

Super D. S 3811

Chapter 3811: Konjac warrior

"Stop bombardment! That can all be the spoils of the Lord, and smashed you with you?"

After stepping out of the sorrowful battle, Ye Xuan waved the battle to re-enter the body, grinning, so standing in the void, carrying his hands, turned to look at the rat in the distance.

In a simple sentence, I almost smothered the other person to the ground and smashed and died: "Hey, who is this master?" It's a long time that one ear is coming out of the river, but you are jailbreaking... Sheriff, does the old man know?"

The story of an ear and black cat sheriff is widely known in the third universe of the Terran, and is loved by the children of the human race. At this moment, Ye Xuan's words are undoubtedly the shame of the red fruit.

The singular star blame has been satirized as a rat thief in the story of a human race. This must not be forbore!

"puff....."

"Lean fox, I... my day!"

The rat dialed the mountain on the spot to the old blood. Although the other party was a banter and humiliation of the red fruit, he could not refute it. The right side of the head was indeed empty. When he was degraded by his opponent, he did not repair it. Just to alert myself, I didn't expect to be a laughing stock today!

This made him instantly feel a sense of anger that lifted his rock and licked his own feet, and he was still very heavy and hateful!

In the distance between the left and right sides of the void, the strong men from the first cosmic slaves crouched among the various warships that opened the hidden array.

At this moment, I heard Ye Xuan's words, and the look on each face was extremely wonderful and... weird!

The mouth of the fox lord is too poisonous, and the person who picks up the soft feet is ridiculous. The star lord of the space mouse has not yet shot, and it has already hidden the rhythm of his madness on the spot. This is simply horrified, and the mouth must be wiped. Amazing!

"One ear, are you not going to fight with the Lord?"

Directly ignore the mouse to dial the day to the state of the old blood, Ye Xuan raised his finger, the spirit of the wind: "To fight, but do not spray the old blood first hanging, the king also wants to end your old mouse nest Before, let's get hot!"

"Puff puff....."

In front of the void, the giant body of the rat is spurting blood again.

"The konjac is true!"

Ye Xuan, who was violently drinking and carrying his hands in the void, opened the three-armed and six-armed konjac and entered this state.

"The konjac has changed... the first change!"

Almost in the next instant, the Taijiu Xiaomao, which is ten feet tall and tall, suddenly screamed again!

An inexplicable blood force suddenly swelled in the body and gathered into a tidal-like force, which greatly increased the strength of the three real bodies of the Taikoo konjac. In the blink of an eye, only ten feet The height of the figure has risen to a hundred feet.

However, this is not finished!

"The konjac changes... the second change!"

After the third violent drink, the familiar feeling came again, and the blood in the three real bodies rolled again, exceeding the previous first change, directly affecting the Ye Xuan deity, making his flesh and blood Repair is a change.

Before the first change, the real body of the konjac was a hundred feet high, but now, it has skyrocketed to a thousand feet!

"Roar!"

"The konjac changes... the third change!"

Ye Xuan screamed and screamed, and with the third change of the konjac, the violent blood force in the three real bodies also surged again and again, like the same roaring river.

Directly led to the three-headed and six-armed konjac as if it were a balloon, it swelled quickly.

From the original one thousand feet high, quickly reached two thousand feet, three thousand feet ... until the last 10,000 feet!

Less than three interest rates, Ye Xuan activated the real body of the konjac, and also directly opened the **** magical power of the konjac, although only started to the third change, but its konjac body shape, but still It has reached a huge height, and it is equal to an ear and mouse in the empty sky.

However, the body repaired by the body is a breath, but it is a lot worse.

An ear rat is the fourth step of the star's main territory!

And the body is also in the giant Taikoo konjac, but only the sixth level!

The disparity is almost a big realm!

Seeing this scene, an eared rat in the empty sky was first stunned, and then he looked up and laughed: "The konjac changed? Hahaha... It's really laughing, the old man only heard of madness. The lion has changed, how do you get a copy of the konjac version of the cottage version? It's useless to cultivate a big realm of strength, and it's still going to be crushed by the old man!"

"Today, you must be jealous!"

In the last sentence, the rat is almost gnashing from the throat. When the voice is violent, its body shape disappears instantly. A body is integrated into the void, and no trace can be found.

Although the Taikoo little konjac is fiercely famous, in the source of the evil, he has defeated the three major sects of the Dazuo Daozi, the scenery is no longer.

However, all the rats were not seen by the eyes. At that time, he was in the nest of the space mouse and did not go to the source of the evil.

In addition, the Taikoo little konjac murders the name again, killing and captive is just the Daoqiang Daozi of the major ethnic groups, but he has the cultivation of the star's main territory, completely not at a level, so in the rattle mountain In the eyes of the eyes, only the beginning of the domain to repair the fox lord, even if the activation of the blood and the body, temporarily possess the strength of the Qiankun, is far from his opponent.

Destined to be killed in this battle!

Seeing the shape of the mountain, the figure has been hidden into the void, and the figure has disappeared completely. This is not a simple secret method, but the whole body is completely and perfectly integrated into the void, watching the battle in the distance. Those strong in the first universe, suddenly amazed...

"This war, the fox lord is afraid of danger! After repairing the strength is still too weak..."

"Yes, even if he has the **** secrets of the konjac body, once activated, the original six-stage repair of the original domain is soaring in a big realm. It has reached the third level of the Qiankun, but for a star owner. For the old blame, this is still too weak."

"Especially, when encountering the mouse-and-dragon, a star-owner with a special blood, the fox-free master has no chance of winning."

"The blood of the Rat Rats is extremely extraordinary. Nowadays, the Rats are not only simple in hiding, but are perfectly integrated into the void. Even the stars in the same realm can't get out of the void. I have a glimpse of his whereabouts!"

"It's a pity that the three savage savage savage singers of the singer's sorcerer's sorcerer's sorcerer's sorcerer's singer's singer's singer's singularity It was picked up by the demon people alone, and the fox lord contributed a lot to it, but in the end it was too proud to fall early..."

"Oh!"

With these soft voices with deep regrets, the air from the edge of the rat hole area, at this moment, a clear crack of sound, attracted the attention of all the strong, all gathered go with.....

Chapter 3812: Nirvana

"Oh!"

With the soft whistling sounds in the surrounding air, from the edge of the rat hole area, at this moment, a crisp cracking sound came, attracting the attention of all the strong, all gathered together!

The body of the flesh and blood in the three real bodies of the Taikoo konjac, which is in the shape of a giant, is now a blazing light column in the eyebrows. It continues to exist, sweeping the void with the rotation of the flesh and blood.

The sound of the crack is the sound of the ray of light in the void when it is shot.

It looks like a void, like a koi, and is torn open!

The most powerful ---- enchanting!

For the star lord of the space mouse family, this kind of strong martial arts is the biggest reliance of Ye Xuan!

The **** talent of the Space Rats is indeed extraordinary. Even the generally talented people can perfectly integrate the figure into the void, not to mention the strong people in the same realm, even if they are one or two higher than the strength. In a big realm, you can't see where your body is.

This has nothing to do with the cultivation of strength, but it is a magical technique that involves the blood of the ancient emptiness mouse that is passed down from the blood of the space mouse!

Unfortunately, all this is effective for others, but it is hard to beat Ye Xuan.

The enchanting is the supreme martial art, the same level as the legendary fire eye, not only has the attack attribute, but also in the auxiliary attribute, not only achieves the degree of voyeurism, but also can trace the source.

Finding the whereabouts of a space mouse from the void is really nothing.

Not to mention the space-rare rat of the weak blood of the body, even if a real wild empty rat comes, don't want to hide under the power of the enchanting.

A violent light column representing the power of the martial arts, a sweeping sway, a brush in the void, the huge figure of the giants of the mountains, and the plunge fell out, it looked embarrassed!

"This is impossible!"

"Like the fox, what kind of technique do you use? Is it the eye of the fire? In addition to the kind of sturdy sorcerer, any sorcerer can't break the space magic of my space mouse!"

The figure suddenly fell, and an ear rat was stunned. After turning to the head, he looked at Ye Xuan. A pair of triangular mouse eyes shot a little flustered light, and shouted.

He was not afraid of Ye Xuan because of this. The reason why he used his hand to display the blood of the Rats was to hide his body shape into the void. It was not because he treated Ye Xuan seriously, but only the family. The habit of temperament is what it is.

Rats have always been dark, even if they are more than their opponents, they use them in a natural way, and they will take this kind of means and methods that seem to be almost sneak attack.

But at this moment, his blood talent was broken, and although the rat dialed the mountain, he suddenly exclaimed, and his heart was slightly flustered. The reason was just that he couldn't help but be too surprised.

After the exhalation of the exit, the rat dialing the mountain immediately restored calm!

What if the other party has the most powerful skills?

Even if the space mouse can perfectly integrate the body shape into the void, what is the uselessness of the blood?

The disparity between the two sides is a serious injury. The other party uses the blood secret technique to have the third-order repair of the Qiankun, but compared with the repair of his star's main territory, it is still too weak, and it is not enough to see.

A star's main territory, if it is an ordinary squat, can at least be a pair of ten, and can still maintain a crushing posture.

What's more, the opponent's battlefield power is still barely achieved with the use of blood and secrets. Once it is fought, it will be even more unbearable!

"Even if you have the most powerful skills? The old man just wants to play with you. Since you are so boring and want to find death directly, then you will be quick and quick, kill you and say! Hehe..."

After calming down the mood, the rat dialing the mountain quickly returned to calmness, the calm tone reappeared, and the meaning of the coldness was even stronger. Finally, the screaming sounded, the huge figure of the giant body turned into a blue lightning, toward Ye Xuan came to me.

He actually gave up the opportunity to use the magical method to carry out long-range bombing, and decided to use this close-family melee method to suppress Ye Xuan. The purpose was obviously to vent his anger and be shameful.

Although they are also killing opponents, but with the magical method of long-range bombing, gorgeous but gorgeous, but how can it be so close to the killing?

These thoughts flashed through my mind, and the figure was turned into a rat with a blue lightning bolt. At this time, the thick and squirrels of the huge **** body were excited and shivered.

The three major singers of the world, the singer of the singer, the singer of the singer, today... no, it should be immediately in the hands of himself. After this war, who is the three universes?

"One ear, you seem to be very excited! I feel that I will be able to kill the fox soon. By the way, even the Taikoo konjac and the sorrowful sorrow will also disappear from your hand, will it be a tidal wave? ?"

Ye Xuan stands in the void with three heads and six arms of the konjac, and his body shape does not move. The three pairs of eyes are full of insights, and all the changes in the rat's mountains are included in the eyes.

Then, when the heart was dumb, the first time it was ridiculed: "Unfortunately, the final result can only prove that you really think too much... will be killed, but an ear!"

"Today, let's take the life of a star lord and blame, try the war of the Lord and the power of the sword!"

In the last sentence, Ye Xuan is almost roaring and roaring out. When the voice is not falling, he has suddenly waved his hand and directly sacrificed the treacherous nirvana and the sword and the demon blood blade!

Although these two treasures were previously revealed in the hands of Xuan Huangzi, but after a new smelt, the shape has long been different. Therefore, Ye Xuan's sacrifice at this moment has no pressure at all, and there is no fear that there will be a prince. The crisis of identity is also leaked!

"call out!"

The faint sound of breaking through the air, just before the promotion to the starry sky to the treasure of the immortal nirvana instantly, covered in the body.

Today's Ye Xuan is a true state of the three-headed and six-armed konjac, but his invincible nirvana has been promoted to the true starry sky to the treasure level, ever-changing, moving with the heart.

At this moment, one of the three bodies of the real body of the konjac was shrouded in an instant, and a unique and unique treacherous moment appeared in the sight of countless strong men in the surrounding air.

The whole battle is extraordinary, and the flaming flame of the true phoenix gives a strange and strange atmosphere, and the death is full of vitality!

Then, the right hand of the flesh-and-blood body suddenly turned over, and a blood-black scorpion magic blade appeared quietly. It was also a thousand and ever-changing, and the blade was so long that it was held in the right hand of the flesh and blood, revealing a smashing kill. Cutting the atmosphere.

"What? The trenches and swords of the stars to the treasure level? This is impossible. How many years have passed, and there has never been such a fortified starry sky..."

With Ye Xuan's immortal nirvana and the demon blood blade suddenly sacrificed, in a complete state, surrounded by the void, a moment of excitement sounded...

Chapter 3813: Comet Lord

Do not destroy Nirvana and the devil's blood blade, and surrounded by the void, a large burst of exclamation sounds.

"What? The trenches and swords of the stars to the treasure level? This is impossible!"

"How many years have passed, there has never been such a fortified starry sky..."

"Today, in the hands of the younger foxes, the swords and trenches of the starry sky to the treasure level have been sacrificed at the same time. It seems that the breath is not born a long time ago. It reveals a fresh breath and has no old meaning. This is by no means Ancient treasure!"

"God, do you still remember the famous name of the three medicines? Is it that these two trenches and swords are actually made by the fox-free master? In a short period of time, he has not only cultivated his strength but has grown up. In such a situation, even the accomplishments of the refiner have once again broken through, and even the stars and treasures can be installed!"

"It's going to be against the sky! The devil's group has a big bargain, so the fox lord can just give pointers, and their harvest in refining and refining will be incredible..."

"It is no wonder that the devil's emperor Mo Zhenfeng can donate two Star Wars to the singer and the lord. Both of them are unrecognizable talents in the refining industry. In addition to being a good friend, they are afraid of the experience of the refiner. Yan Feng also benefited from the singer's lord's side."

"Maybe even the Star Wars Lama will overcome the cooling period in a short period of time, and it will benefit from the help of the Little Fox, which is very likely!"

"The final result of this war is hard to say. Although the fox master is slightly weaker, but holding two pieces of starry sky, and still forging it by himself, can maximize its power and narrow the gap. One ear advantage is no longer..."

.....

"Even even the trenches and swords of the starry sky to the treasure level can be refining, so that the fox is less than the main medicinal device, and it is not the cover!"

After the initial shock, the stunned mouse rattled the pair of triangular-shaped giant mouse eyes, and immediately shot two strange glory, faintly greedy: "Unfortunately, then The enchanting talents can't be used by my family. After all, it's just a cloud!"

"No, even a cloud is not as good as it can be said to be a cloud. It must be removed... Today, you are dead!"

"Oh!"

In the last sentence, the rat is almost screaming and screaming out. At the same time, the right limb of his **** body is suddenly lifted up, still far away from the distance of a thousand miles, and he has already waved toward Ye Xuan. under!

The emptiness of the torn voice, a black and black paw print, from the eternal enchantment of the eternal enchanting figure in front of the imaginary sky, suddenly slammed into the air.

The blood of the space mouse can not only fully and completely integrate the figure into the void, they can even integrate this blood and power into the attack they exert.

At this moment, this is the squirrel that the mouse has used to display.

A thousand miles away, a claw came, but it was silent, and when the giant claws were thrown out, it appeared in front of the Taikoo konjac.

"This claw is really good, the breath is not leaking, and when it is detected, it is already close..."

The shape of the Taikoo konjac is still unmoving, and even the face of the konjac hair of its flesh and blood, also shows a sardonic smile, screaming: "Unfortunately, play with the young master, you It's just a squad to get axe... Nether claws!"

In the last three words, Ye Xuan did not scream out loud, but spit it out in a voice that only he could hear.

Of course, this is not the same as before. It is because of the fear of revealing his identity. His identity is less and less, and this morning is no longer a secret. The three universes are well known.

The reason for this is because of contempt and determination!

That's right, in today's Qiankun's third-order cultivation, there is no scruples, and there is no need to cover up the ghost claws. Ye Xuan can't say that he can directly kill a star lord, but just break him. A mouse and paw print is still extremely easy.

"Hey!"

The whistling sounds, the ghosts are now!

A huge green ink paw print was engraved in the wave of the body of the dragonfly. It appeared out of thin air and directly greeted the crocodile paw print that was about to be close.

"boom!"

The majestic energy of the blasting sounds swayed, and the squirrels of the squirrels smashed directly. The dark green claws gathered but did not scatter, and the squirrel was smashed in the middle of the squirrel, blink of an eye, to the front of the rat!

The latter's face changed abruptly. Although he is a star lord, the ghost of the ghost claw is not bad. It is the strong blood of the ancient power level. It is said that the claws are not broken.

Under the change of face, the rat's shape of the mountain swayed, and directly avoided the paw print from the face, with the strength of his star's main body, this is still completely okay.

"Spirit Thunder!"

"Card..."

In the next moment, the Taikoo konjac once again sighed softly, and the black mist body in the three real bodies of the konjac also waved at this moment, and a black lightning bolt with a thickness of 100 seconds appeared instantly, and appeared directly on the top of the rat. .

Almost at the same time, the starry sky of the Taikoo konjac is invincible, and the Nikko suddenly flashes. Its body shape disappears instantly. When it reappears, it has already crossed the void of thousands of miles to the body of the rat. Shaped rear!

"Is the star owner grotesque? I don't know how it tastes... It's really looking forward to it!"

At this point, the rat dialing the mountain is flashing away from the top of the top of the Baizhang black lightning, did not notice everything behind the figure... Accurately, he can not perceive!

A thousand miles away, for today's Ye Xuan, it is just that the step can be crossed.

Just before he stepped, he did one thing.

That is to fully activate the spirit of the mystery of the perfect shock, the body shape is perfectly hidden.

Although this and the space mouse directly immersed themselves in the void, there is still a certain gap, because the breath and body shape are perfectly hidden, but after all, it is only hidden, not into the void, lifting When the hand touches it, it can still be perceived.

But for the current situation, it is just a perfect concealment of all the atmosphere, for Ye Xuan, it is enough!

After all, there is no such thing as a strong sorcerer in the rat, and even a weaker level of martial arts is not. The perfect volatility of the power can not be seen.

This is destined for his cup!

When Ye Xuan's mouth sounded like a sigh of sighs, the flesh and blood of the three real bodies of the Taikoo konjac had raised the right arm full of black mane, holding the handle. The incomparable sorcerer's blood blade, to the rat's neck, the blood of the body, the back of the neck... smashed to the ground!

"puff!"

A slight muffled sound came out, followed by blood and rain, and the rat's triangular mouse head rolled directly down, and the cyan blood was sprayed in the neck cavity.

There is also a green mangling from the fracture of the neck cavity. This is the source of the consciousness of the rat, especially the **** of the human race...

Chapter 3814: Soldiers

"Want to run? Is it possible?"

Seeing the spirit of the mouse, the source of the mountain rushed out of the neck cavity, and wanted to take it away. Ye Xuan sneered, but there was no movement on his hand.

"Hey..."

Almost at the same moment, the sound of the screaming screams of the screaming screams of the screaming screaming of the giant triangle mouse that had just been plucked into the mountains, followed by a screaming figure of a demon head suddenly rushed out, one bite Then, the spiritual source of the rat's mountain is swallowed in the belly, and the chewing is bad.

This demon head figure is the demon that has evolved through the evolution of the sword spirit before the sword.

The origin of the demon is extremely mysterious. It is said that when the heavens and the earth are not divided, there will be a loss of memory outside the domain, and the mind will no longer be in the air.

One day, this devil's evil thoughts completely recovered. The great devil was born, turned into a dry blade, dark black light, killing endless creatures, and the soul of the dead is dead, it is the blade of the devil!

Although Ye Xuan's warriors originally merged with the imitation of the demon blade, but after the evolution of the sword spirit into the world's demon, they dare not say that they can compare with the super-devil in the era of the ancient times. But how much has inherited a certain power.

And the rat dialing the mountain was originally the edge of this blade, mourning under the suppression, swallowing its spiritual source, it is true!

At this point, the mouse of the space rat family has been completely degraded, and the blood is actually decapitated and embarrassed. Even the spiritual source has not escaped, and the next sorrow!

In the rear, the countless devils in the army of the Devils have been stunned, and all of them have been thundered by Ye Xuan's horror record.

Although the star lord Ye Xuan is not unsuccessful, before the star of the evil world, the second celestial celestial celestial singer of the second universe, has been shackled by the hands of the Taikoo Little Konjac.

But this is obviously different!

At that time, the Taikoo little konjac was a sneak attack, and the lord of the Caishao nationality was in a bad state. He was seriously injured and his strength has fallen.

But nowadays, the star family of the space mouse family is not only in a state of full prosperity, but also degraded by him in the face-to-face battle with Ye Xuan.

Not only has it fallen, but it has not taken too long, it seems extremely relaxed, and the other party has not even escaped from the source of the spiritual knowledge. It is completely planted!

This battle proves the strength of the young fox, but now he is only the sixth stage of the thirteenth world, even the 14th dynasty has not yet arrived, but Has the ability to star the Lord!

This is absolutely horrible, and I have never heard of it before.

At the end of the void at the left and right sides, the warships will be opened to hide the law, and they will all be hidden inside. The first cosmic servants of all ethnic groups who are looking far away are even more shocked. Many people have already scared their legs. It is.

After all, the star lord is on the top, in any ethnic group, there is a presence that can be equal to the patriarch, and you can see for yourself the chance of a star lord being killed.

Today, this scene is clearly displayed in front of them, and the fallen lord of this star is still only a young generation of young people who have not even cultivated the universe. How can this be shocked? ?

After a moment of silence, the whispered sounds in this battleship...

"Reverse the sky! Let the fox less the Lord!"

"Indeed, this is a positive frontal battle, but the results are wrong!"

"The rat is not only the star lord, but also a star lord with a strong blood and magical power. Even so, it is finally degraded, and it is smashed by the fox lord!"

"The singularity of the lord of the lord, the singer of the ancestors of the beginning of the field, eventually failed to escape from the source of the literary knowledge... The space mouse was lost this time, and the three words of the rat dialing the mountain will become the opposite textbook. , 10,000 years of stains!"

"The horrible magic blade, not only the starry sky to the treasure level, the magic blade even sealed a demon head, the atmosphere is strange, suspected from outside the domain, how did the fox master do it?"

"The medicinal array is three, enchanting and talented..."

.....

For those warships that are hidden in the distance, Ye Xuan has already discovered it when he used the enchanting to sweep out the shape of the mouse that was perfectly integrated into the void.

However, he did not pay attention to it now. The only battle in the world was to smash the head of the space mouse and the main monster. This is also a shock for them. This is the result that Ye Xuan hopes to see.

After all, the space mouse is only the first stop of this time the demon army's road to conquest. Next, the slaves of the first universe, this huge fleet will visit one by one.

Taking advantage of the rare opportunity of the Tianji family to withdraw from the first stage of the universe, the devil's group should replace it with the fastest speed.

"call out!"

In the middle of the wave, the triangle mouse head of the rat and the huge headless mouse body were collected by Ye Xuan in the Shennong Ding of the immortal world, and they intended to roast with the Shennong tricolor flame.

Since the last time he killed the mouse and tasted the rat's taste of the space mouse, Ye Xuan has been mourning for the heart, including the Taikoo Porcupine and the Taikoo tortoise. This time, the space rat is finally able to collect a lot of space and blood. Really, leave it to be slowly grilled later.

At this moment, with the fall of the rat's mountain, the hundreds of thousands of space-racial elites who were repaired above the beginning of the field, all stunned, and some rushed into several large fortresses of 100,000 meters. The void to the distance.

Some of them are directly crossing the flesh, fleeing, and returning to the empty nest of the rat market.

In this regard, Ye Xuan is too lazy to chase, but there is no obstruction. Anyway, the monk can't escape the temple. The entire army of the demon people has to march forward into a star field, and then the soldiers will come down to the city and approach the mouse. In the star field, by then, this group of escaped guys can't run away!

In front of the void, a million warships are squatting, but all are ghost ships. The space mouse inside is full of souls and smashes. Unfortunately, these guys are all inside the battleship, and when the soul is destroyed, Unexplained bleeding pulse true body, at this moment are all humanoid, Ye Xuan slightly psychological obstacles, no way to eat.

Soon, among the thousands of warships in the rear, there were some figures of the devil's strongman rushing out, carrying a small shuttle ship loaded with intelligent robots, rushing to the million warships that straddle the front of the sky.

These magical strongmen entered the millions of warships. In just a few hours, the central control systems of all the warships were completely modified and fully controlled.

After everything was completed, the entire army was again set to move forward toward the void in front.

At this time, the scouting fleets of the first cosmic servants of all the people who peeked in the distance from the left and the right sides of the sky were also speeding up, taking a step forward and rushing to the ratish star field outside the billions of miles away.

The army of the tens of thousands of warships of the Devils will soon be in the Stars of the Rats. They must rush in to find the best place to watch the battle, and watch the progress of this battle in the void...

Chapter 3815: a grand fireworks

Ye Xuan returned to the main flagship fortress of the Xizheng. At this time, when the entire army of millions of people slowly propelled toward the mouse market, he was discussing with the devils of the royal family, such as Mo Taiye and Mo Qigong. Attack details of the market.

Although the war of the righteous, the crusade of the army has achieved a shocking result, not only the entire million-strong army that the space mouse is responsible for intercepting, but even the commander of the fleet, the star owner, an ear mouse The mountains were all killed by Ye Xuan.

However, this war has also exposed some of its own advantages and means. The Space Rats must make certain targeted strategic and tactical changes, and the subsequent battlefield will no longer be the external universe, but the space mouse. The old nest base camp, the family has run tens of thousands of years of the mouse market.

For the Devil's 10 million crusades, the next battle will no doubt be even more difficult!

For this reason, Mo Taiye and other democrats of the royal family seem to be worried...

"This battle is entirely the credit of Xiaohu's friends. However, after this war, some of the means of Xiaoyou have also been exposed. I am afraid there will be some targeted measures in the space mouse community."

"At least, the rat traps they set will never be as simple as they were before, and they may be more stable. The small power of the Void Wars may not be able to play the role of minesweeping."

"Yes, I have to pay attention to this point. The other party is very likely to do things in this respect. The ratish market has been covered with countless hollow rat holes. They can be virtual and real, in some easily triggered mice. In the hole trap, some more stable rat traps are placed in the dark."

"At that time, the Void Wars will trigger the trap holes that are easier to be triggered by the small-powered bombardment, but the danger is not ruled out. Once the army enters, the more stable rat traps are just beginning to break out. This is definitely a catastrophic mutation that is hard to bear..."

"This time, I didn't plan to use the Void War!"

Listening to the arguments of the democrats of the devils, Ye Xuan nodded and remained in the chest: "In fact, whether it is the Void War or the Soul Battle, similar small power bombardment, can only be carried out in a short time. Ten times, it has been consumed three times before, and the remaining seven times, even if it is to be used, should not be wasted on the matter of mine clearance."

"There will be a real war, and the Void Wars and the Souls of War will come in handy. If you just use the opportunity of the seven small power bombardments to get rid of the minesweeping work in the Rats, you will not be able to use them. Such a waste!"

"As for the matter of mine clearance, I have a general idea in my heart. Let me talk about it at that time. There should be no big problem!"

Hearing that he was so determined and confident, the top of the demon royal family was once again stunned, but out of trust in Ye Xuan, everyone did not ask anything.

One day later, the space mouse community's old home base camp, the mouse market star field, finally arrived!

Tens of thousands of crusades have stopped and spread out in the void, stretching for thousands of miles, and the momentum is amazing.

Around the void in the distance, the scout fleet from the first cosmic slaves had already found their position, opened the concealed array, and closely followed all of this.

The front of the mouse market is a space mouse, but it is the home base of the family. There is no barrier between the outer regions of the evil source, the buffer zone of the central domain, and the three major areas of the core hinterland. But still can see the difference at a glance.

In the sight of the ratish market, all the stars of the size are as smashed, and they are covered with rat holes of various sizes.

In fact, it's not just these stars, but even the emptiness of these stars, all of them are densely packed with mouse holes, which are not far from the end of the line of sight.

The entire mouse market is like a three-dimensional hive with no limits. Here, you can see all the things you can see except the mouse hole or the rat hole, the sky and the earth, everywhere!

"It's really a headache, come to the mouse, and it's too big!"

Looking at the empty mouse hole in front of the other, even Mo Taiye sent a powerless sigh, he could not even imagine how the original Tianzu people surrendered the space rat.

The hive in front is usually covered with countless rat holes in the void, and does not see a strong space mouse, even even a savvy mouse and beast can not see.

These guys all broke into a star, and countless mouse holes in the whole piece of the void. To solve this star field, the first problem to be solved is how to enter!

Of course, although the empty space of the rat market is full of rat holes, there are still some gaps. After all, the space mouse also has star-ship battleships, including the big fortress that reaches 100,000 miles in diameter.

In this star field, even the Big Fortress can pass, but it is difficult to walk freely without any worries. The mouse hole that appears from time to time in the void limits the speed of the battleship.

This is like a huge mouse-hole labyrinth. Even if a small fleet enters it, it is possible to get lost. As for the millions of troops with massive warships, it is a problem to fully enter.

At the moment, in addition to the obstructed path of entry, the bigger problem that the crusade will face is the rat trap.

This kind of rat hole trap may not exist in peacetime, but now, the crisis of the survival of the entire space rat family has come, and the entire mouse-spotted star field of the mouse hole must be made innumerable rat traps in the near future. The difference between the two is the Longtan Tiger Cave, which is full of crisis!

"This star field is full of countless rat holes, and the size is too wide. If it is slowly pushed forward little by little, I don't know how much time it takes, and in the process, a lot of space rat and strong people have more The rat beast will rush out from the mouse hole that can be seen everywhere from time to time, launching harassment and even suicide attacks!"

Looking at the ratish market in front of the mouse, Ye Xuan said: "Don't forget, the fertility of the mouse is terrible. The space rat is not the first cosmic servant among the most populous, at least Can rank second and third..."

"The number of rodents and animals that are not open is even more. If you add them, I am afraid that no ethnic group can compare with the number of mice in the ratish star field."

"So, even if there are frequent suicide attacks, they don't care at all. Today, a large piece of people will come to die, and tomorrow will be the next mouse, and there is no pressure at all!"

Having said that, even Ye Xuan himself grinned, and finally his hands spread out and shrugged his shoulders: "Have you seen some ordinary people on the planet catch the mouse? You encounter a large rat hole area with a lot of mice. Irrigation, irrigation, etc. Anything can be used, just push them out of the rat hole!"

"As for us, give him a grand starry sky fireworks today..."

Chapter 3816: Rumble

The biggest star in the mouse market is the mouse market star. For ordinary space rat people, this is a forbidden place. You can't arbitrarily get involved. All other stars and voids have no restrictions... If you want to make a hole, just toss it!

The ratish sacred star that was listed as a forbidden place was the ancestral ancestral land of the space rat, and the rat king of the ethnic group sat in the star of the rat.

There are rumors that there is still a void entrance in the depths of this ratish star, which is connected to an independent universe void, and the mysterious and independent universe void is the real space mouse. The holy place is also the place of return to the blood of the ancestors of the space rat!

At this moment, when the demon group's army of the tens of thousands of warships against the space rat's crusade was forced to go beyond the star field of the rat, there was also a giant mouse market with numerous large mouse holes on the surface of the land. In the depths of the stars, the edge of a vast black hole that is not bottomed out is a large number of densely-spaced rat powerhouses.

These are the space-rare strong people of the human form. They are extremely extraordinary in their cultivation. There are nearly a hundred in the Qiankun, and there are more than 20 stars and lords. Even the domain lords have two.

These two domain owners are grotesque, and there are some golden lines on the blue skin. It seems that although the heads of the skulls are rather cumbersome, these golden lines make them breathable, and inexplicably reveal a kind of majesty. .

The two-domain lord-level space rat-rare strong is the patriarch of the family, the Ratwan Cave and the chief family mouse!

In the entire space of the Rats, the Rats and the Rats are respected and high, but at the moment, they are standing in the edge of this vast black belt, but they are slightly flattered and seem to be devout.

It was also at this time that an old and violent voice was slowly spreading from the depths of the Black Belt: "Even the Tianji people of that year did not really invade the ancestral wall of my space rat. Dong Tian, eventually, because of some kind of jealousy, after the agreement was reached with the old man, the army was withdrawn..."

"The little devils have no such ability!"

"Go to war, death and injury are heavy, and it is not a problem for my family. As long as the rat market exists, the inheritance of my family will not be broken. Therefore, there is nothing to be afraid of, and give the devil a headache."

"Just tell all the other top groups in the three major planes, don't come and provoke me the space rat, my family... is not so good!"

"When you need it, the deity will take the shot..."

After the last sentence, the voice of the sorrowful and violent voice is completely silent, and the mouse-hole and the rat, which are respectfully standing on the edge of the vast black ridge, are suddenly surprisingly inexplicable. Respect the words of the old ancestors.

Then, he led a large number of space rats behind him, quietly withdrawing from the vast black belt in the depths of the mouse market...

.....

Ye Xuan means to put fireworks, a beautiful starry sky fireworks!

The size of the handwriting, even Mo Taiye and Mo Qigong and other democrats of the royal family are stunned. At the same time, there is a painful color on the face!

The price paid is too great, no one can not hurt, in fact, even Ye Xuan is the same.

Compared with the loss of a million warships, Ye Xuan did not want to see the giants of the entire tens of thousands of warships being dragged down for too long.

That's right, the price of this starry sky fireworks is a million warships.

There are three-kilometer captains in the standard star rating, there are also five- and ten-meter-diameter-sized fortresses, and a large number of 50,000-meter and 100,000-meter-diameter fortresses!

But if this million warships are true, they can't be considered as heavy and painful because they were originally spoils.

One day ago, I just got the first battle from the space rat rat family mouse.

With the resignation of Mo Taiye, a large number of demonic strongmen who had just entered the millions of warships not long ago were completely withdrawn within half an hour.

However, a large number of intelligent robots that manipulated the battleships stayed, and soon began to execute the last run command set before the Devil's strongman withdrew!

The million warships were divided into ten echelons, each with an echelon of 100,000. They maintained a few minutes of time difference between each other, and all of them rushed into the front of the rat market.

Moreover, it is a full speed voyage, directly ignoring the numerous mouse holes filled in the front of the sky.

This scene is inexplicable, and the top leaders of the major servants in the first universe who watched the trend of the war in the distance were stunned, and then they re-appeared and exclaimed...

"What do the demons do? Actually, they rushed in regardless of the trap? Even if you don't consider the trap, can you not see the numerous rat holes in the front star field?"

"Just collide with this, this million warships must be completely annihilated. Does the devil want to use this way to thunder?"

"Sure enough, it is a big deal, but unfortunately the abacus is playing, and the millions of warships will not be able to advance. The entire mouse market is too vast. It is actually the most stupid way to open the road. They have so many warships to fill. Pit?"

"If this continues, even if the entire warships that have slashed the army are all damaged, I am afraid that it will not be able to advance to the nest of the space mouse, the ancestral scorpion, and the commander of the demon squad, is it a pig's head? So I got such a trick!"

"Oh, it's really disappointing. Before that, in the trap area of the mouse hole, the strategy and response of the devil and the sorcerer and the lord were also remarkable. It is a classic, but now it seems that it is then weak. With a total of 10 million troops, it is still necessary to stop at the mouse market..."

"boom!"

"Booming..."

Just as the exclamation and sighs of the scouts in the darkness of the first cosmic slaves in the distance were everywhere, the edge of the ratish market in front of them suddenly heard the sound of the earth-shattering sound, which was so intense that it continued. The whole piece of the void was shaken slightly!

Among the ten battleship echelons that just rushed into the mouse market, the first echelon in the forefront, after entering the ratish market for millions of miles, was surprised to explode at the same time, and this was a quiet look. I know... it is clearly the full self-destruction of the self-destruction inside the battleship!

Hundreds of thousands of warships, instantly transformed into 100,000 fireworks, the colors are different, but they are equally gorgeous, dotted in the void, tens of millions of miles away from the vast void, reflecting like white!

This scene is too astounding. Whether it is known as the top of the devil's royal family that happened in this scene, it is still unpredictable. The first cosmic servants of the various universes who peeked into the distance in the distance, the vaults of the clan team, all opened their mouths in shock.

However, everything is far from over.

The first wave of fireworks bloomed in less than ten minutes, and the same sound of the explosion sounded again.

"Booming!"

"Booming..."

Chapter 3817: Years of tides

The first wave of fireworks blooms is only less than ten minutes. In the distance, the top leaders of the first cosmic servants of the various scouts have not yet recovered. The same sound of the explosion is soon within the ratish market. ... sounded.

"boom!"

"Booming..."

The 100,000 warships of the second echelon also exploded at the same time without any suspense, turning into gorgeous fireworks, blooming in the interior of the rat market!

However, the location of the second echelon of 100,000 warships is not the same as the first echelon nearly ten minutes ago.

It has advanced several million kilometers forward.

The power of the first echelon of 100,000 warships blew out all the traps in a large area, and a large number of rat holes collapsed. Although it was only a small area, it cleared a fairly avenue, directly Let the follow-up fleet drive in.

The power that can be produced by the full-scale self-destruction of warships is obviously different from the power of the warships being bombarded. It is almost one day!

Otherwise it is impossible to have this effect!

At this time, with the 100,000 warships of the second echelon turned into a awning smashed and horrible starry fireworks, the follow-up eight echelons are also rapidly moving forward.

Undoubtedly, a few minutes later, the 100,000 warships of the third echelon will also explode in the void of the ratish market in front of millions of miles away!

At this moment, the commanders of the first cosmic slaves who have returned from the stagnation of the sorcerer's squad are once again exclaimed...

"God, is the devil crazy?"

"It's too cruel, actually let all the warships blew open the way. This is really not a general defeat..."

"What is this? Didn't you find it? The millions of warships that rushed into the Stars of the Rats Market were all the wars that the Devils collected from the Rats in the mountains one day ago. This is really a dog, it is estimated. The high-level people of the Space Rats have even a heart that vomits blood, and their own battleships are used by the enemy to blow themselves in their ancestral land, and they are raging!"

"These are not the key. The key is... If the devil does this, isn't he afraid of causing a large area of the void to collapse? The mouse market is more like a place where the void is covered in a mouse hole. This piece of void is like a worm. Can you withstand such a toss?"

"How about the collapse of a large area of the void? It is better to stop outside the star field of the rat, and return without it? The devil is too embarrassed to surrender the space rat, and simply destroy their ancestral emptiness, means Really poisonous!"

"I can't afford it, I really can't afford it..."

"boom!"

"Booming..."

Just as the sound of exclamation sounded like this, the third wave of earth-shattering sounds had been heard again in the star market, this time, blasting in the void, turning into a hundred thousand warships of brilliant fireworks. Before the explosion, the position moved forward millions of kilometers, and it was already close to the edge of the central zone of the rat market.

According to this process, ten waves of self-destructing warships, each wave is moving forward millions of miles, and will eventually reach tens of millions of kilometers in the star market of the rat, not from the ancestral star of the space mouse. Far.

However, all this is not what Ye Xuan really wants!

With a huge fleet of ten steps, he began to blow himself up. His ultimate goal is not just domineering. It is only one aspect.

The other purpose is to shock the space rat and the numerous rat and beast in the myriad of rat holes.

Ye Xuan did not know, and could not be sure that such a large-scale and continuous horrific self-destruction would really make a large-scale void collapse in the front of the ratish market, but whether it is, for him, the result is it's the same.

It's true that the collapse of the void is really good. Anyway, if you can't get in, you will force the space mouse to come out.

If there is no large-scale collapse of the void, it doesn't matter. Such a strong explosion is enough to shake the space rat and the more powerful swords and beasts from the rat hole in the void. Out!

that's the truth!

If the previous two waves blew themselves, the mice that were hidden in the numerous rat holes could still hold their teeth, then, with the third wave of self-explosion now, the explosion centered around the million miles. In a densely packed mouse hole, space rat and more rat and beasts finally fell.

One by one, all of them were shocked, and they turned to stunned. They looked extremely embarrassed, and they fell down like dumplings...

The scope is not large, but it is clearly spreading out continuously, because the shock wave of the self-explosive Yuwei is also radiating outward!

In the process, the following seven echelons continued to move forward, and they rushed forward with horsepower. After a few minutes, millions of miles of void space were thrown behind them.

At this time, the fourth wave of violent self-explosion broke out.

This time, due to the third wave of self-explosion, there have been a large number of space rats and rats and beasts have been shaken and fell out of the hidden rat hole, so with the fourth wave of self-destructive power Spread out, a lot of mice are also bad, and the flesh is blurred.

A little closer to the near, it will become a **** fog, and the gods will disappear!

However, all this did not stop the follow-up of the six self-destructive warship echelons, and the 600,000 warships were divided into six batches, maintaining a certain distance from each other, speeding up the limit, and rushing toward it.

Soon, the fifth wave and the sixth wave of suicide-style self-destruction will appear one after another, and the imaginary air once again blew up a large expanse of splendid fireworks. More space, the mouse strong and the rat, turned from one to the other. The mouse hole fell out and was torn into pieces by the shock wave of the explosion.

At this time, the suicide fleet of the ten echelons rushed into the star market, and it took less than half an hour. However, looking at it, the vast void of more than two thousand miles in front of it has been turned into a smooth road.

In addition to the fact that some of the smaller void cracks have been blown out, more in the void is the wreckage of the large number of space-raising rats and the rodents.

In less than half an hour, the Space Rats lost at least tens of millions of strong people and a large number of rat beasts.

Although the ability of these mice to reproduce is so bad, the damage of such a person is nothing at all. The key point is that the enemies from the invasion are not damaged. At this time, the fireworks are watching outside the star market.

Even the so-called fireworks that caused huge losses to the space rat family were provided to the enemy by themselves...

This is simply wrong and unbearable.

Finally, when the eighth wave of self-explosion violently unfolded, the bonfire of the hood of the emptiness of the sky, and the scenes of the mouse and the beasts blasting the remnant with the

numerous spaces, the rat at the end of sight In the depths of the market, a fierce whistling sound is also amazed...

It was also at this time that Ye Xuan, who had been following the top ten self-destructing echelons, waved his golden years to fight!

The tides of the years are about to reappear!

Chapter 3818: Decaying void

"squeak!"

"The devil, the fox is a child, you are going to die with my space rat, in the end, not endless! My family is not good bully, advise you not to make your own mistakes..."

At the end of the front line of sight, the deepest part of the ratish star field, a voice full of angry roaring, is the voice of the space mouse, the rat, and the power of the domain's strong power, transmitted through simple words. Let the emptiness tremble a few times: "Immediately withdraw from the star market, otherwise the patriarch wants you all to stay! Hehe..."

"That depends on whether you have this ability! The old mouse, the first universe is now the trend, the rise of the devil is overwhelming, it is your fault that you should be right, persuade you to follow the trend, otherwise it is no different Self-destruction!"

In the face of the threat of a domain lord, Ye Xuan is not afraid. The wave of the gods has been sacrificed. The appearance of the singer is a complete form, like a huge superstar, standing in the void.

At this time, he was on the top of Shennong Ding, and at his feet was the endless swell of the mouth.

Then, Ye Xuan waved his hand, and the years of war in the immortal world were sacrificed, squatting in front of Shennong Ding, the golden lama was like the same round of sunshine, reflected by the fire of the warships that were blasting in front. Glittering, burning eyes!

"Roar!"

"Hey!"

Two roars and whistling sounds came out. From Shennong Ding, two figures were suddenly revealed. It is the domain lord of the indigenous fierce beasts, the ancient porcupine and the Taikoo turtle.

The indigenous beasts of the two domain realms appeared on their own, and even if they showed their blood and blood, they were all huge, and the powerful pressure of scalp and numbness spread instantly and opened the void. They all squeaked.

This is not finished, immediately after the Taikoo Porcupine and the Taikoo tortoise, from the Shennong Ding at the foot of Ye Xuan, at this moment, a large number of indigenous fierce beasts, like the tides swept out.

There are more than 5 million indigenous beasts in the Dingnai space, all of which rush out between the short ten-digits. They all show the blood and the body, and more than five million indigenous beasts are empty. Spread around the Shennong Ding.

Every beast is fierce, and the war is soaring, gathering together to form an invisible storm of violence. Even after a million miles, the shadow of the front of the sky is uncontrollably. The figure trembled.

At the same time, behind the Shennong Ding, after the command of Mo Taiye, the army of thousands of warships of the demon group quickly entered.

Although the safe void passage is not very wide, at least there are millions of diameters. It can drive 670,000 ships of various types along the way. Tens of thousands of ships are coming in. The gunshots of the guns point to the front. Some point to the left and right, this is definitely the rhythm of plowing the ratish star field thoroughly!

Tens of warships, more than five million indigenous beasts, and their strengths are generally above the beginning of the thirteenth world. There are dozens of star owners, nearly two hundred Qiankun powers... and two rare bloods. Domain owner blame!

Together with Shennong Ding and the golden years of war that have been sacrificed... all of this, invisibly gathered into a majestic heavy pressure, spreading toward the entire mouse market!

At the end of the front line of sight, the patriarch of the space rat, the Ratwan Cave, suddenly appeared in the main savage beasts of the Taikoo Porcupine and the Taikoo tortoise. When they turned out to be born, they did not dare to scream again.

In the first universe, the servants of the first universe, including the sneak peeks in the far-flung sneak peek, were among the top performers in the fleet. At this time, they were collectively silent, all of them were dead!

Too strong, one is the suicide-type self-destructive charge, the size of the million warships, and then, after biting out a small piece of safe void in the mouse market, the whole army is crusaded, and all the power will not hesitate in an instant. They all show up and reveal the muscles. This is definitely a posture that does not stop until the end...

However, this is not finished yet!

Ye Xuan's years of warfare are not good-looking. If you just want to deter it, he will sacrifice all four stars in the sky, not just one!

At the same time as the void at the end of the line of sight fell into silence, Ye Xuan issued the command of bombardment to the Zijin Shijin Slim, who was in the battle of the years.

Of course, it is still a restrained small power bombardment... It's not yet a time for a real decisive battle. After all, the ratish star is still far away, in the void of tens of millions of miles ahead!

In the step, Ye Xuan entered the battle of the years, and then, as his figure appeared in the core honeycomb node, even if he gave instructions to it, he launched a small power blow, and Wei could maintain a wave of tides. Degree.

There are tides in the years, for ten thousand years!

A wave of tides is 10,000 years!

The space mouse in front of the virtual space and the more numerous rat and beasts are not strong, and they can't hold back the physical passage of the years!

Even these hollow holes in the void are the same, can not withstand, will fall into collapse!

Even this void filled with rat holes will be decayed!

Although the whole body of the Zijin Slim king is far more powerful than Ye Xuan, but this is all given by Ye Xuan, and it obviously wants more, eager for the second drop of the evil source.

For Ye Xuan's instructions, without any hesitation, it immediately began to act.

"Hey!"

A very slight humming sounded, and then, a circle of invisible ripples spread out of the body, plunged into the walls of the core honeycomb nodes, and along the pipes connected to the outer wall, it was instantly transmitted to the battle of the years. Lama's thousands of hives are among the nodes.

The tens of millions of gold slimes in the honeycomb nodes are all in shape, and the long golden silk thread under the belly bursts into the luxuriant, and then the whole body is golden.

These Jinmang are actually the biological wave frequency of the gold slime. If it is only one end, it will not be a climate, but the number of gold slime is more than one, the layers of gold curtains are superimposed on each other, and they are gathered together. It becomes a rich golden color. If it is spiritual, it rushes into the four walls of the honeycomb node and traces back along the outer wall.

In all directions, toward the core honeycomb nodes where Ye Xuan and Qiankun Slime are located, they are coming wildly. All of this is long-lived, but it is completed in an instant, and it happens inside the years of war, tens of millions of gold history. Lyme's whole body, Jin Mang masterpiece, outside the years of war, there is no trace of traces at all.

In the next moment, the core honeycomb node in the central area of the ninth lap of the huge trumpet of the war, suddenly lit up, the core honeycomb node with a diameter of three kilometers was completely transformed into a golden world, a wave of waves like a tide. The golden dragonfly spreads along with the war, and in front of the huge bell mouth, a golden fan-shaped ripple is formed, and it quickly expands forward and pushes away...

Chapter 3819: Golden mouse

In front of the bells of the years, there was a vast fan-shaped area, and a wave of golden years quickly diverge from the bell mouth, fan-shaped, up to a million miles away!

It's just a wave of years and tides. In the millions of fan-shaped areas covered by the tides, the years have passed!

In the fan-shaped area of a million miles away, there are a lot of space rat strong and rat beasts, but the strength is not strong, they are all in the dark.

The eternal lapse of thousands of years, the strong people of Qiankun can barely resist and not fall, and the star-studded powers cultivated below the Qiankun border have absolutely no chance to survive.

With the fading of the pale golden years, the moments smashed through the vast expanse of the entire fan-shaped area, and the rat and the beasts of the numerous rat-raising rats suddenly eroded the skin, revealing the bones and internal organs, followed by It is the shape of the bone pin, and between the eyes, it is all turned into fly ash, scattered with the wind!

It's just that when this one is not breathing, there are hundreds of millions of space rats and strong people and rats.

But the power of this wave of tides is obviously not just for the souls, but for all other existences, all of which can't escape the erosion of the years.

There are no warships in this area, but there are countless dense rat holes.

At the moment, these rat holes have also experienced the lapse of thousands of years. Although they have not collapsed, they have revealed a strong ancient and decadent atmosphere. The structure is already unstable, and it is impossible to walk through.

At this time, if a rat beast is drilled from one of the rat holes, it will immediately trigger the domino effect. All the rat holes in the entire sector will collapse in an instant and bury it in the void...

This scene is so amazing that the faint golden years of the years, which are inspired by the years of war, are not like the sorrows and sorrows, accompanied by an earth-shattering scream.

Silent years!

The same is true of the golden tides inspired by the years of war, and everything is done in a quiet state, but in a moment it makes a vast expanse of millions of miles and everything in this void. Eroded by the power of the years, shocking!

Even though it was not the first time to see the power of the golden tides of the years, the innumerable demons of the entire army of thousands of warships still have an uncontrollable face and are in a state of extreme Shock.

In the face of ruthless years, the strongest of any realm can only maintain a sense of awe.

Outside the Stars of the Rats, among the scouts of the First Universe, the commanding officers of a fleet were even more shocked. Some of them had never seen the golden tides of the years and battles. Suddenly saw this strange scene, suddenly exclaimed...

"Year of the war! Is this the legendary battle of the years?"

"It's amazing, the devil's emperor Mo Zhenfeng is really a enchanting talent, even this kind of star-studded killer can be created!"

"Involving the law of the universe, this golden tide can be too horrible, and it is still a range of attacks, it is against the sky!"

"What is this? A truly amazing scene you haven't seen yet. Just a while ago, the devil's emperor Mo Zhenfeng once activated the battlefield in the battlefield of the Devil's Star Field. Under the tide of the Three Waves, a star owner The old blame is all shaped, and the last big blood is only a small piece..."

"Yes, that war veteran is too field, almost scared to pee in the pants, star owners weird, three short breaths, no, this star-studded killer, simply unscientific! "

"With such a big killer, if several sacrifices are made at the same time, who can still be an opponent in the entire starry sky? The power of the law of the universe is originally the most mysterious and magical power, even if the star lord may not be able to touch it, let alone Using the law of time to form the power of attack, the rise of the devil's group is really unstoppable!"

.....

"The devil, you have already passed! There is also the fox lord, are you going to ruin the rhythm of the ancestral horoscope of my space rat?"

It was also at this time that a vicissitudes of life and a voice of disgraceful voices came from the depths of the distant sky, and then there was a golden man, which was only a glimpse at first, but it was in the blink of an eye. Shoot it.

In less than half-time, the half of the front is empty, and it is all covered by this golden mans.

This is not finished. Jin Mang is like a tidal wave. He continues to rush forward and is not able to breathe.

Including the army of the Devils in the rear of Ye Xuan, and the army of millions of indigenous beasts around Ye Xuan, all of them are covered by this golden glow.

However, the whole body shape of Ye Xuan is half hidden in the mist of the nine colors of Shennong Ding Ding, and is not affected by it.

In the blink of an eye, the vast expanse of the vast expanse of the mouse market was suddenly plunged by this road, and the golden glow of the spread was shrouded. Only Shennong Ding was not affected. This scene suddenly caused countless The exclamation resounded...

"This golden mang... God, it has covered the entire mouse market!"

"This kind of power, even the star lord is too far away, this is clearly the means of the lord of the Lord, to make a big deal, the space rat family really has a ancestral ancestor to survive, and has not closed the sleep , already born..."

"The devil is going to suffer, just the two main savage beasts of the Taikoo Porcupine and the Taikoo tortoise. They are not enough to see, they have to be crushed, and the old lords are shot, they are not even the enemy! "

"The situation has been greatly reversed. The foundation of the space rat has already been revealed. This time it is clearly a rhythm that does not depend on the rhythm. Will it disturb the lord of the demon community? If it is so bad, it will be a must. The situation will be more serious, it is difficult to predict the subsequent development!"

"squeak....."

With the exclamation outside the star field of the rat, from the far end of the line of sight, the direction of the first glimpse of Jin Mang came out, followed by a rat snoring, followed by one of the golden awns The squirrel with only the size of the body appears.

This handsome mouse is small and even smaller than an ordinary unintelligent rat, but its appearance does not dare to despise it, even in the first moment of its appearance, but where the sight is, here For a moment, all of them tightened their minds.

This is a golden rat, the golden color of the whole body, each rat hair is like gold casting, shining, no hair!

This golden rat is the ancestor of the space mouse family. The supremacy of the kingdom level comes out. At this time, the mouse market hole that connects the vast black belt in the depths of the family's

ancestral star walks out to the Shennong Ding. On the edge of the hinterland of the Rats Market, step by step.

At this moment, an invisible majestic pressure, instantly covering the vast expanse of the mouse market...

Chapter 3820: Big kill

"The devil, the fox, you have passed, and you have forced the deity. This is no good today..."

The golden rat with the shape of the body stepped into the air step by step, and the sorrowful words in the vicissitudes of life came out from the mouth.

Behind him, there is a big nest of mice, but at this moment, it is not activating the blood, showing the appearance of the bleeding veins, but the human form, but only the triangular eyes of the scorpion, the scorpion's radiance. Gives a very uncomfortable feeling.

This is also the characteristics of the space mouse strong, how do they change the adult shape, after all, there is a shadow of the mouse, the blood is constraining this.

A rat, if you want to become a jade tree, it is obviously impossible!

This group of space-rare strongmen behind the Zhang Jinjin, all of them are high-level people in the family. The two closest to the metal have the strength of the domain, and it is the ethnic group's long-range rat, and The chief family mouse is a thousand.

Later, there are dozens of star owners, and more than a hundred talents.

Don't look at only two hundred teams that don't even have a figure, but the strength lineup is extremely luxurious. Don't mention it, just the leader of this king-level golden mouse can be suffocating.

As the words of the king of the golden mouse came out, the golden glow of the entire vast ratish sacred field was shrouded.

In an instant, all the magical powerhouses among the tens of thousands of warships, including the millions of indigenous beasts in the emptiness around Shennong Ding, feel that the whole body is tight, and the whole body is bound by an invisible force. Living.

I can't even speak.

Only Ye Xuan, who stands in the fog of Shennong Ding Ding, is not affected by this pressure. Shennong Ding is not only an ancient treasure, but also an eraless weapon of the times, like the country. Heavy Ding, can you be so simple?

The pressure of the strongest in the border can not affect the internal domain power of Shennong Ding.

In addition to Ye Xuan, at this moment, the whole army of crusades, only the two ancient porcupines of the Taikoo Porcupine and the Taikoo tortoise, can barely earn their physique.

"Roar!"

"Hey..."

Feel the arrogance of the endless landlord who came to the body. The fierceness of the Taikoo Porcupine and the Taikoo tortoise was provoked, and the figure was constantly struggling, suffocating, flaming, endless, roaring and The sound of screaming.

The war is in vain, pointing to the king-level golden mouse that is slowly stepping on the void!

"If you are in the depths of the core hinterland of the evil source, and you are in the power of the furnace, you still have a little qualification to the lord!"

I heard the Taikoo Porcupine and the Taikoo tortoise screaming, and the king of the golden squirrel shot the sorrowful color, and sneered: "But now it is the ratish market, there is no deterrent of the furnace, the two two-headed owners The beasts are only in the eyes of the deity, but they are not like ants, but they are similar."

"Between the turn of the turn, you can suppress you!"

At the end of the day, a pair of triangular eyes of the golden mouse suddenly condensed, and the two men's arms were shot in a moment, only the thickness of the arms of the adult family, but it gave people an extremely dangerous feeling, fast. At the extreme, one left and one right, direct to the Taikoo Porcupine and Taikoo Turtle!

At this moment, Ye Xuan's heart trembled and he didn't think about it. He reacted the first time.

There is a blow in the main level, even if it is only two Jinmang shots in the middle of the squad, he is absolutely impossible to live with. However, with the power of Shennong Ding, it is no problem to save the Taikoo Porcupine and the Taikoo tortoise. of.

The shape of the two is not far from him. Just in the void in the right side of Shennong Ding, Ye Xuan urges the power of Shennong Ding. At the moment of Dingkou, there are two tents and nine mists bursting out. Wrapped in the blink of an eye, the Taikoo Porcupine and the Taikoo tortoise were brought out of the golden glow of the cover and entered the colorful fog of Shennong Ding Ding.

This golden awning represents the pressure of the king of the golden mouse, but it is obviously ineffective for the nine fog of Shennong Ding Ding.

From this point, it is speculated that this main-level metal should be the same as the domain owner, and it is impossible to forcibly break through the Dingkou color fog area of Shennong Ding and forcibly enter Ding.

One thought of this, Ye Xuan suddenly set his mind, but still hanging his heart, after all, there are millions of indigenous beasts around Shennong Ding, and there is a tens of thousands of warships in the back.

And all of them were bound by the Jinmangwei of the Golden Mouse. It is impossible for Ye Xuan to rescue them all in a short time and bring them into the inner space of Shennong Ding.

This matter, still have to rely on other turnarounds. Fortunately, in this regard, Ye Xuan's heart is somewhat determined. Before leaving the Magic Emperor's swing, a generation of demons have said that if it is needed, he will come by projection. !

"call out!"

"call out!"

The two Jin Mang shot, but did not stop, the speed is reaching the extreme, still lasing, the three interest is not enough to have a distant void outside the mouse market.

There are exactly two fleets in the void, and I don't know which slaves from the first universe. The size of this fleet is small, only a hundred battleships, all of which have opened the hidden array.

When the commander of the fleet saw the shape of the Taikoo Porcupine and the Taikoo tortoise disappeared, the fox lord went to the Dangkou of Shennong Ding with a nine-color fog. As for the two golds Mang, but straight to his own fleet came, suddenly all changed color, suddenly opened his mouth and slammed...

"Lie's have a grass!"

"This is the real lying gun, the attack of the main level of the world, to be finished!"

"Escape! Hurry up..."

"Booming!"

"boom!"

A huge explosion sounded, and the emptiness of the fireworks outside the ratish sky was blown out by two of the 100,000-meter-diameter large fortresses of the two golden awns, which were instantly turned into fireballs. The family scouts, one did not escape.

This scene was stunned by the strong men of the other fleets of the other ethnic groups in the vain air. After a brief silence, these scouts were as good as they were, and they retire backwards.

The gods fight, the little devil suffers!

It's not a joke to shoot the old monsters. They are thousands of miles away from the edge of the mouse market. The two golden awns are more than 20 million miles from the edge of the mouse. Shooting outside, who can think of it, just like this, there are still two big fortresses lying in the gun?

It was so sad that all the star powers in the two great forts died too much, and the dog day was not so sad!

"Let the Fox! Do you dare to stop the deity?"

"Oh! If this is the case, then don't blame it!"

In the void in the distance, the golden squirrel in the front of the squadron flashed, and the line of sight turned to Ye Xuan, who was among the nine fogs of Shennong Ding Ding. The corner of his mouth slowly outlined a sneer: "This Shennong Ding is indeed extraordinary. There is no heavy weapon in an era. But can you save one and save everyone? The deity wants to see, today, who can stop me from killing..."
