

Super D. S 3731

Chapter 3731: Competing for the hinterland

This is the main lord of this domain, which is a family of the silver scorpion in the top ten ethnic groups of the Second Universe.

With the advent of the lord of the silver scorpion, the three major forces in the buffer zone of the central area of the evil have suddenly become like a reassurance, the original uneasy mood. Gradually all settled down.

At least, on the surface, the high-end combat power displayed in the core hinterland of the evil source is only the main beasts of the Taigu Porcupine and the Taikoo Turtle.

Previously, among the various ethnic forces, only the **** scorpion of the **** squad, such a domain lord, was really awkward, but now it is different. The high-end combat power displayed on the bright side has been evened out. .

And the follow-up must also have other ethnic groups, the main monsters come, the reason why the silver scorpion's domain lord is the fastest, because the family is a silver ostrich, this domain lord is good at The original is speed, and in the understanding of the law of the void of the universe, the accomplishment is quite deep.

The first time the short-selling was issued, the two lords of the lords gathered in the flagship fortress of the **** clan fleet and finally crouched down and did not rush to shoot.

After all, they are just a stunned one. They really don't feel at ease. The Taikoo konjac, which is only the ninth-order grandeur of the dynasty, is too ferocious.

On the eighth day, the other ten ethnic groups in the second universe, the lord of the Golden Eagle family came, brought the Tao of the family, and also the great power of the fifteenth world, named Jin Xiaoxiao!

On the ninth day, the space mouse family, one of the first three tribes in the first universe, finally came to the domain of a great power, bringing the same kind of Tao, the younger generation of the fifteenth

At this point, among all the forces that have been stranded in the buffer zone of the central domain of the evil, the domain lord has reached four. In the past two days, he has been carrying a tail with his tail, and there is almost no sense of existence. Quite short-selling activities are frequent.

It is like a trick, from time to time from the flagship fortress of the **** clan fleet, not to find the silver scorpion domain lord, is to visit the Golden Eagle family domain lord.

Even the flagship fortress of the first space-space rat, which was originally a hostile relationship, was visited by him.

This is really called the strong forces in the major forces of the fleet are quite speechless, compared with the three domain owners before the arrival of the strange, the current hollowing out is a bit of a feeling of jumping up and down.

The four domain owners are sitting in the buffer zone of the central area, which gives them confidence. On the second day of the arrival of the domain leader of the space mouse, the tenth day of the March betting period, After the four deputies of the four domain owners, they made a sound...

"It's time to enter the edge of the core hinterland ahead!"

"Take the little scorpion who is arrogant and arrogant to see the old man, and dare to use the arrogance of the three generations of the major forces of the three majors, even the Taoist stone, this time, let them taste the bitter fruit! "

"This war is dominated by the three sacred sects of the stunned front, the singer of the singer, the singer and the singer of the singer, and all other ethnic groups and the descendants of the genius of the forces can participate, but the cultivation can not be weaker than the empty space, otherwise it is also Send food!"

"The path of my **** family has not yet arrived. If you are in the dominance, you will lead several middle-aged generations into the first battle."

The tyrannical saying of the tyrannical, it is the descendants of the **** ancestors, the arrogance of the arrogance, and the previous glory with the gloom of the glory, in the battle, the tyrants and the horror, the lion and the tyrants Nethered and less respected, the lion tyrant wind was directly baked, and the tyrants and the horror of the princes were scared to turn around after the appearance of the ancestral squad!

At this moment, these two people are also among the fleets of their respective ethnic groups, and obviously will also participate in this battle!

In addition, other forces have also sent two or three vain descendants to play the arrogance, the first cosmic servants of all ethnic groups are some raw faces, and the second universe of all ethnic groups, in addition to There are also some old acquaintances who are also Ye Xuan.

For example, the little princess Medhusha of the Caisong family, and now she is also the cultivation of the void!

The Terran and the Federation of the Vatican, the palace has no heart, the hatred of the revenge, the dustless, the jade fairy, etc., but also the friendship with Ye Xuan, once in the Tianzhan Empire, one of the three empires of the Terran Science and Technology camp, In the Shennong Ding, he was swayed by Ye Xuan, and when he was an adult, he knocked on the door behind them.

Long Xiang, the great emperor of the immortal dynasty, and Tian Chenguo, the two princes of the Heavenly War Empire, Ling Feng, and Xu Bi, are also among the teams participating in the war.

As for the four great generations of Tianjiao Demon, the Magic Dust, Xiaoyao and Yinxia Fairy, which were born before, this time did not come.

Since the four people lost to Ye Xuan in the system competition mission, they completely disappeared. I don't know what to do, and Ye Xuan occasionally remembered that his heart was also full of doubts.

"A head of the nine-order grandeur of the Zhou Dynasty is just a small konjac, and dare to scream to the stalwart of all the top forces of the three major planes. It is simply not knowing how to live!"

"That is, the wolf is strong and the girl will eat in his hands. This time, the Taoist shot will definitely bring him back!"

"Don't talk nonsense, this Tao has been boiled, what the **** is the seventh deities, this Taoist from the last one, one by one!"

With the stunned front, the mouse unparalleled, and the Jin Xiaoxiao, the three sacred sects of the world are proud to speak out, the three major universes, the top-level forces, the patriots of the younger generations, and the 100-strong army of some young scholastics, swaying toward the mighty. The star line in front of the line rushed away, and the figure quickly disappeared. It entered the edge of the core hinterland of the evil source in front!

"Crystal ball back!"

The palace has no heart to enter the edge of the core hinterland, even if it is violent.

This is also the commander of the Terran Faction Camp, which is the command and confession of the deputy palace of the Imperial Palace.

As the violent screams, a silver-white glare emerges from the body, like a meteor, straight up the sky, hanging in the void above the hinterland, and turned into a transparent silver ball of diameter. The glory of the moonlight glows.

This kind of technique is very magical. It doesn't look like a kind of exercise method, but it is like a silver-white spherical magic weapon. Before, the palace had no intention to display it in the inner space of Shennong Ding.

Through this silver-white energy sphere magic weapon, everything that happens in the edge of this core hinterland will be unobstructed by the powerful forces who watch the battles in the central area.

Seeing this scene, the Taikoo Little Devil in the front of the sky with three arms and six arms smiled and whispered: "The guys, actually come back to this trick, really remember to eat and remember..."

Chapter 3732: One net

The palace is indifferent, and I still don't know what they have to deal with. It was the sorcerer who had let them eat enough in Shennong Ding. Otherwise, I was afraid that my heart would tremble and immediately turned around and fled.

At this time, with the palace heartlessly offering the method of returning the crystal ball, all the scenes on the edge of this vast hinterland were all transmitted through the silver-white crystal ball hanging at the top of the void, and were buffered by the central domain. All the powerful forces of all powers are glimpsed.

As for the depths of the core hinterland, the indigenous savage beasts such as Taikoo Porcupine and Taikoo Turtle are also closely watching here. They are also in the core hinterland, and there is no between the core hinterland and the central buffer zone. The road void barrier is blocked, so there is no crystal ball reflection method, the same can understand everything!

The core hinterland of the evil source is vast, just tens of millions of miles away from this edge. Before the second universe, the tens of thousands of warships have been the indigenous beasts on the edge of the core hinterland. We have launched a large-scale starry sky war, which shows the breadth of its territory!

The patriots of the more than 100 generations who entered the hinterland of the hinterland did not see the existence of Ye Xuan for the first time. At this time, he showed the three-armed and six-armed konjac, and he knelt alone in the void in front of the edge. Sitting on the plate.

Not shocked, the whole person's breath is integrated into the void, just like the ancient well has no waves.

For this battle, Ye Xuan is also extremely looking forward to it.

In his view, it was only recently that he had just re-advanced to the next level. Nowadays, it is already a nine-dimensional perfection of the void. In the state of manifesting the three-headed six-armed konjac, the strength is even more directly climbing two big ones. The realm has reached the 14th level of the eight-dimensional world.

But after all, it is not a great power!

Ye Xuan is preparing to hone his body in this battle, so that the body's blood and blood power will be stirred to the extreme. Then, he will swallow a 13-level liquid in the battle and break through in the big battle. The thirteenth big territory begins.

At that time, in the state of the three-headed six-armed konjac, Ye Xuan will step into the realm of Qiankun.

Qiankunjing is a watershed. Otherwise, this strong person will not be called a mighty power.

Once the konjac has entered the power of Qiankun, Ye Xuan is confident that he will participate in this battle and enter the three corners of the core hinterland without using other means of revealing his identity and magical powers. And more than a hundred of the descendants of the various generations of the arrogant, one network into a yo!

As long as all these guys can be taken down, Ye Xuan's purpose can be achieved, and this purpose is related to the 14th and 15th grades he urgently needs!

Just as Ye Xuan was in the void, the 100-person battalion that had been divided into several dials and swept from different directions at the same time was finally coming.

The first to discover the existence of Ye Xuan is the Taoist level of the three stunned fronts, the unparalleled mouse, and Jin Xiaoxiao.

"I saw him, the little monkey scorpion, died!"

"Hey!"

"Oh..."

Jin Xiaoxiao was the first to attack, roaring, the first time to activate the blood of the body, manifested the **** body of the Golden Eagles, under the wings, issued a golden flame.

It is the **** magical technique unique to the Golden Eagles.

The eagle flame rain is an energy arrow rain formed by countless golden feathers. After he manifests the body of the bleeding vein, he spreads thousands of feet. On such a huge golden eagle treasure, there are countless golden feathers, a small piece. The sky was instantly illuminated.

Every energy plume is golden, not only has light, but also smoldering looming fireworks, as if even the void is baked, it makes a strange noise.

This is clearly a powerful magical force of scope attack, but at this moment, countless golden flames of feathers poured down from the sky, but all overwhelmingly concentrated on a small piece of void, whistling away toward the Taikoo Little Magic.

"Feng dance!"

Immediately after Jin Xiaoxiao, the Yin and Qiang people's sorrowful sorrows and stunned fronts suddenly became difficult. After a roar, they immediately manifested the same giant silver bird that was smashing a thousand feet. The whole body was steamed with a fiery flame, like the same Only the phoenix of the fire, the screams, rushed to the Taikoo Little Konjac.

Phoenix dance is a **** magical power of the Yin Dai people!

This magical technique can condense the blood of the body into a shapeless invisible hernia coat with a strong enthusiasm.

Not only can it play the role of body suffocating, but it can also cause additional damage to the enemy with the high temperature of the wings of the phoenix in the battle.

"The first style of dining Xia, Yu Xiacheng!"

At the same time, the last Taoist, the space mouse family's Qiankun Daozi unparalleled, is also screaming, screaming, turned into a hundred-footed giant rat, all body blood, under the palm of the hand, actually directly sacrificed A long handle big knife!

Meal Xia Knife, it is said that the space mouse is a martial genius genius in the evening glow in the sword when the realization of the sword method, a total of six styles, respectively, Yu Xiacheng, Bai Hong Xia Xia, Xia Guangyan, Yunxia Tiantian Yun Xing Xia Wei, the evening glow is rotten.

This set of knives is the secret method of the space mouse family, the six-style knife, the power can gradually increase, it is said that even the void can be opened, the power is powerful!

At this moment, a body-shaped Baizhang's rat, but there is a long-handled knife, the dance is screaming, the emptiness of the sky, the sky is overwhelming, sweeping over the Taikoo little konjac in front!

This scene is too strange.

Not only did the people behind the three Taoist sons, such as the heartless, all stupid, but Ye Xuan, who was still sitting cross-legged in front of the void, all subconsciously opened his mouth and felt like a thunder on the spot.

The mouse is a big knife, and the power is still in the air. It is simply amazing. It is estimated that no one is there!

The three avenues are all repaired by the Qiankun dynasty. At this moment, each of them shows a huge **** body, and at the same time, the blood and the magical powers are carried out at the same time, or the school is passed down from the three different directions, showing the shape of the character, facing the knees in the void. The Taikoo little konjac smashed and killed.

Behind the trio, there are dozens of ancestors from the three major planes of all generations, all of them are extraordinary people, each one is powerful.

More than a hundred strong men joined forces to kill the Taikoo konjac that was only the 14th dynasty...

This scene is too astounding. After passing through the palace's unintentional crystal ball reflection method, it was transmitted to the buffer zone of the evil source of the outside world, and it immediately triggered a large sound of coolness.

The four old geeks, such as the hollow grotesque, are the domain lords of the central area buffer zone, and the first time they sent out a hearty long laugh.

In their view, it was only this time that the Taikoo konjac, who did not know how to live and die, was destined to be suppressed.

In fact, it's not just them, but the indigenous savage beasts such as the Taikoo Porcupine and the Taikoo Turtle, which are watching in the core hinterland, all of which are now mentioned in the eyes of the blind...

Chapter 3733: See also big stick

An eagle of flames and rain, overwhelming!

A banquet meal, the knife flame, raging!

More obvious after the bleeding pulse is true, before the body of the thousand-year-old silver scorpion, it shows the flaming phoenix of the **** bird, the flaming red flame, the rushing...

The three avenues, although younger generations, are all powerful in the fifteenth world of the stars.

At this time, each of their blood and magical mysteries will be displayed in three different directions, and they will be smothered by the Taikoo konjac. The imaginary distance of just a million miles is more than half of the blink of an eye. And then there are counts, you can arrive near.

Until this time, the Taikoo Little Konjac, who closed his eyes and knees, stood up unhurriedly, three heads and six arms, squatting in the sky, like an invincible **** of war, smashing all directions!

"You guys, do you have the ability to dare to make a shame?"

Seeing that the three directions of the offensive are coming, the Taikoo little konjac is fearless, and the flesh and blood in the three real bodies emits human language. Then, after all the people react, the three heads and six arms of the konjac are like The teleportation is general, and the moment is convenient for the place and completely disappeared.

"What is the situation? Actually, I started a virtual teleport and fled directly?"

"He's not always embarrassed, very arrogant? How can the style of the moment suddenly change?"

"Ha ha ha... After all, I am still scared! The ridiculous indigenous beast, Prince Sidd, escaped without fighting, especially before I fled, but also licking my face and making such words to strengthen my face, it was too disappointing!"

With the disappearance of the body shape of the Taikoo Little Konjac, the **** magical powers and the mystery of the inheritance have been carried out, and the three avenues that have been killed in the vicinity of hundreds of thousands of kilometers are all glimpsed, and then they laugh and sneer.

They have already determined that the Taikoo Little Konjac escaped without fighting, and directly launched the void teleport, and instantly slipped away.

Because of the void in front, there is no trace of breath at all.

The three of them exist as the Taoist level of their respective ethnic groups. Although they are young and younger generations, they have already entered the realm of the Qiankun, and they are powerful.

The Taikoo Little Konjac is only the cultivation of the universe, even if you have the secret of secrets, you will never escape their perception!

At least, a trace of gas, still can be captured!

"Search! He should not escape the void on the edge of this hinterland. Otherwise, it would be tantamount to directly admit defeat. It would be too ridiculous to be a laughing stock of the three planes!"

Jin Xiaoxiao, the Taoist priest of the Golden Eagle family, sneered and turned and rushed to the other direction.

"Be careful, let's search separately. The guy's virtual teleportation is a bit strange, but he didn't capture his teleportation."

The Taoist of the Space Rats screamed in the sword dance in his hand, but his face looked a little dignified and warned: "In addition, don't forget how he beat the wolf before, this little monkey likes knocking on a sap, the big stick in his hand should be extraordinary, be careful to be black from behind him..."

"boom!"

"Hey..."

The unparalleled words of the Space Rats have just fallen, and from the direction in which the silver scorpion scorpion stunned, there was a loud noise, followed by a fierce and fierce, resounding through the void. There will be more than one hundred ethnic groups in the hinterland.

And all the spectators of the various ethnic groups in the outer central buffer zone were all shocked.

The eyes of all people, all subconsciously toward the direction of the tragic sound, gathered the past, into the scene of seeing, and they immediately changed.

The legendary big sticks have reappeared.

At this moment, it is pinched in the right hand of Taikoo Little Konjac!

Then, when the three great Qiankun Daozi took the dozens of descendants of the various ethnic groups behind them, they dispersed and opened their heads and rushed to three different directions. He once again launched a second teleport and came back with a carbine. .

Coincidentally, after this second teleportation, his body shape appeared to be just behind the silver-clad Taoist stunned and turned away.

So the latter immediately got a cup.

A huge black stick of a hundred feet in size, with a thin head, directly picked up from the void, and squatted on the back of the head of the huge **** body.

The resounding sound of the right is the movement caused by this blow.

And the stern horrible sound that followed, was heard from the stunned front.

On the back of his head, a suspicious bump like a small hill is rapidly showing...

As for the stunned front, it is the same as the wolf, and the white eyes fainted on the spot.

Moreover, before all the people reacted, the three-headed and six-armed Taikoo konjac had already waved his hand and directly took him away. The blood of the huge silver pheasant bird disappeared in the void.

The most real thing to see in this scene is the more than 30 generations of the geniuses who are behind the horror of the horror. The Taikoo konjac is almost in the void in front of them, and then turned over. A super big stick appeared between the hands, and squatted on the back of the head of the stunned front...

Such a brutal scene has already stunned all these guys.

Although they have a large number of people, they are not as good as a stunner. Only a small number of six or seven people have cultivated their strength to reach the fourteenth world. The rest are still the domain of the thirteenth world. The beginning and the rest are all the voids of the twelfth world.

Faced with the strength of the Taigao Little Konjac in the 14th National Congress of the 14th National Congress, it is not an opponent, even the courage of a battle.

Otherwise, the Taoist sons of the other hundreds of other ethnic groups will not always follow behind the three stunned sons such as Yan Fengfeng.

They originally thought that there was a Qiang Kundao in front, and even if the Taikoo konjac appeared, there would be no such situation in which they attacked.

But now this scene has clearly appeared.

After a stunned stunned stunned singer of the silver scorpion, the savage Taikoo konjac has turned abruptly, smashing and smashing, and the fierce black big stick. Hold it in the right hand, dragging behind him, and rushing over to them.

Look at the posture, it is clear that the tiger is in the flock!

"Run!"

"Come here, I drop a day..."

"This is finished, and the murder is like this. If we are all together, we can't stand him a stick!"

The guys were scared on the spot, and they didn't hesitate. They were horrified in their mouths and fled...

Chapter 3734: The rhythm of the battle

"I drop a sly, this is already the second Taoist-level figure who has been blacked out by him. Only the ninth-order grand perfection of the Zhou dynasty, but the frustration of the fifteenth world, this Taikoo The little konjac is going to be against the sky."

"It's too horrible to outsource, it's too horrible, it's too amazing. The **** stick that is so fierce is obviously not a thing. It's on the back of Qiankun's power. The latter is out of the pack, but it's completely lossless. At least it's the starry sky!"

"It's too shameless! This time it is clearly shameless under the black hand, otherwise my family is a singer, how can he be so stunned by his stick?"

"The playing is yes, this kid's second teleportation kills a carbine. It is also too coincident to appear. It is just behind the horror. It is about seven or eighty feet away from the back of his head. Can you find that this chance is so small that it can be neglected, how could he have such a heinous luck?"

"It should be like this. If there is no accident, this little monkey scorpion will not have to teleport away. The patriots of the more than 100 generations who participated in this battle have all been deceived by him. The monkey scorpion is only going to be The shape and the breath are all perfectly hidden. In fact, it has always been behind someone. The surprise is too bad. He was selected and became the first target!"

"What? Is there such a hidden sorcerer of this kind of power and horror? Even the power of the 乾 乾 都 can not be glimpsed? A glimmer of gas can not be sensed, otherwise it is impossible to conclude that he is a virtual momentary departure! "

"瞳 术! If I am Jin Xiaoxiao, the next time I encounter this situation, I can only start the scorpion surgery. The genus has a yin and yang eagle, but it is a kind of martial arts. I dare not say voyeurism, but Basically have some similar effects!"

"Yes, if there is such a strange teleport, Jin Xiaoxiao must unfold the yin and yang eagle eyes. If it is just a secret occult, it will escape the insight. Otherwise, this battle will be defeated!"

.....

As the stunned front was knocked out by a stick, it was then put away. The strong people of the various ethnic groups in the buffer zone of the central area suddenly exclaimed, especially the several nobles and stars of the silver scorpion. The more angry nose is smashed.

Previously, only the greedy wolf people lost a Tao. They also secretly ridiculed their hearts. I didn't expect the wind and water to turn around. Today, when I come to my house, it is only a blink of an eye. It is their turn to be a silver scorpion.

I think that the stunned and sturdy Taobao, a powerful supernatural power and **** secret technique, but now there is no chance to display it, it has become the captive of the little monkey scorpion, every thought of this, the silver scorpion The old geeks have a kind of anger that wants to spurt blood on the spot.

In addition, some people have seen a little clue. They think that the Taikoo konjac has temporarily moved back to the carbine. The position of the physique is too coincidental, and the probability is almost negligible. Therefore, they suspect that the Taikoo konjac is rooted. There is no teleportation, but the body shape is hidden, and it is always behind.

Later, some people mentioned the golden eagle's blood and the yin and yang eagle, thinking that this surgery can restrain the Taikoo little konjac!

The technique of yin and yang eagle is a very mysterious technique. It belongs to the golden eagle's auxiliary blood and magical power. It can be insightful, perspective, and far-sighted, and has a certain power to see through.

In addition, it is said that it still has a 360-degree full view. Once this kind of blood and power is activated, there is no dead point and comprehensive insight.

Although it can't be reached in the early stage, it can be gradually approached to full view after cultivation. However, the distance of this full-view state will increase due to the level of the exhibitor's realm, and the initial can not cover the vast area!

Unfortunately, although Jin Xiaoxiao has a yin and yang eagle eye, but Ye Xuan is not a vegetarian, his enchanting is the supreme hegemon of the martial arts magical powers. If you want to compete with Jin Xiaoxiao, you can only die the latter!

Of course, among the major powers who are exclaiming, there are still many people with insights, and some of their guesses are almost facts!

Ye Xuan did not leave. At that time, his body shape disappeared, but it was the reason for the perfect oscillation of the mysterious technique.

Nowadays, under the state of the three-headed and six-armed konjac, the strength has already reached the great perfection of the ninth order of the celestial light, and there is only one small step in the distance from the great power of Qiankun. In this state, the perfect oscillation is fully opened. Only a little bit stronger than him, naturally, I can't detect the minute air.

In fact, if Ye Xuan is under the cultivation of the fifteenth world, he will fully perform a perfect oscillation. Not to mention the star's main situation, it is the domain lord. If you do not intentionally investigate, you will be deceived by him. However, under normal circumstances, I can't detect it at all!

For all this, Ye Xuan had already demonstrated to the Taikoo Porcupine and the Taikoo tortoise when he left the deep hinterland of the hinterland and entered the gambling battlefield on the edge of the hinterland.

Therefore, at this moment, he saw that he had severely threatened his opponent with this magical concealment technique, and knocked a sap to solve a Qiankun Taoist. In the depths of the back of the hinterland, a thunderous cheering sounded immediately, and the beast was endless. !

At the same time, after stunned the stunned front, Ye Xuan turned and rushed toward the more than 30 descendants of the various generations who had been behind the stunned front.

As for the other two directions in the distance, the mouse with the big knife dancing in the wind and the unparalleled mouse, as well as the Jin Yuxiao who showed the true meaning of the golden eagle, have also discovered the unexpected state here.

Under the face of madness, the mouth screamed and led dozens of followers behind each other and rushed over.

"Too monkey scorpion, do not run with this skill, this mouse must have cut your dog's head!"

"It's too shameless, little konjac, you are also a descendant of the blood of the ancient konjac. Do you think about your mother's feelings?"

These two guys are too poisonous in their mouths. One is screaming to cut off Ye Xuan's dog's head. One is even more swearing. He greets Ye Xuan's mother, and his mind's killings are instantly picked up.

"boom!"

A big stick went down, and Ye Xuan directly knocked out the seventy-eight of the descendants of the various generations who had just been chased by him.

Then, after wavering these guys into Shennong Ding in the body, Ye Xuan did not pay attention to the other 20 or so horrible descendants of the various generations.

In the middle of the squad, a slap in the face, and raised his hand, he pointed to the mouse and Wu Xiaoxiao.

The cold voice replied: "You two are waiting for the clean neck. The big mouse, Ben is baked in public for a while. As for this big bird, you will take a chicken wing and leave you a life. , want to die, do you have a good time? Nothing!"

When the words are degraded, he has once again ignited the perfect oscillation of the mysterious technique, and his body shape disappeared.

Chapter 3735: Track exposure

Ye Xuan, whose body shape has disappeared, is still not the ability to expand the void. It is a moment away, but once again, the perfect oscillation of the mysterious technique is opened, and the figure and the air machine are perfectly concealed.

For perfect oscillation, he is still very confident!

On the one hand, the current Ye Xuan in this state of the three-headed six-armed konjac, the strength has been infinitely close to Qiankun's power, and then, the perfect oscillation of this mysterious technique has also gone through two golden steps, and now It is a high-level secret technique, and the power is not normal.

Even now that he has not officially stepped into the Qiankun situation, but Ye Xuan is sure, even if it is a star lord, if you do not deliberately seduce, you can never peek.

As for the Taoist descendants who have cultivated the talents of the Qiang Kun, it is even more hopeless!

Therefore, Ye Xuan used no pressure, just used this secret technique to knock the sap of the stunned front, and immediately started again, wanting to go to the next city.

Of course, this is also because he does not know the Golden Eagle family, but he has a sneak yin and yang eagle with a slight glimpse of the vain power. Otherwise, Ye Xuan's cautious temper will never be so rash!

After hiding the figure, Ye Xuan's figure swayed and rushed straight toward Jin Xiaoxiao.

It was also at this time that Jin Xiaoxiao's huge golden eagle was in the depths of the eagle's eye, and there were two black and white awns.

At this moment, Jin Xiaoxiao activated the golden blood eagle, the yin and yang eagle eyes unique to the Golden Eagle.

Although he is rumored in the yin and yang eagle eye, after the activation and activation at this moment, it is impossible to make Ye Xuan's figure clear and incomparably into the field of vision, but he has been able to see a group of fuzzy energy groups, and is facing himself. The direction of the figure is moving quickly.

The volume is ten feet high, just the height of the Taikoo Little Konjac!

Jin Xiaoxiao's heart suddenly realized, and suddenly he sneered up: Sure enough, this kid has never been teleported, mastering a strange method of concealment, even in the yin and yang eagle's **** magical power, it's just showing Make a bunch of fuzzy energy light groups!

However, for Jin Xiaoxiao, it is only enough, it is enough!

At this moment, the mess of energy light group is quickly coming in the direction behind him, around a small circle, is close to the side.

Jin Xiaoxiao was quiet, pretending to be ignorant, and screaming at his hair: "Damn, this kid actually came back with this trick. Seeing you and me came together, the first time I left again!"

At the same time, he has secretly voiced the mouse in the other direction: "The mouse friend, my family has the blood and yin of the yin and yang eagle, just open, I have seen this kid, is winding from the right side of my figure a small circle, quickly approaching..."

"He didn't have to teleport away at all, but he mastered a strange hidden secret. Even I couldn't capture even a trace of gas. Before the wolf and the stunned, they ate this loss. It was completely misguided."

"His plan is very obvious. Everyone breaks down. The target of choice at the moment is me, but the next one must be you. I will wait for the three to solve it. The other races are useless."

"However, at the moment, he has already lost his way. You and I are so like this... I will count it down and kill this one!"

After a few simple secret discussions, Jin Xiaoxiao and the Mouse Musou quickly decided to deal with Ye Xuan's strategy, and negotiated with each other. They agreed on the timing and the secret number, but they did not immediately gather together.

After all, if the two gather together, the Taikoo Little Konjac is very likely to be close to the body, and they have now mastered the other side's path without knowing the other's knowledge. The first opportunity, already winning the game.

The difference is that the other side is attracted to the recent shot, leading the snake out of the hole!

"Damn, is this guy fleeing to the depths of the hinterland? I can't find it!"

Under the heart secretly sneer, Jin Xiaoxiao carried a small circle around the edge of the core hinterland with a Taikoo konjac hanging all the way behind him. On the way, he and the same mouse are also searching for the same time. Staggered, but the two have not been hands-on.

Because the Taikoo Little Konjac has always hanged in the void in the thousands of miles behind Kim Jong-woon, although the distance is not close, the two have no 10% grasp to succeed.

There is only one chance. If one hit fails, the other party will know the secret of hiding their body shape and air machine. It will not work anymore, and there will be no second chance!

Therefore, Jin Xiaoxiao and the mouse are extremely cautious, and cherish this unique opportunity!

opportunity finally arises!

In fact, Jin Xiaoxiao has been observing the movement behind him. At this time, he rushed in one direction, and the ambiguous energy light group hanging thousands of miles behind him finally got moving and slowly approached.

Jin Xiaoxiao was excited, even when he sent a message to the mouse, he said: "Daoyou, the fish is hooked, is approaching me, it is only five thousand miles away, when it is approaching, my figure Will be a little bit in the void, you lock the position for the first time, directly teleported, and licked his dog!"

After a few moments, when the ambiguous energy light group had approached the void of two thousand miles away, Jin Xiaoxiao stopped his body and pretended to be thinking about which direction to search in the next direction.

It was also at this moment that the light energy beam behind him suddenly accelerated, and the blink of an eye had already rushed behind him.

This moment, Jin Xiaoxiao's huge golden eagle's eyelids all jumped wildly, and the back of the brain was due to psychological effects. Like the conditioned reflex, the subcutaneous blood vessels suddenly jumped a few times.

It was the horrible horror of the stunned front and the horror of a super big bag in the back of the brain, leaving him with a deep psychological shadow.

Being quickly approaching from behind him is indeed the emergence of Ye Xuan, the true state of the three-headed six-armed konjac!

The void distance of more than two thousand miles is almost instantaneous for him to be infinitely close to the Qiankun. At this time, Ye Xuan has already reached the distance of about 100 feet behind Jin Yuxiao, and he will take it out directly. The **** farmer who changed into a **** stick.

However, at this same instant, an anxious scream came from the mouth of Kim Min-soo, and it was too late to prevent it. Even the body shape was not manifested, and Ye Xuan, who had not yet made a **** stick, was shocked. .

"The mouse is unparalleled, right now. He licked his dog's head..."

"call out!"

The mouse that had already locked this empty position in advance had arrived, and arrived directly by teleport. The huge long-handled knife in the hand was directly cut toward the position where Ye Xuan was in shape.

"Hey! I was actually seen by you?"

Ye Xuan's heart was suddenly realized. At this time, his figure has not yet appeared. The unparalleled knife of the mouse has been cut. There is no doubt that the other party has already glimpsed his path in advance!

When the sneer sounded, Ye Xuan's figure suddenly appeared, and then he fluttered from the mouth and heard only the words he could hear: "spirit...reverse!"

Chapter 3736: Returning to the sea

Among the spiritual strength skills, secret methods, and magical powers that Ye Xuan has mastered, all others are all high-level. Only the slaves who have just obtained the mutation are the primary ones.

In addition, it is the spirit of lightning and mental reversal, or intermediate.

The former spirit lightning is only a secret of spiritual strength.

The latter's mental reversal is the spiritual power.

Therefore, even if the mental reversal is only intermediate, but because it is a spiritual power, coupled with the current Ye Xuan in the state of the three-headed six-armed konjac, the cultivation of strength is half-step, and at this moment, the power is extremely extreme. Uncommon!

However, the spirit reversal of these four words, he is inconvenient to come out, will reminiscent of the devil's group, after all, spiritual power is the unique label of the devil's group.

In the activation of the brain to understand the spiritual source of the nucleus hanging in the sea, a large number of eight-level spiritual power instantly vented, showing the spirit of reversing the magical power, while Ye Xuan also confusedly screamed: "Magic knife... ..a return to the sea!"

Going back to the sea, it was originally the name of a demon who was scolding the head of Wan Fu. At present, this person is in the Arc de Triomphe, and the reason why Ye Xuan now takes it out of the name of Shentong.

On the one hand, it is a movement, on the other hand, it is because of the scene that will be shown next, the name of this magical power is really appropriate!

"Hey..."

A continuous and faint high-frequency tremor sounded, and Ye Xuan, who had just emerged from the konjac, was suddenly seen in the **** eyes of the three real bodies of the black mist. .

Face-to-face, directly hit the long-handled knife that is facing the head of his flesh and blood!

These two **** sorrows are like liquids, and they spread out along the huge knives in an instant, like a layer of **** dye at the extreme speed.

The next moment, a strange scene happened.

The original face has already appeared in the same color as the sneak peek, and I believe that I will fall to the head of the ancient konjac flesh and blood in the next moment. Even if I don't let him fall on the spot, at least the rats that are seriously injured will be unparalleled, and the whole body will suddenly A stagnation, the dawn of the eyes is also confused at this moment.

Although it was only a short moment, that is, half a breath, but everything changed!

The huge long-handled knives of the handle were already about to reach the neck of Ye Xuan's flesh and blood, only about half a meter away.

But at this moment, with the layer of blood brilliance that was shrouded and rendered above the body of the knife, the wide, sharp blade was actually reversed, along the path of the raft, and the original way back. After arriving at the starting point, it still hasn't stopped yet, and it is straight to the unparalleled neck of the rat.

"puff!"

A muffled sound came out, and the huge head of the unparalleled mouse was directly separated from the body and fell to the void.

In the moment when the skull rolled down, in the unparalleled eyes of the mouse, the dawn finally recovered, and there was a strong unwillingness and fear. However, everything was too late, and his dawn was quickly dimmed, and it fell.

"Oh la la..."

In the headless neck cavity, a large piece of blood rushed up, and the golden screaming in front of the mouse's body was directly covered with a full head.

This scene looks very strange, Jin Xiaoxiao also saw it, at this moment his soul flies, the whole brain is all chaotic.

Coupled with the shock of the heart, I haven't recovered. In the headless neck of the mouse, I have already rushed out a huge blood column, and drenched him with a full head.

Hot blood pouring, let him be a little hot.

But in the depths of my heart, there is a strong extreme to the extreme cold, and along the tail vertebrae all the way up, blinking to the back of the head, so that his scalp is completely numb.

In fact, it's numb...

Because at this time, the fierce **** stick has been turned over by the three-armed and six-armed Taikoo konjac. After roaring, he squatted directly on the back of Kim's head.

This time, because Jin Xiaoxiao's back of the head has already been raised by the bottom of his heart, causing his entire hindbrain to be numb, so he basically did not feel much pain.

There wasn't even a tragic scream, and the white eye was turned over and it was fainted on the spot.

Of course, the cerebral numbness is numb, and the pain can be gone, but the suspicious bulge that is as big as a hill is still indispensable!

After a stick of gold screams, Ye Xuan no longer hesitates. When he turns his hand, he will close the **** stick. Then he waved his hand and changed the shape of the demon blood blade. Under one squat, he will scream The golden eagle is a real body, and directly fell a huge right wing.

He just said that he had to roast the Nether Mouse and smashed a chicken wing of Jin Xiaoxiao.

Subsequently, Ye Xuan turned his hand again, and the **** blade of the demon disappeared. He smashed the golden scream of the wing, and he was directly included in the internal space of Shennong Ding.

Just breaking a wing, Jin Xiaoxiao obviously can't die, but Ye Xuan will not let him go. This kid actually greets Ye Xuan's mother. When this sentence is exported, it has already been destined for his ending!

"The headless body of this space mouse is a thousand feet in size. Benedict can't finish it. I said before, I have to ask the two brothers of the porcupine and the tortoise to eat space rat meat, so I still have it. Go back and bake!"

Anyway, the space mouse has been degraded by the dagger, and it must not escape the end of the final roasting of the food. Ye Xuan's voice is a wave of speech, directly bringing the mouse-headless headless body and the huge mouse head to the bones. The Shennong Ding in the immortal world.

Then, his line of sight swept the wing that had just fallen from the golden eagle of the golden eagle.

Jin Xiaoxiao is the Tao of the Golden Eagle family. He is a great man of Qiang Kun. After his appearance, Jin Yingzheng has reached a huge height. If it is a complete wing, it is three hundred feet. Ye Xuan alone is also unable to finish.

At the moment, he was degraded by him. The golden eagle winged in the void is only a small part of the golden eagle's right wing.

Even so, there are still hundreds of giants, and the two-color flame in Shennong Ding is baked. After going to the dregs, at least sixty-seven feet, Ye Xuan alone, absolutely can not eat.

But it doesn't matter, he is ready to bake all at once, for the upcoming swallowing of a 13-level liquid, and then on the spot to hit the thirteenth big territory start, to make the final preparation.

Sixty-seven feet of roast chicken wings, he consumes about 20 feet at most, and the other forty feet, will be thrown into the body by Ye Xuan, directly thrown into Shennong Ding.

There are also Xuanyuan Ziyang and Duanmu Xiaocha, Zhao Qianru and the eight King Kong guys who are looking at it.

This time, after the wolf was knocked out, it was collected from the internal space of Shennong Ding. The guys in Ding's inside must have known that Ye Xuan was harmed outside.

In this case, if the Shennong two-color flame that ignited the volcano in the central area was baked outside, but did not give Xuanyuan Ziyang a slap in the face, he would have to wear small shoes and throw some golden chicken wings into it. It's a rainy day...

Chapter 3737: Weird and rough

"call....."

In the wave, a awning Shennong two-color flame was pulled out by Ye Xuan from the inner space of the Shennong Ding in the immortal world, directly covering the interception of the hundred-footed eagle wings in the virtual air in the right front!

When the two-tone flames touched, the golden wings of the dragons burned out completely, revealing the flesh inside, and then began to lick the oil, which sounded very comfortable, but fell in the eyes of nearly 100 people of all ethnic groups. It is tantamount to the sound of the soul.

The guys trembled in the first place, squatting and fleeing.

Everything happened too fast. Except for Jin Xiaoxiao and the mouse, there is no one knows that they have actually set a trap, just wait for the Taikoo Little Magic to drill.

Until that sentence is now the sound of roaring from the mouth of Jin Xiaoxiao, followed by the mouse directly in the direct teleport, the long-handled sword is in the fall of the Taikoo small konjac neck.

Originally behind the two, and the people who followed the stunned front, and then the nearly tens of thousands of descendants of the tens of thousands of people, they suddenly came to realize.

At that moment, all people's faces showed a surprise color.

Sure enough, it is the existence of the children of Qiankun Dao, the two of them joined forces, it is easy to make the Taikoo little devil fall into the void.

However, everything that happened in the future was so strange that it fell into the eyes of the land...

The mouse has nothing to do with the madness. Losing him is the sorrowful way of the Nether Mouse. At the most critical time, seeing the big knife in his hand is licking the neck of the Taikoo konjac, but it is at this moment. The chain, the backhand directly wiped his neck!

Then, without waiting for everyone to come back, the blood rushed out of the headless neck of the mouse's unparalleled wreckage drenched a transparent golden scream, just like the wolf before and the stunned front, the back of the head smashed the big black. A stick of sticks, swollen scary thief size mountain bag, directly fainted, was dragged away.

This is really unacceptable. If the wolves were strong and stunned before, they were all attacked by the Taikoo Little Magic, and they were black-handed behind them.

So now, the mouse unparalleled and Jin Xiaoxiao are set in traps in advance, leading the Taikoo little scorpion into the shackles, and they have even succeeded, and only one more instant, they can fall into the three realities of the Taikoo Little konjac. Business with one of the scalp.

However, the end result is exactly the opposite!

Rats commonly and Jin Xiaoxiao were killed and injured, and the people of Taikoo, the little konjac, but after receiving the prisoners Panele and the war, they directly baked the chicken wings in public...

What does this mean?

Explain that everyone's previous understanding of this Taikoo little konjac is wrong!

It's just the perfection of the nine-ordered perfection of the Zhouguang. Nowadays, the people have already made four 乾道道斬擒擒擒擒擒擒擒擒擒擒!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

This is definitely a fierce name, no one dares to provoke.

At least for the time being, the geniuses of the great powers who are still in the battlefield of this hinterland are absolutely not courageous.

Nowadays, nearly a hundred people have fled in the face of madness, and they are just like dogs who have lost their families.

It's really too old, the little konjac is too ferocious, not directly smashed and eaten, that is, the **** stick shines on the head and greets... They don't dare to be harder than the 乾坤道!

As for the cultivation of the realm and the combat power, it is even better, and there is no comparison!

In the face of such a killing, in addition to flee, is there any other choice?

It is a pity that even if it is only the edge of the core hinterland of the evil source, it is as vast as it is, and it is tens of millions of miles away.

Taikoo Little Konjac is now obeying the only way to connect the outer buffer zone of the central area. These guys can't escape.

Anyway, I dare not go deep into the core hinterland. There are still a large number of indigenous beasts in the face, including the Taikoo Porcupine and the Taikoo tortoise, which is the domain lord, definitely more than this Taikoo konjac. Be a beast.

In desperation, the tens of thousands of descendants of all ethnic groups can only swim in the edge of this core hinterland, and their hearts are fierce and anxious.

At this time, Ye Xuan has already baked the golden eagle wings that have been cut off.

The eagle wings of Baizhang, after being ruined by the Shennong two-color flame, are only about seventy feet.

Ye Xuan waved his hand, and the black magic blade passed by, leaving about twenty feet. The other fifty feet were divided into three parts, one ten feet or so, and he was thrown into the inner space of Shennong Ding, let Xuanyuan Zi Yan that Shantou and the Eight King Kong just followed the light.

The other two are also about twenty feet, flying directly to the depths of the core hinterland ahead.

This is the filial Taikoo Porcupine and the Taikoo tortoise!

Subsequently, his right hand turned over, and the black magic blade was taken into the body, and he turned to the **** stick of the size of 100 feet, which was dragged behind him.

Then, the left hand of the flesh and blood body turned to the void, and the golden eagle wing that cut the twenty feet was automatically flew up and rushed to the front, and he was held in the left hand and bitten!

delicious!

Sure enough, it is the eagle wing. It is much more delicious than the meat. It is incomparably delicate, the entrance is instant, and an energy spreads in the body. There are some mysterious chains coming from the vague.

This is the sign of the human body's potential chain, which will be torn by this fine blood and medicine.

"If you can't escape, Benedict said before, this piece of gambling is about to fight in the battlefield, or don't come in, don't think about going out when you come in!"

Seeing the front of the void, the geniuses of the descendants of the nearly powerful forces, all looking at themselves with a blank face, there are some familiar faces.

For example, the palace has no heart, the hatred of the enemy, the dustless and the jade fairy!

For example, the tyrants of Heaven, the horror of Peng, and the two princes of the Tianchen Kingdom and the Heavenly War Empire, and the peak of Xu Bi, even the name of Ye Xuan, the great emperor of the immortal dynasty, Long Xiang...etc. wait wait wait!

Seeing these guys, Ye Xuan's heart is more enjoyable.

At this moment, he has three heads and six arms, and he is ten-footed. He is holding a huge golden eagle wing of twenty feet with his left hand in the flesh and blood. He is eating it bit by bit, and the other right hand is dragging one. The **** stick of the giants...

While eating and saying, step by step toward the front of the sky, more than a hundred major forces of the future generations of the arrogant, approaching: "Do not struggle, useless, from the Bun, what can not be? At least, can be exempted Big black stick!"

This scene is too strange, too rough.

If you look at it coldly, it seems to be a five-and-three-thick man. One is holding a chicken leg, and one hand is dragging a huge mace. While eating, he leans toward a group of unarmed little skins.

And still laughing in the bad: "Don't resist, from the uncle, otherwise a mess!"

"what....."

"Help... help!"

Perhaps it is because the brain in the brain has made up such a scene, the sky stunned in front of the sky, the hundreds of major forces, the genius of the younger generation, finally can not bear, began to scream...

Chapter 3738: Do not be impulsive

"boom!"

"boom!"

"boom....."

The little Taikoo konjac is not polite, and the body shape is directly teleported. The **** stick of the right hand swings once and for all, and each time falls on the head of Tianjiao, a descendant of all major forces, as for those who are strong. Without a huge **** body, the whole body is smashed.

Of course, these guys are repaired under him, only a few Zhou Guangjing, but they have not reached the 9th level of this perfection, still weaker than Ye Xuan, simply can not bear his hard work.

Therefore, Ye Xuan took control of the power, only to bring these guys to the head of the long bag, or directly spurting blood, but life is worry-free.

The reason why Ye Xuan is eager to shoot is because the 20-foot golden eagle wing pinched by his left hand has now seen the bones. The energy in Ye Xuan's body is endless. If he does not suppress it, he is afraid that there will be countless The pores must be sprayed out of the Xia Rui.

In this realm, he has reached the peak and must break through.

However, the shackles of the body's flesh and blood have a very large and no tear, and the blood of the majestic is not running smoothly. All the obstacles make him quite uncomfortable, such as stalking in the throat.

Now Ye Xuan, just want to take a 13-level liquid as soon as possible, tear the potential, and break through, and then enter a new realm.

Therefore, before this, he must have overturned the tens of thousands of other great powers of the great powers and earned them in the body.

At this time, with the huge eagle wings of his left hand being smashed, the three-headed and six-armed Taikoo Little Magic swayed the big-handed black stick of the right hand, and the stick of the stick went down, and more than forty people fainted in the blink of an eye. Directly fainted on the spot.

In turn, Ye Xuan's bones and brains were all collected into the inner space of Shennong Ding in the body.

Also staying outside the major forces of the future generations of arrogance, about touch more than forty, all are Ye Xuan's acquaintances, at this moment one by one scared to sift through the screen, generally trembling, and begged for mercy.

In the face of such a fierce and flamboyant Lord, plus no one can escape before and after, do not want to swollen bags on their heads, only beg for a choice!

"Little konjac, do you know who the prince is? I am Long Xiang, the great prince of the immortal dynasty, the immortal emperor of the future, you, you... you dare to be a black stick, the book... the king and you fight!"

Perhaps it may be useless to beg for mercy. This Taikoo little konjac is too ferocious, and he has to come up with enough capital to make him jealous.

Therefore, seeing Ye Xuan dragging his right hand with the **** stick has come to the front, the dynasty's great prince Long Xiang will be heart-to-heart, and his teeth will be named.

After all, the immortal dynasty is one of the two camps of the Terran, and the Terran, in the Federation of the Vatican, can be said to be a single big, the second universe of the major ethnic groups join hands to compete with the two camps of the human race of comprehension and technology.

From this point of view, the second universe or the Qiankun Tao of any ethnic group in the first universe is not as big as the big prince of the immortal dynasty!

For this, Long Xiang is quite emboldened.

In fact, after listening to the words of Long Xiang, the three-headed and six-armed Taikoo konjac actually stunned. It was originally rushing to the shape of the near, suddenly in the void, the look of the three heads. Also weird.

This scene was seen by the two sons of Tianchen and Tianzi Empire, and Xu must be seen. The two also stunned and then rejoiced.

It seems that the name of the immortal dynasty is still quite loud.

In this case, in order to avoid being bombarded by the **** sticks, this time it is necessary to follow the big emperor's body and wind down.

Thinking like this, the two guys immediately jumped out in red light, and they patted their chests, and they were very vocal, and their attitude was extremely confident!

"And me, I am the prince of the Tianchen Kingdom, Xu will pour, the direct confession of His Royal Highness!"

"As for me, hey, the prince of the heavenly empire, Ling Feng, to say that the great prince of the great emperor, the most trusted confidant, I naturally lined up in front of Xu Bi..."

"Daoyou, the Emperor persuaded you, or you have to be impulsive!"

The two guys, Jing Lingfeng and Xu Bi, just finished, and saw the big emperor Long Xiang, who had a play, stretched his hand and pulled them directly. They pushed the two of them to the side and walked to the front, a pair of clothes, and they looked at Ye Xuan. Advise, Dun Dun is tempted: "In today's world, the three major planes, the heavenly family defeated, basically the Wanluo Federation is a big one, and in the Federation, it belongs to my human race, the human race, my immortal dynasty is It is one of the two camps, and this prince is the immortal emperor of the future..."

"boom!"

"boom!"

"boom!"

Didn't wait for him to finish, the **** scorpion that was dragged behind him was lifted up, and the right hand was under the shackle. He sang a name on the heads of Long Xiang, Zhan Lingfeng and Xu Biding. !

"puff....."

The three guys spurted blood on the spot, and the bones of the whole body were broken by 70% or 80%. This is the result of Ye Xuan's control of the force. Otherwise, a **** stick will go down and it will suddenly burst into a **** fog and completely fall.

Even so, under the leaves of Ye Xuan, these three guys were seriously injured on the spot. Although they did not pass out, but their eyes were confused, they could not find the focal moment. This is the brain in the mind, in front of the eyes. It's all a sign of gold smashing, and a stick is smashed.

In the wave, Ye Xuan put away the three people of Long Xiang, and then turned to the palace and looked at the past, including the little Princess Medusa of the Choi, which is also one of them.

Nowadays, he still stays outside without being black, and he is in his early forties. One by one, he is terrified. He feels that this little devil is simply not in the oil, so he can't say it.

For a time, no one dared to scream again!

"Little brother, Lunjia is a woman, can you not be so fierce? Scared people to watch the liver plop through a burst of jumping..."

In the end, the little princess Medusa of the Choi people lifted the **** state and restored the human form. It looked like a little girl. At this time, a pair of watery eyes stared at Ye Xuan tightly. I see pity.

This **** is no way, and the fear of yelling on Ye Xuan's **** stick, when the head swollen a long horn, what the pain does not say, it is too ugly.

In the eyes of the little konjac oil and salt did not enter, she had no choice but to try the beauty plan, maybe it can be useful.

"boom!"

"Monsters, just a big flower snake, now it has become a little girl to confuse all beings, it is time to fight!"

The words of Medusa have just fallen, and a **** stick with a hundred feet has fallen on her head. On the spot, she flipped her in the void, even though she didn't have a long bag on her head. However, the white eyes turned over and was accepted by Ye Xuan.

"Mom, it's too cruel!"

"Stop, monkey uncle, we surrender..."

At first glance, the little princess Medusa of the Choi people used it, and she still couldn't escape the catastrophe. The **** stick said that he said, the palace is in the heart, and the rest of the forty people are completely desperate. Under the change of face, they have surrendered on their own initiative...

Chapter 3739: Domain beginning

In the end, all the people, including the dust-free and other strong people, were all absorbed by Ye Xuan in the internal space of Shennong Ding. However, the palace was inadvertently left behind, and the huge silver above the edge of the hinterland was empty. The ball also needs him to control the maintenance.

Without such a method of crystal ball reflection, the powerful forces outside the central area buffering the battle will not see what is happening inside, and can't witness their Tao and their ancestors how they were suppressed. It's not good to play with it afterwards.

Of course, the income of Shennong Ding's inner space of this hundred days of arrogance, Ye Xuan did not directly let them appear outside the Ding Nei space, but when thrown in directly directly in the foothills of a mountain.

In this way, the guys can't know where they are, lest they reveal that the Taikoo konjac is the secret of the fox.

After all, except for a few people, the other people, Ye Xuan, will be put back later, used to extort ransoms from major forces.

The thirteenth level of liquid in his hand will be used immediately, and the 14th and fifteenth grade liquids are urgently needed afterwards. Although Ye Xuan has nine colored meat muds and all kinds of evil source liquids, there are also intermediate intermediate **** liquids. After joining, basic There will be no unsuccessful refining.

However, there are still some vacancies in the basic materials required for the fourteen-level liquid and the fifteen-level liquid. It is an extremely rare natural treasure. It is rare that all the major forces of the three major planes are all gathered together. Can solve this problem.

"Be honest and give Ben Biao the head of the silver ball, don't think about running away, or you will kill you with a stick!"

At this moment, the palace did not shrink its head to the side of the hinterland near the deep side, standing on a small star, Ye Xuan rushed to him, scared the palace inadvertently piled up a smile, continuous should be.

At this moment, he suddenly remembered the Lord of the Fox, the lord in front of him, the temper is exactly the same as the lord, the same is a food, the same ferocious and enchanting, and finally remember to let him maintain the back of the silver ball When it is really the best use of things, when the captives have to work hard, don't be so sad!

He didn't even think about fleeing at all. The star that was lame was too far away from the dividing line of the outer central buffer zone. He didn't wait for him to rush over, fearing that he would be suppressed in the middle.

Ye Xuan is not worried about this. After swearing a few words at the palace, when he sat down in the central void of the hinterland, he took out the 13-level liquid that had already been prepared and drank it. Go on.

Subsequently, Ye Xuan hesitated a little, once again took out a drop of evil source liquid, floating in front of the void in the air, he opened his mouth, swallowed into the belly.

At this moment, the Taikoo Porcupine and the Taikoo tortoise in the depths of the hinterland were in sync at the same time. The time that Ye Xuan took out the source of the evil source in the outside world was short and almost negligible.

However, as a strong domain domain, the gods are extremely powerful. The Taikoo Porcupine and the Taikoo Turtle have still had the induction. The liquid is clearly the same as the atmosphere of the furnace. It is even more pure.

They have an intuition that this thing must be the treasure of the furnace.

Just how does it appear in the hands of the little donkey?

It seems that he is also very familiar with this thing. After taking it out, he opened his mouth and swallowed it. The movement was flowing, without any hesitation and worry. It was obviously not the first time.

These thoughts flashed through my mind. The Taikoo Porcupine and the Taikoo tortoise turned their heads to look at each other, exchanged their eyes, and thought deeply, and fell into sinking...

Fortunately, there is a layer of dividing line between the outer central buffer zone and the edge of the hinterland. The consciousness of the starry sky can not directly penetrate the dividing line and perceive everything in the core hinterland.

Otherwise, just in the moment, Ye Xuan is afraid to experience a crisis.

The Taikoo Porcupine and the Taikoo tortoise can sharply capture the breath of the evil source liquid, and the four old domain monsters of the **** clan in the central buffer zone are obviously ok.

Although they have never seen the source of evil, they can basically be calculated from their breath. At that time, they are afraid that all the four domain owners will be crazy. It is not impossible to rush to rob Ye Xuan on the spot.

After all, the reason why the grotesque and other domain lords came to the source of the evil, the ultimate goal is to hope that after the deep development of the core hinterland, the source ancestors behind the second universe Reward, in the end, they can enjoy a drop of half a dose of evil source.

This kind of thing even the source ancestors behind the various ethnic groups, each with only one or two drops of distribution, at this moment, I can't see it, how can there be no madness?

Ye Xuan still did not know that the right move was at the extreme. Fortunately, everything was shocking and did not cause unexpected accidents.

At this moment, after swallowing this drop of evil source liquid, he closed his eyes and knees, began refining in the void, and fully attacked the thirteenth big territory!

Every inch of flesh and blood inside and outside the body is being smashed and smashed, and then the great pain of reorganization is coming soon.

Ye Xuan, sitting cross-legged in the void, all the faces of the three real bodies, all showing painful colors.

This is the effect of the thirteenth level of liquid, really impacting the physical potential of his deity.

This feeling, Ye Xuan is not the first time to try, but every time I feel, it is almost limit pain.

After all, although his cultivation has improved his strength, the gene culture fluid used every time has also risen, and its efficacy has been increasing again and again.

Otherwise, it will not be able to achieve the desired effect, unable to break the physical potential, and tear the chain of shackles that are shackled with flesh and blood.

And this time, because Ye Xuan swallowed a tube of thirteen grades of liquid, and then swallowed a drop of evil source liquid, the latter is also the effect on the flesh, and is the top rare, which strengthens ten The efficacy of the tertiary liquid.

Under the superposition of two phases, the pain that Ye Xuan felt this time will be particularly strong.

But he finally got his teeth hard!

The whole time has not lasted for a long time. After all, he has already laid the foundations before. The eagle wings that are nearly 20 feet contain a lot of pure blood and essence energy. They have already been opened in the body of Ye Xuan. endlessly.

At this moment, the efficacy of the thirteen-level liquid was dissipated, and with the help of a drop of evil source liquid, the chain of faintly emanating from Ye Xuan's body became louder and louder, and finally a loud bang, a piece of it banned him. The shackles of the flesh and blood are finally completely torn off and no longer form a bond.

At this moment, the speed of energy in Ye Xuan's body suddenly increased. If it was a raging river before, it is now a roaring river, which is completely different.

In the next moment, the Taikoo Little Magic, who was kneeling in the void, opened his eyes.

All of the three real-life doubles are smashing out a touch of fine mans.

Successful breakthrough!

His deity is in the flesh and blood, and he has smoothly entered the beginning of the thirteenth world...

Chapter 3740: The power of Qiankun

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the first stage of the domain!"

In the next moment of opening his eyes, Ye Xuan's mind came in a timely manner with a familiar system sound. He shook his fist and stood up in the void.

The body of the deity's flesh and blood finally broke through and entered the first stage of the thirteenth world.

So what about the three-headed and six-armed konjac?

Previously, when the body of the devotional flesh was a nine-step grand perfection, Ye Xuan was in the state of the three-headed six-armed konjac, and the strength was the perfection of the nine-order eclipse.

Among the three real bodies, the body of flesh and blood is the deity of Ye Xuan, and the body of the cheekbone and the body of the black mist are respectively added to the strength of a great realm.

Now the flesh and blood body has successfully broken through and entered the first stage of the domain. Then, if there is no accident, now Ye Xuan, in the state of the three-headed six-armed konjac, is repaired as strength, and should also be obtained. Improve, step into the shackles!

The Qiankun environment is a watershed that has been cultivated as a realm of the starry sky. It can be called a powerful power when it enters the Qiankun.

Although Ye Xuan is only in the state of activating the three-headed six-armed konjac, he can temporarily possess the cultivation of the Qiankun, but he is still very excited. After all, he feels the power of Qiankun in advance, and has passed the power of Qiankun. Addiction!

Trying to spur the power of the body, flowing between the three real bodies, the kind of smooth feeling, so that Ye Xuan is extremely happy, compared to the breakthrough, it really is too strong!

However, he did not directly reveal the atmosphere of Qiankun, but still maintained the ninth-order grand perfection of the Zhou Dynasty, because if there is no accident, the next wave of war should soon come.

The bet is about three months, and now it's only twelve days!

After the successful breakthrough, Ye Xuan's mind immediately put on another matter, that is, to deal with the hundreds of major forces who had been captured by him, the geniuses of the younger generations, and used them to extort money from the forces of the outer central buffer zone. Try to get all the talents needed to refine the 14th and 15th grades!

However, for the three captives of the top two second-generation cosmic sects of this time, that is, the wolf is strong, Jin Xiaoxiao, and the stunned three, Ye Xuan did not intend to deal with it.

On the one hand, because this kind of Taoist person is very different, in the future, it is very likely to grow enough to pose a threat to Ye Xuan. On the other hand, it is because in Ye Xuan's eyes, this kind of Qiankun's way, he still has great use. !

However, this matter required him to personally enter the inner space of Shennong Ding, and he and several other patriarchs who had already surrendered to him, such as Jinghong, had been negotiating, so they could only be put aside for the time being.

After all, he is still in the gamble of the March period, and everyone is so eye-catching that there is really no way to sacrifice Shennong Ding and then personally enter it!

Thinking about everything, Ye Xuan turned to look at the silver-backed crystal ball in the void above the head.

First, the grin shows a harmless smile of humans and animals, and then raises his hand and gently sways, it is said to have said hello.

Then I began to speak out and opened the door and said directly: "You, the first wave of dishes you sent, Bengbu has already been harvested, and tasted a braised chicken wings in a small place. The taste is not bad, is there still behind?"

"puff!"

"Puff puff....."

Just after this sentence was finished, the outer central buffer zone rang the sound of a large piece of old blood. The top executives of all major forces were almost all mad, all face green, blink of an eye, and finally began to take off. Black, in short, colorful, wonderful!

Especially the high-ranking members of the Golden Eagle family, all of them are thundering, and the star owners and domain owners are almost unable to hold back. They want to rush in directly, and slap the little magic scorpion that attracts people. Give a shot to death.

"Roar!"

"It's too irritating, and I actually smashed the wings of one side of my family, and after the roasting, I became a braised chicken wing, and it was so deceiving!"

Aside, the star lord and the domain lord of the space mouse family are also exposed to thunder.

"squeak!"

"It must be destroyed, and it is almost impossible, even the beggars of my family are beheaded with a knife..."

During the speech, the lords of the two families, even if they rushed out of the flagship of the fortress of their ethnic fleet, wanted to rush to the front edge of the hinterland and kill the Taikoo konjac.

Seeing this scene, the **** and silvery lords of the lords of the squadrons were eager to sneak out on the spot, and quickly rushed out, and in the void, they stopped the two super-powerful violent violent people. Advise, Dun Dun is tempted.

"The two Taoist friends, do not be impulsive, impulsive is the devil, and now we still have a chance during the three-month gambling period."

"Yes, my silver scorpion's way is not knocked out of the sap? If you bring the little monkey scorpion back, all the hostages will be released, and the three cosmic planes will join hands. Can't you get a team that can suppress the little monkey?"

"There is a performance, the other horses of the various ethnic groups are coming. The previous three Taoists can't do it. The next time they can't make the five six people together, it's the one who said that he said one person, and then said The hidden secret of this kid has already been exposed. At that time, the ancestors of the Golden Eagles will be sent to the past."

"This is a wonderful measure, so it is safe to grasp. The yin and yang eagle eyes of the Golden Eagles have the effect of breaking the shackles. Isn't the monkey scorpion a sap that is knocked by the secret method? It breaks his hidden technique to his celestial world. The repairs were made, and the five or six Daozi were enough to suppress it..."

"As for the space mouse family, the sorrowful road... oh, it's a pity, but everyone has fallen, and then it's useless. It's better to win the gamble and enter the depths of the core hinterland. After all, it can still be compensated. Friends, festivals!"

"The key is the depth of the core hinterland in front. More than 90% of the people may have an ancient konjac in the realm of the border. Otherwise, how can this little scorpion be able to make the indigenous beasts in the two domains do so? "

"We have four domain owners now, but we still don't have the slightest grasp of the last lord. If you want to get the depths of the core hinterland, the only way is to take down this little magic scorpion and let The old konjac in the main border of the world is a rat trap..."

"At the moment, they are voluntarily making a bet, and they are still single-handedly, and the time is three months. The old konjac is too arrogant. I want to use all the top forces of my three major planes to grind the young son. Knife."

"But this is also our chance. The only opportunity for the little konjac to be under the glory of the glory, once the gambling contract is now destroyed, this opportunity can be lost. At that time, the old konjac in the realm of the border is sitting in front of the town. Let's not say that the four domains are in the main situation, that is, four more people, and they dare not easily venture in!"

This is very reasonable. The two lords of the space mouse and the Golden Eagle family calmed down. At this time, in the huge shadow of the front, the voice of the Taikoo konjac also sounded again.
