

Super D. S 3711

Chapter 3711: The two kings are hungry.

"Little hair, where are you from?"

"Yes, in the star of the evil, there are only two wrecks of the ancient konjac, and none of them are mothers. Don't fool this turtle. You don't belong here!"

Without waiting for Ye Xuan's snoring, he was stepped on his feet, and the Taikoo Porcupine and Taikoo tortoise that had been screwed up in his hand had already asked for it.

Although the tone is not a reprimand, but there is still a smattering in the vagueness, it is still true that Ye Xuan is indeed a **** and pure Taikoo konjac, and the other hand does mention the domain owner of an intruder. The cause of the skull.

Of course, another reason is because the blood of the ancient konjac is also extremely extraordinary, even in this star of the evil source, it is in the forefront.

In fact, among the two ancient konjac wrecks in the core hinterland of the evil, the Taikoo konjac in the main star of the star, and the two Taikoo porcupines and the Taikoo turtles were friends, but they failed in the impact of the domain. It has fallen.

Therefore, Ye Xuan, who suddenly appeared here in the form of three-headed six-armed Taikoo konjac, has a sense of intimacy in both the Taikoo Porcupine and the Taikoo Turtle.

Otherwise, how can it be allowed to step on the back of the Taikoo Porcupine, and raise the Taikoo tortoise in the domain of the territory, threatening to put it in front of the eyes?

In a word, seeing such a small konjac, the Taikoo Porcupine and the Taikoo tortoise all remembered the old friend who had fallen into the realm of the impact field in the past, and subconsciously regarded him as a kind of existence of a younger generation.

Even so, since it is an outsider who comes from outside the star of the evil, after all, it is necessary to cross-examine the details. If there is a problem, it is not good!

The reason why the Taikoo Porcupine and the Taikoo tortoise asked for it is that they have a decision. If there is no problem with the origin of this little konjac, let it stay, what is the reason?

"I came from a foreign domain, born in a deserted star gorge, following the guidance of the blood in my body..."

Ye Xuan slowly understood the situation. In order to mix with the indigenous beasts, he had to pretend to be a **** stick. His face showed a sacred color and he said the words that followed the blood.

Then he said: "This star field makes me feel kind, I can feel that in the depths of the front, there is a breath of my blood..."

During the speech, he stretched his finger to the depths of the core of the evil roots in front. Anyway, there are two wrecks of the Taikoo konjac. It is an indisputable fact. One of them is more than a few tens of thousands of people. I don't know how many years have fallen. Do you know if it leaves blood outside?

No one can dare to make a final conclusion on this matter.

And Ye Xuan said that he sensed the breath of the blood to the pro, just in line with the facts, so basically can get away with it.

The Taikoo Porcupine and the Taikoo tortoise in front of him, including all the existence of the indigenous beast army outside the tens of thousands of miles behind them, who can think of it, Ye Xuan can say such words, at the root Because he used to come here in human form, even going deep into the furnace?

At that time, there was a breath of deterrentness of the headless baby corpse, and it happened to be a black worm in the heart of the murderous court. All the indigenous beasts in this core hinterland did not dare to take the lead, lest the hair sensation be like crazy. The black armor of the mother-in-law is supposed to be stunned.

Therefore, even if Ye Xuan came over the last time, the indigenous beasts in the depths of this core hinterland have never seen him.

At this moment, when he heard his words, the Taikoo Porcupine and the Taikoo tortoise were basically relieved, and the last trace of doubts in the embarrassment dissipated.

Since it can be said that there is a breath of blood in the front, then it is basically certain that this little konjac in front of the eyes, and the two ruins of the ancient konjac, indeed have a blood relationship.

Even if they are not their old friends, they are the descendants of the eternal konjac of the star's main body. It is also the blood left by the Taikoo konjac, which is cultivated as a more powerful atmosphere.

Although the head of the world has long been ignorant of how many years have passed, the Taikoo and the Taikoo turtles began to consciously. It was a wreck, and there was no life.

Even if it is a wreckage, everyone has been neighbors for so many years, and has long been regarded as a neighbor and a companion. Since the blood descendants he left outside follow the guidance of the blood in the body, then there is no natural person. The truth outside the door.

I thought about it, the Taikoo Porcupine and the Taikoo tortoise even when they released a kind and kind atmosphere, they sighed and comforted Ye Xuan.

"Little hair, welcome home!"

"Don't be afraid, the guys outside don't dare to come in easily. At most, the buffer zone in the central area is crouching, no need to pay attention!"

Even the strongest of the two domains in the main field has already recognized the identity of Ye Xuan himself, and the entire army of indigenous beasts in the distance of thousands of miles, naturally there is no existence and there is no objection.

All the indigenous beasts have dispersed their vigilance and alertness. They have completely accepted Ye Xuan and regarded the three-headed and six-armed konjac as their companions!

At this point, Ye Xuan sighed with relief and completely let go of his heart.

However, although this group of indigenous beasts accepted him, but after each year, Ye Xuan had to go through the deep core of the front to go to the furnace to collect the creation.

In the event that there was no response to the headless baby, he couldn't pass the horror area where the endless wilderness was threatened.

Therefore, Ye Xuan must have a good relationship with this group of indigenous beasts, get their trust, and learn the secrets of the indigenous beasts to avoid the horror of the ancient creatures.

Thinking like this, even if he lifted his right hand with the colorful dagger, he said with a slight compliment: "The two kings, just after a fierce battle, must be hungry? Just when they come On the way, I cut a snake head and baked it. It should be a delicious meal.

When the words fell, Ye Xuan even pulled out the Shennong two-color flame from Shennong Ding in the flesh-and-blood deity, and baked the dagger of this domain on the spot.

Originally, in the absence of Shennong Ding, Ye Xuan could not directly draw the Shennong fire from Shennong Ding in the body to the outside, but since the Shennong fire was because of Xuanyuan Ziyan and Duanmu Xiaocha, Zhao Qianru After the gimmicks were used frequently, so that they were promoted to two-color flames, the fireworks' agility was also improved.

Ye Xuan has been able to pull into the body lightly.

At the moment, as he waved his hand, he pulled out a pair of Shennong two-color flames from the body. On the spot, the domain dagger was baked, and the Taikoo Porcupine and the Taikoo turtle were on the side.

First, the twilight stagnation, and then, a strong radiance.

Ye Xuan just looked up, and with the twilight pair of Taikoo Porcupine and Taikoo Turtle Green Oil, he was scared for a moment, and the two-color flame of Shennong, which had just been pulled out in his hand, immediately smashed and disappeared...

Chapter 3712: a group of food

"Fire? Just the awning? Little hair, hurry up..."

"Bad boy, this is the appetite of the intentional slut. Is it just smelling a little scent, and the fire is extinguished before it is cooked!"

With the two-color flames of Shennong, the Taikoo Porcupine and the Taikoo tortoise rushed to the spot. The latter jumped to Ye Xuan's head again and pulled it between his three heads. It seems that Ye Xuan will hide the two-color flame that has just been pulled out in the gap between the three skulls.

This is not finished, the Taigu porcupine with a large body size has also extended its huge head, and also wants to rummage in Ye Xuan. The huge tone of smoked Ye Xuan is a sly, almost turned to the ground.

At this moment, he realized that he was misunderstood. Just now, I saw that the Taikoo Porcupine and the Taikoo tortoise had all the brilliance of the green oil. Ye Xuan thought that he was hungry. These two guys gave birth to themselves. Interested, I want to swallow myself.

For a long time, it turned out that the Shennong two-color flame was extraordinary. I know that this kind of fire-baked thing is not only delicious, but also a great scent to the flesh. It is just like the effect of smashing big medicine.

Therefore, it will be a green mang, and now it is such a monkey's performance!

Realizing this, Ye Xuan's eyes are bright in an instant. It seems that these indigenous beasts are all a group of people eating goods. Since it is food, what is the problem?

Of all the indigenous beasts, what is the meaning of the Shennong two-color flame in their hands?

It means that I have managed the stomach of these guys since then. For a foodie, what better way to let him follow his stomach?

As soon as I read this, Ye Xuan came to the spirit.

He decided, not only to give the king of the two indigenous beasts a good meal of the Shennong fireworks, but also the army of the thousands of indigenous beasts in the rear, he is also a comer, as long as the other can come out Ingredients, I pulled out a pair of two-color flames and directly helped him to roast.

Anyway, the two-color flame roots in Shennong Ding are inexhaustible. The roots of the same flame are rooted in the depths of the central volcano in Ding, as long as Shennong Ding is not destroyed, the Shennong fire that has been ignited by Ye Xuan, It will always be an endless stream.

In addition, after Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three gimmicks had previously tossed, inadvertently turned the original one-color orange red flame into the current two-color flame, Ye Xuan also understood one thing.

That is, if Shennong Yiyan wants to upgrade, it must be used more frequently and used frequently.

Therefore, to help the indigenous beasts to bake a big meal, for Ye Xuan, it is definitely a good thing to do more than one arrow, so why not do it!

"Pig Lord, Turtle Lord, you just scared me with that look, isn't it just roasting meat? Come immediately!"

"In addition, the tortoise, you are forgiving, don't climb to my head in the future?"

Ye Xuan changed his name in a quiet manner, and the relationship was closer. He waved his hand when he spoke. Even if he pulled out a two-color flame from Shennong Ding again, he continued to bake.

While roasting, he then said: "However, the dagger of this domain is not enough to eat, only ten feet in size, it is estimated that it will be a tooth gap..."

After waiting for Ye Xuan to finish talking, the Taikoo tortoise turned and slammed on the ground and disappeared. After the interest rate, the two shards of colorful colors were dragged over by it.

The Taikoo tortoise is still the size of the squad, but the green hair of the body has been extended a few times, entangled the wreckage of these two colorful pythons, and comes to this speed.

This is definitely the perfect portrayal of the ant's drag. Look at Ye Xuan's glimpse.

What shocked him even more was that the wreckage of the two colorful giants that were being dragged by him clearly revealed the horror of a strong territory. The length of the dagger was seven thousand feet. The tail of this tail is also three thousand feet, which is clearly the domain of the main body of the body, was smashed.

Ye Xuan stunned for a moment, suddenly realized that it is no wonder that the lord of the Caisong family was finally repaired as falling to the star's main territory, and the body of the manter also shrank to only a hundred feet, and was smashed by Ye Xuan.

For a long time, his blood is already self-deprecating, and he stayed in the depths of this core hinterland. The only thing that escaped was the simple color body.

In this case, the Taikoo Porcupine and the Taikoo tortoise are absolutely enough to eat, and there is a full body of dying. Even after roasting, the entrance of the simmered meat is instant, and the Taikoo Porcupine and the Taikoo tortoise are definitely not enough.

Presumably, in the faraway sky, the humanoid grotesque and the newly-received black armor and other star owners, most of them can also take a share!

"So two big cuts, it's a bit extravagant to eat, and the three thousand feet will be kept first, and the next one will be eaten..."

Ye Xuan is pondering. If it is possible to roast the blood of the lord of the Cailu nationality in front of the Second Universe, it is definitely a very powerful thing. This opportunity will naturally not let go.

It was an excuse to find an excuse in the middle of the conversation. After a wave of his hand, he took the three-footed appendix into the internal space of Shennong Ding.

Of course, it is directly thrown into the storage grounds at the bottom of the volcano in the central domain. Otherwise, it will be cheaper than Xuanyuan Ziyan and Duanmu Xiaocha, and Zhao Qianru.

The power of Shennong's two-color flame is far more than the one-color orange red flame.

Not only the baked meat is more fragrant and delicious, but the magical effect of the big medicine is more intense, including the speed of baking, which is also very fast.

Just in the words of Ye Xuan's speech, the size of the ten-foot-colored scorpion in front of him was already baked. It was originally ten feet in size, but now it has shrunk to about seven feet, and some of the ruins have been refined.

At this moment, the whole golden water of the dagger is scattered, and the fragrance is scattered thousands of miles. After all, it is the head of the domain's strong subject, and it has just been degraded. The blood and blood contained in the flesh and blood is too rich.

Not only the Taikoo Porcupine and the Taikoo tortoises, but also the tens of thousands of indigenous beasts in the sky, thousands of miles away, apparently smelled this tangled Different fragrances, all the heads are also fascinated by the light, locked in the golden dagger in front of Ye Xuan, the mouth drooling.

I have to say that this scene is indeed spectacular, thousands of heads of different ethnic groups, star-shaped beasts of different sizes, staring at a baked golden dagger, silently together... I think all of them know How spectacular it is.

However, perhaps it is because considering that this dagger was baked by Ye Xuan. At this moment, he did not do anything, and he did not say anything. Not to mention the indigenous beasts in the distant sky, it was the Taikoo Porcupine in the near future. And the Taikoo tortoise, no matter how sly in the mouth, no polite mouth.

After all, I have already regarded Ye Xuan as my own person, and I am still polite!

"Hey? Pig brother, turtle brother, are you swollen? Are you still eating? I am tired of eating, I am tired of eating, I have to be busy baking the big chunks..."

With a grin and a smile, Ye Xuan quietly brought the relationship closer to a big one, and there was no rhythm of each other...

Chapter 3713: Big

For the change in Ye Xuan's title, Taikoo Porcupine and Taikoo Turtle did not care.

At this moment, their whole mind was attracted to the golden dagger, which is only seven feet in size.

This can be baked in the head of a domain's main color, although the Taikoo Porcupine and the Taikoo tortoise are also domain owners, but the flesh and blood of the same level, especially this kind of roasting, but also Shennong two-color The flames are baked...even they have never eaten!

Don't look at this golden dagger only seven feet in size, but after all, it is the head of the main color pot, which contains the flesh and blood essence that is too rich, even for the Taikoo Porcupine and Taikoo tortoise in the same realm. There are great benefits.

At this point, although they have not yet tasted it, they are the domain lords, and they have already seen it.

In fact, this level of flesh and blood feast, Taikoo Porcupine and Taikoo tortoise are better, and the humanoid mobs and the newly-received black-shelled emperors and other strangers in the distance can also enjoy themselves. The indigenous beasts who have been repaired by Qiankun cannot afford to eat too much, otherwise they will make up for it, fearing that it will be detrimental.

As for Ye Xuan, it is even more impossible to let go of this kind of Bao Xuebao meat.

Yes, he even bakes the treasured blood of the one-legged Jinwu in the main territory. But it is totally different. The realm of the realm of the realm of the realm is indeed the realm of the border, but it has already fallen. Endless years.

Although some of the blood and blood essences remain in the flesh and blood of the remains, even the blood has never dried up, but after all, some flesh and blood essences have been lost in the invisible, spreading to the universe beyond the wreckage. .

Although this color enamel is only the domain of the realm, but after all, it has just fallen, even when he was beheaded by Ye Xuan, he has not fallen, his flesh and blood, and maximized in the residual.

I really want to say that the violent energy in the flesh and blood of this main field is far more than the wreckage of the one-legged Jinwu who has been in the land for too long.

This is why Ye Xuan did not intend to eat more.

In his opinion, eating a dozen-six-thousand-thousand-thousand-sized golden meat at a time is the limit of his present, and it is no longer beneficial. The violent energy in the flesh is raging, but it will hurt Ye Xuan. The flesh is fundamental!

Soon, with Ye Xuan's voice, the Taikoo Porcupine and the Taikoo tortoise turned their heads and looked at each other. Then the latter went up and threw himself on the dagger that was roasted to the golden oyster sauce.

The Taikoo tortoise has shrunk its shape at the moment, only the size of the scorpion, and the dagger that has shrunk to about seven feet, but it is just right. He did not intend to swallow this kind of good thing. He squatted on it at the moment and looked happy and intoxicated. Color, intend to chew slowly and taste good and enjoy.

As a piece of meat was swallowed into his mouth by a small mouth, the entrance became instant, and it became a pure warm energy that spread out in the body. The green hair of the Taikoo tortoise instantly lit up.

This is the rhythm of the treasure that gave birth to Xia Rui, and the countless indigenous beasts who have seen thousands of miles away are looking straight, but none of them dare to come.

The Taikoo Porcupine, which is next to it, was originally in a hustle and bustle. At this moment, the mouth was creaking and it was flowing into the river.

Helpless, his body size has shrunk again, and he can only look like a hundred feet now. His blood is different and he can't compare with the Taikoo turtle.

This dagger is only seven feet in size. If the Taikoo Porcupine is now shutting down, it is estimated that it will be swallowed. Because of this, he has negotiated with the Taikoo tortoise. This seven-foot dagger is from the Taikoo tortoise. As for the Taikoo Porcupine, wait for the seven thousand feet of the giant scorpion blood to be grilled, and then eat it!

In fact, Ye Xuan did not let him wait for a long time.

At the same time that the Taikoo tortoise was drunk in the face of the seven-foot dagger, Ye Xuan had already begun to bake the blood of the 7-foot-tall.

Shennong's flames can be more or less, big or small. After all, when Shennong is turned into a body, it is a horrible giant that is comparable to a giant star.

In the central volcano, which occupies one-third of the area in the interior of the giant tripod, it contains the flames of the gods and peasants... From this, you can imagine the majestic extent of the gods and peasants!

Before it was baked a color dagger that was only ten feet in size, so the two-color flame that Ye Xuan pulled from the internal space of Shennong Ding in the body was only a handful, but now it is to be baked a giant of seven thousand feet. The huge color of the real body, naturally can not be as before.

In the wave, Ye Xuan pulled out a two-color flame with a diameter of nearly a thousand feet, with a strong spirituality, like a double-color dragon, swaying in the void, directly wrapped in the cut-off color, full-speed grilling Made up.

This scene is too big. Not only is the entire indigenous beast army in the void in the distance thousands of miles away, but the Taijiu pigs in the vicinity are slightly trembled. After returning to God, It's already a small eye, and I'm looking at Ye Xuan up and down.

After revealing such a hand, I am afraid that all the indigenous beasts in the core hinterland of this evil source will never have any existence, and will look down on Ye Xuan's manifestation of the Taikoo konjac that is only ten feet tall. It is.

At least, this two-color dissimilar flame was originally extraordinary. It was an extraordinary creation in the body, and Ye Xuan waved a dragon with a diameter of a thousand feet, and this does not seem to be his limit. This alone has been thought-provoking.

At this time, he was afraid that he had not noticed that in the distance, thousands of miles away from the sky, the top 20 stars of the old-fashioned indigenous beasts, watching his eyes almost and the star of the same realm There is no difference between the strong.

As for the more than 20 star lords behind the Qiankun big-level indigenous beasts, it is even more dangerous, because this two-color fire dragon with a large diameter makes them feel a strong sense of crisis.

Even the Taikoo Porcupine and the Taikoo tortoise were thrown into his dawn, and there was a lot of dignity in the vague...

In just a few minutes, the sacred body of the seven-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousands was finally completely baked, and it was reduced to about five thousand feet.

This volume is still extremely horrible, swaying in the void, constantly emitting a fragrant smell, and more golden grease flowing, even Ye Xuan looked a little stunned.

"Hey..."

The first porcupine of Taikoo couldn't help it. He sighed with joy and sighed directly. The whole body was hung on the golden pheasant of five thousand feet, and he was intoxicated while eating and blinking.

Ye Xuan's body was also swept away, and a large piece of golden flesh fell in his mouth.

After taking a bite, he turned to the invaders of the indigenous beasts who had already flown into the river thousands of miles away. "You, the stars and the environment, come and enjoy it together. Anyway, there are so many, we can't finish it, but I will find the ingredients for you below, but I don't give it to you. There are too many key people, and it is not enough. Don't worry, the ingredients are found, I will never give up, there are How much to bake..."

Chapter 3714: Nether ninth order

"Hey..."

"Roar!"

Ye Xuan's words just fell, and the millions of indigenous beasts outside the emptiness of the tens of thousands of people immediately boiled up!

In fact, they did not expect to be able to share a piece of cake. After all, the blood of this colorful body is huge, but it is only a few thousand feet. It is really necessary to divide it. Every indigenous beast must not be able to share it.

What's more, many of them have the strength to be repaired and indeed low. The golden meal cooked by the rich flesh and blood of this newly fallen domain owner is delicious, but for them, it may not be The best tonic ingredients.

However, these indigenous beasts are not low-minded. They have seen the extraordinaryness of the Shennong two-color flame that Ye Xuan waved. Although some of them are also good at flames, they can also roast meat.

But how can the effect compare with Ye Xuan's Shennong two-color flame?

It can be said that even the general flesh and blood, after the baking of Shennong two-color flame, its efficacy will be like flesh and blood, it is definitely a qualitative improvement.

However, Ye Xuan is only a person after all, and it seems that he is only ten feet tall. It seems that he is still in his infancy, so many indigenous beasts, how can he all be so entangled that he uses the Shennong two-color flame to bake meat?

Even if you have the heart, you will never be able to open your face.

But now it's different. This new little hair is still very popular. Actually, I made a promise with a big hand, only to find the ingredients, how many to roast, and whoever refuses.

For the millions of indigenous beasts, there is no better news than this, so they cheered, so they jumped, just like the festival, one by one, and excited to the extreme.

After a few words, almost all the indigenous beasts rushed out, and some turned to the void in the direction behind them, while others rushed directly to the edge of the core hinterland behind Ye Xuan.

The two battles that had been carried out with the Second Universe of the Second Universe were in these two areas. In the voids of these two places, there were still a large number of wrecks of foreign invaders.

These can all be ingredients.

Of course, there are also a large number of shards of indigenous beasts, but those who are obviously not dragged to let Ye Xuan bake, although they are all starry beasts, but psychologically can not pass this hurdle.

These indigenous beasts of the Evil Sources, although different in race, all regard this star field as a family, and they are still very united.

The wreckage of your own camp will never give up.

For example, they all poured the wreckage of those wild creatures in the deep core of the core hinterland of some kind of emotion. If this is not the case, they are afraid that they have been eaten clean in these years. How can they stay in the present and still float in the void? ?

Although the remains of the second universe in the two battlefields have not yet reached the tens of thousands of people, they are basically not much different. All the indigenous beasts are not even one person, but two or three together. If you eat a piece of food, you can still do it.

With the tens of millions of indigenous beasts smashing, the front of the void filled with indigenous beasts was instantly emptied and rushed to the 5,000-foot golden pheasant. There are more than one hundred heads of the old monsters and the star-studded monsters. They are divided into the sacred blood vessels of the 5,000-foot-tall with the Taikoo Porcupine and the Taikoo tortoise, and they are enough to eat!

Ye Xuan did not stop, and he was eating too much while he was eating together with more than a hundred indigenous beasts.

After a while, there is no such time, and the remains of the second cosmic powerhouses in the two battlefields will be dragged, and it is estimated that they will pile up into several hills, even if Ye Xuan is a mountain and a mountain. It is estimated that it will have to be tossed for a while.

Now that there is still leisure, he has to first swallow the color of the scorpion meat that was estimated to be about ten feet before he swallowed it.

Perhaps it is still possible to break through one or two small steps in one fell swoop before the tows that have been piled up in a mountain to be baked are dragged with the powerful blood and blood contained in the meat of the ten-handed color.

Now his deity is already the seventh stage of the void. If he breaks through the two small steps, it is the nine-step great consummation of the void. When you look back and take a tube of thirteen liquids that have already been prepared, you can enter the tenth in one fell swoop. The three major realms have begun.

As for the state of the konjac that has manifested three heads and six arms, the current Ye Xuan is the seventh order of the Zhou Guangjing. If the deity breaks through two small steps, then the repair he showed in the true state of the konjac, Most of them will also be upgraded from the seventh order of the celestial light to the ninth stage of the universe.

From the fifteenth world, it is also a small step difference!

As long as the deity takes the thirteenth grade liquid and successfully enters the thirteenth big territory, then Ye Xuan is confident that the strength of the cultivation in the true state of the konjac will be officially stepped into the hustle and bustle!

At that time, he will finally be able to play the fifteenth big battlefield, and it must be another scene!

At this point, a large piece of domain dagger was baked golden flesh falling into the mouth of Ye Xuan, and he chewed it a few times, and instantly turned into a hot stream of water falling down the pipe.

This pure flesh and blood essence is too powerful, and the level of energy is too high. Even if Ye Xuan is in the state of the three-armed and six-armed konjac, he feels that every flesh and blood inside and outside the body, every A cell, a moment of birth, has a painful tear.

It is painful, but there is a clear feeling of incomparable tingling, and it feels that the whole body is as light as a whole, and it seems to be in the feathers.

At this moment, he has a hundred and eighty million pores in his body. At the same time, he is smearing the colorful Xia Rui at the same time. He can see some mysterious chains being shaken by the faint sound.

This is the sign of Ye Xuan's physical potential chain, which is being pulled and will be torn!

This feeling, pain and happiness, Ye Xuan is not the first time to feel, there is a kind of light and familiar feeling of happiness.

There was a vision in the body, but the movements in his hands did not stop. As a result, the five-kilometer-long golden yellow meat was constantly decreasing. At the same time, there were too many foods for food. Ye Xuan originally thought that His own plan is only about ten feet of meat, you should not grab it.

But now it seems that if you learn the Taikoo turtles that are as slow as the underground mouth, the horror to the end can only eat four or five feet of meat.

The gap is too big, Ye Xuan immediately increased the speed, the big mouth of the wolf swallowed up...

I don't know how long it took, Ye Xuan's deity, which is the mind of the ancient konjac flesh and blood, finally sounded a familiar system sound, which made him feel refreshed, and the whole person was excited...

"Hey, congratulations to the host, the body and blood of the realm of the realm! The current realm: the virtual eight-order!"

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the nine-order great consummation of the void!"

Chapter 3715: Shelter of the furnace

The blood and blood essence contained in this piece of blood is too rich, and the ingredients are derived from the blood of the domain that has just been degraded, and it has been baked by Shennong Ding. Everything is left behind, and all that remains is the essence.

Ye Xuan just ate about eight or nine feet of fat, and there was a chain of squeaky sounds in the body. The potential was torn apart several times, and the body was once again forged, and the **** realm was improved. It is two small realms.

Nowadays, the realm of flesh and blood has risen from the previous seven steps of the void to the present ninth order of the void.

The 13th-level liquid leaf Xuan has been refining out in advance, ready, take a time to take a tube, if successful, Ye Xuan's flesh and blood repair, will step into the thirteenth world of the field, always distance The great power of the 15th National Congress is a step closer.

In fact, at the same time as his deity's flesh and blood is elevated, the three-armed and six-armed konjac's real body is now enhanced, and it is also a two-dimensional realm.

That is to say, the current Ye Xuan, in the state of the three-headed and six-armed konjac, is the strength of the 14th big world.

From Qiankun's power, there is only one small step breakthrough.

Once Ye Xuan took a 13-stage liquid, and the body's flesh and blood successfully broke through the domain of the thirteenth world, then he will now have the first place in the state of three-headed six-armed konjac. The cultivation of the 15th National Congress has become a great power!

Thinking of this, Ye Xuan suddenly got excited.

Qiankun Power, finally stepped into this step, although it can only be owned by the three-headed six-armed konjac, but at least, you can really feel the power of this realm!

Here, Ye Xuan's cultivation has been upgraded, but the Taikoo Porcupine and the Taikoo tortoise, as well as the more than one hundred indigenous people and the indigenous beasts of the Qiankun, are still screaming, all face is intoxicated. The endless look, obviously enjoys this delicious taste.

No, it's not just delicious. All the great powers and the lords of the stars, after swallowing a lot of golden locusts in the domain, the whole body is spraying out Xia Rui Baoguang.

Even the Taikoo Porcupine and the Taikoo tortoise are the same, although they are also the domain of the main repair, but this kind of color of the scorpion meat that was baked by Shennong Ding's two-color flame is really too powerful, simply As in the case of smashing blood and meat, even if they exist in the domain of the same realm, they have also gained a lot of benefits.

Ye Xuan did not dare to continue to mouth, his body of the deity has just been once forged and quenched, the **** realm of one-time Jin Jin two small realms, tearing some potential shackles, it is necessary to slowly nourish, You should take some of the more gentle gems, such as the Mastic Lotion.

Rather than this violent tyranny, violent flesh and blood, otherwise it will not benefit the flesh.

This is why he did not take a tube of thirteen grades immediately, and broke the realm of flesh and blood to the beginning of the thirteenth world.

In fact, the golden scorpion of the five thousand feet has also been eaten more than half of the meat. After all, there are two lords in the mouth, they can not have any scruples, how to eat without hidden dangers.

In addition, there are more than one hundred stars in the main territory and the indigenous beasts and geeks in the Qiankun area. It is estimated that the remaining golden meat can not be supported for a long time, and will be warned!

It is also at this time that the indigenous beasts who have been repaired in the past before the hustle and bustle have also returned all the time, either alone or in groups of three or five, dragging a larger body. The blood of the second universe is strong.

The guys also know that Ye Xuan can't help them to bake them one by one. It takes too long, and I am afraid that I will be exhausted.

Therefore, after all the indigenous beasts dragged the flesh and blood materials found to the void, they did not say much, but they threw them directly into the void, and then honestly retreated to the distance, while squatting and quietly waiting.

A small pile of flesh-and-blood ingredients was slowly formed, and then it was the second. After the meal, a whole five flesh-and-blood foods were piled up in the void, which looked extremely spectacular!

At this time, basically all the indigenous beasts who left were returned, and Ye Xuan did not hesitate. The waved room pulled out a huge two-color flame from the inner space of Shennong Ding in the body, and began to bake from the first **** material mountain...

The rich and fragrant smells are scattered all the time. Under the roasting of the huge Shennong two-color flame, a fleshy and **** material is mountainous, and soon the golden oyster sauce. This time, the whole core hinterland is full of rich fragrance.

Although these freshly baked flesh and blood are not as good as the golden meat of the domain, they are the best nourishing things for these weaker indigenous beasts. After all, Shennong's two-color flame is not the same. Things, even the general flesh and blood ingredients, baked with it, it is also a big flesh and blood.

Some of the indigenous beasts quickly rushed over and screamed, and Ye Xuan did not stop. In the middle of the wave, the huge Shennong two-color flame of the awning swept out again, covering the second mountain of flesh and blood...

In this way, a short meal is less than a meal, and five of the flesh and blood ingredients are all baked.

When Ye Xuan waved the Shennong two-color flame into the body of Shennong Ding, the last set of indigenous beasts who had already waited until the heart was rushing to the last golden fleshy fleshy mountain.

This scene is too shocking. Looking at it, the five golden flesh-and-blood mountains in the emptiness are across the mountain. The first one is covered with a large number of indigenous beasts. All the beasts in this corner of the sky are all in the air. Eating!

They all sprayed a fascinating Xianguang Baorui, and the strong fragrance in the void was so fast that it could not be opened quickly. It seemed like a deep breath, and the whole person would be fascinated...

Soon after, there were five huge mountain bones in the void, and almost every piece of meat on the cheekbone could not find even a small piece of meat, like a shit, clean and incomparable.

Some indigenous beasts began to break through in the void on the spot. This time, they all benefited and grateful to Ye Xuan.

There is also a lot of heat, because some of the guys who are mouthful are not addicted, and I am already looking forward to the next big meal.

The Taikoo Porcupine and the Taikoo tortoise and the star-studded geeks also stopped, and the golden meat of the five thousand feet was also white bones.

They completely agreed with Ye Xuan, pulling him to the depths of the core hinterland ahead. However, when Ye Xuan went halfway, he frowned and stopped. The pressure of the scattered bodies in the void was too strong. He stopped.

The Taikoo tortoise took a shot and said: "Yes, your kid has not been sheltered by the furnace, and naturally can't move forward..."

Chapter 3716: Baby corpse calculation

The shelter of the furnace?

Ye Xuan's heart jumped, he knew, the key moment is here!

It is no wonder that these indigenous beasts are able to move unimpeded in the core hinterland of the Apocalyptic Source, almost ignoring the terror of the powerful wreckage in the void, and they have been the deepest in the core hinterland for a long time. The shelter of the huge furnace.

There is no doubt that the mysterious furnace must be an ancient treasure, not worse than Shennong, but their respective functions are different.

The main role of Shennong Ding is still used to refine the medicine. Of course, it also has the functions of storing and cultivating various herbs and flesh and blood materials.

There is a huge space in Ding, and there are rolling hills around the volcanoes in the central area. The rare plants that are hard to find outside are planted in it, and some spirits and poultry that are rich in flesh and blood are inhabited. However, they are all still immature and still in the growing season.

Compared with Shennong Ding, the effect of the furnace is even more violent.

If the power effect of Shennong Ding is constructive, then the power of the furnace is more destructive.

Inside is a huge mysterious grinding disc of the mighty mysterious, all the flesh and blood wreckage of the ancient and dead souls can be thrown into the grinding disc, twisted into meat, and then condensed, and finally condensed.

Of course, the current furnace may have been adjusted to a higher level of condensate, because the product required to be condensed is a source of all evils that are effective for recovering from the ancient and even the ancient Supreme, so its requirements for raw materials. Also very high.

However, the grade of this condensing is obviously adjustable. For example, after the standard of condensing is lowered, the raw materials that can be accepted by the mysterious grinding disc in the furnace will be reduced in grade, and the final refined product and grade will also be Will fall, no longer the source of all evil.

It is another product with a weaker effect.

But even if the effect is weaker, it is still a good thing. After all, the grade of the furnace is here. Even if the standard of condensing is lowered, the flesh and blood materials thrown into the grinding disc in the furnace will not be worse.

In Ye Xuan's view, the so-called sanctuary shelter may be related to this.

It is absolutely unnecessary to shelter these indigenous beasts living in the core hinterland of the Evil Source for no reason, and not be affected by the horrific pressure in the wreckage of the powerful and ruined creatures in the surrounding air.

According to Ye Xuan's guess, if there is no accident, the indigenous beasts that live in the core hinterland are actually flesh and blood materials that are raised in the furnace. Someday, they may be used and put into the furnace. Twisted into meat, refining a certain kind of furnace product.

Most of the wreckage of a large number of ancient creatures, including the smoldering of the unsatisfactory material in the void around the furnace, is also the case.

The wreckage of these ancient creatures is used to condense the source of evil. The exact order is not enough, but it does not mean that they are really waste. On the contrary, this is actually a treasure of blood, but it is not used now. Just like waste, it is piled up outside the furnace.

In the future, they will be used together, and together with all the indigenous beasts living in this core hinterland, they will be put into the furnace, and they will be smashed into pieces by the huge mysterious grinding disc and condense a certain product... ..

When I think of it, Ye Xuan's heart suddenly has a chill. The method of heaven and earth is really unusual. It's too embarrassing. On the other hand, the top of the wilderness's flesh and blood is used to condense the evil source, but this one has begun to raise the day. The flesh and blood materials needed to refine another muffin product.

It is a sad thing to sigh the Taikoo Porcupine and the Taikoo tortoise, which are regarded as the indigenous beasts of the pigs and sheep, but they are completely unaware of this!

"Small hair, get a drop of konjac blood, now you are still sheltered by the furnace, can't go, old turtle I will help you to do this."

Just as Ye Xuan was indulging, the Taikoo tortoise, which was full of forgiveness, climbed to the top of Ye Xuan's head again, and asked him to drop a konjac blood, listen to the meaning, it seems to be thrown into the furnace, similar After registering the role of household registration, Ye Xuan will be able to get shelter from the furnace.

I can walk freely in this emptiness, and I am not afraid of the horror of the powerful wreckage in the void.

Ye Xuan secretly sneered, this is clearly a book of flesh and blood materials registered in the future!

He suddenly fell into hesitation, and he really had the konjac blood. After all, the konjac was condensed.

It is only necessary to squeeze out a drop from the three-inch konjac that represents the real body of the konjac in the brain of Ye Xuan's mind. It is the so-called konjac blood.

But the problem is that the three-inch little konjac is not only obtained from the former Jiu Jin Jinjing, which represents the blood of the ancient konjac. Ye Xuan has also differentiated into a sacred **** of his own deity, which has been thoroughly integrated this morning. Together, regardless of each other.

In other words, if Ye Xuan now squeezes out a drop of konjac blood from the body of the three-inch konjac, then this konjac is actually blood, in fact, it will contain a hint of Ye Xuan's deity.

In this case, it will be difficult to say clearly whether it will be seen by the furnace.

In addition, this drop of konjac true blood contains Ye Xuan's glimpse of the deity of the gods, this Ye Xuan is not too reassured, in case the sacred furnace to this konjac true blood, not just register in advance the future Condensing materials, making a roster, but there are other roles and purposes.

So, Ye Xuanzhen is not going to be elbowed?

The deity of the gods is not a joke, even if it is only a very weak glimpse into the blood of this konjac, but the ranks of the sacred furnace are here, it is the hand of the sorrowful eye, the level The existence of Ye Xuan can not care.

Perhaps, just this half-baked spirit of the gods, is enough to count Ye Xuan?

Just as he hesitated, Ye Xuan's deity, the left chest of the konjac's flesh and blood, suddenly became hot.

There is a place where the corpse lamp tattoo of the headless baby corpse is located, but now the deity of Ye Xuan is the flesh and blood of the konjac. The appearance is a black cockroach with black mane, so the corpse lamp tattoo is I can't see it at all.

However, at this time, the headless baby body suddenly reacted, is it because of the blood of this konjac?

If there is a headless baby corpse, Ye Xuan naturally does not have to worry about the drop of the konjac blood will be a problem, even if there is a trace of the half-scented Ye Xuan deity of the gods, but also innocent.

Maybe the headless baby corpse will mix some other things into it, but it is a level of horror with Tiandao Qingyan. Is there a shot, and the furnace still wants to count Ye Xuan?

Estimated the final result, most of the headless baby corpse by the leaves of the konjac handed out this konjac true blood, the calculation of the furnace!

Of course, the ones that are ultimately affected will definitely be heavenly eyes, or some important arrangement of it...

Chapter 3717: Federal Senate

Although the left chest was slightly hot, there was no other reaction immediately, but Ye Xuan clearly felt that there was a drop of konjac blood in his body, and it was indeed incorporated into a leaf. A mysterious breath that could not be felt.

There is no doubt that this is the means by which the headless baby corpse is placed in the darkness of this konjac blood.

With it, Ye Xuan naturally has nothing to worry about. When he waved his hand, the so-called konjac blood that was added by the headless baby corpse was sacrificed outside the body, hanging in front of the void.

When the Taikoo turtles plucked out, they smashed the konjac blood, and followed it to the deepest part of the core hinterland of the evil source.

Ye Xuan does not know how it is applied, but it should not be too complicated. If there is no accident, the true blood of the konjac should be thrown directly into the furnace, and then directly accepted by the furnace.

From then on, the three-headed and six-armed konjac will become one of the future flesh and blood materials registered in the furnace.

It's just that who is calculating at the end, Ye Xuan's heart is already in the bottom, although he still doesn't know, and he can't guess what the means of headless baby corpse are, but the temperament of the baby's corpse, or not, The shot is definitely a big deal.

This time, there was a good show. The only regret is that this good show may need to wait for a while, and it is obviously not expected.

The heart was secretly squatting, and Ye Xuan suddenly felt the deepest part of the core hinterland in front. An invisible squatting machine suddenly came to his body, and Ye Xuan's body shape was frozen, and then it completely dissipated.

In the next moment, Ye Xuan's strong sense of pressure from the surrounding voids that he had been able to feel was completely disappeared.

He knows that from this moment on, even if there is no layer of film protection from the headless baby body, he can walk freely in this core hinterland like other indigenous beasts, even Can be close to the furnace.

Of course, if you want to enter the interior of the furnace, I am afraid that it will not work!

This also means that he has been recognized by the furnace, and is recognized by this source of evil. After all, this source of evil is for the sake of the furnace.

In the same way, this also represents the shape of the three-headed six-armed konjac, which has been completely integrated into the circle of indigenous beasts in the core hinterland, and they are fully accepted and become one of them!

.....

The source of evil and evil, the central area buffer zone!

Now that one day has passed, the Second Cosmic Coalition, which has been withdrawing from the front core hinterland to the buffer zone of the central area, has already been rectified and has now resumed order.

The 12 million army, when it was in the Devil's Star Field, was damaged a lot. When it arrived at the source of the evil, it was already only tens of thousands.

In the battle before the army withdrew from the core hinterland, it destroyed more than two million warships and fortresses and fortresses. So now, this second cosmic united army has only nine million left!

The loss of this warship is actually nothing, and the real morale of the entire fleet is the fall of the old lord of the Cailu.

Because of the fall of Du Futeng, the whole army has been shrouded in the dark clouds, and the mood of the various families' fleets is not high, especially the Caisong people. The star of the family's fleet is so mad that they are almost mad. It is.

This time, the Second Universe and the various nationalities invaded the First Universe, and the Caisuo people simply went out without seeing the Imperial Calendar, and they fell for eight lifetimes.

Previously, in the Devil's Star Field, the only star lord that had fallen from the various ethnic fleets was the Cailu.

Now it is the star of the evil, the only one of the fallen domain owners, or the Cailu.

This is simply a day of the dog... No, I am afraid that it will not be so angry and angry when I am a dog!

The only lord of the entire army, the old singer of the **** family, was chased after the unsuccessful return of the little konjac who killed the scorpion under the black hand, even when the whole branch was released. The fleet army, all the staff rested indefinitely, no one, any ship, can no longer enter the core hinterland star field in front, until the follow-up reinforcements arrived.

Then, a scout fleet was lightly removed. Their mission was to return to the second universe as soon as possible through a wormhole jump, returning everything that happened here back to the second universe, and the high-level officials of the various tribes negotiated and drafted Follow-up countermeasures.

At the same time, the hollowing out of this nearly nine million army that remained in the buffer zone of the central area, separated a fleet of three or four million fleets, along the stable passages previously

constructed, through the evil. The source peripheral area came to the entrance of the channel for guarding.

This stable passage was built by the coalition forces of the Second Universe. There is no reason for other forces to pass freely. The task of this guarding fleet is to prevent the entry of any other force fleet.

Including the upcoming Senlan fleet of the Federal Monitoring Institute of Viro... No matter who you are, you can go in, you can't stop, and you can build a stable channel from other directions!

The guardian army of this nearly five million warships was just in place, and the first fleet of sprinters who wanted to share a piece of the squadron came to the fore.

It is the Senlan fleet that represents the supervision of the Federation of the Bandar.

In addition to the leader of the Federal Institute of Supervision, who is in charge of the accountability, this Senlan fleet also has a veteran veteran from the Federal Senate of Wanluo!

The Senate is a concentration camp for the high-end forces of the Federal Republic of Varo.

As everyone knows, the Federation of the Bandar is actually a front line composed of the First Universe and the Second Universe. The only enemy is the Heavenly Family.

Although it is the only force in the three cosmic planes that can compete with the celestial beings, it can be called a giant, but in fact, the Union of Van der Waals has no place of its own. Even the Federal Headquarters is an immortal star of the immortal dynasty. Built on a large piece of land leased.

Of course, from another perspective, the Vatican Federation can be regarded as an infinitely large territory. The third universe and the entire second universe plane where the entire Terran is located are all federal territory.

However, it is only nominal. In fact, these two universes are still managed by each ethnic group.

But basically, each ethnic group will have a presence of more than one star lord. It will be stationed in the Federal Senate, and it will be sent to the Federal Republic of Venezuela. The people who are stationed in the Federal Senate are not in the family. In the Senate, they can get the cultivation resources that they can get when they are in their respective families.

It can be said that the federal headquarters of the Vatican is a painstaking effort to win over these star owners from all ethnic groups, and even the domain owners.

Therefore, for a long time, for them, the feelings of their respective ethnic groups have faded, and the feelings for the federation have become deeper.

It can be said that the old monsters in the Federal Senate, which are cultivated above the general star, are from various ethnic groups, but in fact, they have already regarded themselves as federal people...

Chapter 3718: Three major fleets are coming

The Senlan Fleet, which is located in the Federal Supervisory Academy, is the federal veteran of the star who came with Long Yao. It is called Du Xifeng. Coincidentally, this person is not only from the second universe, but also from the Cailu!

However, when Du Xifeng left the Caisong family, he was not a star lord. He left the Cailu family with his master and entered the Federal Senate.

In the same year, his masters were not to be seen in the Choi people. They competed with the current patriarchs of the Choi people for the position of the patriarch at that time. They failed and were later suppressed. It happened to be the olive branch of the Federal Senate, so they left. The Caisong family.

The Du Xifeng was also taken away.

As a result, both the mentor and the apprentice arrived at the Federal Senate, but they received a very high courtesy. After a thousand years of age, their masters broke through from the star to the domain, and now they are a domain-level veteran in the Federal Senate. It is.

Even Du Xifeng, at that time, but the nine-order grandeur of the Zhou Dynasty was completed. After a thousand years of age, it first broke through to the Qiankun environment. Later, it broke through from the Qiankun to the star territory, and finally it was no longer the oil of its master. Bottle.

After having the main character of the star, Du Xifeng himself became the official federal veteran. It was only the star-level, and the level was weaker than the master level of his master.

It can be said that everything that Du Xifeng has now is given by the Federation of Wanluo. It is given by the Federal Senate. It does not mean that there is no such thing as a half-dollar relationship. In fact, it is not much worse.

Even after the failure of the mentor and the disciples to compete for the patriarch's position, the kind of suppression and exclusion that they received was still fresh in the Du Xifeng.

To put it bluntly, it is to the Caishao people. He has not only a sense of belonging, but a little resentment!

If this is not the case, the Federal Republic of Venezuela, this time will not send Du Xifeng to the Senlan fleet to sit down.

What's more, at the moment, the channel of the nearly five million warships in the second universe is guarding the star lords in the army, which happens to be from the Cais.

This person is called Du Wei, but the current patriarch of the Caisong family. To put it bluntly, it was actually the hostile camp of Du Xifeng and his master. Of course, this kind of hostility refers to the competitive relationship within the ethnic group.

But in fact, as the current patriarchs of the Choi people took over and suppressed the Du Xifeng mentoring, and led their mentor and apprentices to finally leave the ethnic group and switch to the Federal Senate, this is only a competitive relationship within the ethnic group. It has indeed become a real hostility to the present, and there is no difference.

For this reason, when the Mori Blue Fleet arrived, Long Yu and Du Xifeng, in the name of the Federal Headquarters Supervisory Institute and the Senate, smothered the guard fleet outside the stable passage to give way, the two fleets almost broke out on the spot. conflict.

Du Wei, the star lord of the Guards Fleet, is on the spur of the moment. This time, the Caishao family was unfavorable, and the successive lords and domain owners were devastated. For the entire ethnic group, it was a terrible loss.

In this case, just happened to meet the old veteran opponent, and reprimanded himself in the name of the Federation of Varo, can he have a good face?

In the end, the Shoulun fleet and the Senlan fleet that came to the accountability were restrained from each other and did not engage in crossfire on the spot. However, the two old grievances were from the singers of the Caisong family, but they were at the source of all evils. In the void outside the star field, I hit it and killed each other!

This battle is two days. The two stars and the old monsters have all played real fire. From time to time, there are small small abandoned stars in the void that have been destroyed by the gas of the war and directly blown up.

A large void of thousands of miles away, all of them have become battlefields, and the air is messy and raging!

Without waiting for the start of the terrible battle between the two masters, the two other fleets of human forces that followed the Federal Superintendent at full speed finally arrived.

Representing the immortal regiment of the immortal dynasty of the Terran Science and Technology camp!

And the starry sky battle boat that represents the Terran camp of the Terran!

The commander of the Immortal Legion, in addition to the dynasty of the emperor's old pavilion, also has a star emperor's emperor.

The starry sky battle of the Ten Heavenly Palace is dominated by the sacred palace of the Imperial Palace. This person is a star lord, and it is still very powerful in the late stage of the star!

The three major fleets are on the verge of being in the buffer zone of the central area of the evil. The **** ethnic group who is the main force of the Second Universe of the Second Universe is old, and the domain lord is empty and finally appears.

"Booming..."

In the earth-shattering roar, a mountain-like energy claw rushes out from the outer area of the starry field of the evil. Just a glimpse of it, the front air has been fighting for two nights of Du Xifeng and Du Wei. The two star owners are shaking away.

Then, with a figure carrying his hands and walking out from the peripheral area, it seems to be slow, but only two or three steps, it has crossed the tens of thousands of miles, came to the appearance of the word, lined up in front of the void Before the three major fleets.

It's the domain owner's old monster!

"Wan Luo Federation, the immortal dynasty, the ten heaven palace..."

"It's quite right here! If the Tianzu people bring a fleet of slaves and servants, the top forces of the three cosmic planes will be gathered today!"

Standing in the void, the figure is the only one who is present in the field. The skeleton is full of pride, and the slashing slashes through the three major forces of the fleet.

Then, his face sank, and coldly passed out: "Hey, I said before, this time, it is a conquest of the second universe of various ethnic groups in the private formation of the alliance. I said that there is no need for federal and human forces. After intervening, you are dispatched by the fleet so much, can you bully when I am in the second universe?"

In this regard, the top three of the three major forces of the fleet remain silent, since the old monsters do not admit, then the accountability is meaningless at this time, after all, the three forces first opened the fleet, there is no domain owner Strange to sit in town.

Nowadays, it is weak, and it can only be temporarily forbear. Otherwise, the **** Yi people will be guilty of the blame. The result is that they can only ask for their own suffering.

"Hey, don't blame the old man for not reminding you, just rely on your three fleets, where is the best place to go, the source of all evils, not you can get involved."

"Now, the Caishao people have already fallen into a domain lord in it. If you don't give up, you can squander your weight... If you don't look at the same federal share, these words, the old man is too lazy to mention it!"

After that, the grotesque grotesque robes the sleeves of the robes, and turns around and flies away from the peripheral areas of the wicked source: "Let's do it, where to go, think about it yourself."

"But the ugly words are in the front. If you are willing to go your own way, if you have to mix your feet, you have to go anywhere else. This stable passage is built by the coalition forces of the Second Universe and can not be allowed by other fleets to enjoy the success. You will Don't think too much..."

Chapter 3719: Three planes move together

A domain lord of the Caisong family has fallen?

This news is just like the same heavy bomb, all the strong players in the three fleets in front of the sky in the shape of the word, all shocked!

The exclamation, after a brief silence, broke out in an instant, and it rang through a void...

"Oh, what happened in the end? Is a lord of the Caisong family degraded? It is simply sensational, too difficult to accept!"

"There is no doubt that there is some kind of terrible horror in this source of evil. It is no wonder that the Second Universe Coalition has left a fleet of nearly five million to guard the passage they constructed. This is clearly Stopped the rhythm of advancing toward it."

"Yes, it is said that the source of the evil is divided into three regions, the outer region, the central buffer zone, and the core hinterland. If there is no accident, the second space coalition must have encountered after entering the core hinterland. frustration."

"What is there in the end? Can it make a domain owner blame all fall, this is only a few days? It is clearly a battle and awkward, is it the boundary of the main level of biological obstruction?"

"It should not be. Otherwise, the lord of the **** family is afraid that it has already withdrawn, and it is impossible to stay in it. This is clearly the meaning of waiting for the reinforcements. I have already retired to the central area buffer zone in the middle of this star field, they still have no heart!"

"Can make almost all ethnic groups in a cosmic plane use such power to seize, and after degrading a domain lord, still still do not give up, guarding the passage to prevent me from entering, it seems that this evil The creation of the source star field is absolutely amazing..."

.....

As the screams of the stars in the fleet continued to ring, the commanders of the three major fleets also fell into deep thought.

They have already expected the second universe to be very big, but the news that has been learned since the arrival of the two teams still makes the commanders of the three major fleets feel unprepared.

As a result, even the existence of the domain has fallen. Then, among the stars in the front, there are at least indigenous people in the domain, and there is definitely more than one.

Otherwise, the Second Universe and the various nationalities have two kingdoms in the territory, and no one can even fall into the situation of a domain lord after World War I.

Even in this star field, there is a great possibility of the existence of a territorial horror, but this possibility is not very large. Otherwise, the **** lords' domain owners are hollowed out, and most of them have already been evacuated. open.

"From the current situation, with the strength of our fleet, I am afraid that it is far from enough to capture the wealth of the source of evil."

In the flagship of the fortress of the Senlan Fleet, the court of the Federal Institute of Supervision is full of sorrow: "Even if it is not enough with the immortal army of the immortal dynasty, it is necessary to have at least two more domains to sit in the city!"

"So, we can only return the situation back, and ask the Federal Senate to send out the federal veterans of the domain."

On the side, the star-level veteran Du Xifeng nodded, and his face showed a touch of unwillingness: "It is absolutely extraordinary to make the hollow old ghost so creative. If there is no accident, the second universe of all ethnic groups should also be Just dispatched a light scout detachment and rushed back to report and requested reinforcements."

"The time difference between us and them is not very big. The only gap now is the mastery of intelligence!"

Speaking of this, Du Xifeng was slightly stunned and frowned. Then he answered: "Don't delay any more, immediately order it, build a stable passage, and push all the way to the buffer zone of the central area. The army will be stationed there, then Send a scout squad, enter the core hinterland, find out as much as possible, and then immediately report back to the federation, request reinforcements..."

Soon, the command of Long Hao was issued, and the Senlan fleet chose a breakthrough point in another direction. More than 300,000 large and small fortresses opened the space to open the space, and all the way to the periphery of the source of evil.

At the rear, nearly five million warships follow closely and continue to the depths of the central area buffer zone!

The same order, in the immortal empire of the immortal dynasty, and the starry sky battle of the Ten Heavenly Palace, also successively issued, the three huge fleets chose different orientations, while constructing a stable passage, pushing forward!

At the same time, the source of the evil is also beginning to have some smaller fleets coming.

Some are the second universe, some of the likes of the Yinmo, etc. did not join the Whala Federation, preferring the lofty ethnic group, and some are the fleet of the first cosmic slaves.

In addition, it is the fleet of the three great empires of the Third Cosmos, or the secret forces of some big countries and small countries, as well as some small martial art of the Terran camp, and the Star Wars squad sent by Xiao Zongmen.

There are even some scattered dispersal, or single-handedly, or three or five in groups.

This time, the movements of the second universe of the various communists were too great. In the initial stage, almost all the forces in the three major planes were taken seriously, thinking that their spearheads pointed to the heavenly family.

However, today, the movement of the family of the family has long been unknown, and the tens of thousands of troops gathered by the major groups of the Second Universe have come to the source of the evil. The pertinence and purpose are too obvious. Almost all of the three major planes are keenly aware of some issues.

Just like the big cats and kittens that smelled the smell, they flocked!

Obviously, these forces are coming through the two frontiers of the Devil's Star Field, which are connected to the second cosmic plane, and the large plane-level cosmic wormhole of the third cosmic plane, passing through the Devil's field. At the time, more or less, there must be a certain toll fee paid.

In addition to some single-handedly scattered repairs, because the target is small, in the case of opening the hidden array, you can avoid this. Any other size of the fleet must pass through the Devil's domain. Pay!

It can be said that what is the creation of the source of the evil and evil. At present, all the other forces, including the cosmic planes that come from the wind, are scattered except for the second cosmic united army that first arrived here. All of them know nothing about it.

But the devil's group, at this time, has already earned a lot of money before the truth of the creation of the source of evil is truly revealed.

At this moment, when the innumerable forces of the three major cosmic planes all converge toward the starry source of the first universe, the top of the devil's royal family in the Emperor's Star are all toasting.

Nowadays, the demon emperor Mo Wentian and a devil high-level who have really tasted the benefits of the ferry are thoroughly convinced of this young Xuan prince.

Two days later, the three devils of the royal family, headed by Mo Taiye, also arrived at the source of the evil, and entered the peripheral area in the first time, carefully rushing toward the central buffer zone.

They are also curious about the creations represented by the source of evil.

Chapter 3720: Ye Xuan's goal

When the three young people passed through the outer area of the evil source and entered the buffer zone of the central area, this buffer zone has already become a voice!

Even if the numerous low-order black beetles of the previous central buffer zone have not been completely cleared by the Second Universe, this star field has never been so lively!

Although the central area buffer zone is called a buffer zone, it is actually a very vast star field. However, there are too many fleets stationed here. Although it does not seem too congested, it looks at the void. However, it is also very lively and extraordinary, and there is no such thing as a large expanse of stars.

The Second Universe Allied Forces occupied a vast void, and the Senlan Fleet of the Federation of Venezuela, the immortal regiment of the Terran Science and Technology camp, and the Tenth Heavenly Palace Star Wars of the Comprehension camp also occupied a vast void.

This is the four camps, each of which has more than five million warships in size, and it has a large space and a hollow space!

In addition to these four camps, there are a large number of small fleets, as well as a team of elites who have gathered together to form a coalition.

In a word, the entire central area buffer zone, and now it looks like a star market, generally reached the extreme...

"What is the situation? It's a bit big!"

It was hard to pass through the outer area covered with void cracks. At this moment, the central area buffer zone of the central area was met, and Mo Taiye was shocked by the prosperity of this scene.

While stunned and turned around, the spiritual power extended and searched for some details, while muttering to himself: "Is this still the source of all evils? Isn't this the first space in the first universe?" Looking at the popularity of the present, the old man swollen has come to the star of the Star City?"

It is no wonder that he will have this illusion. It is really a scene in front of him that is too smoky.

The innumerable warships of the dense and sinister wars are empty, and there are still a large number of star-studded powerhouses in the void outside the warships.

This is basically a small force, a small ethnic group, and a large number of strong members of the Alliance fleet, taking advantage of this opportunity and coming to each other.

On the one hand, they inquired about each other's news. On the one hand, they took advantage of this opportunity to exchange some information and exchange some resources for cultivation.

In a sense, the buffer zone of all evils is indeed more like a temporary starry city. Where can you see the face of the so-called plane-level starry sky?

Of course, these big and small forces and the squadrons have to toss, and at most, the relatively safe, even the numerous low-order black beetles that originally lived here have been cleared of the central domain buffer zone.

As for the dividing line connecting the core of the evil earth in the front of the virtual air, it is said that other small forces and scattered alliances, even the four camps headed by the Second Universe and Allied Forces, did not dare to easily pass. Thunder pool step.

Of course, the Senlan fleet of the Federal Republic of Venezuela, the immortal regiment of the immortal dynasty, and the starry sky battle of the Ten Heavenly Palaces have already sent scout squads in the past two days, quietly entering the front. The core hinterland.

Although it has damaged most of the scout team's strength, at least the general situation in the front core hinterland, the top three forces that followed the second universe of the various ethnic groups, have basically mastered.

Although they don't know it at the moment, in the depth of the core hinterland in front, there is a large-scale refining and refining array that can stably produce all kinds of evil sources.

But at least know that in the core hinterland in front, there are a large number of ancient starry beasts that are rare outside, and they are suspected of being guarding what, and this should be the ultimate goal of the Second Universe and allied forces!

With regard to this information, the three major forces have already sent a light scout team, quietly embarked on the way back, rushed to the Devil's Star Field, reported to the forces in the third universe, and requested reinforcements.

However, if the follow-up reinforcements want to arrive, at least it will be a matter of nearly one month later. Even if the wormhole jumps as much as possible, it will take a long time to go back and forth!

For this, Ye Xuan knows well.

In fact, he is even more aware of the current situation of the central buffer zone.

In the past two days, he has almost visited the core of the evil roots. In addition to not entering the furnace again, almost every corner of the core hinterland has been touched by him.

In the process, Ye Xuan took care of no one, and went to the inner space of Shennong Ding in the body, and took away many of the ruins of the ancient ruins that were originally in the void.

There are some horrible creatures and souls in the border!

It can be said that, so far, Ye Xuan is only a harvest in this respect, it is absolutely amazing, and the ruins of these domain realms and even the powerful and desolate nature of the main territory can be used in the future. The best raw materials for medicine!

However, it only harvested some of the ruins of the ancient ruins of the core hinterland. For Ye Xuan, the benefits are far from enough.

Ye Xuan's coming to the source of the evil is also a big expense.

Not only did he try his best to get a three-headed and six-armed konjac, but even to fight with the group of indigenous beasts in the core hinterland, he did not hesitate to sell his labor and acted as a barbecue worker.

And it is conceivable that this kind of thing must not be only once, as long as the group of indigenous beasts in the core hinterland and the major forces of the fleet that are stranded in the buffer zone of the central area have another follow-up war. In the case of the former getting a lot of ingredients after the war, Ye Xuan must continue to bake again...

So hard and laborious, his plot is naturally not small!

Now I have obtained all the indigenous beasts in the core hinterland, and even the recognition of the mound and the whole source of the evil. Afterwards, I can enter the core hinterland freely without the headless baby body care every year. Furnace, this is just the benefit of the way.

In addition, Ye Xuan has formal plans and planned benefits waiting to be realized and acquired.

Do not say anything else, taking advantage of this opportunity, the democrats in the Nuggets frenzy in general, the devil's ethnic group in general, a big windfall, it is absolutely indispensable.

On the one hand, he has a hunch, the secret of his true identity, fearing that it will be exposed soon. Before that, he must get as many warships and resources as possible, ready to return to the triumph.

On the other hand, today, he is about to swallow the thirteenth grade liquid, and the subsequent gene culture solution, Ye Xuan has not been refined.

Taking advantage of the opportunity of all the top forces in the three major universes to gather together, he must at least complete the preparation materials of the fourteenth and fifteenth grade liquids, and even prepare them...
