

Super D. S 379

Chapter 379: Yinfeng

"Everyone is careful!"

Feiyun Zongzong immediately shouted.

There is blood in the place, it should be left behind by those who walked in front of them, which means that there may be a windy wind around.

Xie Hai walked over and picked up a piece of clothing and said: "This is a piece of clothing for the Wang family!"

This sentence, but scared everyone.

Wang family?

Their three-way team was the last to come in, and it was still behind the penultimate team's ass. And the penultimate team is the Wang family.

"It seems that they have encountered a bad wind..."

The words of the flying cloud lord have not finished, and there is a rush of footsteps on the side, scaring him to hurriedly shouted: "Be careful, something is coming!"

His voice fell, and everyone heard a rush of footsteps.

At the moment, the Flying Cloud patriarch is attacking with two other masters.

"Oh!" "Oh!"

In the two muffled sounds, two of the tall, dark greens fell to the front of the flying cloud patriarch.

"Fortunately, it is only the glory of two forty-five dragons." Feiyun Zongzong sighed.

He carefully took the body away.

"This smoldering wind can freely shuttle in the poisonous mist. We are the target of live detachment, and this poisonous mist is very toxic. Our detoxification is not much. I suggest to speed up the pace." Baiyunmen proposed.

"Okay, I agree!" Feiyun Zongzong nodded.

Xie Hai also felt that he could no longer drag, and the more he was dragged, the more dangerous he was.

At the moment, they are speeding up their pace, but they don't dare to be too fast, so they can respond in time if there is any situation.

Just ten minutes after they entered the poisonous mist, another smog came.

However, they did not attack immediately and slowly approached.

The holy beast of the power of the fifty dragons, IQ is not lower than humans, they deliberately put light movements, even Xie Hai and others have not found.

However, Ye Xuan is already sensing.

"There are things close, only one kilometer away from us." Ye Xuan, who was in the Xie family, suddenly reminded him.

what?

In this sentence, let Xie Hai's foot in the forefront be the next one.

"Kid, let us stay here, it doesn't mean you can talk indiscriminately." Xie Yu's three uncles were angry.

False intelligence, but very terrible.

Ye Xuan ignored him and continued: "There are six winds, only seven hundred meters away from us, oh, six hundred meters!"

In one sentence, the Xie family all raised their eyes and looked unbelievable.

Even Xie Hai of the 52nd Dragon did not find out, how was Ye Xuan aware?

Is this true?

"Little brother, are you sure?" Xie Hai did not ask how Ye Xuan learned, just asking about the truth of the news.

"OK, only four hundred meters, I guess, they will shoot immediately!" Ye Xuan nodded.

Xie Hai brows a pick and stunned: "Be careful, there are enemies!"

In this sentence, the two teams behind him almost jumped up.

What is the wind?

The heads of Feiyun Zongzong and the Baiyunmen Gate trembled. They just warned that they had discovered the yin wind that suddenly came out of the poisonous fog.

Fast speed!

"The wind of the fifty dragons!"

Their faces changed immediately.

This time, the sacred beast of the fifty dragons appeared directly, which is really terrible.

At that time, the six shades of the wind were killed, and all were the power of the fifty dragons.

Fortunately, the six shades of the wind were evenly distributed, and the three forces encountered two.

Xie Hai of Xie's family is the power of fifty-two dragons, and the other two masters are also fifty dragons. The patriarch of Feiyun Zong is fifty-three dragons, and the other two are fifty-one dragons and fifty dragons. As for the Baiyun Gate, the main owner is the fifty-one dragon, and the other two are the fifty dragons.

They are able to cope with the gloomy winds of these two 50 dragons.

Except for these nine masters, the rest of the people did not move. This level of fighting is no longer something they can intervene. All they can do now is to be vigilant in case there is still a smoldering wind.

There is no suspense in this battle.

No matter the number of people or the realm, the human side is higher than the gray wind. In less than ten seconds, the six shades of the wind are completely destroyed.

Xie Hai collected the two smoldering bodies and said: "This smoldering wind is full of poison. If it is smashed, it is not the general detoxification. Can fortunately, they are only the power of the 50 dragons."
""

Xie Hai was very satisfied with the sacred beast of the two dragons. He turned his head and looked at Ye Xuan in the team. "I don't know how you found them, although I don't know." But this time, thanks to you, these two smoldering bodies are for you, as a reward."

Ye Xuan is also unpretentious and accepts directly.

At this time, Feiyun Zong and Baiyunmen have already been solved, but they do not know that this is the credit of Ye Xuan.

"Little brother, if you still find these smoky winds, please be sure to inform me in time." Xie Hai solemnly said.

With some sacred corpses, in exchange for such important information, the deal is naturally worthwhile. This time, if there is no Ye Xuan, the yin wind will probably kill the crowd in an instant, and the death and injury will be very heavy.

"The six shades of wind are slowly approaching, and then ready to sneak attack. If they kill at full speed, I am afraid I have no time to say it." Ye Xuan shook his head.

"No problem, you do your best, the body is all for you." Xie Hai said.

"I will."

Ye Xuan nodded.

Although his body is only thirty-nine, but there is the blood of the beastmaster, he can sense the wind and wind more quickly than others.

The stronger the strength, the stronger his sense.

However, the speed of the wind is extremely fast. If it exceeds his reaction, he will have no way to inform Xie Hai.

The team started moving forward again.

However, they have not taken two steps and the danger has come again.

This time, far more than the first two times, because the smog of the attack, full of the power of fifty-five dragons.

Although the number is only three, their sneak attack speed is almost beyond the current reaction of Ye Xuan.

"small....."

Ye Xuan was just opening up, and the three shades of the wind were killed. Moreover, they did not find the troubles of the nine people and directly entered the team.

In the meantime, the team has thrown up countless broken limbs.

Still slow!

Ye Xuan's eyes widened, and this can't blame him.

At this time, there was a fifty-five dragon smoldering into the team of Xie. There are only 15 people in the Xie family. Except for the three masters of Xie Hai and Ye Xuan and Xie Yu, there are only ten people left.

In the blink of an eye, Xie's family has five masters of forty dragons.
