

Super D. S 3971

Chapter 3971: Bloody outbreak

Ye Xuan spirit did not hesitate, waved, these three drops of evil source liquid injected into the eyebrows of Zijin Slim, flashed away, did not enter it, disappeared.

With the drop of this sinister source, Zijin Slim's body shape shook, and the changes in its life level immediately began to be vigorously launched, and its intensity was still extremely amazing.

Gold slime is a whole body of light gold, but the abdomen has a golden thread like a cobweb!

The purple gold slime, the whole body has become the golden color, the golden line of the abdomen, there is a purple gold line, and from this main line, extends a myriad of tiny purple gold spider web, covering the whole body .

Now, after swallowing these three drops of evil source liquid, the original golden color of Zijin Slim is actually transformed into a faint purple gold, which is all the same, and the thick purple gold line of the purple belly changes. It has become the color of green gold, and it still extends out numerous tiny spider silks, such as the net covering the whole body.

"boom!"

The invisible air-powered surging broke out. From the appearance point of view, it has now evolved from Zijin Slimm to the king of the Shilai line of Qingjin Slim, which has been repaired as a strength, and it is comprehensive because of the three drops of evil source. The big climb, before the peak of the mid-kun period, now, in one fell swoop into the first step of the star!

The size is even more than a hundred feet!

With such changes, even Ye Xuan was surprised.

After a little hesitation, he took out ten drops of the evil source again. From the entire slime group, he selected the ten largest gold slimes, each with a drop, and fell into his eyebrows.

The ten gold Slims also began to evolve rapidly. The top resource of the evil source liquid is too strong. Perhaps the effect is much worse than before, but in the first one or two, the effect is absolutely against the sky.

In the line of sight, the gold line under the ten gold Slim's belly expands and spreads invisibly, and the entire body has become a golden color, and then the belly gold line was originally located. At the location, a purple gold line appeared.

Although this purple gold wire has not spread so rapidly in the former gold line, it covers its entire body, but it has extended countless pieces of purple gold thread, gradually spreading and covering the whole body.

Formed a layer of dense purple gold like a mysterious pattern, and in the process, the body of these ten purple gold slime is constantly expanding.

In the end, when their body shape was fixed at about three feet, the body also blew a strong breath, and as the Ye Xuan expected, all of them entered the realm of Qiankun.

The golden king of the main star of the star, the purple king of the ten heads of the Qiankun, these eleven individual Slim, which is a terrifying war, will become the soul of the entire ethnic group. Just their existence can make The power of the years of war has increased dramatically.

But this is still not enough.

What Ye Xuan needs is that the cultivation of the millions of people of the entire Slim ethnic group and their life forms have all climbed up. Only in this way can the power of this age and battle be sublimated.

In the past, a wave of golden ages represented the eternal lapse of 10,000 years of age, but after this time the overall life form of the ethnic group jumped, Ye Xuan believed that a wave of golden years, even if it reached less than five The lapse of thousands of years, two or three thousand years, but still can be done.

Such a tidal wave, if there are more waves, do not dare to say that the killing of the king is immortal, but it is not a problem!

Thinking of this, Ye Xuan was excited again, and suddenly could not sit still, waving directly, urging Lei Diyin hanging above the top of the head, urging his emperor's power, stirring the blue thunder of the tide, the front of the void The large piece of Reze Lingwu in the middle, all wrapped up.

Divided into four, one bones and brains all poured into the four starry sky battles, each of the Lama Lingmao assigned to the battle of the Lama, has a large canopy of two thousand miles in diameter, enough to fight the four inside All the ethnic groups of the kinetic energy group absorbed and evolved.

After doing all this, Ye Xuan sat down in the void, just in front of the four Star Wars.

All he needs to do now is wait until all the Raytheon fogs that have just been towed into the battlefield are completely absorbed by the four kinetic energy groups within them. By then, there will be new surprises, and then come...

.....

The whole body is red and bloody!

The kinetic energy group of the blood-mosquito war is a mosquito-and-orc group. In total, more than 30 million heads have initially produced a miraculous mosquito and beast. The strength is also considerable. The commander-in-chief is the **** king of the mosquito and beast. At the core of the **** mosquitoes, the hive node.

Although the tens of millions of mosquitoes and beasts in the blood-mosquito wars have a higher overall level in terms of strength, the strongest mosquitoes and beasts are bloody, but only the beginning of the thirteenth world is only repaired.

In addition, there are more than three hundred strongest mosquitoes, which have reached this level.

At the beginning of the field, there are no mosquitoes in the universe.

However, all other mosquitoes and beasts have been repaired to the weakest, and there are also repairs close to the eighth major black hole.

It can be said that if the mosquitoes who are not stationed in the war are repaired in the black hole, the overall situation is generally higher. The power of this blood-mosquito war, in the four star-studded wars in Ye Xuan's hands, will probably become The presence of the bottom.

This time, with the influx of this large green-green Reze fog, for the tens of millions of mosquitoes in the blood-mosquito, it is undoubtedly a great adventurous coming...

As in the case of the inner space of Shennong Ding, the smog of the razor of the awning rushed into the **** battle, and the tens of millions of mosquitoes in the thousands of hive nodes suddenly became crazy and excited. The sound of howling, madly fighting for, swallowing and absorbing.

Among them, Ye Xuan focused on taking care of the core nodes of the **** nest.

On the one hand, bloodyness has followed him for a long time. It is one of the earliest groups of genus, but today's cultivation is too weak. Ye Xuan also hopes that he can get bigger in this opportunity. The benefits of repairing as much as possible to break through.

On the other hand, as the master of the **** mosquito war, the stronger the **** repair, the greater the power of this star war.

In fact, the **** mosquitoes and the blood of the Emperor did not let Ye Xuan disappointed.

He also launched a crazy absorption for the first time.

It must be said that the evolution of the life form of this fierce beast has a staggering horror effect.

The **** repair of the mosquito king's **** corpse has already reached the late stage of the domain. At this moment, with a large number of Leizer's fog, he was absorbed into the body. In just a few breaths, he broke through the domain start. Admitted to the universe.

But this is only the beginning.

In Ye Xuan's close attention, after the **** breakthrough into the Zhouguang, the repair is still growing rapidly, climbing all the way.

Zhou Guang Jiujie!

Qiankun first order!

In the end, when I arrived at the 9th step of the Qiankun, I finally stopped...

Chapter 3972: Nine Stars

Although the **** nature of the mosquito beast was only the strength of the scorpion, it was only settled in the nine-step grand perfection of the Qiankun, and did not take this opportunity to break through to the star territory in one fell swoop, but Ye Xuan was not disappointed!

Because of the tens of millions of mosquitoes and beasts in the mosquito population of this **** mosquito, the overall level of strength is still extremely impressive.

Moreover, in addition to bloody, this time, among the nearly 40 million giant mosquitoes, there are more than one hundredth of the total number of mosquitoes and beasts in the thirteenth world. Left and right, also entered the Qiankun territory, although it is only a second-order, it belongs to the early stage of this situation, but the number of wins is large, and the power of the blood-mosquito war is also a force that cannot be ignored.

Of course, the weight is actually other tens of millions of mosquitoes and beasts. They all have raised a big realm. Now, in this **** battle of **** mosquitoes, among the tens of millions of mosquitoes, they have not been found. One has been repaired as a strength below the black hole.

Once excited, the power of the blood-mosquito war can be displayed far beyond the previous ones, and it will surely make Ye Xuan shocked!

.....

Void battle!

The kinetic energy group in the Void War is a hollow squad, with a total of more than 30 million heads. Like the mosquitoes and animals in the blood-mosquito, the general cultivation is higher.

After all, in the catastrophe of the black hole of life, which was almost cleaned by the celestial beings, the weak-cut emptiness of the emptiness of the dynasty was basically all fallen.

All survived were strong existences, and were taken away by the Tianji people. After being rescued by Ye Xuan, they entered the Void War.

Sitting in the core honeycomb node, the two blood vessels have evolved into the eight-star squad king, and the strength has now reached the domain beginning, and all of them are the ninth-order great perfection of the domain beginning!

After a large number of Lei Ze Ling fog poured into the thousands of honeycomb nodes of the Void War, these more than 30 million Void soldiers immediately launched a crazy absorption, and in the process, quickly improved their own cultivation. Strength, promote the evolution of life level!

After Ye Xuan's attention was drawn from the blood-mosquito war, the first time he voted for the Void War, and locked in the two-field starter eight-star Wang Cao in the core honeycomb node!

At the beginning, the first nine-star scoops that Ye Xuan encountered when he entered the black hole of life, the strength of repairing did not reach the domain start. At the moment, the two eight-star king scoops have been repaired and the strength has reached the domain. The beginning of the world, but still has not evolved into the Jiuxing Emperor, in fact, there are reasons.

Eight stars and nine stars are the differences in the degree of blood evolution, and have nothing to do with cultivation.

These two kings, in the cultivation of strength, have surpassed the original emperor, but the evolution of the blood, but still not enough, so, is still only the eight-star king.

But the accumulation in their bodies has been extremely rich, and the owe is just an opportunity.

Today, this opportunity has finally arrived!

With a large number of Leize Lingwu flooding into the thousands of hive nodes of the Void War, all the Void Scoops are all madly absorbed. Among them, the eight-star kings of the two fields are particularly conspicuous in their Above the body, a small vortex formed by the fog of Reze Ling has formed...

With the absorption of a large number of Lei Ze Ling fog, the strength of these two eight-star king scoops quickly climbed, and soon surpassed the domain beginnings and entered the fourteenth state.

However, it did not stop there. It continued. After only a short ten minutes, it climbed to the nine-order grand perfection of Zhou Guangjing. Then it was a breakthrough in one fell swoop and finally entered the fifteenth world. The eight-star king scoop of the power level was born.

In the process, the ninth grimace began to appear on the back of the two eight-star king's scoops. Seeing this scene, even Ye Xuan was a little excited, because it represented the two eight-star king's scoop. The blood of the soldiers is also rapidly evolving.

If there is no accident, this time, they are very likely to break through the **** shackles in one fell swoop, from the current eight-star king scoop, into the territory of the nine-star emperor.

In the close attention of Ye Xuan's shortness of breath, ten minutes later, on the back of the two eight-star king's scoops, the ninth grim face finally formed completely. At this point, the nine-star sculptor reappeared and it was two.

At this time, the strength of these two nine-star sculptors has also climbed to the ninth-order great consummation, and this has come to an abrupt end.

After some excitement, Ye Xuan's knowledge swept through the thousands of hive nodes in the entire Void War, and was surprised to find that in addition to these two eight-star kings, they successfully broke through the blood and promoted to the nine-step grand perfection. In addition to the nine-star scoop, there are still ten scoops that were originally only seven stars. Fortunately, they broke through the blood, and there was also a grimace on the back of the scoop, which jumped into an eight-star king.

And these ten new eight-star king scoops, the body exudes the strength of the cultivation, but also reached the fifteenth state, becoming a great power, but it is only a step of the world.

In addition, the other 30 million emptiness of the entire squad of the squadrons have been improved, and this means that if Ye Xuan is now using the Void War, the power of its display will far exceed the past.

.....

Finally, Ye Xuan's eyes swept to the soul of the war!

In the four star wars of Ye Xuan's hands, if the golden age of Laha is the well-deserved leader, then the soul of the soul can be almost the second. .

However, compared with the other three Star Wars, Lama has a unique speciality, because there is no such thing as a king or a commander among the souls and beasts.

Sitting in the core hive node of the soul of the Lahu domain, it is a **** crystal!

The soul beast is a spiritual energy life body, which is related to the blood of the soul. The blood of the soul is the ancient and supreme. This guy is mysterious and strange. In the battle of the ancient world, it was neither a headless baby. The camp does not belong to the camp of Tiandao Qingyan. Ye Xuan saw it in the inheritance picture of Haotiangong. The ghosts and sorrows crouched in the shadow of an abandoned star, insidiously peeping at the entire ancient starry sky. battlefield.

There must be conspiracy in this, and perhaps the countless sacred beasts in the Black Mountain Stars and Souls are related to this.

But everything is okay, when the **** soul of the sorcerer lived out of the second world, turned into a **** corner of the soul, but unfortunately, without waiting for the **** corner of this soul to eventually grow into a new **** soul, When I met Ye Xuan, I was eventually refining my headless baby.

At the moment, Ye Xuan and the Void Scoop Replica, together with the towers of the ancients, were transferred to their devours, which is now in the invincible gods who are still tossing in the territory of the Terran camp.

Previously, Ye Xuan collected a large number of scorpion soul beasts, leaving a tiny scorpion soul blood corner, all of which were left by him, nearly ten million pieces, nearly ten million soul blood small horns, and later all were He took it out and threw his bones into the phagocytic system for melting...

Chapter 3973: Gorgeous transformation

At that time, Ye Xuan provided some other special materials according to the requirements of the system, which will be completed.

In the end, these tens of millions of scorpion horns and some other precious crystal materials were melted into a **** crystal, which is full of blood red, nearly transparent, like the top **** amber, with a miniature inside. The soul is bloody, and its shape is exactly the same as the **** corner of the soul, but it has been reduced by countless times, only the palm is big.

After the refining of Ye Xuan, this scorpion blood crystal was placed in the core hive node of the sorcerer's war, and it controls all the tens of millions of sacred beasts that are stationed in the sacred war, so that they are like the hollow scorpion The ethnic group is obedient and the line is forbidden.

It has a certain kind of power, which can volatility in the thousands of honeycomb nodes in the Void War, from the tens of millions of souls and souls, and finally become a share, and after the increase, Explode and scream out...

In addition, the tens of millions of sacred beasts in thousands of hive nodes in the sorcerer's battle, after the last absorption of a large number of Hell ants' **** ants, although the blood evolved from the illusory soul The beast became a sorrowful scorpion with flesh and blood.

But among them, there are only about 300,000 heads, and the strength is still considerable. It has evolved into a golden soul with a hole in the sky.

The vast majority of the rest of the souls, repaired as strength, are in the tenth realm of the cave world!

For this reason, Ye Xuan can be said to love and hate this battle.

What loves is its horror and power, more than 30 million souls, and only about 300,000 people have evolved into the soul of the earth, and it has been so amazing, this is absolutely amazing.

What hates it is the **** evolution of these souls and sorrows, it is really difficult to improve!

Although the **** ant liquid has excellent effects, it is only the first one or two. It is used too much, and the effect is much worse. Moreover, even the **** ants can not provide such a large amount of **** ants. Liquid, this is really a headache.

However, this time, I accidentally got a lot of Reze Lingwu. In Ye Xuan's view, the tens of millions of souls and sorrows in the sorcerer's battle will surely evolve and change again.

Soon, with Ye Xuan's knowledge entering the sorrowful battle, he immediately discovered a scene of surprise. As he expected, after absorbing a lot of Reze's fog, all the sorrows were really All of them have changed, and the effect is more obvious and faster than when the 300,000 lucky ones first evolved into the soul of the soul.

The original repairs of these souls are all in the black hole, but nowadays, after absorbing a large amount of Reze Lingwu, in less than half an hour, the life level is all again without exception. Got a leap-forward evolution.

The cyan fluff of the body surface fades away, and the new hair grows out, but it is no longer the previous cyan, but the gold.

Ye Xuan's knowledge was swept in the thousands of hive nodes of the sorcerer's battle, and eventually he could not find a scorpion, and more than 30 million scorpions, all evolved into sorrows. Jin Hao, repaired for strength soared to the hole!

This alone is enough to make the power of this sorrowful battle to climb several levels without suspense.

After all, among the more than 30 million souls and beasts in the whole sorcerer's battle, the soul of the soul is only more than 300,000 heads, and the rest are black souls.

But now, the soul of the soul has been fully popular!

As for the more than 300,000 heads in the last generation of Hell ant liquid, they have fortunately completed the highly evolved sorrowful golden scorpion. After absorbing a large amount of Reze Lingwu, their life level is then Once again, it has been greatly improved.

At the same time that the other more than 30 million heads of scorpion scorpions have fully evolved into caves and souls, the more than 300,000 heads of sorrows, the golden velvets of the whole body have also faded, and the new hairs are all over the body. purple.

The cultivation of strength is even more than the tenth environment of the past, and it has rapidly climbed to the domain of the thirteenth world!

At this point, the soul war la has finally completed the perfect transformation that can be described as a reincarnation. In the kinetic energy group within the thousands of honeycomb nodes, there are more than 30 million heads of heaven and earth, and three More than 100,000 heads of the beginning of the soul of the soul...

The lineup is luxurious, and the power is absolutely powerful!

According to Ye Xuan's derivation and estimation, if it is fully motivated, nowadays, the soul of the soul will be able to instantly kill the starry sky below the celestial light...

At this point, the four starry battles in the hands of Ye Xuan, without exception, all got a gorgeous transformation like a reborn!

This time I came to the harvest of the Xingkong Leifen. Ye Xuan did not expect it before. The unexpected surprise came one after another. His own cultivation was repeatedly broken. Only the deity was in the normal state and had already owned the star owner. The strength of the order.

If you activate the konjac blood, enter the three-headed and six-armed Taikoo konjac state, and display the konjac's **** magical power to the fourth change, then you will have the domain's main force.

In addition to this, it has also received a source of Thunder, helping the ancient monks of one of the three ancient cults reinventing the Thunder.

The Shennong Flame in Shennong Ding has evolved into the five-color flame of the present four-color flame, and has been given a unique Thunder property!

The four star-studded wars are even more magnificent and beautiful. Any one of them will be far more powerful than the previous ones. It will become one of the powerful foundations that Ye Xuan can't ignore!

If you say that before you come to the Starry Thunder, you don't mention the fact that there is no such thing as a headless baby. Ye Xuan's assessment of his comprehensive strength is only to be able to cope with an ordinary immortality. Must pay a heavy price.

So now, with the same price, he has almost absolute confidence and can fight the immortal life and death!

Even if you encounter the immortality of the king, even if you can't kill it, if you don't care about the consequences, you will be sure that you will lose both sides and you will be sure!

One thought of this, Ye Xuan suddenly felt full of pride, waved the four stars in the sky in front of the sky, all the heroes in the sky, the income of the body after the immortal world, he used the tea time, only to stir up the mood, completely calmed down Come down.

Subsequently, Ye Xuan tightly grasped his fists and turned and spurred to the edge of the Starry Thunder.

Calculating the time, it has been six days since I left the Devil's Star Field. It takes nearly a day for the return journey. That is to say, before and after, he left this time for seven days.

If there is no accident, once the return journey, the major groups of the three major planes and the top forces against the devil's crusade corps, the land will continue to fall!

Thinking of this, Ye Xuanzhong suddenly took out a cold and killing mang.

Half a day later, he rushed out of the starry sky and thundered the grave, waving his hand to the thunder of the sky above the head of the thunder, and then he did not hesitate to directly sacrifice the virtual shuttle, step into it, a turn of the room, directly expand Extreme speed, heading for the Emperor Star...

Chapter 3974: Forced to the palace

Devil's Star!

A huge fleet, coming from the depths of the first universe, just entered the edge of the devil's star field, the army marched forward, and forced the magic king star!

Nowadays, the Alliance of Tensions has already had its own alliance logo, and this huge fleet that is now coming to the Emperor's Palace, all the ships on the outer wall of the battleship are painted with this logo. Obviously, this The coalition forces belong to the Alliance of the First Universe!

The Alliance of Ten Nations, originally the first cosmic servant of all kinds, in order to counter the demons, space rats, **** ants and giants, the four-member coalition, and thus temporarily made things.

Definitely a very loose organization!

But now even the battleships and fortresses and fortresses of all ethnic groups have all been painted with the Alliance logo on the outer wall. This so-called All-China Alliance is clearly becoming formalized and has a long-term momentum of maintaining and developing.

In fact, this is almost inevitable, or sooner or later.

Even if there is no powerful combination of the devil and the space mouse, the **** ant and the giants, the League of Nations will soon be born, because the Tianzu people have migrated and escaped from the world, but one day, Will come back again.

If the first cosmic servants do not unite, they will not be able to compete. Once that day comes, they will eventually be completely enslaved, and even more unbearable...

Today's Wan Clan alliance is still fighting the Devil's four-family alliance, the latter is rushing to the star field of another ethnic group's ancestral land, and the main fleet of the various ethnic groups of the Wan Clan alliance is also facing the ancestors of that ethnic group. Earth star clusters.

It can be said that although the establishment of the Alliance of Ten Nations is not long, it has always been in the history of blood and fire. Therefore, the pace of the alliance's comprehensive formalization is getting faster and faster.

The scene that first happened in the Cang wolf family has not existed in the main army of the Wan Clan alliance. There are various agreements and constraints between the various ethnic groups, in all aspects, a large fleet. It is impossible to reappear because of the shortage of a high-ranking commander.

This time, the Alliance Fleet that came to the Emperor's Palace, although the number of warships is not many, only a million ships, but almost all of them are big and small fortresses and big and small fortresses. The captain's standard star rating.

These large and small fortresses and fortresses are also elites of all ethnic groups in the alliance. This time, the ultimate goal of this million elite fleet is to capture the magic star and completely control the ancestral land and roots of the devil.

And by this, the pressure on the front of the deforestation of the Devils of the four ethnic groups forced to land!

This is definitely a poisonous plan. If the demon emperor falls, the front of the demon squad that is rushing to the ancestral domain of a certain ethnic group in the alliance will undoubtedly fall apart completely.

The magic emperor is the root of the devil. The contemporary demon emperor asks Tiandu to still sit here. Once Mo Wentian and the entire magic emperor are countless demons and royals are all controlled, then the frontline demons The commanding top of the coalition forces can only surrender!

It's just a million-strong warship army. Even if it's all elite, it's basically a big fortress and a big fortress. The three commanders in the fleet are three lords...

That is, just like this, it is obviously not enough to capture the magic star.

Although the Devils have sent out thousands of troops to lead the four-member coalition forces, they are on the front line for the expedition. However, the various warships in which the Emperor Samsung is stationed still have tens of millions of scales.

As for the high-end combat power, the devil also has ethnic backgrounds. According to external estimates, if the demon king encounters a crisis of survival, the devil's group should be able to wake up a blood ancestor in advance when paying a certain price...

If the prediction is correct, there will be at least one immortal grotesque in the demonic group. This is also the result of a meticulous derivation of an immortal grotesque of a certain family of the Alliance.

Coupled with the devil's emperor Mo Zhenfeng who has the immortality of the killing, the immortal level of the devil's group can basically be judged as two!

At this time, the three lords of the elite fleet responsible for this elite fleet are gathering in a flagship top-level command module of a scale of 100,000 meters in diameter.

"With the current limit speed of the fleet, two days later, you will be able to reach the Devil's Star Field. At that time, as long as the demon prince Mo Zhenfeng or the immortal ancestors of the Devil's group appear, the four sides prepared by the Alliance Immortal blame, the first time will come..."

"The devil is strong, but in the face of the four immortal grotesque of my family, they have no resistance at all!"

"This battle is destined to quickly come to an end with an unprecedented speed... This is what the leaders of the various ethnic groups in the league have agreed upon after discussion."

"After all, with the news that the devil's emperor Mo Zhenfeng's four enchanting ones spread, the former communists of the Second Universe, even the two camps of technology and comprehension of the Terran, and the already isolated Warrow Federal Headquarters Already all have movements, sending troops to the first universe!"

"It has to be said that the news of the four demon enchantments of the devil's emperor Mo Zhenfeng provides the best excuse for their ingenuity."

"Once the Emperor Samsung and the four-family coalition forces are in their hands, the situation in the entire first universe will be more complicated, and the Alliance of All Nations will fall into this place."

"In the past, it was only the celestial servants who enslaved us. Now the Devils and the four races are going to take their place... And if the Devils and the four ethnic groups fall into the hands of the Terran and the Second Universe, they will be under their control. By then, all the families in our alliance will have no more The opportunity to turn over, the Terran and the Second Universe, will breathe us and oppress us!"

"This situation is absolutely not allowed!"

"So, we must drive the Emperor Samsung completely under the control of the Terran and the Second Fleet's fleet before reaching the Devil's Star Field. Only in this way can it be the initial decision..."

At the end of the day, the three gangsters sent by the various tribes of the Alliance turned to exchange their eyes and immediately got up. Two of them disappeared and went to the respective responsible fleet. .

The old lord who stayed in the main flagship fortress in the center of the fleet was under the glimmer of light, even when a new order was issued: "All warships, driving at full speed, within one day, must arrive at the magic star. At the same time, all the guns began to be fully loaded, and the next battle will begin as soon as the fleet arrives at the first time of the Emperor Samsung..."

"Booming!"

"boom....."

With the command of the lord of the Lord, the entire elite fleet, all the space fortresses of all sizes, and the Star Fortress, were almost simultaneously stunned by the hull, and the speed increased a lot, and the dense and roaring roar came out. This is The movement of the naval guns to fully accumulate energy, resounding through a void...

Chapter 3975: Accidental wear

Magic King Samsung inner defense circle!

When the powerful elite fleet consisting of large and small fortresses and fortresses has not yet entered the devil's field, the magic king's side has received the intelligence message forwarded by the scouting relay.

At this time, the vast void in the inner circle of the Devil's Samsung has long been the ocean of the battleship. The Devil's group has left the Devil's Samsung's tens of thousands of warships, densely congested in the cosmic void of the inner defense circle, and will be one emperor and two guards. The three stars guards are in the center, and the defense is like an iron bucket.

In addition to the tens of thousands of warships, the six star-space wars left in the Emperor Samsung were also pushed into the void, in the center of the outermost line of defense, six huge bells facing the void in the depths of the first universe... It is also the direction of the million-strong elite army of the Wan National League!

Behind the internal defense line, the contemporary demon emperor Mo Wentian and other high-ranking demons of the royal family, at this time in a 100,000-meter-diameter big fortress to gather business, the face with anxiety.

"The Wan Clan Alliance has committed this crime, but only a million warships, even if they are big and small fortresses and fortresses, it is an elite teacher, but it is absolutely impossible to win my magic king Samsung."

"And, although they must know that the second universe and the Terran of the Third Universe, and the Federation of the Bandar also have movements, there is no way to unite with them, and even hope that they can be outside the plane. Before the power comes, let the big game be in control..."

"So, in addition to the millions of elite warships on the bright side, the Alliance of Tensions must have other arrangements in the dark. If there is no accident, it should be the existence of immortality, and more than one!"

"There is no doubt about this, but even so, my devil is not afraid. Although we only have one immortality, it is a seal, and a seal is enough to crush ten ordinary immortals. More than just send a three or four to come over, even if the power outside the plane is at the top, it will be a ten-year-old, completely fearless!"

"Unfortunately there is a time difference in this area. According to the information from the second universe and the scouts in front of the third universe, the out-of-plane forces in these two directions will take at least a week to pass through the wormhole and enter the first universe. At the forefront of the Devil's Star, but the Millionian Alliance's millions of elites are coming within a day!"

"In case they come down as soon as they come, they will attack immediately... At that time, my ancestors will not shoot, nor will they not shoot!"

"Once you take the shot, you have to expose it in advance. I am afraid that the strength of the plane will be retracted. I will definitely hurt them once. I will try my best to fight for the frontline and the four-member coalition. It will be lost!"

"The key is that the little friend of the fox is also gone. Otherwise, as long as he is there, even if he can't hold three or four immortal grotesques at the same time, how much can always make the other party jealous, at least the four stars in his hands. La is all real goods, like us..."

"Hey, don't look at the six places in the void. What really excites, but only one one, I really have to be rushed. I am afraid that it will be revealed in an instant. Now, I can only hope that the little friend can Before the war... arrived in time!"

When I talked about it, the high-ranking devils of the royal family who attended the meeting suddenly showed their hustle and bustle, and they all shook their heads and smiled...

.....

The next day, the elite fleet of the Wan National Alliance finally arrived, and the millions of warships began to sail at a rapid speed. It was already in the universe of the universe that was only less than ten million miles away from the magical defense circle of the Emperor.

Millions of warships, all of which are large and small fortresses and fortresses, and all the guns have been on the way to speed, complete the recharge!

In the top-level command cabin of the central flagship, the evil spirits of the evil spirits sneered, and the first time they issued an order to fire, and it was a million warships, and volley!

"boom!"

"Booming..."

Millions of warships, almost no three-kilometer captain's standard star rating, all large and small fortresses and large and small fortresses, the main ship guns, and naturally all black anti-material energy.

This scene is absolutely shocking!

Millions of guns and energy beams, although large or small in diameter, are all in all colors. They are rushing from the front of the sky, and they are overwhelming, revealing a suffocating destruction. The trend!

In the face of all this, the devils of the royal family are dumbfounded on the spot!

In the central domain of the tens of thousands of warships outside the magical defense circle of the Emperor, the contemporary demon emperor Mo asked the roar of the sky, which was easy to sound in a commanding fortress.

"Damn, crazy! Crazy! Absolutely crazy..."

"What are you doing? Just hit back!"

"And, the first six battles, immediately returned, slaying, this is the rhythm of wearing a gang..."

Mo Qiaotian is indeed mad. According to his and the evaluation of the top of the royal family, Ye Xuan, who had left in a hurry, should be able to return within one day.

If he is there, he can completely drag the time for a little longer. Two or three days are still no problem. Basically, the power from the plane can also enter the Devil's Field. At that time, no matter which party is shot, the Devil's group has the The **** ancestors who have been repaired by immortality can be shot without hesitation.

In other words, Mo asked Tianyuan that the problem he faced was only to drag the war as much as possible for a day. When Ye Xuan returned, basically there would be no problem.

This is not a difficult thing. The star wars above the level of a million warships, the two sides set up camps in the emptiness of the sky, and they all need a small half-day, and then snoring, screaming at each other, and half a day has passed...

What he never expected was that this time, people actually did not play cards according to common sense. When they came up, they didn't say anything, they just made a fuss. What's more, this million

elite fleet is all big and small. And the fortress, although now hundreds of thousands of miles away, but these large and small anti-matter energy dead light cannons are all within the range!

And the speed is extremely fast!

The six star-studded wars of the own camp are standing in the center of the first line. If they do not evacuate immediately, they will definitely be the end of the game.

It is a pity that although he issued the command to evacuate the six Star Wars to the front line of the battlefield in the first place, it was still late, and the anti-matter energy beam of the film had already hit the front line of the camp.

"Booming!"

"boom....."

The sound of a huge explosion sounded, and a large number of warships exploded into a flaming fireball in the void, including two star wars, of course, both of which were fake.

The behemoth with a diameter of 300,000 meters blasted open, and there was nothing in the hive of the holocaust. It was completely unpretentious and had no connotation...

The secret of the devil's war, after all, is unexpectedly... wear it!

Chapter 3976: Want to cover

"Booming!"

"boom....."

The sound of a huge explosion sounded, and a large number of warships exploded into a flaming fireball in the void, including two star wars with a diameter of 300,000 meters.

Two behemoths blasted open, but there was nothing in the collapsed hive's nodes. It was completely unpretentious and had no connotation. At this point, the secret of the devil's war, after all, was unexpectedly exposed!

In the face of this scene, the contemporary demon emperor Mo Tiantian and other democrats of the royal family are dumbfounded, all face is white, and the brain is even more banging.

At this moment, the first line of the front battlefield explosion continues, the first wave of millions of large and small anti-matter energy death light cannons, at least hundreds of thousands of Devils battleships, all of which have been blown up in the void. A huge smashing fireball.

However, the top leaders of the demons have never seen it. Now, their brains are banging, and all of them are manifested by the two star wars, and the demon's war scam is exposed. The next series of serious consequences will be brought!

Compared with all this, the damage of hundreds of thousands of warships in front of us is really nothing, it is trivial!

It's not just the top of the demons' royal family. In fact, it's just the next moment in which the two star wars blasted, and in front of hundreds of thousands of miles away, the Wan's League's million elite fleet's three The commander at the main level of the border also opened his mouth and stupid on the spot.

There is also a large scream of cool air, which is heard in the top command cabin of several flagship fortresses...

"What is the situation? Is that the Star Wars of the Devil? Is the energy beam of the two dead light guns blasted?"

"And it's still a complete disintegration. It's just not scientific. Isn't there even an energy defensive cover?"

"The energy defense hood of the fart, this is a hollow shell. Look at the collapsed honeycomb nodes, all of which are empty, and there is no hair..."

"Cheat paper! The devil is all special deceit paper, the so-called Star Wars La does have a few, but the Samsung is absolutely not the real thing, it is a vase of furnishings, it is estimated that in addition to sailing in the sky, Nothing else has any other functions. The generality of paper paste will be scattered!"

"I was almost fooled by them. Is this the big killer that the devil used to deter? It's too mad..."

As these exclamations sounded, the second wave of the millions of elite fleets exploded.

"boom!"

"boom....."

In the void, large and small anti-matter dead light gun energy beam, intertwined into a net, exploding toward the front.

At this time, after the panic caused by the initial inability to prevent, the millions of troops in the Devil camp have quickly restored order, all the battleships have activated the energy shield, the size of the fortress on the front line of the front battlefield. With the fortress, it was the first time to launch a counterattack.

The void is ringing, and countless energy beams are intertwined.

The contemporary demon emperor Mo asked that the sky was mad and screamed to give a new order, four star wars in the retreat, the inspiring spiritual battle suddenly stopped, thousands of honeycomb nodes Slowly lit, energy is transmitted in densely connected connecting pipes.

Among the thousands of three-kilometer-sized honeycomb-type knot warships in Spiritual War, there are a large number of devil strongmen. It can be said that the eight tribes of the devil's group are filled with tens of millions of devils. Within each of the hive nodes, there will be a high priest of the demon group or a high-level seat of the royal family who is good at spiritual power.

If they are shared, basically every tens of thousands of diameter honeycomb-type warships have tens of thousands of demons, who will be under the command of the high priest or the devil's royal strongman who sits on the battleship. Fully motivate the magical nucleus in the brain and exert spiritual power.

Eventually turned into a powerful pulse of spiritual power, connected to a huge special material tube of a node, to the inner ring of the smallest layer of the bell.

All the spiritual power pulses gathered by these thousands of nodes will be blasted together under the joint of nine devils and royal powerhouses sitting in the nine-node hive in the smallest layer of the trumpet.

Then through the nine layers of the bell mouth to enlarge, form a horrible and invisible star-level spirit hurricane, killing the enemy battleships in the opposite camp.

This is definitely a big killer, killing a large piece, and the spirit of the hurricane is invisible and inferior, and it is impossible to resist. Even the energy shield of the battleship, the fortress or the fortress is useless!

At this moment, under the roar of the contemporary demon emperor Mo Tiantian, the only spiritual warfare that can be inspired by several Star Wars Lama finally gave off a terrifying roar!

Thousands of honeycomb nodes, thousands of spiritual powers like the Yangtze River, along the pipeline, all flocked to the core nodes of the core circle.

Then, in the roar of the Lord of the Devil's Star, like a tsunami, it instantly collapsed completely!

"Roar!"

The horrible sound waves are deafening, and an invisible tidal wave like a starry sky spurts out of the core node, and continues to enlarge along the outer nine-layer ring of the spirit war, finally turning into an invisible Power, for a moment... suddenly blasted!

"Oh la la..."

"boom!"

"Booming!"

In an instant, a large, dense, rain-clear crack in the front sounded over the sky. The void of nearly a million miles was torn apart, and a large number of empty clouds spurted out.

Among them, there are several large void cracks, and a large number of void turbulences directly form a void vortex like a black hole.

They are all located in front of the huge trumpet facing the void, separated by a distance.

As these emptiness whirlpools suddenly appeared, an invisible horror sucking force spread instantly, and the blink of an eye swallowed countless black anti-matter energy light columns, and more than tens of thousands of enemy camps. The fortress was swallowed up, caught in the emptiness of the void, exiled, and disappeared completely...

Soon after, the demon's spiritual warfare renewed its power. It was just a blow. More than 100,000 ships were destroyed in the millions of elite warships in the enemy camp. The overall combat power lost 20%.

However, the price paid by the devil is not small. Under the full blow, the tens of millions of devils who are the kinetic energy of the squad, the mental strength of the body is exhausted, and in a short period of time, there is no further effort. .

Soon, after the spiritual warfare struck out of this wave of spiritual storms, the first time was quickly withdrawn.

In the opposite enemy camp, the faces of the three lords who commanded the town were ridiculous.

One of them was suddenly violently violent: "Do you want to frustrate our army? This is what you want to cover!"

"The old man dared to conclude that the remaining four starry battles, only this one is true, and the other three are also vases!"

"Don't bother, the third wave of volleys, continue to bombard..."

Chapter 3977: The king is back

"boom!"

"Booming!"

As the spiritual warfare was fully ushered in a short time, the enemy camp's hundreds of thousands of large and small fortresses and fortresses were destroyed, and a large, dense, rain-clear, cracking sound was heard in front of it, overwhelmingly, nearly a million miles away. The void was torn apart, and a large number of empty clouds spurted out.

Among them, there are several large void cracks, and a large number of void turbulences directly form a hollow vortex like a black hole, all located in front of the huge trumpet, facing each other, separated by a distance...

I have to say that such a scene is indeed quite horrible, and it is shocking.

But all this did not scare the commanders of the elite fleet of the Wan Clan alliance. A lord of the world snarled and gave a command to start the third wave of volley.

The void in front has been cracked, and it has become a barrier that acts as a barrier. A huge area of a million miles, not only can the warships not pass, but even the energy beam of the guns can not.

More than 800,000 large and small fortresses and fortresses of the elite fleet of the Wan National League were divided into two without hesitation. They avoided this barrier area and crossed the left and right sides, and launched a third round of volley.

This is a real way to show the devils!

The three lords of the Wan Clan Alliance stationed in this elite fleet, all they have to do now is to push this battle to a feverish level as soon as possible, so that the final big battle will come.

The immortal grotesques that have been dispatched by their own camps make them confident in the final battle of this war. The devil's ethnic group will be conquered today, but all this must be in the second universe and the third universe. The Terran, and the power of the Federation of the Bandars, were completed before the advent.

As soon as the whole fleet arrived, they immediately launched three rounds of volleys without stopping. The purpose was to force the devil's foundation, that is, the immortal old monster.

Once this person appears, the four immortal geeks that are hidden in the secret alliance will come to the first time and kill in one fell swoop... At that time, everything will be settled!

"Booming!"

"boom....."

The violent explosions have come and gone, and the emptiness has been illumined. The vast expanse of the void outside the magical Samsung's inner defense circle has completely turned into a cruel place for blood and fire.

Every minute and every second, there are warships blasting, and life is dying.

Numerous large and small naval gun energy light columns in the void are intertwined into a net, which vividly embodies the beauty of chilling and destruction, and even reveals the meaning of gorgeous bloom.

Half a day later, the elite fleet of the Alliance, which crossed the front and the bottom of the vortex, finally succeeded.

Within this half day, nearly 200,000 large and small fortresses and fortresses were bombarded into cosmic dust, and the original elite fleet of only a million, the only remaining warships are only about 600,000.

But they are all elite in the elite, the number of large and small fortresses is very small, basically all are big and small fortresses.

At this time, after crossing the front of the void vortex area, after the successful meeting, the more than 600,000 large and small fortresses are close to the inner defense line of the Magic Emperor Samsung, only a million miles away.

The main guns of any of the warships in the fleet have entered the range and have the conditions for direct blasting of any star in the Emperor Samsung.

In the top command cabin of the main flagship fortress, the sneer of a lord of the Lord's screams suddenly sounded at this moment: "Hey..."

"Although I paid a heavy price, but now, after all, we are forced into the range of the Emperor Samsung. The old man ordered that all the battleships should immediately fully accumulate energy. After 30 seconds, the last wave of volleys will be launched. Firepower, blasting the magic guard II..."

600,000 large and small fortresses, 600,000 energy horrible anti-material dead light cannons, if all are gathered at one point, lock the magic guard 2, then, even the magic guard two stars defense large array of energy shields, They are absolutely resistant and will be smashed.

The final result of this is that more than 90% of the whole star is smashed into a pile of cosmic dust, and the 600,000 black dead light cannon energy beam is enough to make the magic guard two and five, the magic king Samsung will become history. One of the two satellites will disappear forever in the long river of history...

This is the poison of the three lords, in order to force the magical man's immortal grotesque shot!

With the issuance of instructions, it has approached the 600,000-size fortress on the edge of the Devil's Samsung internal defense line. At the same time, the ceasefire was fired at the same time. However, the huge main gun artillery muzzle began to adjust its orientation, pointing to a million miles. Outside the magic guard II.

The purpose of such a move is too obvious. It is clear that it is necessary to launch a volley and thoroughly smash the rhythm of the magic guard.

In the void, the tops of the demons of the devils suddenly changed, and they lost their voices...

"God, these guys are absolutely crazy, all the way to advance at all costs, the ultimate goal is to show it!"

"It's too arrogant. Actually, I have to start with the Emperor Samsung. The 600,000-size-size fortress will launch the main ship's guns. This is clearly the rhythm of the magic wipes!"

"To stop them, you must stop them immediately!"

"It's too late, at most thirty seconds, this round of volleys will unfold and can't stop it..."

Suddenly exclaimed, the tops of the demons and royal families were in ruins.

Too big to say, actually did not see the other side's attempt, actually let these more than 600,000 large and small fortresses, in a short small half-day time to complete the rapid advance, close to the edge of the magic king Samsung's inner defense circle, enter Direct bombardment of the effective range of the Magic King Samsung!

After this round of volley, the magic guard II will be half-disabled even if it is not completely destroyed, and will withdraw from the historical stage.

For the devil, this is definitely an unbearable and heavy loss, and may even endanger the roots of the ethnic group. After all, in addition to a large number of demonics and ethnic groups, there are many important facilities in the magic guard. For the devil's group, it is absolutely strategic, and there is no loss at all.

However, all of this, in just 30 seconds, will be destroyed in the first place. I think of this kind of consequences. The top of the devils and the royal family headed by the contemporary devil, Mo Wentian, suddenly see their eyes and eyes. It's all red...

"call out!"

It was also at this time that a sharp rush suddenly came from a distant place, because the speed was so fast that the sound of the emptiness was clearly audible in the context of this explosion.

Subconsciously, the eyes of both sides of the warring forces and the innumerable strongmen have all gathered together in the past.

A transparent purple warship is reflected in the line of sight. It is clearly a small private warship. The captain is only a kilometer, but the speed is more than 100,000 meters in diameter. It is almost faster than the meteor. Has rushed into the magic king Samsung inner defense circle!

Then, with a chilling sneer, it sounded loudly: "This king... is back!"

Chapter 3978: Blood mosquitoes

At the most critical moment, Ye Xuan finally returned, driving fast to the horrible smashing, directly rushing into the inner defense circle of the Emperor Samsung, the emptiness distance of tens of millions of miles, in a short period of time The breathing room has already crossed, and even the old lord of the world has been stunned.

This speed is definitely not weaker than them!

Even a large fortress with a diameter of 100,000 meters is far from being as fast as it is.

Today, it is reflected in a small private warship with only a few kilometers of captain!

This is too astounding, surrounded by the void, and the sound of excitement sounded in a moment, and countless strong people are sizzling and squeaking...

"Oh, what happened? Where did you come up with such a horrible small private battleship?"

"It's really horrible. This speed is afraid that even the old lords of the world will have to move. The big fortress of 100,000 meters in diameter will not be able to get up, and it will be pulled out of several streets!"

"The real starry sky sailing, but like a virtual jump, a breath is not enough, it is already thousands of miles away... This is too abnormal?"

"Black technology! Absolutely black technology! And the star wars of the devil's emperor Mo Yufeng, it is simply stunned!"

"It should be correct, claiming to be the king, and still come back. The owner of this small private battleship, besides the devil's emperor Mo Zhenfeng, who else?"

"Starry sky to treasure! This is definitely a small private battleship from the starry sky to the treasure level. The devil's emperor is too far-fetched. The refiner is like cheating. Even the refining master of the Terran camp, I have never heard of anyone who has smashed a piece. The battleship of the starry sky to the treasure level actually appeared in his hands..."

.....

As these exclamations rang, Ye Xuan stepped out of the broken shuttle, and in the first place he waved it into the immortal world.

Before the situation was urgent, he was only allowed to use the broken shuttle, but although this small private warship had undergone the last melt, the shape was quite different from that previously exposed in the hands of Xuan Huangzi. After all, the shadow is still there, and it's been a long time to be peeped outside, and he's really worried about being seen.

In this case, the identity of Xuan Huangzi is also expected to be exposed.

Although today, after passing through the creation of this starry sky, the various foundations are far from being the same, but after all, the Arc de Triomphe is still there, Ye Xuan does not want to expose the identity of the Emperor Xuan, thus giving the triumph The city brings trouble.

Not long ago, I just sent a large number of resources and warships in the past. Now the Arc of Triumph needs the time of development!

"The first step of the star master? This..."

With the appearance of Ye Xuan, the tops of the demons and royal families suddenly breathed a sigh of relief, but then they all stunned and sighed.

The cultivation of the leaves in Ye Xuan's body is clearly the first step of the star master. Although he has previously activated the konjac bloodline and entered the three-armed and six-armed konjac, he can also have the power of the star lord.

However, today's Ye Xuan clearly appears in human form, which represents the cultivation of the star's main territory at the moment, which is simply his own true strength.

Has it broken?

How many days is it? Actually turned into a star lord?

These thoughts flashed through my mind, and the tops of the demons and royal families headed by the contemporary devil, Mo Wentian, turned their faces to face each other, and their faces were full of confusion and confusion.

You must know that when you left the Magic Emperor Star, the cultivation of Ye Xuan's deity was only three steps.

In fact, even in the early days of the reign of the Qiankun, he did not break through until recently. I didn't expect it to leave a few days, but it broke through, and it was a few small steps in Jinjin. Soared to the first step of the star master!

It's just unheard of, too ridiculous!

Just as all the people were stunned, Ye Xuan had activated the konjac blood in his body in the first time. The human form was instantly transformed, and a three-headed, six-armed, ten-footed Taikoo konjac smashed the void.

Then, it was the display of the konjac and the blood.

"The konjac has changed... the first change!"

In the temper, the Taikoo konjac body of the ten-foot-high body suddenly surged, and an inexplicable blood force suddenly swelled in the body and gathered into a similar tide-like force.

The strength of the three real bodies of the Taikoo konjac was greatly increased. In the blink of an eye, only the body shape of only ten feet was directly raised to a hundred feet.

"The konjac changes... the second change!"

After the second violent drink, the familiar feeling came again, and the konjac body suddenly rose to a thousand feet!

"The konjac changes... the third change!"

Looking up again, with the third change of the konjac, the violent blood in the three real bodies also skyrocketed again and again, like the same roaring river, directly driving the three-headed six-armed konjac The real body is like a balloon, and it swells quickly.

From the original one thousand feet high, quickly reached 10,000 feet!

But this is obviously not the end. The last violent rumbling also came out at this moment: "The konjac has changed... the fourth change!"

The roar of this roaring sounds in the wild, the three heads of the eternal konjac of the sacred body roared at the same time, and the corner of the sky trembled a little, and the blood of the giant body was like a balloon that was inflated in an instant. In general, it has skyrocketed ten times again, reaching the horror of a hundred thousand feet!

In the end, when the body shape of the Taikoo konjac was fixed at the height of the horror of 100,000 feet, the temperament exuded in the body once again soared into a big realm, and the star territory of Ye Xuan's human form Order, reached the first level of the domain of today's domain!

In just two breaths, the strength has increased to a big realm. The star lord has changed into a domain lord, plus a giant of 100,000 feet, comparable to the huge body of a starry war. That vastness is like a sea of smoke, absolutely horrible, the power of blood and blood...

Today's Ye Xuan, already has the right to be assured of the ordinary lord!

For all of this, the countless powerful people in the camps around the imaginary sky have already been completely thundered!

However, Ye Xuan did not stop, because as soon as he arrived, still in the distance, he had already glimpsed the crisis facing the Devil II. A disaster called a catastrophe is about to come!

The reason why he did not hesitate to expose the identity of Xuan Huangzi, rushed to the fastest speed to rush to the magic king Samsung inner defense circle, the only purpose is to prevent this from happening.

"Booming..."

In the middle of the wave, one of the four major battles in the immortal world was directly sacrificed by him. He was squatting in front of him, and his blood was dark red. It was the **** mosquito battle!

At this point, after he waved his hand, the huge bell mouth of the blood-mosquito warfare happened to be facing the elite fleet of the Alliance a million miles away.

At the rhythm of an enemy of 600,000, Ye Xuan is very confident. Today, the blood-mosquito war will be fierce and fierce.

Chapter 3979: Four immortal advents

"Star Wars? It's just looking for death..."

Ye Xuan appeared, rushing into the magic king Samsung inner defense circle at a very fast speed, just in the middle of the position of the magic guard II that has been locked into the bombardment target and the 600,000-size fortress in front of millions of miles away.

Seeing this scene, one of the three lords of the enemy camp, even if ridiculed, murderous, issued a command to fully launch the volley.

In the next moment, the main ship of the 600,000-size fortress was fired at the same time. The energy beam of hundreds of thousands of anti-material dead light cannons was instantly interwoven into the net and rushed toward the magic.

Ye Xuan's body shape has not moved, he and the blood mosquitoes at his feet will inevitably be the first light, and if there is no accident, these more than 600,000 black dead light gun energy beam, in Ye Xuan and blood mosquitoes After the battle has become a slag, it will continue to move forward, and the magic guard II will eventually escape the catastrophe of today...

For all of this, Ye Xuan had expected it, but he was not afraid. With the sacrifice of the blood-mosquito, he immediately went to the main node of the bee of the Laha domain, and issued a command of full bombardment.

"Hey..."

The **** mosquito king's **** replied immediately, whistling, and relaying instructions to thousands of hive nodes. The violent high-frequency tremors generated by the mosquitoes flapping their wings suddenly sounded.

40 million murderous beasts roared at the same time, gathered together, gathered from one hive node to the core node of the ninth lap. This large piece of emptiness, at this moment, was disturbed and trembled.

"Hey!"

In less than a second, the sound of screaming and whistling has already sounded, and an invisible shock wave rushed out from the huge bell mouth of the **** mosquito.

After the increase of the special form of the war, after the outer ring of the largest diameter of the war, the invisible shock wave has already blown the voids, and the speed is reaching the extreme.

In the void, there is a layer of invisible ripples similar to the fine fish scales on the water. The blink of an eye is hundreds of thousands of miles away, and the head of the gunfire energy beam from the opposite camp is head-on!

"call out!"

"call out....."

A sharp and unpredictable sound of breaking the air suddenly made a big fuss. As the void was pushed forward by the huge fan-shaped pleats, the energy beam of the guns that were touched was all suddenly abrupt. Stagnation.

Then it seems to have been subjected to some kind of more powerful anti-thrust effect, but all of them are turned back and lasing away, and they are lasing back in a state of sustained acceleration, which is at least twice as fast as it is!

Hundreds of thousands of black death light cannons are fully reversed and shot back at a faster speed. Only half a second later, they hit the big and big fortress that just shot them out!

"boom!"

"Booming..."

A huge roar came in an instant, and one after another, the dense explosion of sound rang loudly, and at the forefront of the enemy camps millions of miles away, a huge fireball appeared in an instant.

Six hundred thousand warships, just launched a round of volley, less than three seconds, the shot of the gun light column will be turned back and banged back, all this is too eye-catching, and under the defense, few warships can avoid this A strange bombardment.

A huge fireball exploded, and the corner of the sky was illuminated. Like a large number of stars, the stars blew themselves, and the power was shocking.

Even if these warships propped up the energy defense shield, it would be useless. The blasting and returning gun light column was not far from the present, and the speed was too fast. It was twice as big as when it was shot. Such a tragic result.

A round of volley, and finally ruined himself!

Six hundred thousand large and small fortresses, except for some of them who were trained to be strong, rushed out of the fortress in time, fled to the void in a stunned manner, and avoided all the other powerful people. Among them, turned into fly ash...

In the past, even if the blood-mosquito war is a full blow, most of them can not cause such a shocking effect. After all, the distance is too close, and the structure of the Star Wars is destined to maximize its power. It takes a certain distance to increase.

Although the distance of a million miles is enough for the special wave hurricane in the giant ramen to form a fan shock wave, it is still close to the point, and the increase has not reached the limit.

In the past, the blood-mosquito war was a full blow. Although it can block most of the energy beam, it must have a few fish that are leaking nets. It still poses a threat to the body of Ye Xuan and the blood-mosquito.

Even the magic guard II will be affected.

But now, after the creation of the thunderstorm in the starry sky, all the problems no longer exist. Reze Lingwu has allowed thousands of beehives in the battle, including all mosquitoes and beasts including the blood of the mosquitoes and beasts. All the strengths have skyrocketed, and the level of life has not improved.

As a result, the power of the **** mosquitoes and the full force of the blows has already surpassed the previous several times. Even within a short distance of a million miles, it is enough to kill the 600,000-size fortress. destroyed!

At this point, the Destroy Crisis of the Devil II was lifted, and even this time the crusades of the Devils' group suffered almost the curtain. The millions of warships dispatched by the Alliance of All Nations were completely destroyed. Only a few Stars fled. Out of the battleship, including the three lords.

But after they rushed out of their flagship fortress, they didn't even stop for a moment. The first time they went like a funeral dog, they rushed toward the distant sky.

It's useless to stay, the devil's emperor is activating the body's konjac blood, entering the state of the three-headed six-armed konjac, and repairing the strength to reach the domain realm, plus the huge body of 100,000 feet. The power of arrogance and blood, with no other means of use, has been able to compete with the lords of the landlord.

In fact, the four major battles in his hands, only now show one, especially the golden years of war, even the immortal blame can kill, just three lords, there is no such Qualification for World War I.

In fact, they simply do not have to stay, because the task has been completed, although the true heritage of the devil's group has not appeared, but the same is true of the emperor Mo Zhenfeng.

The four immortal eccentrics hidden in the dark will soon come, and at the same time, kill and kill the devil's emperor Mo Yufeng, so that the immortal ancestors of the demon group can be forced out!

Almost in the next moment, in four different directions in the distance of the void, at the same time, there was a horrible roar, and the four immortals of the Wanshui Alliance finally came!

"Roar!"

"Hey..."

"Mo Xiaor, you finally showed up, today the deity wants to see, how have you escaped!"

"Oh! Today, the devil is destined to become history, or surrender, or ... die!"

As the roar came out, these four different directions of the void were far away, each with a shocking and inexplicable horror pressure, suddenly appeared, and forced the Emperor Samsung to come...

Chapter 3980:

Four immortal, at the same time, the body shape has not yet appeared, the immortal pressure of horror has already shocked this piece of emptiness, the tens of millions of miles of the cosmic starry sky is dead, most of the devil's star field, all at this moment As if it was imprisoned, the invisible air reveals a damp and repressive feeling...

Immortal old monster, magic flames!

Just falling on one, it is enough to suppress one side of the void, and now four immortal old monsters are coming, today's magic man star field, destined to experience a test of life and death!

"Card..."

The sound of the crisp cracks sounded in four different directions in the distance. The cosmic starry sky cracked four void cracks, and the four immortal monsters with amazing breath almost came at the same time.

And all of them have manifested the blood of the body, although not very large, only a million, but this is clearly the result of the deliberate control of the four old monsters.

In the immortal world, even if the body of the bleeding veins is manifested, there is no need to rely on the size of the body to gain the power of the blood.

Seeing these four immortal geeks with the supreme pressure, the original expressionless Taikoo konjac, suddenly licked his mouth, the look on his face showed a trace of quirky.

At the same time, the wave of blood mosquitoes under the foot of the wave into the body of the immortal world, followed by another wave, the golden years of war will be sacrificed by him, still hanging under his feet, a huge trumpet, pointing to the front!

The immortal grotesque that comes in this direction is a **** fox, a huge body of half-fox and half scorpion, with a fox body, dragging a furry pink giant tail, but the head is an ostrich. The red crown is like blood, the triangle eye, the light is poisonous, and it is locked in Ye Xuan.

It feels extremely uncomfortable for him, just as he is being searched for by the two colds in flesh and soul.

For this reason, Ye Xuan's face sank and decided to take this **** fox to start!

Just as the **** fox smashed out of the void cracked by the wave, the other three directions of the void were far away, and the other three immortal grotesques also stepped out of the void crack and came down in full.

A colorful flame thunder, the whole body is steaming with red, blue and blue fires. The flames are rolling. Although it is a bird, it looks like a bird that has been magnified many times, but its feathers are obviously extraordinary. Each one has a weak Raymond that is telescopically swallowed.

Obviously, this colorful flame thunder must have the power of powerful lightning, and its mouth is sharp and sharp, not only steaming three color flames, but also silvery electric awnings flashing, under the speed of a glimpse, afraid It is the same level of immortal grotesque, you must drink hate.

Absolutely dangerous!

The third immortal grotesque is a black scorpion demon tiger. The whole body is black and inky. Like the purest jade, it is also the same as Yingying's luster.

But the half body shape of this black scorpion tiger is shrouded in a thick black mist. This kind of fog is pouring out of the body, and it can feel a strong distance through the endless distance of the void. To the treacherous devilish sigh of relief.

Obviously, the black mist that haunts itself should be a certain kind of konjac. This black scorpion tiger must have unconventional methods of attack, the atmosphere is too restrained, and the konjac is clear, but it gives people It feels like water.

This is obviously extremely contradictory, but it fits perfectly in one body, revealing a deep mystery!

The last immortal grotesque, it seems a lot more common, the three planes of the universe can be seen everywhere, it is a flying scorpion!

Feitianyu is different from some ordinary beasts in the interior of the stars. It is a powerful poison that lives in the void of the universe. Although it is only one or more pairs of giant wings, it is just the same as the ordinary beast. The level of fierceness has risen geometrically.

More importantly, the poisonous sac in this flying scorpion can actually evolve. With the improvement of its strength, the transition of life level, the toxins secreted in the poison sac, the toxicity is more and more terrifying.

The general flying scorpion, only a pair of scorpion wings on the back, but now this immortal level of flying scorpion, the body of the dark green body of the back, but a row of nine pairs of **** wings.

This shows that his speed is very fast, and the degree of evolution of the life level is also very high, because the symbol of the evolution of the life level of the flying scorpion is the wing of the back of this ethnic group!

The immortal grotesque represents only his powerful cultivation, but the nine pairs of blood-colored wings represent the extent of his life evolution.

Nine is the ultimate, indicating that the extent of the evolution of this immortal flying scorpion has reached the peak of this species, and the horror of the toxins secreted by the poisonous sac in the body is afraid of being accompanied by the level of immortal grotesque, contaminated with the previous one. Ding points, but also to be poisoned to the ground!

Four immortal grotesque, approaching in four different directions, the speed is not very fast, obviously they are not in a hurry, with a cat-and-mouse mentality, this battle is regarded as a hunting game!

"Booming..."

In the void, the sound of the explosion is still going on. The previous war destroyed the millions of large and small fortresses and fortresses of the Alliance of Tens, and the Devils lost more than two million ships.

After all, the elite fleet of the Alliance of Wan Clan is almost undead, and only seeks rapid advancement. Like the fierce violent man, the lethality is not astonishing, and the devil paid a price for it.

This battle, although only lasted for less than a day, but more than three million warships were destroyed, and now all scattered in the void outside the magic king Samsung's inner defense circle, and some have already burned Gray, leaving only the warship's thick keel across the void, like the universe of garbage.

But more warships are still emitting light and heat, and subsequent explosions sound from time to time, illuminating a whole piece of void.

In such a blood and fire environment, countless demonic strongmen within the Devil's Samsung defensive circle, at this time, all fall like ice caves, except for a few core high-level elites who know the true heritage of the ethnic group, the rest Almost all of them are gray.

The four immortals are coming at the same time, and they are slowly advancing in four different directions. This is definitely a real life and death catastrophe. In the eyes of the vast majority of the devils and the tribes, this time, the devil is almost There is no life, and it is doomed to escape the tragic fate of the genocide.

In the calm, the contemporary Mo Huang Mo Tiantian quickly issued the instruction to shrink the line of defense. The millions of warships outside the magic king's Samsung inner defense circle were all evacuated and entered the inner defense circle, surrounded by three emperors and two guards. The void outside the atmosphere of the stars.

At this level of combat, they have no qualifications to participate, shrinking the line of defense, just to avoid being shackled and pond fish.

Even the starry sky defense of the Devil's Samsung internal defense line has been fully opened. This big array was almost destroyed once by Ye Xuan, but it has already been fixed.

A huge energy defensive hood slowly appears in the void, wide to innocent, and one of the three stars of the Emperor, the second guard, and all of them are covered in it...
