Chapter 38: Lianyuncheng big change

Wu Tian glanced at his father and immediately nodded: "Well, I promise you!"

"well."

Lin Xiao was satisfied with the nod, then Wu Liang was released, and Wu Tian was also released.

The two sides are considered to have completed the transaction, and Lin Xiao is also speaking.

"Let's go!" Wu Tian shouted and took the brigade ready to leave.

"Slow!" Lin Xiao suddenly stopped them.

Wu Liang changed his face and said: "Lin Xiao, do you want to go back?"

"I have a lot of money in Lin Xiao, but I didn't say that you can still return to Wu. From today, there will be no Wu family in Lianyun."

After Lin Xiao finished, it was Lin Mingdao who was next to him: "You bring some people and copy the Wu family!"

"Do you dare?" Wu Liang shouted.

"Hey, what are you afraid? Just rely on me alone, you can kill these people without leaving a film, do you think I dare not?" Lin Xiao cold eyes.

"Okay, very good, the king is defeated, my Wu Liang wrote down!" Wu Liang said coldly.

The Wujia Brigade is no longer moving forward, or is standing quietly in the same place. At this time, they are the fish on the knife board, and they are slaughtered.

At the moment, Lin Ming went to the Wu family with some masters and took over the Wu family.

Then, Lin Xiao was extending the olive branch and recruiting the Wu family.

As the city owner of Lianyun City, Wu Tian has a lot more masters than Chen. However, these people are now shocked by the strength of Lin Xiao, and immediately people have turned to the Lin family.

Not long after, these all-encompassing offerings left the Wu family and joined the Lin family.

Now Wu Jialian's main government is occupied, and what does Wu Tian do?

Soon, Lin Ming returned with hundreds of people, all of whom were family members of Wu family. Then, Wu family was driven out of Lianyun City.

"Turn off the city gate, no one can get the city!"

After Wu's owner left Lianyun City, Lin Xiao was ordered. Now that he has driven Wu Tian out of Lianyun City, he is the city owner of Lianyuncheng.

This matter has come to an end.

Lianyuncheng City, the main person with the family was driven out of Lianyun City, this is definitely a big event, I am afraid it will spread soon. However, this is nothing. It is also common for an empire to change its dynasty, as long as the cloud city normally pays taxes.

Now, Chen Jia and Wu Jia are both destroyed, then the two industries are also divided, the Ye family is Chen, and the Lin family is Wu.

Although the big heads are occupied by the Lin family, if there is no Lin Xiao this time, I am afraid that things will not end as simple as this.

However, at the time, Ye Xuan also had a plan in mind, that is to use the cracked Yunzong to shock the Wu family.

The fifteen-year-old martial arts is the seventh heavyweight. I am afraid that there will be no even a series of cracked Yunzong. Is the Wu family strong again, can it be stronger than the cracked Yunzong?

The cracked Yunzong can go out alone and can kill the Wu family!

This time, Ye Xuan is also a great harvest. Although Chen's treasure house has been collected by him, Ye Jia has acquired all the industries under Chen's house. At that time, I am afraid that there is no money?

At this time, Ye and Lin family members are gathering in the lobby of the city government to discuss some matters. The current city owner is not Lin Xiao, but Lin Ming, because Lin Xiao feels that his age is already high.

Lin Jia and Ye Jia have a good relationship and have a common ancestor, so the Lin family will not be like Ye Jia.

Things have come to an end, but the strength of Ye Xuan has been questioned by Lin.

Before Ye Xuan went to visit Lin Family, he was only in the middle of the sixth martial arts. How long did it take a few hours to break through to the seventh martial arts?

Now even if Ye Xuan finds the reason again, I am afraid I can't stop it, so I have to say that I can swallow the upgrade of Tiancaobao.

After learning about Ye Xuan's ability, Lin's top management was shocked, even Lin Xiao.

"The predecessors, the physique of the boy is unusual, so it requires a lot of cultivation resources. I have several exercises here, I can give the predecessors a look..."

Ye Xuan directly took out the martial arts he copied, including the chaotic arrows.

"What, seven martial arts?"

Lin Xiao was shocked. After all, even Yuncheng had not seen seven martial arts, but when they saw that the martial arts were bows and arrows, their eyes were dimmed.

"This martial arts is good. With it, the efficiency of my Lin family hunting team will probably be turned over several times!" At this time, Lin Ming suddenly exclaimed.

Each family has a hunting team that is responsible for hunting the monsters outside, but it is generally common.

However, when Lin Ming saw Ye Xuan's battle in front of Ye Jia's door, he found that archery was also very good. Let's not say that the attack distance is far. If you can form a bow and arrow team, then you can get close to the enemy. Give the other party a heavy price first.

Then, Ye Xuan took out some martial arts. Lin Ming was also very compensated. He spent 30 million yuan and bought all these martial arts.

Moreover, Ye Xuan is also learning, and specifically let Lin Ming prepare something worth more than two million silver, so that he can get the engulfing points.

With these things, Ye Xuan directly broke through to the seventh middle of the martial arts, and swallowed points.

Now his long-range attack ability is good, but the melee martial arts grade is not high, so he spent some points and bought a few seven martial arts.

However, this time, the Lin family has not had much liquidity to buy martial arts, so Ye Xuan allowed them to make credits, and then gave him money when he had money.

It's been three days since Wu's family left Lianyun City. In these three days, Ye and Lin were also very busy, because they had to accept the Chen's and Wu's industries, and they were too busy. .

After such a big thing happened, Ye Xuan also rested in the house for three days. He is different from the ordinary warrior. The cultivation is not effective at all, so he can only practice martial arts.

At this time, in the back hill of Ye Family, a teenager is practicing swords.

This person is Ye Xuan who has already broken through to the seventh middle of the martial arts. Now he is the first-line force of Ye Family.

"Now I have a few seven-product martial arts. The overall strength of Ye Family has also risen a lot. It seems that I have to find a time to get the blood of the beasts."

Ye Xuan put away the long sword and thought in his heart.

Now his blood is still not activated, or only 1/100, but he has been thinking about this matter.

As long as you have this blood, then his strength will certainly be greatly improved, and even the challenge can be overcome, weak and strong!

At this time, suddenly there was a shadow flying toward him.

"Ye Xuan, have a meal!"

This Qian Ying went to Ye Xuan's side and handed the bamboo basket in his hand.

"Well? How are you today?" Ye Xuan turned around and saw that it was not Liuer who came to deliver the meal, but Xue Qingqing who lived in Yejia.
