

## Super D. S 376

### Chapter 376: Attack

"Homeowner, the next road seems to be more dangerous. Are we really going to continue?"

"Crap, we lost a few masters, is it difficult to get rid of halfway? If you can get a colorful fruit, then my Yang family can overtake the four forces and become the master of this area!"

"But our detoxification is not enough, and the road below, the poisonous fog is even worse, I am afraid that detoxification will not support us to find colorful fruits."

"The risk is big, the harvest is bigger, if you are afraid of death, go up yourself!"

In a vast open space, the eight people of the Yang family sat in the corner to rest and treat.

What they didn't notice, however, was that there were already eight sharp edges that quietly approached them.

The eight-handed blade slowly moved, and did not wait for a little noise. After they approached the Yang family, it suddenly exploded.

"Be careful!"

The head of the Yang family was screaming, but it was still a step late.

The four heads flew directly, including a master of the power of forty dragons.

Ye Xuan controls the eight-handed sneak attack with its super-inductive ability.

He did not expect that things were so easy, his various means to match, is perfect.

"on!"

Just after the successful sneak attack, Ye Xuan was a cold drink, and then he and Xie Yu rushed out of the channel and killed the remaining four.

The Yang family's master slammed a sniper, but Xie Yu gave it a easy defeat, but he also understood who the comer was.

"Xie Yu, is you?" Yang family leader stunned.

Xie Yu has no nonsense, directly killing the past, although the difference between the two dragons, but Xie Yu from one of the four forces of the Xie family, dragging the master of the forty-two dragons, should not be a problem.

As for the remaining three, they were handed over to Ye Xuan.

Ye Xuan rushed up, driving the eight-handed blade to attack, while holding the mad attack.

One second!

It took him only a second to kill the remaining three.

Then, all the seven Qiankun Rings fell into his hands.

"Hey, the host has broken through the power of thirty-eight dragons!"

After hearing this system prompt, Ye Xuan's war was soaring and turned to the Yang family.

"Damn, you still want to live!"

The Yang family's lord was a little angry, and suddenly there was a strong infuriating spirit in his body.

"Burning infuriating?" Xie Yuyi.

Burning infuriating is a very common martial art, which is to temporarily increase the strength at the expense of the realm. And the burning of the infuriating, you need to re-train back, if it is a careless, may fall the power of the five dragons or even the dragon.

The Yang family had forcibly upgraded their strength, from the forty-two dragons to the forty-five dragons, and their strength rose.

However, this has no use.

Xie Yu is the power of the forty dragons. She faces the forty-five dragons and there is no way.

However, Ye Xuan has already broken through the 38 dragons at this time, and with the help of the unreasonable eight-handed blade, he can fight with the other side even if he does not use the Beastmaster.

"You let go, I pack him!"

Ye Xuan reminded me of a full attack.

Thirty-eight dragons play against the forty-five dragons, even if they are placed outside, it is not to be seen, because in general, the former is a part of the spike.

But now, Xie Yu is seeing it.

"Good, the challenge of the Seven Dragons, who is he?" Xie Yu could not help but have an interest in Ye Xuan's identity.

“Hey!” “Hey!” “Hey!”

The sound of weapons colliding constantly echoed between the stone walls. Ye Xuan smashed the wind and the wind, and the Tianfeng swordsmanship of the first hand was a match with the Yang family.

However, Ye Xuan’s growth rate is beyond the expectations of the two present.

"Oh, the proficiency of the day of the body is improved, and it is currently 70%!"

Although it is said that the Tianshen body method is not like the Tianfeng sword method, it has the sentimental power of Jiansheng blood, but Ye Xuan’s qualifications are good, and the cultivation is beyond ordinary people.

His speed soared, bringing tremendous pressure to the Yang family.

"Why is this kid's speed so fast, it is impossible!" Yang family's main face was cold and sweaty. At this time, he was making a decision in his heart!

He thought about Ye Xuan's attack while thinking about it.

Finally, a decision was made.

escape!

Even if he burned the infuriating, he couldn’t help Ye Xuan. Now it has fallen to the disadvantage. If you fight again, it must be him.

So, you can only escape!

Ye Xuan knew the intention of the Yang family, immediately controlled the eight-handed blade and blocked the other's retreat.

"The eight wild winds kill the first heavy!"

The only eight-handed blade is a thorn, which is faster. Blocking the retreat, or using the first heavy cut is better.

The Yang family's main body has been burning for some time. Now he can't evacuate and can only continue to resist Ye Xuan's memory.

Half a minute after they had played against each other, a change made the family of Yang's family fall into a state of eternal annihilation.

One of his dragons suddenly disappeared!

The power of forty-four dragons!

"Haha, you are finished!" Ye Xuan stepped up and attacked even harder.

The face of the Yang family is gloomy.

With the power of forty-five dragons, he could not resist the double attack of Ye Xuan. Now he has fallen to the power of forty-four dragons, I am afraid that it is not far from death.

After three seconds, he finally could not resist, was cut to the thigh by a sharp blade, and the wound was deep visible to the bone, which caused his speed to drop.

Taking advantage of this opportunity, Ye Xuan did not hesitate to kill the underground.

"Oh!"

A crisp ring fell into Xie Yu's ear, and then she saw a skull thrown up, it is the Yang family.

"噗通!"

The skull fell to the ground and rolled to the corner.

"It's finally dead." Ye Xuan breathed a sigh of relief.

The challenge of the Seven Dragons seems to be his limit. If he really encounters the master of the forty-five dragons, he will probably have to spend a lot of time.

Ye Xuan walked over and put away the relics of the Yang family.

As the head of the family, there is a good thing in the Qiankun ring, and this time the Yang family came down and collected the treasures of Tiancai, and it was cheaper.

"Hey, the host has broken through the power of thirty Kowloon!"

Ye Xuan, break through again!

"you....."

Xie Yu saw a flying dragon that Ye Xuan suddenly came out, and said strangely.

"I haven't seen a breakthrough in the war." Ye Xuan replied casually.

Xie Yu is dumb, she really has not seen the genius who broke through in the fierce battle.

"Well, they are all able to reach the third floor. Your Xie family and the three major denominations should also arrive. Keep on the road."

Ye Xuan is not nonsense, directly chooses a channel to go in.

This open space that only fought, seems to be like a transit point. The next road is more difficult, because the effect of poison fog is stronger, which directly leads to the shortening of Xie Yu's time to take advanced antidote.
