Chapter 41: leave

"Don't you still be afraid of you?"

Ye Xuan's light flashed, and now he is not the waste.

But at this time, suddenly there was a violent drink in the sky.

"stop!"

Liu Tong led to ignore it, and went straight to Ye Xuan. If there is a chance, he will definitely kill Ye Xuan.

The person who shouted saw Liu Tong's unstoppable, and immediately rushed out of Ye's family. When Liu Tong's collar rushed to Ye Xuan, he was already following.

"Snapped!"

The person who shouted a slap in the shoulder of Liu Tong, and then pulled it with force. Liu Tong led the whole person and was directly sent to Fei.

Everyone's eyes fell on Liu Tongling, watching him fall to the ground, and then his eyes gathered on the suddenly appearing figure.

"Lin Lin?"

Ye Xuan and others instantly recognized it.

Although Lianyun City is a small town, but Lin family has a master who is rarely even in the big city, Lin Xiao!

After Lin Xiao received the guidance of Yu Jin, his strength leaps and bounds. In just a few days, he broke through the seventh peak of Wudao and reached the eighth peak of Wudao, becoming the first master of Lianyuncheng.

"who is it?"

Liu Tongling quickly climbed up from the ground and did not fly the dirt on his body.

He felt that the person who had thrown him away was not malicious to him, but he could suddenly come to him without being inducted by him, at least the martial arts eighth heavy weapon.

"Old man, Lin Xiao!" Lin Xiao took a fist to Liu Tong and continued: "Liu Tongling, you first came to see it, just in the Ye family, it seems that something is wrong?"

Although Lin Xiao is not a Ye family, Lin Xiao can't sit idly by the relationship between Ye Jia and Lin Jia.

"Lin Xiao, why haven't I heard of this name?" Liu Tong led his doubts. He felt that the white-haired old man was not very simple. However, behind him was Wanjincheng, who was afraid of a small rural town. Warrior?

At the moment, Liu Tongling is yelling: "You old guy, dare to do it to me?"

Lin Xiao snorted and stepped forward. He said: "I remember that only one city owner in Wanjin City is the ninth heavy weapon of Wudao?"

Liu Tong did not know why Lin Xiao would bring the topic to the owner of Wanjincheng. He said: "What about it?"

"Then look, what is my realm?"

Suddenly, the spiritual power in Lin Xiao's body was spewing out, and the people around him felt an invisible sense of oppression.

"The eighth martial arts ... no, this is not the eighth heavy martial arts, but the ninth heavy martial arts!" Liu Tong led his eyes wide open, a look that he could not believe.

A small town with no VIII martial arts has even appeared directly in the martial arts ninth heavy weapon. This is too fake.

"Impossible, you are not a person in the city of Yuncheng." Liu Tongling exclaimed.

"I am not a person in Yuncheng, this is not your business, but if you want to continue to scatter wild, you have to pass me!" Lin Xiao eyes a sigh, slowly opening.

"So, you must be right with my Wanjincheng?" Liu Tong asked.

Lin Xiao didn't answer, just cold and cold: "Give you ten seconds to disappear, otherwise you will be a pity!"

He is four levels higher than Liu Tongling. Even if the ten Liu commanders are here, I am afraid that he is not his opponent.

"Okay, very good, even Yuncheng, let's walk!" Liu Tongling said with anger, that is, he took a look at Ye Xuan and seemed to say: "You kid waiting for me, don't fall into my hand. Inside, or kill you!"

Then he left the Ye family with six guards.

The martial art of the ninth heavy martial arts, I am afraid that the martial arts will be able to return to Wanjincheng.

After Liu Tong led seven people to leave, Ye Zhang and other talents rushed to meet.

"Congratulations to Lin's father to break through!"

"Haha, thank you, but unfortunately, the energy that the predecessor left in my body was consumed by me a lot." Lin Xiao said, he whispered his beard.

Under this circumstance, all the people understand that the reason why Lin Xiao broke through so quickly was that Tian Yuanzong's law of protection left some energy in his body.

Still waiting for everyone to open, Lin Xiao said again: "Unfortunately, the predecessor said that he does not want to break the balance of this area, so he can only help me so much. But don't worry, even Yuncheng has me, even if it is Wanjincheng also has to measure its own weight."

"Ha ha, there are fathers in the city of Yuncheng, I think I will soon be able to squeeze into the ranks of the big city!" Ye Zhang and others also showed a smile.

At this time, Lin Xiao suddenly turned his head and said: "Ye Xuan, when are you going to split Yunzong?"

"Maybe leave today." Ye Xuan replied.

In fact, he can go to the cracked Yunzong later, but in the past few months, there is actually no problem. You must know that his current realm has far exceeded that of the time. This qualification is definitely a hot commodity no matter where it goes. .

"That line, when you enter the cracked Yunzong, as long as you can be seen by the elders, then your strength can be improved quickly. And even Yuncheng now has me sitting, you can go with confidence." Lin Xiao nodded .

Then, he was meeting with Ye Zhang and others, and Ye Xuan was also returning to his house and began to pack things up.

As a maid of Ye Xuan, Liu Er began to help him pack things. Now that Ye Xuan has swallowed up space, it is very convenient to go out and go out.

"Young master, you have to come back to see more in the future." At the time of separation, Liu Er also said with red eyes.

She is just an ordinary person, not a warrior, so she can't follow the cracked cloud.

"Well, I won't be long before I will be back. Maybe I can come back for the New Year." Ye Xuan nodded and stroked Liu's hair.

In Ye Family, a ten-year-old child can practice martial arts, and Liu Er has already reached the age where he can practice martial arts, but her interest is not great.

Ye Xuan originally wanted to get some medicinal herbs to help Liu Er to upgrade, so although the cultivation is not good, but the good 㒯 also has a self-protection ability is not?

However, Ye Xuan's current funds are not quite enough, so he put this in advance, and when he has money in the future, he will directly make Liu Er a super genius. You know, there are a lot of precious remedies in the phagocytic system that you can't buy outside.

In the afternoon, Ye Xuan and Xue Qingqing left Lianyuncheng and rushed toward the cracked Yunzong.

"Ye Xuan, I can only be an ordinary disciple when I enter this realm. You can be accepted as a disciple by the elders. You must cover me after entering the Yunyun."

On the way, Xue Qingqing could not help but ask.

"No problem, maybe I was still accepted as a disciple by the lord..."

Having said that, Ye Xuan's eyes are also bright.
