Chapter 3991: More poisonous

"What is the situation? Isn't it just being poisoned? Is it swollen and blinking? Is this the more poisonous rhythm?"

Seeing that Ye Xuan's weak state only lasted for a few breaths, it quickly recovered. Even Wang Ding, the medicine that suddenly slowed down, was now speeding up again and hung back behind him.

The flying scorpion's huge ventral eye suddenly glimmered, and the mouth was muttering to himself, analyzing the reason for the strange scene in front of him...

"The scene just was definitely not a fake. Otherwise, if this kid wants to move his mind, how can he give up so quickly and immediately restore his state and speed?"

"It seems that the poisonous mist is still effective for him. Even if his body shape is protected by the nine-colored fog that the medicine king is smashing, it is still affected to some extent... The sudden state is not good, it is the most good proof! "

"However, this is in the hands of the top guy too many resources, if not wrong, then, Inter had just been taken out Conspire, a bone brain into the mouth of healing things, including previously appeared in the star field source of all evil offerings furnace emulsion, it seems there is a more deep breath furnace emulsion drops more polished Could an evil source solution? "

"Hiss! Damn, this kid Wan Road too Guards, has actually got was the legendary source of all evil!"

"There are obviously grilled chunks that had flesh and blood, treasure gas soaring, it is definitely a breath of ancient mighty presence of quasi-shortage level damn, actually quasi-bushel shortage mighty ancient remains of the blood of meat treasure ! "

When it comes to this, the eyes of Feitianyu have become more and more bright, and the shining light shines through the **** of green oil, which is clearly the rhythm of the heart to the extreme.

Now, he simply can't wait to turn around and immediately smack Ye Xuan from outside to inside to smear it again.

It's too irritating, the small domain exists in the main territory, just like the ants, but every thing that comes out, whether it is a treasure or a resource, is actually an immortal old man, he is blind, but not at all. What you have, this is simply no reason!

For a moment, Fei Tianyi stayed behind to find ways to poison the other side, in order to get all the treasures and resources of his body, suddenly more determined.

On the one hand, I saw that Ye Xuan had more top treasures and resources in his hands. On the other hand, it was because Ye Xuan was poisoned in a short period of time and he had to get out immediately. A large number of top-level resource-removing drugs of this order have been restored.

This shows that the impact and effect of his own poisonous mist on the other side is still very impressive. In this case, the possibility of poisoning is extremely great, and it is unreasonable to not fight it!

"No, we must increase the amount of poisonous mist. The top resources and the various treasures of this kid are absolutely many. If the poisonous fog is not enough, once it is in a bad state, he will immediately swallow the heavens. Bao is going to recover, and if he continues to do so, wouldn't he have to be eaten up by him?"

In the muttering, Fei Tianyi nodded frequently and felt deeply: "These top resources and heavenly treasures are all things of the deity. Soon after, they will change hands. Can you all be swallowed up by him? It is too bad." Can't be so cheap for him..."

"And if the amount of poisonous mist is increased, the concentration of the poisonous mist will rise to a certain extent, and the erosion of the true body of the konjac will also increase as the water rises."

"This is the same as the principle of the next powerful medicine. A dose of fierce medicine goes down, and this guy is immediately poisoned on the spot. Even the top resources and the heavenly treasures are released, and there is no chance of recovery."

"So, not only saved the resources of the old man's resources, but also ended the battle as soon as possible, so as not to drag the time too long. If the ancestors of the devil's ethnic group appeared, it would be troublesome..."

One thought of this, Fei Tianyan eyelids jumped, and then did not hesitate, immediately increased the body's poisonous fog, the amount and speed of delivery, at least a few times.

"hiss!"

"Hey..."

As more and more toxic mists are dispersed from the body at a faster rate, the squeaky snoring of the flying scorpion is more dense and intense. It is.

The flying scorpion is still not far away. He has been chasing behind him at the corner of the emptiness, and all the strange poisonous mist that has spread from his body has not spread.

All stayed in this corner of the void, gradually, because the concentration of toxic fog is getting higher and higher, so that this corner of the void is darker, as if suddenly a large group of ink blackened like it!

All this, in the middle of Ye Xuan, let him be overjoyed, but did not show up on his face, screaming and making a fortune, secretly urging Shennong Ding's internal domain power, from the surrounding air to absorb the speed of the mist and fog The progress... is also faster!

Time invisibly passed, Ye Xuan urged Shennong Ding, and always bite tightly behind the flying scorpion, unconsciously, more than ten minutes passed.

In this process, the tens of thousands of feet of the konjac in the real body, there have been violent shackles and chain noises. In the end, the current party has been taking Ye Xuan's flying scorpion in the circle again. Ye Xuan's body blasted two huge chains of roaring sounds.

The two extremely strong potential chains were finally completely broken. At this time, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the third stage of the star main!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the third level of the star main!"

It was another two consecutive Jin, the effect of this strange poison fog was really extraordinary. After letting Ye Xuan enter the star territory, he repaired the strength with only one quenching, and once again ushered in a surprising two consecutive Jin !

Before he was in the first step of the Lord's Star, the strength of the ancient konjac bloodline was six steps.

Once you show the konjac and change your mind, and reach the fourth change, you will become a domain lord in an instant.

Now, although the strength of the deity of the deity has once again broken through and reached the third-order of the star master, then after the activation of the blood of the konjac, according to his previous calculations, the repair of the three-headed six-armed Taikoo konjac state should be the star of the eight Order.

Once you enter the fourth change of the konjac, its peak strength will reach the third level of the domain's main territory. This is the initial peak of the domain's main territory. Then there is a small-order breakthrough that can enter the middle of the domain!

In fact, it is true. Today, Ye Xuan is the konjac of the three heads and six arms, and is in the state of the fourth change of the konjac. Therefore, with this breakthrough, the breath in his body rises rapidly, in the blink of an eye. Then, the former domain master first step, soared to the current third-order domain master.

All of this, just happened to be seen in the eyes of the flying sky, the old guy stunned, on the spot, he opened his mouth, his face was dull...

Chapter 3992: Six-color flame

"What's the situation? Why didn't you get poisoned, but it's still more fierce?"

When looking around, Feitianyu just happened to repair the strength of Ye Xuan's body. From the previous stage of the domain, he climbed up to the third-order scene of the domain master. The old guy was on the spot.

Zhang Da mouth is full of dull color, the whole brain is half of the water at the moment is the flour... A little bit of brains, suddenly became a paste!

"Damn, actually still hidden and repaired..."

Even if he is killed, it is absolutely impossible to think about Ye Xuan, which is just a breakthrough. It's too horrified. A genie of the genus of the genus, while chasing an immortal grotesque, still has time to chase breakthrough.....

This is really a blow to people, and it is impossible to accept.

Therefore, after some sluggishness, Fei Tianyi quickly determined that Ye Xuan had retained his strength before, but now, due to the erosion of the poisonous fog, the state is almost unable to hold back, so the part of the seal will be solved. Sealed!

This is also the best explanation for this strange state. Compared with Ye Xuan, it is a breakthrough in the battle, which is obviously more credible and more acceptable.

I thought about it, the old guy just hung to the heart of the blind man's eyes, and immediately fell again. The smirk on his face became more and more stunned: "How about hiding the repairs? This time, the hidden repairs are unblocked. It can only show that this kid is almost unable to hold back, so just right, and then increase the intensity of the application of poisonous fog, I will soon be able to win it and end the battle!"

As soon as I read this, Fei Tianyi suddenly revived the spirit and fully urged the numerous poisonous sacs in the body. In an instant, the strange poisonous mist that spewed out from the huge pores of his huge body was suddenly more.

This kind of poisonous mist is the same as that of the **** ant liquid secreted by the **** ants in the case of flying scorpion. It is a kind of accumulation of blood talent.

It can be said that the more you cast, the greater the impact on yourself. If all of them are dumped, the flying scorpion will not fall on the spot. After all, the numerous poisonous sacs in the body will slowly secrete the toxic mist. And saved in a poison capsule.

However, if all of them are dumped in a short period of time, the consequences are still quite serious. The image of the metaphor is actually similar to being squeezed into a woman's body.

Absolutely legs and feet are soft, you have to make up a good meal, rest for a while, can recover, heavy and dragons and fierce...

For this, Feitianyu is naturally well-informed, but now he is like a hooked fish, and can't stop.

At the beginning, he first put a small amount of poisonous mist, and then added a large amount. Until now, seeing each other is almost unstoppable, and he tried his best to dispose of it regardless of the consequences. He only asked for a last minute, and the other party was short-lived. Completely poisoned inside!

In his view, after all the poisonous mists in the body's numerous poisonous sacs have been put out, they will fall into a period of weakness, but that doesn't matter.

As long as he can bite behind him, at this time, the abominable boy who is already supporting the cockroach is thoroughly poisoned. At that time, his manipulation is reduced. The medicine Wang Ding, which is like a dog skin plaster sticking to the back and not hanging out, will naturally stop.

At that time, he only needs to turn around and go back a short way, and use the means of magical power to smash the opponent who has been poisoned and lost consciousness through a safe distance. The next step is the harvest season...

As long as you quickly find out the treasures and resources inside and outside the body, you may be able to swallow a part of the spot, and you can still recover some of the details. At that time, even if the

ancestors of the devil's group descended, one-on-one Even if it is not good, it can guarantee the whole body and retreat!

I have to say that the abacus of the old monsters is really squeaky, and all aspects are considered and calculated. It is simply exhaustive and comprehensive, and it is extremely perfect and perfect.

But he couldn't think of it anyway. In fact, he was wrong from the beginning, which is doomed to the subsequent deductions and speculations, all of which run counter to one another...

"hiss!"

"Hey..."

At this moment, with the disregard of the flying scorpion, all the toxic mists left in the numerous poisonous sacs in the body are exhausted, and they are all excreted in the body through the numerous pores of the huge real body.

The imaginary sounds that had been extremely dense in the surrounding emptiness were immediately re-emerged.

This feeling is like a huge oil pan. The oil inside has already burned, but the sky suddenly bursts with drizzle. Countless fine mist falls on the hot oil surface, splashing countless scalp and numbness. The sound of screaming...

Even, even this corner of the void, in a short period of time, because the concentration of the smog mist is too high, it turned into a dark, it is simply not reaching out.

If it is not Ye Xuan or Feitian, it is a strong star who has the knowledge of the stars. At this time, in such an environment of darkness and darkness, fear that it is fundamentally even the vision will be fully restricted.

However, all of this is true for Ye Xuan, but it is no different from the huge surprise in the sky. He is not high enough in the vain air around the sky. Although he has forged the body, the breakthrough has

ended. However, the five-color flame of Shennong Ding is still in the process of evolution, and it quickly absorbs the strange mist of the surrounding air.

The current Ye Xuan, the most worried is that Feitian sees the cockroaches and stops the release of toxins in the body. If that is the case, the evolutionary opportunity of the five-color flame will undoubtedly die in the middle, and the loss is too great.

At the moment, all the worries are no longer, and I don't know if the other's brain has entered the water. I am obviously using this poisonous fog to quench the body, and on the spot, I have achieved great benefits.

He is still increasing the intensity of the poisonous fog, as if the fear of self-sufficiency is not enough, so it is estimated that there is no one.

The heart is so emotional, Ye Xuan suddenly has a heart, the gods subconsciously extended to the feet, did not enter the Shennong Ding's tripod, directly into the volcanic mountain belly of the Ding Nei space.

Just a moment ago, he suddenly gave birth to a feeling of blessing to the heart. It seems that Shennong Ding at the foot became different instantly, and the connection with his heart was clearer and more vivid.

It is very likely that the Shennong five-color flame has finally completed its evolution and is promoted to the sign of the six-color flame!

With such a strong expectation, Ye Xuan entered the volcano of the central area with a glimpse of the gods, and only one glance, he was excited.

In the line of sight, the Shennong flame pool at the bottom of the volcano in the central domain has already set off the stormy waves formed by the infinite flames, with joy, excitement and excitement.

And the huge flames of the road, like the waves, the color of the flames, there are six colors...

Chapter 3993: This king is also playing with poison

The six-color flame finally became!

At this point, the power of Shennong Ding rose again, and the extra color, which happens to be black, represents the poisonous flame property, and the Shennong six-color flame has the attribute of poisonous flame.

This is definitely a huge breakthrough.

There have been unexpected changes in the roasting of flesh and blood.

Previously, Ye Xuan grilled the flesh-and-blood food with Shennong's different flames, which would enhance the effect of the baked Baoxuebao meat and purify the condensate.

But now, as long as he is willing, once again baked with the current Shennong six-color flame, it will be completely just to focus on the effect of the poisonous flame.

The flesh-and-blood food that is baked in this way will not only improve the quality, but will also have a strange poison, and the surface looks completely abnormal. It is still golden and oily, still smelling different, still letting people look at it and smelling it. move.....

Even if you swallow it, you won't feel abnormal!

But until all the swallowed Baoxuebao meat is turned into pure energy in the body, the toxicity of the poisonous flame will show up when it flows through the limbs.

At this level, even if it is not too much to use, even if it is not poisoned on the spot, I am afraid that I have to take off a few layers of skin!

Of course, this poisonous flame grilled flesh-and-blood food can only be used by the enemy, and the chances of using it will not be too much, but once it is encountered, the effect must be unexpectedly surprising!

This can almost be regarded as a backup means to cope with special situations. It is definitely a sinister supremacy, no suspense!

And this is only a part of the power of Shennong Six-Color Flame. There are obviously many others. The Shennong Flames have nine colors.

One to three colors are the initial flames.

Four to six colors are medium-term flames.

Seven to nine colors are late flames.

Nowadays, Shennongyan has reached the peak of the mid-term. Once again, it will enter the later stage, and the meaning is absolutely significant. The benefits of reality are absolutely many, but Ye Xuan now has no time to explore it one by one. There is a flying scorpion that is suspected of entering the water, waiting for him to cook!

After a short period of excitement and excitement, Ye Xuan quickly adjusted his mood again, and then turned to the sky in front of the sky in front of the sky.

Today is different from the past, although only a short period of time is less than half an hour, but whether it is Ye Xuan himself or Shennong Ding at his feet, he has quietly completed a breakthrough and evolution.

However, the flying scorpion in front of him has been in a sharp drain... Although he has not been attacked, he has accumulated a large number of poisonous mists in his body, and now he has cast a dozen of them in a short period of time. Nine, there are not many, this is also a kind of consumption.

And it is still a violent consumption in the short term.

Under the circumstance, the disparity and gap between the two sides have been manifested invisibly. It can be said that the current Ye Xuan is extremely confident in the capture of flying scorio, and it is said that it is not too much.

But before that, there were still a lot of strange black fog left in the void, but it must be absorbed first. This poisonous fog is rare. After passing this village, there is no such store. Ye Xuan decided to use Shennong Ding. Expand your efforts, concentrate the sulphur, and store it for future use!

One thought of this, Ye Xuan even if he fully promoted the field power of Shennong Ding, and then did not retain it, launched a speed, completely let go, and seized the strange poisonous mist remaining in the surrounding void.

"hiss....."

In this moment, in the huge Dingkou of Shennong Ding, there is a powerful and powerful force that can be called awe-inspiring. The strange poisonous mist left in the void around the sky is slamming loudly, and it is like being powerful in an instant. The tornado **** in general, and at a very fast speed, it comes to the Dingkou of Shennong Ding.

In just a short half of the time, Dingkou's upper part is convenient to have a horrible vortex formed by a smashing mist.

The flying scorpion in the sky in front of the sky just turned around at this moment. When I saw this strange scene, my mind was chaotic again in a moment, and I was astonished as if I had just been thundered: "This... this kid is crazy? Not enough." Is it fast? Is it still whale?

The voices just fell, and surrounded by a million square miles of emptiness, it is no longer difficult to see the existence of a strange mist, a short breath time, all the strange poisonous mist, all inhaled Shennong Ding inside.

If the Shennong six colors have not been evolved before, this scene is absolutely impossible. Even if Ye Xuan does not care about the flying scorpion in front of him, it will drive Shennong Ding to fully absorb, at least five or six breaths.

But now, the speed has increased several times, and it is enough to see that this time, after the evolution of the Shennong Flames to the six-color flame, Shennong Ding's internal domain power, climbing range is amazing.

What is even more amazing is the speed of its condensing, almost in the next moment when these strange poisonous mists are completely exhausted. In the volcanic mountain of the central area of Shennong Ding, there are eighteen drops of black and green liquid, each drop. They only refer to the size of the belly, but they reveal a heart-rending sinister feeling.

This is precisely the condensation of a large amount of toxic mist absorbed by the appropriate talent, which was named as the scorpion venom by Ye Xuan.

"call out!"

During the meditation, eighteen small jade storage bottles were taken out by Ye Xuan from the immortal world. Each bottle contained a drop of scorpion venom. Then, these eighteen represent the venomous poisonous jade storage. The vial was directly received by Ye Xuan into the immortal world.

After completing all this, Ye Xuan was sighed with a sigh of relief and looked up at the flying sky in front of the sky. The pouting was Mimi's smile: "I don't think that there is such a big gain in chasing the poor, not only the self-hardening breakthrough. Even the flames of Baoding have evolved and changed. They also got 18 drops of scorpion venom out of thin air. This is really... thank you!"

"puff!"

"This is impossible. You are a singer, you are... you must be turned over soon, this is back in the light!"

Ye Xuan's words have not been finished yet. The flying sky in front of the sky has already spurted a black and green poisonous blood. The old guy has realized that something has happened, but he is not willing to accept it. unbelievable.

In his subconscious mind, there is a voice telling him that all this is true. The words spoken by the other party are all true and true. There is no falsehood at all... because only this can explain the previous and Everything that happens now.

More perfect than his previous analysis. It is extremely unreliable, and people can't believe it!

For this reason, sorrow and anger after the spurt of the moment, in the tone of the flying scorpion, clearly have a crying, and the immortal grotesque, has reached the point where the mind is about to be collapsed by the facts in front of the eyes.

"Nothing is impossible..."

Seeing the other side does not believe, Ye Xuan waved a hand: "I just forgot to tell you, this king ... is actually playing poison!"

Chapter 3994: Live catching an immortal

"puff!"

"You are killing... enchanting!"

Ye Xuan's words just fell, and the flying sky in front of the sky suddenly spewed out an old blood, and the anger and anger on his face was even stronger.

Playing with poison?

It's more to play with poison, can this be? However, the evolution of blood has reached the peak of this species. The poisonous mist sprayed in the body can corrode even the void of the universe.

This is absolutely enchanting!

However, when I thought that people were originally the existence of the four enchanting ones, I claimed to be the first person in the younger generation of the world...

Well, today's thing is planted, there is no way to continue, the other party's masters, can actually chase after the immortal grotesque, as well as leisure forging themselves and magic weapons, to make breakthroughs and upgrades, this is simply I stole the dog, and then stayed, I don't know how to die.

These thoughts flashed through my mind, and when I flew, I gave birth to the idea of walking away. I didn't hesitate to turn around and sneak away from the distance.

Moreover, as soon as he thought of the other's cultivation as a strength, he broke through again, and he was promoted to two small steps. His heart immediately panicked and subconsciously urged the body's strength.

"thump!"

In the next moment, Fei Tianyi only felt a tremor, and almost immediately planted a heel in the void. Before that, all the poisonous mist stored in all the poisonous sacs in the body was put in nine out of ten. Nowadays, there are too many deficits, some legs and feet. It is soft.

This is really a stealing of the chicken is not an anti-corrosion of a meter, the intestines that fly at this moment are quickly green, because this is going up, he wants to escape the pursuit of the other side, but it will be even more difficult. .

The fact is also true. It was in the next moment when the flying scorpion was in the void, and behind the leaves, Ye Xuan clearly with a sly voice, it was passed in the first time: "Hey, old guy, this is Is the leg soft? Is it too much?"

"puff....."

Feitian 蜈蚣 蜈蚣 蜈蚣 蜈蚣 , , , , 不 It's cheap and still sells the rhythm of 乖.

It's so hateful.

There are no ways for the cows to fly in the sky, but there is no way. All the anger and humiliation can only bite the teeth and vomit blood to the stomach. In any case, let's talk about the robbery in front of you, and stay in the green hills without having to burn. In the future, there will be revenge, resentment, and a lot of opportunities.

On the other hand, if it is fallen here, then you really have nothing to say...

When I think of it, his heart trembles, realizing how strict the situation is, no longer thinking about it, throwing everything behind his head, biting his teeth and doing his best, going straight to the front of the sky.

In the face of this scene, Ye Xuan is not in a hurry.

Previously, his cultivation was only in the first stage of the domain, and the power of Shennong Ding has not been upgraded. Once it is fully motivated, the speed has surpassed the flying front.

Nowadays, the first-order cultivation of his domain master has once again broken through and climbed to the third-order of the domain master. Even the power of Shennong Ding has changed from the five-color flame to the six-color flame, and there has been no small improvement.

The immortal grotesque in front of the front shot too much in the battle, the legs and legs are soft... In this case, Ye Xuan fully urged Shennong Ding, in terms of speed, it has already formed a crushing force against the other side.

"Old guy, you can't escape, don't be afraid, this king has already seen you, absolutely don't marry you, just want to catch alive!"

Although the six-color flame of Shennong Ding has been completed, it is estimated that there will be no need for the poisonous mist secreted by the flying scorpion, but this kind of thing is rare. The effect of the quenching body is better than that of the **** ant liquid, and this flying sky is in front of you. It is still the bloodline that has evolved to the peak of this species. It is estimated that it is difficult to find the second article in the world. He naturally refuses to kill it directly.

It has already been decided that after the live catching, it will be raised in Shennong Ding, and the long-term extraction of poisonous mist will be condensed into liquid, which will be preserved for emergency needs.

With this kind of thought, Ye Xuan fully urged Shennong Ding at the foot, turned into a mans, with a speed of at least 30% faster than the flying scorpion, whistling away...

The distance between the two is not too far away. Today's Shennong Ding is far faster than the previous one. In just a few dozen breaths, it has already reached the virtual sky about a million miles behind the sky. The latter is flying fast. I glanced at the ground and scared the soul to fly.

If this continues, there will be a few more breaths, and Shennong Ding will have to press on his back. At that time, there must be no door to heaven, fearing that it will really be caught.

"call....."

Just as Fei Tian's heart was anxious, considering whether to take the risk of a fight and directly tearing the void, when he walked away, there was a sudden whistling sound behind him, and it seemed to be getting closer.

Looking back subconsciously, the scene that caught the eye scared him to tremble on the spot.

Fire sea!

A huge sea of fire is roaring and whistling, and it is clearly spurred from the star of the great star behind it.

In general, the sea of fire, the flying scorpion was originally fearless, but the piece of the blazing sea that is now rapidly rushing out of the cover is obviously different. Each cluster of flames actually has six colors, which is strange and inexplicable.

Its power can be no doubt, absolutely terrible!

Because of the six colors, there is a kind of black, which is clearly a poisonous flame. In the vagueness, the flying sky seems to have a slightly familiar atmosphere from the black poisonous flame, which is secreted by his body. The smell of poisonous fog.

Obviously, this six-color flame has just swallowed the poisonous mist secreted by his body, and it has been evolved and transformed. Even the poisonous mist that he is proud of can swallow refinery and promote its fierceness... Do you need to say more about the power of mysterious six-color flame?

"call!"

The speed of the awning sea is so fast that it is horrible. After all, Shennong Ding urged all the power to spurt out. A short breath has been stopped in front of the flying scorpion, and then divided into two. The formation of the two skeletons.

The face of the flying scorpion suddenly changed abruptly. In the trembling of the body, it quickly stopped. When turning around, the whole heart had already sunk to the bottom.

For a while, the front and the left and right are all such strange flames, and behind them, a star-like giant Baoding is whistling, and the Dingkou is still smearing out. Hemp six-color flame.

In the blink of an eye, his body shape is about to the left and right, and there are all kinds of flames rolling in the air. It is actually wrapped in dumplings and wrapped in a strict.

Seeing this scene, Fei Tianyu was completely desperate, and his hair was screaming, full of unwillingness, and arrogant...

"Hey!"

"The enchanting savage bastard, the deity is actually caught by a domain lord ant... live!"

Chapter 3995: Reno

"Hey!"

"The enchanting savage bastard, the deity is actually caught by a domain lord ant... live!"

In the blink of an eye, they are trapped in the sea of fire. All of them are all in all directions. They are all six-colored flames with a rolling atmosphere. The atmosphere is so oppressive. This scene makes the flying scorpion completely desperate, and the hair is screaming, full of unwillingness and sorrow.

Ye Xuan has also stopped at this moment, and Shennong Ding, a huge star at the foot, is hung on the edge of this round ball of fire, watching coldly wrapped in six colors of fire, leaving only a little poor. Space for the flying scorpion.

With a sigh of relief, this is the answer: "Old guy, rest assured, as long as you perform well, contribute a little poisonous mist, the king promises, never treat you badly!"

"What? You really want to raise the deity as a cow, and extract venom for a long time?"

As soon as I heard the words of Ye Xuan, the flying sighs and trembles all over the body, and the immortal grotesques in the halls were actually swearing on the spot: "I%¥#..."

"Noisy!"

Ye Xuan's face sank and waved directly. The fire in front of him suddenly became agile. Wrapped in the sky, he quickly rushed to the Dingkou of Shennong Ding. He blinked into the space and entered the volcano in the central area. The flame pool fell.

"Booming..."

At the same time, the bottom of the mountain volcano in the central area of the Dingnei space, the mountain wall on one side also heard a loud rumbling sound. In the movement of Ye Xuan, a huge mountain wall cage appeared, full of Huge, just to accommodate the real body of the flying sky.

Soon, the raging sea of fire that rushed into the mountain's belly was like a long eye, and it broke into the cage of the mountain wall, and then passed through the mountain wall and poured into the rolling flame pool in the middle of the plain at the bottom of the volcano.

The flying scorpion, which was originally wrapped in this bonfire sea, was left alone in this mountain-walled cage specially tailored for him. No matter how he roared and struck, he could never break through. No!

"Roar!"

"Oh... the enchanting **** of the slaying, you put the deity out!"

In the blink of an eye, for the prisoners, the flying celestial sorrow and indignation of the immortal grotesque, the mood can not be settled, always roaring and rolling in the cage of the mountain.

In the process, some strange black poisonous mists spread out of their bodies subconsciously, drifting out, and unconsciously, they floated into another cage not far from the side.

In this cage of the mountain wall, the lions of the former lions who have become the slaves of Ye Xuan, the lions and lions, have been imprisoned.

However, the Lion Wanjin branch has always been in a coma. Although the injury is already good, the repair is only a little bit, which is no better than the ordinary lion-racial people. Last time, the lion was short of blood. Kim, the inadvertent inhalation of the body of the Reze Lingwu, this is equivalent to giving him a chance to break through the opportunity!

Since then, although he still stunned and squatted in the cage of the mountain wall at the bottom of the volcano in the central area, the body's repairing atmosphere is still weak and weak, but his body surface has several purple-gold lightnings from time to time. Lala has a telescopic throughput.

That's the same now.

For the loss of the Qiankun Doji, if a white paper-like lion Wanjin, its extremely short blood, just because of the last absorption of the Raytheon fog, is changing towards the blood and physique of some kind of Thunder property. .

At the moment, the transformation of this bloodline has not yet been completed. In this cage of the mountain wall where the lions are imprisoned, there is a strange mist of poisonous mist.

Moreover, the blood in his body is changing, just the need for a lot of energy to nourish, so, almost the natural reaction of the body, the stunned lion Wanjin body suddenly appeared a weak suction force, very The misty mist that floated into the cage was all absorbed along the pores of the body.

Although the amount is very weak, this process has obviously continued, because in the huge cage not far away, the flying scorpion that has been thundering has been poisoning.

An unconscious release, an unconscious absorption, a very small amount, but has never been interrupted, so that no one knows what will happen in the end...

.....

Before deciding to pursue the flying scorpion, Ye Xuan did not expect that this time chasing, can get such a big benefit, it is just like a good fortune!

Not only has its own cultivation strength once again broken through two small steps, the evolutionary path of life level has gone further, and even Shennong Ding's Shennong Flame has also produced a poisonous flame attribute, successfully evolving and transmuting. To the six-color flame.

Finally, I also got eighteen drops of scorpion venom, and a living immortal nine-day scorio!

It's just making a big profit.

With a sigh of relief, the incomparable mood was calmed down. Ye Xuan quickly mobilized Shennong Ding and turned around and headed for the Magic Emperor. After a short while, he came to the edge of the magical Samsung's inner defense circle.

At this time, outside the magical defense circle of the Emperor Samsung, there is still a emptiness of a thousand miles, surrounded by a purple and thunder sea with a raging horror.

At the top of the Leihai, there is a blue-green innate Leiyuan Zhibao, which is the Leidi seal of Ye Xuan.

In the middle of the Leihai, it was trapped in a colorful flame thunder.

If it's not Ye Xuan's special intention, this immortal color flame thunder, I'm afraid it's been smashed into fly ash, and it's because Ye Xuan has taken a fancy to the thunder attribute of this colorful flame thunder. It may be useful for the recovery of the ancient altar, and it is decided to catch it.

It's just that the old-aged electric mother has not yet awakened. For this colorful flame thunder, Ye Xuan does not know how to deal with it. Although it can promote Lei Di Yin's domain power, directly refine it, wipe out its consciousness, and put the body inside. A trace of the lightning properties of the blood is extracted, but whether it is really effective for the absurd electric mother, Ye Xuan has no bottom.

After some indulgence, he decided to first put the colorful flame thunder like the previous flying scorpion into the Shennong Ding, and shut the cage on the mountain wall in the volcano of the central area of Ding Nei.

After the awakening of the ancient mother, I will decide how to dispose of it!

After the decision, even if Ye Xuan wanted to shoot, it was at this time, and the accidental accident suddenly appeared.

In his mind, a familiar system sound was heard at this time: "Hey, congratulations to the host, and found that the Thunder property is living! Is it immediately refining into a slave?"

Reno?

What is this ghost thing?

After a glimpse, Ye Xuan even had a data search in the system's data repository, and soon there was a result. After some inspection, it was suddenly awkward.

It turned out that this kind of colorful flame thunder body has a trace of the blood of the wild repeller, and the ancient reptile is a kind of Lei Ling property creature born in the sea of Thunder, and the hunted thunderbug that Ye Xuan had previously captured. It is the same thing.

This kind of thing was born in the fog of Reze Ling. The latter is a special product unique to the vast congenital Leihai. Its attribute is congenital, and it is the innate scent of the infinite Thunder in the endless thunder sea. And every time, every fog of Reze is in need of time and tens of years to show...

Chapter 3996: Purple Golden Thunder

Ye Xuan had previously obtained a source of Thunder from the Starry Thunder, and the so-called Thunder origin is the Raytheon fog in the innate Thunder Sea. The thunderstorm consciousness that was born, Lei Ze Ling Mist, is this thunder Source-aware mother nest.

Not long ago, Ye Xuan's source of thunder was not yet born with a sense of intellect, just a worm without intelligence.

However, if it is allowed to grow up, as time goes by, it will eventually give birth to the ingenuity. By then, it will be the whole of this vast Thunder Sea!

The Leihai, which was born out of Leiling, will be able to send and receive freely. It will be vast and vast, and the starry sky will be endless. The hour can even condense into a thunderball, cross the void, lasing away, and the endless starry sea. It's the whole piece of Lei Haicheng!

Ye Xuan learned from the system database that the wild bird is a refined Thunder sea, a mature form of Lei Ling.

If Ye Xuan had captured the thunder and the source of this thunder has been able to grow up, in the end, it is possible to bring the whole piece of Lei Haicheng into a Thunder, or Thunder Dragon, or other forms... Different, but the essence is the same, for a whole piece of Thunder Ocean into a refined life!

The body of this colorful flame thunder, although only a glimpse of the blood of the ancient quebec remains, does not have the qualification to become a Ray Ling, but can be refining into a slave!

Rayling and Reno are different!

Lei Ling is a piece of Leihai born with wisdom and perfection. It can be said that Lei Ling is the Leihai. He is the master of Leihai and also Lei Hai himself.

However, Reno is different. Reno is a slave. He can command a thunder sea, but it is only a commander, but not the head of the Thunder Sea. On it, he has to be ordered by people!

The meaning of the slave is that a piece of Leihai, with the help of the slave, will be more comprehensive and thorough.

Just like Lei Diyin, although Ye Xuan has refining, but he is not a Thunder property after all, not even Lei Ling, he can urge Lei Di to print the same sea of thunder, but how much will always be oysters, like There is a layer of diaphragm, which can not fully promote the power of Lei Di Yin, to the utmost.

But if the refining of this colorful flame thunder, it will be collected as a slave, into the Lei Di Yin.

Then, when Ye Xuan once again sacrificed the Lei Di Yin, he would not have to bet too much on the Lei Di Yin, just give instructions directly to Reno, and there is the existence of Reno, the power of Lei Di Yin Exciting the ground more thoroughly, without any sense of resistance, to the fullest!

To figure this out, Ye Xuan even made a decision, refining the colorful flames, and collecting it as the emperor's reno!

The instructions were quickly issued, and the specific implementation did not require Ye Xuan to intervene. Lei Diyin could do all this autonomously.

"Booming..."

"boom!"

After receiving the instructions from Ye Xuan, this piece of the sky in front of the emptiness of the purple-golden Leihai, which is covered with a radius of a thousand miles, was suddenly thunderous and the sound was even more amazing.

This is the rhythm of Lei Di Yin's forthcoming condensing and refining the colorful flames to the emperor.

The color flame thunder trapped in the thunder sea was inductive, and realized that the big disaster was coming. When even screaming, the screaming again and again, even began to scream to Ye Xuan, only to leave one Life.....

"Hey!"

"Little friends are merciful, I... I will surrender!"

The immortal grotesque was forced to say the words of the willingness to surrender when confronted with the ants of a domain, and it must be said that this is too wrong.

However, the color flame thunder has no other choice. Although he is trapped in the Thunder Sea, he is sensitive to everything that happens outside.

In addition to the first **** fox scorpion that fell below the tide of Zijin years, the subsequent black scorpion and the flying scorpion, one was bombarded, one was captured, four immortal geeks came, in short By the time of an hour, there is only one person left.

In this case, what is the dignity of the so-called immortal monster?

It is a pity that even if he puts down his body and dignity, he personally exports to Ye Xuan to ask for mercy, but he only wants to survive, but the latter does not appreciate it at all. The refining of Lei Diyin has already begun. Ye Xuan has no intention to suspend this.

I didn't even have a single response. I was so immersed in the void on the side of the Thunder Sea, watching it all with a cold eye...

The colorful flame thunderbird was completely desperate, and the whistling sound became more and more fierce. In the end, it was cursing constantly, but Ye Xuan was still unmoved.

After just a few breaths, everything settled, and the breath of the colorful flames disappeared completely, but in Ye Xuan's perception, there was a pair in the majestic Miles of Leihai in front. I am very close to the breath.

Very pure and powerful, it has reached the end of the immortality, much stronger than the previous color flame thunder, which is clearly the effect after being tempered by Lei Diyin.

This consciousness is the blood of the ridiculous ancient bird in the body of the colorful flames. Nowadays, it is the emperor of Leidi.

As for the colorful flame thunder, it has already been smouldering, and the real body has been thoroughly refining, which has made this kind of sinus!

"Hey!"

A scream of screaming into the clouds sounded, and then, from the thunder sea in front, a figure emerged.

It is only a small size, it looks like an ordinary bird, but it has the color of purple gold, the spirit of the scorpion, and the thunder are disillusioned. From time to time, there is a purple-golden lightning in the squat.

This is Lei Ling, Emperor Yin Lei Ling, still the form of the Thunder!

As the body shape rushed out, the body shape was only a small size of the purple gold thunderbird suddenly hangs down, opened a small mouth, the next moment, the shape of the purple gold Leihai below the body shape, it turned into a The Thunder River, which was rushing to the sky, was swallowed into the belly by the Zijin Leique in just half a breath.

"Uh....."

A large piece of Leihai's squatting squad, the branch only made the purple-golden repeller of the size of the body smashed, and then it turned to the side of Ye Xuan and looked at it. A whisper, fluttering wings, like a breast swallowing...

This moment, Ye Xuan was really nervous.

After all, this purple gold thunder bird is inconspicuous, but the power that can be exerted is extremely horrible. The piece of the Thousand Miles that has just been swallowed is evidence, not to mention the fact that its own cultivation has reached its strength. In the late period of immortality, it is not far from the peak.

If it is close, I really want to be with Ye Xuan. Under the rush, Ye Xuan must have a cup.

However, this is, after all, the emperor's emperor of Lei Diyin, which is refining himself. In a sense, it is actually his own slave.

In the face of servants, if they are born with fear and dare not let them approach, this is too shameful...

These thoughts flashed through my mind, and Ye Xuan was so distressed. In the end, he bite his teeth, but he still didn't retreat, and he did not avoid it. He was afraid to let this seemingly harmless purple gold roper , fell on the shoulders...

Chapter 3997: The third thousand nine hundred and ninety-seven

The final result is obviously a false alarm!

Although this purple gold thunder is made from the blood of the wild larvae extracted from the body of the colorful flame thunder, the consciousness of the colorful flame thunder has already been wiped out with his real body. The smoke is gone.

Nowadays, the wisdom of the Purple Gold Thunderbird is given by Lei Diyin. It is a completely new life, and it has no relationship with the colorful flame thunder.

Naturally, it is impossible to hate Ye Xuan again.

On the contrary, its life and wisdom are endowed by Lei Di Yin, and Lei Di Yin was refining Ye Xun, whose origin is branded with Ye Xuan's breath, so in this purple gold thunder eye In the case, Ye Xuan is actually the master, and Lei Diyin is its Nestle!

In this case, how could it attack Ye Xuan?

At this moment, after a milk Swallow fell to Ye Xuan's shoulder, Zijin Leique was happily flying around him for a few laps, from time to time, whispering, showing the meaning of dependence.

At this point, Ye Xuan was completely relieved, and originally interested in playing with this cute little Thunder, but there are other things to do now, so Ye Xuan directly waved to Lei Diyin, the mind Signaling, let the little thunder bird homing.

The little guy reluctantly hovered around Ye Xuan's figure and circled it. Finally, it turned into a touch of purple gold and rushed into the emperor's seal.

"call out!"

During the wave, Ye Xuan printed the Lei Di, and then turned to the direction of the Emperor Samsung.

As early as when Ye Xuan drove Shennong Ding to chase the flying scorpion, the Star Wars defensive array of the Emperor Samsung's inner defense circle was removed. A large number of warships rushed out of the Devil's Samsung inner defense circle after the defensive light shield disappeared. He rushed to the battlefield and encircled the fish that had escaped from the previous million elite warships.

Ye Xuan turned to look at the Emperor Samsung at the moment, and this is also the purpose.

The three lords of the world have already fled, but they must not go far. The top of the demon royal family cannot let them leave. The predecessor of the demon community has also applied the means to the whole magic man. The starry sky of the stars is imprisoned, so that they cannot tear the void.

As a waiter, even if it does not show up, this can be done completely.

Although the other party did not show up, but Ye Xuan believes that he has been paying attention to the entire battlefield situation. Before that, he showed the strength and the underlying power of killing these four immortal monsters one by one. He did not do it, otherwise, he was afraid. It has already appeared.

But even if he didn't show up, he couldn't let the three lords of the world run away, because then, the news of this war must be leaked.

You know, the two cosmos of the Second Universe and the Third Cosmic Terran and the strongmen of the Federal Senate of the Vatican are still coming, if they are surprised that the first universe of the Alliance of Nations will be in a short day. There are four immortal grotesques in the Devil's Star Field, fearing that even if they are scared, they will be retracted.

Once again, I am afraid that there will be a seal or even a king immortal!

Therefore, the immortality of these three alliances must be left, and the other small fish and shrimps will be handed over to the fleet of the Devils and the strong to clean up. Ye Xuan's current work is to make these three worlds The Lord killed, then, this battle is equivalent to a complete end...

When Ye Xuan turned around and looked forward, the top of the demon royal family had already rushed to the front, and the first was the contemporary demon Mo.

At this time, Mo asked the face of the face of fear, watching Ye Xuan even his eyes were not right, a pair of scared look.

When the two men met their eyes, Mo asked the day without any hesitation. They directly handed to the hand: "The position of the three world leaders has been locked. One generation of the emperor has gone to chase one of them. The other two are not separated. The location is here."

Said, a direction of the spiritual strength wrapped in the direction of the yelling Ye Xuan, he waved his hand in the palm of his hand, quietly dispersed, for the position of these two lords at this moment, Ye Xuan is known In the chest.

"I am still tired of being together. Do you still want to concentrate your strength so that you can forcibly arrest when you encounter a blockade?"

In the muttering to himself, Ye Xuan's mouth showed a sneer, not to mention, the Shennong Ding at the foot of his feet, turned and spurred toward the edge of the magical star domain leading to the first universe.

.....

Black wind star field!

The Black Wind Star Field is the only place in the vast universe of the Devil's Star Field, which leads to the first universe. It is originally the Black Wind Department of the Eight Great Foreign Tribes of the Devil.

However, nowadays the devil's clan is in danger, and the Eight Great Foreign Tribes have all gathered toward the magical star field of the central domain. Therefore, there is almost no strong person stationed in the tribal stars of the big devils.

At this time, in the void of the black wind star field, there are two figures in the extreme speed, and the speed is much faster than the 100,000-meter-diameter big fortress. This is the two former escapes from the magic star field. The lord of the landlord.

It is also the goal of Ye Xuan!

Here, the magical star field of the central domain is already tens of millions of miles away, and there are another thirty or four million miles ahead of it, leaving the magician star field.

In the void, the two urging the power of the body, the monsters of the lord who rushed to the extreme speed, fled all the way. The only thing in the heart was the edge line of the devil's star field three or four million miles away.

The lord of the world, they are now like the dog of the family, it is really frightened, because they saw three immortal monsters crushed by the devil's emperor Mo Zhenfeng.

The blood crested fox turned into a half-bone bone, and the black scorpion demon tiger was smashed into two pieces, and even the gods could not escape.

As for the colorful flame thunder, it is also trapped in a thousand miles of Leihai, obviously also fierce and less...

This is too horrifying, scared to avoid the three lords of the lord in the distant sky, and the old lords turned around and fled. They originally wanted to tear the void directly, but they soon discovered that the void seemed to be an invisible mysterious force. It is imprisoned and cannot be done at all.

In desperation, the three can only escape in this way of crossing the void.

Fortunately, the devil's emperor Mo Zhenfeng went to chase and kill the last immortal singer, and he didn't care about them for a while. As long as the speed is fast enough, he still has the chance to escape the banned magician star field. Then tearing away the void again!

More than 30 million miles ahead can reach the edge of the Devil's Star Field, as long as you rush out, you will see the opportunity.

At the thought of this, the two lords of the world were suddenly excited, and the speed that had already been pushed to the limit was in this case, once again, the potential broke out again, and it increased by about 20%.

It was also at this time that there was an accidental change in the direction of the devil's star field behind him.

"Booming..."

The earth-shattering roar sounded, and it seemed to be getting closer and closer. Two of the two fast-moving lords rushed to the heart of a ghost, with an ominous premonition, subconsciously turned back.

Then, without any suspense, the body trembled, his face was instantly, and it became gray and white.

Chapter 3998: Little friend

"Booming..."

The earth-shattering roar sounds, getting closer and closer!

It was a star-like giant Baoding, the movement caused by the violent blast in the void.

The figure stands in the midst of this huge treasure, and it is the lock of the azimuth. Then it is fully urging Shennong Ding, and the majestic rush to kill Ye Xuan!

The two positive escaping lords blame a Grunden, with an ominous premonition, subconsciously turned back and looked at this scene, directly scared the body trembled, his face instantly became It's a dead gray, like a paper...

Behind the Lord, even the horrible existence of the immortal blame can kill, and the cultivation of the domain's main territory, which is manifested by itself, is simply fooling people to play.

Except for the immortal grotesques that were killed by him not long ago, from the Federal Senate, just now, they have seen this guy suppress the three immortal grotesque.

The blood crested fox turned into a half-bone bone, and the black scorpion demon tiger was smashed into two pieces, and even the gods could not escape. As for the colorful flame thunder, it is also trapped in a thousand miles of Leihai, obviously also fierce and less...

Later, it was followed by a big fanfare to the flying scorpion.

Judging from the fact that he is now so fast behind him, it is estimated that the flying scorpion is also fierce.

Counting it, just today, an hour is not there, and the immortal grotesque that is in his hands has reached four. If it is added to the one from the Federal Senate of Wanlu, this is Five immortal old monsters.

Enchanting!

It's not a human being, it's a killing!

When I think of this, the two old lords who fled and fled, suddenly the whole heart trembled, and the two of them gathered together instead of fleeing separately. It was indeed the power to encounter the interception. I can solve it as soon as possible and plan to flee quickly.

But that refers to the other strong people of the devil's group. Even if a master chased them, they will be desperately desperate to get rid of them in a short time and then escape.

It was this horrible killing **** that was chased after him. Even the immortal blame was degraded in his hands. The opposite of this existence was intercepted and chased. They had nothing to lose.

Flying Scorpio can't escape, and they are still being chased and killed. With their strength, if you want to escape from the life of this **** of killing... Can you make a joke?

The only hope is that the other party will not pursue it. If you want to do this, you can only beg for mercy. As for other means, once you display it, it will definitely be looking for death. It will directly irritate the other party. It must be chased. End of the world, the endless situation!

More crucially... they don't have the ability to escape so far!

These thoughts flashed through my mind, and the two lords of the old lords were all stunned, and they exchanged their eyes for a look. The old face of the white paper was red, and it turned out to be the one who turned around and rushed to the back. Killing the younger generation and asking for Rao...

"Little friends are angry, the previous thing is actually a misunderstanding, you should not chase again, take us as a fart... give it up?"

"Playing is playing, you have been tossing for so long, and you are definitely tired, you will not bother you any more, we will get out of our own!"

"Right right, get out of the way, get out of the way, don't stay for a second!"

"Small ancestor, what are you swollen, still chasing, no envy, no enmity, don't you get rid of it? Hehe..."

.....

I asked for a few words, but the killing gods that I was chasing after the positive movement did not move. I didn't even have a response. The star-like big star at the foot was so close, and I'm close to it. I am close to it.

In such a scene, the two old monsters were scared and scattered, and the words were filled with crying.

At this moment, they really regretted that the intestines are all green. If they knew that the emperor's emperor Mo Zhenfeng was so enchanting, how could he still kill him? Ma Shaoer surrendered with the ethnic group. There is such a enchanting sorcerer. The devil's ethnic group has got the air and is destined to become the rhythm of the first cosmic hegemon.

It's a pity that I didn't understand this before, and it's too late to regret it!

"Booming..."

On the occasion of the remorse and resentment of the two lords, the giant Shen Ding, a huge star like a star behind, has already caught up with a few breaths. The figure of the two of them fleeing quickly is less than a hundred miles away. It's gone.

A feeling of complete desperation came to my heart, and the look of the two lords of the world's lords suddenly became awkward. They were, after all, the ancestors of their respective ethnic groups, and they were as eager to chase after the chasing of the dog. That is because the heart still holds the last hope.

But now it seems that this time I want to live again, obviously has become a luxury, it is impossible to achieve.

Under such circumstances, naturally there is no need to put down the body and dignity, and plead with the other side.

If you can't get rid of it, you can cause as much damage as possible to the other party...

"Little bastard, this is your old man!"

"There is a death, even if you can't pull your back, at least you have to be disgusting, go to death..."

In the gloom of the glory, the two lords of the lord and the lord were violently exposed. When they roared, they immediately showed their blood and their bodies. They had a huge body, and then they undoubtedly launched a self-destruction.

It is not the self-destruction of the flesh, but the flesh and the gods, and at the same time blew themselves.

Anyway, it is useless to keep the gods. It is as strong as the black scorpion and the tiger. After the blood is actually smashed into two pieces, the gods are smashed out, and it is not impossible to escape. The ultimate **** is Bombing, is it all gone?

"Booming..."

After making up their minds and firming their death, the two lords of the world's lords were also bachelors, and they stopped the body shape of the speeding escaping. The look of Ye Xuan, who was chasing after him, looked at the blood of the giants. However, there is a tidal wave of thunder that is transmitted, which is the rhythm that has been activated and is about to unfold!

"In the presence of the king, do you have the qualification for self-destruction?"

Seeing these two guys want to blow themselves up, Ye Xuan even sneered, and then hesitated, waving a piece of flame directly from the Shennong Ding under his feet, each cluster of flames has six colors, gorgeous, pounds in the thousands of miles, the blood of these two great masters is directly covered.

"what....."

"Hey!"

The tragic sounds sounded instantly, and the moment when the sky was covered with fire, Shennong Ding's domain power had bound the more violent energy of the two of them, causing their self-destruction to be interrupted, and then they were baked on the spot.

These two guys could have died so happily, but at the last moment they lost their minds. They wanted to retaliate against Ye Xuan with self-destruction. Now they are also alive. This is clearly to be baked by Shennong Six-Color Flame. Rhythm.....

Chapter 3999: The origins of two old monsters

After this unexpected evolution and transformation, the power of Shennong Six-Color Flame is obviously more powerful.

At this moment, the two masters are weird, and they are still alive. In just a few dozen breaths, they have been completely baked.

When Ye Xuan waved the six-color flame sea into Shennong Ding, the emptiness in front of the sky was already two complete scented squirting meat.

The blood of these two lords is a streaked elk, one is a beasted beast, and the blood is really a giant, but at the moment, it has been baked by Shennong six-color flame, and it has been ruined. After the contamination with impurities, the two flesh and blood that remained in the void have been reduced to only about four or five thousand feet.

Whole body golden oyster sauce, exudes a strong fragrance!

These two **** stars and animals, Ye Xuan really did not eat, especially the streaked elk, it is said that the meat is extremely fresh, it is a starry sky.

That also refers to the fact that it has not been cultivated as a strength, nor has it ever produced a sensible striped elk.

The one that has been baked in front of the eye is a striped elk that has evolved to a very high degree in life form and blood.

The meat quality is originally more delicious, and with the upgraded nature of Shennong's six-color flame, it is naturally attractive both in taste and efficacy.

Even Ye Xuan was accustomed to the meat that was baked in the treasures of the ancient sacred ancient spirits. At this moment, it was not felt by the index finger, and the mouth was alive.

During the wave, he did not hesitate to directly sacrifice the blood of the demon, cutting the most beautiful and delicious pieces of the stag deer and the fine beast, and then he took away the blood of the devil. At the same time, most of the remaining flesh and blood treasure food was sent to Shennong Ding.

There is also a large group of food animals, although this time they can't make them enjoy themselves, but how much can be a little comfort.

In this battle, the alliance of the nations of the first cosmic slaves, although sending a million elite troops to come, but because Ye Xuan came back too rushed, facing the annihilation crisis of the magic guard, he had no choice but to Only the blood-mosquito war can be sacrificed. After a full blow, the million warships basically have nothing left.

The flesh and blood resources that the indigenous beasts hoped for were simply not able to stay. If the gangsters were aware of the matter, they would have to hammer their chests, and Daxie Yexuan was defeated.

Fortunately, there is still a second wave of conquests, and the Terran of the Third Universe will be gone. There is no way to eat it, but the second universe is all descendants of the blood of the beasts. When the war is set, there must be A huge amount of flesh and blood resources are in the bag...

Thinking like this, Ye Xuan secretly nodded, and it was decided. After returning to the Emperor Samsung for a while, the first few millions of indigenous beasts led by Taikoo Porcupine and Taikoo tortoise were released and they were stationed in Magic Emperor Star.

In this way, together, fight what you want to eat and eat, and go hunting or collecting yourself!

Under the heart, while holding this thing, Ye Xuan was screaming at the side, and the two large pieces of Baoxue meat that had been cut by the devil's blood blade were quickly eaten by him.

This kind of treasure meat that has been upgraded by Shennong Six-color Flame is really extraordinary. When you enter the entrance, the lips and teeth are fragrant, and instantly become a heat flow. The limbs in Ye Xuan's body are swiftly flowing, let him The whole body is stunned and comfortable.

With his current cultivation as the strength, it is obviously impossible to directly break through on the spot, so that it is impossible to directly break through on the spot.

With the killing of these two lords, this battle can basically be completely ended.

In terms of high-end combat power, the four immortal old monsters dispatched by the Wanzu League, two fallen, one was killed by Ye Xuan, the other gods were destroyed, the blood in the body was extracted, and the emperor was printed by Lei Di. Reno.

In terms of conventional combat power, the million-strong elite warships that the Wan Clan Alliance dispatched this time have not been saved, and they have all been bombarded.

Although the star-studded powerhouses in the battleships have escaped from a number of more powerful ones, the strongest three-domestic lords, two of them have just been solved by Ye Xuan, and the other one has a generation of magical emperor Mo Tiantian, responsible for this. It has already fallen.

Other small fish and shrimps, handed over to the other strong people of the devil's group to finish the end, no need to Ye Xuan to shoot again...

It can be said that this time, the power of the League of Nations can be described as the whole army is annihilated, even a live mouth can not escape, which also ensures that in a short period of time, this short time occurs in the magic star This field of killings will not be leaked!

This is exactly what Ye Xuan and the Devils want.

"Unexpectedly, the forces of the second universe and the two major camps of the Third Universe and the Senate of the Federal Republic of Venezuela should be coming soon..."

"In the first three days, you will come to the first cosmic plane. Within five days, you will definitely be the Emperor Samsung!"

Ye Xuanzhen in the fine mans flashed, muttered to himself.

In the end, he suddenly thought of something, his face was gloomy in an instant: "Hey, what to say, this young master and the devil are now close-knit friends. In this battle, the young master is alone and frustrated. Respecting the immortal grotesque, but the ancestors of the devil's group have never appeared..."

"Although this is also normal, after all, it is immortal, not forced, must not be shot, or leaking air, in case of the second universe and the third universe of the Terran and the Wanluo Federal Senate I have sensed it, and the next battle, I am afraid I will give birth to infinite variables!"

"But the reason is that this is the case, the Lord has a manpower to turn the tide and solve the crisis of the Emperor Samsung, but the democrats themselves have hardly contributed, this is an indisputable fact!"

"In one sentence, this time, the devil's ethnic group said that they owe the greatness of the Lord's greatness. After all, this young master can be based on the cultivation of the domain's main territory, and one manpower resists the four immortals!"

"It is rare to encounter this opportunity for the devil to lose money, and Mo Zhentian, who has been deliberately hiding from this generation of masters, has also appeared at the last moment. This is clearly a self-righteous loss, deliberately revealing and wanting to appease. The rhythm of this young master..."

Speaking of this, Ye Xuan's glimpse of the fine mans, suddenly there is a more ambiguous meaning, continue to say to himself: "There is no cheaper to occupy the bastard..."

"Looking at the devil's loss, a generation of demons took the initiative to appease the opportunity of the young master, just to ask him about the origins and details of the crazy mosquito and mosquitoes."

"This time a generation of magical emperor Mo Zhentian has always been secretive, and Zhiwuwu has never answered it positively, but this time, if you don't give the lesser a satisfactory answer!"

"Oh, when the young master took the opportunity to make a fortune, he couldn't make a big gesture. The next battle, Laozi didn't do anything, and see who was in a hurry..."

Chapter 4000: Frustrated

After the decision, Ye Xuan even waved his hand to Shennong Ding's body, and even the three-armed and six-armed konjac's real body state was lifted, and the human form was restored. The strength was also reduced to the third-order of the star.

After doing all this, he waved his hand to break the virtual shuttle, stepped into it, and turned around and headed for the Emperor Samsung!

He decided, this time, in any case, it is necessary to ask, the identity of the two guys, the crazy mosquito king and the mosquito-killing old ghost, is related to the ancestors of the democrats.

Regarding the mother star, Ye Xuan had already known from the contemporary magic emperor Mo Wentian. The origin of the devil's ethnic group came from the mysterious mother star. Broken into the world.

Because of this account, the parent star did not know which floating in the void, only the ancient source of the blood of the ancestors, with a few descendants, vain, finally turned to the first universe!

This person is the source of the blood of the first cosmic demonic group. At that time, because of the serious injury, the devil's blood ancestor, with several descendants of his family and several followers, crouched in an independent small hole. Come down and recover from the injury!

Later, one of the descendants of this blood ancestor, in the first universe, opened the branches and leaves, only to have the first universe of the devil group.

The generation of the demon is not the first generation of the descendants of the descendants of the ancestors. He was only known as a generation of demons because he created the demon dynasty.

Within that independent small hole, there are many ancestors who are older than a generation of demons. The independent small cave day can be said to be the origin of the devil's group in the first universe, but the source of the blood of my family. The land and the real heritage are actually in the mysterious mother star!

It is a pity that the blood ancestors left after recovering some injuries, including the descendants of the descendants who followed the source of the first universe, and they also followed.

Of course, before they left, they each left a descendant of blood in the first universe.

After all, they don't belong here, even though they have blood in the universe, they are still homesick, and they have embarked on the road of returning, entering the void and looking for a way to return to the mysterious mother star. There is no more news...

However, although the blood ancestors and the descendants and followers have left, but the descendants of the first cosmic demonic group, the descendants of the first generation and the descendants of the second generation are still alive, and two People are all immortal.

Among them, a generation of ancestors was immortal, and they had been retired before the age of 10,000 years. They wanted to enter the imperial eternity in one fell swoop, but they have not ended yet, and it has lasted for tens of years.

It is the second generation of ancestors who are sitting in the ancestral home of the Devils, and they are repaired for the sake of immortality!

These two immortals are just the blood of the descendants of the descendants of the blood source of the devil.

At that time, the body of the mortal blood of the demon was following the first cosmic plane, and there were several descendants of the tribe, and several followers of the other.

Among other people, there are also a few people who have left their blood in the first universe!

At that time, when Ye Xuan learned of this shocking secret, he asked the contemporary emperor Mo Wentian about other descendants of the ancestors and followers, and the descendants of the blood, what is the present.

Even with suspicion, I directly asked the crazy mosquitoes and wretched mosquitoes, whether it is the blood and blood of the other generations of ancestors and followers...

However, at that time, the top of the devils and the royal family headed by the contemporary demon Mo Qiaotian, but they were all very secretive, and the look on their faces was also weird. They claimed that they could not say more, Ye Xuan could only helplessly give up.

Now, I finally caught the generation of the emperor Mo Zhentian who has been hiding from him, and the other party is obviously somewhat guilty because of this war. Ye Xuan naturally cannot let this excellent opportunity pass...

After a short while, the front of the Emperor Samsung is already far away.

The void outside the inner defense circle is still chaotic at this time, a large number of warships wrecked in the void, and some are still burning with raging fire.

However, compared to the previous noisy scene, the current Devil's Samsung internal defense circle is already quiet.

A large number of Devil Warships shuttled silently, and the dense and powerful Devils were busy in the void, packing up the mess...

Ye Xuan did not stop here. The broken shuttle directly headed toward the Emperor Star, and soon passed through the atmosphere of the Magic Emperor and entered the interior of the star.

With a bang, the virtual shuttle hovered over the void of the inner city of the emperor, and Ye Xuan stepped forward. After crossing the cabin, he waved the virtual shuttle to the body, and then his body swayed. When it appeared again, it was already to the devil. Outside the royal palace.

At this time, a group of democrats in the main hall of the royal family are holding a meeting, seeing Ye Xuan coming, all stood up, including a generation of Mo Huang, who really has another embarrassing lord. Kill, before Ye Xuan returned to the Magic King.

Ye Xuan stepped into the main hall of the Devil's Royal Family, but his face was deliberately kept gloomy, a very unpleasant look.

The high-ranking demons of the demons saw his expressions, all face each other, and all of them were careful. They had been respectful in front of Ye Xuan, and now this attitude is more obvious.

After all, the young man in front of him, in less than an hour before, but killed, suppressed or captured four full immortal monsters.

This is definitely a peerless enchanting, saying that it is unsurpassed to have no one before.

It seems that it is obvious that Ye Xuan's heart is not fast. The contemporary demon emperor Mo Wentian and others looked at each other. Although they got up, they did not take the initiative to meet the mold.

The first generation of the demon emperor Mo Zhentian was the first person of the demon royal family in the royal palace at this time. Others can avoid it. He is inevitable. Seeing Ye Xuan's face, Mo Zhentian first stunned and then shook his head. I smiled bitterly.

Stepping forward to Ye Xuan, arched his hand, and politely said: "Little friend, this battle is hard, the reason why my devil's ancestors did not shoot, I think you can understand, this matter..."

"Sorry, don't be a friend of a small friend, so sweet, this little master and you seem to be not so familiar yet?"

"Hey, what a **** ally, four immortal geeks come, actually want this lord to a domain to support the overall situation, this is the birth of the Lord, otherwise, it is estimated that now I do not know how many people have been killed by others. It..."

"In addition, it is really difficult to say good ally, it is hard to see you. Is this the handy treasurer who does not endure it?"

After waiting for the other party to finish talking, Ye Xuan directly interrupted, after turning a blank eye, the words turned, even when the question was asked.

And they didn't make a roundabout, they just started to see the mountain, and they said that if this time they didn't get a satisfactory answer, the next war would be less mixed, and now they will pick someone away...
