

## Super D. S 3761

Chapter 3761: Xianguang Wandao

"Booming..."

At the same moment that Ye Xuan waved the full recovery of the Blade Spirit to the immortality of the body, from the end of the deep core of the back of the body shape, the sound of the low and bang of the strange feeling, also suddenly passed Come, continue!

Ye Xuan's face instantly changed wildly!

This is clearly the movement of the furnace when the furnace is activated and the flesh discs in the furnace rotate.

It is similar to the sound of thunder, but it is different. Ye Xuan has entered the furnace and has been simmering around the huge grinding disc for a while, and has taken away a lot of evil sources and nine colored meat. Therefore, for the abnormal sound of the rotation of the furnace, he is simply unforgettable!

what's the situation?

Why is the furnace suddenly activated?

Previously, his konjac blood was recognized by the sacred furnace, and he was sheltered by the smoldering furnace. In this star of the evil, he has been able to go unrestrained. Ye Xuan has reached the maximum limit of the furnace and almost reached out. Touched the outer wall of the furnace.

At that time, he had already determined that the furnace had temporarily stopped running. According to his calculations, the source of the evil source was supplied once a year, that is, the furnace was started again, one year later.

This was later confirmed by the Taikoo Porcupine and the Taikoo tortoise.

But now, the furnace that was supposed to start again after a year, suddenly there was a loud noise, and the trembling disc in the furnace began to turn. What do you want to do?

Ye Xuan has no idea what to answer to this question, but one thing he can confirm.

That is, the sudden start of the furnace suddenly, this is not a good thing, in all likelihood, there must be a great horror, and all this must be related to the heavenly eye, and related to the full recovery of the blade spirit.

In the final analysis, it is still a sentence. This time, if it is really a curse, you must escape immediately, and then you can't imagine it!

When these thoughts flashed through the mind like lightning, Ye Xuan almost immediately issued instructions to the body's phagocytic system, immediately activated the interstellar coordinate jumping ability, and even the plane-level coordinate jumping ability, using the fastest time, as far as possible Escaped here.

However, he finally endured it!

If you expand the plane-level coordinate jump ability, he can even leave the first universe in the blink of an eye. If there is no accident, this should be enough to escape the induction of the heavenly eye.

After all, the other party was only accidentally alarmed because of the full recovery of the demon. It did not understand the true inside story, and did not know the enemy's headless baby body. It was in Ye Xuan's body, so it was impossible to fully promote it. Track the whereabouts of Ye Xuan.

In addition, the ability of the phagocytic system to jump in the interstellar coordinates is extremely extraordinary, and it is not necessarily that there is no such thing as obscuring the effect of the telescope.

In this regard, Ye Xuan is still quite confident.

However, before embarking on the interstellar coordinate jump ability, he still has a few things to do, otherwise his heart will be difficult and his heart will be unstable in the future.

The outer central buffer zone comes from the three major universes, the various forces, the fleets of all major forces, and all the star-studded powerhouses, Ye Xuan can not care, even including the big prince who has a certain causal relationship with him on the table. Long Xiang, as well as a group of immortal royalty.

But the three main stars of the Devil's ethnic group come here, that is, the three masters of Mo Tai, but Ye Xuan can't ignore it.

Including the Taikoo Porcupine and the Taikoo tortoise in the depths of the indigenous beasts in the core hinterland behind him, he can't care either... After all, the older brother and his brother called for such a long time, they also took care of Ye Xuan, so they took away. Ye Xuan can't do it!

"Booming..."

"Boom!"

.....

In a short period of three interest rates, the entire vast and innocent source of the evil spirits was completely confusing. The entire core hinterland was thundering, and the top of the veil was robbery. The depths of the hinterland continued to spread. The sound of the grinding wheel rolling.

The same is true for the outer central buffer zone.

"boom!"

An earth-shattering bang came out, blocking the virtual barrier of the central zone buffer zone and the core hinterland as a dividing line, and instantly collapsed. These two semi-independent voids are combined into one, no longer separate from each other. It is.

Almost at the same instant, the deepest part of the core hinterland of the evil source suddenly burst into a ray of light, illuminating the entire source of the evil.

This vast and innocent star field was originally dimly lit, and the distance was far away. Not only was the naked eye's field of vision limited, but even the sensory sensory could not work. Some mysterious force suppressed all these feelings.

But at this moment, with the deepest part of the core hinterland, the ray of light, the whole source of evil and evil, hundreds of millions of miles away, the glory of the universe, the distance of the universe, seems to be directly ignored at this moment, even Being a strong star of the sky, you can capture the sights of hundreds of millions of miles with the naked eye.

In the face of stunned, everyone's gaze was all in the direction of the sudden bursting of the ray of light.

In the next moment, a huge furnace like a superstar, reflected in their field of vision, is a strange recovery, suddenly activated by some kind of power, thus starting the furnace in advance!

To be precise, it is the whole refining and refining process!

This is a complete system, like the heavens and the earth, too large, giving people a feeling of mightyness.

A mysterious furnace like a superstar!

One end is connected to the outer wall of the furnace, and the Dingkou, which is surrounded by the colorful mist above the furnace, penetrates into the other end, but extends to the end of the void. I don't know where the end is the countless blood-colored chains!

And, in the emptiness of the vicinity of the star-shaped furnace, the lingering remnant atmosphere of the dynasty is at least the star's main territory, the domain's main territory, and even the ruins of the ruins of the realm of the lord...

All of this has been obscured by the mysterious field law of the apocalyptic source field. Except for the indigenous beasts who are sheltered by the smoldering furnace, the outside world is almost completely ignorant, and at most, all the scales and claws are explored... at this moment. Because the sudden glow of the glory blooms, finally, it is completely revealed!

Near the buffer zone of the central area, the star-studded powerhouses from the top three groups and the forces of the three major universes have all opened their mouths without exception.

Even the eight lords who had mastered some of the information about the furnace before coming here, I saw it all at once, and my heart was shocked.

Even the countless indigenous beasts deep in the core hinterland, including the Taikoo Porcupine and the Taikoo tortoise, are basically all this reaction at the moment... Although they are familiar with the furnace, today's vision, But never before, it is impossible not to be shocked!

All the people seemed to be all sluggish, and they were shocked by the sudden bloom of the smoldering furnace, and there was a blank in their minds...

Only Ye Xuan, after a slight glimpse, the heart of the police alarm is a masterpiece, and the complexion will suddenly change again, and the voice will be exclaimed and stunned...

#### Chapter 3762: Furnace

As the deep hinterland of the core hinterland blooms, the huge smoldering furnace appears, together with the entire virtual refining system and the ancient wreckage around the furnace, all of which are near the central buffer zone and a fleet of major ethnic groups. In the midst, countless star powers are instantly exclaimed...

"Behold, a big stove is not worse than the king of medicine that makes the fox less master. It is also like a huge star. This must be a treasure above the level of the ancient treasure!"

"The creation of Tianda! It really is the creation of Tianda!"

"The same type of treasure, the three major planes have only appeared once before, was ordered by the fox lord, and now that he has been banished has been lost, this star giant tripod is the only!"

"Yes, any group that gets it can be a treasure of the town!"

"Look at the striated chains that connect with the stars, and extend to the end of the void. I don't know where to go. It seems that this should be a huge system. The star is just one of the components. It's amazing. Who is it? Handwriting?"

"There are also the wreckage of those ancient creatures, the stars are all around, and God, at least the star's main territory, the domain's main territory, and even the lord of the landlord, how these ancient wrecks came from..."

.....

At the same time as the exclamation resounded, the fleets of the major ethnic groups had all started, rumbling to the depths of the core hinterland where the former mound was located.

Among them, there are some Qiankun powers and star owners, and the domain owners and geeks directly rushed out of the battleship, faster, crossing the void with the flesh and rushing to the front.

"Hey, Nether child, die!"

It was also at this time that the \*\*\*\* green meditation had reached the front, as if the roots were not seen in the depths of the star in front of the mysterious furnace. The air was locked in Ye Xuan, and the palm was photographed. .

The comments from the outside world are indeed correct. In the heart of the evil emperor, the Netherful Respect has indeed become a obsessive. In the face of this shocking change, he still cares about it. Revenge and vent their anger.

"You are a crazy old man, a big stick! The big robbery is coming, and you have to kill someone, you can't have time to accompany you..."

Ye Xuan almost gas to vomiting blood, did not anger at the \*\*\*\* green scorpion reprimanded two sentences, and then directly launched a virtual teleport, the body shape disappeared instantly, when reappeared, has reached the depth of the core hinterland.

His blood has been recognized by the furnace, and there is no suppression in this star of the evil source, even if the distance of the virtual teleport is far beyond the ordinary power.

"Booming!"

"boom....."

At this time, the void above the entire core hinterland has been completely shrouded by the thick black robbery clouds. The thunder of the thunder is constantly coming, and the huge void is more and more depressed and dull.

Ye Xuan's figure appeared, and he turned to see the Taikoo Porcupine and the Taikoo tortoise rushing toward him. As he was about to speak out, there was a sudden scream in the furnace, and it was shocking.

His eyelids jumped wildly and subconsciously screamed: "Escape! Everyone, don't want to die... Escape immediately! The farther the better!"

This violent drink, Ye Xuan used the power of cultivation, the sound is like a thunder, so even in this noisy environment, it is clearly passed very far, most of the stars and strong people have heard.

Far away from the rear of a fleet, the three masters of Mo Taiye were stunned, and their faces showed a suspicious color. Then they turned without hesitation and directly launched a virtual teleport to the periphery of the star of the evil. The area fled.

In the Devil's Star Field, Ye Xuan once said that this time the Second Universe Coalition will encounter big troubles, and the dead will be indispensable. Now Ye Xuan is directly warning the police, with their trust in Ye Xuan. I understand that the three people who have never seen him so frightened, naturally realized the seriousness of the matter.

Even as a star lord, they did not dare to neglect and turned decisively and decisively.

"call out!"

Almost at the same instant, a huge burst of sound suddenly appeared in the depths of the core hinterland.

A powerful force that \*\*\*\* and pulls out, from the invisible inside of the furnace, instantly envelopes the entire hollow of the hinterland. The closer it is to the furnace, the stronger the force of the suction.

Originally squatting in the void around the furnace, the nearest ruins of the ancient ruins, nearly half of the blink of an eye were sucked from the mouth of the furnace into the Ding.

Then, the squeaky squeaking sound of the squeaky voice was heard, which was clearly the movement of flesh and blood. Ye Xuan had a close encounter and was very familiar.

Ye Xuan's face was once again transient, and the fact was exactly the same as he had guessed. The furnace was suddenly activated, and even the huge grinding discs in the central area of the furnace turned. This is no joke. This is to start the plan. Refining outside.

Since it is an unplanned refining, those who have not entered the inside of the Dingkou from the distance, and the chains used to transport the raw materials are not transported with flesh and blood materials. Then, the furnaces can only be self-reliant and taken locally.

This refining was originally an accident, so the requirements for flesh and blood raw materials will obviously be relaxed.

Originally, when refining the source of all evil sources, even the ruins of the ancient ruins of the bordered territory were unqualified, and they would be spit out as garbage. At the moment, it is estimated that all the living creatures in the entire source of the evil source are trapped. And the garbage debris that was previously spit out will be used.

Including many indigenous beasts led by Taikoo Porcupine and Taikoo Tortoise!

As for what was finally refined, Ye Xuan did not dare to think about it. Anyway, it is definitely not comparable to the evil source, and he definitely does not want to be one of the flesh and blood materials of this kind of stuff.

"call out!"

"Roar....."

The sound of the air broke through, and the fierce flames of the furnace became more and more fierce. In addition to the ruins of the ruins of the surrounding emptiness, some indigenous beasts were also pulled by this suction and put into the furnace.

Even the star lords of the Second Universe coalition, even though they rushed to the forefront, could not bear the suction, and the blink of an eye was also robbed.

These indigenous beasts and the gangsters of the various ethnic groups who had been robbed, initially had an unwilling anger and screaming, but soon stopped abruptly, but the kind of smashed bones that continued to spread in the furnace. The sound has become more intensive since then.

This situation represents what, everyone knows what is going on, and things have developed to such an extent. Even the face of Taikoo Porcupine and Taikoo tortoise has shown a faint color, constantly snarling.

However, their body shape, because they are too close to the furnace, the suction is too large, and they are uncontrollably directed to the mouth of the furnace, and they are dragged away!

The fierce flame of the furnace is climbing, and the distance is a little closer. Even the domain lord is almost unable to resist.

Seeing this scene, Ye Xuan frowned, and then he bite his teeth and suddenly violently drunk: "Rely! Anyway, the identity has been exposed, and Ben has been out today..."

Chapter 3763: Come to a tripod

"Booming..."

The earth-shattering roar sounded, and Ye Xuan waved out the Shennong Ding in the immortal world!

This is also a helpless move. He can't watch the Taikoo Porcupine and the Taikoo tortoise being sucked away by the smoldering furnace. If he wants to escape, he can activate the interstellar coordinate jumping ability attached to the system title.

But this can only save yourself, but it cannot save people.

The only way to save people is to sacrifice Shennong Ding, and to collect the Taikoo Porcupine and the Taikoo tortoise, then put the tripod off, expand the interstellar coordinate jumping ability, and leave directly.

These two newly recognized brothers are all repaired in the domain of the main domain. If Shennong Ding is in the body, Ye Xuan has no way to accept them, but it will be different after the trip.

Just this will undoubtedly reveal another identity, that is, the fox is less.

However, for Ye Xuan, this has nothing to do with it. Anyway, the identity of the Nethered Respect has been exposed, and more exposed to a fox, less debt, no more debt!

Moreover, because it is necessary to use the power of Shennong Ding to save people and compete with the furnace, so this time Ye Xuan will sacrifice it, there is no suppression at all, Shennong Ding appears in a complete form.

The so-called complete form, that is, the original appearance of Ye Xuan when he first saw it... One is the size of a furnace, like a superstar!

If this is not the case, Shennong Dingyi will not appear, and there will be no such reaction that even the void is suppressed from the thunder and thunder.

In fact, compared with the bombing of the emptiness of Shennong Ding, the reaction of countless star-studded powers in the surrounding ethnic groups is obviously more intense.

When Shennong Dingyi appeared, the screams of sorrow had already rang through the void, and even the thunder of the sky and the clouds were almost overwhelmed...

"What happened? How come a trip again? It's crazy, when does this treasure spread out?"

"No, this trip is a bit familiar, it seems to have seen it..."

"Pharmaceutical Wang Ding! Actually it is the drug Wang Ding? I am not mistaken? It was a Taikoo little konjac waved out!"

"Drug Wang Ding? Is it the star of the giant Ding? Has it been taken away by the refining of the fox?"  
With him, he was exiled to the turbulent stream..."

"Do you still use it? Do you still have to understand? Since the Taikoo konjac can be a sacred sage, can't it be a fox lord? The three big planes have been deceived, so The fox lord was not exiled at the root. After the disappearance, he changed his body and became a secluded sage!"

"Then the Netherland disappeared and disappeared, and the body changed into a Taikoo little konjac... What's the truth, the truth is too horrible, and the enchanting world is not enough to describe this means!"

"In the seven known enchanting scorpions, there are actually three people who are the same person. What kind of ghost is this? When the news spreads, countless forces in the three major planes will be thundered!"

"Don't care about those, the suction seems to be more and more flaming. For Mao, I feel that the battleship seems to be going backwards. Escape, get the most horsepower, and escape from this ghost place and say..."

.....

At the same time as these exclamations sounded, a large number of warships, fortresses, and fortresses that had originally rushed to the depths of the core of the evil source, all of them had their own horsepower to go back and wanted to escape this nightmare.

It is a pity that the horror attraction in the front of the furnace has become more and more prosperous, not only the huge forces of the major forces and ethnic groups have been affected, even if it was previously rushed out of the battleship, the physical body crossed over. The energy, the star lords, and the squad at the moment are all struggling.

At the forefront, the closest to the Machete is the eight main lords of all ethnic groups, including the hollowing out. At this moment, although they can barely resist the power of the furnace, but because of this mysterious sucking power Existence, the void of the entire core hinterland has been imprisoned, and it is no longer possible to unfold the void.

Therefore, this lord, who is the closest to the singer, can only turn around and resist the power of the smelting furnace, while slowly plundering in the void, several of which are even manifested. Out of a huge \*\*\*\* body, the blood is more flaming, trying to increase the power and leave as soon as possible.

But this is obviously in vain. They soon found that the blood is not activated. Once activated, the body is getting bigger and the force of sucking is bigger. The speed of moving forward is slower.

Even almost in place!

The force of the suction of the furnace is still rising, so that it will be sucked into the furnace sooner or later.

In this way, the domain lords who have activated the blood and the real body have quickly dismissed this state and restored the human form and supported it.

It can be said that just a few dozens of interest, but the vast star field of the core hinterland of this evil source is completely confused.

For all of this, Ye Xuan did not pay attention to it, and did not have time to pay attention to it. The thick clouds of the sky are still rumbling through the rumble, but because of the loss of the spirit of the blade and the devil, now these robbers are clearly confused. Unbearable feeling, but it did not disperse.

This is extremely abnormal, coupled with the sudden activation of the furnace, Ye Xuan has a strong sense of foreboding, Tiandao Qingyan is recovering at this moment, and it is possible to come at any time!

He must leave this ghost place as soon as possible!

However, since Shennong Ding has already been sacrificed, the identity of the fox lord has been exposed anyway. Ye Xuan has paid such a big price. If he only saves the Taikoo Porcupine and the Taikoo tortoise, he is really unwilling.

All of this is long, but in fact, Ye Xuan's sacrifice to Shennong Ding is only a matter of interest. As the mind turns, Ye Xuan even screams and screams toward the area where the Taikoo Porcupine and the Taikoo tortoise are located. Mania: "The two old brothers, with the indigenous beasts entering the Shennong Ding, I have the means to take you out!"

Upon hearing this stern, the Taikoo Porcupine and the Taikoo tortoise immediately turned to look at the Shennong Giant Ding.

When Ye Xuan sacrificed the giant tripod, the direction of waving his hand was the only way for the two of them to be sucked into the furnace. Nowadays, the Taikoo Porcupine and the Taikoo turtle are slowly dragged to the shape of the furnace. It happens to pass the side of Shennong Ding.

Compared to their slow but continuous pull to the shape of the furnace, like a super-star-like Shennong Ding, it is suspended in the void, and it does not move, giving people an inexplicable sense of security.

At least, after entering Shennong Ding, even if Shennong Ding was eventually sucked and thrown into the furnace, the creatures in Ding can be innocent. After all, it is too big, and the tripod of the furnace can not be accommodated. Naturally, it is impossible to be in the furnace. The inner grinding disc is crushed.

Everyone knows this truth. The Taikoo Porcupine and the Taikoo tortoise only hesitated for a short while, then they looked up and shouted and sent signals to all the surviving Aboriginal beasts to the Shennong Giant.

At the same time, one of the eight lords of the lord, from the core family of the Hell ants, just happened to be sucked through Shennong Ding, seeing this scene, without hesitation, one will go to Shennong Ding Dingkou goes to...

Chapter 3764: Unfamiliar

"boom!"

A loud noise came!

The Taikoo Porcupine and the Taikoo tortoise easily passed through the colorful fog of Shennong Juding Dingkou and directly entered the Dingnai space.

Including a large number of indigenous beasts who survived and were just sucked by the power of the furnace, and they went through the Shennong Ding.

Only the lord of the Hell ants, the lord of the lord, was sucked up in the figure, and went backwards toward the glory, and passed through the side of Shennong Ding, violently slamming into the smog of the giant scorpion. There was a huge shock, not only failed to pass through the nine-color fog into the space inside the Ding, but was also bounced out.

"Hey..."

"What is the situation? Why can't the lord get in?"

At this moment, the whole lord of the Hell ants is a complete collapse. All other indigenous beasts of Shennong Ding can enter, and some of them are inferior to the ants in his eyes.

It's just that he, such a domain lord, slammed all the way, actually rebounded back, the black carapace on the top of the head, although not swollen, but the whole head is a mess, after all, this collision is too hard, so the result, let He can't accept it, send a long sly!

I don't know if it is mad or painful!

"Sorry, we are not familiar with this. The Shennong Ding of this young master is a waste of ancient treasures. Who wants to enter?"

Looking at being bounced away, while roaring like a roar, but unable to control the figure, still slowly incomparably being pulled toward the direction of the furnace, the \*\*\*\* ant family main, Ye Xuan almost smile, but the face But it didn't show up, turned a blank eye, and sighed a little.

At this time, he had already swept away and went directly to the position of Shennong Ding's Dingkou. His body shape was half hidden in the colorful fog of Dingkou, and he was blessed by the power of Shennong Ding. He never felt the slightest suction. Power.

After all, the Furnace and Shennong Ding are all ancient and treasured, and they are all extraordinary and ancient. The Ye Xuan has already refining Shennong. At this moment, relying on the inner domain of this tripod, it can be held up. Force, or no problem at all.

It's even extremely easy!

Nowadays, the core of the evil roots is in the whole sky, and all the warships and the strong stars are all more or less affected by the power of the smelting furnace. Those who are far away can maintain a slow and distant trend. However, the distance is close, but it is sucked by this force, pulling back and forth, getting closer and closer to the furnace.

Only Ye Xuan and Shennong Ding at his feet, suspended in the void in the distance from the furnace, is not moving!

And anyway, the identity has been exposed, Ye Xuan simply lifted the state of the three-headed six-armed konjac, and directly showed the face of the fox-small master. Therefore, the self-proclaimed mouth was changed from Benedict to the lesser.

At this moment, after restoring the human form, the cultivation of strength has fallen to the first stage of the thirteenth world, but it stands in the colorful fog of Shennong Ding Ding, with both hands carrying, the clouds are light and light, not at all. Affected by the suction of the mound.

In this scene, the surrounding body shape is constantly regressing, and the scorpions of the various ethnic groups who are at least in the Qiankun environment are all red, and the chest is violently ups and downs. Nima is too unfair!

This is definitely an envy to the point of gnashing teeth, because it is about life and death!

"puff!"

After listening to Ye Xuan's fluttering words, the domain lord of the Hell ants was so angry that he was almost squirting blood on the spot, but his face was still full of sputum, but as his body shape was pulled by the smoldering furnace, he passed through the furnace again. On one side, the old guy's face was cloudy and uncertain.

After all, I still recognized my life, biting my teeth, and squeezing out a smile that was more ugly than crying. I said softly, "There is no such thing as a singer." Is it right? It was a misunderstanding before, and it's all clouds when it's said..."

The tone is almost pleading!

It is not easy for the old monsters who can cultivate to the main territory of the domain. Who is willing to bear this kind of blow, and the tens of thousands of years of hard work will be destroyed and destroyed?

Ye Xuan saw this through the early days, and did not let the domain lord of the Hell ants enter the Shennong Ding, which was deliberately taken.

At this moment, seeing each other's service soft, can't be turned over again by white eyes, and then said: "You can enter Ding, but you can't spend less on it. It's not the Lord's arrogance, the key is what you said, for this master. The risk is too big!"

"No problem! Hey, then..."

The domain lord of the \*\*\*\* ant family did not hesitate for a moment, compared with the small life, some of the body objects can be seen in his eyes at this time.

The room directly threw a space box to Ye Xuan: "The Taoist friend hastened up, don't \*\*\*\* it away. If it is not enough, go back and make up, let the old man go in and say it!"

"Well!"

What is the treasure of the domain lord in order to save his life? Ye Xuan manipulated the nine-color fog to pull the space box into his hand. When he saw nothing, he gained income from the immortal world. At the same time, he waved his hand and immediately had a awning of colorful fog from the Dingkou of Shennong Ding. Did not enter the Dingkou.

Of course, although Ye Xuan has confidence in Shennong Ding, even if he is a domain lord, he can't hardly come out without his open authority, but he can't let them go inside. ?

Therefore, the lord of the Hell ant family, after being wrapped in the colorful fog of Dingkou, was directly sent by Ye Xuan to the mountain wall cage at the bottom of the central volcano.

Lock it up first!

Although the other party is the domain owner, but Shennong Ding is not the general wild treasure, if you want to force the wall out of the cage, Ye Xuan can not do it.

Unless it is the landlord's grotesque, maybe there is still a chance!

In this way, it is the time of five or six interest rates. The feeling of Ye Xuan's heart is getting stronger and stronger. If there are a large number of indigenous beasts that have been sucked through from time to time, and they plunged into the mouth, he thought at the moment. The trip left.

Turning around and looking around, Ye Xuan looked at the force of the sucking and pulling along the front of the furnace, and the number of indigenous beasts that rushed toward the Shennong Ding's tripods, the number of touches was hundreds of thousands, except for a small distance due to the distance. Too far, there is no way to save, and there are other indigenous beasts that can save the people. It takes about ten interest to get into the Dingkou.

This ten interest is the last time Ye Xuan has been in this nightmare place. When time arrives, he must go!

However, taking advantage of this time, it is entirely possible to get some benefits. Anyway, the outsiders who enter the space inside the Ding will be imprisoned in the cage of the mountain, and they are not afraid that they will turn the sky!

One thought of this, Ye Xuan even smashed the scorpion and smashed it up: "The last ten interest, if you pay the fee, you can enter the inner space of Shennong Ding, and you will not be accompanied by the ten-year-old. I have to take a look at this place in a moment! Look at it, don't want to die, don't live enough, come all in the bowl..."

Chapter 3765: Come all in the bowl

Don't want to die, didn't live enough... all in the bowl?

It's too irritating to hear this, but all the high-ranking people who have heard it are almost spurting on the spot!

In particular, the lords of the Cai and the Rats and the lords of the Space Rats, the Qiankun Tao of their ethnic group and other ethnic groups are not captured, but have been killed, and the hatred of Ye Xuan has long been known. Reached the apex.

But now he is so swayed and ridiculed by him, the stagnation of his heart, it is impossible to say!

It's a pity that if you look down again, you still have to bow your head!

"Ah... save me!"

A fierce scream of sorrow came, and the powerful people around the emptiness of the sky jumped and turned their heads to follow the prestige, just to see a star of the giant tyrants, the body shape did not enter the front of the furnace Among them.

This guy is really unlucky. The size of the giant tyrannical body is huge enough. When it comes to the domain, there is no need to activate the blood and the body.

He just ate this loss, and the role of the smoldering force on his body was large. Therefore, although it was hanging behind a crowd of powers, star owners and domain owners, it was actually The more flaming suction force was pulled to the front.

At this time, as the figure of the giant monster of the giant tyrannical star did not enter the interior of the furnace, the tragic sorrow in his mouth suddenly stopped, but the sound of the flesh and blood in the furnace was crushed. Suddenly masterpiece.

Undoubtedly, this unlucky guy has been crushed into meat by the huge grinding disc in the furnace!

"Let's make friends, the old man will pay special attention when you look at it, a little meaning, and quickly accept it..."

The \*\*\*\* family is old, the domain lord is scared by the hollow, his face is pale and snowy, and he doesn't hesitate after he has a glimpse. He first took out a space box and turned to Shennong Ding's tripod. Throw it over: "The Taoist friend hastened to go on, and only the ten-day time, the old man does not want to waste!"

His figure was just sucked through the side of the Dingkou of Shennong Ding. At this moment, the space box in his hand was thrown out, and his body shape suddenly made a sudden force, slamming into the inside of the colorful foggy Dingkou.

Ye Xuan waved his hand and released it directly. The old guy's body shape disappeared into the colorful fog, and at the same time, the space box that he threw away was also waved by Ye Xuan and earned the immortal world.

This head opened, surrounded by other domain owners and strangers, star-studded geeks, Qiankun powers, suddenly all could not sit still, one by one to take out the space box, bite the teeth to force the body's strength, eagerly toward Shennong Ding The edge of the tripod came.

At the same time, the mouth is even more shouting, vying for fear...

"Ling Hu Xiaoyou, this is all the cultivation resources that the old man carries with him. By the way, take a trip!"

"Play is a play, count me!"

"Oh, it's like it's already gone, and the little friend is connected, let us go!"

"Misunderstanding, misunderstanding, everything was misunderstood before..."

.....

With the noise of these noisy and anxious voices, the space boxes were rushing toward the edge of the Shennong Ding Ding, where Ye Xuan was located. All of them were waved with a colorful mist and wrapped up. Then he gained the immortal world.

The figure that rushed to the edge of Dingkou, like the dumplings, was all gone into the colorful fog of Shennong Dingkou and disappeared.

Some of them even fished in the water, and they didn't throw out the space box at all, paying the so-called entrance fee.

After all, the scene is too confusing, in addition to these great powers, star owners and domain owners, and even some of the strongest people in the vicinity of the Qiankun, including some warships and fortresses and fortresses. The horsepower rushed to the Dingkou of Shennong Ding...

For those who want to fish in troubled waters, Ye Xuan did not stop, even if they did not pay the fees, they also let them enter the tripod.

Anyway, all the ignorance of the nine colors of fog, whether it is the star powers or warships, fortresses and fortresses, Ye Xuan, all the bones and brains are directly sent to the vast plains of the bottom of the volcano in the central area of the Ding Nei space, without exception, all imprisoned .

Go back and check them again, and some are time!

Also at this time, the indigenous beasts in the emptiness around the sky, just in the vicinity of Shennong Ding, have all entered the Dingkou. Although there are still some indigenous beasts struggling in the distance, but because of the distance Even Ye Xuan can't save.

What is more crucial is that the kind of warning that has always existed in his heart has almost reached a peak of enthusiasm, and a sense of crisis that has never been seen has suddenly come.

Ye Xuan did not dare to delay, and issued an instruction to immediately start the interstellar coordinate jumping ability to the body's engulfing system, and waved his hand to the Shennong Ding at the foot to the immortal world.

"call out!"

When the sound of the air broke, Ye Xuan immediately felt an irresistible smashing force and added force. After Shennong Ding at the foot disappeared, his body shape was weak, but he was violently reversing. Going, the blink of an eye is more than 10,000 miles away, and if you see two or three interest, you will not be in the mouth of the furnace.

Just at the juncture of this crisis, the interstellar coordinate jumping ability of the system-affiliated title was finally fully launched. Ye Xuan's figure suddenly stagnate in the rapid reversal, and then disappeared silently...

"Booming!"

Almost at the same moment when his figure disappeared, the universe in the sky above the core of the evil roots, a huge thunderous sound of unprecedented unprecedented sound.

Covering this piece of emptiness, the thick layer of black robbery clouds, at this moment, the squatting is divided into two, from the center of the central domain, there is a vast expanse of empty space, which is enough to be thousands of miles away.

"Card!"

An unusually loud and loud lightning suddenly exploded, and the vast void of thousands of miles away in the middle of the black robbery cloud was suddenly opened, and a cyan eyelid that was opening was impressive.

This blue-eyed eyelid is like a star, too big, like a heavenly eye.

At this moment, when he started, he immediately shot a brilliant blue column of light, piercing the crack of the void that had been opened by the previous blue lightning, and descended to the core of the core of the evil.

At this time, Ye Xuan had already quietly gone, and he was taken away by Shennong Ding. In addition to the millions of indigenous beasts headed by Taikoo Porcupine and Taikoo tortoise, there are also three major The various groups of the universe, the fleet of forces, and the strong stars.

Eight domain owners blame!

Dozens of stars and monsters!

Qiankun has more than a hundred!

A total of more than five million warships and fortresses, fortresses... and the star powers within these warships!

Even so, the three major planes and fleets that still remain in the void of the core of the evil source, even the indigenous beasts, still have too many, and Shennong Ding took only a small and a half.

At this time, with the coming of the violent green mans of the heavenly eye, all the existences, whether it is the indigenous beasts or the various warships, are all stagnation, as if they were fixed, stagnate in the void, moving may not.....

Chapter 3766: The eye of the sky is as dead as the world

"God, what happened? Why did the warship stop? The power cabin clearly has no faults and is still operating normally..."

"Eye of the sky! A big blue eye, like a star, shoots a blue column of light, covering the void of the entire core hinterland!"

"Well, big horror is coming! We can't escape!"

"Roar!"

"Hey..."

In the core hinterland of the source of evil, with the cyan sky above the void crack above, a brilliant blue brilliance is shot, covering the entire void of the core hinterland.

Just for a moment, still have not escaped, all kinds of warships, indigenous beasts, strong people of all ethnic groups, and even some of the star lords who are stranded in the hood of the hinterland are all being mysterious power. , stagnation of the body shape, can not move!

The fear that is rendered in the invisible to the extreme spreads rapidly, and the whole hollow of the hinterland is like a moment of imprisonment. The breath of death envelopes everything, and it is full of extremes!

"boom!"

"boom!"

"Card..."

The earth-shattering sound of the explosion sounded in an instant, and there were countless stars and stars in the starry field of the evil. The number of indigenous beasts was also millions. As for the various battleships and fortresses from the three major planes and forces. There are even more than 10 million fortresses.

Among them, except for a small number of powerful Star Fortress rushed out of the long distance in the previous great escape, it has already fled to the buffer zone of the central area and even the peripheral area, and still stays in all the warships in the core hinterland void. At this moment, it was completely blown up.

Tens of millions of warships and fortresses have collapsed, and they have been blown into a huge fireball. The voids in the core hinterland are all red, and the various battleships that are soothing and loud are made into huge fireballs. Completely disintegrated.

In the end, it turned into a myriad of warship fragments, large and small across the void, a vast void, and suddenly there was a big river, a river that straddles the void and is made up of numerous alloy fragments.

At this point, everything is not over yet.

With the explosion of these warships, there are countless star powers and indigenous beasts, as well as some powerful and ruined remains that still remain around the furnace.

Without exception, all of them are under the influence of a mysterious and powerful force, and they are exploding.

Even the star lord is no exception. After tens of thousands of years of practice, the whole corpse has not been able to stay, and it has been turned into numerous broken limbs and shards with the size of the blood. The emptiness of the air opens.

This is clearly in the big cleaning!

Everything in the core hinterland of the whole source of evil has become the goal of cleaning.

Tiandao Qingyan is obviously angry. This time, although he was alarmed and came for other reasons, the first time he discovered the abnormality of the furnace, and under some exploration, he immediately learned the truth. The previous failure of the furnace.

However, at that time, everything that Ye Xuan did, because of the shelter of the headless baby body, obscured the secret, even if it was a heavenly azure, it could not figure out too much information, and did not know who did it all. of.

For this reason, his anger will become more and more flaming. At this moment, it is clear that everything in the core hinterland is used as a gas barrel, and this kind of ruin is like a ruin!

However, the entire source of the evils is too wide. Although the consciousness of Tiandao Qingyan is awakened, the projection is coming, but now he has not recovered to its peak. After all, the power of the blue-eyed beam is still unable to cover the whole. A vast source of evil and evil.

The area covered by his power of the gods is only limited to the core hinterland of the source of evil.

In the central zone buffer zone and peripheral areas outside the core hinterland, there are still a large number of warships, fortresses and fortresses, the number is about three or four million, in addition, there are many strong stars.

With the advent of the heavenly eye, the horror-sucking power of the secret clam in the core hinterland disappeared.

Nowadays, all kinds of warships and star-studded powerhouses in the buffer zone and the peripheral area of the central area are just as eager to escape from the source of the evil.

In the process, they naturally saw everything that happened in the sky in front of the hinterland.

This scene is like a real annihilation. The vast core of the hinterland is thoroughly cleaned by the horrible Qingman.

Countless warships or indigenous beasts, or the strong stars of the various ethnic groups, and the wreckage of the wild creatures that were originally in the void, without exception, all collapsed, into alloy fragments and flesh and blood, mixed together, at the core The void in the hinterland, gathered into a hollow river, is shocking.

In the next moment, the smoldering furnace at the end of the hinterland suddenly burst into a violent white light. This time, it was more violent than before, and it was almost able to stagnate all the battleships and the various strong and indigenous beasts. The sky is blue and beautiful!

"call out!"

The sound of the smashing sound of the air broke out again, still from the end of the deepest in the hinterland.

At this moment, the force of the horror of the temporary suspension of the Qingmeng supernatural powers that had been shot by the sky was suddenly reappeared.

However, this time it has not affected the buffer zone and the peripheral area of the central area. It only acts in the core hinterland of the evil source of the horrible river.

But for this reason, for this horrible river in the core hinterland, the sudden re-emergence of the force of re-emergence is obviously much stronger than before, and it is simply not a layer of power.

"call out....."

The sound of breaking the air continued, under the influence of this more intense and flaming terrorist attraction, the horror of the horror formed by countless indigenous beasts, star powers, and fragments of warships and ruins of ancient civilizations It's alive and it's like being sucked by giant whales.

It turned out to be a Changhong, and the horror furnace that looked at the end of the core hinterland, directly along the huge tripod of the furnace, did not enter it, and the eyes were clean and completely disappeared.

"Card!"

"Card..."

With the injection of countless alloy fragments and flesh and blood wreckage, the horror of the river was infused, and the sound of the creaking in the furnace was an instant.

All of everything, all invested in the huge grinding disc in the furnace, began to crush!

At this point, the core hinterland star field is empty, and the dense robber cloud at the top of the void seems to have begun to dissipate. If nothing unexpected, everything seems to be over.

However, no one has expected the change, but at this moment, it happens again!

"Roar!"

"Roar!"

Two earth-shattering roars rang, and in the two remote corners deep in the hinterland hundreds of millions of miles away, the void suddenly split...

Chapter 3767: Demon Tiger and Thunder

"Roar!"

"Roar!"

With the sound of these two earth-shattering roars screaming, two remote corners deep in the hinterland beyond the billions of miles of the furnace, suddenly cracked two void cracks.

Then, there were two huge figures that were rushing out of these two cracks, and the speed was fast to the extreme, black and blue, like lightning.

These two figures, it is a wind demon tiger and a Taikoo Thunder!

The wind demon tiger, the back of the twins, the speed is fast, in the ancient times known as the wind demon, there is the ability of the wind.

The Taikoo Thunder is a dragon shape, but it is only slightly different.

Legend has it that the big snake is a scorpion, the big scorpion is a scorpion, the big scorpion is a scorpion, the big scorpion is a scorpion, the big scorpion is a horned dragon, the big horned dragon is the eagle dragon, the big horn dragon is the dragon.

The Taikoo Thunder, it is said that it was the evolution of the Taikoo Dalai, and the evolution of this Thunder is obviously mutated, with the power of mine control, fierce and incomparable!

These two indigenous beasts, whether they are the Wind Devil or the Taikoo Thunder, are the same as the Taikoo Porcupine and the Taikoo Turtle, even in the Archaic period, they are extremely rare creatures.

Compared with the Taikoo Porcupine and the Taikoo tortoise, these two indigenous beasts that have just broken out are more terrifying!

The Taikoo Porcupine and the Taikoo tortoise have introduced to Ye Xuan at this time. Among the indigenous fierce beasts in the core hinterland of the evil, there are still three strong beasts, which have been retired as long as the years have passed. The three-headed and strong indigenous beasts, at that time, were all trained to achieve the great success of the ninth order of the domain.

They tore the void before the eternal years, each entering an unknown universe void breakthrough, and the core hinterland of the evil source, only retaining a trace of the connection, so that after the breakthrough, can return, come again The ancestral land.

Nowadays, the wind demon tiger and the Taikoo Thunder, which are tearing the void, are the two of the three strongest indigenous beasts. The other one is obviously still in a retreat and has never broken!

Although Tiandao Qingyan is the embodiment of the will of the wilderness, it represents the heavens, but now he has not yet returned to the peak state, and this is only a projection of will.

In addition, these three strongest indigenous beasts were tearing a crack in the void, and before they started the retreat, they all used great powers to break some causality. Therefore, they succeeded in breaking through the wind demon tiger and the Taikoo Thunder. A trace of inspiration in the meditation, officially returned from the retreat, even the sacred will of the heavenly eye can not capture the traces of their existence.

But nowadays, with the return of the Wind Demon Tiger and the Taikoo Thunder, their existence has been officially exposed. In the first time, it attracted the attention of Tiandao Qingyan.

Originally, the huge cracks that were thousands of miles above the void have begun to slowly close together. The thick clouds on both sides of the cracks gradually dissipated, and the heavens and blue eyes gradually closed, but at the moment, when the wind demon tiger and Taikoo The thunder's roar came out, the breath was dispersed, and the heavenly eye was suddenly opened again, and the air machine was locked, and two brilliant green awns were shot.

One left and one right, rushing toward the wind demon tiger and the Taikoo Thunder...

"This Qing Mang... is actually the breath of the furnace?"

"Understood, everything is just a conspiracy, the so-called blood guardian, just a scam, I wait... just the flesh and blood materials that the founders of the furnace set up!"

"Roar!"

"Roar!"

The great furnace of refining and refining was originally established by the Tiandao Youth. Nowadays, the Wind Demon Tiger and the Taikoo Thunder have captured the homogeneity of the same spirit from the two glare beams.

In addition to everything that happened before, in addition to the invaders outside the domain, even the millions of indigenous beasts that remain in the core of the core hinterland, under the horror of the heavens and blue eyes, explode and jointly evolve. Out of the horrible river, I invested in the furnace...

All of this, in an instant, let the wind demon tiger and Taikoo Lei come to the fore, like the 醍醐 醍醐 top, they have realized everything.

After two years of retreat and successful breakthroughs, these two supreme indigenous beasts have now possessed the horror of the realm of the border, and as a lord of the world, they suddenly realized that they are nothing but other beings. The flesh and blood raw materials, this matter has been paralyzed, let them completely run away!

The central area buffer zone and the peripheral area of the evil source, there are also some ethnic fleets and star powers, who are rapidly withdrawing without leaving the star field.

The wind demon tiger and the Taikoo Thunder were born, and they fell into their horizons in the first time, attracting a large burst of exclamation...

"Well, come two big guys... Actually all are the masters of the realm!"

"The breath is terrible!"

"That is a wind and thunder tiger and a Taikoo Thunder. Even in the distant Taikoo period, it is also an extremely rare and ancient beast with the Taikoo Porcupine and the Taikoo tortoise."

"The big guy who finally appeared at the top of the two ends is obviously more horrible. I can't think of the depths of the core hinterland, but there are two indigenous beasts hiding in the border..."

"This is really ironic! There is the supremacy of the two worlds, and even if there is no accident, even if the horrible blue eyes have not come, I will wait for thousands of the three major groups. If the army of the warships is really attacking the core hinterland, the final result is already doomed!"

"Great horror! The depths of the source of all evils are really hidden from the big horror. Although the creation is amazing, but you have to pay for it, you have to pay a heavy price. Unless the major groups of the major groups move to the top of the world, how many deaths will come. How many....."

.....

"Roar!"

"Roar!"

With the sound of these exclamations sounding in the same way, the deepest part of the core hinterland of the front of the evil source, the two giants of the wind and the demon tiger and the Taikoo Thunder have once again arrogantly divided into different parts. To the heavenly eye in the crack above the void.

"Oh la la..."

The wind demon tiger slammed its wings, and its shape was surrounded by a vast expanse of millions of miles. In an instant, there were countless blood-colored wind blades appearing out of thin air, turning into a big river, facing the crack of the heavenly eye. Let it go.

The powerful realm of the realm is really extraordinary, the fluttering of the wind, the vast expanse of the billions of miles, and the vastness of the world, the world of wind blade, such a horrible power scene, thousands of thousands of The large fortress of the diameter of the rice is unfolding and cannot be compared with it.

In the other direction, the Taikoo Thunder also slammed at this moment.

"Hey!"

In the thunder's wide mouth, a scream of screaming screams suddenly appeared, and even the void seemed to be broken.

As the whistling sounds, its shape is surrounded by a tens of thousands of miles of imaginary air. Instantly venting countless black thunderballs from the air, rolling and moving, the surface of numerous black lightnings swallows and expands, all of which flock to the heavenly eye... ..

Chapter 3768: The product of the furnace

Although the core hinterland of the source of evil is vast and innocent, at the moment, one-third of the star-shaped voids have provoked the horrific energy of horror.

On one side is an endless wind blade like a galaxy.

On one side, there are endless rolling balls.

All covered the tens of thousands of miles of the void, with a suffocating horror power, rushing toward the huge crack in the sky above.

Such a horrible scene is that millions of 100,000-meter-diameter big fortresses are unfolding, and they are absolutely impossible to do, too amazing!

Outside the central area buffer zone and the outer area of the evil source, all the large ethnic fleets and star powers who have not left yet, are still rapidly withdrawing, after seeing this scene, they have been chilling, the face The color of shock is no longer described in words.

However, in the face of all this, the heavens and blue eyes in the cracks of the emptiness above the emptiness of the sky are just a glimpse of the eyes, revealing the sarcasm, and a few blue-colored beams of light spurt out!

The speed is almost at the extreme, and instantly catch up with the two blue lights that had been spurred from the green eye. The blink of an eye is gathered together, and the diameter just reaches the giant, still two.

One left and one right, the wind demon tiger and the Taikoo Thunder rushed toward the roaring screaming...

"Oh la la..."

"Booming..."

Wherever these two diameters of the Qingmeng Guangzhu passed, all the wind blades and black thunderballs that met on the face were all collapsed and exploded, as if the ice and snow met the fierce sunshine and directly melted without resistance. !

This scene is too shocking, and it proves the fact that the endless wind blade and the thunder ball that are overwhelming, and the two green pillars are not the same level of power.

Even if the number is more, the momentum is more prosperous, and the level of power is not as good as people. After all, it is down, and when it is touched, it is the devastating trend. This has already explained the problem.

"Roar!"

"Roar!"

In the face of all this, the wind demon tiger and the Taikoo Thunder have once again plunged into the void of thousands of miles, but this time, the snoring is full of fear, full of shock and sorrow. !

This moment, just a half round of confrontation, the wind demon tiger and the Taikoo Thunder have realized the gap between themselves and this star-like cyan eye.

The other party's breath is not obvious, and it is impossible to explore and capture the atmosphere of preparation. Otherwise, they will not be so arrogant, directly exerting supernatural powers and attacking them with all their strength.

But now, the blue sky is a sudden shot, and the power that has been unfolded undoubtedly proves its level and strength.

The wind demon tiger and the Taikoo Thunder heart, almost at the same time floating a strong sense of life and death crisis, screaming and then do not hesitate, then turned around and turned around, want to be extremely fast!

Only half a round of confrontation, their full blow, under the two green light pillars that the other party easily and freely shot, they melted directly into the snow, and all the way was like a ruin...

This is enough to prove the strength of the other side.

This star-like cyan sky is definitely a horrible existence that transcends the border of the realm, and the strength is not a little bit, it is not as simple as one or two big realms.

The wind demon tiger and the Taikoo Thunder are still fierce in the air, but now it is like a dog of funeral, the only thought in the heart is to escape...

Unfortunately, everything is too late!

"Oh la la..."

These two large-diameter cyan columns of light are all ruined, but all the wind blades and black mines encountered are instantly collapsed and melted, and the speed of the cyan beam has not been affected.

On the contrary, it is a blue light column. It seems that because of the large amount of wind blade and black thunder energy collected along the way, the moment is violent, and the speed has been continuously rising.

Faster and faster, a short breath, the speed has reached a peak, and at this moment, the wind demon tiger and the Taikoo Thunder have just turned to escape.

The two cyan beams have come to the front, directly locked in shape, hard to bang without any suspense!

"boom!"

"boom!"

The earth-shattering explosion appeared, and the endless void of the core hinterland of the source of all evil seemed to shake sharply at this moment.

The fascinating wind demon tiger and the Taikoo Thunder have no ability to resist the slightest. The huge figure of the giant giant, in the first moment of the bombing of these two giant blue light columns, completely blasted. For two canopy blood, one green and one black!

The Xingqiang Aboriginal beasts, which were cultivated in the two territories, were only one blow, and they were completely killed by a 10,000-meter-diameter Qinguangguangzhu.

The gods are gone, and half of the hairs are not able to stay!

This scene almost intimidated the large-scale fleets and star-studded powerhouses in the central area of the buffer zone and the source of the evil source, and the screams of resounding resounded to the void...

"Exploded? Really exploded! This is the top of the two beasts with the main enemy!"

"Terror! Great horror! The supreme beasts in the realm of the realm can't resist even one blow. It's just a beam of green light, so they are all gone!"

"This is by no means the same level of power, the star-like giant green eyes, what is the sacredness?"

"Beyond the existence of the main territory, and the strength is not a little bit, at least several big realms... God, what is that realm?"

"Escape! It's amazing to escape this ghost field immediately. If the old man can live out, he will not step here again!"

"Behold, the \*\*\*\* fog of the two canopies, one green and one black, was formed by the \*\*\*\* fog formed by the explosion of the two beasts in the end of the real body. It was also sucked into the horrible star furnace. Among them..."

"This is clearly a refining and chemical formation. The star-like giant tripod is the core of the center. The function of the chain around is unknown. But its raw materials, but there are also warships and flesh and blood, all of them are amazing, and there are even two beasts. Thoroughly explode the blood of the formation!"

"It's too horrible. All this is all together. What is the product of this vain refining and large-scale refinement? What is it?"

.....

With the screams of these screams, the huge blood and fog of the green and black awnings floating in the void in the front core of the ventricle, formed by the two ruins of the two kingdoms The essence of blood and blood, as if it has been pulled by some kind of suction force.

Quickly wandering, from the end of the hinterland deep in the mouth of the huge furnace, did not enter.

At this point, the whole hinterland of the vast and innocent source of evil and evil is really thoroughly cleaned, and in the huge star-like furnace of the stars, the dense and constant sound of the cracks of the card is still ringing. Gradually stop.

But there are countless mysterious striated chains that connect the inner and outer walls of the mound, but at this moment, suddenly there is no sign of squeaking...

Chapter 3769: Super earthquake

"Hey!"

"Oh la la..."

In an instant, the mysterious striated chains that connect the inner and outer walls of the mound are suddenly ringing without warning.

In the looming, it seems that you can hear some faint thunder in the furnace!

At this point, if there is a certain person who enters the interior of the furnace, you can see that the huge grinding disc in the central area of the meditation has not stopped completely. It is still slowly rotating, but the speed has slowed to the extreme. .

In the middle of the grinding disc, the huge pores used to place the raw materials for refining, at this time, there is no visible solid matter.

All the strong stars, the indigenous beasts, and the wreckage of the ruins of the ancients have all been ground in the previous mills and milled into meat.

This includes the same number of warships and fortresses and fortresses.

Although they are all built by the strongest cosmic alloys, even in these various warships, there are a lot of materials, equipment... such as antimatter light generators!

But all this, for this mysterious grinding disc located in the inner domain of the furnace, like a star, is just a cloud.

This grinding disc, even crossed the border, has even reached the ancient powers of the wild, the ancient and ruined ruins of the ancient and supreme level, can be crushed into mud, a small space battleship alloy, what can be calculated?

In short, all the materials and materials that have been pulled into the furnace by the horror of the furnace, have now been crushed into semi-liquid things, mixed together, and now stored in the central pores of the huge grinding disc. With this diameter horror, the depth has a huge aperture of a star diameter, filled with more than half!

If you look down from the probe above the aperture, you can see that the pores are all a semi-liquid substance that cannot be described by words. The color can no longer be summarized by the colorful color. The scalp is numb and strange!

The original effect of this smoldering furnace is to condense the big flesh and blood medicine, and the evil source liquid is the product of it, but it must be condensed with the powerful flesh and blood of the power.

The minimum standard of raw materials must also be the universe beyond the realm of the border.

This point has been confirmed by Ye Xuan. Previously, when the smelting furnace was used to condense the evil source liquid, the shards of the sacred sacred materials brought by the chain were even used as garbage. In general, spit out!

Can't use it at all!

The flesh and blood raw materials in the main boundary of the border will not work. At present, there are numerous low-order star-space powerhouses, indigenous beasts, and a large number of battleship alloys, which are formed by the mysterious grinding disc. It is even more impossible to condense the so-called evil source!

However, this large-scale refining and refining process is obviously remarkable. The furnace can condense the evil source liquid, but it is not only able to condense the evil source liquid.

Through the horror condensing power of the smoldering furnace, these snails and liquids in the central pores of the grinding disc will eventually condense something, but what is it, what is the effect of the power, it is It's hard to say it!

Even why the smoldering furnace suddenly activates itself, and the unconventional condensing is also a mystery!

"Booming!"

"boom....."

Soon, the lame chain's abnormal sound disappeared, and the huge grinding disc in the furnace still started to rotate again. The speed was very fast and kept at a constant speed. This is the condensed evil source that Ye Xuan saw before entering the furnace. The situation is exactly the same.

The only difference is that the raw materials in the central pores of the huge grinding discs have been different from each other!

However, what can be done with this methane furnace, even if the raw material grades are low and noisy, and the products after the final condensed success can be worse?

Regardless of whether this is the case or not, in short, this time it is an unplanned mystery of the furnace, and now... it has officially begun!

In the sky, the thick black robbery cloud quickly dissipated. At the end, even the huge crack of the tens of thousands of miles in diameter was completely closed.

Before the closing, the huge green eyes like the stars seemed to feel that they had completed some kind of mission, completely stunned their eyes, and hidden in the deepest part of the unknown plane, no longer visible...

.....

The source of evil is completely quiet!

Previously, the top three forces and the strongest groups of the ethnic groups organized the fleet, and one branch opened up and entered.

It is only the warships of the Second Universe and allied forces, and the total number is more than 10 million.

The follow-up two camps of the Terran and the Senlan Fleet of the Federation of Vanda also have a scale of five million warships, which is another 15 million.

The first cosmic slaves arrived in the following, and the total number of warships exceeded 10 million.

Coupled with other small forces and the consortium of temporary assembly, the total number of warships and fortresses and fortresses entering the source of the evil is nearly 40 million!

But nowadays, the whole source of the evil and the evil, whether it is the peripheral area, the central area buffer zone, or the core hinterland... the whole vast star field, none of the warships, there is no figure of a strong star.

Part of it was taken away by Ye Xuan with Shennong Ding, and some of them escaped. At this moment, they were spreading in the void outside the source of evil, and they began to return to their respective ethnic groups.

There is still a part that will remain in the core hinterland of the evil source forever. It has been put into the furnace, and it has been crushed into a semi-liquid scorpion liquid, which is used as a raw material in the furnace. , unfolding some kind of condensing...

The first to escape from the source of the evil, is the three star owners of the Devil's group, such as Mo Taiye.

After hearing the warnings of Ye Xuan, they turned around and turned around without hesitation, launched a virtual teleport, escaped the buffer zone of the central domain unscathed, and then passed through the peripheral area to the source of evil. Outside the domain.

At that time, Tiandao Qingyan was able to appear. When the three grandmothers rushed out of the source of the evil, they looked back and saw the sky, and they were so scared that they couldn't stay too much. Immediately after the source of the star field, it began to speed up and rushed toward the devil's star field.

They have a kind of hunch, the source of all evils... It's going to be a big deal!

that's the truth!

I didn't wait until the three people returned to the Devil's Star Field, just on the way back to the rush, the news about what happened after the evil source star field has spread rapidly.

These messages were transmitted through the fleets of the major ethnic groups that subsequently escaped from the source of the evil. After the first release, they passed through the secondary network of the major slaves of the First Universe, and they were transmitted in layers. In the time, it spread throughout the first universe.

Then, through the surrounding of the Devil's group, the two places are connected to the second universe and the third universe's plane-level cosmic wormhole, and the first time passed the past to the other two planes.

For a time, in just half a day, the three major cosmic planes broke out at the same time an incredible starry sky earthquake...

Chapter 3770: The first person of the world

The source of the evil of the first universe... a big deal!

In the depths of the star field, there is a hidden nature, and a huge void of refining and refining is born. The core of the center is a giant dragon like a superstar!

The dying of the vast dynasty is surrounded by the wreckage of countless ancient creatures, at least the main territory of the star, and the existence of many borders!

In addition, there are thousands of descendants of ancient beasts who can rarely see the outside world!

The major communists of the three major universes and the forces swarmed and moved, and eventually gathered into a super-horse fleet.

More than 40 million warships, fortresses and fortresses!

The starry sky lineup in the entire fleet is so suffocatingly luxurious that it is nearly ten lords of the domain lords, hundreds of lords of all ethnic groups, and thousands of great tycoons!

But in the end, the entire army collapsed, only a few fleets escaped, and most of them completely annihilated in the star of the evil!

A blue sky is coming straight, and all the battleships, the strong stars, and even the indigenous beasts that guard the void of the refining and smelting are all swallowed up by the furnace.

And to launch all this, it is a star-like cyan eye!

It was repaired to the same level and could not be smashed. It was just a shot of two green pillars, which killed two of the most powerful indigenous beasts.

A wind demon tiger!

A Taikoo Thunder!

Even the power of resistance is not there, and it is instantly blasted by the Qingmeng light column.

In addition, there is a more exciting news!

Netherland and the sorcerer are born again!

And it has been confirmed that they are the same person at all, and the fox is the Lord, and it is also the seventh enchanting singer... the little konjac!

Among the seven deities of the world, three of them were the same person. This news instantly made the three major planes and the numerous powers in the forces completely dumbfounded.

All the people were all thundered.

If there were countless strong people at the time, I heard that the Taikoo Little Konjac admitted to the identity of the Nether Little, and at the same time, I saw the Taikoo Little Konjac waved the Wing Ding, the medicine belonging to the Linghu Master, and revived in public. The original appearance of the fox lord, this news, fear is impossible to accept anyway!

Even, even this horror of the source of evil and evil, there are a lot of clues at present, in all likelihood, related to the singer!

On that day, it was the knives that the fox lord seriously injured when the lions and lions of the lions and lions were smashed by the lions. The thunderstorm caused the sky to fall, and then the smoldering furnace was awakened, the blue eyes were suspended, and the subsequent changes could no longer be controlled. ....

No matter whether it is the Lord of the Fox or the Nether, there are cases in the eyes of the three major planes and the top leaders of the ethnic groups.

The reason why these two identities are heard both inside and outside is because of their scourge ability.

From this point of view, this happened in the terrible source of the evil roots, and it was caused by him in all likelihood. This inference was accepted by the vast majority of people in the first time and was confirmed.

However, regardless of the sudden, the sudden outbreak of this change, the three major groups and the forces can be said to have suffered a lot, but as the chief culprit of the fox, but at the last juncture, in the cyan Before the giant eye came, it was easy to escape.

After some tossing and scourge, it was a matter of smashing clothes. The key is that before leaving, the fox lord also used the star-like giant Shennong Ding to pretend some warships and strongmen!

The quantity is too big!

He was taken away by Shennong Ding, in addition to the millions of indigenous beasts headed by Taikoo Porcupine and Taikoo tortoise, as well as the fleets and star powers from the three major universes.

Eight domain owners blame!

Dozens of stars and monsters!

Qiankun has more than a hundred!

And a total of more than five million warships and fortresses and fortresses of all ethnic groups... together with countless star powers within these warships!

After learning the news, the top three major groups and the core high-level forces of the forces almost vomited blood on the spot.

Although the news came back, the eight old lords and dozens of star lords, more than one hundred 乾大大, and nearly five million mega-national warships all voluntarily entered Shennong Ding Take refuge inside.

The young fox is not coerced... with his own power, if not in a specific environment, there is no such coercive ability!

But the fox and the sorcerer are too fierce, and the two guys are not the best ones. The best thing is to rob the fire, extortion, and already have a criminal record.

What's more, this time, as a Taikoo konjac, he has also killed a domain lord of the second cosmic scorpion in the star of the evil, and the three major sects of the sects It was captured several times.

If we say that the whole group that seeks the protection of Shennong Ding, headed by the eight lords of the domain, can be treated well in Shennong Ding, it is estimated that the ghosts will not believe it.

After a lot of anger and even roaring and roaring, the major groups have all sighed and began to raise ransom.

The forces and ethnic groups that have no important figures in the Shennong Ding are not the only ones. The pressure is small. As for those who have the sacred sects of the sects, the mighty powers, the lords of the stars, and even the lords of the domain, they are detained in Shennong Ding. Ethnic groups and forces are all like aunts.

As soon as I think of it, I will be slaughtered by pigs like the pigs. The core members of these ethnic groups and forces have the urge to kill them immediately.

However, through this incident, the prestige of the fox lord has once again climbed a large section. Now it has been confirmed that among the seven enchanting geniuses, three of them are all alone. This is a bad means, directly Let the murderous name of the singer and the lord surpass the other four enchanting enchantments.

It is also the Xuan Huangzi, the invincible God of War, Sha Baofeng and the devil's emperor Mo Yufeng.

Hidden and leaping to the younger generation of the world's first generation!

In fact, in the eyes of the many core high-level forces of the major forces and ethnic groups, today's fox-free masters are indeed worthy of the title of the first generation of the three generations of younger generations.

Although it is now basically certain that the three-headed and six-armed konjac is just a kind of \*\*\*\* power that he has mastered, in this state, his cultivation can only rise two realms.

After the release of this \*\*\*\* state of the state of the fox, the lord of the genius, in the core hinterland of the evil source, the cultivation of strength, but only the thirteenth domain of the domain begins!

But because of this, he has made a series of amazing achievements with this kind of strength that is not too strong, which makes people feel even more incredible.

Even the great ethnic groups and the powerful sects of the powers have been killed by many people in a multi-pronged situation, and they have captured many of them, and there is also a domain owner who is derogatory to his hand...

If even such a record, it is not the name of the first generation of the younger generation of enchanting people, then, although the three planes are large, who else would dare to call this title?
