a nine-inch gold crystal.

This kind of thing is too precious. Each one represents a **** heritage of the ancient and supreme. It is definitely a rare resource that can be met and not sought. It is hard to find in the world.

Therefore, Ye Xuan did not dare to put them together, each one is stored in a small space box.

One hundred and six space box, he just picked one, which makes Ye Xuan feel stimulating. Perhaps this time the big prize, I got a piece of power that is extremely powerful, even surpassed the ancient night fork. It's also possible that the Tiangong's horror magical JiuJing Jinjing!

With this expectation, Ye Xuan quickly sat cross-legged, opened the space box, and threw the nine-gold crystal that was stored inside to the phagocytic system.

And in the first time, the order was issued, so that the phagocytic system fully extracts the pure spiritual power contained in this nine-golden crystal, and fully extracts it.

However, this time he did not expect to know the spiritual core of the sea in his mind. He could once again evolve and evolve into a nine-level source nucleus. After all, the same surprises have only recently appeared. The transformation of the spiritual source core is not so easy. The evolution of the two times in a short time, obviously not very likely!

But the pure spiritual power contained in the interior of Jiuyi Jinjing can make his spiritual core more solid, which will lay a solid foundation for the next evolution.

In the end, this nine-year-old Jinjing, Ye Xuan's only expectation, is actually the **** inheritance of a certain ancient sage, or the ancient power of the ancients that it represents!

The result came out soon!

With all the pure spiritual power contained in this Jiu Jin Jin Jing, all of them were systematically extracted and injected into the spiritual source core of Ye Xuan's brains, and the familiar system prompts, also at this moment. Clearly and clearly in his mind...

"Hey, congratulations to the host, get the ancients of the ancients! The true body of the konjac: the blood of the ancient konjac, a unique secret method of condensing the body of the konjac!"

In the next moment, before Ye Xuan returned to his heart, his consciousness of the gods and gods suddenly trembled and was forcibly pulled into a picture of inheritance.

The background of the picture is very familiar, and it is still the starry battlefield of the battle of the world before the endless years.

Only this time, the focal moment of the inheritance picture is not the ancient night fork or the golden dragon, but it is locked in a humanoid body that makes Ye Xuan very familiar.

That is clearly a three-headed and six-armed ridiculous konjac, even with three torso, backed by the back like a three-headed konjac glued together, up to thousands of feet, breathable and terrifying, not as good as the golden dragon and the hollow giant turtle. It is so powerful, but it surpasses the wild powers such as the Void.

Its cultivation is between the ancient and the ancient powers!

What is even more shocking is that the three bodies of this ancient konjac are completely different.

The first is the flesh and blood, the whole body is black, the fur is shining with faint light, and it is hard at first glance.

The second is the body of the cheekbones, which is full of gray gold and exudes a metallic texture, giving people a feeling of being cold.

The third is an illusory black fog body, breathless, as if there is no generality at all, it is completely a black mist, only two smashing two horrible blazing red awns.

Seeing all of this, Ye Xuan's brain flashed abruptly, and suddenly he remembered why he would feel that this ancient konjac was familiar with it. He clearly saw it...

Chapter 3684: Demon Monkey

In the inheritance of this ancient konjac, Ye Xuan has indeed seen it. To be precise, I have seen a Taikoo konjac that is very similar in shape to it.

The ancient konjac, not a wild creature, existed in the ancient times after the ancients, should be the descendants of the blood of the ancient konjac!

At that time, Ye Xuan entered the core of the evil roots. In the edge of the area, he saw a Taikoo konjac in a large number of strong corpses in the void, but he was tall, but perhaps because of the fallen years.

Too long, at that time, Ye Xuan's retouching from the wreckage of the Taikoo konjac was only a great success.

And the real wild konjac, the difference is too much.

Therefore, the wreckage of the tens of thousands of feet should be only the descendants of its blood, not the real wild konjac!

At the moment, Ye Xuan sees from the picture of the Jiuyi Jinjing inheritance, it is the real wild konjac, the breath is very powerful, and this inheritance picture also represents a **** inheritance of the ancient konjac, not The scorpion bow, the ancient gods of the same kind of claws, is a kind of practice similar to the illusion of the hole.

The difference is that this kind of exercise seems to be also a vein of refining, named the konjac true body, is a special blood secret technique that condenses the body of the konjac!

The inheritance picture soon ended, and Ye Xuan also ended this cultivation and opened his eyes.

Sure enough, the mind was quiet, and there was no system to prompt the sound. His spiritual source nucleus had just evolved from a seven-level nuclear nucleus to an eight-level source nucleus. It is impossible to transform itself again so quickly.

But Ye Xuan's harvest this time is still very big, because the method of condensing the real body of the konjac is just right for him!

On the one hand, there are exactly two emperor-in-one bodies in his hands, all of which are top-quality rare materials that can be melted and used.

On the other hand, according to Ye Xuan's speculation, this time, the tens of millions of troops in the Second Universe are going to the source of all evils. Ye Xuan will follow the past, but now he is not in a hurry, the source of all evils. It is not a good place. Even if there are millions of troops in the second universe, it will definitely not go too far.

With the horror of the furnace, Ye Xuan can be sure that they can't get close to each other. As for entering the furnace, don't even mention it. Don't even think about it.

However, Ye Xuan is still not at ease. He must look at the past. When he needs to take a shot, his current devil's emperor Mo Zhenfeng's identity is obviously not suitable for exposure.

Then, if you can condense the real body of the konjac before then, then everything will be fine.

In the core hinterland of the Evil Source, a lot of ancient starry beasts were born. At that time, Ye Xuan appeared in the image of the three-headed and six-armed Taikoo konjac. Even if it was tossed, even if the second cosmic coalition was in jeopardy, this matter He also has no pressure.

In addition, the konjac has three heads and six arms. It has never appeared before in the outside world. What are the external abilities of the konjac? There is no concept at all.

At that time, Ye Xuan can display more magical powers and techniques, such as the magical mysterious methods and magical powers of the devil, can use the dark fog to display.

The other two bodies of the bones and flesh and blood, respectively, can display the ghost claws and other magical powers, even if these magical powers or techniques, Ye Xuan's previous identities have been revealed, but now in the hands of the Taikoo konjac Reproduction, basically does not cause suspicion.

After all, this kind of life is too rare, and it is not known to the world at all. People have three heads and six arms, and there are more magical techniques to master. What is so strange?

With this in mind, Ye Xuan was excited and no longer hesitated. Even when the relevant information about the real body of the condensed konjac was transferred from the database of the system, he quickly learned everything.

Until then, he discovered that there was a small blood-golden ball in the mind of the brain. It was only the size of the longan. It was obvious that when he took the third piece of the Nine Dragons, he obtained the blood of the ancient konjac. Inherit the relevant blood secrets.

Through this **** secret, the real body of the konjac can be successfully condensed. Otherwise, even if you know the method of condensing and invest more resources, it will be impossible, and it is impossible to condense the true konjac!

After everything was clear, Ye Xuan even took out the two bodies of the emperor who had just gained the immortality of the body and threw them directly into the body system. Soon, the two bodies of the emperor were completely melted. In order to be a ball of light, all materials are traced back to the roots.

This method of condensing the avatar is different from the perfect avatar of the refining devour of the treasure. This is actually a kind of blood condensate, between the avatar and the magical power.

The most important thing is that Ye Xuan's brain knows the **** golden ball hanging in the sea. Without it, it can't be successful.

This blood-gold ball was quickly taken out of the sea by Ye Xuan, and it was also handed over to the body system. It was the first time it broke into the ball of light formed by the melting of one or two bodies of the emperor. Inside, and thoroughly blended, perfect fit!

Immediately, Ye Xuan's mind came with a familiar system prompt: "Hey, congratulations to the host, the konjac is completely condensed!"

Under the big joy, Ye Xuan's consciousness quickly returned to God's internal vision and entered the sea of knowledge in the brain. Sure enough, he saw a three-inch-old wild konjac suspended in the sea, also three-headed and six-armed, with three different states of the body. Body, but closed his eyes, between the black gold dragon scales and the dark green claws.

At this time, Ye Xuan's knowledge of the sea has seven small objects that represent different meanings.

Suspended in the center of the sea, it is still the Lei Di Yin with nine Leiyuan balls!

Surrounded by Lei Diyin, there are six other things that float around the sea.

They are the spiritual source nuclear, the virtual medullary crystal, the scorpion bow, the black gold dragon scale, the ghost claw, and the konjac that has just been condensed successfully!

Ye Xuan had already been unable to hold back, and consciousness immediately withdrew from the sea, and then it was easy to move between the activation of the three-inch konjac that was hanged by the sea.

He wants to try the power of the real body of the konjac. After all, he will enter the star field of the evil world soon. If there is no accident, he should show it in this state. Now you need to know it in advance!

"Hey!"

The faint roar sounded from Ye Xuan's body. This is a sign that all the blood and blood in his body was instantly mobilized and running at full speed.

This moment, the three-inch konjac that hangs in his mind and knows the sea, disappears, turns into a kind of mysterious force, integrates into Ye Xuan's body, and produces some kind of qi and blood power for his body. Mysterious influence.

Soon, Ye Xuan's body began to change, the shape of the body changed, and it steadily expanded, eventually turning into a black konjac about ten feet.

And in the process, there are two other bodies in his body that have grown out...

Chapter 3685: Nether seventh

One is the body of the cheekbones, the whole body is gray gold, exudes a metal texture, giving a feeling of being cold.

The other is the illusory black mist body, the breath is as if it does not exist at all, it is completely a black mist, only two smashing two horrible blazing red awns.

These two bodies are also ten feet high, connected with the back of the flesh and blood formed by Ye Xuan's deity, forming a total of ten six-armed konjac.

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the sixth level of the void!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the seventh level of the void!"

The konjac of the ten-foot high has just emerged, and Ye Xuan's mind has heard a familiar system sound. His flesh and blood is actually breaking through, from the previous fifth-order of the void, to the present. The seventh step of the void!

This is obviously the credit of the konjac!

Ye Xuan's knowledge of the three-inch konjac hanging in the sea is the secret blood of the ancient konjac, which combines the energy ball of the body that was completely disintegrated.

Now, it is Ye Xuan's first activation of the real body of the konjac, which directly led to the evolution of his deity's flesh, and the result is the breakthrough of the realm of flesh and blood!

I have to say that this is definitely a huge surprise, Ye Xuan did not expect it before.

What made him even more unexpected was that Ye Xuan, who was in the state of konjac, was exquisitely exhaled in his body, far surpassing the true strength of his deity, that is, the seventh level of the void, but reached The thirteenth horror of the thirteenth heaven and earth!

Full of two big realms!

This is also understandable. After all, the current Ye Xuan is in the activation state of the konjac, with three heads and six arms.

These three different forms of the konjac body, only the body of flesh and blood is the deity of Ye Xuan, but the appearance is turned into a black konjac because of the influence of the real body of the konjac,

but if it is only this With flesh and blood, then the strength of his cultivation is just the true state of Ye Xuan himself, that is, the seventh level of the void.

He is now three-headed and six-armed, and there are two bodies of the bones and the body of the black mist. These two bodies are formed by the melting of the two body shells of Emperor Yi, and they are powerful.

Under the three-body integration, the overall strength of cultivation is naturally soaring, and the seventh stage of the four-dimensional environment is completely understandable.

Of course, this kind of cultivation is only available in the state of the three-headed and six-armed konjac. Once Ye Xuan releases the konjac, the three-headed and six-armed state disappears, then his cultivation is the strength, and he will instantly return to his true Nether seventh!

The power and strength of the two avatars belonging to Emperor Yi will be retracted and re-converted into a three-inch konjac, which appears in Ye Xuan's knowledge of the sea!

For this konjac body, Ye Xuan was extremely satisfied. After some joy, he began to consider the magical power and ability of the konjac.

The body of the black mist is the simplest. Ye Xuan tries to motivate the flesh-and-blood genius to understand the spiritual core of the sea, and has successfully transferred to the illusory head of the black fog.

With this spiritual source core, the body of the Dark Mist will be responsible for all the spiritual power skills, secrets, and magical powers.

Of course, the three-armed and six-armed konjac's true state of the body was lifted, and was temporarily transferred to the spiritual source core of the Black Mist. It will also return to Ye Xuan to know the sea.

As for the body of the skeleton, after thinking about it, Ye Xuan transferred the ghosts of the mind to the sea and suspended it in the depths of the skull of the **** golden bone.

In the future, this body of the skeleton will be responsible for the display of the Nether Claw. Of course, the shape needs to be changed, and it cannot be exactly the same as the real Nether Paw. This is not difficult.

In the end, it is the flesh and blood of Ye Xuan's deity. It can be directly bombarded with a fist, or it can also be used to sacrifice the blood of the warrior. It is also possible to change the shape. Anyway, this blade has recently been promoted to the starry sky, and the fox The magic blade in the hands of the Lord is only the starry sky to the treasure, slightly changing the shape of the magic blade, when it does not lead to suspicion.

Since then, everything has been done, Ye Xuan has once again had an identity to walk outside, especially suitable for the swaying of the source of the evil, it is perfect to the extreme!

At this point, it has been three days since the retreat of Ye Xuan. Finally, it took a long time to take the Jiu Jin Jin Jing, including the later condensed konjac, which was not completed in a short time.

After releasing the true state of the three-headed and six-armed konjac, Ye Xuan returned to the devil's emperor Mo Yufeng's appearance, waved his hand to remove the ban, and stepped out of the temporary cave house.

The valley outside the Dongfu is quiet in the depths. The large fortresses and fortresses that were originally flowing in the valley are no longer visible. It is clear that during these three days, millions of warships have all been transferred and entered the Shennong Ding.

However, the authority that Ye Xuan had previously opened was only inaccessible. Otherwise, he was not at the scene. In case the Xuanyuan Zijing and Duanmu Xiaocha and Zhao Qianru were sneak out from the inside, it would be troublesome.

The three of them slipped out and didn't really tighten. If something was done before slipping out and brought out something, it would be a headache.

In order to prevent this from happening, Ye Xuan can only do so.

That is to say, all the magical powerhouses that started the millions of warships entering the inner space of Shennong Ding are still in the space of Ding, and it is estimated that they have now assembled and closed, all gathered in a fortress, only to be Xuan temporary open access, this big fortress full of the devil strong, can be driven out of the Ding interior space.

Ye Xuan escaping a glimpse into Shennong Ding, originally intended to inform Sinas, he is about to open the right, let him be ready, with all the magical strong, take a starry fortress, from Shennong Ding Out of the mouth.

However, the scene that I saw in the eye, let Ye Xuan stay for a moment, and the conscious consciousness that just entered was back.

"I rely on it, this crazy girl is going to heaven!"

After a swearing mouth, Ye Xuan shook his head and smiled, and then hesitated. When he even rushed to the Dingkou of Shennong Ding, his body shape quickly disappeared from the nine-color fog that hangs over the dingkou. Inner space.

Soon, its shape appeared from the horizon of the inner space of Ding, and directly fell to the vast plain on the north side of the crater of the central volcano.

At this time, the surrounding area of the volcanic ring of the central area has been densely packed with large and small fortresses and fortresses. The total of a million ships is so cold that it is extremely shocking.

But what is even more shocking is the scene on the north side of the plain.

Tens of thousands of devils are strong, and they are squeezed together in black, all holding their heads in their hands, squatting on the ground, full of anger.

Tens of thousands of people are holding their heads at the forefront of the camp. It is the black-faced Chanus. At the moment, he is also there, holding his head in both hands...

Chapter 3686: Sure enough there

At this moment, the heart of Wenxing's old ghost is collapsed!

Even now, he is the second avatar of the mechanical source core. It is far less powerful than the first one, but at least it has the strength of the 14th dynasty.

But at this moment, it was deceived by three gimmicks who were only in the darkness of the world. All the cultivation resources and magic weapons of the possession were all collected and not counted. They had to be regarded as prisoners and squatted. It was a full two days. !

This is simply terrible!

If you still have to rely on the identity of Chanas and the closeness of the Emperor Xuan, try to follow his side and slowly unearth the secrets of him. He simply can't wait to shoot immediately, and slap the three crazy slaps on the spot. Now!

"You three crazy gimmicks, no matter what time you go to the house for three days, what kind of moths do you want to make?"

Just as his heart was in anger and anger, the figure fell on the sky. It was the Xuan prince who appeared in the devil's emperor Mo Zhenfeng. The face of Chanas was bitter. When he got up and greeted the past, he screamed and said: "Sha Da Adults, you can always come, and if you don't come, we can't really go on. It's been here for a day or two, not to say that we are enemy invasions!"

Enemy invasion?

"Oh..."

Ye Xuan knows in seconds, and instantly understands what happened, and suddenly he slammed his face in pain.

For a long time, this girl took a large fortress and fortress to Shennong Ding as an enemy of the invasion. This is really a dog, and I don't want to think about it. If people really invade, they can The guns did not let go, and the last million troops were captured by their three little gimmicks. Who are you?

Xuanyuan Ziyang three gimmicks also know that this is a misunderstanding, the face of the sly color, each person took out a space box, turned to the face of grief-stricken Chanas, did not dare and Ye Xuan was more tempered, and he fled as if he had turned to the central volcano.

"Okay, it's just a small misunderstanding. The three gimmicks have paid for it. This is the end of the matter. Go to the ship and I will open the door and go out immediately!"

After that, Ye Xuan waved his hand and plunged to the Shennong Ding Ding of the sky. There was no time to clean up the three gimmicks. He also remembered the second space of the Second Universe.

Behind him, Chanas's resentful cry came: "This is not compensation, it's a retreat, and there are thousands of demons who have been searched by them!"

Ye Xuan's body trembled, and he felt that he was black in front of him, and he almost fell from the air. This crazy gimmick, and spent a long time actually went to the blame of this bonfire...

.....

Ye Xuangang rushed out from Shennong Ding, followed by a 100,000-meter-diameter star fortress, and rushed directly to the atmosphere of the Emperor.

After the access rights were closed, Ye Xuan waved Shennong Ding into the body, and then stopped staying, plunging into the air and rushing toward the Emperor City.

After a short period of time, inside the royal palace of the Emperor's inner city, Mo Taiye, contemporary emperor Mo Qigong and Mo Huang Mo Wentian and other democrats of the royal family are present at the seat, telling Ye Xuan about the external situation these days. Variety.

"At present, it has been confirmed that the Second Universe Allied Forces suddenly made a big intrusion into the First Universe. The ultimate goal is the star of the evil source not far from the Tianji Star Field."

"Yes, although the millions of troops of the second universe are still on the way, it takes about ten days to reach the source of the evil, but there are already ten star owners who have left the main force and arrived. In front, I arrived in the starry field of the evil in advance yesterday, and I was guarding the periphery of the star field. It is strictly forbidden for any star ship of the first cosmic slave group to approach!"

"Because of the sudden migration of the Tianji City, the first-level main network of the First Cosmic Star Network is completely flawed. The first universe at the moment has no primary network signal covering the entire universe, but the ancestral land of each slave group. There are two-level star network, and several ethnic groups can still communicate with each other instantly."

"So, when the news about the specific situation of the source of evil is passed to our demonics, it is basically one day later. That is to say, the latest news we have received is what happened one day ago... .."

"Now all the first universes have been eager to move. After all, all ethnic groups originally thought that the Second Universe Allied Forces suddenly invaded the First Universe. The goal was to come to the Heavenly Earth, but now all the truth is clear, the first universe Suspicion, doubts must have some kind of great benefits in the source of the evil, otherwise the second universe of the various nationalities will be so motivated?"

"At the moment, the space squad and the **** ants, both of the servants of the same tribe, have jointly issued a statement calling on the first cosmic servants to form a coalition again, rushing to the source of evil, their slogans are also very Directly, the source of all evils is the source of all evils in the first universe. No matter what the benefits are, it should not be the second universe of all the coalition forces to pick the fruit."

"In addition, this news should have been learned by the Terran of the Third Universe. After all, the frontier of the Devil's Star Field is the large-scale cosmic wormhole that connects the third universe. In that area, the third universe. The traces of scouting activities are still relatively frequent, and this matter cannot be concealed. In the next three days, it will spread throughout the three universes!"

"At that time, the two camps of the Third Universe must have some action. Without any accidents, the battleships of the immortal dynasty and the starry battleships of the Ten Heavenly Palaces will all come."

"Even in the Federal headquarters of the Vatican, they will not sit idly by. The flag of the Second Universe Federation has been attacked by the patriarchs, claiming that this is the grievance between the second universe and the celestial beings, and the Terran and the Vulture. The federation has nothing to do, but now lies are being dismantled, even if it's just for face problems, the Faroese Federation can't have any action!"

"It's not good, the law enforcement department of the Federal Monitoring Institute of Varo, the Senlan Fleet, will be fully launched..."

Having said that, the tops of the demon royals received their voices at the right time, and they did not continue to talk about them, but all of them came together and landed on Ye Xuan's face.

Obviously, this is waiting for his response, I want to hear what he thinks and opinions about it!

"Sure enough, the ultimate goal of the Second Universe's coalition forces is really there..."

If thoughtfully nodded, Ye Xuan turned to look at Mo's grandfather and responded without hesitation: "Understood, whether it is the battleship army of the immortal dynasty of the Third Universe Science and Technology Camp, or the starry sky battle of the comprehension camp, The Senlan Fleet, including the Federation of the Viro, came to the first universe, and wanted to go to the source of the evil, all of which had to pass through our magician, and you mean nothing... let's do a few more votes. In the name of the toll, how many strokes are you slamming?"

"Hey!"

"Hey!"

.....

The voice just fell, the sound of a large table and chairs rolling, the demons in the hall, the royal strong, even the people with chairs, all planted a four-pronged...

Chapter 3687: Robbery

"What are your reactions?"

Looking at the top of the demons, the tops of the royal family climbed from the ground with a strange look. Ye Xuanton felt very hurt. The white eyes turned and the tone resentfully said: "I am not kidding. The devil's star field was originally a demon. People of the human race, nowadays it is rare for the top forces of other cosmic planes to come and go from here. The opportunity is rare. Can't you pay for the toll?"

Speaking of this, Ye Xuan paused for a few moments, seeing more than a dozen of the devil's royals all re-sitting, and then he said: "There is a story in my hometown, and the situation of the first universe is almost the same... "

"In the beginning, an extremely precious mineral deposit was produced in a certain area, attracting countless strong people to go to the mining, but to reach the mining area, it must pass through a large river and cannot fly by, only ferry!"

"Therefore, there was a ferryman on the river. Others flocked to the other side to mine the mine. However, he traveled to and from the banks of the river for many years. He ferried for countless excavators, only a small amount of ferry was collected at a time, knowing the final result. ?"

"In order to compete for mineral deposits, the mining area has been in a fierce battle, and it has been attracted. The diggers who crossed the river by his ferry have fallen at least six or seven percent, and the remaining three or four percent are also for the big forces. Coolie, and ultimately earned a lot of people, just a handful of people."

"Where the ferryman is accumulating, he only collects a little bit of money at a time. At the end of the day, although he can't compare with the few people who ultimately benefit the most, he can't go anywhere, at least without any risk. Don't earn..."

After listening to this story, Mo Taiye and other devils and royaltys are all deeply pondered. This story is fascinating and makes them feel like a slap in the face.

The current Demon people do not have the same level of equality with the Terran immortal dynasty, the Ten Heavenly Palace, and the Second Universe. If the entangled army enters the source of the evil, the final result will no doubt be the sixty-seven. One of the fallen diggers.

However, if, as Ye Xuan suggested, the family will stick to the magician's star field, no matter which force will travel between the first universe and other cosmic planes, it will pass through the magician's star field. Tolls, accumulated, are also a great resource.

Even if it is not as good as the source of the evil source, it is at least not dangerous.

These forces of the major forces of the Devil's group, the whole mind is in the source of all evil, eager to pass, who will care about the little tolls of the devil's group?

Of course, the so-called tolls can't be too meager, otherwise it's not profitable, it doesn't mean anything. It needs to grasp a degree, just stuck in the satisfaction of the devil's group, and it happens to be those who pass. The extent to which the forces of the Devil's Stars are barely acceptable.

In this way, the benefits embodied in the ferry fee can be maximized as much as possible!

After trying to understand this, the high-ranking demons of the royal family in the hall suddenly realized that when they looked at Ye Xuan again, their eyes were full of admiration. Mo Taiye and others even praised...

"A word awakens the dreamer, the prince really has great wisdom, and the heart is called the old man admire!"

"Yes, in the face of this kind of group that can attract a whole universe, all the ethnic groups will be built into a million-dollar coalition, and the general forces and the strong will know. The first reaction is not to be jealous, to compete, to be able to There are so cool heads of your kid, and how many of them are concerned about the interests and gains?"

"Oh! It's awkward, it's really a misunderstanding of the little friend, the old man is ashamed..."

"It seems that our demonic group chooses you as an ally. It is really wise. These problems have never been considered by the emperor. They have been entangled in how many forces of the faction have rushed to the source of all evils. Oh, this time, I am afraid The space mouse and the **** ants and other ethnic groups will eventually fall into a loss of soldiers, but there is no result. With them, how can they compete with the top forces of the second and third universes?"

.....

"If there is no accident, the Terran camp of the Terran Camp and the immortal dynasty of the science and technology camp, and the army of the Senlan fleet of the Vatican Federation, should come soon. These three forces must always be secretly watching, the army. It has already been assembled, just in case, so the first time I receive the news will come."

Without waiting for the devils of the royal family to finish the words, Ye Xuan once again threw a blockbuster: "When the three men passed the Devil's field, after they had finished their toll, I would Departure, rush to the source of the evils..."

Upon hearing this, the high-ranking elites of the demons opened their mouths at the same time, staring at him in a daze, and the brains were in a hurry. For a moment, they all had a messy feeling in the wind.

For a long time, this kid said for a long time, Dun Dun was so tempted to let the demon people stay here to collect the fare, but he still has to go to mine?

"Don't look at me like this, you are a group, but I am a person, and then, after the source of the evil, I will not show people as the devil's emperor Mo Yufeng, but will Change your identity, so it doesn't matter how you make trouble..."

Ye Xuan rolled his eyes and saw the tops of the demon royals shaking their heads and laughing, but no one said anything more, knowing that they basically recognized their own words.

This is what he said, and then he said: "In addition to the fleet of the three forces that I have just said, there must be some small forces in the third universe, or a separate family and a loose joint group. I can't always be here."

"And the four battles in my hands are left to be useless, you can't control it at all, but it's just a battle and a town, so I mean, take advantage of these days and build a few more. seat....."

"On the seven seats, plus the mental warfare at hand, just eight. At that time, there will be four on each of the virtual defense lines on the sides of the magic king Samsung, plus three million each. The battleship can basically stay in the field."

"At that time, whether it is from the forefront of the Devil's Star, if you want to enter the depths of the first universe, or come from the depths of the first universe, you will want to go to the front of the devil's star field, the universe will be on the face. When I met four Star Wars, I wouldn't let it pass without paying the toll!"

Upon hearing this, the tops of the demons were suddenly stupid, and their faces were dull.

After a long time, Mo Qigong suddenly said: "But... we can't make seven spiritual wars in a few days, and we have to retreat 10,000 steps. Even if it is made, there are not so many people. Into the control, all the tribes of the entire demonic group, at most two come together in the spirit of war, when millions of warships are not opened..."

Chapter 3688: Senlan fleet is coming

"Who will let you get the real battle? In that case, the time is too late. When will the seven battles be built?"

Hearing the words of Mo Qigong, Ye Xuan even woke up his eyes and awakened the dreamer: "The seven war lords can only get a shell, and they can't all be black." I have to get one of the four battles in my hands, and the other three will look at it..."

"Even the millions of troops of the Second Universe Federation have paid the process fee, plus I will stay here and wait for the Senlan Fleet of the Vatican Federation, as well as the space battleship of the Terran camp, the science camp. After the passage of the dynasty's fleet, it will leave."

"Unexpectedly, the fleets of these three forces will also pay the tolls. After all, they are rushing in, for the sake of the creation of the source of evil, will you be too entangled with us here?"

"At that time, even the fleets of these three major forces are like this. The rules for the tolls of the Devil's Stars must be thoroughly spread. At that time, which small forces will dare to make heads-heads? Isn't that looking for death?"

Speaking of this, Ye Xuan grinned: "Of course, if a certain fleet of these three forces does not want to pay the toll, it is just right, take them to sacrifice a knife again, so the effect is better, anyway, my four battles Among the la, after these days of recovery, now there are already two strikers, enough to give them a painful blow!"

The two battles that Ye Xuan said are the years of war and the emptiness of war.

Both of these war lords were provoked once in the early wars. The tens of millions of troops of the second universe have recovered almost when they cross the border, and four days have passed, just to recover.

In the end, a group of demon royals discussed it and approved Ye Xuan's suggestion. The instructions for building seven empty shell wars were quickly issued. I believe that it will be done within a few days. Anyway, it is a huge war. The empty shell is only necessary, and it is not necessary to use special materials that are transmitted by the applicable mental strength and have an increasing effect in the conduction process, which is convenient.

In the end, Master Mo also told Ye Xuan that the dozens of star lords of the Devil's group will basically stay in the Emperor Samsung, but he will rush to the source of the evil with two other star owners.

After all, even if the demon community does not participate in this competition, it is impossible to stay out of the game, even if it is in the past to look at the situation, it is necessary.

He 叮嘱 Ye Xuan, when the three of them will change their identity, will not show people in the face of the devil, but Ye Xuan saw three star owners and strangers together, you should know that they are.

Ye Xuan nodded and then said: "The same, when you see a three-headed and six-armed, that is me!"

This sentence suddenly attracted a group of demon royals who were stunned. I wonder if he is joking or really awkward, three-headed and six-armed? What is this ghost?

.....

Ye Xuan's guess is correct. On the same day, the Emperor's star received a message from the front scout, the large-scale plane-level cosmic wormhole that connected to the third universe, and began to have a warship rushing out. The army is gathering quickly!

In fact, the three observations from the third universe, two or three days before the devil's group, have already learned that the ultimate goal of the Second Universe coalition is directed at the source of the evil.

These three 10,000-meter-old fort have always followed the rear of the tens of millions of troops of the Second Universe, and observed the three forces within the Great Fort, all of which are in the second universe of the various ethnic groups in front, but these The status of the various ethnic groups should not be too high, at least not high enough to know in advance the final direction of this tens of thousands of troops.

When they finally found out the news, the first universe was secretly revealed, and was learned by the three observations that followed.

The three observations of the Great Fortress took the initiative and did not continue to follow. The news must be fed back to the third universe in the first time, so they returned with a journey, opened the hidden array, and entered the magical field. A large plane-level cosmic wormhole at the front of the Magician's star front.

At this time, the army that is connected outside the cosmic wormhole that connects the third universe is the Senlan fleet of the Federation of the Vatican.

In fact, the fleet of forces of the three major forces of the Federal Republic of Tens, the Ten Heavenly Palace and the Immortal Dynasty have already been in the funeral starry field at the other end of the wormhole before the millions of troops of the Second Universe passed the Devil's Star Field. The assembly is complete, and the scale battles of this scale, they have to plan ahead, the relationship is too big!

For this reason, in determining the ultimate goal of the Second Universe's allied coalitions to invade the First Universe, it is not the same as they said before, but the confrontation with the Celestials, but the source of the evil. After some kind of great creation, the fleet of the three major forces decided to go to the first universe even if they mobilized!

Among them, the Senlan fleet is, after all, the official law enforcement fleet of the Vatican Federation, blaming the banner of the Second Universe and allied forces, so the immortal corps of the immortal dynasty, and the starry sky battle of the Ten Heavenly Palace, politely Let them enter the cosmic wormhole first and rush to come...

After learning the news, the Emperor Mo asked the day to order, the 5 million warships of the Devils group immediately set off, and went to the outer defense line that is 10 miles away from the Emperor Samsung, cutting off the main route to the first universe. Waiting for work, waiting for the arrival of the Senlan fleet.

One day later, Ye Xuan was informed that the 5 million warships of the Senlan Fleet had been assembled and were following the main route of the starry sky leading to the first universe, heading towards the Emperor Samsung, and arriving half a day later!

He immediately set off, left the Magic Emperor Star, and rushed to the Devil's Samsung outside defense line. After the void in front of the five-million warship defense line, he waved out the four star-studded battles in the body and waited for the spiritual battle there. La is lined up, and the five battles are once again vain.

Half a day later, the Senlan fleet came, and the flagship fortress was responsible for commanding the entire fleet. It was the Guardian of the Federal Institute of Supervision, and it was still the Emperor of the Emperor.

This Fansen Blue fleet dispatched nearly half of the troops and denounced the Second Universe Coalition. Therefore, Long Hao, who was the guardian of the Supervisory Academy, personally led the army.

At this time, Long Yao saw the star-to-air main route leading to the first universe of the universe, densely filled with the battleship of the demon group, and there were five battles in front of it, which could not be twitched by the eyelids.

Then, he used the starry voice system of the flagship fortress at the foot to shout: "The devil, don't misunderstand, don't be nervous, we are not invading. We are the Senlan Fleet of the Federal Inspectorate. We came to the First Universe to come to the Second Universe and support the coalition. It is to help you. You should let the road open so that we can pass..."

Chapter 3689: One percent

"Old things, are you convulsing your brain or not waking up? What is this king waiting here? You haven't figured out the situation yet?"

After waiting for the dragon to finish the words, Ye Xuan, who stood on the golden age of the war, even sneaked out bluntly: "Don't be confused here, what is the hospital of your federation, Here is the land of our devils, no matter who they are, if they want to pass, they must pay the toll..."

"Lessly use those who are useless, if you can't get out, you will go home early, and the poor ghosts will have a big tail wolf? Roll the scorpion!"

"puff....."

Ye Xuan's words have just been finished, and the supervising college of the Senlan Blues' flagship fortress, Zunlong, was smoldered on the spot!

His identity is extremely extraordinary. He is an important member of the royal family of the immortal dynasty. Today, the eldest brother of the immortal emperor is the court of the Federal Institute of Supervision.

Now it was actually robbed by a so-called emperor of a small demon family, and it was directly blamed for being a poor ghost with a big tail wolf. He also told him to roll the scorpion, which is simply unbearable!

"Why don't you scream? It's been dispelled by the king's words. Is it a dumbfounded?"

"Hey, even the millions of troops of the second universe and all the people have honestly paid the tolls. Just because of your small five-five fleet, I want to get away with it. Don't say the door, the window. nothing!"

Although Ye Xuan did not see the face of Long Yao, but the brain can make up for it, he can probably know what it is. At this time, he is comfortable, and he is not pleasing to the eye. Before Ye Xuan returned to the immortal star for the first time. Before he arrived, he was tied to the Federal Supervisory Hospital from Star Dock.

This time, I finally reported the great hatred. In the face of countless powerful people, the feeling of being so degraded, this feeling is really wonderful, so cool!

In the face of his repeated sarcasm, Long Hao wisely kept silent, did not respond, and frowned.

If he relied on his temper, naturally he immediately became furious and swayed the entire demonic group.

However, in order to be able to rush to the source of the evil source in the first time, the warships brought by him personally only had the five million Senlan fleet that had been assembled in the wormhole beforehand.

The Devil's Camp fleet, which is opposite to the main channel of the first universe, is also the size of five million warships. In addition, there are five star wars.

For the horror power of these five Star Wars, Long Hao had seen it many times before, and he has been in the observation castle that the Federal Republic of Venezuela sent.

In fact, even the millions of coalition forces of the first universe, under the deterrent of these five star-studded killers, had to take a soft, pinch nose and pay the toll scene, and he also saw it with his own eyes!

It can be said that for the temperament of the devil's emperor Mo Zhenfeng, he asked himself quite well.

If it is normal, it will be consumed here, and he will not be able to lose face, and the immortal army of the immortal dynasty in the rear, as well as the starry sky squadron of the Tenth Heaven Palace, will complete the assembly in a few days, and will come one after another.

Even if there is a need, the Federal Supervisory Authority can send follow-up fleets to the first universe at any time.

Even if the five star-studded battles in the hands of the Devils are in a big battle, it is only a small ethnic group. The warships are only six or seven million, and they consume energy to kill them!

But that's just normal, but now it's not!

Don't look at the dragon's squad, the name of the Second Universe Alliance in the Federal Supervisory Authority came to the first universe. In fact, his real purpose is to rush to the source of the evil and to steal the creation there.

He couldn't imagine how amazing it would be to make all the ethnic groups in the second universe so powerful.

At present, the Second Universe Allied Forces can reach the source of the evils in a week or so, but he has only just arrived in the first universe, and has fallen behind too much.

He didn't even want to see the immortal army and the starry sky battle fleet that slowed him down. The two huge fleets were also extremely powerful. They all had the size of five million warships. The immortal army was over. After all, he is also the top of the dynasty, and at the very least, it benefits from the other high-level dynasties and the old homes.

If it is caught up by the Star Wars Corps of the Ten Heavenly Palace, the benefits fall to the hands of the comprehension camp, then it is really unwilling...

In this way, after some trade-offs, Long Hao gnawed his teeth, and finally decided to be like the second universe of all ethnic groups, the first to endure a forbearance, the big thing matter, they have to pass the toll, they give them a resource.

The entire fleet brought a lot of supplies, and a cultivation resource was quickly put into the space box and sent to the dragon.

"You go for a trip. I don't feel relieved when someone else does it. Remember, Mo Zhenfeng's kid is crazy. Don't talk to him too much, lest he can make him crazy." , by adding variables!"

During the speech, Long Hao handed the space box in his hand to the deputy next to him. The vice president of the Federal Supervisory Academy honored the wind and asked him to take a 100,000-meter-diameter starry fortress and pay the toll.

After all, in order to maintain a safe distance, the two fleets are now separated by a universe of more than 10 million miles.

"The hospital is reassuring, I will do this thing. The kid is going to cross again. I don't care about him. Anyway, I sent a toll in the past..."

Hongdu Liefeng's eyelids jumped straight, but he didn't take it to heart. He didn't care to take it: "I have handed in a small box of space, I will come back immediately, and I will not miss it!"

Soon, a 100,000-meter-diameter space fortress sailed out of the Senlan fleet, and then the space jumped. After two or three flashes, it came to the void in the distance from the five star-studded battles, only a few thousand miles away. Stop steadily.

Hongdu Liefeng did not dare to take the attendant. He walked out from the fortress alone, and the body crossed the void, and came to Ye Xuan's 100 miles. Then he waved his hand and threw the space box to Ye Xuan, without saying anything. Turning around, he turned back and forth. At this moment, he suddenly jumped up his eyes and had a bad feeling. He didn't dare to delay.

Seeing this scene, Long Hao in the main flagship fortress in the distance nodded.

Soon, Ye Xuan reached out and took the space box, and the gods invaded a search. Compared with the Second Universe, this dragon is really not stingy.

It's just that when he saw that the old man was the old enemy, he was already a little bit stunned. Since the other party gave the opportunity, there is no reason not to use it.

As soon as I read this, Ye Xuan immediately sank, and raised his hand and smashed the space box in his hand toward the opposite universe, and the sound of roaring roared in his mouth: "What's the special thing, send it to Hanako? Since you are so I don't know how to be funny. I changed my mind. The tolls are collected according to the number of fleets. The ratio of one percent is the standard in the future. I will either give the warships or hand over the equal resources..."

"As a punishment, the goods that I just came, don't go, the years of war...had him!"

Chapter 3690: Gone with the world

"As a punishment, the goods that I just came, don't go, the years of war...had him!"

As Ye Xuan's roar came out, the years of war at his feet were launched, and Ye Xuan did not intend to let Hongdu's winds go back alive, including the 100,000-meter-high fortress that he sent him to follow. Unlucky.

On the one hand, on the one hand, it is deliberately let the battle of the years and the war again, once again prove that the star wars in the hands of the demon people, not what it takes to cool for a long time, for his future departure basis.

On the other hand, it is to give an impetus to the fleet of the powerful forces such as the immortal dynasty and the Ten Heavenly Palace that will arrive in the next few days.

With the tens of millions of troops of the Second Universe and the powerful Federal Inspectorate, the two giants have been eating in the Star Wars of the Devils, and any follow-up forces will basically not touch this mold.

Each one will honestly pay the toll fee.

Of course, this so-called toll fee, originally there is no standard, there are rules but no standards, this is obviously not right, Ye Xuan is taking this opportunity to set the standard.

All the past fleets have to leave 1% of the warships, or the cultivation resources of this value.

Take the Senlan fleet in front of us as an example. Five million warships, one percent is 50,000 ships, or equal resources. This is definitely a big war, and there are a few large ships, and the devils have to earn. It's over the sky!

It's justified to make a fortune in troubled times!

At the same time, this standard is because the Senlan fleet has led to the devil's emperor Mo Yufeng's anger, which is tantamount to helping the Senlan blue team and the dragon to pull hatred, fearing that it will pay a high amount according to this standard. All the forces of the toll have to be hated by him in private.

In short, don't look at Ye Xuan's simple roar, the effect and benefits are more than one arrow, it is too cost-effective.

Of course, just destroying the Hongdu Lifeng and sending him a lonely 100,000-meter-diameter big fortress, it is not worth the full blow of the years, so Ye Xuan is at the same time as he is roaring. When the warrior Slim, who was in the town of Lama, issued an order, he made a special explanation. Don't push it all out, and stimulate a small battle of Lawei!

Even so, the scene after the excitement of the years of war is still extremely amazing, and instantly shocked the countless powerful people of both camps...

"Hey!"

With a very slight humming sound, a circle of invisible ripples spread out from the body of the Syracmore slime, plunged into the walls of the core honeycomb nodes, and along the pipes connected to the outer wall, it was passed to the years. Thousands of hive nodes in the battle.

At this moment, the tens of millions of gold slimes in all the hive nodes are all in shape, and the long golden thread under the belly blooms, and then the whole body is golden, and the layers of gold are on each other. Superimposed, gathered together.

Eventually, from pale gold to rich golden color, if it is spiritual, it rushes into the four walls of the honeycomb node, and traces back along the outer wall of the pipe, in all directions, rushing toward the core honeycomb node!

All this was done in an instant. At the end of the day, the rich golden mantles gathered from thousands of hive nodes all came together and entered the core honeycomb node, which is located at the core of the central area of the ninth lap of the huge trumpet. The hive node is suddenly bright and completely transformed into a golden world.

At the same time, a wave of waves like a tidal golden dragonfly spread out along the battle, and in front of the huge bell mouth, a golden fan-shaped ripple was developed and quickly expanded forward.

The first wave represents the tide of the years and the power of the years, turned into a huge golden fan shape, ruthlessly pushed away...

"Save me! No..."

At this moment, Hongdu Liefeng, who turned around and turned around, finally knows why he has been jumping wildly. It turns out that this simple matter of sending a toll is a big robbery for him.

It seems that there is no life at all... life and death!

Nowadays, he is very remorseful, his intestines are green, and he knows that the guy behind him is crazy. He actually decided to pick up this errand very incomparably. It is too embarrassing to die.

Unfortunately, this awareness came too late.

Just as he screamed, the fan-shaped golden years of tides that represented the power of 10,000 years were coming.

Indulge his body shape in an instant!

The power of 10,000 years of long years, instantly blessed him, with the strength of the Hongdu Liefeng, simply could not hold back, his flesh was stripped of blood and flesh, turned into white bones, and finally the bones were decaying. For the fly ash, it is completely annihilated in the golden tides that are still flowing.

In the next moment, the fan-shaped golden years covered the 100,000-meter-diameter starry fortress that sent him.

"boom....."

A huge roaring bang came, but there was no explosion of fire. The 100,000-meter-diameter starry sky fortress was smashed and smashed. The keel collapsed and completely melted into a canopy. Garbage, floating in the void.

The eternal glory of the star's main world can still be stunned, but for the chilled warships without life, it is completely different. It is just the tidal wave of this wave of years, the whole fortress has been disintegrated... ..

This happened too fast, and it was not enough. When the first wave of golden years of tides disappeared, the winds of Hongdu were completely gone. The 100,000-meter-diameter starry fortress was also turned into a pile of cosmic garbage.

Only one wave of tides has solved everything.

But it is only this wave. If it is enough to solve the target, there is no need to continue the second wave.

But the last time, when the time of the battle against the second cosmic color of the second cosmic singer, but the three-golden golden tide!

That is to say, the current years of war, at least can also stimulate the two golden waves of the same power, and in fact it is.

Ye Xuan deliberately only issued a wave, that is to tell the follow-up of other fleets, even if the force of the Star Wars will have a cooling period, but at least, the years of war has not been fully stimulated, and can be restarted at any time.

As for the other battles, let alone, rest for so long, this time has not been used yet...

It was also at this time that Ye Xuan's roaring voice rang again: "The poor old man, you have already angered the king, and now only give you a time to scent, or hand over 50,000 warships or equal resources. Either go out immediately."

"Otherwise, the king immediately ordered, five battles were fired, and you were killed on the spot! Anyway, my devil's group is not only the five warships, but three of them are about to come over, and the volley is once again welcoming a brief cooling period. Just kill the chicken and monkey, once and for all..."
