Chapter 401: Silver feather body

"Not self-reliant."

Ye Xuan heart low and sighed and greeted him.

Although the other side has a Chinese-style martial arts, but because of the realm of the realm, they are not very proficient, only a little better than the law of the day.

And their own speed, but it is a lot worse, Ye Xuan, so this battle, not more than ten seconds is also the winner.

No, it is a life and death!

The two heads flew up and fell to the ground, and they were two blood fountains, which stained the ground of the Red House.

"Where, luck is still good. The first thing I have encountered is more than ninety dragons. If you encounter Bailong, I am afraid it is not so easy."

Ye Xuan sighed with relief, and the remaining two 乾 戒 戒 。

"Hey, the host has broken through the power of the eighty-seven dragons!"

Realm, once again improved.

He threw the ore and weapons inside to Megatron, and when he was eating with Megatron, he also took a break and took a look at the other things in the ring.

"Ok?"

At this time, Ye Xuan suddenly found something wrong. This is a brocade box with several heavenly martial arts.

However, Ye Xuan suddenly found that the casket had a compartment.

In the compartment, it is a martial art called the silver feather body.

“Chinese style heavenly martial arts?”

Ye Xuan’s eyes widened.

Unexpectedly, there is such a harvest.

"Haha, with this martial art, my combat power can be upgraded to a higher level."

Ye Xuan was overjoyed and suddenly learned the silver feather body.

"Hey, the host has learned the silver feather body, and the current proficiency is 10%!"

Ye Xuan still remembers that after learning the Huangquan swordsmanship, the 30% fire can be compared with the ten-day sword.

If you practice this silver feather method to 60%, he will deal with these two people, I am afraid it will be effortless.

On the side, Megatron has already finished eating.

Since the ability to transform and reorganize, Megatron has been wondering every time he eats. This time it has become a big stove. It is time-saving and labor-saving to directly throw those ore and heavenly appliances into it.

"Refining, let's have it."

Ye Xuan opened his mouth and smiled, then got up.

Next, he used the copper corpse in the red smelting cave to practice the silver feather body method, and it was easy to reach 30% of the fire.

Later, he returned from the original road and was ready to go to another road.

Maybe this time, the trip to the Red House, he can break through to the ambiguous situation is not necessarily?

As long as you reach the air, you can fly in the air, which does not feel too cool.

When he came, he was careful, and this time he returned, he was running hard.

Soon, he entered the second ramp.

Then caught up with the team of the second Yin Yu Palace.

This team, and the party is the same configuration, a force of ninety-five dragons, two forces of ninety-six dragons.

Ye Xuan used the same method to kill them all.

"Hey, the host has broken through the power of the eighty-eight dragons!"

Now, Ye Xuan is only a distance from the nine dragons.

The six dead people also provided Ye Xuan with a lot of sacred corpses. This kind of thing, Ye Xuan can not be too much.

Then he went to the third road and killed the third team.

This time, the strength has been enhanced, one person has reached the ninety-eight dragons, two ninety-seven dragons, which allowed Ye Xuan to successfully break through the power of the eighty-nine dragons, even the silver feather body law has broken through to 50% of the fire.

"Good luck, it seems that when I was on the second road, I chose a good place." Ye Xuan opened his mouth and smiled.

This time, he is going back to the second road.

Yin Yu Palace has already died twelve people, the first three, nine inside. At this point, they still have about twenty people left.

With Ye Xuan's current strength, even if he is the master of the silver-yellow palace leader, he has the ability to kill him. Although he wants to waste a beastmaster violent, he can let him break through the power of Bailong.

At the moment, Ye Xuan returned to the second ramp and then entered the second of the three.

He hopes that it is best to meet the leader of the Silver Palace.

He entered the second ramp and then found a way in the third ramp. After a long journey, he saw three people.

"Well? In the battle?"

Ye Xuan eyes condensed, looking across a few kilometers, and found three fast moving figures.

In addition, there is a two-meter-high iron corpse.

He looked carefully and found that the three men all had the power of ninety-nine dragons.

And the iron man who is two meters tall is a bit like a Tauren. This should be a wild cow. It is born with the power of seventy dragons. After adulthood, it reaches ninety dragons.

Ye Xuan estimates that this is a very bully iron corpse, which should be more than the power of Bailong.

The two sides played a lot of fun. This is a very strong and powerful corpse. The defensive power is far more than the copper corpse, and the three people have become a tie, and the battle is very intense.

Ye Xuan hesitated in his heart, with the strength of his eighty-nine dragons, the speed is already more than everyone present.

However, he likes the benefits of the fisherman, so he looks at it quietly.

The three elders of Yinyu Palace teamed up, although they were tied with the scorpion of the wild cow, but they were more than many people. If you really want to compare it, the silver-eyed palace will have a slight advantage, and the scorpion will be kept constantly. Back.

Ye Xuan is also slowly approaching, he is thinking, let the Yin Yu Palace kill the barbarian iron corpse and then attack them.

But who knows, things suddenly turned around.

A person accidentally stepped on the organ and suddenly dropped a corpse on the ceiling. This iron corpse is still quite a cow.

This is trouble!

Two wild cows and devils teamed up to deal with the three ninety-nine dragon masters of Yin Yu Gong, not a problem.

"Not good, back!"

Upon seeing it, one person immediately shouted, then turned around and left.

If they don't go, they are absolutely dead.

What they don't know, however, is that there is another killing **** on the route they fled.

“Hey!” “Hey!” “Hey!”

The two big cows' big feet stepped on the floor, making a loud bang, and every loud noise could shake the hearts of the three people in front.

They managed to suppress the wild cows, and they can kill them if they give them a little more time.

But who knows at this juncture, and suddenly smashed a wild bull to come out, this is really terrible.

Fortunately, they are faster than the wild cows, and it is no problem to leave this danger.

However, they ran halfway, but found the middle of the front channel, standing a figure, intercepting their retreat.

"Wear a strange mask, who is this person?"

The three people have this question in the same place.

"Kid, who are you?"

One of them asked aloud.
