Chapter 3771: Chaotic interior

"call out!"

The faint sound of breaking the air, Ye Xuan's figure instantly appeared. At this time, he is still the appearance of the fox lord. Now that the identity of the fox lord has been leaked, he will This look shows people.

Among the seven enchanting enchantments, three of them have been exposed, and the remaining Xuan Zizi, the invincible **** of war and the four identities of Sha Baofeng and the devil's emperor Mo Yufeng, he will pay special attention, can no longer easily expose the truth. come out!

Of course, Shenneng Ding's Xuanyuan Ziyan and Duanmu Xiaocha, Zhao Qianru's three gimmicks, and the Eight King Kong, as well as the wolf, the stunned, the Medusa, and so on, have more than 20 second universes that have been committed to him. The descendants of the ancestors of the patriarchs are all aware of the fact that the seven enchanting singers of the world are actually the same person of Ye Xuan.

But Ye Xuan knew that they would pass them and would not reveal it.

Even this time, he was sneaked into the three major planes of the Shennong Ding interior space and the strong forces of the forces. Nowadays, although they are in Shennong Ding, they are all imprisoned. The bottom plain of the volcano in the central area cannot be contacted with people such as

This is also the case of Ye Xuan just in case. As for how to settle these guys, everything has to wait for him to personally enter the space inside the Ding, and then make a decision after consulting with Jing Hong and others.

At this moment, his position is not the second universe and the third universe plane, but the depth of the first universe's life black hole.

Since the incident of the Bingxuan, the place has become silent. The recent first cosmic plane is not flat. No force and ethnic group will have the idea of playing the black hole of life.

After leaving the location of the star-studded coordinates, Ye Xuan found a secluded corner in the depths of the black hole of life and waved the Shennong Ding.

Then, after launching the hidden function of Shennong Ding and making it hidden, the step rushed into the space inside the Dingkou.

This time, Ye Xuan killed and captured a number of Qiankun Tao of the various ethnic groups on the edge of the core hinterland of the evil roots. In addition to the Lingkun Taoist son of the Shulings, he was used to sacrifice. Shennong is a flame, directly killing outside.

The rest are basically all alive.

In the first cosmic servant group, the space mouse family's Qiankun Daozi was unparalleled and had a dagger.

The ants of the Hell ants, the ninth dynasty, and the martial arts of the giant tyrants, all of them are all lively, and all of them are now shackled in the cages of the mountain wall, and then consider how to deal with them.

In addition, there are six Qiankun Daozi from the top ten ethnic groups in the Second Universe.

They are the sorrowful wolf's sorrowful sorrowful wolf, the silver scorpion's scorpion, the singer, the singer, the golden eagle's singer, the singer, Jin Xiaoxiao!

Among the top ten ethnic groups in the second universe, the tree spirits of the tortoises and the Qiankun Taozi have been smashed, and the other eight ethnic groups, only the last **** and Qingpeng two sects, nowadays Still surviving.

The two guys, Ye Xuan has to pick up sooner or later.

Because he now knows that among the top ten ethnic groups in the second universe, the two guys are the most powerful, and they are already in the late Qing Dynasty. This makes Ye Xuan quite excited and challenge himself. Extreme excitement!

However, that is what he said. As for the present, the Qiankun Daozi of the six ethnic groups that have already reached the hand, he was handed over to the people who were shocked by the rainbow and the horns and the other in the first time. The secret law, to win the Tao.

Although these six guys are all young and powerful in the Qiankun situation, after being knocked out by Ye Xuan, they have immediately imprisoned their cultivation, and after being sent to Shennong Ding, they were even suppressed by Shennong Ding's domain field power. I can't find any waves at all.

Under this circumstance, although the people such as are not as good as them, but under the secret law, they have achieved their own achievements, but they are completely okay.

Just now I don't know how this has progressed!

The same people who got the six Qiankun Daozi, namely, the wolf, the stunned rainbow, the golden scorpion, the horned day, the Medusa, the lion and the tyrant, have all voted for Ye Xuan, and they are themselves.

As for the other 24 people, including the Eight King Kong, they can only sigh with their wrists. The next time they catch the sorrows of their ethnic group, they can encounter this kind of heavenly creation that is like a falling pie!

Ye Xuan's body shape just appeared in Shennong Ding's internal space. Xuanyuan Zijing, Duanmu Xiaocha, and Zhao Qianru's three gimmicks greeted them with excitement.

Behind the eight King Kong and other 30 generations of the descendants of the genius, including the wolf, the stunned rainbow, Jin Yuyan, Jiao Ritian, Medusa, and the lion overbearing are also included.

"Wow, this time I have to make a fortune. What is the movement? Is your kid robbing a cosmic plane this time? There are five or six million ships of various warships, fortresses and fortresses thrown down!"

"The playing is yes, the starry sky is more powerful, except for the inside of various warships, only among the star-studded strong people who are thrown in. The young lady has seen a lot of great powers, even the star owner. There are old monsters, what do you do to swollen?"

"What is the Lord of the Stars? This lady also sees the domain owner blame, at least six or seven, hey, this time we are going to fly the sky..."

Without waiting for Ye Xuan to speak, the three gimmicks rushed to him in front of him, and excitedly asked, while Huang Xuan's two arms swayed in a swing.

The words in the mouth are not obscured. Those great powers and star lords are just not taking the battleship into Shennong Ding. In their mouths, they become naked, and they are speechless.

Aside, the eight King Kong and the and others stopped far away from the 100 meters away, listening to the words of the three gimmicks, the face gradually floated green color, it was really given by these three crazy gimmicks I'm afraid, there are places where these three gimmicks are, and they don't dare to go too far.

But it is also the female princess of the Choi, the little princess Medusa, but it is very close, although it is not like the three When you open the door, you will know that you have been familiar with the madness in the recent period.

Originally only three gimmicks, it seems that the rhythm of the lineup is increasing. Ye Xuan stunned, and the black line of the brain was full.

My heart is to look at the idea. Afterwards, the women will not be able to live. The four are already enough headaches. If they form a strengthening team, he estimates that even the heart that wants to die must have...

After some noisy, Ye Xuan did not bother to answer the words of these three crazy gimmicks, smiled bitterly, and then looked at the stunned rainbow and the corner of the six people, and asked: "The guys What happened... What happened?"

Chapter 3772: arrangement

"Reassured, all still alive, not directly killed!"

"But it's just a sigh of relief. It's just like this. Even if it's the ancestors of the respective ethnic groups, don't want them to recover. After all, the road base has collapsed."

"Yes, the six guys didn't bully us in the family on weekdays. They didn't say no evil, they didn't do it. It was finally retribution, it was so cool."

"The key point is that we are using the secrets of our respective ethnic groups. There are no traces of abnormality at all. Even if the ancestors of the tribes in the tribe carefully survey, they will not find any traces of the beads!"

"And, the consciousness of the six guys is all chaotic, even the soul search has no effect, and they are all in the coma from beginning to end, they do not know our existence, so live and hand over ,not related."

"After all, there are all the Qiankun Taos in their respective ethnic groups. The whole six can also be exchanged for a lot of ransoms. Naturally, the waste will be used. Otherwise, they will be killed..."

At the end of the day, the six guys all smiled at Ye Xuan, and the latter stunned, then they shook their heads and smiled. This is good. When they first joined, they learned their old skills thoroughly, and they are more blue and blue. Better than the blue posture, it is really speechless.

Such six black-bellied guys, plus the eight King Kong and other 24 people, once they are put back into their respective ethnic groups, fear is nothing but a wolf into the sheepfold.

Yes, Ye Xuan is really planning to put all these 30 guys back.

After the creations they had acquired in Shennong Ding during this time, they will fly into the sky after they have reached their respective ethnic groups, especially the six people, such as who have secretly captured the body of the Qiankun Tao in their respective ethnic groups. Doji, although it has not yet been revealed.

But in the future, it will be slowly refining. At that time, the six guys will be determined to grow into a new Qiankun Tao. In time, the entire ethnic group will be in their hands.

Of course, this time may be longer, but if Ye Xuan exerts some influence from the outside, the development speed of the whole process will be greatly improved.

In the end, once the guys were assisted by Ye Xuan's secrets, they all got control of their respective ethnic groups. At that time, Ye Xuan was indirectly instigating the entire 30 top ethnic groups and forces, the second universe. And the top forces of the Third Universe are all there.

This is definitely a ace of killer, and once it is activated in the future, the effect is absolutely against the sky!

Of course, when it is absolutely necessary, this kind of card, Ye Xuan can not be easily used, just like the nearly 10,000 federal elites that he released from the bottom of the black mosquitoes, all of them are the forces of the Terran An important person in the door valve.

More than 10,000 people, all the leagues have vowed to do one thing for Ye Xuan, perhaps the strength of one person is not very strong, but the 10,000 federal elites represent almost all the top forces of the third universe. Door valve, if Ye Xuan finds them, secretly orders.

All people respond to the sound at the same time, and that influence effect is absolutely extremely awkward.

This is also a trump card, but now it is not used!

"This time is a rare opportunity. Later, I will quietly send you to the mountain wall cages at the bottom of the volcano in the central area..."

Speaking of this, Ye Xuan suddenly thought of something, turned to the side of Xuanyuan Ziyan and Duanmu Xiaocha, Zhao Qianru three gimmicks looked at the past, and said: "Including you are the same, it has been crazy for so long. Can't you always rely on Shennong Ding? If you take this opportunity, you should go back."

After that, he directly ignored the expression of the three gimmicks and continued to say: "Returning to the guys who were imprisoned at the bottom of the volcano, smashing a slap in the face, and receiving the ransom of their respective ethnic groups, I will release them all in succession, and you will be mixed in, just not to be suspicious."

"As far as turning back is asked by the family, how do you say that you naturally understand that you don't need me to talk about it!"

"Of course, before I send you out, I will secretly allocate a batch of cultivation resources and treasures to you, everyone has, as you start back to the ethnic group, the rapid development of the starting resources."

"After going out, you can secretly contact each other and encounter more important things. When you can't get in touch with me, you can contact the Triumph City directly and ask for their assistance. Just say what I mean!"

Hearing Ye Xuan's sly, and other 22 second-generation cosmic descendants, Tianjiao all nodded, no objections, and they all seemed a little excited.

But the eight King Kong and Xuanyuan Ziwei, Duanmu Xiaocha and Zhao Qianru three gimmicks, but they have a difficult face, obviously have their own ideas.

Ye Xuan turned to the Eight King Kong and asked why. These eight guys immediately shook their heads and smiled...

"It's okay to go back, but our eight estimates are not going back!"

"Playing is a yes, the number of guys who got caught up with us last time is quite a lot. Later, all the other people went back. Only the eight of us stayed, and the guys who were released all know that we are Voluntarily left..."

"In this case, if the eight of us suddenly go back and go to their respective families, we are afraid that not only will we not be able to get up quickly, but we will be detained for censorship, even if we smother the matter and later in our respective families, Basically, there is no hope of superiority!"

"If this is the case, it would be better to stay in Shennong Ding. At least here, the aura is sufficient, and we are practicing fast."

"In addition, such a large space inside the trip, always need someone to take care of it..."

Upon hearing this, Ye Xuan suddenly fell into sinking. The eight King Kong said that it was correct. He had forgotten it before, but now it seems that they can't go back. They can only stay for a while. In Shennong Ding.

After the decision was made, Ye Xuan turned to look at the three gimmicks of Xuanyuan Ziwei, Duanmu Xiaocha, and Zhao Qianru. When they turned their eyes, they asked: "You three, what do you want to make a moth?"

"No, we have been out for so long, naturally it is time to go back, or the family should be worried!"

"The play is yes, you don't let us go, this lady is not willing!"

"However, before returning this time, is it necessary to help us to refine the armor, so that we can bring it back? This has dragged on for a long time..."

As said, the three gimmicks all turned their eyes.

Ye Xuan heard a sigh of relief, then he shook his head and smiled. It was this thing for a long time. This is no problem, with his current cultivation, plus this time will get a lot of treasures and cultivation resources, and take some time to refine the three armored armor to the starry sky to the treasure level, no pressure at all...

Chapter 3773: Ten thousand battleships in my hand

For the requirements of the three gimmicks, Ye Xuan did not think about it, and it should be accepted in one bite!

The treasures of the three gimmicks, he has already refining several times with the fusion system, and now it is a legendary treasure of the stars and stars. According to Ye Xuan's estimation, if they want to reach the level of the starry sky to the treasure level, at least succeed. It is enough to integrate the land four times.

The wave of stunned rainbows, the horns, and other 22nd celestial celestial cadres of the second universe, all properly arranged to the bottom of the volcano of the central domain, pretending to be imprisoned, Ye Xuan again confessed to the eight King Kong, and then After the eight people left, they will once again merge and condense the treasures of the three hoes!

Today's Ye Xuan Xiu is far from being comparable. The phagocytic system has undergone several system hosting competitions and has successfully won and evolved again and again. It is also far from comparable.

Therefore, this time the fusion of condensing succeeded without suspense, only used for more than one hour.

The three treasures are still legendary treasures of the stars, but they are very close to the starry epic.

If there is no accident, the next fusion will be promoted to the starry epic!

This horrible speed and success rate of the refining machine once again shocked the three skulls of Xuanyuan Zijing. When Ye Xuan sang three pieces of glamour, it looked very gorgeous, and at the same time, it had a powerful power. A, one by one, handed over to three gimmicks.

After all the faces of the three skulls were stunning and sluggish, they finally sighed and sighed at Ye Xuan with two metamorphosis, such as the enchanting words, and took over their respective treasures. After the sacrifice, they ran to the side to go to the play.

Just like a woman in an ordinary person suddenly gets a beautiful new dress, excited and excited!

Finally, the three hoes were temporarily opened. Ye Xuan shook his head and smiled a little. He adjusted his mood and began to wonder how to deal with the guys who were imprisoned in the bottom of the volcano in the central area of Dingnai.

Among the prisoners of war captured in the previous World War, there were no other exploitative values, such as the wolf just strong and the horned owl, and there was no other value of exploitation. Not only was the Doji being taken, but the whole body was already smashed. Clean, Ye Xuan puts them together, and asks for the ransom, and their use value is squeezed clean.

In addition, he also has two Qiankun Daozi in his hands, all of whom are the first cosmic slaves, namely Mengma Mountain and Ant Jiu Ming.

These two guys, Ye Xuan, did not intend to redeem them. It was tantamount to letting the tigers return to the mountains. Therefore, he first collected all the cultivation resources and the pieces of magic weapons from the Mammoth Mountain and the Ants and Nine.

Then they threw them into two cave cages deep in the volcanic plain of the central domain. They would not pay attention to it in a short time, and they remembered it later.

What needs to be dealt with next is the rushing into Shennong Ding at the last moment to seek refuge, from the three major universes of the various ethnic groups, the forces of the fleet and the star powers.

The eight lords of the domain and the dozens of star lords, as well as more than a hundred talents, naturally need to be taken care of!

But this matter, Ye Xuan is ready to put it aside.

In his view, the first thing to deal with is the warships and fortresses and fortresses of more than five million in various ethnic groups.

The countless star powers in these warships are not in charge for the time being, but all kinds of warships must first be vacated and then removed from the volcanic plains of the central domain!

At the moment, the central volcanic plains of the central area are still parked with large warships, fortresses and fortresses. All of them were last in the Devil's Star Field, and they were full of five million!

If you add more than five million ships that are currently banned from the bottom of the volcano in the central area, the total number of warships, fortresses and fortresses that Ye Xuan has in his hands will reach more than 10 million.

After such a huge fleet is sent to the Arc de Triomphe, a large-scale production line of intelligent robots will be built to fully produce robot soldiers. At that time, the Arc de Triomphe will gather in a short period of time to allow any top forces and ethnic groups to The starry battleship army that does not pay attention!

Therefore, the following five million warships in the bottom of the volcano in the central volcano, Ye Xuan must get it!

He was very anxious about this matter, too much. For this reason, Ye Xuan even decided to put aside the millions of indigenous beasts led by Taikoo Porcupine and Taikoo tortoise.

At present, these millions of indigenous beasts are also in the bottom plain of the central volcano, but they are not individually detained. After all, Ye Xuan did not take these indigenous beasts as prisoners.

He deliberately separated the vast plains of the bottom plains of the central volcano, accommodating the indigenous beasts. In the vast volcanic plains, millions of indigenous beasts were completely free to move.

It's just that there's no way to get outside the volcano, and it's not going to meet with the powerful people who are being held in other areas.

He plans to solve a few important things, and then meet with the Taikoo Porcupine and the Taikoo tortoise, explaining everything before, including the truth of the furnace.

In a word, in the eyes of Ye Xuan, these indigenous beasts are friends and non-enemy, need to be treated properly!

.....

The bottom plain of the central volcano!

The whole Shennong Ding looks like a superstar from the outside, and the interior space is more spacious. I dare not say that it is like a small star field, but it is definitely several times the inner space of the super planet.

The central volcano, which occupies one-third of the space inside the Ding.

This is just a look at the surface of the interior space.

In fact, the terrain of the circular volcano is completely round-shaped, and the crater is so large. The more downward, the larger the space, the lower plain of the bottom of the volcano. The vast extent has been completely speechless.

Five million warships have been shackled here, just occupying a small corner!

As for the eight domain owners and dozens of star owners, and more than a hundred Qiankun powers, they were all held in separate cages in the crater of the bottom of the volcano.

This is the corner of the five million warships. It is basically just enough for all the warships to land. Even the height is limited by Ye Xuan. The space is very strong and the height is more than 100,000 meters in diameter. Slightly higher.

To be more intuitive, it is all about putting more than five million ships of all kinds, all in a box that can hold them.

In this case, all the warships will not take off in a vacant flight. If you are not careful, you will have to hit it!

Faced with this situation, countless star powers in the warships have already begun to marry their mothers. They entered Shennong Ding to take refuge, not to be prisoners, but the situation at the

moment is stronger than people, and they are unhappy and useless. Everyone has been tempered by the means of the fox.

It was also at this time that Ye Xuan's voice suddenly appeared out of thin air and rang through the entire area...

Chapter 3774: One bloodletting

"You friends, brothers and sisters, uncles and grandfathers... this is the Lord!"

Cold and unpretentious, Ye Xuan clearly with a voice of ridicule, suddenly appeared without warning: "Small for a long time no see, this little master wants to die everyone, you can think about this lesser master?"

"puff!"

"puff....."

Ye Xuan's words just fell, and the plains at the bottom of the volcano sounded a large squeaky noise. More than half of the star-studded powerhouses were all mad at the old blood, including nearly 200 of them who were deliberately detained independently. Existence, but also can not be exempt.

It is too irritating!

Say good refuge?

Say good hand-in-hand?

This face is almost faster than the book, it is almost incomparable. All the people, including the eight domain owners, are directly into prisoners when they come in. Think of it as tears!

Others did not dare to pick up Ye Xuan's words, including the dozens of star lords, but the eight lords who were full of anger and anger, but the first time they heard Ye Xuan's words, Repeatedly...

"Ling Hu Xiaoyou, you can be considered..."

"The playing is yes, the little friend has a lot of things at hand, I don't bother to bother, but now that it is coming, should it be busy?"

"Since it is over, is it necessary to move the old man a few places?"

"Yeah, the situation was urgent. The old man came in from the Dingkou of Yao Ding. The fog was too strong, and he didn't see the land. He didn't think about it. He came to the cave at one end..."

"The space is too ruthless, and the little friend hastened to take the old man out."

"It is said that the interior space of this Shennong Ding is a bird's-eye flower, green mountains and green waters, the old man suddenly came to the interest, want to cook with Xiaoyou, and there are many treasures to give!"

"Yes, the old man also has some heavy treasures in his hands. He has never found a gift from a singer. Today, I am fortunate to have a small friend of the foxes. The treasures in the storage ring are shining one after another. This is a treasure and a spirit, encountering the auspicious lord of the Ming!"

"Oh, these are not in a hurry, wait until the little friend takes me out, cook the wine together, and then take a closer look. What do you say about Xiaoyou?"

"not so good!"

The last person's words were just finished. Ye Xuan even changed his tone, and his tone changed. He said: "Hey, are you still thinking about going out? Is it true that the Lord is not good?"

"If you say that you have to pay the fees, after all, in this case, the young masters, regardless of their own safety, will be brave enough to cough, how much will have to take some benefits to comfort them?"

"The result? Now there are more than five million warships in Shennong Ding. How many people in each warship, you calculate..."

"The space box that this little master received is not even a thousand. Is this proportional? It's okay to fish in the water, but you can't do so much. It's just to treat this young master as a big man!"

"This matter must be liquidated. The Lord decided to make a roster of all the people first, and then check them one by one. After determining the owner of the nearly small space box at hand, the others will count the general ledger together..."

"Come and come, there are too many people, and most of them are in the battleship. This is not anxious. You can tell everyone a good news. The good fortune of Toben, you are now safe. This young master has already taken Shennong Ding. Leaving the source of the evil."

"In general, the crisis has been lifted. Whether it is the Lord or the Lord, you have a lot of time to slowly sort out this matter..."

"There are too many people, and most of them are in warships. This is really inconvenient. Now, listening to the unified command of the Lord, all the people are coming out of the warships. The warships are all moved out and said!"

"Remind a word, don't want to hide the breath hidden in the battleship. With this method of confusing, you will be sent out by the Lord. This young master can clearly tell you that Shennong Ding is now in a large place. The void of the turbulent flow cracks the edge."

"All the warships that have been removed, the Lord and the Lord are all directly thrown into the cracks in the emptiness of the vacant stream. They have already tried several waters of a 100,000-meter-diameter fortress. They are thrown in, instantly disintegrated, and then fried. Open... If anyone thinks that the flesh can resist this level of emptiness, even if it is hidden!"

"Okay, now it's time to start. After five minutes, the young master will spur Shennong Ding and throw all the various warships out of the way. It's not waiting..."

"Oh la la..."

Ye Xuan's last sentence was just finished, and the bottom plain of the bottom of the volcano in the central domain made it easy for the first time to come up with a dense door opening.

More than five million warships, fortresses and fortresses, all without exception, all open the doors.

Just kidding, the time is only five minutes, no one wants to slow down for a second, and finally was thrown into the void with the battleship.

Going to that kind of place, even if it can resist the flesh does not collapse, then there is no way to find the path of return, which is equivalent to being exiled forever, no one wants to try.

In addition, don't think that people are talking about fun, and the means of making the fox and the lord less singular has already been heard inside and outside. The Taikoo konjac is even more fierce, and the record of the three identities in the past or the case is, who Still dare to gamble with him about the authenticity of those words?

This guy is a mixed king, the domain lord is being captured by him. What else can he not do?

With this in mind, more than five million fighters in the three major warships, almost like the mourning dogs, rushed out from inside the battleship, in the blink of an eye, in this area The warships were over the sky, and they were all crowded. At first glance, at least 100 million.

After all, there are more than five million warships in various warships. There are many strong fighters in each warship. Even if some of the positions are intelligent robots, the starbursts in all warships will not. Less than 100 million.

Lian Yexuan, who was in the process of sneak peek, was speechless. It was about three minutes before and after. More than five million warships were completely empty. As for the intelligent robots, naturally, no one would pay attention to them.

With the power of Shennong Ding, all the warships were scanned again. After confirming that none of them were left behind, Ye Xuan even moved all the warships out of the volcanic bottom plain and moved to the crater around the crater. .

Although this is a big project, Shennong Ding has been completely refining by Ye Xuan. With the help of Ding's own internal domain power, Ye Xuan can do it easily.

At this point, no one warship was stranded in the vast area of the whole area. Looking at it, it was all the strong people of all ethnic groups.

"Well, all the warships have all been moved out. Look, how good it is, the vision is wide!"

"Now let's talk about business, then, this is mainly a bloodletting... Hey, wrong, it's a roster of flowers..."

All starry powers imprisoned in the bottom plain: "*#...¥"

Chapter 3775: Juniors are not sensible

One sentence of bloodletting, instantly exposed Ye Xuan's mind.

In fact, he completely deliberately said this, that is, let the guys have a number in their hearts, so come to extortion, don't want to hold any luck, people are under the roof, the situation is stronger than people... , still have to recognize!

Realizing this, hundreds of millions of star-studded powerhouses in this area suddenly became depressed, but no one dared to scream, and they could only secretly swear.

That's the case for dozens of star owners.

Only eight of the domain owners were sulking and shaving their eyes. All eight of them had paid the fees. At that time, the situation was urgent, so they all tried to be sloppy and did not dare to be stingy.

However, at the end of the day, because other people did not pay for the trip, and let the young master of the foxes catch the handle, they just detained eight of them.

However, this matter is still the main reason for the fox, and the eight old monsters are arguing that there is no way to argue on this matter.

Under the sorrow, the eight lords of the domain lord had a sinister smoldering fire, and all of them were scattered to other people present...

"You are a group of bastards, lard is blinded? The old man's eight-person hall, the main territory, all without paying the fees, but you dare to touch the water, do not think that the means are better than the old man and others Not amazing?"

"The old man is mad, and the lord of the foxes is not in danger at this critical moment. If you are brave enough, you will be touched by the fees. The faces of all the ethnic groups are all thrown away by you."

"It's a shame! If it's a shame, if the matter is spread out, the old man's name must be destroyed by your hands!"

"Confused! For the sake of a little outside, I made such a big mistake. This is how the old man raised his head in front of Linghu's friends..."

.....

One reprimanded, all the star-studded powerhouses in this area were all shrunk around the neck, and the eight old guys got a little relieved and stunned for a while, thinking that this play also played. Almost, and then all turned to look above the volcanic bottom plain.

Because Ye Xuan did not show up, the voice was passed down from above. A bunch of old guys were unhappy, but there was no way. They could only look up and raise their faces and make a round of laughter...

"Little friend, you also saw it. This is really just a misunderstanding. If you open it, it will be fine!"

"The performance is true. The situation at the time was too urgent. It was understandable to ignore the fact that it was not included in the trip."

"Replenish! This must be done, and the matter will be handed over to the old man!"

"To the right, it's all the juniors of all ethnic groups. With the talents of the younger friends, it's the existence of a few people who talked with the old man. You will care about these young people who are not sensible..."

"I don't know how to be a junior? Hey, joke! You guys, old guys, this is also trying to make this little master fool a meal before you are comfortable?"

Did not wait for the eight old guys to open their mouths, Ye Xuan's voice passed directly, interrupted their words, and sneered: "You're surrounded by yourself, and there's nearly two hundred in the universe. The number of fees received by the young master is not even one hundred..."

"What does this mean? Even at least half of the great powers of the Qiankun and the lords of the stars have not paid the fees. Are they all unskilled juniors? This is simply insulting the IQ of this young master!" "

As soon as I heard this, the eight lords of the domain were not screaming, and all of them were looking at each other with their mouths open, and their necks were thick.

The nearly two hundred star lords and Qiankun powers around, there are some silent sighs, some are flushed, needless to say, all blushing before they want to fish in the water, there is no plan to pay anything. Guy.

Although it has been successfully mixed in, it has now been caught in the current situation. Compared with the hundreds of millions of powerful people who have also paid the fees, they are the great powers and the stars. It is too conspicuous, and now I am mentioned by Ye Xuan, it is no different from being smashed on the fire!

Dignified and powerful, and many of the stars, many of them were so embarrassed and nervous that even the cold sweat of their foreheads came out.

No way, the eight old lords next to them are staring at them biting their teeth!

This is clearly to catch a come out as a ghost, so that the rhythm of the singer and the singer.

Thinking of this possibility, the nearly 100 people who didn't pay the fees and the stars and the lords, all of them suddenly had a cold back, and several guys were licking their legs...

"Is it finished?"

Looking at the eight empty domain lords, shaking their heads and sighing, and heartache, Ye Xuan sneered, and the voice of the voice came again: "Since a few are willing to take big bags, put other people, etc., including The Qiang Kunda and the Star Lords are all said to be juniors who are not sensible. The younger ones can't help but give you a face. So, the things that have been swayed by the Lord have been counted..."

"However, now that the Lord has taken all of you out of the source of the evil, this is a question of the cost of the trip... Should the supplement be added?"

"Oh, yes, after we left the source of the evil, the things that happened inside, the Lord thought, it is necessary to explain to you first."

Regarding all of this, before entering the Shennong Ding, Ye Xuan had deliberately walked out of the black hole of life and received the nearby star network, and had some understanding.

Coupled with his own understanding of the source of the evil, at this moment, the natural head is: "It is now certain that the star of the earth in the core hinterland of the evil source is the name of the star. The furnace is a giant starry refining system..."

"The giant blue eye that appeared later in the core hinterland is related to some kind of heavenly law, and it is suspected to be a heavenly eye!"

"That is the heavenly eye, it represents the prestige of heaven. If there is much horror, there is no need for the Lord to talk more. I will tell you about the battlefields and the strong stars who have not escaped. You will know." "

"The whole source of the evil and the evil, except for a small number of warships and star powers that were very close to the outer area, all other warships and star powers, including millions of indigenous beasts, They were all inhaled into the furnace, and they were mixed into a meat slurry by a huge grinding disc and mixed together."

"Including, even the indigenous beasts of the two worlds that were born at the last minute, one is the devil and the other, the other is the Taikoo Thunder!"

"This is the supreme beast that was cultivated in the two worlds. As a result, in the hands of the heavenly eye, no one resisted and was directly killed. You can think about it. If it wasn't for the Lord, you would close it. In Shennong Ding, the words of the star field are brought out by secret law..."

"Hey, other people don't have to mention the Lord. Anyway, the eight lords who have just talked to this little master must be unable to survive!"

Chapter 3776: Stay in the green hills

"What? In the depths of the core hinterland, there are two lords in the end?"

"A wind demon tiger, a Taikoo Thunder! God, this can be the same as that of the Taikoo Porcupine and the Taikoo tortoise. It is an extremely rare ancient beast. It is very different and difficult to deal with!"

"I didn't expect that I couldn't even have the ability to take a trick in the hands of that huge green eye. What level of existence does the latter exist? I can't imagine it!"

"Too horror! I have never heard of such a strong existence. Even the lords of the world are a one-shot spike, and they are still one-on-two!"

"The furnace? The void is refining and smashing? Who is this all? In the end, the heavens and the blue eye must be it. The truth is so amazing. This time, the top three forces and ethnic groups in the three major planes have fallen at least. Ten million warships and countless star powers were all put into the furnace and crushed into mixed meat..."

"What is this to refine? What is the source of all evil? It is evil enough. If you know it before, killing the old man will never mix it, and it will almost fall there..."

.....

Ye Xuan's words obviously frightened all the star-studded powerhouses in this area, including the hundreds of Qiankun and the dozens of stars, and all of them changed color at the moment, and they were shocked. call.

It is the eight-domestic lord who is headed by hollowing out. At this moment, his face is also faintly green.

They had already guessed that the depth of the core of the evil roots must have the existence of the indigenous beasts in the realm of the border, but originally thought that there was only one person. After all, the lords of the world were no stranger than the domain owners. It is in any of the three major cosmic planes, all of which belong to the phoenix scales.

But now, when I listen to Ye Xuan's words, they know that among the indigenous beastly groups in the core hinterland of the evil, there are two surviving beasts in the realm of the border, and this is the guarantee.

After all, in front of this, the fox lord was able to walk in the star field as the Taikoo konjac, and his status was like the prince of the indigenous beast.

Even the indigenous beasts of the two kingdoms of the Taikoo Porcupine and the Taikoo tortoise were careful in front of him.

In order to do this, there must be a support from the Lord of the Lords behind the Lord of the Fox, otherwise it is absolutely impossible to achieve.

Although it has been confirmed that the identity of his Taikoo konjac is false, it should be just a kind of **** magical power, but the lord behind it is no way to falsify.

In his own way, even the hundreds of millions of great ethnic groups and more than five million warships and fortresses and fortresses have been brought out from the source of the evil. How can the lord of the lord be left in the source of the evil?

What's more, when the short-selling and other people were handed over to the Ding Fei, and then rushed into Shennong Ding, they clearly saw a large number of indigenous beasts also entered the interior space of this tripod.

The domain lords of the two indigenous beasts of the Taikoo Porcupine and the Taikoo tortoise have already entered before they.

But now that this piece of underground space is not known where it is located in the Ding, it only sees the star power of the major forces and ethnic groups, and an indigenous beast has not seen it...

If there are no accidents, all the indigenous beasts should be leisurely in the ground of the Dingnai space, including the domain lords of the two indigenous beasts of the Taikoo Porcupine and the Taikoo tortoise.

Even the lord of the Lord who is behind the Lord of the Fox, there are nine out of ten!

Thinking of this possibility, the short-selling people suddenly felt that the cold hair of the back was all upright, and the surface of the Ding inside the top of the sky was half-day, and there was a powerful army of indigenous beasts in the eye.

The high-end combat power that has been determined includes at least two domain lords and a master lord. How can this be played?

Don't look at the crowds of the various ethnic groups gathered here. As long as people dispatch these three high-end combat forces, they will be able to easily suppress them!

It is no wonder that this kid dared to run alone and bleed a few hundred million of all the powerful people. The people are completely fearless!

In an instant, there is a strong sense of life and death, and the hearts of eight lords and other strangers have risen from the hollow.

They thought that they had escaped from the source of the evil, and they were already safe. Even if they are now trapped in this Shennong Ding, they are trapped at most, so that the fox's cultivation is the strength, except for the use of this tripod. Power can trap them, is there any ability to kill the domain lords?

But now it seems that this is not the case at all!

It's no wonder that people just dare to say something about bloodletting. There is also a top-ranking indigenous beast in the head of the world. It's really ridiculous, even if they are the eight lords, the blood of the body has to be Put it clean!

In a word, this guy is a mixed king, can not be provoked.

I still hurry to feed him, so that he feels that there is no use value in deducting people here, and naturally it will be released.

Although the cost is not small, it is estimated that with the cultivation resources and some treasures that are not completely thrown clean, most of the other parties will not let go easily, but these things are more precious, how can they compare with their own lives?

Fortunately, the strongest star of the sky above the mighty power, the most important magic weapon is inseparable from itself and cannot be seized. Otherwise, once it is self-destructive under desperation, the life of the treasure will also be cracked, and it is impossible to grab it.

Therefore, even if all other portable resources and treasures are thrown out, the most important life is absolutely preserved.

This is precisely the bottom line of eight old domain lords.

As long as they can take their own destiny to leave this **** Shennong Ding, everything else, they don't care... Stay in the green hills, not afraid of no firewood!

All of this is long-lived, but in a short amount of interest, it flashed through the minds of several old guys.

Eight old domain lords turned their heads and looked at each other, exchanged a look at each other, and soon reached a consensus on the matter, and then they sank, and hundreds of millions of strong people who were still stupid around were roaring.

"What are you still doing? People can't understand people's words? People's foxes and lords have recreation for you, is there no intention to express?"

"A group of white-eyed wolves! What is the danger in the depths of the core of the evil roots? Even the old lords of the world have fallen two, and you can still live here to breathe, all of them are foxes and lords." Gift, this is the blessing of life, how to repay is not excessive..."

"You guys are still stupid, right? Well, the old man taught you how to be a person today! All the people immediately took out all the resources and magic weapons that they carried out, except for the magic weapon." Who would dare to leave more than one, the old man found out for a while, and pinched him!"

"Immediately! Immediately! Hey... mad at the old man!"

Chapter 3777: Devil, this is

what?

In addition to the magic of the life, all the other cultivation resources and magic weapons that are with you... all come out?

After listening to this, hundreds of millions of powerful people from all over the world suddenly blew up the pot!

It's a good idea to pay for it. After all, people are under the eaves. It's not interesting. It's estimated that they can't leave safely. The shameless reputation of the fox and the sorrowful geese is there, and now it's falling on him. On the hand, I can't think of some blood, which is obviously impossible.

Including his other identity, the Taikoo Little Konjac, is the same fierceness.

If you don't pay for it, it is estimated that he can do anything in his anger, and directly eat it in public, it is very likely!

Even so, wouldn't it be all the resources and treasures of the body other than the magic weapon?

Is this the result of the incorporation of fees, or robbery?

I am afraid that robbery may not be so clean...

What's more, the number of strong people of all ethnic groups who have entered Shennong Ding now is more than 100 million. Isn't there a saying that the law is not responsible?

If the fox is less murderous, is it still necessary to prepare a person to rob more than 100 million people?

So blatantly and the three major planes are close to all the top forces and ethnic groups, he is not tired of living... Well, this is not established, and all the top forces of the three major planes are enemies, people have not been before I have done it, and it has been more than one time!

However, if you really hand over all the resources and treasures you have with you, you are not willing to be...

As these thoughts flashed in my mind, more than 100 million strong people from all walks of life suddenly stunned, and their faces showed hesitant colors. Although they also had movements in their hands, they were all slowly. The thief eyed around and observed the reaction of others.

I want to follow the crowd, I can drag it, I can perfuse the past, then it is best!

"A group of things that don't know how to live and die are all this time, still dying..."

Seeing that all the guys were deliberately honed, the grotesque grotesque of the eight domain lords smirked, and then waved a space box to a space in front of them: "In addition to refining All the resources and treasures that the old man carries with him are all here for the warriors, trenches and personal private warships of the Ming Fabao!"

"It doesn't matter if you don't want to be jealous. After three minutes, the old man will thoroughly investigate. In addition to these three basic treasures, anyone dares to leave other resources and treasures on his body. The old man will never renege on his face and shoot him on the spot!"

He is really mad!

If these guys don't pay the fees, they will come in with the fish. Then, how can the fox lord hold the matter and use it as a handle?

Even if he is ferocious and greedy, at most he will find other excuses, and then extort some resources and treasures. Why, like this, except for the three basic treasures, all other resources and treasures have to suffer. Hand over?

They who have become the domain lords have decided to fight their teeth and swallow their blood. The guys who don't know how to live, haven't seen the situation and deliberately dragged on.

You must know that the temperament of the fox lord is that the moodiness is unpredictable and unpredictable. In case of anger, the idea is changed, and the lord of the lord who is watching the top is ready to shoot. .

Not only will all the treasures still be people's, but they will have to put their little ones out. It is really going to end in such an end, what makes people feel so good!

"boom!"

The hand of the hollow old ghost had just been recovered, and a squeaking sound was heard again in the open space in front of it. The lord of the giant tyrant also threw a space box, which was gloomy and terrifying.

Staring at the more than 100 million strong people of all ethnic groups around, the brilliance of the singer is fascinating.

Although I didn't speak, this attitude is enough to explain the problem.

Obviously, his meaning is the same as that of the old ghosts. As a domain lord, he has already taken the lead in handing over the resources and treasures of his possessions. If there are ants and cultivators who want to get away with it, then... I am afraid that it will be light on the spot!

"boom!"

"Hey..."

Following the giant tyrants of the giant tyrants, the other six lords also expressed their attitudes with actions, and each threw a space box.

Although there was no snoring, the look on his face was a fierce one. After throwing away the space box in his hand, he turned his head and began to look around.

The hollowing out old monster is reminding him at the right moment: "The timing starts, three minutes later, the old man eight shots together!"

"thump!"

Looking at the eight space boxes lying quietly in front of the open space, not far from a star lord, I finally tasted it.

Can the eight-domain lord of the squad and so on be so flustered to smash the treasures of the body, in addition to the threat of the lord of the landlord, what else?

Reminiscent of the demeanor of the savage beasts in front of the savage beasts, how could there be no lord behind him?

People even brought out these irrelevant people, and stood behind them to shelter his lord of the landlord. How could they not enter Shennong Ding together and bring out the source of evil?

At this moment, he finally understood why these old monsters had such a weird move. The Shennong Dinglu table above the top of the sky, at this moment, there is a lord of the world.

Short-selling and other eight-owner lords, this is an active statement, handing over all the treasures that are with you, only to be able to leave this place alive.

Losing them, they are still not open, and they are hard-pressed here. It may be that they are already dissatisfied with the superb beasts who are watching at the top of the head!

It was because of this that the star lord had a soft leg, and his body was inadvertently. He was sitting on the ground directly, which was completely scary!

Without waiting for him to get up, a space box was thrown out in a panic and landed in the open space ahead.

Then there was a series of buzzing sounds, dozens of other star owners, and more than a hundred talents, and all of them have come back.

Naturally, all of them were scared to squat, and while they took out the space box and threw it into the open space in front of them, they simply couldn't wait to raise their hands and give themselves a few big ears.

In the blink of an eye, there are more than two hundred space boxes on the open space in front of them. The piles are like hills. There is no doubt that every space box must contain astounding cultivation resources and various treasures. .

After all, this can all be taken from the hands of Qiankun, the star lord and the domain owner, and all the furniture is installed!

Looking at this hill bag that was piled up in a small box of space, the hundreds of millions of powerful people around the world were all dumbfounded, and each one was open and the whole person was awkward.

These old guys... come true?

Chapter 3778: Out of charge

Even Qiang Kun, the star lord and the domain lord, all of them have been thrown out with the space box of resources and treasures, and there are more than 100 million three-dimensional strong people around the world. Dare to temper again, all the way in succession!

Some of these guys are finally aware that the problem is wrong and seems to be realized. This is the case.

However, there are also some people who still have unbearable and distressed colors on their faces, but they are not daring to swear by the pressure of the eight lords of the domain owners. For the sake of their small lives, they all throw their space boxes. .

A total of more than 100 million star-strongers of all ethnic groups and forces have been cultivated as strong and weak, from the three major cosmic planes, but at the moment, under the deterrent of the eight lords, all without exception, all thrown out A small box of space.

It is not excluded that there are some guys who want to fish in troubled waters, not all the resources and treasures in the space box, but for this, Ye Xuan is obviously not likely to be on the mind.

Don't care at all!

Even if there is privacy, how much can it be hidden? How much dare to hide?

In the blink of an eye, on the open space in front of the eight-dimensional domain lord, there is a big mountain. This is not a hill, it is a real mountain.

It is made up of different materials and different shapes, but basically it is a mountain consisting of a small box of space.... No, this is clearly a Baoshan. In each space box, there are a lot of cultivation resources and treasures. !

If all of them are taken out and dumped to the ground, these cultivation resources and various treasures are expected to accumulate a whole huge mountain range!

For Ye Xuan, this is definitely the biggest cultivation resource and treasure he has ever gained since he entered the starry environment.

Even in the old prison cage space that was connected to the valley of the Forbidden City in the inner city of the Devil, the vast amount of money that was obtained from the mysterious corpse was not as great as the resources obtained this time.

Of course, at that time, Ye Xuan received 108 pieces of Jiu Jin Jin Jing, each of which contained a blood heritage from the ancient and supreme. The value of it is high and the meaning is significant. It may not be able to obtain it at this moment. This space is a small box of mountains.

Can only say the two, one is the basic cultivation resources, one is the high-end strategic reserve, the value is equal, but the meaning of Ye Xuan is totally different!

With the vast amount of resources obtained today, the development of the Arc de Triomphe will surely enter a stage of rapid development. I believe that in the near future, when the Triumph City will once

again be born, it will certainly be shocked in the three universes. All ethnic groups and forces are attracting worldwide attention!

"Oh la la..."

In the thought room, Ye Xuan urged the power of Shennong Ding, and removed all the mountains that were piled up in the space box, and moved into the immortal world!

At the same time, his voice of voice also sounded again at this moment: "Well, you are still very convinced of the sincerity of the Lord, so we will stop here. You are ready." Go back and find the right opportunity. The young master will immediately release you in batches, and never give up!"

"Isn't it, little friend, haven't all of this been filled?" And you just said it, this is the end of the story..."

As soon as I heard the words of Ye Xuan, a lot of great powers, star owners, and domain owners were all changed colors. The old ghosts were even more panicked and asked: "Since this matter has been closed, small You should immediately let us all go out, how can you wait?"

"In addition, find the right opportunity to put it in batches... is this swollen?"

The words of hollowing out the old blame represent the voices of all the other powerful people. Now all the cultivation resources and various treasures that have been carried out have been searched and cleaned, including Qiankun Power and Star Lords, and Domain Monsters. in this way.

This time, they once again learned the methods of exploitation of the young foxes. All the people thought and thought, they immediately left the ghost place.

Otherwise, if you wait for it again, it may be impossible to find out which body has been smashed on any day.

For this reason, the words of the hollowed out grotesque were exported, and all the strong people of all ethnic groups suddenly looked up and looked over at the top. The voice of the fox lord was passed from above. They had tried it before. Can't rush out with brute force, and now I can only look up and look up!

"It is indeed a completion of the payment. This matter has already been settled. You can rest assured that the young master has always spoken and counted, and he said that he will let you go out, and he will not renege on his words!"

Soon, the sound of Ye Xuan's fluttering voice was passed down. When it was halfway through, the strong people of the various ethnic groups who were imprisoned underneath had just put down the hanging heart. He immediately turned around and had a new saying. : "But why..."

"This is a paid fee, but the Shennong Ding of this young master is a private treasure. If you don't come casually, you can walk away, you can go, you can pay the first!"

"puff!"

"Puff puff....."

The voice just fell, the lower part of the central volcano on the bottom of the volcano, it sounded loudly and screaming, dense and dense like rain.

More than 100 million people, at this moment, more than half of them are all spraying old monsters, so the scene is really spectacular, it is estimated that there is no history!

It is too irritating, just finished collecting the fees, this is still waiting for him to release people, who wants to turn around and make a name for himself.

It is quite reasonable to say that this Shennong Ding is originally a private treasure of others, not an ordinary thing. Naturally, I don't want to come and just want to go.

Since there can be a fee for it, then there can be no more expenses for Mao.

Thinking of this, a lot of great powers and star owners, domain owners and geeks, without exception, one by one all green.

I have seen shameless, but shamelessly, I have never heard of it since the beginning of the world!

However, after such a noisy, hollowed out and other eight domain owners, but actually more determined the mind of the previous speculation.

If there is no such a superb beast behind the kid, sitting in the town of Shennong Ding, he is only the first level of the thirteenth level of the field to repair the strength, why dare to include eight domain owners, including If you are a billion-star star, do you want to do something like this?

As soon as I read this, I was already mad at the eight lords of the chest and the mountains, and suddenly I was completely smashed.

My heart secretly reminds me, be sure to be calm, don't be impulsive, impulsive is the devil, really want to provoke the lord of the Lord, the little life is definitely not guaranteed.

Besides, this Shennong Ding is not an ordinary wild treasure. Before that, they have all tried it. They can't force it out. Even if it is really impulsive, the final result will not help...

Chapter 3779: Third-order domain

"Ling Hu Xiaoyou, this is a very expensive thing... Are we talking about it?"

Since everyone has already opened the name of the trip, considering the current situation, the old ghosts do not dare to argue on this matter, it can only be self-deprecating or even self-seeking.

Enduring the indignation of his heart, he tried to talk to Ye Xuan in a near-pleasant tone: "You have seen the little friends just now, including the old man, and all of them, all the cultivation resources that they have with them. And the treasures have all come out."

"It just left the three treasures of the starry sky, which can basically be refining the cost of life, and can't be divided..."

"Moreover, it's just that the three treasures of the sky are used to pay for the small friends' fees. I'm afraid it's not enough, so..."

"So what the old man means is, how do we talk about this matter? First owe it, when the old man and others return to their respective ethnic groups, they will immediately make up, never give up!"

"I don't believe you, the key is the predecessor!"

Ye Xuan sighs, and the tone of his voice is helpless: "I don't know how far it is. It's just before the entrance fee. How many people didn't pay in and mixed in? The bottom low-level powerhouses below don't say it. Juniors, don't mention it, in your big nest, there are nearly two hundred in the power of the dragon and the star."

"There was only a hundred copies of the previous master's income, but the existence of Qiankun's power is still the same. The following juniors can be imagined."

"There is no need to talk about this matter. The younger master will contact your respective ethnic groups and let them bring out the expenses to redeem... No, it is picking up people!"

A redemption, completely exposed Ye Xuan's mind, hollowed out the old ghost completely desperate!

Not only him, but the other seven domain lords, the expressions on the face are basically the same, full of anger and grievances.

As for other star owners and great powers, as well as hundreds of millions of powerful people of all ethnic groups, let alone all of them can't, many people have already raised their hands to the chest, and they are afraid of Be careful to squirt an old blood.

It's so special!

What is a criminal record? What is a big nest? This kid's mouth must have been smeared with poison. If you come out, the word and sentence will be like a knife. It's too hearty!

For a time, the corner of the bottom plain of the volcano of the central domain, completely plunged into death, a despair of anger and despair, quickly burying, but dead and incomparable, no one snoring.

The hundreds of millions of people in the four major planes are surrounded by more than two hundred talents, star owners and domain owners. The people are not snoring, they are not snoring. Part of it.

Otherwise, whoever takes the lead at this level, fears that it will be immediately regarded as a bird, and venting anger is usually made on the spot.

As for the more than two hundred

At this time, maybe people are looking forward to jumping out of a **** that is not afraid of death. It's just like smashing it on the spot, killing chickens and chickens, killing one hundred!

Under the minds, on the bottom plain of the volcanoes of the central domain, hundreds of millions of powerful people from all walks of life, look at me, I look at you, all of them are dumbfounded, and the whole brain is broken into pieces, all completely gone. idea.....

.....

Ye Xuan did not pay attention to these guys. After he finished, he took his consciousness back from the bottom plain of the central volcano.

Whether it is a warship, or the cultivation resources and treasures that these guys carry with them, they have all been exploited cleanly, and they can't force themselves out of the cage with brute force, so there is no need to pay attention to it.

He made an inventory of the harvest in the first place.

Don't say, there are a lot of good things.

In terms of cultivation resources, some special mineral deposits, natural treasures, and various special crystals have been obtained, and many of them have no Ye Xuan. There are many stars and treasures. After all, the mineral deposits and crystals in this world. In the same way, the probability of giving birth to the star to the treasure level is much larger than all the artificial magic weapons.

Ye Xuan divides these cultivation resources into two parts. One is the top thing. He is kept in the immortal world with a storage magic weapon. This is the self-reserved material he prepared for himself. Maybe he will be able to do it later. Use it.

The other one is for the Arc de Triomphe, which accounts for more than 95% of all cultivation resources. There are also some good things, but Ye Xuan is now invisible.

Besides, the Arc de Triomphe also has its own powerful people, and they also need these things.

As for the magic weapon, although there are stars and treasures, and the ancient treasures, but the number is not much, and they are all general goods, no one can compete with the ancient heritage tower, Shennong Ding, Lei Di printing, otherwise, regardless of its original Who is the owner, afraid that it will not be easy to surrender if he is dying.

These various magic weapons, Ye Xuan is also divided into two, most of them are ready to be handed over to the Arc de Triomphe, but that is the only team he has left, which is much more important than the cultivator of the Devils. How can this be developed? Not heavily invested?

All the magic weapons, Ye Xuan only left more than a dozen pieces of the star of the ordinary quality of the treasure to the treasure and the ancient treasures, the rest are basically not able to enter his eyes, the natural bones are all packaged for the Arc de Triomphe.

However, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru's three gimmicks still need to continue to refine the refining. Ye Xuan deliberately selected some of the top treasures of the same type from these treasures, and decided to start to melt immediately.

In addition, Ye Xuan also prepared for the treasures and cultivation resources of the 22nd Second Universe and other geniuses such as Jinghong and Jiaori.

They are housed in twenty-two space boxes.

This group of resources Ye Xuan picks all the things that are not very iconic and do not look so eye-catching, whether it is cultivation resources or various magic weapons.

Otherwise, once they are taken out of use, if the relationship between them and Ye Xuan is exposed, then it is not good.

After the twenty-two space boxes, Ye Xuan, after preparing for the first time, took control of Shennong Ding's internal domain power and sent it directly to the cage of the mountain wall.

I believe that with the help of these resources, the twenty-two guys, who are shocked and stunned, are returning to their respective ethnic groups. As long as they work hard, they will soon show up again, one day, The ethnic groups behind them will be in their hands.

After doing all this, Ye Xuan even opened a temporary cave house on a hill in the far side of the volcano in the central area. He decided to first smelt the treasures of the three skulls of Xuanyuan Zijing to the starry sky to the treasure. Then, try Shock and repair as a realm, see if you can break through to the third stage of the domain start...

Chapter 3780: Domineering return

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the second stage of the domain!"

"Hey, congratulations to the host, the physical state of the flesh and blood is improved! The current realm: the domain begins with three orders!"

With Ye Xuan open his eyes, his mind immediately heard a familiar system prompt, and finally broke through again, and this time is still the two consecutive breaks in anticipation.

Originally, after the flesh and blood of the flesh was in his thirteenth world, it would be very difficult to achieve this kind of two consecutive Jin. The road to spiritual practice is getting behind, and the breakthrough of a small step is the more difficult.

But this time, before the retreat impacted the bottleneck of the flesh and blood, Ye Xuan used a kind of heavenly treasure that had never been used before. This was obtained from the resources that the empty ghost paid.

The universe is vast and innocent. It has a variety of special properties and treasures, and many of them have unique quenching effects. This kind of thing is always very significant when used for the first time. Effect.

This time, Ye Xuan used a congenital lotion that had not been used before, and added a drop of the evil source liquid to consolidate the effect, which directly made the body and blood of the body break through two small steps, which is also expected.

Nowadays, after the physical and physiology of the flesh and blood reaches the third stage of the thirteenth world, Ye Xuan's demand for the fourteenth grade liquid becomes even more urgent.

When the ninth order of the beginning of the domain is completed, if there is no supply of the fourteenth grade liquid, then his physical body and blood will also fall into an embarrassing situation.

The beginning of the third-order distance domain begins with the ninth-order grand perfection. There are only six small-order breakthroughs. Even if there is only one small-order breakthrough at a time, it only needs to be closed six times.

This made Ye Xuan feel a very urgent pressure. He planned to start the refining of the fourteenth grade liquid and the fifteenth grade liquid immediately after sweeping the event of this evil source.

As for the subsequent sixteen-level liquid, once it is taken, the body is tempered successfully, and it will be promoted to the star lord by Qiankun. According to Ye Xuan's estimation, this 16-level liquid may no longer be like the previous one. Levels 1 to 15 are generally available in this general drug configuration.

If there is no accident, starting from the 16th grade liquid, most of them will need to use Shennong Ding to refine the world like a large medicine.

Shennong Ding was originally used to refine this kind of heaven and earth medicine, but in this field, after Ye Xuan entered the starry environment, there was not much contact.

Therefore, even if the fourteen-level liquid and the fifteen-level liquid are configured successfully in the near future, the pressure that Ye Xuan will face is still not small.

After all, the subsequent sixteen-level liquid suddenly changed from the conventional drug preparation to the heavy-duty practice. On the surface, it seems to be just a change in the way of training, but the various aspects involved are actually very complicated. I want to get started in a short time, and Ye Xuan needs to do a lot of hard work.

However, it was after the successful configuration of the fourteen-level liquid and the fifteen-level liquid. Fortunately, the various natural materials needed for the two kinds of genetic culture fluids, Ye Xuan's hands have already been collected, and then formulated. And then add a drop of allergy source, basically there is no possibility of failure.

Thinking of this, his mind was slightly fixed, shaking his head and laughing a few times, temporarily throwing this matter behind his head, and waved away the ban on the closed-door Dongfu. When the sound was heard, Xuanyuan Zijing and Duanmu Xiaocha and Zhao Qianru hurriedly hurried. Send their respective treasures.

After the previous few smelters, the three treasures of the gimmicks are now all rare star-studded epic treasures, not only the appearance of the smashing, but also the defensive ability has increased too much, even Also like Ye Xuan's immortal glass, it has a variety of additional attributes.

It even includes attack capabilities.

A defensive treasure, capable of attacking at the same time, is definitely a horrible attribute that is speechless.

The three gimmicks can now be said to be in love with each other. After Ye Xuan completed the last smelt and temporarily surrendered the treasures, they cheered and ran away, sacrificed the treasures, and played against each other to feel the treasures. The power has gone.

At the moment, I heard Ye Xuan's call, and suddenly realized what, and Qi Qi cheered, and almost like the three rabbits, the first time I slammed into it.

"How? Are the other things on hand busy? Are you going to help us continue to melt the treasures?"

"What are you waiting for? Sisters, undressing..."

"Oh, yeah, what are you talking about? It's really not blocked. Whatever is coming out of your mouth is not a formal!"

At this moment, the three treasures are still all equipped with three hoes. If you want to continue to melt, you naturally need to take off, but this is a treasure, but it is not an ordinary dress. Disarming, Duanmu Xiaocha, this crazy girl, but out of the disguise.

Suddenly, Xuan Xuan and Zhao Qianru screamed and screamed, and shyly squinted at the end of the small wooden tea chase, so it was a lot of trouble.

"I said three big sisters, are your treasures still refining?"

Ye Xuan was speechless, touched his nose, and turned his eyes: "There are more things in the hands of the Lord. If you don't practice, I can go out first."

"Refining, who can't say it?"

"Sister Zi Zi, he urged to undress!"

"Oh, dead girl, you still said..."

The three hoes are chasing again...

"Ugh!"

Ye Xuan sighed and sighed, raising his hand and paying for it. For these three gimmicks, he was completely untreated.

Fortunately, the three gimmicks are noisy, but they are not temperate. After a lot of tossing, the three sleek treasures quickly flew over to Ye Xuan's retreat.

When Ye Xuangang received the hand, there was a voice from Duanmu Xiaocha with a sly voice: "This is what we just took off from the body. With body temperature and body fragrance, if you don't need to be eager, You can play it first, I will help you with the wind, and will not let the sister-in-law of Ziyan see them!"

"Oh, you are getting more and more tangible, and you don't know how to be ashamed?"

"Purple, this time can not let her go, buttocks have to be swollen, too dare to scream, actually in front of our face to say so shameful words!"

"Oh, help, someone is upset and angry..."

Outside the Dongfu, there were three voices of gimmicks and screams coming from time to time. From time to time, there was a scream, and the three treasures still holding the body temperature and the fragrance were held in the hands. Let Ye Xuan's heart sway, and there is some faintness.

After a short while, he shook his head and smiled, and did not dare to toss with these three gimmicks. He quickly waved the activation of the Dongfu entrance, and then took out a few treasures that had been selected before, and at the same time, launched the three treasures. Once again, melting.

Had to end this all the time, Ye Xuan could not wait to want to go back to the domineering...
