

## Super D. S 410

Chapter 410: Return to the abyss

"Where, scared me, but the two blood corpses and the golden corpse king did not catch up. Why?"

Ye Xuan gasped, very puzzled.

Even so, he didn't think much about it. It was very good to survive.

He looked around and found himself rushing out of a cave, and here it was a purple fog.

Seeing it, Ye Xuan couldn't help it.

"Here, is it difficult to be a deep abyss?"

He muttered.

The abyss of the Nether is the place where he broke in to avoid the old and the old, but now he has come in again.

"The abyss of the Nether, but the red wood led a dangerous place, no one dared to come in, it is said that even the Redwood Lord did not dare..."

Ye Xuan has no choice.

The arrogant redwood lord did not dare to come in. The boy who is in a dilemma is probably a fierce one.

"It is impossible to turn back. It seems that we can only find a way out here."

Ye Xuan glanced behind him and quickly plunged into the purple mist.

At this time, he is like walking a wooden bridge. One end of the wooden bridge is a tiger and one end is a lion.

dilemma.

The abyss of the Nether, it is said that there are some poisons in the life of the dragon, coupled with the cause of the purple fog, so it became the most dangerous place in the red wood collar.

However, Ye Xuan has the blood of the sacred tree of life. He is not afraid of poisoning him. He is afraid of those strong beasts, such as the second-order flying scorpion.

After Ye Xuan entered the purple fog, he also took out the compass.

He remembered that when he was being chased by Yan Lao, he went all the way north into the abyss. So this time, he needs to go south, maybe he can return to that place that day.

He was holding a sword and walking cautiously.

At this time, he is the master of the power of one hundred and fifteen dragons. If he uses the beastmaster violent, he can reach one hundred and fifty dragons.

However, if you encounter some powerful sacred beasts and sneak attacks when he reacts, it will be a tragedy.

Therefore, he is extremely careful.

He walked for a while, and suddenly a sound fell into his ear, and his light flashed and suddenly turned around.

"Oh!"

One of the things in the dragon's sword, fell to the ground.

Ye Xuan glanced at it and found it to be a green snake with a thin finger. At this time, the snake was split into two halves, but the body was still twisting.

At the moment, Ye Xuan is again making up a sword and smashing his head.

The green snake died in an instant, but its nerves also gave it the ability to bite, and the snake tail was constantly twisting.

Ye Xuan took the body into the swallowing space.

He estimated that this green snake is about a hundred and fifteen dragons, like him.

"If this is all about this level..."

Ye Xuan shook his head helplessly.

Now, he has only one chance to be a violent beastmaster, and he must use it cautiously.

He went on.

.....

At this time, it was also two hours since Ye Xuan entered the abyss of the Nether.

In this half hour, he encountered many holy animals, all of which were poisonous.

The strongest one is a slaying poison bee of one hundred and thirty dragons. Ye Xuan did not respond, accidentally stabbed and suffered a full pain for an hour.

The pain he suffered during this hour was more than that of the three days. Fortunately, he had the blood of the sacred tree of life, otherwise he would continue to hurt until the nerve collapsed.

There are quite a few sacred beasts in this abyss, and Ye Xuan's body is also collected. He saves some corpses, used to use the Beastmaster violent, and then, is to swallow the excess body.

These corpses, from the power of the hundred and fifteen dragons, to the strength of the one hundred and seventeen dragons, the self-protection ability has also improved.

At the same time, the chances of making him break through to the dilemma increased by 2% to 27%.

This chance is less than one third.

This breakthrough probability is actually his biggest card.

If the King of the Golden King catches up, and he uses the Beastmaster violent, he will try to break through.

Although there is only a quarter chance, it can only be done.

Fortunately, from the breakthrough of the power to the dilemma, you can take Tiancaibao to improve the success rate.

Ye Xuan remembers these treasures in his heart. At this time, he is thinking that one of the secluded grasses that can increase the probability of a 10% breakthrough will be in this abyss.

If you get it, then his chance of breakthrough can reach 37 percent.

"The secluded grass, the abyss, the hope is here..."

Ye Xuan swallowed a swallow, and he was risking his life to find the nymph.

If you can find it is the best, if you can't find it, it's okay, anyway, his primary purpose is to leave the abyss.

He continued to go south, and he stopped suddenly after half an hour. He didn't dare to speak out because there seemed to be a huge thing on his head.

"hiss!"

A squeak fell into Ye Xuan's ear, the voice he had heard.

Flying scorpion, comparable to the second-order flying scorpion!

"I can't see me, I can't see me, I can't see me..."

Ye Xuan stood in the same place and meditated in his heart.

The second-order flying scorpion is at least two hundred dragons. At the same time, it is also the master of this secluded abyss.

If you noticed this thing, Ye Xuan has ten lives that are not enough.

After feeling the departure of Feitian, Ye Xuan was relieved to breathe a sigh of relief. If there is something to attack him, I am afraid it will be finished.

This happened and his pace was accelerated.

However, just in the second minute after Fei Tianyu passed, Ye Xuan suddenly felt that something was wrong.

He felt that he seemed to have passed by here.

At this time, the blood of the master in his body began to work. He reacted. Here, there should be a mystery.

"What is the situation, how can there be a lost place in the ghost place of the Netherland?"

Ye Xuan was very surprised to say.

The abyss of the Nether, the first dangerous land of the Redwoods, even the Redwood Lord did not dare to come in.

But this dangerous place, there is actually a lost battle, what is this?

"Do you have any treasures here?"

Ye Xuan heart guessed.

He is very curious, but he is very scared.

Good things are often accompanied by danger. Many natural treasures are surrounded by powerful sacred beasts. So he still dismissed the idea, go out and talk about it.

Then, he took out a previously created grounder and inserted it into the ground.

However, this puzzle is also very powerful, he came back in less than a minute.

He is very helpless, but he is also very calm, because there is usually no sacred beast in the fascination.

Regrettably, the blood of his masters is only advanced.
