

Super D. S 3961

Chapter 3961: When I am not waiting

"An immortal only, actually still engaged in so many famous churches, what is ordinary immortal, sealed immortal, there are still the king and the emperor... Will there be no immortality behind?"

Ye Xuan also asked a word, but looking at the face of the contemporary emperor Mo Qiaotian, it is clear that this is the case, this suddenly let him straighten his eyes: "Rely, these immortal geeks, can really play!"

Having said that, after learning that the second generation of the ancestors of the devil's group was an immortal and able to suppress the ordinary immortality, he had been hanging in the eyes of the blind man, and he finally let it down.

According to his estimation, this time, the high-end combat power of all the tribes who came to attack the devil's ethnic group was at most a few ordinary immortal. The immortality of the king could never be easily moved.

When they are suppressed, so that the people realize that there is still an immortal existence in the group of the demon, so that when the next conquest is sent to the immortal king, it may be that the generation of the ancestors of the devil just happened to be out. I don't know.

With its breakthrough to the immortal cultivation of the emperor, the suppression of several kings is immortal, and it should not be under the circumstance.

Although this is a bit too idealistic, but the current situation is so, Ye Xuan can only think like this, of course, his own efforts to do, he will not have the slightest slack!

Thinking of this, Ye Xuan turned and turned and asked: "A generation of demons? Is it in your ancestral home? Can you contact? The Lord has something to discuss with him."

For the other followers of the ancestors of the demon people's blood, the descendants of the blood veins left in the three major star planes of the world, Ye Xuan always has some sorrows, curiosity is very

strong, since the contemporary devil is not afraid Said that he can only ask a generation of magic emperor Mo Zhentian.

"Yes, a generation of demons is indeed in the nest hole that is the second ancestral home of my devil."

Mo asked the day to nod, and his face showed a dim color: "But the hole in the sky is not in the magic star, only a void channel is connected, and the devil's royal family is born, only Mo Taiye Only have the right to open that void channel, so... I am afraid that I can't contact it for the time being."

"However, although the Void Channel cannot be opened, the news can be passed through a special channel. The situation of the Devil's Star Field has been reported to the ancestral land and has been replied. The second generation of ancestors will Pay close attention to the situation here, when you need to shoot, he will naturally shoot!"

"As long as there is no immortal appearance of the king, this crisis does not have much problem..."

It seems that in a short period of time, I don't want to contact the previous generation of the emperor Mo Zhentian. Ye Xuanton is disappointed. I even think that this old guy is not pre-feeling, but also learns the crazy mosquito emperor and the mosquito-killing old ghost. Hiding yourself?

When I think of it, suddenly a flash of light in his mind flashes and whispers: "Yes, the crazy mosquitoes and the mosquitoes and the old devils are quite involved with your demon people. You are following the blood of the ancestors and follow the other three in the world." The blood descendants left by the main star plane of the big star will not be related to these two old guys?"

This is very likely, Ye Xuan asked, and turned to the next contemporary emperor Mo Qiaotian looked over.

"Hey, Xiaoyou, I have to wait back and organize the whole family war preparations..."

"The right pair, it is not appropriate to stay for a long time, it is not appropriate to stay for a long time..."

A few old guys reacted a lot, even when they found an excuse and hurried away, the room in the small courtyard where Ye Xuan was staying in the eye was empty.

"There is a problem, there is definitely a problem..."

It seems that I found a little clue. Ye Xuan's mind was fixed. After a few words, I decided to see a generation of Mo Huangtian next time. I must ask the original reasoning.

Then I temporarily threw the matter behind my head and began to ponder the situation of the devil's star field!

With the close attention of the second ancestors of the Devils, the crisis in front of the Devil's Stars should basically have nothing to worry about, but Ye Xuan still has a strong sense of urgency.

Because this time, the second ancestor of the demon is exploding, and the next time the major ethnic groups and the Federal Senate are coming, the horror will be immortal.

Although with his current cultivation as a strength, even if he is not rushing, it is impossible to have the ability to fight the king's immortal strength in a short period of time, but Ye Xuan has many other means.

For example, the four star wars, and the corps of the ancestors, the ancestral marshes, the post-Qing and the old-fashioned electric mothers, can completely improve their strength and power. The extent of the overall increase in combat power is naturally faster.

Thinking like this, he soon decided that the direction of the future will be roughly rudimentary.

In addition to improving the practice of self-cultivation and the realm of flesh and blood, it is necessary to find ways to improve the life level of the four major groups, including the four major warriors, the golden slime, the starry squad, and the sacred beast. This greatly enhances the power of the war.

For example, when the battle is activated, tens of millions of gold slimes will be shot at the same time, and the golden years of the tide will be displayed. The tide represents a moment of 10,000 years.

If we can raise the life level of these tens of millions of gold slimes again, then, once excited, a wave of golden years and tides may represent the lapse of 20,000 or even 30,000, 40,000 years.

This level of golden years and tides, a seven or eight wave is hundreds of thousands of years of sorrow and disappeared, fearing that the king is immortal, may not be able to live.

Compared with Ye Xuan, he is now immersed in hard work and relies on his own combat power to compete with the immortality of the king. This method is obviously more practical.

When he thought of it, he immediately gave instructions to the phagocytic system even if he had always been in front of him: "I will immediately conduct a comprehensive and meticulous search and deduction of the system database, and find a kinetic energy group that can make four stars and stars fight, and quickly improve the level of life. Special resources!"

After receiving this instruction, the phagocytic system immediately launched a search and deduction. Since Ye Xuan requested comprehensive and meticulous derivation, it is estimated that there is no result in a short time. He did not pay attention to it, nor did he wait. With.

Because it is estimated that there will be more than ten days, the power of the three major planes will be coming one after another. In addition to the four major wars, the desire to smoke is also a high-end warfare with great value. Ye Xuan quickly turned his mind to this treasure.

After thinking about it, Ye Xuan decided to take advantage of the ten days to go to the Starry Thunder to go to see if he could find a source of thunder and help the newly-recycled electrician who just woke up to rebuild the Thunder. .

If it is successful, he will once again come up with a large number of top resources, to provide the ancestral marmots and ancestors, and the three daughters of the ancient mothers, let them continue to break through and improve their own strength as soon as possible...

The great world is coming, and the current situation is now waiting for me!

Chapter 3962: Re-entry grave

After the decision, Ye Xuan even asked the contemporary emperor Mo to tell the news that he had to leave for a few days, and then directly activated the interstellar coordinate jumping ability, and rushed to the black hole of life, because from there to the starry sky, the grave is closer. a little.

After the jump, Ye Xuan is already in the black hole of life, waving his hand to sacrifice the virtual shuttle. When he even rushed out of the black hole of life, he started the speed, and went straight to the starry thunder. Going to the grave.

After half a day, it was convenient to see a void full of thunder and lightning, and the starry sky was over.

After a long time, come back, the starry sky grave is still the same as before, there is no change, think about it too, such a century is full of thunder and lightning raging void, how come someone will come over?

Even if the warships enter, they have to be smashed into scrap iron, let alone the starry sky.

When Ye Xuan first came to the Xingkong Leifen, the strength was still very weak. Even the high-ranking Shanbo, who was bombarded with a Leiyuanzhu, was only the cultivation of Xuanguangjing.

But now, he is already the mighty power of the fifteenth world. But this time, once again, I saw this vast and innocent thunder, but I still feel a strong sense of crisis.

According to his current strength to carry out the evaluation, Ye Xuan believes that if you go deep into the depths of the grave, it is possible to be degraded.

It seems that this piece of mine is far from being as simple as it was originally imagined. If it was not Lei Di, the last time Ye Xuan entered it, it was absolutely dead.

Thinking of this, he couldn't help but feel a sense of fear from the heart. Fortunately, the last time he just entered the edge of the graveyard of Lei Grave, it was not deep. Otherwise, even if he was called the thunder, he ordered the thunder of the world. Body protection, but in the case of self-cultivation is too weak, I am afraid that there will be some trouble.

But that was only the past. This time, he is already the great power of the fifteenth world, and there are more extraordinary means and details. It is not comparable in the past, even the core of this innocent mine. In the deepest part, Ye Xuan now dares to take a trip.

And the source of the Thunder he needs, if it really exists in this grave, it must be at the deepest part of the core of the grave.

In the thought of this, Ye Xuan did not delay, and after his body shape, he had already stepped out of the broken shuttle, waved his income into the immortal world, and stepped into the front of the starry sky.

"Booming!"

"Card..."

In the next moment of rushing down the starry sky, the infinite thunder and the lightning slamming sounds have already come to the face, making Ye Xuan feel like entering another cosmic plane, the other world.

Everything in the surrounding environment has changed, and the outside world has completely lost all sense and perception!

This is a world of thunder and lightning.

Cyan fractionation tower, golden lightning, overwhelming, dense!

Qinglei and Jindian are the main tone of the world. There is no star, no cosmic dust here. Even if it has been there, it has been turned into nothing by the infinite Qinglei and Jindian.

Here, only Qinglei and Jindian are constantly raging, dying... reciprocating!

That being said, but today's Ye Xuan, even if it is placed in the starry sky of the starry sky, it is completely innocent.

At the same time that his figure was taken from the hole in the hole, Ye Xuan's body clearly showed a faint cyan mist, and did not spread too broad space, but on the surface of his entire body. Covered by about three inches, it is only the three layers of cyan fog, but it is enough to protect Ye Xuan in this starry sky.

This is the unique domain power of Lei Diyin, which was revealed between Ye Xuan's thoughts.

This starry sky is the source of the treasure, can ignore the attributes of Thunder lightning damage, and is only the most basic one.

With the inner domain power protection of Lei Diyin, Ye Xuan is in the sky of the starry sky with only the endless blue thunder and golden lightning, and the surface is floating with a thin layer of light blue haze. So quietly standing, but invisibly exuding a domain called the emperor, ordering the whole scene of the starry sky, the grave of the grave, nothing to do with his cultivation, purely the nature of the nature of suppression!

Around his body shape, the originally raging Qinglei and Jindian, with a sense of fear, subconsciously retreated to the distance, so that within a radius of his body, it became a vacuum, without any The Qing Lei and Jindian appeared.

These Qinglei and Jindian naturally have no consciousness. The reason why they are retreating is purely natural and it is only a reaction to the suppression of the emperor's emperor.

Under the heart of his mind, his figure swayed and spread at a speed, directly fleshing across the sea of Thunder...

At the speed of Ye Xuan's great power, even if the flesh crossed the thunder sea, it was not long before he arrived at the area where he last condensed ten Leiyuan beads, even if he first entered the starry sky. When you reach the farthest point.

Going forward, it is the deep core of the graveyard of the Starry Sky. It is Ye Xuan, who is riding Lei Diyin. I didn't dare to get involved in the last time.

But this time, he has no choice but to retreat.

After taking a deep breath, Ye Xuan will move forward again.

This time, after a full day, he discovered that there was a change in the surrounding emptiness. In the thunderstorm that passed before, the Thunder was blue, and the lightning was golden.

But after arriving here, whether it is Qinglei or Jindian, they all have a layer of faint purple gold.

And this situation, as he deepens, is still becoming more apparent.

After one day passed, when Ye Xuan was shocked, it was discovered that the thunder and lightning in the surrounding air were all purple gold color, completely different from the previous Qinglei Gold, transmitting a stronger power. Pressure, more violent destruction.

Undoubtedly, these purple-golden thunder and lightning have a higher level.

This made Ye Xuan's heart move, and then, after he had not acted, the Lei Di Yin, who was hanging in his mind and knew the sea, suddenly trembled without warning, and seemed to be transmitting to Ye Xuan. what's the message.

After a slight sigh, Ye Xuan went to the soul. When he stopped his body, he extended his consciousness to the Lei Di Yin, who knew the sea, and entered it.

"Booming..."

"Boom!"

In the next moment, the sound of the thunder of the thunder, which was suddenly and abruptly introduced into Ye Xuan's ear, made him feel moved.

There is also a picture in front of you, and this is clearly a void full of scent, belonging to the void of the ancient era, the kind of breath, and Ye Xuan from the cave giant turtle, the golden dragon and the 陨天弓神通, etc. What I have seen in the inheritance picture is exactly the same.

In the same way, it is the same as the mysterious land of the ancient cages! Distinctly belong to the same era, once in the same period of history and rivers, carrying a sinking...

Chapter 3963: Zijin Leiyuanzhu

Pass the picture!

Actually it is a heritage picture?

This moment, Ye Xuan's heart flashed through a clear understanding, Lei Di Yin Ming has been refining, but this time, he actually saw this from the era of the ancient times, suspected that Lei Di Yin began to inherit the picture of inheritance!

At that time, the universe of heaven and earth, Hongmeng opened, and all things in the heavens and the earth brought their own innate temperament, and after the endless years of gestation, they became the star of the starry sky. This kind of opportunity and creation will not be available in the later generations. Hard to reproduce!

At the end of the void of this inheritance picture, a golden giant lotus is blooming in full bloom, bursting with endless golden light, it seems that the entire universe is reflected, as if born by nature, nurturing from the void The place is extremely large, it is the star, in front of it, it is extremely weak and small.

On the lotus flower of Jinlian, there is only one lotus seed, but it is cyan. It is clearly a shape of a neem, and the golden lightning of the whole body is entangled and stretched.

His Lei Di Yin is the only lotus seed that was nurtured among the golden giant lotuses that are so close to the sky.

"Booming..."

The inheritance picture is still, not moving, but it is always thunderous, and it is introduced into Ye Xuan's ear, shocking his heart!

Surrounded by the blue gold seal that exists as a lotus seed on the lotus canopy, there are countless small golden lightnings that are stretched and swallowed, and if you open your eyes and open to the whole golden golden lotus body, you can see By the way, there are countless blue thunderballs around the entire Phnom Penh, and they are blasting one after another.

Endless life, endless!

Gradually, around the golden giant lotus, the blue thunder beads became more and more dense, and all of them exploded, turning into countless huge golden lightnings. At first, they only ravaged this void, and destroyed countless stars. Finally, these The golden lightning seemed to be inspired by some kind of inspiration, and gradually gathered in one direction.

It is the golden gold seal of the only one lotus seed that is on the top of the golden giant lotus dome.

But this is not the end. The last time, Ye Xuan saw the scene from the paintings of Lei Diyin, and it is over.

But this time, the subsequent evolution is still going on...

In the inheritance picture, Lei Diyin began to spin down. As it rotates, a large number of Qinglei and Jindian were sucked around the golden starry sky, and gathered toward Leidi.

Slowly turned into a blue-golden cymbal, this scene, exactly the same as Ye Xuan's last condensed Lei Yuanzhu in the grave of the starry sky, his mind realized that this is the demonstration of a power .

Soon, a huge green dragon python wrapped the thunder, and the whole giant python was formed by blue thunder and lightning, and eventually condensed inward. When all the thunder and gold and

electricity were condensed to a point, Ray Above the emperor's seal, there was a blue-gold, only Zhuguo-sized beads, which is Leiyuanzhu.

But this is still not the end, it is not over yet.

At the same time that Lei Diyin condensed this Leiyuanzhu, the huge incomparable emptiness of Jinlian in the picture was apparently growing. Before it was telescopically swallowed, it was Qingleijindian, but now Whether it is thunder or lightning, it has all become the color of purple gold.

Even the whole plant, Jinlian, has been turned into Zijin, as if it was just a green scorpion, but now it has matured.

Then, Lei Di Yin once again spinped up.

With this rotation, a large number of thunders and lightnings were pulled again, and gathered around the thunder, but this time, whether it is thunder or lightning, it is the color of purple gold.

And the Qingjin Leiyuanzhu, which was hung above the Leidi Seal, still exists, and rotates with Lei Diyin.

All the Zijin Thunderbolt that came together, all of them rushed toward this Leiyuanzhu. This seems to be the second forging and quenching, which is improving its quality.

Soon, with the more and more purple gold thunder and lightning gathered, the second big gong was also formed. Like the first one before, it is still composed of endless lightning, and the whole body is purple gold, showing a horrible atmosphere.

Everything that followed was like the previous copy. Zijin Daxie quickly condensed inward, and all of them did not enter the Leiyan bead hanging above the Leidi Seal. At this time, the original source of the blue gold was already Whole body purple gold.

Thunder and lightning, whose surface is stretched and swallowed, are all purple gold.

At this point, the inheritance of the picture came to an abrupt end, and Ye Xuan had passed through a few seconds before he recovered from the hustle and bustle.

He originally thought that Lei Di Yin had been thoroughly refining. Now it seems that this source is far from being as simple as he imagined. It seems that there is still a seal, which is unsealed.

What Ye Xuan saw now is only the second layer of change that condenses Lei Yuanzhu. Does it still have a third layer behind him?

But one thing is certain, that is, the purple gold mine source beads condensed by this second layer of the magical magic method can definitely threaten the existence of immortality, and the pressure of the gas is too horrible.

One thought and this, Ye Xuan was almost excited.

In the Lei Di Yin in his body, there are eight golden Leiyuan beads. If this time they are all forged again, they will all be upgraded to Zijin Leiyuanzhu. At that time, when he faces the immortal old monster, the foundation is undoubtedly more sufficient.

"call out!"

Excited, he did not hesitate, and he threw out the thunder in the wave.

The next moment, with Lei Di Yin was sacrificed by Ye Xuan, hanging over the top of the head, the depth of the whole thunder grave, for a moment, it seems to pour a roll of ice water in the pan, thoroughly The ground was fried.

Numerous Zijin Thunder were attracted and blasted on the head of Ye Xuan. The massive purple gold lightning rain slammed into the top of Ye Xuan's head, but they could not cause any damage to Ye Xuan. His body surface Always covered with a thin layer of purple and golden mist, carrying his hands in the vain air of the thunder, exudes a strong devotion, and is not shocked.

A large number of Zijin Thunderbolt gradually shrouded the Lei Di Yin, and even Ye Xuan's entire body shape, and finally formed a huge thunder of purple gold lightning flashing endless.

Ye Xuan, who is headed by Lei Di, is the core of the huge thunder of this star.

At this moment, the purple gold mist that had shrouded his body suddenly became a big hit, spreading outwards, shrouded the entire purple gold giant, and turned it into a green color. Then, it began to condense inward...

The whole process is basically the same as that seen by Ye Xuan in the inheritance picture of Lei Di Yin.

Then, I don't know how long it has passed. In the end, this is like a small meteor, and the Zijin Giant, which was opened by a Leiyuanzhu through the second forging and quenching of hundreds of millions of Zijinlei, finally disappeared completely. Above the Lei Diyin on the top of Ye Xuan's head, there was a Leiyuanzhu... all-in-one Zijin!

Although it is only the size of the pigeon egg, it emits a kind of invisible pressure that destroys the earth, and the breath far exceeds the previous golden mine source beads!

Chapter 3964: Seventh-order

After the first Zijin Leiyuan bead was finished, when Ye Xuan opened his eyes, the familiar system prompt sounded again, and the unexpected realm breakthrough, actually came again...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Qiankun fourth order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun fourth order!"

Undoubtedly, this time, both the sinister and the flesh and blood of the body broke through the golden steps, and he used this to use Lei Diyin to condense Zijin Leiyuanzhu.

Because in the process of condensing the Zijinlei source beads, Ye Xuan's figure is also wrapped with Lei Diyin, and the golden Leiyuan beads hanging above the Leidiyin, surrounded by the purple gold lightning that surged around. It is.

It can be said that the original golden Leiyuan beads were forged and quenched for the second time, which improved the quality and power, and Ye Xuan's body was also baptized once by the purple gold lightning. The practice was also due to the absorption of some purple gold. The energy in the thunderbolt climbs again.

"I don't think there is such a benefit. It is a surprise."

In the surprise, Ye Xuan couldn't help but look forward to it again: "There are still seven golden Leiyuan beads that need to be condensed. I wonder if it can make repairs improve."

With this kind of surprise, Ye Xuan will refine the thunder source beads after the Lei Di Yin, and then take out the second golden Leiyuan beads in the mind, repeat the previous steps, and start the second time. Condensation.

After two hours, when he opened his eyes again, the system prompt sound in anticipation, actually appeared in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Qiankun fifth-order!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun fifth-order!"

Actually, there is still effect, this is simply a surprise!

In a short period of time, Ye Xuan's practice was repaired with the flesh and blood, and again and again, and with this time in the repair and the flesh and blood, the overall strength of Ye Xuan, obviously It has soared again.

The cultivation of the deity is in the fifteenth state, and after becoming a great power, according to Ye Xuan's deduction, in the state of activation of the blood of the three-headed six-armed Taikoo konjac, the growth of strength should still be Two to one!

Before he was in the third stage of the deity, the strength of the ancient konjac bloodline was the second order of the star.

Now the cultivation of the deity is two small steps to improve the strength of the five steps, the strength of the ancient konjac blood, the water is rising, the corresponding increase of a small stage, that is, will reach the third level of the star!

In addition, the first four changes of the konjac nine changes, each change to enhance the strength of a small order, now Ye Xuan once entered the three-armed six-armed konjac true state, and cast the fourth change of the konjac, its peak strength Will reach the seventh stage of the horror star master, and finally stepped into the late stage of the star!

"It's not so good to play this way? Condensing a purple gold mine source bead, the practice of repairing the body and the blood of the flesh, all of them will be upgraded accordingly. If it can continue this way, this is not a short time. I can be promoted to the immortal grotesque... I can't make a bunch of Zijin Leiyuan beads!"

In the stunned, Ye Xuan took the second condensed Zijin Leiyuanzhu into Leidi Yin, and at the same time took out the third golden Leiyuan bead to be refined, while muttering to himself!

But this is just to talk about it, this situation can not exist.

The reason why the first two upgrades have been improved is that it is only because of the purple gold high-grade lightning power forging and quenching itself.

It is like quenching a body with some kind of top-grade treasure. When it is just used, the effect is naturally obvious, which is excellent, but it is useless when used.

But even so, the two breakthroughs should not be the end. You must know that there are still six gold mine beads in his hand. Even if these six Leiyuan beads only improve two or three small steps, it is also very remarkable.

After all, the current Ye Xuan is already the fifteenth state of the world, in the past, when others in this big realm, a small step breakthrough, all need to accumulate a long time of water grinding, in order to be realized.

Such an opportunity must not be missed. Ye Xuan does not hesitate any more. Even when he started the refining of the third Zijin Leiyuanzhu, at this time, the main purpose of this time to come to the Starry Thunder tomb is to look for it. The source of the Thunder, the help of the ancient electric mother to reshape the real thing of the Thunder is thrown behind.

It is impossible to manage it. Let's first condense the eight Zijin Leiyuan beads and condense them out!

.....

After a few hours, the last Zijin Leiyuan pearl was condensed. When Ye Xuan opened his eyes again, the system prompt sound in anticipation was actually revealed in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the seven steps of Qiankun!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun seven orders!"

The fact is also as he speculated, the refining of the six Zijin Leiyuan beads in the back, although the improvement of Ye Xuan itself is still effective in improving the strength and physical condition of the flesh, but this effect is obviously far worse. Initially.

Before the two Zijin Leiyuan beads, he improved the two small steps with the flesh and blood.

Now, the back of the six Zijin Leiyuan beads has been condensed, and only two small steps have been upgraded!

However, Ye Xuan has been extremely satisfied, and can even be said to be a surprise, because the harvest is too big, far beyond the expectations of the second step before entering the starry sky graveyard!

Before he was in the fifth stage of the deity, the strength of the ancient konjac bloodline was the third order of the star.

Now the cultivation of the deity is two small steps to improve the strength of the seven steps of the Qiankun, the strength of the ancient konjac bloodline, the water rises, the corresponding increase of a small stage, that is, will reach the fourth stage of the star!

In addition, the first four changes of the konjac nine changes, each change to enhance the strength of a small order, now Ye Xuan once entered the three-armed six-armed konjac true state, and cast the fourth change of the konjac, its peak strength It will reach the eighth order of the horror star master, and it will be a perfect completion from the ninth order of the star master.

At the moment, he only needs to break through the two small steps in the realm of repairing the body and the blood of the flesh, and achieve the great perfection of the nine-order of the Qiankun. Then, once Ye Xuan enters the three-armed and six-armed konjac, he will show his magic. The fourth change, its peak strength, will reach the star of the nine-step great consummation.

Distance to the main domain, only one step away!

If the 16-stage liquid that has just been condensed is swallowed up, then Ye Xuan will be able to display the terrorist power of the domain's main territory, which is absolutely of extraordinary significance.

A breakthrough in a big realm will make him more powerful when he uses all kinds of blood and magical powers!

In addition, this time he even more than eight gold mines in the Lei Di printing, after the second forging and quenching, the grade has been upgraded to the level of Zijin Lei source beads.

The former can only threaten the mighty power, while the latter can threaten the immortal grotesque, it is a world of difference...

Chapter 3965: a mine source

As soon as he entered the starry sky, Ye Xuan met the great creation of Tianda.

On the basis of the strength of the fifteenth world, the strength has once again soared four small steps, and the combat power has soared.

In addition, the original eight gold mine beads of Lei Di Yin, after the second forging and quenching, upgrade their grades, which can only threaten the mighty power before, and now it can threaten the immortal old The strange purple gold mine source beads.

More importantly, after this time, let Ye Xuan realize the extraordinary of Lei Di Yin. Before he thought that refining this innate source to treasure, he had already done his best, just because the cultivation is too weak, so can not Play a powerful power that matches it.

But now I have understood that Lei Diyin himself has also sealed itself. Even this time, a new seal has been opened, and it is not the end of its true power. With the power of lightning that is stronger than the Zijin Thunder, Ye Xuan will definitely have a seal to unlock, showing a stronger ability!

In this way, it matches the Shennong Ding that is qualified to be in the growing state, and at the same time, it is placed in the central domain of the sea that is suspended in Ye Xuan's brain. It is supernatural in the Tianzhu bow and the black gold dragon scale. Seven small objects with magical powers!

After a wave of heartbeat, Ye Xuan finally calmed down. At this time, he found out that he had entered the starry sky and thundered graves. He had already passed the whole two days without knowing it, plus the half-day time that he had used it before. It has been two and a half days before and after.

However, the source of the Thunder, which is needed by the old-aged elders, has not yet been searched. It was too excited before it was completely thrown away.

"It seems that I have to hurry, because after I found the source of the Thunder, I might have to wait a little longer for the collection. So, time is already very urgent..."

As soon as I read this, he will not delay, even if the eighth purple gold that was finally condensed will be collected by Lei Di, then the emperor will be allowed to float above the head of the head, and his body will be glimpsed toward the front star. The core area of the hinterland deep in the grave swept away.

From the area where he had squandered the Zijin Leiyuanzhu before, all the thunder and lightning around the void were already the color of the whole body, and now it is still the same, there is no difference. .

The vast expanse of the void around the line of sight, some just purple gold thunder and purple gold lightning from time to time, not to mention the universe stars, even the universe of dust is not.

The thunder of the core of this thunder cemetery is too horrible. Even if the immortal blame is here, it will definitely not last too long, otherwise the result must be detached.

Any other substance, there is no possibility of existence here, is to create the starry alloy of the top battleship, Ye Xuan now as long as it is taken out from the immortal world, will not drive the security protection of Lei Di Yin, will instantly turned into a blue smoke, directly annihilated...

Soon, half a day has passed. At this point, Ye Xuan has been away from the Magic Emperor for three days, but still has not found the shadow of the Thunder.

Not to mention the source of the Thunder, in this half-day, in addition to the purple gold thunder and lightning, other things have not even seen the root hair.

In fact, Ye Xuan is now even what the so-called Thunder is what it is, and in what form it is still ignorant.

It is not searched and searched in the system data repository of the body swallowing system, but unfortunately, there is no result at all. The source of the Thunder may be because Ye Xuan has not touched the cause, the data database of the system, Related to this is a blank!

Just as he was looking for a long time without any progress, he was feeling disheartened. In his mind, he suddenly heard a familiar system prompt: "Hey, congratulations to the host, find the Thunder source! Is it charged immediately?"

Hey? So clever?

But... Where is it?

Under the circumstance, Ye Xuan was a little worried, and almost thought that this was too urgent, so there was an auditory hallucination, and these thoughts were turned in his mind. He turned his head and looked around.

Soon, in the void in the far side of the right side, a touch of color with the endless purple gold is slightly different, and suddenly flashed without arouse, causing Ye Xuan's attention.

In this sea of purple gold thunder, in addition to the head hanging Lei Di Yin, it is impossible to have other things exist, now there is a different color, and the glory is over, except that the so-called Thunder origin What else can it be?

Ye Xuan is excited, his body shape, and he will chase after the speed!

This is a green color, which is quite eye-catching in Jin Zi. Otherwise, it is only a small bit of a finger, and it is not so easy to be discovered by Ye Xuan.

Of course, this is also related to the system prompts!

What makes Ye Xuan quite surprised is that although the green and blue mans are only the size of the portable head, they seem to be alive, with a small insect, extremely flexible, and without fear of any purple gold thunder and lightning. The speed is almost as fast as it is going straight to the front.

If the head of the non-Ye Xuan is hung with Lei Diyin, the same figure in this thunder sea is not affected by any influence. It is feared that it will be destroyed by a few flutters.

Even so, Ye Xuan pursued this road, and the blink of an eye is a small half-day. Although the green bug is very close, but in front of the thunder sea, there is also a green and blue The matter, so suspended in the purple gold thunder in the sky, is not affected.

This is a green fog, actually existed in the Thunder, so that Ye Xuan was stunned.

In addition, the green worm that fled in front seemed to go straight to the awning green mist, which seemed to be its nest.

Ye Xuan suddenly became nervous. If the nest is down, but if there is something else in the green fog, such as the existence of a void passage, then the green bug will disappear like a move. I am afraid that it will be difficult to recover.

One thought of this, he did not hesitate, under the teeth, when the instructions to the swallowing system of the body were forcibly swallowed.

Although forced devour has a certain success rate, sometimes there is a possibility of failure, but now the other side is about to escape into the nest, it is not a lot of care.

"Hey..."

Fortunately, there was no accident. As the green bug uttered a strange scream, the next moment, in Ye Xuan's mind, the prompt of the system response was quickly heard: "Hey, congratulations to the host, get Thunder is a source! Is it absorbed immediately?"

It seems that this Thunder is the source of the Thunder, and it can be absorbed by itself. As for its role, it must be the same as the previous quenching effect of Zijin Thunder and Zijin Lightning.

However, Ye Xuan did not make this choice. Even when he was in the middle of his mind, he sent the source of the thunder that he had just captured into the body of the immortal world.

Chapter 3966: Leihai, Diyin Town

As soon as the source of the Thunder came to the hand, the purpose of coming to the Starry Thunder tomb was finally reached. Ye Xuan hung in the eyes of the blind man, and it has completely fallen back.

Just as he prepares himself from the immortal world, he takes out a lot of top resources such as congenital yin enchanting liquid, smelting lotion, and nine color meat mud and sinister source liquid, and send it to the smoky snails to help the newly awakened old electric mother remodel. The thunder was real, and at the same time, he also sent a batch of resources to restore the resources of the corpse and the ancestors.

"Booming!"

"Card..."

There is no sign, the front of the vast thunder of the ocean, seems to have been suddenly stimulated, suddenly rioted, the thunder of the earth-shattering and the endless card lightning lightning!

It's too awkward, and the changes are too fierce. It feels like a sea of tranquility. It instantly sets off a tsunami and a hurricane. The courage is scared by such a shock. I am afraid that it is straightforward. Stunned on the spot!

Looking up, Ye Xuan sneaked a bit, and then it was easy to flash in the squat, and it seemed to be faint.

The Thunder Ocean, where the riots have occurred, is about a thousand miles away, but its core point is exactly the green and green mist of the suspected green nest.

This canopy was originally only the size of the square, but now it has spread to the Wanli square. All the thunder and the ocean covered by the mist are all like boiling water, and it is violent.

Obviously, this riot, and the singularity of this awning, is absolutely inseparable.

At this moment, Ye Xuan suddenly remembered the source of the Thunder, which was like a green worm. Before it was forcibly swallowed by himself, it seemed that there was a weak but sharp whistling sound.

I think it should be that the whistling whistle contains some kind of power, which has spurred the change of the blue-green fog that seems to be like its nest. This has the unexpected scene...

Leihai riots, this is absolutely a terrible event. After all, the Thunder and Lightning are originally a kind of force that has just arrived, and with the dynamism of the violent power, in the face of this situation, the general star power is true. I dare not touch the head, I am afraid that I will rush away in the first time.

However, Ye Xuan has Lei Di Yin, and now he just hangs over his head, pouring out a blue light curtain, protecting Ye Xuan himself, but it has not been fully activated, showing its true power as the Thunder Emperor.

This awning green fog is really strange, this can only be seen from the fact that it can exist in the center of the Thunder Ocean, and at the same time it is the nest of the Thunder.

Perhaps this is also the reason, so that it can violently explode all the thunder and lightning that it is covered.

In a certain sense, this strange green and foggy fog has obvious influence on the Thunder, and even the ability to drive.

Even so, compared with Ye Xuan's Lei Di Yin, it is obviously not enough.

What about the Leihai riots? There is Lei Di printed in the hand, Ye Xuan can completely sacrifice it, turn over the room ... Diyin Town Leihai!

Ye Xuan is very determined, and his determination and self-confidence have indeed been confirmed.

"call out!"

Between the thoughts, Lei Di whirls and spins up, and slowly rises above Ye Xuan's head.

In this process, the cyan light that has been poured out from the inside of the emperor's seal is also becoming more and more intense, and the scope of coverage has also expanded with the increase of the origin of the emperor...

But at any time, Ye Xuan is always at the center of the area where the diameter of the awning is expanding.

Being held firmly, it is not affected by the power of the Thunder.

Ye Xuan has tried his best to urge Lei Diyin, although it is still far from being able to play the true and powerful power of this emperor, but with the cultivation of Ye Xuan and now the power of the great power to promote the emperor It is obvious that there is no glimpse of the printing field.

In the vagueness, there seems to be a breath of indescribable pressure through the emperor's mark at the top of the head, projected on his body, this point, Ye Xuan has a clear sense.

At this moment, Ye Xuan's inexplicable body exudes a divine power, clearly without any movement, but at this moment he is more of a sense of supreme prestige.

Very wonderful, very mysterious, let him bless the soul, followed by a glimpse of the fine man, Ye Xuan subconsciously waved to the front of Lei Hai.

"Oh la la..."

With a light movement, the infinite purple gold thunder in front of the sky, is actually very smooth and separate, like the tide, in the sea of thunder, there is an open channel.

This scene shocked Ye Xuan. Is it really the thunder of the world?

Under this means, even if he enters the Thunder Sea with thousands of troops, he can protect everyone's well-being. If the thunder is separated by waves, what fear?

Enron passed!

But for Ye Xuan, this is completely unnecessary.

Waving again, the front separated by a thousand miles, stretched the endless passage, once again closed, filled with endless Zijin Thunder, and Ye Xuan also stood up at this time, facing the front of the canopy is still outside The diffuse green haze enveloped the area and spurred away.

As his body shape swells, his head is still slowly rising, and the range of blue and radiant rays that have been exposed is also expanding in the Lei Di Yin, and it is also closely followed, always keeping Ye Xuan in the Qingmang area. The center point.

Soon, Lei Di fog on the top of the head, with a large piece of broad and violent movement of Ye Xuan, entered the thunderstorm area.

Sure enough, he did not expect, although all the purple gold thunder in this area, all rioted because of the strange green haze, but with the arrival of Ye Xuan, all the contact with the thunder of Ledi The Thunder, whose riots, was calmed down in an instant.

Compared with the fierce blue thunder that Lei Diyin dumped, the strange green haze is not an opponent at all. The area covered by its power can be seen as the ice and snow with the arrival of Ye Xuan. In the sun, the only reaction is to quickly melt!

And with Ye Xuan finally coming into contact with this strange green haze, the data repository of the body's engulfment system has finally been updated again, with such a strange green and foggy resources!

After some inspection, Ye Xuan suddenly realized that he thoroughly understood this strange green haze!

As Ye Xuan had previously speculated, the awning has now spread to the squadrons, but at first it only succumbed to the green and green mist of the square, which is indeed the nest of the Thunder.

Moreover, this kind of blue-green misty mist can only appear in the congenital Leihai, where the scale reaches a certain level. It can be said that the innate aura of the Leize Ocean was born.

As for the so-called Thunder origin, it is bred in this strange fog. As for the name of the fog, it is as high as the end of the atmosphere, its name is Lei Ze Ling...

Chapter 3967: Five-color flame

Reze Lingwu is a special product unique to the vast congenital Leihai!

The property is congenital, and it is born for the innate Thunder of the Endless Thunder Sea. Every time it takes a million years to show it.

Only in this way, it can be seen that only the size of the awning Leize Lingwu has been precious, at least for hundreds of millions of years. For this starry sky, its preciousness is absolutely second only. The existence of the source of the Thunder!

The so-called Thunder origin is the Raytheon fog in the innate Thunder Sea, and the thunderstorm consciousness that was born, Lei Ze Ling Wu, is the mother's nest of this Leiyuan consciousness.

This Leiyuan consciousness is only a kind of thunderworm with no intelligence. As it grows up, it will eventually give birth to the ingenuity. At that time, it will be the whole Leihai of the vast Thunder Sea!

The Leihai, which was born out of Leiling, will be able to send and receive freely. When it is big and vast, it will spread far and wide, and the hour can even condense into a thunderball, cross the void, lasing away, and the endless starry sea!

To put it bluntly, this piece of Lei Haicheng is fine!

However, for this starry sky, this kind of fine opportunity is obviously impossible to realize. With the initial gestation, it is far from being the source of Thunder's thunder. Captured by Ye Xuan.

And even in front of this piece of Lei Ze Ling fog, Ye Xuan is obviously not ready to let go... This piece of the starry sky tomb graves has basically been completely cut off!

Although it will not become refined, the starry sky will still exist. For Ye Xuan, this is enough. In the future, there may be times when you need to use this innocent Thunder Sea.

As for the front, for Ye Xuan, the only thing that needs to be done at present is to use the awning Lei Ze Ling smog. Then, this trip to the Star Trek is basically complete, ready to step. Go home!

Yes, Ye Xuan intends to directly absorb the fog of the awning that has already spread in front of him. If there is no accident, this will definitely make him repair the strength and the realm of the flesh and blood, and get a breakthrough climb.

After all, before the condensed Zijin Leiyuanzhu, Ye Xuan's body was once and again wrapped in the Thunder, which was formed by the infinite purple gold thunder and lightning, and gained a lot of benefits. Repeated breakthroughs.

And this kind of Reze Lingwu is the cradle of the birth of the innate thunder, its grade must be far above the purple gold thunder and lightning, if there is no accident, then it will once again carry out the refining of the soul, repairing the breakthrough It's almost a matter of nailing!

Not only Ye Xuan himself, but also the corpse of the corpse of the smoldering scorpion and the post-Qing, as well as the old-fashioned electric mother who is about to reshape the real body of the Thunder, Ye Xuan will also send some Reze Lingwu.

This kind of thing can be encountered and not available. The first time it is used, it must have a wonderful effect. Especially the old-fashioned electric mother, the original repair of her is the thunder way, and the benefits obtained by it must be more!

In the middle of the wave, I want to smoke from the body to hang out, suspended in the front of Ye Xuan, although it is in the Leihai, but because of the high above the top of the head, there is a thunder in the emperor's seal, and so on. Not affected by the minute.

The original Thunder, which was captured before, Ye Xuan has been sent to the smog in the first time, but it is obviously not enough to rebuild the real body of the Thunder.

Also need a lot of other top resources!

At the moment, what Ye Xuan is preparing is this.

During his thoughts, he took out a large amount of congenital yin and cold spirits from the immortal world, as well as the scented lotion and the colorful meat mud, all of which were thrown into the smoke.

Finally, there are thirty drops of evil source!

Of course, these are not just for the old-fashioned electric mother who is about to reshape the real thing of the Thunder, including the corpse of the ancestors and the ancestors.

With the latest supply of resources, the three ridiculously revived, will once again enter a state of dormancy and retreat, I believe that when they break out of the past, their cultivation will definitely rise again. .

And this is exactly what Ye Xuan is looking forward to!

After doing all this, Ye Xuan urged Lei Diyin, which was hung above the top of the head, to unfold the Emperor Yin, and drove a large piece of blue-green Reze Lingwu into the smoke.

In the end, the wave of smoke will be absorbed into the immortal world, and then a storage bottle created by the congenital cold jade!

This kind of Reze Lingwu can only be born from the vast sea of innate thunder, and each one takes tens of thousands of loads, which is extremely precious and can be met. Ye Xuan repeatedly considers it and finally decides to collect some and gather. Save the thunder liquid for future use!

Otherwise, if you need to replenish a higher level of genetic culture fluid, or to refine the world's medicine, you need to add this kind of resources, but you don't have it in your hands. That's really dumbfounded.

Soon, with the emperor's printing of the Emperor Yindi, it was immediately released, and a large piece of Reze Lingwu was compressed, and the green color became thicker. After reaching a certain level, the spirit was atomized for thunder, which was very thick. Green color, a small bottle, three hundred drops!

These three hundred drops of Lei Ze Ling liquid does not sound much, but you must know that the previous Lei Ze Ling fog is a green and foggy state, but now it is gathered into liquid, it can be seen how much spiritual fog is consumed, almost all Nearly half of the fog of Reze Ling.

Taking into account the rest of the Lei Ze Ling fog and its use, Ye Xuan suddenly stopped, waved this bottle of Lei Ze Ling liquid into the immortal world, and then sacrificed Shennong Ding!

Reze Lingwu is a good thing. Ye Xuan's ancestral sorrows and sorrows, as well as the old-fashioned electric mothers who are estimated to be reshaping the Thunder's true body, are all allocated. Naturally, it's impossible to reduce the eight King Kong's internal space and the indigenous Orc group!

Fortunately, the resources obtained this time are foggy and look enough. Therefore, even if the indigenous beasts in Shennong Ding have millions of heads, basically every beast can absorb a little. Of course, rain and dew are impossible, and the high-rises such as the Taikoo Porcupine and the Taikoo tortoise naturally absorb more.

Soon, a large can of Reze Lingwu was sent to Shennong Ding by Ye Xuan.

Although the savage beasts in Ding know that this is a good thing, they immediately screamed with excitement, and all of them were absorbed. The eight King Kong, who had already been familiar with the indigenous beasts, also participated in it. Lei Ze Ling fog, excitedly sneaking.

In addition, some of the spiritual fog seems to be pulled by an invisible force, and it flutters into the bottom of the central volcano and falls into the flame pool.

Therefore, in the mountain wall of the volcano on the side of the cage, the lion is still in a coma, and actually passively collected some, not into the body.

Soon, as these thunderstorms did not enter the flame pool, the flame pool that was originally restrained by the flames was suddenly a fireworks, and the steaming up was actually... Five-color flame!

Chapter 3968: Qiankun Great Perfection

"This breath..."

After introducing the large canopy of Reze Lingwu into Shennong Ding, Ye Xuan was originally prepared to put Shennong Ding up immediately, and then began to use these remaining Reze Lingwu to refine the body and improve the cultivation.

But at this time, Shennong Ding suddenly burst into a breath that made him all shocked. Ye Xuan took a breath and breathed a sigh of relief. before!

Now, after seeing it with his own eyes, he finally realized that when he felt the sudden burst of breath, he made a bold guess.

Shennong's flames have been promoted, and the former four-color flame has become the current five-color flame!

The color that was added on the basis of the previous four-color flame is the blue color of Lei Ze Ling fog. It is obvious that Shennong's flame was promoted because of the absorption of Lei Ze Ling fog.

If there is no accident, this time the five-color flame after the promotion, most of its flame energy will contain some of the unique power of Thunder.

The four-color flames turned into a five-color flame, which was no different from the power. But this time, the Thunder's unique attributes were added. It's absolutely like a reincarnation, whether it's attacking this flame or a new Shennong color. Flame roasting blood food, smashing large medicines, the effect must be far from the past!

This is another unexpected joy, Ye Xuan is very excited, and almost impulsively on the spot to produce a quasi-wild and powerful genius of flesh and blood, with this new five-color flame containing Thunder attributes, a good roast, try Try it for its efficacy and wonderful taste.

But in the end, he finally succumbed to this impulse. The matter is not anxious. There are opportunities to turn back. At the moment, the most urgent task is to finish the remaining Reze Lingwu.

After all, the time to leave the Magic Emperor is not too short, for nearly five days, the situation of the Devil's Star Field, Ye Xuan is really worried, always remember!

After calming down the mood, Ye Xuan re-raised the five-color flame of the awning that was suspended in front of him, and then facilitated the wave, and the Shennong Ding re-into the immortal world.

At this time, the indigenous fierce beasts in the Dingnai space, as well as the eight King Kong, still in the area around the volcano of the central area, screaming and absorbing the Lei Ze Ling fog that Ye Xuan pulled into Shennong Ding.

Although this kind of spiritual fog possesses the property of Thunder, it can be directly collected, and it has an extremely fierce improvement effect on the evolution of the life level of the living being.

Ye Xuan believes that after this absorption of Reze Lingwu, the overall strength of the entire indigenous ferocious animal group will once again get a small jump.

After all, even the gods and peasants of Shennong Ding have been directly promoted by the absorption of Lei Ze Ling fog. Even if these indigenous beasts absorb a little less, the benefits are definitely not to be ignored.

All of this is in the expectation of Ye Xuan, but even what he does not know is that in the interior space of Shennong Ding, in addition to the eight King Kong and millions of indigenous beasts, there is almost The existence that he ignored, this time, because of the accident to absorb some of the Raytheon fog, and thus got a chance to make a difference!

This person is the former Qiang Kunzi of the War Lions, Lion Wanjin.

Lion Wanjin's Qiankun Daoji has been deprived, and the generation's younger generation of lions and lions are overbearing. However, because Ye Xuan has obtained the **** magical power of the lion's nine lions, he has repaired the lions as ordinary people. The mystery of the mutated slain was cast, which led him to become a slave to Ye Xuan.

Therefore, Ye Xuan did not kill him, but left it to fend for himself. After giving some top resources to recover the injury, he left it in a mountain cage at the bottom of the volcano in the central domain.

Since then, lion Wanjin has been in a coma, although the injury is already good, but the cultivation is only a little bit, not much better than the ordinary lion lion.

But this time, for the lion Wanjin, who suffered from blood deficiency, the inexhaustible inhalation of the Reze Lingwu in the body is tantamount to giving him a chance to break through!

At this time, he was still in a coma and squatting in the cage of the mountain wall at the bottom of the volcano in the central domain. The repairing atmosphere in the body is still weak and weak, but the body surface, but sometimes there are several purple-gold lightnings. Scaling and swallowing.

Obviously, I lost the Qiankun Doji, and if a white paper-like lion Wanjin, its extremely short blood, just because of the newly absorbed Lei Ze Ling fog, and toward the blood and physique of some kind of Thunder property... !

For all this, Ye Xuan is completely unaware of it.

At this time, after waving the hand of Shennong Ding to the immortal world, he was able to sit down in the air for the first time, urging Lei Diyin, which was suspended above the top of the head, to drive with his imperial field. Around the thunder sea, a ray of Reze spirit floated toward the deity.

At this moment, Ye Xuan's body and the 1.8 billion pores all opened up, and the whole person was bathed in the fog of the thunderous spirit like the ocean.

This blue-green spiritual fog follows his mouth and nose and the pores of his body. As soon as he enters the body, he instantly provokes a very powerful and overbearing force, which not only has a strong forging effect on his body, but even Even the soul of Ye Xuan has been washed away, and every minute and every second is becoming more tough!

This feeling is absolutely painful and happy, but Ye Xuan has long been accustomed to it, whether it is the use of genetic culture fluids for breakthroughs in the realm of the world, or the use of **** ant liquid forging the body, there will be strong pains.

As long as it can quickly improve its own strength and life level, this pain is nothing at all, and it must be hard to bite.

Time slowly passed, and gradually, with a large number of Lei Ze Ling fog absorbed by him, Ye Xuan slowly became numb, and soon felt no pain.

I don't know how long it took. When he opened his eyes again, the familiar system sounds, and it sounded in his mind for the first time...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Qiankun Jiujie Great Consummation!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: Qiankun Jiujie Great Consummation!"

Finally, Ji Kun is nine steps, and Ye Xuan is excited!

Previously, when he was in the seventh stage of the deity, the strength of the ancient konjac bloodline was the fourth order of the star.

Now the cultivation of the deity is to upgrade the two small steps, reaching the nine-order rank of the Qiankun, the strength of the ancient konjac bloodline, the water rises, the corresponding increase of a small stage, that is, will reach the fifth stage of the star!

In addition, the first four changes of the konjac nine changes, each change to enhance the strength of a small order, now Ye Xuan once entered the three-armed six-armed konjac true state, and cast the fourth change of the konjac, its peak strength, will reach the horrible star of the nine-step great consummation!

That is to say, today's Ye Xuan, in the normal state, is the perfection of the nine-step Qiankun, and it is still perfect for the practice of the body and the flesh and blood!

Under the real state of the three-headed six-armed konjac, once the fourth change is activated, its cultivation will reach the star's ninth-order great perfection!

Distance to the main domain, only one step away!

Chapter 3969: Star owner

This time, I entered the Starry Thunder, and Ye Xuan was a thrilling creation. Now I only think about it, and it makes him feel like he is in a dream.

Everything was too dreamy. In a short period of time, he actually broke through to the fifteenth big world, the nine-step grand perfection, and now it is a half-step star, can be said to be the main star.

This is still in the case of not activating the blood of the three-headed six-armed Taikoo konjac. Otherwise, it will directly possess the strength of the ninth-order grand perfection of the star master, and directly rise to the half-step domain master, becoming a quasi-domain lord of power and horror.

But Ye Xuan is not satisfied with this!

Although the quasi-domain main blame and the real domain lord are just a single word in the title, they are actually different from each other. After all, this is basically two different realms.

The evolutionary path of the strong stars, the later the end, often the gap between a small order is like a heaven, the difference between the big realm, not to mention more.

If it is normal, it will be gone. This time, I entered the Starry Thunder, and Ye Xuan has made many breakthroughs. I can stop it and stabilize it for a while.

But today's situation is too urgent. Once he returns to the Devil's Field, he may have a big battle immediately. For the improvement of his own realm, Ye Xuan is absolutely impatient.

The quasi-domain main blame and the real domain lord have great differences in their own combat power, which is reflected in the impact on the blood and the power of various magical powers.

Therefore, after some indulgence, Ye Xuan decided to use a little bit of time to use the sixteen-level liquid that had already been prepared, and to use this to improve the realm of the deity to the real star owner. Talk again!

After the decision, Ye Xuan waved, a crystal clear small bottle was shot from the immortal world inside his body, hanging in front of him, still still whispering in the air.

The bottle in this small bottle is the best quality bottle in the eight bottles of sixteen liquids in his hand.

The sixteen-level liquid was originally extraordinary. It was only the most basic flesh and blood slurry. It was made up of a whole-specified giant phoenix bird's treasure flesh and blood, breaking the order chain and refining it.

And after the careful condensing of the four-color flame of Shennong, the order chain in the flesh and blood of the phoenix bird collapsed completely, and the moment of the body disappeared, even in the crimson serous ball, there was even a miniature The flesh-and-blood black hole is generally collapsed. Only then can it be seen how terrible the energy contained in this slurry ball is.

Subsequently, in the blood and meat slurry that has been successfully condensed, a large number of top-level Tiandi treasures have been added, and the sacred liquids have been used, and even the evil source liquids have been used, and they are integrated into it!

In terms of efficacy, it is even more anti-day, and can directly make a fifteenth world of great power, step into the star level!

Now, after a baptism of green robbery, this group of green and green 16-level treasure seems to have a trace of thunder, and there are some tiny lightning bolts like spider silk, which are stretching and swallowing.

Moreover, just like the thunderbolt lightning that came before it was born, the color is green and there is a deep sense of sorrow!

Undoubtedly, after the baptism of a thunderbolt of lightning, the efficacy of this group of green and green treasures must be even more amazing, and it is also attached with a strange green lightning property, which must have been quenched.

In this regard, Ye Xuan's heart is full of expectations!

In addition to this 16-stage liquid, Ye Xuan also prepared some scented lotion, sputum, and allergens, and once again took a big step from the remains of the purple gold emptiness rat. A piece of Baoxuebao meat, waved a piece of Shennong five-color flame for baking.

Then all of this was swallowed.

After completing all this, Ye Xuan thought, the bottle stopper of the small bottle opened directly, and the green and green treasure contained in the inside, if it was spiritual, flew out and spurred into his mouth.

Ye Xuanfu to the soul, directly open his mouth, swallowed a bite, and then facilitated sitting in the air in the air, closing his eyes, returning to the inner view, and soon entered the state of cultivation I have forgotten!

"boom!"

In the mind, a kind of bang like a thunder blows out, and Ye Xuan's brain represents the power of the sea.

Suspended in the sea, a few of the things that represent the various supernatural powers and blood vessels, even if there is induction, all begin to bloom.

In the body of the deity, it is bloody, and with the horror effect of the 16-level liquid, Ye Xuan's body boils at the first time, and the blood rushes like a river, repairing the force to stir in the meridians. Hey.

There is an unprecedented shackle chain that makes endless noises pass.

This time, his body invisibly reveals a huge chain, covered with various mysterious plaques. This huge chain directly connects Ye Xuan's spine with the intracranial sea of knowledge, which is the way of human evolution. An important potential chain is like a shackle that is extremely difficult to cross.

Tear it, just wait for this scorpion to cross the gap, and then break through the hustle and bustle, and become a star lord.

If it fails, this huge potential chain will most likely become stronger, and it will be harder to think about it.

"Oh la la!"

"Hey..."

The sound of the chain sounds, and the sound of the tidal water in Ye Xuan's body continues to endlessly. The 16-level liquid has been thoroughly removed, including other treasures such as the evil source liquid, the quasi-wild-level ancient energy level purple gold empty mouse, etc. The top resources that are not on the top are all completely open.

All of this, in the body of Ye Xuan, is aggregated into an energy river, rolling and flowing, but wherever it passes, countless smaller human body shackles are all instantly torn.

Although this process is painful, it also has an unspeakable sense of coolness, which is wonderful!

In the end, this hanging energy Dajiang finally rushed to Ye Xuan's neck, and launched an impact on the tight chain that connected the physical spine to the skull and the sea.

At this moment, Ye Xuan sitting cross-legged in the void, the whole body of the billions of pores are shining infinitely, and the whole person is like a god.

After a short period of time, this huge chain of shackles was completely smashed. At this moment, Ye Xuan felt that the whole person suddenly became light, and the strength and blood of the body rushed, at least ten times faster.

Even the ocean that represents the power of cultivation in the brain, the area covered by its size has also skyrocketed by more than ten times.

When Ye Xuanyuan opened his eyes with great precision, he was expecting the system to sound, and it was easy to sound in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first level of the star!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the first step of the star!"

Chapter 3970: Forging and quenching four wars

The first step of the star!

Ye Xuan was very excited, and his heart gave birth to endless emotions.

Calculating the time, it didn't take long for him to enter the starry sky environment, but nowadays, it is already a star lord.

The evolutionary path of the strong star has two big hurdles. The first one is to enter the fifteenth world from the 14th.

Once you enter the Qiankun, you will be powerful.

This ban, Ye Xuan has already crossed.

The second big hurdle is to enter the immortal level from the main level of the domain.

On the evolutionary path of this second big hurdle, Ye Xuan has now successfully broken through from the Qiankun to the star territory and became the star lord, which is a solid first step.

At this time, he was ambitious and convinced that in the near future, he would cross the second big hurdle and leap into an immortal!

Excited, he activated the konjac blood in his body for the first time, and turned into a three-headed and six-armed Taikoo konjac, because he was so eager to know that he can use it after activating this strong blood. For the sake of this, will it climb to the real domain because of this breakthrough?

Earlier, when he was in the Great Jubilee of the Nine Dragons, the strength of the ancient konjac bloodline was the fifth stage of the star.

Now, although the cultivation of the deity has once again broken through, it has reached the first stage of the star master. However, according to the strength of the ancient martyrdom of the ancient scorpion, the strength of the body must rise, and the cultivation of the deity should be a realm of two small steps. Will raise a small step accordingly to infer...

Now that Ye Xuan activates the blood of the konjac, the cultivation of the Taikoo konjac state should be the fifth stage of the star.

Only by breaking through a small order, the deity is to reach the second stage of the star's main territory. The repairing power of the Taikoo konjac in the three-headed and six-armed state will also follow the climb once and reach the sixth stage of the star.

In this way, plus the first four changes of the konjac nine changes, each change enhances the strength of a small order. Once Ye Xuan enters the three-armed and six-armed konjac real body state, and displays the fourth change of the konjac, its peak strength, In order to reach the real domain of the first level of the main domain, and thus become a domain owner, we have the terrorist power of the domain in advance!

However, what surprised him was that this time, the cultivation of the deity only broke through a small order. Now, after the activation of the blood of the konjac, it is repaired as a strength, and it has also risen to a small stage, reaching the star territory. Fifth order.

Ye Xuan is very surprised, because this is the consciousness of the present, as long as a konjac is transformed into a magical power, after reaching the fourth change, he will become a domain lord in an instant.

Obviously, after entering the main position of the star, the deity is broken through two levels. The repairing power in the state of Taikoo konjac will enhance a small order... It has already been broken.

Since then, the improvement between the two has been improved!

This devotion is to improve the first-order, the repair of the Taikoo konjac state, will also promote a small order!

Although I really want to use the **** magical power of the konjac, and after the fourth change, I immediately feel the power of the domain lord, but Ye Xuan finally slammed this impulse and gradually calmed down her mind.

Looked up, this piece of Leihai hinterland core of the void, Reze Lingwu still has a lot of retention, before the initial coverage of it is full of miles, now although it has been a lot less, it still has four or five thousand miles The look of the square.

The stock is still very impressive!

These thundering fogs are the top resources that can't be met. They must not be wasted. After some indulging, Ye Xuan suddenly has a heart. He thinks of four star wars!

The power of Star Wars is determined by the strength of the kinetic energy group in the war.

Previously, Ye Xuan issued a search message to the body's phagocytic system, and derived the instructions of the clues. He wanted to find a way to improve the strength of the four ethnic groups in the four wars.

But it has no results!

Nowadays, the Raytheon fog in front of us is obviously an excellent opportunity. Even the existence of the indigenous fierce beasts and the ancestral marshes, the post-Qing and the old-fashioned electric mothers can quickly improve their strength through the spirit of Reze.

Ye Xuan himself has more to benefit from it!

There is no doubt that the four warriors, as the four major groups driving the energy, must be able to do the same!

What's more, there are still enough Reze spirits left in front of you, and the vast one is over, covering a vast void of more than 4,000 miles.

Although it is foggy, due to its high grade, even if it is shared by the four kinetic energy groups in the four battles, the final effect will be extremely impressive.

With this in mind, Ye Xuan-teng feels stunned and no longer hesitate. The wave will be closed to the four star-studded wars in the immortal world. All of them are sacrificed!

Golden years of war!

Gray Void War!

Scarlet sorrow!

Yin Hong's **** mosquito battle!

In an instant, the four major battles emptied into the void, invisibly exuding a very strong oppressive atmosphere...

After this period of cultivation, the four kinetic energy groups of the four star-space wars, Lana, have all recovered their peak strengths. Only the years of war that have just been used in the previous period are still in the cooling period. Not fully recovered.

But it doesn't matter. With the Raytheon fog in front of you, I believe that the tens of millions of gold slimes in the battlefield will soon be fully restored.

Moreover, Ye Xuan's expectation is not only that. In his view, this opportunity will surely make the whole life of the Golden Slim group get a whole jump.

Previously, among the tens of millions of gold slimes, there was only one Zijin Slim, which was cultivated as a Qiankun!

Ye Xuan feels it is necessary to upgrade its life level again!

After a little hesitation, he took three drops of evil source from the immortal world, and said that to enhance the level of life and promote the effect of life evolution, all the resources in Ye Xuan's hands are the effect of this evil source. The most anti-day.

After all, this is based on the nine-colored meat mud in the furnace, which is refined by purification. The nine-colored meat mud is made up of a mixture of a large number of powerful and deadly creatures, which shows the products of the evil source. The horror of the order.

This is even the horror that originated from the ancient times, and now crouched to recover the wounded, all that is needed, some exist even a drop of distribution a year, now Ye Xuan directly throws a drop to the gold slime, in a short time to significantly increase the level of life, it is definitely a nail!

At this time, with Ye Xuan taking out a drop of evil source liquid and sending it into the core honeycomb node of the battle of the years, the huge purple gold slime of the three-footed body suddenly trembled and faint. Jin Mang's eyes are staring at the three drops of evil source.

Not afraid, but excitement, eagerness, unparalleled desire, Ye Xuan can feel this mood swing clearly, at this time, it is extremely urgent to want to swallow these three drops have endless temptation Every evil source...
