

## Super D. S 3741

Chapter 3741: All was broken

"What? Is it this dish? Is there nothing behind?"

"That's too boring? You haven't played enough yet, you haven't gotten hot, your people have been wiped out!"

"In addition, the three-month gambling period has only passed 12 days. Is this going to be overwhelmed? What are the three cosmic planes of the shit, all of them are a group of chickens and dogs, too much to fight. "

"In this way, in order to let Benedict have a good time, the more than 100 people who have just been captured, Benedict can put it back. You organize and organize, train well, and then gather a big army to come and accompany the Bengbu to continue playing. kind?"

"But this book can't be hard work, people can put it, but they must pay the ransom, yes, it is the ransom..."

"Give you three days to make a ransom. If you don't redeem it within three days, Benedict will deal with it directly, and all of them will be baked. Let the indigenous fierce beasts deep in the hinterland make a good tooth festival!" "

"As for the ransom, don't do anything. You don't need those things. You can redeem the prisoners as long as you have all kinds of treasures, and you have to do the following things. , eat after three days!"

At the end of the day, Ye Xuan reported all the raw materials that he still lacked in the 14th and 15th grades.

These include the Wannian Lunar Essence Liquid, the Phoenix Blood Jiuyi Sand, the Youshan Bi Blood Beads, the Wrapped Silkworms, the Wanjiu Pregnancy Bamboo, etc., and many other extremely rare top-level treasures, which can be heard outside the central domain buffer. The high-level forces of the band were stunned, and the cold sweat on their foreheads all came out!

The fourteenth grade liquid and the fifteenth grade liquid are not all things. Nowadays, in the immortal dynasty of the Terran Science and Technology camp, the major forces and families studying the genetic fluid can only formulate eight and nine grade liquids.

The ten-level liquid will only be able to be prepared by the Tuoja family. This is the result of Ye Xuan's previous efforts to use the ten-level liquid formula when he was using the resources of the family to consume their family's resources.

This shows that the fourteenth and fifteenth grades are precious.

The fourteenth grade liquid is worth mentioning. Taking a tube successfully, it is the creation of a four-dimensional environment.

However, the fifteenth grade liquid was unacceptable. Once the strong person of the Zhou Guangguang took a tube and successfully broke through, the mighty power of the fifteenth world was instantly born.

That is the great power of Qiankun. It only takes one or two tubes and fifteen grades of liquid, and it can be created from the strong people of the universe, showing its horrible efficacy.

From this we can see how much of this kind of genetic fluid, in the preparation of the various natural treasures, is so precious.

Even Ye Xuan, many times robbery, extortion, can be described as a bad thing, and the objects are all top-level forces and ethnic groups in the three major planes, but in his hands, he still has not prepared the two kinds of genetic fluids. All heaven and earth treasures.

This time, he opened his mouth to ask for the eternal eclipse of the eclipse, the blood of the phoenix, the sap of the blood, the blood of the sage, the stalk of the silk, the sacred sacred bamboo, and the sacred treasures of the sacred bamboo. It is the top power or ethnic group, even if it is, it is stored in the family treasure house.

Easy to use!

For this reason, the price code that Ye Xuan opened directly scared the tops of the major forces. After a slight sigh, all of them violently jumped and roared...

"The bandits! The robbers! Actually want to carry the sacs of the sacs, this little monkey scorpion is not crazy?"

"The belt is broken! All of them are broken. All the specials are badly damaged by the \*\*\*\* Linghu!"

"Playing is a play, since the fox rushed to the little \*\*\*\* in the drug Wang Ding to do the same thing, first of all, the sacred less respectful kind of learning, now the first universe of evil in the star field of the indigenous beasts of the little devil I actually came to this trick, and the whole special thing was broken!"

"But... arrogant people, can't I really redeem people? You can't control your ethnic group, but my dynasty was captured, but the great prince, in any case, must be redeemed!"

"Come on! This little monkey scorpion is all top-level gems, and the number is also large, but fortunately, the top forces and ethnic groups that I wait for the three major planes are basically all here, and each family only takes one or two. It can bear it!"

"You can only try to get together. The words of the little monkey scorpion have been heard. Everyone who has quality in their hands can't hide it. What he needs, no matter how much it will trade, anyway, this small After all, the monkey scorpion is going to be caught by me. Even the best cherries are only temporarily put in his hands. For the younger generations, they bite their teeth..."

After some deliberations, the star owners of the major ethnic groups finally reached an agreement and decided to go all the way to the top prizes required for the transaction.

Soon, the lists submitted by the various families were put together, and the transaction items requested by Ye Xuan were put together in the three major planes, which were close to all the top forces.

However, these top-level rare treasures are basically stored in the ancestral treasures of major ethnic groups or forces, and it is impossible to prepare for the supply of such fleets. Therefore, it is necessary

to notify the following ethnic groups as well. Forces, let them open the wormhole transmission, and send the required cherries one by one.

Although the first cosmic plane has no first-level satellite network signal that can cover the entire plane, the secondary network signal is still available.

The secondary star network can only cover a star field, but the neighboring groups can still communicate and communicate in the first time.

The messages of the major ethnic groups were sent out in this layer-by-layer manner. As for the news of the two major forces of the second universe and the third universe, after passing to the devil's group, they finally turned to the devil. The ethnic group promises to rent the communication of the devil's group and the short-range directional transmission array on the premise of paying a certain advantage, and this will be done.

Although the three-day period is not long, these top rare ones are all sent through the wormhole transmission, and they are still dead objects, not living things, so it is more convenient and fast, just in the evening of the last day, All the Tiandi Dibao and the top-level Qizhen required on the transaction list were finally sent to the source of the evil.

The deal was soon unfolding, and a small warship driven by an intelligent robot, driven out of the central buffer zone, crossed the front dividing line and entered the edge of the core hinterland.

There is a small space box in the battleship, which is loaded with the various treasures and top treasures that Ye Xuan asked for, and they are all neat!

After receiving the ransom, Ye Xuan did not intend to make any other moths with this group of people. After waving, he would be included in the internal space of Shennong Ding three days ago, and they would be confined to the hundreds of ethnic groups in the mountain. We all put it out.

Of course, feng and Jin Xiaoxiao, Wolf Gangqiang and other three Qiankun Daozi, as well as the color princess's little Princess Medusa, are not here...

Chapter 3742: Keep playing for a few days

In addition to feng and Jin Xiaoxiao, Wolf Gangqiang and other three Qiankun Daozi, as well as the young Princess Medusa of the Caisong family, Gong Wuxin was also left behind by Ye Xuan, because there is a second wave of food delivery. Ye Xuan had to keep him and maintain the silver ball in the sky above the head.

As for the other hundred people, including the great emperor Long Xiang of the immortal dynasty, Ye Xuan was put out, and the gang of these guys flew and jumped out of the core hinterland!

After a short period of time, the silver scorpion, the greedy wolf, the golden eagle and the Cailu, as well as the five lords of the Terran camp, and the five lords of the celestial squad, almost roared at the same time...

"What about the horror? My silver scorpion also put together a phoenix scorpion sand, which is also the top of the world, why not let me go?"

"And the wolf of my greedy wolf is just strong, and I have not released it. My family has a 12 strains of silkworms, monkeys, do you want to eat black?"

"And my golden eagle's Taoist Jin Xiaoxiao, have been smashed off by you and smashed, why not let go, my family has also put together a eternal eclipse, do people... wrong, monkey I want to talk about credit!"

"Oh! Too much, the indigenous beast, are you going to break the contract?"

"I will release the person immediately, including my little princess Medusa. She is not a Taoist child. You keep her with the little monkey scorpion. What is your intention?"

"Okay, don't worry, then quarrel with Ben, and immediately bake them together!"

Taikoo Little Konjac looked up at the silver ball in the sky, and his eyes turned and said: "These guys have kept playing for a few more days. They didn't say that the ransom was released immediately. It is not a breach of contract. After the end of the period, it will naturally be put back."

After that, Ye Xuan turned and plunged into the depths of the core of the evil roots behind him, leaving a very incomprehensible discourse: "When is the second wave of the army to get together? Try to be faster, this is really boring. Now, go back and wait, remember that this time the quality is better, don't let Benedict be too disappointed!"

"puff!"

"Hey..."

Outside the central area buffer zone, once again sounded into a piece of old blood, but the top forces of the major forces have no way, the four domain owners who are sitting here are also helpless, can only bite their teeth and squint Waiting for the follow-up of other ethnic groups to come...

.....

"Little donkey, the braised chicken wings just tasted delicious, more delicious than the meat..."

"Is it a performance, isn't there a wing?" Hurry up, Qigen smashed, at least three or four hundred feet, but it was enough!"

Ye Xuan was just returned to the deep star field of the core hinterland. The Taikoo Porcupine and the Taikoo tortoise immediately greeted him, and the corner of his mouth was still squatting. When he met, he was asked to bake another braised chicken wings.

And all this is not just to cut a wing tip, let him give it to him!

"When you have wings on this side, there is still a wing tip on the other side. You can't move any more. Otherwise, the kid will hang directly. Benedict has it for use. If you run out, you have to pay someone, at least The guarantee is alive and you can't lose credit."

Ye Xuan turned his eyes and turned, but did not refuse.

However, listening to his intentions in this statement, it is clear that the intention is to stun the front and the wolf is strong, Jin Xiaoxiao and other three Qiankun Daozi, just to stay a sigh of relief, to ensure that the surviving will be fine.

Nothing else!

At least one side of three or four hundred feet of braised chicken wings to enjoy, Taikoo Porcupine and Taikoo turtle immediately nodded, and did not pay attention to Ye Xuan intend to take this guy for another use, anyway, his loot.

Ye Xuan said nothing, and the matter was directly handled in Shennong Ding.

On the other side of Jin Xiaoxiao's wing, he was cut off by Qigen, and the tragic sound was shocking, but it did not come out.

This kid is also alive, the original Ye Xuan will not be such a heavy hand, but who told him that his mouth is too owed, and the swearing of the mouth is actually the elder ancestors of Ye Xuan?

That is a must to retaliate!

This time, Ye Xuan did not pull the Shennong two-color flame out, but directly in the central volcano of Shennong Ding. After the cut was baked, it was shrunk to a length of three hundred feet. Come out, it's full of fragrance, and this corner of the void is full of fragrant smell.

The Taikoo Porcupine and the Taikoo tortoise screamed and immediately rushed over.

Next to the hundreds of stars, the Lord's sorrows and slobbers flowed, and finally the indigenous beasts of each star's main territory were all assigned to the size of the size of the squad, and they returned to their homes to enjoy.

As for the other indigenous beasts of the Qiankun era, there is no such thing as a good thing. There are too many numbers, and they simply cannot be separated.

As the eateries rushed to eat, Ye Xuan confessed some of the indigenous beasts of the Qiankun era, letting them stare at the edge of the hinterland. If the second wave of food delivery came, immediately notify themselves.

Now he has already had an extraordinary status in the core hinterland of this evil source. He is the brother of the most powerful Taikoo Porcupine and Taikoo tortoise. Before that, he was a twentieth star lord guard. For his command, these great powers The indigenous beasts of the class are naturally unassuming, and they dare not be scornful.

After all, they are also counting on the return of the head Ye Xuan to get more high-quality ingredients, so that they can follow another tooth festival!

Soon, a group of indigenous beasts at the level of the squadron rushed out to closely monitor the edge of the hinterland.

And Ye Xuan, he entered the remote corner of the hinterland, and did not avoid some of the beasts in the distance. He waved the Shennong Ding, but only a few feet, then he took a step and entered the Shennong with his true body. Ding inside!

"Wow, what kind of ghost is this time? Don't think that we don't know that the mountains around the volcanoes in the central area have changed from time to time. It is clear that something is locked in..."

"Playing is playing, hurry and honestly, how many good things have you gotten this time?"

"See who has a share..."

After entering Shennong Ding, Ye Xuan resumed his original appearance, but his body shape just appeared. Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks greeted them, and their eyes were shining.

Behind the eight King Kong, one of them is oil, it is clearly divided into the chicken wings, but also did not care to wipe the mouth.

I haven't seen it for a while, not only the cultivation of the three hoes of Xuanyuan Ziyang has skyrocketed, but the same is true of the Eight King Kong. It seems that I am extremely satisfied with the life of this space inside, at least in the outside, there is absolutely no improvement in the realm of cultivation. So fast.

The vast space inside the Ding is full of exotic flowers and grasses, and it is a cultivating treasure. It is indeed a place of cultivation, and from time to time there is also a flesh-and-blood food baked by the gods and peasants. It is simply not comfortable.

"Don't make trouble, this time comes in, there is business, and time is tight!"

Facing the three gimmicks thrown into his arms, Ye Xuan was speechless, shaking his head and smiling. Then he turned his gaze to the volcano in the front of the central area: "Twenty guys in the stunned rainbow, it is time to let go of it." .....

Chapter 3743: Ye Xuan's plan

It was imprisoned by Ye Xuan in the cage of the second universe of the volcano at the bottom of the volcano of Shennong Ding, with a total of more than 20 people.

Among them, the four guys are the patriarchs of the respective ethnic groups, including the stunned rainbow, the horns of the sky, the Jin Yanyan, and the four wolves. Of course, they are predecessors.

Since they were taken away by the squad, the outside world thought they were fallen.

Among all the prisoners who came in this time, the other Ye Xuan were released. Ye Xuan only left five, and the palace was unwilling to maintain the crystal ball back outside, and the stunned front, Jin Xiaoxiao and the wolf were strong. The three Qiankun Daozi were locked in the inner abdomen of the three Dingnai space, and did not even know where they were.

Only the last one, the little princess Medusa of the Caisong family, Ye Xuan shut her to the mountain wall cage at the bottom of the volcano of the central domain, and was next to the stunned rainbow.

These four people are Ye Xuan's mastery of the four ethnic groups behind him.

Among the top ten ethnic groups in the second universe, the Turtles are allies, open to the Turtles, and nine ethnic groups.

At present, among the nine ethnic groups, there are already four ethnic groups with training candidates. In addition, the five major ethnic groups, Ye Xuan decided to choose from a dozen or so second-world cosmic strongmen who were imprisoned at the bottom of the volcano in the central domain.

These dozens of descendants of all ethnic groups are arrogant, and the other nine ethnic groups in the top ten communities of the second universe, all of them after the invasion of the Turtles, are all there!

During the wave, the more than 20 second-class cosmic elites who were imprisoned at the bottom of the volcano of the central domain all came to Ye Xuan.

Although Ye Xuan is still only the first-order cultivation of the thirteenth world, but the most powerful people in the field are also in the middle of the void, even if Ye Xuan does not activate the three-armed and six-armed konjac. Can suppress them.

What's more, before the 20-something guys, in addition to the new Medusa, other people have already sworn by the exploitation and torture of the three gimmicks of Xuanyuan Ziyan, and almost cried. Shouting to find death, you must be loyal to Ye Xuan.

Therefore, even if they released more than 20 people at the moment, they appeared in front of their own eyes, and Ye Xuan was completely fearless. He did not worry about the situation of riots!

"Long Xuan, is it you?"

At this time, Ye Xuan reveals the original appearance of the deity, and the time when the young princess Medusa of the Choi people was taken in was not long, and was imprisoned in the cage of the mountain wall, and the action was limited. However, the communication between words has no problem at all. I have already learned about everything through 冀虹虹 and others.

Therefore, at the moment, when I saw Ye Xuan, I screamed at the first time, and my face was full of sorrow: "The fox is the Lord, you are the Lord, you are Sha Baofeng." It is also you, plus the invincible

\*\*\*\* of war that is still tossing in the realm of the human race. Most of them are also your avatars, and the Taikoo konjac..."

"God, when the Seven Great Worlds are enchanting, you alone accounted for six. Are you so sick and mad? Let us not let us live?"

"You are not comprehensive!"

Ye Xuan shook his right index finger and smiled lightly: "I can make another supplement. The demon group is the devil's emperor Mo Yufeng, but it is also me! That is to say, the seven worlds of the world are enchanting. In fact, all of them are a prince!"

"thump!"

"thump....."

When I heard this, not only Medusa, but even a few people in the horror and the corner of the day were scared and sat down on the ground.

Next to the Xuanyuan Ziwei and Duanmu Xiaocha, Zhao Qianru three women, is also stunned, watching Ye Xuan Zhang mouth.

As for the eight King Kong, it is not necessary to say more. At this time, looking at Ye Xuan, it is already a star in the eye, and the worship is very bad.

"God, when the Seven Great Worlds are enchanting? Isn't this five before?"

"Playing is playing, how long have we been staying in this Shennong Ding? Your Highness has made such a move, and there are seven deities in the world, and all of you are one!"

"Not living..."

"It's not that you don't live, but you have accepted your life. When the Seven Great Worlds are enchanting, all of them are him. What does this mean? This era belongs to him!"

"Forget it, I have been quite unwilling to wait for the oath of allegiance that I have made before. Now it seems that this oath seems to be God's will. This era belongs to him. I can only follow him and do it in the future. Destined to rise!"

"Xuan Huangzi, let us do it together, the three universes, and belong to us in the future..."

At first, it has become an uplifting. Although this era belongs to the younger generation, the competition among the younger generation is also fierce.

Xuan Huangzi, who has already proved his enchanting strength with facts, is not as good as it is, and it is better to hug a group, and follow this enchanting emperor to organize a group!

When these words were spoken from the population such as Qu Zhenhong and others have actually had this kind of enlightenment. How can they not be excited?

Even, even the little Princess Medusa, who was just caught by Ye Xuan, is now looking at Ye Xuan, and she is even in color!

Although she is a little princess of the Caishao nationality, she will become the patriarch of the Cailu nationality at most, but even so, she will still be subject to the darkness of the family.

That is the way!

The Tao of all ethnic groups bears the blood heritage of the ethnic group. It is basically the patriarchal lineage that handles the daily chores. However, the Taoist mother of the Caishao family has always been inconsistent with Medusa.

In Medusa's view, it is obvious that he is free from his own destiny. He will control the entire Cailu in the future and will no longer be subject to a wonderful opportunity of Meijiao Niang!

In fact, if we seize this opportunity, we will form an alliance with Xuan Huangzi in the future. The three major universes of today's world will basically be in this team.

Her heart is moving!

"This time I will call you over, there is a good match!"

Ye Xuan's eyes swept over Medusa, and his heart was calm, but his face was quiet. Then he looked at the stunned rainbow, Jin Yanyan and the wolf and the three men, and then said: "At the moment, I have three second universes in my hands. The Qiankun Daozi of the top ten ethnic groups are the stunned front of the Yinxi people, the Jin Xiaoxiao of the Golden Eagle family, and the wolf of the greedy wolf family..."

"The three guys have already received a ransom for the prince. After about two and a half months, they have to be sent away, but as long as they keep their breath, they will die."

"Now tell you to come over, just look at the three people who are shocked, stunned, and stunned, and how the relationship between these three guys is. If you can, win their squad, make yourself, throw a waste. Give them no, no, no..."

Chapter 3744: The second wave of sending vegetables to the army

"Take the road to the foundation, achieve it? I see this thing, just like the surprise, the goods are different from me. If you play small, you will be fighting, and the bullying has always been me!"

After listening to Ye Xuan's words, Yu Honghong's first response, surprise, and tears.

As the young patriarch of the Yinyi nationality, he is no stranger to the stunned front, and has been fighting each other for a long time, but the other side is a singer who is responsible for the \*\*\*\* inheritance in the Yinxi ethnic group. However, the other party, even if it becomes a future patriarch, is useless, so it has always been prepared for oppression.

This time I heard that I can win the rumor of the horror, and to achieve myself is simply a big joy.

"My situation is similar. The people in the ethnic group who bear the responsibility of blood circulation are basically the stars. The young patriarchs have also received a lot of anger from Jin Xiaoxiao. They hate him for hating the roots."

Aside, Jin Yanyan, the former singer of the Golden Eagle family, said faintly, but looking at Ye Xuan's line of sight, he was full of gratitude.

His words just fell, and the wolf was also gnashing his teeth: "I am the same. I still remember the last time I was provoked by the wolf without any complaints, and then I was beaten and broke a rib..."

This is the rhythm of great joy. Since the three stunned singers and other three singers and the stunned rainbows are not harmonious, it is naturally best.

Ye Xuan was greatly satisfied, and turned to the side of Medusa: "What about you? How is the relationship with the Choi people?"

"She is called Mei Jiao Niang, but in fact it is a heart-like poison like a snake. I am a sister of the family, who is killed by her alive..."

Medusa lifted her hand and gathered a burst of hair, and then, after Ye Xuan returned, she made an oath on the spot.

Finally, I reached out to Ye Xuan: "If she comes, remember to help me, I... ask for permission!"

"welcome!"

Ye Xuan grinned, this girl is really not ordinary, sharp and decisive, but it is the best choice to control the Cais.

"As for you..."

Loosing the right hand that Medusa stretched out, Ye Xuan turned to the other dozens of the second cosmic descendants of the second generation who had already made the oath, and then said: "If there are the Taoist people in your family, I will You must, take the road to your own, and then find an opportunity for you to leave Shennong Ding with a legitimate excuse, return to the family, everything in the future, it is up to you to grasp!"

He did not mention any swearing constraints, nor did he say anything like warnings. The guys in front of me are smart people, and naturally know how to choose!

.....

After a sigh of ten days, the period of gambling has been nearly a month.

In the past ten days, there have been several ethnic groups of lords who have come to the scene, bringing the existence of the snow-bearing sub-levels in their respective ethnic groups.

The main geeks of the various ethnic groups that came here this time have a total of six, plus the previous four, and now the source of the evil domain of the central domain has a total of ten domain owners.

Even so, they still dare not act rashly.

After all, although the ten lords of the domain are horrible, there is still the possibility of a war in the early days of the upper bound, but if the old konjac in the depths of the core hinterland is the mid-term repair of the lord, then even this There are no opportunities for the ten domain owners to be on the same page.

If it is the later revision of the landlord, it is basically a rhythm of easy suppression!

What's more, the six lords who have just arrived this time have also brought a singer of the singularity of the road, a total of six

In the eyes of the ten old lords of all ethnic groups, this gamble is a must.

As long as you take the Taikoo Little Konjac, the situation will be different in an instant.

Therefore, they did not impulsively, but they took the initiative, but they were waiting for the six ethnic groups who had just arrived to adjust their status and prepare for another battle.

These six Qiankun Daozi are the Tao Zijiao from the barbaric bulls, the beautiful sons of the colorful scorpions, the Taoist sons of the tree spirits, and the lions of the war lions.

These four Qiankun Daozi, from the Second Universe Federation!

Counting the three people who were captured before, the top ten ethnic groups of the Second Universe Federation, there are already seven great ethnic groups.

Opened the Turtles, the two Taoist sons who have never arrived, are only the first and second of the top ten ethnic groups, the \*\*\*\* and Qingpeng.

The other two Qiankun Daozi who came here this time are from the two major groups of the first universe.

As soon as the six Qiankun Daozi arrived, they immediately geared up and hated that they could not immediately enter the edge of the land in front and kill the Taikoo Little Konjac.

However, in order to be safe, after the arrival of the last arrival of the Maoma Mountain, the six Qiankun Daozi were immediately gathered together, and then they were shown back to the images of the former war, the horror and others.

In the end, he said seriously: "The little monkey scorpion has some strange hidden secrets. Even if it is a mighty power, it can't capture any breath. The first wolf is strong and the stunned two are eating this big loss. Only captured."

"This second war, the various ethnic groups will not send other descendants of Tianjiao with you, except for the palace that is still on the edge of the front hinterland, there is only one golden eagle descendant who has been cultivated by Zhou Guangjing. Six people entered together."

"At that time, the descendants of the Golden Eagle will be responsible for the magical eagle of the yin and yang eagle, helping you to locate the position of the little monkey scorpion at any time, so try to protect him. Otherwise, once he has an accident, for you If you lose your eyes, you will fall into a passive situation..."

"In addition, the little monkey scorpion still has another strange magical power. You can see the picture before the mouse's unparalleled fall..."

"His long-handled knives are almost dying, but at the last juncture, they are ridiculously retracing, smashing their heads and swearing and swearing. You can see the horror of this magical power. You must be careful. Remember that only six of you are in this battle. Any loss is unbearable and will affect the overall situation!"

They did not dare to support the big, and they should be there immediately.

Then, a group of seven people rushed to the flagship fortress of the Yi people, each activated their own blood, showing the true body of the bleeding pulse, all of them huge, and swaying toward the front of the hinterland along the battlefield.

For Ye Xuan, the second wave of food delivery army is finally here!

This news, the first time was closely watched by the indigenous beasts of this movement, the masters of the Qiang Kun masters, and then some people turned back, and returned to the Taikoo Porcupine and the Taikoo tortoise...

Chapter 3745: The fourth change of the lion

This kind of thing is too sinister, and Ye Xuan does not want to participate.

Among the major ethnic groups, there is basically this kind of secret inheritance. The three patriarchs of the three major ethnic groups, such as Jinghong and Jin Yuyan and the wolf and rigid, naturally hold this secret.

Ye Xuan will smash the front of the horror, Jin Xiaoxiao and the wolf, and the three men will be banned. After they have been handed over to the stunned three, they will not pay attention to the follow-up issues. Even if they go out of Shennong Ding, they will wave their income into the immortal world. !

Just after doing all this, there will be an indigenous beast with a great energy level, and report to Ye Xuanzhen on the front of the hinterland. There are already seven descendants of all ethnic groups entering the gambling battlefield, of which six are powerful and one The golden eagle strong in the Zhou Guangjing.

"Six Qiankun Daozi? This time it is really big!"

Ye Xuanzhen has a flash of fine mansions. At this time, the three-headed and six-armed konjac has been activated again. However, the strength is still maintained in the ninth-order grand perfection of the Zhou Guangjing: "There is still a golden eagle descendant of the Zhou Guangjing. It seems that it was not accidental to expose the traces before. The Golden Eagles should have some kind of tricks, and they can see through the hidden effect of perfect oscillation!"

"What is it? It's a bit interesting... Unfortunately, all this is destined to be in vain!"

In the muttering, Ye Xuan figured up in the void, and quickly stepped into the battlefield on the edge of the hinterland. The palace was unwilling to stay honestly on the abandoned star, maintaining the normal silver ball in the upper sky. Running.

In front of the void, there are seven figure-shaped figures. The rear is a thousand-footed golden eagle. In front of his figure, there are six other figures in a row. In addition to the lions of the Warrior family, the lions are still in shape, and the other five figures. They are all huge.

They are a barbarian, a colorful pottery, a tree monster covered with numerous rattan tentacles, and a lion-like lion with a humanoid shape.

In addition, there is a dark hen in the dark, and a huge force!

Seeing the three-headed and six-armed Taikoo little konjac appeared, the golden eagle was nervous in an instant, but the other party did not hide his body shape. He naturally did not need to activate the \*\*\*\* sensation of the yin and yang eagle eyes.

The six Qiankun Daozi in front of them, in the first time, screamed and provoked provocation...

"Three heads and six arms? This shape is quite horrible, but unfortunately the strength is too weak!"

"Otherwise, how can you only dare to attack the sap? If it is a hard battle, this road can suppress him in a short time!"

"The monkey scorpion gives you a chance to surrender, and immediately rolls over and squats, so you can suffer less!"

"No, he has no such opportunity. I am a master of the Caisong family. I have been attacked by him from time to time. Today, this Tao is coming, it is necessary to dismantle him."

"Small, do not remember, remember your grandfather's name, today will crush you, the bulls are horns!"

"Do not talk nonsense, the first battle, this Taozi appearance, you can rest..."

"The \*\*\*\* lion is the first change! Hehe..."

With the sound of a terrifying gryphon resounding through the heavens and the earth, the words of Lion Wanjin are still degenerate. The figure behind the figure suddenly shows the illusion of a hundred lions, anger, blood, and anger. One side of the void was slightly trembled.

Then, the \*\*\*\* shadow of this giant lion was not in the hair of the lion Wanjin body, its body shape instantly soared, and the blink of an eye showed the blood.

This is a \*\*\*\* lion with a hundred feet of size. It is like a huge pair of \*\*\*\* smoldering flaming horns. It is already staring at the Taikoo konjac in front of it, and it has already locked his breath.

The reason why Lion Wanjin has not directly manifested the bleeding pulse before, is because the genius of the genius once displayed, the body is suddenly bloody, never seen between the opponents, generally will not activate.

However, only the second change is obviously not enough.

"The second blood of the mad lion!"

Not waiting for Ye Xuan to return to the gods, the second violent lion's voice has already sounded, and the lions behind the lions have shown a huge, \*\*\*\* lion illusion, instantly immersed in their body, making them The shape once again skyrocketed, and the blink of an eye showed the true body of a thousand lions.

The blood ancestor of the second cosmic war lion family is the blood-scarred lion in the ancient times. The sacred lions turned into magical powers, and even they all shined in the ruins of the past.

Legend has it that the \*\*\*\* lions in the lions of the war lions have changed their minds. Every time they explode, their blood vessels will skyrocket ten times. Even if the atmosphere is unchanged, the power of qi and blood is like the difference between heaven and earth. The opponents of the previous ability will be crushed in an instant!

After the ninth change, the degree of horror of the \*\*\*\* body, which is a geometrical skyrocketing, will reach the level of the giant tortoise, and the claws are a star field.

It's just that the realm has never been met by any war lion. Even today's war patriarchs, only the third change of \*\*\*\* lions.

The predecessor of the tribe, the patriarch of the patriarch, claims to have the strongest existence of the blood talent since the 10,000-year-old, but as early as many years ago, he has returned to his ancestors and reached the fourth change of the \*\*\*\* lion and lion!

A change of hundred feet, two changes a thousand feet! Three changes! The four changes are ten thousand feet!

The size of 300,000 meters is equivalent to that of a starry sky war. Even a 100,000-meter-diameter starry fortress is just a small thing in front of it.

However, the lion tyrant has been killed by the sorrowful sorrow, this matter is an eternal shame and scar for the war lions.

What the outside world doesn't know is that among the descendants of this family, in addition to the former Shaozu lions and tyrants, the Qiankun Taoist lion Wanjin is also close to the ancestors because of the blood in the body, and thus the lions have changed nine years ago. The blood of the magical powers, the realization of the fourth layer, that is, the fourth degree of \*\*\*\* lions!

"The third change in \*\*\*\* lions!"

"The \*\*\*\* lion is the fourth change!"

"Roar!"

"Hey..."

As the words of Lion Wanjin sounded again and again, the roaring and screaming, behind the true body of the \*\*\*\* lion, appeared two sacred lions, first the size of the 10,000, and then 100,000 feet...

In particular, the last tens of thousands of feet of the mad lion illusion, all over the body roaring blood, murderous eyes, the powerful fierce pressure, so that this side of the void trembled.

This 100,000-foot-tall mad lion was also quickly immersed in the lion's body, causing his body to continue to skyrocket. Within a short period of time, his \*\*\*\* body has skyrocketed to a hundred thousand feet. The whole figure is no longer just a virtual shadow, but an entity, like a small star, it is generally empty!

"Roar!"

"Small, don't be, let's die!"

Once again, roaring, the lion-like gold with a shape of 100,000 feet, slammed up the right front leg and slammed toward Ye Xuan, who was in front of the sky.

The latter's body shape is only ten feet high. Compared with the current lion Wanjin, it really can only be regarded as a small point. It is simply unremarkable...

Chapter 3746: Sure enough

"Booming..."

With the foot of the horns stepping on, the whistling sound of the thunder in the void, the hurricane rolled up from the air, still thousands of miles away, Ye Xuan has felt the wind blowing.

Such a power, even he could not be discolored.

The war lions, the \*\*\*\* lions of the lions, are really different, this is only the fourth change, so that a Qiang Kun can have a \*\*\*\* body of 100,000 feet, huge to resemble a star.

Such a huge figure, just the strength of pure flesh, is already terrible.

In fact, among the six major Qiankun Taoists who came here this time, the lions who belonged to the mad lions were the strongest lions, and the other five were the first or second-order repairs of the Qiankun, but the lions were The third step of Qiankun.

Nowadays, under the power of the fourth change of the \*\*\*\* lion, the lion's cultivation is even more powerful. Now it is the fifth stage of the vicissitudes of the world, and it is approaching the later stage.

If Ye Xuan is the means to do it, there is no fear of it. It is only a trivial matter to kill him. He has cultivated his strength beyond Ye Xuan's realm and even more opponents. He has spent a lot in the frontal battle.

But now he is in the form of three-headed six-armed konjac, and too many means can not be used. Even if it is no longer hidden, it will show the advanced strength of the battle, but it is only the first step.

In the face of this horrible lion with a shape of 100,000 feet, he simply can't face it hard, otherwise he will be seriously injured, and the consequences will be hemoptysis.

Therefore, in the face of the lion Wanjin, this empty space has been stepped out of the thunder of the sound of a limb, Ye Xuan's only choice is to avoid its edge, fight back!

"call out!"

When the sound of the air broke, Ye Xuan launched a virtual teleport at the first time, and his body shape disappeared.

Almost at the same moment, the sneer of the horns rang: "After this move, Jin Zhanpeng, immediately kicked him out!"

In the distance, the golden eagle of the \*\*\*\* venom of the Jinying nationality, the celestial patriot Jin Zhanpeng, activated the \*\*\*\* yin and yin and eagle eyes in the first time. The huge eagle eye flashed through two sacred golden awns and turned to the surrounding emptiness. stand up.....

At this time, Ye Xuan was in the void in the right side of the right side of the tens of thousands of miles. At the same time as he teleported, he had activated the perfect oscillation of the spiritual power secret technique, and the body shape and air machine completely concealed.

In the wave, the electronic avatar that had just been honoured was not sacrificed by him not long ago. He also kept in a state of concealment, and he did not return to the head and swept away in the distance.

This electronic avatar is the embodiment of Ye Xuan's electronic consciousness, which was formed in an emperor's body. It was formed after refining and refining. It was only the thirteenth sect of the thirteenth world, but nowadays, in Ye Xuan Not long ago, after the dedication of the deity, the repair of this electronic body has reached the first level of the universe.

Although there is still a certain gap between the nine-order grandeur of the eight-armed and six-armed konjac in the true state of Ye Xuan, there is still a certain gap, but after all, it is in the same big realm.

Coupled with the fact that this electronic avatar has changed its appearance at the moment, it is also a three-headed and six-armed arm. Although it is not a konjac, it is only an illusory appearance, but it has not been a problem to lie to Jin Zhanpeng in a short time.

At this moment, the electronic body of the three-headed six-armed konjac's true form was transformed. After turning around, it plunged forward to the void, which is the area where Jin Zhanpeng's dawn is about to arrive.

The deity of Ye Xuan, but suddenly retired, specifically to pick up the blind corner of Jin Zhanpeng's sight, and quickly approached the corner of the snarling roar...

"I found him, just in the void in the right front of thousands of miles, is escaping!"

Soon, Jin Zhanpeng screamed with a pleasant whisper: "He must be afraid. The fourth change of Wanjin's mad lion is really amazing. The monkey scorpion not only hides the figure, but even the repair is hidden. The first step of the universe, this is the deep fear that was discovered, and I want to see the rhythm..."

"Roar!"

"Hey..."

Jin Zhanpeng's words fell, and the lions with a size of 100,000 feet immediately screamed and chased in that direction.

The other other Qiankun Daozi are also like this. The figure is scattered around and open to the void in that direction. This is the rhythm of wanting to close the goal and prevent it from escaping.

"boom!"

"Hey..."

Almost at the next moment, a huge humming sound came from the left edge, followed by a scream of screaming to the extreme, which was shocking.

Everyone looked at it and looked down subconsciously. It just happened to see the empty sky thousands of miles away on the left side. A figure of three heads and six arms appeared. In the right hand of the flesh and blood, a big head of a hundred feet was screwed. The black stick is lifting from the back of the horned head.

The huge squeak of the right one is the movement of the \*\*\*\* stick on the back of the horn.

As for the screaming and screaming, it was taken from the mouth of the horned owl. A sap went down. The two huge horns on the top of his head were in the middle, and a suspicious bulge was visible to the naked eye. The blink of an eye has been like a mountain bag, and it is flush with the huge horns on the left and right sides.

Originally the first two corners of the horns, blinking in the middle of the head of the head of the third meat bag big horn, it is as human as its name, head horn!

With such a heavy stick, the corner stunned and fainted on the spot.

He is also unlucky, and he has already been eye-catching by Ye Xuan. The electronic body shape of Ye Xuan is exposed, which leads everyone to spread out. When you want to expand the package, the corner is just right in the square. The left edge of the left hand is very good.

Under this circumstance, Ye Xuan naturally couldn't be polite again, and he couldn't lose it. When he didn't come, he sneaked behind him in the first time. He went down with a big stick and solved an opponent in an instant.

"call out!"

During the wave, the \*\*\*\* stick and the horn that had passed out of the past disappeared at the same time, and Ye Xuan was included in the internal space of Shennong Ding in the body.

And his body shape was once again hidden in this moment, and the first moment of the virtual air teleport, even if Jin Zhanpeng activated the gaze of the yin and yang eagle eye, it is absolutely impossible to see his way.

In the next moment, the roaring roar sounded again and again...

"What happened? How could this little monkey appear on the edge of the left hand? Is it not thousands of miles in the right front?"

"Jin Zhanpeng, explain it well, don't tell the deity, you suddenly licked the dog's eyes..."

"Oh! It's so mad, I watched as the horns were stunned by a stick, and then dragged away in public. What is this? Is it like I have nothing?"

"The golden eagle's yin and yang eagle eyes are just like this. In my opinion, what kind of \*\*\*\* yin and yang eagle eyes is simply the glea eagle eye. The enemy on the edge of the left scorpion is actually seen as a right front tens of millions of miles away. This is not glaucoma. What is it?"

"Jin Zhanpeng, what are you still making? Don't forget that you still owe me an explanation, otherwise it will be difficult to elute your suspicion of the enemy, which is clearly deliberately misleading..."

Chapter 3747: Next city

"This is... this is not scientific..."

In the face of the quest and skepticism of the five Lions, Jin Zhanpeng stuttered, the whole person was not good, and a mess of brains in the brain!

When the left side of the edge came from the huge squeaking and fierce sorrow, he also subconsciously turned his head and glanced over there. He did see the three-headed and six-armed Taikoo konjac, twisting a giant black head with a hundred feet. , stun the corners, then dragged them away.

Then, the shape of the Taikoo konjac disappeared again.

When he slammed his head and looked back to the right front of the front, which he had been staring at, he could still capture a bunch of fuzzy three-armed and six-armed energy light, still in that direction. Going away quickly.

Despite the incident of the left corner of the left corner, Lion Wanjin and others who had been chasing in that direction have stopped, but the group of blurred energy light groups are still rushing forward. .

"Is it that the little monkey scorpion suddenly teleported back, just behind the horned owl, after a stick of fainting, and then immediately teleported again, reappearing in the void in the right front, continue to escape?"

The speculation in the mind flashed, Jin Zhanpeng immediately said it, this is the only possible explanation, because in the void in the right front, the group can vaguely see the energy beam of the three heads and six arms, indeed still.

He even shouted indefinitely: "Damn, the little monkey scorpion is so lucky, just a momentary move back to the carbine, actually appeared behind the horns, he was hit by the big luck, you rest assured, this Back to me, staring at him, as soon as the figure disappears, I immediately warn that there will never be a similar thing..."

Although this explanation is somewhat far-fetched, it does not rule out the possibility of hitting the Universiade. Although Lion Wanjin and others are unwilling, they can't help but can only secretly bite their teeth and accept this statement.

After all, Jin Zhanpeng does not need to lie to them at all. The outer central buffer zone, the golden eagle's star lord and the domain owner blame are all staring at it. If he dares to collude with the Taikoo konjac, the end will be very sad and want to die. Hard!

"Roar!"

"I can't take care of this much, immediately encircle it, unpack it, and suppress this little monkey!"

"Hey..."

Lion Wanjin roared and looked up. The first one rushed to the past. The ants Jiu Ning and Meng Mashan, Mei Jiao Niang, Ling Puzi and other four Qiankun Daozi were divided into two, forming two shackles.

Jin Zhanpeng, who is full of body shape, follows the lion Wanjin. From time to time, the huge eagle smashes two faint golden awns, locking the group of fuzzy energy light groups in front of thousands of miles away.

This time, he didn't even bother to shake his eyes. He wanted to stare at the little konjac. As soon as his figure disappeared in sight, he immediately sounded a warning.

At the same time, Ye Xuan, who teleported to the other direction, always pays attention to the projection direction of Jin Zhanpeng's line of sight, and always maintains its position in the dead angle of the line of sight, and quickly approaches it again.

After a short while, I touched the back of the Mammoth Mountain.

Without saying anything, the \*\*\*\* stick was directly sacrificed, and a stick slammed down on the back of his head.

"boom!"

"Hey..."

Almost at the next moment, a huge humming sound came again from the edge of Zuoqi, followed by a scream of screaming to the extreme, which was shocking.

This scene has only just happened in the recent past, and now it is reappearing, letting all people squat and subconsciously turn around.

Just saw the left side of the vain sky thousands of miles away, a figure of three heads and six arms appeared, the right hand of the flesh and blood body, twisted a giant black stick of a hundred feet, just from the back of the horse Lift up and move.

The huge squeak of the right one is still the movement of this \*\*\*\* stick on the head of the Mammoth Mountain, and the latter is still fainting on the spot with a white eye.

Then, by the three-headed and six-armed Taikoo little konjac, the hand and the big-handed black stick dragged by the right hand, they all came into the body and disappeared...

"Roar!"

"Jin Zhanpeng, do you have anything to explain? Too much, what do I think of as something? How many times do you use the rhythm of the same trick?"

"Kill him, this guy and the little monkey scorpion are a group!"

"How hateful, for a moment of care, mistakenly believe in traitors, let me lose two of the Qiankun Daozi, the battle power is broken by one-third! You must kill him, in short, can't believe it again..."

The earth-shattering roar sounded for a moment, and this time, the remaining four Qiankun Taoist stopped again in the footsteps of the sky in front of the right front.

They have already determined that there is no one in the monkey hair. It is clear that Jin Zhanpeng is misleading and shifting their sights so that the Taikoo little konjac can knock the sap... The monkey scorpion is always behind him!

"This is... what is it going to be swollen? It's not scientific!"

At this moment, Jin Zhanpeng is almost stupid. In the face of the anger and roar of the Lion King, he is shocked, but his eyes are always staring at the right front. This time, even if he left again, he will come again. The huge screams and screams of his heart screamed, but Jin Zhanpeng's sight was not recovered.

Until now, the blurred figure of the three heads and six arms in the void in the right front of millions of miles, is still locked tightly by him, even if it has not disappeared for a moment.

This also eliminates the possibility of teleporting back to the black hand to knock the Sap.

However, the fierce horse disappeared and disappeared. The horrible sound of the loud and fierce screams was not like a fake. It is not necessary to make such a joke!

With such doubts, Jin Zhanpeng finally subconsciously turned his head. This time, he began to scan the void in all directions in the direction behind him, with the blood and sacred power of the yin and yang eagle eyes.

Soon, there was a vague figure in the left rear, and it was also three heads and six arms. Jin Zhanpeng was shocked and violently turned back, looking to the right front... A blurred figure of the same three heads and six arms appeared soon in the line of sight.

At this moment, he understood all of them. When they doubled up, they immediately screamed: "Two heads! Nima actually has two heads. We are all cheated. They play rogues. With this trick, a Taikoo little konjac attracts me. The line of sight confuses the audiovisual, while the other one knocks the sap at the back."

"It's too shameless. It's a slapstick. They lost their gambling. This is the cheating behavior of red fruit..."

Upon hearing this, the lion Wanjin four people once again saw a thick suspicious color on their faces. Until now, they did not dare to fully believe in Jin Zhanpeng's words.

"Is it coming back now? It's stupid with the pig... Hey, you are stupid like a pig, it's an insult to the pig!"

It was also at this time that Ye Xuan's deity appeared in his body, and the electronic avatar in the right front of the sky was also the same, and the illusory appearance of the three heads and six arms was removed at the first time.

Immediately afterwards, Ye Xuan continued to speak out and sneered: "As for the two konjac, don't pour dirty water, can't you have a avatar? Hahaha..."

Chapter 3748: Really licked the dog's eye

"If you are stupid, don't use any two konjac words to pour dirty water. Could you not have a avatar? Hahaha..."

Looking up and laughing, Ye Xuan's body shape directly unfolds in the void, although it can't be as precise as the space mouse's great power, but it can guarantee the general direction.

In the next moment, his figure appeared in the void in the right front, only a million miles away from the electronic body.

When Ye Xuan went to the electronic body, the latter immediately turned around and greeted Ye Xuan. After a few moments, he had already met.

Then, under Ye Xuan's wave, the electronic avatar was taken into the body by him. After all, only the first-order cultivation of Zhou Guang was the strength. In the face of these ethnic groups, it is still quite dangerous. Ye Xuan refines this electronic avatar. Not to rely on him to fight, there are other great uses in the future.

For example, just now, it has successfully confused the enemy's audio-visual, which can be described as a strange soldier, and must not be lost!

In order to be safe, he will put the electronic body away in the first time, until the body is earned into the immortal world, Ye Xuan is completely assured!

At this point, everything is in the air, and everyone is suddenly realized!

Taikoo little konjac, there is actually a avatar, although only the first level of the Zhou dynasty to repair the strength, but in the appropriate section of the talent, it has played a miraculous effect, so that the two princes of the Taoist level existed and therefore pitted, A large bag was swollen on the back of the head, and the sap was knocked on, and then dragged away...

This is really too angry, the outside of the central domain buffer zone, immediately rang the roaring roar of the bulls and the giant tyrants!

"Roar!"

"It's too mean, too shameless! I used the avatar to lead the eyes of the Golden Eagles junior, but the deity is hiding in the corner of sight, and knocking the sap in the back!"

"A sigh of such a simple strategy, he was succeeded by success in succession. The two Qiankun Daozi were so damaged, it was speechless!"

"puff!"

"puff....."

Later, when there were two dull buzzing sounds, the bulls of the bulls and the giants of the giants were very likely to be mad, and the blood was on the spot!

At the same time, the edge of the core of the evil roots is in the void of the battlefield!

Ye Xuan raised his finger to the roaring lion Wan Jin, Mei Jiao Niang, the spirit, and the ant nine meditation, sneer and warned: "You four do not worry, wash your neck and wait, Benedict will be a I will clean up all of you in one place!"

In the end, he turned to the impetuous Jin Zhanpeng, still sneer: "The avatar has been exposed, and Benedict will not sacrifice it again. After all, it is weaker, and it is not suitable for participation in this level of war, but Your tricks are still not valid for this."

"I will warn you once, and now I have to go all the way to the end. It is best to get out of this void battlefield immediately. Otherwise, you will die very badly. This point, Benedict can basically assure you...you The so-called martial arts of the Golden Eagles are actually a \*\*\*\* in front of Benedict!"

After that, Ye Xuan once again activated the spirit power secret technique to perfect shock, and the figure was so in front of everyone, completely disappeared.

No one knows whether he is launching a void teleport, leaving the void position, or just re-activating the hidden secrets that he masters, just to hide his body shape and air.

Lion Wanjin, Meijiao Niang, Lingji, and Jiu Ning were even though they had read the past to Jin Zhanpeng. They had misunderstood Jin Zhanpeng, but now they have trusted him again. At least there is a Taikoo in the right front. The konjac's avatar, the Golden Eagle's yin and yang eagle eye surgery, is still worth relying on.

Nowadays, the deity of the Taikoo Little Konjac disappears again. If you want to pick him up, the four people can still rely on Jin Zhanpeng!

"puff"

At the same time as the four people turned around, Jin Zhanpeng opened his mouth with a blood arrow. Because of his momentary intentions, the power of the yin and yang eagle eyes was always foolishly locked in the fake target, which eventually led to the two camps of their own camp. Deformation.

This is in the case of Jin Zhanpeng, who was already grievous, but at this moment, the Taikoo konjac has gotten cheap and sold, and actually said such words in public, saying that the so-called martial arts of the Golden Eagles are actually true in front of it. It's just a shit!

This is simply unbearable, too arrogant!

"Hey..."

"Little monkey scorpion, you are deceiving too much!"

Under the sorrow and anger of the heart, Jin Zhanpeng screamed and screamed, and then the head position of the giant body suddenly shot two golden beams, which was obviously too flamboyant compared to the previous faint and fuzzy appearance.

This is obviously because Jin Zhanpeng was completely irritated and violently gone. Even with the yin and yang eagle eye surgery at this moment, it is also a great increase!

The truth is true!

As Jin Zhanpeng twisted the bird's head, the two golden beams that had been shot from the giant eagle's eye were swept in the air around the sky, just after a few breaths, just a few miles away from the left front. In the void, a three-headed and six-armed figure appeared.

Previously, Jin Zhanpeng peeked at the shape of Ye Xuan with the blood of the yin and yang eagle eyes, but he was only able to see it personally, but others could not see it at all, including the same when Jin Xiaoxiao used this magical power.

But at the moment, due to the extraordinary performance of Jin Zhanpeng's wrath, the two golden glare shots in the middle of the squad were obviously more violent, leading to the physique of the latter with the yin and yang eagle's sacred light column. It is directly freed from the hidden state of perfect shock.

The figure was completely revealed, not only Jin Zhanpeng, but even all the other people, all of them saw a real cut.

Lion Wanjin and Mei Jiao Niang, Ling Puzi, and Ant Jiu Ming were all overjoyed and praised.

"Golden Taoist, amazing!"

"Yes, that's it. As soon as you show this hidden secret, you will get him out immediately..."

"This time the little monkey scorpion can't escape the sky and is destined to be suppressed!"

"What are you waiting for? Together, kill him... Hey!"

After the lion Wanjin finished, he finally screamed, and the emptiness of the emptiness was shivering. The horrible figure of a hundred thousand feet was plucked forward.

It was also at this time, a sigh of sighs, coming from the front of the sky: "I told you before, it is best not to cast this kind of shit, otherwise you will die very badly..."

"Unfortunately, you don't listen to it. If this is the case, then don't go. You are destined to fall here today!"

"call out!"

The voice was degraded, and a fierce Jin Mang, which could not be seen directly, suddenly emerged from the eyebrows of the body of the Taikoo konjac.

There was a vertical eye in the strangeness, and it was only a single one, but it was split into two in the middle of the shooting. It just happened to represent the two of the Jinyin peng yin and yang eagle eyesight powers. Jin Mang.

"what....."

"my eyes!"

"Hey!"

In the next moment, a scream of screaming to the extreme, Jin Zhanpeng's eyes exploded in a moment...

Chapter 3749: Xeon

When it comes to scorpion surgery, the yin and yang eagle eyes of the Golden Eagles are indeed extraordinary. After all, it has a certain effect on voyeurism, which is extremely rare.

However, if you compare it with Ye Xuan's enchanting, it is far worse.

The enchanting is the most top-of-the-line sturdy technique. Ye Xuan is only just putting this scorpion into the intermediate stage. Wei Neng has already achieved the glimpse of the source, and once it is advanced to the advanced A stronger level, its power must be more terrifying.

Call it a strong scorpion, it is not an exaggeration!

In fact, even if it is only the glimpse of the source of the current intermediate stage, it is beyond the level of the yin and yang eagle eyes.

The glimpse of the illusion, and the glimpse of the source, both of which are only literally understood, can be seen.

Ye Xuan had previously warned Jin Zhanpeng because he did not want to be exposed. At least he did not want to expose this toughness too early. After all, the turmoil of this evil source is only tossing at the younger generation. .

But the follow-up will definitely be upgraded, and all the old geeks will come out one after another. The matter is not finished yet, or even just opened the curtain.

At this time, it is necessary to retain some means as much as possible.

It is a pity that Jin Zhanpeng does not listen to persuasion, and he is willing to die. So Ye Xuan has no choice. The Yinying eagle eye of the Golden Eagle is far less enchanting, but people have at least the effect of smashing the powder.

Under this circumstance, Ye Xuan could not easily approach Jin Zhanpeng, and if he rushed directly to kill and smothered, he could not do an instant spike. Once the time dragged on for a moment, the lions and millions of lions came. Will come, and join him to make Ye Xuan in danger.

In desperation, he can only expose the enchanting in advance, and solve the Jin Zhanpeng with this supreme martial art!

The final result did not disappoint Ye Xuan. The confrontation between the two martial arts ended in a enchanting victory. The three-headed, six-armed konjac was the real-eyed flesh-and-blood eyebrow, and after shooting a savage violent gold mang The first time has been hidden, lest this magical power reveal too long, expose more!

At this moment, the four lions and the powerful forces in the central buffer zone of the outside world and the countless powerful people in the ethnic group, after seeing Jin Zhanpeng's eyes exploding, all suddenly stunned, and then they suddenly exclaimed... ..

"And it is still so horrible, just a golden mang, and still split into two after the shooting, actually in the pair of Jin Zhanpeng yin and yang eagle eyes after the double beam of light, instantly blasted his eyes!"

"What does this mean? This is not the same level of power. Is the blood of the Taikoo konjac so horrible? It is only the martial arts that completely and thoroughly crush the Golden Eagle."

"Looking at the eye! Actually it is a vertical eye. What is the genius of the ancient konjac? You can have this kind of horrible technique, and it is suspected that the legendary eyes are shining..."

"Damn, this battle has only just begun. The six Qiankun Roads have lost one-third of them. Nowadays, even the yin and yang eagle eyes that cracked the Taikoo Little Konjac are gone, and they are restrained by the other side. This battle is dangerous!"

.....

This abrupt change is really unexpected. The yin and yang eagle eye of the Golden Eagle family is also one of the most famous martial arts. I didn't expect the violent gold that was shot in the vertical eye of the Taikoo Little Devil. Mang, not only lost, but even his eyes directly blasted.

This is simply incredible.

In fact, it's not just them, even the indigenous savage beasts such as the Taikoo Porcupine and the Taikoo Turtle, which are closely watching the development of the core hinterland, are shocked at the moment.

The old monsters cultivated in the two domain realms exchanged a look, whispered to each other, and faintly revealed a faint suspicion...

"Hey? This trick... Is there such a thing in the ancient konjac? How did you not know before?"

"The little guy, more and more mysterious, the old turtle I have a kind of feeling that can't see him!"

At the same time, the core hinterland edge battlefield in the sky!

"Roar!"

"How about having a powerful martial arts? Little monkey scorpion, in the eyes of the deity, you are still a little bit timid. If you dare to face the battle, the deity must suppress you on the spot!"

"Come on, you don't have a \*\*\*\* stick? You don't knock the sap? The deity is now 100,000 feet. I have to look at it. Your \*\*\*\* stick, the power of geometry, can shake the ten thousand feet of the deity. Blood is true!"

"Roar....."

In addition to the shock, the lions and lions of the war lions, the lions, screamed and screamed like a small star-like horror body, and instantly rushed away, bringing out the rumble of the rumble of the rumble, straight to the millennium. outer!

The other three Zun Kun Daozi Ling Puzi, Mei Jiao Niang and Ant Jiu Ning were also attacked from three different directions and directed to the direction of Ye Xuan.

"call out!"

At the same moment, the figure of Taikoo's little konjac disappeared, and a weak vacant sound came out in the same place. With the lion Wanjin four people coming together, he had already launched a virtual teleport in the first time and went straight away.

Although it can't be as unparalleled as the space mouse's scorpion, it is precisely positioned in this state of rushing to make a virtual teleport, but the general orientation is still no problem.

In the next moment, his figure appeared in the void in the distance of Jin Zhanpeng, which was hundreds of thousands of miles away, and appeared in a state of perfect vibration of the activation of spiritual power.

The figure is not exposed at all!

Then, Ye Xuan urged the body's strength, launched the ultimate speed, and went to Jin Zhanpeng, who was fleeing to the front dividing line.

The latter is only the cultivation of the 14th dynasty, and Ye Xuan is now in the state of the three-headed, six-armed konjac, and has already possessed the first-order strength of the Qiankun, and the speed is much faster than that of Jin Zhanpeng. .

In addition, he is intercepting and chasing in the oblique thorns. The universe of hundreds of thousands of miles is only a little bit of interest, and he has been left behind.

"Hey!"

The sharp sound of the broken air sounded, this moment, the shape of the Taikoo Little Konjac appeared, and the right hand of the flesh and blood body turned over, and the shape of the devil's blood blade was sacrificed, and the size of the hundred feet was directed to Jin Zhanpeng. The neck smashed the past.

"puff!"

"Hey..."

The muffled sound came out, accompanied by a screaming screaming screaming, and the half-sound was abruptly stopped.

Jin Zhanpeng's great head fell directly, and the blood was sprinkled in the sky, and it fell.

"Looking at this big-eyed bird, the next four are you. Don't worry, don't think about escaping. Benedict has already said that in this void battlefield, no one can come and go. ...."

During the wave, Jin Zhanpeng's head and the residual body were collected into the inner space of the Shennong Ding in the immortal world. The Taikoo Little Konjac raised his hand and pointed the lions and the beautiful maidens in the distance. The figure quickly disappeared.

This moment, the source of the evil domain outside the virtual battlefield, the dead zone...

Chapter 3750: Retreat

With Jin Zhanpeng being degraded, the buffer zone of the central source of evil outside is dead!

All the people have widened their eyes, and this silver light curtain, which appeared in the void in front of the sky due to the power of the crystal ball, is so shocked that it is like being sluggish!

Since the second wave of the team has entered the front of the hinterland, it is only the time of the past meal, but the seven people who have faced the battle have been two and one. Today, there are only four Qiankun Taoist.

Although compared to the previous first wave of the team, only the lineup of the three Qiankun Daozi, the remaining four Qiankun Taoist, the overall combat power is still more than the previous, but the Golden Eagles are sent out, specifically responsible for searching the Taikoo small konjac track, at any time The positioning of Jin Zhanpeng has fallen.

As a result, the mysterious hidden secrets of Taikoo Little Konjac will no longer be restrained, and the situation will become optimistic.

It can be said that the prospect of this war is extremely gray!

After a brief silence, a noisy discussion sounded in an instant, during which time roars and screams came from time to time, especially the high-ranking members of the Golden Eagle family, watching Jin Zhanpeng be degraded, angered and confused, now all Gas to vomiting blood.

Although Jin Zhanpeng is not a Qiankun Tao of the Golden Eagle family, but after all, there is also the cultivation of the 14th dynasty, which is extremely rare. He is almost cultivated as a reserve by the Golden Eagles.

After all, even the younger generation of the Golden Eagles who control the clan of the clan, that is, the minority patriarchs of the clan, did not come to the universe.

This shows the value and importance of Jin Zhanpeng in the eyes of the high-ranking family.

In fact, every ethnic group, in addition to the well-trained Qiankun Daozi, will have several backups. They are also cultivated since childhood. Although the cultivation resources are far less than the Taoist Tao, they are second only to Only then.

The descendants of such a clan are degraded. For any ethnic group, although they can't bear it, it can at least be a heavy blow!

Considering that the Taoist Jin Xiaoxiao is still in the hands of the other party, he has not put it back. If the shameless Taikoo konjac is provoked at the moment, and finally regrets not letting go, then it is really troublesome.

Otherwise, the Golden Eagle family's domain lord, almost want to immediately rush into the front of the void battlefield, angry and killing people to vent their anger!

In the outer buffer zone of the central area, countless powerful forces of the major forces exclaimed the sound of the murder, while the battlefield on the edge of the hinterland was in the air, and the battle had a new change.

"call out!"

"call out....."

Numerous sharp sounds of broken air sounded. Among the four surviving Taoist priests, the Taoist spirit of the second universe tree was suddenly soaring. It was like a giant tree monster in the giant tree. Suddenly spurred numerous thick roots like tentacles...

Like the network, with the position of the deity as the center point, it quickly diverges toward the surrounding area, and a large piece of void is covered in a thousand miles.

"This is the blood of the my family, the \*\*\*\* of the vines!"

In the next moment, the sound of the tree spirits and the sorrows of the sorrows of the sects of the sects of the sects of the sects of the sects of the sects of the sects of the sects of the sects of the sects of the singers Was not informed by the outside world...

"Although these vines can only cover a million miles, but in this void covered by the vine, as long as there is any change, the deity can be keenly captured in the first time and form a certain degree. The effect of trapping..."

"Three Taoist friends, I have lost in this battle, and now there are only four people left. Although I am not afraid of the little monkey scorpion, the secret occultation of the other party is really a headache."

"Plus this sub-mean means desperate, do everything without it, do all the tricks, in my opinion, now is the time to change the strategy, can not be so rushed so much before, exhausted, so too passive, no It's different from giving the other side a sneak attack, a wonderful opportunity to break through one by one..."

"Change the strategy, change the attack to prevent it, anyway, there are still more than 60 days of gambling, I can completely shrink the battle circle, and the three Taoist friends will return to the millions of squares covered by my vines." Inside, each side sticks to one side!"

"With the temperament of the little monkey scorpion, the time must be unable to hold back. At that time, as long as he actively attacks and enters the emptiness of the millions of rounds of the vines, the deity can give birth to the first time."

"The three Taoist friends listened to me at the time, and they made a full blow, and the chance of their fall was at least 50%, far more than the current chaos..."

This discourse made Lion Wanjin and ant Jiu Ning and Mei Jiao Niang three people sink into sinking, but after a short break, they fully recognized it.

"Roar!"

"Hey!"

"Little monkey scorpion, don't talk big words, have the ability to take the initiative to attack, the lion grandfather will kill you in the first time!"

The roar and the whistling sounded. Then, the lion Wanjin was low, but like a scorio-like voice, its 100,000-foot-tall giant, like a small star-like huge \*\*\*\* body, slowly retreated, until This is the edge of the void covered by the sacred vine that is the center of the tree.

At the same time, the body-shaped ants Jiu Ning and the Caishao Daozi Meijiao Niang, did not hesitate to retreat back, and kept in the other two directions of this vine.

Four Qiankun Daozi, they have already become a group in the blink of an eye.

At the center, it is the Lingkun Taoist son of the Shuling family. The unique blood of the family is used to seal the scorpion, and a large piece of the void, which is a million miles away, is criss-crossed with numerous thicknesses. Green green vine.

This is clearly the rhythm of changing the attack and defending. As a result, the mysterious hidden secret of the Taikoo Little Konjac has basically lost its use. Anyone can see it. In this piece covered by countless vines Miles in the sky, any presence as soon as a close, even if the body shape and air machine are perfectly hidden, will be discovered in the first time...

Seeing this scene, the numerous forces of the major forces in the central area buffering the battlefield, after a slight glimpse, all sighed with relief.

Because of this, they don't have to worry about the four remaining Qiankun Dao in the sky in front of the battlefield. Like the previous horns and the Mammoth Mountain, they are smashed by the shameless Taikoo konjac. Even knocked the sap.

Nowadays, the situation of the Lion King is obviously calming down, and decided to wait for the rabbit, which is more tolerant than the Taikoo Little Konjac.

This is clearly to retreat into the advance, as long as the Taikoo little konjac can not help but change, then the Lion Wanjin four will be able to get an instant, anti-passive as the initiative, and instantly join hands to attack each other, the other side will become a network...
