

## Super D. S 400

### Chapter 400: Solitary

Ye Xuan estimates that as long as they reach a certain area, these copper bodies will fall. Therefore, he began to run around on this passage, the purpose is to lead these copper bodies down.

"Hey!"

His conjecture was correct. After he accidentally stepped into an area, the ceiling on the top suddenly split and two copper bodies were dropped. This time, it was a gray wind spider.

Two spiders and copper corpses, each carrying out eight legs, swept away toward Ye Xuan.

Ye Xuan hates this kind of disgusting thing, and immediately kills the past.

These two spiders are copper corpses, one is the power of ninety-one dragons, and the other is ninety-two dragons.

However, this is not an egg.

In less than two seconds, they were picked up by Ye Xuan one by one.

The copper corpse does not have the sacred beast, so for Ye Xuan, it is only the violent corpse conditions of the Beastmaster.

This cleaned up the copper corpse, just so that Ye Xuan would not accidentally catch up with the big forces in front.

The appearance of this copper corpse is also strange, falling from the ceiling, rising from the floor, coming out of the wall, wherever the square can come out.

Ye Xuan is so happy.

However, after he entered the Stanley Cave for about half an hour, he also successfully collected thousands of bodies ranging from ninety to ninety-five dragons.

Now, he can use the Beastmaster twice.

At the same time, he also encountered a second road, this time, there are three roads.

"Although I don't know which side of force I am in this direction, but these three roads should make them divided into three ways..."

Ye Xuan thought in his heart, he recalled that this time the Quartet forces, each party probably came about 30 people, if the soldiers are divided into three roads, then each road should be no more than ten people.

Unfortunately, this number is still a bit more, Ye Xuan even if the beastmaster violent, it is not necessarily able to destroy the ten team.

After all, this is the top force of the Redwood collar. There may be a medium-sized instrument or a middle-class martial art, which is very difficult.

He carefully moved forward for half an hour, and after killing hundreds of bodies, he finally encountered the third road.

This time, the road is also three, which makes Ye Xuan's eyes shine.

If the 10-team is divided into three, then one is three.

Three people, he can deal with it.

"Dry, hope only three people!"

Ye Xuan glimmered, even if he encountered a strong enemy, he could also retreat.

At the moment, he picked up the Dijia Altman mask and replaced it with a mask of detective Conan.

Death pupils!

To be proud!

"kill!"

Ye Xuan snarled in the heart, that is, the straight line rushed out, even the copper corpse on the road did not care.

In front of him, there are indeed three warriors, all elders of Yin Yu Palace.

"He Changlao, Song Elder, you said, will our road lead to the Golden King?"

"What a joke, what we are now encountering is only a copper corpse. Then there are iron corpses and silver corpses. In our realm, it is estimated that a few iron corpses will be dead, and I want to find the golden corpse. ?"

"That is, if we meet the Golden King, we will die."

"Can't say that, if you accidentally get control of these bodies?"

The three of them walked on one side while chatting.

"Booming!"

At this moment, there was a rumbling bang in their rear. They shook their bodies and turned around and saw a huge stone rolling towards them.

"What a ghost thing, we walked all the way, why didn't we see such a big stone?"

"It should be an institution again. In addition to the likes of cultivating the lord, the red lord is also proficient in the organs, forging, and more."

"Let me do it."

An elder of the Silver Palace came out and slammed a punch at the tens of meters of rolling stones in front.

The wind was screaming and bombarded on the huge rolling stones.

"Boom!"

The huge rolling stones were instantly shattered.

However, when the Rolling Stones were torn apart, suddenly one person quickly rushed out after the Rolling Stones. It was Ye Xuan.

"Copper corpse?"

The elders of the three Yinyu Palaces saw a strange mask from Ye Xuan and suddenly reacted.

However, they still feel that something is wrong, because Ye Xuan's body is full of dragons.

Eighty-five dragon power!

"It's human!"

The three men are big and big.

There are other human beings in this red hole.

"Hey, the power of the eighty-five dragons in the district, dare to come to the trouble of the three of us, see me shock you."

The middle-aged man who smashed the rolling stones of Megatron made a few moves forward and punched Ye Xuan.

However, this punch was escaped by Ye Xuan.

He was a little surprised. He was the master of the power of the ninety-five dragons. His attack was actually escaped by the leaves of the low ten dragons. This is a shame.

He blew a few punches, but one by one was escaped by Ye Xuan.

At this time, he is only a kilometer away from Ye Xuan.

"Kid, I want you to die!" The middle-aged man was fascinated and greeted him. His speed was much faster than Ye Xuan.

But how could he know that Ye Xuan was only tempting the enemy, and his speed of explosion was similar to that of the eighty-five dragons.

Eight hundred meters!

Six hundred meters!

Three hundred meters!

One hundred meters!

Just when the two were about to come into contact, Ye Xuan's speed suddenly skyrocketed, and the eight-year-old sword in his hand also condensed the dragon sword.

"dead!"

Ye Xuan's eyes widened, and the speed beyond the power of Bailong broke out instantly.

"Oh!"

A crisp sound spread through the passage and fell into the ears of the other two.

They saw that a blood column rose up into the sky, like a spring, constantly spattering blood around.

This spring is the throat of their companions.

Spike!

A master of ninety-five dragons, was spiked!

"This....."

The two men looked at each other and watched Ye Xuan squatting and retracting. Then, the dragon outside the body was one more.

Eighty-six dragon power!

At this time, the two talents reacted.

"kill him!"

At that time, outside the body of the two, the dragons were raised, and the two of them were the power of the ninety-six dragons.

Fang Caixuan is using the method of sneak attack, only to successfully kill the master of the ninety-five dragons, and now it will not work.

The speed at which they both broke out was no slower than Ye Xuan.

"Sure enough, there is a middle class martial arts!"

Ye Xuan's flash of light flashed, and he did not find the heavenly body martial arts of the Chinese product in the singular ring of the genius. It seems that the other party was destroyed after learning.

"Kid, dare to kill my Yin Yu Palace, go to hell!"

A white-browed old man screamed and launched a stormy offensive against Ye Xuan.

Ye Xuan's face is gloomy, but he does not put these two people in his eyes, because his daily remnant method has reached 10% of the heat.
