

Super D. S 3921

Chapter 3921: Usurize everything

The empty giant tortoise turned to the nine-headed **** and blood-colored unicorn, and sneered again and again: "If you remember correctly, the old turtle just seems to feel ... murderous?"

The voice has not yet fallen, and from the body of the empty giant tortoise, there has been a savage savage savage, invisible in the **** unicorn, nine sacred crocodile and nine bloody, blue sky Dapeng!

The four ancient and the ancient tyrannical powers are instantly stagnate, invisible and bound, so that their huge physiques give birth to a feeling like a muddy mud. Although it is not impossible to move, it is because of the void. The giant tortoise did not do its best.

Otherwise, the strongest **** unicorn among the four is only in the early days of the ancient powers, but the energy of the giant turtles has the strength of the peaks of the ancient powers. The gap is too big, just invisible. The pressure is enough to keep them from moving.

The shadow of a death shrouded in an instant, extremely strong.

They have no doubt that the Nether Giant Turtles are likely to be shot at any time, because even in the ruin of the past, the two sides were not in the same camp, but in a hostile relationship.

The **** unicorn thought of self-destruction for the first time. Today is a must-have. Fortunately, it is just an energy avatar. Although the price is heavy, at least the deity is innocent, and there is a chance to make a comeback.

And self-destruction, how much can make the other side suffer a certain trauma.

But he quickly smiled and shook his head, because he realized that the consequences of doing so would be more serious...

In the unlikely event that the other party is provoked, after the blast, it is very likely that he will follow the shackles of his own, and directly rush to the emptiness of the deity, pay a certain price, and kill the deity.

If that's the case, there really isn't any life!

Of course, even if it is a virtual giant to repair the strength of today, to do this, it must also pay a certain price, so as long as you do not provoke the other party, this should not happen.

That is to say, although the self-destruction will cause the other party to suffer some trauma, the deity is very likely to face the danger of being retaliated and degraded.

On the other hand, if you give up the counterattack against the virtual giant turtle, although you are wronged, at least the deity can be insured!

In both cases, the results are quite different and everyone knows how to choose.

The four powerful wilderness creatures looked at each other face-to-face, and their faces were gloomy and terrible, but in the end they all smashed the evil spirits of their hearts. The situation was stronger than the people. When the air was swallowed, it still had to endure!

The emptiness of the giant tortoise stunned, and shook his head and sighed. The words in the mouth were as resentful as ever, but then the words turned around and the **** unicorns were suddenly loose: "But it's all, it's like this." I am embarrassed to try to kill the old turtle. I don't want to let the old turtle meet again next time, otherwise I can't talk so well..."

While shaking his head and shaking his head, the Void Giant Turtle has once again lifted his right forelimb and pressed to the four powerful wild creatures...

"boom!"

"boom....."

"Oh la la..."

Four consecutive earth-shattering blasts came out, **** unicorns, nine sacred crocodiles, nine **** scorpions and Qingtian Dapeng, the four powerful and ancient sacred energy avatars, without any suspense, immediately blasted, no blood, filled with The only thing is the disorder of the overall collapse of the order, the energy is blasting.

Four energy avatars, at least the quasi-ageless power level, were annihilated along with their source of consciousness in this energy avatar!

At the same time, there are a lot of dense noises in the void, and the last nine striated chains connected to the lower side of the outer wall of the smoldering furnace, in this smash, eight smashed, and the inch is broken. How many cuts, at a time, the corner of the emptiness is not far away, there is a huge chain of fringes.

At this point, only the last one is connected to the fringe chain connected to the lower side of the outer wall of the furnace.

It is the chain that the Void Giant Turtle has been retrieving. The reason why this chain is left behind is obviously because the Void Giant Turtle intends to return to the deity along this chain, but after leaving. Before, he obviously had other things to do.

"Hey!"

After raising his hand and smashing the four powerful wild powers and the eight-striped chains, the empty giant turtle screamed and screamed, and then the body was swaying, which was much bigger than the furnace. The horrible body was instantly turned into a faint sacred man, and spurred toward the top of the furnace with the milky white mist.

In this process, the surface of the faint masculine of the hollow giant turtle quickly ignited a faint cyan halo, and Ye Xuan looked familiar and immediately realized it.

This must have been the mysterious energy that was in the mysterious void in the mysterious void, and the headless baby corpse was shot into the body of the hollow giant tortoise. Now, the power of the

emptiness of the giant tortoise is protected, even if he is now It is the peak of the ancient powers, and it is impossible to forcibly break into the interior of the furnace.

According to Ye Xuan's estimate, it is at least possible to have the strength of the ancient and supreme cultivation.

In the blink of an eye, the surface of the surface is covered with a faint green glow, and the faint mills are shot into the interior of the furnace. Ye Xuan's heart is clear, this shameless old turtle has to do bad things, and it is estimated that all the products in the furnace will be He was robbed of him.

In fact, just as the Nether Giant tortoise shot on the four powerful wild creatures such as the Scarlet Kirin, the sound of the roaring disk in the furnace has gradually stopped, which represents the planned coagulation of the furnace. Refining, is about to end.

The treasures of all the ancient and dead spirits that were put into the grinding discs in the central area of the furnace, after being crushed into nine colored meat puree, now the final refining is also coming to an end, and the groove around the grinding disc is surrounded by a circle. Inside, it must be filled with the smoldering source that has just been condensed.

According to Ye Xuan's estimate, from the total number of remains of the powerful wild animals in the furnace, the source of the evil source that has been condensed this time should be around 15,000, and Ye Xuan was in the furnace. Carefully shot, and finally only got more than two thousand drops.

The Void Giant Turtle is not a super old monster, or it does not shoot. A shot is a big deal, and even Ye Xuan is not a bit hot.

Soon, with the faint masculine masculinity of the virtual giant tortoise, the large amount of white emulsion filled in the mouth of the furnace began to shrink rapidly.

The old guy started to be too dark. Except for the evil source liquid, even the by-product scented emulsion was not let go. It is clear that after eating the meat and drinking the soup, even the bones should be clean and clean. The hair is not intended to give Ye Xuan left a...

Seeing this scene, the fire of Ye Xuan's heart suddenly smashed up. Now he has the protection of the headless baby corpse, and can also rush into the furnace, how much can be grabbed.

This thought just floated up, Ye Xuan felt the chest is a cool, no head baby corps

Chapter 3922: Too bully

Just as Ye Xuan looked at his heart, he wanted to take advantage of the mysterious energy support of the headless baby corpse, and also rushed into the furnace, how many robbing a thousand evil sources...

The corpse lamp tattoo on the left chest that had been kept in a lukewarm state, but it seems to respond to the general, steeply cool down!

This is clearly intentional!

The headless baby corpse apparently perceives Ye Xuan's thoughts. In order to stop him, he shamelessly removed the mysterious energy of protecting his body and fell into a deep sleep again.

To put it bluntly, it is a pick!

Ye Xuan was shocked. It seems that the two people are just a group of people. Before the billions of years ago, the relationship between the superior and the subordinates was just a matter of fact.

The scorpion protects you too, no shame!

After a sigh of relief, as these thoughts flashed in my mind, Ye Xuan burst into flames and his nose was mad!

This is the **** unicorn and several other powerful ancient creatures have been killed, and although the refining of the furnace has ended, it has not yet recovered. The horrible power of the furnace has not yet been revealed. Otherwise, there is no head. The baby corpse suddenly removed the mysterious energy to protect his body, and Ye Xuan was unable to prevent it from falling.

However, although this void has not threatened his strong pressure for the time being, even the top ancestors of all ethnic groups and forces have retreated to tens of millions of miles. Dare to be close.

However, as the headless baby body greeted and did not hit one, quietly and silently removed the mysterious power to protect his body, Ye Xuan had always been concealed body shape, and was instantly exposed.

At this moment, in the imaginary sky thousands of miles away, the more than one hundred people have already been scared by the fall of the **** unicorns and other ancient powers, and they are constantly sifting through the tops of the major groups. The ancestors, after seeing his figure, suddenly stunned and immediately exclaimed...

"Hey? How many more people? I didn't feel any vain energy fluctuations before. It wasn't just coming, but it was already there!"

"This is impossible! How horrible the pressure of the imaginary air in the emptiness? There is a sacred existence of the peak of the ancient powers. This human being is clearly not even in the hustle and bustle, even the ants are not as good as how to stay in the core area. It was blown up into flesh and blood powder!"

"It's a bit familiar, this little old man seems to have seen it..."

"Lake the fox! The deity recognized it. He once saw his image in the family. This is the sorcerer of the seven generations of the younger generation, and the three are all alone, the fox, the lord, and the glory. Taikoo Little Konjac!"

"Since it is him, it can be explained. This kid is too strange. Maybe there is any secret law. I can protect myself. Even the terrorist pressure of the peak of the ancient powers is fearless. After all, he is even the Taikoo konjac. The blood can get the fascinating enchanting hand!"

"These are not the key. The old man wants to know now that this is the source of all evils, and now the weakest of all is the lord of the world. He is a small ant who has not even arrived in the hustle and bustle. Come here. What do you want?"

"Booming!"

"Boom..."

.....

With the exclamation of the high-level ancestors of more than one hundred ethnic groups in the distant sky, it was just because this refining ended, and the silent silent furnace suddenly changed slightly. A shock, and then, the thunderous bang of the rumble, began to pass again.

Ye Xuan's face changed wildly, and after the refining of the furnace, this is a full recovery.

At that time, the power of the lost furnace will reappear. Even when the instrumental spirit in the furnace suddenly discovers that it has occurred in its own great changes, it is very likely that it will immediately activate some kind of array method and contact Tiandao Qingyan. Everything that will happen here, pass it out...

A strong sense of crisis hits the heart, and Ye Xuan subconsciously activates the interstellar coordinate jumping ability that comes with the in vivo system, thereby fleeing.

This time, although he did not have any substantial gains, he did not even run a sneak peek. At least, the electronic avatar won a world-class mechanical beast and has successfully entered the inside of the mechanical family. .

This is an important piece of chess. It is also a measure of Ye Xuan's precautions. If there is any conspiracy in the emperor and the mechanical family, this move will have unexpected miraculous effects in the future.

It was also at this time that just as he subconsciously wanted to escape immediately, Ye Xuan's mind suddenly sounded a voice. It was the empty giant tomb in the dark: "Little guy, don't rush, the furnace is comprehensive. The recovery has been going on for a while, isn't your konjac blood has already been recognized by it? As long as the konjac is activated, it can be guaranteed before the full recovery of the spiritual consciousness..."

"In short, I can't go now. After a while, I will leave the old turtle. I have to rely on you to stay behind and wipe the skin.... Otherwise, what are you calling?"

Upon hearing this, Ye Xuan first stunned, and then became furious, this time the nose was really discouraged.

Lao Wang Ba did not say that he still didn't know it. He had called him over for a long time without a head, and he was actually trying to wipe the skin of this old king.

This is really fun, too exciting!

Lao Wang Ba ate the meat and drank the soup. In the end, even the bones were clean and the hair was not picked up. When he patted the skin stocks, the old man had to be responsible for helping him wipe the skin stocks?

Why? It's just too bullying!

These thoughts flashed through my mind, and Ye Xuan's anger was about to run away. Take care of him. Let's go and say, in the end, you can't let this old king get the cockroach. As for the headless baby corpse, go back and calculate the account. a bit!

"How? The complete ambiguity of the fourth and fifth changes of the lion... Don't want it?"

Just as Ye Xuan is about to activate the interstellar coordinate jumping ability, the voice of Lao Wang Ba's discourse sounds again in his mind. This time, it seems more old God is there, and it's almost incomparable: "Forget it, it would have been I want to give it to you now. Since you don't want it, let's go. I know that there is not much trouble. I lost the old turtle. When I just shot the double-headed lion, I also paid special attention to intercepting the righteousness. Down..."

The mad lion has changed into the fourth and the fifth change?

Still complete?

Ye Xuan was in a stale position, and the whole person was stunned on the spot.

The fourth change is nothing more, the phagocytic system in his body is pushed forward for a while, and it is estimated that it can be made, but the temptation of the fifth change is not that big.

If you get the complete meaning of the fifth change of the mad lion, the system only needs to convert it and modify it, and then you can derive the complete fifth change of konjac... As for the fourth change, it is almost the same. As long as you get the complete meaning, it is estimated that you can display it in an instant!

As soon as I read this, Ye Xuan's heart suddenly gave birth to ecstasy, and he did not hesitate to cancel the thought of picking up the person. He squinted and passed a knowledge of God: "Pharaoh... No, turtle, you are old. Where did you say that the task was not completed, and the young masters couldn't keep going! Who is who is anxious..."

Chapter 3923: Soaring strength

In the face of huge interests, Ye Xuan still served softly. Of course, this is mainly because the object of soft clothing is his own. Even from a certain point of view, the virtual giant turtle can actually be regarded as Ye Xuan after entering the starry environment. A kind of teacher.

After all, the martial arts that he has now repaired is the inheritance of the blood of the giant tortoise.

Before, I was angry, but Ye Xuan did not really care. He basically realized that the smuggling of the squad is what the squad is saying. Don't say that this thing really has to be done. Headless baby corpse and virtual giant tortoise in this respect, it is only Ye Xuan who can rely on it.

Because only he can directly start the interstellar coordinate jumping ability after wiping the leather stock, and instantly escape from this place.

In exchange for any other existence, even if it is an ancient power, I am afraid that it will not leave so quickly. Even if it can be done, it will leave some traces of the beads while tearing away the void. Blue eye recourse, it is very likely to be caught up...

After thinking about this, Ye Xuan's heart was suddenly flattened. At this time, after seeing his soft clothes, Pharaoh scorned smugly and directly sent a piece of information to the leaf with some great magical means. In Xuan's mind, at the same time, it also includes a touch of gray and black energy.

"Hey, congratulations to the host, find the complete magical powers! Is it immediate to push forward?"

"Hey, congratulations to the host, and discovering the source energy of the hole, and whether it is immediately extracted?"

With the familiar system prompts in my mind, Ye Xuan immediately glimpsed, and then ecstasy, it seems that this Lao Wang Ba is really interesting, not only sent the complete esoteric of the fourth and fifth changes of the lion. Even with the original source of energy given to Ye Xuan, a hole in the hole.

If there is no accident, with this ancient source of energy, Ye Xuan's cultivation in the area of the ancient dynasty will be a huge increase in the moment, with the promotion of the flesh and blood. It's all you can expect...

Time was tight, he did not hesitate and hesitate, and he sent a positive reply to the system in the first time.

The system sounds again, and the first time is the complete esoteric of the fourth and fifth changes of the mad lion that has just been obtained. At the same time, the original source energy given by the virtual giant tortoise, also began to quickly refine refining!

Ye Xuan's consciousness quickly disappeared into the brain, touched the quaint tortoise shell, activated it, and then trembled, and immediately entered a legacy image imprinted in the tortoise shell, an ancient wilderness void appeared. Through the endless vicissitudes of life!

"Roar!"

It seems that the earth-shattering roaring sound came from the depths of the endless void, attracting Ye Xuan's consciousness to the past, and the picture circulates. A vast and huge limb like a sky stretches out from the endless darkness. When I pulled it, it instantly collapsed and collapsed a whole field.

From the endless deep darkness, a round and flat head stretched out, and there was an endless chaos around the eyes, and there was no light.

It is the hollow giant tortoise, the body is just a piece of striate, there is a galaxies so large, climbed out from the darkness, the spread of the pressure of the atmosphere enveloped the entire universe, making this side of the sky tremble.

Then, in the mind of Ye Xuan, he quickly received the inherited inheritance information of the cave, and a quaint giant turtle that was even bigger than the stars, so he swam in the Milky Way and looked up. A black energy rushes out of the wide mouth of the turtle's head, like a small meteor, rushing to the endless horizon.

First, a small star nucleus, and then turned into a meteor, slowly growing, from satellites, planets, and then stars, to a nebula, a vast star river, and then suddenly exploded, the ultimate condensation , turned into a black hole in the comet's air, engulfing everything.

This process is the first eight realms of the background of the starry sky background, and then the origin is the future, then the cave, the Xuanguang, the void, the domain beginning, the Zhouguang, the Qiankun...

At this time, the corresponding inheritance picture also changed accordingly.

The huge black hole that represents the eighth realm of the starry sky quickly condenses. After the extreme, it turns into a weak point. This is the original meaning of the original point. In the process of condensing the black hole into a point, a lot of creaking in the process In the mind of Ye Xuan, like a compression package decompression, it was released and he was instantly realized.

Then, the tiny origin formed by the extreme contraction of the black hole re-expanded and evolved into a small hole, which burst into a mysterious light, derived from the void, and the initial prototype of the birth star, eventually becoming a vast universe with stars and voids. For a complete glory.

This whole process is the journey that the ancient scorpion has to take in the fifteen major realms of the starry sky. The demonstration of the picture is only an image of the image. The most important thing is the demonstration of this image. In the process, the continuous decompression appeared in Ye Xuan's mind.

Soon, the inheritance disappeared below, and this ancient source of energy from the hollow giant tortoise was captured.

Almost in the next moment, Ye Xuan's brain knows that the sea beneath the quaint tortoise shells in the sea is in the sea of infinity, and the endless rolling of the waves is suddenly shocking. Like a tsunami, the whole vast and vast sea of knowledge Live, and completely churn.

At the central area, there is a huge star-shaped giant tortoise slowly recognizing the depths of the sea. On each turtle's tortoise, there are numerous mysterious patterns.

This starry giant tortoise represents the ancient sacred sacred cultivar that Ye Xuan has cultivated, because this ancient scorpion is the highest inheritance of the blood of the cave tyrannical giant tortoise, which is the result of the complete practice and the cultivation of Ye Xuan. In the vast sea of his mind, the virtual shadow of this giant turtle is revealed!

At this moment, Ye Xuan's body has been soaring, and even the belt has also driven the collapse of the human body's potential chain. The pain has come, but Ye Xuan is very happy, because everything is as he guessed, this time. The physical strength of the flesh and blood will also rise.

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the eighth perfection of the universe!"

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the nine-order grand perfection of the universe!"

Soon, Ye Xuan's mind came again with a familiar system sound, not just these two, but then the hints related to the improvement of the flesh and blood.

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the eighth perfection of the universe!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Zhou Guang Jiujie Daheng!"

The ancient dynasty of the cave: the nine-order grandeur of the universe!

The flesh and blood: the nine-order grandeur of the universe!

The ancient Shu repaired with the flesh and blood, once again perfectly synchronized...

Chapter 3924: The fourth change of konjac

And because of the strength of the cultivation of the power method, and the other functions contained in this ancient energy source, it also played a powerful quenching effect on Ye Xuan's body, directly letting his body and blood be repaired. Strength, also followed by skyrocketing, once again tearing the chains of two human potentials.

The strength of his flesh and blood, as well as the skyrocketing to the nine-order grand perfection.

Nowadays, Ye Xuan has been able to directly take the 15th grade liquid that has already been prepared. Once successful, his deity will officially enter the real environment.

But after all, it takes a certain amount of time, and the current situation is so unsuitable for development. Therefore, even if Ye Xuan's heart is hot, he still slams this impulse sensibly, and has not taken the fifteen-level liquid for the time being!

"Booming..."

The swell of the smoldering furnace has become more and more intense. It is obvious that the spirit is fully recovering. The time is already very urgent. Ye Xuan turned around and found that the milky white mist above the furnace was extremely thin, obviously empty. The ruthless plunder of the giant tortoise will also end.

With the full recovery of the spirit of the furnace, the horror of the dark furnace will appear again. Ye Xuan's current human form will not be sheltered by the furnace. When it was first sent to the furnace, it was only recognized by it. The blood of Taikoo's little konjac.

He didn't hesitate, even if he activated the three-headed six-armed konjac that represented the blood of the Taikoo konjac in the brain.

Before the revision of Ye Xuan's deity was the seventh stage of the Zhouguang, in the state of entering the three-headed six-armed Taikoo konjac, the strength was the eighth order of the Qiankun.

Nowadays, his deity has been up to the ranks of Zhou Guang. According to the previous practice, under the state of entering the three-headed six-armed Taikoo konjac, Ye Xuan's cultivation is the strength, and will reach the grand ninth order of the Qiankun!

Soon, a three-headed and six-armed Taikoo konjac was born, and the body exudes a breath of breath. It really is the grandeur of the nine-order grandeur of the Qiankun, and Ye Xuan speculated that there is no difference.

But this is not the strongest strength that Ye Xuan can play at present, because in the state of the three-headed and six-armed konjac, he can also display the magical power of the konjac.

Every change, repairing strength will enhance a small stage!

"The konjac has changed... the first change!"

With Ye Xuan's violent temper, the next moment, the Taigu konjac body of the ten-foot-high body suddenly surged, and an inexplicable blood force suddenly swelled in the body and gathered into a similar tide-like force.

The strength of the three real bodies of the Taikoo konjac was greatly increased. In the blink of an eye, only the body shape of only ten feet was directly raised to a hundred feet.

Repaired as: the first step of the star!

"The konjac changes... the second change!"

After the second violent drink, the familiar feeling came again. The blood in the three real bodies rolled again, and the amplitude exceeded the previous change. Before the first change, the konjac was a hundred feet. But now, it has skyrocketed to a thousand feet!

Repaired into a breath: the second stage of the star!

"Roar!"

"The konjac changes... the third change!"

Ye Xuan once again screamed and screamed. With the third change of the konjac, the violent blood force in the three real bodies also surged again and again, like the same roaring river, directly driving the three-headed and six-armed The konjac is like a balloon, and it swells quickly.

From the original one thousand feet high, quickly reached two thousand feet, three thousand feet ... until the last 10,000 feet!

Repaired into a breath: the third level of the star's main territory!

Less than three interest, Ye Xuan activated the real body of the konjac, directly opened the **** magical power of the konjac, although only started to the third change, but its konjac body shape, but still reached the giant, repair For strength, it is once again soaring three small steps.

But this is not the end, because the body's phagocytic system has already heard the familiar tone, and with the complete esoteric meaning of the fourth change of the lion, the system has changed the konjac in a short period of time. The fourth change was deduced.

As for the subsequent fifth change, although the complete esoteric of the fifth change of the lion has been obtained, the system has changed it into the fifth change of the konjac suitable for the blood of the ancient konjac, but it still takes time.

Ye Xuan is not in a hurry, just the fourth change, it will make his cultivation strength once again climb a small stage, the body and blood and body size is skyrocketing ten times, temporarily enough to use!

"The konjac changes... the fourth change!"

With the joy of the heart, Ye Xuan was the last violent, the sound of the four wild, the eternal konjac of the dying body of the three skulls roar at the same time, this corner of the void has a slight shudder.

Then, the blood of the Taikoo konjac's huge blood, the moment is like a balloon that is inflated, and it has soared ten times again, reaching the horror of a hundred thousand feet!

Repaired into a breath: the fourth stage of the star!

Although the third-order of the star's main territory and the fourth-order of the star's main territory are only a small-order gap, this gap represents the strength of Ye Xuan in the big realm of the star's main territory. It can be said that it has entered the room in this place!

All this happened too quickly. Ye Xuan as a party, his feelings are stirring, although it is not the first experience, but still can not calm.

More than 100 senior ancestors of all ethnic groups in the distant tens of millions of miles away from the sky are obviously even more so!

Before the ten-digit interest, Ye Xuan's cultivation was only a perfect conclusion.

Then, before the five-interest, when he activated the blood of the body and manifested the true body of the three-headed six-armed konjac, the strength of the cultivation rose to the grandeur of the nine-step.

In the end, it is just a short amount of interest. With the first change of the konjac to the fourth change of the konjac, Ye Xuan's cultivation of strength has once again crossed the big realm and directly rushed to the fourth stage of the star's main territory...

All of this is simply ridiculous. The top ancestors of all ethnic groups, although they are at least the mainstays of their strengths, have never seen such a horrible power climb. This cannot be done with secret laws or magical powers. Explained, can only be said to be... enchanting!

Suddenly, the high-level geeks of all the ethnic groups muttered to each other, and their faces were incredible...

"God, what is this kid in the end? Just now is the ninth order of the ecclesiastical, the tenth is not enough, and the blink of an eye is in the middle of the star. Is this a big change?"

"In addition, at this time, he suddenly activated the inheritance of the blood, showing the true body of the konjac, what are you doing? Could it be that the existence of the peak of the ancient powers of the ancients... hard to be?"

"If this is the case, then this courage is going to be against the sky. Is this world swollen? Is this generation of younger generations so impulsive? Or is it that the old man has been sleeping for too long? Not in the times..."

Chapter 3925: It turned out to be a group of

For the major groups from the three major planes, now they have already retreated to tens of millions of miles away from the horror of the horror, just as the spectator of the outside world is a high-ranking ancestor of all ethnic groups. Everything that happened within a short half-day is simply too thrilling, too exciting!

They flocked for the benefit and creation of the furnace. It was originally the protagonist of this event, especially the few immortal grotesque, but they felt that they were high above, and now this source of evil is absolutely overlord. The existence of the level!

But very quickly, with the six **** scorpions and the **** unicorns and other six horrors of at least the level of the ancient powers, they immediately fell into spectators who fetched soy sauce, and suddenly stunned tens of millions of miles away. .

Without waiting for the plunge, the liver was slightly settled. These six powerful and desolate creatures that made them feel powerless were all killed in a very short period of time.

A sacred supreme descendant who is still alive in the world, even if it is only an energy avatar, but still has the horrible power of the peak of the ancient powers, and lifts the forelimbs with ease, it shows the supreme power of crushing all the enemy...

But this is not over yet.

The horrible giant tortoise with the strength of the ancient powers of the wild has just rushed into the furnace, and when all the people's eyes are unscrupulously harvesting the products of the furnace, they are in the void near the furnace. The ant-like figure appeared unexpectedly.

Everything that happens next is obviously more exciting.

The repairing strength of this ant ant was only the first perfection of the 9th order of the universe.

When the five-pointed, when he activates the blood of the body and manifests the true body of the three-headed six-armed konjac, the strength of the cultivation has suddenly risen to the grand stage of the nine-step.

In the end, it was just a short amount of interest. As the konjac first changed to the fourth change of the konjac, it was repaired as a strength, and once again crossed the big realm and directly rushed to the fourth stage of the star's main territory!

The big change is to live. The key is to look at the posture of this kid. It is clearly intended to be a horrible giant tortoise in the inside of the furnace.

In the middle of the star's main territory, I dare to dare and the existence of the peak of the ancient powers, and directly shine the sword... What kind of stimulation is this special?

In the heart of the emotions, a group of strangers, cosmic eccentrics and immortal geeks face each other, the face has a bit of awkward and shy.

Compared with this patriarch of the Terran, their old monsters are almost fascinating. Don't mention that this ancient and powerful power has peaked. It's only the prestige of the nine **** savage They have already scared them all together, and they all fled and fled...

"Look, the virtual giant turtle is out!"

"Oh, needless to say, the products in the furnace must have been looted, and even the white emulsion mist above the furnace has been thin to almost no, this is really a search!"

"This is not finished. Look, the Taikoo konjac who is dying is rushing over. This kid is really a super-devil king. Actually, he really wants to be a hard-hitting with the ancient powers of the ancients. This is not a daring..."

"If the old lady does not support the road, he will serve him!"

"The newborn calf is not afraid of the tiger, but unfortunately it is still too impulsive, the impulse is the devil!"

"No, it seems that it hasn't been played at all. The Taikoo konjac seems to be going to go off... Look, the energy of the Void Giant Turtle is about to be withdrawn!"

.....

As the exclamation sounded in this emptiness, even the fog of the Dingkou was thin to the horrible furnace, and the shape of the Void Giant Turtle suddenly rushed out, and the body shape was under the blessing of the fourth change of the konjac. The Taikoo Konjac, which has reached the height of 100,000 feet, greeted the first time.

However, the unexpected battle scene did not appear. The Taikoo konjac was more like going to the show. The two had clearly seen each other, but no one had shot.

At the next moment of the physique, the emptiness giant turtle re-emerged into a faint awning, rushing into the only one of the striated chains that were still connected to the underside of the outer wall of

the smoldering furnace, followed by the symbol on the chain. The lines quickly lit up and spread toward the end of the void.

At this time, the Taikoo konjac has taken out a huge thick-headed stick, and after it has been picked up high, it slammed down towards the last striated chain...

At this moment, Ye Xuan's corpse light tattoo, which had just passed the pick on his chest, was once again slightly hot, but soon it crouched again.

Just like this hot, a touch of silky faint stalks along the right arm of the body of the ancient konjac flesh and blood, quickly immersed in the thick stick of his hands in the hands of Shennong!

"Oh la la..."

This last fringe chain was broken and broke in the void. At this time, the fringes that had already lit up on the chain and spread quickly went to the other end of the void, and the blink of an eye disappeared!

At this point, the Void Giant Turtle has retired without a trace. The last fringe chain has been broken. Just put them away, and there will be no traces. Even the heavenly eyes will be difficult to recourse!

With the strength of Ye Xuan, even with the ridiculous and precious treasures of the Shennong, it is very difficult to smash this slogan chain, let alone this direct inch break.

The reason why this effect is due to the mysterious power of the headless baby body!

And this, it is also the headless baby corpse and the virtual giant turtle need Ye Xuan to do, the empty giant turtle to do things, Ye Xuan is responsible for wiping the butt, but fortunately everyone has great gains, it is all happy!

All this happened too fast. When the tens of millions of high-ranking ancestors of the great tribes in the distance tens of millions of miles went back to see what happened, the empty giant tortoise had already left. The passage of its evacuation was also smashed by the Taikoo konjac.

Even if they are dull, they will suddenly wake up, and the exclamation will start again...

"Rely! What happened? Say good hard just? Is it swollen into a temple?"

"Routine! Full of all the routines!"

"A group of people, this old one and a few **** are actually a group, we are all cheated..."

"It's awful, the fox enchanting is actually a group of emptiness giant tortoises, but it is a sacred sage that lives in the world. Who would dare to provoke this person?"

"Conspiracy! The conspiracy of Tianda, the old man understands that the two video images that were previously broadcasted related to the furnace are the fox enchantments. We all were shot by him, and the little **** is good. Poisonous..."

"Booming!"

"Boom..."

Just as the top ancestors of this large group of people were screaming, the sound of the booming sounds in the furnace was followed by a sudden, which is the rhythm of the full recovery of the spirit of the furnace.

Ye Xuan changed his face, no hesitation, he waved the Shennong Ding directly, and did not hesitate to motivate Shennong Dingwei, and after the last nine striated chains in the void were bombed, a large number of chains were left. The ruthless festival, all of them are absorbed into Shennong Ding...

Chapter 3926: Sky anger

With Ye Xuan's last nine smashed sash chains all in Shennong Ding, this huge void is now very clean, just like a dog, except Ye Xuan and Shennong Ding, outside the furnace, nothing.

Even the top ancestors of the more than a hundred ethnic groups who have not yet retired are still in the void of tens of millions of miles away.

"Booming..."

At this time, the dull screams in the furnace have become more and more fierce, and the spirit of the furnace can recover at any time.

Ye Xuan did not dare to continue to delay. In the first time, he waved and took up Shennong Ding, and then activated the interstellar coordinate jumping ability. After his body shape disappeared, his eyes disappeared and no trace left. He could not recover him. How to leave.

This scene once again shocked more than 100 senior ancestors of various ethnic groups in the sky thousands of miles away, and exclaimed...

"Hey? That enchanted boy is gone..."

"The means are extraordinary, this must be some kind of super secret, even the existence of the immortal level can not capture a little bit of traces?"

"It's not good. The noise from the furnace is getting louder and louder. The old man has a very bad feeling."

"The heavens and blue eyes are coming, and the mysterious degree of terror will probably surpass the ancient supreme, and immediately withdraw!"

.....

With the emptiness of the giant tortoise and the Taikoo konjac, the front and the back have disappeared and disappeared completely. The traces of the high-level ancestors of all the ethnic groups have finally come to the fore, and they are screaming. Unleash the magical means, each tearing the void, like a dog of a family, stepping into it and quickly fleeing away!

Before and after, one or two breaths of time, this source of evil and evil is completely empty. Only a furnace that is still banging in the sky stands in the void, as if it had been in the past half-day. It has never happened in general.

The only difference is that the products in the furnace have been looted, and even the striate chains that transport the sinister source of the 10,000-plus channels on the lower side of the outer wall of the smoldering furnace are all left.

Not only has it been completely smashed, but even a section of the chain has been either eaten away or taken away... fearing that the cosmic Yi people will cross the border without being so bad!

What a terrible word?

"Hey!"

These more than one hundred high-ranking ancestors from all ethnic groups have just retired. From the inside of the furnace, there is a shocking whistling sound.

At this moment, the spirit of the furnace has finally recovered.

When the previous refinery was opened, the furnace had no spirits, so even in the process of refining, the unique pressure of the furnace still exists.

But this time, because the furnace was born, and this instrument has not personally launched the refining of the furnace, this time, all the consciousness of the spirit is integrated into the process of refining, and consciousness enters the refining process. The central domain of the process center has been neglected for the control of the outside world.

Until this time, the refining and chemical industry was completely over, and there was no more than a little bit of colored meat in the central pores of the central domain grinding disc, and the instrument spirit was withdrawn, and once again, the whole furnace was fully controlled.

It was also at this moment that all the changes in the time of the mound were immediately controlled by the spirits. It instantly realized that it was a product of hard work and hard work, including the by-product of the furnace. All have been swept away.

What shocked him even more was the tens of thousands of rhythm chains that transported the evil source liquid to the lower side of the outer wall of the furnace. They were all taken off by the bombs, and there was no one left.

Such a change made it unacceptable and unbearable in any case. Therefore, under the wrath of the wrath, the spirit of the smoldering furnace activated the inside of the smoldering furnace and used it in the first place. The mysterious array of communication between the creator and the heavenly eye...

"Booming..."

"Card!"

Almost in the next moment, above the sky, a large black robber cloud suddenly appeared without warning. When the robber cloud appeared, the void would explode a black lightning, and the sky seemed to be smashed. Opened in general, issued a fine card squeaky squeaky squeak.

If Ye Xuan is still here, he will surely feel a very familiar atmosphere. This kind of breath is clearly a precursor to the coming of the heavenly eye, and everything that happens in this void, after the scourge has completely escaped. With the full recovery of the spirit of the furnace, it finally alerted the existence of the horror, and the heavenly eye is coming!

"Card!"

The thick and boundless black ink robbed the clouds, and immediately shot a huge lightning. Then, the boundless black clouds were automatically separated, and a void crack appeared. In this huge crack, one body is more than a superstar. It is necessary to be able to see the huge number of times.

Immediately afterwards, the Tiandao Qingyan, which had just recently re-slumbered, slowly opened, and a touch of green and faintness was shot from inside, and the whole world was completely covered by the vast and innocent source of evil. A layer of green light.

"Hey..."

In the next moment, the sound of a whistling sound more than a few times more horrible than the previous screaming screaming, the emptiness of the edge of the source of all evils is cracked, and countless empties of emptiness come out in this film. It is raging in the vast star field.

Even the mound, at this moment, trembled, and the upper side of the outer wall was connected with a large number of voids, which were used to transport the fringe chains of flesh and blood materials and creak.

The sound of whistling is too horrible, but it still reveals a strong suppression. Otherwise, if Tiandao Qingyan fully releases the power, it is feared that this piece of emptiness will be completely destroyed in an instant.

A touch of blue blood and tears, from the crack in this huge to unimaginable cyan eyelids, this is the tears of the sky, the tears of the sky!

The smoldering furnace is of great importance, but now it has suffered such destruction. More than 10,000 drops of smoldering liquids have been condensed, and it has not been put in the eyes by the heavens. It is unacceptable, and it is the lower side of the outer wall of the smoldering furnace. More than 10,000 channels are missing from the depletion chain of the evil source liquid.

Even it can't be repaired in a short time.

Even with that ability, it is impossible to take a huge amount of effort to do it.

Compared with the squatting squats in the emptiness of the tens of thousands of striated chains, it is obviously more important to restore the strength of the celestial eye.

It is impossible to choose to ignore this!

But it is even less likely to stop here, revenge... is a must!

"Hey!"

The second whistling sound rang, this time, the blue tears of the heavenly eye, the green tears, directly rushed out of the huge void crack, following the speed of the furnace, after a circle, it seems to A kind of magical power can find a trace of the beads.

Then, after a sudden stagnation in the void, it was fully accelerated again, turning into a star-sized celestial eye, and rushing straight to somewhere...

Chapter 3927: trap

Beyond the three cosmic planes, the dark void that was crouched by the ancient devils who were killed by the empty giant tortoises not long ago!

Rolling away the product of the furnace, and returning to the empty giant tortoise along the last broken chain, the moment has already left, but before leaving, the virtual giant turtle apparently made some sort of arrangement, At the moment, this dark void is very quiet, but it clearly reveals an inexplicable murderous atmosphere.

This is a trap!

If it is from the hands of the headless baby corpse, it is obviously no problem to annihilate the heavenly eye of the heavenly eye.

However, the Void Giant Turtle is only a ruin of the ancients, and its body is cultivated as its strength. Now it is only restored to the early stage of the ancient Supreme Supreme, and there is no comparison with the peak of the ancient age.

Therefore, the trap that he has set in a hurry, at most, can only reinvent this celestial eye, and it is obviously not realistic to completely annihilate it.

But this is enough. The main purpose of the Void Giant Turtle to set this trap is to completely annihilate all traces of its own direction, so that the other party can no longer pursue it.

Originally, if there was a headless baby corpse to his temple, the shot wiped out the trace of the void, and the heavenly eye was also unable to recourse. But this time, the headless baby did not want to reveal that he was also the source of evil. The fact that the domain has appeared, so as not to appear again and again, will cause some kind of vigilance!

In short, this time everything that happened in the source of all evils, the traces on the bright side of the heavens and blue eyes are visible, only the hollow giant turtle.

Therefore, if the headless baby can't help him to erase the traces, he can only rely on the giant turtle to try to achieve it.

"Booming..."

With the sky and the tears of the sky, the tears of the sky, the eyes of the sky, and the sky of the sky, came back and forth. The dark sky of the sky was filled with the sound of the explosion, and a blue lightning flashed open the void, and the crack appeared. With the advent of lightning, a star-like sky with a huge starry sky, all coming!

"boom!"

Almost in the next moment, a louder and louder sound came out. This whole piece of dark void was completely unexpokedly exploded. Tens of millions of miles away, the void was cracked and half-interested. Although the darkness is dead, but at least the solid little plane is completely stable, completely turned into a huge void turbulence!

Before the departure of the Void Giant Turtle, this whole piece of dark void, like an independent small plane, is constructed into an extremely dangerous self-explosive domain. Once there is a presence, the void is torn and will be fully bombed in an instant. Open, just as the dominoes are pushed down, this process is completely irreversible.

Unless it is the demeanor of the heavenly eye, it is just a celestial eye... it can't be recovered!

With the blast, this dark independent small plane collapsed completely, no longer existed, and the little bit of the bead line left by the hollow giant tortoise from here was annihilated, and was inexhaustible. The stream is buried!

In addition, the light blue eye that just came with the blue giant lightning came, apparently also suffered from the light wounds. In the huge eyelids, there were countless blood lines like spider webs, which seemed to be unstable. , signs that will crash at any time!

"Hey..."

At this point, the celestial avatar has been concealed in an instant, which is simply a trap, the big fish that slipped through the net is too embarrassing.

The hateful thing is that as this whole piece of emptiness is completely annihilated, all the clues and clues that the other party has left since then disappear, and even if it is, it can no longer be pursued.

Not only did it have no gains, but he could not find the culprits to vent their anger. The final result turned out to be mistakenly trapped in the traps laid by the other side, which made the eyes of the eye suffer a lot of trauma...

This kind of result can't be accepted anyway. The eyes are covered in bloodshot eyes, and the strong resentment that is shot at this time is almost as real.

When the second whistling sound began, the Tianyan detached without hesitation, and withdrew from the ruin of the emptiness that was being turned into a giant emptiness. When the sound of whistling was still not over, it was already before. The source of evil.

The culprit of the incident, the giant tortoise, can no longer be pursued. At least the clue in front of it has been broken, and it is impossible to follow the path of the other party to escape and find its whereabouts!

This result makes the eyes of the sky extremely angry, but there is no way.

However, he did not intend to stop this, and his heart was inextricably angry, and he needed a channel for venting... To be precise, it should be the object or goal!

There is a lot of clues in the void of the source of all evil.

Even after the escape of the chain, and then the fringe chain was smashed by Ye Xuan, all the hollow giant turtles that were taken away in a short period of time were explored by Tiantian Qingyan in the direction and direction of the escape. The whereabouts of more than a hundred senior ancestors from all ethnic groups are naturally not a problem.

As long as the eyes are willing to do so, it can even completely pull out more than one hundred old guys one by one, but it obviously does not intend to do so.

On the one hand, in its eyes, these existences are only ants, and they cannot be compared with the giant turtles.

Out of anger, you may lift your foot and smash a **** on the ground, but will you be eager to bury your head and find the ants that can be found on the ground, all killed one by one?

Normal people are not so interested, let alone the supreme existence of Tiandao Qingyan?

"Hey!"

The sound of the third whistling sounded, and the moment before the withdrawal of the celestial eye of the evil source star field, after hovering in the void around the smoldering furnace, it quickly locked a virtual position and smashed it in one end. .

The void automatically splits a gap and allows it to pass.

After half a breath, when the celestial eye appeared in another void in the end of the crack, the third whistling sound was still unsuccessful, and it was resounded in an instant, making countless or strong Or the weak existence is trembling, and in the sudden rise of the head, the figure is soft and falls to the ground!

Down to the ordinary people, up to the quasi-palliar level, the ancestors of the family who are sleeping in peace, at this moment, all were shocked by this inexplicable inexplicable Tianwei, the body shape is not controlled, the body The repairs are also completely stagnation, and all the people are like a muddy mud...

This piece of void is the nest of a certain ethnic group and ancestral home of the Second Universe. Not long ago, the family had two cosmic-level blood ancestors who had just escaped from the source of the evil.

Unexpectedly, the uneasy mood has not yet been settled, and there has been such a terrible change. The horrible heavenly eye has directly caught up!

More than one hundred senior ancestors of all ethnic groups above the main level, from different ethnic groups and top forces in the three major planes, but ultimately unlucky is among the top ten among the second universe. The middle-class people have to say that this way of transport is indeed enough to decay...

Chapter 3928: The eye is coming to the devil

The magical orangutan, one of the second cosmic federal ethnic groups, but outside the top ten, the overall strength of the ethnic group belongs to the middle of the flow!

The ancestral land of the demon gorilla is located in the devil's star field of the Second Universe. The number of ethnic groups in this tribe is not too much. In addition, it is only a middle-class ethnic group. Therefore, the size of the devil's star domain occupied by the ethnic group is not particularly wide.

The square is just over 20 million miles.

In this more than 20 million rounds of the devil's star field, there are more than one hundred life stars, and the devil's tribes inhabit this.

Its ethnic group ancestral land, named the scarecrow star, in the nest of the family of the scarlet star, also sleeps more than a dozen powerful wild creatures, the origin of the family's blood.

The strongest is a wild magical demon who was cultivated as a strength in the past to reach the quasi-desolate power.

In addition, there are more than a dozen ancestors who have cultivated their strengths in the realm of the border to the quasi-wild power.

In this event of the evil source, the top of the demon gorillas also awakened the two cosmic-level blood ancestors and rushed to go, but in the end they fled back like a funeral dog...

However, although this time has no gains, in the eyes of the two geniuses of the konjac who were cultivated in the cosmic level, the heavenly eye was summoned by the spirit of the sorcerer, and was shocked to know what happened to the source of evil. After the wrath, even if you want to vent your anger, you should not find them.

After all, in the cognition of the heavenly eye, in addition to the hollow giant turtle that swept all the products of the furnace, the other high-ranking ancestors of more than 100 major ethnic groups were all the same as the ants... No, it should be said. It is even worse than the ants!

Even if you want to vent your anger, just pick one, you can't be so unlucky, you just hit them.

You must know that in the battle of the ancient world, the source of the blood of the demon orchard, that is, the ancient demon gorilla who was still sleeping in the depths of the ethnic ancestral lands, was also one of the camps of Tiandao Qingyan. The middle of the battle will be counted, and it is also a person.

All of this is clearly recorded in the ancient tribes of the Emeralds who have inherited hundreds of millions of people!

Therefore, the two unresolved demons of the evil orangutan universe agree that this time the disaster is basically irrelevant to their demons.

In fact, this kind of inference is still somewhat reasonable. Unfortunately, they are still wrong.

The mistake is to overestimate his own way of life, overestimating the weight of his so-called middle-class warfare that will be in the eyes of the heavens.

Perhaps even they themselves did not realize that there is such an idea, in fact, it is to use the ideas of mortals to usurp God's thinking!

What Tiandao Qingyan wants is only an object of venting anger. Others, it is really not important, and it will not be considered by it!

At this time, as the sky above the devil's star field suddenly cracked a huge crack, the eye-catching avatar accompanied the endless whistling sound, the cosmic blood ancestors of the two demons were instantly soft. The ground is full of despair.

But they did not give up on this.

It's already dead, at least there is still a sigh of relief. In any case, we must fight for it again. Anyway, the result is no longer broken...

"Big... adults, nothing to do with us, we just go to soy sauce, nothing is taken, it is a hollow giant tortoise!"

"Right right, he escaped, and escaped along a chain of striated chains. The grown-ups are forgiving. The old people of my family are the ancient devils. In the past, I will vote for you in the middle of the battle!"

In the softness of the body, the two cosmic geniuses of the cosmic genius are brave and stammering for mercy.

However, the discourse has not been finished yet. In the depths of the ancestral ancestors of the ancestors, there has been a broken voice: "Shut up, you two wastes, how can you compete with adults?"

"Adult, I am a demon, that year..."

It is the origin of the blood of the demon orchard. The lord had the strength of the quasi-desolate ancient power, but now it has only recovered to half. It is still in the midst of the eternal sleep, but now it is suddenly awakened by the ancient devil. .

Although he screamed and slandered the two sorrowful words of the **** descendants, but then the words turned, the tone became very smooth, in the end, still just want to ask for mercy.

Perhaps, in his opinion, he himself personally followed the sacred deity in front of him, and in the savage world, the ministers who shed sweat and blood, and at this moment, personally pleading, how much will always have a little effect. of.

Even if the entire ethnic group can't keep it, but as long as you can still succumb to the old life in the other side, you will escape the little life...just what is worth it!

It is a pity that he apparently made the same mistake, too much overestimating the amount of gold in his account.

"You... are not qualified either!"

Not to wait for the words of the ancient devils, the eyes of the sky that hang in the huge cracks in the sky have been steeply green, and the words of the endless coldness sounded out loud, followed by the Qing Mang masterpiece. Next, the entire 20 million mile round of the devil's star field, was instantly plated with a layer of blue and colorful!

"Card..."

"boom!"

"Booming..."

A huge blue-colored lightning with a star-like diameter, with the opening of the sky in the crack in the sky above, suddenly spurred out.

With the sound of crisp lightning, the entire vast devil's star field, the whole territory is full of green and mans, more than one hundred life stars, under the power of this raging lightning, even for a short time without support Once, it has been fully exploded, and the smoke has disappeared.

Even a stone with a big palm is not left!

Together with the erased, there are hundreds of millions of demons on the hundreds of life stars, including all the high-level people in their ethnic groups, and the two cosmic blood ancestors who were awakened recently.

Even the sacred demon who belonged to the Tiandao Qingyan side camp in the past, and the quagmire of the ancient tyrannical powers, all with the wrath of this wrath of lightning, and instantly collapsed, everything is annihilated Invisible!

It's just a simple and easy-to-handle blow. This whole circle is more than 20 million miles in the vast star field. It is completely transformed into a dead zone. A little bit of life does not survive. Heaven is ruthless. Underneath, deducted to the fullest!

"Booming..."

"Virtual turtle, you can't escape..."

"It's not just you, but all the embers of the year, and the ones you created... all will be completely annihilated!"

Under one blow, a group of emptiness was destroyed. At this time, the anger of the mind and body seemed to be vented. The cobwebs that were originally covered in the huge green scorpion in the void were not so dense.

"Hey!"

In the muttering, the eyes of the sky once again gave off a breath of screaming, and then the figure gradually dissipated, and the void that originally transmitted the endless violent and savage atmosphere was also slowly closed at this time...

Chapter 3929: trembling

Nothing is known about everything that happened in the emptiness outside the domain that had been shackled by the savage ancient demon bear who had been annihilated by the empty giant tortoise.

Tiantian Qingyan's eye-catching eyes are retrieving from the source of evil, and stepping into the trap in the void outside the field, being counted by the hollow giant turtle, making it impossible to spread out, destined to be Heavenly eyes are dead in the belly, because it is too bad!

However, everything that happened in the magical star field of the second cosmic plane, in the first time, spread throughout every corner of the three major star planes of the world!

Tiandao Qingyan was furious and succumbed to the second universe, annihilating the family. The magical gorillas went up to the ancestors of the bloodstream, and down to the most ordinary people, without exception, instantly destroyed.

The entire magical star field of 20 million miles wide, instantly, turned into a dead zone!

As soon as the news spread, the three major planes were in harmony. Those who had had the **** ancestors of the ethnic group in this incident of the evil origins went to the top, and even the most ordinary people. All shuddered.

After the fear of the heavens and the green eyes, after the evil orangutans were destroyed, the anger of the heart had not completely dissipated, and then they came to their ethnic groups in abruptly, anger and destroy the race!

This time the incident was too great. Among the three major star-space planes in the world, although the major forces and ethnic groups have been fighting each other for many years, the wars will not break out.

Either a plane-level war, or a civil war within the same plane, or even a small war within a certain ethnic group.

But in general, except for the weakest ethnic group whose number of ethnic groups is so small that even one life planet is dissatisfied, the slightly larger ethnic group, basically, will not appear in this endless period. The situation of extinction.

What's more, the entire ethnic group was instantly destroyed. Even the ancestors of the **** age of the ancient wilderness, which had been immersed in the ages of the ancients, were all gone, and they could not escape.

We must know that although the Magic Orangutan is not the top ten of the Second Universe, there are more than one hundred life stars after all, and hundreds of millions of people occupy a vast void of 20 million miles...

It is basically impossible for a group of this size to be destroyed by the literate family. Even if all the other ethnic groups in the entire plane are attacked by the group, how many people can escape some sporadic people!

But this time, the demon orchard really did not have a complete bottom, the blood of the ethnic group could not be preserved, and no one left, this is simply a cold, letting the three stars in the world All the ethnic groups and forces and martial art in the face are deeply impressed by the terribleness of the heavenly eye!

When the last time the misfortune of the source of the evil occurred, the heavens and blue eyes raged and fell, and in the blink of an eye, the horror of the two lords of the indigenous beasts was eliminated, but only the top three major forces We are full of jealousy.

But this time, with Tiandao Qingyan's escaping a celestial eye, both venting anger and warningly destroying the demons and ancestors, there is no doubt that the core ancestors of all the three majors, All are completely chilly!

At this time, even if Ye Xuan continued to toss in the dark, throwing another heavy bomb, indicating that there is a bigger and more exciting creation in the star of the evil, fearing that no one will mix it.

To be precise... no one dares to mix again!

To get rid of it is to kill all the people, including living from the ancient times to the present, in the old nest of the ancestral ancestral home, the ancestors of the blood and the ancestors of the ages, are all just not spared... Who can bear this consequence?

Who dares to bear?

Under the horror of fear, the more than one hundred high-ranking ancestors from the three major planes of the major ethnic groups and the powers of the lords of all levels of ecstasy were all silent and stunned.

They are not only afraid of the heavens and the blue eye, but also the only vested interests of this time, the one that survived to the age of the ancient Supreme, the void giant turtle!

For this reason, the details of this incident of all evils, the more than 100 **** ancestors of all ethnic groups, did not dare to reveal too much, even the order that set the three enchanting identities in one. The fox lord, in fact, is rooted in the emptiness of the giant turtle. The two are rooted in a group of partners, and they dare not disclose it.

Really want to explode this explosive news, happy is a happy, but in case of just finished, the hollow giant turtle will come to the back of the foot... Didn't you cry without crying?

For this, even Ye Xuan did not expect it!

This time, in the event of the evil source, he wiped his buttocks in the empty giant tortoise. How much he would have a certain impact on his own, but the result was beyond his expectation, and Ye Xuan was full of fog. I don't know why!

After starting the system's own interplanetary coordinate jumping ability and returning to the life black hole of the first universe, Ye Xuan immediately released the **** and true state of the three-headed and six-armed Taikoo konjac, and restored the appearance of the fox lord. , rushed to the magic star.

On the way, he carefully thought about the incident before and after, and felt that the identity of the fox lord, it is really inconvenient to show up again.

Anyway, before the fox lord left the four-member coalition that was still in the first universe, and returned to the magic king, no one else knew it.

After this time, the source of the evils, the secret of the fox and the giant turtle is basically a secret. Therefore, after repeated consideration, Ye Xuan decided to temporarily hide the identity of the fox. stand up.

Because the outside world has long known that the fox and the lord and the ecstasy, the Taikoo konjac is a trinity, and it is a person at all, so the other two identities can not be used.

After some indulgence, Ye Xuan decided to talk about the devil in the recent period.

Since it is left in the Magic Emperor, then the most suitable identity is naturally another of the seven enchanting enchantments, that is, the devil's emperor Mo Zhenfeng!

In this identity, even if there is any change in the Devil's Star field in the recent period, he can completely use the identity of Mo Yufeng to commemorate several Star Wars in the body, which can basically cope with the scene. .

After the decision, he was on the way to the Magic Emperor, and he changed his appearance. From then on, the fox lord once again entered the crouching period, including the Nethered Supreme and the Taikoo Little konjac.

In the future, Ye Xuan will show his identity as the devil's emperor Mo Zhenfeng!

It's just that all the outsiders, including the high-ranking people of all ethnic groups, don't know it, but the Emperor Mo's asked Tian Tian and other democrats of the royal family, but they still know it.

Moreover, although the demonic group did not participate in this event of the evil source, but as a scout for the heavenly family, they naturally have some channels that the outside world does not know, and can clearly explore all the details that have occurred in the meantime.

Therefore, when Ye Xuan returned to the Emperor Star as the devil's emperor Mo Yufeng, the demon emperor Mo Wentian, who received the news, rushed over in the first time. Blocked him in the royal palace, surrounded by a leak...

Chapter 3930: Federal Building will tilt

"Little friend, this time, you are not kind. Haven't you said that you should not go back to this source of evil?"

"The playing is yes, the voice has not yet fallen, you will not see anyone in the blink of an eye. This time the noise is actually bigger than the last time. Even the ancient powers have fallen down a few times. The news is returned, scaring us a few. The old guy was scared and the soul was flying fast..."

"The giant tortoise that was built in the wilderness of the ancients is also an ally of our camp? How did you ever hear this before, and the identity of the fox lord is better not to show up easily, the major groups Although the top ancestors did not mention it, we have more to keep an eye on it to prevent someone from secretly making small moves!"

.....

Seeing the return of Ye Xuan, the tops of the demons of the royal family were all relieved, but the face was still the unsettled color. In the royal palace of the inner city of the emperor, Ye Xuan was surrounded by a leak, or asked inquiries. Or Dun Dun, I heard that Ye Xuan's head is big.

As a result, he once again had a deeper understanding of the powerful intelligence capabilities of the Devils, but the truth about the origin of the evil roots, Ye Xuan really felt awkward, and now can only smile, and finally put this magic The top of the royal family coped with the past and finally fled.

After returning to the high-ranking royal family in the Devil's Outer City, Ye Xuan started the retreat at the first time. On the one hand, he was really disturbed by the top of the devil's royal family. On the other hand, he also I plan to use the fifteenth grade liquid at this time, and I will upgrade it to strength again.

From the current 14th National Day, the 9th stage of the great reunion, to the fifteenth level of the first level, officially entered the real ranks of the great power!

In the hand, a 15th-level liquid appeared in the hands of Ye Xuan. After gazing at a small amount of time, he did not hesitate to open the cork and poured it into his mouth.

The fifteen-level liquid inlet was cool and fell down the throat, but after it reached the abdominal cavity, it instantly turned into a hot stream of heat, stretching toward the limbs.

The familiar tingling sensation soon came, and Ye Xuan had the illusion that the whole body was torn, which is also the sign that the efficacy of the fifteen-grade liquid began to volatilize.

Soon, Ye Xuan's consciousness gradually became blurred, and the whole world was left with only the infinite tingling from the flesh...

In the vagueness, there seems to be some squeaky noise in the body. This is the reaction of the body's potential shackles in his body. At this moment, Ye Xuan is completely in a state of pain and happiness. Among them...

I don't know how long it took, when he opened his eyes again, there was a familiar system sound in his mind, and it was two.

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Qiankun first order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun first order!"

The fifteen-level liquid is still a tube, and it has succeeded in helping him once again break through the bottleneck of a big realm. After all, it is a top resource that has been added to the evil source liquid. The effect is naturally not mentioned.

What makes him even more gratified is that with this breakthrough in the realm of flesh and blood, Ye Xuan's caves have been improved.

Since then, he has been in the fifteenth world in both the practice and the physical world. He has become a real power and a leader in this world. He dare not say that the same territory is invincible. However, in the early days of Qiankun, there were absolutely few rivals.

Even if he just stepped into the ranks of Qiankun, even if he did not use all kinds of powerful blood and inheritance.

If the blood of the three-headed six-armed Taijiu konjac is activated, his cultivation will be a strength, and will instantly climb a big realm and reach the first stage of the star.

Then count the konjac changes to the four small steps brought by the four changes of the konjac, then at the time, in the fourth state of the konjac, Ye Xuan's strength will be reached to the star The fifth order is almost close to the late star territory!

However, after some excitement and joy, Ye Xuan's excitement quickly returned again because he thought of the subsequent sixteen-level liquid.

Nowadays, he only has to smelt a little flesh and blood medicine, real 16-level liquid, and even higher-level gene culture liquid, and also need to add other various natural treasures and rare mineral deposits. Various deductions and blendings, one after another, can determine the final formula.

This is definitely a long process, and it can't be sloppy.

It was just this time that I planned to stay in the Devil's Star to avoid the limelight. Ye Xuan decided to use all the time to adjust the sixteen-level liquid.

After adjusting his mind, he quickly unfolded the matter and completely immersed himself in...

.....

The second universe, the **** ancestral home, the blood comet!

The tragedy that occurred in the Devil's Star Field shocked the three cosmic planes, especially the second universe of the great family who had one or several blood ancestors who came to the first universe. It's just like a second, like a year, and the next moment, the avatar of the blue eye will come, and the whole ethnic group will be angered and destroyed.

But as time went by, and now the whole day has passed, the top leaders of the great powers of the Second Universe have been hanging in the eyes of the blind, and finally finally fell back to the chest.

Obviously, the anger of Tiandao Qingyan has been vented and will not come again.

The existence of that level, there can be no circumstances of forbearance, anger in the heart, or anger has not been vented, must not stay for a moment, the first time someone will be unlucky.

But now that the whole day has passed, this is enough to explain the problem!

The crisis from Tiandao Qingyan was temporarily abrupt, and all the ethnic groups in the second universe were relieved. Then, the top ten other nine ethnic groups other than the Turtles gathered together. The other eight families came to the **** comet of the **** ancestral home to discuss major events.

The so-called big event, without it, the various ethnic groups just hope to reach a certain consensus on the matter of the members of the Whala Alliance.

This time, the source of the evils, the two universes of the second universe and the first universe, including the Federal Senate of the Vatican, have been completely torn.

In this case, it is no longer meaningful to continue to retain this so-called federal membership. Not only does it feel disgusting, but it will also bring some distraction and influence to certain subsequent resolutions.

Therefore, the general wishes of the high-level leaders of all ethnic groups are taking this opportunity to leave. Although there are only nine ethnic groups present, they can basically represent the voices of all the large and small ethnic groups in the entire second universe.

The establishment of the Federation of Varo has been tens of thousands of years. Due to the existence of the celestial family, there have been small disputes within the entire federation, but in general, the status of the Federation has always been very stable.

This time, because of the temporary escape from the Tianzu people, and the influence of various other factors, the Wanluo Federation, which has three tens of thousands of years of age, will finally be tilted...
