

Super D. S 371

Chapter 371: Positive Lord appears

"it is good!"

As the first man nods, he also knows that there will not be too much gain, and as the captain of the team, he naturally wants to give the players some benefits, so that the team is not easy to disperse.

Long-haired men are no nonsense, and they plunder directly toward Ye Xuan.

The power of thirty-two dragons!

Beyond Ye Xuan is a full four dragons.

Even the elite of the big faction, in the face of the gap between the four dragons, must be careful.

However, the long-haired man of the force of the thirty-two dragons is still in the hands of Ye Xuan.

Although Ye Xuan has only twenty-eight dragons, his daily remnant method is trained to 60% of the fire, and with the 20% movement speed bonus, he is faster than the long-haired man. 30%.

30% speed, enough to kill each other!

Another head flew up and rolled into the hands of the headed man.

And Ye Xuan, has already taken away the death of this dead person.

"Oh? It's a lot of things."

Ye Xuan unknowingly swallowed up the things in Qiankun's ring, and his strength has improved a lot. At this time, he is approaching 20 Kowloon.

Seeing that Ye Xuan did not agree with it, the head of the man shimmered and said: "I didn't expect that I would look at the eyes twice in a row. Now I will give you a chance to join us. I can never bother with the death of both of them."

"Join you? I am afraid, you are not qualified!" Ye Xuan shook his head and clasped the eight-year-old sword.

At the same time, he also glanced at it, and many people around him seem to have noticed it.

"If that's the case, then go with them!"

The first man screamed, taking out a big knife and rushing toward Ye Xuan.

The power of thirty-five dragons!

The power of twenty-eight dragons!

These two realms, but the gap between the seven dragons, even this elite of the regional sects, I am afraid it is impossible to cross such a big gap.

The people around me are also guessing where Ye Xuan is the child of the other forces, and can actually challenge.

Some people even guessed whether Ye Xuan would give the master of the thirty-five dragons power.

However, most people think that Ye Xuan is in the hands of the other party, and has not done a trick!

"Hey!"

As the first man fell, Ye Xuan held the eight-year-old sword and resisted it.

"How can this be?"

The first man felt incredible. At this time, he suddenly realized that the flying dragon that Ye Xuan had circled outside his body was much more.

Twenty-eight dragons, two big, eight small.

Now, there are only ten, three big, and seven small.

The power of thirty-seven dragons!

More than him!

In the meantime, the head of the man is an epiphany. Ye Xuan must have used the martial arts to enhance the realm.

However, this kind of martial arts can only improve one to two dragons. There are very few upgrades to the three dragons. I have never heard of the power of Kowloon.

"Tragic, forget about this thing, and, before the time comes, first upgrade the strength, self-protection!"

Ye Xuan's face sinks, a sword will fly a big knife, and then the body shape flashes, that is, there is a human head landing.

Spike!

Using the violent beast of the Beastmaster, he directly rose up to Kowloon and reached the power of thirty-seven dragons.

Coupled with a 20% movement speed bonus, even if he does not use body martial arts, it is comparable to the forty-five dragons.

Spike a thirty-five dragons, it's easy!

After killing the head of the man, Ye Xuan quickly put the ring into the ring and then swallowed it.

"Hey, the host has broken through the power of twenty Kowloon!"

The prompt sounds, and the dragons outside Ye Xuan's body are once again increased.

Thirty eight dragons!

The audience was paralyzed.

This situation is already beyond their understanding.

Suddenly skyrocketing in Kowloon, after killing people, even a breakthrough in the battle, once again improve the dragon, this is too much against the sky!

Taking advantage of this opportunity, Ye Xuan quickly swept out. In less than two seconds, the remaining four of the team were killed by him.

"Hey, the host has broken through the power of the thirty dragons!"

Another reminder of the sound.

Then, the dragon added another one.

Thirty Kowloon!

"Tragic, the body of the sacred beast is only enough to use the Beastmaster once again."

Ye Xuan is somewhat helpless. These people have not many corpses in the sacred sacred ring. Plus his own, it is only enough to use the Beastmaster violently.

Therefore, he can not waste this time.

"go!"

After killing seven people in a row, Ye Xuan turned and fled. He wanted to create an illusion for the rest, so that these people thought that his beastmaster violent had side effects.

Sure enough, after he left, there were quite a few people who followed up, with more than 30.

These people are all over thirty dragons, and there is a master of forty dragons who leads the masters of the family.

This group of people followed Ye Xuan and also caused the ideas of the major forces, but they did not care.

After all, there are hundreds of people here, less than forty dragons are cannon fodder, more than 30 cannon fodder, nothing.

However, they are surprised that this group of people has been away for a long time, but no one is coming back.

not a single one!

At the same time, among the crowds gathered, there is one more person, Ye Xuan who is the true face.

Only those who chased him more than 30 people have been killed by him, one is not left, even the master of the power of the forty dragons.

His harvest is also huge, let him break through the power of thirty-three dragons.

At this time, he was not afraid of the big factions who had the power of the 50 dragons.

However, there is still a problem that is bothering him.

"Tragedy, the body of the sacred beast is still only enough to use the Beastmaster violent."

He shook his head very helplessly.

at this time.

"You!"

A figure suddenly fell in the sky, a white crane, and the back of this white crane stood in a white mask.

Who?

The hundreds of masters underneath looked up and looked blank.

"You, those maps of the hides, are issued by myself." The mysterious man in white shouted.

When you hear this, everyone is a glimpse.

Lord, finally appeared!

"As those on the map of the skin, I found another site of the treasure tree of the millennium, but because of my lack of strength, I called on everyone to explore."

When the mysterious man in white finished speaking, it was a pause, and then said: "Well, I don't talk too much nonsense, cut into the subject."

"I don't know if everyone knows that this land under your feet was actually a dangerous place called Black Wind Cliffs a thousand years ago. Another planting place of Baoshuzong is in this black wind cliff, that is, At your feet."

After listening to the facts of the mysterious man in white, all the people present were shocked.

It turned out that they were above the site.

"Where is this black wind cliff?"

Someone asked strangely underneath.
