

## Super D. S 3881

Chapter 3881: Heavenly magic blade

"Hey!"

"Oh la la..."

The sound of the chain is getting bigger and bigger!

This ancient void was originally extremely stable, with dozens of millions of void cracks connected to it.

But now, the last blow before the headless baby corpse is gone, the scorpion will come, and the heavenly eye under the shackles will be forced to retreat. The huge energy that has erupted will stabilize at least 80% of the void cracks connected with this ancient void. The channel of the ditch collapsed, and the rest is gradually blurring.

Obviously, this ancient void has not been stabilized. At least, the millions of void cracks that were originally connected to it will disappear and there will be no trace!

For the furnace, this is definitely a big loss. Now the sound of the chain has never been squeaky. It is the furnace that hits the left and right in this void, waving thousands of striated chains, thinking It is necessary to hunt as much as possible to get a little bit of condensed raw materials to make the final effort.

After the meal, the tremor of the void finally stabilized, and the thunder of the endless thunder continued to disappear, and it was no longer smellable.

This ancient void is preserved, but today it has no meaning to the furnace.

Here, it was originally a rich supply of condensed raw materials. Even if it is a heavenly eye, if you want to encounter such a place from the endless stream of emptiness, you have to rely on chance and luck.

But nowadays, a large number of void cracks connected to this ancient void are millions of huge, and they have lost their tracks. Only tens of thousands are left, and nearly half of them are empty...

An original supply of raw materials, the blink of an eye into a barren chicken ribs, which makes the furnace very angry, but no way.

Even the right eye has already fallen in half, but because of the loss of the opportunity, the enemy has been forced to go back. It is just a treasure of Tiandao Qingyan's own refining. What can it do?

In the end, the furnace was unwilling to leave, breaking the void and returning to the source of all evil...

.....

The third universe, the Terran Science and Technology camp, under the rule of the Imperial Empire under the rule of the Imperial Empire!

A warship is slowly sailing in the void.

This is a 70,000-meter-diameter starry fortress, but it is not a warship, but a commercial ship, but the surface of the hull is slightly broken, giving the impression that it is a star thief, a conflict, and escaped alone.

In the top command cabin of the Little Fortress, the atmosphere is a bit strange!

Although there are a lot of figure in the big command cabin, at the moment, they are all lazy to drink fine wine, eating \*\*\*\* flesh and blood, and the shape is not like a businessman. It is more like a star thief than a star thief. The gas is very heavy, and the breath in the body is extremely powerful. All of them are the existence of the universe and the environment of the Qiankun. The breath is full of violent and bloody.

Only the figure that is supported by the nearly a thousand figures in the center, like a gentleman, is sitting at a large table at the moment, slowly sipping red wine, holding a knife and fork, cutting and holding it in the plate. A large piece of fierce beast.

Although it is also raw, \*\*\*\* and extremely embarrassing, but the movement of the person is elegant to the extreme, just like the taste of a superb cow.

Gently cut a small piece, use a fork to send the entrance, chew slowly, and then, after swallowing, satisfactorily slightly nodded, then took a red wine from a waitress and drank a shallow drink. , continue to cut meat...

Nearly a thousand figures in the top cabin are all very young, and there are very few women. Most of them are strong men. They are not weak in strength. Different powers are strong in the universe.

The slow-sounding sip of red wine is the \*\*\*\* and \*\*\*\* flesh and blood. It is the zombie king who has set aside the wind. At this time, the repairing atmosphere that he has cultivated in the interior has reached the first level of the star.

The last emptiness hunting allowed the extension to successfully break through, and now it is the existence of the star-class blame.

Even the thousands of zombie warriors who have fallen under the top cabin as the zombie emperor have all had a lot of strength improvement, but there is still no one in the main territory of the star, even entering the world. There are still some distances.

Nowadays, thousands of cosmic zodiac warriors, surrounded by the emperors, are surrounded by the imperial controversy, still fluttering aimlessly in the universe of the Tianfeng Empire, patiently waiting for the next target to hit the door...

"Card!"

"this is....."

The red wine glass in the hand was crushed in an instant, and the card was crispy. It was originally enjoying the extension of the two beautiful women's zombies and the massage. At this moment, the face has changed greatly, and suddenly it will stand up and will be a long time. Two beautiful zombie warriors on his body gave him to the ground.

The extension has not looked at the wind, and the line of sight has been swept to the left. The gods know more through the wall of the battleship, and the end of the void at the far left is extremely fast.

Just before the moment, his body of the demon suddenly gave birth to a sense of emotion. A strong feeling of flesh-and-blood connection appeared from the far end of the sky at the end of the void. If not, it would have been proved to be the lord of the star. If you are in the wind, will you be so shocked?

"call out!"

The exclamation sounds just beginning, and the extension of the wind has already set aside. The original flesh and blood body has instantly become an illusory existence, not a soul body, nor an energy body, but a non-intentional body. ... is the body of the demon from outside the domain!

As the body of the demon is activated, the extension of the wind is like a ghostly ghost, as if passing through the wall of the zombie fortress, and rushing toward the end of the void at the far right.

There were more than a thousand zombies in the top cabin of the fortress. They were all confused, but they did not hesitate. They immediately got up and all rushed out of the zombie fortress and followed.

"Booming..."

A huge thunder blast came and the entire 70,000-meter-diameter zombie fortress suddenly exploded without warning.

There is no fire and sky, and it is disintegrated directly into the void. It is transformed into five large bastions with a diameter of 10,000 meters. It is not like a starship battleship. It feels like a flesh and a metal, and it is a wave. The sharp blade of the war, with a big mouth and a big mouth, also trailed behind, rushed over...

"Ha ha ha..."

"The devil blade! It is actually the devil blade! The legendary devil blade, actually the body has come... the emperor's warrior has finally landed!"

In front of thousands of miles away, the first step of the rapid rushing and rushing to the top of the wind and screaming, revealing endless ecstasy.

After activating the body of the demon, his perception of the flesh-and-blood connection in front of the void is more clear. At this moment, even because he is close, he has even blessed the soul through the perceived breath, knowing that the front is breaking open. What is the existence of it.

That is clearly the superb to the treasure of the heavens and the devil, the legendary existence!

Touting the wind and dreaming did not expect that he not only survived, but also the body of the demon, on a certain day, he could still get the legendary demon world to the treasure of the devil...

Chapter 3882: Corpse warrior

"call out!"

The sound of breaking sounds from the end of the void in the distance!

A black singularity, unfolding at an impressive speed, is coming from here.

As I approached the front, the sharp and piercing sound of the air, there was even a trembling sound with obvious joy... The Devil's Blade sensed the body of the demon in front, and it was also glad and cheering.

"God, what is that?"

"A sword, a fierce magical atmosphere, this is definitely a magical blade..."

"Heavy treasure! The rhythm of the birth of the treasure!"

"Block it, stop it immediately..."

On the way from the enchantment of the Devil's Blade, at the moment, the position of the wind is about 20 million miles away from the far side of the sky, and a 10,000-meter-diameter fortress is sailing in the sky.

This starry fortress belongs to an expedition team!

In the cosmic galaxy, the most courageous addition to interstellar pirates is the interstellar explorer. In the face of treasures and treasures in the sky, all the interstellar explorers are almost all crazy, just like the hungry wolf with red eyes. .

If you encounter it, you will not let it go easily. Even if you risk your life, you will try your best!

The stunned celestial blade has attracted the attention of this interstellar expedition. From this 10,000-meter castle, a lot of exclamations and cheers have been heard in an instant.

Exploring treasures in the vast expanse of the galaxy, they often do not have any gains over the years. In fact, even if there is a harvest, they will never encounter such a level of treasure.

But now, the heavy treasure descended from the sky, actually found himself on the door, look at the situation, this black magic blade should have just emerged from a certain area, and now there is no master, is in the void in the sky without a destination.

The elites of the Interstellar Exploration Mission are so excited that they feel that they are so lucky that the unprecedented creations have fallen from the sky like pies.

In the noisy shouts, the Wanmi Dabao changed its course at the first time. The thorns smashed in the past, and wanted to intercept the front, blocking the path of the newly born Supreme Blade and trapping it in the void. In, then think of ways to collect.

Of course, although they are excited, but the necessary caution has not been forgotten, Wanmi Dabao opened the energy defensive hood for the first time, the entire huge hull surface, surrounded by a circle of khaki yellow energy layer.

"boom!"

After the two interest rates, the eternal blaze came, and the Wanmi Dabao trembled a little. The gun fired and fired an energy net cannon.

This kind of energy net gun is a patent of a specially modified naval gun. Generally, there are few ordinary warships to be equipped. Its purpose and effect is to form an energy light net after the energy light column of the naval gun is fired, capturing in the universe. Beast or other prey.

For now, for this interstellar exploration group, their prey is such a black magic blade with a spur of extreme speed!

The distance between the two sides was originally close, and the speed of the Devil's Blade was almost at the extreme. Therefore, this energy net gun was just shot out, and the face was hit with the radiant devil blade.

"Oh!"

The sound of clear and fissible sounds, the energy light net blasted by Wanmi Dabao did not even support it for a short time, and it was opened in an instant, but the masculine momentum of the Devil's Blade was never blocked, and the speed remained. At one end, he came over to the Wanmi Dabao.

"escape!"

"Too sharp, what is this murderer?"

"It's over, caress..."

"Booming!"

.....

Seeing this scene, the interstellar explorers in the Wanmi Fortress screamed and wanted to escape, but the words of their words were not finished, and the huge roaring sounds had already rang into the void and then raged.

This time, the Devil's Blade, which came from the spur of the spurt, finally stopped the spurt and did not go forward, but it was not blocked by this 10,000-meter castle, but actively stopped. pace.

The Wanmi Dabao has already been cut into two, but it has not exploded!

Surprisingly, in the Wanmi Fort, which is cut into two halves, even a figure of a strong star has not escaped. It is reasonable to say that since the warship has not exploded, even if the Wanmi Fort is cut open, there will definitely be a large number. Survivor's.

But in fact it is not the case!

Soon, the entire 10,000-meter-long fort, which was cut into two, was like the decay of the years, gradually weathering and dying, together with the energy inside it, the starry sky, all the same...

"Hey!"

A black secluded man rushed out of the 10,000-meter-high castle and made a scream of joy, which is the devil's blade.

After absorbing the whole gold and iron extract of the 10,000-meter Fort and the flesh and blood essence of a large number of star-studded strongmen, the damage degree of the Devil's Blade has obviously been weakly repaired, but the blade is still covered with a flaw, obviously It takes a long time to fully recover.

"Oh la la..."

With the sound of the sharp whistling sound, the whole block was cut into two 10,000 meters, completely collapsed, not a large block of disintegration, but like a sand sculpture, crashing into a dust, by the universe When the hurricane blows, it will be gone!

The devil's blade is worthy of the supreme treasure of the heavens and the devils. A 10,000-meter-old fort with all the energy and the flesh and blood of the strong stars in the sky is completely absorbed by it without any difference, leaving only the thoroughness. Dirty, when the wind blows, it turns into gray...

This scene, just happened to be able to reach the front, and now the zombie emperor who is floating in the void not far away, sees the wind and sees it, making him stunned and surprised.

"It can absorb the essence of Gengjin in the metal, but also absorb the pure energy, and absorb the essence and vitality of the flesh and blood..."

"Sure enough, I don't care about the superb treasures of the heavens and the devils outside my domain. It's almost the same as the body of the demon that can be freely transformed between any form. There is no taboo!"

"Ha ha ha..."

Looking up and laughing, the top of the wind slammed into the wind and suddenly slammed, and his body shape shook, and he raised his hand to the black magic blade.

The magic blade was originally a thousand feet in size, but now it is extremely obedient. With the hand-lifting of the extension of the wind, the body of the blade has been reduced by itself, and the eye of the eye has turned into a smashing blade of the singer. Hold it in your hand.

Even if it has been reduced to a close, it still surpasses the height of the human type, and it is still a lot higher. At this time, his right hand is like holding a door panel, although it is weird, Domineering unparalleled.

"call out!"

Under the ecstasy of the face, the grasping of the wind holds the magic blade in the hand, and squints at the distant void.

"Oh..."

The sound of clear cracks came to the fore, and the void in the void was pulled out by a crack of about a thousand feet...

"Ha ha ha ... really is the treasure blade, the emperor has not saved power, his own power has been so, there is no such thing as a murderer, this king is like a tiger!"

Looking up and laughing, the temperament of the temperament is turned to the left, and the light is thrown into the void: "If you remember correctly, that direction seems to have a human being in the mining..."

Chapter 3883: Big meal

Geng Huangxing!

Geng Huangxing was originally a non-life planet without any living things, even the atmosphere, but now, the entire star has at least a million human strong, and a large number of intelligent robots and mining ships and engineering device!

This star has not even been named, and the name of Geng Huang was only obtained a hundred years ago.

A hundred years ago, the Terran Science and Technology camp was a top-ranking family of the Tianfeng Empire under the immortal dynasty. A metal was found on this star---Huang Gengtie!

Later, together with the Tianfeng Empire, the star began a mineral mining work, and it was a hundred years passed.

Nowadays, the resources of Huang Gengtie on this Geng Huangxing have basically been exhausted. The rest are all some poor mines, but they are still continuing to mine. After all, although Huang Gengtie is not a particularly precious metal, it is countless in the universe. Among the mines, few are found.

And the manufacture of battleship alloys, it is a metal element that must be added.

Therefore, if there is still a little Huang Gengtie, the mining will not stop.

However, the main force of the Extractive Corps has been evacuated, and it still remains on the Geng Huangxing. In addition to a large number of mining ships and engineering equipment, as well as mining intelligent robots, there are only about 100,000 people in the strong!

A broken starry sky fortress appeared in the distant void of Geng Huangxing and quickly approached.

This is a mine star, and it has already reached the late stage of mining. Basically, it can be said that there is not much value, so generally no one will come, even the Star Pirates are too lazy to pay attention.

For this reason, this starry sky fortress suddenly came, and the first time it caught the attention of the strong human races stationed on the mine.

Of course, part of the reason is also because this starry fortress is extremely eccentric, not only because of its slightly broken appearance, but also because of the size of its hull, the general star fortress, or the diameter of 50,000 meters. The small fortress is either a fortress of 100,000 meters in diameter.

Like this is not too big, the starry fortress with a diameter of about 70,000 meters is really rare, it seems to be nondescript!

This quirky fortress is the one that pushes the wind and the zombie fortress.

At this time, in the top command post of the Zombie Fortress, the extension of the zombie army was slowly set up.

"For the Emperor's Supreme Warrior, hunting...start!"

With a faint smile, he gently lifted the glass in his hand and drank the liquor, smashing it, and smashing the \*\*\*\* awn...

"Booming..."

In the next moment, the Star Fortress just landed on the surface of Geng Huangxing, and a huge thunder and blasting sound came. The entire 70,000-meter-diameter huge fortress exploded, without any warning, and was shocked by the star. Everyone.

But what really shocked them is still behind.

In the eccentric fortress that was blown up, there was no fire, but it was disintegrated directly into the void, and it was turned into a five-storey fortress with a diameter of more than 10,000 meters.

It's very incomparable. It's not like a starship battleship. It feels like a flesh and a metal, and it's a slap in the face. It's a sharp blade and a big mouth. It's the first time to the front. The mining area rushed over.

Moreover, with the explosion of the small fortress of the commercial airline, it is divided into five cockroaches with flesh and metal and metal inclusions. At the same time, there are nearly a thousand figures, which fall out of the friday-opened commercial fortress and appear in the void.

Although they were all human monks, they began to transform after they appeared!

"Roar!"

A young and beautiful woman with a fascinating body, her body swells under the scream of her head, and her body expands into a huge monster, covered with tentacles, and some mucus from the whole body. Secreted out.

And among the countless tentacles of this meat mountain, there is clearly an invisible ripple that is spreading and spreading. It instantly envelopes this void, and more than ten commercial and commercial fortresses are covered in it.

These invisible ripples are a unique biological wave frequency. The effect is to temporarily make this corner empty, communication is interrupted, and the signal of the star network can no longer be transmitted!

Then, from this disgusting mountain of meat, a very nice human woman's voice was issued: "Head, master control, Geng Huangxing has been isolated, the star network signal can not be transmitted, can start!"

"Roar!"

"Hey..."

The voice of the voice just fell, and the nearly thousands of figures in the void around the side of the body were all moving together. The screaming and whistling sounds of the screaming sounds, nearly a thousand figures, all changed.

Just as the strong people in the second cosmic federal group activate the blood, it shows the bleeding veins.

The huge figure that they showed after their transformation was not only strange, but also all exuded with a strong evil atmosphere. Some of them were all rotten flesh and blood, constantly squirming, seemingly to devour everything!

There are even rotten bone dragons with hundreds of feet of giant body. There are a lot of flesh and blood on the huge dragon body, but they are all decaying, giving off a disgusting atmosphere and evil.

All this was too amazing. All the miners and human races on Geng Huangxing had already been scared and shuddered. At this time, they finally understood what had happened. In desperation, the sound of exclamations began to rise: "Zombies! Cosmic zombies..."

"Hey!"

The sound of the horrible noise rang.

The Zombie Emperor's extension of the wind waved a smashing squad with a blade on the blade.

When the wind rises, the demon blade will be a savage squad in an instant, and will go to a huge mining fortress in front of it.

On the left and right sides of the extension, there is a beautiful woman with a voluptuous body. The figure stands in the void, the left hand is carrying it, the right hand is turned down, a red wine is in the hand, a shallow drink, a mutter in a smile Whisper: "Go, the Emperor's Supreme Warrior, your first meal! Start!"

.....

The second universe, one of the top ten ethnic groups, the ancestral home of the Turtles, the Turtle Star!

Since the last time Nethered Retreat has tossed in the Stars of the Turtles, this vast expanse of land, but revealing the depths of the year, has completely restored peace.

Although the Turtles are one of the top ten ethnic groups in the Second Universe, they have been sleeping for a long time, and few ethnic groups have appeared in the outside world.

The tortoise is so powerful that it is very powerful. Therefore, in addition to a small number of explorers and treasure hunters, there will be no large fleets coming.

Especially in the depths of the turtle's star field, here is the forbidden land, the strong outside the family, not allowed to approach.

"call out!"

At this time, in the deepest part of the turtle's star field, a void squirmed silently, followed by a faint sound of broken air, a giant turtle with a huge wound on the back, from the cracked The void in the void rushed out, and the void crack behind him, under the flash of purple and black, immediately closed, and the traces never left behind...

Chapter 3884: Continued to repair the hole

This torn hollow, the giant tortoise coming, is the empty giant tortoise, was rescued by Ye Xuan and the headless baby body, and was sent to the tortoise star field by the headless baby body!

And after he left, with some mysterious hand, healed the void, erased all the traces, and ensured that the heavenly eye could not follow the traces...

It can be said that the current virtual giant turtle is absolutely safe!

"Booming..."

In the next moment of the shadow of the giant tortoise, the entrance to the secret of the tortoise in the deepest part of the tortoise is opened. In the low roar, several giant tortoises are empty, and worship in the void, seriously injured. Unrecognized hollow giant turtles, ushered in the secret of the turtle.

Then, the entrance to the secret is completely closed!

After the interest rate, an old voice sounded through the entire body of the tortoise, and was introduced into the ears of a large number of explorers and treasure hunters scattered throughout the vast expanse of the universe.

This is clearly an immortal level of the supremely cursed turtles in the will, the endless majesty reveals that all the star-studded powers who heard this sound tremble: "In ten days, non-gocrats, all members evacuated! The domain has been completely banned since then! Goodbye... oh!"

.....

The first universe, the black hole of life not far from the devil's star!

"call out!"

When the sound broke, Ye Xuan's figure appeared, and this time the interstellar coordinates jumped and finally succeeded.

The reason why this target of the interstellar coordinate jump is locked in the black hole of life, on the one hand, because Ye Xuan has not finished busy in the first universe.

On the other hand, it is because the black hole of life is the same as the source of the evil, and it is also located in the first universe.

The ancient void that Ye Xuan used to activate the interstellar coordinate jump ability was not among the three universe planes. Ye Xuan was not sure whether it was adjacent to the Second Universe and the Third Universe.

At that time, the torn hollow of the furnace entered the ancient void, which was from the starry field of the first universe. If there was no accident, the ancient void should at least be the first cosmic position with the source of evil. Faces are adjacent, so this time the interplanetary coordinate jump ability, the probability of success will be maximized.

Fortunately, there is no accident, otherwise it is really a headache to find the void path back to the three cosmic planes in the turbulent stream.

How many have left the three planes to explore the fleet of unknown universe voids, leaving forever, never coming back?

It's like being exiled forever!

With a sigh of relief, Ye Xuan turned to look around and determined that this time the interplanetary coordinate jump has been successful. At this moment, the position is the familiar black hole of life. He has been hanging in the heart of the blind eye before he completely falls back to the chest. !

After calming down the mood, Ye Xuan's consciousness turned to the left chest. At this time, the corpse lamp tattoo had returned to normal, and there was no more temperature. It is clear that the headless baby corpse once again fell into a sleep.

Recall that this time, the headless baby corpse can be described as several shots. Of course, the results are also very gratifying. The 500 mortal corpses harvested by Ye Xuan are not mentioned, just succeeded in saving the void giant. The turtle, for Ye Xuan and the headless baby corpse, is of great significance and extremely important.

Although Ye Xuan did not know where the empty giant tortoise was sent by the headless baby, because the void crack was torn by the headless baby, but for this, the headless baby must be clear.

Presumably, it is an absolute safety place, which allows the Nether Giant to recover the wounded with peace of mind. When it is born, a wild and supreme state of prosperity will become the biggest reliance of Ye Xuan in addition to the headless baby.

The only thing that made him feel a pity was that at that time, he had to send some evil sources to the empty giant tortoise. Ye Xuan had two thousand drops in his hand. As long as the virtual giant turtle needed it, he could do it all.

However, it was too hasty at the time and there was no such opportunity.

However, this time the harvest is huge, but the headless baby is shot a few times, and there must be no small loss.

He first sent out a glimmer of faint purple black awns, immersed in the body of the hollow giant tortoise, although it seems inconspicuous, but the smudged purple and black man must be nothing, can make the nearly dying hollow giant turtle at that time Instantly hit the chicken blood to live, can you be a normal thing?

Then, in addition to sending away the empty giant tortoise, and using the great power to smooth out the void and erase all traces, the headless baby corpse also shot the same black to the black cloud in the distance before being taken away by Ye Xuan. Purple and black.

If there is no accident, then Tiandao Qingyan will not be able to prevent it from being hit by the fall. It is a pity that Ye Xuan has left and can't see the scene at all.

These few shots, the headless baby body that was still in the process of recovery, the consumption is certainly not small, but unfortunately, although he knows that Ye Xuan has a large amount of evil source liquid, he does not ask for it at all. This is called Ye Xuan. Helpless, with help, but nowhere to force!

"Maybe, this kind of evil source liquid is not used for baby corpses..."

Ye Xuan thought of Tiandao Qingyan, he is also in the process of recovery, and he was set up by the great furnace of refining and refining. If the product of the smoldering furnace is also useful for the existence of the level of Tiandaoqingyan and headless baby corpse, How can Tiandao Qingyan not use itself?

Thinking of this, Ye Xuan suddenly shook his head and smiled: "The top big cockroaches are the top cockroaches. This kind of tyrannical power and the ancient sages are only a few drops or even a drop of top resources every year. People are not looking at the eyes, oh, people are better than others. People, really want to be mad at people..."

Therefore, Ye Xuan once again thought of the furnace, if there is no accident, then the furnace should also return to the source of the evil.

Maybe the refining and refining after this hunting has already begun.

However, the final product of refining and chemical production will be released. Obviously, it will take some time. Ye Xuan is not in a hurry to immediately pass. On the one hand, he is worried about the blue eyes of the heavens. On the other hand, he can arrive in an instant under the ability to activate the interstellar coordinates. No need to worry about missing anything.

As for what to do now, after Ye Xuan's indulgence, his heart will be hot.

This time, the treasures of the more than 500 powerful and ancient creatures that have been obtained from the furnace, he is not in a hurry to deal with it. What really makes him feel guilty is the follow-up merits of the caves!

Nowadays, he has already obtained a complete essay, which is the supreme inheritance of the void giant turtle. It is of great significance to Ye Xuan.

Counting it up, he has been stagnating in the practice of meditation, and it has been for a long time. The cultivation of flesh and blood is now the fifth stage of the universe, but the realm of the dynasty. However, it still stays in the eighth world of the eighth world.

Too much difference!

After calming down the mood, Ye Xuan's consciousness quickly entered the sea of knowledge in the brain. He decided to take advantage of this buffering period and re-pick up the practice of practice and continue to repair the hole...

Chapter 3885: Seventh order

Today's Ye Xuan, his brain knows that the objects hanging in the sea are full of nine pieces!

The central part is Lei Di Yin and Shen Nong Ding. These two are the innate treasures, one is the ancient treasure, and it is still heavy.

As for the surrounding Lei Di Yin and Shen Nong Ding, there are seven small objects: the spiritual source nuclear, the hollow medullary crystal, the 陨天弓, the black gold dragon scale, the ghost claw, the Taikoo little konjac, and the quaint tortoise that just entered!

They represent Ye Xuan's kind of supernatural powers or blood vessels, all of which are his strongest foundation.

But now that Ye Xuan's consciousness is close, it's the quaint tortoiseshell that just got into the gang.

This tortoiseshell, which represents the supreme blood of the hollow giant tortoise, is the supreme practice of belonging to this family of creatures.

At this moment, with Ye Xuan's consciousness touching this quaint tortoiseshell and activating it, his heart trembled and he immediately entered a legacy image imprinted in the tortoise shell...

This picture is an ancient emptiness of the wild, revealing the meaning of endless vicissitudes!

"Roar!"

An earth-shattering roaring sound came from the depths of the endless void, attracting Ye Xuan's consciousness and the picture.

A vast and huge claw like a sky stretched out from the endless darkness, and when it was pulled at random, it instantly collapsed and collapsed, and collapsed a whole field.

Then, from the endless darkness of the darkness, a round and flat head stretched out, and there was no end to the chaos and hustle and bustle around the eyes.

This is a giant tortoise. A piece of striate on the body has such a large galaxies. It climbs out of the darkness, and the pressure of the atmosphere that envelopes the whole universe shrouds the emptiness of this side. Live, it will collapse soon!

Then, in the mind of Ye Xuan, he quickly received the inherited inheritance information of the cave.

In the picture, a quaint giant tortoise bigger than the stars, so as to swim in the galaxy with the flesh, screaming, a black energy rushing out from the wide mouth under the turtle's head, like a small The meteor in general, rushing to the endless horizon.

It was first a small star nucleus, and then it grew into a meteor, slowly growing up, turning into a satellite, a planet, and then a star. In the end, it grew into a nebula, a vast galaxy, and then suddenly fried. Open, the ultimate condensation, turned into a black hole in the comet, swallowing everything...

This whole process is the first eight realms of the background practice of the starry sky, and then there will be no more, because the tortoise shell is only damaged, broken the inheritance!

These are all the pieces of the tortoise shell that Ye Xuan had previously obtained, and only these.

But nowadays, the ancient tortoise shells that have been condensed in his mind by the complete inheritance obviously contain more information and do not stop at the top eight realms.

After the black hole, it is the origin, then the cave, the mysterious light, the void, the beginning of the field, the light of the universe, the Qiankun...

At this time, the corresponding changes in the inheritance screen also changed.

The huge black hole that represents the eighth realm of the starry sky quickly condenses. After the extreme, it turns into a weak point. This is the original meaning of the original point. In the process of condensing the black hole into a point, a lot of creaking in the process In the mind of Ye Xuan, like a compression package decompression, it was released and he was instantly realized.

Then, the tiny origin formed by the extreme contraction of the black hole re-expanded and evolved into a small hole, which burst into a mysterious light, derived from the void, and the initial prototype of the birth star, eventually becoming a vast universe with stars and voids. For a complete glory...

This whole process is the journey that the ancient scorpion has to take in the fifteen major realms of the starry sky. The demonstration of the picture is only an image of the image. The most important thing is the demonstration of this image. In the process, the continuous decompression appeared in Ye Xuan's mind.

Although Ye Xuan has already obtained a complete inheritance of the ancient dynasty, all the way to practice, and even grow to the sacred level of the empty giant turtle.

However, the realm of his flesh and blood is, after all, the only state of the world, which is the last big realm of the fifteenth world before the starry sky.

Therefore, what the ancient tortoise shells have demonstrated is only the whole meaning of the top fifteen realms.

Subsequent esoteric demonstrations of the star master, the domain master, the master, the universe, and the immortal level require his repairs to be able to appear.

Ye Xuan is not in a hurry. Now he will retreat from the inheritance picture. After adjusting his mood, he will start practicing from the eighth stage of the eighth world.

In the next moment, from the brain of the sea under the quaint tortoise under the sea, the endless stream of waves and waves suddenly burst into the sky, as if a tsunami occurred, the whole vast and vast sea of knowledge lived. , thoroughly churning.

In the center, a huge star-shaped giant tortoise slowly emerged from the depths of the sea. On each turtle's tortoise, there are numerous mysterious patterns.

This starry giant tortoise represents the ancient sacred sacred cultivar that Ye Xuan has cultivated, because this ancient scorpion is the highest inheritance of the blood of the cave tyrannical giant tortoise, which is the result of the complete practice and the cultivation of Ye Xuan. In the vast sea of his mind, he showed the illusion of this giant turtle...

Ye Xuan's flesh and blood has reached the fifth stage of the Zhouguang, and now he has obtained a complete practice of the ancient dynasty, and fully understands the syllabus of the top fifteenth world. The practice is naturally fast and incomparable.

It's like recovering, it's like pouring water into a well-built pool.

As a large number of cultivation resources were consumed, his cultivation in the practice of the ancient sacred gongs was immediately elevated. As in the case of rockets, it quickly began to soar!

The whole process lasted for about a day or so. When Ye Xuan opened his eyes again, a familiar system sound was heard in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth stage of the universe!"

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the seventh order of the universe!"

This is not complete, because with the rapid improvement of his exercises, it also led to the resurgence of the flesh and blood, so that almost the same system prompts came out in my mind...

"Hey, congratulations to the host, breakthrough in the realm of flesh and blood! The current realm: the sixth order of the universe!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the seventh order of the universe!"

The cave is empty and ancient: the seventh step of the universe!

The flesh and blood: the seventh step of the universe!

At this moment, Ye Xuan's practice was repaired with the strength of the flesh and blood, and finally synchronized. A feeling of comfort and euphoria spread throughout the body, and spread into the soul, let him suddenly, and gave birth to a kind of My own spirit and flesh, at this time, finally feel the perfect feeling, very comfortable...

Chapter 3886: Baby corpse

At this moment, the practice of the practice is finally synchronized with the power of the flesh and blood, so that Ye Xuan gave birth to an unprecedented kind of spirit and flesh, and at this time finally finally found the perfect feeling, very comfortable!

After a long breath, Ye Xuan stood up and screamed: "The konjac is real!"

In a short period of time, the blood in his body was activated, and the konjac of the three heads and six arms appeared. The strength of the seventh-order repair of the deity was directly soaring, and instantly reached the eighth order!

Qiankun eighth order!

If Ye Xuan is in this state of activating the konjac, he will once again display the first three changes of the konjac, so that his true body shape will reach a huge height, and he will be able to rise again to three small stages. It will be the second-order strength of the star's main territory!

Although it is still the beginning of the star's main territory, it is absolutely different from the first-order star. After all, after the star-studded power reaches this level, even if it is only a small-order strength improvement, it will take a long time to accumulate and accumulate.

And Ye Xuan, not long ago, all these means will be able to achieve the first entry into the star territory, which is the first-order strength of this situation, but now, less than a month, the same variety of blood means Underneath, it has been able to reach the second stage of the star.

If this matter is spread out, it will be heard by any star lord, fearing that it will be shameful and envious!

For each change of the konjac nine, you can instantly improve your overall strength as a small step. Ye Xuan has already verified it many times, and there is no suspense.

Therefore, this time he did not continue to display the last three changes of the konjac, because there are other things in my heart to remember.

That is the treasure of the more than 500 ancient creatures that came out of the oven!

This time, his harvest in this respect is amazing. In total, he has obtained thirteen ancient desperate, more than two hundred ancient powers, more than two hundred ancient powers... More than five hundred immortal grades. The ancients of the ancient corpse corpse treasure!

This is definitely a shocking horror resource. It doesn't seem to be much compared with the total amount in the furnace at that time, but if it is changed, it is nearly 500 immortal creatures. The treasure of the treasure, Ye Xuan wants to get one, they must rely on the opportunity.

Soon, Ye Xuan lifted the \*\*\*\* state of the three-headed six-armed Taikoo konjac, and once again manifested the human form, the appearance is the choice of the fox!

"call out!"

Then, in the middle of a wave, Shennong Ding was sacrificed from the body and suspended in front of him. Although it was not as complete as a giant star, it also had a diameter, and it was a great behemoth!

This time, the more than 500 powerful ancient corpses of the ancient sacred corpse obtained from the furnace, all of them are immortal, and there are thirteen treasures of the ancient and supreme, with the strength of Ye Xuan's own cultivation. It is impossible to directly charge into the body.

Can only rely on Shennong Ding, with the help of this Ding's domain field power.

Nowadays, these rare and rare ancient corpses are all stored in a closed cave at the bottom of the volcano in the central area of Ding Nei Space.

Like the wreckage of the descendants of the ancient ants who had been obtained from the Hell ants in the past, and the wreckage of the ridiculously large-scale purple gold emptiness rat that was obtained earlier from the space rat, each They are stored separately in a separate closed cave!

Shennong Ding sacrificed, Ye Xuan did not immediately move, he seems to fall into sinking, thinking about something.

According to his estimation, even after the smoldering furnace followed him, he returned to the source of all evils, and immediately condensed the treasures of the thousands of ancient corpses obtained from this hunting.

Even after the evolution of the furnace itself, the power has been improved compared to the previous ones... But it takes at least three days for the furnace to be condensed.

At the moment, he started the interstellar coordinate jump and returned to the black hole of life. Only after a day passed, there are still two days.

Dry consumption is not a problem, and he has just experienced a breakthrough in realm after cultivation. It is not suitable to use time to practice and pass the time.

Therefore, Ye Xuan was able to wave the sacrifice of Shennong Ding. The purpose was to try to use the Shennong Ding to smelt the blood and meat, and to spend the last two days.

At present, Ye Xuan's repairing strength has reached the seventh stage of the Zhouguang, and then there are two small-order breakthroughs, which will reach the nine-step grand perfection of the Zhouguang, and then the final fifteen-level liquid will be used.

Once the fifteenth grade liquid is used, it will be completed in the ninth order of the Qiankun. If the sixteenth grade liquid has not been refined yet, he will stop at the level of the body and blood.

Although the practice of practicing the Faculty of the Faculty has been carried forward again, the ancient scorpion can continue to cultivate, and it will be repaired to the end, until he grows up to the ancient supreme like the giant tortoise, there will be no further lack of exercises. The problem.

But now it's not easy to repair the practice to synchronize with the physical state of the body, Ye Xuan does not want to throw one of them, it is like a single leg forward, how can the two feet rush to the fast and light?

In a word, the practice of the sixteen-level liquid is now imminent, and it is precisely because of this that Ye Xuan will have his free time to transfer his mind to this aspect.

But being so focused, it really made him gain a lot.

Since this time, Ye Xuan has been frequently promoted by the computing power of the in vivo phagocytic system. Now, how to use the power of Shennong Ding and the four-color dissident to smelt flesh and blood medicine has already yielded a little.

In the past two days, he intends to rise from the theoretical level to the actual practice. From then on, he got the treasures of these ancient wild spirits in the furnace, and selected one or two as a refining hand!

Anyway, this kind of treasure flesh and blood resources, he is now a lot, even if the refining is no pity, as long as every failure can be improved, even if this progress is minimal!

"There are only thirteen treasures of the ancient sacred corpse. It is too precious. Even if you want to try it, you have to be behind. However, if you use the raw materials of flesh and blood for the first time, it's too bad. Clear, so... try it with a wild and powerful blood and treasure!"

After some indulgence, Ye Xuan made a decision. In the moment of ignorance, there was an ancient and fascinating treasure of the ancient and ancient spirits. He was taken out from the independent closed cave at the bottom of the central volcano and appeared in Shennong Ding. The inside of the mountain belly!

It is the wild silver dragon that shines in the treasure!

"Hey..."

It is also at this time that when Ye Xuan wants to pull a four-color flame of Shennong between the minds, the initial chest of the silver dragon's flesh and blood treasures, Ye Xuan's left chest is actually hot, more A whistling sound that was not very high was suddenly sounded.

With a strong warning and guardianship...

Chapter 3887: Second world possibility

Guard?

What is the situation?

Ye Xuan stunned on the spot, and it felt a bit messy in his mind. After a few moments, it was faintly understood!

If he did not guess wrong, this is the silver dragon that he is preparing to use for the refining of the hand, and using the four-color Shennong flame to make the big flesh and blood medicine. It should be the wild creature of the camp of the headless baby.

Although the silver dragon has fallen, but in the eyes of the headless baby, even if it is only the remains of the remains, it can not be treated like this.

Although this is a little bit sensational, it is not difficult to understand, Ye Xuan agrees with this!

Since the silver dragon can't do it, then it is a treasure. It is impossible to have more than 500 legacy treasures in the hands of the ancients. In the battle of the ancient world, all of them were headless baby corpses. Camp?

In the depression, Ye Xuan put the silver dragon's widow's treasure back, and got a black armored unicorn. It is still the remains of the ancient power level, and it is trying to pull a glimpse of Shennong's four-color flame.

This time, although the headless baby body did not scream again, but Ye Xuan's chest is still hot, with a warning.

Obtained, or not, it is estimated that this black armor is also his own camp in the same year, this is also very good luck, just pick two ends is two.

Under the sorrow, Ye Xuan could only send this black armor to the unicorn, and then he made another treasure of the ancient power of the ancients... The result is still not good.

I will endure!

At this time, Ye Xuan has been quite intolerant, but it has not been attacked, but continues to test again...

After 13 consecutive times, all the same results, Ye Xuan finally violently snarled in the same place, roaring like a thunder: "Deliberate! You are absolutely deliberate, this young master does not believe, today's luck can be so good ? Thirteen in the middle of the game? Do not be so obvious?"

Thirteen times in a row, all were warned, and now Ye Xuan has determined that he has been played by a headless baby, and his heart is getting stronger.

There are also some unkind words in the discourse: "Even if it is really a good hand, the masters are very good, and they are all winning the bid. The thirteen remains of the remains are indeed the battle of their own camps, but what about it? The situation is now The Ben, the Lord has been pulled down by you, have to grow up as soon as possible?"

"These guys have fallen into endless years. The widow's treasure is also a resource. Why can't you use it yourself? Don't be too pedantic..."

Said, Ye Xuan is going to take advantage of this anger in his heart, first cook the raw rice and cook it, this kind of thing may be a knot in the heart of the headless baby, just like the little girl's. The first time twisted and pinched, but with the first time, it doesn't matter!

I thought about it this way, Ye Xuan did not use the ancient powers of this time, and directly pulled out from the thirteen treasures of the ancient and supreme level, and appeared in the mountainside of the volcano in the central area of the Dingnai space. Prepare to take a look at the four-color flame of Shennong, and carry out the smashing hands of the big flesh and blood medicine...

"Hey!"

At this moment, Ye Xuan's left chest was once again hot, and there was a cry of screaming that was not very high, still with a strong warning and guardianship.

"Rely! You are still coming, isn't it? This young master does not believe it. Today, this matter has not been discussed. You have the ability to do this with the Lord!"

Ye Xuan fired three feet and was repeatedly warned by the headless baby. He was also provoked with real anger. This time it was ironic to consume the old-fashioned remains of the dead, even if it was It's also a shame to turn your face with a headless baby.

It is best to be able to push the other side away, so that instead of a knot, at least no longer need to be forced to pull in the final battle with Tiandao Qingyan for the future!

It seems that I feel the determination of Ye Xuan, and the headless baby corpse after a screaming, even if it is silent, even the hot meaning of Ye Xuan's left chest disappears.

Just as Ye Xuan thought that the other party had made a concession under his own tough attitude, in his mind, there was a cicada at this moment...

At this moment, Ye Xuan was a little panicked. He thought that the headless baby was going to shoot him under the anger, but he soon found himself misunderstood. The reason why the cicada came from his mind was because there was a piece of information. It was passed in, which is obviously the handwriting of the headless baby.

It is in this way, communicated with Ye Xuan, and it prevented Ye Xuan from moving the treasures of these ancient creatures, and explained roughly.

This information has images, and there are some flaws in the pattern. Ye Xuan does not know, but the strange thing is that when his gods touch these patterns, they immediately realize the meaning of each pattern.

These patterns are obviously a higher level of expression, and Ye Xuan has not even heard of its existence before.

Through this information and images, Ye Xuan finally understood why the headless baby body stopped himself.

The images contained in the information are all related to the towers of the ancients. Ye Xuan recognized them at a glance. After all, this tower has been refining, but now it has been transferred to the body of the devour of the treasure.

The reason why the headless baby corpse prevents Ye Xuan from starting with the treasures of the ancient and the ruins of the ancient and the ancients is because the towers of the ancient ancestors have been able to live the second world.

Of course, it is only the ancient powers of the ancients and the ruins of the ancients. Even the quasi-wild powers have absolutely no such opportunity. Those ancient and spiritual creatures of the cosmic and immortal level are even more impossible.

The reason is also very simple. If Shennong Ding and Mingluo are both ancient and treasured, they belong to the era of the era of heavy weapons. Even in the era of the wilderness, they are all top treasures, then the ancient heritage tower is even more powerful. It is.

The furnace is a rehearsal of Tiandao Qingyan, and Shennong Ding is a relegation of the ancient sacred reign of the camp of the headless baby corpse.

But after all, it is the thing of the day after tomorrow.

And the ancient heritage tower, but it is a congenital treasure, the same is the ancient and treasure, the difference between the day after tomorrow and the innate, it is like a world of difference, there is no comparable!

At that time, when the battle was in full swing, the ancient towers were born, and they swam over the void battlefields of the war of the world. All the above-mentioned existences of the paleo-energy level that had not yet fallen can be divided into a spiritual source. The ancient heritage tower, regardless of the camp!

No one knows where this ancient heritage tower came from, but it instantly understands its meaning. After this sacred source is handed over, it will be preserved by the ancient heritage tower, even if it falls in this battle, there is this The spirit of ignorance exists, and in the future there will be a resurrection and the possibility of living a second world.

But now the emptiness of the veil is due to the coincidence of the opportunity, the reincarnation of the true body of the leaves of the leaves, and really lived out of the second world, as long as there is no halfway in the process, after he has grown up completely, it is quite Born again.

The magic dragon is different, but his spiritual source is also brought out by Ye Xuan, but it is only a virtual shadow, there is no entity, it is not really living out of the second world. Because the energy of this dragon's phantom is consumed, if you have never encountered the opportunity to reshape the magic dragon.

Then at the end of the day, the energy of the demon dragon's virtual shadow is exhausted. He stays in the tower of the ancient heritage, and the spiritual source that was later brought out by Ye Xuan will also be annihilated.

At that time, this ancient demon dragon is equivalent to being completely degraded. Even the seeds that are left to live out of the second world are gone.

It can be said that the elites of the two camps above the age of the ancient powers, the source of the spiritual knowledge left in the towers of the ancients, can only be regarded as a seed, but can this seed finally germinate again? Plastic real body, live the second world, but still have to look at their respective opportunities!

The existence of this level, it is not easy to reshape the real body.

This is related to their own blood properties.

For example, the ancestral marsh and the ancestors of the ancestors, although Ye Xuan has a large number of various top resources, but if there is no corpse source, the drought and the post-Qing can not reshape the real body.

The most fortunate in the droughts and floods, the original smog inside the seal was sealed with a sacred corpse source. After she first woke up, she used it directly to reshape the real body. Then, she could use the top resources such as congenital yin and cold spirit liquid. Otherwise, the real body has not been plasticized, and these top resources are not available.

Later, Qing is actually lucky. In the ancestral home of the space rat, she also got a corpse from the remains of the Zijin virtual mouse. If this is not the source of the corpse, she will help her reshape the body. Ye Xuan It's useless to give more top resources.

Including the Void Scoop, if the non-Ye Xuan has a hollow crystal, he is afraid that it is also the shadow of the current dragon, the vampire is not plastic, can not really live out the second world...

It can be seen that although there are a large number of spiritual sources of the strong camps of the two sides above the ancient level of the ancient powers in the towers of the ancient times, if they want to let these seeds sprout, they will live the second world, but they still have to rely on opportunities. Hard!

In the hands of Ye Xuan, the 13 ancient sacred sacred ones from the furnace and the two hundred eternal treasures of the ancient powers can solve this problem perfectly!

These thirteen ancient sacred and two hundred sacred ancient powers were not directly in the battle of the world, but they were destroyed.

They basically all broke into the void after a serious injury. After a period of healing recovery, they finally failed to fall down, and the consciousness died and fell.

Although the consciousness has died, the deity of the deity is still there.

With these well-preserved remains, their rebirth and resurrection is much more convenient than any other ancient powerhouse whose body has died directly in that battle.

Although the headless baby body does not dare to guarantee the success rate, after all, even the origin of the ancient and ancient towers, even him and the heavens and blue eyes, are confused, and there is no way to know that when the war began, it was only because of seeing this. The mysterious innate pagoda is not biased towards a certain camp.

And his shots are only collecting the spiritual sources that exist above the ancient level of the ancients, and there is nothing else, so they have not interfered, let them leave the mission after completing their mission...

However, according to the derivation of the headless baby corpse, these ancient powers and the ancient sages who have preserved the remains of the remains of the remains, if they have preserved the remains of the remains, can be actively differentiated from the same year and preserved in the ancient heritage tower. The source of the spiritual knowledge that belongs to them is combined.

Then, at least 50% of the chances will allow them to resurrect directly with the deity and live the second world without having to wait for the opportunity to reshape the blood!

This is originally the body of their deity, but it is most suitable. If there is a spiritual source, the fit will be perfect, and why do you need to reshape the blood?

It is for this reason that the headless baby corpse will prevent Ye Xuan from starting with these remains, even if it is the existence of the hostile camp.

After all, the first world is the first world, the second world is like a new life, and even the existence of life is different. Even if it was the strong enemy of the camp, this world may not have the possibility of reversing it.

It's not working, it's okay to wipe it out again!

Of course, this is only limited to the existence of the ancient power level. As for the others, it is not listed here, because even if the remains of the remains are well preserved, there is no such thing as a spiritual source in the ancient heritage tower. The opportunity of the second world will naturally disappear.

That is to say, Ye Xuan's treasures of more than 500 ancient creatures from the furnace have not been easily used. Nearly half of the baby's bodies are left to the future, and they are sent to the ancient heritage. Look at the tower to see if you can resurrect the second generation by the help of the spiritual source that belongs to them in the tower.

As for the remains of the remains of the other half of the ancient power level, it is not here, just how Ye Xuan can toss...

"Rely! It's such a thing for a long time. I knew that I would pick a treasured master of the quasi-wild power!"

After figuring out all the reasons behind it, Ye Xuan suddenly turned his eyes straight, and he was really unlucky enough. At the beginning, he stared at the treasures of the ancient power level. Otherwise, there is such a thing...

Chapter 3889: Too shameless, too shameless

After understanding the reasons why the baby corpse prevented himself from starting with the thirteen ancient sacred and two hundred legacy powers, Ye Xuan fell into sorrow...

In any case, the remains of this part that have just been obtained from the furnace, can never be moved again!

At that time, there were a large number of powerful and deadly treasures in the furnace. Ye Xuan mixed fish and fish, and detained from it. Naturally, all of them chose to complete the treasure.

Therefore, the treasures of more than 500 wild animals that he had received in his hands were all intact.

That half of the number of the remains of the ancient powers below the level of the ancients can not be counted, how to go back to the end, anyway, there is no possibility of living the second world.

However, after the thirteen ancient and the surviving treasures of the ancient and noble powers of more than two hundred, Ye Xuan turned back and swallowed the face, but they must all be sent to the towers of the ancients.

See if you can use the wilderness to inherit the source of the spiritual knowledge left in the tower, and resurrect these wilderness levels above the level of power!

Even if the chances of success are small, as long as there are so few ancient powers and ancient sacred reborns, and live the second world, the harvest will be extremely impressive.

After all, this is not like resurrection of the blood and the body, but it is directly resurrected with their original treasures. Presumably, if successful, even if it is repaired, it cannot reach the peak of the year. But weaker will not be weak where to go.

As for the issue of the camp, Ye Xuan agrees with the headless baby corpse. The past battle of the ancient world represents only the position of their past lives, but now the second world has lived, and the existence of life has changed. What is the difficulty of changing the position?

If you really encounter the existence of stubbornness, you will not be able to wipe it out again. If you have a headless baby, it will not be difficult to solve a resurrection of the ancient power or the ancient supreme!

It can be said that this is definitely a heavyweight good news, and solved the problem of the future high-end combat power of Ye Xuan in a flash.

The ancient heritage tower is simply a killer of power and horror. Through it, even the ancient powers of the wild and the ancients can be resurrected. There is a possibility of living the second world. It is incredible to think about it.

But this is not the most exciting thing for Ye Xuan.

More importantly, through the information revealed to him by the headless baby body, Ye Xuan also learned a more important key point.

Actually related to the furnace!

Previously, Ye Xuan planned to go to the source of the evil spirits again two days later, and to get the smoldering liquid from the treasures of the wilderness of the ancients.

The headless baby corpse is now parasitic in Ye Xuan's body. It is obviously inductive to his thoughts. For this reason, he took the opportunity to explain to him the relevant matters of the ancient heritage tower. The headless baby corpse also proposed to Ye Xuan. Proposal, tell him that this time never enter the star of the evil.

On the one hand, because of the previous precedent, whether it is a furnace or a heavenly eye, it is very likely that there will be defenses. Even this time, suddenly unplanned condensing in advance, it may be a trap. !

There is no head baby corpse, although it can protect Ye Xuan Zhou Quan, but it must be exposed.

The headless baby corpse is exposed, but if Ye Xuan is exposed, all kinds of revenge will come out like a tide, and it will completely collapse!

With the help of heaven and earth, you can easily find all the forces related to Ye Xuan. By then, they will become the targets of the destruction and destruction, including the Devils and the Triumph.

The cost is too heavy, just for the sake of the smoldering of the product of this time, it is not worth the risk.

Of course, the meaning of the headless baby corpse is not the same. Let the smoldering source of the smoldering furnace be transported to the high-end combat forces of the enemy camps who need them. Recover the injury.

In fact, the headless baby body is not only a warning, but even a suggestion. According to his suggestion, if it succeeds, the evil source of liquid in the furnace will sooner or later be Ye Xuan.

The content of this proposal is also very simple. In one sentence, it is finished. That is to try to let the smoldering furnace and the subsequent smelting of the evil source liquid can no longer be transported through the striated chains.

As long as this can be done, these evil sources will remain in the furnace... One day, all will be obtained by Ye Xuan.

Because... the head of the furnace, the headless baby corpse has already been in the dark, and calculated it!

In the past, when Ye Xuan appeared as a Taikoo konjac in the star of the evil, in order to obtain the recognition and shelter of the sacred furnace, Ye Xuan had handed a drop of soul blood to the Taikoo turtle, so that he could help to integrate into the furnace.

This drop of soul blood has been done by the headless baby body.

It was added to the headless baby corpse, but it has not yet been activated. Because the time has not yet arrived, once activated, the headless baby body has more than 80% of the grasp, and the control of the furnace is taken from the hands of Tiandao Qingyan.

At that time, Ye Xuan only needs to refine the furnace like Shennong Ding, so the Tiandao Qingyan can't help even if it is not willing, unless you kill Ye Xuan, you can't recapture the furnace.

The furnaces have been refining, and the evil sources that have not been transported through the striated chains in the interior of the furnace, naturally belong to Ye Xuan, and how to toss them all...

"It's too mean! It's shameless!"

After all this was clearly understood, Ye Xuan was excited to pick it up on the spot.

He is now extremely skeptical that his later style of behavior is gradually biased toward the wilderness. Nothing is robbery or extortion. This is most likely because of the headless baby corpse, and the corpse lamp tattoo has been accompanied by the left and right, thus affecting himself. The reason.

Obviously, this guy is too embarrassing and too sinister. Compared with him, Ye Xuan's previous actions such as robbery and extortion are simply pediatrics.

Including this time in the furnace, Ye Xuan is just quietly starting to steal hundreds of ancient treasures of the remains of the remains of the ancient spirits from the furnace, and came to a bottom.

However, the trick of headless baby corpse is no different from that of the household. If you really want to succeed, you must absolutely break the fundamental foundation of the future rise of Tiandao Qingyan!

Daxie is a big man, or he doesn't shoot, and his shot is so earth-shattering. This big hand, even Ye Xuan did not dare to think about it, but he, but quietly has already been arranged, and if there is no major accident, this It is really possible that he will be successfully completed by him!

However, the most important part of the headless baby corpse has been completed, but the next few corners, but still have to rely on Ye Xuan to solve, the difficulty is still not small.

After all, it's not easy to let the furnaces pass through the scented chains to transport the condensed allergens...

Chapter 3890: The foodies flocked

After the last accidental evolution, the present furnace has already given birth to the spirit. Since then, it has been able to unload the fringe chain on the wall of the furnace for a while, and it is sure to return to the depths of the evil source. After that, it is also possible to autonomously reconnect the chains that have been temporarily unloaded to the furnace wall.

Therefore, in order to make it impossible for the furnace to transport the condensed allergens through the striated chains, this is not easy!

Just cut off those streak chains, fearing that there is no effect at all.

After exhausting my mind and strength, people can easily pick it up again... If that's the case, it is estimated that Ye Xuan must be crazy!

The best way is to completely destroy those streak chains!

Of course, to destroy, it can only destroy the half of the fringe chain used to transport the evil products of the furnace.

As for the other half, it is necessary to keep the striated chains that are used to transport the flesh and blood materials to the interior of the furnace from nearly 10,000 locked and constructed stable passages.

Ye Xuan wants only the condensed good source of the evil source can not be transported, instead of the flesh and blood raw materials used to condense the evil source liquid can not be transported.

As long as the product of the furnace cannot be transported, all the evil sources it condenses will be kept inside the furnace. Once the time is ripe, the headless baby will activate him in the blood of Ye Xuan. The added dark material will be grabbed by the furnace, and after being refining by Ye Xuan, all the evil sources stored in the furnace will fall into the capsule of Ye Xuan...

Just thinking about it, it's exciting.

However, it is necessary to destroy all the fringe chains that transport the evil source liquid out of the way. According to Ye Xuan itself, it is obviously impossible to do it.

Even if there is, he can't take it himself.

The furnace has returned to the starry field of the evil, and there is even a possibility that there is a sense of heaven and earth in the darkness of the sneak peek. Once Ye Xuan appears, it is no different from exposure, and will be locked by the heavenly eye!

This matter can only be faked by people. To put it bluntly, it is to kill people by knife!

Ye Xuan frowned and indulged, and soon there was a general idea, grinning...

.....

After temporarily throwing the things of the furnace into the back, Ye Xuan's thoughts took out a treasure of the ancient and ancient spirits of the ancient kinetic level from the bottom of the volcano in the central area of Shennong Ding.

And directly pulled a sacred Shennong four-color flame cover in the past, began to follow the method of smelting blood and meat, and refining the hand!

Sure enough, this time the headless baby body no longer responds!

These wilderness creatures of the quasi-ageless powers and the following strengths, in the battle of the ancient world in that era, even if they saw the ancient towers passed over the void of the battlefield, there was no qualification and strength to distinguish The source is injected into it.

Therefore, in the eyes of headless baby corpses, their widows are simply worthless.

Of course, for Ye Xuan is different, the same is the top flesh and blood resources!

Nowadays, he is using the Shennong four-color flame to sculpt the treasures of this ancient wilderness, which is only the initial link.

In order to refine the 16-stage liquid in this way, according to the results of Ye Xuan's devouring system, after completing this preliminary refining, you have to add various other natural treasures and minerals, resources... ..

But that is the follow-up, and now Ye Xuan even has not mastered the initial refinement of this first step. Naturally, it will not easily waste resources. After all, it can be used to join the various natural treasures of refining 16-level liquid. They are all extremely rare things, even Ye Xuan, not much on hand!

With the burning of the four-color flame of Shennong, the treasure of the ancient and ancient spirits of this quasi-ageless ancient power level was quickly removed from the feathers, the golden flesh and blood, the oil spilled, and the more fragrant and fragrant.

This is a nine-headed bird with a body size of nine thousand feet. It is extremely large, but now it has been ruined by the four-color flame of Shennong, and its size has been reduced to about six thousand feet.

If you just roast it, you can eat it now. After all, it is the remains of the ancient powers. Even if it has been degraded for a long time, the energy left in its flesh and blood is still extremely amazing. I often eat this kind of Baoxuebao meat, wrap the belly, and I have never tasted this delicious!

Before that, he was at most the main body of the roasting star, and the remains of the ancient ancestors of the ancient realm of the land. This kind of quasi-aged ancient energy level of Baoxuebao meat is only once and full, just from the space mouse ancestral land. The treasure of the purple gold hollow rat obtained in the book.

Ye Xuan once licked a large piece of rat meat to eat!

Nowadays, with the nine-headed bird being thoroughly roasted by the Shennong four-color flame to the bright golden color, the seductive scent is opened by the body in his body, and the cockroaches in Ye Xuan's mouth are not ready to move. Shengjin.

However, he was suppressed by his life, because his purpose this time was not to bake the belly, but to smash the blood and medicine.

If you want to refine the 16th grade or higher gene culture solution in the way of smelting flesh and blood medicine, the initial step of the first step is to refine the prepared Baoxue meat. The extent of flesh and blood pulp!

Although the remains of the nine-headed tomb of the nine-headed bird have been completely cooked, the extent of the process has been completely reduced to the level of flesh and blood, but it is still far behind.

Just wrap the belly, you can eat it now, but if you want to use it to smelt blood and medicine, you can only say that it has just begun!

After forcibly suppressing the strong appetite that his heart was eager to move, Ye Xuan adjusted his mood, and the original state of incitement was quickly calmed down again.

Then he took a deep breath and increased his investment in Shennong's four-color flame, and he also tried to control it.

This process is very crucial. If you are inadvertently, you will fail. Or you will directly burn the flesh and blood of this precious nine-headed bird, or you will not be able to completely melt the whole treasure. The requirements of the meat pulp!

Time passed slowly, and Ye Xuan condensed God to control the four-color flame of Shennong, and the whole body and mind were immersed in it, refining the flesh and blood of this nine-headed bird.

Slowly, due to the power of Shennong's four-color flame, it was shrunk to a volume of only about six thousand feet, and it began to shrink again.

Five thousand five hundred feet!

Five thousand feet...

In the process, the rich fragrance from the body of this smaller and smaller nine-headed bird is also more intense.

Although Ye Xuan is hiding in the mountainside of the central volcano, the scent has spread through the vast crater, and the entire vast interior of the Ding has long been a scent.

This unprecedented scent has an unparalleled fatal appeal to the indigenous beasts that lie in the mountains surrounding the volcanoes of the central volcano. Millions of heads of food are all without exception, all flocking...
