

Super D. S 3851

Chapter 3851: The pool has changed

"After the alliance grows, all matters are decided by the elders' group. The nine gold elders are the highest existence of the elders group, and the young master is the chief executive of the alliance, responsible for implementing the various resolutions of the elders."

Having said that, Ye Xuan waved his hand again and took out two space boxes and handed it to the ants. "There is a cubic scented lotion and nine colored meat mud. If the ant predecessors agree to join the alliance, as the gold elders This is your personal personal blessing for a year. As for the distribution of interests of the ethnic group, the follow-up elders will have a resolution and distribute it regularly!"

The ant **** scorpion has been listening carefully. When I heard half of Ye Xuan suddenly sent out resources, her face was obviously glimpsed, and then she took over the space box, her face showed doubtful color, and the gods explored the space. Inside the box, the face suddenly changed wildly, and took a sigh of coolness: "Hey, this thing..."

Like the golden mouse of the space mouse family, he is already the main level of the world. The general Tiandi treasure has almost no effect on his evolutionary path. Even the most rare rare treasures, the effect is very weak.

In the hands of the two space boxes of the lotion and the meat, but exudes a breath that makes him shocked, even if the main level of the strong, the same great use, the effect must be extraordinary.

At this time, Ye Xuan has said: "This mastic emulsion and the colorful meat mud are just the Feng Lu that the Alliance is currently distributing to the gold elders. In the future, there are other better things. After all, the Mastic Emulsion and Nine Color meat mud, one of the by-products of the furnace, one of the raw materials for the furnace, is not the official product of the melting of the furnace!"

"The by-products have been so amazing, and the raw materials are condensed by the shards of the ancient and the ruins of the universe. The final product of the final product is high, and the effect is so anticipating. I think it can be imagined. "

"Of course, this young master still does not know what the final official product of the furnace is. Before the Second Universe, the various coalition forces were hurt, and they paid such a big price in the source of the evil, but a little bit of emulsion and meat. Didn't get it, this young master can get the mastic emulsion and the colorful meat mud, which itself has explained the problem..."

Speaking of this, Ye Xuan no longer speaks, waiting patiently, and the **** of the opposite side of the **** ant lord ants, but the two space boxes in their hands, into the sinking.

After a short period of time, the ant **** sputum flashed and nodded: "Well, the alliance of you, my **** ant family... decided to join!"

At this point, the first three groups of the first cosmic slaves finally formed an alliance, and in addition to the tribes of the three tribes, they also had to add the mad mosquitoes and the mosquitoes and the old ghosts, the gold elders of the alliance. It has reached five.

In fact, Ye Xuan's camp actually has a veteran gold elder, that is, the lord of the indigenous vicious animal group, but the other party has not yet cleared the border.

However, the location Ye Xuan will keep him, and once he leaves the customs, he will also occupy a gold elder seat in the league, and the entire vicious animal group behind him will become another gold member of the alliance.

Nine gold members, counting the default indigenous beasts, there are currently six, and among the members of the alliance that have been recruited, they are lucky to become gold members, leaving only three places!

At this moment, with the **** of the infernal ant's lord ant, the **** will be settled, the atmosphere in the hall is fully harmonized, and the parties will talk about the wine and begin to discuss the next conquest target of the crusade.

As a member of the Alliance, the Hell Ants will naturally send a large fleet to participate in the expedition...

.....

At the same time, at the end of a semi-enclosed canyon deep in the ant star!

In the depths of this gorge, it is the place where the sacred place of the sacred place is located. At the moment, the **** ant who was just released from the sacred ancestor by Ye Xuan, the sect of the sect of the sect, is in the holy place!

The so-called meditation pool is actually the place where the two generations of ants are returning to the market. It is located in a cave above the canyon wall. There are two areas in the cave. At the end of the gorge, the east and west sides of the gorge echo the east and west. .

The cave is very large. From the outside to the inside, you can only see the black armor of the ancestors of the tribe. But even this small half has been huge, and the two widows of the ancestors are huge. The whole should have a huge amount.

Only most of the bodies are inside the caves, they can't be seen, and they can't enter because the remains of the two huge ancestors in the caves are steaming some black flames all the year round, even the immortality. They are extremely taboo.

Fortunately, these black flames always exist, but they are not strong, just in the surface of the two ancestors' widows, the scales are high, not filled beyond the hole!

At the edge of the cave, a trench was cut into the wall of the cave, extending to the foot of the mountain wall to form a small pool.

In the two small pots, there are now more than a dozen drops of pure black liquid, which do not converge and merge. Each drop is independent of each other, like a black spar.

This is the sputum, secreted by the descendants of the dynasty ants, even the top-level **** ant liquid can not be compared with it, is not a thing at all, the level of sputum is more than too much.

At this moment, there are no other strong infernal ants on the edge of the pool. The walls on both sides of the canyon are densely populated with other large caves. Among the caves near the deep, the

sleeping ants are sleeping. The blood ancestors of the tribe, like the space mouse, have the existence of the universe, and the supreme immortality beyond the universe!

However, these blood ancestors have never been born.

In addition, on both sides of the canyon, close to the outer side of the outer wall, it is the nest of some important figures in the family. Ant Jiu Ming is the Qiankun Tao of the family. There is also a cave here as a nest for retreat.

This time he returned to the ethnic group, his body was wounded, and the old ant ant blood of the lord opened the golden mouth, allowing the IX Jiu Ming to come to the depths of the meditation pool, and take a drop of sputum to recover the healing.

The ant nine meditation is the sacred sect of the family. He came to the sacred place to take the sacred liquid. No one would stop it. A drop of sacred liquid was quickly taken from the meditation of the left side of the wall. Take out.

However, at the same time as the ant liquid was taken out, the ant nine murder also quietly shot a faint mans, and flew straight to the cave where the ancestral remains of the ancestors were sleeping.

In the blink of an eye, this faint mansions have already rushed into the cave and landed on the remains of the ancestors.

The surface of the will is simmering with the black flames of the heights. This kind of flame can burn everything, but it seems to be ineffective against this weak man.

The black mantra passing through the thick black flame directly fell on the black armor of the ancestor's widow, and instantly penetrated into it without leaving traces.

The next moment, the abnormal change...

Chapter 3852: The flames are going to happen

"boom....."

An earth-shattering sound of thunder and blast sounded, and the caves above the walls of the cliffs burst into flames, bursting into an infinite momentum, and even the entire huge infinite ant star trembled a little.

In the cave, there is a huge ancestral remains of a huge ancestor. The body surface is just a black flame that is simmering in height. But now I don't know why, the black scent that transpires in the body suddenly soars, blinking It has already been the highest, and it continues to skyrocket!

"This is... is it too much?"

At the same time when the thunder of the thunder burst suddenly broke out, the rat nine meditation under the wall of the scorpion had been shocked to sit on the ground, and now it was full of stunned face.

He originally wanted to toss the same movement in this pool, in order to alarm the people who are now in the halls of the ethnic group, to give Ye Xuan the opportunity to enter the pool.

However, the result was that the ant nine meditation was unexpected. He didn't think of it anyway. The faint smack that had just been shot was actually so powerful. After the ancestor's widow in the cave above the wall, it was violent. The black flames have risen and are constantly rising.

Seeing this movement, the flames have already burned the hole in the cave wall. It can be seen that the cave is already a sea of fire. If this is going on, even if the ancestors of the black ancestors who have steamed themselves from the body are innocent, this group of ancestral ancestral lands The old nest is in the pool, fearing that it will be completely burned sooner or later.

A canyon is burned and burned. It is the same as a place to be a ancestral nest.

The key is that in the caves in the distance, and the blood ancestors of the Hell ants are sleeping in peace, but they are not born, and can not easily wake up.

If this horrible black flame is burned into those ancient caves, isn't it necessary to burn all the **** ancestors who have closed their sleep?

Thinking of this, the face of Ant Jiu Ming is green.

I rely on! This is the rhythm of the flames going on!

With such a frightened mood, he turned and escaped from the holy place of the pool. Along the way, he saw a lot of middle and high-level people in the outer area of the canyon, all rushing out from the caves on both sides of the wall. This is The shock of the right talent was alarmed.

Ant Jiu Ming did not dare to speak, mixed into the crowd, but it was not suspicion...

.....

At the same time, the lobby of the Hell ants is in the hall!

This time, I came to the Hell ants to pull in people. Everything went too smoothly. I didn't use one soldier or one soldier. Even the two sides' unspeakable words were gone, and things were completely settled.

This is mainly because of the precedent of the space mouse family!

At this time, the two sides sang the wine, and Ye Xuan was always hung with a heart. He was thinking about the ant nine meditation, worried that this kid would be too slow, and everything that was talked about at that time would have been negotiated. It's not always good to rely on the nest of the **** ants.

In the unlikely event of the departure of the ants and nine children, the situation is chaotic again. I am afraid that it has nothing to do with myself. It costs a lot of evil sources, but even enters the Hell's Holy Land. Not fishing, it is too depressed!

It was also at this time that the entire hall suddenly shook a little, and then in the direction of the distance, there was an earth-shattering thunder.

Everyone who had a toast to talk in the hall, all of them, including Ye Xuan, deliberately.

Then he turned to look in the direction of the temple.

Several high-ranking ants of the Hell ants all changed abruptly, and they stood up, and they lost their voices and exclaimed...

"What happened? Looking at the location, it was actually a thunderous blast from the holy pool..."

"Even the whole ant star has trembled a little, this is definitely a big event!"

"How is it possible? What happened to it?"

.....

In the exclamation, the lord of the Hell ants, the old idiot, **** and subconsciously swept his eyes to the four people, such as Ye Xuan and Mo Taiye, with a suspicious awn.

However, this suspicion quickly dissipated. He is the lord of the landlord. Ye Xuan has been waiting under the nose. If he wants to secretly do anything, he can't escape his perception.

As for the ancestors of the family who had left the temple not long ago, the ants and the ants were not skeptical. They are not the ones in their own family. It is completely impossible!

It was also at this time that the high-ranking ants of the Hells rushed into the hall, all of them were flustered, and the people had not yet entered the hall, and the exclamation in the mouth had already arrived...

"The ancestors are not good, the holy land is in trouble..."

"One of the two ancestors' remains, suddenly bursting into a strange shape, the black flames rolling, the holy caves are already a sea of fire, and the flames have even burned the hole, and its potential is still climbing!"

"Looking at this posture, there is a rhythm that burns the entire ancestral ancestral ancestors. The blood ancestors of our ethnic group have not yet been born, and they cannot wake up at all."

"What? Is there such a thing?"

The **** face of the lord of the lord of the lord has changed again. One of the two ancestors' ancestors has gone out of the way, and the flames of the flames have burned out of the holy cave. He immediately became aware of it. By the severity of the matter, the whole heart has sunk to the bottom.

"Go, look at the situation in the past!"

Under the sorrow of the heart, the **** body of the lord of the landlord has already appeared in the forum hall, and the core high-level members of the Hell ants are closely following each other.

Ye Xuan exchanged a look with Mo Taiye, Mo Qigong and the domain mouse of the space mouse, and he followed the past.

Everyone is already an ally. At this moment, the **** ants have such a terrible change. If they are in love, they should follow the past to see if there is any help.

Soon, the group came to the depths of the ant star, the Grand Canyon area where the Holy Land was located.

Around the entrance to the Grand Canyon, a large number of Hell ant strongmen were watching in horror, including ants and nine meditations, and he was also mixed in the crowd.

It is said to be a canyon, but in fact, the two opposite places are inserted into the wall of the sky, and they are far apart from each other. It is a thousand miles away, showing how wide the area inside the canyon is.

At the moment, the entire narrow and wide canyon has long been a mess.

The front end of the canyon wall and the middle end of the cave are the high-level retreats where the Hell ants have been born. The caves on the left side of the wall are almost empty, and all the people have escaped.

However, the back end of the stern wall is close to the area of the holy cave on the left side, but there are still nearly a hundred ancient caves, which are still banned by the power of the array. The rest of the sleeps are all the high-rises and blood of the Hell ants. Old ancestors.

In the deepest part, a huge cave is burning a black flame from the inside. The momentum is very impressive, and the flames have already rushed out of the hole for several kilometers.

Although the distance affects the right side of the wall to the right side of the wall for a long time, but the flames in the left side of the cave, the momentum is still rapidly rising, the back of the left side of the wall of the hundred ancient The cave is already in jeopardy...

Chapter 3853: Nothing is immortal

More than 2,000 meters from the left side of the holy wall of the cave, there is an ancient cave, which is sleeping in the immortal blood ancestor of a **** ant!

It is a pity that it has not yet been born, and the inferno of the Hell ants can not even enter this ancient cave, and can not wake up the **** ancestors in the cave.

Nearly a hundred ancient caves at the back of the left side of the wall are basically all this!

Other ancient caves are not too far away. The distance is still a little far away. It will not be threatened by the rolling flames burning in the holy cave on the left side of the wall, but only about 2,000 meters away from the holy cave on the left side. This ancient cave is extremely dangerous.

The rolling flames that have been burned from the caves are only two hundred meters away from this ancient cave.

With the rising momentum of the burning flames in the holy cave, within a short ten-digit interest, this ancient cave will be shrouded in flames, and then, nearly 100 other ancient caves, basically It will also follow suit.

Unless the sacred flames in the Holy Cave are curbed, this is obviously not realistic, at least not now!

If the situation really develops into this situation, in the case of the Hell ants, it is tantamount to the disaster of extinction, and the inheritance of the ethnic group will face enormous challenges.

The blood ancestors of these hundreds of ancient caves are the true heritage of their ethnic groups. If they are destroyed, the **** ants will soon become the last small group, and even withdraw from the first universe. Big stage!

This kind of consequence, any one of the **** ant strong people on the scene was aware of it, including the ants and nine meditations. At this moment, he regretted that his intestines were green. If he knew that the so-called allergens would cause such seriousness. The consequences, he would never do that at the time.

Nowadays, he has already been scared to pale, so that other **** ant strong people around him are also like this, so they are not afraid of the bottom of the worry.

In fact, even Ye Xuan was a bit worried at the moment.

He handed a drop of evil source to ants and nine meditations. Originally, it was only a right and a try. I didn't expect it to be effective. It not only caused a change, but also the flames soared. The momentum was so horrible, if he had Shennong Ding in his hand. My heart is determined, I am afraid that I can only shake my head and smile at the moment.

"boom!"

Just as the ants and **** cymbals, the core cadres of the Hell ants are like hot pot ants. They are helpless outside the entrance to the canyon. When they scratch their heads, there is a loud noise in the depths of the canyon in the distance.

Everyone's heart jumped at the same time, and when they looked up, their faces changed again and again.

For a while, the rolling flames that burned from the deepest caves finally spread to the ancient cave house closest to the holy cave.

The black flames of the flames can be horrible, and the entrance to the cave entrance has caused a ban, and the first time has been banned from burning, and the thunder of the appropriate one is the sound that was heard when the hole was banned.

The **** cockroach of the **** ant lord immediately became mad, and the voice screamed: "No, there is a **** ancestor of immortality, still sleeping, if the flames are burning The ancestors are in danger!"

At the same time, its shape is even more acute, wanting to rush into the canyon, to rescue the immortal blood ancestors in the ancient cave.

On the side of the **** ant clan, Ant Cang and the chief family ant tyrants, the situation is not good, and quickly caught the ant blood, and tried hard to persuade...

"Old ancestors, can't go, the ban on the cave, you are all hard and hard, you can't move, and now you will be ruined when you touch the flames, you can see the power of this flame..."

"Yes, it is useless to go, but it will also ruin itself. Now my family has already become the ancestor of the lord, but you are the only one, you must not be in danger!"

"Hey..."

Just at this time, from the place where the flames had been destroyed by the flames, the caves of the ancient caves were banned, and a scream of screaming screams suddenly came out.

In a short period of time, the black flames banned in the caves were destroyed, and the entire hole area was not covered. Only half of the area was filled with the flames!

As the sound of the whistling sounded, a figure of about a hundred feet rushed out from the inside of the ancient cave, and it was already a hole in the nearly half of the area that was covered with flames.

This is a **** black **** ant strong, the body's breath is not stable, apparently just from the sleep, was forcibly awakened.

Even so, the breath that has spread from the body is still far beyond the blood of the lord of the landlord.

The existence of immortality, even if it is barely awakened in the sleep, the strength is not restored, but it is far more than the border is so simple, according to Ye Xuan's estimation and judgment, this is unexpectedly awakened on the way to sleep. Nothing immortal, at this time the cultivation of strength, should transcend the boundaries of the main level, in the cosmic level!

The cosmic level of cultivation is extremely amazing. At least, no matter whether it is the demon group, the space mouse, the **** ant, and now the blood ancestors who have been born, none of them are cosmic, and the main level has It is the strongest force.

But now, this time was born in advance, and the strength was reduced from the supreme immortality to the **** ancestor of the cosmic genus of the cosmic genus. In the face of the rolling flames of the ancient caves, the situation is extremely unbearable. From a surviving ancestor's remains close to the ancient powers of the ancients, the power is too strong.

Although the entire cave of the ancient cave was not sealed, but it covered a large part of the area, leaving only the gaps that have not been affected by the flames, only a few dozen feet, can not accommodate the blood of the **** ant family The huge body of the ancestors passed.

However, all this can no longer be delayed, and there are counts again, fearing that the entrance to the entire cave will be sealed by the flames!

"Hey!"

In a critical moment, the Baizhang black ant trapped in the hole once again made a scream of screaming, no longer hesitating, the body shape suddenly smashed out, the blink of an eye has already reached the hole, but the left half of the black body has been contaminated. The flames at the mouth of the cave, like the bones of the bones, are tightly attached, and the black shells of a small body have been melted through the half-fee, revealing the flesh and blood of the golden flesh inside.

"Hey..."

The third voice screamed out, revealing the deep unwillingness and indignation. This giant black ant smashed the flames of the flames, but did not spread it. It was extremely smooth and directly waved right. The limbs, suddenly falling, directly smashed the small half of the body on the left side.

Then, dragging the weak remnant, turned into a black flow vector, rushed to the right side of the wall that was not affected by the flames.

After the wave opened up a new Dongfu, leaving a sentence, he plunged in and continued to sleep.

After this robbery, his full-fledged period, fearing that it will be delayed for thousands of years!

All this happened too fast. Ye Xuan and the core high-ranking people of the Hell ants have long looked silly, and they have been stunned for a long time.

Chapter 3854: Please Xiaoyou's shot

"boom!"

The loud noise came again, and the ancient cave that was already empty was finally swallowed up by the rolling flames. The caves collapsed, and the thunder of the sounds blew up, awakening the powerful people outside the canyon.

Then there was a large burst of exclamations and a chilling sound that rang through the entrance to the canyon.

A short ten-year interest rate, an immortal level of **** ant family blood ancestors, was almost burned by the flames, although eventually smashed an old life, but was seriously injured, the small half of the body is gone, need to sink Sleeping longer years can only be born in a state of prosperity.

For the **** ants, this is definitely a major loss, but it is still within acceptable limits.

At least, this immortal blood ancestor has never fallen.

The original pale skin of the ant nine meditation seems to have eased a little. If this is the case, one of the immortal blood ancestors of the succulent family is degraded. In his own heart, he is afraid that it is not good.

However, after this battle, the Hell ants of the canyons outside the canyon have once again had a clearer understanding of the horrible power of this rolling flame.

Even the immortal blood ancestors couldn't help, and a hard black ant armor was instantly eclipsed and saw the flesh and blood inside, and finally it was forced to reluctantly lick the half body... Then, With them, how can they face it?

Even the impulsive ants who had almost rushed into the canyon before the impulsive rushed to the gorge, I didn't dare to move forward any more, and my heart recalled the impulsiveness of the right person, but it was a cold back, and I was afraid.

At that time, if it was rushed to the past, if these black flames were stained with a canopy, they would have to be wiped out on the spot.

After all, it is a smoldering flame from the remains of a ancestor. This ancestor is a generation of **** ancestors of the ancient dynasty. The black flame in the body is not really a flame, but the difference is true. Very weak, power is too horrible!

"call....."

The wind helps the fire, and it starts to roar!

In the blink of an eye, the Dongfu, which belongs to this immortal blood ancestor, collapsed completely, and both inside and outside were filled with smoldering flames, completely submerged by the sea of fire.

At this time, the black flames that swelled out from the holy hole in the back section of the left side of the wall, the momentum has already risen to an alarming extent. The hole in the cave is invisible and drowned. In the flames.

The flame that rushed out of the hole has spread to the surrounding area, which is three kilometers.

The ancient cave that collapsed, only two thousand meters away from the cave entrance of the holy cave, so the dazzling time, this hole is no longer visible, swallowed by the flames.

Seeing its spread, the power of the flames is not only continuing to climb, but the speed seems to be increasing. According to this situation, the more the fire will spread, the more the entire canyon will be turned into A black sea of fire.

Even if it is across the right side of the wall, it is no longer safe.

If it really develops to that extent, the holy hole in the back of the right side of the wall will also be affected. At that time, the flames in the two holy caves will all burst out, and the entire vast canyon will be completely destroyed.

With the annihilation together, there is the family of the Hell ants... and the hope of the future of the group!

Perhaps it will take some time for the flames to evolve to that extent, but if it is now in the early stages of the fire, there is nothing to be done. Once the fire has completely spread, what else can be done?

What's more, even in front of us, there is a new crisis that is about to come.

From the bottom to the top of the left side of the wall, about four kilometers from the bottom of the wall, from the bottom up, a row of three ancient caves, these three caves are still sleeping, are also the immortal blood of the **** ants Old ancestors.

At the moment, the rolling flames that have spread from the holy caves are only about a kilometer away from the three ancient caves.

Judging from the current spread of the fire, it is feared that it will be a short half-tea, and these three ancient caves will be completely shrouded.

This time, it is never as lucky as it was last time.

Even among the three immortal ancestors who are sleeping in peace, only one is degraded. For the **** ants, it is also a huge blow that is absolutely difficult to bear!

"It is not a way to go on like this. The rear section on the left side of the wall is more than forty years old. It is all the middle and high-level ancestors of the elites above the main level. If it continues to let the flames spread This time, the loss of my **** ant is too big, too heavy..."

The horror is still undecided, the lord of the **** ant family, the old ant, the **** face once again sinking, the mouth muttered to himself, and the eyebrows were confined to the sinking: "No, you must think of a way, at least to control the flames." Continue to spread and spread, and then try to push the flames back to the left holy hole."

It is true that this flame will be forced back to the left holy cave. Otherwise, a drop of the liquid in this holy cave will be completely watered. The entire hole has been shrouded in flames, completely inaccessible, how to collect the meditation. liquid?

It's just that it's all simple, but it's not that easy.

At the same time, the lord of the old murderer whispered to himself, while the ants of the Hell ants and the chief ants of the chief family, the ants and the ants, looked at each other and tried to solve the problem. Sighing...

"The power of the flames is too horrible. Even the ant's ant's ants can't hold back. They are instantly eclipsed. According to this power, at least the defense magic weapon of the ancients to the treasure level can be entered."

"And it can't be the average of the ancient treasures, I am afraid to reach the level of the ancient heavyweights, such as the furnace or ... ah? Right, the fox does not have a Shennong Ding?"

"Yes, this matter can be ordered by the younger fox, at least one can try, if it is really impossible, there is no way, the number of robberies!"

.....

With the sound of these arguments ringing, Ye Xuan's heart was shocked and he almost didn't smile. He still wondered how to open his mouth for a while, so that he would not be suspicious.

I didn't expect that he hadn't thought about how to open it at this moment. People suddenly found the door and it was perfect.

"Ling Hu Xiaoyou, this matter is related to the family of my **** ants, it is really a small matter, but also ask Xiaoyou to take a shot!"

Just as his heart was stunned, the **** ants of the Hell ants, who were reminded by the voices of these arguments, had their eyes stunned and turned to Zhang Xuan.

There is even a bit of pleading in the tone: "Little friends, you and me are now allies. Although this flame is really powerful, I am waiting for everyone, but only a small friend holds one heavy hand. The level of the wild is treasure!"

"And this old man is not reluctant, Xiaoyou can go ahead and see if Juding can hold the power of this flame. If it doesn't work, even if this flame is slightly damaging to the giant trip, the old man will never let the little friends get involved..."

After that, the ant blood smashed the fist to Ye Xuan, and he looked solemn and sad...

Chapter 3855: Right and try

At this moment, everyone's eyes are all coming together to Ye Xuan.

The power of the Shennong Ding in the hands of the young fox is well known to the world. It is said that even if the landlord is trapped in it, he cannot forcibly break through. This has not been verified by facts, but not long ago, This tripod has indeed trapped hundreds of millions of planes and strong families, including eight domain owners.

Even the eight lords of the domain and the old squad have joined forces to break the internal domain power of this tripod. It is basically possible to speculate on how terrible this tripod is.

In fact, Shennong Ding was even more brilliant when it was in the star of the evil.

The fox lord stood above the Dingkou, and his body shape was shrouded in the colorful fog of Dingkou. Even the pressure of the lord of the domain was not affected. Later, it was saved by millions of tripods. Family warships and millions of indigenous beasts...

From this point of view, it is not necessarily impossible to resist the power of the flames with the power of Shennong Ding!

"This... not so good?"

Although my heart has already opened my heart, but Ye Xuan's face has not been revealed, but it has risen to a dilemma, and almost refused to accept: "The canyon in front is the holy land of the nobility, the Lord and the nobility. Although it is already an ally, it is inconvenient for a place like a holy place..."

"In addition, to see the cause of this raging storm, you have to get close to the mouth of the holy cave. There can be a noble ancestor's remains. If it is normal, then the entire area is covered with black flames. The line of sight is not clear. The Shennong Ding of this young master is a heavy weapon. If you rush into it and accidentally bump it, you will smash the will of your blood ancestors, and it will be really sinful!"

Speaking of this, Ye Xuan's face floated with a deep look, and he waved his hand again and his head turned into a wave of drums: "No, no, no matter what, this will affect your friendship and friendship. That would be a shame..."

This is absolutely deliberate. I have already started to take vaccination before I go in. After all, Ye Xuan knows well, as long as he really sacrifices Shennong Ding into it, the remains of the ancestors in the holy hole in the front left side, Absolutely can't stay, he will be included in Shennong Ding, when he refuses to accept the account, it is said that the testament is self-igniting, and it will burn clean.

However, this matter must let the other party have a psychological preparation in advance, otherwise I am afraid that it will really have some bad influence on the covenant that has just been concluded.

It is a pity that his calculations have never been thought of at all... except for the **** ants who are also involved in this matter.

For all the other high-level gangsters, including the **** scorpion of the lord, Ye Xuan is clearly pushing, saying that it is good, in fact, it is not afraid that if the glory is too strong, damage The heavy weapon Shennong Ding in his hand.

If at ordinary times, people have already said so firmly, the high-ranking ants of the gangs are also not the face-faced people, naturally they will not continue to insist.

But the current crisis must be solved, it is important, as long as there is still a glimmer of hope, they must fight for it!

As soon as I read this, the old buddy of the lord of the lord will have a heart and a heart, and he will bite his teeth and say: "The little friend can give it a try. If it is the glory of the dynasty, the dynasty can't hold it, and the matter will naturally give up. Otherwise, if it can If you live, Wanyou's friends must take the help..."

Speaking of this, the **** face of the ant **** face shows a smile, shaking his head: "In fact, the remains of the ancestors in the holy cave on the left side of the wall suddenly gave birth to this change, even if the little friend is careful not to Going to touch, I'm afraid I can't keep it. The old man is mentally prepared. The most urgent task is to keep dozens of ancient caves on the left side of the wall, and you can't let the flames continue to spread!"

"Otherwise my family is in danger..."

"Oh, this way..."

Everyone has already said this, and if it does not agree, it will really affect the covenant that has just been concluded. Ye Xuan has no intention of continuing to take it any further, and his face is embarrassing.

Finally, reluctantly sighed: "Well, what to say, this young master and the **** ant are now allies. The crisis in front of you is indeed a small one. Who told me that there is a Shennong Ding in my hand, and the seniors have already said this. On the top, I can't hold my face again. But..."

"But I can make it clear first. The power of this flame is too horrible. This young master can only sacrifice Shennong Ding. Try it first. If you can't stop it, even if it's a little There is damage, I can't promise this thing. The predecessors also know that this Shennong Ding has helped me through the crisis of life and death. In the case of this young master, it can't be lost..."

"This is nature!"

When I heard Ye Xuan's willingness to help, the lord of the landlord murmured a sigh of relief, and he was flustered. Then he looked at Ye Xuan and stopped looking at it. He waited for him to pay off immediately. Ding tried it.

For a while, the flames in the back of the canyon have spread a lot. The ancient caves that are lined up in three places are only three or four hundred meters away. The time is too tight!

"call out!"

Ye Xuan did not delay too much, even if he waved the Shennong Ding, let it stay in the size of a hundred feet, step into it, the figure stood above the tripod, was held in the mist of the nine colors, then Only control the giant tripod at the foot, slowly vacant to the depths of the canyon in front!

In the blink of an eye, it has reached the edge of the area where the flames are rolling.

Although Ye Xuan has confidence in Shennong Ding, because there are nine different flames inside the Ding, the power can definitely exceed this black flame.

But after all, the power of Shennong Ding is restricted by Ye Xuan's own strength, and it is still far from being fully motivated, and the Shennong Flame of Ding has only grown into a tri-color flame.

Therefore, even Ye Xuan at the moment, there are still some tensions.

But the facts quickly proved that his tension was superfluous.

After arriving at the edge of the black flame zone, Ye Xuan first let the side of the giant tripod touch a small flame, including the nine mists, and a glimpse of the flames. Power.

The result was unresponsive, and the black flames could not shake Shennong Ding at all.

Seeing this scene, the entrance to the canyon in the distance immediately sounded a large cheering cheer. When the core of the Hell ants in the front of the canyon, they all breathed a sigh of relief and their faces were slightly slower.

At least now I see hope... As long as I can enter the cave entrance on the left side of the wall, to see the cause of the raging storm, I have a chance to find a solution.

Thinking of this, the lord of the landlord ants smiled and embraced the fist, and bowed to Ye Xuan, and said: "Thank you for your friendship!"

"Ugh!"

Ye Xuan shook his head and sighed, and his face was filled with the helplessness of bitter haha. Finally, Shennong Ding, which was driven by his feet, slammed into the rolling flame. Disappear.....

Chapter 3856: The ancestors of the ancestors

The flames can be burned even by the gods. Therefore, after entering the flame sea, it is impossible to explore the situation of Shennong Ding at the outside, even the **** ants of the elite level.

Therefore, Ye Xuan did not pretend to be a model, but immediately spurred Shennong Ding, and launched a speedy, blink of an eye has already reached the left side of the holy wall in front of the holy hole, directly into it.

In the rolling flames, a huge giant ant is in sight, and all the inside and outside of the holy cave are black flames, and these flames are rushing from the body of the ancestors.

This is also the result of Ye Xuan's derivation of the in vivo phagocytic system.

About Hell ants' secretions Hell ant liquid, Ye Xuan's hands have long been in contact, the phagocytic system has also been analyzed, leaving a comprehensive data message, so when Ye Xuan issued instructions to the phagocytic system, looking for high-level **** ant body When the resources of the table are broken out in a small range, the result of the system is the source of the evil.

However, he did not say how much to use. Therefore, Ye Xuan took for granted the genus of the family.

Now it seems that this is obviously more, it is estimated that half a drop is enough, and the movement is enough to alarm the entire **** ant.

Fortunately, there is no such accident that hesitated, or Ye Xuan is afraid that he is crying and there is no place to cry!

The space inside the cave is big enough, and Ye Xuan directly pushes Shennong Ding at the foot, so that it has skyrocketed to a huge height, and then it has stirred up a huge nine-color fog, and will sacred the sacred remains of the holy cave. Involved in Shennong Ding.

Directly sent to the storage area at the bottom of the volcano of the central domain, so that even if the surface of the ancestral remains is still smoldering, but in an independent Ding Neishan cave, the flames will not burn out, will not Cause other losses!

At this moment, with the huge ancestral remains of the ancestors being taken away, the second half of the vast canyon has been rolling in the flames of the outward spread, and immediately stopped the momentum of continued spread.

After all, all the black flames are rushing from the remains of the ancestors, and the source is taken away. Even if the already spreading flames still exist, the follow-up trend is completely ruined, and it is impossible to continue. Spread.

At this time, the black flame that spread from the mouth of the holy cave is only a hundred meters away from the three towering ancient caves.

Fortunately, it still stops here. Otherwise, if you really ruin these three ancient caves, together with the blood ancestors of the **** ants, I am afraid that Ye Xuan will feel embarrassed...

Calculated people, and took away a ancestor's widow, and finally these three ancient caves did not help people to save, how embarrassing!

At the same time, as it was originally seen, it was forced into the rolling flames of the three ancient caves. Suddenly, there was a sudden stagnation. Although it still existed, it no longer spread forward.

At the entrance to the canyon in the distance, it was suddenly dead, and then cheers again...

"Well, the flames are no longer spreading outwards, what did the fox lord do? It directly stopped the spread of the flames!"

"It's amazing for my brother. Fortunately, this time, there are some young people who have made a sudden visit to our family. Otherwise, I am afraid that the ancestral land will not be protected today. The power of the flames is terrible!"

"Fortunately, although the flames still exist, but at least no longer endanger the dozens of ancient caves in the back section of the left side of the wall. There are always ways to get rid of them."

"There is no danger, fortunately! This time the crisis has finally passed..."

As these exclamations rang, the high-ranking elites of the Hell ants, standing in the front of the canyon, all took a deep breath and put half of the heart hanging in the eyes of the blind.

Only Mo Taiye and Mo Qigong and the space mouse family's chief family mouse, the three thousand faces face each other, all the faces are full of sorrow, Ye Xuan just entered, originally spread and spread, and the momentum is still The fierce flames suddenly stopped and continued to spread, which really worried them.

Life fear Ye Xuan encountered some kind of accident inside!

"The three don't have to worry, the little friend of the fox should be fine..."

The **** ant's lord ants have a **** smile, and turn to look at the three people, and comforted: "You have also seen the right talent, the small friend of Shennong Ding is not afraid of this burning flame, With this Dingwei ability to protect, there is no problem in terms of safety."

"If there is no accident, at this moment, the expansion of the flames is curbed. It should be that Xiaoyou has discovered the problem, and with the help of the power of Shennong Zhongding, it has been resolved. Therefore, according to the old man's speculation, Fox friends should come out soon!"

Having said that, the ant blood is so pleased to smile: "Ha ha ha..."

"It seems that this time it is really a blessing to my **** ants. If you don't come to my family by chance, I am afraid that this time the crisis will be difficult for my family. This will make the fox friend first, and the old man will return. Thank you very much!"

Mo Taiye looked at each other face to face, but he could only cope with it with a smile. However, the line of sight has been locked in front of the party and has already stopped the flame zone that continues to expand. He is looking forward to returning Ye Xuan as soon as possible...

.....

Black flame zone, inside the holy cave on the left side of the wall!

Under the control of Ye Xuan, Shennong Ding has once again shrunk again. This time it is only about ten feet in volume.

He had intended to quit immediately, but considering that the time of coming in was too short, he decided to temper for a while, and under the boring, Ye Xuan's attention was attracted by the black flames inside the cave, and his heart suddenly moved.

These black fireworks, which are almost true flames, are obviously extraordinary. Although they can't be compared with Shennong's flames, what if they let the gods and peasants devour them?

Is it possible to let Shennong's flames directly rise from the current three-color flame, and then become a four-color flame?

As soon as this thought came out, Ye Xuan did not hesitate even if he was in a good spirit. He acted the first time.

Regardless of whether the concept of the four-color flame is feasible, at least these flames will be useful after all, and Shennong Ding can completely put it away.

Of course, even if you want to collect it, you can't collect all the black flames in the canyon. In this case, the **** ant strongmen at the entrance to the outside can immediately enter the back of the canyon to check the situation.

Ye Xuan's excuse is that when he entered the black sea of fire and approached the entrance to the holy cave, he found that the remains of the ancestors were only a little and a half, and the other parts had all been turned into flames.

So I shot myself, and with the power of Shennong Ding, the remaining half of the ancestral remains of the ancestors were destroyed, and the momentum of the continued spread of the flames was broken.

However, the rest of the remains of the ancestors of the ancestors will take some time to fully burn out. If you go out too early, this argument is a bit untenable. It is impossible to burn out in such a short period of time, and there is no residue at all...

Chapter 3857: Four-color flame

In addition to the time when the wrecked ancestors of the ancestors took a while to burn, Ye Xuan used the power of Shennong Ding to smash the remains of the remains of the ancestors, and to sever the continued spread of the flames. It took a little time. of.

In addition to time, there must be a little movement!

"Then it will be a little longer in this sea of flames, and when you collect the flames, you can make a little bit of it!"

In the muttering, Ye Xuan grinned and said: "At least I have to let the outside know that this little master has not done anything after he came in. This time he helped his **** ants, but he made great efforts..."

I thought about it, even if Ye Xuan urged the power of Shennong Ding, it condensed into a huge boxing bomb with the faint mist of Dingkou, and slammed into the side wall of Shengdong Mountain.

"Booming..."

The huge shock came out, and the second half of the entire canyon was slightly trembled. The rock wall of the holy cave was special. After the endless years of burning in the flames, it had already gone to the Jingjing, as if it were left by the refining magic weapon. The bottom is the hardest essence.

But when the fist went down, the rock wall on the side of the holy cave still collapsed, and the movement was enough.

Ye Xuan nodded with satisfaction, and then left an attack, urging Shennong Dingwei, and began to collect the black flame in the holy cave.

After the income of these smolders into the inner space of Shennong Ding, they were all directly sent to another closed grotto in the temporary secluded bottom of the volcano in the central area, and Wei Neng did not spread out.

After a short period of time, Ye Xuan stopped to collect the flames, and once again condensed into a fist with the colorful fog at Dingkou, and slammed toward the mountain wall on the side of the holy cave, and again a huge shock, rolled down. After a rock on the mountain wall, this will be done, take back the punches and continue to collect the flames!

In this way, Ye Xuan manipulated the power of Shennong Ding, and later gathered the punches and seals the walls of the mountains. After a while, he collected the flames, and he was so busy. Time was also in this repetition, slowly passing...

Outside the entrance to the canyon, it's already awkward!

Not long ago, the flames that continued to expand outwards were finally stopped, and all people were relieved, but then the front was still rolling, just no longer extending outward. In the depths of the black flames, a huge shock came.

The shock was very abrupt, and all the people were very surprised. What is even worse is that the shock does not stop this. The follow-up time is almost every time, and there is a shock from the canyon. The strong people are jumping in their hearts, and the look on their faces is more anxious. I don't know what happened in the vicinity of the holy cave in the deep flames.

Fortunately, in this process, the stalwart of the stalwart leader succeeded in curbing the expansion of the momentum, and did not continue to spread again, it is finally a misfortune!

Until a small half-day, every tenth of a lot of noise came from a huge shock, and finally disappeared. All the people once again had a long-shouldered atmosphere. They were all in the depths of the canyon that was still far away from the flames. Returning figure!

Especially the three people, Master Mo, have been worried at this moment. On the side, several high-ranking ants of the Hell ants are comforting and comforting...

At the same time, outside the cave on the left side of the canyon!

Ye Xuan still stands on the Dingkou of Shennong Ding, and the nine mists of the dragonfly hold the whole body, and are not invaded by the black flames in the surrounding air.

Nowadays, he has stopped bombarding the holy cave on the left side of the mountain wall. A large area has been collapsed at the entrance to the holy cave. It is enough to do so.

As for the large amount of flames in the holy cave like the ocean, it has already been collected by Ye Xuan with Shennong Ding. Nowadays, there is still a black flame that covers more than 3,000 meters in diameter in the void outside the holy cave.

These sacred flames outside the holy cave, Ye Xuan did not intend to collect.

Just let them burn in the outside world, and how many can make the Hell ants have a headache for a while, but in the end this problem will surely be solved.

But that must have been at least a few days later, so long enough to burn the ancestors of the holy caves, even if the high-ranking ants outside the canyon entered the holy cave, did not see any Residues of debris must not be suspicious again...

As for getting out of this area of flames, Ye Xuan intends to wait a second time, taking advantage of this time, just to try to figure out whether it is possible to promote the three-color flame of Shennong Ding to the four-color flame by means of the integration of the flames. Level!

Soon, Ye Xuan entered the Shennong Ding, and his body appeared in the space inside the Ding.

In the volcanic area of the central area, the millions of evil origins of the Aboriginal porcupine and the Taikoo tortoise are still in the Ding, and some of them are on the edge of the volcano on the central volcano. The size of the flame column is baked meat.

The eight King Kongs have already been familiar with a group of indigenous beasts. At this moment, they are accompanied by the indigenous beasts who have been cultivated in the two domain realms, and they are trying to please the knot.

"The fierce beast brothers, stop the first stop in the hands of the hands, this little master is a bit of a business to do..."

Ye Xuan appeared helplessly and greeted him: "In addition, there may be some danger in this matter. All the fierce beasts, it is best to retreat to a slightly farther area!"

After a few moments, under the command of the Taikoo Porcupine and the Taikoo tortoise, all the indigenous beasts have withdrawn from the volcanic area of the central area, crouching in the surrounding mountains, and watching the progress here!

The area inside the cave is very wide. When Ye Xuan enters, the space inside the cave has been filled with the rolling flames. It is like a sea of flames, and these black flames are as big as the sea. Incorporating Shennong Ding, it opened a separate closed cave in the bottom of the volcano in the central area of Ding Nei Space.

What he needs to do now is to introduce these black flames into the central flame pool at the bottom of the volcano in the central domain. He hopes that it can be integrated into the Shennong tri-color flame, thereby completing the promotion of the Shennong fire, by the three-color flame. Soar to the four-color flame!

The progress of the whole process is very fast. After all, the independent caves that store these black flames are at the bottom of the central volcano. Ye Xuan is just a turnaround, urging Shennong Ding's internal domain power and pulling them all to the center. The central flame pool at the bottom of the volcano can be used.

In just a minute or so, all the black flames in the independent caves have been drawn into the central flame pool at the bottom of the volcano in the central area.

"Booming..."

From this moment on, a dull thunderous noise began to appear, and the fireworks in the central flame pool were in full swing. The three-color flames like the sea and the black flames with less amount of it blended together. When you come and go, Hidden time.

At this moment, Ye Xuan's whole heart mentioned the eyes of the blind man, fearing that this time the fusion failed. In that case, the blow to him is absolutely not small.

Fortunately, in the end, this time the fusion was successful. When the familiar system prompts appeared in my mind, Ye Xuan relaxed and shouted, and his face burst into a relief-like smile...

Chapter 3858: Third-order

"Hey, congratulations to the host, the level of Shennong's fire is improved! Current level: four-color flame!"

"Hey, congratulations to the host, the physical and physiology of the body is improved! Current level: the third order of the universe!"

With the familiar system prompts coming from the mind, Ye Xuan was caught in a shackle.

what's the situation?

The Shennong alien flame advances, and the former three-color flame has been upgraded to the current four-color flame. This is the expectation, but the physical state of the body has also been upgraded with a small step. What is going on?

After some thoughts, Ye Xuan did not find the answer, a little confused, and finally can only attribute this to this time frequently used the power of Shennong Ding, just to bombard the holy hole in the back of the canyon toss For a little while, it may be that the flesh and blood of the body is completely active, and some of the natural ingredients that have remained in the body have been thoroughly absorbed.

However, this is a good thing, the important thing is the result, but it is not necessary to ask too much.

After leaving the matter aside, Ye Xuan's attention quickly shifted to the Shennong flame in the central flame pool at the bottom of the volcano in the central domain.

Between the thoughts, tens of thousands of different sizes of Shennong flames rushed out of the channel of the flame column that he had previously opened on the edge of the volcano of the central domain, and instantly reflected the vast space inside the vast Ding.

Compared with the previous three-color flame, there is a touch of black in the Shennong flames. This is the color of the flame. Although it is black, today's different flames have a color, and the degree of beauty is absolutely beautiful. Not comparable before, it is dazzling!

"Hey!"

"Hey..."

With the four-color flame towers of varying sizes ranging from the volcanic edge of the central domain, and among the rolling hills far away from the edge, there was a cheerful roar of beasts and shouts.

All the indigenous beasts are closely watching the progress of the volcanoes in the central area. Seeing that Ye Xuan has upgraded the original three-color flame to the current four-color flame in a short period of time, all of them will be happy. It's up.

They have been in the inner space of Shennong Ding since this time, and they have baked their own meat for many times. They have already deeply felt the mysterious power of the Shennong tri-color flame.

Just a three-color flame, you can bake the general meat as a flesh and blood medicine, and now the flames are promoted again, from the three-color flame to the current four-color flame, its power will obviously rise.

For the indigenous beasts who can arbitrarily use the volcano of the central volcano to roast meat, the most direct beneficiaries of the promotion of the different flames are obviously they, can they not cheer?

In the joyful sounds, in the rolling hills in the distance, a large number of indigenous beasts, under the guidance of the Taikoo Porcupine and the Taikoo tortoise, all rushed toward the central volcano here.

Some of the beasts are still on the way, and they have been rushing to take out fresh and large meat from their respective treasures.

Shennong's promotion of the flames has been successful. They can't wait to experience the magical color of this four-color flame. Let's taste the meat that is baked with it. How delicious and how powerful it is!

Ye Xuan's heart also mourned the things in the outer canyon. He didn't bother to wait. All the indigenous beasts were swarming over, so they left and left the space.

When it came to the outside world, the rolling flames in the void outside the holy cave remained the same, silent and silent, and no one else had ever entered during this period.

Ye Xuan entered the inner space of Shennong Ding, but before and after the meal, it was only a matter of time. From the beginning, I entered the sea of flames, and now it is almost half a day.

He didn't have too much delay. When he even spurred Shennong Ding and rushed to the front of the canyon at the edge of the flames, he quickly rushed out of the black sea. His body appeared and appeared in the front of the canyon and the entrance. The strongmen are in sight.

This moment, Mo Taiye and Mo Qigong, the chief mouse of the Space Rat, and the three thousand mice, suddenly sighed with relief. If this time Ye Xuan really had an accident, the follow-up was really difficult to clean up. The alliance, I am afraid that it will soon collapse.

After all, without his presence, the five elite gold elders who have already joined the alliance, it is difficult to gather together and twist into a force!

Also a big sigh of relief also includes the high-ranking members of the Hell ants. If this is the case of Ye Xuan's suffering in the Hell ants, they are equally difficult to escape, fearing that the war will be picked up immediately.

With a smile on his face, all the powerful people rushed to meet.

Ye Xuan's face showed a tired color, and he waved Shennong Ding into the body. This was a fist to the core high-level members of the Hell ants. "Fortunately, not to be insulted, after all, the crisis was resolved, just... .. oh, the widow of the aristocratic ancestors was not able to stay, but now there are only a few wreckage left, and because it still has a black flame, it has not been brought out!"

Upon hearing this, all the core executives of the Hell ants were all glimpsed, and then they asked about the situation within the Holy Cave.

According to the rhetoric that has been conceived before, Ye Xuan said that the slogan is seamless. In the end, he said: "Because of helplessness, this young master can only promote the power of Shennong Ding, launching bombardment once and for all, and finally it takes a little half a day. Finally, the small and half-aristocratic ancestors' murders were shattered, completely dispelling the follow-up of the flames."

"Then I waited for a while, until the debris of the wreckage was almost burned, and I was sure that there would be no more accidents before I pulled out..."

For Ye Xuan's statement, the core cadres of the Hell ants are not suspicious. After all, everything is reasonable, and they have indeed heard the sound of a great shock that lasted for half a day. Everything just confirms each other, there is no difference!

"Oh, there are some pity, but the old man has basically expected that the two ancestors of my family have had endless years of existence, and there is not much energy left in the body. This time, because of some kind of change, The ancestral remains of the ancestors in the holy cave on the left side of the wall burst into such a massive flame..."

"In this case, if the remains of the ancestors can continue to be preserved, then it is really unreasonable. After all, energy is conserved, and the water is dry!"

"Unfortunately, since then, my family has lost a source of sacred liquid. This kind of resource is not available anywhere in the world. It is really awkward!"

The old lord of the landlord sighed with blood, and there seemed to be some helplessness in the look. He smiled and said: "Fortunately, the two ancestors of my family still have a well-preserved remains. This accident did not happen together. Otherwise, it is really a family. Unfortunately!"

Speaking of the end, the ant blood seems to suddenly think of something, turned to look at Ye Xuan, once again handed the following: "In addition, today's business is more than the fox Xiaoyou shot, the old man did not think that newspaper, the most precious uniqueness of the family The resources are the liquid and the high-level **** ants, returning to the old man to prepare a copy, small care, but also hope that the small friends do not have to deny ..."

Chapter 3859: Union of nations

In just one day, the **** ants have been successfully solved!

Not only has it successfully formed an alliance with the family, but the sect of the family, who has already invested in Cheng Yexuan, has returned to the undercover of the ethnic group in a reasonable way. Ye Xuan has obtained a level close to the ancient power level from the Hell ants. The remains of the descendants of the ant generation.

In addition, his own cultivation of strength has also broken through to the third order of the universe, even the three-color flame of Shennong Ding, once again promoted, became the current four-color flame, powerful.

Compared with all of the above, the **** ant lord gangster is **** in order to thank Ye Xuan's shot, and the one hundred drops of liquid and one hundred drops are secreted by his own body, which is the main level of **** ant. The secretion of **** ant liquid, on the contrary, seems a bit insignificant.

In fact, it's just this one hundred drops of liquid and one hundred drops of high-grade **** ant liquid. In the outside world, it's hard to find, and there is no price!

In a word, this time came to the Hell ants, Ye Xuan, a soldier has not been used, but the harvest is rich, but he did not expect it, it is a big surprise!

After a day in the Hell ants, the Crusades re-opened the levy.

In addition to the previous 4 million warships of the Devils and the 4 million army of the Space Rats, this time, the Hell Ants also assembled a team of nearly four million troops, and at the same time sent the family to the domain. The chief family, the old ant, dominates the fleet of the family.

At this point, the size of the tri-family coalition has reached nearly 20 million warships, and even the domain owners have two.

As for the follow-up targets, Ye Xuan decided to open the knife to the giants after he sank.

On the one hand, the Qiang Kundao of the giants should indeed be sent back to their ethnic groups. This is a dark child, and it will be of great use in the future. On the other hand, among the nine gold members of the alliance, five are already in place. The sixth is also fixed, belonging to the indigenous beasts.

There are only three gold memberships left.

Since the giants have already had their own internals, then, in any case, they have to get a gold member for the family. As for the last two gold members, Ye Xuan does not care, don't care!

However, this time the sect of the giants, Ye Xuan did not intend to levy, although his departure represents a lack of strong combat power, after all, the entire indigenous beasts are in Shennong Ding, including Taikoo Porcupine and Taikoo Turtles are the two lords of the domain.

Ye Xuan does not go, follow-up conquest, the indigenous fierce beasts are basically waiting to participate.

However, today's conquest army is nearly 20 million, and there are two powerful domain owners who are arrogant, just to crusade the other tribes of the first three universes, and should be fully competent.

Whether Ye Xuan is accompanying the military, it does not matter!

He has more important things to deal with, and that is the source of all evil!

Since the previous departure from the source of the evil, the top three forces in the three universes, no one star power has entered the star field, and even the scout has not sent one.

It is really scared, the two lords of the indigenous fierce beasts, the second is a turn, this is definitely a big horror!

The top three forces in the three universes are full of ambitions. They haven't returned to the present, and they dare not go, but Ye Xuan is different. He always remembers to hang this thing. He feels uneasy and must walk in person!

On the second day after the decision, Ye Xuan handed over the majestic son of the giant martial art, Meng Mashan, to Mo's master, and then went alone.

After a small half day, a terrorist army of nearly 20 million warships, starting from the ant colony where the **** ants are located, set aside the expedition and rushed to the giant stalwart where the giants were. !

The news spread, the first universe of all ethnic groups!

The demon family, the space mouse family, the **** ant family, these three major groups are the first three groups of the first cosmic servants of all ethnic groups, powerful, and now twisted into a force, gathering nearly 20 million warships to open a huge force The family, this is clearly to conquer the entire first universe, the rhythm of the other families are stepping on the feet!

The position of the first cosmic hegemon of the Celestial family has just been ended, and now a demon family has come, which is absolutely intolerable by all ethnic groups.

Even if the new hegemony is not the demon family alone, but the devil and the space mouse, the **** ant tribe jointly hold the hegemonic sovereignty, but for the other first cosmic slaves, this is almost no difference.

No matter what kind of agreement is reached between the three major groups of the devil and the space mouse and the **** ant, once all the ethnic groups in the first universe have been surrendered by the trio, then the real mastery of the authority is only Can be these three families.

No other ethnic group can be equal to it. The status of the top three in the first universe, and other slave groups, are not at one level.

This alone is doomed to the general trend of the entire first universe once again unified: the devil and the space mouse, the **** ants take power, and all other weaker families will be enslaved again!

This situation is obviously unacceptable to other slaves and races!

If it is said that the former fox lord and the demon family united, set up a tens of thousands of warships, and opened up the squad, and used the reason to crusade the space rat, the first universe of the various ethnic groups have not been treated as one thing, always feel that there is still a head in the sky. With the space mouse and the **** ants in front, they don't have to worry about this so-called tens of millions of coalition forces.

Then, as the space mouse and the **** ant are now compiled or joined by the devil, the first three tribes of the first universe are completely twisted into a force... At this time, other slaves and high-ranking elites , finally panic!

For a time, with the tri-strong coalition of the nearly 20 million warships, the ants of the Hell ants were swaying, and the other first servants of the universe all voiced and called for the association of the various ethnic groups. Together with the three armed forces.

The three people of the devil and the space mouse and the **** ant are indeed powerful, and they can be called the first three of the first universe.

Not to mention the tri-ethnic coalition, even if it is the army of any one of the ethnic groups, there is almost no possibility of defeating any slave group other than the top three!

But if the first universe, except for the former three tribes, all the slaves, all gathered together, united and united against foreign enemies... that is another matter!

The slaves of the first universe are thousands of small and small, and the weak may only have one administrative star. The powerful, the overall combat power and the top three are not too far apart, such as the giants!

The top three are strong again. After all, there are only three ethnic groups. The other ethnic groups are weaker, but after all, there are thousands of ethnic groups...

In order to stop being enslaved, in order to fight against the demon and space mouse, **** ants, the three strongest cosmic forces in the first universe, in just five days, when the three tribes are still rushing to the giant stalwart. On the way, a Union of All Nations against the three tribes was established...

Chapter 3860: Smoke from four

The Alliance of Ten Nations was established, and the first universe was in full swing!

The opposing camps of the two sides are the first three first cosmic tribes of the devil, the space mouse and the **** ant, and the other is the total number of all the first cosmic slaves except the former three tribes, the total number of large and small groups... ...close to three thousand!

When this so-called Wan Clan alliance was established, the army of 20 million warships from the tribe of the devils set off from the ant star field and headed for the giant stalwart of the giant ancestral ancestral lands. It has been a full five days.

After the establishment of the alliance, all the alliance countries of the League of Nations began to mobilize the warship forces for the first time, but the huge coalition forces of the three demons, from the giant stalwart, have only one day's flight.

Even if all the ethnic groups of the Wan National League immediately send troops and want to help the giants, it is too late.

Under this circumstance, it has always been bullying and fearing hard, and it is the most important thing to know about the current affairs. It can even be said that it is a giant tyrannical group. When it is decided to quit, it directly withdraws from the Wanzu League. It only takes a day in this newly formed alliance. And smile faces, and embraced the thick thighs of the three demons!

The giants are actually quite powerful.

Among the first cosmic slaves, the devil and the space mouse and the **** ant are also called the top three, while under the top three, there are dozens of first-class groups, and the giants are one of them. Among the top ranked leaders.

If this is not the case, Ye Xuan will not be interested in the family, even if he gives him a Qiankun Tao, Ye Xuan may not look up.

But now, in addition to the six demons of the demon, the space mouse, the **** ants, the mosquitoes, the indigenous beasts, and the triumphal city represented by the mosquitoes and the old ghosts, the nine gold members of the alliance The agent, after all, needs three ethnic groups to join.

Anyway, the peaches are given to everyone. In the case of the giants, there is a stalwart road, and the Ma Mashan should do it. In the future, it is very possible to take full control of this family. Ye Xuan has already set the last three before leaving. Gold members, leave one for the giants.

The last two are not in a hurry, and then successively conquered, and met with the appropriate ones. During this period, any ethnic group that entered the group can only become a silver member at most!

In other words, the last two gold members, in the future, must be selected by Ye Xuan among all other silver members!

These circumstances, including some general structures within the coalition, and the seniors of the coalition forces, such as Mo Taiye, all met with the tyrants of the giant tyrants.

Also, I sent out a cube of the oven cream prepared by Ye Xuan in advance with a cubic nine color meat mud!

When Feng Lu arrives and knows that he is the seventh elder of the alliance, he is the seventh in the league. Although there are two followers, he will not easily decide to give a certain family. The main grotesque surprises are laughter on the spot!

Originally, I thought that this time I made another wall of grass, and I succumbed to the arrogance of the five lords of the devil's group, who were able to come down at any time, and rebelled against the alliance of the Wanzu and turned to the thigh of the Devil's triad. The final result will surely be enslaved as if it were under the genius of the celestial family.

But the facts are so beautiful. Among the nine gold members of the league, two temporary and unresolved places were opened. In addition, the last one was actually won by the giants.

In the future, not only can I be on the same level as the first three tribes such as the Devil, but Feng Lu, who is the ancestor of the family, is so delightful...

All of this, for the giants of the giants of the giants, it is simply a falling pie!

In order to express gratitude, after the alliance, the giants were all excited and excited. As the first-class group of the first universe, they were like a space mouse and a **** ant in the top three. The army of the million warships, appointed a domainlor to lead the old blame, joined the tri-ethnic coalition, and once again opened the squad...

At this point, among the nine gold members of the league, there are already seven famous flowers, and the last two will not be easily decided. The final scale selection right is in the hands of Ye Xuan!

After that, the three tribes of the original nearly 20 million warships have since become the four-member coalition of the 22,000-strong warships, rushing to the next first cosmic first-class clan. Wolf!

At this time, the fleets of all other Union countries of the Alliance of Ten Thousands of Nations also continued to gather in the wolf star field. The moments of the giant tyrannical anger made them angry, and the alliance of the Wan nationality was ironed this time, and the alliance of the four ethnic groups was to be Two million battleships, the head defeated!

The era of the first universe full of war... Come here!

Among the first cosmic slaves, the Cang wolf family belongs to the first-class ethnic group, which is second only to the devil, the space mouse and the **** ant. It is said that it has a certain blood

relationship with the greedy wolf in the second universe, but that It was a past event before the endless years.

Nowadays, the Cang wolf and the greedy wolf, each living in different cosmic planes, have no connection, and even in different camps before each other. Once the Tianji and the Second Universe fight, the wolf and the wolf Between the tribes, there will also be confrontation between the soldiers.

Compared with the greedy wolf in the second universe, the scorpion wolves are more brutal. Although they do not have the blood of the savage wolf, they have the ability to scream.

Once this kind of blood talent is activated, the strongmen of the Cang wolf will be tempered in an instant, and the whole body will be resurrected, and some parts of the blood body will produce different changes and enhance their combat power.

For this reason, the wolf family is also known as the King Kong Wolf.

Among the many slave servants of the Tianzu nationality, the three major ethnic groups, the devil, the space mouse and the **** ant, are distinguished by the overall strength of the ethnic group, and thus are called the top three, but in fact, it is true that individual warfare Force, the Cang wolf is not much weaker than the strong of the three tribes.

Unfortunately, the overall strength of the Crowd wolf is too weak, and the ethnic group's heritage is very embarrassing. The family is a half-blooded wolf group that migrated from the Second Universe before tens of thousands of years, so the ancestral community of the ethnic group There is no **** ancestor of sleep.

The entire greedy wolf family, with only one lord of the world, is already the strongest force of the genius.

If this is not the case, the wolf character of the greedy wolf is violent and warlike. If the family has a cosmic level or even an immortal blood ancestor, then it may not be willing to be enslaved by the celestial family.

It is really too thin, there is no backing behind, for the continuation of the ethnic group, after the lord of the tribe is restrained, the entire ethnic group can only be humiliated and surrendered.

This time, the greedy wolf once again faced the same crisis. The demon, the space mouse, the **** ant and the giant tyrants of the two-family battleship army of 20 million warships, after a few days, have already been on the wolf.

At this time, a fleet of the Wan National Alliance also arrived in succession...
