

Super D. S 369

Chapter 369: Bao Shuzong

"Yinyue Group is a horrible group of thieves in this area. There are countless treasures in the silver moon thief and the silver moon lord. There are also many ores and celestial bodies..."

Ye Xuan took out a lot of useless ore and the next product, these are the food for Megatron.

When Megatron saw the piles of food, he jumped excitedly and began to eat wildly.

"How, follow me, okay?" Ye Xuan asked.

Megatron heard the words and nodded quickly.

It has taken the growth plan of the holy beast, as long as there are resources, the speed of its growth is not much slower than Ye Xuan.

In addition to these things, there are naturally many good things.

There is a large amount of martial arts in the Yinyue sect, and there are more than 30 swords in the heavenly level.

At the moment, Ye Xuan is the fusion of these heavenly martial arts.

"Hey, the fusion of martial arts failed!"

"Hey, the fusion of martial arts failed!"

"Hey, the fusion of martial arts failed!"

A system prompts to sound.

"Nima, is this success rate too low? I have merged twenty-five times and consumed fifty different levels of martial arts. I have never succeeded."

Ye Xuan is slightly helpless. He estimates that the probability of this martial arts fusion may not even reach 5 percent.

He has many years of experience in online games. He feels that this martial arts fusion is a bottomless pit!

Although the Tianfeng swordsmanship is only inferior in the lower-grade martial arts, it has been trained by Ye Xuan to become a fire. Ye Xuan thinks that if he does not get the best martial arts, he still uses the Tianfeng sword first. law.

There are a lot of good things in the sacred ring of the silver moon patriarch. In the next time, Ye Xuan is there to check.

"Well? A map?"

Ye Xuan suddenly took out a quaint map.

This map is painted on a kind of animal skin. It doesn't look like a treasure map, but it has a place and a paragraph.

After reading it, Ye Xuan also understood what this map is.

This is indeed a treasure map, but there are countless maps like this, and the place where the fork is drawn on the map is a site called Baoshuzong.

"It turned out that some people discovered the site of the Baoshu dynasty that was destroyed thousands of years ago, but there is no strength to explore it. So, using such a method, gather a large number of masters to explore in the past?"

The location on this map is just a gathering place. No one knows the entrance to the sect. If you are interested, you arrive on a specific date.

"Bao Shuzong, let me check to see what this is."

Ye Xuan thought, just left.

Obviously, he is very interested in this site, and it is only half a month away from the gathering, he must be prepared.

He first flew to a city in the Megatron, and then inquired about the news of Bao Shuzong.

Bao Shuzong was considered a famous martial art thousands of years ago, and women and children are well known.

When Baoshuzong developed to the peak, he had three thousand disciples, and the sovereign was the master of the power of the fifty dragons.

The disciples of this Baoshu Zongli, everyone will plant Tiandi Dibao, the supply of Tianmudibao in that area is almost all from Baoshuzong.

However, something happened later that led to the destruction of the Baoshuzong.

Bao Shuzongli suddenly came up with a saying.

It is rumored that Baoshuzong planted a colorful treasure tree. This colorful treasure tree can produce a colorful fruit every ten years. If someone takes this colorful fruit, it can directly break through the power of sixty dragons.

At that time, the master of the strongest sectarian in that area had the highest power of fifty-five dragons.

Ten years have produced a colorful fruit, which means that a decade can be used to cultivate a master of sixty dragons.

Therefore, this Baoshuzong became the target of all people, and was united by several sects.

The high-level of Baoshuzong was completely degraded, and his disciples were killed and injured.

However, when these joint sects had destroyed the Baoshuzong, they discovered that there was no such colorful sap tree. Some people deliberately released the wind and they were used.

However, things have already happened, so they did not do it all the time, the Baoshuzong was demolished, the resources inside were looted, and the Baoshuzong was destroyed.

The map that Ye Xuan got today does not know who passed it. The words on the map indicate that the colorful treasure tree is real, because the treasure tree that was destroyed thousands of years ago is only used to hide the ears.

The colorful treasure tree is in another place, and the person who cultivated the colorful treasure tree is the master of the treasure tree.

In this regard, Ye Xuan is also skeptical of this authenticity, but he estimates that there will be many people will choose to go.

If the colorful treasure tree really exists, then it must have produced countless colorful fruits, a colorful fruit, enough to make everyone crazy.

Moreover, Ye Xuan has already made a decision, he has to go.

Because his auxiliary blood has not yet been upgraded to the top, and he wants to raise the blood of the flower to the top blood of the resilience - the blood of life, it takes a thousand years of plants.

In this area, the millennial plants are extremely rare, at most, there are hundreds of years of heaven and earth treasures, which have never been heard for more than 500 years.

So, this is the opportunity of Ye Xuan.

If you can get a colorful fruit, even if it is a core, you can let him redeem the blood of the sacred tree of life.

At that time, he is a small strong who can't die.

Of course, this time the goal is mainly colorful fruits.

If you let him get a colorful fruit, you can break through the power of sixty dragons. When you use the violent words of the Beastmaster, you can suddenly increase the 18 dragons, plus 20% of the movement speed bonus, he The strength will reach a terrible realm.

If there are really colorful fruits, he must get it!

At this time, there was still half a month from the gathering time, but the gathering place was far away from him, so he could not delay, and immediately let Megatron take him to the designated place.

This flight is half a month!

"Before the place where Yinyuezhong, Shuiyuezhong, and Xiaoyuezhong were located, it was too remote. The strongest is the power of the 30 dragons. The sects in this area are almost more than 30 dragons. The strength, the strongest is to reach sixty dragons, it is terrible..."

During the hurry, Ye Xuan also saw a lot of things, such as killing people and winning treasures. Even the battle of the forty dragons has seen many times.

At this point, he has already arrived at the agreed place.

Looking at the large group of people underneath, his look is also a stiff.

"There are a lot of sects in this area. There are ten people wearing uniforms, plus those families and those who don't have any arbitrarily armed people, the number has exceeded 500."

Ye Xuan's heart is a dark sentence.
