

Super D. S 4061

Chapter 4061: Not happy

"Don't blame the old man for not being able to listen, dare to have this kind of idea, you are the devil... It's just sitting in the sky!"

I heard that Ye Xuan said that before the fall of the ancient troubled times, all the ethnic groups and top forces of the three major stars and stars would be fully integrated, and the three major planes would be unified. Longshan Tangdun was ridiculous, saying that even behind him There is a seal that is immortal, and this kind of thinking is just a dream of idiots.

In the end, it seems that it is really boring to discuss this topic again. When Longshan Tang's words turn, he wants to end: "Well, there is no need to talk about this matter. Even if the ancient world is coming, the main theme of the starry sky is no longer true. All major ethnic groups and forces are facing new situations and changes. It is impossible for my immortal dynasty to secretly form an alliance with the demons before this..."

"This may have disappointed Mo Xiaoyou. Here, the old man thanked Mo Xiaoyou for saving the grace, but if Mo Xiaoyou took this as a slap, he wanted to warn the old man to break into the imperial saga and start some actions. Advise you, or do not think too much!"

"Ha ha ha..."

Ye Xuan was extremely angry and laughed. After laughing, the anger in his heart disappeared in an instant, because he suddenly thought of one thing.

That is the identity of his former Emperor Xuanzi, although he was forced to helplessly, but in any case, after all, it is a little bit sorrowful, but nowadays, it seems to have the opportunity to solve this kind of heart.

One thought of this, Ye Xuan was in a good mood, praised the top of the jaw, looking at the Longshan Tang Road: "Yes, this gas festival is quite impressive, but you don't have to be a gentleman's heart. This is what Wang Shicai said. It is just that you need to convey the meaning of the king to the top of the immortal dynasty. It is their business to agree or not."

"Even if you disagree, in the future, the emperor will naturally replace it and complete this step by himself..."

"As for the right thing to save you..."

Having said that, Ye Xuan's words turned, and the look on his face became somewhat mysterious: "I don't know the life of an imperial dynasty, which is more important than the identity of a contemporary emperor. The latter may be comparable. former?"

"what?"

Ye Xuan's question was inexplicable. Don't say that suddenly, it's too late to prevent people. In fact, even the meaning of his words made people completely confused, and the eight poles could not be beaten.

But at least the literal meaning is still very clear, and the answer clearly does not need to be considered, clearly placed there.

Seeing the other side's dumbfounded eyes, looking at himself with the thunder, Ye Xuan promptly reminded: "You just need to answer my question, you can leave at any time."

"Uh....."

Once I answered the question, I was able to leave immediately. Longshan Downon was even more awkward, but he obviously did not intend to let go of this opportunity. When he even said: "The identity of the contemporary emperor of my dynasty is naturally noble, but the immortal elder is the real The essence of the former, the former is the younger generation, the latter is the old man, the identity of a contemporary emperor, naturally can not be compared with the life of an immortal old man, can not be compared.

"Okay, good! Remember your words today!"

Ye Xuan nodded and laughed again. Suddenly, she felt that her heart was comfortable. Finally, she waved a large hand and called a colorful fog. "If this is the case, you don't have to thank you for your help." Please leave now!"

"This....."

At this time, Longshan Tang was completely ruined, and even the brain was suspicious. Do you think that the devil's emperor Mo Zhenfeng is in front of his head?

I used to say what I wanted to integrate the three cosmic planes before the flood in the world. Now I am mad and I don't understand what he is saying.

In the end, even inexplicably, I would like to return my gratitude for the appropriate expression, and on the spot, I went down the order...

Well, this person has five enchanting ones, and is known as the first person of the younger generation in today's world. Sometimes genius and madman are indeed a line apart. This person is so enchanting, a little mad, but it is understandable!

I thought about it. When Longshan Downton felt that everything had been explained reasonably, I wouldn't say more. If the other side is now mad, don't go, if you turn around and regret it, then isn't it? Did you cry and find it?

One thought of this, he looked strange, and he took a look at Ye Xuan with a slight pity, raised his hand and arched the arch, and then said nothing, jumped on the canopy of the fog, and his body shape was immediately lifted to Shennong. Ding's Dingkou spurt away, and the blink of an eye disappeared, it is already leaving the interior space of Baoding.

"Since then, I have nothing to do with the identity of Xuan Huangzi, but now it has grown up, and this identity has long been useless..."

Slightly raising his head and sending Longshan Tang away, Ye Xuan suddenly gave birth to a feeling of emotion. At this moment, he had a kind of sentimental feelings.

Then, I seem to think of something, a touch of laughter, and soon floated from Ye Xuan's face:
"However, even if this identity is abandoned, there should be a formal statement to end this paragraph.
....."

"Exactly, the devil's great victory, only the second generation of ancestors has been sealed, the generation of the ancestors of the ancestors of the strength, will certainly let the two core high-level core high-level speculation, although the next wave of war After all, it will come, but in a short time, it is worry-free."

"The things in the first universe are temporarily coming to an end. On the other side of the second universe, there are people who have got the celestial arrogance of the Qiankun Taoji, and then the three-jaw dragons. Basically, the layout is complete, just right. Go back to the third universe and deal with the things of the Emperor of the Emperor!"

"Actually, since I was sent to the Death Stars this time, after leaving the Third Universe, everything I did has a major impetus to the federal interests, and there are many major damages to the federal interests. I don't know how many times. Going back, can you get to the top of the federal contribution standings... After all, the Celestial family has been run by me!"

"If this can be the case, the name of the Emperor Xuan will once again resound in the three major planes. At that time, I was afraid that it would be an immortal dynasty that I sent, and I would change my attitude and take the initiative."

"At that time, it was when I opened my true identity and said goodbye to the past of the Emperor Xuanzi. At the same time, the people were the ones that brought the seven enchantments together..."

"I just don't know what it would be like to be in the immortal dynasty after learning about it... It's really looking forward to it!"

Undoubtedly, once the truth of this matter is disclosed and made public, the top of the devil's group must be remorseful.

The demon group has one of the five enchanting ones, which has already envied the major groups. How terrible is the power of the seven enchanting people?

This definitely represents a general trend, a kind of air transport attribution, which could have belonged to the human race. After all, Ye Xuan himself is also a human race, but the immortal dynasty suppressed from the beginning, and the birth of Ye Xuan to the devil's ethnic group.

Chapter 4062: Furnace coming

The source of all evils!

Since the second major change of the last time, the source of the evil is completely no one seems to be.

In that change, the **** people of the Second Universe even mobilized the foundation of the ethnic group, that is, the shackles of the ancestral lands of the ethnic group, the projections of the ancient powers such as the nine **** scorpions that have never been born.

Moreover, the projections of the ancient powers such as the Scarlet Kirin also descended, but in the end, they were all destroyed by the empty giant tortoise.

Although the empty giant tortoise is still unresolved, it is far from the repair of the ancient and supreme, but after all, after all, the foundation is deep, and it is only by one's own strength, it suppresses all, and the whole source of the evil is stirred up. jump.

In the end, it was directly taken away from all the products in the furnace.

It directly led to the re-emergence of Tiandao Qingyan, which turned it into a human hell...

The change of that time was even more tragic than the original first source of evil. And this kind of thing has happened twice in succession. Even if the mind is in the water, it will certainly be prevented.

It is for this reason that even Ye Xuan has not moved to the goal of entering the star of the evil world again in a short time... It is definitely going to die.

Even with the power of Shennong Ding and the strength of the headless baby body, he is still the same. The major groups and top forces of the three major planes naturally need not say more.

Since this time, the various ethnic groups have not dared to send them there, fearing that if they angered the heavens and blue eyes, they will pursue them and bring disasters to the ethnic groups!

Surprisingly, all the major ethnic groups and top forces, including the three major planes, did not dare to approach the source of all evils.

And if someone is bold and enters the room, they will find out that in fact, since this time, the furnace has been quietly standing in the depths of the source of the evil, and has never been moved.

But from time to time, the distant void will crack a crack, and then the light of different colors will spurt, from the mouth of the furnace, not into it.

Then, under the outer wall of the furnace, along the chain links that were swallowed up by the mechanical alloy gods, they will grow a few sections and spread outwards...

This is obviously the hand of the heavenly eye!

Although Tiandao Qingyan is still seriously injured, it is the heavenly will of the great world, and the richness of the foundation. The light group that was delivered from the cracks of the road is the top treasures.

It is repairing the furnace!

In fact, almost all of this has already been completed, because the whole process has not stopped from the beginning. The missing fringe chain on the lower edge of the wall of the furnace will grow a large section every other hour. The chain of bangs is like tens of thousands of tentacles.

As it grows, it moves toward the other end of the empty chain...

Just today, the last batch of top-class treasures were projected and immersed in the furnace. The tens of thousands of lines of the stencils that were transported to the furnace were finally completely repaired, and the small truncated character at the end of the void. Chains, full engagement!

"boom!"

This moment has always stood in the silent atmosphere of the silent atmosphere, suddenly violently shaken up, the furnace spirit fully recovered!

"Oh..."

In the distant sky, a clear and fierce cracking sound rang, the void cracked a huge crack, a vertical eye larger than the star appeared, and a green awn was shot between the openings, disappeared into the furnace, and then disappeared. The void cracks close!

"Oh la la..."

In the next moment, the sound of the chain was so loud that the furnace suddenly trembled. Whether it was the upper edge of the outer wall or the fringe of the outer edge of the outer wall, all of them were broken from the middle, and half of them were still connected with the surrounding voids and suspended in the air.

The other half is connected to the outer wall of the furnace, with agility, 10,000 lines on the upper wall, 10,000 roads on the lower wall, and a total of 20,000 tracks with only half of the fringe chains, which are like a starry sky. Just want to move...

This is clearly the rhythm of the furnace that will go out for food again, and the rhythm of the flesh and blood materials. It is exactly the same as when it tears open the void and rushes into the mysterious space where the giant turtle is located.

Only this time, the furnace did not tear open the void again, rushing into it, but directly into a cyan flow, lasing toward the edge of the star of the evil.

After a short period of time, the barrier of the light curtain that crossed the entire source of the evil source is actually the first cosmic starry sky directly outside the source of all evil...

At this moment, the furnace is coming to the first universe, and a day of killing is about to begin!

Originally, the refining of the evil source of the smoldering furnace, the flesh and blood materials needed must at least be the remains of the powerful creatures of immortality. Below the immortality, even the remains of the powerful universe will be spit out like garbage.

At the moment, it has not torn open the void cracks, enters a mysterious unknown void to obtain the remains of those powerful and ancient creatures, but instead comes to the first cosmic plane... Obviously, its purpose is strange!

Either after this change, Tiandao Qingyan changed the domain power in the furnace, which led to the use of the ordinary starry sky.

Either, the furnace is going to retaliate before it is officially launched. Before all, there have been two accidental changes before, whether it is the furnace of the furnace or the heavenly eye, it is obviously tempered.

This time accidentally descended to the first cosmic plane, it is to create a killing, as a deterrent!

But no matter which one, there is no doubt that the devil's group is doomed to the catastrophe, and the star of the evil is in the position between the devil's star and the sky, but the star. The Tianji City at the end of the domain has long since disappeared. The Devil's Star Field is now the closest to the star of the evil, and the most powerful place of life!

"Oh la la!"

"Hey..."

The chain slams and reveals an endless chill.

After rushing out of the starry field of the evil, the huge furnace like a superstar, with a strong cyan glow, temporarily stagnated in the void, seems to be inducing something.

Soon, he captured the most intense and breathtaking atmosphere, and the nearest distance to the position, after locking its position, the huge furnace suddenly shocked, and then turned into a cyan flow, the speed, lasing Going, the blink of an eye disappears at the end of the line of sight.

And this direction is exactly where the Devil's Star is located.

Although the distance is extremely far away, even if it is a large fortress with a diameter of 100,000 meters, it will take half a month to cross. The speed of the furnace is obviously higher than that of the big fortress, even far exceeding.

At the speed of its lasing at this moment, at most, it is three days. This horror furnace like a giant star will enter the magical field.

The robbers are robbing...coming soon!

Chapter 4063: The robbers

Devil's Star!

The war is over, but the whole magical star field is still a busy scene.

However, this is, after all, a large-scale plane-level star warfare involving three major planes. In the three camps of the two sides, in terms of conventional combat power, the total number of various star-to-air warships exceeded 70 million. There are nearly six million indigenous beasts involved.

In terms of high-end combat power, 11 ordinary people are immortal and one is immortal... This alone shows the scale and fierceness of this war.

Even the post-war battlefield cleanup and other complicated matters require a lot of time to deal with.

What's more, there are some small enemy units that are forced to separate from the big forces in the two camps of the enemy's opponents. They are still surrounded by heavy enemies.

After Longshan Tang left, Ye Xuan leaped and rushed to the top of the Shennong Ding Ding, and then returned to the Emperor Star, waiting for the end of the war.

This is the whole two days, until two days later, everything is completely over!

All the small enemy forces that are recalcitrant have been completely annihilated, and the wreckage of a large number of warships in the emptiness of the Devil's Star Field is still being cleared.

However, after solving the starry territory of the small enemy forces, the main territory of the enemy, and the high-level enemy in the universe, a generation of demons, Mo Yutian and other high-ranking demons, have been able to pull out, now Just returned to the Magic Emperor Star, the first time I came to the Royal Palace of the Devils, and discussed with Ye Xuan after the war.

This battle can be described as a great victory. It is just a collection of nearly 20 million warships and fortresses and fortresses. It is an astronomical number, and it is now counting. Among them, but the general data, as a group of high-ranking elites who command the top, basically have a few minds.

At this moment, the top members of the royal family are extremely excited, and they are excited with their voices...

"After this war, the general situation of the first cosmic plane has basically been finalized. The first universe alliance that is fighting with the four-member coalition forces in front of us must be timid, and its camp will soon be defeated, my devil. The days of unifying the first universe will soon come..."

"Yes, this battle has won a great victory. I think the two camps of the Second Universe and the Third Universe, and the Federation of the Venezuelan, have not dared to make any changes to my devil in the near future. The eleven immortal, just escape three, enough to kill them!"

"In addition, the general trend of the three major public opinion, in the recent period of time, is enough for them to be overwhelmed, the fall of eight immortal grotesque, the half-capture of the 50 million starship army, and the two major groups and the top forces. If you want to continue the expedition, you will have to think twice before you go. Otherwise, if you lose again, you really have to laugh and be generous..."

"Ha ha ha... I can't think of this war. In the end, I can get such a big victory. Just a variety of warships and big fortresses and fortresses have captured nearly 20 million ships and hundreds of millions of strong people."

"Right, about finding some prisoners of all kinds, whether to leave slavery, or to ask for ransom from the two major families. This seems to have a good discussion. Otherwise, such a large number of star powers Holding in the hands of my devil, after all, it's not a problem, the daily consumption is not small!"

.....

After some deliberations, all the post-war issues were basically arranged. The hundreds of millions of star-studded powerhouses captured by this time, the devils will have special personnel and the two major groups of major groups and the top forces to redeem Back to matters.

Soon, most of the devil's royal high-levels left, each responsible for some affairs, and a generation of magic emperor Mo Haotian, the contemporary devil Mo Qiaotian and several other Ye Xuan more mature core executives, stayed.

"After this war, the general trend of the first universe has been set, so I decided to leave temporarily, return to the third universe, and solve the problems of the Terran..."

See a generation of demons Mo Zhentian and several other high-level cores of the devil, all turned to look at themselves, Ye Xuan opened the door, directly said the intention to leave.

After a short pause, he said: "There is basically no major event in the first universe. After this war, the alliance of the nations will soon fall apart, and in the second universe, I have already arranged it..."

"The three immortal grotesques that have gone through this battle are actually deliberately let go. The two universes and the two-year-old Senate of the Vatican Federation have already voted for me, and they have become internal."

"And the royal family of the third universe, the immortal dynasty, brought me the meaning of the devil's desire to form an alliance with the emperor... but it seems that hope is not big!"

"The general situation of the Federal Republic of Varo has gone. Once the ancient troubles have come, the meaning of the federal existence will be lost. By then, they will have only one old home, and there is no need to think too much."

"But the two camps of the Terran are still a big problem. Now the first universe is basically integrated, and the second universe has already been arranged. Just wait for the time to mature, and everything will come naturally. Only the third universe is still there. How many clues, this matter, I have to return to the third universe, try to open the breakthrough..."

"In any case, before the fall of the ancient world, the power of the three universes must be fully integrated. Other ethnic groups and forces do not have this ability. This matter can only be done by us. Otherwise, in the face of the ancient troubled times. The advent of today's three major star planes, fearing that not many souls will survive... they will be reduced to cannon fodder!"

When I mentioned this incident, the original generation of the devil, Mo Zhentian, who was still very interested, was gloomy in an instant.

The frequent appearance of Tiandao Qingyan has already made the top three cores of the three major groups keenly capture some information. Even the strangeness of the Tianji people is very likely because of this. .

Although after the development of the endless years of development, today's three major stars and stars, the major ethnic groups and top forces are already thriving, and there is a posture of the prosperous world, but at this time, the legend has been in the first battle. After the complete collapse of the floods, it was about to come.

This is definitely a very strong cloud that is in the hearts of the core elites of all ethnic groups. In the face of this crisis, whether the devil's ethnic group can resist it is hard to predict.

But in any case, it is necessary to fight hard with all efforts. Ye Xuan said that it is right to integrate all the forces of the three major planes as soon as possible. Even if this is done, the power of all the ethnic groups in the three major planes will be gathered. Can you survive this catastrophe?

Thinking of this, a generation of magic emperor Mo Yutian sighed and sighed, and said: "Really, the third cosmic human race has no way to delay, this matter will be hard friends, only your identity, it is possible to as soon as possible Complete the integration of the Terran, and change it to other people, no one can do it!"

"Booming..."

The voice just fell, the earth under the foot suddenly swayed violently, and the roaring sound was soaring...

Chapter 4064: Star

Magic Emperor!

Only two days after the war, a vast expanse of stars outside the Devil's Samsung inner defense circle, the endless starry sky of tens of millions of miles, still seems busy.

There are still a lot of warship wrecks in the void, and the dense warships of the Devils shuttled to clean up the battlefield.

In addition, there are some wrecks of the strong stars, but not many, basically all of them are humans, and some hard crustaceans, and some special groups such as crystal life.

The vast majority of the wreckage of the shackles are the **** bodies of other flesh-and-blood life groups. To put it bluntly, it is the form of various beasts. These millions of indigenous beasts have long been led by Taikoo Porcupine and Taikoo tortoise. We are all over.

It was also at this time, in the distance of the Magic Emperor's Star Field, a very clear sound of the chain of shackles, quietly came...

Because the battle was too fierce, the demon had been sent to the scouts around the magic star, and they had all been withdrawn. They also participated in this star-level battle against the survival of the ethnic group.

Now that the war has just ended, the battlefield has not been cleared, and the normal scouting patrol mission has not been dispatched.

Therefore, for everything in the universe beyond the magic king's domain, nowadays the magic emperor is completely ignorant...no one expected, at this time, there will be enemy troops suddenly coming!

For this reason, the furnace has galloped all the way from the source of the evil, and after entering the edge of the devil's star that leads to the depths of the first universe, there is no detectment on the side of the magic king. .

Until now, the furnace has fallen into the magical star field, and the countless devils who are cleaning up the battlefield around the void are only amazed after hearing the endless chain of noise.

Although these magical strongmen have not entered the source of evil, they have not seen the furnace in person, but the characteristics of the latter are too obvious. At this moment, like a giant star, the volley is approaching from the emptiness. The outer wall of the furnace has a large number of striated chains like the starry sky.

This scene is like a troll roaring, and there is an invisible horror pressure that instantly comes to the fore. In an instant, the innumerable devils are shocked and exclaimed.

Even the prisoners of war who are in the two major planes are stunned and afraid to see the cracks...

"The furnace! It is actually a furnace, God, it actually rushed out of the source of evil, to make a big deal..."

"Retaliation, this is definitely the rhythm of revenge. I heard that the refining products of the furnace must have at least a cosmic and immortal level. The democrats are huge and can have such a level of existence. ?"

"There is a melting pot, but it is clearly the source of the two evils. It has already angered its spirit and the owner behind it. After rushing out of the source of the evil, I found a living nearby. Where the breath is strong, it is necessary to launch a massacre to deter it, like killing chickens and monkeys..."

"The devil lay down the gun, and the two sources of evil have changed greatly. They almost did not participate, but now they hit the muzzle, and the furnace came, even the ancient powers could not resist, even if the devil's seal was immortal again. When you come, you can only lose..."

"I still detain me, why? Your entire ethnic group is almost over, let us go, everyone will run away, maybe we can get a chance to escape for you!"

"Escape, the whole magical star field is about to become a human purgatory..."

.....

"Oh la la!"

"Hey..."

With the exclamation of this road and the screams of gloating and sorrow, the smoldering smoldering from the front of the sky finally arrived, rushing to the edge of the magical Samsung's inner defense circle, smashing the chain The sound is earth-shattering.

The warships of a large number of star-studded powerhouses, which are a little closer to the furnace, were smashed in the first place, unable to move, facing the horrific pressure of the furnace, these devils and other captured strongmen. At the moment, even the power in the body can't be motivated, and it is directly soft.

This is the result of the deliberate control of the field pressure of the furnace. Otherwise, whether it is these strong stars or all kinds of warships and fortresses, fortresses, will be blasted in the first time of the fall of the furnace. .

After all, even in the starry field of the evil, even if Ye Xuan, if there is no headless baby body or Shennong Ding's shelter, it is impossible to get close to the near side of the furnace.

"Oh la la..."

Around the furnace, all the creatures and warships within the radius of the Wanli can no longer move like a fixed frame. Like a giant star, the furnace is like a wolf in the flock. The 20,000-shaped chain outside the furnace wall is like a chain. The starry sky is generally swept out, and the sound of the chain is abnormal.

"boom!"

"Booming..."

Almost in the next moment, the inexhaustible sound of the explosion broke out. This piece of the emptiness of the Wanlifang, which was enveloped by the power of the furnace, instantly turned into a human purgatory, even a large fortress of 100,000 meters in diameter, When the chain hits, it immediately blasts without any suspense, and the starry sky is covered with huge fireballs.

As for the devils and the prisoners of all ethnic groups, the direct form of the body blasts, and instantly disappears into a **** fog.

These blood fogs, as well as the numerous warships that blasted into fireballs, were all taken away by the force of the suction that was presented by the Mouth Dingkou, and they were not included in the furnace.

Then, the horrible squeaky noise came out. This is the movement of the huge grinding disc inside the furnace, which is slowly rotating. All the inhaled blood and the warship wreckage are smashed together. Rolling... The real purgatory is just that.

In an instant, the whole magical star field was completely chaotic, and the countless demons and powerful people outside the emptiness of the universe began to flee, not to mention the numerous captured strongmen of all ethnic groups. Looking at them, the figures of countless powerful people And the battleship is roaring, such as the funeral dog.

A short breath, the inside of the Wanli circle was completely cleaned up, but the furnace did not stop there. It turned into a green glare and approached, directly to the side of the magic guard II, but not a thousand miles away, tentacles Accessible!

"Oh la la..."

"boom!"

This time, the 20,000-character chain on the outer wall of the furnace was dispatched at the same time, as 20,000 star-studded giants rushed to the magic guard II.

All the fringe chains all bloomed in the sky. Before the smoldering furnace rushed out of the star of the evil, Tiandao Qingyan had entered a green awn into the furnace, and this force was obviously used at this moment.

Magic Guard II is also a star. Although it is not a superstar, it is not much smaller than the average large star. At this moment, the star defense defensive array is lit up, a huge light shield appears, but it is destroyed like a paper paste. Twenty thousand miles of striated chains, like the whip, stir the atmosphere of the magic Guardian II, instantly rushing into the interior of the stars, hitting the inland surface.

This is a real landslide, the horrible sound of the sky has been indescribable, and a big star has broken down and disintegrated directly...

Chapter 4065: Full evacuation

The power of the furnace is too strong, and the Tiandao green eye is shot, and the power of the green mangling in the furnace is blessed. This moment, the magic guard II collapses directly, and a huge star is turned into a size. Unending countless pieces, rumbling to blast...

The real star 陨 occurred, causing the whole piece of emptiness. Although the star magnetic field is invisible, it is real. The magic king Samsung, the emperor and the second guard, have become a whole.

Now that the magic guard II has been completely broken, this imbalance of the void has been triggered. The magician and the magic star in the distance have been affected at the same time. The stars are shaking, just like the end of the world!

"Booming..."

The stars burst and the fire rushed straight into the nine hexagrams. This piece of emptiness was illuminated. The devils and the various prisoners of war who were rushing to escape in the distance had already widened their eyes and suddenly they were stunned.

Such a scene, at least a million large fortresses of 100,000 meters in diameter need to be concentrated and fired to force the bombardment, which can be achieved, but now it is easily completed under the gentle wave of 20,000 rhythm chains in the furnace. At the moment, all people have a clearer understanding of the horrible power of the furnace.

It's too fierce. Although the Magic Guardian II is only a satellite of the Magic Emperor, it is one of the Magic Kings. After all, there are countless magicians and a lot of important facilities, but now they are all destroyed.

Just a single blow, the magic guard II, one of the emperor's Samsung, was completely destroyed by the furnace. This alone can explain the problem. Today... the devil is in danger!

At the same time that Magician II was destroyed in an instant, there were countless figures in the magical star, and the first one was a generation of demons, such as Mo Yutian and other democrats. The figure is also in it.

It was not until the Devil II was destroyed that they appeared. It was not too slow, but the movement of the furnace was too fast. No one found it before the advent. It was already in the Devil's Field.

The speed is almost to the extreme, and the numerous star-studded powerhouses and various warships will be destroyed in the blink of an eye, followed by a lore to the magic guard II...

All of this, from the furnace to the magic king star field, only used ten breaths, a generation of magic emperor Mo Zhentian and Ye Xuan and others in this magic in the magic king city of the demon royal palace, fundamentally I don't know everything about the outside world, I realize that it's too late to come... The Devil II has been destroyed!

The Emperor Samsung, who has been defending each other, has already lasted for tens of thousands of years, and now this stable pattern has been broken. The magical star's inner defense circle has been

completely destroyed, and if it continues to wreak havoc, even Even the magic guard and the main star, the magic star, are very likely to be unable to keep, and will collapse together...

In this battle, there are countless demons who will be annihilated!

All of this, for the devil's group, even if it is not a great disaster, it has definitely moved the foundation of ethnic development. Under normal circumstances, I am afraid that it will be difficult to recover.

The top of the demon royal family, who has already witnessed the split, suddenly exclaimed...

"The slaying, the big robbery, my devil's group is lying!"

"Lee very sad, happy and sad..."

"The furnace is coming, the pressure is too horrible, and behind it is definitely the will of the heavens and the blue eye. The latter is very likely to come later... In the face of such a disaster, my devil's group has no war, this is too wrong!"

"Contact the ancestral land immediately, move the family, and start immediately... How much can you escape?"

.....

This is the only choice and the most sensible choice!

Even if Ye Xuan is here, there is Shennong Ding's domain field power canopy, only to guarantee self-protection, but can not compete against the furnace, expel it.

After all, Shennong Ding and the Furnace are the same level of heavyweights, and the latter can fully promote the power. However, Shennong Ding has been rectified by Ye Xuan, and it is closely related to Ye Xuan. The influence and restraint of Ye Xuan's self-cultivation is not fully evoked.

It is the limit to protect the souls of Ye Xuan and Ding's space from being harmed by the smoldering furnace, but if it is said to expel the smelting furnace... then it is impossible!

Unless there is no head baby, but the consequences are too serious, who can guarantee the sudden arrival of the furnace, there is no conspiracy behind it?

This matter is related to the heavenly eye, and it has been confirmed that the blue eye is squatting in the darkness. Once the headless baby body appears, it is absolutely a curse for Ye Xuan.

He will be thoroughly investigated, and all the roots will be detected by the heavens and blues. All the previous arrangements will be destroyed.

Of course, the more important point is that the power of the furnace is too horrible. Just a simple blow, the magic guard II has been completely destroyed. In this case, the magic guard and the magic star are basically escaped. A robbery.

The Emperor Samsung has been unable to survive, and the whole demonic group still stays here and resists, does it make sense?

It is better to retain strength, temporarily evacuate, and move afterwards.

One thought of this, Ye Xuan sighed, turned to the side of a generation of magical emperor Mo Zhentian and so on, and said helplessly: "Evacuate, as you said ... how much can be counted!"

"Roar!"

"Hey..."

In the distant sky, millions of indigenous beasts, led by Taikoo Porcupine and Taikoo tortoise, are all red eyes at the moment. When the furnace arrives, the hate of these foodies is instantly evoked. Suddenly, there is a lot of rushing forward, and the battle with the furnace.

After all, when they were in the star of the evil, all the indigenous beasts regarded the furnace as a sacred object. The entire indigenous beasts have been guarded for generations since tens of thousands of years, and have never taken the source of evil. step.

But in the end, the truth of the furnace was revealed by Ye Xuan. In that battle, in addition to the foreign enemies that invaded a large number of invaders, even the indigenous fierce beasts were never let go, and countless indigenous beasts were sucked by the horror of the furnace. Pulling the force into the mouth of the trip, crushing into mud...

This is definitely a deep hatred and hate. It's just not to wear the sky. The indigenous beasts are all straightforward and straightforward. They love each other clearly. At this moment, they see the coming of the furnace. Although they know that they are not opponents, the warfare in the body is not hesitant. The two are scattered.

Seeing this scene, Ye Xuan shook his head and smiled. He did not hesitate. He waved his hand to the Shennong Ding in the immortal world. A star-shaped dragon that was bigger than the superstar, smashed the void, and the endless end of the nine-color 氤氲The air is thin and endless, and the power is dissipated. In an instant, it will cover a huge void of millions of miles and form a protective force.

"What are you doing? All the indigenous beasts immediately enter Shennong Ding. If you disobey, don't look back at the king's roast meat..."

Under the sinking of the face, Ye Xuan immediately uttered his voice, and the words of Mori's cold resounded through the void. If this is not the case, I am afraid that this group of guys will not be shocked. Who told them that they are all eating goods...

Chapter 4066: The devil shuns the world

"Hey..."

"Roar!"

In the void, millions of indigenous beasts are roaring!

Before the fall of the furnace, there were already tens of thousands of indigenous beasts, and the tens of thousands of indigenous beasts were placed in the vanity of the first shot of the furnace. They were suppressed for the first time. The figure exploded and turned into a blood mist that was sucked away by the oven.

For this reason, the nearly six million indigenous beasts, led by Taikoo Porcupine and Taikoo tortoise, will be so angry at this moment. They have been regarded as sacred objects for tens of thousands of years, not only in the previous The second source of the evil has changed the indigenous beasts.

Nowadays, the devil's star field is still the same, and the old feelings have never been read. This is really anger and hate.

However, Ye Xuan's warning words can't be ignored. For these hawkers, if they can't use the Shennong's flames in Shennong Ding to eat meat and meat in the future, it's too boring, so the beast will And lost a lot of fun.

What's more, although the indigenous beasts are hateful, their intelligence is not annihilated. At least they know that Ye Xuan is talking like this. The starting point is entirely for the safety of all indigenous beasts...

Under such circumstances, even if you are indignant in your heart, you can only temporarily bear it!

"Not yet, why not?"

Seeing a group of indigenous beasts still unwilling, Ye Xuan sighed, after a violent sigh, the tone slowed down: "Speed into the trip, temporarily leave this place, then slowly and slowly, all the new hatred, hate, One day... it will be fully liquidated!"

In the end, all the indigenous beasts once again screamed and screamed, and many of the murderous beasts had sneaked in tears, but even if they were unwilling, they still spurred their bodies and turned them into a tribute. It rushed into the million-mile square of the power that Shenneng was able to cover.

Then, from the Dingkou of Shennong Ding, rushed into the space inside the Ding.

Seeing this scene, Ye Xuan's heart was loose, hanging to the heart of the blind man's eyes, and letting go halfway. At least, the problem of the indigenous fierce beasts was solved, and the Shennong Ding's domain field was able to protect itself.

The other half of the mind that has not yet completely fallen, the concern is naturally the devil's group.

This piece of emptiness is too broad, and countless demons are scattered throughout the magical star field to clean up the battlefield. In this case, it is almost impossible to save all the magical powerhouses. It can only be like a generation of demons. What did you say about it? How much can you escape?

As for the previous capture, but now because of no one to pay attention, it has already been smashed and scattered, and all the prisoners who fled in the air around the scene, whether it is Ye Xuan or the devil group, are powerless and unwilling to pay attention.

The robbery is coming, like the end of the world, and every peace!

"Card!"

Just as Ye Xuan wants to make a sound, and to greet the devils in the emptiness around the sky, they all rushed to Shennong Ding, so that when they were rescued together, the virtual air on the side of the magic star in the distance suddenly came to the earthquake. The explosion, a **** stunned rainbow opened the void, and the rumbling came.

This horror rainbow is extremely horrible. It is tens of thousands of miles in diameter, covering most of the magical emperors, and there is a corner of the next corner. Obviously, the second generation of the devil's ethnic group has shot, and the means of sealing the immortality is extraordinary. In order to lead the blood, it is necessary to take the devil in the void, as if the entire ethnic group avoided the world...

"The big change is coming, the ethnic group has been unable to resist, speed withdrawal, quick withdrawal!"

"All the demons and the tribes immediately rushed into the blood, fast!"

"The blood can only be maintained for three minutes. If you can rush in, give up everything else, and immediately rush into it. After three minutes, everything will be empty..."

Obviously, at the same time that the light of this singer opened the void, the tops of the demons and royals had already received the sound. At this moment, only three minutes were heard, and the face suddenly changed again. Then he did not hesitate and turned to take the blood and spurt away.

A generation of Mo Huang, Mo Zhentian, looked over at Ye Xuan and shouted: "Little friends..."

Ye Xuan nodded, no surprise: "No matter, you go first, go back and contact me according to the backup channel I left before, I have to stay and see the follow-up development!"

Then, his body shape also flashed, directly into the front of Shennong Ding's tripod, and at that time the millions of indigenous beasts have all entered Ding.

Ye Xuan's thoughts, the original giant bar, such as the star-like giant, instantly reduced, changed only about a hundred feet, and then changed the domain power, opened the hidden effect, and disappeared directly.

Although the furnace is powerful, the Shennong Ding is the same level of the era of the age-old treasures, and now shrinks the form, into the hidden state, even the furnace, can no longer sense the minute!

Seeing this scene, the first generation of the emperor Mo Zhentian was completely relieved, and then no words, turned and spurted away, and his body shape did not enter the blood of this thousands of miles away.

"Booming!"

"Hey!"

"Oh la la..."

Around the void, the sound of the rumble of the rumble is still going on. The huge furnace of the stars is still raging, and the two lines of the chain are like the 20,000 star of the horrible starry sky. The lives of a large number of strong people were harvested and fried into a **** fog.

There are also a large number of various star-ship warships blasting in the void, turning into huge fireballs, falling apart...

In the end, the powerful suction force transmitted by the mouth of the furnace was all sucked into the interior of the furnace.

In the face of all this, the innumerable strongmen of the Devil's Star Field are all crazy, no one has the idea of resistance, a ship of various types of warships, big and small fortresses and fortresses, all of which are full of horsepower, desperately leading the blood. Rushing in the light.

Within the magic king's star and the void, there are countless devil strongmen and ethnic groups. After quickly tidying up some of the most important cultivation resources and important materials in the family, they rushed into the blood.

More powerful inside the magic king, the original location is within the scope of this bloody, they are safe, but the last three minutes are still not wasted, work together, all efforts The strength of the body, the important materials in this area of the body, as much as possible to the space storage magic treasure ...

This time, in addition to the already destroyed, the remaining Devil One and the Emperor's main star, most of them will be in jeopardy. In the end, it is very likely that it will be completely destroyed. The whole Devil's group will follow the footsteps of the Celestial family. The family moved away.

The only difference is that the Tianji family took the initiative to leave, but the devil was forced to passively migrate to avoid the disaster because of the furnace.

This account must be counted on the head of the heavenly eye, because the furnace is just a heavyweight of the ancients, even if there is a spirit, it is in accordance with the will of the owner of the furnace!

Moreover, today's catastrophe against the devil as a genocide will surely be fully liquidated in the coming days...

Chapter 4067: Royal Star Robbery

Three minutes said that the length is not long, but said that the short is not short, for the star power and star warships, three minutes, is enough to gallop a long distance.

Fortunately, although the furnace has given birth to the spirit, but its intelligence is not high, otherwise, the magic star's horizon hangs down a thousand miles in diameter, so vast **** light, fear that it will be the first time Attacked and destroyed.

This **** blood is the second generation of the ancestors from the devil. His cultivation is only for the sake of immortality. For the stars of today's world, nature is extremely powerful. Like a vast giant, it is unattainable.

But for those who have lived from the ancient times to the ages, and the ancient ages of the age of the furnace, it is really nothing.

What's more, before the smoldering furnace rushed out of the starry field of the evil, it also had a mysterious Qingmang, and the power was even greater. If it had its heart, this blood would not be able to sustain it. The loss of the devil's group will be even worse...

So everything is shocking, in just three minutes, although it is impossible to take all the resources in the whole magical star field and the devils and the people, but take away most of them, but it is not too Big problem.

In these three minutes, many cities in the Magic Emperor, especially the Magic City, which is surrounded by the center of the blood, all of the important materials inside, all of which have been included in the space storage magic...

After all, the magic man in these areas does not have to rush to pick up blood, all the time, is used to collect resources.

With these resources, the Devil's Samsung, which has been in the tens of thousands of years, has collapsed, but it has found a suitable place to live in the future. It does not take long to re-emerge.

In addition, more than 70% of the devils and ethnic groups who rushed into this **** light, and all kinds of warships and fortresses and fortresses reached nearly 20 million, nearly half of them!

Eventually, with a sharp sound of breaking the air, the blood was almost instantly evacuated and retracted into the horrible void of the sky.

"Booming..."

In the end, the void cracks are closed, and no traces are seen. More than 70% of the people and resources of the demon community can be safely evacuated and enter the mysterious ancestral mystery where Lian Yexuan does not know where...

"Roar!"

"Hey..."

With the departure of this **** light, the virtual air outside the magical defense circle of the Emperor Samsung immediately sounded a desperate noise and arrogance.

In this void, there are more than 10 million warships, as well as countless prisoners of war and a small number of magicians, although a small part of them can basically escape, because they have already rushed to the distance, and they are very fast. It will disappear at the end of the void.

But the vast majority, but destined to kill only this magic king star domain.

They are unwilling, but there is no way, even those who have not been able to rush into the **** range that has left in three minutes.

After all, this method is too amazing, and the blood is falling from the sky. The diameter of thousands of miles, the ordinary immortal old monsters may not be able to display, even if it is immortal, it can only be used once in a short time.

Nowadays, this blood has already left, and in a short time, it is obviously impossible to come again...

In fact, even if Ye Xuan still stays in this star field, with the help of Shennong Ding's domain field power to hide his body shape, he crouched down, but he can no longer shoot.

Because once you shoot again, it is very likely to cause the attention of the spirit of the furnace, in case the other party clenched the dead, it is more troublesome, and it is more likely to lead the heavenly eye that may be lurking in the dark, the cost is too great.

What's more, there aren't many people who have left the demons who have never been evacuated, and they are basically scattered. They don't even see where there are a lot of concentrated magicians. The whole magic king is so vast. It is impossible for Ye Xuan to sacrifice Shennong Ding and run around the world. It must be counterproductive and lead to a heavenly eye. There will be more disasters coming...

"Oh la la..."

"boom!"

"Booming!"

In the squeaking of the chain, the smoldering furnace once again rushed to a densely populated area. The 20,000 lines of the striated chains of the starry sky were swept in the void, and a million warships exploded and turned into One or more big or small star fireballs.

Then, together with the blood mist formed by the numerous star-studded strongmen who were blasted at the same time, they were sucked into the huge furnace body by the machete. At this moment, the sound of the smashing of the smashing disc was once again made.

After this attack, the spirit of the furnace seemed to find a more suitable target. Under the screaming scream, the giant ding spurred toward the right side of the magic star, but it was a sinister cry. A large number of star-studded powers allowed them to take advantage of this opportunity to flee in the distance around the void.

Seeing this scene, Ye Xuan's tight heart was a little loose, because the devils who were in sight could drive all the big and small warships and fortresses, fortresses, and rushed to the distance.

I really want him to look at the tens of millions of scattered devils who are so stunned. It's so degrading, Ye Xuan's heart is still a bit unbearable, and there is an impulse to rush out at any time, almost unable to hold back.

But now, the furnace is eyeing the magic star, these magical strong people finally see a glimmer of life, may not be able to escape all, but at least 90% can get a chance to survive.

At the same time, there were two prisoners of various ethnic groups captured by the previous World War, or who crossed the body in the void, or drove all kinds of warships.

Ye Xuan did not pay attention to the other, keeping Shennong Ding in a hidden state, and the breath was not obvious. The body was only a hundred feet in size, and he was squatting above the Dingkou, and his body shape was covered by the faint mist of the Dingkou... Drive Baoding so far, and follow the back of the furnace to move forward slowly!

"Oh la la..."

In front, the 20,000-character chain on the outer wall of the furnace was dispatched at the same time. Just like 20,000 star-studded giants rushed to the magic star. Seeing this scene, Ye Xuan instantly rounded his eyes and breathed.

This furnace is coming in a complete form, like a giant star, the size is equivalent to the magic star, but the magic king star is not the magic guard II after all, a few laps larger than the latter, will it be hit by this After breaking down and embarking on the footsteps of the magic guard II, Ye Xuan could not be sure.

Not even want to stop in the past.

There are indeed a lot of heavy weapons and cultivation resources that are important to the devil in the city of the emperor, but they have basically been taken away by the previous blood. Now there are still many resources in the magic star. There may even be a small number of Devil Powerhouses, but this is definitely far from the extent to which Ye Xuan dismissed the price.

However, this life star that is quite involved with him will be destroyed. Ye Xuan's heart is still quite emotional. It is a pity, but it is not the case...

Chapter 4068: The evolution of the furnace

Although the demons migrated away from the family, the magical defensive array of the Devil's Star has been fully activated before leaving. Today, outside the atmosphere of the Emperor's Star, there is a layer of blood-colored energy shields, but Ye Xuan Understand that in the face of the furnace can be ... it can not stop.

At this moment, all the fringe chains, all bursting out of the green mansions, before the smoldering rushed out of the star of the evil source, the Tiandao Qingyan shot into the green awning, which is obviously passive again.

The huge light shield representing the defense of the great powers is destroyed like a paper paste. The 20,000-year-old plaid chain is like a whip, stirring the atmosphere of the magic star, and instantly rushing into the interior of the star. Hit the mainland.

"boom!"

This is a real landslide, the horrible sound of the sky has been indescribable, and a big star has broken down and disintegrated directly...

The power of the furnace is too strong, and the Qingmengwei, which is shot by Tiandao Qingyan, can bless this moment. In the face of the tens of thousands of rhythm chains, the magic king directly collapses!

A huge star, this is turned into a myriad of fragments of varying sizes, rumbling and blasting...

The real star-studded recurrence, and without any suspense, once again triggered the whole piece of the void, the magic star as the main star of the magic king Samsung, its star magnetic field has a greater impact on this piece of void.

Nowadays, the Emperor Star is completely collapsed, causing this imbalance of the void. The magical guard in the distance has been affected for a moment, the stars are shaking, and the roaring loud noise is also under the invisible starry magnetic field. The void breaks open!

"Booming..."

The stars burst, the fire rushed to the ninth, and the whole magical star field was illuminated. At the end of the void, the devil and the prisoners who were rushing to escape flew subconsciously and looked around. The scene made everyone widen their eyes and eclipsed.

Then, without hesitation and staying, at a faster speed, turn around and go...

At this moment, the entire Devil's Star Field has long been a mess.

Demon Star, Devil One, Devil II, and three stars, all blown up, and except that they were not directly attacked by the Mastic, just because they were cracked by the huge magnetic field changes caused by the collapse of the Magic King. Wei Yi, just broken into three large irregular continents, the magic guard and the main star of the devil, all are extremely fierce.

One big, one small and two stars, at this moment, they are completely broken, and almost no large fragments larger than a million meters in diameter can be seen. This shows that the smelting furnace has concentrated the attack of 20,000 striated chains. How terrible it is.

Of course, this is also because Tiandao Qingyan has entered a mysterious Qingmang, and blessed the power of the furnace. Otherwise, the age-old treasures of the era will not be strong, even if they are not strong, In this way, with a single blow, you will destroy a star giant star!

In the void, it is covered with large and small pieces of stars, and all of them are whizzing, because the full-scale collapse of one, two, three, and three stars in a short time, the impact on the cosmic magnetic

field is extremely amazing, and now the magic star The domain has already formed an invisible magnetic field hurricane.

That is to say, Ye Xuan has Shennong Ding to protect himself, but now he can stay in this star field, and change it to other people, even if it is an immortal old monster, fearing that he has to rush away from the distance, otherwise, it is very likely to be violent. The cosmic magnetic field is torn into pieces... At least minor injuries are absolutely impossible to avoid.

The entire magic king star field, in addition to Ye Xuan, now there is no one living!

All the devils and the various prisoners of war in the virtual air of the Emperor Samsung's inner defense circle have not escaped, but they have already escaped, and even though there are a small number of creatures in the demon and the emperor, there are two stars at the moment. Under the catastrophe of the last day of the explosion, it is obviously impossible to survive.

Even if he is still alive, he can't resist the violent cosmic magnetic field that is raging in this whole star field... After all, there are a lot of star-ship battleships or wrecks left in the void in the distance, and now, in this wave of hurricane Under the ravages, they are all broken.

All of this can only be described by the end of the catastrophe, a star field, and all destroyed!

However, the furnace did not leave, and Ye Xuan still crouched in the hurricane of the cosmic magnetic field beyond the thousands of miles of the furnace. With the help of Shennong Ding's domain power, it was unscathed and the breath was not obvious.

"call out!"

"Hey..."

The sharp sound of the air broke out, and the initial was not dense, but it quickly overwhelmed and covered the void.

Around, the debris of the wreckage of a large number of star-studded warships scattered all over the void, and the massive **** fog that undulating and undulating, were all sucked up and gathered toward the top of the furnace.

Soon there was a huge whirlpool of breath!

This scene, seeing Ye Xuanzhen in the fine mans flashing endlessly, this time, the behavior of the furnace is somewhat abnormal, it seems not only to retaliate, or to create a starry massacre as a warning.

At least this is not the only purpose, because the furnace in front of the eyes is obviously hunting, but the target is not the flesh and blood will of the powerful creatures above the immortal level used to refine the evil source.

It's cold and cold, whether it's the flesh and blood of ordinary creatures or the debris of the starry battleship. It's obviously all acquired, and it's more good. In a short period of time, the vast void of the entire magic king's domain has been cleared. It is.

All the blood fog that broke out in the body of the soul, and the wreckage of the broken ship, all disappeared. What still exists in the void is just a myriad of lonely stars floating in the sky...

At this time, the interior of the furnace has been continually slamming the sound of the squeaking of the grinding disc.

Ye Xuan preliminarily estimated that this time, the furnace once again swallowed more than 10 million warships, large and small fortresses and fortresses, and the incomprehensible star-studded strong body bursting out of the blood...

All of this is exactly the same as what happened to the first major change of the evil source.

At that time, it was the self-evolution of the furnace, and finally succeeded in giving birth to the spirit, but the degree of intellectual opening was obviously not too high.

If there is no accident, this time, the purpose of this action of the furnace is mostly the same. It seems to be collecting all this as a nutrient, and wants to promote its own evolution again. Perhaps, the ultimate goal is to make the original The level of intelligence is not high, get a qualitative climb...

Realizing this, Ye Xuan's heart suddenly felt a sense of uneasiness.

If it is true that the spiritual level of the spirit of the furnace will evolve and improve again, it will obviously be more difficult to deal with in the future. If it is possible, Ye Xuan will definitely stop it.

It is a pity that all this has become an established fact, and even if it wants to stop it, it is too late.

What's more, even this time, the shot of the headless baby body prevented the re-evolution of the spirit of the furnace, but next time? Next time?

The coming, will still come after all...

Chapter 4069: Cage

Realizing that the spirit of the furnace, will be promoted and evolved again because of this time, Ye Xuan's heart is depressed, but the wood has become a boat, and he can't stop it. After all, one day will surely come. .

So, after a few sighs, Ye Xuan threw the matter behind him, no longer doing unnecessary troubles!

His attention quickly re-entered the furnace in the void in front of thousands of miles away, because the new accident has happened again at this moment.

From the blast of the magic star, to the horror of the horrible cosmic magnetic field in this star field, numerous warships collapsed and gathered in one place, forming a vortex, injecting into the interior of the furnace... All this is long, in fact, It only took only three breaths of time.

In just three breaths, the empty position where the front of the Emperor Star was originally located has changed again...

"Card!"

"Card..."

There was a crisp and clear sound of cracking in the void. It was only one or two in the beginning, but it was very dense and rainy. It made the scalp numb, and the attention of Ye Xuan was dragged in the first time. The spirit of the instrument seems to have also noticed that the fringe chain waving on the outside of the furnace wall in the void has a slight stagnation action at this moment.

In the scene that I saw next, even the back of Ye Xuan had a white hair sweat, wide eyes, and did not hesitate to push Shennong Ding in the hidden state, and quickly withdrew!

In front of the line of sight, the void where the original Emperor Star was located, at this moment, like a piece of broken ice, is radiating from one point and into the extreme crash.

At first, the fragmented void had only one singularity, but after a short half of the breath, the singularity of this extreme outward spread has reached a huge void with a diameter of more than one million miles...

Moreover, this is obviously only a beginning. This kind of void fragmentation, the overall collapse of the situation continues to spread, and the speed is fast!

At the same time that Ye Xuan urged Shennong Ding to retreat at a rapid speed, the furnace in front of thousands of miles seemed to be aware of the danger and made the same movement, but it was retreating in the other direction of the oblique side.

After another breath, the fragmented void of a million-mile diameter has already expanded to a radius of ten million miles. At this time, in this piece of broken void, you can see a scene that is extremely strange...

That is clearly a void, even if it comes!

This feeling is wonderful and very strange. It is like the current magical star field, just a mirror, and behind this mirror, there is another world. Now, the mirror is spreading from the center to the periphery. And another world that exists after the mirror is also showing up a little bit quickly!

This is showing at a very fast speed. In the end, I am afraid that it will come all the way. It overlaps with this first universe and replaces the world of the past, and Ye Xuan is no stranger!

In fact, he should have thought of the possibility of such a change.

Because in the depths of the Valley of the Forbidden City in the inner city of the Devil, there is a void passage... connected to the ancient cage!

That's right, this is another world that is coming to the full extent of the Devil's Star Field in the First Universe. It is the old-fashioned cage that Ye Xuan has ever entered!

Obviously, the reason for this scene in front of us is that it is because of the total collapse of the Magic King!

As the Devil's Star collapsed, the passage in the valley of the Forbidden City's inner city was also incited by the passage connecting the ancient cages, which led to this consequence.

There are two kinds of situations in this kind of incitement, or the void channel is directly cut off. Then, the location where the magic king's forbidden valley was originally located, and the only connection with the world of this ancient cage, was ruined. The cage will float into the innocent universe void, as if it was exiled, it can no longer be found.

In another case, this void passage is enlarged because of the fragmentation of the Emperor Star... This expansion is uncontrollable. When it develops to a certain extent, it is the solid space of the first universe. It will break up a large piece, just like the mirror is broken...

Until the world behind the mirror appears and blends into the first cosmic plane, replacing the already broken mirror, this void will collapse and will be stabilized again!

In other words, the Devil's Star Field is absolutely complete, and will cease to exist after that. Instead, it will be the one in the ancient cage of the universe from the mirror...

When these thoughts flashed through my mind, let Ye Xuan finally realize everything, it is after a few dozens of interest.

During this time, he controlled the Shennong Ding at his feet, and once he retired, he has already withdrawn from hundreds of millions of miles, and has already withdrawn from the Magic Emperor's domain where the Emperor Samsung is located.

Before this period, the front continued to expand, and the void that radiated to the extreme speed was greatly broken. It has been continuing. With this process, the ancient cages familiar to Ye Xuan's impressions are also displayed in sight. more and more.

Finally, after more than a dozen breaths, the sound of the smashing of the stagnation in the front has been stopped.

At least, in the central domain of the Devil's Star Field, hundreds of millions of miles of a vast universe of voids, completely changed face, the world behind the mirror, fully revealed, replacing the former Magic Emperor.

Ye Xuan's thoughts, Shennong Ding, who had been withdrawing under his feet, also stopped. He stared blankly at the familiar and unfamiliar world in front of the void, and his face was dull. Was thundered by the general.

In fact, even if it is really thundered, the shock of his heart will not be so strong, because what he sees in his sight is indeed the whole picture of the old cages. The world that was originally broken is really coming. Up...

A huge continent of varying sizes, either connected to each other or separated by a vast array of turbulent streams of varying degrees... All of this, when Ye Xuan was in the ancient cage, he had a headless baby The power of the gods, the gods rushed into the infinite sky, overlooking once.

Therefore, he can see at a glance that at this moment, he has fallen to this plane and replaced the magical star field. It is indeed a complete ancient cage!

And, with the advent of the first universe, the face of the devil, it is obviously not just the broken world of this ancient cage.

"Roar!"

"Hey..."

At this moment, as the mirror-like void ceases to shatter, the world of the ancient cages that have fallen to the Devil's Star Field is everywhere on the mainland, and soon there is a roaring beast with excitement and joy.

Obviously, the descendants of countless wild animals who had lived in the broken world of the ancient cages were brought to the world.

"This is really ruining the sky..."

Seeing all this, Ye Xuan whispered to himself, and the whole heart sank to the bottom of the valley: "This ancient cage is a wild land where the battle of the world was broken in the past, but now it is unexpectedly coming to the world. Does this mean..."

"The full coming of the great and turbulent world has finally opened... the curtain is over?"

Chapter 4070: Baby corporal warning

"Roar!"

"Calling..."

The arrogance of the world is soaring, with the all-round fall of the world of the ancient cages, in the starry field of hundreds of millions of miles away from the front, a block of stars on the mainland separated by vain voids has a head shape. A huge beast is rushing.

These beasts are in different forms, and many of them are not visible in the three major star planes of today's world. They are already extinct, even among the millions of indigenous beasts that have come out of the source of evil. No similar figure can be found.

These fierce beasts in the world of cages are also descendants of **** aliens. At the beginning, Ye Xuan was born in the ancient cages of the ancients. In the horror corpse, he found a large number of sacred crystals, and awakened to sleep. The headless baby corpse in the area and brought it out.

But that time, because of a sinister and powerful beast that showed the breath, it attracted the will of the wilderness of the world in this ancient prison cage world, that is, the avatar of Tiandao Qingyan.

In the end, Ye Xuan teamed up with the headless baby corpse to make the eye of the eye lightly invasive, and left the cage world safely and smoothly before the projection of the heavenly eye to the world of cages.

However, Ye Xuan and the headless baby corpse have just left, the ontological projection of Tiandao Qingyan has come, and a big blood wash has been carried out in the world of the ancient cages. All of them want to take advantage of the opportunity of the celestial eye to escape and escape from prison. Almost all of the caged beasts in the cage world were killed, only a few escaped, but in the end they were also suppressed by the emperor Mo Wentian and other high-ranking royals...

That battle clearly threatened the strength of the savage beasts in the world of the ancient cages, but the world is so vast that the years of existence are long enough to be traced back to the far-off era of the ancient world, and there is absolutely no shortage of Crouching, more powerful cages and beasts.

They have been crouching all the time, even when they were injured in the last eye, they never swayed in the face of the great opportunity to escape from the cage world...

After all, the **** descendants of this wild and savage beast, the stronger the strength, the higher the sensitivity of the spiritual sense. When it reaches a certain realm, it is almost impossible to predict the advent of the crisis in advance, and naturally it is impossible to appear easily.

But this time it is different.

This time, the vast world of hundreds of millions of miles of the vast ancient cages of the world has come to a more vast and innocent star plane, and has been completely stabilized. For the world of life in the cage... Perhaps it should be It is called the cage star field. After all, the cage world has replaced the former magic king star field.

For the beasts who lived in the cages of the cages, the heavens and the earth were suddenly bigger and wider. The original world was no longer bound. A vast world was already in sight. It was the sea. A great time for a leap to come...

Excited and joyful, the figure of a beast of a headed prisoner rushed out from a piece of starry sky. The form was different, and the strength was different. The most powerful one even reached the immortality. It was a shovel. The three-tailed tiger, the breath of horror, when the sky roars, a large piece of empty clouds are scrolled!

At this time, Ye Xuan has already retreated to the far side of this hundreds of millions of miles of cages, and is still two or three million miles away from the edge. The methane furnace that is retreating to the other side is basically is also like this.

Even with such a distant starry sky distance, Ye Xuan could not get a glimpse of the whole picture.

Just a glimpse of the big, small, and two cages in the starry sky, the roaring screaming of the various beasts of the cages, there are millions of giants... From this, the whole film The total number of cages in all the large and small stars in the cages of the cages will reach tens of millions or even more.

With so many cages and beasts as the world of cages descended to the first cosmic plane, replacing the previous magical star, this matter will obviously have an unpredictable impact on the big situation of the first universe.

The situation of the first cosmic plane, which had already been the initial stage of the overall situation, was once again in chaos. With the proliferation of these tens of millions of caged beasts, the entire first cosmic plane was afraid of chaos... think of this, leaves Xuan Deng shook his head and sighed, and smiled bitterly!

"Oh la la..."

It was also at this time that with the complete stabilization of the caged star field, the end of the void at the far right, the sound of the chain has been ringing again. Obviously, the furnace has acted again, facing this piece. There are countless cages and beasts in the descendant cages, and it is obviously impossible to let them go.

How many will also be hunted!

However, the caged star field is too wide, hundreds of millions of miles round, even if the furnace is huge, it can not be visited in a short time.

Just as Ye Xuan hesitated, he also took this opportunity to rush to another starry sky in the caged star field. When Shennong Ding captured some cages and beasts, his left chest was suddenly hot at this moment...

At the crucial moment, the baby is warning!

A touch of blue mist emerged from the headless corpse tattoo on the left chest of Ye Xuan, and instantly surrounded Ye Xuan's body, and Ye Xuan's mind also showed a message.

Without any hesitation, Ye Xuan waved his hand to take up Shennong Ding at the first time, waved a piece of inconspicuous multi-sense crystal, and then issued instructions to the body's phagocytic system to initiate the interstellar coordinate jump ability, and directly launched the interstellar coordinate jump. , left this magician star field.

When his figure reappears, he has already reached the black hole of life outside the devil's star field. The two interstellar coordinates that Ye Xuan branded on the first cosmic plane are here.

However, although he instantly left the Devil's Star Field, it was scattered from the left chest corpse tattoo, and the faint blue mist that enveloped the whole body did not dissipate. It still exists and protects Ye Xuan's body. Its breath is not obvious, even if it is in front of the eyes, it is impossible to detect.

Only when you have a good eye, can you feel it!

"call out!"

In the wave, Ye Xuan waved the message in the mind according to the headless baby corpse. He waved a green glory in front of him. This is obviously a magical technique. Ye Xuan did not grasp it. At this moment, it can be displayed. According to the information transmitted by the headless baby corpse, with the light blue mist that is scattered in the corpse lamp tattoo, you can draw the gourd as you like!

This green glory quickly turned into a light curtain in front of the void, a hundred squares, a slight flash, the light curtain appeared on the impact, just the leaves of the cage that Ye Xuan had just left. scene.

Previously, Ye Xuan threw out an inconspicuous mourning inside the crystal, and was also instructed by Ye Xuan to still have a light blue mist. Now it seems that this is a long distance. Monitoring magical powers.

The multi-sacred crystal that stays in the distant void outside the caged star field acts as an electronic probe, and can clearly transmit the influence information through a void, but without the slightest energy fluctuation. It's really remarkable to monitor the magical powers...
