Chapter 3841: Little ancestors

As the whistling sounds, the entire vast expanse of the rat wall, the sky, trembled.

"squeak!"

"squeak....."

In the distant stars, the most vicissitudes of the stars, there are a few trembles full of fear, and faintly spread!

These stars are closest to the dense foggy atmosphere of the high-sounding comet, and the breath is also the most vicissitudes. In the rat hole in the stars, the sleepy must be the most powerful blood ancestor of the space rat.

Ye Xuan had followed the lead of the golden mouse, and from the direction of these stars, vaguely sensed a breath, a horrible atmosphere far beyond the border.

It was just a glimpse of nothing, and at that time he was let his entire back wet with cold sweat.

According to his estimation, among the oldest stars, Shenmian should be repaired as strength beyond the existence of the universe, because in the more peripheral areas, Ye Xuan has sensed the atmosphere of the border and transcends the Lord. The environment should be the breath of the powerful universe.

Among the oldest stars, the immersive temperament of the slumbers is stronger!

In addition to surpassing the existence of the universe, what else can it be?

At this moment, these ancient survivors surpassed the cosmic level, apparently scared after being awakened by the whistling sound, and the snoring sounded.

In the face of this scene, the Lord Golden Mouse is utterly desperate, and his figure still squats in the void, but screams like a ghost: "This is impossible! Linghu Chong, even the immortal ancestors are scared like this, you... ..you cheated!"

"Is the original cosmic level behind, is it immortal? It sounds like it's quite tall, but..."

Having said that, Ye Xuan turned to look at the ancient stars that heard the trepidation and screamed: "But the immortal ancestors of your space rat are not so good, but you can understand, after all, It's a rat, even if it's immortal, the courage is still a little small, it's understandable."

This is absolutely deliberately satirical and humiliating, and it will surely let the immortal ancestors of the space rat who have been awakened by the whistling sound, but Ye Xuan does not care.

The headless baby corpse has already been shot, what fear is he?

Just taking advantage of this opportunity, to beat and shock the space rat, this family is a bit shameless, the lords of the world have no face and no skin, if they do not scare them, I am afraid to swear in the league in the future. Any violation is light, and a slight conflict of interest will definitely slap the knife behind it.

This problem must be solved, otherwise it will be a huge hidden danger in the future.

At the moment, the headless baby corpse is just a scream, revealing the pressure, in Ye Xuan's view, obviously not enough, at least, far from the pain of these guys, let them remember!

As soon as I read this, Ye Xuan's glimpse of the fine man's face flashed and his face was gloomy: "Yes, did you just want to suppress the Lord?"

Halfway through, Ye Xuan's words were stunned, and the line of sight was removed from the body of the golden mouse. He swept the old stars that heard the trepidation and sneered: "Now the immortal ancestor of your space rat They all woke up, the name was very loud, and it was very scary to listen to. Is it necessary to take out one of them and kill the young master on the spot?"

"Little friends, misunderstanding..."

"There is no such thing, don't be impulsive!"

"I don't know anything, it's not about us..."

"boom!"

"Booming..."

Ye Xuan's words have just been finished, and the unrecognized Golden Rats are screaming. In those ancient stars, the space-raising ancestors who had previously screamed and screamed and screamed and screamed, and they all explained in a panic.

It is a pity that the temper of the headless baby corpse has not been very good. How can it be heard in these words?

In addition, this time it can almost be regarded as Ye Xuan deliberately this kind of dead pig is not afraid of boiling water, the pressure is forced to shoot, the heart must be also angry, although not to Ye Xuan, but other people do not care.

Just a scream, not enough to let it ventilate, since the shot, then you have to see some blood to be worthy of yourself.

It's obvious that the Lord's Golden Mouse does not look at it at all, and there is no interest in even the shot.

As a result, some of the immortal ancestors of these space-rare sins have been embarrassed...not until their explanations are finished, a huge sound of explosions has suddenly risen to the sky, a distant one The ancient stars blew out the blood of the sky, and the stars broke open.

So easy, an immortal space of the Rat Rat blood ancestor... Instantly killed, the gods are gone!

However, it is only this one, and the deterrence has to have a degree. The headless baby corpse has already guessed the purpose of Ye Xuan, so that he did not shoot again, and even the sound of Xiao Xiao disappeared.

The meaning of the hotness from the left chest quickly dissipated. Obviously, this is the rhythm of the headless baby corpse once again falling into a deep sleep.

At the same time, in the other ancient stars, there was another scream of horror, and this time, the feeling of shaking was stronger.

In the blink of an eye, an immortal space mouse ancestor who is quite similar to them, so light and fluttering the terrain is completely destroyed. This is definitely a big horror. The surviving surviving ancestors of the space rat have already scared even I didn't dare to ask for mercy.

Opposite the emptiness, the situation of the Lord Golden Rat is even more unbearable. At this moment, he is still sitting in the void, his mouth wide open, his eyes rolling round, and the face covered with golden fluffs reveals a paper-like appearance. Pale, I don't know how he did it. Seeing Ye Xuan is amazing.

"Second seconds... killing immortal ancestors? Everyday... God! At least it must be a wild power!"

Suddenly sluggish, the whole king of the golden mouse is like a stupid, so he looked at Ye Xuan so slyly, his mouth muttered, his body is constantly swaying in the sifting of grain, an immortal blood. The ancestors were gone, and the matter was in his case. As the sky collapsed, the degree of shock could not be said.

Today, he finally realized that what he was provoking was a terrible existence.

It's no wonder that a generation of demons and crazy mosquitoes, mosquitoes and old ghosts are so horrible in front of him. This was originally seen in the original, but it was forgotten in the back, now... actually offended this Behind it is a **** of killing!

This is not the disaster of the genocide?

If the **** is willing to kill, not only will the entire space rat outside will be annihilated in an instant, even this piece of the mouse wall that represents the blood of the space mouse family, I am afraid it is difficult to escape this disaster.

Thinking of this, the king of the golden mouse shuddered and shuddered, and finally returned to the soul, freed from the state of stagnation.

The next moment, his line of sight and Ye Xuan confronted, and the latter's lips moved slightly, seemingly want to say something... Just now he said a word, the space Rats lost an immortal blood ancestor.

Thinking of this, the king of the Golden Mouse once again stunned, panicked and sneaked in front of him, and said with a crying cry: "Little friends, no, little ancestors, this is really a misunderstanding..."

Chapter 3842: Another misunderstanding

The side of the abyss outside the Rats Cave!

Mo Taiye and Mo Qigong were standing next to the abyss at this time, with a worried face on their faces, and their eyes were fixed in the abyss below, but unfortunately they could not see the end, and the line of sight was only dark.

Next to it, the space mouse Rat's patriarch, the Ratwan Cave, sits cross-legged with the chief of the family's chief mouse, with a small number in front of him, drinking, and a few plates of spirits and spirits on the table.

The two seemed to be content with each other, and they formed a stark contrast with the sorrowful Mo Taiye.

The reason why the two of them have stayed here is to look at the plans of Mo Taiye and Mo Qigong, who will start after the Golden Mouse enters the Rats Cave. They don't know the details, but they can basically guess. Some.

And before the abbot with Ye Xuan fell into the abyss in front of him, he also secretly voiced to the two people, indicating that if there is a change in the day of the mouse market, and the two people can't hold back, the attitude is fierce. Take these two people as appropriate!

This is clearly a hint, indicating that the Lord Golden Mouse will be shot in the hole of the Rats!

In fact, this is exactly what the Ratwan Cave and the Rat Millennium are willing to see. They don't have any good feelings for this so-called fox lord and the devil group. They can even say that they are extremely unscrupulous. After all, the family's Daozi is unparalleled. It's a great feud.

It can be said that the mouse hole and the mouse millennium, in fact, have long been waiting for some intolerance, and eagerly expecting an abnormal movement in the wall of the mouse market, it is proved that the king of the golden mouse has already shot, they can also take advantage of the trend Take Mo Taiye and Mo Qigong.

This opportunity is coming soon.

"Booming..."

In the depths of the darkness below, there was a sudden booming sound, accompanied by a whistling sound, which was the movement of the headless baby corpse.

The screaming of the baby corpse made the whole mouse wall tremble, and it shook slightly. Although the power of this whistle was not transmitted to the void outside the cave, the whole mouse wall was trembled and had a space channel. The connected black belt will naturally react.

When I heard this loud noise, Ratwan Cave and Rat Millennium were accidentally stunned.

It seems that the name of the fox is very different. This is mostly desperate in it. Even the black ridges that are connected to the space of the Rattan Cave have produced such movements. It shows that the inside of the cave is so big.

However, the movement is big and only dying and struggling!

Since the main gold mouse has already been shot, then the singer and the lord will be degraded even if the means are rebellious, and the talent is destined to fall.

For this, no matter whether it is a rat or a thousand-hole, it is extremely incomparable.

Not to mention the three generations of the demons, the crazy mosquitoes, the mosquitoes and the old ghosts behind him. They simply can't come directly to the mouse market, even if they can, the final result is to die.

As the high-level of the Rats, they naturally know that there are other lords who are sleeping in the caves of the Rats. Even the cosmic and immortal blood ancestors have several ancestors.

There are real changes, and in these existences, just woke up to a cosmic-level blood ancestor, you can suppress everything.

For this reason, after the mouse hole and the mouse smashed a bit, even if the face showed a happy color, I had already waited for some intolerance, and now I can finally shoot.

Aside, the line of sight has always been concerned with Mo Taiye and Mo Qigong in the depths of the darkness below, but at this moment the face is abrupt.

Ye Xuan has been there for nearly two days, but there has been no response. At this moment, the depths of the darkness below, there is a loud bang, and there is a whistling sound, which is clearly the rhythm of the hands-on. Even though it is still not certain that it is related to Ye Xuan, they are completely unable to let go.

In the first time, I turned to the Ratwan Cave and the Rat Millennium, and asked for a day in the hole of the Rat Market to see what happened!

With this head, Ratwan Cave and Rat Millennium turned over on the spot!

The look is abrupt, and it's awkward, and it's screaming...

"Let's go! What are you two? Do you dare to make such a request?"

"If you want to enter the nest of my family's ancestors, even if your family's ancestors came to the emperor, there is no such qualification. The ants who are not in the two domains of your domain are so arrogant. If you don't take it, you can Service people?"

During the talk, the two old guys had already shot in the first place, but they were not the means of killing, but only the restraints and suppression.

After all, no matter whether it is Mo Taiye or Mo Qigong, the status is uncommon. It is the top of the demon royal family. The fox lord has been destined to be slain. Then, the space mouse must have at least two high-powered hands. The top of the devil's royal family is a hostage.

Otherwise, how can we force the whole army of the demon in the void outside the atmosphere of the rat, leaving the warships and resources, and slamming out of the ratish star field?

The two old monsters are the cultivation of the domain's main territory, but Mo Taiye is only the star of the nine-step grand perfection, that is, the half-step domain master, Mo Qigong is weaker, facing the two domain masters and strangers' shots. They almost did not even have the slightest resistance. They were tied to their physique at the first time, and they could not struggle.

At this moment, I almost waited for the tears to be peeled off. Mo Taiye and Mo Qigong's heart sank and realized that it was not good and they just roared.

"The shameless mouse, you actually went back!"

"How is the little friend of the fox? What is your space mouse? Is this going to be a dead end? Don't make a mistake..."

"presumptuous!"

Not waiting for the anger of Mo Taiye, the squad of the space mouse, the Ratwan Cave, has suddenly slammed and interrupted his words. His face is full of sorrow: "Let the fox scorpion? This time is estimated to have Hang up, as for the two of you...hey..."

Halfway through, the words in the mouth of the Rat Wandong stopped abruptly, his mouth was wide open, his face was dull, and his eyes crossed Mo's and Mo Qigong, looking at the depths of the darkness behind them.

In the line of sight, there are two figures that swiftly swept from the bottom of the Black Belt. Who else can there be except the Lord of the Fox and the Golden Mouse?

But this is not the key!

The key is... In the two figures, the fox squad is not only in shape, but also with his hands, his face is cold and arrogant, and the golden mouse behind him is slightly bent, face It's full of flattering smiles!

That look, that look, is exactly the posture of an old slave who follows the master!

This strange situation directly thundered the mouse hole, and then the mouse on the side of the body also saw this scene, his face was so pale, so shocked on the spot, he fell down on the ground, muttered in his mouth Language: "See you... hell, what is it going to be swollen?"

In the next moment, Ratwandong violently shuddered, and quickly hurriedly removed the domainlors who bound Mo Taiye and Mo Qigong, and pulled the dough to reveal a smile that was more ugly than crying: Don't misunderstand the two, just now the old man is just afraid that you are too impulsive, misunderstanding, this is definitely a misunderstanding..."

Chapter 3843: Next target

Although the mouse hole was awakened in time, the first time after returning to God, he regained his strength and lifted the **** between Mo Taiye and Mo Qigong.

But at this time, Ye Xuan and the king of the Golden Mouse have already reached the top of the Black Belt, but the distance is about a kilometer. There is no doubt that they all saw this scene.

Although what happened to the two people has not been seen before, just guess, you can guess.

Ye Xuan's face was suddenly sinking, and the sound of coldness came from the nose. For the shamelessness of this space mouse, he was thoroughly aware of it. It was a faceless and skinless group.

The cold snoring sounds into the ear, and the golden mouse of the world is so scared that the soul is flying fast, and the fear of self-death is also followed. After all, in the hole of the mouse market, the blink of an eye has already fallen into an immortal blood ancestor, and that Compared with the old ancestors, he doesn't even count a fart.

People really want to get him, and it is estimated that the existence is just a scream, it can make him fly away.

Under the heart of the tremor, the king of the golden mouse looks cold, and Ye Xuan has not yet attacked, and a step to the cliff on the edge of the Black Sea...

"Lie's have a grass!"

"You two old bastards, is that treating our allies and guests like this? The old man is mad..."

"Snapped!"

"Snapped!"

Angrily smashed a swearing slogan, and the king of the golden squirrel groaned in the mouth, and raised a hand to give the rat a thousand holes and the mouse millennium each with a big ear.

The strength is not small, the two lords of the ancestors, all of them were all picked up by the big ear knives on the spot, and when they finally stopped, they were already dull.

This slap in the face completely twitched the mouse hole and the rat. At this moment, their whole brains are chaotic and creaking, and they really can't understand how their ancestors would be like this.

Even if I can't suppress this fox, I don't want to be afraid of him.

On the side, Mo Taiye and Mo Qigong also opened their mouths. At this time, they were also full of brains and question marks, and they were so arrogant. In front of them, they were each slapped in the face with a loud slap. ...Too special is not true!

.....

After the tea time, the mouse market star in the royal family hall of the Rat.

Ye Xuan and Mo Taiye, Mo Qigong three people, under the guidance of the incomparably leading Jinniu, just sat down in the hall.

As soon as he sat down, the main metal barked his hands and looked like he kept turning his hands. He took out some rare spirits and spirits from the treasures of the storage. They were not willing to take them out before, but now they don't want money. Generally, the pattern is changed, and the treasure is presented to Ye Xuan.

A standard to a slave who can't be standard again!

In the face of all this, Mo Taiye and Mo Qigong are numb, and their faces are still sluggish, and there is still a red slap in the face of the mouse and the mouse. Standing in the distance, I didn't dare to sit down at the roots. I stared at the ancestors of the family and waited for Ye Xuan to be the only ones.

At this moment, they must have begun to doubt life!

In the whole hall, only Ye Xuan calmly calmed down, as if all this should have been the case. The old **** was enjoying the various spirits and spirits that were rarely seen in the ordinary place.

It wasn't until he ate it, he lifted his eyelids slightly and said in an understatement: "Okay, everyone is sitting down, we are allies, don't see too much."

"In addition... it's time to discuss the next action plan!"

The king of the golden mouse flustered, and with the mouse Wandong two, carefully sat down: "The right pair, the little friend said too much ... everything you take on the idea, the deity ... not The old man said where to fight, not to say anything!"

"Predecessors have said that you are the body of Wanjin, a family of ancestors, this kind of hard work in the battlefield, we can do it."

Ye Xuan nodded, then turned around, and then said: "This demon will not stop this, the first universe must be united, and now the devil and the space rat are already allies, the first universe is not What about the former triads? If so, the next goal is to go to the **** ants. What do the seniors think?"

After that, Ye Xuan turned to look at the golden mouse who was squinting at the face and laughing.

"No problem, Xiaoyou said who to fight, whoever fights, the old man can't kill him..."

The king of the golden mouse did not think about it, and directly attached it. The face appeared to be fierce. A pair of me was the posture of the gold medalist. The rat and the mouse next to the mouse were stupid, and the eyes were full of Venus!

"Tell me not to shoot..."

Ye Xuan frowned and deliberately looked a little intolerant. The king of the king quickly shut his mouth and snorted. He even raised his hand and gently pumped it on his face. Seeing this scene, the mouse hole and the rat A glimpse in the brain, almost was shocked to faint on the spot.

This is exactly the effect of Ye Xuan. Regarding what happened in the hole of the Rat Market, he also expected that the Lord Jinniu would tell the two old guys truthfully, and Ye Xuan was prepared to take away one person, so You must take a good fight and avoid being disobedient.

Under the heart, Ye Xuan's words turned and he shot the board on the spot: "Well, the predecessor, as an ancestor of your family, it's good to sit in the township. The predecessor of the Ratwan Cave is a patriarch, and it is not suitable for the expedition. The elders led a fleet of space-raising rats, forming a coalition with the tens of millions of the great masters and the devils, and jointly attacking the **** ants."

Having said that, Ye Xuan turned to look at the Rat Millennium and asked: "As for the time of the army's swings... In a day, can the space rat's conquest army be assembled?"

"Uh....."

The latter still had some guilt, and opened his mouth, but did not say a round words, licking his eyes, as stupid.

"No problem, enough, enough time is enough..."

On the side, the king of the golden mouse quickly took over the words, while talking, while slamming the mouse and glanced at it, swearing: "Pharaoh, your brain is kicked by the brain? What is it? Didn't you hear you?"

"The deity warns you that this time you will lead the army to go out. Everything must obey the instructions of the younger friend of the fox. If there is a little bit of yang and yin, or if you are honed by the deity, you will be killed by the family."

.....

One day later, I entered the star market of the Rats and stopped the entire army of the Devils for a full two days in the void outside the atmosphere of the Space Rat Rats. The whole members turned around and headed outside the Star Market.

In the past two days, in the dark outside the mouse market, the first universe of the scouts, which are concerned with the subsequent development of the situation, none of them left, all open the hidden

array, and circumnavigate the mouse market. In addition, the heart secretly measured the result of the peace talk between the devil and the space mouse.

For this reason, now that I saw this Demon Legion with tens of thousands of warships, finally got a move, and turned around and headed out of the ratish market, all the high-ranking members of the scouting fleet, after the slightest, all The ground was a long breath: Fortunately, the devil had to retreat and dominate the pace of the first universe, and eventually it was stopped by the space mouse system...

Chapter 3844: heavy bomb

As this Demon corps with tens of thousands of warships turned around and headed out of the ratish market, they have been waiting outside the ratish market for two days, paying close attention to all the scouts of the first universe of the development. The top members of the fleet, after Wei Wei, all sighed a lot.

In their view, this peace talk is clearly over.

The final result is obviously that the devil retired, and its pace of dominating the first universe was eventually curbed by the space rat!

For these slave groups, this is obviously a great news.

Because once the concessions made in this peace talk are the space mouse, then the first three tribes of the first cosmic servants, there is only one **** ant, and they can have certain ability to stop the devil from seeking hegemony. It is.

If the space mouse is neutral, it is okay not to participate in this matter. The **** ants have a certain chance and can stop the devil's footsteps.

But if the space mouse and the devil are allied and participate in this conquest army, then the **** ants will also be in danger.

Once the **** ants are trapped, the first three tribes of the first cosmic servants will be twisted into one force, and all the other first cosmic groups will no longer be able to block the demon's dominance.

This situation is exactly what they do not want to see.

For the first universe, they have been enslaved by the celestial beings. Now that the celestial beings have escaped from the world and the family has migrated, they have just gained freedom. Who would be willing to breathe in this situation? Has it become an affiliated servant of the devil's group?

Therefore, the footsteps of the demon can be curbed by restraint, and it is definitely a result of great joy. Of course, it does not include the devil's group.

These are not things that other slave servants will pay attention to.

With this kind of joy, I have been crouching outside the star of the rat market for several days. I am closely watching the follow-up development of a group of allocating the fleet, and I am basically ready to return home.

They must feed the good news of this day to their respective ethnic groups in the first time. After all, this devil suddenly sent troops to fight against the space rat, the meaning of drunkenness is not in the wine, and the first cosmic slaves were put forward. The core executives of the ethnic group are so upset!

It was also at this time that a high-level eye of the scouting team saw an unexpected scene. After a moment of screaming, it immediately screamed, and then it triggered a wave of exclamations...

"Behold, there seems to be a fleet at the rear of the Demon Warlord's army. The scale is about three or four million. This is almost half of the space of all the battleships of the Space Rat!"

"What is the situation? Isn't the peace talks yet to be over? But if so, why did the Space Rats dispatch nearly half of the army? Do you want to continue fighting with the Devil?"

"Let's pull you down, did you see that the Devil's tens of thousands of warships are withdrawing from the ratish market? If you want to continue the war, how can the demons retreat?"

"God, this is not an evacuation, this is an expedition!"

"The devil and the space mouse have reached a consensus. The latter has been squashed and recruited, and nearly half of the ethnic groups have been sent to join the devil's crusade. This is the rhythm of going to the next goal!"

"It's over! Finished! The devil and the space mouse teamed up, the new hegemon of the first universe, will soon be born..."

.....

With the sound of these exclamations, a large fleet of battleships with a total force of 14 million giants finally slid out of the ratish star field, in the void around the outer edge of the star field. Started the array assembly.

The army of the devils!

And the nearly four million battleship army of the space rat after the subsequent drive!

The warship forces of these two ethnic groups were gathered together at this time to form an overall terrorist army, completely disintegrating the last hope of the remnants of the commanding fleet of the large ethnic groups in the distant sky.

The devil and the space mouse actually joined forces.

Moreover, judging from the array of the entire army, this time the alliance is obviously dominated by the devil, and the army of the four million warships of the space rat is just following the right, as a vassal.

This is definitely a super blockbuster, and there is no doubt a problem!

That is, the footsteps of the devils conquering the first universe have not been curbed by this. The space mouse has not been framed, but it has been persuaded by the devil, and willingly become the vassal of the devils.

Among them, there must be some transactions, the devil promised the benefits, specifically what, no one knows.

In fact, this is actually not important for the commanding team leaders of the first universe.

What is important is that the demon army of the demon people will soon start the journey again. If there is no accident, the new hegemon of the first universe has basically not ran!

Even the army of the Devils and the Space Rats gathered at the moment of the 14 million warships. Which group of people will be sent to the army, and the leaders of these families are basically the commanders of the fleet. Have a guess.

There was hardly any hesitation. The scouting fleet from the Hell ants had turned around and flew away in the first place.

They will rush all the way at the fastest speed, and will feed this amazing news to the ethnic group.

Because the fool can guess, the terrorist army and the space mouse and the two together this horrible army, the next goal to be slashed, must be the same as the first three of the first three groups of the Hell ants!

In fact, not only the scout fleet of the Hell ants, after a brief stunned and shocked, the other first cosmic slaves waiting for the fleet commanders outside the ratish sky, also All orders were issued in succession.

Return to the community immediately!

Even the second star wars of the Demon Crusades, which will be unfolded in the ant colony of the Hell ants' ancestors, will not be explored at this moment.

The result is basically no suspense.

In the face of the 14 million warships of the two major groups of the devil and the space mouse, the **** ants simply can't resist and will eventually be won.

The days when the first three tribes are twisted into one force are not far away. This is the same for all other slave groups. They must return to the family immediately, and send the information back to the captain. The countermeasures of the matter, try to get time...

"Booming!"

"boom....."

As the scout fleets of the major ethnic groups in the distant sky are all evacuated, the 14-million-strong warships that have been assembled in the void on the edge of the ratish market are also in the presence of Mo Taiye. Under the order, all the warships were launched, and they sailed to the distant starry sky.

Going in the direction, pointing to the ant star field!

Since then, the era of all-round chaos in the first universe has finally opened up completely, and the expedition of a new hegemony has been fully launched...

Chapter 3845: Ant ant

The prison ant star field is the ancestral ancestral land of the Hell ant family. However, this star field is also known as the ant genus star field, because it is said that the source of the blood of the **** ant is the ant in the ancient times!

Like the Nether Mouse, the ant is a mysterious group of the ancient times. The real ants and the emptiness mouse have long since disappeared in the present world.

Legend has it that the real ants are almost completely immortal. Of course, this is a relative statement, referring to conventional methods and means that cannot threaten their existence.

However, all things in the heavens and the earth are in harmony with each other. Since the ants have disappeared in the world today, and the suspects are already extinct, then in the era of the ancient times, there must be species that are natural enemies for them.

It is a creature that is said to have survived in the legendary prison, and the whole body is black and flaming.

The most famous thing about the ant is its shell, which is called the armor. Every inch of the surface of the armor is black and flaming. These fireworks come from the meditation, eclipse the heavens and the earth, and even the consciousness of the gods can't resist. Directly burn the soul!

Compared with the ancestors of the blood source, the **** ants do not have a black horror flame, but the body of the **** ant can secrete a black liquid, which is extremely cold and has no temperature, but even it is the hardest emptiness of gold, and it can't hold back the erosion of this **** ant liquid.

After a long time, it can definitely be worn out by the ablation hole.

Even if Ye Xuan's eternal glass enamel, if there is no accident, in theory, in fact, can not help the bite of the **** ant!

You must know that even the emptied beasts, which claim to be able to devour the universe's voids, are the emptiness of the squad, and they are all biting into the void. However, if Ye Xuan was infused with a piece of emptiness and gold, it would encounter a large group of **** ants. Most of the results were group ants, and eventually they still had cups.

The reason why the **** ants can become one of the top three of the second universe servants, the reason is similar to the space mouse, the ability of this group to breed is equally horrible, the number is too large.

The entire ant colony is three times as wide as the magician's star field. Each of the stars is home to a large number of **** ants. This life has low requirements for living environment, even if it is not a life planet, but Abandoned mineral stars, they can all go to the ground.

And they can be another reason for the top three triads, but also similar to the space mouse, but its blood talent is extremely valued by the heavenly family, the kind of black liquid with the horrible corrosion power secreted by the **** ants. Hell ant liquid!

For the Tianji people, it is an indispensable rare material for industrial construction, because it can be used to break down almost any hard metal, and this kind of **** ant liquid has various other magical effects, including for the Tianzu ethnic group. The body shell also has some wonderful forging effect.

Moreover, even in the two camps of the third universe, the **** ant liquid secreted by the **** ants is also a hard-to-find sacred product, especially the star-studded strongmen who walked the body.

As well as the top families who study the genetic culture fluids, they are more eager for it, because the **** ant fluid is added to the culture solution after treatment, which can greatly improve its effect.

It is said that there are still some great powers, directly in the **** ant liquid, cutting the hair to wash the marrow, forging the body treasure!

Hell ant liquid is secreted by every **** ant strong body. Of course, the repair is a different realm, and the quality of the **** ant liquid secreted in the body is different. After all, it comes from the main body of different life levels.

In addition to the **** ant liquid, among the **** ants, the most precious, in fact, is the sac in the sacred place of the family!

Ye Xuan had previously learned from his mouth before the squatting ants of the Hell ants of the Hell ants, that ants and nine meditations in the family can get ten drops of sacred sac in the sacred pool.

Over time, the black ant armor of Ant Jiu Ming has not evolved to the unique armor of the ants, and it can transpire the degree of black flames, but its hardness is really horrible, Ye Xuan is Shennong. The cockroach's **** stick, a stick to knock on it, don't leave a small print!

For the solid black armor of the ant nine meditation, Ye Xuan can be said to be deeply felt. This opponent, at the time gave Ye Xuan's shock, almost with the lion lion nine changes, and has realized the fourth change of the lion Wanjin almost.

Once the fourth change of Lion Wanjin is activated, it will instantly have a **** body of 100,000 feet. The blood is full of horror, and it is horrible. It is simply a small force that cannot be killed.

Although the ant Jiu Ning did not have the ability, but the black armor was too hard, and the supporting attachment Shennongyu of the ancient lord to the treasure **** Nong Ding could not knock out a white seal, only this is enough to explain the problem.

Lion Wanjin only has ten drops of liquid every year, and he can have such a hard black armor. It can be seen that this so-called meditation must be extraordinary. Otherwise, the meditation pool will not be called the holy land of the **** ants. No one has ever entered.

This time the expedition of the Hell ants, in addition to the family as the space mouse also conquered, incorporated into their own alliance, the **** of the Hell ants in the sacred pool, Ye Xuan did not intend to let go.

However, this incident made him feel a little headache!

After all, on the one hand, it is necessary to pull people into the gang, on the other hand, it is necessary to figure out the sacred place of the family. The two things are conflicting. If you want both fish and bear's paw, you must come up with a perfect strategy. Row.

Otherwise, you can only take one of them. If this is the case, Ye Xuan is not reconciled!

Fortunately, there is still plenty of time. From the mouse market to the ant colony where the ancestral ancestral lands are located, like this tens of thousands of warships, the advancement of the army is not too fast, about the need It takes about half a month to arrive.

After the army set off, Ye Xuan spent a day pondering about it, but after thinking about it, she never thought of a perfect plan.

In desperation, he can only temporarily forget the matter!

The long road to Star Airlines, there are still 13 or four days to end, this time Ye Xuan really do not want to waste.

Bored, he simply entered a separate cabin on the top floor of the main flagship fortress of the fleet, taking out a large amount of cultivation resources, all of which were given to the engulfment system to extract the energy, and then in the cabin. Sitting in the middle of the knee, closed his eyes and began to break through!

According to his experience, just after the genetic culture solution has broken through to a new realm and stabilized, it is precisely in this period to break through the best period of the small stage, basically there will be no possibility of failure, and everything will come to fruition.

Sure enough, three days later, Ye Xuan opened his eyes!

At the same time, a familiar system prompt sound came from my mind. This time, the breakthrough is still very smooth: "Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the second stage of the universe!"

Chapter 3846: Eater group

Breaking through a small step again, Ye Xuan was excited, but immediately shook his head and smiled.

Because of a strong sense of pressure, suddenly it came!

When the nine-step of Zhouguang is perfect, you have to use the fifteen-level liquid in your hand. Now it is the second-order of Zhouguang. It is a perfect completion from the ninth order. There are only eight small-order breakthroughs.

That is to say, there are eight small breakthroughs. Ye Xuan uses one or two tubes and fifteen grades of liquid. After entering the Qiankun environment, no genetically broth can be used anymore. Once it reaches the ninth order of the Qiankun, the time will come. You can only blink, you can't break through, and the repair will be stagnant!

After the fifteenth grade liquid, it has not been possible to carry out this method of preparation. According to Ye Xuan's speculation, some means and elements of refining the medicinal herbs will need to be introduced, and the heavy medicines will be smashed with heavy equipment.

Shennong Ding is a heavy tool. In this respect, he is not in a hurry. The key is to use this method to practice the 16-level liquid is still a new subject. There is no experience to learn from the reference. It takes time to explore!

"It seems that after the expedition of the Hell ants, this time, the subsequent crusade against other ethnic groups in the first universe, the young master can no longer participate..."

In desperation, Ye Xuan shook his head and sighed: "You must calm down and carefully deduct the method of tanning the sixteen-level liquid. Yes, it is tantalizing, after the sixteen-level liquid, you can only pass this kind of control. The way to get it."

"Fortunately, once the Hell ants are compiled, the first three geniuses of the first cosmic servants have been twisted into one force. Even if all other ethnic groups are united, the strength of both sides will be equal. There is Mo's command, hell. The ant and the space mouse each sent a domain owner to sit in the town, basically no problem..."

"However, the **** of the Hell ants must find a way to get it. This kind of thing is extremely extraordinary. Like the congenital yin and cold spirit of the Yin Mozu, it is difficult to find it from other places in the world, perhaps to follow Shennong Ding. If you refine the 16th grade liquid, you will have a certain driving effect!"

Think of this, Ye Xuan 闪 flashed a touch of fine mang, in any case, the **** ants of the sacred liquid must get their hands!

After a little sinking, he decided to start from the side of the ants and nine to see if he could make a certain breakthrough. After all, the ant nine meditation is the sorrowful way of the **** ants, and the family naturally knows more than Ye Xuan.

The Xizheng is a large fortress with a diameter of 100,000 meters. The interior uses a folding space. The interior is vast. Ye Xuan finds an empty area and waved the Shennong Ding. Of course, it is not a complete form. The diameter of the meter or so, otherwise it really has to burst here.

Then, between the figure, Ye Xuan stepped into Shennong Ding, and his body shape disappeared from the mouth of the colorful fog.

Since the introduction of the indigenous fierce beasts into the starry field of the evil, millions of indigenous beasts have basically been in Shennong Ding. This conquest, Ye Xuan with Shennong Ding, is equivalent to carrying a number A million-strong beast army.

The same is true for the Taikoo Porcupine and the Taikoo tortoise. If it is not outside the war, there is something wrong, and it is not willing to leave the space inside Shennong Ding.

These indigenous beasts had been fighting in the horrible source of the evil spirits. Almost every murderous beast contained the blood of the second universe of the strong people of the various nationalities, all of which were flesh and blood.

Originally, they left these flesh and blood materials in the magic of storage. They wanted to wait for Ye Xuan to have time to bake them, but now they are in Shennong Ding, and the three-color flames are in front of them. .

Ye Xuan deliberately released tens of thousands of Shennong tri-color flames of different sizes in the central volcano of Shennong Ding, which often exist. When these indigenous beasts need to be grilled, they take out their own ingredients and find the right-sized Shennong. The three-color flame column can be baked on its own.

The reason why Ye Xuan's flesh-and-blood food made them so coveted was not because of the good craftsmanship of Ye Xuan barbecue, or what secret ingredients in their hands, and those that are not needed, the power of Shennong The effect is the best booster.

Even if it is a general blood food, it can be instantly turned into a top dish after being baked by Shennongyan.

After discovering this, millions of fierce beasts were overjoyed, and they were able to look at the space inside Shennong Ding.

Although there are only a flame column of nearly 10,000 gods and peasant flames, but millions of beasts even have to roast at the same time, the long queues next to each flame column are only hundreds of positions, and at most, they can be rounded up for a long time. .

This scene is spectacular. Millions of indigenous beasts, all in their hands, are swayed with all kinds of flesh and blood. They line up in an orderly manner, waiting in line for the barbecue in front of the three-color flame column that rushes out of the crater.

If it is recorded as an image, it is estimated that the three universes have to be smashed, and the means of making the fox less masters are too bad. The entire source of the evil and the beasts of the evils has been tempered by him to become a standard foodie!

After Ye Xuan entered Shennong Ding, the first thing I saw was such a scene. Even though I already knew that it might be such a scene, I saw at the moment that Ye Xuan was still a bit worried because he clearly saw it. In front of two of the three largest diameter flame columns, the Taikoo Porcupine and the Taikoo tortoise are clearly at the forefront, while roasting their own meat and squatting.

Where else is there a half-point domain lord?

Ye Xuan shook his head and smiled. He didn't dare to stay here. He walked directly to the bottom plain of the volcano of the central domain, and appeared in the mountain prisoners imprisoned by the ants Jiu Ning, Meng Ma Shan and Lion Wan Jin. In front of the cage.

At this moment, Lion Wanjin is still in a deep sleep, his Taoji has been destroyed, but Ye Xuan's last soft heart gave him a little nourishing thing. Look at it now, it should be absorbed and recovered, even though Doji has been taken away. Go, no hope, but if you are lucky, how much can be restored to strength.

At least not to fall, or become a waste!

After all, this kid has now become a slave to Ye Xuan. I really don't care, Ye Xuan's heart is really a bit unbearable!

In the other two cages, the two people in the ants, Jiu Ning and Meng Mashan, were sitting on the ground in the cage without any love. They looked dull and both of them were wearing a pair of big panda eyes with deep eye circles. At first glance, I haven't slept a good feeling recently. It's estimated that I have no rest at all.

Cold and not looking up to see Ye Xuan coming, ant Jiu Ming and Meng Mashan first stunned, and then the body shape and shock, panic quickly climbed up, handed the cage of the prison column, toward Ye Xuan Screaming...

"Little fox friends, no no no, no master, put us as a fart, the days here can't be over, look up, millions of beasts lined up in the barbecue, so scary what!"

"The playing is yes, the gang is too ate to eat. No matter the day and night, there are indigenous beasts on the top of the queue, and we are scared that we don't dare to close our eyes. It's been a few days without eyes. The roasting is gone, let's take us to the knife!"

"Served, we are all served, preferring to swear allegiance, just to leave this broken place..."

Chapter 3847: Review ant nine

These two guys were obviously scared. When they saw Ye Xuan, they saw the savior. They rushed to the pillars of the mountain cages in the first time, and they wished that the whole person would be from the narrow pillar. Extrusion in the middle.

In the end, I kept talking about it. In the end, even after Ye Xuan responded, I had already made a vow, and I still swear, and since then I will owe allegiance to Ye Xuan, otherwise it will be very miserable. Ye Xuan thinks I don't want to shudder.

It seems to be true. Stars are strong, no one dares to make a swear joke. Even though there are only heavenly rules in the three universes of today's world, there is no heavenly will, but the swearing in the dark is bound by the stars. The most feared sword in the head!

Of course, the reason why Ant Jiu Ming and Meng Ma Shan expressed their surrender so quickly was that they were scared by the millions of beasts who were kept on the barbecue all day and night around the top of the crater. On the other hand, it is also related to the despair of their own hearts.

Last time, they watched the lions who were swearing by death. Under the influence of Ye Xuan's horror, the blink of an eye became a little sheep, and they were slaves. Since then, these two The guy didn't have a rest, and closing his eyes was a nightmare.

In fact, Ye Xuan's slavery is only a primary variation, and it is impossible to display the strong starry sky. That is, the previous Lion Wanjin has been completely destroyed, and it has been fortunate to succeed.

I really want to use them, there is no possibility of success at all.

But they don't know this. In the view of Ant Jiu Ming and Meng Mashan, now the active alliance pledges allegiance, at least can retain the identity of a relative, not a slave!

Compared with the lions who lost the Doji and become slaves, they are harmless, repaired as still, and only the pledge of allegiance to the loyalty, can not be slaves, this is absolutely fortunate!

Of course, this is still only the wishful thinking of the two of them. Whether the younger lords have promised or not, they have to say two things.

For this reason, after the oath of the League, the ants and the martial arts immediately closed their mouths, holding the prisoner's column and looking at them, all looking pitifully at Ye Xuan.

The tension reached the extreme, and he was afraid that he would categorically reject it. That would be all over...

Ye Xuan did not rush to promise immediately, he fell into sinking!

Both Emperor Jiu Ming and Meng Ma Shan have already made a vow. Naturally, there is no need to doubt the authenticity of this matter. What's more, Ye Xuan did not take away the Taoist of both of them. I really want to say it. There is no such hatred that can't be solved. It seems that it is not unreasonable to let these two guys go out and let them return to their respective ethnic groups and loyal to themselves.

However, this matter needs to have a reasonable way. Otherwise, the cold will not be released suddenly. It is feared that even if they return to their respective ethnic groups, they will be secretly monitored and listed as suspects who have already invested in the enemy!

This is indeed a problem, but Ye Xuan will soon be relieved.

The majestic road of the giant tyrants is not mentioned, at least, I want to let the ants and nine meditations return to the ethnic group, and now is the best opportunity.

Taking advantage of the opportunity to form an alliance with the Hell ants, showing to the other party and handing over the clan of the family who was detained in the hand, this was originally a reasonable thing.

But just sending a piece of chess belonging to him to the **** ant family is obviously not enough for Ye Xuan. Ye Xuan came to mention the ant nine meditation this time. The final and most important purpose is actually the holy land of the family. The liquid in the pool!

"I originally wanted to come down and put you up, and force the bleeding veins to be true, so that the pig brother and the turtle brother baked the wine. Now that the oath has already been squashed, then this matter will be done!"

Ye Xuan's heart smirked, his face was solemn and even cold, and in a simple sentence, he almost did not scare the two guys in the cage.

Fortunately, I heard that Ye Xuan later said that this matter was done, this is hard to resist, otherwise it may be scared on the spot.

"The Mammoth Mountain is just around the corner. I am still here for the time being. I will find an opportunity to return to the giants. I will not let the fierce beasts down to harass you..."

Nodded, Ye Xuan turned to look at the other side of the ant nine meditation: "As for the ant nine meditation, this young master just happens to be in the ant star field, but can now send you back, but this less master This time I came to the nest of the Hell ants, and it is also purposeful. Since you have already loyal to the Lord, then just take this opportunity to prove yourself!"

At the sight of Ye Xuan, it happened to be in the ant star field. The ant nine meditation, then bite the teeth, and the heart will cross: "There is something to do with the Lord."

Although the mind is not willing to harm the ethnic group after all, the ant nine meditation is also clear, even without his help, with the enchanting means of the fox lord, what plots, will eventually succeed.

Including his coming to the Hell ants, the shackles of certain treasures.

It even includes the fact that he needs the help of ants and nine meditations... ant nine meditation does not agree, and the direct use of the secret law against lions is directly, and it is straightforward and saves trouble!

Ant Jiu Ming is a wise man. Although his loyalty to the ethnic group is still there, he can clearly see the situation. The only thing he thinks now is to buffer the ethnic group and Linghu. The role.

At the moment, the fox lord has come to the ant star field, no gains will definitely not give up, he made a decision after weighing it, helping the fox lord get the plot, or as soon as possible Send away this big Buddha!

Thinking of this, the ants and nine meditations tried to ask: "The Lord, you go to the purpose of the **** ants..."

"The liquid!"

Anyway, they are all their own, even if the ant nine meditation is the way of the **** ant family, Ye Xuan did not conceal anything, the big hand waved: "I originally imagined the congenital yin and cold spirit in the sacred pool of the sacred demon. Empty, but now, look at your face, this little master only takes half of it!"

"puff....."

The ant nine stunned almost on the spot, spurting blood on his face, and his face suddenly became strange. He muttered and said: "There is nothing and half of the saying. The pools of the meditation and the genie are not the same, not a ready-made pool of liquid. That's it!"

"The liquid is secreted from the wreckage of the ancestors. In the sacred place of the Hell ants, there are two ancestors of the ancestors. These two ancestors have a drop of sac every day, that is, the whole Hell ants, only seven hundred drops a year, and they are charged once a month, so the meditation in the meditation pool, at most, is sixty drops..."

When Ant Jiu Ming said this discourse, the intention was to imply Ye Xuan, and set the target at about sixty drops. It's not realistic. However, before he finished, Ye Xuan's next sentence But almost stunned the ants and nine stuns and fell to the ground...

Chapter 3848: Guaranteed completion of the task

"The wreckage of the ancestors? There are actually two? That's fine..."

After waiting for the ants to finish, Ye Xuan's eyes lit up in an instant, nodding his head and saying: "Exactly, stay one, take one, isn't it the half that the Lord has just said?"

"puff....."

This time, Ant Jiu Ming was really vomiting blood, his face was dull, and he looked at Ye Xuan slyly, until he was sure that he was not joking, then he shook his head and smiled: "But it, take it away and take it away." As long as you have the ability of the Lord, you can take away the wreckage of the ancestors, at least finally give me a **** ant, and leave the supply of the liquid."

"How? No way to collect it?"

Ye Xuan frowned, and then suddenly seemed to think of something, and continued to ask: "Yes, what is this ancestor? What is the ant? Isn't that the **** of your **** ants? There are two The remains of the blood source ancestors remain. That is the existence of the ancient power level."

"Nature is not really a ridiculous ant, it is indeed the existence of the ancient level of the ancient age, the world has not existed, even if it is just a corpse."

Ants and Nine are in the same color: "But the two ancestors and the real wild ants are basically not much different. They are the first generation descendants of the ancient ants, the blood ancestor of the Hell ants."

"Although it is not a real wild ant, but it has the purest blood of the ant, a melancholy is very hard, and even if it has fallen into endless years, it still sizzles the blazing black flame!"

"The characteristics of the flames, I must have heard of the Lord, even the contemporary ancestors of my **** ants, do not dare to touch easily, because of this, want to put away the wreckage of these two ancestors It's basically impossible. They have been in the pool since the endless years, and there are the tombs of these two ancestors!"

"And the liquid, in fact, is the top-level **** ant liquid, the secretions of the two ancestors' remains. The two ancestors have fallen into endless years, but some functions of their wills are still functioning normally, so Only the birth of the liquid is..."

"The original sap, it is a half-step ancient ant, the **** ant liquid secreted in the body!"

Ye Xuan was a big affair, nodded, and his mind became serious: "Although this is the will of the **** ancestor of your ethnic group, but after all, it has fallen into endless years, and then the lesser one takes away one is not used, such as roasting. Eat food, but keep collecting the liquid..."

"This young master is refining the 16th grade liquid. If it is successful, a 16-stage liquid will make the strongest of the Qiankun environment directly into the first stage of the star. According to my analysis of the characteristics of the liquid, ten The formula of the sixth-grade liquid should require the addition of the sputum, so if you can help the lord to take away a will of your family, then you will be given a tube after the 16th grade!"

"What? Sixteen grades?"

When Ye Xuan's words were just finished, the ants and nine meditations disappeared and exclaimed: "Less Lord, are you wrong? You were in the first universe science and technology camp, the immortal dynasty's empire's extension, refining Isn't the 12th grade of the gene culture solution coming out? The next thing to be refined is the 13th level..."

At the beginning, the fox lord became famous because of the ant nine meditation.

The resources of the Tuoja family were consumed by Ye Xuan, who was born as a young master of the fox, and nearly 80%, and finally succeeded in refining the eleventh grade liquid and the twelve grade liquid.

Among them, the finished product and formula of the eleventh grade liquid, Ye Xuan gave the extension of the home, but the twelve grade liquid only gave a tube of finished products, the formula has not surrendered and would like to leave the Heavenly Emperor.

The result led to the extension of the home of the family to turn their faces, and finally Ye Xuan showed the system of the virtual shuttle, the name of the three medicines, and since then it has resounded three planes!

Although it is a thing of the past, the calculation of time is actually nothing more than half a year ago. It is no wonder that ants Jiu Ming is so shocked. He has just produced 12 grades of liquid six months ago. Now he says that he wants to smelt sixteen. Level liquid, who heard this thing, will never believe it!

In fact, in the heart of the ant nine meditation, in addition to shock at this moment, there is more ecstasy!

His current cultivation is the essence of the fifteenth world. The sixteenth grade liquid is just right for him.

We must know that, in accordance with the normal situation, if we want to break through from the Qiankun to the main territory of the star, we need not only a long period of accumulation, but also a chance and luck.

Although there are quite a few star lords in the three cosmic planes, I think that the number of the larger and more powerful geniuses can understand that among the thousands of great powers, one star lord can be out. People basically do not have the opportunity to break through this life.

Although Jiu Ning is the Qiankun Tao of the Hell ant family, and has the support of the family of the family, it is almost inevitable that he breaks through the star territory. Even so, it is not realized in a short period of time, at least for hundreds of years.

But if you give him a tube of 16 grades, once you hit the body, you will become a star lord.

This is the wonderful way of the cultivation of this kind of genetic culture liquid created by the immortal dynasty of the Terran Science and Technology camp. It has a unique temptation. Even if the dynasty's genetic fluid is difficult to find, and the highest level currently known, it has just been developed. To the 12th grade liquid, but in this way practice, the star-studded powers that promote the evolution of life levels are still numerous.

It is too convenient. A tube of genetic culture fluid represents a breakthrough in a big realm, tempting and unstoppable.

"With regard to this, this young master does not need to marry you!"

Ye Xuan saw the ecstasy of the ant nine meditation, faint smile, turned his hand and took out a space box from the immortal world. After opening, there was a row of genetic sputum in the box, from the ten-level liquid, There is one tube for each of the fifteen grades.

The color of these six tubes of genetic culture fluids are different. Although they are still and still, there are countless tiny symbols like nanometers in the tube at the moment of disillusionment. When the light sinks slightly, it seems like the whole mind. To be pulled in and in general.

The breath that is revealed in the vagueness is even stronger than a tube, which makes people breathe a stagnation. The eyes of both the ants and the martial mountains are straight...

"One to nine grades of liquid, in the immortal dynasty, as long as there is strength, you can get it, and although the ten-level liquid has been formulated, but the output is not much, the market is simply a hard to find."

During the speech, Ye Xuanyang raised the space box in Yang's hand: "There are six tubes of genetic culture solution, which is a set. From the ten-level liquid to the fifteen-level liquid, they are all prepared

by the young master... Such a set of high-grade liquids that have been extinct in the market, there are several sets in the hands of the Lord!"

This undoubtedly confirms the words spoken by Ye Xuan, who has already finished the fifteen grade liquid. Next, naturally, it is necessary to refine the liquid.

"The three medicinal devices are absolutely unique, and even the fifteen-level liquid has been prepared..."

The ant ninth meditation's breathing has changed rapidly, and the squatting out of the shackles: "This time I am completely dead, and then I will follow the lesser masters, isn't it a ancestor's widow? Less master assured, complete the task... .."

Chapter 3849: Master ant

The holy place of the Hell ants is not allowed to enter. In fact, when the space mouse was in the space, if the tribe of the tribe of the tribe moved his mind, Ye Xuan did not have the opportunity to enter the forbidden area of the space mouse. .

Of course, you can force entry, but in that case, you must take the Hell ants to converge with violence. Although the current demon and space mouse and the two-nation coalition are not without this strength, it will undoubtedly leave hidden dangers.

And the Hell ants do not necessarily have no cosmic level ancestors in the sleep, really hard to get up, alarmed the existence of that level, unless there is no head baby corpse shot, otherwise there is no chance of winning.

The headless baby corpse is the biggest card of Ye Xuan, and it is impossible to use it frequently. Therefore, for the Hell ants, Ye Xuan is basically planning to join the space rat.

In this case, it is naturally impossible to forcibly enter the holy places of the human family to do bad things, unless there is a change in the Holy Land, and it must be that Ye Xuan is just in the Hell ants, and has reached an agreement with the family, has become an ally. time.

At that time, there is naturally a reason to enter its holy place. As for taking the opportunity to get away the remains of a **** ant ancestor, it is enough to see the plane.

However, this matter Ye Xuan must have internal talents, ants and nine meditations are naturally the best candidates. After some deliberation, the two had a preliminary plan, and then, Ye Xuan will withdraw from the internal space of Shennong Ding!

After waving the Shennong Ding to the immortal world, Ye Xuan once again entered his own cabin, using the horror computing power of the phagocytic system, and deducing everything related to the 16th-level liquid of the Shennong Dingfu blood-staining drug, and soon became fascinated by it. Forgot the passage of time...

When Ye Xuan had a slight income, he ended up in the cabin and walked out of the cabin, only to find that the ant star field has arrived!

The crusade fleet was slightly rehabilitated in the void outside the ant's stellar domain, and then a million-size fortress was opened in front of it, and it sailed into the ant colony.

Compared with the stars and even the universe's void is full of the rat's sacred star field, the ant star field is normal, and it is not normal, it is normal and excessive!

Like the void, the stars are as usual, but the strange thing is that whether it is an abandoned mine or a life star, its land surface is all as unexplored, and there are almost no artificial buildings.

On the surface of the ore star, there are at most some pits, and the life stars with vitality, the land surface is the ocean, the land, the forest vegetation... I can't see any buildings at all!

But in fact, these life planets are indeed the place where the **** ants are living.

The reason why I can't see a **** ant is because they are all underground!

The world under the stars and stars is the nest of the **** ants!

For this, Ye Xuan and the commanding high-level commander of the fleet, Mo Taiye and Mo Qigong, have already known that it is with this fleet that they enter the ant star field and see stars along the way, whether it is abandoned ore or life. Stars, the land table actually can not see the activities of the **** ants, did not feel surprised!

What really surprised them was that they didn't even have a battleship after they drove into the ant star field. It seems that the entire **** ant family has completely hidden and gave up resistance.

Let the whole huge crusade army march straight into the road!

Regarding everything that happened to the Space Rats, the news must have been passed to the Hell ants, and now the situation here is so strange, suddenly let Ye Xuan and others have doubts, and some are not sure what the **** ants are doing. !

"From the star map, the base camp of the Hell ants is in the void more than 20 million miles ahead. We have already penetrated the ant colony of more than 10 million miles, but we have never seen a hell. The battleship of the ants, even the figure of a tribe."

In the top command cabin of the main flagship fortress west sign, Mo Taiye frowned, his face showed a doubtful color: "What are the medicines of the **** ants, who are selling the gourd? Does the star have a big battle with us?"

"In short, they can't move away from the family like the Celestial family."

Ye Xuan nodded, he was very determined, because he had learned some things from the ant Jiu Ming, the holy place of the Hell ants is not like the stag of the space rat, but a hidden independent small space. It is deep in the underground nest of the ant star of the family base camp.

The two ancestors of the ancestors who secreted a drop of liquid every day, because the whole body burned with black flames, could not be taken away.

Infernal ants will not give up the remains of these two ancestors anyway, so the possibility of family migration is absolutely non-existent!

"The devil, the fox, and the Taoist friends of the space rat, come to my **** ants, I don't know what to do?"

Just at this time, a deep old voice revealing the majestic old voice, coming from the end of the void at the end, the face of Mo Xuan, who was next to Ye Xuan, changed instantly.

Lost voice exclaimed: "The lord of the landlord! The **** ants are really prepared, and once they come up, this level exists. What do they want to do?"

"What about the lords of the world? Don't forget, we can now have four projections of the lords of the world at any time..."

Ye Xuan faint smile, no fear, the step has already left the main flagship fortress west sign, behind him, Mo Taiye and other high-level devils closely follow.

In the space mouse fleet of the large warship army, the space mouse of the space rat, the chief patriarch of the family, the Millennium, also took the space mouse of several stars to take the flagship fortress. Standing in the void, invisible support.

Ye Xuan said that the four old lords of his own camp, who were coming at any time, apparently counted the golden mouse of the space mouse family. Before that, there was a generation of magic emperors and crazy mosquitoes and mosquitoes. Ghost, and today, plus him, exactly four.

The projections of these four lords are coming, and even if the other party mobilizes two lords at the same time, it is impossible to pose a confrontation with the squad, and not to mention the threat of the lord. Ants, just a single one?

Therefore, Ye Xuan's strength is very good!

At this moment, he stepped out and came to the outside world from the flagship fortress of the main fleet of the fleet. However, he did not pretend to be in the ratish market of the space mouse, and waved to sacrifice Shennong Ding himself.

Because the end of the void in the front of the star field, although the voice of the words came, it faintly reveals the supreme pressure of the main powerhouse, but this power has not become a substantial bondage, can be sensed, and shocked. The mind does not constitute any constraint on the figure.

It can be seen that the lord of this **** ant family should be not malicious. According to Ye Xuan's guess, his purpose should be just to start peace talks...

Chapter 3850: Business plan

In the distance ahead, at the end of the void, several figures quickly appeared, and the footsteps came from the void. These strong people are all high-level of the Hell ants, but at this moment they have not manifested the bleeding pulse, but human beings. The form appeared.

The leader is a lord of the world, named ant blood, and the body has a slight dispersion, showing the unique supreme power of the elite.

Followed by two lords of the domain, the ancestor of the family, Ant Cang and the chief family, the old ant.

Later, it is the ordinary family of several **** ants, and the realm of the realm is the star!

"Several infernal ants' predecessors, kid foxes, are polite here!"

The Lord has already appeared, and there seems to be no intention to fight. Ye Xuan's heart is determined, arching his hand toward the front of the void, and then he will take it: "This time the **** ants, the original idea of the Lord is not a war, but Discussing with the Hell ants!"

"It's a big plan, let's talk about it in detail, let the little friend of the fox, please move to my family's ancestral ant star ant nest!"

The opposite side of the emptiness of the lord of the emptiness of the murder of the murderer: "The old man takes the first step and waits for you in the ant nest!"

After all, turning around and turning around with a group of **** ant strongmen, coming quickly, walking faster, the time before and after the two sides, even for a minute!

When Ye Xuan and Mo Taiye and others returned to the world, the end of the void at the front, there is no other figure, and the speed is very high, returning to the nest of the ant star!

Mo Taiye frowned again and turned to remind Ye Xuan: "The attitude of the other party is a bit strange, you have to beware of fraud!"

"Nothing! How can there be stupid people in the landlord? If there is no precedent for the space mouse, the lord of the **** ant may still play tricks, but with the previous precedent, what he needs to consider It's more, at least, it's not going to work until you understand the real reason why the space mouse accident was surrendered."

Ye Xuan smiled lightly, did not care, and then with Mo Taiye and Mo Qigong, took the flagship fortress of the Western Expedition, and followed the void in front.

As for all other warships, they remain in place, which is also a statement.

Under the direct speed of direct flight, it was not long before the emergence of a huge life star, but the surface of the star still has no buildings, and the **** ant strong in a star's main territory waits outside the atmosphere.

The Western Expedition stopped, and Ye Xuan and Mo Taiye, Mo Qigong, and the chief mouse of the Space Rats, Qian Qian, and the four men stepped out of the battleship and fled in the way of physically crossing the void.

The waiting space of the Rat Rats clasped their fists and arched their hands, turned to lead the way, and then passed through the atmosphere after a few moments, entering the interior of the stars and falling towards a huge valley.

There is a huge valley in the valley that can enter the 100,000-meter-diameter fortress. Here, it is the entrance to the underground world of the ant.

After entering, I discovered that the underground space is even bigger. The whole star is like a super fortress. The land surface of the star is only the hull. The inside is the activity space, and the interior of the star is hollowed out.

Inside, there are plains, canyons, and even oceans, which are breathtaking.

There is a building inside the star, and the **** cockroach of the **** ant family has already set up a banquet in a magnificent hall. After Ye Xuan and his party arrived, the other party got up and greeted, and the guest host sat down. The atmosphere seemed extremely harmonious. Not at all like the hostile sides of the upcoming war!

After sitting down, the ant **** cockroaches directly opened the door and asked the most crucial question: "You, dare to ask the devil, the fox lord and the space rat, what is the relationship now?"

"Not in a hurry!"

Ye Xuan waved his hand and smiled lightly: "The first thing to note is that this time, the young master is not malicious. This is the Tao of the family. Now send it out and express an attitude!"

During the speech, Ye Xuan waved the Shennong Ding, only a hundred feet in size, standing in the center of the temple, and then, a figure rushed out from the inside, it is the ant nine Ming.

This move was even a surprise for Mo Chi Ye and Mo Qigong, the chief patriarch of the Space Rats, and all of them.

The lord of the **** ant family, the old ant, sees Shennong Ding, but it is a condensate in the middle, and then the line of sight turns to the ant in the hall.

The latter deliberately made some wolverines, and even a little injury, but the color is good, at least with the state of the second universe, only one breath left, it is a world of difference.

The ant **** face is slightly slower and waved: "Go take a drop of sputum and go to heal!"

Later, when the ants were gone, Ye Xuan waved and took up Shennong Ding, and then he handed his fist to Ye Xuan: "Thank you for your help!"

For the Qiankun Taoist who redeemed the second universe, all of them have only one breath left. The fact that people have already been abolished is clearly known to the core high-ranking people of the Hell ants. For this reason, it is necessary to see the ant nine When I came back from the tail, in addition to the ant **** scorpion, several other high-ranking ants of the Hell ants also looked a little slower.

"If the old man guessed it well, between the small friend and the devil, the space mouse, should an agreement be reached?"

The ant blood smirked, and the sights swept over the crowd. Finally, they fell on Ye Xuan's body: "For the general trend of the first universe, there are also counts in the old man's heart. The celestial family will return sooner or later, and the servants of the servants should not have a sand. Otherwise, the fate of the future will remain the same, but I will not know the agreement reached between the forces of several parties. What are the details?"

This is clearly the inquiry rules, the intention to enter the partnership.

Ye Xuan has already been in the chest, when even said: "We have formed an alliance, of course, the name is not yet fixed, because the alliance is currently in a hidden state, will not be known to the outside world, and this time, the meaning of this young master is to think Send you a gold member of the Hell Ants..."

"The so-called gold members, representing the strength, representing the distinguished, ethnic group with gold members, will have a throne of gold elders in the Alliance Presbyterian group!"

"At the moment, there are four gold elders in the league. They are a generation of demon emperors, crazy mosquitoes, mosquitoes and old ghosts, and the sinister gold predecessors of the space mouse family. The ethnic groups and forces they represent are naturally natural. All are gold members!"

"Similar gold members will only be owned by several ethnic groups that were incorporated in the early stages of the alliance. There will be no more than nine in total!"

"After the ethnic group, no matter how powerful, at most, it can only become a silver member. Under the gold membership, there are silver members, bronze members, and then, the most basic ordinary members..."

"As a gold elder, the annual resource supply of the alliance is naturally different. Of course, this is only a personal benefit. In terms of ethnic groups, when gold members share their interests, each time they share, with ordinary members. , is also different!"

"If the **** ants are eager to join, the ant predecessor is the fifth gold elder of the league, the **** ant, the fifth gold member of the league, a similar existence, there are only four places left!"
