

Super D. S 398

Chapter 398: Celestite Cave House

"Hey, just fight this time, if not, then forget it, big deal to find a dangerous upgrade, and then take the opportunity to rob the hate sword."

Ye Xuan made a decision in his heart.

The twelve masters of the four sides are also guarded by holes in four directions, three in each direction.

Ye Xuan quietly dive.

The direction he chose was the direction of the hateful swordsman. He used the hateful swords as a breakthrough.

It is not so much an enemy 12, but it is actually the first enemy. If the assumption is smooth, then he may be able to improve the realm, and it will be easier to deal with the nine people.

He held his breath and thought about it, and decided not to do it first.

"How can I be so stupid, can be exchanged in the system, even if it is a real Xuanjing, it can make a little bit of movement, and then divide the three people once, it is much easier."

At the moment, Ye Xuan took out a few cockroaches and then let them go far. When the waiting time arrives, it will make a point.

"almost!"

Ye Xuan calculated the time.

"Booming!"

These cockroaches have been timed, and when the time is up, they start to attack each other, and the collision of metal sounds.

"Ok?"

The twelve people who guarded the entrance to the cave raised their heads.

"It should be a holy beast, I will solve it."

One person who hated the Tianjian faction got up and ran towards the distance, and soon broke into the darkness.

But after he left, another direction was followed by a big move.

"I am really annoyed, I can't stop it. I am going to kill all the holy beasts around."

The second person also got up and left.

This second movement was actually made by Megatron.

In this way, the three people who hate the Tianjian School are once again dispersed.

"good chance!"

Ye Xuan's eyes were bright in the dark, and he was hiding near Megatron. His goal was to be the elder of the hateful sword that ran towards him.

The elder of the hateful swordsman ran to the place where he was bombarded by Megatron. Then, Megatron is also very compatible with the transformation into a white wind.

"Well? A yin wind that I have never seen before?" The elder of the hateful sword school is a bit strange, raising his hand is a punch.

"Hey!"

The boxing shadow runs through Mega's body, but in the next moment, Megatron's body is restored to its original state. This kind of attack has no effect on it.

If you want to kill Megatron, then you can only use the more powerful and larger martial arts, you must disperse the body of Megatron.

This elder who hates the swordsman is not stupid, he immediately wants to understand.

However, at this time, the wind blew.

"Huang Quan sword method, the sword falls to Huang Quan, give me death!"

Ye Xuan suddenly broke out from the shadows.

"what?"

This hate the elders of the Tianjian School. With his realm, he did not find anyone hiding around. How is this possible?

He stared at it and found that Ye Xuan had only a power of eighty dragons, but it was cold.

"Don't be self-sufficient, go to hell!" The middle-aged man's eyes showed a disdainful look and a punch.

However, he died under his own will.

Eight wild swords, enough to make up for the gap between the ten dragons, Ye Xuan this, the power is much stronger than him, instantly defeated the boxing shadow, and then fell into his throat.

A head flew up, and the middle-aged man widened his eyes and couldn't speak anymore.

Spike!

"fool!"

In the heart of Ye Xuan's heart, he quickly closed the middle-aged man's ring and body.

"Hey, the host has broken through the power of eighty dragons!"

Although it is said that the door is out, it will not bring everything, but the things of the middle-aged people in the ring are enough to let Ye Xuan break through.

Fang Cai Ye Xuan used the konjac change, only from the seventy-nine dragon to the eighty dragon, and now, he really reached the eighty dragon.

Therefore, he now has the power of eighty-one dragons.

"Can't stay, you have to give another person!"

He quickly swept out and killed the first elder who hated the Tianjian.

This elder is also very careless and easily killed by Ye Xuan. At the same time, his things in the ring, also let Ye Xuan break through the eighty-one dragon.

"The leapfrog challenge is cool, kill one person and raise one level. If you kill these twelve people, can you rise to eighty-five dragons?"

Ye Xuan thought about it and broke into the darkness again.

The last elder who hated the Tianjian School heard a little movement, frowned, and shouted: "You two, what?"

The sound is loud, but there is no echo.

His face changed, it seems that something is wrong.

However, just as he wanted to speak again, Ye Xuan actually broke out from the darkness.

"Oh!"

The crisp sound spreads, the head is thrown, it is still spike!

The masters of the three ninety dragons were killed by Ye Xuan in five seconds.

"what?"

The other three masters in the other three directions immediately greeted the weapons, then looked at them and killed them.

At the same time, the realm of Ye Xuan is also raised again, reaching the 82nd Dragon. However, the effect of the konjac has also become so small that it cannot be promoted to the eighty-three dragons.

However, the power of the eighty-two dragons is enough to kill these nine people.

"kill!"

Ye Xuan casually chose a direction and rushed out.

The power of the eighty-two dragons allowed him to have a speed comparable to that of the hundred dragons. The nine warriors of the ninety-nine dragons couldn't help Ye Xuan. Instead, they were defeated by Ye Xuan one by one.

After a minute.

"Hey, the proficiency of the day's body is improved, and the current is 10%, the effect is doubled!"

"Hey, the host has broken through the power of the eighty-five dragons!"

When Ye Xuan swallowed up everyone's things, it finally broke through the power of the eighty-five dragons.

Now, he has the strength to continue.

Although the blood of the konjac king has all been used up, but for him in this realm, the konjac has become useless.

At this time his cards, only the Beastmaster violent.

"Well, let me see where your four forces are going."

Ye Xuan was loaded into the entrance that was forcibly opened up.

This tunnel is very dark. It is only for the two people to walk side by side. It is only a dozen minutes before the forces of the Quartet, so it is very slow and afraid to hit them.

Ye Xuan advances little by little, but there is no sound in the passage. It seems that the front of the four forces did not encounter any danger.

He walked for about half an hour before seeing a green light.

He approached carefully, then glanced at him, and the whole person was shocked.

Under the city, there is still a cave house, a huge cave house made of lapis lazuli.

"Oh, next door, now comes a cave made of lapis lazuli. How much is this worth?"

Ye Xuan Hu body shocked.
