

## Super D. S 4041

Chapter 4041: Purple gold tide wave wave

In an instant, countless ways, such as the spirituality of Zijin Huiman, rushed into the four walls of the hive node, and traced back along the outer wall of the pipe, in all directions, rushing toward the core hive of the Qingjin Slim emperor. Go, everything is done in less than half a moment.

In just half an instant, the rich golden and purple awns gathered in thousands of honeycomb nodes all came together. After entering the core honeycomb node, this is located in the central area of the ninth lap of the huge trumpet of the war. The core honeycomb nodes are suddenly bright.

A fierce purple gold mansion broke out...

There is no suspense in the following. The core honeycomb structure with a diameter of three kilometers is completely transformed into a purple-gold world. A wave of purple gold cymbals like a tide, spreads along the war, at the huge bell mouth. In front of it, a fan-shaped ripple of purple gold color is derived, which is like a purple gold smashing tide, pushing forward and going...

"Oh la la..."

The tides of the purple gold color flowed past, and the power of the invisible cosmic time rule showed that the shape of the broken green sheep outside ten thousand miles could not be struggling for a time.

Then, as this strange purple gold tide rushed away like a tide, its huge body of 100,000 feet suddenly changed. The first one was the two most conspicuous ones on his head. The intestines horns, originally bright red as blood, but now in a short half-instantaneous, completely dimmed.

Then, as the purple gold tides flowed through its body, the smashing green sheep's huge body, the original lustrous fur, quickly faded without any suspense.

The luster of Qingyingying disappeared, and a large piece of wool fell off and floated into the void of the universe, turning into fly ash.

For all of this, whether it is the smashing of the Qingyang or the two slashing camps behind the emptiness of the camp, the deity still crouched in the parallel space, leaving only a glimpse of the other ten immortal eccentrics who are concerned about this star field, all Not caught.

They didn't know that Ye Xuan had solved the four immortals in this star field or killed or oysters. But after Ye Xuan's sacrifice of the years, only a wave of excitement, the half-aged ancestor The scene of being tragically killed, directly simmered, but still analyzes the power of this strange purple tide, it is 30,000 years.

Even one of the immortal grotesques, through the means of derivation, judged the number of purple gold tides that can still be stimulated by the years of war, that is, three waves.

Even so, they still did not expect that Ye Xuan's actions were so quick and fruitful.

The monster of the five enchanting ones is simply to smash the sky, and the courage is too fat. It is only the cultivation of the domain. In the face of an immortal old man's shot, he has no hesitation at all. I wanted to sacrifice the years and battles, and I was excited on the spot.

So that they didn't even have time to react at all. The sturdy young sheep that just jumped out, the whole figure was settled, and the huge body of 100,000 feet was still under the impact of this second wave of purple tides. Instantly fell into a gray defeat.

After all, it was a long time of 30,000 years, and it passed through its \*\*\*\* body in an instant, and no one could stand it.

At this time, the ruined Qingyang, which was almost attacked by the general attack, the whole person has already collapsed. It is said that good domineering has become such a way. When is the deterrent power of immortality, it can be so ignored.

"brush....."

Soon, I didn't wait for him to react a little, and as the faint waves of sound rang again, the second wave of purple gold tides came at this moment!

This wave of purple gold tides is the moment of three years of dying. The broken green sheep has not recovered from the shock and stagnation of the past, and its huge body of 100,000 feet has once again been Huge ominous...

Its huge \*\*\*\* body of 100,000 feet, this time in addition to large pieces of fur peeling off, large pieces of flesh and blood have begun to melt, even the internal organs and some golden bones have begun to appear, the original twins The fascinating scorpion of the glory quickly faded.

At this time, this second wave of purple gold tides has just arrived, and it has not completely flowed. In the blink of an eye, the second wave of purple gold tides has disappeared. At this time, the original \*\*\*\* and full of broken green sheep, the whole huge Nearly half of the viscera of the treasure can be seen, the bones are tiring, mixed with flesh and blood, and it looks decadent.

In just two short periods of time, this flesh-and-blood treasure has already passed the ruthless erosion of 60,000 years of age, that is, the immortal blame, and replaced by the cosmic power, fearing that it has already fallen, however, immediately after The third wave of purple gold tides is coming again...

The speed is almost as fast as it is. At only one moment, it has flowed from this decaying body. As the third wave of purple gold tides disappears, the smashing green sheep has already exposed the bones and internal organs. The blood is in the body, and the blink of an eye has begun to be completely defeated.

A large number of organs fell from the abdomen, and as the golden tide became a fly ash, a golden skeleton was scattered and disintegrated. It also failed to resist the erosion of the golden tide, and turned into an ashes to dissipate... ..

The 100,000-year-old life is the limit of ordinary immortality.

This ruined young sheep came from a group of the second universe that was not very strong. Although it had undergone penance, it finally entered the immortal world. However, after all, the foundation of the ethnic group was there, and there was actually no means and treasures against the sky.

Absolutely can only be regarded as ordinary ordinary immortality.

The number of life, in the past step by step cultivation, to enhance the level of life, and eventually evolved into the process of immortality, has consumed more than 20,000 years, and the rest is actually more than 70,000.

But the three waves of purple gold tides represent the moments of the 90,000 years of age. How can he survive?

It can be said that in fact, the second wave of tidal years is outdated, this immortal smashing green sheep is almost completely degraded, but Ye Xuan has not saved the third wave of purple gold tide for the purpose of saving the volcanic kinetic energy. Come down.

After all, this is the last wave of purple gold that can be provoked by the current years of war, and it doesn't make much sense to stay. On the contrary, if you let this immortal green sheep leave half life, in case The secret of its own or other immortal grotesque can make it return to light, and the power of immortality will erupt again in a short time.

Or simply recover some of the damage with some top-level resources, and regain the ability to participate in the battle in the follow-up, then it is really worth the loss!

"call out!"

At this moment, with this immortal ruined Qingyang completely fallen, even the Yuanshen could not stay, only half of the remaining bones were left in the void, Ye Xuan was also a sharp wave, and it would not be able to directly Re-emerged, showing the power of the years of war, the income into the body of the immortal world, and then, the line of sight once again cast into the void behind the two major congress camps...

Chapter 4042: Three immortal

For Ye Xuan, it is really nothing to kill the ruined Qingyang, which is an immortality. There is no feeling of ecstasy in my heart.

After all, just a few days ago, he had already killed or succumbed to four identical immortal eccentrics in this magical star field.

Compared with the four immortal geeks from the first universe, this ruined and ruined Qingyang, the strength can only be regarded as the bottom, only the early stage of immortality.

But this is only him, in the eyes of others, it is not the case!

At this moment, among the numerous camps in the three camps of the hostile sides in this vast void, except for the star-studded powerhouses in the Devil camp, they also saw the thrilling battles a few days ago. The scene that has taken place now is more tolerant and not too surprising.

In the other two major annihilation camps, the innumerable star powers, after a short period of sluggishness, completely fried the pot in an instant.

In the void, all of a sudden resounding voice is all kinds of screams, compared with the previous semi-aging ancestors from various ethnic groups and top forces, or being killed or shackled, but now it's fallen. A true immortal.

Its shock is absolutely not the same as...

"God, what happened? It's definitely not true!"

"The hallucination is definitely an illusion, or the repair of the broken green sheep is not right, or my eyes are out of order..."

"An immortal smashing young sheep, although it is not a \*\*\*\* race, is it an immortality after all? But in the hands of the devil's emperor Mo Zhenfeng, how do you feel even the last few aging ancestors? Not as good as?"

"Damn, the old man is also the feeling that it must be the way we open it. This scene cannot be true. There must be something wrong..."

"Immature grotesque, this is an immortal grotesque, actually in a short three breaths, it has completely fallen, and even the corpses have not stayed, only half of the dead bones emptied!"

"It seems that the rumor is true. The devil's emperor Mo Zhenfeng does have the ability to kill the immortal grotesque. An immortal old monster of the Federal Senate is in the first universe of the devil, and must be his shot! "

"This is just the domain of the main ah, killing the semi-aging ancestors, and now even an immortal old monster is killed in an instant, this is really special ... to be human life!"

.....

With the sound of these tidal arguments, the enemy's two major conquests in the far side of the camp, and the other ten immortal monsters finally reacted.

Although their deities are crouching in an unknown parallel plane, from beginning to end, they all share a glimpse of what is happening in this first universe of the devil.

Therefore, for the fall of this immortal ruined Qingyang, these ten immortal grotesques can be described as real. I haven't reacted before because it's happening too quickly, and they have no time to make any countermeasures.

But now, after a short stay, the ten immortal old monsters have all returned to the soul. For a time, the roar and roaring sounds sounded one after another, but they are still not heard by the outside world, only they can hear it...

"Intentional, actually let the old sheep rushed out alone, and was miserable!"

"Big killer! Sure enough, it is a big killer. This wave of purple gold tides represents the lapse of 30,000 years. Just three breaths, three waves of purple gold tides, is a full 90,000 years old. Erosion, I am waiting for people, I am afraid that no one can survive!"

"Waste! A group of waste! The battleship army of more than 50 million scales, plus a dozen or so half-step immortal, even the last three waves of Zijin tides of this Mo's child's hands are not consumed..."

"Yeah, let us lose a battle of immortality in vain, but then again, this thing is no stranger to others, but the old sheep is too impulsive, knowing that there are such big killers in this hand, but still Rushing out!"

"This is also good, at least, the last three waves of Zijin Chao in the hands of Mo Xiaoer's hands have finally been consumed. The old man has once again launched a derivative calculation, and now it is certain that the big killer, in the short term. It is absolutely impossible to inspire again."

"This time before and after killing two immortal old monsters, whether it is the immortal veteran of my Senate, or the old sheep of today, all are smashed in this years of war, as for other treasures in his hands, even if it is The ancient ruins of the ancient lord, known as the epoch, also failed to completely unblock the power, but could not wait for me to wait for the immortal grotesque, forming a threat of instant bombing..."

"If this is the case, then there is nothing to worry about. Immediately, the three immortals will appear at the same time. It is necessary to suppress Mo Xiaoer in the first time. If the old man is not bad, the devil's ancestors are absolutely I won't sit down and watch this child be killed by me. After all, even this enchanting horror is a rare sight for the three main faces of the stars, and the devil is absolutely reluctant!"

"Repression! Immediate suppression, my second cosmic camp sent an immortal!"

"Second, the second is immortal, I have ten heavens!"

"In this case, my Federal Senate could not be willing to be a human being. This war just happened to report the revenge of an immortal veteran not long ago..."

"Roar!"

"Hey..."

The resolution was finalized. This time, there are no hesitations in the ten immortals. The current situation of the war situation has already been placed in front of us. The demon sorcerer Mo Yufeng, who is the demon sorcerer, can no longer suppress it by relying on the conventional power in front.

Even if he gave him time to toss, the army of more than 50 million warships in the two major congress camps is very likely to be in the hands of him.

At that time, the immortal ancestors of the devil's ethnic group will be even more unlikely to appear again...

As soon as I read this, the ten immortal grotesques all felt an urgent sense of pressure. The development of the situation was too fucking, including the immortal eccentricity of the genius, all of which affected them unconsciously. Mood!

The roar of the roar soon sounded. This time, it was not only heard in the circle of the ten old monsters, but the countless powerful people in the whole magical star field that was launching a starry sky battle. All of them listened. Really true.

"Oh!"

"hiss....."

The crisp and unclear sound of the cracks came, and in the distance behind the two major congress camps, the void was torn apart in three directions, and then, under the eyes of countless star-studded powers in the three camps of the hostile parties, three The huge body shape of the road has brought a terrible blood pressure from the soul to cross the border!

In such a scene, the vast majority of the star camps in the three camps that were present were not seen in life, and the three powerful and immortal widows were rushing at the same time...

Chapter 4043: Lei Ling

"Oh!"

"hiss....."

The clear and unclear sound of the cracks has attracted the attention of the numerous star-studded powerhouses in the entire void battlefield. At this moment, the universe of tens of millions of miles of

space has once again fallen into a dead silence. All people are far away. The three immortal powers that appeared in the emptiness of the sky, the original fierce starry sky battle, have thus stagnated, the whole universe of the void, like a freeze.

The three immortal geeks walked out of the squatting parallel space and entered the edge of the devil's star field of the first cosmic plane. The first time they showed their blood.

They are all non-human, and the blood and blood of the manifestation are all 100,000 feet, which is equivalent to Ye Xuan's alloy \*\*\*\* of war!

One of them is from the Ten Heavenly Palace of the Third Cosmic Terran, but it is also non-human. This immortal grotesque is a cold-topped ice crane that has been maintained for many years by the Ten Heavenly Palace. The strength is not weak, and it has reached the peak of the early days of immortality.

This cold-topped ice crane has a light blue body and a dark blue misty mist at the top of the head. It is said to contain a source of ice. This creature is originally from the extremely cold sacred caves in the starry sky. Born.

At this moment, the 100,000-year-old blood of the cold-topped ice crane appeared in the body, and the brain then rushed out of a secluded mang, and turned into a awning blue mist, covering the top of the head and protecting the Lingtai.

This awning blue mist is the sacred thing that this cold-topped ice crane cultivated. It is called the icy cold light. It is made by the centuries-old ice and snow elite in an ancient mysterious ice cellar in the universe. , can be turned into hundreds of billions, magical useless.

There is even more infinite ice power, it is said that once the full force is unfolded, even the cosmic starry sky can freeze!

The second figure is a living creature that looks like a white elephant, but it does not have a long elephant trunk. The head is pointed and slender, like a fox, and the back of the stock is swinging with a huge \*\*\*\* tail. .

This immortal grotesque comes from the Federal Senate of Wanluo. It is a federal immortal elder who has been cultivated in the midst of immortality. It is cultivated as strength, among the three immortal monsters that come to the top, belonging to the strongest.

This kind of pedigree is rare. It is called the fox python. It belongs to the alien species of ancient times. There are few blood vessels in the world. It is said that this group of creatures appear like white elephants, threatening the fins. It is said that they have the power to eat the world. The power of falling.

At this point, the head of the fox looks like a cockroach, and the head of the head suddenly hangs a blue-and-white light, which is a kind of treasure that is derived from the blood of its blood.

It is said that once it is shrouded in its glory, the weaker creatures are instantly lost and embarrassed, that is, the mighty existence of immortality is trapped in its magical treasures, and it is also to be chaotic and embarrassed!

The last immortal grotesque comes from the camp of the second universe, and is the most powerful blood scorpion among the top ten communities of the second universe.

This is a three-jawed dragonfly, the blood is actually activated, and it also shows a huge body of 100,000 feet. Its life form has not only evolved into the limbs, but also suspected of entering the situation of the dragon, and these four At the end of the limbs, there are three claws, and some have Longwei.

The top of the head is suspended by a golden mantle, which is called the golden dragonfly for the three-jawed dragon to be hunted in the body for many years.

The order of this embarrassment is extremely extraordinary, but it is a waste of ancient treasures. The three-clawed dragon cub is also acquired by a chance. It has been treasured since then, even in the midst of the war, it is said that it is rarely sacrificed. It is said that it is said that it is rarely sacrificed. It is the remains of the dragons that were about to turn into true dragons in ancient times, collecting the aura of the heavens and the earth, and condensing them by the essence of the sun and the moon.

Once the sacrifice is made, the voids of the golden dragons can be revealed in the void. In the air, the clouds and the guards are in the air, and the heads and the ends are divided into the ordinary, the immortal monsters in the same territory, and they will be hit by the shackles. And the two paragraphs are in a moment of ruin...

At this moment, when the three immortal old monsters came, they screamed at the same time and directly launched the teleport. They appeared in the void in the front of Ye Xuan, and they were in the shape of a character, facing the giant body of 100,000 feet. The alloy of the \*\*\*\* of war, surrounded by killing.

"Roar!"

"Hey..."

"Hey!"

"Mo Xiaoer, the deity shot, today you will die!"

"Stop speed, let it die!"

.....

In the roar of the roar, the cold ice of the top of the cold-headed ice crane was suddenly brilliance, and it was turned into a smoldering tens of thousands of miles of sinister blue mist, and quickly and violently rushed toward the alloy \*\*\*\* of war.

The sound of the clear card along the way is endless, and it is passed into the ear. The rumors of the outside world are true. The ice of the cold-headed ice crane is cold and bloody, and it is suspected to be quenched with a source of cold ice. Its power was spurred, and the void of the universe along the way was frozen.

From the second cosmic \*\*\*\* scorpion, the three-jawed dragon scorpion head is also spurred by the golden awn, the fastest, the most advanced position, although Jin Mang is not huge, only about a hundred feet, but there is a piece The virtual ghosts follow, and it is clearly the golden dragon of two giants!

At the same time, the elephant-like fox, which looks like a fox and looks like a cockroach, ignited the blood of the body in the first time. The white awning that was originally suspended from the top of the head immediately bloomed in the sky, and also changed. In order to cover the giant glory of tens of thousands of miles in the sky, the glare of the alloy \*\*\*\* of war came.

Although still still far from the distance, but the three camps in the vast expanse of the sky, the three camps of star-studded powerhouses, but at this moment, the trepidation of the heart, just under the direct view of this canopy, They almost lost their minds, and they changed their faces. They did not hesitate. Even the original wars could not be taken care of. No matter which camp, they rushed back.

Just kidding, this is the three immortal grotesque shots at the same time, staying in the near universe of the universe, must be smashed and pond fish.

And now the high-end power of the immortal level has already been shot, and the final result of this battle must be decided accordingly. As the conventional force of the three camps, the subsequent follow-up wars basically have nothing to do with them.

It is best to retreat to a distant place to watch the battle. If it is not appropriate, at most, the acting is generally accompanied by the reunion of the sporadic exchange of fire...

All this is long, in fact, it happens within just three breaths.

At this moment, there are countless star-studded powerhouses and various warships in the three camps in the imaginary air, such as the escaping gods, and the alloy gods in the shape of a hundred thousand feet are unexpectedly heard. A cold voice.

The figure stands in the void, and does not move. There is no meaning of walking or dodging. Instead, a wave of hands will immediately sway a purple gold infinite sea.

It is the most empty, and a nemesis with infinite emperor is dripping.

"Hey..."

With the whistling of the sorghum into the clouds, a purple-gold figure rushed out of this emperor's seal, which is a small bird, only a sacred, cute, but full of thunder, the purple gold electric man stretched and swallowed, and lived...

Chapter 4044: Kill this cockroach quickly

Cold-topped ice cranes, elephant foxes, three-jawed dragons, and three immortal grotes are all manifesting the bleeding veins, and the giants of 100,000 feet come to Ye Xuan.

The icy cold light on the top of the cold-topped ice crane is turned into a sacred blue mist of tens of thousands of miles.

The white-and-white awn of the hood of the fox-head is also instantly blooming, and it is also like a giant glory that covers a tens of thousands of miles.

The golden awn of the head of the three-jawed dragonfly is also radiant, the fastest, the most advanced position, although Jin Mang is not huge, only about a hundred feet, but there is a piece of energy behind it, that is clear It is a golden dragon with two huge bodies...

These three attacks are all the blood of the immortal blame, the power is amazing, but Ye Xuan has turned a blind eye.

The invincible God of War's stalwart posture stands in the void, and does not move. There is no meaning to walk or dodge. Instead, a wave of hands will immediately spurt a purple-golden boundless Thunder Sea, a print that exudes infinite emperor. The tricks are turning around.

"Hey..."

Then, the whistling sound of the sorghum into the clouds, a purple-gold figure rushed out of this emperor's seal, which is a small bird, only a small, cute, but full of infinite bloom Thunder, purple gold electric manpower telescopic throughput, endless!

At this moment, Lei Ling is now!

Among the three immortal monsters, the cold-headed ice crane, the elephant fox and the three-jawed dragon, the elephant fox from the Federal Senate of Wanluo has the highest strength, and has reached the middle of the immortality. The other two are all in the early days of immortality.

A few days ago, Ye Xuan suppressed and refining it into the color-fired thunderbird of Emperor-Indian Lei Ling. The original cultivation was the peak of the immortal mid-term, and only one step could enter the later stage of this situation.

Although Ye Xuan extracted only a trace of lightning source in the color flame thunder body, the refining process will be turned into the Emperor Yin Lei Ling, but with the blessing of Lei Di Yin, now the Lei Lingque, repairing strength is also maintained The mid-term peak of immortality.

This is because the power of Lei Di Yin is too weak for Ye Xuan to repair itself, but it is not fully activated. Otherwise, the strength of this Lei Lingque will be even stronger...

But nowadays, it is enough to deal with the three immortal monsters that come to the crash. After all, there is the power of Lei Diyin to be here.

This is why Ye Xuan's body shape does not move, and there is no reason to put three immortal monsters in his eyes.

In fact, seeing these three immortal monsters coming, his heart even had surprises floating up.

Before the other party was not prepared, the last three waves of the purple tide of the years of war, quickly failed to kill an immortal old monster, and now if these three immortal grotesque are all trapped in the emperor In addition, the few immortal geeks who still crouch in the parallel space can't sit still.

Once they rushed into the parallel space of the squatting and entered the magical star field of the first cosmic plane, then everything was settled, and Ye Xuan's mission was completed.

"call....."

"Booming!"

"Card..."

This moment, with the emperor's thunderbirds rushing out, this corner of the universe's void is suddenly thundered, lightning and roaring, from the top of the high-altitude whistling and whistling in the blue-gold Leidi imprint, a hang of the thunder and the river slammed.

Without any suspense, the canopy of the icy cold and \*\*\*\* fascination directly covers the tens of thousands of miles of the blue mist of the sun, and the awning of the fox smashing the top of the awning, and the life of the three-jawed dragonfly. 铖 Directly shrouded.

Three kinds of blood vessels or the life of the treasure, even the thumping is not owed, and was immediately submerged by Lei Hai.

"puff!"

"Hey..."

The cold-topped ice cranes, the elephant foxes and the three-jawed dragons were all invincible, and all of them were implicated. Because they were backed up, they all spurted out a blood arrow. The blue and blue, and the pale gold were sprinkled in the sky.

Even their physiques are stagnation in the void, and their faces are filled with the complex look of grief and indifference, and they want to retreat when they are moved.

However, everything is already too late.

"Hey..."

The whistling sky rises into the sky, and the tens of millions of miles are empty. The speed of the Emperor-Indian Ray-Ling is reaching its peak. Although the figure is only a small rule, it is extremely

inconspicuous, but there is a short breath between the flaps. Surrounded by the three light-hearted, immortal monster rings.

Where the body shape passed, Lei Hai suddenly spread!

After the completion of the circle of the Emperor-Indian Reynolds, the three immortal grotesques have been completely besieged, and there is only a mile of space around the body. The surrounding areas are all around the sea, and the purple-golden thunder and lightning roar. They simply did not dare to step beyond the threshold and were confined to the narrow void of the Leihai Central.

All this happened too fast. When the countless star powers in the three camps in the distance between the two sides were aware of what had happened, the emperor's resounding screams again and rushed into the envelope. In the vast thunder of the sea, it disappeared.

No one would think that Lei Ling is going to play, although it is small and looks completely harmless, but before it was hovering, it caused a big Thunder Sea to trap the three immortals, its means Decisive and sultry has already been unmistakable.

Undoubtedly, Emperor Yin Lei Ling rushed into Zijin Leihai at the moment, and his body shape disappeared instantly. Its sole purpose is to crouch down, waiting for the opportunity to shoot, and at any time it is possible to attack and attack. The repair of three immortal grotesque. For the strength is under it, one-on-one, all have no resistance, this time is already dangerous.

But this is not all, because in addition to the emperor's roe, the giant goddess of the shape of a hundred thousand feet, after a sneer, also directly into the Leihai.

There is Lei Di Yin's domain field power protection, alloy God of War into this Leihai, just like the flame sea formed by the Shennong six-color flame before entering, no one is in no way.

When the figure rushed in, his left hand still held Shennong Ding, which was reduced to a size of 100,000 feet, and the right hand dragged the big savage stick of the Shennong.

As its figure disappeared, it rushed into the Thunder Sea, and the numerous powerful people in the three camps in the distance between the two sides of the imaginary air were subconsciously stunned.

This Lord is not a good child. At this moment, he dragged a \*\*\*\* stick into the Thunder Sea. It is clearly to use the cover of Lei Hai to pick up the \*\*\*\* stick in his hand and knock the sap on the three immortal old monsters. In the rhythm.

This is too enchanting. Before that, it was just bullying the half-ancestor and the old blame. This was the blink of an eye, and actually began to bully the real immortal grotesque, and it was still three times, absolutely against the sky.

In the distance, on the edge of the Devil's Star Field, the last seven figures are still crouching in parallel space, leaving only a glimpse of the gods into this star field, closely watching the immortal grotes of the progress of the situation, at this time I finally came back to God.

The voice of roaring roared anxiously: "I'll shoot immediately, kill this cockroach quickly..."

Chapter 4045: Like Tianwei

All that happened in front of us was too amazing. The innumerable strongmen of the three camps on both sides of the enemy were all in vain. In a short period of time, three real immortal monsters were trapped and faced with the danger of being suppressed!

In the far behind the void, the last seven immortal grotesques finally couldn't sit still. The first time they were in a mess, the roar of roaring was loud...

"Quickly shot, kill this cockroach quickly..."

"Leiyuan Zhibao! Actually it is the congenital Leiyuan Zhibao. How many secrets does this kid have? How many top treasures are there? This is a dog. I have never heard of anyone who has such a prosperous life, all the world. Is the top treasure of all falling into his hands?"

"There is still the bird-like Lei Ling, which is actually a mid-inferiority of the immortality. The breath is slightly familiar and familiar... No, this breath has been clearly captured before. This Thunderbird is actually falling a few days ago. Here, an immortal old monster, the source was extracted, refining into a spirit."

"God, it turned out that this is not the ancestors of the devil's ethnic group, but the five enchanting juniors who shot, he actually suppressed a thunder!"

"There is nothing to say. We have to shoot at the same time. It is necessary to rescue the three old dragons. There is no need to wait any longer. The biggest threat of the devil's group is not the so-called ancestors. It is no wonder that they have never dared to show up. Really The biggest threat has always been this junior enchanting!"

"Keep him, the devil will die!"

"Booming..."

"Oh!"

"hiss....."

With the exclamation of this road, the immortal grotesque of the last two of the two major congress camps finally realized, and without hesitation, they tore the void, and stepped out from the parallel space where the deity crouched, wanting to come to this first universe. Devil's Star Field.

Although they also used the devil's emperor Mo Zhenfeng as the target of this conquest, but it is a secondary goal, because he did not regard him as a real same level existence, and determined that even if he had a killing immortal monster The ability to do it must also be achieved by relying on the Star Wars.

But now it seems that the real primary goal is simply not the so-called mortal ancestors, the devil's junior who has been in the past is the biggest threat.

There are too many top treasures in the hands, and their talents are even more irritating. The understanding and creativity of all aspects of the medicine array are desperate. Nowadays, only the domain is in the realm of the domain, far from growing up, the hands have already fallen. Respecting the immortal grotesque, the semi-aging ancestors in their hands are only the part of the wilderness and escape...

If you give him time and let it grow up completely, I am afraid that the three universes will be smashed into their territories. This is the supreme majesty of the only overlord of the three major stars.

Just because I saw this, the last seven immortal old monsters finally couldn't sit still. The so-called devil's ancestors were already ignored by them and retreated to the second place. The current imperative is to squat. The new accident has not yet appeared, and the Thunder attacked together, completely smashing this juvenile demon who has the supreme hegemony... completely killed!

Seven immortal monsters, all coming!

At this moment, the whole piece of void is filled with an invisible pressure. Even after tens of millions of miles away from the starry sky, the innumerable star powers of the three camps on both sides of the enemy can't help but tremble. It's up.

In the long years of the past, most of them have never seen one before, but what happened today is amazing.

Previously, only three immortal old monsters came, let the countless strongmen of the three camps and all kinds of warships, like the birds of the horror, quickly retreated to thousands of miles away.

At the moment, there are seven immortal grotesques coming at the same time. Although the distance is still far away, there is still a void of at least thirty or four million miles away, but the power of the seven immortal geeks gather together. Horrible.

In the trembling of the body, all the people stopped the battle, and no longer hesitated, all of them turned around and fled. In a short period of time, this battlefield void and its surroundings, a total of eleven immortal monsters appeared, one has been There are still ten who are still alive.

And the seven distinct people who have just arrived will be shot immediately.

This is the rhythm of the ten immortal monsters fighting together. It is hard to say whether the first cosmic plane can hold on to the collapse. They can only escape farther, at least tens of millions of miles to ensure that they are not caught and fish. .

The gods fight, the little devil suffers the most sad reminder, no one wants to experience it for themselves!

In an instant, all the strongest of the three camps, including the millions of indigenous beasts, including the Taikoo Porcupine and the Taikoo tortoise, all retreated to the distance. From time to time, they also made calculations and hunted some of them. The \*\*\*\* real people of all ethnic groups, these guys, really is a group of qualified food, not forgetting to reserve food in the escape!

"Is this moment finally coming? I will wait until the full coming, the real war is about to begin, but it also means the complete ending of this starry sky war... already!"

"Get out, save the old three, solve the devil's junior, don't leave alive, kill on the spot, this kind of enchanting, the world is not tolerant, today must not let him live!"

"It's just a pity. This kind of enchanting ghost, even the three main stars of the starry sky, are rare to see for millions of years. After all, they are still in the wrong place. They are actually devils, and they are destined to grow up..."

"Booming..."

Just one breath, seven immortal grotesques have come all-round, it seems that it is believed that Ye Xuan will soon be completely killed. From the tone of their discourse, it is actually not as restless as it is. Showing a sense of leisure, as in the judgment.

In the next moment, the seven immortal grotesques stimulate the blood of the body at the same time. In addition to the four immortal grotesque from the two camps of the Terran, the other three are all manifested in their own blood, all of which are 100,000 feet. huge.

Of course, for an immortal grotesque, if there is a secret law to promote blood, 100,000 feet is obviously not the limit, but it is completely unnecessary, as immortal, unless it is the road of refining, otherwise it is less dependent on flesh The real horror of the blood battle, the immortal grotesque, is still the power of the magical power they have mastered!

The seven immortal grotesque words have been degraded, and each has its own magical means. In the blink of an eye, the universe voids two or three thousand miles away in the distance are completely smashed and up, and the various magical powers are intertwined. This scene is dazzling. But the spirits are trembled... So terrible power, like Tianwei, fearing that this piece of void will be completely cracked, there is no problem at all!

It was also at this time that a kind of real pressure like the real Tianwei suddenly came down without warning.

"Card!"

"Finally... are all out?"

A blood-stained stunned stunned, bursting with endless blood, illuminating hundreds of millions of miles, and once it appears, it illuminates the entire magician.

This moment, the devil's star field is thus... completely forbidden!

Chapter 4046: I am waiting for the seal

This blood-stained horror is so amazing that even the magical means of immortal blame are definitely not such a power.

Ye Xuan's Emperor Yin Hai and Shennongyan Hai can't do the same.

Because it smashed, it was already in the moment of blooming endless blood, spurting billions of miles, illuminating the entire magician star field.

The Devil's Star Field is a hundred million miles away, but at this moment, it is stunned by a \*\*\*\* color, and the whole star is illuminated. The whole star field has no dead ends, and all of them are reflected in a faint blood red color.

It is also because of this strange blood red, the magical star field is thus completely banned!

Even the magical means of the immortal grotesque can no longer tear the void, and quietly overlook, unless the body crosses the void, lasing away, can rush out of this area blocked by the \*\*\*\* stunned...

"Finally... are all out?"

Accompanied by this \*\*\*\* stunned, a faint voice reveals the words of the endless cold, from the direction of the \*\*\*\* horror, a long-haired old man wearing a \*\*\*\* robes and a thin face. Take a slow step and walk in the void.

Look at his feet, it seems to be a leisurely walk, but when each step falls, the figure is at least close to the tens of thousands of miles, two or three breaths, has been from the end of the Devil's Stars beyond the billions of miles, come On the edge of this void battlefield, hold your hands and set your feet on the void!

This person is the second generation of the devil's group!

Right now, with his unexpected arrival, countless star-studded strongmen who have already retreated to the two sides of the enemy camps far away, have already fallen into a dead, gaze or violent, or stunned, all come together, but dare not look straight It can't be seen directly.

In their eyes, the existence of this \*\*\*\* robes, the body of the week, clearly has infinitely different images in the disillusionment, some are located in a battlefield of ancient stars, and some are killed by a head, gold The \*\*\*\* sprinkling of the beasts, the atmosphere is very strong, at least the semi-aging ancestors...

These pictures are supernatural images. It is the starry sky battlefield that the second generation of the demon man once experienced in ancient times. It is a powerful and fierce beast that he himself killed in the ancient blood battles. The way of the image of the magical image is derived, which invisibly enhances the breath of his body. In the blink of an eye, it has entered the realm of the seal from the peak of ordinary immortality!

As early as the first moment of this \*\*\*\* stunned, the seven immortal geeks who have just arrived in the other direction have stopped, and the magical powers that have just been applied are all interrupted. All of them show a faint color.

One of them was immortal, and his body shape was trembling slightly, and he was so immortal that he was shocked and incoherent: "You, you..."

"Is not waiting for the old man to appear all the time? Now... I am coming!"

Carrying his hands, his figure stood proudly in the \*\*\*\* figure in the distant sky, and faintly said: "The second generation of the ancestors of the mysterious people... I am waiting!"

This sentence just fell, the opposite side of the tens of millions of miles away from the sky, a moment of exclamation and screams...

"Escape!"

"The murderer, who is responsible for the intelligence? Even the devil has a seal that is immortal, and it is only the second generation of ancestors!"

"Wait! It is actually a seal... Ten more ordinary immortals, not enough to kill!"

"No, the void is banned. The magical law of the seal is far from being able to break open. I can only cross the void and rush out of this banned star field..."

"It's the same thing, you can get a chance!"

"Whoever dies and who is born, all look at the creation, everyone, take care, the deity takes a step..."

"Boom!"

"Hey..."

In the screams, the seven immortal geeks no longer speak, and they turn around and flee. This scene has fallen into the eyes of countless powerful people in the three camps of the far-off enemy sides, and suddenly fell into the eye.

In the Devil's camp, a generation of demons suddenly screamed and waved their fingers to the direction of the two major conquests: "The ancestors, the ancestors came, the sages will win, kill me!"

"boom!"

"Booming..."

"Hey..."

In the Devil's camp, all the magical powerhouses in the battleships cheered for the thunder, and the sound of the ship's roaring sounds appeared again in the void. The energy-gray column of densely weaving rained toward the enemy's two camps.

Millions of indigenous beasts also screamed and rushed to the battlefield, and began the final trophy harvest. Every indigenous beast was a green light, and only the future delicious food was seen in the eyes. .

In an instant, this piece of emptiness is once again chaotic, but the situation has been one-sided, the two powerful forces that were originally in the momentum of the enemy, the powerful forces of the opponents, whether it is the immortal grotesque at the high-end combat level or the conventional combat level. Tens of millions of warships, all of which turned around and fled.

Although the war has not yet come to an end, the final result has been laid in advance at this moment. The devil has won a great victory. All that is done today is simply to win the battle and expand the results.

In the face of this scene, the most sorrowful is the three immortal old monsters trapped by Ye Xuan's million miles of Leihai, the cold-topped ice crane, the elephant fox and the three-jawed dragon.

At this moment, in the face of the 50 million-strong conventional warships of their own camps, the army has completely fled, especially the seven immortal old monsters who have just arrived, and they have not even had time to take the shot, but they have turned around and turned their heads. These three immortal grotesque people are crying.

This can be really unfavorable and the friends are not careful. If the seven guys join forces to take a risky attack, they may not have the chance to save the three of them from the millions of miles of thunder and sea.

Will everyone escape together at that time? It's not a special thing to stay here. It's trapped by Lei Hai. It's clearly the rhythm of ten deaths. It's too special to be loyal. It's just a pit person!

"I just want to escape now, isn't it too late? The old man has waited for a long time..."

I saw seven immortal grotesques who just met myself. After screaming, they immediately turned away and fled. The two generations of the ancestors who stood in this virtual sky were not in a hurry, the words in the mouth. It is still not too slow, the body shape has never been plucked, it seems that there is no intention to pursue, but the voice of its words is waiting for the final outcome of the seven immortal blame!

Until now, the ten immortal geeks, including the three-jawed dragon, suddenly came to realize.

Previously, they have been crouching in an unknown parallel space, thinking that they are waiting for the rabbit, waiting for the appearance of the demon ancestor.

But now that they heard the other party's words, they finally understood that who was the hunter and who was the prey, they were mistaken at the beginning.

They are waiting for the ancestors of the devil to appear, and people, why not always wait for them to rush out of the squatting parallel space, the deity to the full extent of this star field, so that the final killing?

Chapter 4047: Slap a slap

The development of this plane-level starry sky warfare can not be overstated by the rapid changes!

The previous ups and downs have already made countless star powers feel like they can't stand the heart, but compared with the scene before them, it is far from anything.

The eleven immortal grotesque from the two major controversies of the Second Universe and the Third Universe, except for the one who first fell to the hand of the Devil's Emperor Mo Yufeng, the remaining ten, in just a few Two minutes in a minute.

This is the ten immortal grotesque. In any case, it is enough to sweep a cosmic plane. But now, the first three people who jumped out of the field were directly defended by the only realm of the domain. Sacrifice a congenital Leiyuan to treasure, and instantly suppress.

Then, the last seven immortal grotesques just came to an all-round, and even in the future they could launch even a wave of offensives. At this moment, they all turned around because of the domineering ancestors' tyrants, and turned around and fled.

On the conventional combat level of the opposing sides, even if the total strength of the more than five million indigenous beasts is counted, it is only more than 20 million. Only two of the two major conquests of the camp are the generals. Attack, the disparity of strength is so huge, the party with less warships chasing the more battleships, shouting and killing, the momentum is like a rainbow...

All of this is simply a dog, and everyone wants to die.

However, all this is obviously only the opening ceremony of the two major congress camps, because both the regular combat force of the Devil camp and the ancestors of the high-end combat level and the devil's emperor Mo Yufeng, Obviously, it is impossible to easily let this victory chase and expand the chance of victory!

"I just want to escape now, isn't it too late? The old man has waited for a long time..."

Seeing the seven immortal grotesques who just met with themselves, after screaming, they immediately turned and fled, and the second generation of the ancestors of the devil stood in the void.

As this sentence is said, the second generation of the ancestors of the demon will release their hands behind their backs and turn their heads to the right. In the distance of the void in this direction, one of the seven immortal monsters is the fastest. Although he couldn't tear the void, he only crossed the void in the flesh, but he still rushed out of a distance of 20 million miles between a short breath.

Its speed is almost twice that of the other six immortal monsters.

Obviously, because it is too eye-catching, Mu Xiu Yulin, this unique and enduring talent in speed, unfortunately became the first target of the devil's ancestors.

"Booming..."

The roar of the roaring sounds instantly spreads into the void of thousands of miles. The ancestors of the devil are still standing in this virtual air. The only action is to raise the right hand and face the fastest immortal monster that escapes. , one click away.

There was no change in the void, only the thunderous thunderous voice invisibly crossed the void of 20 million miles in a half-time, and when it came to the immortal grotesque who was escaping and fleeing, it suddenly turned into a Heavenly giant palm!

Only the gorgeous magical light, not too cumbersome movements, just the simplest of the air, and even the pressure of the air is not emitted, it is absolutely cloudless.

But this is just like the Tianwei giant palm of Tianwei. The speed is horrifying. It is far beyond the immortal grotesque of this fast-moving escape. At the same time, after half-time chasing behind him, it has been slammed down in the first time...

This immortal old monster comes from the Federal Senate of Wanluo. It is not a human race, not even a flesh and blood. His body is an unknown crystal.

It was a miscellaneous mine, lacking the value of mining. There was no power to pay attention to it in the endless years, but in the end, a rich and complicated crystal was born from a miscellaneous mine, and a self-consciousness and agility were born. Even in the three major stars, the main plane is extremely rare crystal life.

Speed is what it is good at!

At the moment, the immortal eccentricity of this crystal life condenses the figure, revealing the body, a colorful, only the rice crystals of the rice circle, like a tiny meteor, across the void, blinking two Tens of miles away...

He even had a sneak peek in his heart, because he felt that this time the catastrophe should have been spent, and the whole seven immortal grotesque turned and fled at the same time. As a crystal life, he was the most inconspicuous. There is no power, but the speed is the fastest.

As long as the other six immortal geeks can attract the attention of the horrible demon ancestors and lead the offensive, then there will be a few breath times, at his speed, you can rush out This magician star field.

Even if the ancestors of the devil's ethnic group are more powerful, they are only a one-of-a-kind immortal. Even if a king is immortal, it is impossible to completely ban a whole universe, which must at least be sealed. The means by which the emperor can be immortal.

Therefore, he is determined to be banned only in this magical domain.

As long as he rushed out of the Devil's Star Field, he could tear the void at any time and directly enter the crack of the void. From then on, there is no trace to find...

Unfortunately, this is destined to be only a luxury!

In the blink of an eye, the magical second generation ancestors of the gods pass the big hand, banged down!

"Card!"

"Card..."

There was no cracking sound in the void, and there was no energy explosion in the rumble. This crystal of life in the early days of immortality, the body that was originally spurred by extreme speed, stopped in the void, only the meter The height of Xu Gao's body collapsed in an instant, and eventually it bloomed in an all-round way. It turned into a gorgeous light rain and scattered empty space...

An immortal old monster, it will fall!

This scene is too stunned, and the gap between the immortality, the ordinary immortality, and the immortality has reached such a degree. The latter is only a hand-picked by the void of 20 million miles away. The former is completely destroyed, and there is no chance of even a struggle.

In the void, the original fierce starry sky, the resounding roar of the sky is once again a slow, countless star powers in the three camps of the two sides, after seeing such a shocking scene, all trembled. For a moment, I forgot the action in my hand.

Originally, the immortal grotesques are already invincible like gods in their hearts, but now it seems that even if they are immortal, there are times when they become ants.

In the so-called seal immortal, ordinary immortal, almost just like this kind of ants, in the starry environment, the road to practice is coming to the back, often a small gap is like a world of difference, a disparity in a big realm is Like Scorpio, this is already a consensus or even common sense.

But when I saw this happening in front of my eyes, I saw the immortal old monsters who were killed by the palm of my hand and finally found out the meaning of them. The world is not benevolent, and everything is a dog. The strong people on the road to practice are arguing, why not?

Chapter 4048: Poisoning

Seven immortal blame, split up and escape!

The \*\*\*\* is not a flesh-and-blood creature, but a rare crystal of the immortal eccentricity of the life. It was originally the fastest, manifesting the body, a striated crystal of only a square circle, turned into a smashing tiny meteor lasing. Going, a short breathing time, has already spurred 20 million miles of void, nearly twice the speed of the other six immortal monsters.

This is really amazing, so speed, let the other six immortal old blame, because this time, in the face of an immortal killing, speed, it represents vitality!

However, no one expected that this is the fastest and the farthest escape. In a breathing time, it has already spurred 20 million miles of crystal life, which was the first to be suppressed.

The ancestors of the devil's ethnic group did not move even in the shape of the body. They just raised their right hand and took a shot across the tens of thousands of miles. When they fell, their body became a crystal rain. , scattered in the void, in this way, the gods are gone.

This scene has made the three major camps in the distant battles innumerable in the three camps, and while fleeing, they have a heart and soul to pay attention to the other six immortal monsters behind them, but they are all desperate, almost at the same time. All of them lost their voices and exclaimed...

"What? Crystal blame is actually falling? How is this possible..."

"In the twinkling of two million miles, but still can not escape, just a single press in the air, killing an ordinary immortal in an instant... This is not the beginning of the repair!"

"At least in the middle of the period, even close to the end of this period, is this just the second generation of the ancestors of the devil? How strong is the generation of the ancestors of their ethnic group? Too bad, I am waiting for this coming. The first cosmic demon star field is simply looking for death!"

"These are not important. The important thing is... the other party actually picks the fastest one. This is clearly the heart of the mind. I have no intention of letting go of any one person's rhythm. Could it be that I have to annihilate the whole army today? Yet?"

"Hey! The deity is unwilling, there must be a glimmer of life!"

"Dao friends, no, predecessors, misunderstandings, everything is misunderstood... let me wait, I will not set foot on the Devil's Star!"

.....

In the blink of an eye, a colleague who is repaired to be equal to himself is killed, and the other party is just an understatement of 20 million miles of empty space, raising his hand and taking a shot...

All this, frightened the other six immortal grotesque, the speed of their escape is not slow, but it is more rapid, but the exclamation in the mouth is all desperate, not even one The immortal grotesque, under the guise of the heart, did not care about the face and dignity of the immortal grotesque, began to scream for mercy.

On weekdays, these immortal geeks are all high, even the descendants of their respective ethnic groups, have not reached a certain level, or have not shown enough amazing talent, and may not have the opportunity to see the legendary life. An immortal ancestor in the family.

High above, like a god!

However, in the face of this great disaster of life and death, the legendary myths of these six immortal monsters have been ruthlessly smashed, revealing the true face of the ordinary starry sky, even more unbearable.

This is also easy to understand, because compared to the ordinary starry sky, each immortal, the height that can be reached nowadays, all are paid for the hard work, and because of this, they love the feathers. Cherish life more.

Usually, when the crisis is not obvious, it will be a natural martial art. However, in the face of such a great disaster of life and death, the hardships of tens of thousands of years of age may be destroyed. These so-called immortal grotesques, if they are determined to be steadfast, are slightly impetuous. The appearance of the show is not even as good as an ordinary star power.

The higher the station, the more afraid it is to fall. This is the reason, because once it falls... it will fall even worse!

Six immortal grotesque, although they heard the sound of exclamation, even at the expense of the face, but the speed of the foot is not slow, even more rapid, tragic is just a struggle, but in the end, ask for this line Life, still have to rely on yourself!

The second generation of the Devil's ancestors started from the fastest crystal life, and basically has expressed an attitude. Today, it should be to leave all the immortal blame, one can not be less.

With stunned and fearful, the remaining six immortal grotesque can be described as means, the strength of the milk has been rushed out, the only thought of the mind is to escape, as long as they can escape the devil's domain, That longing for the dying, even if it's coming...

"puff!"

In the distant corner of the northwest corner, a dull bang was suddenly heard. Then, in the void of the sky, with a violent spurt of the stream, there was a dark yellow smog that suddenly spread, and the blink of an eye was shrouded. Millions of miles...

In this void, there are some three camps of star-ship battleships fighting each other, and tens of thousands of indigenous beasts are hunted in the void to obtain future blood food.

But nowadays, all of them are completely covered by the dark yellow smoke of this awning. You can't see it anymore, because the speed of dark yellow and strange smoke is too fast, and you can't have time to react, you can't wait!

Almost at the next moment, this corner of the void is in complete silence.

In the original three camps, a small number of star-to-air warships battled and fired at the same time, almost at the same time dumb fire, even the original tens of thousands of indigenous beasts, and the tens of thousands of indigenous beasts, completely silent...

It feels too strange to give people a feeling, as if this piece is covered by dark yellow fog, all the creatures are completely dead.

In fact, this strange dark yellow smoke covering a million miles away is simply alive. As the second dull squeaking sounds again, it only covers a million millimeters of dark yellow smoke. Suddenly skyrocketing, it instantly spread to five million miles, and it seems to be spiritual, and is moving towards the far edge of the devil's star in this direction... fast moving!

After half a breath, the area of the millions of miles that the dark yellow smoke was originally shrouded, the void was bright, and the strange yellow smoke went ahead, revealing the scene in this area.

Tens of thousands of warships, standing quietly there, no movement, like a ghost ship, it seems that there is no living thing inside.

In addition, there are tens of thousands of corpses of indigenous beasts in the void, as well as the huge blood of some of the hostile camp stars. They are all intact, but they have no breath.

Just a few moments before the dark yellow smog covered the place, at least nearly a million lives, completely dying!

In the distance, the ancient porcupine of the indigenous fierce beasts saw this scene, and immediately roared and screamed: "Yellow-sky stinky wolf! It is a yellow-sky stinky wolf, the savage pharaoh, a stinky Fart, actually killed the pig's tens of thousands of francs..."

Chapter 4049: Pinch

This stupid fart poisoned the immortal monsters of tens of thousands of indigenous beasts and tens of thousands of star wars in all kinds of warships. It was indeed a yellow-sky stinky wolf!

The immortal dynasty from the Third Cosmic Terran Science and Technology camp is an immortal protector of the immortal dynasty of the old emperor. Its cultivation is strength, and it is only in the early days of immortality!

The name of the yellow-sky stinky wolf is because of the blood talent of this group. Once the enemy is encountered, the smell of the yellow-smelly rat can release the stench, and the amount is shocking, which can make a starry sky stink. The air is overflowing with the yellow sky.

At this time, the reason why this immortal yellow-sky stinky wolf displayed such a \*\*\*\* magical power, the purpose is obviously to hide its body shape, hiding in this stinking yellow smoke, so far!

The imperfect yellow-sky stinky wolf, the stinking yellow smoke released after its stock, can cover a radius of 20 million mile. Its body shape is hidden in it. Generally speaking, if there is no revenge, even if it is repaired In the face of this situation, it is generally not going to continue to pursue.

After all, the 20 million mile radius is already a vast area, and this is a kind of \*\*\*\* magic. The area covered by stinking yellow smoke will move with the rapid movement of the yellow-spaced rat.

And this stinking yellow smoke also has the effect of isolating the knowledge of the gods.

It can be said that the body shape of which is hidden in this corner of the area, can not be known at all, coupled with the ability to force an immortal yellow air stinking wolf to display this kind of \*\*\*\* magical power that has no small damage to itself.

It is absolutely impossible to repair its strength. It is generally self-deprecating. It is impossible to be tempted by the stench. It is rushed into the yellow smoke with the body of the deity, and carries out detailed recourse...

It is precisely because of all this consideration that this immortal yellow smoked rat wolf will only be able to kill the undead crystal life after being killed by the devil's ancestors, regardless of the loss and cost, the first time This kind of speechless \*\*\*\* magical power is displayed!

In his view, such awesome means have been displayed, and it is still displayed in public. It can be said that the face of an immortal old monster has definitely been greatly damaged.

And this is just for the sake of survival. If there is no accident, the ancestors who are waiting for the future should not stare at him again. Today, I have escaped this life and lived without any accidents...

"The means of the next three streams, such a living group, can actually give birth to an immortal, it is also wonderful!"

In the face of all this, the second generation of the devil's ethnic group is still unmoved, and the figure stands in the void, like the green hills, and the line of sight from the crystal life of the crystal is bursting and blooming. In the rain, the face turned out to be a strange color.

Shaking his head and sighing: "Unfortunately, although this means of escape has been used everywhere, it is still useless for the seal..."

The voice was degraded, and the ancestors of the second generation of the devil had already shot again.

This time, as before, the body shape is still motionless, just raising the right hand, and facing the distant space in front of the poisonous yellow smoke, and catching it!

"Booming..."

The roar of the sky rang, and a towering giant claw screamed and rushed into the yellow smoke, and it was no longer visible.

Almost in the next moment, in the yellow smoke, a series of buzzing sounds suddenly came out. The sound was not very high, but it was clearly and incomparably introduced into the ears of all the star-studded powerhouses in the three camps of the battlefield.

Obviously, these buzz should come from the mouth of an immortal grotesque, otherwise there will be no such effect, and it can spread hundreds of millions of miles.

In the distant void, the yellow smoke is still the same, but this only rushed into the giant claws in the poisonous yellow smoke, but after a short moment, it has already spurted out from the other side of the yellow smoke. The original five fingers have already been opened. Gathering, in the palm of the giant claw, there is clearly a long-tailed beast with a dark yellow body and one-third of the golden hair.

The figure is only about a hundred feet, the pointed tip is sharp, the triangle eye, the middle of the scorpion shoots a strong fear of the mans, and there are even more resentful resentments.

This is clearly a yellow-sky poisonous rat, but when the ordinary yellow-sky poisonous wolf shows up its body, it is impossible to have such a huge figure. This is a very rare and immortal level. Yellow-sky poisonous wolf!

"No, Daoyou, don't be impulsive, old man... I can turn my back and join the demonic camp!"

Seeing that I have already displayed the poisonous gas of the face, but the end result is still the same. The devil's group is so immortal that it is easy to be born, and now the whole body is held in this towering energy giant. Among the claws, how to struggle is useless...

This immortal guardian from the Terran Science and Technology camp is immortal. He is begging for mercy on the spot in the ancestral home of the immortal dynasty. But in fact, it is only the back door. After all, it is not a human race. At the beginning, I was stunned by a powerful immortality of the old pavilion. I was so soft that I left my life. I have practiced it until now, and I have an immortal cultivation.

It can be said that although this yellow-sky poisonous rat wolf has been immortalized, even in these years, it has received a lot of resources from the immortal dynasty of the Terran, but it does not have much sense of belonging. The nature of this ethnic group is doomed to this. a little.

At this moment, I was defamed. Naturally, I didn't want to lose my life for this. I didn't care about the other, but I was able to bluntly in order to save my life.

In the other direction, in the distant sky, another strong man from the immortal dynasty of the old pavilion heard the words of instant, but his feet did not stop, and there was a cold voice in his nose.

"No need, your family is naturally anti-bone, has never been able to rely on it, we are devils... trust!"

In the face of an imposing grotesque in the public, the second generation of the devil's ancestors did not even have a flash of light in their eyes. They were so determined that they shook their heads, and then the right hand that was lifted up suddenly stood up.

"boom!"

Almost at the next moment, the emptiness of the towering energy giant claws in front of it, a shocking blast came, and then there was a scent of yellow smog that was so thick that it could not be opened.

This immortal yellow-sky poisonous rat wolf is even dark and yellow in color. At this moment, the whole body shape of the body is directly pinched by the towering energy giant claws, and it bursts open. There is no other color in the void. Its toxicity, this creature, the stench of the odor has penetrated into the bone marrow, it is no wonder that the second generation of the ancestors of the devil's group refused to hesitate without hesitation...

At least, in just a few breaths, this is the second immortal blame that has fallen into the hands of the ancestors of the devil. At the moment, there are still five.

"Hey..."

At the same time that the body of the yellow-necked poisonous rat was pinched, Ye Xuan's million-mile Zijin Leihai also had a fierce and fierce voice...

Chapter 4050: Scared bird

The three immortal old-fashioned ice-cold cranes, such as foxes and three-jawed dragons, trapped in the millions of miles of thunder and sea, are now almost collapsed!

Who can expect the ancestors of the devil's ethnic group to have the power to repair the immortal?

If you know this before, killing them will definitely not be involved in the Devil's Star Field. Even the first Cosmic plane will not come easily!

A seal is immortal, enough to easily suppress dozens of ordinary immortality, although both are immortal eccentrics, but they are not at the same level.

The ordinary immortal life is 100,000 years old.

And the seal is immortal, it is 500,000!

Only then can you see how big the gap is between each other!

This time, the major groups and top forces in the two universes of the Second Universe and the Third Universe, only a total of eleven immortal monsters, all of which are ordinary immortal, originally thought that such power is enough to easily crush the whole demons. The human race is over, but the facts before us are just the opposite.

The party that was originally a prey reversal instantly became a hunter, and they were originally the high-end fighters of the hunter. At this moment, they were in a difficult position, and even struggling at the end, trying to escape, seeking the opportunity of the slightest vitality. Not even...

How is it?

It can be said that from the immortality of the demon people's group, the other seven immortal geeks of their own camps, without saying anything, immediately turned away from the moment they fled and escaped, trapped in a million miles of thunder and sea. The three immortal geeks, the cold-topped ice crane, the elephant fox, and the three-jawed dragon, have been completely desperate.

At this moment, I saw with my own eyes the seven immortal monsters. In just ten short breaths, two of them have fallen into the immortal hands of the demon people, even the first to fall. Still among the eleven immortal monsters that have come here, there is a crystal life with super-speed talent...

These three old guys suddenly shocked and even forgot to close, and it was a gray defeat!

In the middle of the seal?

Actually it is a mid-term!

Even if it is only the existence of an early seal, it is enough to easily suppress the ordinary immortal grotesque of thirty or forty, and the ancestors of this demon are actually in the middle of the middle!

In this case, less than sixty ordinary immortal, there is no possibility of struggling in their hands, even if they are swarming up and exploding, they can only make the other party suffer from the light!

As for escape... forget it, don't think too much, it's not early, you can wash and sleep!

The incomparable despair came to my heart. At this moment, with the strength of the ancestors of this demon, it was confirmed that in the mid-season, the cold-topped ice crane and elephant fox, trapped in the millions of miles of the sea, The three-jawed dragon has completely cut off hope, and even the struggle to struggle is gone.

Because no matter how you struggle, the result is the same, there is no suspense!

At this moment, the three people who crouched in the corner of a million miles of thunder and sea, even gave birth to the idea of directly exploding everything, at least, that can still be dignified, it is better to be shackled by the enemy!

However, every immortal grotesque has experienced tens of thousands of hardships, and with all kinds of opportunities like creation, it has reached the height of today and is shackled by the enemy. That is no way, but if Let them start their own blasts, and settle themselves... How much more courage and courage do you need?

It can be said that in the face of this situation, there is hardly any immortal grotesque, and there will be no hesitation, and there will always be some embarrassment and vacillation!

The same is true for the cold-topped ice crane, the elephant fox, and the three-jawed dragon!

"boom!"

"Hey..."

Just as the three immortal grotesques were hesitating, the sound of the screaming sound suddenly sounded, and then it was a fierce and horrible sorrow, coming from the mouth of the cold-topped ice crane.

At this time, the position of the three immortal grotesques is the most backward of this cold-topped ice crane. A 100,000-foot-long \*\*\*\* stick is not prepared, quietly from the rear of the thunder sea. Stretched out, without saying anything, knocked directly on the back of his head.

This record is too embarrassing, the cold-topped ice crane has been reduced to a thousand-foot-sized blood, and the body directly falls down to the thunder sea below. The whole person has already been knocked, and a pair of blue scorpions in the eyelids are turning wildly. Eight-character circle.

If the three-jawed dragons see the machine fast, a crawler claws his body shape, so fall down and fall into the thunder sea, it is definitely the rhythm of burning on the spot!

"I want to blew myself? There are no doors. You are all captives of the king. If you have to make good use of it, you can't just kill it directly..."

In the next moment, Ye Xuansen's cold voice rang, his cultivation was weak, and he could not sense the sudden disturbance of the energy of these three immortal monsters, which seemed to be a sign of self-destruction, but possessed the immortal mid-term But you can.

The latter passed the contact between the master and the servant, and the news was passed to Ye Xuan at the first time. Therefore, Ye Xuan did not hesitate, and the \*\*\*\* stick explored it, and directly knocked the ice-cold crane on the cold top. Punish one hundred!

These three immortal grotesque, Ye Xuan did not intend to kill directly!

A few days ago, when faced with the four immortal grotesques from the First Universe, it was a special case and could not escape one, so he could only kill the killer from the beginning.

This is also true of the immortal grotesque who had been bombarded by the last three waves of Zijin Chao, who had been smashed by the last three waves of the years. It is not enough to force the latter.

However, if circumstances permit, in the case of the guarantee of captives, the existence of this level of immortal blame, Ye Xuan is not willing to easily kill, of course, if there is a deep hatred, or too disgusting, dangerous, such as yellow smoke The existence of the rat wolf is self-disciplined.

The old guy is also in the hands of the second generation of the ancestors of the devil, even if it falls in the hands of Ye Xuan, he will never hesitate, and will directly kill!

However, the three cold-headed ice cranes and the elephant foxes and the three-jawed dragons that have been trapped in front of them are self-contained and directly killed. There is no benefit, and a small life can be guaranteed to ensure the greatest benefit. Chemical.

However, just in the mind, I just made such a decision. In Ye Xuan's mind, the voice of the corporal ancestor's words suddenly came, causing him to stagnate and his face appeared. The color, subconsciously turned to look at the cold-topped ice crane in the gap between the millions of miles of the thunder and the ocean.

The mouth is subconsciously muttering to himself: "What? This broken bird actually has such a good thing? Oh... this time it's really a big deal, you have to cramp his skin, you can't After! Emperor Yin, immediately urged the Thunder field to suppress, must not let these three guys blew themselves, the king should slowly cook them!"

"Start with this broken bird..."

Hearing this discourse, his body shape was caught by the three-jawed dragon, and the cold-headed ice crane that had been relieved to breathe only felt a bang in the brain, and when he turned his eyes, he immediately fainted. ....
