Chapter 4091: Emperor's private army

"You old guy, now the seal has solved a few layers? How much memory has it recovered? What is the realm of strength now..."

Xuan did not answer the question of the mosquitoes and old ghosts. Instead, he directly asked a bunch of guns and asked the old guy on the spot.

"You... you know it?"

At that time, the old guy was shocked and looked at Ye Xuan with a dull face. He returned to God in two moments. He smiled and shook his head: "The seal is unlocked again, but the memory has not recovered much. , at least for strength... now is in the late stages of immortality!"

"thump!"

thump! "...

...

Upon hearing this, the high-rises of the Triumph City next to them were caught off guard, and at least fell five or six. When they didn't get up, they all looked up and looked at the mosquitoes and the old ghosts.

Although they are also suspicious of the strength of the mosquitoes and old ghosts, they did not expect that he is now a super-old monster in the late stage of immortality. and

And it seems that this is far from the limit, there are seals on people, and most of them are more than one layer. This

If all of them are solved and the memory is restored, what a terrible existence? miss you

At this point, all the people suddenly smiled, and there was a sense of illusion like a dream...

"Is there only a late stage of ordinary immortality? I thought that if I had to be a king, I would be immortal..."

Ye Xuan's words are even more striking. Just muttering, even the mosquitoes and old ghosts have turned their eyes blank without words, but he is completely unconscious, and some sighs with regret. This

Only after the ordinary immortality, the ordinary immortal late, plus the three immortals of the Tianhe star, there are four immortal existences, each defending one side, and then I have the flexibility to respond, basically also the ability to protect the innocent!" Say

When he got here, his words suddenly went up, and his face became serious. "The Tianhe Star has already fallen completely. The military and official personnel inside, including almost all the Tianhexing people, are all cosmic zombies."

"I just don't know what method I used. It seems that it is no different from ordinary people in terms of breath or other aspects. I just discovered it when I first returned to the Tianhe Star..."

In a word, there has long been a zombie old nest, and the cosmic zombie army that has set aside the wind, it is very likely to crouch in the inland of the Tianhe Star! ""

The so-called prince press conference is just a scorpion, the purpose is to shoot on Tianhe..."

Within half a day, the 90-inch warships of the Arc de Triomphe all entered Shennong Ding. I was able to reach the edge of the Tianhe field within a day, and then all of you will be released there, and then I will sneak back to Tianhe. "

"And you, in the name of the private army of the emperor from the Arc de Triomphe, said that it is to participate in the return of the emperor, enter the Tianhe domain, and open in the void, it is best to

enclose the entire Tianhe star , but not too obvious, at least need to do some cover-ups, so as not to alarm the extension of the wind..."

Xuan's words shocked everyone. The people thought that this time he held a press conference in Tianhe, in a high-profile attitude, returning to the immortal dynasty. Now

In the opinion, things are not like this at all. In order to annihilate the extension of the wind and his cosmic zombie army, Ye Xuan does not hesitate to use more than 10 million warships in the Arc de Triomphe. It is clear that not only did not intend to return to the immortal dynasty, but also prepared Uncover the truth and completely break the rhythm with the imperialism.

After all, how long has it been to establish the Triumph City? How could it be possible to create more than one million warships? very

As for the third universe where the Terran is located, there has been no large-scale warfare in the past year, so it is impossible to say this.

As long as you think about it, you can vaguely guess that the more than tens of thousands of starships that the Arc de Triomphe suddenly took out are mostly obtained from the first universe. complete

In the past year, the three major star planes have basically been in the same place.

How is the tens of thousands of starships of such a large scale sent to the Triumph City from the first universe, which is even more thought-provoking. There is such a giant storage treasure, except for one with Shennong. Ding's fox lord, it seems that I have not heard of it!

In this way, I am afraid that the identity of the five demon sorcerer's devil, Mo Zhenfeng, will be exposed...

However, there is no evidence for all this. Even if the parties think of it, they can only be suspicious and speculative. However, after a long period of time and deliberate search, it is inevitable that some people will find clues! and also

That is to say, after this incident, the secret of Ye Xuan's seven enchanting ones is afraid that it will not be hidden for a long time. Even if this matter ends, someone will immediately become suspicious of this...

However, the situation is so, even if the consequences are a little worrying, and there is no other choice, the extension of the wind and his cosmic zombie army is too harmful, this time it is hard to block them all in Tianhexing. In the old zombie nest, in any case, you must do it all!

After realizing the seriousness of the situation, even the wretched mosquitoes and Naples did not ask too much. All the tops of the Triumph City, all of them acted, and all parties organized to fully mobilize and urge the more than 10 million starships of the Triumph. 90% of the time, rushing toward Shennong Ding in a tense and orderly manner...

During the half-day period, Ye Xuan did not waste too much, but used it to re-close again, swallowing a large number of heavenly treasures, even the two evil sources used two drops.

When the half day is about to expire, he finally sighs and tears a major body potential again without any suspense.

So, when he opened his eyes, the familiar system prompts quickly sounded in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the eighth order of the star!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the eighth order of the star! "star

The eighth order of the main territory, only one small step from the peak of this territory, Ye Xuan seems to have seen in advance the moment when the deity himself broke through to the domain of the domain, it is too exciting. this

Before he was in the seventh stage of the Lord's Star, the strength of the ancient konjac bloodline was the third order of the domain. One

Once the konjac has changed into a supernatural power, and after reaching the fifth change, it will be able to reach the eighth level of the domain's main position in an instant, each change, and the strength will be upgraded to a small order.

Now, the cultivation of the deity has once again broken through and reached the eighth order of the star master. Then, after the activation of the blood of the konjac, according to the usual practice, Ye Xuan's cultivation in the state of the three-headed six-armed Taikoo konjac should now reach the domain master. Order. One

Once you enter the fifth change of the konjac, its peak strength will reach the ninth order of the domain's main territory. This is the peak of the domain's main territory. It is only one step away from the main border...

This breakthrough is of great significance. Under the fifth change of the konjac, he is already invincible under the leadership of the Lord, and he believes that he should be able to fight against the front of the wind...

Chapter 4092: The press conference begins

When Ye Xuan ended his retreat and walked out of the secret room of the main city of the Arc de Triomphe, it happened to be half a day. Kay

The 90-inch starships of the Rotary City all entered the Shennong Ding, including the combatants, all of them stayed in a warship, and did not move around because the time was too urgent. Once they arrived, they immediately rushed out of Shennong. tripod.

At that time, it will take another half day...

Leaving the Arc de Triomphe, Ye Xuan rushed to the void, and in addition to Shennong Ding, he saw only the mosquitoes and the old ghosts.

"Hey!"

In the hands of Shennong Ding income in the immortal world, Ye Xuan will once again break the virtual shuttle sacrifice, and the mosquitoes and old ghosts and Naples into the cabin.

"Two days have passed for half a day, and the last day and a half, that is to say, within one day, we must return to the edge of the Tianhe Star Field, because the Shennong Ding will be sacrificed at that time, so that the tens of thousands of starships in Ding will rush out. It also takes half a day..."

After breaking into the virtual shuttle, Ye Xuan turned to look at the mosquito and slaughter the old ghost and shrugged. Then he said: "It seems that it is just right, but the battleship will enter the vicinity of the Tianhe Star from the edge of the star field. It takes time to get through the pavilion, and it's a bit loose, and it's half a day!"

"With my current strength, this half-day time is really unable to squeeze out. Therefore, it is up to you to control the broken virtual shuttle. After all, it is immortal, I need a whole day, and you... within half a day, you should be able to To the edge of the Tianhe Star!"

It is indeed a fact. Although it is a bit strange to let an immortal old monster be a driver, but the mosquitoes and old ghosts are not outsiders, and the situation is urgent, and it can only be so. Rear

Nodded, when even from Ye Xuan's hands, he had already released the control of the virtual shuttle, and under full control, the broken virtual snail turned into a purple, and the blink of an eye was at an unprecedented speed of terror. With a bang, disappeared at the end of the sky...

...fruit

Nothing wrong! in

Under the full control of an immortal old monster, just half a day later, the broken virtual shuttle came from the death star to the edge of the Tianhe star field.

Of course, the mosquitoes and the old ghosts are not repaired in the late stage. If necessary, he can even tear the void directly and instantly descend to the Tianhe domain.

However, if you bring Ye Xuan, it will be much more difficult, and you have to pay a certain price. Unless it is sealed, it can be done easily! anti-

It's time to get it, and then there will be a big fight soon, naturally there is no need to choose it!

After arriving at the edge of the Tianhe Star, the mosquitoes and old ghosts chose a very remote universe to stop, and then the three walked out of the cabin.

"Well, there is no one in the vast expanse of the void. It is estimated that all the Tianhe stars have gone..."

The old ghost searched for a circle with the mighty spirit of immortality, which was indicated to Ye Xuan.

The latter waved Shennong Ding from the immortal world again. It is still a complete form, but it is in a state of concealment. Otherwise, a super big ding like a giant star is born, even in the far distance. It is also observable in the sky.

Under one order, the tens of thousands of starships that had just rushed into Shennong Ding half a day ago rushed out in an instant, and crossed the river and continued.

However, these warships have already opened the hidden system before they rushed out. Therefore, although this scene can be described as magnificent and powerful, it can be seen in the outside world, but nothing is in the air.

Nearly half a day later, tens of millions of starships all rushed out of Shennong Ding, and at this time, only half of the last half of the original release conference period, this matter should not be delayed, so as not to cause doubts about the extension of the wind.

Therefore, after Ye Xuan put Shennong Ding in the first place, he entered the broken virtual shuttle, and alone controlled it. In the hidden state, he drove toward the Tianhe Star...

After he left, Naples and the mosquitoes and the old ghosts once again took over the command of the entire Triumph. With

Under the order of the Neapolitan flagship fortress, the tens of thousands of starships that had already been listed in the void, all removed the hidden system. blink

Between the eyes, thousands of warships all show the shape of the hull. This vast and remote star field, originally empty, has only some abandoned mineral stars in the distance, but at the moment, the moment is a thousand, Ten thousand warships are in the air, and they reach the end of the line of sight. It is like a miracle. It is spectacular... with

After that, the entire army of the tens of thousands of warships that had been systematically trained in the Arc de Triomphe, after the second command of the coach of Naples, was launched, simultaneously launched the starship power system, the roar of the sound, and the orderly forward The Tianhe Star at the place is going to go...

...One

After an hour, the vast universe of the sky in front of the Tianhe Star, almost endless a large number of various types of starships, reflected in the line of sight.

During the day and a half, all kinds of starships that had been confined in the sky near the atmosphere of the Tianhe Star, all of them had retreated a million miles. Seeing this scene, Ye Xuan was in the middle of his mind and nodded. in

This million-year-old empty space in front of the star-studded fleet has built a huge virtual platform, which is obviously used to hold the main venue of the emperor's conference. in

On both sides of this virtual platform, the immortal army from the two camps of the Terran, the Tiangong battle boat army, and a fleet from the Federation of the Bandar, a total of about millions of warships, guarding the left and right.

In the meantime, there are some patrol ships and military warships sprayed with the Tianhe Star Emblem on the ship, and shuttle in the void!

Ye Xuan's face showed a sneer, and he walked into the void with a long distance. After waving his hand to the body, he directly concealed his figure, so he crossed the void in the flesh and leaned toward the atmosphere of the Tianhe Star in front. A star channel rushed!

At this time, the fans of the emperor in the Tianhe Star and the federal people who loved to join in the fun, the star powers, have basically all come out from the Tianhe Star, after all, the press conference is outside the universe. In the void, stay inside and see a hair? Place

Therefore, more than 20 stars in the atmosphere of the Tianhe Star are not limited, but in order to avoid being detected when passing through, causing unnecessary trouble, Ye Xuan still activates the perfect movement of the spiritual power secret, in an instant All the breath is perfectly hidden. Take

His current cultivation is strength, even if it is an immortal grotesque, deliberate exploration may not be able to detect his existence, let alone the ordinary-level starry sky as the intelligence center of the Tianhe Star.

After a few moments, Ye Xuan quietly passed through this star passage and entered the inland of Tianhe Star. He rushed to the star government in the core of Tianhe City in the first time, waved and removed the previous ban, and entered the room. After that, he was completely relieved. Following

In the middle of the flash, the mans flashed and muttered to himself: "There are five hours, the press conference is officially opened. Think about the brilliant performance of this conference... It is really looking forward to it!"

Chapter 4093: I am not Long Xuan.

"Booming!"

"boom....."

The roar of the power cabin came from the far side of the universe's void, and the eyes of all the emperor fans, the federal people, and the star-studded people who had long waited in front of the venue, all attracted the past.

A tens of millions of large-scale warships are coming from the bangs. They are magnificent and powerful, and they are scary. Do not

However, some people soon saw the logos painted on these battleships. After a moment of smashing, they suddenly whispered..."

Huh? The logo painted on the hull of this battleship is familiar... I think of it, the Arc de Triomphe, this is the symbol of the Arc de Triomphe! "

"Is the prince's private army? Scared to the old man, and thought that the soldiers are pressing the border, or which empire wants to rebel, come to the emperor."

For a long time, it turned out to be the emperor's private army of the Triumph City. It must have come to participate in this press conference, and the return of the Emperor Wangzi of the Emperor. ""

Oh, it's amazing. It was originally distributed to... No, it's the beginning of this royal super-trial trial. The various warships that Xuan Huangzi brought into the death star field didn't even have 10,000 ships. How long? There is actually a tens of thousands of warships, this can really make it! "...

...with

With these whispers and sighs screaming, some people seem to touch their hearts and think of something. After all, in less than a year, suddenly there is a tens of millions of warships. It's too ridiculous. Do not

However, these thoughts just flashed in my mind, facing the scene in front of me, even if some people suddenly touched their hearts, now they don't have the mind to think about it immediately...

At this time, the front of the conference hall was around, and a small fleet of imperial empire of the dynasty had set out to meet the triumphant fleet that was coming.

The voice of the triumph of the Triumphala's coach, Naples, also sounded at this moment, and it was a void: "I am Napoli, the former general of the immortal army of the former dynasty. Nowadays, it is the commander of the Triumph Star Cluster in the triumph of the Emperor of the Emperor. "

"This time, it was for the press conference to participate in the return of the royal family of the emperor, bringing the entire triumphant regiment and asking His Royal Highness to review!"

Soon, the small fleet of the imperial empire that was originally preparing to meet stopped, and quickly returned, because the imperial dynasty of the emperor, Longshan Tang, issued instructions to let the tens of thousands of triumphant fleets enter the venue, The virtual sky array in front of the main platform of the conference was held for a thousand miles away. although

It is said that Longshan Tang's heart is also awkward. This Xuan Huangzi suddenly got a powerful starship army of tens of thousands of scales. But this was originally a good thing. This triumphant army came to help, and the name of Xuan's son was It will be more prosperous, and the influence of the human race will be more extensive. Both

However, it is a pleasure to see what it is, although it is very strange, but at this time the press conference is just around the corner, Longshan Tang naturally has no possibility to think deeply about it... very

Fast, with the release of the instructions, this tens of thousands of large-scale triumphant squadrons, smoothly entered the conference venue, directly in front of the main platform of the conference in the void. and

Moreover, since it is to accept the review of His Royal Highness Xuan Zizi, it is naturally impossible to give a back view. Therefore, all the battleships are all facing the main platform of the conference, that is, the aspect of the Tianhe Star. The situation surrounded by the stars! This

In one scene, through the eyes of the Tianhe Star garrison outside the atmosphere of the Tianhe Star, it was seen by the extension of the military base that was still crouching in the depths of the Tianhe Sea. He immediately let him sigh with The fox is stunned. "

This tens of thousands of scales of the triumphant corps came from the array, and opened in the air, faintly enveloping the Tianhe star in the void, this matter... Is there any conspiracy? "

"It shouldn't be done, everything is said, there is no such thing as a far-fetched place. It seems that I think more."

"After thinking about the character of Longxuan, it has always been so sensational, it is not the first time. This time it must be pretentious, easy-going and easy-going, but in fact it is so good, it is a testimony to get this huge fleet. , arranging the field, dazzling the muscles, revealing the real face... it must be like this!"

Here, the extension of the wind has just floated a suspicion, and soon dissipated, but still not taken lightly, still through the Tianhe Star outside the atmosphere of the corps, close attention to everything

...

Tianhe Star, Tianhe City, Star House!

At this time, the time from the original press conference of the emperor was only half an hour. Now, inside the Tianhe Star, almost empty, all the star-studded powers, the emperor fans and the federal people who have recently heard the news are all waiting. Outside the atmosphere, or in a starship.

Those who stayed in the Tianhe Star are some of the local military forces, official agencies, and some Tianhexing residents.

Half an hour later, the press conference of the emperor will be grandly opened. This is definitely a big event for the three majors. Therefore, the protagonist is naturally more important. from

From the room that was specially arranged by the Star House two days ago, the Emperor Xuanzi never came out again. The time for the opening of the press conference is approaching, and the three immortal geeks like Hulu, Longshan Tang and Gonghua are squatting. When the party arrived, it was waiting outside the door of Xuan Huangzi. Behind him, he followed the star of the Tianhe Star and the commander of the garrison, like a small follower...

Fortunately, the door is still open after all, waiting for the three immortal strangers outside the door to breathe a sigh of relief at the same time. leaf

Xuan nodded and didn't say much. When she went ahead, she walked out of the Star House, followed by three immortal monsters and the stars of the Tianhe Star. The garrison commander... But Ye Xuan knew that these two guys, In fact, it is no longer a human being, but a cosmic zombie. To be precise, it is the lowest corpse slave! Deng

After the patrol ship, the group quickly passed a star passage in the atmosphere of the Tianhe Star to the main platform of the press conference in the universe outside the atmosphere! the Lord

A row of positions was placed on the table, and three immortal grotesques accompanied Ye Xuan, and then they briefly said a few words of the opening speech.

However, I didn't say much, because everyone knows clearly that the protagonist of this press conference is Xuan Huangzi. Anyone else, if it's a bully, even if he's an immortal monster, it's absolutely impossible to ask. Well, it will even lead to public opinion.

Soon, it was Ye Xuan's turn to speak. At this moment, the eyes of countless prince fans, federal people, and star-studded people inside and outside the Tianhe Star all gathered on him. thing

In fact, the entire third universe includes the first universe and the second universe, the major forces, and the innumerable light, which are all viewed at this time. leaf

Xuan light coughed, and then said: "Hello everyone, I am Ye Xuan! However, I am not Long Xuan, that is to say ... I am not Xuan Huangzi!"

Chapter 4094: The script is not like this

Quiet!

silence!

Dead silence! "

Hello everyone, I am Ye Xuan! However, I am not Long Xuan, that is to say... I am not a Xuan Zizi! "when

This sentence was spoken from Ye Xuan's mouth. After being introduced into the ears of the people, the whole venue was far and near, and all the people were wide open and their faces were dull. thing

In fact, today's three major star planes, at this moment, are as static as time, suffocating in a strange moment. but

Anyone who hears this sentence feels that there is something wrong with the ear. Do not

However, they quickly reacted, and the laughter sounded like a tidal wave, and more relaxed words came out. Even with Ye Xuan, sitting on the stage of the press conference, Xiang Hulu, Longshan Tang and Gonghua These three immortal grotesque, after a short delay, also laughed..."

Hahaha... Your Royal Highness is really too humorous! ""

Yes, yeah, considering that the atmosphere of the venue is so heavy and depressed, the Royal Highness has opened such a joke! ""

This also shows that the imperial edict of the emperor is approachable, a self-entertaining discourse, and suddenly relaxes everyone's nervous mood..."

Unfortunately, I didn't wait for the three immortal geeks to sneer and talk, and Ye Xuan, who is sitting among the three, has already made a sound again. full

The serious color of the face directly interrupted the words of three immortal grotesque: "This is the press conference of the prince. Do you have trouble interjecting three people? Is it the quality of the immortal blame?"

In a word, when the three immortal old quirks almost bite to the tongue and turn to the head of Ye Xuan, one by one has already widened their eyes, and the expression on the face is like a ghost. Say

Good approachable? Say

Good and amiable? Say

Good sense of humor?

This hasn't turned around yet, it has become so bitter and sinister, and it is still immortal, and it is still three, and there is no hiding in the face.

In the mouth of the mouth, the three immortal grotesque hearts at the same time a Gedden, suddenly gave birth to a feeling of great things, because things, how to look is not what they originally imagined. drama

Ben...should not be like this!

This moment, the three immortal old monsters were all chaotic, banging, and there was no speech at the moment.

Ye Xuan, who is sitting in the middle of the three, has already made a sound again. The serious color of his face is not a joke.

"Today's occasion, it can be said that it is the main face of the three stars, and countless eyes are paying attention. Yemou is not reliable, nor is he at this time to make such a joke!"

Still that sentence... I am Ye Xuan! However, I am not Long Xuan, that is to say, I am not a Xuan Zizi! "

"This is not a joke. This sentence is Ye's convening of this press conference. The most wanted thing to say is that, precisely, this time the press conference, Ye Xuan's purpose is simply not the return of the **** king. , but... clarify a fact!"

This fact is the very beginning of the sentence, Yemou now stressed for the third time: I am Ye Xuan! However, I am not Long Xuan, that is to say... I am not a Xuan Zizi! ”

"Of course, Ye Xuan is not deliberately fake, deliberately concealed. From the beginning to the end, Ye Xuan has never publicly admitted that I am Ye Xuan, that is, Long Xuan, is Xuan Huangzi..."

Everything in the beginning was just a beautiful misunderstanding. Yemou registered the interstellar mercenary in Tianhe, and then went to the magical universe of the first universe alone. ""

After that, Ye Xuan was the rumor of Xuan Huangzi, and it spread from Tianhe Star, but all this, Ye Xuan was in the first universe, and did not know. ”

"Until Yemou was sent back by the emperor's immortal regiment from the first universe of the devil's horoscope, and had not had the opportunity to explain, the remarks of the overwhelming return of the sacred princes have swept!"

Ye was afraid at the time, but at that time it was still weak and his knowledge was shallow. In the face of this general trend, he was completely chaotic, so he failed to clarify the facts in the first place. ""

In fact, Ye Xuan did not have this opportunity at all. After the imperial dispatching fleet brought Ye Xuan back to the third universe, he directly asked Ye Xuan to return to the imperial star, and the immortal army that brought Ye Xuan back was always followed. Ye Xuanxiu is still weak, and it is impossible to escape. It can only follow the general trend and follow the trend..."

After returning to the imperial dynasty, the identity should be seen by some high-level officials, so it was only after the subsequent distribution of the death star field. This misunderstanding, even the dynasty felt that it was not appropriate to break through, causing greater pressure on public opinion... then Ye Xuanyi was weak. The repair was not clarified at the time and it was even more understandable. ""

Originally, Ye Xuan thought that after being disguised under the house of death, this misunderstanding would have faded away with time, and the misunderstanding of Xuan Huangzi's identity will gradually be forgotten because of Ye's fading out of the public eye. . ”

"It's just that everything is involuntarily. Nowadays, the three main planes of the starry sky are becoming more and more chaotic. The big robbery is not coming, Yemou can't sit still, so he quietly left the death star field and worked hard outside, but he abandoned the Xuan prince. This identity, do not want to make the original misunderstanding deeper and deeper..."

Helpless, Ye Xuan's identity has been bound by the public by the Xuan prince, so this time Yemou returned to the third universe from other planes, the first time to spur the list of the federal points contribution list Change, for a time, the resurgence of the king of Xuan Huangzi, once again declared on the dust, Ye Molian did not have the opportunity to explain, Tianhe Star, has been overcrowded..."

"In the face of all this, Ye Xuan considered for a long time, and finally decided to stand up and bravely explain everything, including the misunderstanding of this return, including the cause and effect of the identity of Xuan Huangzi and Yemou at the beginning..."

The above is what Yemou most wants to say at this press conference. The sentence is true, there is no false statement, and finally one sentence: I am Ye Xuan! However, I am not Long Xuan, that is to say... I am not a Xuan Zizi!"

So, in the future, please don't call Ye Mou Xuan, I am my... Ye Xuan! "Say

Here, Ye Xuan no longer speaks! This

Some words can be said to be a long story, the misunderstanding of the identity of the original Emperor Xuanzi, and this time back to the third universe, the reason for this kind of sensation, all said the end of the sky. This

Some words, he has been in his heart for a long time, and all of them are released today. The only feeling is that they are relieved!

There has always been a small embarrassment in my heart, but now, when he has said everything, the knot has finally been completely solved. This

At the moment of Ye Xuan, there is a feeling of sudden sublimation of the state of mind. The repairing power that has just been broken in the body not long ago seems to be a sign of breakthrough once again because of the great jump in the state of mind! positive

When he was so awkward, the familiar system sounds in his mind, and it sounded...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the star of the nine-order grand perfection!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the star of the nine-order grand perfection!"

Chapter 4095: Sure enough, you

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the star of the nine-order grand perfection!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the star of the nine-order grand perfection!"

With the familiar system prompts in my mind, Ye Xuan's face appeared to be awkward because of an accident, but then, a huge ecstasy poured into my heart.

This time the state of mind jumped, although unexpected, but it is a huge surprise! star

The 9th order of the main territory is perfect!

There is another small step that can break through to the domain's main environment. How can it not be exciting? and

This is only the strength of his deity in the ordinary state. Once the body's blood is activated, it will be even stronger!

Before he was in the eighth order of the Lord's Star, the strength of the ancient konjac bloodline was the fourth order of the domain.

Once the magic 猿猿变,,,,,,,,,,,,,施施施施施施施施施施施施施施施施施施施

Now, the cultivation of the deity has once again broken through and reached the ninth order of the star master. Then, after the activation of the blood of the konjac, according to the usual practice, Ye Xuan's cultivation in the state of the three-headed six-armed Taikoo konjac should now reach the domain master. Order.

Once you enter the fifth change of the konjac, its peak strength will reach the first level of the border, and finally enter the boundary of the realm, you can feel the power of the main power in advance...

At this point, Ye Xuan's words are finished, and the press conference venue outside Tianhe is once again in a state of silence! versus

Ye Xuan sat together on the stage of the press conference, such as Xiang Hulu, Gonghua and Longshan Tang. Now, the expression on his face can only be described with shock and sorrow. suitable

Everything I heard was really amazing, so that they have a feeling of being unbelievable and acceptable!

And it's not just that we can't believe and accept, but more, we still don't understand it, we can't figure it out...

How big and tempting pie is this? Fight

The name of Xuan Huangzi, who is returning to the air, now almost represents the affiliation of the current world. The fame is even higher, and it has even surpassed the past six months to make a sound of the wind, the devil's first brother known as the enchanting first person. Mo Yufeng. Absolutely

It is the only common idol level of today's three major star planes.

What's more, the immortal dynasty has officially stated through the official, saying that the previous election of the Emperor Xuanzi to the death star field is actually a super-trial trial of the royal interior, and now it has been determined that the trial is successful. If

It's no accident, the place of the future treasure of the immortal dynasty has basically been nailed to the nails of the Emperor.

What is an identity, the three stars in the main plane, is simply the dream of countless people... Unfortunately, they can not think of it, even the other dynasty princes such as Long Xiang, now I am all envious of this hot Xuan prince identity. Hate it. you

It's good, it's wiped out cleanly, and it's like a disgusting look. Actually, I've shaken this bottom out. I've repeatedly stressed that it's like fearing that others don't believe it, and hardly put the hat of Xuan's emperor on you. General on the head.

Could it be that you can work hard with your own hands, and you can still make a broader world? Could it be...

As these thoughts flashed in my mind, from the immortal dynasty, the immortal ancestors of Longshan Tang's mind, suddenly flashed a glimmer of light, this moment, his eyes were suddenly shrinking, staring at Ye Xuan, his face The hustle and bustle is no longer concealing...he

Suddenly remembered one thing.

Previously, in the Devil's Star Field, Longshan Tang was captured by the five demon sorcerer Mo Zhenfeng. Although the latter did not embarrass him, he made a suggestion to form an alliance with the Terran and integrate strength. Cope with the upcoming chaos. Do not

However, this proposal was rejected by Longshan Tang on the spot, saying that there is no possibility. Rear

Then he asked a very weird discourse: the life of a dynasty immortal, compared with the identity of a real emperor in the dynasty, is light and heavy.

At the time, Longshan Tang felt inexplicable. After answering it, he was released by the other party.

Looking back now, that sentence seems to have something to do with what is happening today, otherwise how can the world be so smart?

Thinking of this, his sight swept to the army of thousands of warships in front of the press conference platform, and his body shape suddenly became a shock.

At this moment, he finally understood!

The Third Cosmic Terran has not erupted a large-scale star war in recent times. Within a year, the Arc de Triomphe in the death star field is unlikely to build so many star-ship battleships. The only possibility is that these warships are all from the first universe. Come back.

This point, others can not do, but the devil's emperor Mo Zhenfeng can, people have medicine Wang Shennong, quietly brought back...

In addition, Xuan Huangzi's 18,000 billion federal contribution points, in general, how can they earn? The existence of such a big hand is estimated to be the devil's emperor Mo Zhenfeng who has been tossing in the three major stars in the last six months. even

The Tianji people seem to have been driven away by him. What is the 1.8 billion federal contribution points? and also

That is to say, if this speculation is true, then this one is not only the two enchanting ones, the so-called five enchanting one of the devil's emperor Mo Yufeng, is not the real deity, and the identity of Xuan Huangzi, It's just another identity of someone. and

This person is just in front of you... Ye Xuan!

Seven enchanting one? difficult

I was afraid to say such a discourse at the beginning, saying that since the immortal dynasty did not intend to form an alliance, the Terran did not intend to form an alliance, then he replaced it by himself, bypassing the immortal dynasty and the Ten Heavenly Palace, directly integrating the power of the Terran...

Any kind of arrogant language, anyone who says it will be scorned by others. There is an exception. At most, it can only cause shock and embarrassment. However, it is the seven enchanting one! miss you

At this point, Longshan Tang's figure was once again stunned uncontrollably. He looked at Ye Xuan with a blank face and asked with a sigh of words: "You, you...you are actually..."

how? Finally recognized it? "leaf

Xuan smiled and did not deny it. However, she did not show her identity on the spot. Instead, she was like a dumb fan. She squinted at Longshan Tang, who was stunned by the face: "I don't owe the dynasty to this incident. At first, you said that the identity of a prince and the life of an immortal old man... but there is no comparison!"

"Sure enough, you!"

When I heard Ye Xuan's words, Longshan Tang's pupils contracted, and he completely confirmed that he's subconsciously turned to the front of the tens of thousands of warships, an extremely unpleasant feeling floating on his mind. To

Now, if he still thinks that this tens of thousands of scales of the Triumphant Corps is to be reviewed, then unless the brain is really in the water.

Since it is not, then...

Chapter 4096: The largest oolong in history

See Longshan Tang guessed Ye Xuan's other identities. The immortal elders from the Federal Senate of the Vatican were sighed by their hearts, and the look on their faces became somewhat weird.

He knew it from beginning to end. Not long ago, in the devil's star field of the first universe, he and the immortal ancestor of the second cosmic **** family, the three-jawed dragon, were shackled by Ye Xuan, and later they were conquered. At that time, Ye Xuan had already indicated his identity.

The matter is unknown to the outside world, and Ye Xuan's instructions are to let them return to the Federation of the Vulcan and the **** people, and do not expose this matter. Place

Therefore, this time, the United States was assigned to participate in the press conference of the Emperor Xuanzi. Although his feelings were weird, after meeting with Ye Xuan, there was no other communication between the two sides.

However, even he originally thought that Ye Xuan came back this time. He was planning to do something in the third universe as Xuan's emperor, but he did not expect that the press conference would be so ridiculous.

What's even worse is that even Longshan Tang has already guessed his true identity... What is the Lord doing? Completely break with the Terran, directly fight the immortal dynasty, seize the imperial power? If

If this is the case, it's just that the tens of thousands of warships in front of the sky are not enough! although

To say that his own means is so shocking that he can suppress the immortality, but here is not the magical star field of the first universe, but the base camp of the Terran, just a means of suppressing immortality, fearing that it is not enough.

The second generation of the ancestors of the devil's royal family could not easily come here because no matter whether it is the immortal dynasty or the ten-day palace, or the Federal Senate, there is a king who is immortal.

I really want to come, I am afraid I can't go back!

Even the ancestors of the second generation of the devil who are waiting for the immortal strength are still so, let alone oneself toss oneself?

I really want to tear my face and dry up on the spot. I am afraid that it will be dangerous for the younger one!

With these thoughts flashing in my mind, I was anxious when I was in the heart of my fox. Unfortunately, he couldn't even hear the words at the moment. There are two immortal mortals at the same level. The sound is absolutely discovered! One

Between the time, the atmosphere on the podium was instantly stunned and dignified. Four people, Ye Xuan did not care, and Longshan Tang was tempered by the temperament. He was trying to restrain himself, like a fox, his face was dignified, and he was anxious... only

There is an immortal grotesque from the Ten Heavenly Palace, and I will look at Ye Xuan in a moment. I will look at Longshan Tang in a moment, and I will not understand the dialogue between the two people. What to play dumb.

At this moment, many fans of the princes and the federal people in the distance in front of the emptiness, after a brief shock, have finally returned to the soul, and they are screaming again, and they will once again sound like tides..."

It seems that Xuan... No, Ye Xuan, he said all this is true! It's no wonder that his name has always been Ye Xuan, not Long Xuan, the identity of Xuan Huangzi, who has been imposed on him by the outsiders! ""

It's really awkward, the water in this matter is so deep, it's the biggest Oolong event ever! ""

However, the responsibility is not in Ye Xuan. At that time, his strength was really weak. In the face of almost the entire misunderstanding of the Terran, anyone will be afraid of it. Later, as he said, all of them are drifting and involuntarily! ""

The key is that he now dares to stand up and tell the truth. This is the real idol. The emperor has already fixed him as the next immortal emperor. In this case, he dares to say such words, not for the benefit. Deceived, how many people can do this? ""

These are not the most important. What is important is that whether he is alone in the first universe of the Devil's Star, or this time the domineering king returns, his record is unquestionable, even if it is not Xuan The emperor is also worthy of the identity of the national idol! ""

Yes, we admire the Emperor Xuanzi, precisely because of these impressive achievements, not because of the identity of Xuanhuang, as long as all the records are true, is it the relationship between the Emperor and the Emperor? "

"I can't think of it, a cloth, without any background and backing, actually achieved such a terrible record in just over a year, and the strength was from the original small monk at the bottom, soaring to the present. Star Lords level..."

"Yeah, this is too inspirational. How do I feel that after I know all these truths, I am not only disappointed, but more admired him? This is the real grassroots superstar, the first in the world..."...

...

Among them, there are even many acquaintances of Ye Xuan, such as Xuan Xuan Zi Zi and Duanmu Xiaocha, Zhao Qianru three women. Xuan

The emperor's king returned to this grand occasion. These three gimmicks are obviously impossible to miss. They have already come, and the three of them also know the true identity of Ye Xuan, but at the moment, the look on the face is like the fox, and it is full of helplessness. anxious. because

Even if they didn't expect it, this time, after Ye Xuan's return, he would throw such a blockbuster in a disagreement. Not only did he have a complete disclosure of his identity, he even seemed to be planning to immortalize the emperor. The entire Terran is in general. "

This guy, is it because the brain has been kicked by pigs recently? Infected! "

"No, this is not like his character. This guy has always been the kind of Lord who is dying to kill others. How come this time suddenly turn around and hang himself?"

Conspiracy, there must be conspiracy inside, otherwise, this kind of unrewarding thing, killing him will certainly not do, so toss, certainly have a plot..."

In these three gimmicks, from the whispers of each whisper, the suspicion of the face is gradually becoming rich, and on the stage of the press conference outside the atmosphere of the Tianhe Star, Ye Xuan also turned around and sat around. The elephant foxes and the Longshan Tang, Gonghua and other three immortal grotesque looked over. micro-

After a smile, he directly threw a super blockbuster: "Three, you can all be immortal, and the fighting power is amazing. Everything I just said is the first thing in this press conference!" "

"Next, Ye has a second thing to do, but it requires three people to help each other. Is it better to be three?"

As soon as I heard this, the three immortal geeks looked at each other face to face, and all the faces showed suspicion and vigilance, because according to their current understanding of Ye Xuan's urine, this so-called second thing is estimated to be a stone And it is not a good thing!

Slightly hesitated for a moment. In the end, all the three old guys nodded, but they didn't have a clear statement. In any case, listen to what the other person said and make a decision.

"That's good, I am here, I also invited an immortal, plus you three, that is, four immortal, just around the stars, each one..."

Xuan once again smiled slightly, but the voice of the discourse was subconsciously lowered: "If there is no problem, the three can get up now. Once you are in place, I will immediately order, let the battleship in front of the sky, At the same time, launch the naval guns on the Tianhe Star..."

Chapter 4097: Shoot in a word

"What? You..."

Xuan's words were just finished, and Longshan Tang roared. Even though his brain was bigger, he did not expect Ye Xuan to mention this request at the moment. Emperor

You don't want to give yourself the big treasure of the future. You have to say that since the dynasty is not aligned, it's a big deal to go around and join the third universe to integrate the power of the human race.

Now I have guessed his true identity. It is not good to turn his face on the spot. I dare to mention this request. I have to help him to win the Tianhe Star? I

by!

Tianhe Star is an administrative star of the dynasty! Isn't this the old man helping you rebel? see

If you are too big, you can be so big, it's unheard of! "

You'd better take the words back. Otherwise, once you get the vigilance of the zombie emperor, you can't get rid of it all the time. I can't afford the responsibility..."

On the wrath of Longshan Tang, Ye Xuan licked his mouth, still lowering his voice and faintly saying such a sentence. funeral

The corpse of the corpse?

A net is exhausted?

This time, not only Longshan Tang lived, but also like the fox and the palace and the body is steep.

The reaction of the two of them just did not have Longshan Tangda. After all, one is Ye Xuan's younger brother, and the other is the top ten of the Ten Heavenly Palace. Ye Xuan said that the Tianhe Star to attack is the administrative star of the immortal imperial family. The Lord is here. However, the reaction of Gonghua and the self-sufficiency, there is no need to take the lead! but

This does not mean that the shock of the two of them will be slightly less than that of Longshan Tang. In fact, after hearing the words of Ye Xuan, the two of them are basically the same as Longshan Tang, and it is almost considered that Ye Xuan is out of heart. It is. can

Even so, it is more shocking than it is now!

The third cosmic universe zombie is a disaster, it is no longer a secret. This matter, the two camps of the Terran and the Federation of the Faro are worried, even the second universe and the first universe are quite different. I am worried, because once the third universe of the Terran has fallen into the ocean of the zombies of the universe, then the Second Universe and the First Universe are also a matter of time. Of course

However, no matter how the two camps of the Terran and the Federation of Varo seek, there is no news about the whereabouts of the cosmic zombies. More

This is the case, the more the two camps and the top of the Federation of the Faroese are worried, and they have been sleeping hard recently. and

Now, from Ye Xuan's mouth, I heard the news about the whereabouts of the cosmic zombies. It seems that his actions are still hidden in the Tianhe Star behind him...

I have to say that this matter was too unexpected. Under the circumstance, it was the Longshan Tang, which was violently violently violently gone. It was completely shaken by the moment, and it was as big as the fox and the palace. Looking at Ye Xuan with a open mouth, a look that was completely thundered!

"What, don't you believe?"

Xuan shrugged his shoulders and said faintly: "If you don't believe me, I can prove it to you on the spot. The two guys with low-browed faces and grandchildren should be the star of Tianhe and the commander of the garrison? Take it for a while. They have a good knife..."

"However, once the shot is taken, the matter is exposed. I can tell you responsibly that the entire Tianhe Star has now become the nest of the cosmic zombies, the official staff inside, the military garrison, and even the residents of the Tianhe Star, all It is a cosmic zombie."

Some of these people are in the Tianhe Star, but at the moment, there is also a part of the atmosphere of the Tianhe Star. When I take a shot, you must immediately rush to the Tianhe Star in three directions, sit in the void, and order the lower armor. A part of the cosmic zombies who settled outside the atmosphere of the Tianhe Star. ""

Otherwise, once you let go of one, what kind of consequences will it be, then I don't have to say more..."

The sayings have already been finished, and they are clear and clear. There are no doubts. The three immortal monsters around them are completely sluggish. leaf

Xuan did not hesitate too much, because the opening of the conference to the present, the accident is likely to have caused the zombie emperor to expand the suspicion of the wind, and then dragged on, there will be unpredictable changes. Both

However, if you want to shoot sooner or later, then this matter should be sooner rather than later. Otherwise, you will lose the opportunity to make these cosmic zombies ready, and the chance of losing part of it will be even greater.

This kind of existence is too strange. Even if only one cosmic zombie escapes, if it crouches down, it will eventually grow into a huge cancer again. when

The imperial war star of the empire of the first day was cleaned up so cleanly that even Ye Xuan felt that there was nothing missing, but in the end, the facts proved that things were not as simple as he imagined, just a short year. Less time, the extension of the wind to lead the remaining cosmic zombies, has grown to the present level, simply speechless! Place

Therefore, this time, in any case, you must eliminate any possibility of resurgence, and a trace of omission can not be left! words

Just after finishing, Ye Xuan turned to the group of staff in the far side of the platform of the conference and looked at it. The line of sight was fixed on the star of Tianhe Star and the commander of the garrison. This

Although the two guys are the emperors of the Tianhe Star, on this occasion, they are not qualified to sit on the rostrum, even if they are on the side.

These two people, Ye Xuan still has a slight impression in his memory. It is the younger generation of the two families on the star of the small country that Tianhe Star belongs to. It was because of the return of Xuan Huangzi that they were respectively the top leaders of Tianhe. It is a pity that now it has become a zombie in the universe, and it has become a slave to the wind. Both

However, it is no longer a human being, and Ye Xuan naturally cannot be soft. Vision

At the moment of the intersection of the lines, Ye Xuan grinned. The two guys were obviously a little worried. They didn't understand Ye Xuan on the rostrum. Why did they suddenly look at them and laughed with a grin?

In the next moment, Ye Xuan turned his hand and took out a new type of anti-matter light gun from the immortal world. At this time, sitting on the side of him, Longshan Tang and other three immortal monsters, all toward The two guys looked over and looked serious and nervous. thing

In fact, the numerous gaze of the sky outside the atmosphere of the Tianhe Star, at this moment, all along the eyes of Ye Xuan, fell on the two guys. leaf

The reason why Xuan Xuan used anti-material light energy firearms instead of directly using them as a shot to avoid the scene that will happen next time, Longshan Tang and others will think that he used special special magical powers to cause it.

With a gun, there is no such concern!

"call out!"

"call out!"

In the eyes of the public, Ye Xuan pulled the trigger of the firearm in his hand. With the sound of two weak vacancies, the two black only anti-matter dead light energy of the diameter was rushed out from the mouth of the firearm of Ye Xuan. Instantly shot on the left chest of the two guys. Two

The appearance of the hole pierced, and then, it was a sudden shock that no one thought of...

Chapter 4098: Zombie

"Hey!"

"Hey..."

The speed of antimatter energy is too fast, and now it is condensed into light energy, which is like a bullet. It is impossible for the two guys to have time to react. Immediately in front of their left chest, two holes are worn.

Here is the heart, even if the starry sky is strong, the heart is pierced, and it is injured when it is not dead. But in fact it is not the case. After the two guys were shocked, they were unconscious, but they gave up two The voice of the screaming screams.

This kind of screaming is by no means human beings can make it, and the invisible figure in the ear is slightly trembled.

But the more scary scene followed.

With the sound of screaming, the bodies of these two guys instantly stretched out a large number of tentacles, which were stained with disgusting mucus, and only half a breath, their body size soared several times, enough for ten meters. High, the well-behaved limbs and torso, also became smashed, with suspicious pus out.

Suddenly attacked, these two genitals, which are not very high in evolution, have been provoked by nature and directly manifested the appearance of the body...

The facts have proved everything. They are not people at all, but cosmic zombies.

Even though I had already prepared myself, I suddenly saw such a scene. The three immortal monsters around Ye Xuan's body were still scared, and suddenly got up and screamed out...

"I rely!"

"Is it true?"

"The two guys are the star of Tianhe and the commander of the garrison. Even if they are cosmic zombies, don't you say..."

"When it's over, the big event, the whole Tianhe Star is actually a super corpse!"

Suddenly exclaimed, the three old guys subconsciously turned to look at the Tianhe Star behind them. The sudden change was so amazing that even Longshan Tang had no concern for Ye Xuan's dissatisfaction and anger. I thought, how to eradicate this tumor, and it must be riddled with roots, a cosmic zombie can not escape...

I have to say that this is indeed a very difficult thing to do. Even if Ye Xuan has already prepared, there may still be omissions. After all, except for the cosmic zombies in the atmosphere of the Tianhe Star, now in the void outside, There are many!

"Roar!"

"Hey..."

Almost as soon as the three old guys turned to look at the Tianhe Star behind them, there was a lot of roar and screaming sounds in the void around the city.

Looking around, a large number of people seem to be the official staff of the Tianhe Star, or the human beings of the Federal Garrison. At this moment, all the physical changes have taken place, from human beings to a cosmic zombie.

Some are large, have powerful strength, or are good at stimulating talents such as venom, and others are smaller, but they are very fast. At this moment, they are waving a series of disgusting tentacles. Just rushed to the nearby human beings who are dumbfounded!

Even in the vast array of starships arranged in the sky in front of the sky, there is a scream of anger and screaming.

Tianhe Star has been completely framed and turned into a zombie nest. In addition to the official staff and the federal garrison, there are a large number of ordinary people walking out of the atmosphere of the Tianhe Star, riding a ship of various types of warships, mixed with humans in the sea of the starship. Among them.

Everything is now revealed. This part of the surface looks like the corpse of the ordinary people of Tianhe, and finally reveals the sly face...

All of this is long-lived. In fact, there is only one breath before and after. The space of the universe outside the atmosphere of the Tianhe Star is far and near, and it has all fallen into chaos.

Until then, the distant fans of the emperor's press conference, the federal people and the star-studded powerhouses finally recovered from the sluggishness caused by the great shock, and they were all mad. Shocked, his eyes turned to look around.

When they saw some of the Tianhexing people, official staff, etc. that they were familiar with, they all turned into a disgusting monster. They were all scared, and then they all rang through the void. Exclamations and sharp screams quickly...

"Zombie! Cosmic zombies! My God, is this a dream? How come suddenly it is not a human..."

"Look, Wang Laotou has become a human-shaped eight-clawed squat with pus. What happened? The murder... These days, I have been tired of being with him. I have eaten together. It's a meal, disgusting!"

"I am, what have you eaten with the **** monster? Look at the girl over there, the meat on the cheeks is rotten, as if there are locusts crawling, Laozi just had a good time with her last night. ...this is nothing to be so sad about being shit!"

"Escape! Not afraid of death, the cultivation is high, and the old man has no power, I am an ordinary person..."

.....

In the blink of an eye, a place of the world is completely transformed into a place where zombies are like a tidal wave. The exclamations are all in the air, and the real tragic war is also erupting.

For the harm of the zombies of the universe, all the people of the entire human race know that at this moment, the cosmic zombies like the tides suddenly appear. Except for the ordinary people who are not monks who scream and flee, the strong stars do not need to mobilize and call. The first time I started the battle, I was smashing around...

"Booming!"

"boom!"

Three breaths are still not available, and some of the guns have already fired, aiming at the larger cosmic zombies in the void, and the energy beam of the guns is blasting away.

In the void, the scene of killing is more visible everywhere. A large number of star-studded strongmen have all sacrificed their own magic weapons, while urging the body's strength to form a defensive mask, free from the erosion of zombie venom, while fully encircling and killing .

"What are the three old guys who are not reliable, what are you still sending here? Just said good, are you forgetting all your eyes?"

At this time, Ye Xuan was also screaming at the elephant scorpion, Longshan Tang and Gonghua, and the three immortal grotesque. It was only when they proved it, they immediately got their hands and went

to Tianhe Three directions outside the atmosphere are guarded to prevent those more evolved zombies from taking the opportunity to escape.

But nowadays, the mosquito-killing ghosts who are in charge of the other direction have already plucked from the flagship fortress of the triumphant ring and kept in the cosmic void on the north side of the Tianhe Star. They are ready to shoot at any time, but they are still in their place. Looking at the scene of the unannounced press conference with a dull face, as if it was a Thunder, there was no movement at all!

Fortunately, Ye Xuan's roar, finally let the three old guys return to the soul. As the face turned red, the three of them immediately turned into a mans, the body's power surged, and the whole speed started. Going to the other three voids outside the atmosphere of the Tianhe Star, calming up and alerting...

Chapter 4099: Zombies want to break through

Tianhe Star, the military base deep in the Tianhe Sea!

"There is a conspiracy, damn, damn..."

"Roar!"

In the scene outside the atmosphere of the Tianhe Star, the zombie emperor's extension of the wind has all seen a real thing, the first time the matter is revealed, he will know.

In fact, the two black anti-material light energy that Ye Xuan raised and shot out was actually exactly the same as the feeling of shooting at him.

At that time, his vision switched to the star and the garrison commander of Tianhe, and he was peering through the eyes of the two guys.

Therefore, when Ye Xuan turned around and looked around, and grinned in a strange way, the extension of the wind was keenly aware of the bad, but everything happened too quickly, he did not have time to react. The two black antimatters can be spurred.

Everything has been destined for a moment, and it is impossible to change and recover at all...

It was also at that moment that I realized that the Tianhe Star had gone, and that the place could no longer be preserved. It was almost subconsciously reaching the order, the unique kind of corpse between the zombie and all the cosmic zombies and slaves. Contact with the meditation, command all the corpses to immediately switch to the zombie form.

Including all the zombie soldiers and zombie warfare, and the zombie commander... all the same!

It is precisely because of this, in the next short moment, the corpses who were originally human forms in the void outside the atmosphere of the Tianhe Star will be as good as the appointments, all of which will show up the zombie form of the scorpion...

In fact, including the scene inside the Tianhe Star, the land, the sea, all the corpses and cosmic zombies, at this moment, all showed the original look!

Although the instructions are the same, the treatment of the corpse slaves and the real cosmic zombies is obviously different. Even the real cosmic zombies, because of the different levels of strength and evolution, are manifested after the zombie form is manifested. Actions are also different.

This zombie army, which has been set aside by the wind, has already had a very strict grade.

At the bottom is the corpse slave. Strictly speaking, it is the slave, the largest number, and even can not be regarded as the real cosmic zombies. The door to the evolution of this particular ethnic group has not really opened!

The large number of people in the Tianhe Star who seem to be no different from humans, the official staff and the federal garrison, are basically at this level.

At the moment, they all show up the form of zombies. The extension of the wind is just a cannon fodder. The effect is just to disturb the water and cause chaos, so that the zombies and the zombies that he is going to take away will lead the way to create more escape opportunities. .

Above the corpse slave, it is a zombie soldier!

The zombie soldiers are already real cosmic zombies. The door to the evolution of life of this particular group has already been opened, but it has only just begun. The degree of evolution has not been deep, and the strength is all around the black hole.

This part of the zombie soldiers, basically all of them have just been developed and transformed in recent months. Inside the Tianhe Star, there are millions!

In fact, in addition to the corpse slaves, the millions of zombie soldiers, the extension of the wind is also used as cannon fodder, used to cover the real confidant escape, after all, too many, it is difficult to take away!

Above the zombie soldiers, it is a zombie warrior. This part is less than 10,000. The strength has been surpassed in the Qiankun environment. It is the team that followed him before he took the wind and captured the Tianhe Star.

It can be said that he is the backbone of this zombie army, the most important, he must take away anyway, how much can escape!

The zombie war will go up again, it is the zombie commander, but the leader of his original class, only one hundred, now all have the strength of the domain's main territory, and many of them have reached the boundary. The main territory can be described as a general who has set aside the wind.

The above is the hierarchical structure and the existing strength of the entire zombie army. As the corpse of the corpse, it has reached the immortal level, although it has only recently broken through, but this The speed is definitely scary enough.

Ye Xuan's cultivation speed is already fast enough, but in the normal state, the deity is only the ninth stage of the star, even if it activates the blood of the konjac, and transforms the konjac into the fifth change, showing the repair For the strength, there is only one first-order leader.

The extension of the wind has entered the immortality. In the short period of less than a year, the distance between the two has been reached, and it has reached two giants. It is simply unbelievable.

In fact, Ye Xuan is precisely because of this, so this time will not pay the price, in any case, the extension will be smashed.

This guy is terrible. Since it is a cosmic zombie and a body of the demon, the road to evolution is as open as a channel, and the speed is extremely fast. Once he grows up, he can no longer suppress it.

Of course, although the current extension of the wind has entered the immortal, but he has only one handle in the hands of the devil, but Ye Xuan has a variety of ancient treasures and the strong blood of the magical power, the real comprehensive combat, not only in no way He is weak and even stronger.

After all, in recent days, the immortal monsters that have fallen on Ye Xuan's hands are more than one!

At the moment, the Tianhe Star's old nest was discovered. Although the extension of the wind was fierce, it quickly calmed down. It just developed into a large-scale corpse and zombie army. He did not intend to take it away. He would use it as cannon fodder. cover.

However, the zombie warfare that is close to Wan Qiankun and the zombies of the 100-dollar territory will be taken away.

Among them, there are about 3,000 zombie warfare and 30 or so zombies, but now they are not in the Tianhe Star, but in the void in the distant Tianhe Star. Because these days, the Star River is too busy, so it leads to After the last hunt, I can't return!

But it is also the core strength of the 30% that stays outside the encirclement, which makes the extension of the wind in the face of the four immortal grotesque, still have the confidence to escape!

"Roar!"

"Roar!"

"Roar....."

The vast and innocent Tianhe Sea, in this moment, is like a boiled boiling water, and it has set off a huge wave of horror, and the roaring roar of the fascinating spirits is heard from the waves.

A horrible cosmic zombie army rushed out of the military base deep in the Tianhe Sea.

Millions of zombies and soldiers, repaired to strength in the black hole, rushed out of the sea, they immediately spread and turned into a small team, began to spoil, create confusion.

And the seven thousand or so zombie warfare and the seventy or so zombies command, all gathered together, followed by the extension of the wind behind, turned into a horrible force, like the most elite army, ready to break through!

A real battle of destiny is about to begin, and the storm is coming...

Chapter 4100: Blood battle starry sky

Seven thousand zombie warfare warriors, each head, repaired to strength is above the Qiankun territory.

Seventy or so zombie leaders, each with the strength of the domain above the main territory.

This is 70% of the core strength of the company!

Nowadays, these 70% of the core strengths are all behind the extension of the wind, rushing out of the Tianhe Sea, a violent temperament, gathered together, making the vast Tianhe sea surface, blowing an invisible hurricane...

The extension of the wind has not manifested the zombie form. In fact, he is now the body of the demon. Although it has the characteristics of zombies, it has already been different from the real cosmic zombies. It is a process in the evolution of this species. special case.

At this moment, he showed his own original appearance. Since it has already been exposed, there is no need to hide his head and tail. This time, let the former Tianshi Empire expand the name of the family and the name of the wind. Star master plane!

As for the 70% of the core genus clustered around his figure, they are different at the moment. On the way to the evolution of the zombie species, although they have reached a very long distance, the warfare is already a powerful force. Then it is the domain owner.

But after all, it has not reached the critical point of some kind of variation.

Therefore, these zombie warfare and zombie commanders, despite their strength, and because they are taking different paths of evolution, each has its own unique ability and secret technique. It can be said that it is still a cosmic zombie!

Its body... is so strong, it is still embarrassing and disgusting!

More than 7,000 zombie warfare and commanders who have been repaired above the Qiankun area have all shown their bodies at the moment. Some of them are not much different from ordinary human beings, but they can still be seen at a glance. people.

But more, it is going to a different extreme evolutionary path. The body is skyrocketing. It is no longer human. The biggest is even like a mountain. The whole body is covered with various non-human parts, and some are long. Out of the limbs and organs of all kinds of fierce beasts, but the head is still human, but there are abscesses and tentacles everywhere...

More than 7,000 heads, spread out in the Tianhe Sea, and sprinkled a large piece, such a scene is too horrible, even if it is a strong star, the courage is a little smaller, in the face of such a scene, I am afraid to scare the legs and trembling!

"Hey!"

"This war is about life and death, children, give this emperor... kill!"

Looking up at the sound of a fierce scream, the extension of the wind and the end of the wind, has already sacrificed the handle, the horrible, magical sky, but the black blade is still full of gaps, not repairing the complete devil blade .

The figure suddenly rises and rushes toward the atmosphere of the Tianhe Star at the top of the sky.

Behind him, more than 7,000 zombie warriors and generals shouted in response to the general response, making different voices, like a group of devil dances, followed by, and also rushed to the sky high-altitude...

.....

Tianhe Star outside the atmosphere!

This whole piece of Tianhe, a vast expanse of land, has been completely confusing in a short period of time.

The number of corpses that are stranded outside the atmosphere of the Tianhe Star is quite large, and it seems to be some federal garrisons, official staff and federal citizens.

Nowadays, these corpse slaves all show up the zombie form of the scorpion, and they are rampant everywhere. The imaginary air is everywhere in the battlefield, and the smoke is everywhere.

At this time, with the wretched mosquitoes and elephants, such as the foxes, the dragons and the palaces, and the four immortal singers, the four sides of the sky outside the Tianhe star, Ye Xuan was still half-hanging in the raft. The eyes of the eyes finally fell back.

Regardless of the height of the extension of the wind, the four immortal grotesque guards the Tianhexing Quartet, this time, he absolutely can not escape.

In fact, if the life-like species of the non-cosmic zombies is too special, even if only a small bottom zombie escapes, in time, it will eventually grow into a huge cancer, and the spread of zombie toxins is

too strange, and it is impossible to prevent , Ye Xuan this time to deal with the extension of the wind, there is no need to make such a big battle!

But now it seems that everything is worthwhile, as long as this time can be ruined by the zombie army of the extension of the wind, at least, the heart of the big problem is also removed one, no white toss!

"boom!"

"Booming..."

Under the guidance of Ye Xuan, the commander of the Triumph Army, Naples, issued a command of bombardment at this moment.

The emptiness of the sky is full of horror, and thousands of warships fire at the same time, aiming at the atmosphere of the Tianhe Star. The scene is too gorgeous, and a whole starry sky is illuminated!

"Card..."

With this wave of cannon-like energy light pillars swept away, the Tianhe Xingchen defensive array, which was just opened under the command of the extension of the wind, was smashed without any suspense in the blink of an eye. The chaotic energy is stirring around, and the atmosphere of the Tianhe Star is disturbed like a wave of hurricane in the sea of anger. It is spectacular!

"Hey!"

"Hey..."

As the Tianhe Xingchen's defensive bursts suddenly shattered, the trepidation of the horrible corpses and the corpse of whistling sounds came out instantly.

Then, the zombie figures, all of which were disgusting, but all disgusting, passed through the turbulent atmosphere of the Tianhe Star and rushed to the universe beyond the star.

This is the first wave of cannon fodder, which acts like a smoke bomb. It is placed on the starry battlefield to disturb the situation. More than one million zombie soldiers are all repaired above the black hole. At this moment, the body is revealed, and each is fierce. Haotian, the breath gathers together and attracts people's eyes.

Then, as more than a million zombies rushed out of the atmosphere of the Tianhe, a large number of corpses, at least a hundred million counts, also rushed from the Tianhe star to the universe void outside the atmosphere.

The two front and rear legs of the zombie corps rushed out of the atmosphere, and they quickly mixed together, and as if they were put into the water, they quickly spread toward the surrounding...

These low-level corpses and corpses are just like locusts. Not only are there too many, but the speed is very fast. After they rushed out of the Tianhe, they spread out. In the face of this situation, the volley of the tens of thousands of warships has not The meaning.

The second round of volley did not start immediately. The triumph of the triumphant regiment of Naples was extremely rich in the experience of the Star Wars. Even if the command of war was changed, the tens of thousands of warships left half of the war and retreated to the rear, forming a large net-like encirclement to prevent small stocks. The zombie team suddenly burst into a sudden breakout.

The other half of the five million warships were turned into zero, and they were organized into ten small combat teams in an orderly manner. They were flexible and responsible for each direction and launched a regional free-bomb...

In the stars, the **** battles are set, and the scene is not terrible.

But in the face of this scene, no matter whether it is a mosquito-killing old ghost, a phoenix phoenix, a dragon mountain Tang and a palace, and four immortal grotesques, or Ye Xuan, they are not moved. They even have no shots. With a cold and sturdy man, the gods are fully released, and they are rushed to the extreme, closely locking the wind and the grass in the various places of the Tianhe Star...
