Chapter 378: Join hands

The presence of large forces, in addition to Xie, also the other two sects ownership of fifty dragon force master, the other, are only forty dragon only.

And a chilly mantis adult about forty Wulong power, fast, in this case, at least be able to bring trouble to the fifty dragon master.

So, many people are hesitant.

Xie Xie Hai Yang's body will be a good income, and then is returned to Xie camp, he said:. "Let us not go in, wait."

So what?

Naturally, wait for the next master from the toxic fog to see if there are other dangers.

However, they were disappointed. They waited for more than ten minutes and did not see the second person coming out.

It seems that all died in the inside.

"Homeowner, what should I do now?" asked someone in the Xie family.

Xie Hai hesitated.

Is it in, or not?

If you enter, you may be completely annihilated.

If you don't enter, this person will die in white. You must know that they have died several people in order to come to this third floor.

Of course, if they are close to each other, they will give up the colorful fruits and go back to the first floor to collect the treasures of Tiancai. It is also a good choice.

However, the next time you eat a colorful fruit that can break through the power of sixty dragons, the temptation is not small.

"Hey, what should I do?"

Xie Yu looked at Xie Hai worriedly.

Xie Hai was still thinking about it. At this time, he was a glimpse of the light and found that someone led the team into the poisonous fog.

"It is the team of the scattered people. The strongest is the force of the forty-five dragons. It is really looking for death. If there is a crisis, the team will definitely collapse." Xie Yu's three uncles are cold and cold.

After this scattered team, there is a second team to go in.

The temptation of colorful fruits is really not small!

Then, it is the third and fourth!

Later, the team was also very smart. Take the previous teams as cannon fodder and go in behind them.

Soon, there are only three teams left here.

Xie Jia, Fei Yunzong, Baiyun Gate!

"Xie Jiazhu, Baimen, how do you make the decision?" Fei Yunzong's lord asked in the air.

"Why, what is the opinion of He Zongzhu?" Baiyunmen's main door squatted back.

Feiyun Zongzong smiled and said: "It is better to do this. We will temporarily unite and join forces to break through this area. If we see colorful treasure trees, the three parties are evenly distributed, how?"

equally distributed?

Hearing this, Xie Hai couldn't help but ask: "He Zongzhu, are you forgetting to send the map of the hide to our mysterious people?"

After such a reminder, Fei Yun Zongzong's body shape was also a tremor, but he forgot this.

The mysterious white man told them the location of this treasure tree plantation, how could it not come in?

"The mysterious person I noticed. At that time, he also drilled down very early, but he hasn't seen it until now. Could it be that he has already entered?" Feiyun Zongzong frowned.

"Also, still behind us, or even hiding in a certain place, let us take the lead and eliminate the yin of the inside?" Baiyunmen Gate added.

Xie Hai thought for a moment and said: "The strength of the person is unfathomable. Let us list him as the power of the 50 dragons. If we join forces, it should also make him jealous of three points."

"So, the Xie family is agreeing to unite?" asked Feiyun Zongzong.

Xie Hai shook his head: "If you just break through this barrier, the alliance is nothing. Just, can you guarantee that the colorful fruits are exactly three, or six or nine?"

This problem is also difficult to live with the Feiyun sect.

The legendary colorful treasure tree is very magical. It has a colorful fruit in ten years, but it can't always be the result.

In case, the number of these colorful fruits is 19, and the one that comes out, to whom?

In case it is sixteen or twenty?

"It's better than this. Let's join together first. If the fruit is distributed to the end of the three parties, then we will draw lots. Anyway, there will be one or two things. If the colorful treasure tree has survived for a thousand years, at least there are dozens of fruits. Absolutely enough," said the owner of Baiyunmen.

"Yes." Fei Yunzong's lord nodded.

If there are 30, each of them can be divided into ten, it is better to be a little peace.

"If the mysterious person appears, then look at the situation." The Baiyunmen Gate Lord replenished.

And in his mouth to see the situation, Fei Yunzong's lord and Xie Hai understand.

Looking at the situation is to look at the strength of the other side.

If the strength of the mysterious person is poor, then kill it. If it is stronger than their joint efforts, then the four parties will be allocated.

Of course, if the mysterious people are much stronger than them, they will only have to die, and then the mysterious person will have a colorful fruit.

After the three parties united, they began to discuss specific issues, such as how the three parties stand and so on.

Because it was the news brought out by Xie Yang, Fei Yunzong and Baiyunmen let Xie Hai first choose the location.

The former team did not go long, so Xie Hai chose the head, Fei Yunzong was in the left rear, Baiyun door was in the right rear, and the three sides marched in a triangle.

The masters of these nine Fifty Dragons should still be not a problem.

These 30 people were surrounded by the nine masters and then entered the thick poisonous mist.

As soon as they entered, their line of sight was immediately limited, and they were only able to see things within ten meters, so they could only rely on their powerful ability to perceive.

Ye Xuan, also happens to be among them, the two major denominations are those who think that Ye Xuan is a thank-you, and the people who thank Xie's family have no time to take care of him.

He was mixed in the team of the three parties, behind the Xie Yu, although his vision was the same as everyone else, but he had the blood of the Beastmaster. He felt that some creatures were moving fast outside the kilometer.

The team of the three parties went a few hundred meters away. These hundreds of meters were able to finish in less than half a second, but they took three minutes to live.

The nine masters are also the spirit of mentioning 120,000 points. Although the realm of the yin and wind is worse than them, it is not on the land. If it is sneaked, even the master of the 50 dragons may fall.

They did not dare to disperse this poisonous fog, because the more dispersed, the denser the poisonous fog, and now they can still see things ten meters away. If they die, I am afraid that even three meters away will not be seen.

"stop!"

Xie Hai, who walked in front of him, suddenly shouted, and everyone in the team was the next one.

"Thank you, what is the situation?" asked Feiyun Zongzong.

Xie Hai walked a few steps forward and responded: "The blood!"

Xie's family followed up and found that the vines in front were full of blood and some minced meat.

Obviously, these are the ones left behind by them.
