

Super D. S 4011

Chapter 4011: Bald chicken

"Hey!"

"Hey..."

The whispering whistling sound of the scalp, the fifth visible hollow of the naked eye, rushed out from the huge lama of the war, and roared away.

This time, even the huge roaring explosions and the crisp and unclear sounds of the cracks were almost nothing. The number of warships shattered by this wave of emptiness was even less, only a few thousand.

After all, all the strongmen of the two camps have basically seen the purpose of Ye Xuan, and through this point, he analyzed in advance the position of the next bombardment of his own underworld, so the nearby warships are basically Before this wave of emptiness, it was like a funeral dog, and hurriedly avoided it.

However, Ye Xuan did not care at all, because the effect of this emptiness is still the same. The diameter of the front line has reached a huge turbulence of three or four million miles. It has become the present everywhere. Five places.

And the void battle under his feet, barely able to fire three times.

Without any hesitation, after adjusting the position again, Ye Xuan gave a command, the sixth wave of emptiness appeared, and the five vain turbulences became the six places of the present, lined up in the void in front of millions of miles away. The horizontal void distance of the barrier has reached more than 20 million miles!

In the end, there are still two waves of emptiness, but Ye Xuan did not intend to blast here. The most turbulent emptiness of this head is already beyond the edge of the third cosmic camp on the left side, which is enough.

During the wave, the empty battle at the foot was taken up, and Ye Xuan's figure disappeared again. Today, he is already a star lord, and his spirits and secrets are perfectly shocked. It is an immortal grotesque, and it is hard to detect.

After hiding the figure, Ye Xuan did not hesitate to start the speed, and rushed toward the other side of the horizontal day. The last two waves were empty, and he planned to blast at that. Once completed, the whole sky was empty. It will be completely formed, and the virtual distance of the horizontal barrier will exceed 30 million miles.

What Ye Xuan didn't know was that in the same moment that his figure disappeared, one of the nine half-step immortals of the Second Universe's camp commanding parliament also sneered, and the figure took a flagship fortress and disappeared instantly.

Anyone with a discerning eye can see that the devil's emperor Mo Zhenfeng can't just stop, there must be one or two waves of emptiness, and it must be on the right side of the second cosmic army.

This half-step immortal did not go to the sense of Ye Xuan's whereabouts, and he was sure that he would go to that side and go straight to stop.

After just over a dozen breaths, Ye Xuan arrived at the destination, and his body shape appeared directly. However, he did not wait for him to wave his hand to the Void War, and there was already a strong pressure on the right side of the right side of the figure. Breath, lock its figure.

This is a half-step immortal, cultivated to reach the ninth-order great consummation of the universe, from the top ten ethnic groups in the second universe, the silver scorpion, the family has many strong and even high-level fallen in the fox, the Nether, the Nether Less respect and the hands of the Taikoo Little Konjac can be described as **** hatred.

At this moment, this half-step immortal eternal ancestors of the Yin dynasty appeared, and instantly showed the blood and the body, turned into a huge bird with a silver brilliance, a wingspan, to Ye Xuan Rushing, the sharp bird's cockroach has a fierce silver awn, revealing Jinhui, and it is obvious that you can wear a golden travertine. This is the rhythm of the fall of Ye Xuan.

"Noisy!"

Ye Xuan turned to look forward to it, and a violent drink was heard in his mouth. The whole body was stirred up, and the already raised counter continued to swing. But this time, although there was a war lama, it was not a gray-black void. It's a golden age.

Almost in the first moment of the emergence of the war, Ye Xuan gave instructions to the Qingjinmu emperor in the battle, and launched a full blow. In a flash, the core node of the central domain of the war, the whole body The Slim Emperor of the Colors even started the action.

Thousands of Zijin Slim kings in thousands of hive nodes, and tens of millions of gold slimes, all received instructions for full bombardment!

"Hey!"

The familiar, very slight humming sounds, and the invisible ripples spread out from the body of the Qingjin Slime, and fell into the walls of the core honeycomb.

And along the pipe connected to the outer wall, it was instantly transmitted to the thousands of honeycomb nodes of the war, so that tens of millions of Slim people in the squad are all in shape, and the long golden silk under the belly blooms. Huimang, Jinmang masterpiece.

Numerous golden curtains are superimposed on each other, gathering together into one, and finally turning from pale gold to a faint purple gold. Although the purple is still quite light, it is clearly visible, representing the change of its power, and even a touch of green gold. The mans are looming.

Then, if there is spirituality, it rushes into the four walls of a honeycomb node, and traces back along the outer wall. In all directions, it flocks to the core honeycomb node where the Qingjin Slim Emperor is located!

All of this was completed in less than half a moment. The core honeycomb node in the central area of the ninth lap of the huge Lakou mouth of the war, was also suddenly bright, bursting out the fierce purple gold mans, and instantly turned into a purple gold world. A wave of purple gold cymbals, like a tidal wave, instantly produced a huge fan-shaped ripple.

And quickly expand forward, like a purple gold smashing tide, push forward Chen, go bang...

"this is....."

The shape of the silver pheasant bird was stunned and exclaimed. He turned and wanted to escape. After all, the prestige of the years of war was too strong. It is said that there were immortal monsters under his power.

Unfortunately, everything is too late.

This wave represents the Zijin fan-shaped tide of the power of the years. At this time, this corner of the void has been fully covered. Some mysterious power has been dispersed, making the silver-framed bird stagnant, as if it was banned. , was set in the void, can not move.

This is really too grievous, and he is half-step immortal. Even his body shape has been unable to move. He hates anger and madness. The murderous murder is fast and full of essence, and his teeth are hard.

"Oh la la..."

The tidal wave of purple gold rushes past, and the huge body of the silver eagle bird has changed instantly. The original jealousy of silver glory has been completely dimmed in a short period of time. Going down, falling into a grayout.

Then, as the purple gold tides flowed through the body, these moments of gray cockroaches were visible to the naked eye, and he became a bald chicken in the blink of an eye.

But this is not over yet, because the purple gold tide has not completely passed.

The bulk of the flesh and blood began to peel off, and it was half-instant and vines and the whole body, which made him feel riddled with the whole body. Many internal organs were revealed, and there were even a few organs, because of flesh and blood. Missing, without the strength of support, directly falling out of the abdominal cavity, first drifted into the void, followed by rapid gray defeat, turned into fly ash and scattered!

In the blink of an eye, a strange silver pheasant bird is completely transformed into a rotten bald chicken...

Chapter 4012: Nether Sky

The general immortal blame, if there is no special encounter and creation, in general, the life is 100,000 years!

The silver pheasant in front of the eyes is only the perfection of the nine-order universe. Although it is said to be half-step immortal, it is not a real immortal.

Today's years of war, a wave of purple gold rushing out, it represents the eternal lapse of 30,000 years of age, although not let him fall on the spot, but it has also been half dead.

It can be said that the second wave, he definitely looks down.

In fact, only a half wave of similar years and tides need to be repeated. This half-step immortal silver ancestor has to be degraded.

However, Ye Xuan apparently did not intend to inspire again. Not long ago, the years of war Lara had just ignited three waves of tides, and now it is the fourth wave. The remaining estimates are three or four waves. Every wave is precious, he can't Wasted in a half-step immortality.

During the wave, the battle of the years was slain, and at this time the silver scorpion was half-step immortal, not to say that it was dying, in fact, it was not much worse. Death could not die, but it fell into a deadly situation.

Ye Xuan did not even sacrifice Shennong Ding. He waved his hand and took him into the space of Ding.

If it is a state of prosperity, to take away such a half-step immortality that far exceeds one's own strength, Ye Xuan must rely on Shennong Ding's domain power.

But now that the other side is almost dying, Ye Xuan, with his own strength, can directly invest his income in the space.

At the same time, the Void War La was also sacrificed again by him, aiming at the front of the void, the sixth wave of emptiness, and instantly blasted!

In just one breath, there was another turbulent void in front of a diameter of three to four million kilometers, but this is still not the end. According to Ye Xuan's estimate, the Void War should still be able to blast a void. This is the last wave.

After the blast of this wave, the Void War can no longer be used in a short period of time. As a tens of millions of Void squadrons of the War kinetic energy group, it needs to recover for a while.

In addition, there are three other star-studded wars, and there are three or four waves of purple gold tides in the battle of the years, and there is also a wave of the full-scale smashing of the souls of the scorpion, and the **** mosquitoes should You can also start a full-scale excitement!

The power of the four major battles was almost half consumed in a short period of time. This is very helpless, but Ye Xuan has no choice, the situation is so!

With a decisive decision, Ye Xuan's fine flash of a man's eye flashed a sharp hand and again issued an order to launch a bombardment.

"Hey!"

"Hey..."

The whispering whistling sound of the scalp, the eighth visible hollow of the naked eye, rushed out from the huge lama of the war, and roared away!

The huge roaring sounds and the crisp cracking sounds are inaudible. There are no warships shattered by this wave of emptiness. Only the sound of the hollow of the card is like a rain.

The last wave of emptiness blew out, Ye Xuan directly waved his hand and took the Void War into the immortal world. When he fixed his eyes, his face suddenly showed a smirk of smirk.

A million miles away from the front of the line of sight, there are eight turbulent clouds in the void. The diameter of each place is about three or four million, and eight empty streams are arranged in a row. A full-fledged celestial scorpion of more than 30 million miles, across the front, will face the two major conquests of more than 50 million warships, ruthlessly blocked.

Although there are gaps between the eight turbulent voids, there are a total of seven places, each with a distance of more than ten thousand miles, waiting for seven narrow canyons, but if the two opposing camps pass through the seven empty canyons, More than 10,000 warships rushing out of the canyon will be bombarded by guns in the first place.

As for the two divisions of the soldiers, bypassing this long-term scorpion that blocks 30 million miles of void, it takes a lot of time, enough for the Devil camp to make follow-up arrangements...

It can be said that with the formation of this long and empty sky, the two camps opposite the Scorpio have more than 50 million terrorist warships. Their original deterrence has been lost for a moment and has fallen into an extremely unfavorable passive situation!

This is the countermeasure that Ye Xuan thought for a long time, and he also successfully completed it by himself. In the meantime, he also carried a half-step immortal ancestor who was born and killed a second universe silver scorpion!

I have to say that this is definitely a miracle. Everything happens too fast. From the first emptiness of the sky, to the present, the whole sky is formed, only a few minutes before and after.

However, in such a short period of time, the two camps of the superfleet fleet, which had occupied all the advantages and initiative, completely lost their advantage and became passive.

All this is like a dream, just a few minutes of change, and today's situation is far more different than before, and all of this is done by Ye Xuan on his own.

Behind him, there was a mountain of cheers in the camp of the devil. The top of the devil's royal family in the central flagship fortress looked at each other and their faces were all relieved.

They were still worried about Ye Xuan, worried that he would be tossed on the front line alone, which would attract the attention of the top two camps. In the event that several immortal monsters locked him at the same time, they would launch a similar dagger-like action. The human race will be in great passiveness.

Even the ancestors who have added to the war on this chest will be restrained, and everything that follows will be hard to predict.

But they never imagined that the ten immortal grotesques in the other camp did not even shoot, nor did they know that it was because of the face or other considerations. In the end, let Ye Xuan take the thunder and lightning, in a short period of time. Within a few minutes, it reversed the unfavorable situation.

Even during this period, there was a half-step immortal shot to stop, wanting to kill Ye Xuan, but in the end it was directly suppressed by him without any suspense.

Such a means is simply amazing. Everything he has done is indeed worthy of the cheers of the entire group of demons!

On the contrary, in the 20 million warships of the Devil camp here, countless devil strongmen cheered for the thunder, and across the other side of the empty sky, which stretched more than 30,000 miles away.

In the more than 50 million warships of the two major squads, the top forces and ethnic groups from the third universe and the second universe were stunned and stunned!

In any case, they did not expect that this war has not yet begun, and it has fallen into such awkward situation. Although the top leaders of all ethnic groups know the existence of the eleven immortal monsters hidden in the dark, Even now, I have never doubted that this war demon will be defeated.

But most of the other underlying powers, but they don't know about it, seeing the original good situation, and in the blink of an eye, they have evolved into the now speechless situation. These big ethnic groups and the top powers of top powers We almost all have a feeling of sorrow.

Invisible, morale... Great damage!

Chapter 4013: Cosmic lion

"Hey!"

"Hey..."

In the void, the wolf-like shouts of the wolves resounded from the central field of the three camps, where more than five million indigenous beasts were turned into murderous vains and ruthlessly plundered.

In the void, there are tens of millions of corpses that have long been devoid of life. Most of them are the blood of the strong people of all ethnic groups outside the human race. They are huge, but they are not a problem for these millions of indigenous beasts. .

In just ten minutes, all the corpses were all divided by nearly six million indigenous beasts, and they were filled with storage space opened up in the body.

As for the corpse of the strong human race, according to Ye Xuan's instructions, none of these indigenous beasts moved.

Nowadays, the **** real will of all the strong families have been divided up. The millions of indigenous beasts, two or three of them are responsible for a warship, or push or pull, to the intact 2.5 million in the void. The size of the fortress is moving towards the opposite camp of the devil.

This scene is reflected in the eyes of countless strong men in the two camps on the other side of the Void, and suddenly it provoked a scream of resentment.

Too wrong!

The devil and the group of indigenous beasts are arrogant and unscrupulous.

Among the 2.5 million elite fortresses, there are tens of millions of strong people in each of them. They are first hit and all the souls are destroyed. Then the dead bodies are not finished, except for about a quarter. It seems too inconspicuous. It is estimated that it is not a few flesh and is rejected. It is not taken away.

The **** real will of countless other powerful families, without exception, was divided by the millions of indigenous beasts in the blink of an eye.

Seeing that they were both green eyes when they were divided into these corpses, it is estimated that they have to take some out to eat.

But this is still not finished, killing people, losing the body, and in the end, these shameless guys have not even let go of the two and a half million size fortresses that have become ghost ships, or drag or drop. All of them were moved to the opposite camp.

This is a start-up, it is simply a fire.

Originally, I wanted to play a horizontal, slamming the demon person with a loud slap in the face, but in the end not only lost tens of millions of strong people, but also let the other party whiten 2.5 million large and small fortresses, this special It is simply in the battle against the enemy!

At the thought of these, the numerous star-studded powerhouses of the two camps have had even a dead heart. Many people have been mad at the scene to spurt blood...

All of this, no matter how small, all of them were illuminated by the eleven immortal monsters outside the tens of millions of miles behind the two camps.

Although the conventional combat power is unfavorable, the original good situation is limited to passive in the blink of an eye, and even a half-step immortal from the second universe of the various factions has been suppressed.

But the eleven immortals are nothing to be moved. In their view, the victory and defeat of today's war is the power of decision-making. It is the ultimate task of conventional power. It is only in the main task of conventional combat. After the destruction of the demon community, it represents the major ethnic groups and top forces, and divides and strives for their own interests.

Although the conventional combat power is unfavorable at the beginning, at least the devil's emperor Mo Zhenfeng has already appeared. If he is there, he is not afraid of no way to force the ancestors who are regarded as the big troubles of their hearts... !

"A group of waste, sitting on the battleship army of more than 50 million, this is the beginning, but the other side has reversed the situation, but only one person is dispatched. This battle is simply a classic failure."

"The devil's emperor Mo Zhenfeng? It really does not mean that the four enchanting one, known as the first person in the young generation of the young generation, this battle is really amazing, but remarkable!"

"After all, I still rely on foreign objects. My own cultivation is actually too weak. It is only the third-order of the star's main territory. I heard that he has the blood of the ancient konjac, and there is a similar lion and lion. Blood and Mind, has been able to cast to the fourth change, can have the third-order strength of the domain in an instant, but it is still only an ant..."

"Now it seems that the immortality of the veteran of the United States is indeed the hand of this shackle. The golden age of the war is very stunning. After the excitement, it can demonstrate the power of the law of the sky, from that silver. The half-step immortality of the Yi people is dying in the midst of a wave of tides. The purple gold tide, the power of each wave, should be the lapse of 30,000 years!"

"Is it 30,000 years? Even if I wait for the immortality, there are no more than three waves. This is indeed a big killer. It can kill the immortality. However, according to the old man's derivation, the years of war, at most It can also inspire three waves of similar purple gold tides, that is to say, the devil's emperor Mo Zhenfeng still has the ability to suppress an immortal..."

"It's just that. Except for the years of war, there are three other warlords in the hands of this scorpion. The emptiness of the vacant battles has been abolished, and the first savage wars that used to be used

first seem to have only one blow. However, the scope of its power cover is wide, but it can only be a slap in the face of the existence of Qiankun. I am immortal, and at the very least, it is completely negligible!"

"Let's order, the Starship Wars temporarily stopped, let the half-step immortal shot, intercepted Mo Xiaoer, forced him to consume the three waves of purple gold tide of the golden years of war..."

"Yes, it is indeed a threat. Once the ancestors of the devil appear, I must wait for it. This Mo's child still has such a big killer in his hand, which can pose a threat to me, and I will be born with a change."

"Although I still can't turn the plate, but what is the honor of me? Even if it is only lightly created by the ants like the ants, it is unacceptable, too faceless!"

"If it is possible to force the devil's ecstasy to appear, it would be better. This battle will end in a short time..."

After some discussion, the instructions of the eleven immortal grotesques were quickly conveyed to the commanders of their respective ethnic groups through their secret channels.

At this time, millions of indigenous beasts, led by Taikoo Porcupine and Taikoo tortoise, have already pushed the 2.5 million-size fortress to the camp of the Devil. There are still some dead human beings in the void. In addition, there are the wreckage and debris of some warships.

However, all of these things are slowly drifting in one direction. Eight violent streams of three or four million in diameter have a sucking force that is swallowing up these wrecks.

Presumably, soon after this vast central battlefield, it will once again be washed and empty...

"Roar!"

It was also at this time that in the camp of the second universe of the right side, there was an earth-shattering roaring roar.

The half-step immortal step of the War Lions stepped out of the flagship fortress, directly manifesting the blood and the body, and even the talented supernatural powers of the lions were also fully activated in the first time...

Chapter 4014: Cross-border heads-up

"Roar!"

An earth-shattering roar roared, and in the flagship fortress of the Second Universe camp, the half-step immortal step of the War Lions stepped out of the cabin, directly showing the blood and the body, even the talented genius of the lions. Also in the first time, was fully activated...

"The **** lion...the fifth change!"

"Roar!"

The last roar, the half-step immortal lions of the War Lions swelled again and again, and they had reached an embarrassing step in an instant. Even Ye Xuan was shocked.

His konjac changes are formed by the changes of the lions and lions of the War Lions. The power and effect of the two are basically the same. It can even be said that there is not much difference in the roots.

Ye Xuan casts the fourth change of the konjac, and will have a **** and flamboyant konjac body, a body size of 100,000 feet, that is, 300,000 meters high, and a starry sky war. Quite, like a small meteor.

And the fifth change of the konjac, on the basis of the fourth change, the body type has skyrocketed ten times again, but the phagocytic system has not yet been derived.

The fifth change of the mad lion is also the same. In the fourth horrible body of the ten thousand feet, it has skyrocketed tenfold.

Nowadays, this half-step immortal lion of the mad lions shows the fifth change of **** lions. Under the skyrocketing body, the final level of reaching... is a million feet!

Stars are singled out and immortal?

This is more than just the order, it is simply cross-border and single-handed, and there is more than one big realm. After the star owner, there are domain owners, border owners, and the universe... This is a heads-up that transcends the three realms. Absolutely There is no history.

Today will happen, and it is doomed to be shocked!

Just as all the people were stunned, Ye Xuan had activated the konjac blood in his body in the first time. The human form was instantly transformed, and a three-headed, six-armed, ten-footed Taikoo konjac smashed the void.

It was cultivated as a strength, and by this time the third-order star of the star, soared to the eighth order of the star master, and then, it is the display of the magical scorpion.

"The konjac has changed... the first change!"

In the temper, the Taikoo konjac body of the ten-foot-high body suddenly surged, and an inexplicable blood force suddenly swelled in the body and gathered into a similar tide-like force.

The strength of the three real bodies of the Taikoo konjac was greatly increased. In the blink of an eye, only the body shape of only ten feet was directly raised to a hundred feet.

Cultivation for strength: the star of the nine-order Great Consummation!

The last violent rumor also came out at this moment: "The konjac has changed nine times... the second change!"

The roar of this roaring sounds in the wild, the three heads of the ancient konjac of Baizhang's body roared at the same time, and the corner of the sky trembled a little, and the blood of the body was like an inflated balloon in an instant. Double, reached a huge giant!

The exhalation of the body exudes breath, so it rises again. This time, it crosses the great realm and is completed by the ninth order of the star's main territory, reaching the first level of the domain of today's domain!

In just two breaths, Ye Xuan's cultivation has crossed a big realm. The star lord has changed into a domain lord, but this is still not his end.

If Ye Xuan is willing, then he can also display the third and fourth changes of the konjac nine changes, the body shape will once again skyrocket, reaching 100,000 giants, repairing the strength will reach the third level of the domain main!

But he did not make such a choice!

Compared with the first order of the domain master, although the two major orders are stronger, in the state of the fourth change of the konjac, the body shape of Ye Xuan's real body will reach 100,000 feet, despite the gas. Blood abundance and degree have skyrocketed many times, but compared with the size of today's size, it is too tight in terms of flexibility.

The immortal war lion of the mad lion is under the fifth change of the lion, and now it is a horrible body of a million feet. Ye Xuan still has a huge body size of 100,000 feet even if he exhibits the fourth change of the konjac. Far less.

In this case, why bother than the other body, than the physical strength of the flesh?

It is destined to be better than nothing.

It is better to keep the body size in the vicinity of a thousand feet, which is the second change of the konjac. Thus, repairing strength can not only cross a big realm, but also reach the domain master from the star owner without losing flexibility!

This is Ye Xuan's choice. He has decided to take a fighting style and fight against this immortal lion. The other's body is a million-footer. Although the blood is full of horrible, it must have flexibility. Missing, Ye Xuanxiu is weaker, the most suitable way to fight!

However, although this giant lion has no real magical means of immortality, because he was only half-step immortal, it was only because of the fascination of the lion and lion, the blood was activated, and the power of blood and blood surged. Entered the immortal world.

However, the strength and blood of the flesh is a real immortality. Ye Xuan is only the domain of the realm under the second change of the konjac. The difference between the two realms is that there is only one other party. Slap can't afford it, I have to be accidentally photographed, and I must be on the spot.

Therefore, even if Ye Xuan decided to take the form of fighting, the necessary protection is still indispensable.

"Do not destroy Nirvana!"

In the middle of the flash, he directly took out the armor from the immortal world, this war is after the seventh melting of the last time, but now it is the star to the treasure, but now Ye Xuan's fighting style is destined to use it very rarely. In front of this battle, he crosses the border and monotonizes the immortal grotesque, but he must rely on the protective power of the trenches...

Chapter 4015: Hardened

Whether it is not killing Nirvana or the blood of the devil, after the last melting, the appearance has changed compared with the previous one, and it has never been revealed in the identity of Xuan Huangzi, so the present is not extinguished. Nirvana, Ye Xuan has no fear that he will reveal the identity of Xuan Huangzi.

"Hey..."

The sound of the flowing water is smashing, and a layer of purple brilliance flows through Ye Xuan's body. The giant konjac is on top of it, and it is immediately covered with a beautiful trench. The brilliance is full of brilliance. people.

Today's invincible nirvana is the starry sky to the treasure, the size of the heart, even if the giant konjac real body, can also be sacrificed.

But it's just a trench, obviously not enough.

In the turn of the room, a **** black blade with a sinuous appearance appeared in the hands of Ye Xuan. It was the **** blade of his warrior, and the ranks also reached the starry sky to the treasure level, and the power was amazing.

"call out!"

In the end, Ye Xuan waved again, and the small private battleship broke out and hung over the foot. At this time, he had the real body in the second state of the konjac, and the broken shuttle was only a thousand under the ordinary state. M, at this time, Ye Xuan stepped on it, just like stepping on a flying sword, just right.

With the smashing of the shuttle, his speed and flexibility can reach the extreme. This shuttle has also entered the starry sky to the treasure level. It is rare in the world. At least Ye Xuan has never seen a second man-made environment since he entered the starry environment. The starry sky to the treasure-class battleship.

Of course, except for the Life Fortress Longye, it is no longer in the category of warships. The world worm is basically a kind of creature. The whole dragon horn is actually a world worm self-derivative group!

In the three camps where the enemy and the enemy confronted each other, there were countless exclamations in an instant...

"What? Three stars to the treasure? This..."

"The trenches, the warriors, the small private warships... all of them are all starry to the treasures, so that the foxes and the lords really do not deserve to be the existence of the Pharmacy Array. The magic weapon of all is built by themselves, and they all reach the starry sky to the treasure. !"

"At the same time, it is equipped with the body. Although it is only the domain of the main power, it is enough that these three pieces of treasure are enough to make him a big level of strength. It is the lord of the landlord and can also face a battle."

"Unfortunately, it is not enough after all. This time, what he is facing is an immortality, and the gap is still too big!"

.....

"Roar!"

"With only three stars in the sky, I want to cross the border and challenge the immortal? Mo Xiaoer, you are too naive!"

In the void, the size of a million feet, like a small star-like lion, screaming and screaming, the power of blood is too rich, and the emptiness of the sky is shaking: "What is your battle?" Why not sacrifice? Come out, look down on the deity?"

The reason why he played, is because he received instructions from the immortal old people in the family, the purpose is to consume the dynamism of Ye Xuan's hand in the years.

In order to enter the immortality, he has the status of a million-foot horror, the power of blood and the sky, and the resistance to one or two waves of purple gold tides will not fall down at all, and the top multiple injuries.

This is a fight against the wounds, but also for the eleven immortal consumption of the rhythm of the years of war, the purple tide of the tide, this thing only has a mad lion nine blood, great power, can show the true body of the million The lions and ancestors of the **** abundance can do it.

Once this task is completed, when the democrats are destroyed and the major groups share the interests with the top forces, his record will also gain more benefits and a greater share for the Lions.

"This war, the king only wants to temper itself, digest the income in the recent period, and resolve the shortcomings of the realm soaring too fast. Why do you need to slap the starry sky?"

Ye Xuan sneered, the voice is still not falling, the body shape has been quickly pulled out, rushing to the left side of the Lion Lion, a knife to go: "kill you an immortal, three great treasures come out ... enough!"

This is clearly saying that the other party should be regarded as the rhythm of the sharpening stone. The imperialism is squandered and the lion is scorned. The lion is screaming and screaming, raising the left forelimb, and slaps it to the lasing. Ye Xuan went to shoot.

Just like shooting a fly, this is the contempt and sarcasm of expressing your heart with action!

"call out!"

At the foot of the starry sky, the smashing of the singularity of the singer, the spurt of Ye Xuan's body shape turned directly, extremely dexterously drawn a perfect arc in the void, the speed is suddenly doubled, half a moment has been Close to the left rib area of the Lions.

"puff!"

The muffled sound came out, the right hand of the body of the konjac flesh and blood fell, the demon blood blade smashed, and a blood mark was found under the left rib of the lion's scorpion, and the pale golden blood splattered.

"Hey..."

The lions licked the pain, and the same condition was reflected in the same contempt. The deep anger and resentment, the body shape was reversed, and the right palm slammed into the air: "The ants are just such offensives and powers. Want to kill the deity? Is your brain getting into the water?"

Ye Xuan sneered, urging the broken shuttle at the foot, the figure in the void like a butterfly, once again with a beautiful arc, lightly flashing this blow, has already rushed to another area.

In the hands of the demon blood blade, a cheerful whisper, once again fallen...

The **** blade of the demon is the starry sky, even the body of the immortal grotesque can break open, but it is not deep, and it is a good thing, although it has left a thousand feet in the lion's lion's body.

Wound, but the latter in the fifth change of the lion, and now it is a giant of a million feet, like a small star.

It is just a wound of a thousand feet long. For him, it is completely a mosquito bite, and it does not mention the wounds and bones. Even skin injuries are not counted.

However, Ye Xuan is very satisfied, and the sneer on his face is still there.

Just in the moment of the right, the blade spirit of the demon in the blood blade has been awakened, and at the same time as the blood blade cuts the lion's flesh and blood, it has taken the opportunity to absorb some blood and vitality.

The lion has a million-foot scorpion, and it has lost a little bit of blood and vitality. It will not have any feeling at all, but in the long run, it will fall under the ants. hole.

What's more, in addition to the blade of the spirits secretly start, each attack has absorbed a small part of the power of blood and vitality, Ye Xuan has other backhands, that is quenching!

A few days ago, he had obtained 18 drops of scorpion venom from the immortal scorpion flying in the Alliance of the Ten Nations. It was a horrible toxin that could corrode even the void. Ye Xuan had taken out before the sorcerer's blood blade. A drop of venom is diluted with the congenital yin and cold spirit from the ancestors of the Yin Mozu, and poured into the blood blade!

Nowadays, with the singularity of this talent, this horrible scorpion venom has already entered the lion's body through the blood, but because it has been diluted, the lion even has no obvious feeling at all, although there is pain. However, it is believed that it is caused by the flesh and blood being opened, and it has never been taken seriously!

It can be said that under such a double-pronged approach, this point, the Lion Lien has been destined to fall, but only for a long time...

Chapter 4016: what happened

The war started and it will soon be in full swing!

The sorcerer's blood blade in Ye Xuan's hands is smashed from time to time. Every time he leaves a blood mark on the huge blood of the lion. Although it is not deep in the meat, it looks shocking, but unfortunately, for the latter million In the case of a huge horror, the blood marks of hundreds of kilometers of this road can only be regarded as skin trauma.

Every time, when the blood blade falls, the blade spirit in the blade will give a cheerful whisper. For it, this is definitely a big meal, because usually there are flesh and blood that can absorb blood, but that Just ordinary quality.

In front of this lion, its blood has evolved to a relatively high level. The strength of the lion is in the fifth state of the mad lion, but it has already entered the immortal, the quality of the body's blood, not the ordinary murderer. The beast or the starry sky is comparable.

Nowadays, the demon blade spirit has been fully awakened after the last promotion. It is no longer just the original Gorefiend, but has all the unique attributes of the ancient demon and the demon, like the demon regeneration, what is needed. This high-quality qi and blood power, as such, has great benefits in its evolution.

Ye Xuan's speed is too fast, and the blood of the giant body is on the broken virtual shuttle. It is used as a flying sword. Under the full force, the butterfly wearing the flower dances and the lion is smashing. The blood of a million-footer is really unmistakable, and it is so powerful that it is too heavy.

Although it has been roaring again and again, the whole piece of void has been quickly collapsed, but in a short period of time, it is simply not possible to Ye Xuan, the action is always slowed down half a shot, unable to keep up with his figure...

From here, only the blood of the lion's scorpion is already a million feet. Plus, he has entered the immortal cultivation, and between the two, he has occupied a huge void. The void of nearly 20 million miles between the two armies is almost completely covered.

Over there, the numerous camps of the three camps have been closely watching the development of the battle, but the orders of the top camps are still being issued from time to time.

On the side of the devil, nearly 20 million warships began to transform their formations in the void, and a group of indigenous beasts were gearing up, staring at the second universe of the universe in the void of 20 million miles.

In their eyes, a warship in the opposite side of the sky is full of flesh and blood, and I can't wait to rush to it.

As for the third cosmic Terran and the Second Universe camps, which are blocked by the Nether Sky, there are massive fortresses of all sizes, which are all gathered out before the two central turbulences.

These large and small fortresses are equipped with special space repair devices, that is, large space bridges, which are lined up in front of each other. The eight turbulent voids in the void are all huge, and the diameter is three or four million. But the size of the two camps is also a lot of fortresses.

Nowadays, all the big and small fortresses are concentrated in two turbulent space, and the space-integrator is fully opened, so as to repair the void of the universe that has been bombarded by the void war, in fact, it takes no too long time to see the results. .

It is conservatively estimated that at most half an hour, these two turbulent voids will return to normal. If there is time, then two repairs will be made. This is blocked by eight turbulent clouds, and the sky is empty for 30 million miles. It will completely lose its meaning, and it will no longer be able to form any effective restraint and restraint on the tens of millions of warships in the two camps...

Everything is in full swing.

As time goes by, these two are located in the center, and next to the turbulent void, under the repair of more than 10 million large and small fortresses to open the space bridge, the original three or four million diameter The volume, starting from the edge of the other side, shrinks rapidly.

In the face of all this, the Devil camp is worried, and seeing Ye Xuan's previous dangers in the depths of the enemy's camp, the virtual scorpion that has been tossed out will lose its effectiveness. All the demons are indignant.

It is a pity that the two warships opposed to each other have no way to exchange fire. The Ye Xuan and the Lion Lien in the central field of the battlefield are fighting fiercely. No warship can cross this area.

On the contrary, in the two camps of the enemy, the star powers from the third cosmic and the second universe were quickly excited from the previous sorrow.

The original low morale is recovering.

Because in their view, Mo Zhenfeng, the devil of the devil who is fighting the lion, is destined to be suppressed.

Yes, he is indeed a enchanting, and he has suppressed the immortal grotesque in his hands. Even just now, there is a half-step immortality. In a short breath, he was heavily captured by the public...

But all that, after all, he relied on the power of the war and the killer in his hands, and he was able to complete it. Now he does not sacrifice the war, but he only sacrifices the war trenches and battleships. One has already entered the immortality, and after the manifestation of the bleeding pulse, the body has a million-foot horror, and the blood is abundant to the almost desperate war lions.

This is obviously not the general arrogance and arrogance. For everyone, this battle, he is destined to break the void!

In addition, the virtual sky that has just formed and blocked the army of the 50 million battleships of the two camps will lose its role in the near future. At that time, the army of 50 million warships will be driven in one fell swoop. I believe that it will soon be The demon army in the sky is completely crushed!

The situation is changing in a direction of overall improvement, and all this is exciting...

"Hey!"

The lion and ancestor lions who are fighting with Ye Xuan are also very excited and excited. It's just anger!

It's too awkward, it's just a cockroach that can be shot at the end of the game. The speed is extremely fast, and the body shape is more flexible and horrible. Every time, his bombardment method is slow and half beat, and the other party is lightly Avoid it.

If other immortal encounters this situation, it may not be the case, because immortality has an immortal magical technique, and some are ways to cope with this situation.

But the lion can't do it. His strength is only the ninth order of the universe. It is half-step immortal. Now, although the blood of the lion is activated and the fifth change of blood stasis is applied, the body size increases. The power of qi and blood soared, thus temporarily entering the immortality in advance, but only the immortality of the flesh.

There is no magical magical technique that must be immortalized. It can only be crushed with the power of flesh and blood.

"Hey..."

In the heart of anger, the lower left side of the ribs, once again smashed a knife, a kilometer long blood marks appeared, pale gold blood splashed into the void, the lion even licked a painful tragic, subconsciously slammed the right The limbs are waiting for a palm to fall, but there is an inexplicable sense of weakness in the body, such as the tides.

Under the shock of the mind, the lion even exclaimed: "Nothing... what happened?"

Chapter 4017: cut

"Hey..."

In the heart of anger, the lion even screamed and screamed, and was about to press it down. The body had a strong sense of weakness at this moment, and it was so tiring that he was shocked and shocked: "No.what happened?"

As soon as the voice fell, his figure was suddenly awkward in the void, almost vacant.

It is immortal. After activating the blood and the body, it has a horrible body of a million feet. The power of blood is full of horrible, but nowadays, he feels extremely weak and has a soft discomfort. !

The heart of the police was born, the Lions will look at the mind for the first time, check the state of the body, and soon found the anomaly, looked up to Ye Xuan, arrogant: "Stinky boy, what did you move? Hands and feet?"

"The power of the deity of the deity has lost 20%... And what is the black mist in the body? Why can't it be expelled?"

"You... your sword is poisoned?"

"Congratulations, you got it!"

Ye Xuan sneered, his body shape shunned the attack, and in the blink of an eye he had spurred into the other direction, raising his hand and falling down, and his mouth was even more whispering, and floated out: "It is reported that the world is not divided. There is a big magic outside the domain that loses memory, and the mind is no longer evil. It hangs in the depths of the undead, and chaos all day..."

"One day, the evil thoughts are completely recovered, the big devil is born, turned into a dry blade, dark black light..."

"This blade is too magical, killing endless creatures, and the beggars are all dead, it is the blade of the devil..."

"puff!"

When it comes to this, the **** blade of the black and white bleeding in the hands is already falling, slamming, and on the outside of the left thigh of the lion, leaving a knife mark: "The king's warrior Inside, seal a blade spirit, it is... the devil!"

"As for the quenching you said..."

"Well, this king admits that a few days ago, inadvertently killed a flying scorpion...accurately speaking, it should be an immortal scorpio, whose blood has evolved to the peak of this species and become another kind of creature. There are nine pairs of scorpion wings, and the poisonous fog in the body can corrode even the void!"

"This king is fortunate to collect the strange poisonous mist in the nine-day scorpion, and condense a drop of scorpion venom. After a few days of idleness, he will smear back and forth on the front edge of the soldier, and pass the time, talk Take the day..."

"puff!"

"Puff puff....."

When I heard this, the lion even couldn't help it. I opened a few blood arrows in my mouth. The sky was like a heavy rain. The blood of the pale gold was like no money, and I sprinkled the sky.

Then, it was a fierce and horrible sound, and the emptiness was trembled: "Hey! Scorpio venom smear the edge of the blade? Send time, talk to the sun? Lying in the grass! Little **** you... This is absolutely deliberate!"

"Roar....."

At this moment, the lion's heart is so angry that he is almost skeptical about life.

If it is the poisonous mist in the ordinary flying scorpion, it is different, but the nine It has evolved to the pinnacle of this species.

Just as if a fox orb grows nine foxtails, it will be a life-like creature called a nine-tailed fox. The toxins in the scorpio scorpion are unusual, let alone these toxins. It is still obtained from an immortal scorpio with an immortality.

With the strength of the lion, the power of the lion can not be repelled and refining.

This battle no longer needs to continue, and he has no intention of fighting again. He must immediately heal the wounds and try to force the toxins out of the body, or refine them. Otherwise, the blood will recover if they lose money, but the body memory keeps this. A horrible toxin that can corrode even the void can be detrimental to its domino base for a long time. If you want to truly enter immortality in this life, it can only be a luxury.

Thinking of this kind of consequences, the lion even stunned his heart, and the whole huge figure shook a little, and then he did not love the war. He directly lifted the **** power of the lion and lion. The original size of the giant is visible to the naked eye. Just one breath, it has recovered to about a hundred feet.

"Bad boy, count you, today's hatred, the deity will be reported in the future!"

Turning to the first look at Ye Xuan, the lion even smashed the gloom of the endless hatred, swearing the next scene, turning around and wanting to retreat into the second cosmic army camp behind him.

"Is it too late to want to go now?"

Ye Xuan sneered and sighed: "Are you not half-step immortal? Since there is hatred, it is reported on the spot, and it will be reserved for the future... is it interesting?"

"call out!"

At the time of the fall of the voice, Ye Xuan urged the foot to break the virtual shuttle, and the body shape turned into a purple secluded man, and it was close to the eye in the blink of an eye.

After the dispelling of the **** magical powers of the lions and lions, the latter has now fallen from immortality. The original nine-dimensional perfection of the universe has been repaired as strength, and because of the lack of blood and blood in the body, and the existence of scorpion venom. Affected, only the middle of the universe is around.

Even so, it is still a lot stronger than Ye Xuan, who is only the first-class domain.

At this moment, the lion's swollen and bulky body is no longer restored to the size of a hundred feet. The flexibility of the figure is also rising. Seeing Ye Xuan screaming, even when he is furious: "You are looking for death!"

"boom!"

In the screaming, the Baizhang male lion does not avoid the flash, does not retreat, and goes straight to Ye Xuan, the right forelimb is lifted, when the chest wants to shoot!

"Card!"

"call out....."

The crisp lightning sound suddenly sounded without warning at this moment. The two bodies were still separated by dozens of miles. The black mist of Ye Xuan's real body suddenly waved, and the spirit of thunder and lightning was displayed. Lightning fell out of thin air and fell straight to the lion.

The latter's body shape suddenly stagnate, just avoiding this blow, and then the weak vacant sound has already sounded again. The **** blade that was originally held by the flesh and blood in the right hand, instantly turned into a dark red Mang, blinking and screaming, almost biting the tail of the black lightning, appeared on the side of the lion's head.

Then, before the other party has not reacted, it will be slashed...

"puff!"

The muffled sound came out, the lion couldn't get out of defense, the good head rolled down from the shoulder, and a lot of pale gold blood was washed out in the neck cavity, but in the next moment, it was all sucked away by the demon blood blade, and there was no drop in the void!

Even the true body of the Baizhang lion who was full of blood and blood, in a short few moments, completely dried up and dried up, like a dead body, it is amazing.

In the blink of an eye, a half-step immortality and complete degeneration, not only the body is destroyed, even the gods have not escaped, turned into nutrients, was swallowed by the blade of the demon blood blade...

"Hey!"

This time, the Blades and Devils can be said to have a good harvest. A big meal makes it very happy. In a light hovering, it is a direct retreat to Ye Xuan's body, and it disappears!

Chapter 4018: Who else is not satisfied

"call out!"

The faint sound of breaking the air, the blood of the demon turned into a dark red man, directly rushed into the body of Ye Xuan, crouched in the immortal world, no sound.

This makes Ye Xuan somewhat awkward, because the lions have been degraded, but the battle is clearly not over. Ye Xuan did not take the initiative to put away the blood of the dead, the soldiers are completely under the control of the blade spirit. Autonomously drilled into his body.

This is a bit strange, but Ye Xuan soon came to realize it, his heart was happy, his face showed an unexpected smile.

The lions are half-step immortal, this battle is smashed, all the blood and blood in the body, even the gods, are swallowed up by the Blades of the Dead, and this is definitely a big meal. Even the demon is somewhat unbearable and takes a certain amount of time to digest.

Otherwise, the Blades and the Devil will never be allowed to spur the blood of the devil without the consent of Ye Xuan, rushing into the body and crouching down.

If there is no accident, now the blade spirit and demon, after urging the demon blood blade into the immortal world of Ye Xuan, must have fallen into a sleep at the first time.

Soon after, when the Blades and Devils wake up again, their level of evolution will be higher, and the field power of the Devil's Blood Blade will also be transformed and sublimated because of this harvest!

Thinking of this, Ye Xuan's heart suddenly stirred up, and he was full of pride and arrogance. A majestic pressure came out from the body and turned to the opposite side of the void. He directed the two major squads and screamed directly: "Er, etc. Who else is not convinced?"

This kind of provocation is absolutely the disregard of the red fruit. I am alone in the void, and dare to scream at the two major congress camps with more than 50 million warships. Everyone feels that their faces seem to have been slammed. I am a little bit mad.

"Hey!"

"The little king of the surname Mo, you are only licking the magic blade to quench the poison, the lion's friend is always a big idea, you are concealed, dare to be crazy?"

A terrifying roar rang from the camp of the Second Universe and allied forces. Then, a huge war wolf with a golden hair rushed out of a flagship fortress. It was one of the top ten in the second universe. The commander of the fleet of the wolf.

One of the eight high-level leaders of the camp commanding parliament, a golden wolf with a half-step immortal cultivation!

"Now, the lion's body and blood and the **** of the lion have already filled the blade of your poisonous blade. If the deity is not bad, the poisonous blade will return to the nest. It will be a sign that the blade is in a deep sleep. With this poisonous blade, the deity looks at what you have!"

In the long and narrow shackles, the golden scorpion wolf stalked and turned into a sacred golden mans, rushing to the front of the void battlefield: "Today will swear you, a snowy my grandson is destroyed!"

The ancestor of this greedy wolf is named Wolf Xiaolin, who rushed out at this moment. On the one hand, because the temperament was violent, he could not stand Ye Xuan's arrogant provocation.

On the other hand, the lion has lost too fast, and the two sinister emptiness in the center of the emptiness of the sky has only been repaired to half, and this process is not allowed to be interrupted. Otherwise, everything will be abandoned and it will be repaired. The void is extremely unstable. Although Ye Xuan only has the strength of the domain's main territory, if it pays a certain price, it also has the ability to destroy it again.

In the end, Wu Xiaolin also had a bitter resentment against Ye Xuan. The former Qiang Kundao of the greedy wolf was captured by the fox lord not long ago. After paying the so-called levy fee, he finally returned to the ethnic group. .

But even if I go back, Qiankun Doji has been destroyed. Even if there is a holy medicine in the family to help him heal, there is no way to recover.

That Qiankun Daozi is the grandson of Wolf Xiaolin. It is a hateful thing for Ye Xuan, and it is reasonable to follow the first lion after the lion.

"You are a strong grandfather?"

Ye Xuan was quite surprised at this point. The look on his face suddenly became a little weird. After a moment of sneer, he sneered: "This king can be a strong wolf, can also marry you, and return yourself to the fun, otherwise the consequences will be conceited!"

"Yellow mouth children, you will marry you today!"

"Roar!"

"Greeting Wolf!"

The last roar, the wolf whistling Lin slammed into the sky, a circle of golden ripples spread out from his body, and instantly spread until the void.

This is the **** savage of the greedy wolf people. Not every greedy wolf can awaken. Sometimes no one of the generations can awaken and be normal, but the wolf howling is half of the family. Step by step immortal ancestors, naturally it is impossible to even show this **** strong power.

This last sound of wolverine, without anger, even the slightest emotional color, but it seems extremely long, seems to have some kind of mysterious rhythm in it, so that the three camps of countless strong people are shocked, can not tell that What a taste.

Then, a strange scene appeared.

With the long wolf of the wolf howling, the sound of the wolf is always resounding, and this sky of the battlefield has slowly appeared a bright moon...

This kind of **** magical power, Ye Xuan is not the first time I have seen it. I have faced it before when the Tianjiao wolf and the Qiankun Daozi wolf have fought hard.

It can be said that this kind of blood and magic is absolutely extremely tricky, because the moon in the sky is not a physical, but a projection of magical power, with mysterious power.

It is said that in this place where the brilliance of the bright moon can shine, all the energy will be taken by this strange supernatural powers, and will be swallowed and driven at will!

In this way, the greedy wolf people who possess this kind of blood and supernatural powers are in an invincible position after the exhibition of the gods. He is like a real greedy Sirius, and can be supplemented indefinitely in the battle. Consumption, greedily plundering all the energy of the moon, including the magical techniques that its opponents blasted.

Before Ye Xuan had a strong fight with the wolf and the wolf, the two guys claimed to be the genius of the family, and even one person was a singer, but after all, they were all younger generations, even though they had awakened the **** power of the greedy wolf. But the extent of comprehension is still very limited.

At the moment, the same blood and magical powers are displayed in the hands of the ancestors of the half-step immortality, and the power is obviously completely different.

The most obvious difference is that when the wolf is fierce and the wolf is strong and the two are showing the greed of the wolf, the moon in the sky is a silvery moon.

But now, Wu Xiaolin takes the half-step immortal cultivation as the strength, and the higher comprehension and accomplishment, and exerts the **** magical power of the greedy wolf and the moon, quietly and silently in the bright moon of the battlefield sky. It is the color of light gold!

A dazzling, pale gold color!

Even the moonlight that is poured out is also a mysterious pale gold, gorgeous, like a dream, revealing mystery, and this whole piece of vast battlefield void, and the numerous camps of the three camps are all plated. A layer of magnificent luxury...

Chapter 4019: Golden Wolf Moon

"Is the wolf whistling the moon? This month of magical power... is it still golden?"

Looking up, the full moon of pale gold is in the eye, and the look of Ye Xuan's face is not stagnation, muttering to himself, and thinking of the scene when he was fighting with the wolf.

At that time, after the wolf was fiercely displaying the greedy wolf and the moon, the Ye Xuan used energy lightning to carry out energy bombardment.

However, the lightnings completely collapsed at the first time of the outline, and turned into a faintly visible energy, which quickly rushed toward the sky and the moon was directly swallowed!

At that time, even Ye Xuan was shocked, only to realize the region where the moon in the sky of the greedy wolf can shine, and all the energy may be swallowed up.

Although the wolf was not yet cultivated to the extent that it was able to devour all energy in the moon of the greedy wolf, but in the area of the moon, the more active energy, the moon was sensed and exerted on it. Then, the possibility of decomposing and devouring it, the bigger!

At that time, Ye Xuan's spirit thunder and lightning threw out a few black spiritual lightnings. In the area where the moonlight shines, only those lightnings are too fast and the energy is extremely active, so they are instantly captured and decomposed. Lost.

This **** magical power that can devour energy at any time in battle is too strange, almost invincible, even the silver moon in the wolf's original strength has been able to do so, and today's golden moon of the wolf, Must be stronger.

Ye Xuan did not dare to neglect, the other side has a half-step immortal cultivation for strength, although not so lions in the former, in the activation of the lion lion nine change magical powers, immediately break through the realm, has the body of blood and immortal fighting power.

But even if it is only half-step immortal, with the help of the golden moon of the sky, the strength and threat of Wolf Xiaolin is not weaker than the lion.

However, Ye Xuan's warriors could not be used because of the blade of the spirits. In contrast, this battle was more difficult than Ye Xuan's, and it exceeded the previous battle with the Lions.

More importantly, due to the existence of this golden moon of the wolf, Ye Xuan even can not use any means of energy attack, such as spiritual lightning, which is a magical technique for long-range energy attacks. Once applied, energy will be used. It will be decomposed by the golden greedy wolf moon, and then swallowed up.

This is like an enemy, not worth the candle!

"This is to force the king to fight the half-step immortal rhythm with the power of flesh and blood..."

Shaking his head and sighing, Ye Xuan's heart was quickly excited. Before that, in fact, it was not really a matter of letting go of his hands and feet, to quench his body. After all, the lion's fall was basically because of the blade The reason for the magic and the venom of the scorpion.

However, this war is different. The **** blade of the demon can no longer be used. The various magical methods such as spiritual lightning and lightning are not suitable for display. Ye Xuan's only choice is close combat.

This is the best way to fight the battle.

Not long ago, he made a breakthrough, and every time he swallowed a large number of top-level treasures, even the resources of the evil source liquid are two drops each time, and there is a quasi-desert ancient level of purple gold hollow rat treasure flesh. Baked and swallowed.

It can be said that although every time a smooth breakthrough, but Ye Xuan's body is apparently still a lot of drug power has not been completely refining.

In this battle, he is ready to let go, to quench his body. If he can refine all the medicines remaining in the body meridians and bone blood, and melt away some of the physical potential, then break through after World War I. It is inevitable!

Thinking of this, Ye Xuanton feels full of pride, and his hair screams loudly...

"Hey!"

"The konjac changes... the third change!"

Previously, although Ye Xuan activated the blood of the konjac in the body, in order to maintain flexibility, to facilitate the fight against the lion, it is the blood of the konjac, just to show the second change, the body shape remains About a thousand feet, repairing the strength to maintain the first level of the domain, will not continue.

But now, he and the wolf howling forest can only be close combat, Ye Xuan needs a more powerful flesh and blood, so, can only continue to stimulate the follow-up changes of the konjac.

At this moment, with the expansion of this **** magical power, the power of the violent sorrows in the three real bodies of the konjac has skyrocketed again and again, like the same roaring river, directly driving three heads and six arms. The konjac is like a balloon, and it swells quickly.

The blink of an eye will reach 10,000 feet from the original one thousand feet!

"The konjac changes... the fourth change!"

It is also a roaring sound, four wild, the eternal konjac of the dying body, three heads at the same time screaming at the same time, a corner of the emptiness has shivered a little, the blood of the huge body has reached a thousand feet, and instantly rose ten times again, Achieved the horror of a hundred thousand feet!

Here, Ye Xuan's flesh and blood strength has skyrocketed by a hundredfold, and the body's exhaled breath has once again soared two small steps, and the former domain's main domain has reached the first level, reaching the current domain's main territory. Order!

This scene and the previous lions smashed the lion's ninth-changing magical power, showing how the blood is so beautiful, because Ye Xuan's konjac has changed, originally from the lions of the war lions, the devour system The evolution evolved.

Nowadays, his body shape has skyrocketed by a hundred times, and he has a **** body of 100,000 feet. Although it is still not as big as the million-footed body that Lion Lianhua owns after the fifth change of the lion dance, Compared with the wolf whistling forest in front of the emptiness of the sky, it is still shocking.

More crucially, Ye Xuanxiu is weaker than the other side. At this moment, he gave up the way of dexterous wrestling with a smaller body shape, which shows that the giant body is huge, clearly distinct from the half-step immortality. The rhythm of the wolf's frontal melee... As soon as I thought of it, the countless strong men of the three camps in the distant virtual air battles, they sighed and snorted, and the snoring sounded through the void.

This man is too arrogant, and he is so arrogant that he is horrible, and the third-order domain of the domain is dare to fight with the ninth-order grandiose half-step immortal frontal combat. It is impossible to understand where his daring comes from!

"I want to fight against the deity with the flesh and blood? Today will be yours..."

"Hey!"

Wolf Xiaolin roared up and shouted again, and his original **** body was soaring again, reaching the same 100,000-foot giant as Ye Xuan.

Although he has no **** magical powers of lions, it is half-step immortal, forcing the power of blood and blood, and in a short period of time, it can force the body to soar to 100,000 feet.

Although this is the limit, it is exactly the same as the Ye Xuan body in the fourth state of the konjac, just a battle!

"Roar!"

Seeing each other also motivated the blood, forced the body to a hundred thousand feet, Ye Xuan three heads and six arms of the konjac three heads at the same time screaming at the same time, chanting, a black at least 200,000 feet The big head is banging in the hands...

Chapter 4020: See also big stick

"This stick... it's familiar!"

"Yes, it's really familiar, and it's too big. It's a black stick, it's actually 200,000 feet... Why does the old man suddenly feel a bit of a shock?"

"The big head is black! I remembered it. This is the murderous stick. In the first time in the story of the evil source, the Taikoo konjac screwed it around and knocked the sap, and the second cosmic genius Knocked out of the captives, the few degraded Qiankun Taoist, is the way to it..."

"It's actually it? No wonder, at that time, the Taikoo konjac was still weak, but it was able to knock on the stunned scorpion. It turned out to be an ancient treasure, and the size changed to 200,000 feet. This is the rhythm of a meteor that must be broken into pieces..."

.....

With Ye Xuan taking out the Shennong scorpion, not only did it appear in the form of a **** stick, but it also motivated its power. It changed into a giant of 200,000 feet. Among the three camps that were opposite each other, it immediately rang. A large exclamation.

Many people have recognized this fiercely **** stick. In retrospect, all the people of the various ethnic groups have been throwing out big bags on their heads, directly knocking away the scene of being dragged away. Like the tide, countless strong people are pumping cold.

Shennong Temple and Shennong Ding are a set of ancient treasures for the era of heavy weapons. However, the current Ye Xuan has not yet opened all its power, which may not have grown up with the Shennong in Shennong Ding. Related to the nine-color flame.

This era of heavyweights of ancient ages, once the power can be fully opened, the size of the heart, when small, can only be slap in the face, one by one, used to pick up medicine.

When it is big, it can suppress a vast star field.

However, Ye Xuan is still too weak, even if the fire in the Ding has just broken through to the Shennong five-color flame, the power of this era has grown a lot, and even some of them have been unsealed. The function, but when it is big, it is just like a giant star, and the hour is condensed to a hundred feet.

At this moment, although the **** stick that Shennong has turned into has reached 200,000 feet, it looks like a giant pillar, but in fact, this is far from the current limit of Ye Xuan.

The reason why the Shennong scorpion is controlled by a length of 200,000 feet is simply because he is in the state of the fourth change of the konjac, the blood is the body of a hundred thousand feet, and the **** stick of 200,000 feet is just waving. The most convenient.

Otherwise, as long as he is willing, this big head is black, reaching a million feet, there is no problem!

"Little bastard, you are looking for death!"

Wolf Xiaolin was resentful of Ye Xuan's original intentions. When he thought of the sinister wolf's strong 乾道 genes, he ruined it, and he ruined a good future, and his heart felt a sense of madness.

At this moment, he saw his battle with himself. He deliberately took out the big savage stick that had been smashed out of the wolf after the wolf was strong. The hate of the wolf whistling in the bottom of the heart was provoked, and the hair screamed and screamed. "Hey..."

"Hey!"

"Hey..."

With the screaming scream of the screaming sound, the sound of the low humming sound was heard in the entire battlefield, which made the scalp numb and a very ominous premonition.

Ye Xuan subconsciously looked up to the top of the sky, when he was fighting with the wolf and the wolf, the two men showed the **** power of the greedy wolf, and they could summon from the silver moon hanging high in the sky. A large number of energy light blades are rushing over like a sea of light.

At this moment, this low humming sound is obviously related to the golden moon of the wolf at the top of the head, which makes him vigilant.

However, in the golden moon of the sky, there is no abnormality. It is still like the water, pouring the earth, and it is very quiet!

Just as Ye Xuan was puzzled, in the void around his figure, countless golden half moonlight blades suddenly appeared without warning, and banged like a dumpling, wrapped in the shape of Ye Xuan. Come.

These golden half moonlight blades are not spurted out of the golden moon of the sky, but the golden moonlights scattered from the sky are directly gathered and concealed. It is everywhere, wherever the moon shines, any In the corner, it can appear in an instant, gathering from the heart.

It's so strange that it's extremely extreme, and it's hard to prevent it from being smashed by the sky!

Ye Xuan's face changed instantly, and he snorted, and he immediately wanted to avoid it.

"puff!"

"clank....."

Unfortunately, the action is slowed down half a step. Although he has avoided most of the golden half moon blade, but because of the huge body of 100,000 feet, the body shape is too large, like a huge target, facing this wonderful The raid to the extreme, after all, still made a point.

In just half a moment, at least hundreds of golden half moonlight blades fell on the three bodies of Ye Xuan's real body.

The flesh and blood of the body was immediately opened to a **** mouth.

Even the hard bones of the cheekbones, there are several bones above, and a shallow impression is drawn.

Even the body of the black fog, which is not a solid body, has been swaying for a few moments when it has been smashed by several golden half moonlight blades, so that Ye Xuan has the feeling that the spirit and spirit are shaken...

This golden half moon blade can actually exert effects on both material and non-material energy forms, and the power is so strange that Ye Xuan's heart suddenly sinks.

Looking back, when the moment suddenly appeared, the numerous golden half moonlight blades that gathered in and out of the crowd, in such a blink of an eye, have completely dissipated, collapsed into a little bit of gold, and then spread out. For the golden moonlight glory...

There is no trace when attacking, the golden half moonlight blade is everywhere, and it instantly condenses and spreads over the sky.

After the blow, all the golden half moonlight blades disappeared instantly, scattered into golden moonlight, such as mud cows into the sea... All this is too strange, it is impossible to prevent, Ye Xuan frowned, this blow is not harmful to him, after all, There are a lot of overwhelming golden half moonlight blades, but only a hundred more than you can come, and now the majestic power of the blood, you can easily fall.

But in the long run, it is not a solution. Such a strange attack, he is absolutely unable to prevent, the situation is too passive, and is in trouble.

"Roar!"

"Hey..."

Under the anger, Ye Xuan was furious, and the three huge heads of the konjac were all roaring in the sky, and the power in the body swayed to the extreme. Under the sway of the body, they did not evade and rushed to the golden giant wolf. In front of me, the body of flesh and blood is a big stick, and it crashes...

"How? Is this a messy square? With the repair of your small domain, you dare to face the deity? The brain can't get into the water..."

Seeing Ye Xuan seems to be irritated, the golden giant wolf screams and screams, sardonic words, upturned mouths, and even the smiles revealed are undisguised.

How about the abundance of blood and blood? Repairing for strength is a hard injury, this blow... He is not in the eyes!
