

Super D. S 3781

Chapter 3781: Road robbery

The so-called return refers to the return of the magic star, not the third universe where the human race is located. Ye Xuan has not finished the matter on the first universe. At least, the source of the evil is back. If you want to explore the situation in the past, including the whereabouts of the Tianji people, you need to explore it.

Before these things were resolved, Ye Xuan did not intend to return to the third universe. I really want to go back. I am afraid that it will be memorized in my heart. It is really difficult.

At most, during this period, I returned to the Triumph City of the Death Stars, and sent back the prepared army of thousands of warships and massive resources and magic weapons.

In fact, this matter does not take too much time, he can directly activate the plane-level interplanetary coordinate jump ability, directly to the death star swirl, which is not far from the Arc de Triomphe.

At that time, after the materials in the hands are sent to the Arc de Triomphe, Ye Xuan can re-examine the coordinate jumping ability of the plane level star, and return to the devil's star field again.

But this matter is currently in a hurry. There are hundreds of millions of star-studded powerhouses in the hands of Shennong Ding, who are stretching their necks and looking at freedom. There are even eight domain owners.

Although Ye Xuan has confidence in Shennong Ding's internal domain power, but he is not afraid of 10,000, but the eight-owner is not a joke of terrorist power. He does not dare to let them stay in Shennong Ding. The time is too long, it is really troublesome to have some trouble.

Therefore, after spending nearly one day, the three treasures of the gimmicks were all completed three times, so that they all reached the level of the starry sky to the treasure level, Ye Xuan even ended this retreat.

Waving away from the ban on retreating Dongfu, and stepping out!

Ye Xuan's immortal glass armor, but now it is only the starry sky to the treasure level, it can be said that Xuanyuan Zijing three treasures of the treasure, Ye Xuan is definitely a painstaking thought, and now all have reached the prospective star to treasure Level is not easy.

However, although the four treasures are all in the air, it is just a description of the three treasures. As for the power and other additional attributes, it is completely different.

Even among the three treasures of the three gimmicks, in these respects, they are completely different from each other.

After all, the treasures were originally different before they were melted, and the later developments were repeated, and the special minerals, crystals and magic weapons of the same type were also different.

But in general, in terms of power, Ye Xuan's immortal glass glaze is still the strongest in these four pieces of starry sky.

On the one hand, this is a male armor, which has advantages over the treasures used by the women's training institutes. In addition, Ye Xuan's immortal glass glaze incorporates various special crystals, mineral deposits and treasures of the same type. They are all things that can be met and not available.

When the treasures of the three gimmicks were melted, the treasures that were added were extraordinary, but they still could not be compared with them.

Nothing else, the light is not extinguished. The emptiness of the glass that was originally incorporated into the sky is the existence of the starry sky to the treasure level. Ye Xuan has never seen the second one!

However, the three gimmicks all loved each other's treasures. After they got it, they almost all smashed up and rushed to Ye Xuan.

"Wow, that's great. I was still an epic star in the sky yesterday. Now it's the starry sky, I can't believe it!"

"Because your boy has a conscience, I finally made a thoughtful thing for our sisters, not with you!"

"Oh, dead Nizi, you are swearing again, who is with him..."

Duanmu Xiaocha's mouth is a shameful discourse. Xuanyuan Ziyang and Zhao Qianru immediately blushed, and after chasing the treasure, they chased the past and clamored to suppress the demon girl.

At the sight of this battle, Ye Xuan was speechless again and rolled his eyes.

Undoubtedly, the three gimmicks have just got the smelt of the treasure, and this time and a half is estimated to be unable to stop, and have to toss for a while.

But he didn't have the time to accompany him, and he was already eager to return to the Magic Star.

Shaking his head and smiling, Ye Xuan's screaming to the three gimmicks said that they were ready, and when they returned to the major forces to redeem the people, the three of them would also be on the list of redemption, and then they left. Shennong Ding.

When I arrived at the black hole of life outside, it was still silent. Ye Xuan waved Shennong Ding into the body, and then stopped. In the first time, he sacrificed the hole and rushed out of the black hole of life and rushed toward the magic star.

Nowadays, among the three treasures of his starry sky, the **** blade of the warrior has been promoted to the starry sky to the treasure level, but the armor does not destroy the glass armor and the battleship hole virtual shuttle is still still the starry sky to treasure.

With the improvement of Ye Xuan's own strength, the prospect of the star to the sky is obviously a constraint on him.

Fortunately, this time I knocked a lot of good things, and the eight people who were short-selling were not the domain owners of the major ethnic groups. Ye Xuan got more than a dozen pieces of star-to-

treasure minerals and crystals. Two of them were just used to integrate. To the glaze of the glass and the hole in the hole.

It's just that this must take a lot of time. After all, artificially created stars and treasures are not so easy to succeed.

There are still a few things that are imminent at the moment. Ye Xuan simply can't draw too much leisure time. Therefore, after he decided to finish this battle, he will start a new melting of the glass and the hole!

Just leaving the black hole of life, Ye Xuan encountered several fleets in the outer space of the universe, all of which were the remnants of the Second Universe from the source of the evil.

Ye Xuan left the source of the evil earth before, but left directly with the ability to jump in the interstellar coordinates. It can be said that he immediately returned to the black hole of life.

When he arrived at the black hole of life, some of the various fleets that had retreated from the source of the evils had not yet rushed out of the periphery.

Therefore, even if he has been delayed for such a long time in the black hole of life, these various fleets still carry out interplanetary navigation in the void of the first universe, and hurried back to their respective ethnic groups.

The slaves of the first universe are not the same, but the major forces from the Second Universe and the Third Cosmic plane of the Terran must pass through the Devil's Field and reach the two fronts of the Devil's Star. After the plane-level cosmic wormhole, the wormhole jump can be launched and returned to the third universe and the second universe.

Therefore, at the moment when Ye Xuan was on his way to the Magic Emperor, he happened to meet with these families.

However, the hole in the moment is the opening of the hidden array method, Ye Xuan did not expose the traces, and did not intend to pay attention to these guys, directly to drive the hole shuttle, one day later, finally arrived at the Magic Emperor.

After finding a secluded void to close the hole, Ye Xuan became the devil's emperor Mo Yufeng even after changing his appearance. Then he rushed to the magic star in the direction of the physical body crossing the void. .

After a small half day, one emperor, two guards and three stars, finally appeared in the universe of the sky ahead.

However, the ten virtual wars outside the defense line of the Devil's Star, but Ye Xuan scared a big jump, a long time, this road to block the robbery, continue to linger?

Chapter 3782: Follow the trick

When Ye Xuan left the Emperor Star, there were only eight battles here. Of course, only one of them was really activated and activated. The other seven were all shells, and they were scary.

Right now, there are ten star-space wars in the outer defense line of the front of the magic star, which completely cut off the main space of the first space star leading to the front of the devil's star field.

Obviously, since he left the Magic Emperor, the business of blocking the road has not stopped, and it has continued until now.

Moreover, there were only seven fake warfare cases with only outer shells, but now there are nine seats. Obviously, the demon people group has worked overtime in these days, and they have worked overtime to make two people. This is really speechless, and Ye Xuan's for a while After that, even when I shake my head, I laughed.

After a short period of time, two of the various remnants of the army surrounded by Ye Xuanzhen came, and when they saw the ten empty battles in front of the void, they were scared, and almost did not turn around and fled.

Fortunately, the Devils' group relies on mountains to eat mountains and block the road to collect tolls. The three major planes are well known, and their professional ethics are quite good. The fleet of any ethnic group and forces, whether it is coming or going, As long as you pay a one-way toll fee, you can pass it safely.

Therefore, after the commanders of the two remnants of the fleet returned, they paid a toll and quickly passed.

And Ye Xuan, at this time also smiled and rushed to the magic star, he can see it, the demon group is ridiculed and addicted, it is estimated that the toll station of this demon star field is a regular setting, come and come Often the strong stars, you have to put some blood to pass.

Needless to say, it's just that the ten foxes and tigers' vain wars are enough to deter everything, that is, the star lords can be second, and the domain lords are also shocked. There is no disregard. may!

I was shocked to hear that Ye Xuan returned, and the top of the devil's royal family all came over at the first time and met him in the royal palace of the inner city of the emperor.

"You are addicted to robbery. Isn't it time to gain this time?"

For the devil's group, Ye Xuan's status can be completely different from before. This time once again came to the royal palace in the inner city of the emperor, Ye Xuan was invited to the first seat, even Mo Taiye and his previous is not very good for him. The two stars of the cold, the ninth-order grand perfection of the royal family, accompanied Ye Xuan with a smile.

Grinning and laughing, Ye Xuan's words turned and asked directly: "You don't forget, this time, the followers of the major ethnic groups have been dispatched, and now the source of the evil is such a big thing. They may not send the domain owner grotesque in the follow-up, are you not afraid to overturn the ship in the gutter?"

"What happened to the domain lord? Our democrats are not without domain owners..."

Mo Taiye licked his mouth and looked at it with disapproval. After he finished speaking, he was shocked and leaked.

After a moment, I exchanged a look with the other lords of the devil's royal family. I shook my head and said with a smile: "Okay, your kid is not an outsider. Our alliance has been extremely deep, not like the

original At the beginning, there are some hidden secrets about my devil's group, and there is no need to look at you again."

Speaking of this, Mo Taiye had a slight meal and his look became serious. Then he said: "The domain lord is not only the other top groups, but also the devils, even the devils of our devils. The main level exists..."

"Yes, a generation of demons are still alive, not degraded. However, the ancestors who were mastered above the domain level are not in the first universe, or even in the three planes."

"The specific details are related to the greatest secret of my devil's royal family. I can only reveal so much to you. In short, you only need to know that it is really better than the bottom, but our demonic group is not as good as the human race, but with other The first cosmic servant group, even the second universe of the various nationalities, is definitely not weak."

"And, if we really encounter the crisis of the survival of the ethnic group, we also have the means to contact the ancestors of the family who left this plane. Therefore, we have no pressure to rob some fleets passing by."

"At the moment, the Tianji people temporarily withdraw from the first universe. This is the best time for my demon people to replace them. At this time, our demonics must grow up as soon as possible, and the resources needed are too large. The way to get it, the accumulation of resources is the fastest."

"Speaking of it, this is still a good idea for your kid, hahaha..."

At the end of the day, Mo's grandmother laughed and laughed. After she smiled, she suddenly remembered something. Her face was shocked and she shouted at Ye Xuan's voice: "Right, patronize this thing, but really Forget the big things, your kid has now exposed two identities, no problem? In addition, what are the indigenous beasts and the strong people who have been taken away by you?"

"There are eight lords in the light, and your darling is too fat. This kind of thing doesn't dare to say that there is no one to come, but there is no one in the past but it is a nail on the board. Actually, I have captured eight lords... ..."

Speaking of this, Mo Taiye did not continue to talk about it. The other demons of the royal family, including the demon emperor Mo Wentian and the contemporary emperor Mo Qigong, all looked at Ye Xuan with a strange look.

In fact, when the news came, they were all thundered, and they were always repaired in the thirteenth realm. However, they lived and lived millions of families and fleets. Dozens, even the domain lords have eight...

If this kind of thing falls on their heads, it is absolutely dare not to do it, and the soul has to be scared away.

"You old man is too vocal to talk. This is the master who is brave and brave, the road sees a slap in the face, and the knife helps."

When Ye Xuan turned his eyes, he then said: "Moreover, the guys are crying and shouting that they are going to Shennong Ding. The various ethnic groups that were seen at the time were not in the minority. How did they change? Is the cost less robbing people?"

"I really want to say that their lives are all saved by the Lord. Otherwise, including the eight domain lords, it is estimated that all of them are confessed to the source of evil."

"The piece of land was later smashed out by two lords, and it was also seconds. You don't know it!"

Having said that, Ye Xuan's eyes slid and turned, and he grinned and said: "Yes, how about talking about the sale of your pen? By the use of your magic king Samsung, this young master intends to sacrifice Shennong Ding here, put three The representatives of the major groups of the big planes are called, let them pay for the redemption..."

"Looking at this opportunity, you just have to knock a toll on the road. The top three forces with more than half of the tops have a share. This is a big income!"

Speaking of this, Ye Xuan seems to think of something again. When he shoots his thigh, he picks up: "Oh yes, there is another thing. I want to bring the indigenous fierce beasts into the group. How do you see it? People can have two domains. Lord blame..."

Chapter 3783: a large string of war

All major groups come to redeem people?

Aboriginal fierce beasts?

The demons in the hall were frightened by the big jump. These two things are the top events of the day. Ye Xuan said at the moment, he said with a slap in the face. Bold, it is estimated that in addition to his enchanting, the average person really does not.

Even the old monsters of the half-step domain of the three democrats, such as Mo Taiye, were shocked and screamed on the spot.

"Yes, it is a redemption!"

"It's also very savvy. At that time, you also knew the situation of the source of all evils. The young master did not care about his own safety and rescued him. He just collected a little fee. The group of **** wanted to fish in the water and rushed into the tripod. There are more than 100 million strong stars in the space, and the space is small, but only a hundred or less..."

"But the piece of the fee has now been solved, including the eight main domain monsters, including the hollowing out. Basically, all the people have been stunned by the young masters, but that is only a fee."

"The next step is to go out and definitely have to pay the fees. The younger leader will immediately spread the news and inform the people to come and accept the people. At that time, I will collect the fees. You will collect the tolls and collect the money. This is very good..."

After a conversation, Mo Taiye and others almost stunned their chins to the ground, and they slammed them thoroughly.

After returning to God, looking at Ye Xuan's eyes one by one, it's already very admirable. They thought that the demon people now depend on the road to eat, and occupy the star of the first universe. The route, the toll of the past, has been the first in the world, and there is no such profit.

Now, listening to Ye Xuan's words, they found out that they couldn't compare with the Emperor Xuanzi for a long time.

The cornucopias of others are even mobile, and they are acceptable, and they can be opened for business.

A Shennong Ding sacrificed, all the strong stars, even the domain owners, want to go in a circle, have to take off the entire two layers of leather.

Going into the income, I will pay for it.

I have to pay for it when I think about it. The ethnic group sent people to pay is...

"Oh, your god's Shennong Ding is really a good baby, so a treasure is in hand, it is difficult to think of underdevelopment."

Mo Taiye immediately took a golden light on both eyes, and the cockroaches of his mouth almost fell out. Now the devil's group wants to grow and develop as soon as possible, and the urgent need for various resources is huge. At this moment, Shennong Ding actually has this kind of benefit. Suddenly, my heart tickles.

As I said in my mouth, the whole person was getting close to Ye Xuan's front...

"When you go, the Shennong Ding of the Lord's Lord is a cornucopia. Later, I also want to invite all the top dignitaries of the top three forces to come in one or two trips in Ding. Oh, no, if there is no accident. If the lord of the landlord goes in, he should only be able to squat, so the project of the lord of the landlord can also start this day..."

Speaking of this, the smile on Ye Xuan's face is more and more embarrassing: "So, you should not play its idea, this young master has already refining, not to mention it, and if you want to borrow it, you can't borrow it, not a loan!"

Aside, Mo Taiye and others suddenly turned their eyes and turned their faces, but they were helpless and sighed.

Even the treasures of the Lord's lords can count the treasures. In addition to the big stove in the three worlds of today's world, it is estimated that the third piece has not been found. It is really irritating!

"Right, the cooperation that I just said can't be done in the end. If you don't do it, the younger master will change the place to sacrifice the Shennong Ding, so as not to bring hatred to the devils!"

Having said that, Ye Xuan made a slight meal and then he said: "In any case, it is enough to cooperate with the indigenous beasts. There are millions of indigenous beasts in Shennong Ding, and there are nearly two hundred talents in Qiankun. There are nearly a hundred old monsters, and there are two monsters in the domain."

"In addition, there are a total of three indigenous beasts in the core hinterland of the evil roots. This time, only two heads are thrown out, and another one is crouching. I believe that it will be born soon. By then, this young master will undoubtedly add a strong force, but there is no fear that these top-ranking forces will be retaliated against the major groups..."

"What? The indigenous beasts in the main territory are still not born yet?"

Ye Xuan's words just fell, Mo Tai's eyes brightened in an instant, and the white beard under his jaw shook slightly. He grabbed Ye Xuan's wrist and said excitedly: "Dry! Why not? My democrats are not without the roots of the domain and the landlord. How can they be afraid of their revenge..."

"Moreover, this is a big sale of Wanli. At that time, you will collect the fees. We will collect the tolls of the delegations of the major ethnic groups. Everyone will make a fortune together, and they are all happy."

"As far as the indigenous beasts are involved, this is even more okay. Haven't they been with you now?"

"Your boy is a strategic ally of our devil's group. The indigenous beast is your accomplice. Isn't that our accomplices? Everyone is their own, regardless of each other."

"In addition, isn't there a black hole in life that has not yet had any forces to settle in? The Void Vulture has now lived in your Nether War, and it is best to settle the Aboriginal beasts in the black hole of life according to the old man..."

This is exactly what Ye Xuan wants to say. The black hole of life has another meaning in him. Ye Xuan is the two interstellar coordinate jumping points in the first cosmic plane, one is in the source of the evil. The central area buffer zone, but the situation is unclear, and if it is an extremely dangerous area in the future, it obviously cannot be used as a regular jumping point.

Therefore, the black hole of life must be guaranteed to be safe, and there are indigenous fierce beasts sitting in the black hole of life, Ye Xuan can definitely put 10,000 hearts.

But there is still a problem, that is, he must first make clear about the previous things with the Taikoo Porcupine and the Taikoo tortoise. After all, Ye Xuan entered the core hinterland of the evil source as the Taikoo konjac. Deceived the indigenous fierce beasts.

It is absolutely impossible to say that the two fierce beasts have no jealousy in their hearts. This matter is not handled well. The idea of aligning with the indigenous beasts can only be defeated.

Thinking of this, Ye Xuan couldn't sit still, and immediately got up and said: "Okay, let's go and arrange it now. I am going to arrange Shennong Ding in the outer defense line of the Emperor Samsung!"

"At that time, the four empty stars in my hands, the sorcerer's war, the sorcerer's war, the blood war, and the **** battle, are mixed with the true nine fake ten wars in your hands, a total of fourteen. War La, arranged around the periphery of Shennong Ding!"

"In this way, it can not only deter the major forces, but also facilitate you to collect the tolls of the past. After all, if the major forces want to get people, they have to get close to Shennong Ding, and they have to pass the blockade line of 14 battles. I don't have to pay the tolls, I can't hope to sigh..."

Chapter 3784: Queue for redemption

Soon, Ye Xuan and a group of high-ranking demons of the royal family stepped out of the royal palace. Of course, at this time, he has changed his appearance again. It is no longer the appearance of the devil's emperor Mo Yufeng, but has become Linghu is the master.

His identity has already been exposed to three. The outside world already knows that the fox and the lord and the sorrowful sorcerer, the Taikoo little scorpion are one person. He does not want to reveal the identity of the demon prince Mo Yufeng again, in case he uses it later. What about it?

Of course, this time, the cooperation between the Fox Master and the Devils group will bring some hatred to the Devils, but Ye Xuan has now figured out the idea of eight domain owners such as the hollow.

As long as they are jealous of the lord of the indigenous fierce beasts, they should not dare to act rashly in a short time.

In fact, according to Ye Xuan's estimation, the three lords of the indigenous savage group entered the retreat's domain lord after the ninth order of the great singer's group. Now that two of them have been born, the unborn one is even It will not be too long to drag a little longer.

As long as Ye Xuan obtained the understanding of the Taikoo Porcupine and the Taikoo tortoise and formed an alliance with the entire Aboriginal beasts, then after the birth of the last indigenous beast, the alliance with the devil and the indigenous beasts A deceased landlord is sitting in the town.

By then, the top three forces and ethnic groups in the three major planes will not dare to act easily even if they are resentful to the devil's group.

The lord of the world is not so irritating. Although there are also various ethnic groups, basically the situation of the whole and the devil's group is the real foundation. It is impossible to jump out of one!

Soon, the group vacated the magic star and came outside the inner defense line of the magic king Samsung. Ye Xuan first waved his hand and sacrificed four star-space wars, squatting on one side of the void, and then waiting for the front. Not far from the void, a real nine fake ten magical wars are all coming over, and fourteen battles are arranged after the camp.

He showed his physique, showing the identity of the fox and the lord. In the middle of the wave, a star-like super giant dynasty emptied the void. The first time he was in the void outside the Emperor Samsung, he was shocked by the tide. The voice of the call.

These devil strong people do not know the truth of the fourteen virtual wars, and the realities of the devils are only known to some of the core high-level elites.

As for the combination of the fox lord and the demonic group, this is just the finalization. They are naturally less likely to know. At this moment, they suddenly saw the fierce singer's singer suddenly appearing, and once they came out Waving the sacrifice of Shennong Ding, these magical strong people thought that the war was coming, all were very nervous.

Until I saw the graceful sorcerer and the demon emperor Mo Wentian and others stood in the void and talked about the wind, the helpers of the devil finally realized it, and once they smiled, after all, Shennong Ding and the whole ten The four Void Wars put out such a battle, and the fools can see that this is a big ticket.

If you want to rob, you can make a fortune, can you be upset?

"Okay, this is the main reason for the lesson, to negotiate with the two lords of the indigenous beasts. After the talk, they will be brought out, and millions of indigenous beasts will also be located not far from Shennong Ding. Sitting on the side of the void."

After everything was settled, Ye Xuan turned to look at Mo's grandfather and grinned: "As for the major tribes and the forces who have participated in this three evil planes, they have issued notices of redemption, I am in trouble for you to do it for me. It can be said that the young fox has delegated to the demon community."

"After people arrive, don't rush to let them enter the defensive circle. No matter which ethnic group, which forces, all have to wait outside the defensive circle."

"After the young masters came out from Ding, they made clear the rules and let them line up to redeem people..."

After that, Ye Xuan's body shape has disappeared and he has entered Shennong Ding.

The high-ranking democrats who stayed outside looked at each other, and then they filled up the brains of the three major planes, which were close to all the top forces and ethnic groups. All of them flocked in the magic king Samsung. Lines lined up outside the line of defense, and a scene of entering the defensive circle to pay the ransom leader...

I have to say that such a scene is really spectacular and too shocking. At this moment, it's just a brain filling. The tops of the demon royal family have a vague feeling of being unable to live. They are all speechless and shake their heads.

.....

Shennong Ding interior space, the bottom plain of the central volcano!

The bottom plain is vast and innocent, larger than the land surface area of the general large planet, and Ye Xuan's area of more than 100 million three-dimensional strong families is only a corner of the bottom plain.

The indigenous fierce beasts also occupy a corner in the bottom plain, completely isolated from each other.

But the indigenous beasts are not captives. In Ye Xuan's heart, they are their own people, so this corner plain is closed, but the area is much wider.

There are dozens of times in the area where more than 100 million strong families are detained.

In short, it is very wide, and this bottom plain has both mountains and rivers, and even the sky Ye Xuan has been developed with the help of Shennong Ding's internal domain power, absolutely comfortable.

Even so, the freedom of being restricted, and the millions of indigenous beasts who are temporarily subject to this area are still quite uncomfortable.

Although it is safe, and the environment is quite comfortable, the source of the evil is the ancestral home of their ancestors. Now the star field has changed, and even the furnace that has always been regarded as the faith has become like this. This makes all the indigenous beasts uneasy.

After Ye Xuan entered Shennong Ding, his shoulders shook and he came directly to this closed area.

Immediately after the first time, it was keenly sensitive to the strong suppression of the air in the air.

Just as he was heavy, shaking his head and sighing, there was a sudden flowering on a hillside not far from the front, and the big ones and two small figures appeared almost simultaneously.

It is the Taikoo Porcupine with a body size of about a hundred feet, and the Taikoo turtle that only has a high standard.

At this moment, the leaders of the indigenous beasts in the two domains were all red eyes, staring at Ye Xuan tightly, gasping in the nose, and a very bad attitude.

"Two old brothers, want to be angry, at least listen to me to finish the words?"

Ye Xuan shook his head again and smiled, and both hands spread out and said: "Even if you don't want to listen to me, you can't help yourself, you should also know that after you enter Shennong Ding, the follow-up of the source of evil is happening. Everything, such as the Wind Demon Tiger and the Taikoo Thunder..."

When I heard Ye Xuan mentioned two of the top four vicious beasts that had been retired for a long time, the Taikoo Porcupine and the Taikoo tortoise immediately stunned and then became excited.

"Bad boy, what are you honing? Hurry up and say what happened in the back, all the way!"

"Hurry, how are they only two of them? Another one...not born?"

Chapter 3785: Aboriginal beasts

"There are only two surviving beasts in the world. There are only two deities, the Wind Devils and the Taikoo Thunder, and... they are all fallen!"

Ye Xuan sighed and looked up at the two fierce beasts who were shocked and stunned. Then they answered: "The big green eyes are actually the avatars of the will of the wild, the heavenly eyes."

"Today's heavenly eyes are wounded in the battle of the ancient world, and have not yet recovered. This is only a projection of its will, but even so, the two masters of the two elites are all together. Hit, it's still easy to kill."

"The Wind Demon Tiger and the Taikoo Thunder underneath two green awning beams, which were completely blown into blood fog. Then, the blood mist was sucked away by the smoldering furnace, including all the stars that did not have time to escape the starry source. The strong and more than 10 million warships are all inhaled into the furnace!"

At the end of the day, Ye Xuan suddenly had another meal, and the words turned and said: "I have been in the furnace!"

Upon hearing this, the Taikoo Porcupine and the Taikoo tortoise immediately exclaimed and categorically denied.

"What? This is impossible!"

"Even if we are both, we can't enter. Only after breaking through to the realm of the border can we barely enter..."

"How do you explain this? This is called the evil source..."

In the wave, Ye Xuan took out twenty drops of evil source liquid from the immortal world, and sent it to the front of the Taikoo Porcupine and the Taikoo tortoise.

Then he said: "The two brothers accept it. This is the best thing, even the ancient powers and the ancient supreme, they are all needed. And they are what I brought from the furnace..."

"The furnace is actually a large-scale refining and refining, and the existence of it is the green eye of the wilderness. After the war in the past, it created the star of the evil and laid the ground in the depths." "

"These chains are divided into two types. One is connected with a large number of extraterrestrial voids that are inhabited by the ancient ruins of the ancient wars that were created in the First World War. Every year, there are fallen ancient corpses, which are transported through the chains through these voids. The furnace, as a raw material."

"There is a super large grinding disc in the furnace. Even the ruins of the ancient ruins of the main level will be identified as waste, spit out, and discarded. When the furnace is used to refine the evil source, the minimum standard of raw materials is the cosmic level. The wreckage of the ancient creatures. Therefore, there will be so many wrecks of the ancient creatures below the cosmic level in the void around the furnace."

"You know this better than me."

"The cosmic-level ruins of the universe that entered the furnace, as raw materials, are ground into nine-colored meat in the grinding dish. Oh, that's it..."

During the speech, Ye Xuan waved again and sacrificed a small amount of nine-colored meat mud. The breath that was emitted inside, including the breath of the ten drops of evil source liquid floating in front of him, has already brought Taikoo Porcupine and Taikoo Hair. The turtle believed his words.

But all this is too amazing, the two fierce beast brothers, still stagnation and digestion at this moment.

"The refining of the evil source liquid will be transported to the outside of a virtual space through another chain, a drop of one drop, three or four drops, and those in the void get the existence of these evil sources, it is one Respect for the ancient powers and the ancients who were seriously injured in the battle of the ancient world."

"Of course, they are all the camps of heaven and earth, and since there was such a terrible war, there will naturally be two camps, and I... belong to another camp, behind me, stand in another camp. The commander-in-chief, the status, is equivalent to the heavenly eye in the hostile camp!"

"As for you, including all the indigenous beasts in the source of the evils... all are the raw materials of the flesh and blood that are raised by the heavens and blues. Otherwise, this time, the blue eyes will come, even if they are angry again, how can all the indigenous peoples The beasts, all of them and the invading forces of the same fleet, like the strong, did not hesitate to inhale into the furnace?"

"Even if even the two superb beasts of the indigenous fierce beasts were born, they were ruthlessly killed by it."

"Oh, yes, including the previous one, and went into the furnace to explore, right? I can tell you responsibly, that the main level of the top of the world is not a beast, and when it enters the furnace, it is killed. It is."

"For all of this, I did not know until I entered the furnace recently. After I met with my two older brothers, I always wanted to tell the truth, but... I didn't have a suitable opportunity, and I didn't mean to hide it."

"But after all, this is something that I am not right. Anyway, the words are also plain. The two old brothers and all the fierce beasts and brothers, I have all brought out the source of evil. How to deal with it, I have nothing to say. The two old brothers have their own minds..."

After that, Ye Xuan no longer speaks, a pair of me is a hob meat, let alone slaughter, never wrinkle the brow!

"Roar!"

"Hey..."

After some sluggishness, the Taikoo Porcupine and the Taikoo tortoise finally got the information of Ye Xuan's bones and brains all over, and all of them were digested. At the same time, they raised their heads and each made a terrible roar and scream!

For them, for all the indigenous beasts, this is definitely a cruel fact, too unacceptable.

For a long time, the indigenous beasts in the source of the evils have regarded the star field as their ancestral home nest, and the furnace in the deep core hinterland is like a belief for them. Nearly **** beliefs.

Otherwise, the indigenous beasts have different races. How can they be like a common ethnic group, gather together and live for tens of thousands of years?

Nowadays, the truth that Ye Xuan said has covered all of this. However, everything he said is absolutely invulnerable, and the Taikoo Porcupine and the Taikoo Turtle are also aware that everything he said is a fact!

Even if all this is hard to accept, in the end, after all, it is still necessary to accept the reality.

The Taikoo Porcupine and the Taikoo tortoise are both in the domain of the main territory, naturally not so pedantic, and after roaring for a while, they quickly calmed down again.

Panting and staring at Ye Xuan and watching it for a while, the **** red color of the two fierce beasts slowly dissipated, but the body has a very fierce killing atmosphere, and yelled at Ye Xuan. The state of the earth...

"With regard to your secrets, we don't want to inquire. We just need to make sure that it is OK. Are you and the one behind you really a rival camp against the heavens?"

"If this is the case, our indigenous fierce beasts will also be involved, and no other requirements are required. The only request is that they will be in the future battle with the Tiandao Qingyan camp. When I started the last battle, I asked the indigenous beasts. Participate in the battle... nothing more!"

"This is natural, except for the two older brothers and all the indigenous beasts and brothers, including me and my Majesty's forces. When that battle comes, all will go to war..."

Chapter 3786: Public enemy of the universe

Through Ye Xuan's efforts, he and the misunderstanding of the indigenous beasts of the evil source were successfully eliminated.

There are millions of indigenous beasts that have been brought to Shennong Ding to bring out the source of all evils. In addition to the two main fields of Taikoo Porcupine and Taikoo tortoise, there are nearly two hundred Qiankun powers. Hundreds, this high-end combat power is close to three hundred.

Ye Xuan once again took out nearly three hundred drops of evil source liquid, and the existence of the indigenous fierce beasts in the vicinity of the Qiang Kunda, a total of nearly three hundred heads, one drop per head.

He had brought out more than two thousand drops of evil source liquid from the furnace. He consumed it now, and he still had two thousand years of experience. How could it be enough?

What's more, the furnace will be reopened after nearly a year. At that time, Ye Xuan will never miss it. He will once again sneak into the furnace and try to take away all the evil sources.

It will definitely be more dangerous, and the same kind of things will happen once, and the second danger can be imagined.

But the resource of the evil source is too important, and even if there is risk, he must take it.

At the moment, these stocks in the hands of Ye Xuan will not be pity, and the ones that are used will definitely be used.

For example, the nearly three hundred drops of evil source liquid that is consumed now, do not look at the existence of the indigenous beasts, and the existence of the above-mentioned savage beasts, only one drop per beast.

However, this kind of thing is extraordinary after all, and even the existence of the level of the ancient and the ancient and the ancient and the supreme is necessary, which shows that its efficacy is strong.

For Ye Xuan, these three hundred drops of the evil source are nothing, but for the indigenous beasts who have obtained a drop of the evil source, this drop of evil source is significant.

With this drop of evil source, their life level and the evolution and leap of their own blood, maybe they will enter the fast lane.

Maybe in the near future, Qiankun will become a star lord, and the star lord will become a domain lord. As for the two lord-level indigenous beasts who have received ten drops of evil source, they said Uncertainly, because of this opportunity, it will break through to the ninth order of the domain leader in a short period of time, and then rush into the realm of the world... This is not entirely impossible.

At least, Ye Xuan is willing to use a small three hundred drops of evil source to fight such a chance.

This time, Ye Xuan spent a whole day in Shennong Ding.

One day later, the total number reached more than six million of the abundance of the indigenous beasts, and he was brought out of Shennong Ding by one time.

When this indigenous beast army rushed out from Ding, and unfolded in the void in the side of Shennong Ding, when there was a vast expanse of empty space, a large number of devils and strong people around the distance, suddenly rushed The cold air was all stunned.

Two domain owners blame!

Nearly one hundred stars Lord!

Nearly two hundred of the great power!

The other more than six million indigenous beasts, although cultivated in different realities, are basically all over the beginning of the thirteenth world, and because they are rare ancient beasts, the blood is extraordinary. Therefore, once each beast has activated the blood of the body, it is all that amazing kind of great thing.

Such a horrible indigenous beast army is empty, although there are only more than five million heads, but any one of the tens of thousands of warships will be scared to be shocked!

Coupled with the power of Shennong Ding, and the fourteen star-studded wars in the surrounding air, this lineup can no longer be described only by luxury, it is simply a dream!

Such an overall strength reached the dream-like lineup of the army, just deterred from the three top planes of the top groups and forces of the redeemed delegation, apparently no problem at all, there is no pressure, enough to suppress everything!

Although only one day has elapsed, in fact, as early as half a day ago, the redemption notice issued by the demon group in the name of the fox-speaker has been thoroughly spread across the three major planes.

At this moment, half a day has passed, but the three cosmic planes are close to all the top ethnic groups and forces, but they are still ringing the sound of roaring and roaring...

"What? Redemption? Come again, let the fox lord be the rhythm of the enemy of the whole universe? The little **** is too dare to think..."

"Insane! It's absolutely crazy! Actually, it has detained more than 100 million star-studded powers in the top three powers and ethnic groups, including more than 100 Qiankun powers and dozens of star owners, even the domain owners. The old blame has eight statues. The purpose is to collect the ransom of the kidnapped ticket... The murderer, what is the courage of the kid? What is the emptiness of the void?"

"It's over, it's over, this time it's bleeding again, and there's a domain owner who's been detained. That's the domain owner's old blame. No one can afford to sacrifice. The fox thief is a stranger. The lion opened his mouth and this time he must be knocked to death!"

"Is it a fee? There is still a shit! If the old man remembers correctly, then the ancestors of the star and the domain's main ancestors entered the drug Wang Ding, and they were all asked for a fee."

"It's really shameless, you have to pay for it in and out, and it must be a high price. It's not such a pit!"

"Unexpectedly, the more than 100 million strong people who have been detained in Shennong Ding, including all the mighty powers, the star owners and the domain owners, should all be clean and tidy at this time. Otherwise, this so-called cost, the guy will not issue a notice, let their respective ethnic groups prepare..."

"Oh! It's too embarrassing! More than 100 million star-studded powerhouses, including eight lords, have been exploited by him to become a light pig. In the end, this kid is still not satisfied, and the idea has hit again. The big ethnic groups come here, they are simply mad!"

"Prepare the ransom! This time the troubles are too big. If it is not redeemed, any ethnic group can't hold back the pressure of public opinion. The people in the family will also be chilling, so that the fox lord is holding this. There is no fear."

"Not to mention that there are eight domain owners, dozens of stars, and more than a hundred talents. This level of combat power can not be lost for any ethnic group. This time, the three major More than half of the top forces in the universe have to bleed!"

.....

These roars and roaring voices did not last long. When the first day came to an end, all the major groups and forces in the three major planes gradually recovered their serenity.

The facts are in front of you, the situation is so, and you can't bow your head, you can't do it.

Soon, all the ethnic groups and forces from the three major universes sent a fleet of small scales to the devil's star field of the first universe.

The fact of redeeming is too glaring, and it is shameful. This time, no force and ethnic group are ready to make a big fantasies. They all intend to pinch their noses and recognize...

Chapter 3787: One big

The eight lords of the lord who are in the hands of Ye Xuan, six of them are from the top ten ethnic groups in the Second Universe, namely the Bloody, the Silver, the Bull, the Golden Eagle, the Cai and the Wolf. The family, among them, the six ethnic groups also have a Qiankun Taoist in the hands of Ye Xuan. Of course, now Daoji has been taken away, leaving only one breath.

Among the other four ethnic groups, the Qingpeng and the War Lions and the Tree Spirits have some great powers, star owners, and ordinary people in the hands of Ye Xuan. As for the Turtles, they have not participated in this matter.

Therefore, the redemption delegations of the second universe of the various races are basically headed by the six ethnic groups, such as the **** people, and other ethnic groups are just foiling.

As for the first cosmic slaves, they are headed by Hell ants and giants. Each of these two families has a domain lord who is in the hands of Ye Xuan. As for the space in the first three ethnic groups of the second cosmic servant Rats, no one has come, and the unparalleled sons of their ethnic group have been killed by the Taikoo.

Because of this, the space rat is now preparing for the battle, and seems to be preparing to attack the devil's group, because this group of devils has already been associated with the Linghu, and the fox is the culprit who killed their ethnic groups.

The space rat family is one of the first three geniuses of the first cosmic servants. On the overall strength, it is comparable to the devil's group, but it has the ability and foundation to fight against the devil.

As for the Terran of the Third Universe, it is mainly the three major forces, the immortal dynasty of the science and technology camp, the ten heavenly palaces of the comprehension camp, and the Federation of Wanluo.

The Wanlan Federation's commander of the Senlan fleet, which is the source of all evils, is the court of the Federal Institute of Supervision. In addition, there is a federal veteran of the star territory. Unfortunately, this time Ye Xuan did not capture these two. Guys, they managed to escape from the source of the evil.

Otherwise, Ye Xuan, the federal veteran of the star's main territory, may not be embarrassed, but the dragon and the old ghost, Ye Xuan may not let him go so easily.

The immortal dynasty has caught a few old rivals, including the big prince Long Xiang, but this guy has been scared and timid. This time, the performance in the Ding's space is disappointing. There is no such thing as the imperial dynasty. Demeanor.

This point also makes Ye Xuan lack of interest. I feel that there is a lack of standard in this role. Therefore, for Long Xiang, he has no plans to make a fuss. As long as he pays enough ransom, he will redeem them as waste. .

[illegible]

After all, the identity of the palace of the palace is really extraordinary.

It is precisely because of this that this ten-day Tiangong redemption delegation came to be a veteran of the domain's main territory. It is said that it is a deputy palace owner of the Heavenly Palace, which shows its importance.

But Ye Xuan has no bird like this person. His swallowing avatar is still playing hide-and-seek in the territory of the comprehension camp and the Ten Heavenly Palace. Everyone in the future is an enemy and a friend, so there is no need to be polite!

In addition to these top forces and ethnic groups, there are also some small forces and ethnic groups in the three major planes, including some scattered relatives and friends.

For those scattered, Ye Xuan is not prepared to pay for anything. His target is only these top-level forces, let alone some scattered, even some weaker forces, he did not intend to receive the tripod. fee.

It will be released at that time!

In just three days, the delegations of the top forces and ethnic groups from the three major planes squeezed the outer circle of the Devil's Stars.

Although this time it is a redemption, it is a very shameful thing. No force and ethnic group are willing to make a big fantasies, but after all, it takes a long interplanetary voyage, especially those top forces from the first cosmic plane. Before the cosmic plane-level cosmic wormhole, it has to sail through a long star.

On this way, the possibility of encountering a star gang is not completely ruled out.

After all, the Devil's Star has long been a buzzword. Almost all Star Thieves know that all ethnic groups and forces will organize a delegation to go to the Devil's Field to redeem people.

It is impossible to rule out the possibility of some daring star-studded gangs intercepting in the middle. This is all a redemption delegation. Where are the resources and treasures that are carried?

Therefore, even if the major ethnic groups and forces do not want to, but the size of the incoming fleet is actually not much smaller.

Otherwise, if it was robbed by the Star Thief on the way to the Devil's Star Field, the news will be transmitted back to the ethnic group. It is feared that those core high-level officials will be mad at the scene and vomiting blood and die.

In just three days, the Devil's group made a fortune in the outer line of the Devil's Samsung. All the fleets that came to the redemption had to pay a toll through the line of defense to enter the inner defense circle.

Of course, the redemption person has to pay the same when he leaves. This kind of rule will bring the commanders of the major ethnic groups who come to redeem the people to vomit blood, but there is no way.

Even the **** ants in the first three tribes of the first universe can only pay the tolls with arrogance.

This is also a no-brainer. It is really the Devil's group now in the first cosmic servant family, and the addition of the sorcerer's lord, now the devil's group, in the first universe, few people dare to provoke Now!

Of course, the space mouse and the **** ant still have this heritage and the devil's ethnic group. They do not think that the alliance between the demon and the fox is a deep union, which is mostly temporary.

In fact, the space rat has long since given up the redemption of a small number of ordinary people who have been detained by the fox lord. Nowadays, they are mobilizing troops, and there is a great battle with the democrats for a star-level ethnic group!

Nowadays, only the space mice dare to have such an idea. All the ethnic groups of this ethnic group are born with a certain degree of spatial ability, and the ethnically strong people can achieve their perfect integration into the void. .

In this way, if you want to secretly kill the enemy, it is simply unprofitable.

Just as the Taikoo Little Konjac had previously done in the battlefield of the core hinterland of the evil roots, what the great ethnic groups involved in the gambling war did.

The news of the space rat's abandonment of redemption of a large number of ordinary people of the family, the first time passed to Ye Xuan's ears.

In this regard, Ye Xuan does not care at all, even the anger is not, just a fluttering voice to the outside world: "If this is the case, then the Lord has left the people of the space rat family in Shennong Ding, no matter what, no matter is it meat, or as a coolie, it will never be wasted!"

"And... In view of the domineering side of the space rat, the young master decided that after the collection of the other major groups, the young master will personally visit the space rat nest!"

Chapter 3788: Declare war

Linghu less mainly visits the ancestral nest of the space rat family?

What is the difference between this and direct declaration of war?

With the savage name of the fox lord, where is he strolled around, the effect is absolutely impossible for the locust army to cross the border!

Many people have begun to sympathize with the space mouse, and the singularity outside the magical Samsung's internal defense line is full of whispers. The voices of various arguments are resounding. No one takes the words of the fox and the lord as jokes. Urine, definitely not in this kind of occasion, to make such jokes.

If there is no accident, after this incident, the first universe may indeed be in a war.

This time, the fox lord has clearly stated his alliance with the democrats.

The devil's group is one of the first three tribes in the first universe. It can even be said to be the most powerful one. At the moment, the first cosmic tyrant of the first universe is mysteriously missing, and in the case of the family migration, the devil's group Suddenly, there is a strong alliance with the stalwart.

At the moment, the latter is in the face of the three major planes, which are close to all the top forces and ethnic groups, and say the words to go to the ancestral home nest of the space rat.

The meaning and information disclosed in this is really thought-provoking!

"Linghu Xiaoyou, the old man and others have been waiting for a long time, the ransom has been all ready, can you let go!"

Perhaps it is because of the sudden news that the demonic group is about to shoot the space mouse, the head of the Hell ant redeemed group, a strong enemy of the lord of the star, suddenly appeared a little anxious.

Hell ants are also one of the first three tribes in the first universe. The overall strength of the entire ethnic group is comparable to that of the Devils and the Space Rats. They naturally cannot sit and watch the space rat being destroyed by the Devils.

In that case, the first cosmic group that will be pointed to by the Devils must be their Hell ants.

The star lord of the **** ant is obviously trying to end the matter as soon as possible, and then returning to the ethnic group, reporting this disturbing news to the family, discussing the countermeasures as soon as possible, and taking countermeasures as soon as possible.

"There are a total of eight domain owners in the hands of the Lord. There are two first universes, the Hell ants and the giants! The other six are the top ten in the second universe..."

I smiled and looked at the star lord of the Hell ant family. Ye Xuan was undecided, and he said to himself: "Next, the young master began to receive the fees, and each time the two ethnic groups paid for it. , this young master immediately released people!"

"I am pleased to leave the Devil's Field immediately. If there is a stay, it will be regarded as hostile. Fourteen virtual wars around the world and the two main beasts of the indigenous beasts will attack immediately!"

As soon as I heard this, there was a lot of discussion in the void around the air. Many of the fleet's high-level frowns seemed to be very worrying and even disappointing.

Among the delegations of various ethnic groups who came here to redeem people, there are indeed some people who are unconcerned and want to do things.

However, with any of their ethnic groups, if you want to use your own power to stir the wind and stir the rain alone, there is no such possibility. Among the millions of indigenous beasts that are eyeing the enemy, there are two domain realms.

In addition, the fourteen Void Wars, at least three or four domain lords must be shot at the same time, in order to withstand the power of the Devils and the Little Fox, which are displayed on the bright side.

There are a total of eight lords who have been detained in Shennong Ding. The original is far beyond this number. If the eight lords are released at the same time, the devil and the fox will be defeated. .

At that time, the plot will be reversed in an instant!

Some people just imagined such a situation in their brains, they have already felt extremely addicted, and the heart is eagerly awaiting the scene.

Even many people have already calculated the strategy in the dark, only to wait for the eight lords to be released, and immediately apply the means, side-by-side, only to provoke the anger of the eight lords of the domain... ..

It's a pity that all these calculations, at the moment, under the simple words of the Little Fox Master, were instantly ruthlessly destroyed. At the same time, only two domain owners were released, and they must be immediately removed. Devil's Star Field... How do you play this?

The blood scorpion, the silver scorpion, the barbarian, the golden eagle, the scorpion and the greedy wolf are the first to be released, two or two.

Every time, when two veteran lords were released, they were also released from Shennong Ding, as well as the star lords of the ethnic group, the great powers of Qiankun, and the ordinary people below the Qiankun.

Such a scene is too embarrassing, first of all, not to mention the domain owner blame, even if it is only the star lord and the mighty power, which one is not high in the weekdays, the existence of thousands of people admire?

But nowadays, it has been released as a prisoner in general.

After being out, because of the deterrence of the Taikoo Porcupine and the Taikoo tortoise, which were stunned by the side, all of them could only return to the warships of their respective ethnic redemption delegations.

This is the same as the domain lord that is released every time.

Of course, the domain lords who were released are even more jealous. In fact, they are still standing behind the main body of the fox.

For the existence of this superb beast, they no longer have any doubts.

After all, the foxes in front of you are too calm, and you can even capture a fascinating and inexplicable breath. It seems that you are jumping out of the guy who is not open-eyed, giving the opportunity to let the one stand on him. Behind the world's main level, there is no evil beast to reveal a face, shaking a general or something.

In this way, the six lords of the squadron, such as the squadron, are even more afraid to arbitrarily arbitrarily. After being released three times by Ye Xuan from Shennong Ding, it is even the meaning of the swear words in the public. No.

After returning to the fleet of the respective ethnic redemption delegation, they left in a hurry, and they disappeared and disappeared.

Even when they were released together, the half-dead and dying look of the ethnic group that they took away was completely ignored by the six domain lords.

Although the Qiang Kundao in the family is important, it is already like this. What can be done?

Can't you just turn this face on the spot and in this unfavorable situation?

That is tantamount to the trap of the other party. In the end, maybe you have to throw your own life here, it's not worth it...

In addition, in addition to these real clan detainees, the people who are mixed in, such as Jinghong, Jiaotiantian, etc., took advantage of this opportunity and were released by Ye Xuan's fish and fish, and followed their respective ethnic groups. It is.

Although there are only twenty-two people, they are like fires. Ye Xuan believes that in the near future, the patriarchal powers of the second universe will be like eating, and gradually fall into their control...

Chapter 3789: Do not believe you ask

The people of all ethnic groups in the Second Universe were first released, and soon they all left. The magical Samsung's inner circle of defense was in a void, and the fleet of the original redeemed delegation was lost in half.

Then came the immortal dynasty from the third universe, the immortal dynasty, the ten-day palace of the comprehension camp, and the people of the Federation of Wanluo and some small forces and small sects, which were released in batches in batches.

As for those scattered repairs, Ye Xuan did not intend to collect any fees, and all of them were released, and they immediately rebuked them for leaving immediately.

In a short period of time, there was almost nothing left in the void, and only the one left here, there was only the redeemed delegation of the first universe slaves.

Among them are the Hell ants and the giants who have been detained in the hands of Ye Xuan.

The lord of the Hell ants was originally the most anxious. It was his first urging, but now the second universe and the third universe are all redeemed by the top forces and ethnic groups. If you don't let it go, it's just the slaves of the first universe.

This is clearly deliberate, and the star of the Hell ants is not too light, but there is no way.

Nowadays, almost all the forces in the three major planes have formed a consensus. The fierce and savvy singer has become a climate. Don't look at the cultivation of the people's own strength. .

But to say that it is a dilemma with him, to call him a board, not to mention the power of Qiankun, even if it is a star lord, it may not have that qualification.

At least, the domain lord can only have this temperament, even if it is the domain lord, the bottom of the gas may not be enough, behind the people, but it is very likely that there is still a kingdom of the superb beast!

This demon, the general existence of the devil, has become almost impossible to provoke!

Even the hostages of the first cosmic slaves, Ye Xuan was the first to put other ethnic groups, rebuking them to leave immediately, and finally left, only the hostages of the giant and the **** ants, including the two Two domain owners are weird.

At this time, the heads of the Hell ants and the giant tyrannical redemption delegation have completely died. The six domain lords of the second universe have left, and maybe they have entered that way. The second universe's plane-level cosmic wormhole.

Even the other ethnic groups in the first cosmic slaves have left, even if they are unwilling, but only the two lords of the Hell ants and the giants, in the current situation, There is no big wave at all.

If you really want to make a fuss, you must not escape the end of a crackdown.

After all, these two families have a domain lord in the hands of Ye Xuan, oh, in addition to the domain owners, there are also a sacred road, so the ransom brought, naturally can not be too shabby.

On the contrary, the fees paid by the Hell ants and the giants are extremely impressive!

At this point, the interior space of Shennong Ding, which was almost overcrowded, except for the Eight King Kong, still existed in existence, leaving only the ninth and the martial arts.

In addition, there are a large number of wreckage of the blood of the various ethnic groups, as well as some powerful ancient **** treasures, these are the raw materials for the future of Ye Xuan's refining medicine!

The domain lords of the Hell ants and the giants quickly discovered that they were wrong. All the other tribes were released. They lacked the two ethnic groups, the IX and the Mengma Mountain.

The two face each other, if other people, they really will not pay attention to it at this moment, not to mention the sacred beast that is still hidden in the dark, only just next to the sky The Taikoo Porcupine and the Taikoo tortoise have already made their hearts hairy.

However, Qiankun Daozi is different after all, the scalp is numb, this question still has to ask...

"Ling Hu Xiaoyou, isn't it...has someone left and not released?"

"Yes, they didn't really release it..."

Ye Xuan did not deny it, even when he nodded and recognized: "This young master and the nine brothers and Mashan brothers have seen each other as before, they have asked before, they are not willing to leave, saying that they are staying here with the Lord." Days, when you return to the Lord, you have to go out for a lap. If you go to the Hell Ants and the Giants, you will send the two brothers back to the family."

Upon hearing this, the **** ant and the giant tyrant's domain lord are dumbfounded on the spot, look at me, I look at you, completely ignoring the idea.

It was the **** ant who led the team to redeem the star lord, but it was extremely angry and jumped out directly, full of indignation, raised his hand and pointed it to Ye Xuan: "Ling Hu Chong, there is you Is it shameless? If the ransom is not released, the ransom paid by the two ethnic groups can include the one of the nine sects..."

Although this guy knows that the fox is not cruel, but after all, he did not stay in Shennong Ding, and he did not feel deeply. He also looked at the two camps in front of his own camp and there were two local lords who were not present, and they were extremely confident.

"You are not right in this case. Didn't the Lord have said it before? The nine filial brothers and the Mashan brothers' voluntarily left, the young masters are the people who have no words and no faith?"

Ye Xuan turned his eyes and turned his hand to the Shennong Ding, which was like a star in the sky. "If you don't believe it, you will go in and ask it!"

"Ask you ask, is the old man still afraid that you will not be?"

The old guy was impulsive at the moment, and did not think so much. He threw himself into the Shennong Ding's tripod with a colorful mist, and his body was blind and disappeared.

When the domain lord of the Hell ants returned to God, everything was too late, and the guy himself was looking for death, and he had already rushed into the mouth.

"Oh, this old guy is not a thing, it seems that he has not paid the fees!"

Ye Xuan raised his hand and took a forehead. He turned to the domain lord of the Hell ants and looked at the past: "This Taoist friend, would you like to help him make up for it? By the way, I also paid for it!"

”

"thump!"

When the giant tyrants came to the redeemer's star lord to hear this, they suddenly felt like a slap in the face, and finally realized that the **** ant's domain lord was shaken into a wave. The head, this clearly is not intended to pay attention to the rhythm of this matter, suddenly scared a cold sweat, almost fell to the ground.

"Little friends, the old man has something to do, take a step first!"

The domain lord of the Hell ant family was green and turned and said: "As for the guy just now, hey, let him be in that big trip... Let's visit slowly!"

Chapter 3790: Crusade

In just half a day, Ye Xuan has harvested a large number of resources, but this time it is basically some cultivation resources and various minerals, crystals, and heavenly treasures.

As for the existence of those stars to the treasure level, basically no.

After all, they are ransoms sent by various ethnic groups. They are not willing to endure love and love the top treasures. They would rather supplement them with quantity.

However, it does not matter, these ordinary resources Ye Xuan also need to go back to the Arc de Triomphe, will be a great boost, the development of the remaining forces, will therefore embark on the fast lane.

The Devils group also followed up with a lot of money. Although it is not as amazing as Ye Xuan's harvest, they have received two tolls after all, which adds up to a considerable amount.

Since then, no matter whether it is the fox or the demon group, I am afraid that all of them will be famous for the three major planes. Most of the devil's horoscope will be listed as a starry danger by the three star planes.

Not to mention the general star power strong, even the star thieves gang, it is estimated that they can not easily borrow from here, the demon group has been addicted to the road robbery, and later want to go from here, there is no resource in the pocket, certainly not Bottom!

In a word, the closing of this event is a great joy for the Devils and Ye Xuan.

The same is true for the three major groups that have paid a lot of money for each of them.

After all, the resources are dead, and they can be obtained without it. However, the strong people in the family, especially the existence of Qiang Kun, Star Lord and Domain Lord, are important.

It is also a gratifying thing for them to exchange some resources and minerals, and to exchange the hostages and the high-end forces that have been cultivated.

Of course, for Ye Xuan, there is still a bit of a fly in the ointment, that is, the Space Rats have to pay for it, he has not even received a hair!

The family's Qiankun Daozi Mouse has been killed by Ye Xuan in the star of the evil.

The space rat who is detained in Ye Xuan's hands is quite a lot, there are more than 100,000, and there is also a star owner, but the family has always been awkward, plus the Qiankun Daozi's unparalleled beggars. The middle-aged high-level anger was extremely hard to abandon the star lord and more than 100,000 people.

Not only did not send a ransom, but even sent a representative to come over.

On the contrary, it is said that within his family, it is said that he has begun to adjust his army, prepare for the war, and prepare to crusade the fox and the devil.

This is of course just an excuse, and everyone can understand it.

Today's first cosmic group of dragons has no head, the old hegemonic celestial family is missing, the family migration, and all other slave servants who do not want to replace it?

The most powerful to compete for the male, is the devil, the space mouse and the **** ants are among the top three in the first universe of slaves.

The Devils group has now formed an alliance with the Linghu.

The space mice deliberately do not come to redeem people. On the one hand, they are angry because the Daozi mouse is unparalleled. On the other hand, they actually want to use this as an excuse to teach the famous people. As long as you can win the Devils, basically the final stage is set!

I have to say that this wishful abacus is really a slap in the face.

It is a pity that Ye Xuan and the Devils are not vegetarian. The Space Rats want to be justifiably sent to attack the Devils. Then you will take the first step.

Although the space mouse did not come to redeem people, but Ye Xuan did not leave their hostages, including the star of the Lord, including hundreds of thousands of space rat strong, Ye Xuan did not stay

All of them were released in public, and they were still in front of other ethnic groups in the Second Universe.

The redemption delegations of the top three powers of the three major universes are all witnesses.

At the moment, as the matter ends, the fox lord and the demon group also rushed to make a statement at the first time... Ready to say, it is a crusade declaration!

All the top three ethnic groups and forces are recognized, and all of them have sent people to pay the fees and take them away.

Why is your space mouse family not recognized?

Anyway, now people have all let go, and you don't pay for it. You can, I'll personally pass it.

Of course, the active payment and the collection of the door, it is a completely different concept, the nature is different, so this standard is certainly not the same.

The specific collection criteria, the Fox and the Devils have not been clearly stated in the crusade declaration, but they have made a general answer to the scale of the crusade.

This time, the space-raising Rat, the Devils and the Little Fox will send out a total of more than 10 million warships, half of which are seven Nether Wars, plus millions of indigenous beasts... Among them are the two beasts of the main domain!

Although there is no mention of the supreme and fierce beast of the Lord's main class, but since the Lord of the Fox has been dispatched by himself, and the pro-independence of the army is crusade, it is natural that there is no such thing as a beast.

This is clearly the rhythm of the space mouse to surrender!

Although the family also has the space ancestor of the border, it is said that it is only one, and it has not been born for tens of thousands of years, and may not be able to participate in this battle.

And the coalition of the fox and the devil's group, in addition to the sorcerer behind the Lord's main class, there is no evil beast, the devil's group at this level, but not inferior to the space mouse .

In general, the balance of the battle is clearly tilted towards the devil and the sorcerer.

As soon as the news came out, the three cosmic planes were simultaneously sensational. In addition to the anxiety of other slaves in the first universe, the top forces and ethnic groups in the Second Universe and the Third Universe were all a kind of catastrophe. .

It can even be said that it is fun!

When I paid the fees before, all the other ethnic groups ate. Only the space rat did not come. This will naturally make people feel unhappy. All the people will not want to eat their own food!

"It will take a few days for the troops to be dispatched. The army will be fully operational at least four or five days..."

Turning to look at Mo Taiye, Ye Xuan grinned and said: "It's just that there are some personal things that need to be dealt with by the Lord. So, this one will work hard, and I will return. Within three days, I will definitely return!"

After that, Ye Xuan even if he left the Magic Emperor, as for the millions of indigenous beasts led by Taikoo Porcupine and Taikoo tortoise, he was re-entered into Shennong Ding and earned his income.

Taking advantage of this opportunity, Ye Xuan intends to return to the Triumph City and send the massive resources that have already accumulated in the mountains.

Calculating the time, Ye Xuan has been away from the Arc de Triomphe. It has not been a long time since he left. Since he left, he has never returned. From any angle, it is time to go back.
