Chapter 3931: Yuan Laodong

The second universe, the top ten strong people in the top of the **** Yizu ancestral blood comet!

In addition to the Turtles, the patriarchs of the other nine ethnic groups of the top ten ethnic groups are all in the **** ethnic group. Although these patriarchs are only the nine strong people on the surface, they only have the existence of ethnic affairs. The cultivation of the main domain of the domain does not belong to the true core of the cultivation of the various territories.

However, today's nine ethnic groups are gathered here, and it is clearly the incarnation of the true blood ancestors of all ethnic groups.

With regard to the withdrawal of the Vatican Federation, after the **** clan leader who presided over this meeting, the clan leaders of all ethnic groups have successively expressed their attitudes, and their words are surprisingly consistent...

"This time the Wanluo Federal Senate and the Terran Technology and Comprehension camps have not benefited in the same way, but my second universe has broken the face with them, but it is an established fact. If so, then No need to cover up again!"

"Yes, the two camps of the Federal Senate and the Terran are really too much this time. If you don't follow the change, this time in the star of the evil, most of them will be my second universe and theirs. There is a **** battle between life and death, and it is very likely that we will eventually lose."

"This bad breath can't be swallowed. The Union of Wanluo has no meaning of existence. At least, my second universe, don't buy this account!"

"Exit the Union!"

"Exit the Union..."

"Seconded!"

At this point, the second universe of the various races have withdrawn from the Federation of the Faro, and it has become a fixed number!

On the second day, the news reached the headquarters of the Varo in the third universe of the Terran Terran Science and Technology camp.

Moreover, the second universe, at the same time, made a unilateral statement and briefing on the three major planes at the same time.

This is definitely the first major event since the three major stars in the tens of thousands of years. It has shocked countless star powers. Many people have never returned to God. I can't believe this news is true!

.....

The Immortal Star, the Federal headquarters of Varo, is located in the Federal Senate in the depths of the headquarters!

The area of the Federal Base of the Vatican is not small. In the corner of the immortal star, it occupies an vast vast plain.

The buildings above the plains belong to the various departments of the major departments of the Federal Base of Varo, while the underground part belongs to the Federal Senate.

It can be said that the Federal Senate is the true essence of the Federation of Wanluo!

Nowadays, all the major ethnic groups and forces in the three major star planes have their own connotations. For example, the second universe, the ancestors of the blood, are almost all related to some powerful ancient creatures in the past.

Either they are descendants of powerful ancient creatures, or they have gained their inheritance.

The same is true of the first cosmic slaves. Among them, the devil's group has the deepest water and the most mysterious.

As for the two camps of the third universe, it is not necessary to say more. In the science and technology camp of the Terran, even the patriarch of the mechanical family, Emperor II, is only the national teacher of the immortal dynasty, which shows its mystery.

The same is true for the comprehension camp. Apart from other sects and the sects, it is only the Ten Heavenly Palace. The second house has an undead phoenix in the underground, and the sixth house is in the sixth house of the tenth. It is just the most common existence, and there is no comparability with the mysterious people, the palace, the palace and the most central palace.

With this, can the Ten Heavenly Palace be simple?

In the same way, the Union of Van Loo is the only one of the three major planes that has been able to compete with the Celestial tens of thousands of years. It is composed of the major forces of the Second Universe and the Third Universe. Even the so-called territories are not there. The headquarters are only the immortal stars in the Terran technology camp. In nominal terms, they have acquired a vast plain.

However, the Federation of the Vatican can stand for tens of thousands of years and never fall. Only by this point can some problems be seen.

The Federation of Varo, with its core heritage, is the Federal Senate, which is the concentration camp of the real high-end core force of the Federal Republic of Venezuela.

As everyone knows, although the Federation of the Faro is a behemoth, in fact, it does not have its own territory. Even the federal headquarters is built on a large piece of land leased on the immortal star of the immortal dynasty.

But from another perspective, the Federation of the Vulcan can be regarded as an infinitely large territory. The third universe and the entire second cosmic plane, where the entire Terran is located, are all federal territories.

However, it is only nominal. In fact, these two universes are still managed by each ethnic group.

But basically every ethnic group, every other time, there will be a star owner or more, and settled in the Federal Senate.

Generally speaking, the existence of these sent to the Senate in the Senate is a strong person who is not much to be seen in their respective families. In the Senate, they can get far more than they can in their respective families. The cultivation resources obtained.

It can be said that the federal headquarters of the Vatican is a painstaking effort to win over these star owners from all ethnic groups, and even the domain owners.

Therefore, for a long time, for them, the feelings of their respective ethnic groups have faded, and the feelings for the federation have become deeper.

In the Senate, the old monsters that were cultivated above the general star territory, although from various ethnic groups, in fact, they have already regarded themselves as federal people!

All of these stars exist above the level of the blame, all of them live in the Federal Senate on the ground floor of the federal headquarters in Varo.

Although the Senate is underground, its interior uses the most advanced space folding technology, far exceeding the one used in the 100,000-meter star fortress.

This underground space, after being built and operated for tens of thousands of years, has now become a real independent small space, or a hole in the sky.

The only difference is that the ancestral mysteries of the three major groups are naturally generated, and the veteran cave in the Federal Empress of the Vatican is a man-made mystery.

In this vast man-made mystery, there is even a void in the universe. There are stars of all sizes in the void. It is built entirely in accordance with the rivers in the natural world. Its scale has now reached a medium-sized star field. It's just a third less than the Devil's Star of the First Universe!

This is definitely a big deal. With the folding space technology, in the underground of the vast plain of the immortal star, a man-made galaxy secret is built. This kind of big hand has been the human race and the second universe for only tens of thousands of years. The Wanluo Federation, which is dedicated to the supply of all ethnic groups and resources, can be created!

In this piece of the old cave, the true and strongest force of the Federal Senate of the Vatican is inhabited. It is said that even the existence of the Supreme Age is the core high-level of the Federal Senate, which is found in these tens of thousands of years. Some of the hard-hit wilderness creatures that were received, they accepted the offerings, and enjoyed the resources provided by the Senate for free to recover themselves...

Chapter 3932: Cast name

In the inner veteran cave underground of the Federal Republic of Varo, it is said that there are some of the true and strongest forces belonging to the Senate, and even the existence of the Supreme Age.

These beings are the core high-level members of the Federal Senate, and some of the hard-hitting wild creatures that have been found in these tens of thousands of years.

They accept the offering and enjoy the damage provided by the Senate without any compensation. The Federal Senate has no requirements for the existence of these horrors, and even the future promises have not been requested.

Because the seniors of the Senate understand that this level of existence will not be easily blessed by others, but if this happens, then in the future when the federal crisis will be met, they will be able to do so within their ability. .

For the Federal Senate, as long as these sorrows are sacred, or the ancient powers exist, even if they are only one shot, then they will continue to be enshrined for tens of thousands of years of unlimited resources. Earn earned!

After all, can it be worthwhile to have a shot at this level, and can it be a general ordinary crisis?

In fact, this time the Federation of Varo did encounter the most serious crisis of tens of thousands of years of age. It can be said that since the establishment of the Federation, this level of crisis has never erupted!

Even so, the core elites of the Federal Senate still have no plans to invite the tens of thousands of years of age to enjoy the presence of the Senate, and always sleep in the deepest part of the veteran cave.

Those who existed, before the distant past years, were all strong in the era of the Supreme Supreme, but now the injury has not recovered.

In addition to these uncultivated sacred ancient supremes, this star in the core of the core of the veteran cave in the heart of the federal headquarters, in the star nucleus of some stars, still sleeps more than ten ancient powers, and dozens of ancient wild can.....

But this time, the seniors of the Senate did not intend to alarm them and go through this crisis!

I can even say that I have never thought about this problem!

It is only the complete withdrawal of the second universe, and for the Federation of the Faro, this embarrassing situation is indeed unprecedented, but it is far from the extent that it can endanger the entire federal survival!

However, the core elites who have been born in the Federal Senate, although they are not flustered by the second universe of the entire rebellion, but for this time again in the source of the evil, the anger is actually angry. Only a single avatar is removed, which is convenient for instantly destroying the entire universe of the second universe, including the heavenly eye of the ancestors of the ancestors of the ancestral home, but it is extremely jealous.

In response to this matter, the core high-level members of the Senate are gathering at the central administrative star of this veteran cave, and they are negotiating and negotiating!

There is a vast two-thirds of the Devil's Star Field. There are not many stars in the sky. There are not many stars in the star nucleus of every star in the depths of the cave. Almost all of them have a strong presence, at least It is immortal.

On the periphery of this artificial starry sky, there is a huge artificial life planet, which is the administrative center of the entire veteran cave, called the veteran.

On the veteran star, there are a large number of strong people who are loyal to the Federation of the Vulcan Federation. Apart from the core high-level, they are basically young ancestors. These younger generations are arrogant and cultivated in the veteran, just like the three major planes. The Tao is generally given a heavy hope.

In fact, even the faculty of several major faculties in the Federal Republic of Venezuela, such as the Guardian of the Federal Institute of Supervision, are not eligible to enter the underground veteran cave.

From this, we can see how many of the younger generations of the federal system who can live for a long time in the Yuan Laodong, how high the status and enjoyment of resources and treatment, are enviable.

At the top of the highest peak of the veteran, it is the power hub of the entire Federal Senate, called the Temple of the Elder!

At this time, in the main hall of the Yuan Lao Dian, nearly a hundred federal elders gathered together, the lowest is the domain owners, the largest number, accounting for half.

In the other half, half of them are lords and nearly 30 people.

Among the last twenty people, there are more than a dozen cosmic monsters, and nearly ten immortal monsters!

As for the star lord under the domain lord, it is just the ordinary veteran of the Federal Senate, the number is more, inhabiting the veteran cave days, enjoying resources, but it is not qualified to enter the veteran's house!

The entire veteran temple is extremely spacious. The federal veterans who have been repaired in the vicinity of the top 100 domains are seated in order from the bottom up.

The top row is the nine immortal monsters.

Among the nine immortal grotesques, two of them are especially sublime, at the top, and the throne of the other seven immortal geeks are distinct!

Immortality is the second watershed of the starry sky!

In the starry environment, the rank of the monk is extremely strict, and the fifteenth state is the first watershed. When it comes to this place, it is called the mighty power.

After Qiankun, it is the star master, the domain master, the landlord, and the universe!

After the universe, it is immortal!

The immortality is the second watershed, because even if it is immortal, it is divided into five different levels, which are related to the starry law they understand. These five levels are ordinary immortal, and the seal is immortal. The king is immortal, the emperor is immortal, and the emperor is immortal!

At the moment, the seven immortal geeks sitting in the second row of the first row are all ordinary immortal.

The two survivors in the first row are immortal.

The immortality of these two kings is extremely powerful. Anyone who shoots one will be able to include all the other seven federal veterans who are ordinary immortal...

Including the seven ordinary immortals, the nine immortal geeks sitting on the summit of the main hall are all invisible, just a different energy light group.

But at the moment, among the two groups of energy light groups in the top, there is a voice of words, and a king is immortal, showing it...

"With regard to that sky, I have consulted a deserted Supreme in the depths of the cave, and I have some understanding!"

"That eye is really the will of the ancient era, it can be called the heavenly eye!"

"In the past, the battle of the ancient world, the heavens and the green eyes, is the commander of one side of the camp, and this camp is the winner of that battle!"

"Some of the oldest supreme and powerful powers that I am sleeping in the depths of the old caves are all heavenly and blue-eyed camps. As for the empty giant tortoise that appeared in the star of the evil, it is the peak of the enemy camp. One....."

"And in the past 100 years, those wild animals that have been sleeping for endless years have been born frequently. This is a horror. It has already been annihilated in the endless years of the endless years of history. It is coming!"

"Under the new era, the Tianji people can only be a joke. Perhaps the Wanluo Federation will not save this place, but I am a veteran, but I will not collapse!"

"At this time, the team is very important..."

"Go, send an immortal, will make the fox enchanted, as a dedication to our team's eternal commander... vote!"

Chapter 3933: Immortal

Whether it is the heavenly eye, the ancient wilderness of the ancient or the ancient power level, it has appeared too frequently in the recent period!

In this case, the ordinary people, ethnic groups, and some low-level star powers in the three major star planes may not feel anything.

Not at this level, the sharpness of thought is naturally far worse than it seems, too dull.

But for the three major planes and the core elites of the top forces, the blood ancestors, and the federal veterans like the Federal Senate, this abnormal situation made them wary and realized that one A completely different era may be coming soon.

There was not much known about the secular level of the three planes in the battle of the ancient world. Many secrets were annihilated in the long river of history.

However, there are some records in the ethnic groups and the top-level powers.

The legendary far-flung floods will eventually come back in full.

The real reason for the battle of the ancient world before the distant years is that the present world is no longer known, even in the tribes of the major ethnic groups, there is no detailed record.

As for those who have lived from the ancient times to the present, and squatting in the empty space to recover the wounded, the ancient creatures who have lost their lives in the void are all silently silent, no one will mention it, no secrets!

But one thing is completely certain. At least the core veterans of the Senate have already fixed this point.

That is the distant era of the ruins. Although it has suddenly disappeared suddenly in the long river of history, so many modern peoples and ethnic groups in the secular level even suspected that the so-called floods really existed. Over.

It has long been a legend, illusory, giving people an unreal feeling!

But the real high-level people understand that the floods not only existed, but even the unfolding battle of the world, directly ruining the entire era of floods, so that the two horrible camps with the faults of the rivers and the rivers are not completely annihilated in history. .

Even the defeated party has a large number of embers to survive, and one of them has only recently become a giant turtle in the star of the evil.

Even the defeated party has been so active in the world, and the ancient sage is born out of the world. Then, when the victory of the Tiandao Qingyan side camp, do you still have to say more?

After the vicissitudes of the past, Tiandao Qingyan must have all kinds of arrangements. The purpose is to make a comprehensive rise in the era of the floods after the endless years, such as the full rise of the camp. For example, the battle of the emptiness of the smoldering furnace is the battle of the year. One of the following arrangements!

For the core veterans of the Federal Senate, when they realize that the legendary era of the ruins, and soon after the full-scale approach, how to stand up, obviously becomes the most important issue before the eyes.

Compared with this, the original intention of the beginning of the establishment of the Federation of Varo, that is, the mission against the heavenly family, has become extremely pale and weak.

On the one hand, the Tianji nationality is weak now, taking the initiative to avoid the world, and has moved the family!

On the other hand, it is because in the context of the flood of the world, the once-inferior tyrants of the world, it really makes people feel a little too bad!

It can be said that for the core veterans of the Federal Senate, the biggest problem of their minds before is the Tianji, and now everything has changed.

What worries them the most is how to cope with the great era of the future that will soon be fully realized!

On the issue of the station team, they have no choice, because the tens of thousands of years of the Federal Senate have searched and wooed, and the endless resources are dedicated to the ancient sages

and the dozens of ancient powers in the depths of the veteran cave. One exception, all are the Tiandao Green Eye camp.

Therefore, when it comes to standing in the queue, they can only choose heavenly eyes.

In fact, even without this factor, the core veterans of the meeting at this time will choose the same way, because this camp, in the era of the ancient world, is, after all, the victorious party!

The meeting was soon over, and the core seniors of the Senate were all approved by the whole vote. They reached an agreement: they shot the magic star, forced the younger fox to appear, and then took it down as a name, through certain channels... Hand in the sky and green eyes!

After all, what happened in the starry field of the evil is enough to prove that the fox and the giant tortoise are the same, and the empty giant tortoise can almost be said to be the heart of the eye.

On the one hand, the cause of this evil source is the tossing of him, and all the products in the furnace are swept away by him.

On the other hand, he is, after all, a sacred sage who lived in the world. In the battle of the ancient world, he was also one of the few heroes in the enemy camp.

For Tiandaoqingyan, the value of the virtual giant tortoise is almost incalculable. I am afraid that even if it is at that level, it is extremely urgent to hope that the giant turtle will be in the hands!

The Federal Senate naturally did not dare and did not have the strength to shoot the veteran of the Void Giant Turtles, but it was only a squad that was not even repaired by the Qiankun, but it was completely different.

That guy is indeed a big enchanting in the world, but after all, he has not yet grown up, even if he means to go against the sky, under the absolute strength of crushing, he must be able to bow down.

To this end, the Federal Senate can be said to spare no expense, this time after the secret meeting, the first time there are four figures tearing away.

An ordinary immortal, three cosmic monsters!

Destination... The first universe, the ancestral home of the devil's group: the magic king!

.....

Magic King!

Two days have passed since the end of the evil.

In these two days, the three cosmic planes are awesome, never awkward.

First, Tiandao Qingyan sent a celestial eye to the second universe. In a rage, the demons of the demons were wiped out, and the 20 million squares of the universe were completely destroyed.

Then, the second universe of the unilateral unilaterally issued a statement to all forces and ethnic groups in the three major planes, and withdrew from the Federation of the Bandar.

And the Federation of Viro, in spite of this strange silence, did not have any expression...

In these cases, Ye Xuan has already been expected, so I am not surprised and shocked.

But somehow, since yesterday, he has always had a kind of hunch in the midst of it, as if there is something big to happen.

The thing that allowed him to give birth to this kind of intuitionary warning is definitely not a happy event. It can only be a bad news. To this end, Ye Xuan is restless all day.

It was also at this time that the original calm emperor star, but a steep breath, seemed to have an invisible horrible pressure, and suddenly came without warning, and the whole huge star shook a little. .

Ye Xuan stunned, when he looked up, the light suddenly condensed...

This is... immortal pressure!

Chapter 3934: catastrophe

"Booming..."

In the void, the thunder and the thunder burst, and a void crack was torn open without any warning. The sound of the cracks rang through the magic king Samsung, one emperor and two guards on three stars, countless demons and ordinary demons looked up Days, look stunned, shudder!

The Void Crack is located within the inner circle of the Magic Emperor Samsung. The presence of the advent is directly ignoring the Defence Samsung's internal defense defensive array, as if they were all in vain.

In the next moment, the figure of the four old men came out of the void crack. Although the human form was revealed at this time, there were two figures that were obviously full of blood and anomalies. These two are obviously not human, but other ethnic groups. In the form of metamorphosis, the ontology should be the kind of race with a large body, and the abundance of blood is the greatest feature of this kind of life.

As for the cultivation of strength, these four figures are all extremely terrifying.

An ordinary immortal, three cosmic monsters!

It is the core veteran of the Federal Senate from the third universe of immortal stars.

The purpose of coming to the demon emperor is to make the squad of the fox, and as the name of the squad, take the line of the celestial green eye, for the time of the flood that will soon come to the full extent... stand in advance!

This time, although the Federal Senate has only four core veterans, but for the Emperor Samsung, these four figures are enough to crush everything. If they are willing, the Emperor Samsung will completely collapse, so this is not the case. Save!

The devil's group does have its own heritage, and the underlying is still extraordinary. It is not comparable to the space mouse and the **** ant. But before Ye Xuan passed the words of the emperor Mo Zhentian, he has roughly judged a situation, that is, the devil. This kind of heritage of the Terran does not seem to be in the magical emperor, but in an unknown independent void.

Moreover, this foundation seems to have something to do with the source of the devil's ethnic group. After all, Mo Zhentian is already a generation of demons, but he only has the cultivation of the main level, and the realm of the world cannot be a demon. The true heritage of the human race.

Even the devil, Mo Zhentian, is not in the magical star, but has already entered the unknown independent void.

In fact, even if he is here now, it does not help at all. A landlord, even if it is the ninth-order consummation of the world, has no meaning at all.

"call out!"

"Hey..."

The sound of the emptiness sounded, from the inside of the Emperor Samsung, a glimpse of the figure, came to the atmosphere of the Emperor and the second guard, all of them are the great powers of the Qiankun and the stars, there are more than one hundred, this has It is the demon group and now stationed in the high-end combat power of the Emperor Samsung.

As for the magic man who is below the Qiankun border, under this immortal pressure that only slightly leaks out, it is simply impossible to face it.

At the same time, in the Star Trek dock of the Emperor Samsung, a large number of large and small fortresses rushed out, arrayed in the void, and the gunshots of the guns pointed to the four figures standing proudly in the void.

These fortresses include both intelligent robots and lower-level magicians. The reason why they have not been affected by the immortal pressure is that the four figures that came on the one hand did not fully exert their pressure. The energy shield of the fortress also has a certain protective effect.

But all this is just the appearance. The four surviving beings are too powerful. At the moment, they have never been convinced. Once they are angry, they are afraid that the catastrophe will come soon!

Above the void, the four descending figures looked at it all coldly, totally unmoved.

The power of this level simply cannot shake them.

In the scorn of a smile, the most pretentious immortality is cold and cold, but the voice is not big, but it is clearly and incomparably introduced into the ears of countless creatures in the Emperor Samsung: "The devil, I am Shen Rong, the federal veteran The immortal veteran of the court, the limiter and other time to hand over the fox enchanting, otherwise, the demon genie is extinguished!"

Within the Emperor Samsung, countless demons and ethnic groups have changed. Most of them, even the vast majority of them, do not know what kind of realm is immortality.

But just from the other side dare to talk so, one time does not pay, immediately see the entire demonic group of ethnic groups, this so-called immortal, is absolutely terrible.

For a time, the voices of various arguments lingered in the Emperor Samsung, and the foxes and the devils were allied together. Nowadays, the three major planes are known. Therefore, as the strong or ethnic group of the devil's group, They are naturally aware of it.

However, limited to the level, these existences are extremely limited. They are basically those that are open to the outside world. They are related to the deep ally of Ye Xuan and the Devils, not to mention the underlying power of these ordinary devils. Some of the more common members of the Devil's Royal Family are not qualified to know.

The devil, it is impossible to give up this ally. In this regard, the emperor Mo asked Tian and other high-ranking demons to know the truth, but the bottom people and the strong people below do not know, and the whole demonic group Compared to survival, what choices they will make, this is simply no suspense.

Although these bottom-level people can't control anything, public opinion and people's hearts will be affected...

"The fox lord is allied with my demonic group, but now it is not in the magic king..."

Resist the anger of the heart, the Emperor Mo asked Tian Shensheng: "Even if he is in the magic king, my devil royalty will never hand over the ally, this thing you seem to cross the border I want to know, my devil, but not your federal member!"

"Whether the fox is in the magic king, the deity does not care, it is the problem of your devil!"

Shen Rong sneer, still threatening, tone tough to the extreme, very resentful: "The deity only knows that if an empire is not handed over in an hour, today, this magic king Samsung will not leave the chicken. In addition... .."

"Given the fact that your devil's consciousness is not enough, it seems that the situation in front of you is not clearly recognized. The deity feels it is necessary to give you some disciplinary, devil, persuade, etc... Don't make a mistake!"

At the end of the day, the voice of the immortal singer Shen Rong suddenly turned sharply, and it was at this moment that it was a slap in the face of the cold.

The contemporary demon emperor Mo Wentian, who had not waited for dialogue with him, and the high-ranking devils of the royal family behind him returned to Shen, Shen Rong had sneered and raised his right hand.

Across the hundreds of thousands of miles away from the starry sky, the size of the array is rapidly gathering outside the atmosphere of the Emperor Samsung...

"boom!"

"Booming..."

The shocking sound of the explosion sounded silently without warning. It was just a casual shot of the understatement. In the outer space of the Emperor Samsung in front of hundreds of thousands of miles, hundreds of huge fireballs were instantly exploded.

More than 100 large and small fortresses with a diameter of 50,000 meters and 100,000 meters were completely blasted and the ship was destroyed!

The void of the small half of the magic king Samsung's internal defense line has been illuminated, and the fire is rushing. This scene is like the real starry sky catastrophe...

Chapter 3935: Years of war

With a single blow, understatement, but across nearly a million miles of the void, more than a hundred large and small fortresses instantly blasted into a huge fireball in the sky, completely destroying the ship!

This scene is too amazing. There are countless demonic strongmen and ordinary ethnic groups in the Emperor Samsung. They have not understood the so-called immortality. They don't have a clear concept, but now they see Shen Rong. After one shot, they finally understood the meaning of the word immortal.

What is the tearing battleship?

Everyone raises their hands casually, and more than a hundred star fortresses are instantly destroyed!

This is simply a miracle, just like the real starry sky catastrophe!

Such a horrible existence absolutely has the ability to destroy the Devil's Samsung. The words that have been said to kill the Devils are not exaggerated at all!

A very strong panic sentiment grew rapidly in the Emperor Samsung, rendering it, people's hearts, people's hearts are unstable...

The magical space outside the atmosphere of the Emperor Samsung, other large and small fortresses and star-ship battleships, are still rapidly gathering, arrayed in the void, densely packed, with millions of ships.

It seems that the camp is majestic, but in fact, all the demonic powerhouses in the battleship are all shuddering, both physically and mentally!

Even the star wars that stayed in the magic star have been arranged, and the huge warlord is facing Shen Rong, but unfortunately, let alone these few star wars. A spiritual war can be activated, and everything else is fake. Even if it is all true, I am afraid that it will not pose a threat to the existence of immortality.

It can be said that even if a generation of magical emperor Mo Zhentian comes in person, there will be no shocking effect at this time. Unless there is a vain atmosphere in the bottom of the demon people's group, there is an immortal level to wake up from the slumber...

At this moment, the contemporary demon emperor Mo Wentian and others have already witnessed the splitting. Unfortunately, although their own camp is huge, the power is not at the same level. The enemy has only four figures, and the raised hands are so arrogant. There are hundreds of large and small fortresses in the devil, and a group of demons and royals, but they dare not resist.

Heartless and powerless!

And that kind of resistance is not only futile, but if it provokes the other's anger, I am afraid that there will be more serious catastrophe in an instant!

It is impossible for the fox lord to hand over, but for the safety of the tribes, the tops of the demons and royaltys can only endure even if they are angry again.

Can be dragged for a while, the other party is immortal, and said that there is a time limit, you will not renege... A group of demon royals, all of them are trapped in thinking, thinking about the countermeasures.

It was also at this time that a sudden and unpredictable voice suddenly came out of the atmosphere of the Emperor's Star, with ridicule and contempt, and more intense to suppress the wrath of the sky.

"Hey, immortal old monster? Is it a big official..."

With the sound of this voice, a figure rushed out of the atmosphere of the Devil's Star, and the body crossed the void, and the eyes flew to the front of the Devil's camp. Even the contemporary Mo Huang Mo Tiantian and others Located behind its figure.

This person is Ye Xuan who came as the devil's emperor Mo Zhenfeng.

Under the shackles, the slang words in Ye Xuan's mouth once again came out: "You Wanluo Federal Senate can really have a good future. The second universe is clamoring to withdraw from the Federation of Varo, and the fire in their backyard. The civil unrest can't be settled, but I ran to my devil's star and came five people and six. Is it true that my devil's ethnic group is gone?"

"boom!"

In the last sentence, Ye Xuan's tone suddenly turned sharply, and the wave of battle was smashed out. The other battles were not intended to be used. Even the sorrowful war, for the existence of this immortal level, fear It doesn't make much sense. Only the power of the years may be able to shake.

At least, it can make the other party a little jealous. After all, at the beginning, Ye Xuan once killed a star lord with this time.

Although the star's main territory and the immortality are incomparable, the former is almost no different from the ants in the face of the latter, but after all, Ye Xuan is now a great power, plus the tens of millions of gold slimes in the years of war. During this time, it also grew slightly, so the power is not comparable to the last time.

In this regard, although Ye Xuan did not have full control, even 50% did not, but as long as there are more than 30% of the possibilities, he is worth a try.

"Magic enchantress... Mo Zhenfeng?"

The face of Shen Rong's face was obviously a glimpse. Ye Xuan looked up and down a few times. Finally, at the foot of Ye Xuan's behemoth, the whole body of the golden age of the war glanced over, and the smashed flash of a touch of fine mans.

Sneeringly said: "The ants like the ants, dare to talk to the deity so much, are you not afraid of death? Or do you think that the so-called little war at your feet can provoke the prestige of immortality?"

"What about immortality? This so-called little warlord can not kill the star lord at the beginning, and today may not be impossible to make immortality!"

In the face of the threat of the other party, Ye Xuan did not show weakness, and did not let it step by step. He even showed the meaning of counter-attack: "If you don't believe it, you can try it. If you can't do it, you will be bullied and come to your doorstep." My devil's group is not a soft persimmon that is arbitrarily arbitrarily swayed. Even if it is difficult to escape, let you take some injuries and swallow your face!"

"presumptuous!"

Shen Rong was furious and the body breath suddenly stirred up, which is clearly a sign of the upcoming shot.

Behind Ye Xuan, the contemporary demon emperor Mo Wentian and other democrats of the royal family, have been dumbfounded at the moment, they did not expect Ye Xuan actually dare to show up, and after the appearance of this, it is so Strong, actually did not take people's immortal grotesque as a dish.

As for the huge rear fleet, and the countless devils on the magic king Samsung, they have already been stunned and bombarded in the brain. The mysterious demon emperor is known as the demon enchantress. Mo Zhenfeng, it is too daring.

People have just warned that he jumped out is a direct hard, this temper, is simply a demon king.

In fact, for this so-called immortal eccentric, Ye Xuan really does not catch a cold at least, at least, there is not even a trace of awe.

In the previous misfortunes of the source of evil, he saw the immortal geeks with his own eyes. Under the guise of nine **** scorpions and other ancient powers, they fled like a mourning dog.

It's just that scene, it's hard to let him re-impose the so-called immortality.

What's more, in that incident, the Void Giant Turtle was later like an ant, and even the quasi-wild power and the real wild power level existed, and many of them were killed. Ye Xuan was at close quarters. See, unconsciously, the horizon is far from comparable.

At this moment, seeing the other side seems to be shot, Ye Xuan will be a heart, biting his teeth and making a screaming violent voice...

Chapter 3936: Forced to resist

"The battle of the years... full force!"

Seeing the other side is about to shoot, Ye Xuan does not want to lose the opportunity, under a violent drink, he even made a command to the Zijin Slim in the war, and launched a full blow!

In the core node of the central area of the war, the Slim king of the whole body of Zijin is huge and full of three feet. When Ye Xuan's cultivation was weaker than it, it never had disrespect. Now, let alone say more.

With the instructions of Ye Xuan, Zijin Slime did not hesitate, and immediately launched an action...

"Hey!"

A very slight humming sound rang, and a circle of invisible ripples spread out of its body, plunging into the walls of the core honeycomb nodes, and along the pipes connected to the outer wall, it was instantly transmitted to the thousands of years of war. Among the hive nodes.

At this moment, the tens of millions of gold slimes in all the hive nodes are all in shape, and the long golden thread under the belly bursts into the luxuriant, and then the whole body is golden.

These Jinmang are actually the biological wave frequency of the gold slime. If it is only one end, it will not be a climate, but the number of gold slime is more than one, and the layers of gold curtains overlap each other and gather together.

Eventually, from pale gold to rich golden color, if it is spiritual, it rushes into the four walls of the honeycomb node, and traces back along the outer wall of the pipe. In all directions, toward the core honeycomb node where Qiankun slime is located, mad Come in!

All of this was done in a short period of time, much faster than the previous one, and Ye Xuan's mind was set, because it shows that the entire gold Slim group's life level has improved.

At this moment, in the interior of the war, there are tens of millions of gold Slim's whole body Jin Mang masterpieces, outside the years of war, but there is no trace of traces.

In just half an instant, the rich golden mantles gathered from thousands of honeycomb nodes all came together. After entering the core honeycomb node, this core honeycomb node located in the central area of the ninth circle inside the huge bell mouth of the war. Point, it suddenly shines.

In an instant, the core honeycomb structure with a diameter of three kilometers is completely transformed into a golden world. At the same time, a wave of waves like a tidal golden cymbal spreads along the war, and the huge bell mouth is positive. In front, a golden fan-shaped ripple is derived.

From the foot of Ye Xuan, standing proudly on the edge of the Lakou, he quickly expanded forward, like a golden tide, silently, forward... push away!

Everything happened too fast, and they simply couldn't let them have time to react. When they were shocked, this singularly demon king who was not afraid of fear was already shot.

The situation has changed so quickly, even the contemporary devils, Mo Wentian and other democrats of the royal family have been caught off guard. For a time, they were all dumbfounded, their brains banging, and collective petrification!

"It turned out to be the power of time!"

With the appearance of the first wave of golden years, the speed of the squadron was launched, and in the void in the hundreds of thousands of miles away, the four super-comic geeks all changed slightly.

They had only heard of the Star Wars of the Devils, and they also knew the golden war, so that they could send out the tides of the time that were suspected of the law of time.

Even there was a star lord, who was almost killed by the three waves of the tides of this age.

But after all, I have never seen it with my own eyes, and the law of the sky and the sky is the most mysterious force of law, let alone the ordinary immortality. Even if it is immortal, I have never heard of any one who really grasps it. The power of the law of the stars.

Therefore, for the outside world about the golden tide of the golden war, the four of them actually have a suspicious attitude, not all believe, and it is very likely that they will be rumored.

But now, when the first wave of tides really appeared, the four talents suddenly amazed and exclaimed. Even the immortal grotesque, in the face of the power of the law of the sky, did not dare to scorn their front.

But it is too late to retreat at this time. With the rapid approach of the first wave of tides, this corner of the void seems to have been banned by some sort of mysterious time force, they can only resist.

"Hey, what about the power of time? The level is high, but the power is still too weak..."

A cold cry came out, Shen Rong activated the bloodline in the first time, and revealed the ontology. As the voice of the word came out, a large-scale Lanze fire figure with a size of 100,000 feet appeared in the void.

Among the three cosmic monsters behind him, one is also an alien. At the moment, it also shows the body, which is a giant tiger with a huge body.

The other two are obviously human races, and there is no way to manifest a huge blood itself, to abundance to the horrible flesh and blood to resist the erosion of the tides of the years.

In desperation, the two can only wave their own defenses, and the brilliance of the two brilliances rises and rises, and the two people's physiques are completely covered and protected.

Although in their view, the strength of this tide is indeed weak, a wave of tides only eroded the power of 10,000 years of age, but after all, its level of power is so high that it is scary, this is the law of the sky and time. force.

In addition, this is only the first wave of tides. Who can tell the tide, how many waves can the golden war in front of you send?

At this moment, this corner of the void has been temporarily banned by a mysterious time, they can not tear the void to avoid, in case there are five or six waves of tides, then it is really troublesome.

Therefore, even if it is rainy, it must be treated with caution at the beginning!

"Oh la la..."

It was also at this time that the first wave of golden tides rushed out of the huge ramen after only a short period of time, and it had already rushed to the front, with the faint years of roaring, from the four super old On the strange figure, whizzing past...

Chapter 3937: Five thousand years of gold

In the blink of an eye, the golden fan-shaped tide that represents the power of the years has completely covered the corner of the front, and some mysterious power has been dispersed for the first time, making the four super old monsters completely stagnate. The shape is like being banned. It is fixed in the void and cannot be moved.

Unfortunately, the first wave of golden tides did not seem to have much impact on the four super monsters.

The forefront of the Lanze fire elephant even the huge blue face of the huge body of 100,000 feet is still the same. As for the three cosmic monsters behind him, although they have been affected, the two The strong people of the human race are just the halo of the defensive magic weapon that protects the whole body. It is slightly lighter, and the other is the tail-tail tiger. The breath is a bit old...

That's it.

But the second wave of golden tides that followed, in a moment of less than a moment, has already come to the fore!

As the second wave of tidal waves passed, it was the eternal years that passed away.

This time, the Lanze fire is like a huge blue color on the surface of the real body, slightly dimmed.

Among the three cosmic powers behind him, the two human geeks guard their own magic light halo, which is extremely bleak, like the candle in the wind, always extinguished at any time.

After all, in a short period of time, these two defensive magic weapons have experienced the erosion of 20,000 years of age, even the cosmic monsters will be overwhelmed.

As for the arrow-tailed tiger, its huge body is suddenly and quickly grayed out, and it is not half-baked. The gray hair that covers the entire surface of the giant body is flying out of the body and quickly becomes Gray spotted dust, completely dissipated.

In a short half-short, the eternal years passed silently, but the four super-funny cultivators did not climb up in a breath, waiting for the eternal loss of life.

Although he did not let him fall on the spot immediately, he did not even let it be weakened with strength, but this is just the second wave of the tide of the years.

It's just that the two waves of the waves are not able to survive, and it's lost for a long time.

There was no pause, just as the wave of the second wave of the moon was still far away, at the source of the inner corner of the entire golden sector, the third golden ripples and ripples visible to the naked eye had whistling ruthlessly from the mouth of the bell. coming.....

"Hey!"

This time, the front of the Lanze fire like the huge 100,000-foot real body watch, and finally began to have a piece of indigo skin peeling off, even if the immortal level exists, in a short period of time, experienced 30,000 The ruthless erosion of the years, although there is no flaw in the body, but the skin of the epidermis, after all, is still a bit unbearable.

Seeing this scene, and the third golden tide is approaching, flowing through the body, the arrow-tailed tiger, which has long been unable to move, and the other two cosmic monsters guarded by the magic weapon, the face ends The ground floated out of uneasiness, and the two eyes became frightened and confused.

Ten thousand years!

Even if the universe is old, the number of birthdays is endless. There are many waves in the tides of the years. They will completely aging in the golden ripples of the road. In the blink of an eye, the tens of thousands of years will be lost. Decay and swear!

It was also at this time that the tide of the third wave of years finally came to the front of the three of them, and the golden ripples visible to the naked eye rushed through the bodies of the three super strange monsters.

After the tidal wave of this wave of years, the huge body of the arrowtail tiger is like washing the lead, and the body of the dying is finally beginning to fall. The surface of the gray body is flesh and blood, and in the end, countless flesh and blood are taken from the body. Stripped out and turned into dust, and the smoke flew out.

The cosmic grotesque of the two Terrans are similar. As the tide of the third wave of years has passed, the magic weapon of the candle in the wind has already faded and flashed twice, and it has completely disappeared.

This not only means that their flesh will be directly displayed under the eclipse of the next wave of tides, but also means that these two cosmic eccentrics, in this short two instants, They have each lost an important magic weapon.

Three wave years of tides, 30,000 years in the short two instants in the two defensive magic weapons, has long lost its power, fear that it is no longer possible to go back to repair and condensate!

And this is just the third wave of years and tides... Next, there is the fourth wave!

Previously, Ye Xuan's years of warfare could only issue three waves of golden tides that represented the eclipse of the years. Even the third wave was incomplete, and Wei was slightly worse.

But that was before, now it is different!

"brush....."

The faint waves of sound rang, and the fourth wave of golden tides finally came.

This time, even the immortal old blame Lanze fire has changed a little. He is immortal, but in a short two-time period, after four thousand years of passing, although still can not hurt the root, but Absolutely close to the undead also has the situation of delamination.

In fact, it is true. It has a faint blue luster, but at this moment, it has already faded into a huge real body watch. This time, apart from the large blue skin peeling off, occasionally somewhere, even a large piece of flesh and blood, Started the ablation.

As for the three cosmic eccentrics behind him, the two old guys who lost their defensive magic weapon were instantly changed. The whole person was suddenly alive and well, and the wrinkles appeared on

his face. His hair was dry and the skin was dry. Like a dry corpse, even the original brilliance of the scorpion, it is also faint.

The Arrowtail Tiger is even worse!

When the tide of the third wave of years came and he passed by his body, his body has already exposed some blood.

At the moment, with the arrival of the fourth wave of golden tides, in less than half a moment, this old-fashioned arrow-tailed tiger has already eroded and eroded, showing a lot of white bones and internal organs, although not in this fourth wave. Under the erosion of the tides of the years, completely annihilate!

Its breath, but it has weakened to the extreme, cold and stunned at first glance, just like the same old and decaying old and decaying tigers, it is already a dying year, and it is dying.

But after all, he still saved his life.

Unfortunately, this is still not the end.

After the tide of the fourth wave of years, there is still the fifth wave and the last wave. This is the limit of the years and years.

It is really impossible to kill the immortality, but it can make the immortal suffering, at least, after the blood and blood of the body is manifested, it still falls into the unbearable shape of this body flesh and blood mass, which is definitely a face-lifting. .

For the three cosmic eccentrics behind the immortal Blues fire, this is the fifth wave of the coming tide, but it is absolutely life and death!

Especially the arrow-tailed tiger, under the fourth wave of gold tides before, is already dying, and now the fifth wave of tides is coming, a cosmic eccentric seems to have fallen...

Chapter 3938: The tragic death of the universe

The Arrowtail Tiger is undoubtedly unlucky. Facing this golden wave, which represents the golden tide of the erosion of the years, he is among the four super-old monsters, and it is most likely to fall.

The immortal Lanze fire like Shen Rong does not have to say, even if the 50,000-year-old has flowed through his **** body within a short three-degree, it will not really hurt him. fundamental.

It's just that the skin of the huge **** body is peeling off, and some large pieces of flesh and blood are a little melted.

At most, it is a skin injury!

As for the three cosmic eccentrics behind him, the cultivation of the two human races is stronger than the Arrowhead, but it is the middle of the universe.

In the past, there was a defensive defensive power to resist the erosion of the first three waves of the tide.

However, the Arrowtail Tiger is completely self-cultivated from the very beginning, and the rich blood of the blood and the body is hard to resist!

The cosmic eccentricity is indeed extraordinary. The hard-won life has resisted the tides of the previous four waves. The 40,000 years passed by on its body in just two short moments, and it failed to make him fall on the spot.

But... it's almost gone!

Today, the fifth wave is also the last wave of tides.

"Is there still? This..."

This time, even the blue-fired image of the immortal level is not calm, the look is changing again, and the long flaming elephant trunks almost spurt out the real fireworks, and it is grievous.

If it is not this kind of tidal wave that comes with some kind of imprisonment effect related to the power of time law, he is so immortal, he will be so wronged, can only be stupid to resist this kind of injury?

Not until the words fell, the fifth wave of tides, has been smashed from the body of the Lanze fire.

He still didn't hurt the roots, but it was huge to the huge blood of 100,000 feet, but there was more flesh and blood that began to melt. The original whole body was blue and shiny, but now, everywhere is a pitted wound, rogue The blood of the blue gold color.

Behind him, the two old human races of the old age, the body shape have been smashed down, but after all, they have resisted, but it has obviously hurt the roots. It is estimated that the combat power has fallen. After returning, Have to wait for a thousand years to recover.

The most unbearable is the Arrowtail Tiger.

When the tide of the fifth wave was outdated, his **** body, which had already exposed the bones and internal organs, turned out to be a complete defeat.

One piece of organ fell from the abdominal cavity, and as the golden tide became a fly ash, one root was scattered and disintegrated, and it also failed to resist the erosion of the golden tide, turned into ashes, and finally dissipated!

In just one instant, the blood of the giant body has almost disappeared, and only about one-third of the bones are empty.

A cosmic eccentric... Fallen!

It's a terrible star!

This scene scared the other two people's cosmic grotesque. At this level of existence, no one is easy. Which one is not suffering for more than a hundred years of age, has today's status and achievements?

Usually, even Yu Yu is very cherished, and it will not be easy to risk, but now, a cosmic monster with the same level, but in just a few breaths, has already died on the spot.

Even if it shows the blood of the vast body, with this level of blood, can not resist the tide of the fifth wave of years, the whole blood is only half a white bone left ... This is simply shocking!

And although the two of them finally bite their teeth and resist the fifth wave, which represents the golden tide of the passing of the years, they can now be ruined, their bodies are dry, their bodies are in a state of paralysis, and they are afraid of the sixth wave. The golden tide is just coming, and the first time is the footsteps of the arrow.

With this in mind, the cosmic eccentrics of these two races no longer care about what the so-called face and prestige, the ceremonial, and the shape of the trembling slightly, the face stunned to the front of the empty leaf Ye Xuan softly begging for mercy...

"Little friends, misunderstanding, this is a misunderstanding..."

"Don't be impulsive, don't be impulsive, impulsive is the devil!"

The discourse has just been exported, and the cosmic eccentrics of the two Terran people feel that they are ashamed and embarrassed, and their old faces are red. They really do not want to export, but they simply cannot control their own mouths. At this moment of life and death, they tweeted. Out of these words, it is entirely instinctive, subconscious reaction!

Until then, the innumerable demons and powerful people inside and outside the atmosphere of the Emperor Samsung only slightly returned to the gods, one by one, the mouth of the original, although slowly closing, but the look on the face, but It's weird.

The dawn of the shadows of Ye Xuan is even more complicated, and it is impossible to describe the meaning.

evildoer!

Really enchanting!

With just a few short breaths, the three cosmic grotesques were made like this, one directly killed the starry sky, and the other two were also ruined, and the fighting power was gone. The key is that even the mind has collapsed. Quivering began to export for mercy.

This is really...what is the situation?

"The two words are heavy. In addition, you may have thought a little more. In fact, the tide of the fifth wave of the past is already the limit. The sixth wave can't really be made!"

At this moment, Ye Xuan's heart is actually bleeding. He is telling the truth, but he has not said it. In fact, after the wave of the fifth wave of the previous wave, all the gold in the whole battle Slime, who is completely weak, needs a long period of rest to recover.

This is also true of the purple gold slime, which is the king of the Qiankun.

Although this attack has made a lot of achievements and killed a cosmic old monster, the price paid by Ye Xuan is not small. In the short term, it is completely abolished...

It is a pity that he does not say so okay. When he says this, he is suspicious.

At least the cosmic grotesque of the two Terran people apparently did not believe at all. The words of Ye Xuan just fell, and they were more vigilant at the same time as they were sighing.

But the face did not dare to reveal, smoking his face and covering his face, screaming at Ye Xuan, a temperament to ease the atmosphere...

"Little friends are laughing, this... today's business, it is a misunderstanding!"

"It is a good performance, it is better to take this warla away than a small friend. Let's have something to say, if there is any misunderstanding, you can sit down and talk slowly!"

During the speech, one of the cosmic grotesque fingers pointed at the years of war at the foot of Ye Xuan, and the color of the fear of the face has not been dispersed, obviously it is extremely jealous!

"Shut up! Throwing people's eyes..."

The voice has just fallen, and Ye Xuan has not yet responded. The resounding voice of the immortal singer Shen Rong has already roared. A huge elephant symbol closely locks Ye Xuan and his years of war. , sneer again and again: "Little doll, isn't there a sixth wave? Come, the deity wants to see today, can you blast the ten waves of the golden tide, even if there is one wave, the deity also Must be you!"

Chapter 3939: do my best

There are tides in the years, for ten thousand years!

Ten waves of golden tides, representing the moment of passage of 100,000 years!

And this is the limit of immortal blame!

If there are ten waves of golden tides that continue to flow in a short period of time, flowing through the body, even this mid-term blue-fired image of the immortality, even if it does not die, it must be half-mutilated!

This point, originally only his own knowing, the limit of immortal blame, below the existence of this strength, how to seize it?

But at this moment, Lanze's fire like Shen Rong did not mind to directly say this. It was because of his heart and mind that the same golden tide, the golden starry battle in front of him, absolutely could not make ten waves. .

There have been five waves before, maybe there will be follow-up forces, but at most, one or two waves will not exceed two waves.

Even if there are two more waves, he can kneel down. At most, there are some minor injuries. At that time, once the golden war ahead is a dumb fire, the demon enchanting, including the star, is on the front of the golden war. All the magical powerhouses inside and outside the domain of the Emperor Samsung, as well as the ordinary people, will all fall down because of his anger!

Yes, as an immortal grotesque high above the top, in the previous five wave of golden tides, the image of this wolverine is indeed a big loss.

And all this is from the hand of a demon ant ant in a Qiankun environment, which is even more embarrassing and unbearable. It will even become the laughing stock of the numerous star-studded powerhouses in the three major planes.

But it doesn't matter.

These people in front of us can't escape to death today. Although their old faces are damaged today, they can only kill all the existence of this place. This matter will not be spread out.

Even if I spread it out, I lost my face, but I still didn't find it myself?

And still find it on the spot!

The damage of a small face, but there are countless stars and strong men, the funeral of the entire demonic group paid a price for this, so ... there is nothing to be embarrassed.

It can be said that at this moment, the Lanze fire like Shen Rong, although it seems to be still calm in the tone, but in fact, the heart has already been smashing the waves, even after the survival of the two surviving Terran universe strangers, he They are completely out of mind, otherwise, at this moment, they will never say the words of the other party.

It seems that the other party will be able to stop this, and will not blast the sixth wave of gold tides.

On the one hand, Shen Rong wants to kill people. Since the whole demonic group will be ruined today, the two people behind him have already hurt the roots of the human race, and there is no need to live any longer. The domain will be completely dead today.

On the other hand, the two people's cosmic grotesques are only able to please the peace of mind, but also make his heart extremely dissatisfied, and even grievances, which also contributed to Shen Rong's killing!

For all of this, the two celestial cosmic grotesques have been slightly thought out, and they have already realized that the face is full of indignation, but they dare not scream, otherwise if they are angered by this immortal grotesque, they are afraid to turn their faces and turn around. I will shoot them off!

A desperate appearance appeared on the faces of both of them, and they did not doubt that the golden warrior in front of the void could no longer blast more golden tides.

Even if there are no ten waves, just six waves, for them, they are all dead and dead!

However, the subsequent development of the matter is beyond the expectations of everyone...

At this time, no one thinks that Ye Xuan's years of war will definitely have the power to continue the battle. The five waves of tides are not the limit. Otherwise, he will not be so daring, and he will sacrifice it directly without any scruples. , preemptively shot a horrible immortal old monster.

If there is nothing, where is the bottom?

However, all people have guessed wrong, Ye Xuan is indeed awkward, but it is not the years of war.

At this time, in the face of the words of Lanze's fire, he did not have any interest in it. He even grinned, and he waved his life under the foot of the behemoth...

The line of sight also fell on the two humanoid cosmic monsters who had already been dumbfounded behind the Lanze fire elephant. He said with a smile: "Two, since it is a misunderstanding, please leave now, this king is still very good at talking. Never kill innocent!"

"Next, the king will fight the long nose friend for three hundred rounds, see your **** and declining state, or don't join in this excitement..."

what's the situation?

The cosmic eccentrics of the two Terrans face each other, and the look on their faces is eccentric.

The more Ye Xuan is so calm, the more they have no bottom!

It seems that the golden warfare of the genius of the genius can not even be the real foundation of the enchanting kid opposite, or will it be so easily collected?

This is also consistent with the rumors. It is said that the Devil's family has only recently become a enchanting talent. There are several kinds of starry wars in their hands. They were dubious before, but now... the golden war Already proved everything!

This guy definitely has a backhand!

With this in mind, these two cosmic-class human races are instantly smashed. If they are in a state of full prosperity, they naturally cannot be scared away. But now the body is withered, the blood is declining, and the fighting power has gone 80%. It is difficult to recover in a short time.

Even if you keep your scalp left, at most it is a dish, it makes no sense!

In this case, why bother to make such a senseless sacrifice?

"Shen Lao, I have to go to 80% of the fighting power, leaving it is useless..."

"To the right, it is better to swear for the old man in the distance, and leave!"

Thinking of this, the two men turned their heads and exchanged a look, and each of them held a punch to the front of the blue sky fire like Shen Rong, and then stopped, and did not return to the two streams, lasing Go far!

All of this is long-lived, but it happens in a short breath. With Ye Xuan waving his hand and tying up the battle of the years, the power of the law of the sky and the sky caused by the war, the invisible The feeling of imprisonment also disappeared.

The cosmic eccentrics of the two Terrans turned their minds to the first time after perceiving this change.

It was also at this time that just as the blue-fired fire that had come back from the gods, Shen Rong's wrath was about to be shot, Ye Xuan, who was outside the vanity of hundreds of thousands of miles in front, showed a touch on his face at this moment. The color of the cockroach.

Even the voice of his words suddenly revealed a crazy atmosphere: "Long nose and old blame, today you forced the king, isn't it an immortal long-nosed old elephant? The king is going out today. And, with a certain price, it is necessary to kill you here..."

"Hey!"

Business voice is falling down.

The mouth is even more violent: "The konjac is really... the konjac is the first change!"

"boom!"

In a short period of time, its shape suddenly rises sharply, and the blink of an eye is the giant of Baizhang...

Chapter 3940: Four enchanting one

"The konjac has changed into a second change!"

"The konjac has changed into a third change!"

"The konjac has changed into the fourth change!"

"Booming..."

Within a short breath, Ye Xuan, who activated the three-headed six-armed konjac, was violently drunk, and the body shape between the blinks was already in the state of the fourth change of the konjac, and it rose to a hundred thousand feet.

That is, 300,000 meters, and a starry sky battle Ladu is equal.

As the body swells too fast, the body's blood and blood swell, even the void, have issued a rumbling thunder of thunder!

It was only the first step of the cultivation of strength, but also in this short breath, soaring to the fifth stage of the star!

The people who have changed their lives are not so fast. The tops of the demons and royals in the void behind their statures have been collectively petrified. As for the rear millions of warships, and the innumerable democrats in the atmosphere of the Emperor Samsung Ordinary people, even more like a lightning strike, completely lap!

Previously, they felt that the devil's emperor, Mo Zhenfeng, jumped out and voluntarily took the initiative to the immortal old monster, and this kind of super-existent behavior was already crazy enough.

But now it seems that everything is still not finished, and now this position is clearly the rhythm of fighting with each other!

However, the star lord dare to fight the immortal grotesque, although scary enough, but it is not as good as Ye Xuan reveals the konjac real body at this time, thus revealing some information, giving them a greater shock!

The konjac is the signature of the Taikoo Little Konjac!

The Taikoo little konjac is actually a sacred sage, but also a fox.

Now, the devil's emperor Mo Zhenfeng actually activates the blood and the body, and displays the ability of the Taikoo konjac to have it... What does this mean?

I have a grass!

For a long time, the devil's emperor Mo Zhenfeng... It turned out to be the Lord of the Fox!

At this moment, the inside and outside of the Emperor Samsung was in vain, and even the blue-blue fire like Shen Rong in the empty space of nearly one million is stupid.

As for the two Terran cosmic geeks that have already been lasing tens of millions of miles away, even after hearing the sound, they are shocked and the whole person is stupid!

Before, it was the three enchanting ones, which were the sorcerer, the sorcerer, and the Taikoo konjac!

Now it seems that this is clearly the rhythm of the four enchanting ones... I have to add a demon man, Mo Zhenfeng!

This is definitely an explosive event!

In addition to the contemporary demon emperor Mo Tiantian, and the extremely well-informed devils of the royal family, all the people in this illusory sky are all thundered.

Even the blue-zeal fire image of the immortal horror cultivation, Shen Rong, was caught off guard, and was suddenly shocked by the sudden appearance of this scene.

Suddenly glaring at Ye Xuan, now it has reached a giant of 100,000 feet. In terms of body shape, it is not weaker than the giant konjac whose blue-blue fire is like a **** body. Shen Rong Zhang's mouth is like a voice. In general, I haven't been able to return to God for a long time!

After two instants, a thrilling roar of roaring sounds from the mouth of the blue-shirt fire of the 100,000-foot...

"Let the fox, the deity wants to see today, what other means you have!"

"Today the deity must marry you!"

"Hey!"

The last roaring voice, the Lanze fire elephant was almost screaming out. As the roar of the roar sounded, a large number of blue fireworks poured out in the body. This is the unique blood talent of this family. The name of the Lanze fire elephant will come from this.

At this time, the huge body shape of the entire 100,000-foot giant is all large pieces of peeling skin and flesh and blood. The pits and squats are very embarrassing. Although they are not hurt, the state is really wolf.

Under this condition, the blue fireworks of the awning canopy emerged from the body, and against each other, the image of the Lanze fire elephant suddenly appeared.

There is also a threat of terror that cannot be described. It is rapidly spreading with the appearance of these mysterious blue fireworks. As the invisible tide is suddenly spreading, the blink of an eye is close, even with Ye Xuan. Under the fourth change of the konjac, the huge body of a hundred thousand feet was full of blood. For a time, I felt that the whole body was tight and I was about to breathe.

This is just the beginning, the immortal old monster is really extraordinary, under the wrath, the pressure will become more and more intense, in a short period of time, it will climb to a pole, although Ye Xuan has a huge scale of 100,000 feet, full of blood To the horrible fourth change konjac true body.

But if there is no accident, he still can't resist this kind of horrible pressure. As his momentum rises, he will explode and die if he breathes at most.

This is no suspense!

Although both sides are huge figures of a hundred thousand feet, but Ye Xuan's cultivation is too weak, too much, not at one level.

Just like the same body type, but one side is light cotton wool, and the other side is heavy metal. If it collides with each other, there will be no doubt that the cotton wool will face a complete crushing trend!

"puff!"

Only half a moment, Ye Xuan has been somewhat stunned. The 10,000-foot-tall konjac is just feeling like being caught in a mud, and it is sluggish, but at the moment, it seems that there is a heavy mega-peak on the body. On the general, let him not move, the three real body flesh and blood in the mouth, a spurt of a blood arrow.

"Booming..."

"puff!"

"puff!"

"boom....."

At the same time, just in the void in the back of Ye Xuan's figure, a similar sound of buzzing sounds, and there is even more explosion.

Behind Ye Xuan is the top of the devil's royal family who has been cultivated above the Qiankun area. The star owners are better, just spurting blood, but those great powers are not so lucky, though most of them are Some treasures were sacrificed for protection, but there were still a few great powers, which were directly destroyed by this horrible immortal pressure.

In addition, in the back of the void, the densely-packed million battleships, the first tens of thousands of seats, can not withstand the pressure of this immortal pressure.

The rumbling explosion of the rumble came, at least 10,000 ships of various types, which burst open at this moment, turned into a huge fireball, dotted with this piece of void, showing a cruelty of blood and fire. Gorgeous.

But this is still just the beginning.

Opposite the hundreds of thousands of miles away from the void, the shape of the 100,000-foot giant Lanze fire looks more and more, this is not the most prosperous state, only the past half of the breath is not there, this group of ants It can't be resisted.

This scene makes him feel very comfortable, and has a pleasant feeling of dripping.

After the break, his immortal pressure will reach the true peak. At this time, the Lanze fire is very much looking forward to him. He wants to see how many of the ants in the front of the sky are there and can be at his peak. Under the pressure, it is still lingering...

"Hey!"

This moment, Ye Xuan looked up and screamed, the body, a terrifying trend, banged out...
