

## Super D. S 3791

### Chapter 3791: Return to the Arc de Triomphe

The Arc de Triomphe is a starry city built by Ye Xuan's real ventral team!

The entire Triumph City, which is responsible for sitting in the town by the Wolded Mosquito, is responsible for the specific affairs of Naples, and is basically divided into two systems.

On the one hand, when the Emperor Xuan was sent to the death star, Napoleon took his armored fleet from the immortal army.

However, the size of this fleet is not large. At the time of Ye Xuan's departure, the entire fleet was only two star fortresses with a diameter of 100,000 meters, five small stellar-level fortresses of 50,000 meters in diameter, and a large diameter of 10,000 meters. Ten Fortress, fifty-star star-rated battleships!

Another system is the power of the Devil's team that Ye Xuan left behind.

When Ye Xuan left the Triumph City, he left the Devils, the Black Mosquito and other demon squadrons. There were a thousand mosquito beasts and a thousand soldiers, and there were several sorcerers and others. A number of demon slaves led by the long-term leader!

Including the first to follow his return to the sea, Naboshan, Pa Guai, Li Mo, Zuo Fengtai, the master of the slaves, and the bald Wei in the Black Wind, the dialect, the think tank Hongzhi, the housekeeper Pi Luo and other magic people The strong, all stay in these devils scouting fortress.

In addition to this, there is also the leader of the Du Laogui Du Wenxuan, the thousands of federal elites who had been released from the bottom of the Black Wind, Wan Luo Prison. These guys also all voted Ye Xuan, gathered together, claiming to be a triumphant think tank. .

In the end, it is from the arrival of the sky warrior, and the sequel to the sequel to Mr. Hu is the strongest!

Oh, yes, there is also a strong Taiwanese elite, but she was later modified by the emperor of the immortal dynasty to change the core source of electronic consciousness. It is no longer a celestial family, and has become a mechanical family under the emperor. a member.

It is considered to be sent by Emperor Er, and a dark child stayed by Ye Xuan!

These strong, in addition to the British and Taiwan because of the Emperor II, there are still some uncertain factors, all others, are all worthy of Ye Xuan's trusted confidant power...

.....

After leaving the Magic Emperor Star, Ye Xuan rushed to the black hole of life, found a secluded place, directly issued instructions to the body's engulfment system, immediately activated the plane-level interstellar coordinate jump ability, locked jump coordinate point, is the third universe Death star field.

This is not the first time that Ye Xuan has started the star-level coordinate jumping ability of the plane level. After this jump is completed, he turns to look at the slightly dimly empty space around him, but his heart still has a feeling of not real. .

For a moment, he came from the black hole of the first universe to the death star of the third universe, across the cosmic plane, but even the universe wormhole did not cross, this is simply incredible, saying that there must be no People believe.

Once again, he lamented the mystery and power of the phagocytic system.

As his level of cultivation is higher, Ye Xuan has a growing sense of curiosity about the ability of the body to parasitize the phagocytic system.

The pioneer of the Terran Technology, Xingbo, is really a great talent. It can create such a magical system. Even Ye Xuan, as the host, has grown to such a height in the starry environment, but it is still difficult to see its mystery!

After adjusting his mind, Ye Xuan quickly threw the matter behind his head and sacrificed the hole to go to the triumphant star.

Soon after, the huge triumphal star came into view.

Compared with the original departure, today's triumphal star is completely different. The star land table stands a magnificent city, not just the original triumphant city.

Even in the void around the Arc de Triomphe, Ye Xuan also saw a large number of warships that were cruising in the air.

When I left, the fleet of the Arc de Triomphe was not large. It seems to be a lot of weather. It shows that the development of this period is quite good. After all, it has an intelligent robot production line.

In addition, the countless stars of the entire death star field can arbitrarily extract various mineral deposits. The Triumph City is fully developed at full speed in a state without any constraints.

However, compared with the tens of thousands of warships held by Ye Xuan, it is still a lot worse. After all, the time of development is still short, and the construction of warships can be completed in large quantities in two days and two days.

Soon, Ye Xuan stepped out of the hole, so in the face of the fox, the body crossed the sky and rushed to the front of the Triumph.

A demon man who is patrolling in the void is waiting for the fleet to come, and he will rush out to the sea and greet Ye Xuan...

Soon after, Ye Xuan entered the main city of the triumphant city and came to the main hall of the city hall, surrounded by the sea of knives, Naboshan, Ba Guai, Li Mo, Zuo Fengtai, and the slaves of the slaves.

The wretched mosquito and the Neapolitan newsletter rushed in, and Yingtai was behind Naples, and it seems to have become his deputy.

This woman's ability is still very strong, assisting Naples to manage a big triumphal star, there is no problem at all.

Soon, a group of triumphant think tanks, including Du Laotou, also rushed over and squeezed the entire city's main house. Everyone had not seen it for a long time, and it took a while for a while, then gradually dispersed.

After all, everyone has their own responsibilities, and a big triumphal star, Ye Xuan, this dim sum is sitting in the town, all departments and institutions, can not leave people for too long.

After the crowds dispersed, only the wretched mosquitoes and the two of Naples were left behind. In addition, there was another Yingtai. She has indeed become the deputy of Naples and has the power!

"You can really toss your kid, how long does it take to go out? The names of the seven heroes of the world have been picked up by you. Are these seven deities, all of you?"

The wretched mosquito squad is still the same, the sinful virtue of the old hooligans, but from the point of his mouth telling the seven enchanting things, the Arc de Triomphe is isolated like this, hiding alone in this loneliness. The desolate death star has developed, but they have been closely watching all the news of the outside world.

At the back of Ye Xuan, he licked his mouth, and the wretched mosquito swatter then turned his eyes again and whispered: "Not too tired!"

"Cough, you can't leave me out of this matter. So far, only the three identities of Fox, Lord, and Taikoo have been exposed."

Ye Xuan smiled and smiled. Then he turned around and said: "This time I will not be able to stay for a long time. I have to leave at most two days. I have sent resources and warships. I have accumulated in this time. less....."

"In addition, there are two allies on the outside, the devil's group in the first universe, and the indigenous fierce beasts in the source of the evil."

"In which, the two kings of the indigenous beasts, who want to come back with me, will bring it by the way. These two days just take them to visit the Arc de Triomphe!"

During the talk, Ye Xuan waved the Shennong Ding in the giant square outside the city's main hall. In a moment, two figures were taken from the Ding, which was the Taikoo Porcupine and the Taikoo Turtle...

Chapter 3792: you are not human!

Shennong Ding is the refining and refining of Ye Xuan after leaving the Arc de Triomphe. Therefore, no matter whether it is a mosquito or a ghost, it is still not in Naples or Yingtai.

However, this tripod has been famous for three major planes. There are many videos related to it on the three star planes. Therefore, the wretched mosquitoes have been seen in the video.

In addition, Ye Xuan waved this trip at the moment, not the complete form of the show, but the control, only the size of a 100,000-meter-diameter big fortress.

For this reason, the wretched mosquito and the three of Naples did not show much surprise on their faces.

However, as the two figures in Ding were plucked out, then Ye Xuan waved his hand to the immortal world, while the Taigu porcupine, and the Taikoo tortoise that only succumbed to it, fell in the square of the city's main government. After the ground and the figure were clearly revealed, Naples and Yingtai immediately changed color.

Although the two fierce beasts are convinced, there will always be some leaks, plus the battle of the evil source, and the video of the Devil's Stars' event. .

Therefore, almost all the starbursts in the three major planes have seen the Taikoo Porcupine and the Taikoo tortoise in the video. Napoli and Yingtai also know these two indigenous beasts, but they are fierce names.

At this moment, I suddenly saw that they appeared in front of me. Can you not be surprised?

The reason why Ye Xuan brought the Taikoo Porcupine and the Taikoo tortoise to the Arc de Triomphe, the main purpose is to still take a look at the wretched mosquitoes and see if he can set aside his identity with the crazy mosquito king from the old guy's mouth. The only words from the bottom of the story come.

The initial appearance of the wretched mosquito trap revealed the strength of Qiankun's cultivation. Later, Ye Xuan knew that he was still cheated. The old guy later dared to say that even if the star lord came to the Arc de Triomphe, he might not be able to Got it well.

At that time, Ye Xuan was not mad, and it was still a conservative estimate that the old man was actually a star lord.

At that time, Ye Xuan once desperately had no hope for the words from the old guy's mouth. He didn't have the ability to force the star owners to be honest.

But this time it can be different.

The Taikoo Porcupine and the Taikoo tortoise can all exist in the domain of the main territory, and it is not the general domain owner, the two fierce beasts have all entered the late stage of the domain, otherwise they were in the source of the evil. It is also impossible to abuse the lord of the hollowed out and the Caisong family.

Ye Xuan this time can be described as confident and unparalleled.

Even if the previous thinking of the star's main territory was repaired, this mosquito-killing old ghost is still all hidden, and its true cultivation is in the realm of realm. In fact, it has reached the territorial domain of terror, and there is no need to worry.

Even if he is really a domain lord, even in the late stage of the domain, there are too old porcupines and Taikoo turtles to appear deterrent at the same time, enough to make this embarrassing pharaoh.

At the moment, when Ye Xuanyuan arrives, the Taikoo Porcupine and the Taikoo tortoise are invited from Shennong Ding, which is the purpose!

However, what makes Ye Xuan dumbfounded is that when the Taikoo Porcupine and the Taikoo tortoise appeared, Naples and Yingtai were stunned, and they were scared to breathe. The wretched mosquitoes were still the same, and the face was incomparably The smile is not changed.

This is not over yet!

Just as Ye Xuan was slightly stunned by accident.

The sights of the Taikoo Porcupine and the Taikoo tortoise have been forced to the past by the wretched mosquitoes, but the final result almost made Ye Xuan stunned and sat down on the ground.

Originally thought that even wretched mosquitoes were the domain owners, and it was still in the late stage of this situation. At this moment, when the Taikoo Porcupine and the Taikoo turtles joined forces to suppress the darkness, most of them had to eat.

But the facts are actually the opposite.

The line of sight between the two meets, but only the three interest rates are not enough. The Taikoo Porcupine and the Taikoo tortoise will be defeated, and the neck will shrink and the body's breath will be completely absorbed.

The Taikoo tortoise was even screaming at the screaming Ye Xuan, and he did not dare to approach, telling him to talk in the past.

"Two old brothers, you are not giving strength. What is the situation?"

Ye Xuan's face was dark, and a swept body rushed over, and together with the two fierce beasts and old heads, pressed down the voice and asked.

The Taikoo Porcupine and the Taikoo tortoise licked their mouths and exchanged a look. Then they took a look of jealousy toward the main hall in the far-away city hall. This was explained...

"Brother, it's not that the old brothers don't help you, the key is to hit the hard scorpion, you can't help it!"

"Right right, the eye is more fierce than the fierce, the old turtle I just scared to death, the world of boundaries... the old lord!"

"Shrimp?"

"puff....."

The four words of the lord of the world were in the ear, and Ye Xuan jumped on the spot and then spurted blood on the spot.

He finally understood, it is no wonder that this old guy is very calm, one person and two beasts are more fierce than their eyes, but they are all fearless, and they are not the same thing.

People are the lords of the landlord, afraid of a hair?

Uh... I can't believe this old \*\*\*\* anymore. First, I'm a slave, and then I'm transformed into a mighty power. It will not be long before it becomes a star lord.

This time, it's even more embarrassing.

If someone jumps out now, pat the chest and promise to Ye Xuan that the repair of the mosquitoes and the old ghosts will be like this. It is the lord of the landlord, and it is absolutely impossible to be stronger.

Ye Xuan's reaction is definitely a big ear, and then he swears and swears: "Go to your mother, when the Lord is a good fool?"

This old guy is absolutely not only the master of the realm of cultivation, this point, Ye Xuan is almost determined!

No way, it is all the time again and again, he is really desperate!

"Where you are a pharaoh, you are not a human being..."

I thought that my confidence was so determined this time, but now it is so bleak, it is just a complete defeat, Ye Xuan on the spot was miserable, watching the mosquitoes and ghosts in the distance gnash their teeth.

Did not wait to finish, suddenly someone pulled his sleeves behind him.

Ye Xuan turned to the first look, the Taikoo Porcupine and the Taikoo tortoise thief crouched down his neck and stayed behind him, carefully accompanying the laugh.

"Brother, what about your big trip? Hurry up and get out, this triumphal city is not fun, we still go back and forget."

"Play is a play, it's safe inside!"

"puff....."

This time, Ye Xuan really vomited blood, and thought that the two fierce beast brothers have a lot of horizontal, now it seems that the deceitful and fearful of the Lord, a lord of the landlord will be scared into such a thing, really special shame.

Under the sorrow, Ye Xuan sighed and waved again, and sacrificed Shennong Ding.

"call out!"

"call out!"

The sound of two broken sounds sounded, and the Taikoo Porcupine and the Taikoo tortoise escaped into Shennong Ding. It is estimated that Ye Xuan will be in a hurry and will not be able to catch up.

"What is Nima's name?"

Depressed, Ye Xuan waved Shennong Ding into the body.

In the next moment, the direction of the main hall of the city, a patter of heavy objects falling into the ground, suddenly came...

Chapter 3793: Scared old man

After a loud resounding, Ye Xuan subconsciously turned around and followed the precepts. In the scene he saw, he suddenly made him stupid, his mouth wide open, like a lively ghost in the daytime!

"Scared the old man! The domain owner is weird, the domain owner is weird, and the two are in the first place..."

In the sight, the old ghosts of the old gods were still sitting on the ground at the moment. They were pale and covered with cold sweat. While rubbing their hands, they raised their hands and wiped them on their foreheads. Good old man, I am calm, compared to my eyes, put on the momentum, never afraid of who..."

He was scared for a long time?

Ye Xuan suddenly felt that his brain was a bit messy, and the whole one was awkward.

I almost always wonder if I have an illusion!

What is the rhythm of this special? When the two sides met, both of them were scared... What a joke!

He suddenly felt a little bit crying, not fun at all!

At this moment, Ye Xuan is completely confused.

Is this mosquito-killing old ghost now deliberately concealing and pretending to be like this? Or was it really strong before, but it was relying on willpower and the two fierce beasts to fight their eyes, than the momentum, the danger is dangerously supported?

No matter which one is true, but one thing is certain, Ye Xuan is sure to see it. Today's matter is summarized. There are two points in the harvest:

First: Taikoo Porcupine and Taikoo Turtle are not reliable!

Second: mosquitoes and old ghosts can be installed too much, swaying the rivers and lakes, all rely on acting skills... the same is also not a reliable!

"Lie's have a grass!"

After summing up these two points, Ye Xuan arrogantly, tossing for a long time, in fact, nothing is harvested, and ultimately not only did not achieve the original purpose, the doubts of the heart is deeper, this thing is trouble...

.....

After some noisy, Ye Xuan was full of depression, and did not bother to stay in the Arc de Triomphe, seeing mosquitoes and old ghosts are annoying, extremely unhappy!

"External, you two, arrange it, the young master throws resources and warships out, and then you have to leave, there are still many things at that end, no time to stay here."

Looking up at the mosquitoes and the old ghosts and Naples, Ye Xuan said, while turning his eyes.

"Hey, the resources will be thrown on this Triumphal Square. The place is big enough. When I look back, I will let the sea go to the sea and lead a group of demon brothers to come over. The statistics are good, all of them are packed with large storage magic."

Say, Naples pointed to the square of the city seat in front of him, and then suddenly seemed to think of something, looking to the side of Yingtai, explained: "Right, Yingtai is now my deputy, the logistics of the Arc de Triomphe are all She is catching it with one hand."

"Oh, I know."

Ye Xuan nodded and glanced at the Yingtai next to him. The other side was looking at her with big eyes. The two looked at each other. Yingtai grinned and smiled. It was quite pure, without the former feminine breath. It is.

However, at the thought of this gimmick is actually a smart mechanical life, Ye Xuan suddenly trembled, and quickly moved his eyes away, did not dare to look at it.

"Oh la la..."

During the wave, the massive resources of the mountains in the immortal world were taken out by Ye Xuan, and the entire grand city seat square was piled up, and the top of the building had to look up, at least on the kilometer!

"I... I am grass!"

Napoli was dumbfounded on the spot, Zhang Dazui looked up to see how high the resource was, and finally broke a thick mouth from his mouth.

Yingtai is also stupid, and a pair of big eyes blindly turned into a circle, apparently also made a mistake.

Only the mosquitoes and old ghosts still care, but they also licked their mouths, but they were so demeanor. They looked at Ye Xuan's roots and itched. They just wanted to put this acting invincible love to the dead old man, and lived on the spot. !

"Right, how many warships are there in the Triumph Fleet? More than a kilometer in diameter and more than 100,000 meters in diameter, all come in..."

The cultivation resources and various mineral deposits piled up in the mountains and mountains have not been able to kill the wretched mosquitoes. Ye Xuan always feels that his heart is not happy, just like a fishbone stuck in the throat, not spitting.

Fortunately, there are still thousands of warships in his hands. Can this always give the old guy a town?

With this expectation, Ye Xuan turned to look at the development of Naples, and deliberately magnified the voice, his face also showed a good color: "This time, this little master even brought back some warships, but it can not be placed here. I got a lot of space outside the Arc de Triomphe, a lot!"

Naples was obviously a bit embarrassed, and the wooden head was in the head, even when it was with the wretched mosquito, Yingtai, and behind Ye Xuan, came to the universe of the universe outside the Arc de Triomphe.

Seeing Ye Xuan standing in the void in front of him, he remembered the words and quickly said: "The warships with a diameter of more than one kilometer in diameter, the entire Arc de Triomphe now has more than 50,000 ships, the scale is amazing..."

When it comes to this matter, Naples is also very proud. When Ye Xuan left, there was only one Arc de Triomphe, and the battleship was 10,000.

Now the entire Triumph is full of steel and steel, and the battleship has reached 50,000. It is quite remarkable that such a short time can have such a result.

fifty thousand?

This amount is similar to the result of Ye Xuan observation, which makes him laugh.

"Fifty thousand? It's not bad..."

As he spoke, Ye Xuan proudly squinted at the wretched mosquitoes, and then waved, and put the thousands of warships on the slopes of the central volcano in the inner space of Shennong Ding, all of them were sacrificed.

When these warships received Shennong Ding, they could only find a lot of manpower, and a ship was opened in the open. With Ye Xuan's current cultivation as its strength, there was no way to mobilize Shennong Ding and directly charge such a large amount of foreign materials.

But in the space inside Ding, he can easily come out with a bone-bone, so it is very easy at the moment.

Just a wave of the hand, the front of the sky is full of voids, it is full of all kinds of warships, at least three kilometers of diameter, and the small fortress of 50,000 meters in diameter and the fortress of 100,000 meters in diameter are also A lot of money.

As for the size of the fortress of five kilometers in diameter and 10,000 meters in diameter, it is more.

"Mom..."

Napoli scared his \*\*\*\* on the spot and fell to his eyes. His eyes were squinting and he was speechless for a long time.

The British side of the side also took a sigh of relief, and opened his mouth with a big mouth, the whole person was embarrassed.

For this kind of performance, Ye Xuan was very satisfied. He smiled and turned to the mosquito and slaughtered the old ghost. He originally wanted to see a shocking color from the face of the old guy, even if it was only a little, he also I am so sweet.

The result made him disappointed.

The old \*\*\*\* is still a demeanor. He snorted and whispered in a careless manner: "Thousands of warships? The top is used, the old lord is shot, and the group is destroyed..."

Although this is a bit of a match, I have to say that it is really big!

Ye Xuan is dumbfounded. At this moment, he only wants to swear: "I am %\$#^..."

Chapter 3794: True phoenix

I thought this time was the hometown of Ronggui, and the result was triumphant, but the final result made Ye Xuan very injured. The Taikoo Porcupine and the Taikoo tortoise were not reliable, and the wretched mosquito-killing old \*\*\*\* was too professional to be true and false. Let Ye Xuan return this time, it can be described as defeated, the whole person is smashed!

Originally prepared to stay in the Arc de Triomphe for three days, but in the end, after Ye Xuan handed over the warships, he left the Arc de Triomphe even if he fled, and entered a secret room of the city's main government to directly expand the plane-level interstellar coordinates. Jumping ability, returning to the black hole of life in the first universe of the devil's star.

It was not until half a day later that the news of his departure was spread in the Arc de Triomphe, and he remained outside the city hall. He was also prepared to meet him alone and suddenly lost his sight.

The face showed a touch of extreme disappointment, muttering to himself: "Is this deliberately hiding me? I just wanted to report a business, I really have a way to find the heavenly family..."

.....

One after another, there is no use in one day, and there are at least three or four days from the nest of the ancestral home of the Rats.

Ye Xuan decided to make good use of these days. After all, once the war is opened, I am afraid it will be difficult to take free time.

There are several things in front of you.

Prepare 14th and 15th grade liquid!

At the moment, it will only be the trenches and battleships of the starry sky to the treasure, and then melt it once again, so that it will reach the starry sky to the treasure level!

After some indulgence, Ye Xuan decided to use these three or four days to do both of these things, and the time is basically enough!

Ye Xuan's treacherous glass glaze has undergone six fusion condenses. At present, it is the starry sky to the treasure level. The calculation of time and the final sixth fusion condensate are actually a long time ago.

For the long time, there is no such thing as a seventh melting of the glass glaze. There are two main reasons.

The first is the lack of a suitable fusion, to the level of the starry sky to the treasure, the next goal of melting, is basically to go to the starry sky to the treasure level, this kind of artificially created treasures and the world's breeding of minerals and crystals, heaven and earth Different treasures, it is difficult to reach the true starry sky to the treasure level.

Therefore, the immersion chosen in the seventh smelting is extremely important. After the incorporation, it is necessary to make the qualitative change of the glazed glass.

Even if Ye Xuan is in a huge amount, he has countless treasures and various rare resources in his hands. Since then, he has not found a suitable immersion.

Another reason is that the more the smelting goes, the more accidents occur, and the greater the chance of failure.

Although the fusion system of the phagocytic system has not seen the situation of fusion failure so far, it does not mean that this situation will not occur. The system description of the fusion system has a clear explanation, and the treasure fusion has a certain probability of failure. .

Although not high, it exists after all.

The glazed glaze and the snail shuttle have been successfully merged several times, and each time they incorporate a rare treasure. These treasures are basically gone in the hands of Ye Xuan. If they are casually, they will start a new smelt. A failure led to the collapse of the magic weapon. It is estimated that Ye Xuan cried without crying.

It is precisely because of this two reasons that he did not destroy the glazed glaze and the vain shuttle. After completing the last smelting, the grade has reached the level of the star to the treasure, and it has not improved the quality.

In fact, even if the sword is a \*\*\*\* blade, not long ago, from the starry sky to the treasure level to the real starry sky to the treasure level, Ye Xuan is not completed through this system melting.

It is because the blade spirit of the inner edge of the dead blood blade will be revived, leading to the transformation of the war, and then into the real starry sky.

But that is not reproducible, and then his trepidation does not destroy the glass armor and the battleship hole inside the virtual shuttle, there is no so-called instrumental spirit, so if you want to upgrade all of their grades to the true starry sky to treasure level, The only way, or only the system is melting!

Fortunately, this time, Ye Xuan got a lot of resources because of the star-studded source of the evil, and from the hands of the eight lords, he got some minerals, crystals and stars. Tiancai treasure.

The entanglement of the smashing of the glazed glaze and the battleship of the battleship was finally met.

They are the real phoenix, and the Dapeng is broken!

These two kinds of treasures are flesh and blood treasures, and they are not treasures of minerals, crystals or heavens.

Their grades are all from the stars to the treasures, and the flesh and blood treasures of life can reach this level, which is quite rare!

True phoenix blood, it is said that it is a drop of phoenix true blood left by the true phoenix nirvana, with a powerful power to return to life, this drop of true phoenix blood, Ye Xuan is indeed this income, but not from the eight The domain owner blame the possession of the treasure.

Instead, it was scoured from the resources of the landlord who had been paid by one of the more than 100 million detained hostages.

At that time, the blood of this phoenix was sealed in a blood-colored crystal. The other party did not know what it was. It just felt that it must be extraordinary, so it was kept. I didn't expect it to be cheaper.

This drop of true phoenix blood, Ye Xuan is intended to be used to melt with the glazed glass, if it is successful, the unique attributes of the true phoenix blood will be perfectly integrated into the glazed glass.

At that time, based on the experience of the past, the name of the immortal glass glaze should also change, and the grade will be promoted to the true starry sky to the treasure level, with a probability of at least 80%.

In addition, the new tactics, because of the new attribute effects obtained by incorporating this true phoenix, will be related to Nirvana and the return of life.

For a trench, this attribute power is obviously the most rare.

It can be said that this drop of true phoenix blood, for Ye Xuan's immortal glass glaze, is definitely an unprecedented creation, will make it change, from just a strong trench, and become some kind of near life Attributes.

The life of the true phoenix has only appeared in the distant old times, and the world has long been invisible.

Even in the core hinterland of the abundance of the ancient evil beasts, Ye Xuan has never seen a true phoenix. Even if it is the wreckage of the wild creatures in the void, only two suspects have true The powerful birds of the blood of the phoenix are not really true.

In fact, even if you encounter a real phoenix, if you want to get a drop of true phoenix, you can basically only be a luxury.

The blood in the body of true phoenix can not be regarded as the true blood of Nirvana. Only when the true phoenix is in Nirvana, the last drop of phoenix blood left by the rebirth of the fire can be called the true phoenix.

Generally speaking, once the true glory is successful, the blood of Nirvana does not exist, and the transformation into a new true phoenix means rebirth.

That is to say, a drop of true phoenix and blood, what is represented, is actually the life of a true phoenix, Nirvana fails, this drop of Nirvana blood can survive!

This shows that this drop of true phoenix blood is valuable...

Chapter 3795: Dapeng

Compared with the true phoenix, the rare degree of Dapeng's smashing is obviously weaker, but it does not mean that it is not precious. Therefore, it is also a treasure of life and blood. This Dapeng is also broken. It is impossible to be like the blood of the true phoenix, but the starry sky to the treasure level.

Dapeng broke through and said nothing, in fact, it is a color after the brain of Dapeng Bird!

This color enamel has existed since the birth of the Dapeng bird. Dapeng has changed feathers several times in a lifetime. The feathers of the whole body will be smashed every time when they change their feathers. Newborn, only this broken scorpion is born. Death is always this one!

It can be said that this colorful pottery condenses a \*\*\*\* essence of Dapeng's life, and it will fall off on its own only after the Dapeng bird has fallen.

Because the biggest characteristic of Dapeng bird is its speed, the only color that accompanied this life is called Dapeng.

Although catching a Dapeng bird, it is basically equivalent to getting a Dapeng break, not like a real phoenix, even if you catch a real phoenix, you have to be patient if you want to get a drop of true phoenix blood. Wait until it is nirvana, and Nirvana must fail, leaving a drop of Nirvana blood.

From this perspective, on the surface, it seems that the blood of the phoenix is more rare.

But in fact this is not true.

Because Qingtian Dapeng, like the real phoenix, belongs to the ancient living beings that existed only in the ancient times, the world has long since disappeared.

And even in the distant old days, Qingtian Dapeng is also very powerful, and more speed to see peace, a wings spread is 30,000 miles, who can catch?

It can be said that if you want to get a big break, it is only possible to wait until a blue sky Dapeng falls on its own body and then falls off its body.

But this kind of treasure that accompanied his life, how can Qingtian Dapeng let it casually flow outside? Basically, before the fall, this Dapeng was destroyed, or it was properly disposed of.

The smashing of the Dapeng in the hands of Ye Xuan was obtained from the hands of one of the eight lords. The original star of the flesh and blood treasures is too precious, generally impossible. Will be handed over.

However, the lord of the domain is from the top ten ethnic groups in the second universe. It is not a strong family of people who are good at refining the martial arts. It is useless to hold this kind of star-to-treaty flesh and blood. It cannot be used, for example. The refiner is integrated into the magic weapon.

However, such treasures are not safely handed over to others for condensing. In addition, even the Terran's comprehension camp can have the strength to successfully integrate this level of flesh and blood treasure into the magic weapon masters, as well as the phoenix scales. There are few.

Therefore, after a long time, this rare Dapeng broke into his hands, it was like a chicken rib, it was useless, and it was a pity to abandon it.

When I usually take it out on weekdays, I often feel depressed.

So, taking advantage of this opportunity, simply throwing out the goods, and finally it is also cheaper Ye Xuan...

This Dapeng breaks through, and Ye Xuan intends to use it to melt with the hole.

Dongxun shuttle is basically an all-around battleship now, even killing the battlefield, but with Ye Xuanxiu's strength improvement, the level of contact is different, and its speed is gradually not enough.

With the integration of this Dapeng, its speed will be reborn.

After the decision, Ye Xuan quickly took out the four treasures to be melted from the immortal world, and then, in the brain, a familiar system sound was heard...

"Hey, congratulations to the host, found that the treasure can be merged: not to destroy the glass, the true phoenix blood! Is it immediately integrated?"

"Hey, congratulations to the host, and found that the treasures can be merged: Dong Xuan, Dapeng broken! Is it immediately integrated?"

Ye Xuan did not hesitate, even if a definite reply was made, and it was still merged at the same time!

After the decision, he waved the hole and the glare of the glass, and the phoenix and the smashing of the phoenix, all of which were handed over to the engulfing system, including a lot of freshly taken from the immortal world. As the star nuclear source for energy consumption during fusion!

Everything is ready, and the system sounds at this time.

"Hey, congratulations to the host, the third fusion of the glass is not extinguished! Progress 1..."

"Hey, congratulations to the host, the beginning of the eighth fusion of the virtual shuttle! Progress 1..."

Ye Xuan Changsong breathed a bit, and the heartstrings were inexplicably tight!

From the beginning to the end, although his warfare, armor and warships have been merged many times, there has never been a failure. Up to now, they have succeeded six or seven times in succession, and the hole has reached seven consecutive successes. Fusion.

However, the possibility of such a failure to the end of the merger is greater, the same, the more to the back, once the fusion fails, in Ye Xuan, the loss will be more and more serious, suffering from the loss, it will inevitably be a little embarrassing!

The more times the fusion succeeds, the more time it takes to continue the integration. The time it takes to rise is also a torment. This time, the integration of the two treasures of the battleship is at the same time, I am afraid it will take at least three days. In order to have results.

This is because the improvement of Ye Xuan has improved a lot, and the body's phagocytic system has also achieved the result of a large number of evolutionary upgrades because of the previous system competition.

Otherwise, I am afraid that it will take longer!

Soon after, Ye Xuan finally calmed down his mind, no longer entangled the results of the fusion, throwing the matter behind his head, idle and bored, just use the practice to pass the time!

After closing his eyes and knees, Ye Xuan entered the state of cultivation, and soon I forgot both, letting time pass, no surprise!

After about three days of touching, Ye Xuan withdrew from the state of cultivation, his eyes just opened, and the familiar phagocytic system sounded in his mind. The integration of the battle armor and the battleship was finally completed!

"Hey, congratulations to the host, the glass is not destroyed for the seventh time! The treasure is not destroyed Nirvana! Grade: Star to treasure! Quality: no perfect!"

"Hey, congratulations to the host, the success of the eighth virtual fusion! Get the treasure to break the virtual! Level: Star to treasure! Quality: no shortage of perfect!"

Sure enough, the fusion of the two treasures was unfolding at the same time, and the results were still successful. There was no accident, and the tight heartstring of Ye Xuan was completely released.

What surprised him even more is that after the two treasures have successfully completed this fusion, their grades have all been upgraded to the starry sky to treasure!

At this point, Ye Xuan's warriors, armor, and warships have all three of the most basic stars and treasures, all of which have reached the starry sky to the treasure level. If they are passed out and are known, I am afraid that it will cause an earthquake-like sensation. The artificially forged treasures are no more than those born in the heavens and the earth like Lei Diyin. Basically, the starry sky to the treasure level is already the peak.

And Ye Xuan broke this embarrassment, which is equivalent to creating a miracle that has never existed in history...

Chapter 3796: Fifteen grade liquid

After this smelt, Ye Xuan's trenches and warships not only succeeded in becoming a true starry sky, but the name also changed. This change in name represents the emergence of new attributes and new power enhancements. .

At this point, his three warships, trenches, and warships are basically the treasures of the sky, all of which have reached the true starry sky to the treasure level. Once the warriors and trenches are all sacrificed, under the support of their power, Ye Xuan The real combat power will increase by at least 20%.

The warships have a faster speed. After the hidden array method is opened, it is not only the simple effect of concealing the shape, but also the natural talent of the space mouse, which can be perfectly integrated into the void. .

According to Ye Xuan's estimation, it's possible that even the main lord of the domain will be able to discover it!

This is definitely the treasure of escape. For Ye Xuan, it is of great significance. After all, not all critical situations are suitable for directly starting the interstellar coordinate jump ability to escape!

In fact, this time, after incorporating a drop of true phoenix, his invincible nirvana already has a terrifying ability equivalent to death. As long as this treasure is in the body, it can help Ye Xuan next time. A mortal assault.

Of course, once this kind of neat Nirvana can be stimulated, the nirvana will also be damaged. This is indeed a pity, but no small gain can be made without paying, let alone a life-like For Nirvana?

Fortunately, even if the trenches are damaged, there is at least a possibility of repair in the future. This is to make Ye Xuan feel a little more worried.

With the joy of the heart, Ye Xuan will not sacrifice Nirvana and the demon blood blade together, and the war will be worn, the sword will be in hand, and the broken virtual shuttle will be sacrificed, playing in the vast and silent void of the black hole of life. Fan, my heart is very exciting, and I am mad at the sky!

After a long time, the excited mood gradually calmed down, calculating the time, and one day or so, Ye Xuan decided to use this time to prepare the 14th grade liquid and the fifteen grade liquid which were urgently needed.

At the moment, the cultivation of his body and blood has reached the third level of the thirteenth world. There are several small-level breakthroughs. Once the field reaches the ninth stage, it will require fourteen-level liquid. , used to break the human body's potential again, otherwise it will not be able to move forward!

It can be said that the preparation of the fourteenth grade liquid and the fifteen grade liquid is already imminent!

If it is in the past, this matter is really urgent, and it is not urgent!

The fourteenth grade liquid and the fifteenth grade liquid are not all things. So far, in the immortal dynasty of the Terran Science and Technology camp, the major forces and families of researching genetic fluids can only formulate eight and nine grade liquids.

The ten-level liquid will only be able to be prepared by the Tuoja family. This is the result of Ye Xuan's previous efforts to use the ten-level liquid formula when he was using the resources of the family to consume their family's resources.

The fourteenth grade liquid is worth mentioning. Taking a tube successfully, it is the creation of a four-dimensional environment.

However, the fifteenth grade liquid was unacceptable. Once the strong person of the Zhou Guangguang took a tube and successfully broke through, the mighty power of the fifteenth world was instantly born.

Even the power of the Qiankun Kun, only one or two tubes and fifteen grades of liquid, can be created by the strong people of the Zhou Guangguang, showing its horrible efficacy. From this, we can see how valuable this kind of genetic fluid is, when it is formulated, all kinds of natural treasures.

Even Ye Xuan, many times robbery, extortion, can be described as a bad thing, and the objects are all top-level forces and ethnic groups in the three major planes, but in his hands, he still has not prepared the two kinds of genetic fluids. All heaven and earth treasures.

In fact, it's just that the preparations for all the necessary treasures are just complete.

The most important and difficult part is the derivation formula, and the actual preparation!

The formula of a gene culture solution is often used for the top-level forces in the research field of any gene culture fluid. It requires many years of careful exploration, numerous preparation tests, a large amount of medicinal materials, and finally a certain luck factor. In order to successfully finalize.

The higher the grade of the gene solution, the longer it will take and the harder it will be.

However, for Ye Xuan, since he got the nine colored meat mud and the evil source liquid from the deep furnace in the core hinterland of the evil roots, all this is no longer a problem.

Nine color meat mud is already extraordinary, and the evil source liquid is hard to find. These two things are mixed a little bit, even if the formula and preparation that would have failed will eventually succeed!

It can be said that Ye Xuan is now preparing a genetic culture solution, and basically there is no possibility of failure. Even for the fourteenth grade liquid and the fifteenth grade liquid, as long as the general formula is derived and then the two things are mixed, Can guarantee success!

Soon, Ye Xuan took out a lot of rare and precious treasures that had been prepared from the immortal world, including Wannian lunar eclipse, phoenix sapphire, sapphire blood, and silkworm 10,000 bags of pregnant bamboo...

All of them are extremely rare top-level treasures. Nearly half of them are extorted from the top three powers of the three universes. If Ye Xuan collects it himself, it is estimated that it is not known. How many years can you get together!

In addition to the basic natural treasures required for these preparations, Ye Xuan also prepared a part of Jiu Cai Muli and Wancai source liquid, and finally took a little sinking, and took out some of the furnace milk emulsion, and the intermediate treasure \*\*\*\* ant liquid.

Jiu Cai Mu Mu and Wancai Source can ensure the successful preparation of the gene solution, and enhance its quality, playing a sublimation-like role.

The snail emulsion and the intermediate treasure \*\*\*\* ant liquid can improve the actual effect of the genetic fluid after the successful preparation. After all, these two treasures can all be quenched treasures, which are difficult to obtain in general!

Since the need to say more, it is the intermediate \*\*\*\* ant liquid. Although there are also \*\*\*\* ants, there are even advanced ones, but Ye Xuan's hands are purified by the three-color flame of Shennong Ding, even if it is in the \*\*\*\* ants, there is absolutely no!

After doing all the preparations, Ye Xuan even started the preparation.

With the experience of preparing the above 14th grade genetic fluid, Ye Xuan has done all this with ease, and his actions are as skilled as his peers.

This time, the fourteenth grade liquid and the fifteen grade liquid, he even made it together. If the matter is spread out, it is estimated that all the patriarchs and senior officials of the top family of all the genetic fluid research fields in the Terran Science and Technology camp have desperately committed suicide. ... no face to live again!

To his own surprise, this time the preparation process was surprisingly surprising, and every step and step was a one-step success.

Originally thought it would take a day to prepare, and finally Ye Xuan only completed it in one hour.

Fourteen grades of liquid and fifteen grades of liquid, all of which have been prepared with eleven tubes, which is a great harvest...

Chapter 3797: Processing lions

These three or four days, the significance of Ye Xuan is extremely significant.

Not only have the trenches and warships all advanced, they have become the real starry sky, and they have also added the unique new attributes of the power horror, and even succeeded in the preparation of the 14- and 14-level liquids that are urgently needed.

That is to say, in the realm of the body and blood, the present, he has been able to smoothly upgrade to the fifteenth world, and the time has come, everything is in order.

By then, Ye Xuan will become a real power.

If the \*\*\*\* magical power of the konjac is activated, even if it can no longer be as before, the strength of the two realms will be raised in an instant, and at least one big realm will still be promoted.

At that time, Ye Xuan was a powerful man, but he could show the power of the star's main territory. This is absolutely terrifying.

Because if you add other means to the magical powers, supplemented by various treasures, I am afraid that I can fight with the domain owners.

In the case of Qiankun, the power of the main battlefield lord, this matter does not say after the end, fear is also unprecedented, it is Ye Xuan himself think about it now, are shocked!

When it comes to the issue of combat power, Ye Xuan suddenly remembered the lion and lion of the second universe warrior lion!

Anyway, one day, he decided to take advantage of this opportunity to concoct lion Wanjin to see if he can surrender this kid!

The only difference is that Ant Jiu Ming and Meng Ma Shan are still intact. The repairs in the body are imprisoned by Ye Xuan when they are knocked out due to the \*\*\*\* stick, but that is all.

However, the lion Wanjin is different. His Taoji has been destroyed. He was taken away by the lions of the warrior lions. He has already taken the lion tyrant of Ye Xuan, and now the lion Wanjin has become a waste, and he has been used by Ye Xuan. Tiancaidi treasure hangs a breath, can't die!

Even so, Ye Xuan has imposed a ban on him to prevent him from killing himself!

As for the purpose of doing this, without it, it is for the \*\*\*\* magic of the lions, and the lions are nine!

Lion Wanjin only changed the lion and lion into a fourth change. Once activated, it can already have a blood of 100,000 feet. The flesh and blood are invincible, and the core of the evil is the core of the day. In the hinterland of the edge of the hinterland, even Ye Xuan was at a loss to him.

If this \*\*\*\* magical power can win the hand, after some improvement, Ye Xuan has the confidence to turn it into a magical

If it is successful, even if it is just the same as Lion Wanjin, only the fourth change will be realized. Ye Xuan's konjac will reach a giant of 100,000 feet. At that time, other means and magical powers will be used. The domain lord saw Ye Xuan, and they only ran off the road!

Just think about it, he is already very excited.

Of course, this matter is indeed a bit inhumane. First of all, it is a humane base. Now it is necessary to concoct people, force confessions, and win people's blood.

However, Ye Xuan does not care about this. He has gone through the ordinary mortals all the way to the present. This kind of thing has experienced too much. The practice is the anti-sky move. How can it be too fareous to go far?

What's more, he and Lion Wanjin were originally dead enemies, even if Ye Xuan was in the hands of the other party, if necessary, Lion Wanjin would be like this to him!

Therefore, even if the lions are used to make lions, then Ye Xuan's heart is innocent and will not affect the stability of the road!

After the decision, even if he waved the Shennong Ding and opened the hidden function, he stepped into the Ding and went to the bottom plain of the central volcano!

On the bottom of the volcano on the bottom of the mountain, three cages of the mountain wall lined up, and there were ants Jiu Ning, Meng Mashan and Lion Wanjin respectively. After seeing Ye Xuan, the

three guys were all glimpsed, and then The ant nine meditation and the fierce horse mountain were nervous and retreated to the corner, while the lion Wanjin remained in place.

Bloody mans, gnashing his teeth and looking at Ye Xuan, there is a kind of hob meat rack that is not afraid of boiling water!

"Don't be so glaring at me, you and I are hostile. For you, everything is time and life. If you change it, I will fall into your hands. It is similarly the end!"

Ye Xuan smiled faintly: "I hope that there will be losses when I gamble. If you lose, you have to bear all of this. If you don't even have this awareness, the mood of your family is too disappointing!"

Although this discourse is ruthless, it is not a bit of water. Not only does Lion Wanjin listen to it, but even the ants and nine horses in the cages on both sides and the Maoma Mountain are caught in a small squat. Contemplation.

"My Taoji has been destroyed. It has already been a waste. Why not let me go to the market?"

Perhaps Ye Xuan's words played a role. The madness in the lion's golden glory faded away. Although the face was still awkward, at least the tone was calm: "Is this the state of mind that you are proud of? Leaving the captives that have been abandoned, shame and fun?"

"Wrong! Just because of you, it is not worth the time for the Lord to waste time to humiliate and enjoy the music. To the present level of the Lord, it is at least a domain lord, otherwise there is no sense of accomplishment..."

Ye Xuan smiled lightly, shook his head, and said the words seemed to be forced, but it was indeed his heart.

Even a star lord let him go to humiliation, but today's Ye Xuan, I am afraid that it will not feel how great this is, how much interest.

Lion Wanjin obviously can't keep up with his rhythm, and his thinking jump is a bit big. After listening to this discourse, he suddenly became more embarrassed.

Ye Xuan stunned, and there was not much nonsense, just straight to the point: "Speak straight, in fact, the wolf was strong and waited for, although the young masters handed them out, but after all, the road base has been destroyed, even if they return to the ethnic group, The result is the same, dead is okay, not dead... more painful!"

"The reason why I stayed with you is really nothing to do with humiliation. What I am looking at is the  
\*\*\*\* lions of your lions and the lions!"

"You are a singer of the singer, although only the fourth change of the lion is realized at the moment, but the complete inheritance of the lion lion will be inevitable. You will have it. Then you can get rid of it..."

"This little master said that there is no such interest to humiliate you, and there is no such time. But if it matters, it will naturally be different!"

At the end of the day, the look on Ye Xuan's face gradually became serious: "Don't look at me like this. If you change positions, you will do the same to me. Therefore, this matter will not affect my heart. Come out, you and me will save trouble, otherwise, you know... I don't want to waste my energy to concoct you!"

"Roar!"

"Lake Fox, you are crazy!"

After listening to Ye Xuan's words, Lion Wanjin thoroughly understood, and raised a terrible roar in his hair. If he was crazy: "You can give it a try. Even if I am dead, I can't reveal the strongest among the people. Blood and magic!"

"is it?"

Ye Xuan frowned, and then, suddenly seemed to think of something, sighed: "In fact, I have a very simple way to get the lion nine changes, but that is really a bit cruel to you, after all, is a strong ethnic group Tao, you still have... dignity!"

Chapter 3798: Konjac nine changes

"What do you mean?"

Ye Xuan's words revealed Xuanyuan, and Lion Wanjin apparently couldn't touch it. He stunned and asked questions with suspicion, and obviously had some lack of confidence.

"Your doric is destroyed, you can't search for the soul, otherwise it will be directly degraded, let alone control your mind with the control of the soul. Perhaps, because of this, you will be so hard?"

Having said that, Ye Xuan once again sighed and sighed: "But I have a secret method, which has nothing to do with the soul, even with the power of the gods, but it can make you feel like being controlled by the soul. By then, you will not only scream The secret of the lion's nine changes, will also recognize me as the main,

After waiting for Ye Xuan to finish, the ants Jiu Ning and Meng Ma Shan in the cell next to him have all looked blank. Staring at Ye Xuan is like watching the devil.

The lion Wanjin was even more shocked, and his mouth was sluggish for a while, and finally he snarled wildly: "You lie! How can there be such a sorcerer? It has nothing to do with the soul, not even use it." God knows, you can control the soul, you...you are clearly swindling me!"

"Is that necessary?"

Ye Xuan once again sighed: "This secret method does have a certain success rate. However, if you are still repairing, the chances of success will be small, but you are now completely ruined, repaired as lost, and ordinary people. Different, this success rate problem... basically can be ignored."

"You... are you ready? Of course, now that you regret it, the young master can still give you a chance to take the initiative!"

"Do not!"

"You lied, you lied, don't want to swindle me..."

The shape of Lion Wanjin once again stunned, and he was desperate, but he still refused to bow his head. As a warrior of the War Lions, his pride did not allow him to bow to Ye Xuan!

"In this case, then... offended!"

Ye Xuan no longer insisted, waving a hand, an invisible and inferior spirit imprinted from the palm of his hand, rushing to the center of the forehead of Lion Wanjin, flashing in...

The secret method that Ye Xuan said is the variation of slavery!

The slain is the secret of the spiritual power of the devil. It is true that the soul does not matter, and does not involve the spiritual category of the human monk.

In the past, slave printing only played a role in the devil's strong, because it must enter the spiritual source of the brain of the devil's strong brain, in order to control the spiritual source of the core, so as to achieve the effect of the human monk's control of the soul. .

But since the last time Ye Xuan's sorcerer's secret has changed, this situation has changed!

In the past, when the secret law of slavery was exerted on the strong man of the devil, the effect was to enslave the other by controlling the spiritual core of the brain.

Now, after the primary mutation, applied to non-living objects, the effect is equivalent to refining, but it is far from refining in the ordinary sense. It also has a unique attribute blessing, that is, hiding and confusing... ...

The primal skills of primary variation, in addition to the extension of the application domain, have unique properties that hide and confuse these two metamorphosis.

If you use the mutated slave printing skills to refine the magic weapon and other things, if you fall into the hands of others, the other party can't see that the magic weapon is refining, this is the hidden attribute!

If the other party tries to refine the magic weapon, Ye Xuan can take back the ownership at any time. Between the meditation, the other party's hard work of refining will disappear, and the magic weapon that was originally in the hands will be anti-water, inexplicable. It was countered by Ye Xuan, this is the confusing attribute!

Concealing and confusing the power of the property, Ye Xuan had tried it once before dealing with the old and the old ancestors, and it was almost against the sky. It was estimated that the lucky and old ghosts in the battle were in the battle. I haven't figured out how it all happened until now.

However, Ye Xuan is now using the singularity of mutating slavery, but not because of its unique hidden and confusing effects, but because of its application to the outside world of the genie.

The slavishness of the primary variability can only be used by most of the non-living objects other than the devil and the devil. Ye Xuan was refining the void and fighting the battle.

But besides that, it is useless to the starry sky, but it has a certain chance of success for ordinary people who do not have the ability to cultivate.

What Ye Xuan is trying to do now is to use the primary variation and slavery to refine and refine, or to accept the lions!

"what did you do to me?"

With this invisible and non-existing variability of slavery, the lion Wanjin was shocked, and his face suddenly panicked, and his face stunned and asked Ye Xuan.

Unfortunately, he didn't even have the chance to hear the answer. A touch of confusion quickly appeared in the depths of the lion's bottom, and it was so intense that his eyes became sluggish and dull... Successful!

"The effect is still very good! Sure enough, I didn't let the Lord disappointed..."

Ye Xuan smiled and nodded, whispering, subconsciously turning his head and glanced at the ants Jiu Ning and Meng Ma Shan in the cage next to him.

In fact, he still has not said the second half of the sentence, it is a pity that this secret law is ineffective against the starry sky... At least, in the current stage of primary variation, it is indeed ineffective.

But for this, the ants and the martial arts are obviously not known. At this moment, the faces of the two people also showed a strong sorrow.

Just now, they saw the whole process with their own eyes. The lions and lions of the lions, the lions and lions, were all stunned by the sorcerer's sorcerer. , lost his consciousness, and since then he has been a slave...

This is simply amazement, like a big horror, so that the body shape of the ants and the martial mountains are trembled by fear.

Ye Xuan is dumb and feels funny. These two guys are obviously afraid that Ye Xuan will use the same means to deal with them. I don't know that the slavery of this primary variation does not work for the strong star who has repaired strength. Unless it evolves again, it may be possible.

However, this misunderstanding is also a good thing. At the moment, Ye Xuan has not thought about how to use the ants and the martial arts, but the things just happened must have left a strong fear shadow in their hearts.

When you need to use these two guys in the future, you must do whatever you can, and you will get twice the result with half the effort.

"Now, the \*\*\*\* fascination of the lions, including all your understanding of the first to fourth changes, all in my mind..."

Soon, Ye Xuan will take his eyes back from the body of the ants Jiu Ning and Meng Mashan, sweeping to the face of calm, devout lion Wanjin, the tone of the cold, lightly open.

At the same time, a glimpse of the gods also emerged from the brain of Ye Xuan, and did not enter the eyebrows of Lion Wanjin. As the latter kept thinking about everything about the lions and lions, these messages were also Xuan recorded it in real time.

All the information, Ye Xuan will be handed over to the phagocytic system, and the system will be deduced and improved. I believe that soon after, his konjac will be transformed into a supernatural power...

Chapter 3799: Second change

Today's Lion Wanjin has long been a slave to Ye Xuan because of the primary mutated swearing that Ye Xuan has shown.

For Ye Xuan's order, he not only executed immediately, but also did not have a trace of perfunctory. Ye Xuan's knowledge just fell into his eyebrows, and he captured a lot of information about the lion and lion.

Including the lions and lions in the first four layers of the mad lion to the fourth tier of the lions, all the above-mentioned four senses and insights...

The whole process is over in less than an hour.

In the end, Lion Wanjin once again succumbed to the ground, but did not die directly. After Ye Xuan slightly indulged, he waved some scented lotion and fell into his eyebrows.

After all, he was still soft-hearted. Although these scented emulsions could not restore the ruins of the lion Wanjin, they could save his life. As for whether he could practice again in the future, he would see his own creation.

After all, he is now a slave to Ye Xuan. Ye Xuan can't watch him fall, but at most he gives a little scented lotion. This lotion has a huge amount of tens of thousands of cubic meters.

But the evil source liquid is impossible, Ye Xuan only has two thousand drops in his hands!

After doing all this, Ye Xuan did not pay attention to the IX Jiu Ming and Meng Ma Shan, who had already been stunned. The body shape left the area and came to the ground of the Dingnai space. Sit down and kneels.

All the information about the lion and lion's sacred magical powers, Ye Xuan all handed over to the phagocytic system, the system to promote and improve, the lion lion changed into a konjac that is suitable for his konjac real body display!

This is definitely a headache for any strong person, but for the phagocytic system, it is nothing at all.

All the data and characteristics of the konjac real body, the system's data information database has all the detailed records, and now even the lion lion nine changes are the same, the system needs to do, just synthesize these data information, to promote the most perfect The change plan only.

Of course, this is definitely not a simple project. The later it goes, the longer it takes.

For example, after the seventh change of the seventh change, just a level change, it may take several months.

But in the early stage, especially the first change to the fourth change that Lion Wanjin has learned, it should not take much time...

Sure enough, just after an extra hour, Ye Xuan's mind rang a familiar system prompt, and the first change of the konjac ninth revolution has been completed.

Moreover, all the changes in the magic of the first change of the konjac have been formed into data information, stored in the system of the database of information, Ye Xuan can read at any time, and then easily and smoothly display!

This makes Ye Xuan full of surprises. The first change of all the essentials of change is all ready-made, and there is no need for him to enlighten, that is to say, it can be used now.

"The konjac is true!"

Under the excitement, even if Ye Xuan activated the real body of the konjac, the three-headed and six-armed Taikoo konjac appeared again, and his body was ten feet, and he was fierce.

Then, Ye Xuan directly listened to the data database of the system of the body, and thoroughly understood all the changes in the konjac's first change. When even the exhibition: "The konjac changed... the first change!"

An inexplicable blood force suddenly swells in the body, converges into a tidal-like force, and cultivates the strength of the three real bodies of the Taikoo konjac. In the blink of an eye, only Zhang Zhang The height of the figure has risen to a hundred feet.

Originally, Ye Xuan did not rely on the first change of the konjac nine-variety. The size of the Taikoo konjac can reach ten feet, but nowadays it relies on the shape of the tens of thousands of knives formed by the konjac change. different.

Although it seems that the difference is not big in the form, but in the current konjac's first change of the magical power can be stirred up, the Taigu small konjac three real body of qi and blood repair power, obviously more exciting.

The effect is very different.

At this time, the familiar system prompts, also in the mind of Ye Xuan, sounded at the right time.

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the fourth stage of the domain start!"

The magical power of the konjac's first change is really not only to make the three real body types of the Taikoo konjac skyrocket ten times, but to benefit more from the blood force of the three real bodies,

which directly affects When I arrived at Ye Xuan's deity, I was able to break through and make a small step.

Nowadays, his deity is the fourth-order cultivation of the domain. However, in the state of the three-headed six-armed konjac, the strength is still in the second order of the Qiankun, and it has not risen.

This is similar to Ye Xuan's previous speculation. As his deity is constantly improving, the three-headed and six-armed konjac can't always be the same as before, showing the strength of being repaired, always higher than the deity. realm.

In that case, when Ye Xuan's deity reaches the state of Qiankun, the three-headed and six-armed konjac are in the state of reality, and their cultivation is not allowed to skyrocket to the domain.

This unscientific!

According to Ye Xuan's estimation, after entering the domain start, every time the deity breaks through two small steps, the repair of the three-headed six-armed konjac in the real state will have a small step.

For example, now, the deity is the fourth stage of the domain, and the konjac is the second order.

At the beginning of the sixth stage of the field, under the real state of the konjac, its cultivation will be upgraded again, reaching the third level!

According to this progress, when the cultivation of Ye Xuan's deity reaches the strength of the Qiankun, the difference between the two realms between the deity and the real body of the konjac will be pulled down to the point where only the big realm is left. At that time, Ye Xuan In the state of the three-headed six-armed konjac, the strength that can be demonstrated will be the star's main territory.

This is also not easy. After all, the real Qiankun might want to cultivate to the main territory of the star, but it will not be broken for many years, and even the road to practice, the later, the slower the entry will be.

Ye Xuan can activate the three-armed and six-armed konjac in the state of Qiankun. In this state, he will have the strength of the main character of the star. If it is transmitted, it will be enough to sensation the three planes, attracting countless envious exclamations. The sound!

Just after all this analysis was completed, Ye Xuan's mind came again with a familiar system sound, and the second change of the konjac was also successfully deduced.

This was originally the expected thing. After all, the first change to the fourth change of the original meaning is originally ready-made, and the engulfing system is just a transformation to make it suitable for the real body of the konjac.

Under the big joy, Ye Xuan will display it in an instant, and screaming on his head: "The konjac changes... the second change!"

The familiar feeling came again, the blood in the three real bodies rolled again, the magnitude exceeded the previous first change, and the direct influence of the Ye Xuan deity, so that the repair of his flesh and blood is changing again.

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the fifth stage of the domain start..."

Chapter 3800: Sixth order

The second change of the konjac, the fifth stage of the domain start!

This result makes Ye Xuan very excited, the konjac nine changes are really extraordinary, each change will be the cultivation of the practitioner's deity's flesh and blood, playing an evolutionary increase effect.

That is to say, in the future, every layer of cultivation will be successful, and the body and blood of Ye Xuan's devotion will be improved, and they will all be upgraded to a small stage.

But this is not all. You must know that the improvement of each change will make the body shape of the konjac skyrocket ten times. Therefore, the real combat power displayed is not a promotion of the small level of the deity in the flesh and blood. simple!

At the same time, such a result also verified Ye Xuan's previous speculation that when his deity's flesh and blood was repaired into the fifth stage of the Jin Dynasty, in the state of the three-headed six-armed konjac, his cultivation was still strong. It is the second order of Qiankun, not improved!

However, the combat power is completely different from the previous one. After all, before the first change, the real body of the konjac was a hundred feet high, but now, it has already skyrocketed to a thousand feet!

It's just that the three realities of the real body are full of vitality. It's a world of difference, and the persistence in battle is even more arrogant!

But this is obviously not the end!

Ye Xuan does not expect to change the konjac to the fourth level of change at one time. After all, the system becomes more difficult and the longer it takes.

And the fourth change of the lion is the limit of Lion Wanjin. Although he has already learned, but since the fifth change of the lion has not been completed, he can not determine the meaning of the fourth change. He has fully realized it.

From this point of view, perhaps, the fourth change of the modified konjac, the time required for the system to defer, may be short.

Ye Xuan did not think about getting all the changes in the fourth change of the konjac today, but the third change can still be expected.

Now, in the state of the second change of the konjac, the three real body types are only a thousand feet, and it is really not enough to see. The sacred roads of the major ethnic groups, once activated the blood of the body, manifest the bleeding pulse, Which is not the body of the world?

Although Ye Xuan is a human being, there is no ancient blood of the beast in the body, but in the state of the three-armed and six-armed konjac, how can it be achieved in a million body shape?

In order to have the body of the world, the third change of the konjac is indispensable. Ye Xuan is extremely hopeful that today, the third transformation will be successful!

Fortunately, the system did not let Ye Xuan disappoint, waiting for nearly half an hour, all the changes in the third change of the konjac, and finally, after depositing the system's data repository, Ye Xuan also received the system in due course. Tips.

"Roar!"

"The konjac changes... the third change!"

Ye Xuan screamed and screamed, and with the third change of the konjac, the violent blood force in the three real bodies also surged again and again, like the same roaring river.

Directly led to the three-headed and six-armed konjac as if it were a balloon, it swelled quickly.

From the original one thousand feet high, quickly reached two thousand feet, three thousand feet ... until the last 10,000 feet!

Before and after the whole process, but a breathing time, Ye Xuan's konjac body, and finally has a huge body shape, and now, the name of the Taikoo little konjac is no longer suitable for him.

With the real body of the eternal konjac, this ancient konjac has really grown up, no longer a child!

The process of soaring body is too fast, and the body of a thousand feet is swollen to the eye, and even the voids around it are faintly stunned. When this is all done, a fierce and brutal breath of the sky, from the three real bodies. The body rushes out, far exceeding the blood and body of the other geniuses such as the lions, the real body, and other powerful groups.

After all, if you talk about the bloodline, the three-headed and six-armed konjac is true, in the distant old days, but the ancient sacredness that rivals the golden dragons, the cave giants, and the ancient wild cherries, at least it is an ancient power, and the momentum is extraordinary!

"Hey, congratulations to the host, the physical condition of the body is improved! The current realm: the sixth stage of the domain start!"

It was also at this time that with Ye Xuan's third transformation of the konjac success, his deity's mind also came with a familiar system prompt sound, and the deity's flesh and blood was repaired as a realm. And reached the sixth stage of the domain start.

Under the joy, Ye Xuan even looked at the realm of the real body of the konjac, it really is the third order of the Qiankun.

This result once again verified Ye Xuan's previous speculation that when his deity's flesh and blood was repaired into the sixth stage of the Jin Dynasty's beginnings, in the state of the three-headed six-armed konjac, his cultivation was really strong again. Upgrade.

At this point, he has basically been able to completely determine one thing. That is, in the future, the cultivation of the deity will break through two small steps, and in this state of the three-headed six-armed konjac, the strength will be corresponding. Promote a small step!

Everything was perfect. In just half a day, Ye Xuan not only achieved three small steps in the realm of the body and blood.

It also got the lion's lion's ninth-changing \*\*\*\* magical power, and also transformed this magical power into a konjac change suitable for the real body of the konjac.

Although only the changes in the first three changes have been overcome, Ye Xuan is satisfied.

It's just the third change of the konjac, and it's already a million-footed body, and because it's the savage and sacred konjac in the distant old days, the fierce and cruel atmosphere in the body is even worse. Far beyond the \*\*\*\* lions and \*\*\*\* bodies of these ethnic groups.

Ye Xuan is extremely determined. If he is now, he will encounter the Daoqiang Daozi of the major ethnic groups again. Even if it is rumored to be the most powerful among the various ethnic groups, the

cultivation is the late stage of the Qiankun, but Ye Xuan has not yet met. The Peng and the \*\*\*\* people are the two great cosmic strong people of the second universe.

And each other is activating the blood, showing the blood of the giant body, and he can easily crush the other side in the momentum!

"The konjac has changed to the third change, and the fourth change should take some time to be refined and improved..."

"And the cultivation of the devotional flesh and blood is the realm. This time, it broke through three small steps in one fell swoop, reaching the sixth stage of the amazing domain. Then there are three small-order breakthroughs that can enter the fourteenth world. The situation is... In the short term, it is not advisable to make radical breakthroughs again!"

After calming down the excitement, Ye Xuan took a deep breath and sighed in silence, muttering to himself: "If there is time, you should have slipped back to the source of the evil, and see the furnace. What is the refining thing, and whether it has been completed, but..."

"This fact is too dangerous. At present, the crusade against the space mouse is imminent. It can only be slowed down. Return to the magic king star first, and immediately slash the army and conquer the mouse market!"

After the decision, Ye Xuan fiercely made a fist and no longer hesitated. He waved out the hole that had just been promoted to the starry sky, and stepped into it, rushing toward the universe void outside the black hole of life...
