

Super D. S 3831

Chapter 3831: Big big dead mouse

In fact, even if the leader of the Golden Circle did not stop, Ye Xuan had to stop at this moment.

When he arrived here, he had already felt a chilly scent from the emptiness of the air, which was diffused from the foggy direction of the front.

In his experience, this level of pressure and pressure should belong to the ancient power of the wild, that is, the existence of the level of the empty vault, compared to the golden dragon and the virtual giant turtle, or a level.

In the past, in the furnace, Ye Xuan saw a lot of wreckage of the ancient age-level living spirits. Therefore, I am familiar with the pressure of this level, and I will never feel wrong.

That is to say, the ancient emptiness mouse on the superstar behind the dense fog area should be a wild power, not a sacred sage. As for the camp in the ruins of the past, Ye Xuan could not conclude. .

The battlefield of the ancient void that he saw from the inheritance picture was too wide. Even the surviving level of the two camps did not recognize him, let alone the weaker level of the empty empty rat.

In the inheritance picture, Ye Xuan did not see it, and there was no memory related to it in his mind.

According to his speculation, this empty-class emptiness mouse was either not involved in the ancient war of the past, died in the depths of the ancestral nest, or was seriously injured in that battle, returned to The ancestral mouse wall, the sky, was recuperated in the giant star behind the dense fog, but it eventually fell.

The injury is too heavy!

However, this is not important. What is important is that the wrecked treasure left by the savage rat of the ancient era is definitely a treasure for Ye Xuan. Since he has come here, he must find a way to harvest it, take it away!

This is the root cause of Ye Xuan's promise to help the king of the golden mouse.

Of course, the other side needs a little treasure of blood, Ye Xuan will still be a little out of the way, after all, the two sides are now allies relations, and they have the advantage of white, the roots of the human family, the sacred treasures of the family The whole took away, eating meat by yourself, and how many points to give soup to others.

If this empty rat is the existence of the ancient supreme level, there is no headless baby to help, Ye Xuan really did not grasp the terror of the body of the wreckage.

After all, the Supreme is supreme, and it is the supreme of the mysterious and ancient times. Even if it has fallen into endless years, Ye Xuan can not easily face it.

But the ancient powers are no problem.

Of course, he still can't enter alone. Even if the cover has been promoted to the invincible nirvana of the starry sky, it will not work, and there will be danger of explosion.

But to sacrifice Shennong Ding, with Dingwei able to protect, barely should be able to do it.

Although Shenneng Ding of Shennong Ding is still not fully motivated, it is only to protect itself, and to ensure innocence under the wreckage of the ancient power level, it should be sure!

In the wave, Ye Xuan will sacrifice Shennong Ding, but it does not show the complete form, it is too large, and the support power will be divided and become thin.

Therefore, at this moment, the giant tripod is only a hundred feet in size, and Ye Xuan stands in the mouth of the nine-color fog. The figure is undulating in the gorgeous nine-color fog.

Sure enough, the nine-colored fog wraps around, the kind of cold and swaying power that can be felt in the past, disappeared instantly, and Ye Xuan's heart was set, turning to the front of the world's golden dragon. Nodding, and then urging Shennong Ding, rushed toward the dense fog area in front.

Blinking into it, disappeared!

"This trip is really extraordinary. If you have been refining this kid, and you hear that the form of Baoding refining is unknown, it is impossible for the realm of the border to be strong. Otherwise, you will kill the treasure and grab the trip. The old man will enter the rat. the same!"

Watching Ye Xuan relying on the power of Shennong Ding, he entered the dense fog area in front of him, leaving the strong greedy man in the emptiness of the outside world, sighing and muttering himself. language.

In the end, he seemed to think of something again. The original disappointment was suddenly shaken, and the scorpion once again took out the fine mans: "But it doesn't matter, as long as the legend is true, the blood ancestors in the squirrels may resurrect. At that time, there will be a great old man who can sit in the space of the Rat, the devil and the mosquitoes and the old ghosts, and the crazy mosquitoes, even if they ask for sin, can you help me?"

"Now I only hope that this kid's hand does have a lot of scented lotion and nine-colored meat mud, otherwise, even if the legend is true..."

"And the sacred lotion and the nine-colored meat mud that the deity sent to it did play a general role in the medicine, and activated the survival of the blood source ancestors, but the number of such treasures is not enough. If the ancestors want to resurrect, they will wake up in an all-round way, and they will be afraid of it!"

"There should be no problem. The inventory in the hands of the kid must be quite a lot. Otherwise, how can it be so generous and give the deity a cube? It is safe and there will be no accidents."

"The most important thing now is to build an altar with the secret of this family, so that you can send the lotion emulsion and the colorful meat in your hand to the groin..."

"Well, it's just the role of medicine. It's just a matter of throwing bricks, so don't use too much. The old man has to leave some body, and each one foot... No, half a square square!"

After that, the main golden mouse swayed, and the blink of an eye broke into a rat hole in the void not far away, and the figure disappeared.

This kind of thing, he has to go back to his own house to let go, because it is too important, it is very big, there can be no difference in the pool...

.....

Rich area!

After entering this area, although Ye Xuan was guarded by the nine-colored fog of Shennong Ding under his feet, not to mention the prestige, he did not even feel the pressure of a little bit.

Even so, in this area, he still can not see things, the visual moment is only about 100 meters, the gods or spiritual strength is extended, and the top is more than a kilometer, and the whole area of the rich area is 100 miles away. Compared to it, it is simply insignificant.

Fortunately, only a hundred miles away, with the power of Shennong Ding, Ye Xuan's speed is not too fast, but it is not too slow. In a short one minute, he feels that his vision is suddenly wide. God's knowledge and spiritual strength are no longer restricted.

The dense fog area finally passed!

What is in front of you is a vast and innocent star inland, the rich area of the talented, is equivalent to the atmosphere of this super huge star.

Even the atmosphere has a thickness of a hundred miles. You can imagine how big this star is. Even in the three universes of the outside world, such a huge star, I am afraid it is rare.

Due to the existence of the dense fog atmosphere, and this is an independent small space, the light inside the stars is very faint, but it is not completely dark, and the faintness can still be seen.

Ye Xuan turned his head and looked around. The first thing he saw in the eye made him exclaimed:
"Rely, a big dead mouse..."

Chapter 3832: Want to smoke

This star, known as the groin, is desolate. The main tone of the color is gray, with a strong and decadent atmosphere. The vicissitudes of the vicissitudes are very strong. At first glance, I know that I don't know how many years there have been, and no one has ever been involved.

The star's land surface has both plains and towering peaks, and even dry oceans and rivers, but at this moment, Ye Xuan's line of sight is focused on the wreckage of a huge giant mouse. Everything else is at this moment. Ignore it.

This is indeed a huge squirrel, lying across a vast expanse of plains, but the ridges are even higher than the peaks on both sides, at least a million feet.

Its body length is even more horrible, and it is estimated that it is nearly a million feet!

The whole mouse body is like a small star. The whole body is the color of purple gold, revealing the incomparable atmosphere, and there is no hair.

At this time, Ye Xuan's figure was still covered by the colorful fog of Shennong Ding Ding, so he couldn't feel the slightest pressure at all, but according to his guess, if there is no support from Shennong Ding, now He is so close to the wreckage of this ridiculously empty emptiness mouse... I am afraid that it has already exploded and died!

This savage emptiness mouse is just a hundred miles away. Although it has already fallen into endless years, the ancient powers are extraordinary after all, and their treasures have not spoiled, just showing a bit of thinness.

The endless years have passed, and the purple-gold treasure of the Nether Mouse has lost some energy essence, but even so, the part that remains in the flesh and blood still makes Ye Xuan heart-warming.

Ye Xuan is among the treasures of the ancient ruins of the volcano at the bottom of the volcano in the central area of Shennong Ding Ding. The highest in the realm is nothing more than a master-level Jinu, and it is still incomplete.

But what is in front of the ground is a treasure of the ancient powers, and it is still complete. This is absolutely rare. Even Ye Xuan is excited. Even if he is urging Shennong Ding, he will rush to the front!

In the process, Ye Xuan launched his knowledge and swept all the way along the way until he came to the front and back of this huge purple gold empty rat. It still took a certain amount of time and circled around.

The purpose is to see if there are any treasures left.

But in the end, it was nothing. This is what Ye Xuan actually expected. In his cognition, these powerful and ancient creatures that existed in the remote and ancient times are basically fighting with their blood and magic. .

But if there is, those magic weapons must be all innate treasures, not the same.

Therefore, even if he knows that he may have nothing to gain, Ye Xuan still conducts a roundabout investigation. In the event of a big hit, this purple gold null rat happens to belong to the kind of wild power that has received the innate treasure. Make a big profit.

Although it was lost in this matter, Ye Xuan was not disappointed. After all, the treasure of this huge purple gold emptiness mouse is the best one!

After turning back and thinking about cutting, you can enjoy it slowly. Not only can you enjoy the delicious taste, but the ancient blood of the ancient blood is a horrible effect on the evolution of the strong body of the starry sky. It belongs to the world. Big flesh and blood!

Although excited, but Ye Xuan did not forget to wait for the outside of the head of the Golden Mouse, drinking water does not forget to dig wells, there is no old guy matchmaking, Ye Xuan can not enter the space mouse Rat In the cave, the creation in front of me will be missed!

After offering the starry sky to the treasure and the blood blade, Ye Xuan tried it. Although he could cut the purple gold fur of the purple gold empty mouse, but only a shallow one, if you want to cut a large piece of meat, it is estimated that you have to wait until The Year of the Monkey has gone, like a water mill, it is really anxious.

In desperation, he can only try to sacrifice a glimpse of the three-color flame of Shennong, which is condensed into the form of a sword. The sharp edges of the three-color flames are not scattered.

A knife down, it was easy to cut a large piece of meat, half a foot size, Ye Xuan quickly close the hand, the face of the painful color.

This is the treasure of the ancient high-grade Zijin virtual empty mouse, the border of the golden mouse to give a little cross on the line, cut a lot of such awkward, Ye Xuan distressed.

After the sword of the Shennong tri-color flame was condensed, Ye Xuan directly used the space box to pack the half-size rat meat, and turned it into the body, and his mouth smashed up: "Since the meat All have given a half-size piece, and the blood is even worse. This purple gold empty mouse has fallen into endless years, and the blood remaining in the body is not much estimated. Go back and collect it for yourself!"

It was so happily decided!

The reason why Ye Xuan is actually considered is that in general, this powerful wild animal, its blood heritage, is left in the body of the life of the blood, such as the heart of the blood and the like.

Even if it is a wild and powerful, it is as big as a star, and the blood of the heart and the blood will not be too much. Hundreds of thousands of drops will be able to top the sky.

And this purple gold empty mouse has fallen into endless years, the body's ordinary blood is estimated to be mostly dry, and the blood left behind, the probability of containing the blood of the life is too great, in case you accidentally gave the landlord a golden drop, The old guy is also very likely to rely on the precious life of the blood, to obtain some kind of blood heritage belonging to this purple gold emptiness.

That is not what Ye Xuan would like to see.

Although it is an ally, the space rat and the devil are different, on the surface they are themselves, but Ye Xuan does not really regard them as their own, the other is even more so...

At this time, Ye Xuan still did not know the golden mouse who had just formed an ally. He had already started his calculations after he had just left.

Otherwise, I am afraid that even this half-bone rat meat, which is only the top-level flesh and blood medicine, will not be handed over.

Also at this time, when Ye Xuan flipped his hand and placed a small box of a piece of top-sized empty rat meat in half a foot, when he was in the body, in a direction far away from this huge star, a faint golden glory quietly Picking up, flashing away.

Then, a scented scented scented scented scented scented scented scented scented scented scented scented scented scented scented scented scented snails.

Therefore, the next moment of the appearance of the smelting lotion and the colorful meat mud, the wrecked treasure of the huge meteor-like purple gold emptiness mouse outside the long distance, if there is induction, slightly trembled.

All of this is done by the Lord Jinzuo. In fact, he did succeed!

Because, somewhere in the deepest part of the purple gold emptiness mouse, at this moment, suddenly a strong purple gold awning blooms, it is this purple gold awning that suddenly appears, let its huge wrecked treasure, slightly trembled .

Almost at the same moment, Ye Xuan's immortal world also unexpectedly came a sigh of relief. It was actually derived from the desire to smoke, so that Ye Xuan unexpectedly stood on the spot, the whole person was stupid...

Chapter 3833: Shameless mouse

"call out!"

"call out!"

Two broken sounds sounded, from the distant sky, a fascinating fascinating thing, like a meteor, but it was very small, and the blink of an eye came to the front, from the ground, the purple gold emptiness mouse I rushed in and disappeared...

That is clearly a glimpse of the nine-colored meat mud and a canopy lotion, the volume is not big, only half a square square!

Ye Xuan's light shrunk, and he was so angry that he swore on the spot: "The bastard, the shameless mouse generation really can't stand it!"

It is the reason why this treasure of the ridiculously large-scale purple gold emptiness mouse suddenly trembles.

Fortunately, although this matter is very different, but for the time being, it has not seen any crisis. Ye Xuan is indeed angry, but it is not in a mess.

He has decided that the meat of a large piece of purple gold emptiness mouse that had just been cut off before, has never been with the outside world.

Dare to make small moves in the back, OK, let alone the rat blood, the rat hair will not give him another!

Under the dark hatred, Ye Xuan made a decision, and then he threw the matter behind his head. When he thought of a move, he would sacrifice the smoke of the immortal world and float it outside his body.

When the treasures of the ancient gold-level emptiness of the ancient and powerful large-scale squirrel under the savage, the smoldering of the scent of Ye Xuan in the immortal world, there is also a spurt, this matter can not be coincidence, it must be related.

Ye Xuan will want to smoke at this time, just to explore the roots!

"the host!"

With the sacrifice of the smog, the figure of the corpse of the corpse of the corpse rushed out of this piece of Bao Luo, standing in front of Ye Xuan, slightly owed his body and bowed to him.

Ye Xuan suddenly became uncomfortable. When the corpse was in a state of full bloom, his deity was the existence of the ancient power level. Although it is only a trace of spiritual origin in the smog, it reshapes the form, but when she When Ye Xuan's ceremony was called the owner, Ye Xuan still had the feeling of hairiness on his back.

Originally, I wanted to be polite, but also to close the relationship between the master and the servant. Look at the devil's general body. If you are familiar with yourself, you will not be able to move in the future like Xuanyuan Ziyang and Duanmu Xiaocha. Come and hug yourself, it feels quite comfortable.

However, without waiting for Ye Xuan's words to be exported, he immediately found a change, and suddenly he slammed, and then he whispered: "Mr. drought, your cultivation is strength... I rely on it, is it the late star?"

Ye Xuan was shocked. If he remembered it correctly, the last time he absorbed the congenital yin and cold spirits in the yin pool of the Yin Mozu, nearly one-third of it, the drought and drought before he fell into sleep. For the sake of strength, it is the nine-step grand perfection of the Qiankun, that is, the half-step star owner.

Even after a breakthrough, the top is the beginning of the star master, which belongs to the first time.

But now the situation is clearly not the case. The corpse of the ancestors in the eyes of the ancestors, after a retreat, has possessed the strength of the late stage of the star's main territory, and has nearly jumped into a big realm.

If it is in the early stage, it will not be a leap in a big realm, but this is the improvement of the fifteenth world after the retreat, and once it has achieved a near realm, which is simply impossible. Accepted, it is terrible!

However, the drought and flood gave a little explanation. Ye Xuan understood that the moment he sighed, people are really mad.

Although people stay in the smog of Luo, they are only a source of spiritual knowledge, but after all, the memories they have used are still there, including some monastic sentiments. Therefore, after this time, a large number of congenital yin and cold spirits reshape the treasure. The climb in the realm of cultivation is simply a matter of course, and there is no bottleneck at all.

To put it bluntly, people are not practicing at all, but recovering!

When you recover, it will be faster!

According to this speed, I am afraid that if there is another similarity in the same way as the last time in the Yinkang, the repair of the ancestral drought and drought will directly rise to the domain of the domain, which is not a big problem.

For Ye Xuan, this is naturally a good thing. By then, his majesty will once again produce a domain lord. This is the top battle force. Nowadays, the three major cosmic planes, the main monsters of the world, have already been born. But basically they will not be shot, they are all in the middle of the town.

In the strongest force of going out to conquer, that is, the domain owner is a stranger. Ye Xuan's armpits already have two members, namely the Taikoo Porcupine and the Taikoo tortoise. If there is one more ancestral marmot, the overall strength is instantly It's soaring.

Now, he has exposed the three identities of the fox, the sorcerer, and the sacred konjac. The smog was originally deserved by the Nether, and has nothing to do with the identities such as Xuan Huangzi that have not been exposed.

In other words, if needed, Ye Xuan can use the smokelessness without any pressure.

This incident made Ye Xuan feel very good in an instant, and there is a domain-level power that can be dispatched at any time. This is a happy event.

However, this time the surprise is obviously not just that.

When Ye Xuan was still happy, the corpse of the corpse on the side suddenly said a word, and she immediately shocked Ye Xuan on the spot: "Heqing... she is going to be born!"

After Qing?

After the ancestor?

Ye Xuan stunned, and then ecstasy again, turned to look at the drought, and asked: "Man? Who is her?"

Houqing is one of the four corpses, also a woman, and the hot and cold is different. The style of Houqing is charming and glamorous, which makes Ye Xuan very much looking forward to seeing these two styles and temperament. A completely different ancestral genius, standing in front of himself in a row.

That is absolutely pleasing to the eye!

Moreover, as one of the four great ancestors, once Qingqing wakes up and is able to reshape the real body of the treasure, its cultivation is the strength even if it does not reach the star territory so quickly, but I believe that it will grow into the star territory soon. And even the strength of the domain.

After all, she is not practicing, but like the karst of the ancestors, the roots are just recovering.

In this way, the domain lord of Ye Xuan's lord will soon reach the four horrors of the horror. At the time of the star of the evil, in a short period of time, the top three forces of the three cosmic planes gathered together. The domain lords and grotesques are only eight. After all, some small ethnic groups have insufficient foundations, and there are no domain owners in the ethnic groups.

And Ye Xuan alone, there are four major domain lords in the majesty, if the matter is spread out, it must be called countless people to exclaim.

A younger generation who is only the beginning of the thirteenth world of strength, but there are four domain owners and blame, what is this concept?

I dare not say that there is no one after, but there is no ancient people who have basically not ran.

This matter, Ye Xuanguang is already excited to think about it, breathing is rushing up...

Chapter 3834: Corpse source

"After the Qingzhi's spiritual source has been awakened, there is no way to show up now, unless it reshapes the real body!"

After taking over the words of Ye Xuan, even if the explanation of the martial arts drought and drought, he reached out and pointed to the huge scorpion squatting on the ground next to the ground, and then he took it: "This purple gold emptiness mouse is not low in the realm. At that time, with me and Houqing, it was the same level of existence, and the ancient powers."

"Although he has fallen now, but after all, the body is still there, the pressure in the body is too strong, I have now returned to the star territory, and has reshaped the real body, naturally fearless, can resist, after all, the endless years This kind of pressure has been lost too much, not the peak period."

"But Houqing is different. She is only a spiritual source. If she appears directly under such circumstances, she will be hurt by this powerful pressure in an instant, and I am afraid that she will fall into a deep sleep."

"It's just that she hasn't come out this time because she's rebuilding the hope of the real body, right in the body of this purple gold empty mouse..."

"Rely! What should I do?"

A leaf of the genius of the ancestors who had just recovered from the source of the sacred ancestor, will get rid of sleep again when he gets a bad one, and Ye Xuan suddenly rushed.

Although this smoky smoky has sealed several ancestral spiritual sources that are extremely famous in the ancient times, it has been such a long time, except for the sacred sacred scorpion that has been spontaneously awakened by this treasure. Since then, other sources of fascination have been sleeping.

It's hard to come across a wake up now. If I wake up and fall into sleep again, it's too fucking, it's just frustrating.

Who knows that this good thing will happen again next time, have to wait until the Year of the Monkey?

Depressed, Ye Xuan suddenly recalled the words of the second half of the corpse of the corps, and immediately turned to look at this huge purple gold emptiness mouse, and asked: "Right, you just said that later rejuvenation The hope of the body is in the body of this dead mouse? What is the situation?"

"Dead mouse?"

After a glimpse of the drought, he shook his head and smiled: "Well, it is indeed a dead mouse... cough, but the hope of rebuilding the real body is really in the body of this dead mouse."

"My post-Qing is a corpse of spiritual practice. If you want to reshape the real body, you must get a glimpse of the origin of the corpse, and in the smog, there is a corpse that remains. However, because I woke up first, I was used up!"

"Qian Qing actually wakes up half a month ago, but it has never come out. There is no corpse integration. If her spiritual source is too long outside of Baoluo, it will probably dissipate."

"In the past two months, Hou Qing has been quietly renovating in Bao Luo, consolidating his own spiritual source. Until now, both of me and she have sensed the atmosphere of the corpse, so, under the excitement Only to alert you, she does not want to miss this opportunity."

"And the direction of the corpse of the corpse is coming..."

Speaking of this, the corpse of the ancestors stretched their fingers to the treasures of the huge meteor-like purple gold emptiness mouse below, and the fine mans in the scorpion shone, and said: "On the body of the purple gold emptiness mouse!"

"Is there a corpse in the dead mouse?"

Ye Xuan was shocked and shouted: "Is it a fraudulent corpse? To become a zombie mouse? It is a shame. The realm of the people's life is here. The rare thing is that the treasure is complete. If it is really stiff, wouldn't it be that a deadly big-level zombie mouse is born out of the world? Who can suppress it?"

"You think a little bit more, a treasure of a ruined big-level treasure, and can you change it so easily?"

After a drought, the brain was full of black lines, and once again explained, reaching out to the wreckage of the purple gold emptiness mouse, he said: "This purple gold emptiness mouse has indeed fallen, but before the fall, he left in the body. A source of spiritual knowledge, just as I and a few people of Houqing were sealed in the smoke."

"His purpose is to stay in the future. If you get a world like the evil source, the number is enough, it will be possible to leave this spiritual source to live in the second world. Nirvana rebirth."

"Unfortunately, he has not waited for this opportunity. Although the years have not decayed this savage and savage scorpion treasure, the spiritual source he left in the body has gradually been attacked by the corpse, and eventually consciousness is annihilated. After the endless years of cultivation, it was finally turned into a source of corpse without any consciousness!"

"And just now, the two-and-a-half-and-a-half-necked scented scented scented scented snails and the succulent succulent succulents suddenly appeared in the interior of the squirrel's comet. The reason why the huge wreckage of the emptiness rat was slightly trembled was because of this corpse. The source of the Tao sensed the breath!"

"Since the origin of the purple gold emptiness mouse has been annihilated, but in the source of the corpse, leaving a trace of obsession, this obsessive sense of the atmosphere of the furnace and the colorful flesh, this is his The opportunity to wait all the time, so naturally there is a weak reaction!"

Speaking of this, the face of the marmot has a bright future: "A good slogan is a trouble, you must find a way to refine, but if it is not there, the corpse source will not be dispelled by obsession, I There is no way to sense it with Houqing. All of this is also God's will..."

Ye Xuan has already understood it. At the same time, he basically guessed the calculation of the head of the Golden Mouse outside the squirrel.

Obviously, in the case of the purple gold emptiness mouse that has already returned to the market, the inside of the space mouse family will probably have some records passed down.

As legendary!

The golden mouse of the circle of Ye Xuan just knows this legend. Knowing that the Molten Milk Emulsion and the Nine Colored Meat Mud are very likely to make the spiritual source of this purple gold empty mouse body become a chance to become a chance, and then live the first Second.

Of course, just a half-foot square is definitely not enough.

And he secretly sent the half of the squirrel's squirrel lotion and the succulent meat mud in a certain way, but it was just a jade-like medicine primer.

The purpose is only to activate the spiritual source that remains in the purple gold emptiness mouse. At that time, this sacred knowledge originated from Ye Xuan. According to his speculation, Ye Xuan must have a large number of smelting lotion and colorful meat. mud.

This is enough to make the Zijin virtual mouse resurrect and live the second world.

If it is really successful, the space mouse will undoubtedly have an extravagant ancestor of the future that can grow to the age of the ancients. After Ye Xuan's fall, Shennong Ding and other heavy treasures will also fall into this second-generation Zijin. In the hands of the Void Rat.

Even if he is not repaired, but the foundation is placed there, refining and transforming Shennong Ding should not be a problem. If there is a generation of magical emperors and other people coming to the school to ask for sin, the space rat will not be afraid...

Chapter 3835: Houqing

After roughly analyzing the calculations of the main golden mouse outside the squirrel, Ye Xuan secretly sneered, but did not entangle too much in this matter, and soon fell behind.

After all, although the other party is shameless, his calculations are finally lost, and he will pay a certain price for it. At least, the original which Ye Xuan was originally prepared to hand over to him, is a half-rooted hair. Don't think about it.

So, it also solves hate!

The most important issue in front of me is the problem of rebuilding the body of the corpse after the ancestors.

Ye Xuan quickly turned to look at the ancestral drought, and urged: "What do we do now?"

"The two small and half-footed square ovens and the colorful meat mud, should have arrived at the source of the corpse of the corpse at this moment. If there are enough top-level treasures, it will not make this purple gold empty. The huge treasure of the mouse is directly corpse, but the origin of the corpse is likely to be born again because of the obstinacy, and a new corpse spirit is born!"

"It's like the current post-clear..."

"At that time, the source of this corpse can no longer be used, because it has branded the unique atmosphere of other corpses, and can no longer refine."

Speaking of this, the corpse of the ancestral sorrowful words, the face once again showed a happy color: "Fortunately, the two simmering lotion and the colorful meat mud is too little, only half a square square, so stay in the root of this corpse, there is no chance to grow into a new corpse."

"And what we have to do now is to pull it out of the body of the Zijin virtual mouse, and then refine it with your Shennong flame. Then, the origin of this corpse can be sent to Smoke Luo, handed over to Qing's spiritual source, reinventing the body of the body!"

"Of course, it's just a sacred corpse. The corpse of Houqing's body is just a preliminary remodeling. It's like the first time I've been born out of the smog. At that time, it's only the strength. Can be restored to the vicinity of Qiankun."

"Do you still have a large amount of congenital yin and cold spirits in your hands? You can also send them into the smoldering scent at that time, and the scent of the sacred furnace is also useful for the recovery of the corpse."

"This time, Hou Qing's creation is obviously more than me. Before that, I only collected a lot of congenital yin and cold spirit liquid in the ancestral pool of the ancestors."

"And Houqing, in addition to the congenital yin chilling liquid, will also get a lot of smelting lotion, if there is no accident, this time when she absorbed all of this, fell into sleep and refining, and when she woke up again, it was repaired as strength. Will restore the domain to the main territory in one fell swoop, instead of being like me, the second time after the refining and rejuvenation, it is only the later repair of the star's main territory..."

"It doesn't matter!"

Ye Xuan heard a faint loss from the words of the karst of the corpse, when he even grinned: "There are tens of thousands of cubes here. In addition to the supply to Houqing, you also have, and still It's not just the scented lotion, but the final product of the smoldering furnace. I also have two thousand drops in my hand. If I need it, I can supply it."

"In one sentence, she has it, you will all have..."

"Do you have all the evil sources?"

Ye Xuan's words just fell, and the corpse of the ancestors screamed in surprise: "That's great. This time, we only need ten drops per person. It's enough for greed and chews. If there is a weakening effect, it can be used all the time, ten drops, enough for me and Houqing to break through to the domain!"

"That was so decided happily!"

Ye Xuan nodded, and the line of sight swept to the ground, the huge wreckage of the purple gold emptiness mouse, and the singer of the scorpion flashed: "So now... let's get started!"

"call out!"

As soon as the voice fell, the body shape of the corpse of the corpse had disappeared, and it was turned into a body of blood purple mice.

Ye Xuan did not go down, but waited in the void above.

After a short period of time, the blood of the mans again, the ancestral marmots holding a group of pure black energy light group to welcome.

The black light group looks ordinary, but it has a lot of sinuous patterns and a chain of chains that are disillusioned. It reveals a vicissitudes of life and a faint glimpse of **** lines. Wandering, full of unwillingness.

If there is no accident, this **** silk thread is a trace of obsession in the origin of this group of corpses.

Ye Xuan immediately waved and sacrificed a three-color flame of Shennong. At this time, the corpse of the corpse was thrown up by the corpse of the corpse in his hand and sent to the emptiness in front of Ye Xuan's figure.

Shennong tri-color flames, even if the black corpse is wrapped in this source, refining begins.

Of course, this kind of refining and refining is not the refining and refining for its own use. It is branded in the spirit of Ye Xuan, and it is only the refinement of the **** obsession inside the corpse of this group.

In Ye Xuan's view, this is obviously simpler and should be completed soon.

But the facts made him very surprised. Under the wrapping of the Shennong tri-color flame, this group of black corpses stood quietly there, and there was no trace of silk, but the inside of it was always swimming with blood. Suddenly struggling at this moment, it seems to be avoiding something.

If this is the case, what it should evade should be the power of the Shennong tri-color flame.

Sure enough, it is a sacred obstinacy of the ancient high-level purple gold emptiness mouse. After a while, even the three-color flame of Shennong is helpless to him, and he did not refine it in the first time!

Time passed slowly, and the unusual scene in front of the scene made Ye Xuan unable to mention the heart to the eyes of the blind. If even the Shennong tri-color flame could not refine the **** obsession in the origin of the corpse, Ye Xuan feared. It is very difficult to display other effective means.

Unless there is no head baby corpse shot!

Fortunately, this stalemate did not last long. After touching a cup of tea, the **** obsession in the black corpse originated, and the speed of its swimming finally slowed down. At the end, it finally stopped moving. It is.

But it has not been completely refining, disappeared, but still exists in the origin of the black corpse.

Did it fail?

This obstinacy can't be refined at all?

The thought flashed through my mind, and Ye Xuan was a little panicked. The situation was out of consciousness. Not only him, but even the corpse of the corpse in the void, the face was full of worries, and the brow was locked.

It was at this time that the source of the black corpse was no longer swimming, and it was caught in a small blood line that was in a stagnant state, and suddenly it swam again.

This time, the speed is very fast, and it is not circling, but floating directly. In the blink of an eye, the black body of the corpse is left, wrapped in the three-color flame of Shennong, and quickly turned into a faint **** mist, but It still exists in the three-color flame of Shennong, and it has not completely disappeared!

Chapter 3836: Nine-order grand perfection

Just in the black corpse of the group, the obsessive blood line was forced out, and then refining into a faint **** fog energy, wrapped in the Shennong tri-color flame, Ye Xuan's mind, also unexpectedly A familiar system sound was heard.

“Hey, congratulations to the host, discover the essence of the spiritual source! Is it immediately taken?”

The essence of spiritual knowledge?

Ye Xuan stunned and then returned to God.

Obviously, this so-called spiritual source is the essence of the essence, and it should be the pale blood mist that is being wrapped in the Shennong tri-color flame.

Refining the **** obedience of the blood.

After all, this bloodline obsession was originally the essence of the spiritual source left by the Zijin virtual mouse.

This spiritual source is endowed by the corpse of its wreckage, and now it is the origin of the corpse, and it will soon be the ancestor of the corpse, and one of the essences will be turned into a bloodline obsession.

Now that this bloodline obedience has been refining, it has become a faint **** mist of this canopy, and it can still be absorbed by Ye Xuan. It seems to be a good thing.

If it is not a good thing, the system will not give a tone and ask if it is taken immediately. For this, Ye Xuan has already figured out the routine.

However, it is not the time to collect it, because according to Ye Xuan's estimation, once this kind of thing is collected, it is estimated that the retreat will break through on the spot. After all, this purple gold empty mouse is not a general existence, the ancient power The level is there.

As the essence of the spiritual source he left behind, he has been refined by the three-color flame of Shennong. Can his grades and effects be worse?

Ye Xuan seems to have seen the moment of his breakthrough, but this time it is a breakthrough in a small stage, or more than two, but he can not predict.

It is not that in this squirrel, the mainland cannot break through the retreat, but there is still an urgent need to deal with it. That is, after the ancestors rebuilt the body of the corpse.

Soon, the light-stained mist of this awning was all collected by Ye Xuan along with the Shennong tri-color flame that wrapped it.

Then, the group has been purely a black corpse source, and it has floated to the side of the ancient treasures floating in the void in the air, and directly fell into it.

This is not complete, and then, Ye Xuan has taken a large amount of congenital yin and cold spirit liquid from the immortal world, as well as the scented lotion and the colorful meat mud, all of which are thrown into the smoke.

Finally, it is twenty drops of evil source!

Of course, these are not just for the post-Qing, but the one that includes the drought and the flood is also inside. Anyway, she will soon enter the smog.

"Sure enough, it is the source of all evils, the top good things, even in the era of the ancient times, when my deity has not fallen, I must see this kind of thing to be hot."

Seeing that Ye Xuan actually sent out twenty drops of evil source liquid into the smoldering Luo, the corpse of the ancestors immediately appeared a smile on the face, and bowed to Ye Xuan Yingying: "Thank you for your master!"

After that, the face was red, and one of them went into the smoke.

This is still the first time Ye Xuan saw her showing her daughter's posture, and she suddenly looked at it.

Didn't wait for him to come back to God, and soon he wanted to make another voice: "Thank you for your master!"

This is obviously not the murder of the corpse, the voice is more charming, and the feeling of flattering is revealed. Just listening to a voice makes Ye Xuan a little soft, and it must be the voice of the ancestor after the charming.

"Cough and cough...you, recover it!"

The look was slightly swayed, and Ye Xuan was a little embarrassed on the spot. He coughed twice and confessed a word. Then he waved his hand and took it into the body.

Perhaps, the next time I sacrifice this treasure, if the corpse of the ancestors and the ancestors have once again closed out, then, when Ye Xuan will squat, they will immediately have two more fascinating domain owners and grotesques.

.....

After the treatment of the ancestor's ancestors, Ye Xuan even began to view information about the attributes and effects of the genius of the genius in the data repository of the phagocytic system.

This squirrel is the best retreat in the mainland. There is only one person in the whole star. The top of the head is separated by a layer of thick layer of 100-mile thickness. Even the lords of the world can't get in, Ye Xuan naturally. You don't have to worry about retreats when you break through!

After some understanding, Ye Xuan's heart is more intense!

This kind of spiritual source is the most effective fruit, which not only enhances the intensity of the gods, but also stabilizes the monks and even the quenching effect.

It is said that it is the simultaneous tempering of the flesh and the gods, so that the connection between the two is closer!

"Good things, it seems that this time retreat, it is absolutely impossible to just break through a small step!"

In the muttering of himself, Ye Xuan's heart is full of expectations. Today, he is the sixth stage of the thirteenth state in terms of the realm of flesh and blood.

Once the state of the three-headed six-armed Taikoo konjac is activated, it is the third-order repair of the Qiankun.

If this time can break through the three small steps again, Ye Xuan's repair will step into the domain and start the ninth-order grand perfection. At that time, he can take the fourteen-level liquid. Once the fourteen-level liquid succeeds, his cultivation is the strength. The first step of the celestial light that will advance into the fourteenth world.

At that time, the **** state of the three-headed six-armed Taijiu konjac was activated, and its cultivation was to raise two small steps again on the basis of the original, reaching the fifth stage of the Qiankun, both of which are close to the late Qiankun!

"With this enchanting knowledge of the essence of the source, this retreat, breaking through two small steps in one fell swoop, obviously there is no problem. But this is not enough, it is best to break through to the ninth order, at that time, I can take the fourteenth grade liquid immediately..."

In the muttering, Ye Xuan quickly decided: "No matter what, then use a drop of evil source liquid, if there is no accident, this time with the help of this enchanting source of the essence of the power, even break the three small steps, It should not be a problem!"

After the decision, Ye Xuan bite his teeth and took a drop of all the evil source directly from the immortal world. He gave it to the phagocytic system. Then he gave it to the system and immediately took the drops of the evil source. The awning knows the source of the essence of the instructions.

In my mind, the familiar system prompts quickly sounds, and Ye Xuan rushes to sit in the void and knees, closes the eyes, and enters the state of cultivation that I have forgotten!

I don't know how long it took. When Ye Xuan opened his eyes again, he was expecting the system to sound, and in the first time, he sounded in his mind.

Sure enough, the familiar system prompts, this time really resounded three times!

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the domain begins seven steps!"

.....

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the beginning of the field is full of great success!"

The beginning of the field is full of ninth order!

After successive breakthroughs in three small stages, Ye Xuan finally reached the peak of this situation.

The next thing that needs to be done is to swallow a tube of fourteen fluids.

This time, he wants to break through the realm of physical strength of the flesh and blood, and break through the fourteenth state of the world, and then walk out of this rat comet!

Chapter 3837: Strength is skyrocketing

"call out!"

The faint sound of breaking the air rang, and a light blue secluded man shot from the immortal world in Ye Xuan's body, suddenly stagnation, suspended in front of Ye Xuan.

This is a potion test tube. The material of the test tube is the top-grade flawless ice crystal. The light blue liquid contained in it is the 14th grade liquid that Ye Xuan just condensed just before!

"The path of physical evolution, with this kind of genetic culture fluid, at most, it can only go to the fifteenth environment."

Looking at the light blue fourteen-level liquid in front of the eyes, Ye Xuan's heart could not help but give birth to emotion: "Recall that when I first took the first tube of liquid, everything seemed to be close at hand. I didn't expect to go to level 14 so quickly. Liquid."

"A large amount of hardened medicine after the fifteenth grade liquid can no longer be obtained by means of this kind of chemical configuration. It is necessary to use Shennong Ding as a general medicine to carry out the world..."

"That is to say, this time, after swallowing the fourteen-level liquid, the similar method can only be used once more. It seems that the matter of Shennong Dingfu's blood-staining medicine should be started immediately, otherwise it will stop again. In the realm of Qiankun, the road to practice can no longer be carried forward!"

Having said that, Ye Xuan suddenly shook his head and smiled bitterly. He didn't dare to think too much. He quickly threw these thoughts behind his mind. Between the movements, the light blue liquid suspended in front of him was opened in the cork. After that, I shot directly into the mouth of Ye Xuan.

Once again, kneeling and closing my eyes, Ye Xuan again entered the state of cultivation that I forgot.

Soon, Ye Xuan's face showed a painful color. This is the effect of the fourteenth grade liquid. It is really affecting the physical potential of his deity. This feeling is not the first time that Ye Xuan has tried. But every time I feel it is almost limit pain.

Although his cultivation is improved, the gene culture fluid used every time is also rising, and its efficacy is increasing again and again. Otherwise, it will not achieve the desired effect, and it will not be able to break the physical potential and tear it. The shackles of the flesh and blood.

The whole process has not lasted for a long time. After all, he has already laid the foundations before, and the scent of the evil source and the remnant energy of the fascinating source are still in Ye Xuan. The body is rushing, and the potential has long been loosened.

For this reason, with the efficacy of the fourteen-level liquid in the tube, coupled with the residual source of the evil source and the power of the essence of the essence of the residual power, Ye Xuan body faintly passed the chain 哗哗The sound grew louder and louder, and finally a loud bang, a chain of shackles that shackled his flesh and blood, was finally completely torn off, no longer forming a bondage.

At this moment, the speed of energy in Ye Xuan's body suddenly increased. If it was a raging river, then it is now a majestic giant lake, which is completely different.

In the next moment, Ye Xuan, who was kneeling in the void, opened his eyes, and the sputum shot a touch of fine mans, which looked very cold and incomparable!

In my mind, the familiar system prompts, and also sounds in a timely manner: "Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm, the first step of the universe!"

Zhou Guang is a step!

This is equivalent to this time, Ye Xuan has broken through four small steps!

According to his previous speculation, the promotion of the two small steps of the deity, in the state of the three or six arm konjac, can be exchanged for a small level of strength increase.

Prior to Ye Xuan's three-armed and six-armed konjac, the strength that can be demonstrated is the third-order of Qiankun. Now the body of the deity has improved four small steps, then, if there is no accident, once the konjac is activated, His cultivation is the fifth step of horror.

It's not far from the late Qiankun border!

In order to verify whether this speculation is accurate, Ye Xuan, even if he grows up, activates the real body of the konjac!

Soon, a three-headed and six-armed Taikoo konjac was born, and the body exudes a breath of breath. It really is the fifth-order of the Qiankun, and Ye Xuan speculated that there is no difference.

But this is not the strongest strength that Ye Xuan can play at present, because in the state of the three-headed and six-armed konjac, he also has the konjac and blood vessels that he just got.

Each change, repaired to enhance the strength of a small stage!

"The konjac has changed... the first change!"

With Ye Xuan's violent temper, the next moment, the Taigu konjac body of the ten-foot-high body type has once again proliferated, and an inexplicable blood force has suddenly swelled in the body and gathered into a similar tide-like force.

The strength of the three real bodies of the Taikoo konjac was greatly increased. In the blink of an eye, only the body shape of only ten feet was directly raised to a hundred feet.

Repaired into a breath: Qiankun sixth-order!

"The konjac changes... the second change!"

After the second violent drink, the familiar feeling came again. The blood in the three real bodies rolled again, and the amplitude exceeded the previous change. Before the first change, the konjac was a hundred feet. But now, it has skyrocketed to a thousand feet!

Repaired into a breath: the seven steps of Qiankun!

"Roar!"

"The konjac changes... the third change!"

Ye Xuan once again screamed and screamed. With the third change of the konjac, the violent blood force in the three real bodies also surged again and again, like the same roaring river, directly driving the three-headed and six-armed The konjac is like a balloon, and it swells quickly.

From the original one thousand feet high, quickly reached two thousand feet, three thousand feet ... until the last 10,000 feet!

Repaired into a breath: the eighth order!

After a short three-rate, Ye Xuan activated the konjac and immediately opened the **** magical power of the konjac. Although it only started to the third change, its body shape of the konjac still reached the limit. Giant, repaired to strength, but also soared three small steps.

It has reached the current eight-step sequence, and it is only a small step distance from the nine-order perfection.

If now he can display the fourth change of the konjac change, then the blood of the Taikoo konjac's huge blood, not only will instantly rise ten times again, reaching the horror of 100,000 feet.

The strength that can be demonstrated is also to be promoted to a small stage again, to achieve the great success of the nine-order!

Moreover, the 100,000-foot-old Taikoo konjac, as the body has soared to a horrible level, has already been the same as the 300,000-meter-large starry sky war, and the blood is full of horrible.

Therefore, at that time, although its cultivation is the strength of the nine-step grand sacred, but the real power of the war, I am afraid that even the star lords have to look at it.

What is the horror of the blood of a hundred thousand feet?

It's just like a super big blood cow, it's too resistant, and the real comprehensive strength is not so simple on the surface of the nine-step grand perfection!

Unfortunately, the fourth change of the konjac has changed too hard, but it has not been deduced yet, but I believe it will not take too long. Ye Xuan is full of expectations...

Chapter 3838: Mao does not leave a

This time the harvest, Ye Xuan is very satisfied, it is a surprise!

Not only does it want to smother a savage ancient power, but if there is no accident, the ancestral martyrs and the ancestors, after the retreat, will be upgraded to the domain!

Today's Ye Xuan is far from comparable in the past, and the level of star-studded powers in contact with it will be higher and higher in the future. The subordinates of the Qiankun regime are basically of no use to him.

The subordinates of the main character of the star will be the minimum requirements for his generals, and they will be able to stand alone.

It can be said that the corpse of the ancestors and the ancestors of the ancestors gave Ye Xuan an unexpected surprise this time.

Although there are already two lords in his eyes, they are Taikoo Porcupine and Taikoo Turtle, but after all, they are two fierce beasts. Some things, Ye Xuan is not good at it.

However, the ancestral martyrs and the ancestors did not have this concern, and they still crouched in the smoke, which was convenient.

Although the Taikoo Porcupine and the Taikoo tortoise are also in Shennong Ding, they are carried by Ye Xuan, but the movement to worship Shennong Ding is too great, but there is no such worry in the smoke, but one is a small 绢, but nothing. quietly!

In addition to these, Ye Xuan's own cultivation has also improved too much, and now it is the 14th largest state of the world. If the activation of the konjac blood, enter the state of the three-headed six-armed konjac, and then display it three times in succession. The konjac has changed nine times. In the case of the third change of the konjac, Ye Xuan can show the strength of cultivation, and will reach the eighth order of horror!

It's just that the strength of this surface is enough for him to face the star owners.

If you add some other magical means, and the battle with the existence of the late star territory, Ye Xuan has the unyielding grasp of self-protection!

But this is still not finished!

In addition to the above, there is still a treasured body of the ancient power level waiting to be collected. This purple gold empty rat is not only a huge body, like a small star, but after the fall of endless years, the body remains the same. Not rotted, the body still has the blood of the life preserved.

This level of Baoxuebao meat, even the golden mouse, the main level of existence is eye-catching, Ye Xuan has never been before, at most, that is, after getting a lot of flesh and blood smashed in the same territory, merged together The colorful meat mud only...

Although the effect of the nine-color meat mud is similar to that of the purple gold-empty rat, but the way is completely different.

Jiu Cai meat mud is also used in medicine refining, or directly extracting the energy from it, but it is impossible to use Shennong tri-color flame to roast, roast it out, and it tastes no big taste. Things are also wasted.

But the complete and intact purple gold emptiness mouse meat is different. Where do you want to eat today, from where to slash, all the roasted meat pieces are golden and oily, and the color and flavor are all... The taste, Ye Xuanguang is thinking, both I want to do it right away, let me go!

It is a pity that it is not the time. There is also a border king, the golden mouse, waiting in the eye. Calculating the time, Ye Xuan entered the inside of the rat comet, and it took more than a day.

The Rat of the Space Rat is not a thing. Ye Xuan is not worried that he is waiting for anxiousness. He can stay in the feelings of Mo Taiye and Mo Qigong outside the Rats Cave, but he can't help but think about it.

After all, the Space Rats are just the allies who have just joined, and they can't be completely trusted. Not only is Ye Xuan, but also Mo Taiye and Mo Qigong.

And Ye Xuan, this time alone, entered the forbidden land of the clan.

If the time drags on for too long, Mo Taiye and Mo Qigong should not be in a hurry, it is absolutely impossible, in case of staying with them in the space outside the Rats Cave, the two mouse owners are anxious. Eyes, the outbreak of conflict is hurt, it is not good.

Although Ye Xuan was angry at the shameless calculations of the Golden Mouse, he did not intend to turn his face with the Space Rat.

Anyway, the benefits have already been paid, and the loss is only the other party. In this case, the adults have great understanding and do not care about this shameless ethnic group.

Of course, this is just a good thing to say. It's really a word: the more shameless, the more I can resist, and then take advantage of you, and finally die directly!

Treating the space mouse family, Ye Xuan at the moment, I intend to use this method to greet!

Such a large rat body, and it is still the existence of the ancient level of the era, with Ye Xuan's current cultivation as the strength, simply take people no way.

If you want to put this rat body away, you can only use Shennong Ding.

In this way, Shennong Ding must show its full state. At present, it only condenses to the size of a hundred feet, and it simply cannot be accepted.

Fortunately, this mouse comet is big enough, although the complete state of Shennong Ding is also a star of Pang Ruo, but the stars are also large and small, and the rat comet is the kind that is extremely rare even in the three universe planes. The superstar, Shennong Ding, after showing its complete form, is not small, equivalent to a huge star.

But compared with the mouse comet, there is still a gap.

Between the thoughts, Ye Xuan urged Shennong Ding, so that the tripod showed a complete form, and the inner space of the star's thickness of the atmosphere was just put down.

Then, with the sound of a smashing sound, the huge mouse body, such as a small meteor, was collected by Ye Xuan into Shennong Ding.

Directly to the closed storage area at the bottom of the central volcano.

In the process, the huge rat corpse passed through the volcano of the central domain, and was just seen in the middle by the ants Jiu Ning and Mengma Mountain still in the bottom of the volcano in the central area.

Although the ancient tyrannical power of the giant rat corpse has been suppressed, because it has entered the Shennong Ding, it has been greatly weakened, but the breath still surpasses the main level of existence. On the spot, it will scare the ants and the martial arts. The whole figure was soft and fell to the ground, and the face was stunned.

Muttering in the mouth...

"God, a big rat, this... wouldn't it be the blood ancestor of the space rat?"

"At least it must be the existence of the main level of the transcendence, what did the fox lord do in the end? Even the existence of the transcendence of the main class, he was taken up by the corpse, ready to be used for roasting? Too mad! "

As the treasure body of the purple-golden emptiness mouse of this ancient genius level was taken away, the horror of the inner space of the scorpion scorpion was weakened, but it was too wide, but because the star was too vast, even The dense fog at the top of the head has a thickness of a hundred miles, so this pressure gradually dissipates, and outside the rat comet, it should not be obvious so quickly.

But this matter can't be dragged on for too long. Otherwise, once the main metal of the front finds that the original horrible pressure in the dense fog is weakened, it is afraid that it will immediately venture into it to see what it is.

Therefore, Ye Xuan decided not to delay too much, and glanced back at the ground below, and determined that after Mao did not leave one, he even rushed to the sky, and his body was shrinking again. Under the protection of the fog, the blink of an eye disappeared...

Chapter 3839: a hole in the sky is roaring

The only creation of the mouse comet is the treasure body of the ancient purple-level empty-necked rat, and now that Ye Xuan has earned Shennong Ding, then this star naturally has nothing to continue to stay. .

Ye Xuan has nostalgically rushed directly into the dense fog of the sky, and his body shape is hidden in the colorful fog of Shennong Ding Ding, and is protected by its power. In a short time, from the other end of the dense fog atmosphere, Rushed out.

When the figure is manifested again, it has already reached the rat wall outside the atmosphere of the rat's comet!

Then, a golden mantle flashed, directly stagnated in the void in front of Ye Xuan, it is the shameless king of the golden mouse.

"Order...just let the little friend?"

Seeing that Ye Xuan suddenly appeared, and rushed out of the dense fog of the mouse comet, the stagnation of the face of the golden mouse, the words in the mouth were stuttered.

He actually has been waiting for a long time!

As early as one day before the formation of the array method, the two-and-a-half-and-a-half of the scent of the furnace and the colorful meat mud into the interior of the squirrel star behind the dense fog atmosphere, he has been waiting here.

The mood can be described as ups and downs, and it's hard to be safe!

There is still a matter of spiritual knowledge in the purple gold hollow mouse. The space rat family has indeed recorded it, but it is a long time before, and it has almost become a legend.

Therefore, even the leader of the Golden Rat is not sure whether this matter is reliable.

He had previously sent out the two-and-a-half-foot-squares of the Mastic Lotion and the colorful meat mud, which is actually a kind of gambling.

Betting on the true reliability of this legend.

If the gambling is in progress, then the fox lord enters the inner space of the squirrel star, which is equivalent to sending food. There is no way to come back. The space mouse will have a blood ancestor with the ancient power of the ancients.

He himself, and even more likely, also gets a lot of treasures. After all, there are many good things in the fox-small masters. As a second-generation body of the purple-gold emptiness mouse with the ancient powers of the wild, this blood source must be determined. There are a lot of treasures that don't look good, and they are all hiss by then!

However, if there is no gambling, then, not only the formation of the array method, but also the two-and-a-half-foot square of the squirrel's scented scented scented scented scented scented scented scented The Lord found that he caused his anger.

At that time, it is really a stealing of the chickens.

Therefore, the Lord Golden Mouse has always been jealous, and now, when he sees the atmosphere of the thick fog, it is not a Zijin big mouse that lived out of the second world, and he is afraid of breath, but the fox that just entered the day. After the Lord is less, the leader of the Golden Mouse has a heart, and it is not calm.

My heart was uneasy, and I tried to ask: "Hey... little friend, come out so soon, how is the harvest? Fortunately, at least the little friend came out safely, and the deity has been hanging in the eyes of the blind man. I can finally let it go!"

Shameless!

It's just shameless!

This thick face is almost unprecedented!

Ye Xuan's heart sneered, but his face was quiet, but he smiled and greeted him, swearing: "Predecessors, this time, the mission is not insulting, after all, it brings out some things, it is from that Respected the body of the purple gold emptiness mouse..."

"Hey, you don't know, the rat corpse is so crouching on a vast plain of the squid, the height of the back is a million feet, and even the top of the mountain is thrown underneath. The size is too big!"

"What? The legend of the Purple Gold Void Rat is actually true?"

After listening to Ye Xuan's words, the Golden Mouse was ecstatic, excitedly slammed on the spot, his hands twitched, and finally extended his right hand to Ye Xuan: "Come on, Xiaoyou, thank you, this time can be thanks to You, my space rat will not forget the great grace... Hey, the space box? How many treasures of blood?"

"Blood treasure meat?"

Ye Xuan heard a word, and then the look on his face was a little weird, and he sighed. Finally, "There is a way, too much, no blood, no treasure, and the meat is like a whole mountain... ..but I can't cut it!"

"That dead mouse does not know what level of cultivation is the strength, it is the star of the Lord's star to the sword, can only open the mouse skin, can not enter the meat!"

"In the end, there was no way. I had to sacrifice the fire of Shennong Ding to burn. Who knows that if I burn, I can't stop it... The mouse corpse doesn't know that it's been too long, it's already dry, or something, fire. Just, hula, the fireworks are all over the sky, and the whole mouse body is blinking!"

Speaking of this, Ye Xuan once again sighed: "Unexpectedly, the king immediately received the fireworks, but unfortunately it was still late. The super-powerful body of the body somehow, actually took out a black source, through A thick corpse, blasted open, and turned into a corpse..."

"In the end, all the corpses of these corpses were smashed and opened, and all the corpses were turned into black corpses. The whole body of the mouse was covered, and the Lord was almost injured."

"Fortunately, the last bite, rushed forward, after all, I will save it a little, hey, it's here..."

Said, Ye Xuan turned over, a purple gold rat hair appeared in his palm, this is the spoils he is going to hand over to the king of the golden mouse, originally intended to give him a hair, and later thought It's good to leave the root hair, disgusting this old guy, maybe it's possible to be alive and mad!

"This is this... is this what you brought from the rat comet? Just... is it a mouse?"

As early as Ye Xuan described the whole sinister temperament in a succinct manner, the main metal on the side was already sluggish.

Looking at Ye Xuan slyly, his mouth slowly grows...

At this moment, he saw the so-called spoils that he took out of his hand. There was no treasure in the blood. There was only one **** rat hair. The golden mouse of the border only felt a blast in his mind, and his face changed completely. .

The difference between the front and the back is too big. The higher the hope, the greater the disappointment. In a short time, he simply can't accept it!

"Look at what you said, seniors, what is this mouse? This is a purple gold rat hair..."

Ye Xuan's heart blossomed early, but his face still kept a bright smile. While talking, he raised his hand and handed the purple-colored mouse hair of the palm to the hands of the king of the golden mouse: "Predecessors, You can take it well, it is okay to think about it. After all, it is the source of the blood of your space mouse. The huge body of the mouse-like body has been completely turned into gray... flying!"

"This purple gold rat hair is the only thing that the Lord has lost his life and safety, and the only thing he has saved. Keep it!"

"squeak....."

"Like the fox, you are deceiving too much!"

Ye Xuan's words were just finished, and the king's golden mouse suddenly screamed out with a scream of shouting, followed by a roar of anger and anger from his mouth.

This moment, the entire vast expanse of the rat wall, the sky, shook, like a hole in the sky, are roaring...

Chapter 3840: Void in the tremble

"squeak....."

"Like the fox, you are deceiving too much!"

The golden mouse of the king suddenly raised his hair and shouted a scream of shouting, followed by the roar of anger and anger from his mouth.

This moment, the entire vast expanse of the rat wall, the sky, shook, like a hole in the sky, the sky is roaring...

The old guy is mad!

Originally, it was Ye Xuan and not the expectation that he rushed out of the dense fog. Because he gave him a creation, and lived the second generation of the purple gold emptiness, his heart was already very uncomfortable. It is.

It's just because there's nothing happening in the inland of the rat's comet, it's not an outbreak.

And then, Ye Xuan said that this time is not insulting, quite rewarding, this suddenly let the king of the Golden Mouse rejoice, who expected that he took the hand to take out the so-called spoils, actually just a purple gold hollow mouse ... rat hair!

This is absolutely deliberate!

Instead of picking up this purple gold rat hair, it is better to say that nothing has been caught, at least the psychological gap will not be so big, the old face will not be so unstoppable.

The Golden Mouse is now completely certain. The reason why the other party deliberately did this is to retaliate against the tricks behind him.

The two little squats and the succulent meat that had been sent to the inner space of the rat's comet were obviously discovered by him, and through the two things, the fool could judge something.

Although he did not think that Ye Xuan had taken away the treasure body of the whole purple gold emptiness mouse, he did not think that he had that ability, but Bao Xuebao meat must have taken some, and at this moment, he did not take it out, but only paid it. A purple gold rat hair is for revenge!

This is nothing wrong with it. After all, the whole thing was originally made by the lord of the Golden Mouse. But if the other party is a lord who is the same as his strength, he will not be able to wipe his face and be ashamed. Go, or simply take a soft, apologize in person.

After all, it is already an ally, there are some things, it is still necessary to say open!

However, this kid is only the sixth-order revision of the thirteenth state. Why is it so arrogant in front of a lord?

A generation of demon emperors and crazy mosquitoes, mosquitoes and old ghosts are powerful, but their projections can only fall to the outside of the mouse market, and want to go directly to the mouse wall, it is absolutely impossible!

It's okay if it's coming, but I'll ask them to come and plant one, all of them come back.

This piece of ratish cave is the true ancestral home of the space mouse race, and the ancestors of the family who sleep in the stars around this comet are not only simple, but also simple.

Beyond the existence of the universe!

Now, in the face of a group of slumbering ancestors, he was teased by a junior who could not even be repaired by Qiankun Kun. This tone is simply impossible!

These thoughts flashed in the mind of the Lord Golden Mouse in an instant, almost at the next moment, and the sound of roaring in the mouth was still not falling. In his body, there was a horror of the world, which rushed out. Wrap up to Ye Xuan!

The old guy didn't plan to kill Ye Xuan immediately, but he had to crack down on it, and then confessed and even searched the soul until the last drop of the other person's body was squeezed clean...

Now that he has turned his face, the so-called affiliation of the alliance has naturally been thrown into his mind, and he has completely ignored it!

In the face of all this, Ye Xuan has no fear, and can even say that even the look on his face has not changed.

He has the confidence!

On the one hand, he believes that the news about the wreckage of the purple gold emptiness rat has not been forced out. Before this, the leader of the golden mouse can never kill him, and he can directly activate the interstellar coordinate jumping ability at any time. escape.

Although the place where he is now is a hole in the sky, but Ye Xuan has tried to develop the interstellar coordinate jumping ability in this environment, it is not affected at all.

He can leave only for a short period of time.

On the other hand, he has a more determined reliance, that is, headless baby corpse.

Don't look at the headless baby corpse. He doesn't take care of Ye Xuan. He tries to contact and communicate actively. The other party always ignores it and has no response.

But at every critical moment, when the shot is taken, the headless baby will definitely be shot.

After all, Ye Xuan is his parasitic subject. No matter what the purpose of the headless baby is, is there any calculation for Ye Xuan, but one thing is certain.

That is, the headless baby corpse has not yet grown, or recovered, he still needs Ye Xuan at least for the time being, it is impossible to watch him fall.

Of course, if Ye Xuan is dead, the headless baby can choose other starry sky parasites, but from the past, Ye Xuan has to have a certain speciality. Otherwise, why is the headless baby? I chose him alone and never let him actually do something?

For this, Ye Xuan himself still has a lot of doubts, but he at least knows that in the face of the front of the main gold mouse shot, if he does not activate the interstellar coordinate jumping ability, bite his teeth hard, to the last moment , headless baby corpse ... must be shot.

In fact, Ye Xuan did indeed do this. This is not only a temptation for him, but also a statement and knock on his headless baby body!

If this time, the headless baby corpse will eventually be out, then it will be enough for Ye Xuan to confirm the speculation in the heart. At the same time, he deliberately did this. The headless baby corpse is also well aware, in order not to let Ye Xuan continue to go to extremes. I'm sure I'll try to communicate with it later... how much will be a little more!

It can be said that Ye Xuan is facing the attack of the Golden Mouse at the moment, but he does not react at all. It can be said that there are several purposes in it!

It's like betting, but he's worried that the chance of winning this time is at least 70%, so high, it's worth the risk!

The final result is indeed that Ye Xuan won!

"Hey..."

Just as the king of the golden mouse suddenly shot, the majestic Weili from the body, only from Zhang Xuan's body shape, the next physique will completely bind Ye Xuan's body shape, and The first time he invaded him and launched various insights and searches.

Ye Xuan's left front chest suddenly became inexplicable. At the same time, an earth-shattering whistling sound, suddenly sounded without warning, instantly swaying hundreds of miles away, the entire vast expanse of the mouse wall, any corner, Can be heard clearly and incomparably.

This screaming does not have any temperament at all, but there is a kind of unspeakable horror, not only the golden mouse in the emptiness of the front of Ye Xuan, who fell to the ground in the first time.

Even this vast and innocent rat wall, the sky, is under this scream, like a starry sky earthquake, shivering!

"squeak!"

"squeak....."

In the distant stars, the most vicissitudes of the stars, a few trembles full of fear, fainting and rumbling...
