

## Super D. S 3981

Chapter 3981: Either drop or

At this moment, with the millions of warships of the Devils group all retreat to the inner defense circle, and open the virtual defense defensive array of the Emperor Samsung, a huge energy defense mask appears, the outside of the virtual air, in addition to a large number of warships The wreckage, only the figure of Ye Xuan alone, still stand alone and proudly.

In addition, the magical emperor's four different directions of the sky are far away, and there are four immortal grotesque, slowly approaching!

Such a scene, at this moment, deeply engraved into the heart of countless devils who retreat into the defensive hood, and is destined to become an eternal imprint, which cannot be erased except the end of life.

Today's Ye Xuan, although more than a few days ago, has been repaired as a big move, even if it is now activated in the body of the konjac blood, showing the shape of the three-headed six-armed konjac, the body of the body is breathable, It's just that the domain is only the first order.

After the domain master, it is the landlord, the landlord, and the cosmic level, after the cosmic level, is immortal!

The first stage of the domain, and the immortal grotesque, separated by two big realms, the starry sky is more and more behind, often a small step difference, reflected in the consequences of combat power, are like the heavens.

But nowadays, Ye Xuan is facing the immortal grotesque that transcends his two realms with the cultivation of the domain's main territory, and he still has an enemy four, but he has no fear, and his face is calm and unmoving...

No matter what the final result of this war is, it is just that the supreme style that he has shown now is destined to be famous.

Absolutely no one before, no one after!

In the distance, the sound of awe-inspiring came, and the four immortal geeks who had already come down one after another, although the tone was sly, but the sigh was obviously from the heart...

"Sure enough, the first person in the world of the four enchanting ones, just the courage, is enough to be proud, even the deity, have to admire!"

"The devil's group is also considered to be very arrogant. It is such an enchanting sorcerer. The first person in the world is a pity. After all, it is too hurried to prematurely expose the ambition. Otherwise, it will take time to wait for you to really grow up. The day when people unite the entire plane may not be entirely impossible!"

"Don't make mistakes, let your talents be enchanting and shocking. Before you really grow up, you will only be the so-called geniuses of the younger generations. Instead of building up the powerful, give you time to consider, or drop, or... cut!"

"Oh, I actually sacrificed this golden age, and this is obviously a rhythm of dying. Mo Xiaoer, do you still think that this star-studded star wars can kill the immortal old? Is it strange? Although it is amazing for a thousand years, it still cannot shake the existence of immortality..."

The last words are the blood-capped foxes in the far-away sky in front of the battle of the years, and he said that his sinister triangle eyes have been firmly locked in the land, and the atmosphere is very cloudy. It is a feeling of being in the back, and with its hoarseness and dumbness, it is extremely uncomfortable to get into the ear. Ye Xuan is extremely unhappy!

Previously, the battle of Ye Xuan's killing of the Federal Senate of Wanluo, the details did not spread out, the entire demonic group of countless strong people were given a password, plus time is still short, even if there is no impenetrable in the world Wall, but the truth is not disclosed so quickly.

Therefore, the outside world only knows that there is an immortal old monster in the Federal Republic of Venezuela. In the Devil's Star Field, the devil's emperor Mo Yufeng, who is one of the four enchanting singers, is destroyed, but the specific means is used, but there is no such thing. An accurate statement.

But one thing is completely certain, that is, before the fall of the immortal old monster, the devil's emperor Mo Yufeng sacrificed the golden years of war, inspiring the power of the tides of the years, and repeatedly bombarded...

Before the fall, the immortal old monster of the Senate was already hurt by several golden years of tides!

Because of this, I saw Ye Xuan waved and collected the \*\*\*\* mosquitoes, but then he sang the rumored golden years of war, and the four immortal monsters that were slowly approaching in the distance, immediately I have paid attention to it.

It is a pity that in their view, this golden age war is obviously far from threatening the existence of immortality. The power of 10,000 years is still too weak.

Obviously, they decided that Ye Xuan was bluffing, and his heart must have been desperate, but he was dying, deliberately pretending to be nothing, calm and calm, even offering this year's war, a pair to unfold The posture of attack and kill.

This is an empty city plan, I want to borrow the record of killing an immortal old monster before, bring the effect of the suspect, delay the time!

Ye Xuan is sneer, and he has absolute confidence in the years and years.

After this encounter in the thunderstorm of the Starry Sky, the four star-studded battles in his hands have completed a gorgeous transformation. Among them, especially the power of the years and battles is expected to be most anticipated.

Nowadays, in the thousands of hive nodes in the battle of the years, there is a blue gold king in the main territory of the star, and the purple gold king in the ten heads of the Qiankun. These eleven individual Slim, who are terrifying in their combat power, have Being the soul of the entire ethnic group, just their existence, can greatly enhance the power of the war.

In addition, thousands of the entire Slim group in the thousands of hive groups have been cultivated as strengths and life forms, and this time they have all been fully upgraded, so that this gold is directly The gorgeous war, in the aspect of power, completed a sublimation-like transformation.

In the past, a wave of golden ages represented the eternal lapse of 10,000 years of age, but after this time the overall life form of the ethnic group jumped, Ye Xuan believed that a wave of golden years, even if it reached less than five The lapse of thousands of years, two or three thousand years, but still can be done.

Such a tidal wave, if there are more waves, can't say that the killing of the king is immortal, but as long as the attack continues, it will be a problem!

It can be said that once the battle is over, even if it is facing the immortality of a king, Ye Xuan has the courage to try to fight with it.

As for the immortality of the seal, I am embarrassed. There may be no need to run the road. It is not a good thing to seriously damage it. Even if it is lucky, it is not impossible to kill it.

At the moment, the four old monsters that are slowly approaching from four different directions in the distance are all ordinary immortal. For Ye Xuan, although this strength is also amazing enough, if it can make him feel moving, It's really not the case!

The only thing that made him feel a pity is that these four old guys were too cautious. They actually forced the Emperor Samsung from four different directions. This made him think that he had aborted the idea and immediately aborted. Kill one of them.

The other three old guys are not good at seeing things, afraid that they will act immediately, and the subsequent changes are too unpredictable...

Chapter 3982: Purple gold tide

The hundred thoughts in the brain flashed, and Ye Xuan's line of sight has been locked in the \*\*\*\* fox scorpion outside the emptiness of thousands of miles away.

The other party clearly felt the murderousness in Ye Xuan's sorrow, and the immortal grotesque, but it was rude and direct by a Taikoo konjac that was only cultivated by the domain. It seems that the glory is extremely bad, which makes the \*\*\*\* fox Extremely uncomfortable, even when there is a cold voice.

"Hey, little doll, the time of the three interest has arrived. Since you are looking for death yourself, then you can't blame the deity..."

"Hey!"

At the end of the day, the blood crested fox screamed abruptly, and the triangular squint flashed through the cold awns. The right forelimb of the huge fox body also probed forward.

"Booming..."

Just a handful of presses, still thousands of miles away, but the empty space in front of Ye Xuan's millions of miles has already trembled in an instant, and it is possible to completely crack at any time. A huge fox claw is empty. In the middle of the exploration, covered with \*\*\*\* hair, straight to the skull of the ancient konjac flesh and blood.

"roll!"

Ye Xuan screamed and screamed, and when he gave instructions to the King of Green King in the battle, he made a full blow!

Soon, within the core node of the central area of the war, the Slim king of the whole body of the golden color did not hesitate, and immediately launched an action, up to ten purple gold slime in the thousand honeycomb nodes. The king, and the tens of millions of gold slime, issued the command of full bombardment!

"Hey!"

In the next moment, a very slight humming sound, the invisible ripples spread out from the body, immersed in the four walls of the core honeycomb nodes, and along the pipes connected to the outer wall, they were instantly transmitted to the thousands of years of war. Among the hive nodes.

At this moment, the tens of millions of Slim people in all the hive nodes are all in shape, and the long golden silk thread under the belly bursts into a luxuriant man, and the whole body is golden.

The layers of gold curtains are superimposed on each other, gathering together, and finally turned from pale gold to rich golden color, and also cast some faint purple gold meaning, which seems completely different from the previous one.

The golden glory is turned into purple gold. Although the purple is still quite light, it is clearly visible and represents the change of its power.

And, in this faint purple, there is even a glimpse of the glimpse of the green gold.

Then, if there is spirituality, it rushes into the four walls of the hive node, and traces back along the outer wall of the pipe. In all directions, it rushes toward the core hive of the Qingjin Slim emperor!

All of this was done in less than half a moment, and it was much faster than the previous one. In just half an instant, the rich golden and purple awns gathered in thousands of honeycomb nodes all came together.

And after entering the core honeycomb node, the core honeycomb node located in the central area of the ninth lap of the huge trumpet of the Warra is also suddenly bright, bursting with a fierce purple gold mans.

In an instant, the core honeycomb node with a diameter of three kilometers was completely transformed into a purple-golden world. At the same time, a wave of purple gold cymbals like a tide, spread along the war.

In front of the huge bell mouth, a fan-shaped ripple of purple gold color is derived, which quickly expands forward, like a purple gold smashing tide, silently... push forward!

"boom!"

The huge sound of the blast sounded, and the huge fox claws that came to the head of Ye Xuan directly collapsed, but the tide of the purple gold color did not stop for a moment, and it flowed directly.

The blink of an eye has reached the front of the \*\*\*\* fox in the sky!

"The little bastard, actually dare to do it, the deity has lived for you!"

At the same time that the fox claw was smashed, the blood-capped fox swayed slightly and suffered a slight counterattack, but it also provoked the anger of his heart.

With a bang, he wants to get on the top, and the deity comes down in person, killing the little ants who dare to provoke his immortality.

It is a pity that this wave represents the purple gold fan-shaped tide of the power of the years. At this time, the corner of the sky has been fully covered. Some mysterious power has been dispersed for the first time, making the \*\*\*\* fox with great anger. The shape is stagnant, as if it was banned, it is fixed in the void and cannot be moved.

It's impossible to take another shot at a time. At least, it's absolutely impossible before the tides of this wave of rapids have dissipated.

This is really a grievance, let him hate anger, the murderous in the smashing is fast and rich into the essence, biting his teeth hard.

"Sure enough, the power of time!"

"Is it wrong, isn't it a golden tide? How did it become the color of purple gold?"

"The deity has a bad feeling!"

.....

At the same time, with the emergence of the first wave of golden years, the rapid development of the wave, the three different directions of the sky in the distance, the other three immortal geeks who just arrived are all slightly changed, and I was shocked. The voice of the call.

They have already heard of the star wars of the Devils, La Zhiwei, and they know this golden war, so that they can send out the tides of time that are suspected of the power of time.

Even recently, under the tidal power of this years of war, an immortal grotesque was seriously injured and then murdered.

Although this matter has been confirmed, after all, no one has seen it in the outside world, and the law of the sky and the sky is the most mysterious law force, let alone the ordinary immortality, even if it is immortal. I have never heard of any one who has the power to truly master the law of the stars.

Therefore, for the time-related tidal power of the golden war, the four old guys who came here did not believe that it was a rumor.

Just now, with the first wave of tides really appearing, their four talents suddenly amazed and exclaimed, even if it is an immortal grotesque, in the face of the power of the law of the sky, they dare not scorn their front.

Especially the golden tide that was rumored in the outside world, but now suddenly turned into the color of purple gold, giving people the feeling that power can be more powerful, revealing mystery... This directly makes the four immortal grotes realize that it is not good, the heart Give birth to alertness.

In particular, the \*\*\*\* foxes that are facing the huge trumpet of the years of war, but also the ominous premonition, the body shape has been slightly trembled, but at this time it is too late, with the first wave The purple gold tide is approaching quickly, and the corner of his body is already confined by some mysterious time power.

This wave of purple-gold tidal waves with a mysterious scent... It seems that you can only bite your teeth at the moment.

In the view of the \*\*\*\* fox, as long as there is a slight gap after the tide of this wave, with his cultivation as the strength, he will immediately take the opportunity to break away from the shackles of the power of the law of the years, personally come and kill the opposite side of the sky. Taikoo konjac.

However, everything is far from being as simple as he imagined.

It was also at this moment that the first wave of ripples of the meaning of mysterious purple gold finally came.

"what....."

The tragic sound, no suspense sounds...

Chapter 3983: Three interestless immortal

"Oh la la..."

The tidal wave of the purple gold color rushed past, and the huge body of the \*\*\*\* fox screaming giant has changed instantly.

The first thing that bears the brunt of the blood is the most conspicuous blood crown on his head. It was originally red and bloody, but now it is almost in a short half-time, completely dimmed.

Then, as the purple gold tides flowed through its body, the \*\*\*\* foxes were huge and the original shiny skin, and it quickly faded without any suspense.

A large piece of fox fur fell off and turned into fly ash.

You must know that this is the true treasure of an immortal grotesque. Although it can't compete with the ancient powers and even the quasi-great powers of the ancient times, even for the strong stars below the border, even with full bombardment, They are absolutely incapable of moving. If you want this real treasure to fall off such a hair, you can't do it.

For the star-studded powers that are repaired by Qiankun, the immortal blame is a deadly magic weapon, and a bristles can pierce the spirit of the universe. Let it fall.

But now, just a wave of tidal waves, the fox fur of the blood-capped foxes has lost a lot of seven or eighty-eight, even the flesh under the fox fur has a large piece of peeling off, this scene is simply horrified.

This huge, flamboyant and immortal grotesque seems to have experienced the ruthless erosion of tens of thousands of years in a flash.

"Three thousand years? Actually it is 30,000...this is absolutely impossible!"

"Hey!"

As for the happenings of his own treasure, the blood-crowned fox as a party, naturally feels the deepest, he immediately panicked, but also directly judged the degree of erosion of his own treasure in this moment, immediately Screamed.

Originally thought that the power of this golden war is a wave of tens of thousands of years, it can not shake him at all, but now it is not the case.

Its real power has actually climbed three times in an instant, reaching the horrible 30,000 years of age. Otherwise, it is absolutely impossible for only one moment to let his flesh and blood treasures be destroyed to this extent.

In the blink of an eye, it is close to the bones!

The first moment, the blood-capped fox is still full of confidence, even the face of the rushing face of the tide, but now, he is really a little panic, a wave of 30,000, this is absolutely enough to shake his heart .

At this moment, the blood-capped foxes are no longer calm, urging the strength of the body, struggling to struggle. At this time, he only wants to flee immediately.

In the face of all this, although Ye Xuan had already been expected, but when he saw it with his own eyes, he was still inevitably excited. At this time, when the Slim group in the battle of Laye got a life level jump because of Reze's fog, he It is already known that the power of the years and battles must have improved.

However, since he has not tried it, he has no bottom in the specific degree of this kind of promotion. According to his conservative estimate, the tidal wave of 10,000 years ago should have reached at least one glimpse. 20,000 years.

Even if it is only 20,000 years, Ye Xuan can be satisfied, because the previous years of war has been able to send out six wave years of tidal waves, but even if it is still only six waves, 20,000 years, that is also 120,000 years The passing of time... killing the immortal monster, absolutely no problem.

What he didn't expect, however, was that after the first wave of tidal waves, his power reached 30,000 years of horror.

A wave of 30,000, even if only six waves of tidal energy, all blasted out, there are enough moments of 180,000 years of age, and two immortal wheel battles can be annihilated!

What's more, a wave of tidal power has increased three times. In terms of wave number, how can it still be just the previous six waves?

The thoughts flashed through my mind, and Ye Xuanton was very excited. He looked up and screamed. At this time, the \*\*\*\* fox in the void in front of him was in his eyes, and it was no different from the fall... Today will die!

"brush....."

The sound of Ye Xuan's whistling sound has not yet fallen, and the faint waves of waves have sounded one after another. The second wave of purple gold tides is also coming at this moment.

This time, all the four immortal grotesques have changed dramatically. The previous estimates are too wrong. Isn't that a thousand years?

It is now clearly 30,000 years, this eccentric years of war, but actually hidden power.

The same purple gold tide, if it hits three waves in succession, it is the moment of nearly 100,000 years of age.

There are tides in the years, 30,000 years!

Three waves of purple gold tides, representing the moment of passage of nearly 100,000 years of age, is also the limit of immortal old monsters!

If there are three waves of purple-gold tides that rush in and out for a short period of time, flowing through the body, today's things are in trouble!

As soon as I read this, the \*\*\*\* fox trembled throughout the body.

Although he is immortal, but immortal life has limits. In a short moment, after the passage of 90,000 years, for him, this is far from the situation of undead and delamination, but It represents the true fall.

In fact, it is true. With this second wave of purple gold flowing, the blood-capped fox scorpion originally had a faint luster, but at this moment, the huge real body table that has already been faintly defeated, this time apart from the large pieces of fur, Occasionally, somewhere, even the big flesh and blood began to melt.

Soon, even the internal organs and some golden bones began to appear, and even the original brilliance of the sinister glory was dimmed.

At this time, this second wave of purple gold tides has just arrived, and it has not completely flowed.

In the face of this scene, the other three immortal grotesque in the sky in the sky, suddenly change color, subconsciously cool down!

However, all changes are too fast, and they are not allowed to respond at all.

In the blink of an eye, the second wave of purple gold tides has disappeared. At this time, the original \*\*\*\* abundance of blood-capped foxes, the entire huge treasure has nearly half of the internal organs can be seen, white bones, mixed with flesh and blood, looks Decaying.

After all, in just two short periods of time, this flesh-and-blood treasure has already passed the ruthless erosion of 60,000 years of age, that is, the immortal blame, and replaced by the cosmic powerhouse, has long since fallen.

Then, the third wave of purple gold tides came, the speed was as fast, and only one moment, it had flowed through this decaying body.

As the third wave of purple gold tides disappeared, the blood-capped fox scorpion had already exposed the bones and internal organs of the blood, and actually began to collapse.

Not only did the organ fall out of the abdomen, but as the golden tide became a fly ash, a golden skeleton was scattered and disintegrated. It also failed to resist the erosion of the golden tide, and turned into an ashes!

In a short period of time, the \*\*\*\* body of this \*\*\*\* fox has almost dissipated, and only about one-third of the bones are empty.

Just three interest, one immortal... stunned!

Chapter 3984: Emperor Yinfen

Just three short breaths, immortality!

The original body of blood and blood is full of body, but now only a piece of white bones is left in the void, which is shocking.

This result makes Ye Xuan happy, but it is also somewhat unexpected.

But he soon realized it.

Although the immortal blame is said to be immortal, its life is actually limited, but it is only 100,000 years old.

This blood-crowned fox has obviously lived for more than 10,000 years. Therefore, these three waves only represent the purple gold tide of the 90,000 years of eroding power, and he can't resist it.

This is a good thing, saving a wave of purple gold tides.

At the first time, Ye Xuan issued an order again, so that the Qingjin Slim, who was in the battle of Lai, suspended the attack. Because the huge Lakou is facing the front of the sky, there is no target of attack.

The golden bloom of the whole body is fading in this moment, but if it is needed, Ye Xuan will make it sound again at any time.

According to Ye Xuan's estimate, today's years of war, under full force, should be able to emit at least seven waves of purple gold tides, and may even reach nine waves.

If it is nine waves, it will be able to kill three immortal grotesque, even if only seven waves, you can kill another one.

"Booming..."

Between the dying, the years of war, under his urging, quickly turned in the void, because the other three immortal monsters, in the other three different directions, whether it is bombing or deterrence, must first Turn around, otherwise you can't do it.

However, this matter is simple, but it is obviously not so easy to do. Before the bombing of the \*\*\*\* fox, it was completely lucky. The other party was too big, too lightly enemy, completely misjudged the true power of the war, otherwise, one Immortal grotesque, and you can be so stupid to stand there, let you activate the war, blasting the power of time, and connecting his body shape to the void, invisible?

That's just now, but now, the remaining three immortal monsters have already woke up, and they want to lock up again with the years of war. It is very difficult.

This is indeed the case. After the blood crested fox was killed between the short three moments, with Ye Xuan quickly adjusting the position of the war, he fell into a state of stagnation and three immortal monsters. After the body trembled, all of them returned to God.

At this time, I was so angry that the sound of violent and screaming sounded through the whole piece of emptiness...

"Damn, look down on this guy, the fox is too dead!"

"It's daring to see what he is doing? Actually still adjusting the position of the big killer. Is this the rhythm of killing me? It's a dream!"

"Can't delay any more, at the same time, shot, kill it, and force out the devil's eccentric!"

"Hey..."

In the anger of the cross, the three immortal blame bodies all rushed out of the invisible horror, and it was clearly irritated and was close to violent.

Three immortal grotesque, at the same time worry, this must be ruined, and one of the voids trembled.

Ye Xuan is even more eyelids jumping. At this time, the years of war under his feet have already adjusted the direction, just in the middle of the direction of the flying scorpion and the black scorpion tiger. If it is exciting, these two immortal monsters It is possible that it will be affected by power.

With the previous experience of the blood-capped foxes, the two immortal grotesques apparently dare not wait for them any more. The screams are all swaying, and they are trying to shoot, but the action is obviously stagnation.

Taking advantage of this opportunity, another immortal monster behind Ye Xuan has suddenly shot.

It was the colorful flame thunder that was originally listed as the second dangerous object by Ye Xuan!

At this time, he happened to be located behind the huge lama of the war, and there was no fear of the deterrent force of the war. After the sound of the sky, the huge figure of the whole giant has become a colorful thunder. A spurt came.

This colorful flame thunder is full of red, blue and blue fires. The flames are rolling. Although it is a bird, it looks like a bird that has been magnified many times, but its feathers are obviously extraordinary. Each one has a weak Raymond that is telescopically swallowed.

Obviously, this Thunderbird must have the powerful power of Thunderbolt, and its mouth is sharp and sharp, not only steaming three color flames, but also silvery electric awnings flashing, under the speed of a glimpse, afraid of the same Levels of immortal grotesque, have to drink hate.

At this moment, this sensational color thunder, the most sophisticated is a bright silver electric awn, it is the sharp mouth of this colorful flame Thunder, has already locked Ye Xuan's konjac true body.

Once he is approached, he is afraid of being too strong in the body of the Taikoo konjac, and will eventually be the result of being directly penetrated.

At this moment, Ye Xuan's eyelids jumped wildly, but there was a flash of light in his head. He slammed his teeth and directly spurred Lei Diyin.

In the next moment, the Lei Di Yin, who was hanging in his mind and knowing the sea, suddenly flicked up without warning, and directly manifested himself, slamming into the sky above the head of the Taikoo konjac.

Moreover, at this time, there is a huge illusion, which emerged from the back of the Taikoo konjac!

"Booming..."

"Boom!"

The sound of the thunder of the thunder, which was suddenly and abruptly introduced into Ye Xuan's ear, was shaken and moved. The picture that appeared behind him was clearly a void filled with the scent of the sky, belonging to the void of the ancient times. That kind of breath, exactly the same as Ye Xuan's all-inherited images from the cave giant tortoise, the golden dragon and the 陨天弓神通.

At the end of the void of this inheritance picture, a golden giant lotus is blooming in full bloom, bursting with endless golden light, it seems that the entire universe is reflected, as if born by nature, nurturing from the void The place is extremely large, it is the star, in front of it, it is extremely weak and small.

There is only one lotus seed on the lotus, but it is blue. It is the green gold seal that aptly rises from the sea of knowledge. The golden lightning of the whole body is entangled and stretched.

Lei Di Yin was born from such a golden giant lotus that was almost overwhelming, and it was the only lotus seed in the lotus of the giant lotus!

"Booming..."

The picture is still, illusory, but always thunderous, rumbling into Ye Xuan's ear, shocking his heart, surrounded by the blue gold seal that exists as a lotus seed on the lotus canopy, there are countless The tiny golden lightning telescopes are not good enough.

If you open your eyes and open to the whole golden lotus, you can see that there are countless blue thunderballs around the whole Phnom Penh, which are blasting one after another. Keep going!

Gradually, around the golden giant lotus, the blue thunder beads became more and more dense, and all of them exploded, turning into countless huge golden lightnings. At first, they only ravaged this void and blew up countless stars...

In the end, these golden lightnings seem to have been inspired by some kind of generalization, and gradually gathered in one direction, and the flaming flaming thunderbirds will be smashed in an instant... completely shrouded!

Chapter 3985: Lei Yuanzhu is now

Lei Di Yin, Ye Xuan has never been sacrificed before the people, even in the identity of the Emperor Xuanzi in the third cosmic tribe of the tenth house of the tenth, he just took out directly in the Lei Di Yin Lei Yuanzhu, bombarded the Qiang Qiang Tianganzi.

Therefore, nowadays it is forced to sacrifice the thunder of the Leidi Yin, and Ye Xuan fearlessly will leak his identity.

The only thing that is a pity is that it is only this way, and it is undoubtedly a long-term exposure to a strong means of intimidation.

However, the situation is forced by the situation, and it is not enough.

Fortunately, Lei Diyin still did not let Ye Xuan disappoint. At this moment, he sacrificed his own, and immediately activated his own Thunder field, which showed a virtual shadow of the ancient Lei Lian, directly possessed the immortality. The colorful flame thunder is shrouded inside, and it is completely trapped!

This scene is equally astonishing, and the shock brought to the eyes of those who see it around is not weaker than that of the previous years, and even surpassed it.

The countless devil powerhouses in the Devil's Three Stars Air Defense Array have long been completely sluggish.

In fact, at this time, when the \*\*\*\* fox that was the first to be killed fell, these devils were completely petrified. In just three moments, an immortal grotesque became history. This is the second immortality that fell into the hands of Ye Xuan in a month.

Even the contemporary demon emperor Mo Wentian, who knows some of his means, is also a singer, and he can't believe it.

At the moment, with this Lei Di Yin sacrifice, and instantly trapped an immortal old monster, they are almost numb, even their eyes are straight...

All this is long, but in fact it happened in a short moment.

At this time, the color flame Thunder was inadvertently shrouded by the Thunderfield field of Lei Di, after the black squad and the flying scorpion, which was stagnation due to the deterrence of the years of war, was able to complete a position. Conversion.

When I turned back, I was shocked to see what happened. I suddenly changed my mind and shouted again...

"What? This is... innate Ray Source to treasure?"

"This is impossible. What is the origin of this son? Even this kind of innate treasure can be owned. It seems that it is still refining, and Thunder is dangerous!"

"Can't drag it anymore, kill it immediately, save the Thunder, and take Leiyuan to treasure!"

.....

The last roar, from the mouth of the black scorpion, the blood of this immortal blame is also a huge body, the whole body is black as ink, like the most pure ink jade, it is also the same with Yingying's luster.

At this moment, most of the black scorpion tigers are shrouded in a thick black mist. This kind of mist is pouring from the body, and it can feel a strong heart through the endless distance of the void. The devil's devilish sighs come.

The speed is almost at its peak, and the blood of the giant body is just a flutter in the void. It has reached the emptiness of the Taikoo konjac, which is only a million miles away. The greed is greedy and firmly

locked in Ye Xuan. The shape of the body, the black mist in the body, is directly shrouded in the Taikoo konjac.

Obviously, the black mist that haunts itself should be a certain kind of konjac. This black scorpion tiger must have unconventional methods of attack, the atmosphere is too restrained, and the konjac is clear, but it gives people It feels like water.

Combining this contradiction perfectly, it will undoubtedly make the black and white demon tiger reveal a deep mystery, so that Ye Xuan is inexplicably inexplicable.

He has no doubt that if he is completely covered by the black enchanting spirit, there will be some ominous happening.

At this time, the position of the black scorpion and the devil's tiger was extremely smashed, avoiding the direction in which the huge lama of the years of the war was under the head, and there was no jealousy at all, so that Ye Xuan brows straight.

Since the two immortal grotesques have been deliberately evaded, it is difficult for them to form a deterrent. In order to prevent it from being destroyed in the war, Ye Xuan directly waved his hand into the immortal world, while at the same time, Directly urging the Lei Di Yin hanging over the top of the head.

"Booming!"

A thunder was blasting, and the next moment, a purple gold mist fell from the top of the head.

Then, there were countless Zijin Thunder attracted, and gathered at the head of Ye Xuan, the massive purple gold lightning rain rushed to the top of the head, but they could not cause any damage to Ye Xuan.

His body surface is always covered with a thin layer of purple and golden mist, carrying his hands in the vain air of the thunder, exudes a strong devotion, and is not shocked.

These massive Zijin Thunderbolts are all from the Lei Di Yin, which is hung above the sky at the top of the head. The entire shape of Ye Xuan is shrouded in the blink of an eye, forming a force of protection.

In the end, it is a huge thunder of the purple gold lightning flashing, and Ye Xuan, the top of the thunder, is the core of the huge thunder of this star.

Immediately afterwards, the purple gold mist that had shrouded his body suddenly made a big fuss, spread out to the outside, shrouded the entire purple gold giant, and turned it into a green color. Then, it began to condense inward.

In the blink of an eye, there is a Leiyuan bead on top of Ye Xuan's head. The color of the whole body is purple gold. It is one of the eight purple gold mines that were raised and raised by Lei Di Yin.

"call out!"

The faint sound of breaking the air rang, Zijin Leiyuan beads into a touch of purple mans, directly in the hands of Ye Xuan, but did not touch his palm skin, there is a layer of light cyan diaphragm separated.

"Hey! This breath..."

It was rushing to the ground, and the greedy greed of the greedy black scorpion slammed a cold breath, and the bottom of my heart burst into a strong sense of crisis.

At this moment, he even thought of life and death, because this little Zijin Leizhu, the pressure on him was too strong, revealing ominous, so that his scalp has been numb.

Almost subconsciously, the black scorpion Thunder Tiger stopped directly in shape, slightly hesitated for a short while, turned around and wanted to turn around.

Unfortunately, everything is too late.

The eight Zijin Leiyuan beads contained in Lei Di Yin are precious, and since Ye Xuan has decided to use one again, how can he still give him the opportunity to escape?

Before the ordinary Leiyuanzhu, it has been able to smash the mighty power of the Qiankun, and now the Leidi Yin, which has been upgraded by the power, can be re-condensed by the endless purple thunder in the starry grave, and the purple gold mine source beads obtained can at least Reinventing the immortal grotesque.

Even even bombing is not entirely impossible.

"Want to run? It's too late!"

In the middle of the Long's low thunderous voice, speeding up, lasing away...

"Do not!"

The speed of this deep purple is almost the highest, and the sound of thunder has followed all the way. The blink of an eye has already reached the front. At this time, the black tiger has just turned and the magical powers have been used in the future. stand up.....

Chapter 3986: Bombing the konjac tiger

"boom!"

The earth-shattering sound of the explosion sounded, and a void was disordered. The radiant purple gold mine beads fell on the tiger's waist of the black scorpion tiger, directly blasting, bursting with a vast expanse of thunder and lightning, all It is a dark purple color with a horrible power.

The \*\*\*\* body of the black and white devil's tiger is directly blown into two pieces, and a fierce horrible rumor!

But this is not finished!

It's just that the blood is completely smashed. For an immortal old monster, it's obviously nothing. The existence of this level, even if there is only one head left, can survive, flesh and blood can be heavy, new The tiger's torso will appear again, and the price paid is only the accumulation of energy in the body is consumed.

How can Zijin Leiyuanzhu be so simple?

At this moment, with the explosion of Zijin Leiyuanzhu, a large number of deep purple thunder and lightning suddenly bloomed, and most of them directly broke into the body through the black skull and broken into two bodies.

In every inch of flesh and blood, every section of the bones is raging.

This is definitely an unbearable torment, and the savage voice of the old guy's mouth is a big hit...

However, seeing this scene of Ye Xuan, after a slap in the face, but it is a bit regrettable, his face showed a faint disappointment.

Obviously, this time his judgment was wrong, and the estimate of Zijin Leiyuan Zhuwei was too high.

After the second tempering of the Lei Di Yin, the Zijin Leiyuan Pearl has indeed the power to reinvent the immortal grotesque, and even extremely overbearing, directly to the serious injury, which is also consistent with the Thunder's violent hegemonic characteristics.

It is a pity that once again fierce, and then hegemony, the level of power is still a little worse, only to be a heavy blow, but can not be like the previous years of war, the purple purple tide, almost killing the immortal grotesque.

At least, the black scorpion tiger in front of you... still struggling!

Unfortunately, this struggle has not lasted for a long time, and the time is even short enough to be negligible!

"Hey..."

A fierce and fierce sound screams, the black scorpion demon tiger obviously can't stand it. Every bit of the body's flesh and bones are ravaged by thunder and lightning. At this moment, he seems to have begun to doubt life. The indecent black scorpion tiger was tortured to make a long wolverine.

Then, from the top of the head of this black scorpion, a crisp card squeak came, and its huge skull and celestial cover was directly splitting a bone seam, and only one size of energy was destroyed. Come out.

This is the \*\*\*\* of the black scorpion, and at the moment it looks very weak.

The Yuanshen rushed out of the celestial cover, which is clearly intended to abandon the rhythm of this physical treasure. It is useless to abandon it. Every inch of flesh and bones is ravaged by thunder and lightning, and a unique thunder pressure remains. It is no longer possible to fix it.

Undoubtedly, after this battle, this black scorpion tiger has been destined to fall to the immortal platform. Although the gods still exist, the body of the body is fundamental, even the flesh is abandoned, and the cultivation will fall. I have to be seriously injured and I can recover slowly.

However, he obviously couldn't even have this opportunity, because Ye Xuan did not intend to let the \*\*\*\* of the black scorpion and the tiger escape.

"Want to run?"

Seeing the black gods and tigers, the gods rushed out of the heavenly cover, and spurred away with the weakness and exhaustion toward the distance. Seeing that they would go away, Ye Xuan suddenly sneered.

During his thoughts, he raised his hand and pointed out the thunderous field that covered the emptiness of the sky, and directly contacted Lei Diyin, who was suppressing the colorful flames.

"Card..."

The sound of the crisp lightning flashed, and a purple lightning spurt out from the top of the thunder field. The speed is as high as 100 feet, and the speed is almost at the extreme. It has already caught up to a million miles in the blink of an eye. Directly banged on the \*\*\*\* of the black scorpion tiger who was escaping.

"The deity is unwilling..."

"Roar!"

Realizing that the real fall is coming, the black scorpion thunder tiger makes a fierce scream, and when the scream is still not falling, the purple gold lightning that completely enveloped its \*\*\*\* has dissipated, and there seems to be a smoky smog inside. From then on, it was finally blown by the gust of wind that ignited around the sky.

This blue smoke is obviously the residual smoke left by the \*\*\*\* of the black scorpion tiger and the power of this purple gold lightning. Now with its dissipation, the \*\*\*\* of the black scorpion is also dissipated. The world has completely fallen.

All this is long, but in fact it is three or four times before and after.

It is also an immortal old monster, and it has been shrouded in the Thunderfield area that has been printed by Lei Di. It is being suppressed according to Ye Xuan's mind, and obviously can't escape the robbery of the colorful flames...

This time, the four immortal grotesques that have come to the Alliance of Ten Thousand People have already suffered from three accidents, and the time is still very short. From Ye Xuan's sacrifice of the years and the first wave of purple gold tides began, until Now, it's only a few minutes before and after!

In the face of this scene, the devils of the Royal Devils in the Samsung's inner defense circle, as well as countless devil strongmen and ethnic groups, have long been numb and stunned to watch the battle outside the starry defensive hood. The land has completely fallen into petrochemicals.

At this time, Ye Xuan waved his hand and immediately took the front of the void with a large number of thunder and lightning telescopically swallowed, but the huge demon tiger that had long been breathless had earned the immortal world.

This is the flesh and blood of an immortal grotesque, but also the \*\*\*\* treasure. For Ye Xuan, it is naturally impossible to waste. It is also good to go back and bake it for the indigenous foodies!

As for Ye Xuan himself, obviously he can't see it. His Shennong Ding also has some treasures of the ancient and the ancient powers. Although they can't eat, because the headless baby is not allowed, it is not old. The power of the will of the mighty is more, just pick one, and the quality and intrinsic energy of its \*\*\*\* treasure is far beyond this black dragon!

Then, after the shards of the black scorpion tigers were born in the immortal world, Ye Xuan turned and looked in the other direction.

There is also the last immortal grotesque, that is, the immortal flying scorpion.

Flying scorpions are different from some ordinary beasts in the interior of the stars. This is a powerful poison that lives in the void of the universe!

Although the shape is just one or more pairs of giant scorpion wings compared with ordinary beasts, its fierceness is geometrically climbing. More importantly, the poisonous sacs in this flying scorpion can actually evolve. .

With the improvement of its strength, the transition of life level, the toxins secreted in the poison sac, its toxicity is more and more horrible. For this immortal flying scorpion, even Ye Xuan, dare not neglect...

Chapter 3987: Chase killing

In fact, a few moments ago, Ye Xuan threw out a purple gold ray source bead, which smashed the black scorpion's real body into two pieces, while the latter did not break the real body cover. When the gods came out, they saw In this scene, the flying scorpion that was originally thrown into Ye Xuan, has suddenly stagnation, turned and turned around and fled.

I can't escape at this time, I am afraid that there will be no such opportunity.

This time, the Wanzu League sent four immortal grotes, and originally thought that the suppression of the ancestors of the devil, and the rumored to have the power to kill the immortal power of the emperor Mo Zhenfeng, is a matter of stability.

But now in less than ten minutes, everything has changed.

With the real body of the black scorpion demon tiger being smashed into two pieces by the purple gold ray source beads, the flying scorpion has confirmed that the other party is finished, that is to say, the four immortal grotesques have only one person left. In this case, if it is a demon The ancestors of the people suddenly appeared, fearing that even today he would be damaged here, no more life!

In fact, there is no need for the devil's ancestors who have never been exposed. The current flying scorpion has no doubt, just this Moss, the demon of the devil who is killing the black scorpion tiger, Once he has drawn his hand, he will definitely be able to leave him.

Sure enough, it is the existence of the four enchanting ones. It is said to be the first person of the younger generation of the younger generation. In the blink of an eye, or suppressing or killing, the three immortal grotesques are solved. This is a dog, and the flying scorpion is shocked and almost doubts the life. !

Nowadays, this situation is left to die anyway, so even if he is unwilling, he will not be willing to use Ye Xuan's years of war, especially the congenital Leiyuan Zhibao. But the treasures are good, they have to stay for life. After a short trade-off, he did not hesitate to choose to turn and flee.

It was also at this time that the black \*\*\*\* rushed out of the flesh and the soul of the gods was directly killed by a purple-golden thunder. The flying scorpion turned to the scene and saw the scene. , started a crazy escape...

When Ye Xuan broke the black scorpion demon tiger into two pieces of treasure wreckage income in the immortal world, the flying scorpion has reached nearly 20 million miles, not that he does not want to tear the void directly, in that case, its shape It takes a little while to tear the void and step in.

Even if it is just a breath, it is difficult to ensure that the Taikoo konjac in the rear will not sacrifice the horrible years of war.

Once the battle is activated, it instantly shows the power of the starry sky rule that can ban the corner of the sky. He simply has no chance to escape.

At the moment, although the way of crossing the void in this flesh is quickly far away, it is far less convenient than directly tearing away the void, but at least the position can be changed at any time, which eliminates the moment when the other person is in a stagnation. Sacrifice the years of war, the mysterious power of the law of time to trap its body shape!

The general flying scorpion, only a pair of scorpion wings on the back!

But this immortal level of flying scorpion, the body of the dark green body on the back, but a row of nine pairs of \*\*\*\* wings, which shows that his speed is very fast, and the level of life evolution is also very high!

Because the symbol of the evolution of the life level of the flying scorpion is the wing of the back of this ethnic group!

Immortality represents only his powerful cultivation, but the nine pairs of blood-colored wings represent the extent of his life evolution.

In general, Nine is the ultimate, indicating that the extent of the evolution of this immortal flying scorpion has reached the peak of this species!

The horror of the toxins secreted by the poisonous sac in the body, fearing that it is accompanied by the level of immortal grotesque, contaminated with a little bit, but also has to be poisoned to the ground!

For this reason, when Ye Xuan turned to chase at this moment, he directly sacrificed the Shennong Ding in the immortal world!

There are two reasons for the sacrifice of Shennong Ding. One is that Ye Xuan is jealous of the flying misty mist that fled in front of him, and sacrificed Shennong Ding. In the process of attacking, he can get Shennong Dingding The protection of the fog is not invaded by the poisonous fog, so as not to be concealed.

On the other hand, it is speed.

The speed of breaking the virtual shuttle is really fast. When Ye Xuan has mastered the star in the human form, he is fully motivated, and even the bounds are afraid to catch up.

Nowadays, the state of the three-headed six-armed konjac is really difficult to catch up if it is to reduce the body shape and break into the virtual shuttle.

It is an immortal grotesque that is escaping in front of it. It is only because of the strength of Ye Xuan that it is tempting to break the virtual shuttle.

However, Shennong Ding is different. This is the ancient treasure of the era of heavy weapons. It is driven by the cultivation of Ye Xuan's current domain, and its speed can definitely exceed the limit of immortal grotesque.

"Booming..."

As Ye Xuan waved his hand, a huge roar came out, and the Shennong in the immortal world turned into a masculine masculine blast, and the wind rose. In the blink of an eye, there was a huge star in the void.

This time, in order to achieve the ultimate speed, Ye Xuanyi sacrificed Shennong Ding, it is a complete form, and the degree of glory is even more faint than the magic star in the far distance!

Ye Xuan is a one-length body, and the huge konjac of the giants of 100,000 feet jumps directly to the Dingkou, and is not in the midst of a colorful fog.

Then, in the direction of flying away from the sky, I fled in the direction.

"call out!"

The huge Shennong Ding, a star-like star, immediately turned into a man, and quickly chased the past. It was three points faster than the flying scorpion with nine pairs of huge wings at the front of the back.

The latter turned to see this scene, and in a moment they were scared to death.

He originally thought that he had decided not to provoke, but turned and fled. This horror of horror should not be chased again, but the final result made him stunned and the other party broke the black scorpion tiger. After the two pieces of the body were put away, it was the first time to catch up.

The ants who were repaired by a domain master in the first step were actually chasing an immortal grotesque, and they also made such a big movement, directly carrying a star-like giant tripping across the void...

This time, Fei Tianyi really began to doubt life, and he was so angry that he wanted to cry.

At the same time, there was an angry gas that suddenly rose from his heart.

The other party is really too bully, the immortal grotesque also has the dignity of the immortal grotesque, have decided not to find you in trouble, actually still dog-like in the back chasing non-stop, really the deity is muddy, no point Not tempered?

Under the ups and downs of the heart, the flying scorpion immediately slowed down a bit of speed, no longer fleeing straight, but rounded off the general, slowing down the speed in the void 20 million miles away, and wandered around the circle.

He decided, anyway, the speed is weaker than the other side, and he can't escape without burying his head. It's better to bite his teeth and fight, maybe he can kill the little \*\*\*\* behind him.

At least, compared to the three immortal monsters that were previously suppressed, his talents are more unique, and he still has a little hope...

Chapter 3988: Poisonous fog

Although Ye Xuan sacrificed Shennong Ding to catch up, the Magic Emperor Samsung's inner defense circle, the starry defensive array of energy shields, Lei Di Yin is still high above the empty sky, pouring out an endless thunder sea, Surrounded by thousands of miles, it is always trapped in the colorful flame thunder that is immortal!

Although this colorful flame thunder is extraordinary, it not only has the immortal cultivation power, but also has the property of thunder in the blood talent. It has stronger resistance to the power of the Thunder than other coexistence.

Even so, in the face of Lei Diyin, he should have fallen.

Lei Di Yin is the innate Thunder source to the treasure, ordering the world thunder, even if the blood contains the Thunder property, it can only be suppressed.

The reason why he still has not fallen to the present, is the scum that has been smashed by the endless thunder thrown by Lei Di Yin, everything is because of Ye Xuan's reason.

This kind of colorful flame thunder is extremely rare, and it has the property of thunder in the blood of the body. It is so a pity that it is directly killed.

Therefore, Ye Xuan printed instructions to Lei Di to keep the trapped. After he was ready to solve the flying scorpion, he took time to work and then cook the flamingo thunder.

"Hey!"

"Hey..."

For all of this, the colorful flames that have been firmly trapped in this piece of Thunder Sea are obviously well known and have already been seen.

As the immortal existence of the Thunder's property in the blood, he has already determined that if the body is covered with the endless thunder sea that has been poured by Lei Di Yin, it has been determined that if the other side wants to, one can turn around He completely smashed it into slag.

At the moment, he is still alive, which has undoubtedly explained the problem.

At this moment, the color flame thunder is trapped in the Wanli Leihai, but what happened outside Leihai can still be sensed.

With the smashing and smashing of the black scorpion, and the flying down of the flying scorpion, his whole heart has sunk to the bottom of the valley, and there is no fighting spirit. The only thought is that he hopes to take advantage of that small The opportunity to kill God temporarily left, fled from this thunder sea, and quickly overlooked.

A scream of shouting, constantly coming out of Wanlilei, the Thunder rolling, lightning and symphony, but no matter how the flames of the Thunder are struggling, but they can not surpass the Thunder Pool, they can not shake anything...

Seeing this scene, the innumerable devils and the tribes in the defensive array of the Devil's Samsung internal defense star have long been ignorant of how to speak.

At this time, the tops of the demons and royal families headed by the contemporary devil, Mo Wentian, gradually broke away from the petrochemical state.

Face to face, all of them are all looking stagnant, with a hesitation and sigh in the tone, revealing a deep incredible meaning...

"God, are we dreaming? A domain lord, to chase the immortal grotesque!"

"I haven't killed it yet. I have already killed two people in front. Is it a good one?"

"This is really a dog, and the old man suddenly has a feeling of doubt about life..."

"To be against the sky... No, this is clearly out of the sky, four immortal grotesque, two dead and one sleepy, it is incredible!"

"Do we want to go out and help? It's not a good idea to let the little friend of Chaohu chase it alone."

The last sentence is that the star lord of a demon group said that when the voice just fell, he felt that something was wrong. A demon of the royal family surrounded by the top, all turned to look at the past, one by one. Just like an idiot, let him blush immediately.

help?

Help the domain lord to chase the immortal grotesque... dare to have this kind of thinking, he is clearly the rhythm of the sky!

.....

It's only 20 million miles away from the Magic King's inner defense circle!

The flying scorpion, which has been escaping from the front, is no longer looking forward, but stays in this void, but the branch has been circling around, with its smart figure, with Ye Xuan in this void. .

It's useless to escape. With Ye Xuan's first-order cultivation as the strength, he is fully urging Shennong Ding. The speed has become more and more immortal. The veteran body can cross the limit of the void, and he will eventually be caught up.

Instead of this, it is better to leave behind and give up your life.

I have to say that the immortal grotesque is really extraordinary, and the flying scorpion can bring the front of the sky, indicating that their advantage in speed is absolutely obvious.

This immortal flying scorpion, its bloodline has reached the peak of this species, and the nine pairs of giant wings on the back are a sign.

Nine pairs of wings and wings, not only faster than the average immortal grotesque, the degree of flexibility is far more than!

Although the speed of Shennong Ding is fast, the volume is too large, and Ye Xuan's repairing power is really limited. The control is quite sturdy, and it is capable of rushing forward, and now it is in this immortal flying sky. After being in the air, I kept circling around in the void, and suddenly I couldn't help myself.

Speaking of flexibility, now he controls Shennong Ding to chase behind and compare with others, completely not an opponent.

Seeing this scene, Fei Tianyi was completely relieved.

The other party's means is indeed against the sky, but the innate Thunder Source to the treasure has not been brought up, but the golden wars that can stimulate the tide of Zijin Years, in this case of constantly changing their position, can not be sacrificed, forming deterrence.

Then, the plan of choosing to stay and killing the other party is basically half the success.

Although this kid has the medicine of Wang Ding Ding's smog and fog to protect the whole body, but Feitian 有着 has a strong confidence in the poisonous mist secreted by himself. He firmly believes that as long as the concentration of toxic fog in this imaginary air reaches a certain level, even because of the drug Wang Dingwei Can be protected because of the fact that it is impossible to directly poison the other party.

But let it be slightly affected, the state is degraded, or it can be done.

This alone is enough.

At that time, the other party's state is wrong, as an immortal old monster, you can shoot at any time, kill and kill!

These thoughts flashed through my mind, and Feitian immediately sneered, and then hesitated. The poisonous sacs, which had already been fully activated in the body, were fully opened in a moment, and a black-green scorpion virus was scattered along the surface of his body. Numerous poisonous holes, slowly and continuously began to release outward.

In this process, the shape of Feitianyu has not stopped for a while, and it has always maintained a high-speed movement, but it is not far away. It is just behind the leaves of Ye Xuan in this void, because this is the only way The toxic mist released can be in this void, and the concentration is getting higher and higher!

"hiss!"

"hiss....."

As the black and green poisonous mist in the flying scorpion slowly spurted out, in the void in the shape of its body, there was a dense, rainy humming sound, very weak, but it was strange. It's horrifying.

Ye Xuan fixed his eyes, the scalp was numb, this fog poison, even the universe void can corrode, too poisonous, this is clearly the rhythm of the sky...

Chapter 3989: Devouring and refining

"hiss!"

"hiss....."

The faint noise came, and Ye Xuan fixed his eyes, and suddenly the scalp was numb. This fog poisoning even corroded the universe, and the black and green poisonous mist in the flying scorpion slowly spurted out. The emptiness of the body was swept through the emptiness of the rain.

Very faint, but it is strange and horrifying, it is these abnormal sounds that have attracted his attention.

For poison, the most profound thing in Ye Xuan's impression is the immortal poison. Today, the third cosmic zombie ravaged by the two camps of the Terran is still the product of the immortal poison.

The kind of singularity comes from a horrible treasure called the undead pearl. At the bottom of Shennong Ding, there is still a small closed cave filled with a perfect undead.

In addition, there are six drops of venom in the hands of Ye Xuan in the mixture of immortality and allergic sources.

These two things are the poisonous things in Ye Xuan's hands. Even so, the undead and the evil source are not afraid of this kind of power that can corrode the universe.

This is not to say that the toxicity of the two poisons is weak. On the contrary, whether it is the undead or the evil venom, it is definitely the supreme thing, and the outside world is rare.

However, the poisonous mist emitted from the body of this immortal flying scorpion is obviously not low in quality. Even if it is not comparable to the immortal poison and the evil venom, it is not far behind in some respects. It is.

This is definitely the third of all the poisons that Ye Xuan has seen since entering the starry environment.

Although Feitianyu is not a powerful species, this flying scorpion has not only cultivated its strength to reach an immortality, but the level of blood has evolved to its peak, and nine pairs of wings have been born on the back.

Just like a fox, the ordinary fox is only one tail. If it can grow nine tails, it is the blood-tailed fox, and the blood is suddenly changed, becoming another species.

This is also true of the flying scorpion with nine pairs of scorpion wings. In fact, the degree of blood evolution of his present is no longer a creature of the flying scorpion. It may be more appropriate to call it the scorio.

For this kind of blood evolution to the level of life has turned into the existence of another species, Ye Xuan heart is full of taboos, especially the horrible poison fog that diffuses in his body, even the universe void can corrode, Ye Xuan sees the eyelids They all jumped wildly.

Just as he hesitated to deal with the next step, Shennong Ding at the foot suddenly trembled slightly, revealing a clear sense of excitement. This Ding Ye Xuan has already refining and refining, and his mind is connected with each other. After a sigh of relief, I quickly realized that I was overjoyed.

This is really too unexpected. He is having a headache. How to deal with this strange poisonous mist that can even corrode the universe. I didn't expect Shennong Ding to give a hint directly... This poisonous mist, Shennong Ding can not only swallow, Refining and refining, even just need it!

Is there any hesitation about this? Definitely a good thing!

Shennong Ding is not an ordinary wild treasure, but a time-heavy device. It can make it all necessary, and the resources that give hints with excitement are absolutely extraordinary.

Ye Xuan instantly cut off the evolution of this bloodline to the peak, and has become the idea of another species of flying scorpion to kill on the spot.

Since the strange poisonous mist sprayed from the other side is beneficial to Shennong Ding, it should be captured and imprisoned in the bottom of the central volcano in the inner space of Shennong Ding. As a cow, it will be venomous for a long time.

After the decision, Ye Xuan immediately had an action. During the wave, Shen Ding's tripod was instantly revealed to be a sucking force, and began to absorb the strange mist of the outside world.

However, in order to prevent the abnormality of being discovered by the flying scorpion that is emitting the poisonous mist, Ye Xuan did not dare to swallow the sea directly, but slowly...

All the inhaled poisonous mist in Shennong Ding was the first time that Ye Xuan promoted the field power of Shennong Ding and started refining.

At the same time, he is also paying close attention to this process, because for why Shennong Ding needs to swallow this strange poisonous fog, Ye Xuan is also extremely curious and has his own guess.

The final result made him very excited, and the facts were in line with his guess.

The reason why Shennong Ding needs such a strange poisonous mist is that the Shennong Flame in the volcanic flame pool of the Dingzhong Central Region needs to be swallowed up to evolve itself.

That is to say, now the evolution of the five-color flame of the Shennong fire, it is very likely to swallow this strange poisonous mist, and thus directly re-advanced, jumped into a six-color flame.

If this is the case, the more color of this fireworks will be the same as this strange poisonous mist. It is black and green. As for its power, there is almost no suspense. It must be the effect of adding a poisonous flame. Attributes!

From the five-color flame to the six-color flame, the power will be greatly improved, and this time the Shennong fire will have a more toxic flame attribute, and this poisonous flame can corrode even the universe void... They are destined to complete the evolution of the Shennong six-color flame, in terms of power, will be better than ever.

For Ye Xuan, this is definitely an unexpected surprise.

But now all this is just a promise, not much different from the so-called Mirror Flower Moon, because the five-color flame is only just consuming and refining this strange mist from the flying scorpion, and it is not really The degree of evolution to the six-color flame.

Although everything is already going on, but God knows that to really evolve into a six-color flame, how many such strange mists will be swallowed and refining?

If the amount of need is huge, this time will definitely drag on for a long time, and there is another problem in front of you. That is, if you are in front of you with your own flying scorpion, you will realize that it is wrong, you will run again, and let him I have successfully taken it away... Didn't I want to cry and find it?

Realizing this problem, Ye Xuan suddenly became nervous. In any case, this flying scorpion must not be allowed to run. Not only can it not run, but it can not be killed. It is his only choice.

One thought of this, Ye Xuan suddenly sighed under his heart, feeling that his head was in a big circle in an instant, this is an immortal blame, if it is just killing, he can still do it in the case of means. Yes, but to talk about live catching...

Keke, this is really a bit too much to look down on.

The immortal grotesque, even if it is weak, has a limit. Under the premise of one heart escape, it is still alive and kicked by a star-space powerhouse in a domain... This situation is simply unscientific!

"There is no way, I can only take a chance to try it... Old guy, a little stronger, greedy, don't run around!"

In a soft voice, Ye Xuan's thoughts turned, and the speed of Shennong Ding was slowed down a little...

Chapter 3990: Old monsters think more

The reason why Suddenly slowed down the speed of Shennong Ding's attack in the rear, Ye Xuan wanted to use the weak way to lure the flying scorpion to come forward and attack himself. When the distance is near, he has a chance. It is also possible to motivate Shennong Ding's domain power and directly to fly the sky into the space.

If this can be done, the other side will not escape, and directly trapped it in the volcanic mountain of the central area of the Dingnai space, as long as the strength of this flying scorpion has not yet reached the inside of Shennong Ding When the field field collapsed, he would never escape.

In Ye Xuan's view, the feasibility of this plan is very high, because he has already seen that the other party suddenly no longer overlooks, but stays in this void, while carrying his own circles, while releasing the strangeness in the body. Poisonous fog...

The ultimate goal is to use these strange toxic fog to calculate yourself!

After all, in addition to the devil's emperor Mo Zhenfeng was originally the existence of the other party's existence, the horror means that Ye Xuan showed in this battle, such as the years of war that can stimulate the purple gold tide, congenital Leiyuan Zhibao Leidi Yin, as well as the bombardment of the black dragon magic tiger Zijin Leiyuanzhu and so on.

These things can all be treasures and resources that can pose a life threat to the existence of the immortal level. It is absolutely impossible to say that the flying sky is not tempted.

As long as Ye Xuan can make him believe that he has already had the murder of the poisonous fog, he is already in a state of poor state. He is in the front circle, but from time to time to look back at the situation, more than 90% may not take the opportunity to escape. It is a turn to harvest everything...

For Ye Xuan, this is also a kind of gambling. He gambles that the other party will not go. Otherwise, once the flying sky takes advantage of this opportunity to directly tear the void, and he will go, he will really cry. I am looking for it!

After a sudden bite, after the decision, Ye Xuan even kept the action, and kept the Shennong Ding behind the flying fast, the speed suddenly slowed down, and also slightly shook a few times.

However, in the process, the process of Shennong Ding's absorption of phlegm and toxic mist has not stopped. The concentration of toxic mist in the vain air has reached a certain level, so it can not be wasted.

Moreover, the absorption of this initiative, in the eyes of the other party, may be exactly what he hopes to see, and most of them will mistakenly believe that this is the effect of the squalor of the poisonous fog.

"Well? So fast in the move?"

Sure enough, with the speed of Shennong Ding suddenly slowing down, the flying scorpion in front of the twisted head suddenly flashed a secluded man, did not immediately turn back, but kept this position, carefully looked Ye Xuan, who is half hidden in the fog of Shennong Ding Ding.

Like peeping, sputum in the haze, giving people a very uncomfortable feeling.

Ye Xuan's heart sighs, and from this kind of shackles, he can roughly analyze the temperament of this flying scorpion. It is definitely a kind of suspicious one. He wants to deliberately show weakness and entice the enemy, but it is difficult to succeed!

Even if the other party generally believes in the state of Ye Xuan, it is indeed because of the influence of this strange poisonous fog, and thus fell into a downturn, but with his suspicious temperament, even if it is close to harvesting benefits, this flying scorpion is absolutely impossible. It's easy to get close.

It is highly probable that the other party will first use certain means to conduct temptations, such as the use of safe distances, the use of magical powers for bombing, etc...

In this case, Ye Xuan has grown up to the present and has seen too many, so just relying on one other's eyes, he can basically analyze the scene that will follow.

This is really a dog.

If the other party is so cautious, it is necessary to use a safe distance to display Ye Xuan after the bombing and then approach, is it still hard to resist?

Not to mention the bombing, it was bombarded by the other side, Ye Xuan is not willing!

Obviously, this plan has been aborted. Although it is feasible, the other person's character is too cautious and suspicious, and it is destined that there is no possibility of success.

Just as Ye Xuan was depressed, there was a familiar system prompt in his mind. He was asking whether Ye Xuan immediately absorbed this strange poisonous mist. He said that it is of great benefit to the quenching body, and the effect goes beyond the \*\*\*\* ant. Hell ant fluid secreted by the family.

However, after all, it is a poisonous mist, which cannot be directly absorbed into the body. It must be purified and purified by the five-color flame of Shennong Ding before it can be used!

"Since there is no way to lure the other side into the enemy, it can only be hung up behind him. By the way, it absorbs the poisonous mist as much as possible. In short, he must not let him run anyway..."

Secretly, Ye Xuan immediately gave up the previous plan, and he decided to retreat to the next level, first to pay attention to the benefits before the eyes.

The quenching effect of this poisonous mist is better than that of the \*\*\*\* ants, and Ye Xuan is still used for the first time. The effect is sure to be better, and nature can't be missed.

With this in mind, even if he gave instructions to the body's phagocytic system to immediately devour, he did not directly swallow it from the surrounding air, but swallowed it from the volcanic mountain of the central area of Shennong Ding.

Previously, Shennong Ding had been absorbing the strange poisonous mist in the surrounding air, and some of it had been stored in the mountain volcano of the central volcano, and it was purified by the Shennong five-color flame, which was used directly.

At the same time, he also waved his hand and took out some of the scented lotion and three drops of evil source from the immortal world, and once again cut off the treasure of the purple gold emptiness rat from the ancient wilderness. Large pieces of meat, directly baked with Shennong five-color flame, swallowed up in a big mouth...

These kinds of resources have almost become the things that he must take before every breakthrough. They are all the top resources. Now, after swallowing into the abdomen, they are immediately injected into the body of Ye Xuan with the system that has just been swallowed. Purify the smoldering misty mist and mix it together.

Turned into a particularly hot energy, the limbs in Ye Xuan's body quickly flowed...

The sound of the chain is very fast, accompanied by the pain of tearing every inch of flesh and bones, and this time, Ye Xuan breaks through, and has to control Shennong Ding with the heart, restore the original speed, continue to hang in the sky.

I have to say that this time, this breakthrough is even more difficult than ever.

But in the same way, once the breakthrough is successful, Ye Xuan's own benefits will certainly be greater than ever, and it's the truth to pay a point.

At this moment, as he suddenly pulled out a lot of top resources and threw it into his mouth, followed by Shennong Ding, whose speed suddenly slowed down, the speed was restored in the blink of an eye... I stayed for a while, then I laughed.

This old monster obviously wants more...
