

Super D. S 3951

Chapter 3951: The goal is directed at Leifen

The corpse of the ancestors and the post-Qing Qing were all closed, and the strength was once again climbed, and they all entered the ranks of the domain owners.

In addition, among the seven sacred and ancient sacred sources that were sealed in the smog, the third sacred and ancient electric mother's spiritual source has also been awakened...

For Ye Xuan, this is definitely a delightful news. Unconsciously, the lineup of his subordinates has become stronger and stronger. This is not the strength of the devil's ethnic group, but the real one. The private army at the end of the class is the same as the entire vicious animal group headed by Taikoo Porcupine and Taikoo Tortoise.

Therefore, Ye Xuan is extremely valued!

Now that the spiritual source of the ancient altar has been awakened, then the most urgent task is that like the previous corpse of the ancestors and the post-Qing, it is necessary to quickly help her to reshape the blood and then regain strength!

In the thought room, Ye Xuan from the body of the immortal world will be the ancient treasures of the desire to smoke out.

A beautiful glimmer flashed over, and in the empty space in front of Ye Xuan, he slid straight and slowly became bigger. Finally, it turned into a colorful treasure of a size, suspended in the air, slightly undulating, with the wind. And sway, oh is good-looking!

"call out!"

"call out!"

Bao Luo is slightly swaying, and two awns come out from the inside. In the blink of an eye, they are turned into two beautiful and beautiful women, which are the martial arts and the two daughters.

At this time, the two women look like two-eighth girls. They are exquisite and sleek, and they are so hot-hearted. The face is even more unparalleled. The chopping of the waves seems to be able to take away the soul of the people.

The seven ancient cults of the ancient times, the famous and ancient, are the top glamorous postures, that is, it is difficult to have the beauty and beauty in the world, such as Xuanyuan Ziyang, Duanmu Xiaocha and Zhao Qianru, the three women in the world. In the middle, it is already top-notch, and compared with the corpse of the ancestors in the eyes and the post-Qing, they have to lose a little.

In addition, in terms of temperament, the disparity is even greater. After all, the corpse of the ancestors and the ancestors of the ancestors in the distant and ancient times of that year, that is the existence of the ancient level of the ancient powers, while the name is ancient and the strength is also Dominate one party.

There are both the supreme prestige of the strong, and the mature charm of the endless years, all of which are Xuanyuan Ziyang and Duanmu Xiaocha, Zhao Qianru three women do not have!

However, although the two women are all fascinating, the temperament is completely different!

The corpse of the ancestors was hot and passionate, and a red dress. At this time, the repairing atmosphere in the body all converges. Only a small amount of realm is released. Otherwise, once the power in the body is motivated, the whole body will be beautiful. The red horror corpse is absolutely hot enough to make people unable to eat.

And the corpse of the ancestors, who stood side by side, is a purple long skirt, close to the body, exquisite and beautiful, temperament compared with the corpse of the ancestors, more feminine and feminine!

With the two ancient cults reinventing the corpse of the corpse in the world, the surrounding areas are far and near, and the original beasts are all over the sky, but at the moment all the indigenous beasts are quiet, and this piece of emptiness is dead. .

The sights of millions of indigenous beasts are all staring at the ancestral marshes and the ancestors, even the Taikoo Porcupine and the Taikoo tortoise, and the cockroaches of the mouth are coming out.

However, the reason why they are so ugly is not because the appetite has been attacked, but because of the common problem of male animals. Although the two ancient cultivars are human forms, the true supreme beauty is not ethnic, even These indigenous beasts are also shocked!

"Humph!"

"Somewhat a bit, courage is fat!"

Turning around and looking around, the millions of indigenous beasts are looking at the eyes of the pig brother. The ancestral sorrows and the sorrowful sorrows seem to be unhappy, the face sinks, and the nose is also cold and sarcasm. .

The breath in the body is suddenly diffused at this moment.

"call....."

In an instant, two glamorous and beautiful bodies of the world are covered by the true flames of the corpses of different colors. One is blood red and the other is demon purple.

The physique of the ancestors and the beautiful figure of Houqing, they set foot in the corpse of these two hoods, although only the main level of the pressure of the domain is diffused, but among them, it is clear that there is a fierce atmosphere of the sorrowful spirit.

After all, it is the supreme existence of the ancient power level, and it is still the corpse of the shackles. Although they are reinventing the corpse in the world, they only recover to the main level, but the innate Invisible and ruined ancient ancestral ancestors, but instantly smashed the audience.

"hiss!"

"this is....."

The Taikoo Porcupine and the Taikoo tortoise took a sip of cool air. The first time they rushed back to the corner of their mouths, and the body shape subconsciously retreated.

Although they are the lords of the landlord, they are surpassing the ancestral drought and the post-Qing, but the congenital bottom is far worse than the latter. The latter is the spiritual source left by the ancients of the ancients to reshape the body, the root. The level of life form is already close to the peak.

The Taikoo Porcupine and the Taikoo tortoise are still in the evolution of life form, and there is still a long way to go!

"Hey..."

The two strongest existences of the Taikoo Porcupine and the Taikoo tortoise recognize the shackles, subconsciously shrinking their necks and receding, and the millions of indigenous beasts gathered in the surrounding mountains need not even say more, and quickly take their eyes off. They whimpered and retired, and their eyes were empty, and the entire food-sending group was smashed.

"What about the electric mother?"

Looking at the Taikoo Porcupine and the Taikoo tortoise to eat, Ye Xuan's heart was funny, and turned a blind eye to send two old guys to flee, and then the line of sight turned to the corpse of the ancestors and the post-Qing.

I queried: "Because I haven't reshaped the real body, so can't I easily show up? Isn't it necessary to find a corpse source? This stuff is not so easy to find, a little headache!"

"My Lord, you may have thought a little more..."

The ancestral sorrowful wry smiled and shook his head: "Although the ancient monk is also a source of spiritual knowledge, it is sealed in the smog, but if it is to reshape the real body, she needs not the source of the corpse, because she is not a corpse But Lei Xiu..."

"Yes!"

Aside, the charming and unrecognized corpse of the ancestors took over the words, a pair of watery beauty locked in Ye Xuan's face, while fluttering, seeing Ye Xuan was uncomfortable.

She was totally unaware of it, still no one said: "Since it is Lei Xiu, if you want to reshape the real body in this world, what the electric mother needs is naturally related to the Thunder, but compared with the origin of the corpse, the source of Thunder It seems more difficult to find, little master, you are really a headache this time."

A small master, Jiao Yan and Ma Ma, called Ye Xuan conditioned for a moment, the whole person is soft half.

Just this sentence, it shows the difference between the ancestor and the ancestral martyrs, Ye Xuan secretly complained, this is too scary, if it is always followed by such a glamorous and charming enchanting, this It's really a headache...

In the bitter smile, Ye Xuan's heart suddenly moved, and the moment was also brightened: "Thunder is the source? If you say so, it seems that there is a good place... Starry Thunder!"

Chapter 3952: Senate

"Starry sky grave?"

Aside, the ancestral ancestors sneaked into the face and subconsciously asked.

"Yes, it is the starry sky, if you can find the source of the Thunder, this place is definitely the most likely."

Nodded, Ye Xuan explained to the two ancestral ancestors: "The Devil's Star has ten stars in the Jedi, and the Star Trembling is located between the Black and the Black Wind."

"It is Lei Ge. It is actually a starry sky, and the area is half as wide as the black mosquito star. The only difference is that the vast void is more than the black hole of life called the black hole. More terrible."

"In the vast expanse of the galaxy, countless years have passed, there are countless thunders and lightnings, and there is no end to it. Once the warship enters, it is difficult to predict which moment will be directly smashed into slag."

"If the flesh is invaded, the result will be even more unnecessary. It will be even worse. This is not the thunder and lightning that evolved from natural meteorology in the atmosphere of a star. This is the natural thunderstorm generated by the universe. The power cannot be said in the same breath."

"This piece of starry sky, the grave, known as the thunder's tomb, even the thunder can only be destroyed inside, can not escape, the consequences of the entry of souls or warships, it can be imagined ..."

It is said that the two old corpses have nodded frequently, but their faces are slightly worried.

"So, it is indeed possible to find a source of thunder. It seems that the chances of the electric mother are not small. This is just awakening, and the original source of reinventing the real body will be settled!"

"However, the Thunder and even the power of the yang, since the emptiness of the emptiness of the starry sky of the thunder, into it, is it not so easy?"

"It's no problem, I have been in it once, and I have retired, and it is quite rewarding!"

Ye Xuan smiled and nodded: "Going again, it is just a revisit of the old place. Rest assured, this matter is handed over to me. As long as there is really in the grave, it will definitely bring out a source of thunder!"

The reason why he is so determined is naturally because of Lei Diyin's sake.

Lei Di Yin seems to be a magic weapon for man-made refining, but in fact it is born in heaven, and the innate treasure that is naturally bred by the universe void has the power to immunize the Thunder and even control the thunder and lightning.

The emperor, the meaning of the world, is very understandable.

This Lei Di Yin is the reliance of Ye Xuan to enter the Starry Thunder!

The previous time, he used Lei Di Yin to enter the Starry Thunder, and killed a senior of the Tianji nationality and grabbed the Thunder Fortress from his hand.

And also taking advantage of that opportunity to condense out ten Leiyuan beads in the endless thunder of Lei Tomb, and now there are still nine pieces still in the Lei Di Yin continued to cultivate, in order to enhance its power!

This matter has been settled.

After the three people chilled, Ye Xuan couldn't resist the seduce of the ancestors, and quickly took out a batch of resources from the immortal world, including 30 drops of evil source, handed over to the two women. Afterwards, when they sneaked into the smoke, Ye Xuan took up the treasure and then stepped away and left the inner space of Shennong Ding.

When the figure reappears, others have already reached the black hole of life outside the Ding, calculating the time. This time, it has come to the black hole of the life to retreat, and it has been a full few days. The outside world has a big event in the magic field. .

As well as the fox lord, the sorrowful sorcerer, the Taikoo little konjac and the devil's emperor Mo Zhenfeng, in fact, it is the shocking news of the four enchanting ones, and presumably there have been various reactions.

It's time to go out and see the situation.

In the thought of this, Ye Xuan waved the Shennong Ding into the body, and after the smashing of the virtual shuttle, he immediately began to speed up and rushed toward the Emperor Star...

.....

The Immortal Star, the Federal headquarters of Varo, is located in the Federal Senate in the depths of the headquarters!

At this time, in the main hall of the Yuan Lao Dian, nearly a hundred federal elders gathered together, the lowest is the domain owners, the largest number, accounting for half.

In the other half, half of them are the lords of the world, nearly 30 people, and among the last 20 people, there are more than a dozen cosmic monsters, and nearly ten immortal monsters!

As for the star lord under the domain lord, it is just the ordinary veteran of the Federal Senate, the number is more, inhabiting the veteran cave days, enjoying resources, but it is not qualified to enter the veteran's house!

The entire veteran temple is extremely spacious. The federal veterans who have been repaired in the vicinity of the top 100 domains are seated in order from the bottom up.

In the top row, there are nine immortal grotesque in the original. Among the nine immortal grotesque, two of them are especially sublime. This is the immortal king of the king, at the top.

With the throne of the other seven immortal monsters below, you can see clearly!

But now, the next seven immortal monsters, but only six left!

At this time, including the top two kings immortal, the eight immortal geeks sitting on the first floor of the hall, all invisible, just a light energy band of different colors.

At this moment, among the two groups of energy light groups in the top, there is a voice of words, and a king is immortal. The whole hall of the Senate is filled with a strong chill. The atmosphere is dull. Extreme, depressing!

"The devil is looking for death, and dare to marry my Federal Senate for an immortality. This matter... is no good!"

"It was just a stalwart of the squad, and it was just a name for the future team. Now it seems that this is not enough!"

"Since the younger fox is the devil's emperor Mo Zhenfeng, the name of the federal Senate, you must include the entire demonic group, otherwise it is not enough to show sincerity!"

"The Supreme Turtle who lived to the present age must not dare to take the lead recently. But even so, he must be prevented from retaliating. In this case, my Senate will be secretly carried out, sending two immortals and rushing to the devil. Star field, waiting for the opportunity to move."

"On the bright side, immediately ordered to the Federal Headquarters, in the name of the Federation of Varo, to ask the two camps of the Terran and the immortal dynasty, at the same time send troops, enter the first universe, discuss the devil!"

"As for the people..."

Speaking of the end, among the top two awnings, the singularity flashed abruptly, and the immortal tone of the dynasty of the dynasty was also turned cold.

It seems that there are two kinds of singular shots, and they don't fall into the body of the humanoid universe in the center of the main hall, which makes their **** and debilitated body stunned.

"Give the two people to the immortal source, and immediately go through the retreat. If you can break through the immortality within a hundred years, you will not be counted, and you will not be born again. Otherwise, you will not be born again... the Federal Senate, no waste!"

The voices of the two people crouched on the ground, the celestial body of the human race, once again stunned, the face of the desperate color, a hundred years of immortality? That is absolutely impossible to complete the task, the other party is so ... clearly is in the disguise of sin and death!

Chapter 3953: Three major faces

With despair, the two were honoured and punished, and the human race universe, which was almost sinned and treated like death, quit the hall.

In the next hundred years, for them, it is almost alive, and if it cannot be broken into immortality after the expiration of a hundred years, it will surely die!

Later, among the eight awnings in the upper hall, there were two more bleak, which means that there are two immortal elders, and they leave.

As for the destination, it is natural to rush to the magical star field of the first universe. The two immigrants of the Federal Senate are ordinary immortal, will lie there, and in the process of the subsequent events, waiting for opportunities...

.....

With the order of the Senate, a bombshell that was so shocking that it quickly exploded from the Federal headquarters of Whala. In just half a day, it spread to the three major star planes of the world, attracting countless rumors. Shocked!

The four identities of the fox lord, the sorrowful sorcerer, the Taikoo konjac and the devil's emperor Mo Yufeng are actually the same person!

The seven generations of the demeanour of the younger generation of the world today have four enchanting as one, more than half, which is simply unbelievable.

What is even more unacceptable is that the existence of the four enchanting ones is very likely that the deity is the last one exposed the devil's emperor Mo Zhenfeng!

The person who holds this guess has two points of evidence, which seems to be eloquent!

First, among the four enchanting identities, whether it is the fox or the lord, or the sorrowful sorrow, or the Taikoo konjac, all of them suddenly emerged from the air, there is no root to find, or There are origins, but the clues to follow the path of exploration have basically been cut off.

The identity of the young fox is the legacy of the empire of the empire of the heavenly war, but the fox has left the celestial battle star of the heavens and wars many years ago, and there is no trace.

Needless to say, the Nethered Respects, although there are the blood of the Nether, said that it was sealed by the Nether Emperor that year, only recently, but if it is recourse, there is no clue.

The same is true of the Taikoo konjac. The indigenous beasts of the evil roots seem to have no knowledge of their origins. How do outsiders pursue credible clues about their identity?

Only the last devil of the devil, standing behind a whole group of devils, although Mo Yufeng is suddenly born, but at least this identity is well-founded, there is the possibility of recourse.

Second, among the four enchanting identities that have been confirmed to be one person, the devil's emperor Mo Zhenfeng is the last one exposed.

Since this person has tried his best to hide his identity, then his true deity can't be exposed in the front. The last one exposed, more than 90%, is its true identity!

Although these two points are somewhat somewhat far-fetched, but they can't pick anything wrong with it, so, at one time, the three major groups and the major forces and the forces basically agreed with this statement. That is the devil's emperor Mo Zhenfeng, is the true identity of this young enchantress who integrates the four major identities!

This kind of saying makes the various ethnic groups very embarrassed, because in the seven enchanting worlds, there are actually four enchanting identities from the devil's group. Already over half of them, although they are only younger generations, this basically explains some problems. As if the air transport of the three major star planes of today's world, more than half of them are concentrated on the devil's group.

And the demon combined with the space rat, the **** ants and the giant tribes formed the four-family coalition, and now the battle of the first universe of the conquest is completely devastating, from one side to support this statement.

In view of all this, the devil's ethnic group is clearly divided into the air, and the rhythm of flying into the sky.

Among the three major planes, the Tianji family was the only one. Although the Union of Nations was able to compete with it, it was evenly matched. However, the Federation of the Four Kingdoms was a combination of the two major groups of the universe and the forces, and the two camps of the Terran. The second universe of the various ethnic groups can be compared with it.

At the moment, with the migration of the celestial family and the disappearance of the world, the devil's group has shown a trend that will soon be replaced and become the first hegemon of the three major planes.

However, the Federation of the Vatican has now fallen apart. The second universe has withdrawn, leaving only the two camps of the Terran. The two cosmic planes have become the Federation of the Terran, meaning little.

If the devil is taking this opportunity to sit in one fell swoop, fear that it is even difficult to contend with the Federation of Wanluo!

Under this circumstance, the Federation of the Vultures moved to the righteousness of all the ethnic groups and forces in the three major planes, and issued a joint decree to demonize the demon, and refused the call of the plane hegemony to reappear. For a time, the three major forces ... have responded.

There are three major planes combined to jointly destroy the trend of the devil!

Although the second universe has already issued a statement before, it has withdrawn from the Federation of Viro, but this time it was learned that among the seven enchanting singers of the world, four of them were all the devil's emperor Mo Yufeng, the top ten In addition to the nine ethnic groups other than the Turtles, there was a sudden roar of roaring.

Immediately afterwards, other ethnic groups outside the top ten have also expressed their willingness to form a large army to attack the devil.

In the second universe, almost all the large ethnic groups were squandered by the sorrows of the sorrows. Among the previous events of the wickedness, they were deeply victimized by the foxes, but at that time, the foxes and the sorcerers were demon. It's hard to find, because they are all isolated and difficult to pursue.

But now, there is a whole large group of devils lying there, running the monk can not run high, the anger of the second universe, finally have a catharsis direction.

In addition, in the first source of the evil, the demon group acted as a bandit road tyrant, charging a large amount of tolls, which is entirely extortion, as well as the hatred of the second universe.

Now that these two things have merged together, it is naturally impossible for the second universe to remain silent, and there are movements in the dark.

Although they suffered heavy losses in the star of the evil, the Devil's Star Field is not the source of all evils, there is no furnace, even if the Devil's Emperor Mo Yufeng has the means to count the immortal, but since After one time, most of them have also fallen into a cooling period. It is impossible to remain at the peak in a short period of time. At the moment, it is the best time to launch a crusade against the demon people.

"Roar!"

"The devil! Actually it is a demon, this emperor hates..."

At the same moment, a screaming roar of roaring sounds in the ancestral land of the Second Cosmic Yin Mozu, resounding to a void, the former patriarch of the Yin Mozu, who was defeated by the former patriarch, hurriedly fled back to the former ethnic group. The ancestral yin pool.

After exerting a kind of secret law of the Nether, and fully integrating with his **** green, it has now become a horrible monster that is not a ghost, and the strength has also climbed from the previous star to the current domain.

At the moment, I was shocked to learn that the news came from the headquarters of the Third Universe. The first time I rushed out of the emptiness of the vacant ancestral land, and snarled one of the emptiness, it was resentful...

Chapter 3954: The zombies are coming

If the disclosure of the amazing truth of the four universes of the four enchanting ones is the anger of the whole plane.

Then, after hearing the news, the first cosmic slaves reacted with excitement and excitement!

Nowadays, the powerful coalitions of the four groups of the devil, the space mouse, the **** ant and the giant squad are in the first universe to carry out a comprehensive conquest of the plane level. In addition to the Cang wolf family, there are two strengths in this period. The strong slave servants were conquered by the four-member coalition forces and their incomes fell.

It can be said that the strong conquest of the four-member coalition forces in the first cosmic plane is almost unstoppable. It will not take long before the first universe slaves can see a little bit of hope. By then, the rest of the ethnic group is afraid that even the forces of resistance can no longer gather.

On that day, according to the current situation, I am afraid that it will not take long before it will arrive.

Fortunately, at this time, the news of the four enchanting ones came, and the four enchanting scorpions were basically able to determine the true identity of the deity, which was the last exposed demon king Mo Zhenfeng.

As a result, the demon family has almost become the public enemy of the three major groups of the universe.

The first cosmic slaves do not have to say more, but in the second universe, all the ethnic groups are also deeply affected by the Nether.

The same is true for the Terran and the Federation of the Bandar!

This is definitely the rhythm of the three major planes of crusade, and once the fleet of major groups is approaching the magic king, the four-member coalition forces that are now conquering the entire plane of the first universe will not break and have to retreat!

For them, the crisis will be almost self-solving in the near future. Can this be exhilarating?

For a time, the first cosmic servants of the original army were distracted, and the first cosmic servants of the martial arts were once again excited. They reorganized a large army and gathered in a certain ethnic group that the demon four-member coalition is about to travel. The fierce battle is about to erupt!

.....

The third universe, the Terran science and technology camp, the immortal dynasty ruled the territory of the Tianming Empire, the Tianchen star where the Tianhe star is located!

Under the celestial empire of one of the three empires of the immortal dynasty, Tianchen was only a small and medium-sized country. However, because it is close to the funeral star field, the floating population of Tianchen is a lot, which has driven the development of all aspects of this small country. .

After all, the funeral star field is not only rich in the origin of the star, but also has two plane-level cosmic wormholes in its depth, one leading to the first universe and one leading to the second universe.

It can be said that here is the door of the third universe and the other two starry sky planes to communicate and exchange with each other!

Tianhe Star, because it is the closest administrative star to the funeral star field, is particularly prosperous.

The chief executive of Tianhe Star, also known as the star-length, is named Wang Shili, and the garrison commander is Li Shaobin. These two are the young masters of the Wang family and the Li family on the Tianchen national capital.

At the beginning, Ye Xuan returned to the third universe with the identity of Emperor Xuan, and after he came to Tianhe, he took off his former star Chang Baizheng and his former garrison commander Zhao Long and killed them. Li and Wang Shao's two were less. The main calculation is a big bargain!

The two had a heart-breaking prince. In fact, the Xuan prince at that time was like a stalwart. Not only the two of them, but the entire Li family and the Wang family, including the monarch of the Tianchen country, also wanted to hold this thick thigh.

It is a pity that things are counterproductive, Tiangong is not beautiful, Xuan Huangzi has not returned to the emperor and the immortal star. When the people are still in the Emperor Tianxing, the situation has changed. In the end, it was sent to the desolate death star by the dynasty. After that, I rarely showed up again.

Since this time, there has been almost no news about the Emperor Xuanzi. Although he was among the seven heroes of the world, he was alone in the first universe, and he still tossed the wind and the way. It is a bad day, so it has always been stable from the throne of one of the seven enchanting enchantments.

But with the later generations of the fox, the sorrowful and the like, one can be tossed, and the record is even more shocking. The original Emperor, who was once the most popular in the three planes, has gradually become less and less. Was brought up.

In the eyes of everyone, most of the current Emperor Xuanzi has been fighting for it, and willingly spend the rest of his life in the land of the death star.

Under this circumstance, many of the dynasty families and forces that had originally wanted to embrace this thick thigh suddenly dispelled this idea, including the Li family and the Wang family of Tianchen.

Since the introduction of the Emperor Xuanzi, the Li family and the Wang family's young masters have gathered their minds and cut off the idea of relying on the line of Xuan's emperor to climb up the wind and down the river, and to manage the Tianhe Star with one heart and one mind, it is also a wind and water... ..

From the sky in the sky outside the Tianhe Star, there is a 100,000-meter-diameter starry fortress, heading for the Tianhe Star!

This is a commercial and commercial fortress. The surface of the hull looks a bit old. It seems that it has been around for some years, and it is not far from the catastrophe.

In fact, not long ago, this 100,000-meter-diameter fortress was just a commercial fortress with a diameter of 70,000 meters.

That's right, it's the zombie fortress formed by the integration of several special zombies combined with the wind.

Previously, it was only 70,000 meters in diameter, but after the last time it swallowed up a large number of excavation equipment near the depleted mineral star, the zombie fortress finally grew to the extent of a 100,000-meter-diameter fortress.

At the moment, inside the zombie fortress, the zombie emperor who has already entered the star's main territory has set aside the wind, and is in the command cabin on the top of the zombie fortress, assigning tasks to his thousands of zombie warriors...

"The Emperor's Demon Legion has developed to the present day, and there have been more than a thousand wars. It has reached the realm of Qiankun, or is about to enter this world and enter the ranks of Qiankun.... Now, it is time to determine a fixed position. The rear base camp!"

"The Tianhe Star in front is the target chosen by the Emperor!"

"Tianhe Star is adjacent to the funeral star field, and the three major star-space main planes have a large number of star-studded powers. They are mixed here all the year round. It can be said that the resources in the nearby void are extremely rich!"

"Because of the particularity of its geographical location and the temptation of the origin of the star nuclear, the star thieves are also active around this Tianhe star field. This will be a subtle cover for the follow-up development of the Emperor's Demon Corps... .."

"This time, all the members of the Demon Legion are dispatched, and it is necessary to take down the Tianhe Star. Moreover, you can't miss a little wind. Here, in the future, it will be the headquarters of the Emperor's army... the base camp!"

The voice just fell, the sky in the distance, the Tianhe Star is already far away.

The two beautiful women who were squatting on the left and right side of the extension, and the two beautiful women who had their shoulders pressed back, exchanged a look at the beginning, and at the same time got up, and after swaying, they left the zombie fortress and crossed the void with the flesh. , rushing to the front of the Tianhe Star...

Chapter 3955: Tianhe Star Depression

Although Tianhe Star is a small administrative star, due to its particularity, coupled with the edge of the funeral star field that is rich in the origin of the star nucleus, it is rich in oil. Therefore, the stars of the Tianhe Star have a large array of defenses. Not low.

Even so, it is still a breeze to break through this small administrative star for the temporary extension of the zombie emperor who has become the star lord.

But he did not make such a choice, because this time, it is not the attack and plunder that is required to strike the wind, but the crouching, which is a silent invasion!

Therefore, the two mother zombies are dispatched!

The two female zombies, while maintaining the human form, not only look beautiful, but also have a good name, one is called Vivian, and the other is Lilith!

Listening to the name is like two cute little girls, but in fact, this is the horror female zombie who has been repaired to achieve the Qiankun situation.

Once the body's cosmic zombie blood is activated, the body is manifested... Estimated to scare people on the spot!

Although the zombie fortress is only a commercial fortress, it is a black household. It is impossible to enter the Tianhe Star. It is even difficult to get close to. After all, it is such a big guy. Once it is close, it will be responsible for the sky outside the Tianhe Star. The patrolling garrison warships moved closer together for an inventory check.

After all, the Star Trek in the Tianhe Star Field is still very embarrassing.

At this time, Vivienne and Lilith took the shot to solve this problem.

As they left, the Zombie Fortress also stopped moving, staying in a hidden state, suspended in the void!

The evolutionary direction of Vivienne and Lilith is all zombie wave frequency. This so-called zombie wave frequency energy, in addition to its own unique power, is also extremely analogous, at least to simulate the humanity's knowledge. Fluctuation is extremely easy.

Therefore, Vivian and Lilith easily entered the interior of the star through a starry sky passage in the atmosphere of the Tianhe Star, and the body shape swayed straight toward the Tianhe City on the main mainland of the Tianhe Star!

In this process, Vivienne and Lilith almost simultaneously activated the zombie blood in the body!

With a strong and violent temperament and a breath of scent from their bodies, the two women's exquisitely flaming body, in the process of falling to the ground, are all like the balloon that is rapidly inflated, the naked eye. Visible and huge...

In the Tianhe City below, there was a sense of life in the first time, all of them looked up subconsciously, and then they exclaimed.

"God, what is that..."

"It used to be two beautiful women, but now... turned into two meat mountains? Rotten meat mountain?"

"Ah... zombies! Cosmic zombies, escape!"

"The enemy attack, the enemy attack..."

"boom!"

"boom!"

"Booming..."

With the sound of amazement, Vivienne and Lilith fell from the sky and finally fell to the ground. At this time, they could not see even a little human appearance, and they were shaped to be two. The huge rotten meat mountain!

The surface not only has a rotten big hole, but also pus in the outside, and it is also covered with countless whiskers. It is waving wildly, and it is both nausea and cold.

"Hey..."

The two whistling sounds were emitted from the two meat mountains in the first time. Some invisible strange waves were directly diverged, and the entire Tianhe star inland was covered in the blink of an eye.

Under the circumstance, the starry sky super brain located in the underground star control center of the Tianhe Star had no time to make any reaction, and it was already in a state of paralysis.

Then Vivian's zombie wave was completely invaded and controlled!

In the next moment, when the embarrassing state of this starry sky super brain is lifted, it is already the core of the whole Tianhe Star Air Defense Array.

"Booming..."

In the atmosphere of the sky, the sound of the rumbling tactics was launched. Under the command of the starry sky and super brain that has evolved into a zombie super brain, the star passages in all directions of the Tianhe Star atmosphere are completely closed. Star defense defensive opening...

Only three short breaths were not enough, and all this was done. Since then, Tianhe has become a completely closed world. Any star power outside the atmosphere is inaccessible, otherwise it will be subject to star defense. Large array of attacks.

And because the central super brain of the Tianhe Star administrative star network has also been invaded, it has turned into a zombie super brain evolution, which directly led to the interruption of all communication within the entire Tianhe Star, and any satellite network signal can no longer be Pass it out.

In a word, the entire Tianhe Star has been completely cut off from any connection with the outside world, basically equivalent to a total collapse...

This is obviously only a beginning. After all, the purpose of the extension is to quietly control the Tianhe Star in full, instead of forcibly occupying it here by force, but exposing itself!

"Hey!"

"Hey..."

After completing the blockade of the entire administrative star, Vivienne and Lilith activated the two sacred meat mountains of the zombie blood, and again issued two screams of shouting, the tentacles on the surface of the meat mountain grow at a speed visible to the naked eye. It is getting longer and longer, and between the blink of an eye, it has already smashed a small half of Tianhe City!

At this time, the entire Tianhe City has been in chaos, and a large number of star-studded powerhouses and ordinary people have rushed away. These two horrible huge meat mountains are disgusting, and

carry the chilling cosmic zombie virus, so Even the strong stars do not dare to shoot, the warships do not dare to shoot.

Because of that, once the meat mountain blasts, the virus will spread faster in the air, and no one can guarantee that he will be recruited.

In the face of this horrible existence, the only way to deal with it is to escape, as far as possible, as far as possible!

This kind of consensus, all the people thought of it in the first place. After all, there was a precedent. The Emperor of Heaven and Earth, in the invasion of the cosmic zombies, all fell in a short period of time, all The people are turned into zombies and finally cleaned, let alone a small Tianhe star?

No one thinks that this time Tianhe Star can escape the disaster. All the people, at this time, the only thought in the heart is to escape, escape, escape...

"puff!"

"Hey..."

In the process, the countless strips of meat mountain tentacles, like harvesting life, wield unscrupulously, and plunged into the body of the routing crowd again and again.

The subsequent scene was even more horrible.

The fleshy mountain tentacles inserted into these ravens are like a root pipette. Under a sudden tremor, in a short half-time, a living human body can be completely cleaned up.

Not only the flesh and blood, but also the bones, all of them are taken away, along the strips of the fleshy mountain tentacles, to the body of the two horrible meat mountains that Vivienne and Lilith have made... transported away!

Then, in the two meat mountain books that Vivienne and Lilith had made, there was a more terrifying scene, which happened...

Chapter 3956: Nest mother and slave

"puff!"

"Puff puff....."

The sound of a dull squeaking sound, but it is not the movement of the fleshy mountain tentacles through the body of the rout, but the two horrible meat mountains from Vivienne and Lilith who activated the zombie blood!

As a large number of routers were pierced, all the flesh and bones were all picked up in an instant, along the path of a zombie tentacles, gathered into the body of Vivienne and Lilith, the two meat mountain The volume is also getting bigger and bigger.

At the beginning of the initial period, it was only a mile, but now, in just half an hour, it has turned over ten times, and it has a radius of 100,000 feet.

It is also from this time that new changes have taken place!

There was a sudden crack in the two huge meat hills, and the sound of the buzzing sound came from it. Then, from this crack, it was like a chicken laying egg, and a small mountain of meat was drilled.

It is dense and the number is scary.

Although these small meat mountains are only a hundred feet in size, they are exactly the same shape as the two giant meat mountains. The surface is full of pus-like cracks and a large number of tentacles.

In the blink of an eye, this small meat mountain has reached hundreds of thousands of giants, scattered and scattered, toward the corners of the Tianhe star, raging away!

This scene, just as the mother is reproducing, is in fact true, which is one of the abilities of Vivian and Lilith to evolve the zombie blood.

After activating this ability, they are equivalent to two zombie mother's nests, which can be used to replicate a large amount of flesh and blood in the body as a small meat mountain like a head.

Then, thousands of horses and horses spread and opened up to carry out a broader and faster plundering of terror...

Undoubtedly, with the spread of hundreds of thousands of small meat mountains, the entire Tianhe star will completely fall in a short period of time, and all the star power strongmen and the Tianhexing people will not escape this robbery. The end of the game will be swallowed up by a small mountain of meat!

Because the stars and channels in the atmosphere of this star have been completely banned, the inland of the stars has already turned into a locked land, and there is no escape!

At this time, with the nearly one million small meat mountains scattered, the entire huge Tianhe City has been turned into a dead zone, and Vivian and Lilith swallowed a lot of flesh and blood, which inflated to 100,000 feet. The huge horror figure has also been restored to the previous square.

Then, the two huge Wanshan meat condensed inward at a speed visible to the naked eye. In just three breaths, Vivienne and Lilith restored the human form again. It is still so pretty and beautiful. Dina!

Moreover, after this time of phagocytosis, they apparently intercepted some of the energy that devours flesh and blood, and the level of life has been re-evolved, and the strength has been upgraded from the previous ranks to the present. Order.

"About ten minutes or so, all the flesh and blood in the inland of Tianhe will be completely swallowed up..."

Turning around and looking around the dead, Wei Wei'an raised his hand and sneaked a slap in the ear, whispering softly: "Then, it will take about half an hour, everyone who is swallowed, and Will reappear again, by then, this Tianhe Star will be completely in your hands!"

"Well, this matter is handed over to you to follow up. I have to pay close attention to the corpse process of the starry sky and super brain. It is the intelligent center of the entire Tianhe star network and the star defense system. There can be no mistakes! "

Aside, Lilith also smiled, and the clouds were light and light, as if to say something insignificant: "If all goes well, within a time, the demon adults can lead the army into the stars, from that From now on, here will be the base camp of our Tianmu Legion..."

.....

"puff!"

"Puff puff....."

Ten minutes later, similar to the previous virginity of Vivian and Lilith to activate the blood of the zombies, the sound of a small number of small meat hills derived from the body, in the same corner of the Tianhe Star, the same boring sound Come.

This time, it was more intensive, because the dozens of nearly a million people had swallowed up a lot of flesh and blood, and they have grown up to the horrible body of the small meat mountain, and their body surface is now cracking.

There are thousands of gaps in the surface of each meat mountain.

In every gap, it is like a reproduction, and there are creatures coming out... but they are all human forms, not a similar small meat mountain!

Before all this started, there was no living person in the inland of the entire Tianhe star. All the flesh and blood, including some of the starry beasts that were raised, were all swallowed up by the nearly one million small meat mountains.

At this moment, all the flesh and blood that have been swallowed up have undergone some unknown transformation in the small meat mountain, and they have all been multiplied...

However, now they seem to be humans on the surface, and there is absolutely no difference before they are swallowed up. Even the eyes and the body exude are exactly the same.

But in fact, the guys who are lined up in the cracks of the cracked body of the mountain, the essence of it, is completely different.

They were human before they were swallowed up.

But now, like reproduction, it has become a slave!

The ultimate goal of Viven and Lilith's zombie hen nesting ability is to relocate all the creatures in the inland of the Tianhe Star, all of which are separated from the nest by a nesting mother. Change their essence and turn them, from human beings, to slaves!

The whole process ends in about half an hour.

When everything was dusty, all over the Tianhe Star, the number of zombie nests that reached nearly a million in size, had completely withered and disappeared completely.

After only half an hour, the entire Tianhe Star experienced a nightmare metamorphosis.

On the surface, it seems that the current Tianhe Star has not changed at all. It looks like a crowded area, and it is extremely prosperous. But in fact, these creatures that have been swallowed and regenerated have long been and previously It's totally different...

At this point, Tianhe Star has completely fallen into the control of the extension of the wind!

Soon after, as the few star passages in the atmosphere have been opened again after a short period of closure, there will be a large number of star-studded powerhouses coming and going in the sky, but they

will never know, in this short In less than an hour, the entire Tianhe Star and all the creatures in it have experienced a complete evil transformation...

Since then, it is no longer a national dust country, no longer belongs to the human race!

The entire Tianhe Star, including the federal officials of all the institutions and departments in this administrative star, and the starry sky super brain as the intelligent center of this starry sky network, have all been turned into a member of the Zombie Legion!

Here, it will become the first base camp of the zombie army group named by the corpse of the corpse!

Chapter 3957: hunting

The demon corps of the zombie group finally occupied the Tianhe Star, and in a short period of time, completed the overall transformation of the Tianhe Star.

When the few star passages in the atmosphere of the Tianhe Star were opened again after a short period of closure, the entire Tianhe Star was completely subordinated to the wind.

Including the starry sky super-brain as the starry star network and the core of the defense of the big array of intelligence, as well as every flesh and blood in the stars!

An hour, two hours, is too short.

During this time, although there are some returning stars from the funeral star field, they want to enter the starry sky stars in the Tianhe Star, because the stars of the Tianhe Star atmosphere are completely closed, and the face is stunned outside the atmosphere. Waiting in space.

But they did not expect any change in the Tianhe Star in less than an hour.

When the stars in the atmosphere of the river star opened again, everything returned to normal. The star-studded powers waiting in the outer space of the atmosphere lined up in the Tianhe Star inland, but no one found any Anomaly.

Everything is the same as peacetime, the same tranquility, the same orderly!

Vivienne and Lilith manipulated the evolutionary zombie super brain and released the authority. In the more remote corner of the Tianhexing atmosphere, the zombie fortress in the hidden state was silently greeted into the Tianhe Star and went straight to the Tianhe River. An underwater base in the sea!

This underwater base is extremely spacious. It was originally a military base stationed by the Tianhe Star, but it has now become a secret base for the squadron of the Tianmo.

For a long time in the future, the extension of the wind and all the zombie warriors of his Demon Legion will be hidden in this underwater base in the deep sea, and the entire Tianhe Star outside the base will be normal as usual. Running!

Here, it is his core base camp, which will be quietly built into a copper wall-like underground lair, and settled down!

"Card..."

With the extension of the wind, the zombie fortress began to decompose, and the huge hull was fully differentiated in just one minute, turning into five small fortresses with a diameter of more than 40,000 meters.

If you are willing, the five zombie fortresses will continue to change, eventually shrinking into five humans.

Because this was originally a cosmic zombie cultivated by the five heads of Qiankun, the evolution direction of its zombie blood is a variant of the alloy behemoth type, and today the shape of a small fortress of nearly 50,000 meters in diameter is its body.

However, it is clear that the extension of the wind does not mean this. After the zombie fortress has been divided into five smaller zombie fortresses, waiting for more than a thousand zombie warriors on the side, they will all rise up and divide into five groups, each group In the early twos, they entered the five zombie fortresses!

Only five zombie wars will be left in the late Qiankun, and they will sit together with Vivian and Lilith to sit in the stars!

In the end, the zombie emperor's extension of the wind also set off, stepping into one of the five zombie fortresses.

Soon, the five zombie small fortresses were swung up and slowly rising from the bottom of the sea. After rushing out of the sea, they rushed straight toward the atmosphere of the Tianhe star...

These five zombie small fortresses will take the Tianhe Star as the center point and carry the starry flight along the void in five different directions. After moving away from the Tianhe Star Field, they will reveal their faces, and in the universe, the blood will be plundered. Step by step!

In the process, the five zombie small fortresses will return to the Tianhe Star Field from time to time, and their purpose of launching the voyage is to undertake the task of developing the next level of mutated zombies in addition to engulfing themselves.

Undoubtedly, as time goes by, the size of the entire Tianmo zombie army will become larger and larger. Today there are only a thousand zombie warriors, but in the near future, this number will rise like a snowball... ..

The prelude to the chaos of the human race was officially opened!

.....

Two days later, the zombie fortress, where the wind was located, after a space jump and several wormhole jumps, has come to a piece of slats between Tianchen and another small country.

It is not far from the Tianhe Star, and the distance is just right.

The starry sky hunting of this zombie regiment officially opened its curtain...

In front of the starry sky, a commercial fleet is driving through the void on the right side. The size of the fleet is quite impressive. There are two small fortresses with a diameter of 50,000 meters and more than ten large and small fortresses. Ten star-star commercial ships.

"Get started, quick fix! Remember, the fortress should not be exposed, this will be the best cover when we sail in the stars!"

With the extension of the wind, the more than two hundred zombie warriors in the zombie fortress were all rushed out, including the extension of the wind.

"Card..."

Almost at the same time, the zombie small fortress in the hidden state kept the mechanical sound of the card, and a few breaths turned into a sturdy behemoth, with a black body and a pan. The metal luster of Sen Han.

The size is similar to that of a starry sky, and it looks like a starry sky with a hard shell. It perfectly hides the strange existence of its metal and flesh and blood... At least, anyone who sees it will never It goes to the Star Fortress to associate.

Then, the starry sky scorpion was removed from the concealment, and the figure appeared in the void. At the same time, more than two hundred zombie warriors who rushed out of the zombie fortress in advance, also activated the zombie blood in the body at this moment. , turned into a giant cosmic zombie with a head horror...

"Roar"

"Hey..."

In the horrible roar and whistling, more than two hundred zombie warriors completed the zombies in a short period of time, and some turned into a vulgar bone dragon, and some turned into a pussy. The savage beast...

But the breath in the body is extremely powerful, and more than half of them are the great powers of the fifteenth world. The other half, although not the great power, is close, all of them are the fourteenth world. Strong.

A group of horrible behemoths suddenly appeared in the void without warning. When they came down, they roared. This scene was too horrified. The commercial fleet that was driving in the air in the distance was stunned for the first time. After a short period of silence, like the tide of screams, they rang...

"God, what did I see? Is this the third universe of the Terran? Did we inadvertently cross the wormhole and come to the legendary underworld?"

"Zombies! Stars and zombies... God, aren't they saying they have been cleaned up? What happened?"

"Escape..."

"Hey!"

In the face of all this, the Zombie Emperor's extension of the wind and the sound of a scream, the body instantly burst into a piece of black fog, shrouded its body shape.

Then, between the waves, a smashed magic blade with a gap is rushing out of its body...

Chapter 3958: Human race

"Hey!"

The magic blade smashed out, and a moment of violent whispering sounds of endless joy.

Originally, only the left and right blade body will rise in the wind, and the blink of an eye will be a huge one. It is like a knives, with a smashing gap covered with a blade, and stalking toward the front.

"boom!"

In the blink of an eye, the Devil's Blade has crossed the endless void and squatted on the hull of a commercial fortress. The loud noise is soaring, but the commercial fortress is not blasted. Instead, it is inside the hull. The tide-like panic was terrible, but after a short half-breath, everything stopped!

The vastness of the demon blade in the body, the infinite blade of the konjac gas spread out, like the most intense black fog, the entire commercial fortress is completely shrouded.

Since then, this 100,000-meter-long commercial airline fortress has been completely invisible, wrapped in a black mist-like scorpion, but from time to time it has a toothy metal friction sound.

At the same time, the more than two hundred zombie warriors who turned into carrion giant beasts also launched a speed, from the left and right sides, and in the void, surrounded the entire commercial fleet.

"Hey!"

The low-pitched whistling sound of the void jumped, this time, the first commercial air fortress, a small fortress, successfully launched the space before the more than two hundred zombie wars that turned into carrion giants began to kill and swallow. Jumping ability, fortunately, fleeing.

In this regard, more than two hundred zombie warriors who have completed the siege of the entire commercial fleet have not been taken care of, because even if the news leaks, it does not matter, and today the Tianmo zombie army is far from comparable.

In the next moment, the two zombie wars responsible for blocking the void will successfully ban this corner of the void, and all subsequent commercial and warships are forced to stay, and the virtual jump that is starting is forced to be interrupted!

"Hey!"

"All swallowed... the film is not left!"

Looking up and screaming, the extension of the dialect of the wind swayed, the original human form was instantly transformed, turned into a illusion of the illusory body, the giant body, the whole body is like a black fog, wandering in the blink of an eye Go, rush into the encirclement, toward a big fortress, shrouded down, and launched a plunder and swallow!

"boom!"

"Booming..."

The sound of the explosion, the tragic sound resounded through this corner of the sky, some of the commercial ship's naval guns were firing, and some star-studded strongmen rushed out of the battleship, and they retreated and wanted to flee in the way of physical flies. This piece has been banned from the void of teleportation and battleship jumping.

However, everything is doomed to be in vain...

In just half an hour or so, everything went to silence, and the entire commercial fleet disappeared. In the void, only a large number of warship wrecks without devouring value were left, which was damaged.

As for all the star-studded powerhouses in the entire fleet of commercial airlines, their flesh and blood are the most delicious food for the cosmic zombies, and naturally there is no possibility of any waste.

In addition to more than a hundred people who had a strong cultivation, the strong star of the sky, was left to develop into the new squad of this zombie corps, the rest are all swallowed and swallowed.

The Great Fortress, which was shrouded in black magic by the Devil's Blade, was the most thoroughly dispelled. When the evil black black devil smashed into the blade of the Devil Blade, the Great Fortress The original void is empty, and there is only one black magic blade that is incomparable... It is in the void!

With a slamming sound, he went back to the body of the wind and disappeared.

"Remove, use the fastest speed, stay away from this star field, change a place... continue hunting!"

As the words of the extension of the wind rang, more than two hundred horrible carrion beasts gradually shrank, and soon the human form was restored. Not far away, the zombie warfare that turned into a starry sky would change shape again. The 50,000-meter-diameter commercial aviation fortress is standing in the void.

And after a group of zombie warriors stepped into the cabin, they converge the body shape at the first time, speeding up and blinking away...

A similar scene, in the other four stars far away, is also being staged. In the end, the five zombie regiments successfully completed a starry sky hunting in one day.

In the process of hunting, the zombie warfare in the Corps will also develop some of the star-studded powers that have been cultivated as a solid foundation, and become a zombie newcomer to join the Corps!

This time, the squad of the five zombie corps was far from comparable. Before the departure, the extension of the wind was also given to them, and various emergency measures were formulated. Therefore, occasionally appeared in the hunting operation. The fish that slipped through the net, they simply did not pay attention to it, too lazy to chase!

For this reason, all of this was almost the first time that the survivors who had been fleeced passed away. The news was as long as the wings, and quickly spread to the third universe at the fastest speed.

The Zombie Legion reappears and ravages the stars!

And this time there is not only one, but at least five zombie corps, in different stars, launched a starry sky!

With the spread of this thrilling news, the whole human race is screaming, and the fear of the third universe is like a snowball. It is getting more and more serious, and the Terran... is so chaotic!

.....

The first universe, the magic king!

When Ye Xuan returned from the black hole of life and returned to the Emperor Star, the news of the chaos of the Terran also happened.

"What? The zombie corps appeared again? This time, in a day, in the five different distant voids, the signs were revealed, and the starry sky hunting was launched?"

Upon hearing this news, Ye Xuan was shocked, and his heart instantly gave birth to an extremely unpredictable hunch.

With his understanding of the extension of the wind, if there is no such thing as a perfect arrangement, he will never suddenly become so high-profile and arrogant!

In the faint, Ye Xuan has an ominous sense of what is going to happen!

"This is really a worry!"

On the side, the contemporary demon emperor asked Tiantian to reconcile, and his face was full of anxiety: "The zombie corps suddenly shot high-profile, this is no small matter, giving people a cosmic zombie will be a full-scale explosion, it is difficult to suppress the feeling, But for my devil's group, this matter has a positive side for the time being!"

"At least, the Terran has been chaotic, and the entire third universe is full of people. Whether it is the immortal dynasty or the Ten Heavenly Palace, or the Federation of the Vulcan, it is impossible to pour all the efforts to crusade my demonics... The fire in my backyard, This will somewhat affect their energy!"

"But even so, the situation faced by the devils is still not optimistic. If there is no accident, the forces from the Third Universe and the Federation of the Vulcan may not be able to arrive immediately, but the second universe and the various races are already ready to move. I think it will come soon!"

"The devil's group must be ready for the whole team..."

Chapter 3959: Source of the world

"It's just a little enough for the regular forces of the ethnic group to be fully prepared."

Wen Yan, Ye Xuan nodded and turned to look at the contemporary magic emperor Mo Tiantian: "The first universe of all ethnic groups is now dominated by the four major ethnic groups led by the devil, in terms of conventional power, it is estimated that many battleships can not be drawn. Come and participate in crusade, so if there is no accident, they will probably send high-end combat power."

"The same is true for the Terran. The Cosmic Corps reproduces the Third Universe, and this time, the five zombie regiments are raging in different stars, and there is a full-scale zombie disaster. In this case, the two camps of the Terran The Ten Heavenly Palace and the Immortal Dynasty, even if the dispatching fleet came to the First Universe to attack the Devil, its scale should not be too large."

"So, no accident, the two camps of the Terran should be based on high-end combat power!"

"The second universe of the various ethnic groups must have received the news, knowing that the former Senate of the Federal Republic of Varo has already lost an immortal grotesque here, in addition to a large number of conventional fleet forces, in this In terms of high-end combat power, it is feared that the level will also be greatly improved."

"It is very likely that the major forces will once again launch the immortal grotesque. In this case, if the roots of the devil are not moved, we will not be able to resist it..."

This is the truth, although Ye Xuan did not elaborate on the embarrassing and embarrassing situation of his own state after he had slammed the immortal old monster of the Federal Republic of Venezuela, but the democrats were present at the time. The top officials are obviously well aware.

If it is the Qiankun dynasty to kill the immortal old blame, then it will be nothing to do with the dragon and the tiger, then it is strange.

Don't look at Ye Xuan, now that he has recovered, perhaps in the same situation as before, and still can kill an immortal monster with all the means.

However, according to his speculation, this time is coming soon, and all the forces of the devil's ethnic group are squashed in unison, and only one immortal old monster is coming.

As he said, if the devil's group does not use the true power of the ethnic group, the catastrophe of this time is afraid that it will not be taken seriously!

"Yes, my devil's ethnic group, like the other tribes of today's three major stars, really has its own true ethnic heritage."

Ye Xuan's words made the devil's royal family look at each other on a high level, and the face was full of smiles. Finally, the contemporary emperor Mo asked Tian to sigh.

Then I said: "The only difference is that the major ethnic groups and forces of the three major star planes today are generally buried in the depths of the ancestral home nests of the ethnic groups, or they are located in a nest with the ancestral home nest. The independent small plane, the void in the sky."

"Although it is in a deep sleep, but at a certain price, there is still a certain chance to wake it up in advance... Of course, the level of blood ancestors, the cost of awakening is different, the more powerful the old blood The ancestors are less likely to be temporarily awakened."

"But we have different demonics, and our blood ancestors are not in the three major stars, but in the source of ... Wans!"

"The source of the world? What is this ghost thing?"

Ye Xuan frowned. Before that, there was a source of evil. Now it has become a place where countless forces and ethnic groups hate and love the three main stars. They are deeply hurt, but they can't give up. The name of the source is a veritable name.

Now it's cold and unrecognizable, and I've never heard of it. Ye Xuan really feels weird and asks: "Is it a similar star field?"

"No, the source of all evil is indeed a star field of the first universe plane, but the source of the world is different. The former and the latter are simply not comparable!"

When it comes to the source of this world, the contemporary emperor Mo asked that the face is full of fascination and even sacred color.

Seriously: "The source of the world, as the name suggests, is all the planes, the source of all the world!"

"As we all know, the First Universe, the Second Universe, and the Third Universe are just the three major cosmic planes of the world. In addition to these three major star planes, there are countless large and small void planes. They are all dangerous, full of emptiness, and more have never been involved in the world, and are not known to the world."

"In fact, just in the main theme of the three major stars, there are a large number of independent small planes, such as the existence of voids, such as the so-called holy land of my devil's group, the valley of the imperial inner city. The ancient void, it is actually a cage, related to the ancient times!"

"According to the secrets of my devil's royal family, the countless planes that existed in the world, including the three major star planes, are actually only a part of the distant world. They are said to be fragments of the universe. Not too much."

"In the past, there was a war of the world, and the whole world of the ruined world was broken down. It was turned into countless turbulent voids. There were big and small, and there were some virtual passages connected to each other, but more were isolated from each other. The buffer belts were all empty. Flow, it is no longer possible to connect..."

"And the three major star planes of today's world should be only the larger, or safer and more stable, of these wild worlds!"

"For the battle of the world in the past, there are many secrets of the various races of the later generations, but the specific details and details are not clear, but now, it seems that the one of the two camp leaders in the past is the Tiandao Qingyan. There is no degeneration, and even a horrible void refining and smashing array is set up in the starry field of the evil...."

"So, one day in the future, the recovery of the heavens, the flood of the world, will be very likely to become a reality!"

"So, the flood is the source of the world? The three major star planes of the world and countless turbulent voids, small secrets, and small caves are all formed by the collapse of the flood..."

Ye Xuan thoughtfully said, "So, in the flooded world that collapsed in the war that year, is there still a place like a hub at some point, and it has become somewhere after the collapse?" The unknown void, and the roots of your devil, is there?"

"You can say that, but it's not all right!"

The contemporary demon emperor asked Tiantian to nod and continue to explain: "The vast world of the wild can indeed be regarded as the source of countless large and small planes in the world, but it is not the source of the world."

"The source of true Wanjie is a star, an extremely beautiful, blue ocean that occupies more than 70% of the ancient stars on the surface of the stars. That star is mysterious in the era of the wild, called the mother star, the wild The original prototype of the big world was born with the mysterious mother star..."

"Mother star? Blue ocean occupies more than 70% of the surface of the stars?"

Ye Xuan's pupil suddenly condensed, and even the breathing was rushed up. The other party said, is it the star that has been dreaming of the night, and now it has been forgotten...

Chapter 3960: Sealed immortal

"Yes, that mother star is the so-called source of the world, because even the original prototype of the Great World was born with the mysterious mother star..."

For Ye Xuan's reaction, Mo Wentian was not surprised, and even had a feeling of expectation. He did not know that Ye Xuan's mind had already set off a stormy wave. He only felt that anyone who heard such a speech should be such a reaction. .

Because it involves the secret of the origin of the great world, it is the oldest distant legend.

" According to legend, before the birth of the Great World, even the universe did not exist. The whole world was chaotic. In the star nucleus of a star, there were endless innate creatures, and five hundred of them were later born. Known as the five hundred innate gods."

"In this, there is one of the most powerful demon gods. After the birth, I didn't like the scene of the whole world at that time. So I used a huge open axe to open the chaos. Heaven and earth."

"The chaotic air that has been opened up has risen into the sky, that is, the embryonic form of the great world, and the turbidity is degraded into the earth. This place is the mysterious mother star called the source of the world!"

"The source of the blood of my devil's group comes from the mysterious mother star. When the ancient world broke out in the wild, the whole world of the wilderness collapsed into the world, and the mother star did not know which floating cracks, I The family has only one **** ancestor of the ancient and supreme level, with a few descendants, who have lost their emptiness and finally moved to the first universe..."

"But because of the serious injury, I crouched in an independent small hole and recovered the injury!"

"Later, one of the descendants of Yuanzu, who opened the branches in the first universe, had the first demonic group of demons, and the first generation of demons was not the first generation of the descendants of the ancestors. He was only known as a generation of demons because he created the Devil's Dynasty."

"In fact, in that independent small hole, there are many ancestors who are older than a generation of demons. The independent small hole can be said to be the ancestral home of my devil's group in the first universe, but I The source of the family's blood and the true heritage are actually the mysterious mother star!"

"After a long time, you talked and gasped..."

At this point, Ye Xuan has determined that the mysterious mother star called the source of the universal world by the contemporary magic emperor Mo Wentian is the star that he is familiar with. Although it surprises him, he has A little disappointment.

Because after entering the starry environment of the world, he finally heard the news about the star, and the starry sea is boundless, which is really not easy.

The reason for the disappointment is that, according to the contemporary magic emperor Mo Wentian, although they know the existence of the parent star, they are still ignorant of where they are now. Ye Xuan initially thought that he had found a return. Hope, now it seems that it's just a happy occasion.

White is excited!

Fortunately, this kind of thought still exists in Ye Xuan's heart, but after all, it has been too long to leave, and it is no longer obsessive. He is used to it.

The most urgent thing at the moment is the current situation.

Under the sigh of his heart, he quickly adjusted his mind and returned to the topic again. He asked the contemporary emperor Mo Zhentian: "Since the ancestral land of your demon family has a **** ancestor of the ancient and supreme level, and Several followers of the ethnic group, the problems in front of them are solved, can you find a way to wake up one of them?"

"Even if it is only a descendant of your descendants, it is at least the existence of the quasi-ageless level of power, enough to solve the current crisis!"

"The source ancestors have gone, and they have left before tens of thousands of years. Otherwise, how can my devil's group become a slave to the celestial family?"

Ye Xuan's words just fell, the contemporary emperor Mo asked Tian Tian to shake his head and smiled: "The ancestors who followed the source of the first universe in the first universe were also gone, of course, they Before leaving, they each left a descendant of blood in the first universe."

"But they don't belong here after all, even though they have blood in the universe, they are still homesick, and they are on the road to returning, entering the void and looking for a way to return to the mysterious mother. Since then, there has been no news anymore..."

"Rely! The blood source of your demonics is too irresponsible. If you have a baby here, don't you care? Directly leave the scorpion and leave."

At the same time, I heard a few gold medalists who were at least the ancient powers of the ancients. They all followed the ancestors of the devil's blood, and it was still tens of thousands of years ago. Ye Xuan was disappointed.

After two sentences, this seems to suddenly think of something, and then asked: "Right, you just did not say that the first universe of the devil group, just the devil of the ancient level of the devil's source of the next generation What are the bloodstains of the younger generation? Then what about the other descendants and followers? Which ethnic group is the blood left behind?"

"Oh, this..."

This problem seems to be quite sensitive. The contemporary devil, Mo, asked the words on the spot, frowned and looked at the high-level faces of several other devils. After exchanging a look, he shook his head and smiled: "We are not qualified for this matter." To comment, if you really want to ask, go back to the little friend or directly ask a generation of demons, so as not to give us disaster!"

"by!"

Ye Xuan's heart was moving, and it seemed to be vaguely guessed, but with a glimpse of it, but no income, the heart was like a cat scratching, itching was uncomfortable, but people refused to say that he had no way but to White eyes straight.

"However, although the source ancestors and the few followers have left, but the follower ancestors who left the first cosmic demonic group, the descendants of the first generation and the descendants of the second generation are still alive. And both of them are immortal."

"Where, a generation of ancestors had been retired before the age of 10,000 years ago. At that time, his cultivation was the immortality of the king. He originally wanted to step into the immortality of the emperor and have the ability to destroy the celestial beings. The family is free from slavery and does not want to retreat that time, but it has not ended yet. It has lasted for 10,000 years..."

"It's the second generation of ancestors who are sitting in the ancestral home of the family. They are repaired for strength...they are immortal!"

Speaking of this, the contemporary emperor Mo asked Tian to nod slightly: "A seal is immortal, enough to suppress a few ordinary immortal, but according to the information that my family has learned, the Federal Senate, at least two kings are immortal..."

"As long as the two kings are immortal and do not shoot, the high-end combat power of these tribes only sends ordinary immortal words, and the problem is not too serious!"

Finally, Mo asked the day to sigh: "The key issue is the next time, as long as this time my family is waiting for the immortal shots to be exposed, the next time they will have some action, the force will be dispatched, and the horror is the immortality of the king. This is The level of combat power has already surpassed the limits of my devil's heritage, unless a generation of ancestors went out..."
