Chapter 399: Red lord

At the beginning, Ye Xuan almost hung up for a big lapis lazuli. Now, there is a huge cave house made of lapis lazuli, which is incredible.

Ye Xuan saw the money open, immediately stabbed a sword against the wall, but was bounced back!

"Sure enough, there is a strong defensive array, and the people who built this big hole house are at least the masters of the temperament..."

Ye Xuan heart guessed.

He looked around and found that there is only one way to go ahead, so he can only go straight.

He carefully walked for a while and found a big stone monument.

"Later, I am the lord of the red smelt, I left a gold corpse in the Dongfu, and left the control method. If it is a good person, please pass on my corpse and inherit it!"

This is the record on this great stone tablet.

"Red lord?"

Ye Xuan blinked and was confused.

However, as can be seen from the name, this life should be a lord of the Luosha domain, and is proficient in smelting.

"If you smelt a corpse, you don't know whether it is a human body or a corpse!"

Ye Xuan has some doubts in his heart.

If it is a human corpse, then he can not swallow, if it is a corpse, then this smelting Dongfu is a good upgrade for him.

After the stone tablet, there is a gate that has been pushed open. Obviously, the forces of the Quartet have already entered.

Ye Xuan silently approached the gate, glanced at it and found four roads.

"Four roads, the forces of the Quartet, should be searching for treasures separately."

Ye Xuan thought in his heart.

"Hey!"

At this moment, suddenly a crisp sound, shocked him to shrink.

He turned his head and looked at it, and found that two people with bronze armor appeared in the distance.

No, it can't be said to be a human being. It can only be said to be a humanoid creature. It has two sharp scorpions.

"White wind?"

Ye Xuan eyes a glimpse.

The two armor squatted back, and the two sharp-edged scorpions exude a fascinating light, and the strength is unknown.

There is only one stone monument here, and where are the two copper bodies coming from?

Ye Xuan looked up subconsciously and found that there were many holes in the ceiling of the 100 meters like a hive.

These two copper corpses fell from the ceiling!

The next moment, Ye Xuan also found that the footsteps here are messy, it should have been a battle.

He calculated it carefully and found that the hole was at least 150, which means that he should have lost more than one hundred copper bodies.

"At the same time, there is no power of the dragons. I don't know what the realm is."

Ye Xuan's heart was condensed, watching the two smoldering copper bodies. Obviously, the strength of these two copper corpses must be stronger than before.

"Snapped!"

At this moment, the two copper bodies suddenly took a step, and they immediately waved their long squats toward Ye Xuan.

So fast!

This speed is already more than the power of ninety dragons!

Originally fearful, ready to use the violent Ye Xuan of Beastmaster, after seeing the speed of these two copper bodies, the taut nerves are also stretched.

The power of the ninety dragons, he can easily cope!

"Eight ridiculous dragon sword, now!"

He condensed out the eight ridiculous dragon swords and greeted them.

Ye Xuan has only eighty-five dragons, but under the agility increase, the speed has exceeded one hundred dragons, and it is easy to deal with these two copper bodies.

But what makes him incredible is that these two yin winds were refining into copper corpses, not only the strength, but also the defense.

Fortunately, they are still beasts, so the blood of the Beastmaster has a bonus effect.

They can't escape the fate of being killed by Ye Xuan.

Ye Xuan took the body up. Although the two bronze bodies had been removed from the sacred beast, his body was able to be used by Ye Xuan.

"Okay, that's great. It's a treasure. The violent body needs of my Beastmaster can be solved."

Ye Xuan Le's mouth was smiling.

Two copper corpses have been resolved, and he has again focused on the ceiling.

At this point, there are hundreds of intact nests on the ceiling. If you get these copper bodies down, then the body is enough.

"call out!"

Ye Xuan's ruling on the dragon went up, and the sniper slammed into the ceiling, but was shaken by a powerful energy.

It seems that there are also arrays on the ceiling.

However, Ye Xuan was not reconciled, and he took the Megatron sky to try to destroy this method. However, he spent a full ten minutes and had no effect at all.

He gave up.

However, his approach was so great that the forces of the four parties heard it.

"Strange, how is it like the entrance?"

"You got it wrong. We are on the left and the hate on the right. It must be the battle of hating the sword."

"Come on, do you forget what happened on the stone tablet, a gold corpse king."

"It's terrible. I didn't expect that in addition to the two silver corpses that are comparable to the first-class temperament, the red lord lord actually refines a stronger gold corpse, if you let us get the silver pheasant, then this 赤木领, is my silver feather palace!"

The four forces are crazy, and the pace is extremely fast.

Two sacred silver corpses, they all heard that although there are only one hundred and thirty dragons, they are also very good.

And the gold corpse king, certainly stronger than the silver corpse, may have reached the second order of the defensive, the most important thing is that the red lord lord also left the method of controlling the golden corpse king, this is a huge wealth.

You must know that the current lord of the Redwoods is only the power of one hundred and ninety dragons.

.....

At this time, at the gate of the Sakjeong-dong.

"Oh, really can't be destroyed, or go to Dongfu."

Ye Xuan shook his head and sighed. After seeing a hope, he aborted.

In desperation, he had to step into the Red House.

This time, he has to be very careful, because even a copper corpse has the power of ninety dragons, so how strong is the gold corpse king?

The strength of his eighty-five dragons, whether he can find the Golden King is still a problem.

After entering the Chiling Cave House, Ye Xuan was in the road.

One on the left, one on the right, one on the upper left and one on the upper right. Ye Xuan took out a weapon and turned it. The tip of the sword pointed to the left.

"Just left..."

Ye Xuan did not think about it, and entered the channel on the left.

Four roads, the forces of the four parties, unless they have a map, they will not gather together, it must be scattered exploration.

The road chosen by Ye Xuan is the direction of Yin Yu Palace.

He moved very carefully, although there were treasures in front of him, but it was also dangerous.

This passage is very wide and long, and there seems to be no danger on the surface. However, Ye Xuan looked up and saw that there were many holes in the ceiling. That is to say, the forces in front of him had already encountered the body of the Red Cave House.
