

## Super D. S 3941

Chapter 3941: Give a life

"Hey!"

In the screaming of the head, Ye Xuan's body has a terrifying trend, and it's banging out...

"boom!"

At this moment, all the changes in the sea were combined and turned into a huge roar, which made Ye Xuan's consciousness fall into awkwardness and almost raised the left arm subconsciously.

Then, the flesh and blood of the three real bodies was originally empty, but the palm of the hand was suddenly a golden man, and a golden bow with an energy form appeared.

It is the golden bow that Ye Xuan knows about in the sea, which represents the sacred bow of the ancient yak to the strong blood.

In the middle of the bow is a double-headed monster. The wide mouth of the bow is facing the upper and lower directions, and the upper and lower parts of the bow are two humanoid creatures licking the body. The broad-mouthed mouth of the two-headed monster swallowed the feet and part of the calves of the two humanoid creatures. The joints of the bows were just their painful heads. The mouth was the place where the strings were held. It seems to be awkward, and the expression is inexplicable...

With the launch of Haotianzhu Shentong, Ye Xuan's huge \*\*\*\*\* body is filled with an invisible terrorist force, and his body shape is no longer affected by the immortal pressure from the opposite side of the void!

"What? This is..."

In fact, at the same time as the emergence of the giant bow, the immortal singer Shen Rong opposite the emptiness in the sky has already exclaimed. At this moment, he has a sense of life and death crisis

like a man's back. With its immortal cultivation as its strength, it has produced an intuition that can't be avoided anyway.

The original imitation of the body, the immortal pressure that is constantly climbing, is also interrupted at this time, abruptly stopped!

As a result, the elite of the royal family behind Ye Xuan and the army of the millions of warships were finally relieved and relieved!

At this time, the golden giant bow in Ye Xuan's hand has also changed again. A bow string formed by a number of fine gold threads twisted together, the two ends are connected to the souls of these two humanoid bodies, and then A golden energy arrow appears in the string.

At this time, Ye Xuan's scorpion also smashed a strange golden glory, his right hand extended, and he pinched directly to the bowstring of the left hand energy giant bow, holding the energy arrow and slowly pulling it away...

At this moment, all the power in Ye Xuan's body, the power of the spirit, the power of the gods, and even the unknown mysterious atmosphere that the hollow cloud of the sea is in the brain...

All of them rushed to the right hand of the three real flesh-and-blood bodies, and they fell into the golden arrow of the sky, making their golden mang, and the power quickly climbed!

"Hey..."

The buzzing sound of the energy tremor suddenly sounded. At this moment, the void around Ye Xuan's figure seemed to have an invisible wave, as if the arrow was only pulling the string, and the momentum that was emitted was already The void is affected by the general.

"Roar!"

At this moment, the strong sense of crisis that the Lanze fire like Shen Rong felt was suddenly stronger. It was so cold that it was so shocked that it suddenly shook its head and subconsciously turned toward Ye Xuan. Come.

The heart is born with a clear understanding, roaring out loudly: "陨天弓? This is the bow of the sky! You... you are Longxuan!"

"Let the fox less master, the sorrowful sorcerer, the Taikoo little konjac, the devil's emperor Mo Yufeng... plus Xuan prince, you, are you the five enchanting one?"

"How about that? The blood of the ancient night fork is really extraordinary. It is a pity that you are still too weak. This arrow may have been able to destroy the landlord, but even the cosmic monster can not kill, the deity is Immortal, you can't move..."

"Roar!"

In the last sentence, the Lanze fire elephant is almost violent, and the immortal pressure in the body rises again with the sense of crisis in the back of the bow.

"So now?"

Ye Xuan did not move, holding the bow in the left hand, the right hand string, but the mouth was once again violent!

"Hey!"

"Hey!"

A dragon, a ghost, screamed at the same time.

At this moment, the small and secluded claws hanging in his mind and the black gold dragon scales also trembled at the same time, and a large number of sources of power were extracted, causing them to become bleak and weak.

And the energy that was extracted, all went down the left arm of the flesh and blood and entered the bow of the sky.

A huge dragon of the demon dragon suddenly appeared on the top of the bow tire, and circled along the bow tire, and the light came to the Lanze fire like Shen Rong.

During the opening of the room, even this corner of the void seems to be dark and uncertain, and there is an invisible mysterious force that binds the figure of the Lanze fire elephant, as if this eye, it is forbidden!

Subsequently, the huge dragon of the illusion of the dragon, then once again into the golden bow tire, disappeared.

Then, a dark green giant claw also popped up with the movement of Ye Xuan's right hand. When it fell, it turned into a smashing giant, and hundreds of thousands of miles away from the front. The Lanze fire in the middle of the picture glanced at him, fierce.

Then, I also plunged into the bowstring that was still pulling!

"The Nether Claw? Despise the Ming? This is impossible... This is clearly the supreme magical power of the magic dragon candle?"

Opposite the emptiness, Lanze fire like Shen Rong suddenly exclaimed, although he is not a wild creature, but in the secrets of the family know some of the past, whether it is the bow of the sky or the ghost claws, or the magic dragon shadow In those days, all of them could be the supreme blood of the ancients.

Ye Xuan has a phantom body, and can display the ghost claws.

Qi Tian bow belongs to the famous sign of Xuan Huangzi. For this creation, the three major groups and the top forces have also known.

But now, the five enchanting ones, he suddenly manifested the \*\*\*\* magical power of the ancient demon dragon candle, which is simply unbelievable!

"Hey!"

"Like Fox, I have to say that you are indeed the eternal enchantment of your tens of thousands of years of life. You can rely on your own body to melt the supreme blood of the ancient and supreme..."

This time, after the Lanze fire like Shen Rong's head screaming, the tone actually revealed the feeling of emotion, but the smothering was still the same, even the murder was more intense: "Unfortunately, you have not grown up after all, Xingqiang Although there are many, but limited to their own strength, they can not play the power they should have."

"This arrow, after joining the blood of the ancient and the ancient dragons, the power of the powers has skyrocketed, and it is no longer necessary to destroy the cosmic monsters."

"You are proud of yourself. With the cultivation of Qiankun, you can use a lot of means, and finally shoot an arrow that kills the cosmic eccentric. This thing does not dare to say that there is no ancient person, but there must be no one before."

"Unfortunately, that's it. The deity is immortal, you can't move, you...and you will die today!"

At this moment, Lanze fire like Shen Rong completely strengthened the heart of Ye Xuan. This person is too enchanting. If he gives him room to grow up, he will not have a living path in the future...

Chapter 3942: One arrow is immortal

"boom!"

"Booming..."

With the immortal pressure of the Lanze fire like Shen Rong rising again, although Ye Xuan is not affected by the power of the sacred bow, but in the void behind him, the millions of arrays are open. In the battleship, nearly 10,000 ships exploded in the blink of an eye, turning into a huge fireball, reflecting the void.

As for the devils and the royal family, including the contemporary devil, Mo Tiantian, they have already avoided the rear. This level of confrontation is too horrible. They simply can't insert it. It's better to retreat to the rear and start. Other arrangements.

"Everything, it's over!"

Shen Rong re-voiced, this time, it is like a whisper, seems to want to use this kind of discourse to annihilate this eternal fascinating eternal mortal: "Under the immortal, you do have the power of deterrence, but after all, you can only stop here. It's immortal...you are doomed to move!"

"Yes? Just not enough... So now?"

Ye Xuan sneered, no longer hesitating, the voice of the words has not yet fallen, it has already spurred the brain to know the last two pieces of the treasure in the sea.

Shennong Ding!

Lei Diyin!

There are already nine pieces in the object that he knows about the sea!

Surrounded by seven small objects: spiritual source nuclear, virtual medullary crystal, 陨天弓, black gold dragon scales, ghost claws, Taikoo little konjac, and the ancient tortoiseshell that just entered just now!

These seven small objects represent the ancient powers or blood vessels that Ye Xuan obtained, as well as his cultivation, spiritual strength and so on.

Nowadays, all of them have been activated, and the power is integrated into the golden giant bow held by the left arm.

The Lei Di Yin and Shen Nong Ding, which are now activated, are located in the center of the sea. Just this position can explain the problem.

These two treasures, power is more powerful and horrible!

In an instant, the golden giant bow held by Ye Xuan's left arm has changed again!

"boom!"

A strange four-color flame transpires, and the whole golden giant bow is enveloped. The mysterious fireworks flow along the bow tires. In the end, if there is spirituality, all of them are still on the bowstring. The energy arrows in the gathering come together.

A layer of four-colored splendid flames, telescopically swallowed up on the arrow, invisible pressure, and instantly climbed a big chunk.

But this is not the end!

"Zi La La!"

The sound of lightning sounds crisp!

The golden giant arch held by Ye Xuan's left arm was suddenly filled with a golden lightning, and eventually gathered together, rushing to the energy arrow above the bowstring, and gathered at the forefront of the arrow.

In an instant, the arrow of this horrible arrow will be filled with endless blue-golden thunder and lightning, and it will be swallowed and swallowed like a poisonous snake.

At this point, the invisible pressure of this arrow has climbed to the extreme.

In addition to all the details of Ye Xuan's headless baby, almost all the arrows have been collected. At this time, the arrow is not only already in the string, but is ready to go!

"This is impossible....."

On the opposite side of the imaginary air hundreds of thousands of miles away, the body of the 100,000-foot Lanze fire like Shen Rong finally changed, and for the first time issued a sudden exclamation.

At this moment, he felt an unprecedented sense of life and death crisis!

If Ye Xuan's hand is on the top of the golden bowstring, he can only kill the cosmic monster before, causing certain damage to him.

So now, Lanze's fire like Shen Rong has no doubt that once this arrow is shot, his results today will surely fall.

After all, it was the top-ranking and ancient Supreme bloodline. In the same year, the ancient Yaksha shot at a huge cost, even an almost scorpio, and ruined a large piece of ancient heaven.

Even, when Ye Xuan was in the old prison cage connected to the valley of the Forbidden City in the inner city of the Emperor, when he was still weak, he shot a full arrow, which was able to make the missing eyes of the old prisoner For a moment, I lost my mind.

If this was not the case, the strength was not restored at the time, and the headless baby corpse was still weak. It was impossible to take the opportunity to break the ruined eye of the eye. For Ye Xuan and himself, I won a chance and fled.

Nowadays, after the cultivation of strength has climbed to the present level, Ye Xuan's magical power to lock Lanze's fire like Shen Rong has been locked in, and even fled the void. The possibilities are no longer.

This is almost doomed to his final outcome under this arrow today.

"Little friends, don't be impulsive, impulsive is the devil. Everything today is a misunderstanding! Something... Let's sit down and talk slowly!"

Finally, Shen Rong's tone has also trembled. The real crisis of life and death has come, even if it is immortal, it can only tremble, even far surpassing the fear of total annihilation of the star power.

Because everything in their place has come too hard, and the tens of thousands of years of hard work, who wants to destroy it all at once, is it annihilated?

"misunderstanding?"

Ye Xuanyuan's fine mang flashed, sighed, and finally slammed: "Unfortunately... the arrow is already in the string, I have to send it!"

"call out!"

At the time of the fall of the voice, a sharp and extreme sound of the air broke out. At this moment, Ye Xuan directly released the right hand of the golden energy arrow under the soul, and it already has the energy of the full force. The arrow spurred away in an instant, and even the void was broken, and the golden streamer smashed, and there was a black wave behind the tail.

In the void in front of him, suddenly there was a dazzling and intense gold mans.

A golden arrow spurs away from the speed of time and space, and instantly rushes to the end of the sky, destroying everything along the way, even the starry sky, is cut into two!

The trend of this arrow seems to be like a sky, breaking the sky and going...

The void shows the signs that are torn!

In the next moment, the three bodies of the konjac's flesh and blood, the splendid golden glow in the eyes suddenly disappeared, the power of the whole body seemed to be extracted in an instant, and the konjac was quickly lifted, and Ye Xuan was forced to restore humanity. form!

The golden energy giant bow, which was originally held by his left hand, also quietly dissipated at this moment, and was reinstated as a golden bow of only the size of the thumb, hanging in the sea.

And Ye Xuan's consciousness is also in this moment of extreme weakness!

"No... the deity is unwilling!"

"Hey..."

With the release of the right hand of the three real flesh-and-blood bodies, this breath of horror to the horrible arrow shot out, the opposite of the hundreds of thousands of miles outside the void, the blue elephant fire like Shen Rong, the entire huge body is not affected Controlled to tremble.

The sound of the roaring and whistling sounds resounded through this world.

In front, the whole piece of void is turned into the ocean of golden storms. The main body of this sky and arrow, when there are still more than ten thousand miles away from Shen Rong, the horrible energy storm has already brought his huge body shape. The flesh and blood, like the leaves blown by the hurricane, the pieces peeled off.

In a short period of time, when this huge golden arrow slammed into the front, Shen Rong's 100,000-foot-tall Lanze fire was like a \*\*\*\* body, and there was only one skeleton left...

Chapter 3943: Retreat recovery

"boom!"

The earth-shattering bang blew open, and the distance in front of it, a void of about a thousand miles, was almost broken, a tiny black hole suddenly appeared, and the infinite emptiness of the turbulent flow stunned, stunned the magic king Samsung inside and outside the void All the strong!

This arrow consumes all the foundations and energy of Ye Xuan. When it turns into a horror of the horror of the arrow, it not only bans the corner of the void, but also slams the immortal blame. Locked in place, can't escape.

And the golden arrow is blasting away. When it is still tens of thousands of miles away from its huge figure, the invisible horror shock wave has already made its blood of a hundred thousand feet, all flesh and blood, such as the wind. The leaves are falling and the pieces are peeled off.

Half-instantaneous, when the main body of the energy arrow hits the front, the Lanze fire has long been left with only a golden skeleton, an immortal... it has fallen.

But this is not the end. Then, the golden arrow of the horror of the horror is directly smashed, and the golden skeleton of the giant 100,000 feet is instantly annihilated together with the universe of the universe.

A powerful and immortal grotesque, completely annihilated at this point, was the horrible arrow of Ye Xuan, and there was no one left in the murder!

Absolute spike!

It all happened too quickly, but it was only a time to breathe.

In the distant sky, the two people of the universe, who are still rushing forward, are hearing the huge sound of the explosion coming from behind, subconsciously turning around.

Seeing in the eye, a blue-zeal fire like Shen Rong, who was still alive and alive before the breath, was completely destroyed by the huge blood of the entire body. At this time, it also plagued the void of a thousand miles, and the inch was broken.

They did not see Ye Xuan's scene of the sacred bow. At that time, he turned and fled, his blood loss was too much, his body shape was paralyzed, and a thought was taken before the war began. Let's talk about the area so as not to be caught in the pool.

Therefore, the two of them missed the most brilliant and horrible scene.

Therefore, they only know that the devil's emperor Mo Zhenfeng is the sorcerer of the sorcerer, that is, the sorrowful sorrow, is the Taikoo konjac... but they do not know, they are actually Xuan prince!

In this battle, Ye Xuan exposed a lot of cards, and even let Shen Rong know the amazing truth of the five enchanting ones before the fall.

Shen Shen has already fallen, with this amazing news, quietly annihilated.

The two human race cosmos that still survive today are only known about the fact that the four enchanting ones are integrated!

At this point, seeing an immortal old monster is instantly falling, two old guys scared to the sky, suddenly exclaimed...

"This is this... is this special person still?"

"Escape! Hurry!"

In the case of Cangjie's loss, the two did not hesitate, and did not dare to stop, directly tearing the void, dragging the weak and exhausted body, stepping into it in one step, and squirming away!

Until then, the tops of the demons and royal family were only able to return to the gods, and the Emperor Mo asked the first time to issue a command.

"All the tribes are strictly forbidden to disclose the details of this war, offenders... Hey!"

"Immediately send out the Fortress Army and fully open the space bridge to repair the space!"

"Since the day, the devils raise their families... all in all!"

Hearing the words of the contemporary devil, Mo Xuantian, Ye Xuan's heart suddenly became loose. At this time, he was really worried about the identity of Xuan's emperor, but now it seems that the cosmic monsters of the two Terrans should not have seen him. Offering a scene of the bow of the sky.

The Emperor Mo asked Tian to think of this for the first time. Presumably, it will be aimed at this matter, and some arrangements will be made for the strong people inside and outside the Emperor Samsung to ensure that the identity of the Emperor Xuanzi is not leaked.

So, there is nothing to worry about.

"On the side of the Magic Emperor, you are looking at it for a while, this Lord needs to leave, and you should be able to return after a few days!"

Nodded to the Emperor Mo, Tian Xuan said that the first time to start the interstellar coordinate jumping ability, the body shape disappeared.

This scene, falling in the back of the sky in the top of the command block of the top of the fortress, the demon emperor led the eyes of Chanas, let his light condense, whispered: "It has disappeared again? Any space energy fluctuations No, what is this means? The secret of this kid... It's quite a lot!"

.....

"call out!"

The faint sound of breaking the air, Ye Xuan's body shape suddenly appeared, here is the life black hole not far from the devil's star!

As soon as the figure appeared, Ye Xuan was awkward in the void, too weak. This time, he had almost all the details. At this moment, there was an inexhaustible feeling of weakness and weakness in the body. The nine pieces that hanged on behalf of the small objects of cultivation, blood and magical powers are faint!

If not now, even the realm of flesh and blood, has entered the realm of Qiankun, fear that it is simply not able to expand the interstellar coordinate jumping ability, and rush to the black hole of life!

The reason why Ye Xuan came here is to retreat, on the one hand to restore himself, on the other hand, take advantage of this opportunity to see if he can once again encounter such a broken opportunity and make his own cultivation. While recovering, try to see if you can break through again!

In the wave, Ye Xuan sacrificed Shennong Ding, stepping into it, and then urging Shennong Ding's internal domain, which will be hidden and invisible.

When the figure reappeared, Ye Xuan had already arrived at the inner space of Shennong Ding, which was in the bottom plain in the volcanic mountain of the central domain.

This time, in order to shoot the horrible arrow that annihilated immortality, Ye Xuan injected various energies into the sacred bow held by his left hand. At this time, he was in a state of deficit in all directions.

Fortunately, the resources in his hands are almost innumerable. In order to recover as soon as possible, Ye Xuan's wave of hands has taken a large number of star nucleus origins from the immortal world, and he has directly handed it over to the phagocytic system to expand energy absorption. itself.

At the same time, a large number of snail emulsions were taken out and wrapped around the body, as well as congenital yin and cold spirit liquid, as well as a small amount of \*\*\*\* ant liquid, two drops of evil source liquid.....

Finally, after a little hesitation for a moment, Ye Xuan bit his teeth, from a closed cave at the bottom of the volcano in the central domain, cut the big blood of the \*\*\*\* treasure of the purple gold emptiness mouse of the ancient power level. After the golden oyster sauce was baked with the four-color flame of Shennong, it swallowed up quickly.

This is the treasure of the ancient and powerful, with endless inexhaustible energy, which is the best nourishing thing in this state of deficit.

Soon, with two drops of evil source liquid and some of the best hunted ants and liquids that were condensed, Ye Xuan's body was filled with a raging energy river, with a hot I want to run around in my body.

And he was pale because of the seriousness of the deficit, and he finally became rosy and slowly recovered...

Chapter 3944: The peak of the early energy

I don't know how long it took, when Ye Xuan opened his eyes again, a familiar system sound was heard in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Qiankun second order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun second order!"

Qiankun second order!

Moreover, it is the practice of repairing the evil spirits of the caves, and the strength of the realm of the flesh and blood, and at the same time, it has entered the second order of Qiankun!

This time, Ye Xuan once again encountered the opportunity to break through and stand up. In the case that all the energy in the body is almost depleted to exhaustion, it will be repaired in a short time, and finally it will be repaired again, and the potential of the body will also be It was torn off a small one, which greatly increased the power of blood and broke through!

In the midst of joy, Ye Xuan's consciousness soon entered the sea of insight, and the scene he saw in the eye made him hang in the eyes of the blind man and finally fell back completely.

This time, in order to annihilate the immortal Lanze fire image, Ye Xuan added a terrifying energy to the energy arrow of Hao Tiangong.

In addition to his own cultivation and blood and blood strength, the brains of the sea and the small objects that represent the ancient gods and blood heritage are all motivated by him. energy.

At the time of the arrow, the black gold dragon scales and the dark green claws were all bleak, and Ye Xuan was worried that it would cause some irreversible damage, but now it seems that everything has recovered.

Of course, this is also because he has used a lot of top resources to make up for it. If it is for other people, go to the top \*\*\*\* ant liquid, phlegm, congenital yin cold liquid, scented lotion, and allergens. Waiting for these top-notch resources that are priceless and cityless?

In the middle of the battle, Ye Xuan suddenly felt a little bit wrong. He thought that this time the retreat was over, because the body's raging energy, formed by swallowing a lot of top resources, has nourished his body. And after repairing it as a strength, and knowing a few small objects suspended in the sea, it completely disappeared.

But at this moment, under the sudden sigh of relief, he discovered that although the energy of the hanging river has disappeared, the whole body is still hot, and there is a slight tingling in the meridians.

This is clearly a sign that the drug utility of the top resources has not completely disappeared.

"Is there not to be? This is the fifteenth big world. Is it a bit too exaggerated to break through two small steps?"

In the muttering, Ye Xuan shook his head and smiled, but the various resources in the body were not fully refining. He couldn't stop here. He could only sit back and cross his eyes, shut his eyes, hold the sword, and soon again. Into the closed state, began to clean up the residual drug in the body's meridians, and thoroughly refine it!

After a small half day, when Ye Xuan opened his eyes for the second time, the familiar system prompt sounded again, and the unexpected realm breakthrough, actually came again...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Qiankun third-order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun third-order!"

Qiankun third order!

It is the peak of the early days of Qiankun!

Ye Xuan has only recently become a great power of Qiankun. Who can expect that he will enter the middle of Qiankun in such a short period of time?

With this double-level and second-order in the cultivation of the flesh and blood, Ye Xuan's overall combat power has obviously soared again.

The cultivation of the deity is in the fifteenth state, and after becoming a great power, according to Ye Xuan's deduction, in the state of activation of the blood of the three-headed six-armed Taikoo konjac, the growth of strength should still be Two to one!

Before he was in the first step of the deity, the strength of the ancient konjac bloodline was the first step of the star.

Now the cultivation of the deity is two small steps to improve the strength of the three kings, the strength of the ancient genius of the ancient konjac, the water is rising, the corresponding increase of a small stage, that is, will reach the second stage of the star!

In addition, the first four changes of the konjac nine changes, each change to enhance the strength of a small order, now Ye Xuan once entered the three-armed six-armed konjac true state, and cast the fourth change of the konjac, its peak strength It will reach the sixth stage of the horror star, which is the mid-peak peak of the star.

One more step, you will enter the late stage of the star!

This is absolutely extraordinary, but after a brief excitement, Ye Xuan quickly fell into a trough, because he once again thought of the problem of the 16th grade liquid!

When he arrives at the Grand Prix of Qiankun, he needs to take the 16th grade liquid. Otherwise, the follow-up repairs will be carried out. Although the caves are still able to move forward, they will not be affected, but the realm of the flesh and blood level is not. If something goes wrong, it will be stagnant.

Nowadays, the perfect state of the flesh and blood and the practice of the body will be broken. The evolution of Ye Xuan will spread from the two legs to the big step and become a one-legged forward...

Now, Ye Xuan has reached the third level of Qiankun in the realm of flesh and blood. It is only six small steps away from the nine-order grandeur of Qiankun.

There are six more breakthroughs, and this embarrassing situation will be in front of you and you can't avoid it!

"No, this thing can't be delayed!"

Thinking of this, Ye Xuan brows a pick, and shot a fine man in the middle: "This time, although the identity of Xuan Huangzi has not been exposed, it is a great fortune in the unfortunate, but the identity of the devil's emperor Mo Yufeng is exposed. ""

"The three identities of the fox lord, the sorcerer, and the Taikoo konjac have a lot of old debts. They have no fear before, because these three identities are all lonely, and the gangs even have revenge. And powerless."

"But this time is different, the identity of the devil's emperor Mo Yufeng is also exposed, the four enchanting one, this will certainly lead some old creditors to the door, to the devil, the entire demon group is there, basically I can't go away, I'm afraid I'll be in trouble in the future..."

"This matter has nothing to do with the devil's group. If there is anyone who dares to provoke the door, the younger master is obliged to fight them and fear, and no one will dare to come to death in the end."

"Especially the Federation of Varo, this time actually degraded an immortal grotesque, will not be good to stop, the next time you shoot, it is not an immortal grotesque."

"In this case, the strength of this young master is absolutely not stagnant. On the contrary, it must be repeated again and quickly grow and strengthen."

"So, the preparation of the sixteen-level liquid is imminent, and it is urgent!"

Having said that, Ye Xuanzhen's Jingmeng flashed again, subconsciously clenching his fists: "Exactly, this time the Federal Senate has fallen into an immortal elder, it will take a few days to see the follow-up reaction, then This young master will take advantage of this opportunity to stay in the black hole of life. In Shennong Ding, first prepare the 16th grade liquid..."

Chapter 3945: Sixteen grade liquid

Calculating the time, Ye Xuan left the Magic King and came to the black hole of life to start a retreat. Now it is only one day.

In this case, the Federal Senate has fallen into an immortal veteran in the Devil's Field, and the sorcerer and the sorcerer, the Taikoo konjac and the devil's emperor Mo Yufeng are actually four enchanting ones. It will take at least a few days to see the follow-up reaction.

Therefore, Ye Xuan decided to take advantage of this opportunity to stay in the black hole of life, in Shennong Ding, first prepare the sixteen-level liquid to say!

Otherwise, the follow-up will most likely have no time to concentrate on this matter. At that time, once the strength is stagnant, it is afraid that it will fall into an extremely passive situation!

Although the preparation of the sixteen-level liquid is not easy, but now Ye Xuan is at least half completed.

Previously, he used the blood of a phoenix bird with a quasi-wild power, and after careful condensing of the four-color flame of Shennong, he turned it into a ball, revealing the blue-red awn.

This sphere, which appears in the form of a slurry, has a diameter of only a few feet. It is a treasure of the specific type of giant phoenix bird, breaking the order chain and refining it.

After the careful condensing of the four-color flame of Shennong, the order chain in the flesh and blood of this phoenix bird collapsed completely, and the moment of the body disappeared, even in the crimson serous ball, there was even a tiny flesh-and-blood black hole. In the general collapse, it is only horrible to see the energy contained in this slurry ball.

And this is only the first step in smelting flesh and blood medicine. Ye Xuan got only half-finished products at that time, and it is not really a big flesh and blood medicine!

Now, if you want to formulate a real flesh and blood medicine, even if it is only the first stage of the 16th grade liquid, the way to go is still very long. Ye Xuan will use these flesh and blood pulp as the basis, then add each inward. A rare material and resources such as Tiandi Dibao can be obtained again and again.

This process requires him to groping and deducing. After all, the 16-level liquid has never been prepared. Ye Xuan's efforts to do it are still quite a lot, just like opening up a new road that has never been seen before. !

At that time, the size of the squad, exuding the blood and flesh of Qi Baohui, was easily divided into a hundred copies by Ye Xuan with the four-color flame of Shennong, and took out a storage box made of 100 pieces of chalcedony crystal. A hundred copies of the crimson flesh pulp of only the egg size were placed in a chalcedony box.

This hundred pieces of flesh and blood pulp represents a hundred times of preparation opportunities. If it is unsuccessful, he can only take out a \*\*\*\* and precious treasure of the ancient wilderness again. From the beginning, re-condense the basic flesh and blood pulp!

"call out!"

At this moment, with Ye Xuan waved one hand, one of the one hundred chalcedony crystal boxes was taken out from the immortal world, and the crystal box opened, and only one egg-sized green and red flesh pulp slowly floated out. The surface is covered with a mysterious glow, which is extremely gorgeous.

There are countless tiny patterns on the surface of the disillusionment, which is mysterious!

Taking a deep breath, Ye Xuan once again carefully reviewed the formula of the sixteen-stage liquid that was previously derived from the system...

Lively dry jade bamboo melon!

Wan Zai Long Zhizhi!

Immortal Starry Purple Flame Grass!

Forbidden gods and truffles!

Demon 煞霜 frost powder!

Wan Zai Hai Yan Jing!

Immortal grades 壑 fly sand eggs!

.....

These are top scarce resources, even Ye Xuan, once and for all robbery, extortion, and targeted ransom, and nowadays, it is barely enough to make up the 16th grade and 17th grade. It is only necessary to prepare all kinds of top-grade natural materials for liquid preparation.

And the amount is not much, can not afford to toss him.

Therefore, Ye Xuan appears to be very cautious. Although there are a whole hundred copies of flesh and blood pulp, even if it strengthens the efficacy of the medicine, the source of the evil source that guarantees the success rate, and so on, all of them are far more than one hundred, but these The key various treasures of heaven and earth are far from being so much.

Sixteen grades of liquid and seventeen grades of liquid are required to prepare all kinds of heavenly treasures. At most, he can barely make up seventeen or eight copies...

That is to say, this time the preparation of the sixteen-level liquid, Ye Xuan actually has only 16 or seven test opportunities, if all are not successful, then it really needs a cup!

With the heart of the cockroach, Ye Xuan takes a deep breath and waved a natural treasure that has already been prepared according to the formula derived from the system. It is taken out from the immortal world and suspended in front of the body. breath!

Then, in the volcanic flame pool not far from the front, there will be a spur of Shennong four-color flame. Under one roll, all the top herbs, crystals and other heavenly treasures will be suspended in front of Yexuan. All wrapped in it, unfolding and purifying!

In this process, Ye Xuan is concentrating on the dedication, and half of the points are not afraid of distraction, because every piece of liquid of the 16th grade liquid is too precious, and now I want to collect it completely, it is almost not too Possible.

At least not in the short term!

After an hour, all the heavens and earth treasures are melted and turned into a group of egg-sized cyan liquids. What Ye Xuan needs to do now is to combine this cyan liquid with the same volume of flesh and blood paste, and finally join A drop of guaranteed source of the evil source, as well as a liquid that boosts the efficacy of the sixteen-level liquid, after the perfect fit of the four, after the integration, the sixteen-level liquid, even if the configuration is completely successful.

In other words, Ye Xuan needs to do now, there are two steps.

One is to combine the cyan liquid with the flesh pulp, and then add a drop of all evil source and one liquid!

Then, the mixture of these four is perfectly integrated into one!

At this point, sixteen levels of liquid!

The small two steps are the key to the key. Ye Xuan is not sloppy!

Soon, a drop of evil source liquid, and a drop of scent that has been condensed by Shennong four-color flame, was taken out from the immortal world by Ye Xuan, suspended in front of the void.

Then, as he moved between the two, the top-notch resources with no price, he slowly drifted away to the egg-sized flesh and blood that had already been prepared.

At the same time drifting past, there is also the same group of eggs and the size of the blue grass and grass extract!

The four soon gathered together!

At this moment, Ye Xuan's whole heart mentioned the eyes of the blind, the gods were pushed to the extreme, and the spiritual core in the brain was overloaded.

God's knowledge, spiritual strength, and double protection, all poured into the extreme, carefully control the mixture and carry out the final fusion!

Once successful, it means that the 16th grade liquid will be available!

"Zi La La!"

"Zi..."

In the next moment, with the convergence of these four substances, the surface of the newly formed fusion object will instantly burst into a gorgeous glory, too bright, and Ye Xuan will condense and subconsciously close. Eyes, my heart is moving!

"boom!"

Just as he inexplicably gave birth to a strong expectation, a bombardment burst into the ear, letting Ye Xuan... the heartstrings trembled and sank to the bottom!

Chapter 3946: Blue sap

The first time I practiced, I ended up... failed!

At the last moment, Ye Xuan, with his knowledge of God, led the fusion of the evil source, the liquid, the flesh and blood, and the blue-green grass essence. In the end, the explosion will be completely exploded!

In order to turn a violent energy, the bottom plain in the belly of the volcano in the central domain... spread!

Although a bit disappointing, but this time the failure, for Ye Xuan, is basically also expected, the 16th grade liquid is not a fifteen grade liquid, can not be prepared with the traditional pharmaceutical preparation method, must first It is possible to succeed in the treatment of hemorrhagic meat slurry as a drug base.

This shows its preciousness. If it is successful in one time, it is simply unrealistic.

The energy of this awning blasts and spreads is not small. After all, all kinds of top-grade celestial treasures used for preparation are placed there. It is a bonsai blood pulp that is extremely extraordinary. It is a \*\*\*\* treasure of the ancient wild power. Body, breaking the inherent order chain, and then going through the sputum, the resulting after the deposit.

What's more, there are things like the sputum and even the evil source.

If this is not the internal space of Shennong Ding, the order field of the whole world can move with Ye Xuan's mind, fearing that it will suddenly blow up, he is very unlikely to be injured under the defense!

But nowadays, this is not a problem. With Ye Xuan's enthusiasm, an invisible force emerged under the launch of the Shennong Ding's order field, and it suddenly appeared, and the energy of the awning exploded in a short time. Wrapped and compressed, and finally turned into an egg-sized blue-blue ball.

It is a pity that the energy inside is very violent, and it is impossible to collect it. The various treasures of the heavens that were consumed before are completely wasted.

Even if you don't refine the 16th grade liquid, it is no longer possible to use it as the top heaven and earth treasure to collect energy.

"It's a pity that it's a shame to throw it away. It's better to keep it. All the energy that failed in the follow-up will be treated like this. Finally, they will come together and compress..."

In the muttering, the fine mans in Ye Xuan's sorrows are not bright, and they seem to be eager to try: "As a result, the accumulated energy will be extremely scary, and it will be a one-time explosive weapon. Use it, at least not waste!"

This matter is so happy to decide!

After solving this, Ye Xuan soon started the second preparation!

"call out!"

At the beginning of the second preparation, Ye Xuan waved his hand, and the \*\*\*\* meat slurry in the 100 chalcedony crystal box was once again taken out by him from the immortal world. The crystal box opened, and only one egg-sized green red The flesh and blood slurry slowly floats out, followed by the top natural treasures such as the dried jade bamboo melon, the 10,000-year-old Qianlongzhi and the immortal grade 壘feifei sand egg!

Immediately afterwards, he endured distressedness, and once again took out a drop of all evil source liquid and a drop of liquid that had been condensed by Shennong four-color flame, suspended in front of the void.

After a short period of time, the two top-quality resources with no market price will slowly drift toward the egg-sized flesh-and-blood medicine that has already been prepared, including the cyan-colored grass that is also the size of the egg. The same is true.

The most crucial part came, Ye Xuan's whole heart once again mentioned the eyes of the blind, the gods were pushed to the extreme, and the spiritual core in the brain was overloaded, carefully controlling the mixture and proceeding. The last fusion!

"Zi La La!"

"Zi..."

Soon, with the convergence of these four substances, the surface of the newly formed fusion is instantly the same as before, and the brilliance of the brilliance is extremely brilliant. This different top substance is Quickly and fully integrated.

Once successful, the 16th grade liquid will be ready!

Although the previous preparations, Ye Xuan almost did not expect success, so when the last step failed, he was disappointed, but did not care too much.

But this time it is already the second time to prepare. It is absolutely deceptive to say that Ye Xuan still does not expect success.

After all, the preparation of the sixteen-level liquid and the seventeen-level liquid required for the follow-up of all kinds of top-level natural materials, he has only a total of more than a dozen copies.

One more failure, the pressure on my heart is even heavier.

This will have a certain impact on the state of mind, and the previous few times will be over. After more than five times, it will affect the mentality invisibly. As a result, many uncertain factors will be added for the subsequent preparation.

Therefore, after five times, if you want to succeed, you will be more difficult.

And the closer to five times, the chances of success will be smaller and smaller...

With this kind of embarrassment, Ye Xuan carefully manipulates the spirit and spirit of the gods as carefully as possible, guiding these four different resources that have already gathered together for the final perfect integration!

Soon, nearly an hour has passed. In the process, this canopy is made up of four kinds of top resources to form a compact ball. The surface is always shimmering with the energy glow, so that Ye Xuan's heart trembles. .

But the end result made him completely relieved.

"Hey!"

After the continuous sizzling noise, in the end, this little ruined ball suddenly gave a tremor, and at this time, Ye Xuan's heart also gave birth to the realization, the sixteen-level liquid... finally formulated successfully!

Looking intently, in the void in front of Zhang Zhang, there is a spheroidal sphere with only the size of Zhuguo. It is obviously liquid, the color is blue and blue, pure and incomparable, and the surface is covered with a layer of blue and blue. With the halo of purple, it seems that there are countless creaks in the disillusionment of life and death.

Although the spherical blue-green liquid is inconspicuous, if you look at it, you will find that there are countless energy patterns in the interior that are flashing, appearing faster, disappearing faster, but it keeps going, it seems Can pull people's minds into the general.

This scene is like a vision, extremely amazing, and it is incredible.

But if you think about it, through this small group, only the blue-green liquid of the size of Zhuguo, a great power of the fifteenth world, can once again tear a major body potential in the body, so that the level of life can jump. Evolution, in one fell swoop, will be relieved.

"Booming!"

"boom....."

Just as Ye Xuan's eyes straightened and stared at the blue-green liquid in front of the canopy, which was only the size of the pearl fruit, it seemed to be a little lost. In the upper half of the volcano's hill in the central domain, suddenly there was a series of rumbles. The sound of the explosion is extremely dull, like thunder.

Under the sigh of relief, Ye Xuan looked up in a reflexive manner and quickly opened his mouth.

The Shennong Ding volcano was able to reach the inner belly of the volcano. At this time, a large black thundercloud was gathered in an abrupt manner. This is clearly the rhythm of the coming of the thunder.

But here is clearly the internal space of Shennong Ding. Influenced by the order field of Shennong Ding, everything inside can't be perceived by the outside world. So, what is the thunder?

Chapter 3947: Robbery

"Booming!"

"boom....."

A series of rumbling sounds of blasting, extremely dull, like thunder!

The Shennong Ding volcano was able to reach the inner belly of the volcano. At this time, a large black thundercloud was gathered in an abrupt manner. This is clearly the rhythm of the coming of the thunder.

This robbed cloud is not affected by the order field of Shennong Ding, and directly locks Ye Xuan, which is located in the inner space of Shennong Ding, and is about to drop the thunder!

To be precise, the lock of the awning cloud is actually the suspension of the leaf in front of Ye Xuan...

Ye Xuan was initially confused, and then suddenly, suddenly realized!

This group of sixteen-level liquid, just the most basic flesh and blood slurry, is the whole body of a huge type of phoenix bird's treasure flesh and blood, breaking the order chain, refined and reorganized.

After the careful condensing of the four-color flame of Shennong, the order chain in the flesh and blood of the phoenix bird collapsed completely, and the moment of the body disappeared, even in the crimson serous ball, even a miniature flesh appeared. The black hole, in the general collapse, can only be seen how horrible the energy contained in this slurry ball.

Subsequently, in the blood and meat slurry that has been successfully condensed, a large number of top-level Tiandi treasures have been added, and the sacred liquids have been used, and even the evil source liquids have been used, and they are integrated into it!

In terms of efficacy, it is even more anti-day, and can directly make a fifteenth world of great power, step into the star level!

This kind of anti-day existence, after successful preparation and preparation, triggers the induction of the heavens and the earth, so that there is a thunder robbery, which is naturally understandable.

It can be said that not only the current sixteen-level liquid, but also the seventeen-level liquid, the eighteen-level liquid, and the higher-level genetic culture liquid which Ye Xuan will gradually condense in the future will all face this problem, that is, When the liquid is formed, the thunder robbery comes.

Just like some super medicinal grotesque people in the Terran camp, when they refine a heaven and earth, they will also come to Dan.

This makes Ye Xuan very worried, because this represents the 16-level liquid that he has prepared and prepared, and the similar treasures that he has prepared and refined in the future. After the success, they all have to go through the last one. The link can be taken safely.

That is the liquid robbery.

Once you have not managed to survive, all the hard work has been in vain, and the resources will be ruined. This is really depressing.

However, the disadvantages of this matter are naturally beneficial, and everything in the heavens and the earth is all the same.

Although the liquid robbery is a hurdle, once the treasury has failed, everything has to go to the east, and it has to start again. Once again, it will face the same catastrophe test.

However, if it succeeds, it will pass through the treasure of the thunderbolt. After the baptism and forging of the thunder, the effect of the power will surely rise again. This is obvious.

In other words, the so-called treasure robbery is both a test and a chance.

Ye Xuan grew up from a closed-minded monk-like little monk to the great power of the present-day starry environment. Every time he encountered this situation, he was all facing difficulties and never retreated.

Therefore, even if this time is risky, and if it fails, it is a bit unacceptable to him. After all, the 16-level liquid material in his hand is not too much, only 12 copies.

However, in order to strive for better efficacy of the treasure, he can only accept the test of thunder and robbery.

In fact, it is impossible to retreat. The robbery cloud has already brewed almost the same. At any time, it will drop the robbery and robbery. There is no way out!

However, although this time the treasure of the treasure is quite risky, but after Ye Xuan slightly pushed forward, the original hanging to the heart of the blind man, but it soon fell half.

Because according to his deduction and speculation, this black robbed cloud gathered in the midair above the abdomen of the volcanic mountain of the central domain should have nothing to do with the external environment of the universe, but a thunder of the internal order domain of Shennong Ding. .

This is also reasonable.

After all, Shennong Ding is the eternal treasure of the era of heavy weapons. It has been verified many times before, even if it is the ancient supreme, it can not forcefully cross the internal order domain of Shennong Ding, and sense everything in Ding.

Even in Ye Xuan's view, the heavenly eye that represents the will of the wilderness will probably be difficult to achieve. At least, before it recovered to the peak of the flood season, it was basically impossible.

Under this circumstance, for the world's cosmic environment, which is lacking in the world, the so-called heaven and earth inductive power should not affect the internal space of Shennong Ding.

Nowadays, the cosmic environment of the world, although there is the law of the universe, but there is no will of heaven and earth. The era of the floods of the year was interrupted by the long rivers. Since then, the will of heaven and earth has been lost. What has existed since then is only pure The law of the universe is empty, lacking spirituality!

Since it is not the thunder of the will of the heavens and the earth, but the internal domain of Shennong Ding, its purpose should not be the real robbery, but the opportunity to take advantage of this opportunity. This group of 16-level treasures prepared by Ye Xuan just refining, with the power of thunder, once again purified forging and quenching!

So, what else is there to worry about?

Thinking of this, Ye Xuan suddenly had a big heart, and originally had some impulsiveness. He wanted to float the 16-level treasure liquid floating in the empty space in front of him. Before the thunder and robbery had come, he quickly put it into the body and lost his life. It is good to avoid the thunder, so as not to ruin the treasure.

But now, since it is basically certain that this is a natural opportunity for the fall of the pie, he naturally can't hesitate any more. Before the meditation, the blue-green treasure that hangs in front of him is dripping. Turned up and slowly rose, until finally, the volcanic crater of the central volcano has already floated!

Throughout the process, Ye Xuan has been following the trend, following the group of blue-green treasures that are as small as Zhuguo. After all, although it has been roughly inferred that there will be no problems, it is obviously not enough to say that it is completely unreliable. Maybe, how much is always awkward!

"Card!"

It was also at this time that a crisp explosion came out, and within a black robbery cloud over the emptiness above the volcanic mountain pass of the central domain, a green and strange lightning flashed down at a rapid speed.

Sure enough, the root of the green lightning lock is not Ye Xuan, but the turquoise 16th-level treasure in the distant sky above the top of the head!

This moment, the treasure thunder robbery!

Just in the gaze of his big eyes, this thick green baby's arm-like green lightning has already slammed into the blue-green treasure above the empty sky with an incredible speed. The whole group of green and green treasures will be covered directly.

And as this scene was received, Ye Xuan originally dropped half of the heart, and at this moment, once again mentioned the blind eye...

Chapter 3948: Waste energy ball

The robbery is only one wave!

As the green lightning of this baby's arm fell from the black robbery cloud, the whole piece of robbery cloud disappeared in an instant, which represents the end of this time.

As for whether the 16th-level treasure liquid has successfully resisted the thunder, it has nothing to do with the awning cloud. Its mission is simply to sense the formation of the liquid, to form a target, to lock the target, and to bomb a liquid. And then just go away!

Ye Xuan did not pay attention to the black robbery cloud that was quickly dissipating over the sky above his head. His attention was now completely behind by this shackle, and the green lightning that wrapped the whole group of green and green treasure instantly attracted the past. .

Fortunately, the green lightning quickly disappeared, but the green and green treasures that were shrouded in lightning were still hanging in the original position, and still lingering in the void.

The only difference is that after a baptism of green robbery, this group of green and green 16-level treasure seems to have a trace of thunder, and there are some tiny lightning bolts like spider silk. Is scaling the throughput.

Moreover, just like the thunderbolt lightning that had come before, the color is green and there is a deep sense of sorrow!

Seeing this scene, Ye Xuan hangs in the eyes of the blind man's eyes, and finally completely falls to the bottom, and his heart is filled with joy...

Undoubtedly, after the baptism of a thunderbolt of lightning, the efficacy of this group of green and green treasures must be even more amazing, and it is also attached with a strange green lightning property, which must have been quenched.

Under the ghosts, Ye Xuan waved the Lei Di Yin, which was suspended in the brain and knew the sea, and under the guise of Lei Di, who was spurred by Lei Di, turned around the green and green treasure of only Zhuguo. ring.

It can be seen that in this process, there is a very weak, green lightning like a gossamer, which was sucked in by the Emperor.

For this kind of green lightning that has never been seen before, Ye Xuan also has a deep curiosity, otherwise there will be no such behavior at this moment.

He has seen a lot of lightning, but the green one is really the first time to see it.

It is a pity that after this faint faint green lightning was only sucked away by Lei Di, the thunder of the thunder was claimed to be respected, but there was no change.

This made Ye Xuan slightly disappointed, but the matter was originally temperamental, and he quickly threw it behind his head.

However, in fact, even Ye Xuan does not know that, in the same moment that he will absorb the faint green lightning of this sacred silky lightning, the face of the immortal world Luo, actually seemingly inductive, slightly shaking a bit...

.....

During the wave, a crystal clear and small bottle was shot from Ye Xuan's body, and the group of green and green treasures hanging above the head were directly taken in.

In turn, the Aquarius was earned by Ye Xuanzhen and the land of income is immortal. This will be an important reference for him to enter the ranks of the stars and lords from the fifteenth world soon after the future!

After doing all this, Ye Xuan fell into sinking, but soon decided.

He is ready to hit the iron hot, repeat everything before, and smelt the second tube or even the sixteen-level liquid!

The gene culture solution does not guarantee the success of a tube. Therefore, Ye Xuan only needs to ensure that he successfully goes from the fifteenth environment to the ranks of the star owners. At least two tubes of six or more are required. Grade liquid!

What's more, there are still many strong people around him and his majesty who will need this kind of treasure in the future. For example, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru are the three gimmicks.

It's not that Ye Xuan remembers these three gimmicks. The key is that this kind of treasure is unprecedented. The three universes in today's world are only Ye Xuan. Once the three gimmicks know that Ye Xuan's hands are there, they are not. Help them prepare, fearing that they will be worried on the spot.

In order to avoid the torment of these three gimmicks, Ye Xuan felt that it is extremely necessary to plan ahead in advance, so as not to fall into their mouths!

After the decision, he immediately launched a new preparation and preparation...

At the moment, after the successful preparation of the first 16-level treasure liquid, the 16-level liquid material in Ye Xuan's hands is not too much, only 12 copies. He decided to leave three copies in his hands. In case of future needs.

After all, some of the top-level celestial treasures required for the sixteen-level fluid, some of which are also needed in the subsequent seventeen-stage liquid preparation.

That is to say, in addition to the three reserved materials, he can now use only nine copies!

However, with the successful experience of the second preparation, Ye Xuan did not dare to say that all the subsequent nine preparations were successful, but more than half of the success rate is still completely no problem!

What surprised him was that, with a total of nine materials, Ye Xuan worked hard and finally made out seven tubes of green and green treasure, plus the previous tube. Now he has eight tubes and sixteen levels. liquid.

As for the two refining wastes, they were all in the final fusion process, like the frying furnace. However, the violent energy spread by the two frying furnaces was the same as that of Ye Xuan. In general, the order of the field of Shennong Ding was motivated and forced to be compressed.

Combined with the first violent energy of the group.

After the fusion, the energy light group is still only the size of the egg, but the internal temperament has climbed several times. This energy ball, Ye Xuan called it the waste energy ball.

Just three of the sixteen-level liquid waste liquid energy together, although the power is also impressive, but Ye Xuan still feels far from the difference.

He decided to keep the waste energy ball, which is easy to use. Nowadays, there are three wastes of sixteen-stage liquid. In the future, when the seventeen-stage liquid and the eighteen-stage liquid are prepared, all the waste will be used. Liquid energy, he will collect it in the same way, compress it in...

At the end of the day, this waste energy ball will surely grow to an alarming height. It may not be known as a big killer... Of course, the premise is that each new waste energy is compressed. When you entered, they all went smoothly!

Of course, the follow-up of these seven tubes and sixteen levels of liquid, each tube is in the process of dying, all have thunder robbery!

However, as with the previous ones, the subsequent seven-time thunderstorms, seven tubes and sixteen-level liquids, all passed through. After the baptism of the strange green lightning, the quenching of the seven-pipe sixteen-stage liquid The effect is obviously better.

However, when the last 16-stage liquid experienced thunder, Ye Xuan once again became curious about this green and strange lightning.

Therefore, the green and strange lightning that slammed down from the sky black robbery cloud, was thrown out by Ye Xuan to throw out the Lei Di Yin, directly intercepted a small half, broke into the Lei Di Yin.

It is a pity that this time, the green lightning of the thunderbolt was squandered. The Lei Di Yin still had no changes, and Ye Xuan was disappointed.

What he didn't know was that with this time, half of the green lightning was captured by Lei Di, and the smog in Ye Xuan's immortal world again gave birth to a strange shape. It is a green, sinuous pattern like a spider web...

Chapter 3949: Two masters

With the last time Ye Xuan had a half-green flash of lightning that was captured by Lei Di, the smog in his immortal world had once again produced a strange shape, and the entire surface of the scorpion was full of dense The spider web is generally green and sinuous...

The two corpses of the corpse of the corpse have been revived, and they have been able to reshape the two corpses of the corpse and the ancestors. They have all fallen into a retreat in the past few days, but now this treasure has such a vision, apparently Something happened.

If there is no accident, it is very likely that it will be the third saga, and it will soon be awakened.

For all of this, Ye Xuan does not know that the immortal world is too big. If he does not immerse his consciousness in the immortal world, he has the heart to probe, or the movement inside is too big. It is impossible to feel any point of the horse at any time. trace.

After the last treasure smashing, Ye Xuan will spend the last group of Qingluo Treasure in the thunderbolt with a small bottle, and earned the immortal world, carefully preserved.

At this point, he has eight tubes and sixteen levels of liquid in his hand. Any one tube will be sent out, which will trigger a sensation like a big earthquake. After all, basically a tube of sixteen levels is equivalent to a star owner. The birth of it.

After all, this is a sixteen-level treasure liquid that has been tempered by the thunder of the \*\*\*\* Shennong. The efficacy is stronger than that of the sixteen-level liquid that has just been condensed.

Among the eight tubes and sixteen-grade treasures, the quality is actually good or bad, which is related to the concentration of the drug on the surface of the treasure and the intensity of the faint green electric awning.

The fourth tube is obviously one of the best. Ye Xuan decided to use the fourth tube after he completed the training in the future.

As for the other seven tubes, stay in your hands for the time being.

And his current cultivation has reached the third level of Qiankun, and there are six small steps to break through. This moment will come, so even if the 16th grade liquid has been condensed, but Ye Xuan's pressure is still not Small, the follow-up seventeen liquids, although not too imminent, can not be dragged for too long.

However, after this successful experience of refining the 16-level treasure liquid, and then preparing the seventeen-level liquid, Ye Xuan will obviously be able to smelt it out, and it will definitely not be a problem.

This matter is not anxious, because of the subsequent formulation of the seventeen-level liquid, he decided to carefully deduct it again, the various top-grade Tiandi treasures used in the hands are not much, just like the sixteen-level liquid. There are only a dozen copies. In case the formula is wrong, every time you fail, you have to waste a top-level piece of wood, which can't afford it.

Therefore, he decided to push the formula forward, and when the time was ripe, he began to work on the preparation of the seventeen-stage liquid.

It is the 18th grade liquid and the 19th grade liquid which is further backward. In the collection of Tiandi Dibao, it has basically been put in front of you and needs to be solved urgently.

Ye Xuan got into the heart, and his heart wondered where he could knock on it again, and this time he had to knock on the existence of the blood ancestor level of the major ethnic groups or top forces,

otherwise, even some Qiankun Power, the owner of the Star Lord, I am afraid that there will be no such thing!

Sixteen levels of liquid can make the star master.

Seventeen grades of liquid can create the domain master.

The eighteen-level liquid and the nineteen-level liquid are made by the lord and the universe.

Therefore, if you are not surprised by the preparation of these two kinds of top-grade treasures, you must at least think of ways from the hands of the Lord.

If the strength is lower than this level, it is impossible to not have it at all, but the chance is too small!

Realizing this, Ye Xuan suddenly shook his head and smiled. If it was passed to the outside world, people would know that he was a little great man. At this moment, he was wondering how to rob the world's old monsters and cosmic monsters. Falling into the eye of the eye.

"Hey, it's a good thing to improve your strength. It's really convenient and quick to develop the body of the genetic fluid. Unfortunately..."

In the muttering, Ye Xuan sighed: "It's a pity that the acquisition of resources is too painful. This is why you have to go to the lord of the landlord. In the future, you can't aim at the various races." Start?"

"Hey..."

"Roar!"

Just as Ye Xuan pondered over the matter, the outside of the central volcano in the direction of a mountain range, a whistling and a beast, the sound of the front and rear feet, suddenly came.

Listening to the static, it is clearly the voice of the Taikoo Porcupine and the Taikoo tortoise. These two indigenous beasts have previously swallowed a large number of remnants of the ancient and powerful sacred treasures, and fell into a closed sleep. It is.

And it seems to have successfully broken through, because Ye Xuan clearly distinguishes from these two screams, keenly captures the unique pressure of a strong master.

There is a deeper joy and joy!

"Roar!"

"Roar....."

With the whistling sound of the Taikoo Porcupine and the Taikoo tortoise, among the rolling hills around the volcano of the Central Region, a large number of roaring and beasts were quickly responded to the general.

Obviously, other indigenous beasts are also aware of the successful breakthrough of Taikoo Porcupine and Taikoo tortoise. This is a joy in the family. After all, the highest level of the entire indigenous beasts is the two lords. Only.

But now there are suddenly two more lords, which is definitely a huge surprise. The overall strength of the ethnic group has been a qualitative leap!

When Ye Xuan got up, he rushed out of the mountain volcano of the central volcano and rushed away in the direction of the two whistling sounds of the lord of the lord.

"Ha ha ha... little hair, have you broken through? Is it already a third-order?"

"Bad boy, it's faster than the two old guys who are promoted, it's too unreasonable!"

Not to wait for the body to fall, the mountain has rushed out two figures, the shape of the Taikoo porcupine has been reduced to the current ten feet, and the shape of the Taikoo tortoise has also become the former. The current ruler is round.

However, the breath that they have dispersed in their bodies is all a lot stronger than before. It is indeed a successful breakthrough and has entered the realm of the border.

Behind these two indigenous beasts, there are a large number of indigenous beasts coming in with swarms, mountains and plains, some of Ye Xuan's more familiar faces, and the body's breath is also strong, obviously this time. In the breakthrough of the retreat, each has its own harvest!

At this time, in the soft joy, the Taikoo tortoise was in a shape, and it came directly to the head of Ye Xuan. The shape of the Xu Fangyuan was just like the same big hat, falling on the head of Ye Xuan, and it was still shiny and bright, and Ye Xuan's face was immediately followed by green.

He panicked his hands and pulled them together, and smashed the Taikoo tortoise from the head: "I have told you how many times, you are forgiving, don't always go to the head of your family? Do you misunderstand? It's not good, let's say it, it's not good..."

Chapter 3950: Electric mother wake up

The overall strength of the indigenous fierce beasts has indeed jumped to a big leap!

Previously, the indigenous fierce beasts had only two domain owners! Nearly one hundred stars Lord! Nearly two hundred of the great power! The total number of common beasts below Qiankun can be nearly six million!

Nowadays, the total number of ethnic groups has not changed, but the overall level of the underlying combat power has all increased slightly. However, in terms of high-end combat power, there are two lords of the world, four domain owners, and one hundred stars. Many more, nearly three hundred of the great power!

This is definitely a savage beast army with a lineup of luxury. More importantly, this savage beast army now realizes the benefits of Shennong's flames, and it is not willing to move.

For Ye Xuan, this is naturally a good thing. Shennong Ding has been thoroughly refining him, and he has obtained the inheritance of this tripod. Even the Shennong Flame, which was originally extinguished, was stunned by him.

This indigenous beast army stayed in Shennong Ding, which is equivalent to Ye Xuan carrying a multi-million beast army, and later they will grow up. Any indigenous beast will show up the bleeding veins and the body shape. Can reach a huge height.

At that time, once the whole army of the beasts and beasts were dispatched, the scene of the bleeding veins was revealed, and the scene was absolutely amazing. Just like a star-studded fleet of millions of stars in the sky, it was so exciting.

"Bad boy, you have to think of a way, and lead the following small guys to do another big ticket..."

After a while, the Taikoo Porcupine turned a corner and raised the right thing. The room was surrounded by a field full of wilderness, all of which were green eyes and gathered a large number of underlying indigenous beasts.

Then he said: "This time, our old guys are not too small, but the following small groups of people are almost completely broken, and you may have some powerful wild and precious resources in the hands of the treasures, but they repaired Too low to enjoy..."

"It's not a long-term solution. After all, there are too many ethnic groups, close to six million. You can't afford it alone!"

"Playing is playing..."

Speaking of this, an indigenous beastmaster who had just been promoted to the lord of the domain, took over the words: "Small head, you have to find a chance to take us out and do another vote, just like the last time in the source of evil. Like the star field, the scale is bigger. In this case, the small ones can save a flesh and blood resource. Anyway, they will all be opened now. After the triumph, they will return to the roast food."

A small head, the eyes of Ye Xuan are worried, how to feel awkward, but who told him to join the indigenous fierce beasts, is the identity of the Taikoo konjac?

Now that I have such a name, I can only shake my head and smile.

However, although the people are just the domain lords who have just been promoted, but the domain lord is the domain lord, even the lord of this domain has his head, and the other indigenous beasts don't have to say more. Add a small one in front of it, can lead such a huge army of indigenous beasts, and when they are the head, this matter is also remarkable, the title is... biting his teeth and pinching his nose.

It's just that the matter mentioned at the moment is indeed called Ye Xuan's dilemma. This is a large army of nearly six million beasts. Let them go out for a battle, and every beast collects enough flesh and blood resources. Can you not kill more than tens of millions of strong people of all nationalities?

What size war is that? It is really a headache!

However, this matter must be solved. Millions of beasts and beasts can't always be hungry. Although hungry is not dead, after all, it is a strong star, but these indigenous beasts are different from the human monks. The latter can cultivate and the strength can be improved.

But the indigenous beasts can do nothing, and some are just blood heritage and talents. If they want to improve their strength, they must rely on their own blood and the evolution of life.

And this, you have to eat!

Thinking of this, Ye Xuan smiled again. He suddenly regretted bringing these guys into Shennong Ding. Otherwise, if he stayed in the army of the four-fleet fleet and went to conquer the first universe slaves, there would be no The opportunity for such a war to plunder?

"Well, go back and take a trip and send you back to Mo's."

With a pair of hands, Ye Xuan is temporarily confessing to this matter: "At present, the four ethnic groups are conquering the entire first universe. When there is a major war, they will send you over and collect all the flesh and blood resources while participating in the war! "

"Roar!"

"Hey!"

"Hey..."

As soon as a series of wars are coming, all the flesh and blood resources will be attributed to the beasts, and the surrounding mountains will suddenly have a lot of joy and shouts. A group of foodies are excited and straight. call.

The eight kings of King Kong are also mixed in, and they are gearing up. Nowadays, the strength of their eight people has also risen very quickly. They reached the first stage of the 14th world, and compared with the cultivation in the outside world, it is like a rocket.

Even with this group of fierce beasts, they have made an excellent relationship, and now they have calculated that they will be a personal thing. After all, among the countless ethnic groups and forces in the three major stars of the world, which ethnic group Younger generations can have this kind of means, and have a deep friendship with a multitude of fierce beasts!

Just as Ye Xuan felt this thing, he planned to sing a few more words with the high-ranking savage beasts such as the Taikoo Porcupine and the Taikoo tortoise. Then he left, and the immortal world in his body suddenly came at this moment. A call to voice.

"My Lord, the electrician...wake up!"

This is clearly the sound of the karst of the corpse, and suddenly passed into the ear, so that Ye Xuan could not help.

Then, his consciousness was immersed in the immortal world, and extended to the desire to smoke, and soon he realized the two powerful domain lords of this treasure.

Surprise is coming again!

Not long ago, the corpse of the ancestors and the corpse of the corpse who had just been able to reshape the corpse of the corpse, had all been retired and fell into a sleep. At that time, the strengths of both of them were all star-rated, but now they want to smoke. These two familiar atmospheres all exude the pressure of the domain's main level.

Undoubtedly, the corpse of the ancestors and the ancestors of the corps have been closed, and they have reawakened again, and the two have been repaired for strength, and because of this retreat, they have been able to break through again.

Nowadays, the two ancient ancestors who rebuilt the true body in this world have all jumped into the domain lord.

In addition, there is another strange atmosphere in the smoke, but it is more erratic and concealed. If it is not expected, it should be the sacred origin of the sacred ancestors.

Wanting to smoke a total of seals and sleeping in the seven ancient and sacred spiritual sources, nowadays, with the recovery of the electric mother, it has already recovered in the age of three, as many as three, almost half...
