

## Super D. S 4051

### Chapter 4051: Ice source

This matter is also a coincidence. Originally, the corpse of the corpse of the scorpion, the ancestral ancestors and the ancient monks of the ancients, have once again fallen into a deep sleep, but now, at the most critical moment, the corpse After Qing suddenly woke up, and after sensing everything in the outside world, he immediately sent a message to Ye Xuan!

This information is related to the cold-topped ice crane. In the era of the ancient times, the ancestors of the ancestors were repaired as the absurd power of strength only after the ancients, and their eyesight was naturally extraordinary.

She only saw one eye and saw the body of this cold-topped ice crane with a source of ice.

This is the source of the ice, and it has great use for Ye Xuan. If this time I can't get it, I will have to find a way to get it one day later, and whether I can still find this opportunity, I still have two things to say.

Because in the other four sacred sacred meditations that are slumbering in the smog, there is one who needs to revive the true body after awakening.

In the case of Tobacco, a total of seven ancient cultivating spiritual sources have been sealed, and now three of them have been awakened, namely, the ancestral marshes, the ancestors and the ancient mothers.

Among the remaining four, there is a body named Yugu Bingji, the body of Bingji, which was born from a congenital cave with hundreds of millions of years of accumulation. The cultivation is also the law of the universe, so once When you wake up, you must get a source of ice to reshape your body!

Just like the corpse of the ancestors and the post-Qing dynasty need a sacred corpse source, the ancient priests need a thunder source, it is a truth!

Knowing all this, Ye Xuan couldn't help but scream for luck. Fortunately, the head of this cold-topped ice crane is full of porcelain. Just now, the stick did not directly knock out the brain and kill it.

Otherwise, once he fell, Ye Xuan, in the first thought of not wasting a little bit of resources and energy, must let the Emperor Yinrui or Lei Diyin completely absorb the energy in his wreckage, leaving the body to turn back. Bake food.

In this way, the precious source of ice in the body is really so wasted...

Ye Xuan did not hesitate, and Sen Han's words came out: "Lei Ling, immediately shot, killing this broken bird, remember, leaving the body, the energy in the body is also kept as much as possible, this king is useful..."

Upon hearing this, the cold-topped ice crane that just woke up because of the three-jawed dragon to the body was scared on the spot, almost fainted again, and sent out grief: "It's just not easy. Kill, what is this ghost? How can it change in a blink of an eye?"

"Say good cooking slowly? Friends, the deity is not afraid, you still have to slowly toss it, as long as you do not take the deity, everything else is good to discuss, what you need, the deity will not be postponed, must be presented with both hands! "

Obviously, through the words of Ye Xuan, the cold-topped ice crane heard the signs and saw that Ye Xuan seemed to have other ideas and wanted to maximize the benefits.

Although this is still tossing them, but at least there is the possibility of living, and today's situation is the most fearful for the three of them to be fatal, as long as there is demand, everything is not a problem!

"Yes, this king does have what you need, but you don't have to use it with your hands, because you will definitely not give it. It is no different from you, even worse, or the king himself has taken it..."

Ye Xuan shook his head, his body was floating in the distant thunder sea, his tone was firm, and he did not shake because of the cold suit of the cold top.

Because he knows that this ice source is absolutely the most precious thing for the cold-topped ice crane. Once it is lost, it will be like if the ordinary star-powered strong loses the Tao. So, it is better to die!

Moreover, in order to prevent the other party from knowing his own intentions, he has acted too aggressively under the self-knowledge, so that the origin of the ice-cold originated, and Ye Xuan even even figured out what interests the other party might have at the moment. I have never said it.

Although the narrow and small square of the land trapped by the Leihai regiment has already been suppressed by the field of Lei Diyin, the three immortal monsters that have been trapped have been unable to unfold themselves, but the cold top After all, the ice crane is immortal, self-destructive, but just destroying the origin of the ice in the body, presumably there is still a certain possibility, Ye Xuan does not dare to take this risk!

"Hey!"

Ye Xuan's words just fell, and Xiao Xiao's voice has already sounded. The Emperor Yin Lei Ling directly rushed out from the inner edge of the sea of fire, and spurred to the still cold and dazzling ice-cold cranes in the midst of the immortality. Fully erupted, with a purple-golden Thunder River behind it, the power is infinite.

Seeing this scene, like the fox and the three-jawed dragon, they screamed, and they rushed out in the first time. The three were originally scared to be crowded with the little girls. Was ruthlessly abandoned, like the fox and the three-jawed dragon did not call one, and the blink of an eye has already reached a thousand miles away.

Seeing that the actions of the two were so fruitful, there was no hesitation in the half-money. The cold-headed ice crane resented the sky and cried in grief: "Hey...all brothers and brothers, you don't bring this!"

"boom!"

The voice has not yet fallen, and the Emperor Yinlei has already arrived. The cold-topped ice crane is only the strength of the early days of immortality. Even the strength of the Emperor-Indian Leiling deity can not be resisted, not to mention the latter. Behind him, he followed the Zijin Thunder Dajiang River and got the power of Lei Di Yin.

Coupled with the hinterland of the central domain that is trapped in the thunderstorm of the sea at this moment, there is no way to escape. The self-destruction can't be done by the Lord... He didn't think about resistance at all, and his body shape was immediately dragged by the Emperor Yinling. This hanging Thunder Dajiang is inundated!

A fierce and fierce scream of sorrow, in the next moment from the slamming of the Thunder River, revealed a thick unwillingness and grievances, but it was extremely short, less than half interest, it has come to an abrupt end.

Soon, Emperor Yinlei Ling once again rushed out of the Thunder River, a hovering, with this hanging purple gold Leijiang turned away, not into the Leihai not far away, the remains of the cold top ice crane appeared, divided Lossless, but it has never been breathless.

Not only is the body intact, but the energy in the body is even more stable. The Emperor-Indian Lei Ling's take away is just his god, even so, for it, this is also a big supplement!

Later, he turned to the other two directions, and now he is looking like a fox and a three-jawed dragon.

Feeling the eyes of Ye Xuan betting, these two old guys subconsciously squatted a few times, where they can see the prestige of the immortal.

After turning around and looking at each other, the fox screamed in a smack of suspicion. It seemed that a great determination was made to make a certain decision. The tooth would bite and say: "But, Mo Xiaoyou, just let go of the deity, today. I will send you a great creation..."

Chapter 4052: Descendants of Treasure Hunt

After seeing Ye Xuan killing the cold-topped ice crane, he immediately cast his sight on it. Like the fox and the three-jawed dragon, they turned their heads and looked at each other. Then there was a smack of stunned in the middle of the scorpion. The determination made a certain decision, and bite his teeth: "But, Mo Xiaoyou, as long as you let go of the deity, today will send you a great creation..."

When the words were exported, Ye Xuan stunned on the spot, and even the three-jawed dragonfly on the side was the same.

But soon, the three-jawed dragon raised a paw and licked his face, a painful and incomprehensible expression, seemed to think it was too shameful.

Business-related, it is not a matter of the gaze of the sleek ga

This is like a fox, is it that the brain is not burned, and even the situation in front of you can't see it?

People are now in a big situation, and it seems that they are still planning to kill. At this moment, when they say this kind of ratio, what other better results can be found besides finding and looking for abuse?

In an instant, the three-jawed dragon suddenly had a kind of anger that stole the dog. I only felt that I was too unlucky. In front of me, one of them was a god-like opponent, and the other was a pig-like teammate. Actually, let him put it on, and make a pair of them, oh...

Thinking of this, the three-jawed dragonfly has a heart of crying. It is also at this time that the elephant fox on the side is a turn of the front, and even the look on his face suddenly becomes a little serious.

Then he said: "Mo Xiaoyou, you know how my ancestors like the foxes existed?"

"Hey?"

Ye Xuan once again stunned and shook his head subconsciously. The look on his face was not too strange. The other's words were a bit weird. Before saying something to send a big fortune, now the front turns and mentions his blood ancestor. .

But looking like a sly face with a serious expression, but not like a heartless madness, it should be pointed out, anyway, the five immortal mortals remaining in the millions of miles of thunder and the ocean do not need Ye Xuan to go Intervene, time is, he is not in a hurry, wait for the following.

"In the distant era of the ancient times, there was a creature named Treasure Hunter, which is the same as the Nether Mouse and the ant. The Nether Mouse has the superior ability of the universe to understand, the talent in the blood is amazing, and it can perfectly integrate itself. In the void, even the barrier of the cosmic plane can't stop its shape..."

"As for the ant, there are similar unique blood talents, and the treasure hunt is also the same. This kind of creature is not very strong, but it is amazing. It has the most keen sense of all kinds of top treasures and heavenly treasures. Even more than the technique of derivation!"

Having said that, the face of the fox scorpion shows a sense of pride. After the slamming, he took the lead: "The two powerful ancient creatures, the emptiness mouse and the ant ant, have their blood in the first universe. They are the first. The \*\*\*\* ant family of the space mouse family in the cosmic slave community."

"As for the treasure hunt, it is the source of the blood of the fox family. Therefore, among the ethnic groups, occasionally there are blood-breakers who can awaken this powerful sense of inheritance from the blood of the ancestors, looking for various top treasures. And the ability of Tiancaibao, although because the blood is not pure, it is far from being able to compare with the source ancestor..."

"But once this kind of treasure hunt is awakened, at least the general strong-minded ones are absolutely incomprehensible. Even some extremely powerful techniques of derivation can only be expected."

"The deity... Hey, I am just this kind of \*\*\*\* explosion, awakening one of the existence of the treasure-seeking consciousness, and this treasure-seeking consciousness has already awakened when I entered the Qiankun territory before nearly 20,000 years ago. It has been realized that nowadays, among all the people of the entire fox-like family, this kind of treasure-seeking \*\*\*\* is the most powerful person!"

"In this respect, I can say without exaggeration that even if the king of the art of good deduction is immortal, if it is better than the old man, it is definitely going to be ravaged, the blood of the ethnic group. Different, each has its own speciality, this is nature, not repaired by strength can make up for it..."

When I heard this, whether it was Ye Xuan or the three-jawed dragonfly, it was a little straight, but there was no doubt about the words like the fox, because the treasure hunt, although the world is not visible, the general ordinary star power They are also not exposed to this secret, but they have heard more about it.

Even in the distant era of the ancient times, the treasure hunt is absolutely the top auxiliary animal of the strange goods, which is the joy of some ancient supreme, and the volunteers of this ethnic group are

not strong, so they are often willing to attach to certain A strong and desperate, both sides take what they need.

It is sheltered by the sacred ancient supreme, while the treasure hunt is the treasure hunt for its treasures. The proceeds are generally distributed in a mutually negotiated proportion...

It can make the ancient and the supreme heart beat, and would rather provide long-term shelter to obtain the resources and treasures. The grades can be imagined, and only then can we see the power of treasure-seeking in this blood-seeking treasure.

After all, the average of the ancient sages knows a little about the technique of derivation, plus the blessing of cultivation. In general, as long as there are some clues and traces, there are few things that the ancient Supreme cannot explore.

But they still need to rely on the treasure hunt, only this has explained the problem!

Thinking of this, Ye Xuan's eyes suddenly lit up, but the look on his face remained unchanged. He shook his head and said: "You have to say that you really said that you are moving the king, but just drawing a big cake seems to Not enough. After all, you are like a fox family who only inherits some of the blood of the treasure hunt. It is not pure. The talent in this area may not be strong enough..."

The implication is that this depends on the rhythm of dry goods.

In this regard, Xianghuyu seems to have been expected, not at all anxious, he just saw a glimmer of life, but now, from the reaction of the devil's emperor, he has almost 70% confidence. I am sure that I can escape this life and death catastrophe.

One thought of this, like a fox glimmering, the words in the mouth suddenly revealed a mysterious feeling, the voice was lowered: "Mo Xiaoyou, I do not know you can hear the rumor of the parent star?"

"Mother star?"

Ye Xuan was shocked and his face was stunned. Even he was rumored to know the mother star from a generation of demons, and he was extremely skeptical that the so-called parent star was the one he knew. Stars, because of the myths and legends like the open sky, are actually the same.

However, he did not think of it anyway. At this moment, he once again heard the word of the mother star from the mouth of Xianghu, and then thought of the creation of Tianda, which he said, and the treasure-seeking consciousness he awakened... Ye Xuan Suddenly, the breath was rushing, and a bold guess was sprouting!

Chapter 4053: Mother star clue

At the first instant, Ye Xuan was very excited, but soon he calmed down and thought about it. He felt a little too excited, because if the fox scorpion found the parent star, it would be impossible.

After all, even the blood source of the Devil's group, and the followers and their descendants from the parent star, have left before tens of thousands of years, leaving the three major stars to explore the returning mother. Star Road, but now, there is still no news back.

This is obviously not the rhythm of returning home. Otherwise, they left behind the descendants of the devil's group in the first universe. If they really found the path to the parent star, these tens of thousands of years will be Come back and take a look?

Even those who came from the mother star, they couldn't have a strong presence, and it took a long time. So far, they haven't found the whereabouts of the parent star. Only ordinary immortal elephants, how can they do it? To this point?

You must know that although he has the blood of the treasure hunt in his body, it is not pure. The sense of treasure hunt in this respect is so strong.

"Mo Xiaoyou, don't look at the old man with this kind of look, the mother star is so mysterious, I can't find it so easily..."

At first glance, I saw the heart of Ye Xuan's thoughts. The elephant fox was honest and did not blow the air, but although he admitted this, his face still remained: "Although the mother star has not been found, but the old man With more than 40% confidence, we have found clues related to the parent star..."

"Not long ago, I found a secret in the old man. I thought it was just a small independent cave. But after I entered it, I found that the deeper I was, the more I couldn't see the end. I guess the secret. Broad, at least the sum of the three major star planes today..."

"And, this mysterious emptiness is full of old, old-fashioned atmosphere. I used to rush to the depths for more than a month, but I have not yet touched the outer edge, but I have to stop, because in the area, a large number of ruins of the ancient and powerful people began to appear in the front of the void. From the beginning, there was a large-scale power generation."

"That is a real dragon, the atmosphere is too strong, and the immortality is inaccessible, otherwise there will be danger of explosion..."

"The helpless ears, the old man, I can only keep moving around in the surrounding areas, but I have never been able to go one step further. Even a piece of treasured blood has not been harvested, and it is simply not close."

"However, although nothing has been gained, after exploring the treasure hunt and exploring, the old man still found something..."

"At the end of the void at the deepest part of the secret, there is a star full of life, and the atmosphere of this star is extremely strange and ancient, just catching the breath that it exudes, let the old man have me The mind is invisible in the invisible!"

"You are skeptical... This star is the rumored mother star of the ancient times?"

Ye Xuan's eyelids jumped, and the object's words were not suspected, because according to his description, the secret was probably the main battlefield fragment of the ancient war.

In fact, the three major star planes of today's world, as well as all the large and small planes, caves and so-called secrets outside the three major star planes, are actually the universe voids of the ancient times.

That battle was too fierce, and the whole desert was collapsed, and the void was turned into countless pieces, scattered and scattered.

However, even if the starry planes of the world are fragments of the ancient times, these fragments are also different from each other. After all, the ancient wars of the past also have marginal battlefields and warfare core areas.

The three major star planes, the same year, should be the most fringe of the universe in the era of the ancient world. For this reason, when the whole desert collapses, it will be able to leave such a complete, three-dimensional star plane.

In the same way, it is precisely because it is at the very edge of the battle of the year, it is almost impossible to see the wreckage of those ruins of the ancient world in the three major star planes of today's world.

And the mystery that Xianghuo said, even in the outermost part of the outer region, there are suspected wild dragons and survivors. It is obvious that in the battle of the year, it is very likely that The real battlefield core area.

In this way, if there is a star in the deepest part of the mystery, and there is a star with an ancient and rich star, then this star does have the possibility of more than three or four percent. It is the legendary era. Mother star!

"No matter which star is the parent star, just this secret, it is enough... deal!"

The other party said so much, but just want to seek a chance to survive, Ye Xuan did not talk too much nonsense with him, nodded to the other party to throw a reassurance.

Although this guy's treasure hunt is still not comparable to the real treasure hunt, it is quite extraordinary. For Ye Xuan, it is very useful. In the idea of buying people, he is hesitant after hesitating. Waved from the body of the immortal world, took two drops of the source of evil, and spurred to the opposite elephant fox.

"This is two drops of evil source, the final product of the furnace, even the existence of the ancient powers and even the ancient level of supreme, need it ... Although only two drops, but enough for you to raise your own blood to a level. "

"Follow this king, this kind of resource will always be there in the future, of course... the premise is that you show enough value!"

"Shish...what? Awkward source?"

Like a fox, he is a big jump. As an immortal ancestor of a group, he is naturally aware of the existence of this top resource. Unfortunately, although there are some ethnic groups in the ancestral land of the second universe, There are old monsters who have lived from the ancient times to the present, or who have been dying to this world.

It is said that one or two drops can be divided every year, but they do not exist in the ancestral home of the fox family.

Therefore, although he is eager for the evil source, he has never seen it before. At this moment, seeing Ye Xuan's wave is that two drops have been sent out. Like the fox, even the breath is rushing on the spot.

Two drops, even the blood source of the top ten ethnic groups, such as the \*\*\*\* people, is said to have only two drops a year. It is a wild power that has lived from the wild to the present, and he just got it and he got it. This kind of top-level treatment is comparable to this, which is simply...

When I think of this, Xiang Huyu will not hesitate to open his mouth and swallow the two drops of evil source liquid into the abdomen, and the eyes will be fine, and the head will be smashed with chicken.

Pat the chest to ensure that: "Little friends ... wrong, less the Lord assured, explore the secrets of the matter to the old man, with your hands in the hands of these treasures to the power of the field of power, as long as With the old man leading the way, after we enter that secret, we will be able to go deep into it until we find the mysterious star that is suspected of the ancient mother star!"

Chapter 4054: Benedict also has a unique skill

The dialogue between Ye Xuan and Xiang Huyu is long, in fact, only a few minutes!

Although it was only a few minutes, the change of the situation was too great. A few minutes ago, the elephant fox still faced the crisis of life and death. At any time, it could be bombarded by the alloy \*\*\*\* of war, or drive the one. The shape is harmless, the power but the horror of the Emperor Yin Lei Ling, directly killed!

But now, only a few minutes, this crisis is easily dispelled by him, and even got the top resources of two drops of evil source as a reward...

All this is like a dream, and the three-jawed dragons on the side look at each other, and the whole person is stunned. Just like being thundered, even the scorpion is green...

Two drops of evil source!

Among the second universe, as the top ten \*\*\*\* people in the top ten, the family does have two drops of the source of all evil sources every year, but all of them are from the depths of the ancestral land. Bloody is consumed.

Not to mention the three-jawed dragonfly is just an ordinary immortal ancestor of the family. Even the immortal ancestor of the king-level ancestors of the \*\*\*\* ancestors have absolutely no chance to get a drop of the reward.

But now, with the self-cultivation of the same strength as the fox, it is easy to get two drops of evil source liquid, this matter for the three-jawed dragonfly, it is just like the same heavy weight in the heart, so He is very incomparable.

If Ye Xuan is still here at the moment, and the old goods like Hulu are also smart enough, the first time I will throw these two drops of evil source into my mouth, I am afraid that nowadays it has become the limbs of energy scattered into the body. Hundreds of cockroaches... The three-jawed dragonfly is almost even on the spot!

However, it can be seen from this incident that there is still a large number of sources of evil in the hands of Mo Yufeng, the devil of the devil. If it can be said as a horned fox, accepting it and joining it,

not only now It is highly probable that two drops of allergens will also be obtained, and the benefits will be even more amazing in the future.

If you don't say anything else, it's just that the value of the sacred environment in the fox's genius is hard to estimate.

The outer edge of the secret environment is in the void, although there are a lot of powerful wild animal remains, the pressure is amazing, even the immortal old monster can not be approached, let alone pass, but this matter for the devil's emperor Mo Yufeng However, obviously it is not a problem.

In his hands, the king of medicine, Ding Ding, that is the era of the ignorance of the evil spirits in the star of the evil earth can be ignored, the age of the field is the ancient treasures, and the power of the domain field of this tripod protects the whole body and enters the mysterious secret. In the depths, obviously there is no problem.

In a word, the devil's descendants in front of him are definitely thick and big thighs. Like the old fox, this old goods is actually blessed to the soul, and it is successfully held in front.

When I think of it, the admiration of the object of the three-jawed dragon in the heart is like a river in the meantime. It is so continuous... I really didn't see it, this old man actually has such a skill, it's just too fickle!

Of course, the envy of this matter will not come, and the blood vessels of the treasure hunt in the human body are placed there. Only this point is that any creature outside this family can't be compared, and then it is useless.

However, this old man has a good start, and his precedent is in front of him. As a three-jawed dragonfly who is not weaker than his strength, even if he just draws a gourd, he may not have a chance. With the successful counterattack, the crisis is solved...

At this time, he remembered that he had wanted to shout and kill the \*\*\*\* before him. As a result, not only did he have a seal behind him, but even the top resources in his hands were so abundant that he was so horrible. The liquid is just throwing away two drops... He suddenly has the feeling that the intestines will soon repent.

I knew that I was still playing a fart. I wanted to find a way to pull the relationship. Maybe I have already entered the partnership well!

As soon as I read this, the three-jawed dragonfly was excited.

I didn't hesitate, even when I lifted my right front paw, I yelled out loudly: "Wait a minute, this... I want to get involved, I don't mean, I mean, I also have a unique skill, I am no better than The old man's treasure hunt is bad!"

Hearing this discourse, Ye Xuan and Xiang Huyu all turned to look at it. The latter's face was weird. Ye Xuan was sneer: "Oh? You also have a unique skill? The \*\*\*\* blood of the \*\*\*\* people is bloody." Punch? Sorry, in the eyes of the king, this does not seem to be of much value..."

"Don't, how can it be worthless? The value is too big, and the old man, what is it, I am also an immortal old monster..."

When I heard Ye Xuan didn't think about it, I would have to refuse it. The three-jaw dragon suddenly panicked, and I was so anxious to scratch my head. There was some incoherence in the words: "Don't say anything, when the thugs are always ok? If you are a guardian of a small friend, it is definitely a gold medalist..."

"Small friends say that the means are extraordinary, but their own cultivation is still short-term, the domain is a bit of a situation, but if it is followed by an immortal guard, it can be completely different, at least save a lot. Trouble?"

"Moreover, in addition to being a guardian, I still have blood and blood. Even in the \*\*\*\* family, my bloodline is quite high in evolution. Nowadays, it is already a three-jawed dragon. The real dragon's blood has evolved!"

"If one day it really evolves into a powerful dragon, even if it is a mount for a small friend, it is a very windy thing..."

When I heard this, not only Ye Xuan, but even the elephant foxes on the side were completely dumbfounded.

Even if they are so open-minded, facing the strange scene in front of them, there is still a feeling of being caught off guard!

An immortal old monster, actually self-recommended, to give a junior in the domain as a gold medalist and a rider in the same walk... This is simply sensational, and it is impossible to believe that it is impossible to believe that it is not known to drop a lot of eyeballs!

But then again, people are so low-profile, although there is no such thing as a hunter-hunting treasure, but after all, it is an immortal grotesque, cultivation and strength are here, if you can take it as a hitter Or a ride or the like...

Ye Xuan brain made up the scene, and suddenly there was some heartbeat, but don't mention it. If the old man used it to compare it, then the effect is absolutely nothing to say!

"Well, since you are self-recommended, you are unpredictable, but you would rather give up to the king as a guardian and a representative of the travel representative..."

Speaking of this, Ye Xuan's words are stunned, and nodding his head is a decision on the matter: "That's what you want... to do it well, as long as the performance is good, the king can't help you!"

After that, Ye Xuan waved his hand again and took two drops of evil source directly from the immortal world. He turned a finger and turned into two faint stalks, facing the three-clawed dragon that was already ecstatic. Shoot and go!

Chapter 4055: Lei Lingdi

"That is that, after the old dragon, I am small and young, but I am my own, hahaha..."

Seeing Ye Xuan's wave of fingers, he will bring two drops of evil source to himself. The three-jawed dragon is suddenly ecstatic, while he says, he has opened his mouth and directly swallowed the two drops of evil source. A stretch, a moment of falling.

Since then, the ending seems to be very happy, trapped in this thunder sea three immortal grotesque, in addition to being the first to be suppressed by Ye Xuan, extracted a cold ice source of the cold top ice crane, the remaining two, like fox He and the three-jawed dragonfly are all sincere.

These two old guys were originally just for life, but now they want to understand, it is sincerely sincerely voted for Ye Xuan.

After all, whether it is the Terran of the Third Universe and the Federal Base of the Vatican, or the Second Universe, this time sent troops to the First Universe, and ultimately the plot is the benefit and cultivation resources.

In fact, even if the devil is taken down, the source of the evil can be monitored at close range, and even the end of the furnace, but even the evil source in the furnace, there are not many, from After the major groups of the two universes are divided with the top forces, the evil sources that fall into the hands of each group are absolutely indispensable.

At the moment, they got two drops easily, and the devil's emperor Mo Zhenfeng seems to be completely ignorant, showing that his collection of this object is quite rich.

More importantly, he can come up with such top resources, indicating that he has already entered the furnace. With the way to get the products of the furnace, as long as he works with him, he will continue to get this material in the future.

This is the most important thing for both of them. As for the other resources that can be divided after the destruction of the devil, in fact, for the existence of immortality, in fact, they do not care at all, at most, they are fighting for the ethnic group.

However, if the interests of the ethnic group conflict with the evolution of their own lives, I believe that there is a large number of people who do not hesitate to choose the latter. At least, the elephants like the foxes and the three-jawed dragons are absolutely in this category.

What's more, even if this battle continues, the devil may not be taken seriously. People will jump out of a second-generation ancestor, and they are already immortal, then the generation of their ethnic group?

In all likelihood, it is the immortal existence of the king!

What's more, behind the Moss, the devil's emperor, there seems to be a surviving level. After the second change of the evil source, many people began to suspect that he and the head were repaired. The horrible hollow giant tortoise is a group. Although it has not been confirmed, it is at least 50% more likely.

After the war, the Void Giant Turtle crouched down because of serious injuries, but who knows when he suddenly turned out again? The longer the time drags, the greater the possibility.

It can be said that after the failure of this major constellation of the two major universes and forces, it should be difficult to send troops to the demon population again in a short period of time. In this case, the next time you make another big crime, the statue The possibility of a virtual giant tortoise is born... it is already great!

In this battle, the devil is already destined to win the victory. Although the army of more than 50 million warships and more than ten immortal monsters have been damaged, it is far from being hurt in the two planes. The bones are moving.

However, the devil has won time for himself, and the later the war is coming, the more the major groups of the two planes and the top leaders of the top forces need to consider and test all aspects of the test. From a certain angle, it can even be said. In fact, the defeat of this war, the best time to destroy the devil, has completely lost...

It is precisely because of these factors that today's elephant fox and three-jawed dragon owl are somewhat awkward, but for this time, Cheng Xuan, who has been loyal to Ye Xuan, has evolved from the previous forced and evolved. I am willing to be here now.

It is a pity that Ye Xuan still does not trust them. This is two immortal grotesque. He dare not take it lightly. Even though he is sincere and sincere, he still benefits from it.

For this kind of existence, if there is no means to completely restrict the other party, he will always feel a little uneasy.

If it is placed before, facing the two immortal grotesque, Ye Xuan really has no effective means to control the other side, unless it is a headless baby.

But now it is different!

With the birth of Emperor Yinlei, the Leidi Seal, which has been thoroughly refining by Ye Xuan, is equivalent to the spirit and means that can be demonstrated, much more than before.

More importantly, this is only the thunder of the thunder in the body of the Thunderbird, which is condensed by the source of the Thunder, and it has its own immortality in the middle of the immortality. It shot, in the two old guys like the fox and the three-jawed dragonfly, leaving a restraint that is enough to form a restraint, or it can be done.

It can even be said to be extremely easy!

"Two, it's not the King's letter, but you are still not familiar with it. The two are repaired and the strength is far below the king. Therefore, some necessary means are still necessary in the early stage. !"

Just as the foxes and the three-jawed dragons secretly sneaked on the ecstasy, Ye Xuan has quietly spoken, and the words are still not falling. From the thunder sea in one side, there are already two extremely weak Shooting, the color is purple gold, micro-striped.

The speed is almost to the extreme, and the blink of an eye has reached the front, under the flash, directly along the eyebrows of the fox and the three-jawed dragonfly, and disappeared instantly.

The two old guys are completely unprepared to this point. After all, everyone has turned the enemy into a friend, and this very good talker, and the generously raised hands, each rewarded them with two drops of evil source... ..

In this case, who can expect that he will immediately have such an action immediately?

What's more, the Emperor Yinlei Lingxiu, who was shot, was originally on top of them. It also has the power of blessings from the innate Raytheon to the treasure of Emperor Lei, not to mention that it is now under the guise of prevention. It is also impossible to prevent.

When the foxes and the three-jawed dragons came back to the gods, the two smudged purple gold-like smudges were silently immersed in the two, even if they were sensory, search carefully. It is also impossible to find it... This is exactly the unique power of Lei Diyin. Even if the king is immortal, he will find nothing.

"this is....."

"Less Lord, I am really sincere! You are not a bit..."

Under the change of color, the faces of the two old guys immediately shrugged and looked at Ye Xuan bitterly, but the heart was sighing, even their own explorations were all traced, only enough Explain that the power of this purple gold is strong, although I still don't know what it is, but obviously it will not be a good thing.

"This is the spirit of Leiling!"

After the success of Emperor Fu, Ye Xuan felt a loose heart and smiled and said: "Reassure, it does not hinder you both, but if you later violate this Wang Yang, the king only needs one turn. It can be in your two gods... blasting in an instant!"

Chapter 4056: a rhythm that does not stay

"Rayling emperor?"

"In the Yuan...the \*\*\*\* of the Yuan blasted in an instant?"

As soon as I heard the words of Ye Xuan, the faces of the foxes and the three-jawed dragons were all green. The latter was even scared and the words in the mouth were no longer useful.

Although they don't know what the so-called Leiling emperor is, they can analyze a little bit by name, and must be related to the innate Thunderbolt.

The power of the Thunder attribute is originally the most arrogant, and the monk's \*\*\*\* is the most vulnerable...

Once this most arrogant Thunder's attribute power is blown up among the monks' gods, what kind of consequences will it be, and you can guess with the roots of your feet... Absolutely sour!

This is like if you have a tight spell on your head, you have to be careful at all times. Otherwise, if the master is not happy, you will have to drop the soul and smash the end.

The most important thing is that this spell is almost invisible and inferior. I can't see it at all. It's just a dog, and there will be no real freedom...

Thinking of this, the elephant fox and the three-jawed dragon consciously turned their heads and looked at each other. They exchanged a look with each other, full of resentment.

"Reassure, the king just said, this is just a preventive measure in the early stages!"

It seems to see through the thoughts of these two guys. After Ye Xuan took a slap in the palm of his hand, he immediately threw a sweet date in the past: "After the examination period, the king will naturally take back these two 缕雷灵帝符 After all, this kind of thing is only used to deal with outsiders. If it is really certain that it is a person, not only does it have to be such a means, but the top resources such as the evil source liquid in the hands of the king are even more open to supply, and absolutely can't treat you!"

Listening to him saying this, the faces of the two old guys have once again eased down, of course, on the other hand, naturally, it is because of the supply of the evil source liquid will be opened in the future.

This at least indicates that this newly-recognized little master is in front of the eyes. This kind of top-notch resources that are extremely hot-minded, must have a lot of stocks, or have already mastered the long-term access channels.

For the elephant fox and the three-jawed dragonfly, as long as you can continue to get the source of evil in the future, let alone open the supply, even if only one or two drops are thrown occasionally, they will die and leave, since In this way, this so-called examination period does not matter, and sooner or later can be passed.

"They both have their own ethnic groups behind them. Although they have already invested in the king, they have not left it, otherwise the ethnic groups behind you are not good..."

Seeing the faces of these two old guys easing, Ye Xuan's words turned a bit, and then said: "So, the meaning of the king is that it is best not to divulge the things you believe in, anyway, the kind of Lei Lingdi Even if the king is immortal, he can't find it. If you find a chance to escape, it's..."

"As for the few guys outside... you don't have to worry about it at all. This war, except for the two of you, the other immortal, one can't go away. At most, the conventional combat power puts some escapes. After all, some Information is also needed to be promoted through the public."

"In addition, the mysterious secret exploration of the suspected wild mother star clues, and the war of the devil's star field will come to an end..."

"After you return to the third universe and the second universe, if you need to contact the king, you can go directly to the triumphal city of the third universe of death stars, find mosquitoes or ghosts or Naples, secretly indicate identity and the king's Relationship can be!"

"Death Stars Triumph City?"

"Yeah, that's not after the exile of the imperial dynasty princes... oh! Lord you..."

Ye Xuan's words just fell, like a fox and a three-jawed dragonfly, and then muttered a subconsciously. Without waiting for the words to finish, the two old guys seemed to suddenly realize what they were, and their eyes were instantly slippery. Round, looked at Ye Xuan with a shocked look, while sighing.

Among the gods of these two old guys, they have been planted a Leiling emperor, and life is between their own thoughts. Ye Xuan naturally has no fear of revealing the old bottom, because they are afraid to leak.

What's more, before I planted this Leiling emperor, although the two old guys have already seen it on the surface, but in the depths of their hearts, there will inevitably be some mustards. At this time, they will reveal their oldest sensation to them, how much total Can play some role in the resolution.

After all, it is two immortal grotesque. Since it has been accepted, what Ye Xuan expects, naturally, is really a dead heart, not a heart-breaking!

Of course, this is far from the true finale of Ye Xuan, but the two old guys don't know.

"Yes, this king is Long Xuan, including the invincible \*\*\*\* of war that is tossing in the third universe of the Terran camp. It is also a devour of the king!"

After making a decision, Ye Xuan acknowledged it in a generous manner. This kind of move obviously touched the heart of the elephant fox and the three-jawed dragon. In their view, this is the real secret of the sky.

However, although the impression is not small, but compared with the shock and the stun of the heart at the moment, after hearing the news, it is really nothing.

"Xuanxuan... Xuan Huangzi? It turned out that this is your deity? The so-called Devil's Emperor Mo Yufeng is actually just an incarnation?"

"Oh my God! The five enchanting ones are amazing enough. Now the seven great enchanting youngsters of the younger generation are all you... This is simply called the old dragon, I doubt life!"

In the dumb eyes, after the foxes and the three-jawed dragons screamed, the face was already full of sluggish colors, and looked at Ye Xuan slyly. The whole person was like petrified, just like the Thunder.

"Okay, don't rumor about this matter. You two will have a few in mind. Right now, there are two immortal geeks that have not been solved. If you are ready, you will run away immediately..."

Inducted the situation of Lei overseas, Ye Xuan quickly re-voiced, said: "This king has been to the second generation of the devil's ancestors, he will temporarily leave, to pursue the last two immortal grotesque, wait I will arrange the Leihai, and the two of you will cooperate to open up a corner with the power of magical power and quickly flee in the direction of the wormhole..."

"It's the right side of the northwest corner, fast!"

"Hey!"

"Hey..."

Ye Xuan's words fell, and the foxes and the three-jawed dragons immediately screamed and screamed. The blue and white light on the top of the former suddenly became a powerful energy, rushing to the front.

The latter's three-pronged dragon scorpion's head is the moment of the golden mans, and when it's lasing, it shows the illusion of two tens of thousands of dragons, almost like the fox and the spurt. The awnings were blazing and blazing side by side at the same time in the right side of the northwest side of the Thunder Sea.

"boom!"

"Booming..."

After the huge explosion, the earth-shattering roar sounded in the northwest corner of Leihai...

Chapter 4057: Refer to the next person

"boom!"

"Booming..."

After the huge explosion, accompanied by the earth-shattering roar, the Thunder Ocean in that direction was specially manipulated by Ye Xuan. The power has only stopped at the surface of the watch. At this moment, the two immortal monsters simultaneously urged the magical technique. The bombardment immediately blew a passage without any suspense. Although it was only about a hundred meters, it was completely enough for the elephant fox and the three-jawed dragon.

Once again, the old guys turned into a mans, and swiftly followed the passage that had just been blasted, only about a hundred feet in diameter.

Along the way, in order to appear more realistic, the two old guys also specially touched the purple gold thunder that floated in the void after being blown up.

For this reason, when the two men rushed out of this thundering channel that was accidentally exploded, the bloodline was once again appearing. It was already black and black, and it looked extremely embarrassing. It fell into the distance and was innumerable in the two major squads. In the eyes of the strong, suddenly a large number of exclamations provoked...

"Two old men, they are so shameless, they are attacking, but they are fleeing. You are the face of the immortal blame..."

Almost at the next moment, the shape of the alloy \*\*\*\* of war rushed out of the thunder sea, the right hand \*\*\*\* bar is far away, domineering mania: "Come here, don't be too busy to escape, fight for three hundred rounds!"

"puff!"

"puff....."

When I heard Ye Xuan's words, like the fox and the three-jawed dragon, I was caught off guard, and I was almost mad at the blood on the spot. When I subconsciously turned around, it was already a sorrow.

This young master of the Lord does not want to leave a face, just playing a play, is it so serious?

咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱咱  
咱咱咱咱咱？

However, this thought is just a flash. The two old guys naturally do not dare to really entangle the matter. On the one hand, there is a Lei Lingdi character left by the other party in the Yuanshen. What if there is any disrespect The thought, suddenly bursting on its own can be troublesome.

In addition, the devil's group of immortal eyes have left, rushing to the far side of the opposite direction, is chasing the last two immortal grotesque.

With its horrible cultivation as its strength, at most, it will take a moment to return. If it has not escaped from this magician star field, it will rush into the cosmic wormhole at the edge of the star field, fearing that it is just this scene. It is also a white show.

I am so immortal that I can't even keep them down? Didn't you see that in a short period of time, have people raised several hands in the raised hands?

Once the devil's group has returned to immortality, but they don't kill the two of them, the discerning eye will understand at first glance, and most of them will have the stuffing. After returning to their respective ethnic groups, they will be suspicious.

"Everyone listens, evacuates! Immediately evacuate..."

"Go apart, can go one is one, every peace of mind, hehe..."

I thought about it, the two old guys didn't hesitate, and looked up and screamed, and they rushed toward the outer edge of the devil's star field in front of the road.

The elephant fox pointed directly at the cosmic wormhole leading to the third universe of the Terran, and the three-jawed dragonfly ran straight to the cosmic wormhole leading to the second cosmic plane.

In the distance, the tens of millions of warships that are battling with the army of the devil and millions of indigenous beasts have sneaked away in these two directions and retreated.

After all, these immortal geeks who are the two squadrons are not vocal, just paying attention to their own escape, leaving them not necessarily without a little restraint, so even if the heart is opened early, but These high-level fleet commanders from the two major groups and the top forces did not dare to flee too brazenly.

In the event that any immortal grotesque can escape his life, this kind of move without a command, private fleeing, is going to be liquidated.

But that was only before, but now it is different. There are two immortal grotesque at the same time, let them fully evacuate, and one can go one. In this case, naturally there is no one to fight.

"boom!"

"Booming..."

Almost in the distance between the foxes and the three-clawed dragons, the masculine sensation is far away, and the next moment that disappears quickly in sight, the starry battlefield in the distance, the first time has roared. Sounds great.

The tens of millions of warships that attacked the two camps, without exception, all stopped the bombardment of the guns, but only supported the energy shield, but the kinetic energy chamber was full of horsepower, and swarmed toward the second universe. The two cosmic wormholes of the third universe rushed away...

The final comprehensive big rout, start here!

"Roar!"

"Hey..."

With the big rout of the two major squad camps, nearly 20 million warships of the Devil camp have also chased the past, and the millions of indigenous beasts led by Taikoo Porcupine and Taikoo tortoise are even one by one. The screaming horror, no hesitation, chasing the forefront.

For them, this is a rare large-scale starry sky war. Although in the previous war, every beast has already collected a lot of flesh and blood materials, enough for a long time, but this kind of thing is everyday. Consumables, who can still be too much?

Nature is much better!

It is impossible for the tens of millions of troops of the other two to attack the camp. They are all left behind, but it is absolutely impossible to escape.

After all, the two major squad camps have been disrupted in the previous wars, and now some of them have even been pinned inside the army of the Devils camp, as if they were wrapped in dumplings, they simply escaped.

Soon, the fierce battle of the coffers broke out again, but this time the battle turned into a real one. Although the two major squad camps still occupy an advantage in the strength, the military mind has long since dissipated, morale and fighting spirit are all gone. It has been destined to become a crushed party.

Seeing this scene, Ye Xuan's heart is loose, this large-scale conventional combat power, he did not think that all of them will stay. At present, it is obvious that the general trend has gone, and it is estimated that it will escape at least one third.

The body shape of the two old guys, the fox and the three-jawed dragonfly, is already invisible. It is estimated that there will be more than a dozen points to reach the cosmic wormhole on the edge of the magician's star field. It is no problem to get out of the way.

As soon as I read this, Ye Xuan thought that the whole piece of Lei Hai behind him would be re-enacted by Lei Di Yin, and the Emperor Yin Lei Ling sang a slap, half a circle, and his body shape also flashed.

In the end, Ye Xuan waved his hand and threw the Emperor's seal into the immortal world. He did not hesitate to turn around and steered in the direction of the second generation of the ancestors of the rear demon group.

The only two immortals who fled in this direction were the last two. The rest were all killed. At this moment, when Ye Xuan rushed, one of the two immortal monsters fell, and the second generation of the devil The ancestors were raising their hands and pointing to the last immortal old man from the immortal dynasty.

Seeing this scene, Ye Xuan's heart jumped and immediately exclaimed: "Predecessors, pointing to stay..."

Chapter 4058: Great harvest

This time, the third cosmic humanity's technology and comprehension camp, the Federal Congress of Varo, and the second universe, a total of eleven immortal grotesque.

At first, Ye Xuan smashed one of the three waves of purple gold tides of the years.

Subsequently, three immortal grotesques were trapped in a million miles of Leihai, one was shackled, two were captured, and now it is the two cosmic wormholes that have reached the edge of the devil's field, leaving the first The universe is flat.

The remaining seven, when Ye Xuan passed on the second generation of the ancestors of the Devils, had already fallen five, leaving only two.

Today, Ye Xuan will retract the millions of miles of Leihai and turn around in this direction. When Dawei arrived, across a long distance, he saw a huge corpse in the void, and the body still returned. There is a surviving immortal breath that melts out.

In a short period of time, these two old monsters have been degraded one, leaving only the last one, fleeing to the distant void, and the second generation of the devil's ethnic group is raising their hands in a light face. Going in that direction, pointing to...

The last immortal that is escaping is the Terran, an immortal elder from the immortal dynasty!

Seeing this scene, Ye Xuan's heart moved and subconsciously whispered: "Predecessors, refer to the next person!"

"Ok?"

The ancestors of the second generation of the demon snorted and subconsciously turned to Ye Xuan, and the fine mangling flashed, but the movements on his hand did not stop, but only changed from the previous one to the backhand. One catch!

"Booming..."

The dull roar quickly went, and the speed was so fast that the immortality in front of it was close to the edge of the devil's star field, but it was still held in the palm of the hand by the giant energy giant. In the middle of the scorpion, the color of despair was revealed, and it was quickly captured and appeared in front of the second generation of the ancestors.

"This person, are you useful?"

For Ye Xuan, although the second generation of the Devil's ancestors only met for the first time, they have already heard a lot of related things through a generation of demons such as the demon emperor and other demons. Otherwise, Ye Xuan is in the past. In the sea of Wanlilei, he was able to pass on his voice. It is impossible to say nothing about this immortality, even if he is acting according to his words.

"Predecessors, this person gave me the treatment, rest assured, although he is immortal, but in my hands, but still can not escape!"

Ye Xuan raised his hand and arched the arch. In front of him, this is a comparable generation of the emperor Mo Zhentian. It is the second generation of the ancestors of the devil's group. The repair is even more immortal. He does not dare to make it.

After that, Ye Xuan waved the Shennong Ding and directly manifested the complete form. A giant star that is larger than the superstar is across the void.

"Sure enough, this respecer, I couldn't see it in the past, I can't think of this world falling into your hands..."

Seeing Shennong Ding, the second generation of the genius of the devil, the genius of the genius, flashed again, and the words contained a hint of emotion.

Listening to the meaning of his words, he obviously knows about Shennong Ding. After all, it is from the ancient times after the ancient times, to the existence of the world, but even he, in the past, only heard about it, but never Seeing Shennong Ding with your own eyes, it will inevitably be a little emotional.

"If there is such a trip, there is no fear of this hurricane, so it will be handed over to you."

Soon, the second generation of the genius nodded, and waved a hand, the energy giant like a sky suddenly shocked, the man who would be held inside it was immortal, throwing it like throwing garbage... ..

"call out!"

The latter was full of grief and indignation, gnashing his teeth, and being immortal, but he was treated like this. Obviously his heart was extremely uncomfortable, but in the face of a seal that was immortal, he did not dare to put it in half a fart, so he was directly thrown into the ding of Shennong Ding. The mouth disappeared.

"The old man is inconvenient to stay too long, before the matter, follow-up everything, by your own disposal is!"

Turning to the first turn to Ye Xuan, the second generation of the devil's ancestors finished, and thoughtfully swept a glance at Ye Xuan's left chest, the light suddenly condensed, seemingly frightened, but soon disappeared It is.

Subsequently, his body shape shook, disappeared directly, and did not leave any breath.

And because of his coming, the entire Devil's Star Field, which was banned, has returned to normal from this moment. In the imaginary sky far away, there are some of the two major squadrons that are exploding. There are some warships. For a time, I felt the change of this void. Under the ecstasy, a lot of low-pitched humming sounds have been heard.

Now that the emptiness of the ban is lifted, they naturally do not have to run all the way to escape, and the space jumps, the chance of being born out of this place will be even greater!

Ye Xuan did not pay attention to it all because he had other things to do.

In the void not far from the rear, there is a \*\*\*\* body behind the immortal old quirks. It is huge and huge. When he turns around, he urges Shennong Ding to go and collect it in Ding, and stay in the central area of Ding's space. The bottom of the volcano is enclosed in a cave.

As for the other five immortal geeks that were killed by the ancestors of the second generation of the devil, three of them have been destroyed, and the \*\*\*\* has not left a point. It is really wasteful.

The remaining two were also blown up. The wreckage was cracked into pieces of varying sizes. They were eaten by the Taikoo Porcupine and the Taikoo tortoise, and led a group of indigenous beasts. They were divided up in the first place.

Into the blood food of these pockets, even if Ye Xuan has no ability to come back, and then the body of the immortal strong, he really does not see it, in the closed cave at the bottom of the volcano of Shennong Dingyang, There are also a large number of remains of the ancient treasures that transcend the immortality.

At this point, the battle basically ended, and all the forces from the two major conquests of the Second Universe and the Third Universe all collapsed.

In terms of high-end combat power, eleven immortal grotesques recruited two ancestors, one oyster, and the rest were all killed.

In terms of conventional combat power, there are more than 50 million warships and fortresses and fortresses in the two camps. In the previous fierce battles, nearly 10 million were destroyed. The only remaining 40 million warships are estimated. Only half can escape.

This time, the Devil camp will have a bumper harvest. The proceeds of at least 20 million warships are shocking. A starry battle will be rich in oil. The prisoners in these warships are even more numerous, including the Second Universe. Both the family and the first universe have a human race.

The battleships are naturally directly in the pockets. As for these prisoners of war, they are left behind or used as a bargaining chip. They ask for the ransom of the sky for the major groups and top forces of the two major planes. This matter has yet to be discussed.

Previously, the direction of the devil's star to the two cosmic wormholes, the battleship army of the devil's group and the millions of indigenous beasts, still in pursuit of the two major annihilation camps, Ye Xuan No need to pay attention to these things.

After a hesitation, he urged Shennong Ding to enter the magical Samsung's inner defense circle, and let Baoding directly immersed himself in the void in a complete form. Then he became a space inside the Ding...

Chapter 4059: Dead old man

The imperial emperor, who was thrown into the inner space of Shennong Ding Ding, was named Longshan Tang, and the strength was in the early stage of the immortality. It is not far from the middle of this period.

However, before being thrown into Shennong Ding, his practice has been banned. Although there is a possibility of opening, it takes at least half a day.

Under this circumstance, when Longshan Tang was put into the inner space of Shennong Ding, it was almost completely absent, only the tyrannical body!

Within the inner space of Shennong Ding, there are not many people stranded in the present, except for the eight King Kong who can move freely outside the volcanic mountain of the central domain, and only the lions and the heavens who are imprisoned at the bottom of the volcanic mountain.蜈蚣 and the silver scorpion who was born in Ye Xuan in this battle are half-dead ancestors.

Lion Wanjin is still asleep now, the blood changes in the body, because recently absorbed the strange mist of mist in the body of the flying scorpion, and once again changed, it may take some time to wake up.

The Feitian and the Yinlu ancestors were also imprisoned in the bottom of the mountain in the bottom of the mountain cage. One and a half died, just experienced a wave of purple gold tides, and instantly lost 30,000 years of life, if not Special means, in a short time, fear is not recovering.

However, Ye Xuan's immortal old flying scorpion, which was captured a few days ago, is the most active dragon, but it is only a strong external force. His body has secreted a strange mist for many years, and it has been consumed in the last battle. All of them have been sucked away by Ye Xuan. Also in a period of weakness.

"boom!"

A huge swaying sound of a hillside not far from the volcano of the central area sounded, it was repaired as a seal, and only the human body of the flesh was immortal, and the old Longshan Tang was thrown into the space of Ding, and fell from high altitude. The movement caused by the ground.

Although the repairs in the body are sealed, Longshan Tang is an immortal old monster. The physical body is still strong, even if it is directly roared from the Dingkou of Shennong Ding without any protection, it will not be injured.

But being smashed into a slap in the face, you can't avoid Venus in front of you... After all, although Ding Nei Space shows an ordinary world, it is actually a special metal that has been built to build Shennong Ding. It is hard. very!

This record down, although even the ground of this hillside is not smashed, but its impact is not covered, the old and immortal blame of the sturdy flesh is staring at Venus, which can be imagined.

The entire huge volcano of the central domain swayed a little, and then it was calm.

Such a big movement naturally attracted the eight King Kongs. The eight guys followed a group of indigenous beasts in recent times, and they were given guidance, and Ye Xuan's cultivation resources opened up the supply. The aura of space and space is far beyond the outside world, and there is a large number of treasured blood and meat wrapped in the belly...

All kinds of factors, the strength of these eight guys has been rapidly rising and rising, and now they have all entered the fourteenth world of the stars, if it is in their respective ethnic groups, this is simply not imaginable. Things.

"Hey? Is the head fighting again? And it has captured a prisoner. This time it is a personal old man?"

Eight sounds and sounds swept through the sound, and still far away from the still, when the first person saw the situation here, even if the sound came out, the foot was tight and swift.

At this time, the immortal old Longshan Tang of the Imperial Court was just crawling up from the ground, and the Venus was in the air, and his eyes were still straight.

He naturally has already noticed the eight King Kongs who are coming from afar, but seeing that these eight people are only able to cultivate the strength of the universe, and in front of him, even the ants are not as good as after, Longshan Tang directly ignores it, as if Did not see the general, turned to look at the mountains around the distance.

He knows that this is the internal space of Shennong Ding, and knowing that this tripod is a wasteland, the domain field is powerful, and it is difficult to find a way to leave in a short time.

At least, there is absolutely no hope before the repairs are completed.

Nowadays, the first four miles, Longshan Tang is looking for a suitable hidden place, to open a retreat, impact the body was blocked by the demon person immortal left behind.

Thinking of this, he still has some fears.

Fortunately, the other party did not take himself seriously, and it seems that the Shennong Baoding, and the devil's emperor Mo Yufeng are quite confident, just just sealed and repaired, and did not even deliberately .

Otherwise, a banned immortal shot will be banned, so that he has not yet entered the ordinary immortal mid-term cultivation, fearing that it will take at least a year and a half to break away...

Soon, Longshan Tang chose a direction and decided to find a retreat in a mountain range over there.

However, because the repair was sealed for strength, now he can't vacate, he can only take a step and go with his feet.

With its immortal body, even if it has not been repaired, at this moment, it is fast, and the speed is almost at its peak. The body shape will soon turn into a radiant, spurting toward the established direction.

The eight King Kongs are just close to each other. A few kilometers away, at this moment, the old man who had just been caught by the head still wants to escape. He is not honest at all. He suddenly becomes angry, and his body shape is turned into a shock. Shooting and chasing away...

"Do not run the old man, you stand!"

"The stinky dog thing has been simmered and not honest. What kind of power do you have?"

"No matter how toss you can't escape, you will come back and honestly come back. Here is the land of the men, and hurry to worship the hills..."

"Don't give up to the old man, don't let the old man catch you, otherwise wash and peel off and bake directly to feed the beast!"

.....

"thump!"

"puff....."

With the sound of arrogance and blame coming into the ear behind him, the Longshan Tang, who is full of Mercedes-Benz, is black in front of his eyes, and he does not check when he is at the foot. He falls directly to the head and rolls over twice when he gets up. It's already a face full of iron and blue, and the stagnation in the chest is actually a mouthful of old blood.

The immortal grotesque, the third universe of the Terran technology camp immortal dynasty immortal ancestors, at this moment was actually only eight ancestors of the ancestors of the genius of the genius behind the mad chasing mammoth, seemingly still not dry, left sentence died The old man, the right old mouse... This is simply nothing!

"Roar!"

"Several ants ancestors, this is a lively group to find death!"

In the midst of sorrow and anger, Longshan Tang screamed with a roar of anger, and his mouth groaned, but he turned his body and did not run to the front again. He headed straight to the Eight King Kong.

This scene, just happened to be in the eyes of Ye Xuan, who just stepped into the space outside the Ding, seeing this old guy as a man of immortality, he was so mad by the Eight King Kong Kong, and his mouth was still stunned with bloodshot eyes. Ye Xuan suddenly Just stunned.

Until Longshan Tang Chong went to the Eighth King Kong, and he raised his hand and wanted to shoot it, he suddenly came to his senses and shouted: "The old man is rushing to stop..."

Chapter 4060: Sitting in the sky

Seeing the Longshan Tang-shaped Mercedes-Benz, he soon went to the top of the Eight King Kong, and wanted to shoot. Ye Xuan's heart was anxious, and he immediately smashed it up: "The old man is rushing to stop..."

After all, people are immortal grotesque, although the repair is sealed, but the physical body is strong here, the eight King Kong is indeed too savage, on the one hand, I must think that this old man must be the captive captured by Ye Xuan, it is already the meat on the cutting board. It is impossible to dare to dare.

On the other hand, the repair of Longshan Tang was sealed. With the strength of their eight people, they could not see the depth of each other's realm. They did not know that this was an immortal old monster, so they were so mad.

But in fact, even if Longshan Tang was captured, the internal space that is now trapped in Shennong Ding can't leave, but the prestige and dignity of the immortal blame, but also the general existence can be embarrassing?

It is also a younger generation who is not as good as his strength. In the face of Ye Xuan, Longshan Tang definitely does not dare to act rashly, and even more often has to be jealous, but facing the Eight King Kong is another matter.

If the non-Ye Xuan came in time, these eight guys must be planted, and the immortal grotesque, even if only by the physical tyranny, can also kill them in the hands raised their hands...

At this moment, Longshan Tang was originally on the air, and was planning to punch the eight undead guys in front of him directly, but when he was about to shoot, he heard the violent rush from the top of his head.

The eight guys in front of him haven't solved it yet. Actually, there is another guy who is screaming at him. Longshan Tang gas is stunned, and the essential fireworks are sprayed in his mouth and nose.

"Which little king is it...oh..."

Subconsciously opened his mouth and shouted, Longshan Tang also turned to the left side of the air to see the past, cold and not see the existence of the body shape, actually the master of this Shennong Baoding, the devil's emperor Mo Yufeng After that, his face was stiff, and the second half of the sentence suddenly stopped, and he swallowed back.

For this enchanting, he is really scared.

The five enchanting ones, known as the first person of the younger generation in today's world, will be left behind. The key people still stand behind a sealed immortal.

Moreover, this immortal appearance seems to be quite a bit of a sense of obedience to him. In this scene, Longshan Tang was thrown into Shennong Dingkou by the latter in the same way as the giant giant palm of the garbage, but he saw it with his own eyes. .

Not only that, but even the two people's dialogue at the time, he also listened to his ears.

It can be said that if Mo Zhenfeng, the devil of the devil, who is falling in front of his body, is afraid that he has already fallen, he really wants to say that his old life is indeed saved by the people's moments.

In addition, Longshan Tang has a deep curiosity and confusion about the immortal relationship with the demon in front of him.

It stands to reason that the immortal is the second generation of the ancestors of the devil's group, and since this is the younger brother of the contemporary demon, in the title, naturally it should be the ancestors.

But before, he clearly called it a predecessor!

This is different from the ceremony, it is strange!

"What a few guys, what are you doing here? What should you do?"

At this point, Ye Xuan's body shape fell, turned to the Eight King Kong, the white eye has been reprimanded.

These eight guys have long been scared, even though they still don't know the real life of the old man in front of them, but only from the majestic power of the punch that they just did not blast out, they can judge far beyond Power, at least it must be the star owner or even the domain owner.

I thought that I had just screamed and shouted behind an old monster that was repaired at least in the main territory of the star. Even the dog thing and the old mouse were thrown out. The eight King Kongs had the feeling of shaking their souls. Tete is so enjoyable!

With Ye Xuan screaming, the eight people were in perfect shape, and the neck was shrinking and dared to stay too much. They sneaked into the gloomy Longshan Tang and ran away hurriedly...

"Little friends, the battle outside must have ended. The high-end immortal warfare is full, and the tens of millions of conventional combat forces simply cannot get on the table..."

After seeing Ye Xuan's arrival, he directly dismissed the eight deceased juniors, and added the other's life-saving grace. Although the purpose is not clear, the face of Longshan Tang has been somewhat relaxed: "Since this war has ended The hostile camp relationship between the old man and the younger friend naturally does not exist. I don't know if the young friend will save the old man... What is the purpose?"

Ye Xuan did not have too much nonsense. A set of antique tea sets appeared in the wave, and there was already a good spirit tea. He mentioned the teapot, poured two cups, and grinned: "Allied!"

"Aligned? Hahaha..."

Longshan Tang did not expect this answer anyway, obviously stunned, and then he looked up and laughed.

After laughing, I suddenly said: "Little friend, are you kidding with the old man? How can my dynasty form an alliance with the devil? It is a joke..."

"You are in the immortal dynasty, but it is just an ordinary immortal elder. This thing can't be done by the Lord. Just help me bring the words back."

Ye Xuan didn't mind. He raised his hand and took a bite of Lingchao. It was still light and windy. He said: "Before the accident occurred in the source of the evil, I believe that you can also see some clues, the heavenly eye. Reappearance, representing the distant wilderness that collapsed because of the legendary battle of the world, is very likely to come to the world again..."

"At that time, what are the three major star planes, the difference between the devil and the human race, will become clouds, but it is just a passing sight!"

"In the face of such a big change, both the devil and the entire Terran must make preparations early. What I said in the alliance is beneficial to both sides. If you think about it, then give me a reply!"

Having said that, Ye Xuan seems to suddenly think of something. When the words turn, the tone is quite cold: "In short, before the real big change, the three major star planes must be fully integrated. If you are an immortal dynasty I don't mind replacing it..."

"Integrating the three major star planes? A big tone, do you have this strength? Only one seal is immortal?"

In the face of Ye Xuan's words, Longshan Tang was once again stunned and looked at Ye Xuan's foot for a while. Then he decided that he was not joking. He shook his head and laughed: "Little friends, the five enchanting ones are truly amazing, today's world After the younger generation, you really deserve to be the first person to be deserved, but after all, you are still too confident."

"Perhaps this first universe has escaped the control of your demon, but apart from this, not to mention the second universe, it is my third universe, the two camps of the Terran and the Senate Which side does not seal the king or even the more powerful Fenghuang immortal sitting?"

"Don't blame the old man for not being able to listen, dare to have this kind of idea, you are the devil... It's just sitting in the sky!"
