

## Super D. S 3901

Chapter 3901: Two major planes break

"Hey!"

"You dare! If you dare to break the chain of the furnace, my family and you will be the tenth house... not dead!"

A Zijin giant eagle suspected to be from the Golden Eagles of the top ten ethnic groups in the second universe vacated and smashed, and the body swelled and rushed out. The target was not a furnace, but a desire to break. The furnace transmission chain is the main servant of the palace...

This scene is quite strange, and there is a horrible existence of squatting in the emptiness of the surrounding air, but it seems that it is not unexpected, as if this situation has been expected.

Yes, this time from the second universe and the third universe, the major ancestors of the top forces came, the purpose of coming to this star of the evil source is actually completely different, and even can be said to run counter to one another!

The two major camps of the Third Universe, including some old monsters of the Federal Senate of Wanlu, and some idle ancestors from all over the three planes, the reason why this came to the source of all evil, the purpose is basically the same. It is to break the rune chain passage of the evil source liquid to the outside of the furnace.

Then, find a way to get the source of all evil in the furnace.

But the blood ancestors from the second universe of the Commonwealth, the reason why they came here, is not to capture the creation of the furnace, but to prevent the fringe chain from being bombed!

Because the blood ancestors of the second universe, basically the same as the horrible existence of the \*\*\*\* nine-headed bloody, is the vested interest of the product of the furnace.

Although the second universe has launched a tens of thousands of warships, the first universe was conquered and rushed into the starry field of evil.

But in fact, even at that time, their purpose is only to fully control the source of the evil, and prohibit the entry of any other forces to ensure the recurrence of the venom incident not long ago.

Of course, in addition to the blood ancestors of the second universe, there are some idle grotesque from all over the three planes. Among them, there are also vested interests in the products of the furnace.

Perhaps on the bright side, this part of the Scattered Monsters has no relationship with the Second Universe Federation, but in the case of the Stables Chain, the interests of the two are obviously tied together, virtually invisible. Standing in the same camp...

"The Golden Eagles, is this the meaning of your family, or the meaning of the second universe?"

A white-haired black-haired old man stepped on the air in a step, and the scorpion smashed out the sturdy mans, and his eyes swept toward the purple giant eagle. The invisible dawn was in the process of projecting and continually The spark of the bleeding color, the power of the devil, this is also a cosmic level of the supreme.

This person is called Gongsan. This is a star lord of the Ten Heavenly Palace. Before the tens of thousands of years ago, the Federation of Wanluo was established. It represents the Ten Heavenly Palace of the Terran Cultivation Camp and settled in the Federal Senate. Now it has grown up. The cosmic level is the top veteran of the second echelon of the Federal Senate's battle pyramid!

Before the Second Universe Federation launched a tens of thousands of warships and troops, and the entire universe was fully conquered, the Federation of the Vatican was extremely dissatisfied. Today, a blood ancestor of the Golden Eagles screamed at the Ten Heavenly Palace.

Gong San is really intolerable. When he represents the Federation, he said: "Golden Eagle, don't forget, your second universe is also a member of the federation. In the case of the furnace, the Federal Senate has a clear direction and advises You don't want to run counter to the will of the federation!"

"It's a joke!"

"My second universe is just a member of the Vatican Federation. It is not a federal genus. Even the Federal Senate has no right to impose will on my community and make any mandatory orders!"

In the far-flung sky, a tens of thousands of golden mansions in the sacred feathers of the sacred spurs rushed out of the virtual air. This should be a blood ancestor of the Qingpeng people in the top ten of the second universe, cultivated for strength and The palace from the federal veteran is three equals, also in the cosmic class.

I replied unceremoniously: "The products of the furnace are closely related to the interests of my second universe. This is impossible for you to know..."

"The Terran is also a member of the Alliance. This time I ignored my ally of the Second Universe and came to the source of all evils to seek the interests of the furnace. The Federal Senate not only did not stop it, but also squandered with them. The heart of my family!"

"This matter, the Federation of Varo must give me a statement of the second universe, whether it is the Ten Heavenly Palace of the Terran, the immortal dynasty, or the strong of the Federal Senate, must immediately withdraw from the source of the evil, otherwise It is to see no one in my second universe..."

Speaking of this, this cosmic-level Qingjin Dapeng sighed and sneered and said: "If you insist on being alone, ignoring the interests of my ethnic groups, this kind of federation, my second universe will not enter, this will be this today. Exit the Vatican Federation!"

"In the future, I will be divided into small things, and today I will turn into a hatred!"

"Where to go, persuade you to think twice. Otherwise, the two major planes will be broken today. The Union of Wanlu will no longer be there. My second universe will withdraw all the members..."

"boom....."

"Hey!"

"Roar!"

.....

The words of this cosmic-level Qingjin Dapeng have just been finished, and the whole source of the evil and evil stars will be dazzled, and the surrounding air is in vain.

A statue of the lord hides in the void, and the super grotesques that have not yet appeared are all shocked. The attitude of the \*\*\*\* ancestors of the second universe is too strong, which is to intimidate the Vatican Federation to make concessions. Take the two camps of the Terran Forces to withdraw from the rhythm of the source of the evil.

Otherwise, the second universe will withdraw all the members from the federation, and its influence will be tantamount to the collapse of the entire Federation of the Bandar, and the consequences will be too serious.

Although this discourse is only a cosmic-level blood ancestor of the second universe, the Qing dynasty, but this is clearly the common will of the core elites of all ethnic groups in the Second Universe.

In the matter of the interest of the furnace, the second universe has reached a consensus. Any ethnic group will jump out of a blood ancestor, and its words will represent the collective voice of this whole interest!

At this time, with the vast void of the entire source of evil and evil, it was all because of the discourse of this cosmic-grade Qingjin Dapeng, and the super-geeks from all ethnic groups in the second universe had violently issued the first time. The sound of screaming and screaming!

The whole source of the evil and the evil stars whispered in an instant, and dozens of super old monsters also released the body pressure at the same time, at least the main level, and there is no shortage of cosmic or even immortal.

All of this came together to form a terrifying trend, and the whole void of the entire star field was horrified.

If it is not the source of all evils, it is the place where the emptiness and refinement of the heavenly eye is chosen. The void is solid and stable because of the domain power of the isolation method. It is replaced by other stars, fearing that the whole starry sky will be here. Under the pressure of horror, the inch has cracked...

Chapter 3902: Isolated federation

"Hey!"

"Roar!"

.....

The whole source of the evil and the evil are all disturbed by the violent temper and the whistling sounds. The dozens of the second universe and the super-families of the super-classes above the main level are in solidarity with the Qingjin Dapeng, but also a kind of Tough statement!

More is the threat of red fruit!

Require the two camps of the Terran, and the top of the Federal Senate of Wanlu, immediately withdraw from this star field, and later everyone is still an ally, otherwise ... then parting ways in the future, today is a revenge!

The atmosphere, the moment of depression and boring to the extreme!

The whole vast expanse of the star field, half of the screaming and violent, the atmosphere is raging, and the other half is completely silent!

Some of the super-old monsters who are not part of the two opposing camps are still crouching, they are waiting, and how to follow up will be determined by the changes in the big situation.

As for the two camps of the Terran and the superfathers who represent the Federal Senate, they are caught in the balance and hesitation.

The attitudes of the second universe and the various ethnic groups are tough, and this time they have already placed on the table, there is no room for negotiation, and the interests represented by the furnace, they will not give up!

If the two camps of the Third Universe and the Federal Senate are willing to go their own way, the final result can be foreseen. Today, the second universe and the various races will definitely withdraw from the Federation of Warra, and even turn against the enemy.

At that time, the entire Wanluo Federation is only a member of the Terran, can it be called the Federation?

Even if it still exists, it is basically waiting for its name to die!

After the fruit is too serious, it is related to the survival of the Federation of Wanluo. This matter, even the super-old geeks of the Senate who came to the palace, did not dare to deal with it rashly.

After a brief silence, several super-geeks from the Federal Senate seem to have finally reached a consensus, dispatching Gongsan as a representative and making a sound again.

This time, Gong San did not directly talk to the second universe. Although he did not name the surname, everyone knows that his words are directed to the two camps of the Third Universe: "Tiangong, Dynasty, Things" The survival of my federation, and the interests of this furnace, is indeed closely related to the second universe."

"You were all allies, because they gathered together because of the same goal, they have today's Wanluo Federation!"

"It is normal to have a branch. This is not a tempering situation for each other. The meaning of the Senate is... Since they are allies, you can sit down and solve the matter internally. The Senate is willing to be a witness and urge you to The final consensus reached!"

This is clearly the meaning of making concessions. Although the super-old geeks of the Federal Senate are not afraid of their hearts, they even feel a little wrong, but the attitudes of the second universe are so tough, which is related to the survival of the entire Federation. They also have to be cautious!

It is a pity that both the two camps of the Third Universe and the Second Universe do not seem to appreciate it!

Ten Heavenly Palaces, even if there is a cosmic super old monster, he said: "There is no possibility of discussion. The furnace is not the furnace of the second universe. It does not belong to any ethnic group and power!"

"Yes, since the second universe knows that they are members of the federation, they should be more interested!"

In the immortal dynasty camp, a cosmic monster from the old cabinet sneered: "In the tens of thousands of striated chains that transport the evil source to the outside, nearly one-quarter of the connections are the second universe. The family's ancestral home nest, this matter has been confirmed, which is the result of the deduction of the Emperor's National Emperor's Emperor II by the Great Gods..."

"The second universe has occupied nearly a quarter of the supply of resources in the furnace. I don't know how many years have passed, but I have always been in the two camps of the Terran, and I am holding the federal headquarters..."

"We can ignore this matter, but since everything is now out of the water, why not let the Terran compete for this benefit? It is a habit to get the benefits of the furnace in the second universe. Is it? Or is it... your second universe, who thinks that it is powerful, can you treat the entire third universe and the Federation of Wanluo as nobody?"

"Roar!"

"Hey..."

The cosmic-level old-fashioned words from the immortal dynasty can be described as aggressive, and their voices are still unsuccessful. In the second universe of the various ethnic groups, there has been a roar of anger and screams.

"The Terran, really the whole three universes, is it that your family is too big?"

"The celestial family shunned the world, and the family moved. Do you want to replace it with the Terran, and become the public enemy of the three major planes? The top executives of the two camps have also expressed their attitude at the same time. This is clearly to take the second universe of all the people. Is the rhythm of Wei?"

"The Federation of Wanluo really can't do it. The ambitions of the Terran have already been revealed. It is worth mentioning. The war is fighting. The two major planes are broken. Today it seems inevitable. Unfortunately, the Federation of Wanluo..."

"Nothing is a pity! The beginning of the founding of the federation was to slash the celestial family, but today the squad has shunned the world. Even if it will come to the world again in the future, I am afraid that it will be a matter of the age of 10,000 years. Before, any ethnic group had the opportunity to replace it and become the most powerful hegemon of the three universes!"

"Obviously, the Terran has been eager to move, and today's statement is a testimony that ambition has sprouted..."

As these roars and sardonic sounds, the whole source of the evil is once again in vain!

The super grotesque of the second universe of the various nationalities violently whistle, the demonstrations, the two camps of the Terran and some of the top forces, the super grotesque of the idle sects, are angry and arrogant.

Some of the descendants of the ruins of the ancients who are not in the level of the two camps are wisely keeping silent, paying close attention to the development of the situation, being alert and watching!

Only the super-old monsters from the Federal Senate of Wanluo were caught in a deep embarrassment...

No matter the two camps of the immortal dynasty from the Third Universe, the Ten Heavenly Palace, or the federal tribes from the Second Universe, this time, they did not give them face.

Earlier, Miyako represented a few euphemisms from the Federal Senate, and hoped that the internal peace talks between the two sides would have been a slightly wronged concession made by the federal side.

Unexpectedly, the final result was so unbearable, the Federal Senate made a concession in public, but neither the Terran nor the Second Universe, all of them did not take the same thing, completely ignoring their existence!

The Federation of Wanluo is as completely isolated!

All the members inside, did not regard it as a thing, and ignoring it!

This matter, for a few super geeks from the Federal Senate, it is simply a red fruit fruit in public, too humiliating!

"Hey!"

"The Terran, the Second Universe, are you ignoring the Union and provoking the Senate?"

The whistling sounds of the sky, this time, led the federal immortal elders who came to the palace and other three people, angered out loud...

Chapter 3903: War

Among the three major planes and the top forces, the most powerful force that can be dispatched by any of the current forces is immortal.

Although there are surpasses of immortality in the mysteries of the great ethnic groups and the ancestral lands of the forces, for example, the nine \*\*\*\* scorpions in the nest of the second cosmic \*\*\*\* scorpion are the existence of the ancient power level, far beyond the immortal level!

However, the existence of this level is almost completely unresolved and cannot be born. In addition, if it is forcibly born, once it attracts the enemy, it is basically difficult to protect itself and may be killed.

The more powerful it exists, the more it cherishes the feathers, and it will not be easy to risk!

The immortal level is already the greatest cosmic plane in the world today, and it can be the strongest force to be dispatched... even in the long period of time in the future.

Even if the source of the evil is re-emerging, almost all the top groups and forces in the three major planes have all dispatched the highest-end combat power and swarmed.

But now the immortal monsters crouching in this star field are no more than ten!

Therefore, the immortal old whisper of the Federal Senate now speaks, and in a moment, the surrounding void is quiet. No matter whether it is the two camps of the Terran or the heads of the Second Universe, they are not refuted on the spot.

It is not that the Terran has no immortality to come. In fact, the second universe also has immortal grotesques that come to the source of all evils, and like the Terran, there is more than one.

Even so, the immortal level of these two sides is not likely to be easy to express and express in person. To the immortal level, no one is simple, otherwise why is it called immortal?

Therefore, the existence of this level will not easily enemies, of course, referring to the enemy of immortality in the same territory!

The entire star field, with the anger of the immortal old monster, suddenly fell into silence, but it is at this moment that the sudden change happened.

"Booming..."

"Hey!"

In the furnace, the sound of the fleshy bones that had been crushed has disappeared, but the huge grinding disc is still spinning, so the low thunder is not lost.

In addition, this moment, in the continuous low thunder, there is also a weak squeaking sound, which draws everyone's attention to the past.

In the line of sight, in the tens of thousands of fringe chains around the lower side of the outer wall of the furnace, several of them have quietly lit up, and the huge chain extends to the end of the line of sight, reaching into the void, and I don't know where to go.

The long and infinite chain of stitches, starting from the end connected to the underside of the outer wall of the mound, begins with numerous signs that are activated and illuminate quietly on the surface of the chain.

There are nine such chains.

It represents at least nine drops of the just-produced source of evil, which is being transported along the nine chains...

This is absolutely unacceptable for the high-level forces of the major forces who flocked to this scene. Of course, except for the second universe.

But even they are all nervous at this moment. The first wave of evil sources in the furnace is condensed and has begun to be transported outwards. This absolutely touches everyone's nerves. For a time, the silence is broken and shocked. The voice rang like a tide!

"No, the first wave of the furnace has been condensed and is being transported out, so be sure to stop!"

"From the two videos that have been transmitted from the outside world, the total amount of products that can be condensed by this furnace should be about three or four thousand drops, at least one tenth of the first wave. So it seems that in a short time. There will be three or four hundred drops of evil source liquid produced one after another, and will be delivered in the first time!"

"I will immediately shoot the fringe chain that is transported outward from the outer wall of the furnace. In any case, be sure to leave the evil source in the furnace!"

"Those friends, this matter is of interest to me and everyone. It is the next step to get the entrapped source of evil in the furnace. The distribution plan is not in a hurry. It is not too late to talk back, but now, the furnace has begun. The product is transported outwards. If it is not stopped, I will wait for the bamboo basket to be filled with water today!"

"At the same time, it's a shot, more than 10,000 lines of striated chains, the workload is not small, can not be delayed!"

"Roar!"

"Hey..."

As the screams of roaring screamed, all the super geeks who crouched in the void were all eager, and there were nearly two hundred of them above the main level. Half of them came from the second universe, and they have stood on the opposite side of the interests of the furnace.

Even if it is finally successful, it will not be possible to distribute even a drop of all evil source liquid. That is to say, the total amount of the smoldering liquid in the furnace will reach three or four thousand drops of the source of evil, and finally it will be divided only by the hundred super old monsters of the attacking party. On average, each person can be divided into three or four hundred drops.

Even if some immortal grotesque and cosmic eccentrics may be a little more, but the most sinister source of the weakest landlord, each person can get at least 100 drops!

This is definitely a horrible number. Such top resources, even the immortal level and even the ancient powers of the ancient and the supreme existence of the ancient supreme level are needed. The old

monsters at the main level of the world are thankful even if they get one or two drops. The resources of the drop can definitely make people crazy!

Under such crazy interests, there is no need for anyone to mobilize. A large number of super geeks who have been crouching in the void around them have all rushed out of the void of hiding in a short period of time. In this star of the evil source, the body shape is manifested, and the body is full of enthusiasm, and the murderous rushing to the front of the huge hollow furnace in the depths of the sky...

Seeing this scene, the top leaders of the second universe have not changed from eclipse. The large number of shadows that have been crouching in the void are appearing in an instant. The screaming roars all show the bleeding veins, and the body is full of enthusiasm. Go ahead and start blocking.

"Hey..."

A silver wolf screams at the top of the sky, and the top of the star of the evil is a silver moon like a giant star: "Damn, these guys are crazy, stop them immediately, otherwise they can't go to the ancestors. explain!"

This is a cosmic-class greedy wolf ancestor, the blood of the blood is so powerful that it is terrifying. The \*\*\*\* magical power of the greedy wolf whistling the moon is unfolding. The weather is far beyond the wolf stalwart that Ye Xuan has contacted before.

The endless silver moonlight blade swayed down from the silver moon above, and instantly turned the whole source of evil and evil into a sea of light.

Every blade of the silver moon is sharp, not only with the same level of the cosmic level, but even several immortal levels have been avoided, do not want to be hurt by these silver moon blades, that is detrimental to the immortal level The prestige of existence.

"puff!"

"puff!"

The sound of muffled sound came, and the super-old geeks of the two kingdoms were inadvertently in a moment, and they were immediately afflicted. One was beheaded by the blade of the silver moon, and one was smashed and smashed!

"Oh la la..."

It was also at this time that a large, dense rainy sound came from the right side of this Wan Yin silver wolf, and a huge mottled old tree began to stretch branches and leaves...

Chapter 3904: In full swing

"Oh la la..."

A large, dense, rainy scream came, and on the right side of the sky, a huge mottled old tree began to stretch branches and leaves...

The giant tree is rooted in the void, and its root system is not visible. The body shape is constantly rising. It is already a million feet high in the blink of an eye. The huge canopy envelopes a vast universe of voids, which have been extended to the front of the furnace. The edge is up!

This giant tree is the body of an immortal ancestor of the tree spirits in the top ten communities of the Second Universe.

At this moment, this mega-terrorist giant tree is like a star, standing in the void, as long as the roots that have never appeared before are not destroyed, it will be innocent, the leaves will be broken, and they can grow again.

Like the \*\*\*\* gods of the greedy wolf family, the sorrowful wolf is like the moon, and after the tree spirits show their bodies, the area under the canopy will form an indiscriminate regional offensive!

The tree species of this old tree are very extraordinary. For the rare void, the huge branches of the tree are covered with countless small pine needles.

These pine needles, even metal, are said to be rooted in the void of the starry sky to the treasure-like metal of the earth, and the endless years can give birth to the ingenuity, by a tree of spirits, Turn into a plant life with wisdom, that is, the people of the tree spirit!

The emptiness of the emptiness of gold is extremely rare. Ye Xuan's Nirvana does not die. It has been integrated into one piece. Since then, Ye Xuan has never seen a second piece of emptiness, which shows the rareness of this metal.

Before the birth of the wise, the emptiness of the emptiness of the emptiness of the eternal life of the emptiness of the emptiness of the gold, the absorbing of a lot of emptiness of gold, the Gengjin gas, has long been contaminated by its belonging, its body The roots are rooted in the void and are not visible, so it is related to this.

In addition, the countless golden needles of this rare plant's huge canopy also contain a gigantic emptiness of gold, and the sharpness is unmatched, and the speed is so fast that it is hard to prevent.

"call out!"

"call out"

"call out....."

The dense and faint sound of the sound of the sky shook, like the crown of the giant tree, the crown of the tree shook slightly, and the blink of an eye was flooded with undulating gold needles, covering the vast expanse of the starry sky.

In the face of this level of attack, it is the presence of several immortal grotes, who are not able to frown, and each manifests their power to resist, or to avoid.

But more of the top powers of all forces have all avoided it, and more or less have all been affected.

"Roar!"

"Hey..."

The sound of the tragic whistle began to resound, and the whole body of the life science gene of the Terran Science and Technology camp was smashed into a human-shaped sieve by the golden pine needles of the emptiness and unsettled pine. It was killed in a moment, and the body was carrying golden blood and falling to the void. Below!

There is also a cosmic-level powerhouse that should be an old-fashioned, lion-and-beat-like blood in the body. He was pierced by the brain with numerous golden pine needles, struggling two breaths in the void, and eventually died!

"boom!"

"Oh la la!"

At this time, the squeaking of the chain of the singer came with a huge roar, and before the silver giant wolf and the emptiness of the emptiness, the large-scale indiscriminate attack, the two camps of the Terran and the already isolated Several powerful veterans of the Federal Senate, as well as some ancient scattered repairs, have also launched attacks on the furnace.

Although most of them are at the main level, there are also many cosmic powers, and there are seven or eight immortal monsters. Under the full bombardment, hundreds of striated chains are smashed in an instant. .

All of them are those that transport the evil source liquid to the lower side of the outer wall of the furnace. The edge of the outer wall of the furnace is cut off, leaving the outer wall of the furnace still connected, but a few dozens of a few hundred feet or so.

Although the furnace has already given birth to the spirit, but at this moment, it is fully condensing the evil source liquid. There is no response to this kind of attack. It is completely unreacted. The body of the furnace is too strong, and the internal domain is strong. It is impossible for people to be forcibly broken open.

In addition, after the initial birth of the furnace, although it has been able to temporarily break the \*\*\*\* and shackles of the fringe chain, the hundreds of striated chains that have been forcibly separated from the outer wall of the furnace are the masters and above. The strong man was forcibly bombarded with various magical powers, and the order pattern near the ends of the fracture was completely destroyed.

In this case, with the help of the furnace itself, it is impossible to repair, unless the heavens and blue eyes are shot, there is a possibility of repair.

In fact, even if Tiandao Qingyan takes another shot, it is basically unrealistic to completely repair the striate chains that have transported more than 10,000 channels of evil source liquid.

Whether it is a mage or a fringe chain, it is made of special divine metal, and the mysterious pattern on the engraved chain is a very laborious task.

And no matter whether there is a large amount of similar divine metal in the hands of Tiandao Qingyan, even if there is, it is not easy to connect the tens of thousands of sash chains and connect them one by one. To.

For this, whether it is Ye Xuan, or the large ethnic ancestors who flocked to the interests of the furnace, and the top ancestors of the top forces, all know well.

Otherwise, they will not think of such a way to curb the possibility of conveying the evil source liquid to the furnace.

It can be said that any one of the fringe chains is smashed, and basically there is no longer a possibility of being repaired... at least in the short term.

For this reason, after the first round of offensives blasted hundreds of striated chains, all the ancestors of the squadrons were immediately energized.

Just a full round of bombardment, the stalks of the sinister source of the sinister source are destroyed, and a few percentage points are destroyed. This is absolutely an exciting result.

They rushed to the other fringe chains in the first place, while avoiding the mad sniper attack of the \*\*\*\* ancestors of the second universe, while fully launching the second wave of bombardment.

The only purpose is to quickly transfer the tens of thousands of lines to the scent chain of the evil source liquid, all of which are completely smashed...

"Booming!"

"Karma card..."

"Hey!"

The whole piece of the void is boiling, and the giant silver moon in the sky is constantly pouring the blade of the silver moon. There is also a emptiness like the Optimus Prime, which is slightly shaken, spurting out the dense golden needles, from time to time. Reap the life of a super old monster.

Many of the second universe of all kinds of super grotesques, all of them have manifested the blood and the real body, and the super grotesques of the conquest of one side of the camp are bloody.

Even so, the banging sounds near the furnace have never stopped, accompanied by a strange noise, and a chain of chains are being smashed in succession!

This scene is too confusing, and the golden blood is flowing in the void. From time to time, there is a lord of the world, even the existence of the cosmic level. The battle has evolved from the beginning to the end. situation.....

Chapter 3905: Immortal

"Booming!"

"Karma card..."

The thunder of the thunder continued to sound, accompanied by the abnormal sound of the card, which was the sixth wave of attack. The striate chain of the sinister source of the outer wall of the outer wall of the smoldering furnace has been smashed by more than half. Still connected to the furnace, only about four thousand!

This wave of bombardment continued, and hundreds of striated chains broke down. Only a few hundred meters were hung on the outer wall of the furnace, which was extremely depressed and scattered.

The number of striated chains has dropped sharply, leaving only 3,000 tracks!

However, the whole furnace, which is as big as a superstar, is still moving, and the low humming of the internal grinding disc still exists. This represents the condensing of the evil source liquid and continues.

In the same way, the process of splicing and locking the external source of the evil source is still continuing!

More than six thousand rhythm chains have been smashed, and among the more than three thousand striated chains left in the present, there are dozens of them at the moment, from the end connected to the furnace... at the same time it lights up!

This means that there are dozens of hundreds of thousands of evil sources, which will be delivered, and the corresponding striated chains representing the delivery channels have been activated...

"Block it!"

"I will immediately break this part of the chain!"

"I want to take the old man's evil source, this is impossible!"

"Hey!"

.....

The roar of roaring sounded in an instant, and the super-powerful people who had been repaired by more than one hundred of the squadrons in the camp were all shot, and all kinds of magical powers were unfolded. A small piece of the sky was illuminated by the shining glory. Very incomparable.

"Hey..."

"puff!"

In the process, the sky-filled void is still spurting the endless golden pine needles. From time to time, there are super old monsters being hit, but they all protect the key, even if they are hit by golden pine needles, they wear a certain Some of the less important parts are just a little bit of innovation.

Although the golden pine needles of the emptiness are not sharp, the speed is so fast that it is difficult to avoid, but after all, it is a full range of attacks. The power of a single golden pine needle is limited, as long as it is not attacked by a pervasive attack. There is no worry about life.

For this reason, in a short period of time, almost no one in the conquest of the party attacked it. Its roots were rooted in the void, and it was not visible at all. It could not be completely killed in a short time.

It is the star-like giant silver moon in the sky, pouring countless silver moon blades, circling attacks, unpredictable, although the power is not as good as the immortal level, but the victory is difficult, often a whirlpool The hits are all more important parts.

At this time, the dull sound of the buzzing sound came out. A cosmic powerhouse from the Ten Heavenly Palace of the Terran Cultivation Camp was hit by several giant silver moon blades, and was directly divided into corpses in the void. The blood rain sprinkled and sprinkled, and it fell instantly...

"Hey!"

"Greeting wolf, you are looking for death!"

A tens of thousands of blood dragons rushed out of the void, the body burst out of a rich \*\*\*\* suffocating, breathful horror, actually reached the nine-step great consummation of the universe, called half-step immortal.

This is just a blood dragon. In fact, the head of this blood-colored dragon is still standing on the top of the head. It is the top monster of the Palace of the Second Palace of the Tenth Palace, the immortal level.

At this time, the roar rushed out, the half-step immortal blood dragon under the immortal monster, and sent out a savage dragon in the sky, and swallowed it to the silver giant wolf.

"The palace is killing, you dare!"

Almost in the next moment, from the other side of the void, an immortal old monster from a certain family of the second universe roared out and screamed into a giant arrow, breaking through the void directly, in the blink of an eye, shooting to the blood The head of the dragon.

Although the silver wolf of the greedy wolf is only cultivated in the universe, it has not reached immortality, but the greed of the genius of the genius of the wolf is extraordinary, and can compete with the lion lion of the war lion.

However, the horror of the lion's nine changes is that its own strength has risen continuously, and each change of blood and body type has increased tenfold, while the greedy wolf whistle is different. It is the same as the golden pine needle rain of the emptiness of pine. Scope attacks are even more embarrassing. It can be said that the control of the battlefield has an extremely important positive effect.

Therefore, even if this silver giant wolf is only a cosmic level, its role in the entire battlefield cannot be ignored. Otherwise, this immortal grotesque in the second universe will not be At this point, suddenly rushed out, blocking the blood dragon to swallow it!

"Your opponent is the old man, the silver wolf... can't escape!"

Known as the palace, the ancestors of the palace were a blood-robed old man. At this moment, he sneered, and a \*\*\*\* cage appeared in the air above the void. The rumble was suppressed and shrouded a million miles. A large universe of voids, just happens to be the second universe of the second generation of the immortal ancestors, trapped in it.

Then, the palace was taken one step at a time, and the body shape had already entered the inside of the \*\*\*\* cage.

The voice of his words still reverberates in the void outside the cage, full of chilling meaning: "The paintings of the deity are for the prison, even if the immortal existence of the same territory can not be broken, today will be in this cage. !"

"boom!"

"Booming..."

The voice has not yet fallen, and the millions of miles enclosed by the blood-colored cages are confined to the void, and the sound of the earth-shattering energy is heard.

The two immortal grotesques finally handed over, and they are desperately fighting. If there is no sacred sacred sacred sacred sacred power, the whole battlefield of the millions of miles will be bound and shrouded, fearing that it will be violently violent. I don't know how many strong players in both camps have been accidentally injured...

"Hey!"

Almost at the same time, in the distant sky, a fierce and horrible sound came out, obviously it was a wolf, but it was not long, it was extremely short.

The huge silver moon that has been hovering high above the sky above the star of the evil source, also quietly collapsed at this moment!

If you follow the tragic sound at this time, you will be able to see that the silver giant wolf has been smothered by the blood dragon, and there is no first corpse falling to the bottom of the empty space!

A powerful cosmic eccentric, this is degenerate, the battle is more and more fierce...

But this is only the beginning. The intensity of this war is obviously impossible to stop here. From now on, the old monsters of the world and the universe are all degenerate. Next, the immortality is supreme, perhaps There will also be a situation of corruption.

No one expected that this scene came so fast.

Just after the \*\*\*\* color swallowed the head of the silver giant wolf, it was less than the time of the tea. The huge \*\*\*\* cage that covered a vast expanse of a million miles suddenly burst into a loud voice.

Immediately afterwards, it was a short silence like death.

In the next moment, the \*\*\*\* cages built by the paintings for the great supernatural powers collapsed. The immortal ancestral palace of the Imperial Palace must be made up of a sacred sac, and stepped out of the void covered by the cage, murderous, right hand, carrying a Awkward dagger...

Chapter 3906: The last nine streak chains

An immortal old monster, it has fallen!

The immortal ancestral palace of the local palace has a one-handed twist on the head of the beheaded by his dagger, and the surrounding area is empty and empty.

The roar of the original fierce battle, the power of the gods, is a stagnation!

Nowadays, the immortal grotesque in this horrible source, the two camps add up to nearly ten. Nowadays, it has fallen, it is too amazing. In a short time, all the people are roaring in their brains. !

Especially the dozens of top powers of the second universe, the feeling at the moment is even more complicated!

Among the nearly two hundred top powerhouses stranded in this star field, the number of strongmen who attacked one side of the palace was more than one hundred, while the second universe was only more than seventy. The weak side.

In terms of the strongest strength of the immortal level, there are one of the two camps of the Terran and the Federal Senate. This is three.

There are also three other ancient monks who are independent and independent, but in fact can be regarded as the power of the squad camp...

Among the more than 70 top-ranking powers of the second universe, there are only three immortal grotesques. Counting them, the number is just half of the other camp, and it is already in an extremely worrying situation.

Nowadays, these three immortal grotesques unexpectedly fell one in a short tea time.

Such a situation is undoubtedly worse for the second universe, and it seems to be more and more unfavorable. It seems that it is almost impossible to keep.

In fact, there are only a thousand chains of chains on the underside of the outer wall of the furnace. Today there are only a thousand remaining, and only ten are saved!

"Roar!"

"Human, Wanluo Federation, my second universe, and from then on, I will not die..."

After a short period of silence, in the camp of the second universe, a \*\*\*\* lion roared and rushed out, and the body shape soared again and again, each time a tenfold climb, which is obviously a blood ancestor from the War Lions. As soon as he appeared, he began to display the \*\*\*\* power of the lions and lions!

Previously, Ye Xuan encountered the most talented person in this \*\*\*\* magical power. It was Lion Wanjin. The guy realized the fourth change in the lion lion. Once activated, the figure instantly became 100,000 feet. The huge horror war lion, full of qi and blood, is simply horrifying!

However, he is a younger generation of the younger generation. He may be the leader of the younger generation in the fascination of the lion's ninth, but it is impossible to be the first person of the entire lion.

The \*\*\*\* lion that appeared today, in the level of comprehension of the mad lion, has obviously surpassed the lion Wanjin, the fourth morphological change of the \*\*\*\* lion, the strong will have a hundred thousand feet Blood is true.

The fifth change will be a tenfold increase on this basis, that is, a million feet, which is simply a small star!

This scene, which is presented in front of you, is such a scene!

The blood ancestor of the War Lions was originally an immortal grotesque. Now, the \*\*\*\* magical power of the lions and lions has been transformed into the fifth change, showing the horrible blood of a million feet, like a small star. It is impossible to estimate the blood and blood.

This is directly reflected in the combat power. Now, he may not be able to challenge the existence beyond the immortal level, but in the immortal territory, he has almost waited for invincible!

"Roar!"

"The last thousand or more striated chains, you guys don't want to bang again, the deity is not allowed, the tamper is... dead!"

The blood of a million-foot-tall body emerges. At this moment, the eternal warrior of the mad lion has its confidence to the extreme. He has the confidence to dominate the immortal territory, and the blood is so rich that it is absolutely invincible.

In the roar of the head, the immortal warrior gently lifted the left forelimb, seemingly lightly pressed down, but it directly collapsed a corner of the void, a million miles of a star river into chaos, the void is like a spider web Intensive lines, a void in the void, endless emptiness and turbulence.

Under the circumstance, the two masters and a cosmic super eccentric were involved, apparently unable to live, and even the body shape disappeared, swallowed up by the infinite darkness.

Even on the edge of the area, some of the most fascinating domain owners, the body shape can not be controlled, directly inhaled into this horrible hollow black hole.

Among them are the blood of the ancestors from the immortal imperial rule of the Heavenly War Empire. The old guys have left the Heavenly Battle Star for a thousand years, and they have gained a great opportunity outside. They have cultivated their strength from the main character of the star to the ninth stage of the domain. .

This time, I came to the source of the evil, and I wanted to take the opportunity to make a fortune, even if I just followed the soup, and even invited a master and a stranger.

Unexpectedly, it was only in the peripheral area of the battlefield that it was difficult, and the body shape was swallowed up by the black hole...

"Hey!"

"Imperial war lion, you are too arrogant!"

"What about the abundance of blood? Your second universe, except the giant tree, now you are immortal, destined to be difficult to support..."

"Why do you have to talk nonsense with him? It is directly suppressed!"

"Roar....."

With the arrogant words of the immortal war lions, the six immortal grotesques on the side of the camp were rushed out of the four, and they were divided into four different directions, and they went all the way to the immortal war lion.

As for the other two immortal grotesques, they led the hundreds of lords and the cosmic level, and continued to rush to the furnace. The goal is clear, pointing to the only remaining thousands of sash chains on the lower side of the outer wall of the furnace!

The terrible battle was once again unfolding. At this moment, all the strong players in both camps forgot all the shocks of the immortal old monster who was killed by the palace. The whole piece of the void was stirred up, and the immortal warrior with a million-foot shape One enemy four, and the four immortal monsters of the same level, the battlefield shrouded tens of millions of miles, and the small and empty voids of the source of evil and evil were all affected!

The battle situation is so amazing that the five immortal levels of the supreme existence of the full force to fight, the death and death, this is to break the rhythm of one side of the void.

In this vast and fearful battlefield, the characters of the five immortal grotesques are invisible from the beginning, and the infinite air swaying, even on the edge of the battlefield, when there is a slight carelessness, there will be one or two The existence of the main level of Zunjie was smashed, and the lighter was attacked. The heavy ones were directly killed by the violent violent air, and the gods were destroyed.

"Booming..."

"Oh!"

.....

On the other side of the furnace area, the thunder and the chain that had been continually slammed and slammed, and from this moment on, it suddenly became a big hit.

Although there are still dozens of combat powers in the top ranks of the second universe, but in addition to manifesting the ontology, the roots must be rooted in the void, and the void that cannot be moved at all is not destroyed. Others are some of the leaders. The strongmen of the environment and the universe can't stop the enlisting of the two hundred eccentric army led by the immortal camp.

In a short period of time, the last thousand symbols of the chain have been smashed one after another, and the tea time is less than the last nine.

Chapter 3907: Mechanical beast

"Booming!"

"Karma card..."

The thunder blasted, the chain was smashed, the tea was smashed down, and the 10,000-story striate chain on the lower side of the outer wall of the smoldering furnace was now only nine!

At this point, the tasks of the high-level geeks of the second universe and the descendants of the evil source have basically failed, and the ruins of the other parties have finally cut off the transmission of the evil source. aisle.

Although there are still nine streak chains remaining, they are basically meaningless, and they will soon be smashed...

"Roar!"

"Roar....."

It was also at this time that there were four sudden roars in the void, and their voices were different. They were not like flesh and blood, with the meaning of jealousy, like gold and iron!

In the next moment, in the void in different directions around the furnace, suddenly four void cracks were vented out of thin air, and then four giant beasts stepped out from the inside.

All are the masters of the nine-order grand perfection of the world, can also be called the half-step universe!

If it is normal, the existence of four half-step cosmic levels will come together at the same time, and it will definitely make a whole universe plane tremble.

But here, it is really nothing!

At present, the source of the evil and the evil, the immortal level exists is the peak force, the cosmic level is only the backbone of the power, the main level, even if the world's nine-order grand perfection, can not get on the table, can only be regarded as behind Strong momentum, just hit the squadron!

But the four-step cosmic behemoth that came to the top of the four-headed squad attracted the attention of all the strong players in the camps around the battlefield. The two battalion camp leaders led the bombardment of the last nine striated chains. The immortal grotesque, can not be seen from the side!

The life form of these four giant beasts is extremely strange... The act is even more ridiculous!

The four beasts are not flesh and blood, but mechanical life!

Because their body is the cosmic alloy that builds the starry battleship. If it doesn't look like its head and tail, its limbs are clear, and all the powerful forces around it will almost always regard it as a star fortress or fortress.

This kind of mechanical life is either a celestial family, but it is obviously impossible. The celestial family has long since escaping the family and migrating. It is impossible to send such four celestial people with the shape of a giant beast to the source of evil. To seize the creation.

That is tantamount to leaving clues waiting for people to pursue the whereabouts of their family migration through these four alloy behemoths.

In addition to the Tianji family, there is only a mechanical family, belonging to a mysterious ethnic group of the immortal imperial state emperor II!

The secret machine and the mechanical family are actually essentially the same, all mechanical life!

The Tianji people can become the hegemon of the first universe. The entire Terran must form an alliance with the second universe and form the Wanluo Alliance to compete with it. This alone is enough to illustrate the power and horror of the Tianzu people!

This time, their family migration is not so much a shun, it is better to say that it is another plot!

It's just that the events of the celestial riots of the Heavenly Kingdom are far from enough to make the Celestials feel the threat and avoid the world.

Although the mechanical family was rarely born, it was bound by the emperor of the immortal dynasty, and almost never appeared before the world, but its existence is well known to the three major planes.

From a certain point of view, the mechanical family is actually much more mysterious than the heavenly family!

This time, the mysterious mechanical family suddenly changed the style of the past, and sent four mechanical beasts with the nine-step great perfection of the world to the source of evil. This fact is quite intriguing.

However, due to this star field, there is now an immortal royal family from the immortal dynasty, and the four main-level mechanical beasts have not done any harmful actions. Doubt, but they did not take the initiative to provoke them.

As soon as the four mechanical beasts came, they stared at the fringe chains that were cut off in the void...

"Card!"

"Karma card..."

The squeaky metal friction sounded loudly, and it quickly became a masterpiece. The powerful parties around the eyes who were paying attention to the eyes were all stunned, and there were some illusions!

In the line of sight, the mechanical beasts of the four-stage Great Jubilee of the four heads were completely disregarded, and each of them took a broken chain of flutes and chewed it.

These fringe chains are not simple. Although they are bombarded, the original mysterious symbols on the chains lose their usefulness, the domain order is destroyed, and the power is greatly reduced.

But just to build their materials, it is absolutely not a trivial matter, the immortal level must be serious, can be arbitrarily, the existence of the cosmic level, but also has to be repeatedly bombarded, it is possible.

No matter how much, it is not like chewing sugar cane, it is quickly eroded by people...

But the facts at hand are better than words.

The four-and-a-half-step cosmic mechanical beasts obviously have a good mouth. When the patriarch of the mechanical family, Emperor II, built a body for them, they were equipped with a good mouth. They must be some kind of terrorist metal that is not inferior to the void. Create, otherwise you can do this?

On the other hand, it also roughly proves the fact that these four mechanical beasts, this time to the source of the evil, the purpose, in all likelihood, should be directed at these already blown furnace chain Come!

The mysterious metal that creates these striated chains is extremely extraordinary, but the significance of its strong family is far less than that of the celestial and mechanical.

For the Terran and the Second Universe, and all other life groups, these streak chains are back, and at most, they are built after the melting, or integrated into the alloy to build a battleship.

After all, they are all foreign objects.

However, the Tianji and the mechanical families can use them to strengthen themselves. These two families are mechanical life. The body was originally created by various materials and upgraded and evolved.

Therefore, the mechanical family took advantage of this opportunity to send four mechanical beasts to the source of the evil, to capture these fringe chains, it is completely understandable.

The strong players of all parties are also happy to push the boat. In their eyes, the fringe chains made by these mysterious metals are precious, but they are far from being comparable to the evil source.

As long as the four mechanical beasts do not play the idea of a source of evil, it will do.

Under this premise, no one will provoke them. After all, the mechanical family that is exactly the same as the essence of the Tianji nationality is not the main lord. The patriarch of the patriarch is the national teacher of the immortal dynasty. Basically, it can be said. I was wearing the same trousers as the dynasty.

Offending these four mechanical beasts is equivalent to offending the immortal dynasty of the mechanical and human races. It is definitely a headache. If there is no absolute conflict of interest, who would be willing to do so? Go dry?

"Karma card..."

The sour metal friction is still going on. In a short period of time, the four mechanical beasts have chewed a long and infinite chain of letters until the end of the void.

Then he turned his head again and began to chew the second one...

Chapter 3908: Nine heads of bloody

"Karma card..."

The sour metal friction still continues, and the four-and-a-half-step cosmic mechanical beasts, after chewing the first striated chain, turned back and began to chew the second.

Undoubtedly, their arrival is to devour this mysterious metal. The strong parties of all parties have all this in their eyes. They will soon ignore it and pay attention to recovery. The line of sight turns to the lower side of the outer wall of the furnace. The last nine fringe chains...

As long as the last nine fringe chains are also smashed, the channels and ways of transporting the evil source liquid to the furnace are completely blocked.

At the moment, there are four half-step cosmic mechanical beasts from the mechanical family. In the chewing cane, the striated chains that have been smashed in the void have been specially smashed.

This is also a good thing. Even if the furnace itself, or the horrible Tiandao Qingyan wants to repair, it is unlikely that the chain will only be broken, but there is still the possibility of repair. If it is all chewed. That's really a stop.

From this point of view, for the arrival of the four-and-a-half-step cosmic mechanical beasts of the mechanical family, in fact, the strong parties are still quite happy, of course, except for the second universe!

"Hey..."

Just as the two immortal grotesques who were conquering one side of the camp wanted to start with the last nine remaining striated chains, a faint humming sound suddenly sounded.

The striate chain is bright, this time it is not nine, but only one.

And obviously it is not to transport the evil source liquid from the inside of the furnace, because in this case, the streak chain should start from the end of the outer wall of the furnace, and spread to the other end.

The streak chain that suddenly gave birth to a strange shape, but it is clearly lit from the end of the line of sight into the unknown void, giving the impression that it is like the unknown void, there is a source of evil. It is common in the furnace.

But that is obviously impossible!

Obviously there is a horrible existence, and it is following the reverse of the fringe chain!

This fringe chain is connected to the opposite side of the void. It is the ancestral nest of the second cosmic \*\*\*\* family. It is coming along the chain quickly. It is the blood of the \*\*\*\* ancestors. Separated.

Not long ago, after the news of the terrible source of the evil, the nine \*\*\*\* people realized that there would be a change, without hesitation, immediately came!

Such a scene is not only performed in the ancestral home of the \*\*\*\* people.

Including the other ethnic groups in the top ten communities of the Second Universe, there is also a remnant of strength that has fallen to the quasi-wild power, in the form of energy avatars, following the perician chain that supplies them with a source of evil. The anger rushed toward the starry field of the first universe.

For example, in the mysterious ancestral land of the Qingpeng nationality, there was a blue sky and a big man who was experiencing tens of thousands of feet.

In the ancestral home of the War Lions, which ranks third among the top ten ethnic groups in the Second Universe, there is a blood-colored double-headed lion roaring in the sky, and finally rushing into the fringe chain in the form of energy.

In addition, there are some ancient large-scale existences that belong to the ancient scattered repairs. They also have an energy avatar, which follows the chain of striated chains and rushes toward the source of the evil.

It is a pity that although they are ridiculous and powerful, they are more powerful than the so-called immortal grotesque.

However, on the one hand, it is a serious injury. This time, it is the arrival of energy, and the way to come is to go back through the fringe chain. The speed is restricted by the fringe chain, although it is not It's slow, but it's obviously a little worse than the ones that directly rip the void and the main, cosmic, and immortal powers.

This directly led to the existence of some of them. Before they arrived, they were forced to withdraw back because the fringe chain was broken and the connection with the furnace was broken.

At present, the only remaining fringe chains are only nine. The wilderness can be rushed in this way, and there are only nine at most!

Now, the first one, obviously has come to the fore!

This scene of the horror shocked the two immortal grotesques who were trying to shoot, and hesitated for a while. The other lords and cosmic strangers around him were even more alarmed, and their faces showed vigilance. color.

For a time, the whole piece of void except the five immortal blame is bloody, and four mechanical beasts from the mechanical family, are madly chewing the fringe chain, all the other strong, almost all stopped. The movements in the movements are fascinating, and the chains that are innumerable are lit up from the other end of the void, and the chain that spreads quickly...

"Oh la la!"

"Oh..."

The sound of the chain is getting louder and louder, and the rumbling sound of the rumbling is more than a short break. The light pattern on the chain is extended from the end of the void to the middle position. It is not too far away from the furnace. At most, ten million miles away.

It was also at this time that the whole house was as big as a star-shaped giant ding, and it swayed violently without any warning. The sleek lines were rapidly moving toward the outer wall of the furnace, and there was a strange sky. The killing atmosphere began to wreak havoc.

Sighing and venting, mourning the sky, horrified this piece of void!

Even the five immortal grotesque in the two camps, which are being smothered by blood, have been alarmed, and they have turned around and stunned...

"What happened? This breath... the quasi-wild power?"

"No, it should be a avatar of the ancient powers..."

"Ha ha ha..."

"Hey! You all have to die today. This is the \*\*\*\* atmosphere of the \*\*\*\* ancestors of our family. When the ancestors come, they will crush everything!"

With the screams of several immortal grotesque sounds, in the camp of the second universe, a cosmic eccentric from the \*\*\*\* scorpion was first glimpsed, and then screamed up steeply.

From the horror of the striated chains, he keenly captured the breath of the ancestors of the family's blood, and instantly guessed the truth. At this moment, he was ecstatic.

Although the ancestors are about to come at this moment, it is only an energy avatar. The cultivation is not to the ancient powers, but a weaker level. At most, it is the quasi-ageless ancient energy level.

But for this source of evil, this is enough!

In the eyes of a horrible existence of the ancient wild power, the so-called immortal level is nothing more than an ant, even the ants are not as good as the cosmic level and the main level, not even a fart!

Just the horror of a quasi-aged ancient energy level is enough to crush everyone, and this vast star field will tremble!

"Oh la la..."

"Hey!"

The strongest of the parties were stunned, and the squeaky noise of this striated chain was once again a big hit, followed by a clear and horrible sound of horror.

In the next moment, a \*\*\*\* nine-headed scorpion from the singularity of the bloodline of the \*\*\*\* ancestors is the \*\*\*\* scorpion of the \*\*\*\* ancestors...

Chapter 3909: Void giant turtle shot

The second universe, the ancestral land of the top ten ethnic groups of the Turtles!

Since the Void Giant Turtle was sent to the depths of the Turtle Stars by the headless baby corpse, the blood ancestors of the Turtles were awakened at the first time, and issued a command to completely block the whole body of the Turtle.

The order is made to ring the entire vast expanse of the stars, and the tortoises are sealed!

Nowadays, it is only three days away from the family of the tortoise, and in the secret of the tortoise in the ancestral land of the tortoise, there is a faint thunder.

If you are in this secret of the turtle, you can see that there is a giant giant turtle in the void, which is the blood ancestor of the family of the tortoise.

In the imaginary air around, there are still more fascinating high-ranking people, at least the main level of existence. One of the ancestors of the genus of the genus, which Ye Xuan once saw, is one of them.

However, its cultivation is strength, but it is far from the perfection of the star's main territory, but the immortal level!

However, the ancestors of the tortoises of the Turtles and the ancestors of the body of the tortoises, which are as great as the stars, are now as pilgrimages, respectfully looking in one direction, just like listening to the teachings!

Yes, it is to worship and listen to the teachings!

In front of the gathering of the top ancestors of the Turtles, a horrible giant turtle resembling a half-star is crouching in the void, with a horrible wound on the back.

Even the body of the soul of the Turtles, such as the stars, is insignificant in front of him.

This horrible giant tortoise is a virtual giant tortoise that has just been sent to the Turtle Stars.

Nowadays, it is like the horrible body shape of a half-star field. It is still the result of deliberate condensing. Otherwise, if the body is fully exposed, the virtual giant turtle is just a toe claw, and it can have a large star field.

This kind of wild creature is one of the most horrible creatures in the history of the stars!

Now, his injury is far from being restored, and the same is true for his strength. Even if he gets the head of the headless baby corpse into his body, but there is still a long way to go before the full recovery!

Its strength, now only just into the age of the ancients, is far from the peak of the ancient age!

Even so, after entering the age of the ancient Supreme, the next thing for the Void Giant Turtle is enough.

"This matter, those old guys are inconvenient to shoot, only the old turtle I risked a blow!"

In the void, the old voice of a weak breath is like the end of the emptiness of the distant sky, but it is clearly and incomprehensibly in the sea of the high-level ancestors of all the Turtles...

"The inside of the furnace has been passive. Although it has evolved again, it has given birth to the spirit, but this happened in the furnace. In the course of the incident, the spirit of the furnace is affected, and it will not Activate the warning array method and contact Tiandao Qingyan..."

"So, as long as the matter is cautious, there is not much danger. I can rest assured that the old turtle will return soon."

"Don't delay any more. Let's hand over the void coordinates of the ridiculous land of the ancient demon bear. The old turtle can't rush from here. It can only be borrowed from it. Otherwise, if the leaves are left behind, the heavenly eye will be pursued. Come, the tortoises will be annihilated!"

This is the only concern of the Void Giant Turtle. Fortunately, there is a solution. The Turtle family just knows a void, there is a derelict demon bear, enjoying the secondary source of the chain of the furnace... The top of the void Hanging a string of charms and chains.

Every year, a drop of evil source liquid falls from the end of the chain!

"call out!"

The faint sound of broken air sounded, and a blue brilliance emerged from the body of the giant tortoise, and came to the empty giant tortoise. This is the void coordinates of the unknown void where the ancient devil bear is located.

"Oh..."

After the brilliance of the blue color did not enter the body, the virtual giant turtle only moved the toe claws. The void of the secret turtle was smashed, and its body was turned into a mans, and a flash did not enter it.

When it reappeared, it was already another star field far away from the turtle's star field. The hollow giant tortoise wiped away the traces of the void, lifted the toe claws again, tore the void, and flashed in. This time, he Going to the first universe!

Interstellar travel across the plane, for the empty giant tortoise that is old and supreme, is like a child, no need to rely on the universe wormhole!

After so many times, the ancient giant tortoise turned around in almost the three major universe planes. When he finally tore the void, he saw that his forehead seemed to have a green flash. This time, it was precisely positioned and went. The mysterious unknown void where the ancient devil is located!

This is a dark void, without the slightest light, all the stars in the void, have been completely dimmed, the energy in the star nucleus, has been all captured by the Taikoo magic bear!

The Taikoo demon bear, the power of the earth in the blood, is said to be in the universe of the galaxy, as long as there are stars, the earth demon bear is immortal.

Even if he is seriously injured, when he falls on the star land table, he can instantly capture the vitality of a whole star through the contact of the two feet... including the plants and flesh-blood life that were born on the stars. Even including the life of this star body!

The reason why this mysterious void is so dark is that because of all the stars in the void, its star nuclear energy has been exhausted, and the vitality of the stars has been extinct. It has been collected by the ancient demon bears to repair its own injuries.

Every year, it's just a drop of the supply of all the evil sources. For him, it's obviously not enough!

He is hurt too much!

The ancient demon bear, in the battle of the world in that year, belonged to the enemy camp, and when it was the peak of strength, it was the middle of the ancient power.

The existence of this level, the standard set by Tiandao Qingyan is to let the furnace supply a drop of evil source every year... No matter how many injuries, there are only so many!

Its own value, nothing more!

At the top of the central position of the void, there is a fringe chain with a length of a hundred feet, so that it suddenly passes through the void and is fixedly suspended at the dome of the sky.

Underneath the truncated chain, a gray giant bear curled up in the void, looking extremely weak, with a huge hole in the abdomen, still licking gray-gold blood.

Its breath has already fallen to the quasi-ageless level.

With the faint sound of breaking into the air, the hollow giant turtle that turned into a man came to this unknown void, and the body was revealed in the first time. Of course, it is not a complete form, but even so, it will still be this void. They are almost full.

The savage grizzly huddled in the void, under the shape of the emptiness giant tortoise, is like a cockroach, too small.

At the same moment of the fall of the Void Giant Turtle, the wild devil bear that has been closed for sleep is mad. After opening the eyes, when you see the presence of the advent, you will shoot a strong fear. meaning.....

Chapter 3910: Ye Xuan dive into

"why?"

"If you are supreme, you should not pay special attention to the insignificant enemy of the deity..."

I have been crouching for the endless years, but now I am still suffering from the injury, not to mention the mid-term power of the peak period of the peak period, and even the age of the ancient powers are still a long time of smelting...

However, it was at this moment that he was pursued by the top strongmen of the enemy camp, and he came down in person, wanting to kill... For this ancient wild bear, this is not only wronged, but also puzzled.

He knows that today is a must!

The fierce name of the Void Giant Turtle, in the era of the ancient times, shocked the universe, but today is not the most powerful period of the ancient state of the supreme peak, but at least it is still the ancient supreme.

This level of strength, crushing him like a devil that has not even reached the ancient powers, is simply more than a few times more than an ant!

He is unwilling, but he can only accept his fate. At the last moment of the end of his life, he asks the doubts in his heart!

"In fact, there is nothing, you really don't have to worry too much..."

"The old turtle is a little constipated recently. I want to make some killings... The right is to vent the fire!"

After the last sentence is finished, the Void Giant Turtle lifts the right forelimb and slams into the void...

"Roar....."

"boom!"

The ridiculous demon bear was furious, and the glare of the scorpion shot out of the madness. It seems that he wanted to blow himself. Unfortunately, even the ruins of the ancients could not, in the face of an ancient sage, there was no such qualification.

With the light press of the right forelimb of the Void Giant Turtle, the huge flesh of the ancient konjac instantly exploded, turning into a \*\*\*\* fog, and the hair did not leave one!

"Hey!"

The trembling sounds, and the virtual giant turtle's body rushes out of a virtual shadow. It is exactly one of his energy avatars. Although it is only a avatar, it still has the strength of the ancient peak of the ancient power. After all, the current giant turtle Have been restored to the early days of the ancients...

As soon as this energy appeared, it rushed into the truncate chain hanging at the top of the mysterious void, following the chain, and rushing toward the source of the evil!

.....

Magic King!

Ye Xuan has been closely watching the changes in the situation of the source of evil!

Although he did not enter the source of the evil, the devil's group sent several star fortresses to stay in the distant sky outside the star of the evil. Once there is any change in the inside, it will be the first time. The message feedback is the magic star.

It is a pity that when this star field was selected as the setting place for the refining and smelting of the sacred refining squad, the whole source of the evil and the evil is blocked by a matrix barrier. Outside, it is impossible. Peek into what is happening inside.

The movements inside are so big that they have not spread to the source of the evil roots in a short period of time. The several scouts of the demon community have not dared to be strictly prohibited from entering the starry field of evil.

So far, Ye Xuan's everything that is happening in this star field is completely black and white, and I don't know anything!

Just as Ye Xuan's heart was a little uneasy, the left chest suddenly became hot. A piece of information was postponed from the chest and rushed into his brain. The headless baby body communicated with him in this way. Ye Xuan gradually got used to it. .

What surprised him was that this time, the information transmitted by the headless baby corpse was very simple, only a few words: enter the source of the evil, immediately!

what's the situation?

Didn't you say that there may be an ambush this time, so that you don't want to mix in the past?

How suddenly changed again?

Ye Xuan stunned, feeling a little unclear, but he quickly relieved, since the headless baby body has opened his mouth, then what are you worried about?

There is him, even if the heavens and blue eyes really come, at least to ensure that Ye Xuan security is completely no problem.

However, according to Ye Xuan's speculation, the headless baby body will never let Ye Xuan's innocent road face, at least until he and his underworld have grown up.

That is not a benefit to Ye Xuan, but today's headless baby corpse is still parasitic in his body. What is unfavorable to Ye Xuan is that he is not good for him. How can the headless baby corpse do this?

In the vagueness, he guessed a bit of inner feelings. It must have been a secret arrangement of the headless baby body. He was determined in his heart, so he would remind himself at this moment and immediately enter the source of the evil.

As for what should be done after entering, the headless baby body did not say, Ye Xuan is too lazy to ask again, all the opportunity to act is, and in one sentence, it must be the benefit!

Ye Xuan did not hesitate, and after greeting the Emperor Mo Qiaotian, he activated the interstellar coordinate jumping ability attached to the system title in the first time, and locked the source of the jumping point.

.....

The source of all evils!

"Oh la la..."

"Hey!"

In the gaze of the strong and powerful, the streak suddenly lit up, and the chain that swiftly spread toward the mound, the noise was once again loud, and then a horrible horror came out. The sound of dragons and dragons.

In the next moment, a \*\*\*\* nine-headed scorpion from the striated chain of the \*\*\*\* scorpion is the energy of the \*\*\*\* ancestors of the \*\*\*\* ancestors!

Nine heads of \*\*\*\* scorpion, in the battle of the ancient world, belonged to the camp of the hostile forces Tiandao Qingyan, and its repairing strength at the peak time, in the late stage of the ancient power of the ancients, compared with the wild magical bear who had just been killed by the empty giant tortoise. Strong.

But now, his injury has not recovered, and the cultivation of the body is only in the early days of the ancient power.

At the moment, it is followed by the symbolic chain of the energy-shaping state. Therefore, the energy of this advent is divided into only the quasi-wild power level!

Even so, it is enough to crush and become the strongest of both sides in the star of the evil.

Even the immortal blame, in front of the quasi-wild power, is just an ant!

The camp of one's own side has come to such a horrible supremacy. The top performers of the second universe are simply ecstatic. How about the immortal blame in the camp of the conquest?

It is doomed to be degraded here!

The six immortal old monsters join hands, and it is definitely not the opponent of the \*\*\*\* scorpion of the ruthless ancient power level. It will be killed like an ant.

As for the other cosmic and main levels below immortality, it is even less, even if the ants are not qualified.

In their view, the existence of this horror that has come unexpectedly in its own camp should immediately be awe-inspiring, and all the strongmen on the side of the camp will be completely destroyed in a short period of time.

In fact, the nine \*\*\*\* scorpions that had just arrived, at the beginning, the scorpion did indeed meet the stagnation of Morihan, and the killing was obvious, but with the sight of his nine daggers sweeping around, After the situation around the furnace and the whole star field were clearly seen, this murderous moment was condensed.

No longer pay attention to the strong of the squad camp, even the six immortal blame, he was directly ignored.

In an instant, all the attention of the nine \*\*\*\* energy avatars were all attracted to the past by the other eight striated chains on the lower side of the outer wall of the smoldering furnace. In the vagueness, it seems to have a strong touch in the dawn of the cold murder. The meaning of greed comes out...
