

## Super D. S 377

### Chapter 377: Meeting

If you follow this speed, Xie Yuding can only have this third layer for a few hours, and Xie's family has more than ten people. If there is not enough detoxification, it is likely that the whole army will be wiped out.

Thinking of this, Xie Yu's footsteps can not help but speed up a lot.

This time, in addition to those poisons, they did not meet other people. Soon, they went deep into the underground 2,500 meters.

The plantation of this Baoshuzong is too big. From the ground of the ground to the underground of 2,500 meters, the Tiancai treasure can be seen everywhere, and Ye Xuan still does not know how big the maze is. Very much, it is easy to get lost in it.

Fortunately, this underground maze is easy to find the way down, so Ye Xuan is not lost here.

It is no wonder that the Baoshuzong will be destroyed. Even if there are no colorful treasure trees, the Tiandi Dibao planted in the Baoshuzong alone is enough to make a force crazy.

When Ye Xuan passed down to three kilometers, he finally heard the human voice, and they stepped up and walked out of the passage.

This third layer is large and endless.

At the same time, the ground on this floor is not mud, but the road surface where numerous vines are intertwined.

At this point, there are already hundreds of people gathered here.

This third layer of sight is still good, Xie Yu saw her team at home.

"Hey!" Xie Yu ran over.

Ye Xuan followed closely.

After hearing the voice of Xie Yu, Xie Hai's Xie Hai's teacher turned his head in a strange way and said:  
"Yu, you are fine."

"Hey, this is detoxification Dan!" Xie Yu hurriedly took out those detoxification Dan.

"Well, we also got a lot along the way, but it is not urgent." Xie Hai nodded and divided these detoxifications one by one.

Later, he was looking at Ye Xuan who followed.

"This is..." Xie Hai asked differently.

"After I was separated from you, I had some troubles and almost died. He saved me, and then I asked him to \*\*\*\* me."

Xie Yu explained.

"It turned out to be like this, thank you for the help of the little brother." Xie Hai hurriedly held a fist.

Ye Xuan smiled and said: "Predecessors are polite, I am employed by Xie Girl."

"Hey, isn't there a few sacred beasts of fifty dragons in your ring? Give him." Xie Yu remembered his promise and said immediately.

"This..." Xie Haiyi.

Although the body of the sacred beast is not as good as the sacred beast, it is also a corpse of more than fifty dragons. If it is cooked, it can also improve a lot of strength, which can greatly enhance the overall strength of the family.

At this time, a middle-aged man behind Xie Hai came out and said coldly: "Boy, is your appetite too big?"

Xie Yu quickly explained: "Three uncles, just corpses, not the sacred beast, and there are so many natural treasures here..."

"There are so many natural treasures here, what is the relationship with the body of the sacred beast?" The middle-aged people are cold and cold.

Xie Hai didn't want to say anything on this topic. He just handed a piece of Qiang Kun to the past and said: "Well, the life of Yuer is more important. The little brother has three sacred beasts with the power of five to five dragons. The body, there are six fifty-one to fifty-three dragons."

Ye Xuan's eyes lit up and excitedly took over the Qiang Kun ring, thanking him: "Thank you for your predecessors!"

With these bodies, he can use the Beastmaster once more, which means he can use it twice.

After fulfilling his own promises, Xie Yu also turned his head and looked around the hundreds of people, saying: "Hey, what are we doing here now?"

Xue Haidao: "Wait, wait for those who come into this poisonous fog to come back."

Xie Yu and Ye Xuan turned their heads and found that the poisonous fog a hundred meters away from the front was very thick, and they could only see the place ten meters away.

At this time, they are also in the toxic fog, but this poisonous mist 100 meters away is obviously more toxic, and they still do not know what is in this poisonous mist, so the danger is very high.

"Why don't you dispel this poisonous mist?" Xie Yu asked.

Xue Hai shook his head and said: "No, we tried to disperse this poisonous mist before, but in the next moment, more poisonous fog will emerge, and it will become denser. If we continue to disperse, I am afraid that even the station will be everywhere. No."

After listening to it, Xie Yu did not speak, waiting quietly.

Ye Xuan, also standing in the back, looked at it for a while.

In addition to Xie Jia, the other two sects are also in the works, in addition to many lower-level sects and families, even the scattered team has one.

However, the fire door that was one of the four major forces with Xie Jia did not arrive, I don't know why.

Everyone waited for a while, but no one came out of the poisonous fog.

"Damn, it really is dangerous, even Xie Yang did not come out!" Xie Hai said with a grin.

Xie Yang, is the master of the Xie family sent to the poisonous fog, the power of the forty-eight dragons, the body of the law, is the strongest of the Xie family in addition to the three major dragons.

"Uncle Xie Yang did not come out..." Xie Yu brows.

For death, she is already used to it. In order to survive in this world, no sacrifice is impossible.

However, at this moment, there was a sudden sound of footsteps in the poisonous mist. Then, a figure was swept out.

"Someone is out!"

At the moment, the heads of major forces are rushing over.

The same is true of Xie Hai.

"It is Xie Yang!"

Xie Haiyan widened his eyes and looked at the figure that rushed out of the poisonous fog.

This person is Xie Yang of Xie's family, but he is one arm less, even his shoulders are gone, the wound is still bleeding, I don't know what was hurt.

"Xie Yang, how are you?"

Xie Hai rushed to the side of Xie Yang.

The heads of the major forces are also close, trying to hear some news.

"Home, this, there is a lot of white wind in this poisonous fog, be careful..."

Halfway through Xie Yang, he suddenly spit out a purple blood, then planted it and died.

This kind of news could only tell Xie Hai, but he knew that he couldn't hold it anymore, so he didn't think so much.

"Xie Yang?"

Xie Haiyan's eyes widened and it was found that Xie Yang's wound had been festered and blackened, apparently poisoned and died.

At the same time, people of other powers were shocked after hearing the words of Xie Yang.

"The yin wind? After the adulthood, is the sacred beast with the power of forty-five dragons?"

"And, there are plenty of shades."

"This Xie master should be able to resist this poisonous fog, but he is poisoned and died. These shades must be mutated, and the knife is poisonous."

The people of all major forces face each other.

Unexpectedly, this poisonous mist that could not be seen was so dangerous.

How to do?
