

Super D. S 4021

Chapter 4021: The fifth change of konjac

Seeing that Ye Xuan twisted the **** rod and ran straight to the wolf whistling forest, he was prepared to fight with the latter. Many of the three camps in the distant battles sighed and decided that Ye Xuan was anger and anger. Because it was lightly created, the face could not be hanged, and this lost its calmness and made such a faint move...

His **** stick is powerful. This is also an ancient treasure. Otherwise, the general magic weapon can be easily smashed into a black giant rod with a length of 200,000 feet.

It is a pity that this great treasure is very likely to knock on the descendants of the various ethnic groups. However, in the face of a half-step immortality, it is obviously too much too big.

If Ye Xuan's own cultivation is also half-step immortal, even if it is only the beginning or the middle of the universe, this stick can make the wolf howling.

It is a pity that the difference in the strength between the two is too great. The devil's emperor Mo Zhenfeng is only the third-order domain, and the target of his attack is half-step immortal. For the gap, let this sticking result become no suspense.

Even if the power of qi and blood is abundance again, repairing strength is a shortcoming that cannot be ignored.

"boom!"

"Hey..."

Just as everyone was sighing, the **** stick stuck to the wolf's head. On the one hand, Ye Xuan's speed was indeed too fast. On the other hand, the latter also had some big support. This stick is in the eye, so I was smashed with a porcelain, and a screaming scream of screaming turmoil, a dramatic change, my heart trembled!

A large swollen bag appeared on the forehead of the golden giant wolf. Like a long horn, the golden hair was drilled in the sac, and the black hair was bright, and the faintness was still revealing. It was shocking.

"How, how is this king playing the dog stick method?"

A stick, Ye Xuan has quietly retired, still holding the 200,000-foot giant black-headed stick in his hand, but there are some flames in the head, and the color is flashing. It seems that there are six kinds of colors. The color is extremely beautiful.

Shennong Temple is also a set of Shennong Ding. Therefore, Shennong Temple can also send out the flames of Shennong. Just now, if only by brute force, with Ye Xuan's current cultivation as strength, it is impossible to shake the half-step immortality. Wolf Xiaolin.

But just before the **** stick and the stick hit the front of the wolf's brain, the front end of the head spewed a dazzling Shennong flame, and the power of the six-color flame directly broke the defense, making this great power It can increase greatly, and it has the attributes of lightning and poison.

Just a stick, Wolverine was almost directly overturned on the spot.

This black stick collapsed, giving him a feeling of being thundered. After he finished, he was still in a state of weakness. He seemed to have some kind of toxin in the body. Although it was not very strong, he was so painful that he was Screaming and screaming.

This scene is beyond everyone's expectations. The countless strongmen of the three camps have opened their mouths, their faces are dull, and they can hardly believe everything in front of them... a half-step immortal, even a **** stick, Knocked with tears and long flowing, the whole body is pumping in the void, just like playing a pendulum?

After a short period of sluggishness and death, a large scream of excitement rang out...

"God, can anyone tell me what happened?"

"The golden wolf ancestor of the greedy wolf family, a half-step immortal detachment exists, actually cried by this **** stick?"

"It's just crying, tears are not counting, the whole body is still twitching, this is clearly a stick to the suspicion of life..."

"It's too ferocious! Is the Devil's Emperor really only the domain of the main repair? If so, how to explain this in front of you, it is not scientific!"

"There is nothing wrong with it. The **** stick is weird. Before it went down, there seemed to be a strange fireworks flashing at the head. Is it the golden wolf ancestor of the greedy wolf... is it hot?"

"Get out of the way, haven't heard of the half-aging ancestor who cried when he was burned by the fire. Can you swell the big bruises that are so big? It's clearly being smashed!"

.....

As these exclamations sounded, Ye Xuan knocked on a stick to the skeptical life, and the screaming screaming wolf eagle wolf ancestor, the violently twitching figure finally faded away, huge eyes The pair of gold dragons that had been turning around in the circle also stopped.

After fixing the gods, he lifted his claws and touched the big green bag that was bulging on his head. A more savage tragic sound rang again: "Hey..."

"Little bastard, you special, what is this ghost stick, deity I%¥##*....."

At this moment, the wolf ancestors of the greedy wolf, Wolf Xiaolin, wanted to kill the heart, and the sorcerer's mind had just recovered, and immediately roared and swore.

The strength of this heavy stick would not have made him so embarrassed, but when the **** stick fell, the six-color fireworks flashing at the head was too strange, and directly broke his physical defense.

In this way, a heavy stick, he simply waited for the repair of a body, in a completely non-resistive way to bear the general...

The other party is weaker, and after all, it is also the domain lord, and stunned such a horrible **** stick. It's cold and sturdy, and there is no defense in the flesh... Who can stand it?

It was also at this time that the phagocytic system in Ye Xuan suddenly heard a familiar tone, and the fifth change of the konjac that had been in the process of deduction was actually completed at this moment.

This is definitely an unexpected surprise, so that Ye Xuan is inexplicably inexplicable, and then hesitates, even if he is looking up and arrogant: "The konjac changes... the fifth change!"

"boom!"

The voice just fell, and the huge konjac of 100,000 feet was in the body, and there was a clear and audible roaring explosion. At this moment, the blood of Ye Xuan's body was like boiled water. , frantically churning up...

"call....."

With the tumultuous force of the body's blood and blood, Ye Xuan's original huge konjac of 100,000 feet is actually like a balloon that is inflated again. It expands rapidly with a speed that is visible to the naked eye. .

200,000 feet!

300,000 feet... until the last million feet!

Before and after, it is just a few breathing time. Ye Xuan's body shape is as big as the lion's ancestor's ancestors who had previously performed the fifth change of the lion lion. Only the 100,000-foot greedy wolf family, the golden wolf ancestor, At the moment, Ye Xuan, just like a small one.

Even the cultivation of the strength that is dispersed in the body is also stimulated by the success of the fifth change of the konjac. It has once again soared a small step, reaching the fourth stage of the current domain, which has been from the beginning of this big realm. Into the medium term.

The overall combat power can be described as a huge increase.

But this is not complete, because, with the ten-fold skyrocketing of Ye Xuan's body shape, the original 200,000 feet, a big blackhead that is longer than his previous body shape, has become a short one. The little stick, Ye Xuan looked down, and the corner of his mouth showed a sneer...

Chapter 4022: Star master fifth

With the body shape soaring ten times in an instant, the original 200,000 feet, a long **** stick than Ye Xuan's previous body shape, has become a short stick at this time, Ye Xuan looked down The corners of the mouth suddenly show a sneer...

Before it was only 200,000 feet, it was already a slap in the face of the golden wolf ancestor of the greedy wolf family. If this black stick is bigger, then... Ye Xuan himself is excited. Lingdi shuddered and shuddered.

It was also at this time that in his mind, a familiar system sound was heard again...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fourth stage of the star!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the fourth stage of the star!"

Breaked through!

This is expected, before Ye Xuan even broke through, every time swallowed a large number of top Tiandi treasures, even including the source of all evil sources, almost every time swallowed two drops.

These top resources have not been completely refining in the body, and some have survived. Now, with him, he has been fighting with the lions of the War Lions, and the wolf ancestor Wolf Xiaolin of the greedy wolf, and Almost all of them are fighting more and more positively, and the power in the body is pushed to the extreme.

The potency of these top-grade Tiandi Dibao, which remains in the meridians and bones, has finally been completely opened, and it has directly torn a human body's potential chain, which makes Ye Xuan's body and blood become a small step. .

This is like a barrel of water filled suddenly, which directly led to his practice, and after the development of these top resources, the overall surge, and also broke through a small stage.

But this is obviously not the end, because this time, Ye Xuan's phagocytic system, after the fifth change of the lion's lion, finally has a result. At this moment, under the fifth change, Ye Xuan's konjac's true body type skyrocketed. Ten times, it has reached an awe-inspiring giant, just like a small star.

As the body has skyrocketed, the body's power to fill the horrible blood is even more like a sea. It surges in the meridians and bones, and slams into a major body potential without any suspense. shackles.

So, after the familiar system prompts resounded, it soon sounded for the second time...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fifth stage of the star!"

"Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the fifth stage of the star!"

The fifth step of the star master!

Ye Xuan clenched his fists tightly, and the scorpion scorpion shot a strong and sturdy man, looking down, the revival of the fifth state of the konjac was breathtaking, and it was soaring in the brush...

Before he was in the third-order of the Lord's Star, the strength of the ancient konjac bloodline was eight steps.

Once the magic 猿猿变,,,,,,,,,,,,, 施施施施施施施施施施施施施施施施施

Now, although the strength of the deity of the deity has once again broken through and reached the fifth stage of the star master, then after the activation of the blood of the konjac, according to his previous calculations, the repair of the three-headed and six-armed Taikoo konjac state should be the first step of the domain master. .

Once you enter the fifth change of the konjac, its peak strength will reach the sixth level of the domain's main territory. This is the mid-term peak of the domain's main territory. Then there is a small-order breakthrough that can enter the late stage of the domain!

In fact, it is true. Today, Ye Xuan is the konjac of the three heads and six arms, and is in the state of the fifth change of the konjac. Therefore, with this breakthrough, the breath in his body rises rapidly, in the blink of an eye. Then, the fourth-order domain of the former domain master, soared to the sixth-order domain of the present.

All of this has already seen the stupid eyes of the three camps in the three camps, and it is just the eyes of the greedy wolf family, the golden wolf ancestors, who immediately turned around. The old guy immediately slammed his eyes and immediately opened his mouth. The face is dull, like the Thunder...

This is simply too enchanting!

Before a few breaths, repairing strength is only the third-order of the domain master. This is the blink of an eye, and it has reached the sixth-order of the domain master!

Although it is still within the same big realm, the former is the peak of the initial period of the territory, and the latter is the peak of the medium-term period. It is only one step away from the end of the domain. It is definitely not the same concept.

Even worse, people have even jumped ten times in size.

It was 100,000 feet before, but now it has reached a million feet. Like the old lions of the previous lions, it is like a small star.

Wolf Xiaolin can not have the **** magic of the lions who have changed their lions. Although his cultivation has reached a half-step immortality, as long as he does not enter the real immortality, his bloodline is the limit of his body. Maintained at the current 100,000 feet.

Ten thousand feet and one million feet, in front of each other, it has become a small point...

This is really awkward, and the wolf howling is spurting blood, but this is not finished, because the strength of the other side's cultivation suddenly rises to the next moment of the sixth stage of the domain, and that is the third of his. The flesh-and-blood body of the real body is held in the **** stick of the right hand, and it is also looking at it. When it laughs, it also starts the inflation mode!

300,000 feet!

Four hundred thousand feet... a few short breaths, in the end, the length of this fierce **** stick is fixed in the beginning of a million!

At this time, Ye Xuan's giant horror blood is still a bit taller. The thinner one is held in the right palm by his flesh and blood, and the thicker one is in the void, like a A small meteor-like, with a faint black awn, is full of cold.

At this point, Ye Xuan is finally completely satisfied, he is looking forward to this time again to knock on this golden wolf ancestor... what kind of visual effect will be!

With this kind of expectation, Ye Xuan's mouth once again outlines a sly smile, slowly turning around, three pairs of eyelids with three heads of blood and blood, all settled in the golden wolf ancestor Wolf Xiaolin of the greedy wolf Body.

The latter shuddered and chilled, only to feel the whole body cold, a very unpleasant feeling rushed into the heart, so that his scalp was completely numb.

"Little...small friends, don't be impulsive, impulsive is the devil!"

At this time, Wu Xiaolin, already needs to look up, can see the shape of Ye Xuan. In fact, the head of Ye Xuan's flesh and blood has his body so large.

Also, the stout round head of the fierce black big stick is even bigger than his body shape at the moment, thinking of the sour scene after it's coming to him, this moment of wolf Xiao Lin really doubts life!

In the heart of the slight tremor, at this time, he had completely lost his temper, no war, no trembling, and even the words in his mouth were no longer profitable, and became stuttered...

I am really worried that the guy who is staring at himself will not talk about it. If you pick up the stick, you will be stunned... but it is going to be dead!

"Roar!"

It was also at this time that Ye Xuan looked up and screamed, and the body's breath rushed out. This is clearly the rhythm that is ready to be shot.

The wolf howling face changed, not to mention, turned and turned around and ran...

Chapter 4023: No face, no skin

With the golden wolf ancestors of the greedy wolf family, they did not say that they turned and fled, and there were countless strong men in the three camps in the distance. I wonder how many people were almost stunned and sat down on the ground...

Many people even suspected that their eyes were out of order, and they saw such a scene of dog blood!

In the face of the half-step immortality, facing the juniors who only cultivated in the domain, the frontal battle, actually did not talk about turning and fleeing... This is really speechless, and the face of the aging ancestors was instantly defeated. Half a minute does not stay!

Sigh, it will sound soon...

"Oh, this scene... it's too hot eyes!"

"The golden wolf ancestor of the greedy wolf family, in the war, did not say anything, turned around and fled, saying that good temperament is fierce? Say good temper?"

"Although a little disappointing, but it should be excusable, that stick is really too embarrassing, the golden wolf ancestor of the greedy wolf is knocked and shed tears, people are playing swaying, this is just a small stick, now the stick Become big, whoever looks flustered..."

"Killing the Weir! This is really a killing squad, the temper of the half-dead ancestors, a stick is gone!"

"The second battle, is it going to end again? Is the devil's emperor Mo Zhenfeng really invincible, and can't be defeated? In the face of the war, he has to defeat two half-aging ancestors, and has not used the stars yet. Wars and other big killers, this is the real combat power of realism..."

With the voice of these arguments coming into the ears, the commanding high-levels in the other two camps of the opposite side of the Nether Sky, from the Third Cosmic Terran, and the Salo, the Palace of the Senate, and the Longsi Gorge, The other six semi-aging ancestors from the commanding assembly of the Second Universe and Allied Forces have already seen the extremes.

This is too sorrowful, and it is extremely irritating, and the aging ancestors of the deceased, in the hands of the devils who are not even in the power of the border, are eating in succession.

I was already killed by a former person. Although the second one was not killed yet, it was even more unbearable. It was actually a slap in the face and turned away. It was like a dog at home.

This is the same level, the same as the semi-aging ancestor, although Thrall and others did not play, but the golden wolf ancestor of the greedy wolf is so behaved, but they will lose all their faces. Light, completely dull!

"Wolf grotesque should be able to hold on for a while, and the two turbulent clouds in the middle of the void will soon be repaired..."

"Once these two turbulent voids are repaired, and the other two sides of the two sides are turbulent, they will be repaired at the first time. There is only one more hour to form the eight chaos of this empty sky. If the flow is empty, it will disappear by half, and the effect of tens of millions of troops in the two camps will be completely dissipated!"

"Prepare to cope with wolf weird, he can't insist on an hour, and sure enough, it is the four enchanting ones. It is said that the first person of the younger generation is the invincible **** of war that is being tossed by the Terran camp. I am afraid that it is far worse than him. At least, the invincible **** of war has not yet frustrated half-step immortality, but this child... is now the second!"

"In any case, we must insist on one hour. The third and fourth turbulent voids must be repaired, and the barriers will be broken. The overall situation of the entire battlefield will be reversed again!"

"The Terran, the Federal Senate, my second cosmic camp, there have been two battles, and it seems that you should be playing..."

"Just just delay an hour? Is it true that you in the second universe, would you like to swallow this bad breath? The old man means... If you want to fight, then make sure that the suppression is not enough, then go to a few more The semi-aging ancestors singled out him alone, this is a star-level battle at the level, what face can be said!"

"This...reconsideration!"

"Seconded!"

.....

Quietly, a group of semi-authentic old monsters reached an agreement in private, and drafted the nature of the next battle, and planned to shamelessly immortalize with a few half-steps, single-handed Ye Xuan!

This is really enough to have no face and no skin, but this kind of plane-level star wars, the interests involved are too great, a whole universe plane may fall into the bag, let alone the ten-dead half-step immortal. When necessary, even if it is a real immortal, you can turn your face and not recognize people.

What is the face?

As long as the devil's ethnic group can be taken down, the entire first cosmic plane will basically fall into the control of these two major squad camps, and be divided by the top powers of the second universe and the third universe.

By then, a large number of cultivation resources will come in, the development of ethnic groups and forces will enter the fast lane, and some of the top resources and heavenly treasures unique to the first universe will be collected by the following forces and will be supplied to major forces. In front of the core of the ethnic group, let them choose and enjoy.

This is absolutely once and for all. After the war today, what is harvested is the cultivation resources that are available at the end of the long years. Everyone knows the choice!

In fact, even in the void behind the two camps, only a glimpse of the gods quietly entered the first cosmic plane, paying close attention to the eleven immortal mortals of the situation, if not to be removed. The ancestors of the devil's group have a big heart. At this moment, facing Ye Xuan's arrogant arrogance and arrogance, I am afraid that I have already disregarded my identity and personally shot him...

"Old guy, I just want to escape now, I am afraid it is already late."

In the center of the void battlefield, Ye Xuan saw the golden wolf ancestor of the greedy wolf family. He said that he turned and fled. He suddenly sneered, and the next moment, his body was already in front of the other side. No way, he is now. The size of the body is too large, like a giant star, just a step is millions of miles!

"boom!"

A step in the void to block the other side's escape, Ye Xuan did not have too much nonsense, smashing out the cold cold mans, the three real body flesh and blood of the right hand suddenly rose, the length of more than a million The giant black-headed stick of Zhang's giant was smashed out in an instant, facing the greedy wolf family Golden Wolf ancestors.

"call!"

"Card..."

At this moment, near the head of the black-headed stick, the Shennong six-color flame of the canopy suddenly appeared. With Ye Xuan's crowbar, the tremendous power and the power of Shennong's six-color flame superimposed, the universe's void All of them have heard the sound of a soothing sound, which seems to be completely collapsed at any time.

Too cruel, a stick out, the wind and cloud discoloration, the black-headed stick has not yet fallen to the front, the golden wolf of the greedy wolf is immortal, the legs and legs are soft, the face of the sultry, the eyes are thick strong mans despair.

"boom!"

"Hey..."

The next moment, a large black stick crashed on a gold wolf ancestors of the body, the huge giant ten lofty blood Mami, went so far as Scarecrow in general, direct inverted out.

The screaming screaming in the emptiness of the sky is simply a movement of the seeers, and the tears of the readers...

Chapter 4024: Stick kill

"boom!"

"Hey..."

The emptiness of the emptiness in the air, it is simply to see the moving, the smell of tears...

As the black-headed scorpion smashed down on the body of the golden wolf ancestors, its huge **** body of 100,000 feet was actually like a scarecrow, and it flew straight out.

This record is too embarrassing. Before the black-headed stick was only 100,000 feet, he immediately knocked out a shocking big green bag on his head, and he had a long horn on his head.

Nowadays, the blackhead is so strong because Ye Xuan's body has skyrocketed, and he has ignited his internal domain. It has turned into a giant giant's giant giant rod. As soon as he sticks down, he will not be the golden wolf of the greedy wolf. The ancestors directly bombarded the meat sauce.

If only by brute force, with Ye Xuan's current cultivation as the strength, it is impossible to shake the half-step immortal cultivation of Wolf Xiaolin. But just before the **** stick and the stick came out, the front end of the stick head spewed out the dazzling Shennong flame, and the power of the six-color flame directly broke the defense, which greatly increased the power of this stick. And has the attributes of lightning and poison.

A black stick squats down. Not only does it have a feeling of being thundered, but it is still in a state of weakness after it is finished. There seems to be a toxin in the body. Although it is not very strong, it is painful. If not, one Half-dead ancestors, you can make such a terrible tragic shout in public.

At this moment, he was beaten by the second big stick and shed tears again. The whole body was twitching in the void, just like playing a pendulum. In a short time, the fear was slow, and the huge eyes were always in the golden eye. All turned circles, Venus messed up!

In the void, once again, a large sizzling snoring was heard. In the three camps that were opposite each other, countless strong men sighed and sighed, and they suddenly exclaimed again...

"The situation is a bit unsatisfactory, this is the second best. The golden wolf ancestor of the greedy wolf family can't hold it anymore. The huge body of a hundred thousand feet is like a scarecrow. It's hard to stop, but I'm still in the void, I can't find the North completely!"

"It's so shocking, a half-step immortal ancestor, is this the rhythm of being killed by life?"

"This is too cruel, killing people but the first place, a semi-aging old monster, the existence of a family of ancestors, actually want to be killed in public, the devil can be really cruel!"

"It seems too early to say this now? What about the second one? The golden wolf ancestors of the greedy wolf family have been miserably abused, and everyone has circled in the void, but people are not hard to resist. Didn't be blasted, the devil's emperor Mo Yufeng is enchanting, but the repair is weak after all, this is the biggest short board, maybe it can hurt the golden wolf ancestor, killing it...hehe !"

"This old man disagrees, I bet, the third stick goes down, it is definitely a fart, the golden wolf ancestor of the greedy wolf has been unable to hold back, and then the wolf dung will be knocked out!"

"Hey! Little voice, although the second universe has already withdrawn from the federation, but this time, after all, with the Terran camp, to attack the devil, even if it is the truth, it is not good for the friends of the greedy wolf to hear it. Well....."

.....

"boom!"

Ye Xuan did not pay attention to the resounding rhetoric in the void. After a stick, he once again made a big step. The figure of a million feet was like a huge star, and he caught up with the greedy wolf. The golden wolf ancestors wolf Xiaolin recently, the three real body flesh and blood of the right hand, the **** stick was lifted high, falling heavily...

"boom!"

"puff....."

This time, after the huge slamming, it was accompanied by a dull squeak, but it was not like the unscrupulous human race before that, a stick would make the golden wolf old. The wolf dung of the ancestors came out, but the abnormal sound of the flesh and blood.

Yes, two big sticks have fallen, and the golden wolf ancestor of the greedy wolf is still unable to resist. The second stick before him smashed his whole body and flew out. As the first stick, the big green bag left in the forehead of his **** body, how to see what is wrong.

Now, this third stick is once again degraded, the effect is the same as a stick on the big green bag that was made before... The bag is all like this, and then I'm going to think about it. Can know what the consequences will be.

A squeaking voice represents the basic degeneration of the golden wolf ancestor of the greedy wolf family. Its huge bloodline of 100,000 feet is like a rotten persimmon. It is directly recorded by Ye Xuan. It was flat, and the huge body was visible in the naked eye.

More cracks appeared, a lot of pale gold blood splattered the void, the flesh and blood of that part was turned into fat, and splattered together with the blood...

Although the wolf dung has not been smashed out, the result of the third record of the **** stick is similar to that of the unscrupulous human strongman. The golden wolf ancestor of the greedy wolf is not even Direct killing, but it is not much better.

The huge bloodstains smashed into a large piece, and the bones and blood inside were all mixed together and turned into fat. With the pale gold blood splattering the sky, it was impossible to live...

The aging old ancestors were not so unbearable, but the property of Shennong Six-Color Flame was too strong, not only to break the defense, but also to ignore the physical strength of the Golden Wolf ancestors, but also the attributes of lightning and poisonous flames. .

Before the first stick, he was able to hold on, but the second stick was ten times as big as Ye Xuan's deity and **** stick. The former's blood is far from the past, and the latter's weight alone is already awkward. Hear.

At the same time, the characteristics of lightning and poisonous flames contained in the six-color flame rushed into the body of Wu Xiaolin, in the meridians and bones. It's raging, and its state is instantly depressed to the extreme.

Then, before he was knocked, the consciousness of counting stars in the state of the circle was restored to the clear, and the third stick was once again hit, and the interval of time could be neglected.

Not only did the faint golden wolf ancestor Wolf Xiaolin fail to respond to it, even the other six semi-aging ancestors of Thrall, Palace Shouxin, Longsixia, and the Second Universe's commanding assembly. There is no time to rescue!

When they finally woke up with a look of sorrow, and wanted to save, Ye Xuan had sneered and slammed the fourth **** stick and slammed it down.

"boom!"

"puff....."

The huge bang came out, followed by the dull screams, but it was even more shocking. This **** stick went down, and the huge blood of the golden wolf ancestors of the greedy wolf family completely exploded and turned into a light The golden flesh is empty.

This feeling, like a huge rotten persimmon, was broken into a puree by a stick with a stick!

At this point, the second semi-aging ancestor of the two major squad camps, hehe!

And still... life is killed by the stick!

Chapter 4025: Four semi-destructive battles

The second half-dead ancestor fell, and it was so miserable that he was killed by a rod, and there was no death.

Among the three camps in the airspace, some of the star-studded stunners were stunned, although it was guessed that the half-aged ancestor of the greedy wolf was mostly in the cup, but when all this really happened, and it was so fast, They are still somewhat unacceptable, and their minds are shocked.

Some, just shaking their heads and sighing, it is not surprising that this scene happened in front of you. As early as Ye Xuan's body shape has soared tenfold, reaching a million feet, and even the **** stick in his hand has followed the skyrocketing volume. When they were already stunned, they realized that the tragedy was about to happen...

But no matter how the people in the distant battle react, everything in front of them is an established fact. The half-aged ancestor of the greedy wolf has been completely degraded, and the huge blood of the hundred thousand feet has been reduced into one. The group of meat sauce is foggy and scattered in the void. It can be said that the gods are destroyed, and the means of rebellion against the sky can not be saved.

Behind the two major squad camps, the eleven major ethnic groups and the top-ranking immortal grotesques are also all stunned. For this result, they are also caught off guard!

"The konjac has changed? I have never heard of the ancient konjac. I also have this kind of **** magical power. Basically, it is equivalent to the lion lion of the war lion. It should be improved after the lion lion is changed. It is no wonder. At the beginning of the various ethnic groups, only the Lion King of the War Lions was not redeemed. Now it seems that the mad lion has been leaked from his hands..."

"This son is really enchanting, got the mad lion nine changes, in a short period of time, actually turned it into a konjac change for the konjac blood, and also realized the fifth change... these talents, if let him Growing up, it will be a big disaster in the future!"

"There is still a **** stick, not only the ancient treasures, it seems that it is far from the ordinary wild treasures, the chances are too deep, the ancient wild treasures in the hands and the treasures of the world, at least a few!"

"You must kill! After the ancestors of the demon people's group appeared, the friends of the Tao, specifically split the two to shoot this, to the second enemy, although there is a loss of my identity, but this matter can not be neglected Everything is to kill or take advantage of this!"

"Seconded!"

"Seconded....."

At the same time, Saar, Palace Shouxin, Longsixia, and the other six semi-aging ancestors of the Second Universe's commanding parliament were suddenly awkward.

Although they have already seen that the golden wolf ancestors of the greedy wolf are not defeated, they must be defeated. They are all ready to rescue. Who knows that everything that happened later is too rapid, and they simply can't let them have time. Everything has happened, and the golden wolf ancestors of the greedy wolf family were directly smashed into **** by the **** stick, and Mao did not leave one.

Such a change has shocked the ten-year-old semi-aging ancestors. They had previously felt that they had sent four semi-aging ancestors of the various ethnic groups to single-handedly pick the devil's emperor Mo Yufeng. This is really detrimental to the face. .

But now it seems that this guy is really too enchanting, can not be used to the common sense, the four semi-aging ancestors singled him alone, it is estimated that it is only a slight advantage, really less than two, it is estimated that there is no People dare to go.

The mind gave birth to this kind of enlightenment. The more than ten major ethnic groups and the semi-aging ancestors of the top forces felt shameful and angry, and they were so angry that they could not immediately suppress Ye Xuan. Immediately there were four figures from four different battleships. With the battleships rushed out, each turned into a mans, directly to the center of the void battlefield ahead.

The four semi-dead ancestors who were dispatched this time were the sacred palaces of the third cosmic human race, the sacred palace of the sacred palace, the immortal dynasty of the Terran sci-fi camp, the old dragon sac, and the Wanda Federal Senate. The semi-destructive old Sal.

The last person is still from the second universe of the various ethnic camps, the semi-aging ancestors of the top ten ethnic groups of the bulls!

The vice-president's palace in the sacred palace of the sacred camp is a young man in the Qing dynasty. He is full of serious faces. After his body shape rushes out, he waved five colored clouds of smoke and wrapped his body shape. stand up.

This is a magic weapon, named Taiyi Wuyanluo. Once it is sacrificed, there are five colored cloud smokes, the size of the heart, the protection of itself, not afraid of the magic weapon, is a bodyguard, the ranks For the stars to treasure.

Gong Shouxin was obviously shocked by the fierce **** stick in Ye Xuan's hands. He feared that he was also like a golden wolf ancestor of the greedy wolf family. He was directly smashed into a bolognese by a stick. The ancestors of the aging, and the four people are the same, it was the first to sacrifice the defensive magic weapon, but also really speechless.

It is from the semi-destructive Lao Longsi Gorge of the immortal dynasty of the Terran Science and Technology camp. Because it is the road of physical repair, I don't know whether it's self-defeating, and the body shape is rushing out, and there is no such thing as a defensive magic weapon. Instead, a finger between the fingers, the **** between the left finger spurt out.

These two rings belong to the attack magic weapon, and the grades are also starry sky treasures. They are made of celestial comets. They are said to be the inheritance treasures of the immortal dynasty. The two rings contain endless Tianzhu star sand. When not in use, this treasure is only used. It's just two rings, but once it's urging, it can send out a huge amount of heavy star sand.

At this time, a large piece of green light spots to Ye Xuan's huge **** body spurt away, it is this kind of Tianzhuxing sand obtained by direct condensing of stars!

As for the semi-dead veteran Sal from the Federal Senate of the Vatican, it is a direct manifestation of the blood.

Thrall is not a human race, but a strong man from a small family in the Second Universe. It was squeezed out nearly 10,000 years ago, representing the family entering the federal headquarters of Varo, and now it has grown to such a high level.

At this moment, the body is manifested, and it is actually a giant foot of Jinwu. The whole body is filled with golden fireworks. The scorpion is more fierce and sturdy, and the end is extraordinary.

The last one is from the second universe of the various ethnic camps, the semi-turbine ancestor of the top ten ethnic groups, and the flagship fortress that rushed out of the flagship fortress, after the sound of the calf, even when the body was activated The blood veins show the blood of the giants, and the green cows lie in the void, but they have two golden horns, and the skin is rough and rough.

At first glance, the defense and attack power are very strong.

"Like the fox, die!"

The blood of the giants of the vastness of the real body appeared, and the horns turned into a roar of anger and anger, and the four hooves rose, directly rushing toward Ye Xuan in the void.

The Qiang Kundaozi horn of the clan was also captured in the previous misfortunes of the source of the evil. Later, although he was redeemed in the family, his Qiankun Daoji was completely destroyed, completely ruining the practice road. For the cattle, this is a huge loss that is extremely difficult to bear.

At this moment, the old hate rushed into the heart, and the horns turned into the body of the bulls. The defense in the top ten groups of the second universe was the strongest. It was the first to be difficult, and it seemed that there was no fear of Ye Xuan's **** stick...

Chapter 4026: Enemy in the sea of fire

This semi-aging ancestor rushed out of their flagship fortress at the same time, spurred on their physique, and came to the central area of the two armies to fight against the void. This is clearly to join forces with the devil's emperor Mo Yufeng. Rhythm.....

Seeing this scene, there was a loud scream of resentment in the camp of the devil, and there was more ridicule and ridicule, but there was no other way for the devil.

Because of the strength of Ye Xuan, almost every demon group and the strong in the family have strong confidence.

What does self-esteem and semi-aging eccentricity count? Just a few days ago, four real immortal monsters joined forces to fight, and they were all killed by him or not, and none of them ran away.

It's just that all the demons are clear, but the countless star powers in the two major conquests from the Second Universe and the Third Universe do not know.

At this moment, I saw that one side of the party had simultaneously dispatched four semi-authentic old monsters, and they were singled out the devil's emperor Mo Yufeng, but only the domain's main body was repaired...

This scene is a bit too embarrassing. The countless star powers in the two camps are first glimpsed, and then all the faces are full of strange colors, which is extremely shameful.

It's just that these four semi-aging sins contain two camps. Although the following strong families are dissatisfied, they feel that there is no light on the face, but no one dares to sing, only some whispers are discussed. It disappeared, afraid to be settled after the fall!

"Four semi-destructive monsters? Yeah, lest this war drag on for too long, the king will be a pair of four, single out a few of you!"

In the face of the four murderous and ruthless old monsters, Ye Xuan was fearless and released his words, and suddenly he provoked a violent whisper in the three camps.

This is really too enchanting, too bad.

With the cultivation of the domain's main territory as its strength, in less than an hour, the way of confrontation with the front has already been suppressed or strangled, and the two semi-aging ancestors have been solved.

But now, at the same time facing the combination of four semi-aging geeks, the devil's emperor Mo Zhenfeng once again released his arrogance, saying that he would use a one-on-four to carry out the so-called heads-up.

After this war, the prestige of the first star of the youngest generation of the three star-studded masters was completely laid, and no one could shake it anymore, even today, the invincible **** of war still tossed in the third cosmic humanity camp. Can't compare with it!

This is a supreme enchantment. Once you grow up, the endless Xinghai will lose its glory in front of it!

"Roar!"

"Yellow mouth children, you are not afraid of the wind and flashed your tongue?"

The rotten bulls' semi-aging ancestor turned into a roar, and the huge bulls of the giants were covered with secluded green awns. The speed was mentioned, the more they approached, the two golden horns on the top of the head were flashing, and no one ever Suspected that it is sharp, once the Devil's emperor Mo Zhenfeng's million-footed konjac is hit by these two golden horns, he must be ruined.

The deputy palace owner from the Terran camp of the Terran Reconnaissance camp, the semi-juvenile strongman Gong Shouxin is cold-hearted, and the whole body is guarded within the five-color **** smoke. The whole person is illusory, without a trace of smoke, and quickly and violently However, once approached, there must be a lore.

The semi-permanent emperor of the immortal dynasty is the sea of the star sand, and the rumbling of the sea, the mile of the head is covered by the endless star sand, each of these stars can be turned into one Small meteors, heavy and incomparable, can prevent attack, can also be afraid of the **** stick of the devil's emperor Mo Yufeng, enough to block!

There is also Thrall, the same as the semi-destructive realm, and now the manifestation of the bleeding pulse of the real body, spread a million miles between the wings, is actually the first to get close to the magic man, the younger brother Mo Yufeng in the range of thousands of miles, the whole body The golden fireworks are swaying, and under the spray of a mouth, a sea of fire is coming to the enchanting body of a million-foot konjac.

This is based on the attack, and the fire and sea dragged the devil's emperor Mo Yufeng, blocking the rhythm of the **** stick in his hands...

"The fire of Jin Wu? Is this meant to force the king to accompany you to play with fire?"

Seeing a large golden flame swept over, Ye Xuan not only did not panic, but smiled. At this time, the golden moon of the sky, the moon of the wolf, has long since disappeared. .

Ye Xuan did not dare to use the magical attack method such as the magical technique, but now he is not bound by this point. When he sees the other person, he will be provoked by fire. He is in the middle of nostalgia, and then hesitates to wave directly from the body of Shennong Ding. The interior space has drawn a large piece of its mighty sea of fire.

Each cluster of flames has six colors of different colors, it is the Shennong six-color flame!

Shennong's different flames are different from others. It is not a fire. Ye Xuan originally ignited the Shennong fire in Ding, and only a small cluster of flames at the beginning, but now grows up to the bottom of the volcano in the central space of Shennong Ding. In the Shennong flame pool, it has already been a flame.

At this moment, as he waved his hand, a flame composed of six-color fireworks rushed into the void, and the speed reached its peak, and the wind was soaring. In a short half-time, the flaming of the river became a The awning is boundless and boundless, and from the up, down, left and right directions, the four semi-aging ancestors who are spurred by the body are directly trapped in it.

Their speed is faster, but compared with Shennong's six-color flame, it is still slow. At the moment, all around it is a sea of fire, so that the four people's body shape is slightly changed, and all of them stop.

After standing in the void and turning around, I'm screaming with a sudden exclamation...

"No, there is a problem with this fire. There are actually six colors. It seems that this is the case with the fireworks that have been smashed by the **** bars."

"Old Sa, you have Jinwu blood in your body. The real Jinwulian nest is built in the star's star nucleus. The most fearless is the fireworks. Is this little **** actually playing with you?"

"Chongjie, Lao Sa, I received this piece of fire, I am waiting for the back!"

"Hey..."

Encouraged by the other three, coupled with the original self-confidence of the golden blood in his body, the semi-graduate veteran from the Federal Senate of Wanluo, with a scream of screaming, the original rushing to Ye Xuan The golden fire of the canopy was instantly retracted, and it was wrapped around its real body.

Then, the sound of the whistling sound is still not falling. This whole body is dark, only the sole foot, but the black crow that surrounds the gorgeous golden fireworks, has already flapped its wings, as if ignoring the frontal barrier of the sky, A fierce plunged into the strange six-color flame ocean...

Everything that happened in the next moment was no suspense, but there were countless strong men in the three camps.

"Hey..."

A fierce and horrible sound came from the mouth of this black crow, obviously a crow, but at this moment it made a wolverine sound, which can be imagined with the heel. At this moment, he is suffering What a terrible torture and pain!

Chapter 4027: Abuse

In this moment, in addition to the horrible sound of the black crow's mouth, there is no movement in the void. The three camps in the airspace against the three camps are all innumerable. They all hold their breath and look at the battlefield. In one scene, I can hardly believe my eyes.

The scene in sight was too horrified, it was like a big horror!

The fascinating black ravens of the giants, when they touched the six-color flame sea in front of them, the endless golden fireworks that were originally wrapped around their bodies, they were all melted in the snow under the sun. It is.

But this is obviously only the beginning, almost in the moment when the golden fireworks are swallowed away, and the black feathers of the black crows are burned in the blink of an eye.

If it is not early to see the plane, while screaming and screaming, while quickly withdrawing and retreating, I am afraid that it will fall on this strange six-color flame sea on the spot...

Even so, when he returned from the six-color flame sea to the original place, the black feathers on the whole body were not left.

Although it was not very good-looking, it was at least because of the golden flames of the whole body, so it was still a savage black crow, and the blink of an eye became a bald-haired chicken, and the whole body was still black, but it was not the color of feathers. It is caused by the near-burning of the skin of the body surface.

Even if you get fast, you won't be seriously injured, but it can definitely be regarded as undead and a layer of skin. It is simply speechless, and it is a half-dead ancestor, and there is a **** vein in the body, which is known as the fire-fighting. But at the moment, it was burnt like a six-color flame sea. How could it be a tragic word?

Looking at all this, Longsixia, Gongshouxin and Jiaohuacheng were completely stupid, and they were sluggish in the void. After two full moments, they trembled and shuddered.

When I look at the six-color flame sea that is shrouded around me, the ones are full of taboos and fears.

Just kidding, even the body has a **** vein of the ancient Jinwu, and the half-burning black crow, who is said to be playing with fire, is instantly burned into this ghost, which shows the horror of this six-color flame. Where do they dare to touch?

It's definitely a touch of rhythm on the spot!

Even among the top ten ethnic groups in the second universe, the most powerful defensive bulls and half-aged horns have become a squad, and at this moment they have not hesitated to directly reduce their size.

The former giants have shrunk to only a hundred feet... The size of the body is small, and the chance of being burnt is much lower. This is very important and should not be sloppy!

The barbarians are known for their rough skin and their defenses are horrendous, but it does not mean that they are not afraid of fire.

If this is not the case, the previous squashing into three people will not make the half-roasted black crows go forward. Now the latter has fallen into such a situation. The three faces face each other and their faces are very shy and quite embarrassing.

Of course, more is still anger and wrong, but there is no way, this strange six-color flame is obviously not a general fire, even the power of playing with fire can not resist, they are really true for a while There is no better way to break out.

People can't get out, they are blocked by the sea of fire, and the magical technique of one body can't be displayed naturally. The four semi-relenting ancestors, at the same time, join hands, no face and no skin, and want to single out a magical person who is repaired by a domain. Younger generation.

However, the result was just rushed out, and it was directly trapped in the future. In such a situation, it is really shameful. The three old faces that are all well-formed are all red. As for the half-black bear, it is watching. Not coming out, the whole is black, the surface is scorched, and the spirit is being revived...

The four semi-dead old monsters were blocked by the six-color flame sea. They all had no idea at the moment. They had a means of being empty, but they were completely unable to display them. But for Ye Xuan, this is the best opportunity. Shennong Six-color Flame is He was dragged and cast out, and the heavy weapon Shennong Ding was already refining. Ye Xuan was completely afraid of the Shennong Six-color Flame. It was like Lei Hai, and he could enter without any loss.

At this time, with the half-burning black crow Sawu screaming and hurriedly retreating, the giant scorpion scorpion of the giant scorpion, the three giant scorpions, flashed in the nose, and there was a cold voice in the nose. The flesh and blood of the three real bodies dragged the fierce black-headed stick in the right hand. It was followed in the first time and rushed into the flames of the sky...

All of this was long, but it actually happened in an instant. From Ye Xuan, he waved a six-color flame sea, and now he dragged a **** stick directly into it, but only one breath before and after.

Not only did the three camps in the three camps, which were in opposition to each other, fail to respond, even the four semi-aging ancestors trapped inside the flames, and the ten in the distance behind the two major squad camps, closely watching the battlefield situation. A crouching immortal grotesque...has not all responded.

When they found out that it was wrong, the huge body of the Taikoo

Then, the **** stick, which was dragged by the right hand of his three flesh-and-blood bodies, was slammed and slammed, like the Mount Tai, without hesitation, turning into the semi-aging ancestor of the bulls. , when the head fell.

"Old blind man, aren't you saying that you want to suppress this king? Now just look at it, you are the hard skin of this body, or the king's big head is black and hard!"

The figure is still in the six-color flame sea, Ye Xuan has been cold, the voice is still not falling, the **** stick has been squatting in the head of the head of the bulls. Among them.

"boom!"

"Card!"

"Hey..."

A shocking bang came out, followed by a crisp and unremarkable squeaky noise. It seemed that something had broken, and then there was a savage, but fascinating long wolf.

This stick is too embarrassing. The half-aged ancestors of the bulls are too late to prevent them. They are almost smashed by cow dung, and the two golden horns on the top of the head are broken. The four hoofs are soft and sit down directly in the void. The huge head directly swollen a huge green bag, and began to count the stars on the spot, as if the thunder had broken the brain, it looked stunned.

This big stick came too far, until the horrible sound of the horn turned into a sound, the Longsi Gorge and the Gong Shouxin reacted, but the movement was swift and incomparable, and one side avoided the blank area on the other side. Corner, full of vigilance.

Even Sawu, who was still slowing back to the soul, was also a glimpse of the whole body, and was directly scorned into this fiercely fierce voice, and it was completely scared back to the soul.

One can't see the distant sea of fire is the sacred konjac of the giant body, the right hand of the three flesh-and-blooded bodies, still holding the **** stick, seems to have just lifted up, Want to fall again...

"Don't..."

Sawu was so scared that he trembled and turned to the position where the Longsi Gorge and the Palace Shouxin were in the same place. The half-aged ancestor of the Tang Dynasty had been abused by a young master. It was really speechless.

Chapter 4028: The sky disappears

This scene in the front of the sky is really too spicy eyes.

A sea of fire, completely trapped the four semi-aging ancestors of the two major squad camps, and only the demon lord Mo Yufeng, who is only in the domain of the main territory, only took one shot at a time, and will be the vice-president of the Tiangong Palace from the two camps of the Terran The palace guards the heart, as well as the immortal dynasty of the old pavilion, the half-dead of the old dragons, the two brothers, scared to hide in the corner of the central area of the fire sea.

Like a frightened rabbit!

The half-dead veteran Sawu, who had just been abused by the six-color flame sea, was even more unbearable. At this time, it was like a helpless little girl who was smashed with clothes. Going back to the soul, looking back at Mo Zhenfeng, the devil's emperor who was carrying a **** stick, he screamed directly, and the scorpion also went to the corner to drill...

As for the screaming to suppress the devil's emperor Mo Yufeng, it seems that he is squatting with a rough skin that claims to be the first defense. He is completely afraid of the second cosmic bulls and half-family old people with **** bars in their hands.

Then it was knocked to a soft leg by a stick. At this moment, it was still sitting in the void. The eyes turned and circled the stars. Even the golden giant horns on the top of the head were broken, one more than the whole. The horror of the cow head is a big horror, it is shocking...

The four semi-dead ancestors, although they have no face and no skin, are clamoring for a single person who is only the domain of the devil, but when they are out of their flagship fortress, they are really imposing, no time. .

But nowadays, if the teacher is not successful, and even if he still has a shot in the future, he will be completely trapped. He will tremble in the cage and be hiding in the corner...

Such a scene is really shameful. Among the three camps that are far from each other through 20 million miles of emptiness, there is a wave of cheers in the demonic group. Some people are drinking, ridiculing and mocking. .

In the face of all this, in the two major congress camps on the opposite side of the sky, there is a sigh of suffocating voice. Some star power strongmen have raised their hands and covered their faces. They dare not scream, but they are somewhat unsatisfied. The cheeks under your palms are slightly reddish!

Shame! Not only shy, but also angry!

But there is no word at all, and the cultivation of others is weak in two big realms, and it is still a pick, but it is such a result, it is too embarrassing!

"Booming..."

It was also at this time, in the far back of the central field of the battlefield, the row was lined up by eight turbulent voids of three to four million in diameter, and the virtual sky formed by the sky, but suddenly there was a loud bang. .

After nearly a time of repair, under the full force of all the space-fillers of the tens of millions of large and small fortresses, the two middle places of the eight turbulent voids were finally completely closed and completely repaired.

The entire Tianzhu, which originally blocked more than 30 million vacancies, has a huge gap in the center, with a diameter of seven or eight million miles, which can accommodate a large number of warships side by side.

The emptiness of Ye Xuan, which was hard to come by, was paid by two half-dead ancestors in two rival camps, and four of them were still trapped, and finally they were disintegrated by a quarter...

The situation in the entire battlefield, with the disappearance of these two turbulent voids, has undergone subtle changes in an instant.

Originally, the battleships of more than 50 million giants in the two camps opposite the Sky Scorpio were completely blocked, but nowadays, the central area of this Scorpio has been opened up with a passage of seven or eight million diameters. Although the tenth generation of the army is still tight, it has not had much impact.

The sights of countless strong men in the three camps all gathered toward this gap, and the faces on their faces were different, and the weather was uncertain.

In the void in the far side of the two major squad camps, the eleven squatting in the parallel space, leaving only one glimpse of the gods, paying close attention to the eleven immortal grotesques in the entire void battlefield, and at this time again , they have communicated with each other...

"There is a need to change the strategy. It seems that it is not possible to force the ancestors of the devil's group by suppressing this Mo Xiaoer."

"Yes, this is really extraordinary. It is worthy of being one of the four enchanting ones. It is the first person of the younger generation in today's world. Although it is only the domain of strength, it is only the domain of the world. And the strength of the hand of a few pieces of the treasure, this son really has the ability to fight the real immortal."

"Before I was a light enemy. Now it seems that the immortal veteran of the Federal Republic of Venezuela, who was degraded here not long ago, should have been the result of this shot. Fortunately, the means of this son are extraordinary, but now it is counted. Basically exposed, the two semi-aging ancestors who were previously suppressed and killed are also credited."

"In this matter, when we turn back the interests, the share of these two ethnic groups will benefit!"

"However, waiting for the ancestors of the devil's ethnic group to appear, I waited for only two immortals to deal with this, and the horror will not be enough. The old man means... four!"

"The other seven are enough to suppress the ancestors of the devil's group in a short time... The deity has no opinion!"

"Seconded!"

"The only problem now is how to force out the ancestors of the devil's ethnic group. Since it is impossible to suppress this way, then it will be fully launched. With the strength of 50 million warships, the demons will be fully crushed. camp."

"So, when the war is fierce to a certain extent, the devil camp is so wounded and wounded, the ancestors of the devil's ancestors, and they can't get their hands! As for this Mo Xiaoer, even if the means are more enchanting, then you can use one person's power. Fighting the army of 50 million warships and turning the tide?"

"Let's order, just as the deity is good at the law of space, he will simply wipe out the other six vain vain, and it is convenient for the two camps of the 50 million warships to fully attack..."

The words are degraded, and this immortal blame claiming to be good at the laws of space has already shot.

"boom!"

"Booming..."

The huge bang sounded on the side of the void battlefield between the two armies, close to the side of the two major squad camps.

The true body of this immortal eccentric did not appear, but the remaining six turbulent clouds above the void, but there is a huge palm of a million miles away, blood blue color, revealing an endless Terrorist pressure.

The **** blue giant palms fell, just gently pacing, the six or four million diameters of the turbulent flow of the void, one moment there was a flattened, the original size of the void cracks and vortex disappeared instantly.

This is just a beginning.

After a touch of a turbulent void, this blood-blue-colored towering palm moved instantly, and soon pressed to the second emptiness.

In just a few breaths, the rest of the six turbulent voids were all smoothed out, and the **** blue sky was like a trivial thing, and the blink of an eye disappeared instantly, and the sky was empty. The Tianzhu, which is 30 million miles away, has completely disappeared...

Chapter 4029: Fish and bait

In disposed of the blink of an eye, the last six turbulent voids disappeared completely, with less than three breaths before and after. This scene shocked everyone, the entire void battlefield, and the numerous star-studded powerhouses in the three camps were all stunned.

Many people have already jumped in their hearts and their breathing has been rushed, because the development of this plane-level Star Wars situation is too alarming. It is like a roller coaster ride. The heart is slightly bad. It is afraid that it will be sick on the spot. .

Aside from the war of the devil's emperor Mo Yufeng and the six rivalry camps, the development and change of the entire camp is just enough to make people feel ups and downs...

First of all, the two camps from the Second Universe and the Third Universe have more than 50 million warships, and they have become crushed and desperate.

Then, the devil's emperor Mo Zhenfeng was deeply rooted in the forefront of the front line, and sacrificed the Nether War. He did not hesitate to lose energy. In a short period of more than a dozen breaths, he created a cross-cutting void of 30 million. The scorio in the distance, blocking the 50 million warships of the two major squad camps, only reversed the situation!

Then, less than an hour, the two major squad camps sent six semi-aging ancestors to contain the devil's emperor Mo Yufeng, while the rear of the devil camp 20 million troops and millions of beasts are separated. In the virtual central area of the war, the opportunity to shoot, in the center of this empty sky, opened a gap passage that is seven or eight million miles away...

But this is not finished, the situation has just been subtly reversed, and there is a **** green palm covering a million miles away in the void. In just three breaths, the rest of the other six empties will be empty. , all smoothed out!

In the blink of an eye, this emptiness of the Devil's Emperor Mo Zhenfeng was completely destroyed, and it disappeared completely. In the void of 20 million miles away, the two major conquests of the army of more than 50 million warships, in front of Without any obstruction, you can rush at any time.

The situation at that time will not be a tiger, but the overwhelming crush is very likely to occur. After all, the number of warships between the two sides is too great.

The other two camps have more than 50 million warships and fortresses and fortresses. On the side of the Devil camp, even if they count nearly six million indigenous beasts, they only have 2,667 million troops. Only about half!

For a time, the situation on the battlefield was once again completely reversed. The democrats were relapsed into a huge crisis of destruction in less than an hour.

But all this is still not finished!

Because the **** blue sky, which is a million miles away, has smoothed out the remaining six turbulent voids and dissipated silently, another action was taken.

That is the six-color flame sea that trapped the four half-dead ancestors of the enemy camp in the distant sky.

Immortal shots, not the same!

Although it is separated by tens of millions of miles of the universe, the six-color flame sea, which is still in its mighty position, is still under this far-off shot. It is instantly blown by an invisible hurricane, which originally formed a comprehensive siege. The six-color flame sea directly appeared a gap.

This is clearly intended to help the four enemy battalions of the four enemy camps out of trouble!

The ancestors of the devil's group have not yet appeared, and it is very likely that they are paying close attention to this emptiness battlefield. The immortal grotesque of the eleven enemy camps dare not reveal too much breath, just this immortal grotesque shot. In order to advance the battle process, the remaining six turbulent voids were healed.

As far as they are concerned, this is already somewhat unwilling, but since it has already been shot, it will not have much impact on the rescue of the semi-destructive monsters of these four camps.

But that's all. The action is too big, I am afraid that it will cause unnecessary twists and turns. After a long shot, this immortal old monster will show up with the power of supernatural blood.

Taking advantage of this opportunity, the four trapped aging ancestors, such as Thrall and Longsixia, finally escaped from danger in a dangerous and dangerous way. They were like a bird of surprise, no longer entangled, and they flew out and fled back to the flagship of their respective camps. .

Seeing this scene, Ye Xuan's face was gloomy in an instant, and the other party's immortal grotesque finally couldn't hold back. When he shot, he would toss him for a long time, and he finally managed to overcome the advantages and consequences.

Not only have the four lords been trapped, but the half-dead ancestors who are about to be suppressed by smoldering have been saved. Even the emptiness of the scorio that was built by the force of the entire squad of the Void squad has been completely smoothed out...

Business parameter is very discovered, Ye Xing qi wants to business, sputum, almost can not bear back, the space before the energy swell, the thirties, or thunder, the saga In the secret of the immortal relationship between the secret, the opportunity to lighten the other side, let him snack bitter.

But in the end, he still slammed down, because like the immortal grotesque of the enemy camp, whether it is Ye Xuan, or the deity of the devil's group, the ancestors who have been immortal and cultivated are actually waiting...

When the other party first appears, the deity jumps out of the parallel space of the crouching. So, the devil's seal is immortal, so that the emptiness can be banned, so that they can't run away. If they are locked in the cage, they can feel free to Raging!

It is for this reason that the devil's seal has never been seen before, and he is worried that he will appear too early, and that the repair of the seal is a strength. It has not yet entered the devil's body from the parallel space. The hostile camp is immortal...and will escape a few!

Since it is here, it cannot be let go. This time, it is necessary to hit the major groups of the two major planes and the top forces, and they will remember for a long time.

Although the next expedition will surely come, but at least, whether it is the devil or Ye Xuan, will strive for more development and time!

And the more than ten of the opponents' camps are forced to attack, and the task of fully coming to the devil's star field can only be done by Ye Xuan. He is the bait, and he has to find a way to force the other party to run out of patience. The ancestors of the human race are all coming!

The situation in this war has developed to the current situation. The eleven immortal grotesque of the two major ruling camps believe that they are bait, but the magical seal is immortal and Ye Xuan, the same is true. The latter is directly to themselves. When it became a bait, I was trying to force the fish out and fully appeared.

It can be said that the final result, who is the fish in the end, who is the bait, and now, can not really say clearly!

"I want to crush the regular combat power of the demon with more than 50 million warships, causing a lot of death and injury, forcing the devil to release the ancestors?"

Ye Xuan saw through the other party's strategy at a glance, muttering in his own voice: "In this case, the king will count on it, in the same way, the old guy who is ruthlessly calculated... is forced out!"

Chapter 4030: Star Wars

The four semi-dead ancestors, such as Thrall and Longsixia, Gong Shouxin, who have fled the embarrassed scorpion, have not yet returned to the flagship of the fleet where their respective ships are located. The two camps took over the positions they were temporarily responsible for. The high-level, as well as several other semi-aging ancestors of the commanding council in the Second Universe, have issued instructions for a full-scale attack.

This is hidden in the dark, the deities are hidden in the parallel space of the eleven major ethnic groups and the top forces of the immortal mortal meaning, like the sacred purpose, no one dares to have a delay...

"Striking! All the battleships, full attack!"

"No need to keep, all the guns, full charge, the battleship horsepower to the limit, this is the first round, it will be the last round of comprehensive attack..."

"Booming!"

"boom....."

"Hey..."

With the issuance of orders, the two camps have more than 50 million warships, large and small fortresses and fortresses, and they roared at the same time almost at the same time.

Each of the 50 million warships has opened the kinetic energy capsule to the extreme. Every minute and every second, there is a huge amount of resources to consume, turning into the kinetic energy of the warship at full speed, turning into the energy of the gun bombardment and defense shield.

This scene is too shocking, even if the first universe was originally controlled in the hands of the Tianzu people, occasionally thousands of years and the Wan Luo Federation launched a comprehensive war scene and scale, afraid that it can not be compared with today!

Five million warships, all of which have propped up the energy defense shield, and at the same time, the speed is high, and the black pressure is a large piece, such as a cloud cover, and it is coming!

At the same time, all the warships, regardless of the constant star rating of the standard three-kilometer captain, or the big fortresses and fortresses, also inspired all the guns at this moment, a round of volley, hundreds of millions The universe's void in the distance is completely illuminated...

In the void, a giant energy network intertwined by the energy beams of countless naval guns shrouded a thousand miles, which is almost the rhythm of completely destroying a whole universe.

Of course, although the momentum is soaring and overwhelming, the energy beam of these guns is still a little weaker in terms of level. It can only be regarded as conventional combat power, even if it is even more powerful. Can't really collapse the endless void of a cosmic plane.

At most, there are some small turbulent voids and vortexes that can't affect the stability of the large planes!

All this happened too fast, and no one expected that the two camps, which were originally blocked by the emptiness of the sky, were released in the first moment when the whole sky was smashed by the immortal grotesque. Attack command.

The middle-level commanders of the major groups in the two camps were somewhat unprepared, but they did not affect the upward movement of the command. In the blink of an eye, the 50 million warships had formed a whole, and the army rumbling and approaching.

In comparison, the democrat camp is somewhat unprepared!

Until the front of 20 million miles away, more than 50 million warships and fortresses and fortresses in the void have been fully opened, and when they push forward the virtual distance of a million miles, the generation of the devil The response to the directive was released.

"call out!"

"call out!"

"call out....."

In the void, the dense sound of the air rang, the 1.5 million large and small fortresses that had been pushed back to the Devil camp by the indigenous beasts, and the space jumped directly, and one ship disappeared...

When it reappeared, it was already in the army of 50 million warships that were coming from opposite sides, and it started to blew itself in the first time.

The large and small fortresses of the 1.5 million enemy camps have not yet fully changed their control hubs, but now they are in urgent need of use. Therefore, the generation of Moxie Mo Yutian is still in the same with Ye Xuan. When the half-dead ancestors of the hostile camp launched a fierce fight, they made a decision to use them as a one-time suicide bomber.

Within 1.5 million large and small fortresses, there is no such thing as a devil or a clan. Only a small number of intelligent robots are stationed, and the degree of self-destruction is preset. After the virtual jump is completed and completed, ten seconds. It will be fully exploded within.

"boom!"

"Booming..."

One hundred and five thousand large and small fortresses, the internal self-explosive devices will be kinetic energy cabins, anti-matter energy generating cabins, etc. All the energy cabins are all connected together, and once it is blown up, the power is absolutely amazing.

In the army of 50 million warships that were invading and invading, a small chaos broke out in an instant, and countless huge fireballs exploded. For a time, the speed of the entire army's rapid attack will be Life stopped, and stopped in the void.

What the Devil camp needs is this opportunity!

Soon, the emptiness of the enemy camp continued, and it was not calmed down. The 20 million warships of the Devil camp slowly advanced in an orderly manner, followed by a wave of volleys. Out, very rhythmic.

In the void, once again intertwined with a large horror net formed by the energy light column of the naval gun, from time to time there is a warship that blasts, both hostile camps and demonic camps... So far, the three camps are more than seven thousand The comprehensive melee of the Warships has completely opened the curtain!

"Roar!"

"Hey..."

"Hey!"

.....

In the void, the beast is roaring!

With more than 70 million countless warships and fortresses and fortresses in the three camps, and in desperately carrying out a full-scale melee, the army of the devils is responsible for nearly six million indigenous beasts on the line of defense. At this moment, I quickly rushed out.

The most important ones are the two ancient savage beasts, the Taikoo Porcupine and the Taikoo tortoise, which have already entered the border, and the hundreds of thousands of stars and the Qiankun Beast.

The squadrons of these fierce beasts led the whole army of beasts, screaming and roaring, and every indigenous beast showed the blood and the body, the size was huge, and the smallest was more than a thousand feet. The three-kilometer star-rated starships are slightly overtaken.

Often between a claw, it is a battleship or a big fortress, the fortress collapses directly in the void!

The more than 70 million warships in the three camps are engaged in fierce battles with naval guns, and the nearly six million-headed indigenous beasts are fighting for their own flesh, and their flexibility is unparalleled. Far more than the.

The strength of each indigenous beast is basically not weaker than a warship of the same size, or a fortress and fortress!

This is a real **** battle. Between the top powers and ethnic groups in the three major star planes of the world, at least tens of thousands of years have never had such a war.

In the face of this star-studded scene of the Star Wars, Ye Xuan, who had already been mentally prepared, had stood up in the void for a time, like an outsider, and looked at it with stunned eyes.

However, he quickly reacted and waved the shock of his heart. He looked up and shouted and made a shocking sound.

In this battle, he will do his best, even the most tragic starry sky, he should be the most radiant... tides!
