Chapter 4101: Ruthless strangulation

"boom!"

"Booming"

In the air, intertwined with the energy light column of a ship gun, the roar of the roaring sounds, such a scene continues to the end of the line of sight, the entire Tianhe star field is included, the battle is too fierce. whole

A battlefield, divided into two areas, the periphery and inner circumference! outer

Wai, it was this time before and after the evacuation to the distant sky, watching the large number of starships of this emperor's conference, as well as the star-studded strongmen who rushed out of the starship, and those who had previously stayed outside the atmosphere of the Tianhe Star fighting.

It is a one-sided, absolutely ruthless strangle!

Although the number of these corpse slaves is large, the cultivation is generally not high. Although the ordinary federal people are not opponents, there are also strong presences among the fans and monks who came to watch the prince's press conference. in

Under their leadership, coupled with a large number of guns and blasting, the slaves in this peripheral area were almost murdered.

But the situation is still grim, no one dares to take it lightly. because

For the cosmos of the universe, unlike any other creature, killing will kill. he

Whether it is in the process of fighting or after being killed, it is a headache that is extremely headache. Once it is contaminated with a little bit of zombie toxin, I am afraid that it will be directly in the cup. thing

In fact, this situation is simply difficult to avoid.

Although many of the star-studded powerhouses who encircle these corpse slaves basically have protective means, they can also use the magic weapon to form a light curtain, or directly put on a tightly sealed armor. but

Accidents in battle are inevitable, and even some of the corpses are directly exploding, and the corpses with toxins are scattered...

During the battle, from time to time, some strong stars were infected by corpse poisons, some were caught off guard, and they missed the best time in hesitation. They were quickly corpse, originally killed to kill the slaves, and finally became the cosmic zombies. One of the members, turned and flew forward with a comrade who was fighting side by side.

However, some infected people, in desperation, blew themselves in the first time, so as not to become a cosmic zombie, it is too horrified, more terrible than death.

Some infected people are also directly smothered by their partners, and they are divided into corpses. This is not an infighting, but helplessness. All the shots are full of tears and bloodshot, and the grief of the heart finally turns into revenge. The power, roaring roaring and rushing down to a slave. can

It is said that if the non-cosmic zombie toxin is too horrible and difficult to defend, these corpses in the peripheral area will not be used for a long time. but

Now, the battle has progressed very slowly. However, it is comforting that at least all the starships in this peripheral area have formed a complete encirclement. So far, no corpse has escaped and is completely annihilated. It's just a matter of time, and how much it costs! that

The millions of triumphant corps brought by the empire, the five million different warships that formed the siege of the Tianhe star, are the separation lines of the two battlefields. in

Inside the encirclement of the five-million warships, it is the inner battlefield of the ruthless strangled in the Tianhe domain!

The two sides of the fierce battle, one of the other five million warships of the Triumph, and some of the strongest from the Triumph, the other, the hundreds of millions of slaves who had just rushed out of the Tianhe Star, and the millions Black hole zombie soldiers! This

The war in a region is also one-sided, even more impenetrable and cruel than the periphery.

After all, the periphery is not a disciplined military-style warship. Although the starships are too numerous and complex, there is no uniform dispatch. but

The five million warships that were launched in Neiwei were all military warships of the Triumph Army. They were skilled in each other, and various Star Warfare tactics were unfolding.

Although there are more corpses in this area, and there are still millions of black caves and zombies, but in the face of 5 million well-trained, tacit understanding, commanded access to the standard army, the tragic death and injury is even more Obviously, still in the current situation, I am afraid that it will not be used for a long time, it will be completely annihilated.

Such a scene is obviously not what the strikers want to see. These corpses and zombies are, though in their eyes, dead. They are not intended to be taken away, but even if they are turned into dead objects, they cannot be so Worthy of being killed, at least, besides cannon fodder, the role of messing up the war and creating chaos must still be there.

It is a pity that the situation is stronger than the people. He is unwilling to turn around, but he is unable to reverse what. Today, the hundreds of millions of corpses and millions of black caves have been strangled by nearly a quarter of the zombies. If they do not shoot, they will be completely wasted.

"Roar!"

With a thick unwillingness, the extension of the wind sent a terrifying roar of roaring, and under the big hand, the figure instantly rushed out of the atmosphere of the Tianhe Star. Behind him, more than 7,000 zombie warriors and the leader were closely followed. The last breakthrough... finally arrived! also

It is at this moment that the mosquitoes, the old ghosts, the elephant foxes, the Longshan Tang, the Gonghua and the four immortal grotesques that have never been shot, have been shot at the same time!

"Is the animal, finally dare to show up?"

Sending cannon to disturb the battle, the core forces are waiting for the opportunity, and it is really a good calculation, but unfortunately, this road is nowhere! ""

No need to talk nonsense, these evil things, killing is! "...

...

Four immortal grotesque, each with their own voice, suddenly shot.

Their physiques are still in the distant corners of the four different directions of the Tianhe Star. They are still moving, but even if they are separated by a distant distance, they can still keep the situation. The gods have already locked in the first time and the seven behind them. More than a thousand zombies will be commanded and commanded.

"boom!"

"Booming..." Giant

The big roar sounded, and four different forms of energy attack came from a distance, one palm, one claw, one punch, one seal! although

However, the form is different, but all of them are huge, and the speed is almost at the extreme, and the brain is covered by the wind and others.

"Hey!"

"Distribute, turn into seven shares, break out of the split!"

This is the means of immortal grotesque. The power is too strong, even if all the zombie warfare and commandings that have broken through the wind and the wind, all of them have reached the domain, and there are even more than 70 elites. Blame, but in the face of this level of bombardment, it is still not enough to see. whole

The possibility of all the teams escaping is almost non-existent. The extension of the wind can only endure the pain and break the wrist. The more than 7,000 zombies and the commanders behind them will be turned into seven, how much can be taken... how much. With

With his instructions issued, in the blink of an eye, the vast zombie army behind him quickly split into seven shares, each with seven thousand battles and ten commanders, roaring and rushing to seven different The direction. "

boom! "also

It was at this time that the energy palmprint from the Gonghua and the hands slammed down, just in the direction of the zombie warfare in a certain direction, the squad blasted open, the majestic power spread and fluttered, The void is reflected in the dark green color, and the zombie warfare in the thousands of domain territory has fallen by nearly half...

Chapter 4102: Another zombie army

"boom!""

boom! ”

"Boom..."

A scene like this, appearing one after another! Virtual

In the air, the huge roar of the trepidation of the gods continued to ring and echoed. on

In the palace and the blasting of the energy, the palm prints instantly killed half of the zombies and the squad's next moment, and the other three immortal old monsters blew out the energy giants and paw prints, all of which fell.

The other six zombie warfare teams suffered three major disasters. A large number of zombie warfare will be blown up with the body, and even a slightly larger piece of meat is hard to see. It is almost smashed into a **** fog in the void. The flowers are green and green, which makes people feel bad.

In particular, the team in the boxing of the mosquitoes and the old ghosts was almost completely annihilated. The old guy was the repair of the late stage of immortality, and the strength was stronger than that of the elephant fox, Gonghua and Longshan Tang. Cut off, domineering.

At this moment, this fist punched out, but it was directly overwhelmed by a whole group of thousands of zombie warfare squadrons. Even the three immortal geeks like the foxes were all looking at each other, and their faces were full of taboos. especially

It is the immortal old dragon mountain Tang from the immortal dynasty, and thinks that this old monster whose strength is still above him is actually invited by Ye Xuan who has a grudge with him. He immediately let him whole. It's not good, the dough is twitching!

With just one blow, the zombie warriors who split into seven squads and separated from each other, lost nearly a quarter of their eyes, and more than a thousand gangsters were murdered. This scene makes the extensions anger and anger. But there is no way.

When he was angry, he raised his head and said a screaming scream: "Hey..."

With the passage of this scream, the extension of the wind is the identity of its zombie emperor, and it has issued some kind of invisible and inferior, even the immortal blame can not capture, only the cosmic zombie can sense the mystery Life wave frequency signal!

The situation is too severe. Although he has the power of immortality, even in the case of desperate efforts, it is not impossible to motivate the magical blade in his hands. It is not impossible to resist the two immortal monsters, but this is obviously meaningless! town

There are four immortal monsters who are guarding the stars of Tianhe. If they continue this way, even if he can break through, all the zombie wars and commanders will be buried here.

This cost is too heavy, and the zombie warfare that is going to go out with a breakthrough is behind the commander. However, from the very beginning, he followed the confidant around him and spent a lot of energy to cultivate it.

In any case, it must not be ruined!

At this moment, he screamed his hair, the purpose is to create new chaos, create new opportunities for the follow-up breakout here!

"Roar!"

Roar....."

The sound of the whistling sound that has not yet been set aside, the direction of the end of the empty space on the right side, the roar of roaring incomparable fierceness, is also from the mouth of the cosmic zombies, and the atmosphere is extremely powerful, at least It is also the late stage of the Lord! leaf

Xuan's heart jumped, and an extremely unpleasant feeling floated. He was countless, but he did not count the cosmic zombies inside the Tianhe Star. In the distant sky at the edge of the Tianhe Star, there were other The cosmic zombies are crouching.

As a result, the triumph of the triumphant army of the triumphant regiment and the four immortal grotesque on the Tianhe star completely lost its meaning! This

What was done, originally, was to prevent the zombies from rushing into the encirclement, to sneak into the plane, and to spread the zombie virus, which is super-infectious and has a speed of evolution.

But now, there are still cosmic zombies outside the encirclement. Even if all the cosmic zombies trapped in the encirclement are killed, what is the point?

After all, it is still a cure for the symptoms! "

Rumble..."

boom! "

Just as his heart was mad, when he turned his head, there was a horrible horror in the direction of the empty end of the emptiness. More than 100 ships of the 100,000-meter captain's fortress were already in sight. Come. This

More than a hundred big fortresses look very strange, like a commercial starship, but the surface of the hull is quite damaging, and it seems that it has just been attacked by star thieves.

But this is obviously just a cover-up. Their true face is quickly revealed and shocked everyone! This

More than a hundred damaged commercial starships are extremely fast, and it is suspected that space jumps have been initiated, but there is no such unique whistling when the starships expand their space.

In the blink of an eye, they have reached the edge of the outer circle of war, approaching the periphery of the various starships that are killing a large number of corporal slaves. "

Card..."

Almost in the next moment, the more than a hundred strangely jumped commercial airlines in the fortress, there was a squeaky squeaky mechanical sound of the smashing, a few breaths, turned into a

The giant beast with a tens of thousands of heads in the head is black and green, and the case is covered with a metallic luster. body

Similar to the starry sky, it looks like a star-studded cockroach with a hard shell, perfectly masking the strange existence of its metal and flesh and blood... At least, anyone who sees it will never It goes to the Star Fortress to associate.

But this is clearly not the so-called Star Fortress. It is the change of a cosmic zombie. It is the zombie fortress that has evolved toward the direction of metal variability.

Since occupying the Tianhe Star, all the cosmic zombies that have been plunged into the wind have gone out hunting in batches. Every time they go out, more than a hundred zombie fortresses that have evolved toward the metal variants will be dispatched.

Because the zombie squad needs them to turn into a ruined commercial fortress, as a bait and cover up.

It is for this reason that these more than a hundred heads have been used as corpse fortresses in general, and the speed of evolution is particularly fast. Nowadays, they are all repaired by the realm of the border. this

Inscribed, with the change of the main zombie fortress of the more than 100 heads as the body, the figure appears in the void, and from the original fortress ship, there are also a large number of cosmic zombies falling out and appearing in the void.

In addition to more than 3,000 main-class zombie warriors, more than 30 masters of the zombie command, there are hundreds of thousands of heads because of this hunting, has just evolved into a zombie zombie. foreign

Sprinkling a large piece of the sky, between the blink of an eye, it occupies a huge void. and

Moreover, these zombie soldiers, warlords and commanders who have fallen from the fortress of more than a hundred zombies have activated the zombie blood in the body at the first moment and turned into a giant cosmic zombie with a horrible horror...

"Roar""

Oh..."

In the screaming roar and whistling, all the zombies and soldiers and commanders, in a short breathing time, have all completed the zombie transformation, and some turned into a vulgar bone dragon, some Turned into a beast and beast with pus and blood...

But the breath in the body is all extremely powerful. What's even more frightening is that they are not only in the encirclement of the Tianhe Star Wars circle, but in the periphery, they come to the conference to see a lot of fans, the federal people and the star power. The edge of the huge star fleet formed. and

And still close, just a charge, you can rush into the crowd, start raging and slaughter...

Chapter 4103: Panic is spreading

This scene is so amazing that a group of horrible zombie behemoths suddenly appear in the void without warning. When they fall, they are roaring and arrogant. The huge miscellaneous army is scared for the first time. short

After the temporary silence, like the tide of screams, they screamed...

"God, what did I see? Is this the third universe of the Terran? The vast universe of zombies, the atmosphere is so powerful and horrible..."

"Zombie! Cosmic zombies... God, are we being surrounded by anti-?"

Escape..."...

...with

With this awkward exclamation, the miscellaneous army in the outer circle of war was completely chaotic, especially the edge area closest to the cosmic zombie that had just arrived, which became a mess.

However, this is obviously not the worst. Immediately afterwards, all the people have reacted, and the new accident has appeared again..."

Hey! "

"戾戾..."

On the edge of the outer battle circle in the far side of the square, hundreds of thousands of cosmic zombies from the outer circle of the war, more than 100 heads have just manifested the zombies of the huge zombie body from the damaged merchant ship, actually At the moment, all of them screamed out. tight

Then, a creepy scene appeared...this

More than a hundred heads can be changed into huge fortresses, but now they have turned out the ontology. It seems that the zombies of the giant beasts of the behemoths are not rushing into the outer star clusters, but they have swallowed each other. , began to kill each other!

Such a scene is too horrified, it is so jaw-dropping, more than a hundred fortresses and zombies, all have the cultivation of the main boundary, and the direction of evolution is special, all of which are variant metal types, at which time their bodies look like giants. The beast, and the metallic luster, is obviously extremely hard and chilling.

But at the moment, in the face of each other's crazy mutuals, their bodies are like paper paste, often with a mouth, they can tear off a large piece of flesh and blood from the body of their companions.

Even chewing, with the sound of a cracked metal rubbing... This

There is a strange scene in it, which makes people feel puzzled. The behemoths of the hundred-headed main class are absolutely powerful forces. If you join the battlefield, it is definitely a catastrophe. can

They are now intertwined with each other and begin to kill each other.

No one knows what is going on, but all of them have a feeling of not being so good. If there is an abnormality, there is a demon. Everyone knows this truth. very

Fast, the result is out! short

In less than a minute, the zombie behemoths of the 100-level masters were intertwined with each other and became only sixty or seventy, with two-thirds lost.

But what is not good is that the remaining two-thirds of the zombie beasts, all of which have been cultivated for strength, have all climbed to the beginning of the current universe. can

This is not the end, because the zombie behemoths in the early sixty-seventh universe did not stop and continued to swallow each other. and

Moreover, as the number of zombie beasts is getting smaller and smaller, the remaining survivors, the atmosphere emitted by the body is getting stronger and stronger.

After half a minute, there were only more than 30 zombie beasts, but the breath in the body reached the end of the universe. With

That is, half a minute is not there, only fifteen heads remain, but the surviving, the body's cultivation is breath, but it has reached the end of the universe. when

When there were only eight leftover zombies in this area, the breath in their bodies broke through into immortality! most

After that, only a dozen breaths, the eight zombie behemoths became the fourth-order horrible existence of four immortals. blink

Between the eyes, I actually entered the middle of this situation! on

Even the likes of the foxes and the palaces and the repairs of the three people in the Longshan Tang are just that. This

Everything is long, but in fact it happened in just three minutes. When all the people finally came back to God and suddenly realized what happened, the original number of the monsters The behemoth, now only four heads left, repaired to strength, actually reached a position to compete with the three like the fox. Such as

This horrible scene, even the four immortal old monsters who are guarding the stars around the Tianhe Star, could not help but shout and exclaimed..."

Raise! Actually it is raising! This kind of life is terrible, and they are intertwined with each other. They have such a horrible effect, and they are more ferocious and hegemonic than raising a donkey! ""

In the blink of an eye, more than a hundred border masters can become four immortal grotesque, and still in the middle of the immortal, do you want to live without it? ""

Behold, the four immortal zombies and beasts seem to be planning to continue to intervene. Are they still not satisfied in the middle of this period? Do you have to make two endless immortals, or... an immortal peak? "

"Rely! Stop them and stop them immediately..."

To the distant four dead immortal zombies and beasts, it seems that they intend to continue, this time even the mosquitoes and old ghosts are shocked.

This kind of means is not only fierce and horrible, but also really amazing. The zombie beasts of the 100-level elite are still able to solve the problem. but

The same combat power, after a period of mutual ignorance, has directly turned into a four-year-old zombie behemoth in the midst of immortality. In this case, an immortal mid-term rushing past is only a lively abuse. with

Waiting for the fighting power, some mutual opiates, there have been such terrible changes, it is simply unscientific, and all this is obviously because of the evolutionary blood relationship between these zombie beasts.

It's too horrible. In this way, only if they create enough zombie behemoths, can it be done in such a short period of time to make each other's fierce mutual annihilation?

Realizing this, even Ye Xuan's face could not reveal the gloom! no

On how to have such a zombie beast with such blood and blood, all must be killed, such a horrible evolution and blood, if not killed, the future will be in vain.

"Ye Xiaozi, leaving one person and you looking at this side should be enough, the remaining two, with the old man, first solve the situation there..."

It was at this time that the mosquitoes and old ghosts suddenly screamed and screamed, and the voices had not yet fallen, and the figure had disappeared. It was in a teleportary way, rushing to the edge of the periphery of the battle circle. tight

Then, the shape of Longshan Tang and Gonghua also disappeared, and they followed. phase

Compared with the zombie cosmic corps that has been surrounded by this, the zombie corps outside the battle circle is obviously more harmful, especially the four zombies who have been immortalized in the middle of the period, if they are allowed It is definitely a disaster to continue to intervene.

Nowadays, there are hundreds of thousands of zombie soldiers, more than 3,000 zombie warriors in the Qiankun territory, zombie commanders in more than 30 domain territory, and four zombie behemoths in the middle of the immortality, but teleported Among the three immortal monsters that went, there was a post-immortal existence.

Although the number of people is small, it has the advantage of crushing, and there is basically no problem in suppressing the periphery of the war circle...

Chapter 4104: Battle of fate

With the departure of mosquitoes and old ghosts and Gonghua and Longshan Tang, the situation in the inner circle around Tianhe Star has changed dramatically.撤

In the inner circle of the war, hundreds of millions of corpses and hundreds of thousands of black caves and zombies are not mentioned. It is just a zombie warrior in Qiankun, and there are more than 5,000 heads here.

In addition, there are more than 50 lord zombies in the main domain!

Of course, there is a boss at the end, that is, the zombie emperor's extension of the wind, although the strength is only in the early days of immortality, but it has the body of the demon, the powerful blood of the ancestor of the cosmic zombies...

In the face of all this, there are four immortal old monsters sitting here in the town, naturally there is no problem at all, there is no pressure, and there is still a crushing trend. but

Now, the three immortal monsters have left, leaving only Ye Xuan and Xiang Huyu to stay here. Although there are still thousands of warships of the Triumphant Corps, half of them are responsible for the siege, and cannot easily mess up the formation. The other half Basically, there are hundreds of millions of corpses and hundreds of thousands of black hole zombies in the encirclement...

That is to say, the remaining 5,000 or more zombie zombies, the zombie commander of more than forty domains, and the zombie emperor in the early days of immortality can only be dealt with by Xianghu and Ye Xuan. Now!

The former, Ye Xuan is obviously not suitable to deal with. Although his means are numerous, but the battlefield is too chaotic at the moment, the enemy and the two are mixed together, and it is not appropriate to sacrifice the Star Wars.

However, it was the extension of the wind, which was originally the unintentional cockroach. Ye Xuan always felt that he had the responsibility to end his existence. "

Those zombie wars and zombies will be handed over to you for disposal! First make sure you don't run away. Under this premise, try to kill..."

The face of the fox, Ye Xuan is not polite, directly to the command of the general tone of treatment.

As he said, his gaze was already looking at the other side of the virtual air. The corner of his mouth sneered a sneer: "As for the head of this zombie, it is handed over to Yemou, he... Can't fall!"

At this time, the general eyesight of the extension of the wind and the provocative eyes also looked over here. Correct

In this battle, he is also looking forward to it.

This guy is quite arrogant, but it is a smirk that Chong Ye Xuan hooked his finger, and then he turned to look at the side, looking up and screaming, like a demonstration: "Hey..."

On the occasion of hissing, his right hand turned over, and a black magic blade with incomprehensibility appeared in his hands...

"Hey!"

In the violent rumbling sound of endless joy, the demon blade slammed out.

It was only the left and right blade that clearly rose in the wind, and the blink of an eye was already a huge one. It was like a knives, with a smashed gap in the blade, and swayed toward the front.

"Boom!"

In the moment, the demon blade straddles the endless void and squats on the hull of a large fortress. The loud noise is soaring, but the fortress has not exploded. anti-

Instead, inside the hull, there was a thundering horror, but after a short half-breath, everything stopped instantly... 狰

The eternal devil's blade, the inexhaustible konjac gas, spreads out in an instant, like the most intense black fog, completely covering the entire fortress, making this 100,000-meter-diameter fortress, and surrounding Dozens of fortresses are completely invisible at the same time. and

Moreover, while the hull is wrapped in a black mist-like scorpion, the interior of the hull is accompanied by a squeaky metal friction sound, which is extremely shocking!

However, only a short breathing time, all this is due to silence, dozens of starry sky fortresses have disappeared, the void, the black mist-like demon swaying, but clearly can not see the big fortress Figure. This

Some of the big fortresses that were smothered by the black demon scorpion, and which seemed to be swallowed up by the ecstasy, seemed to be completely eroded and swallowed up. When the evil black scorpion of the awning was fogged into the blade of the celestial blade The emptiness of the dozens of fortresses is empty. There is only one black magic blade that is incomparable... It is in the void!

With a slamming sound, it will return to the hands of the extension of the wind, the black mist-like demon screams, shrouded its body shape, looming, exudes the magical endless!

"Is it in the midst of immortality? It's a wonderful feeling!"

With the return of the Devil's Blade, those black and fog-like scorpions that swayed on their sides, all clearly rushed into the body of the extension, which is back in energy. when

When these dark misty scorpions sighed out of his body again, they had already completed some kind of refining and refining, and in order to expand their own strengths, and to make his cultivation into a realm, he broke through the early stage of immortality. The current period of immortality.

Although this breakthrough can never be achieved simply because of the dozens of starry fortresses and the large amount of flesh and blood in them. must

It's almost the same as the extension of the wind, and the harvest is just the right thing to do, just to make up for the last bit of the magic that the breakthrough needs... but

This scene, but still too amazing, not only Longshan Tang eyelids jumped, even Ye Xuan looked down and took a breath. tight

Then there will be a more powerful killing in the middle. This

The strength of the guy's promotion is too fast, it's horrible, today... I'm going to kill it anyway, or it's a disaster!

"Hey!"

"You are not going to kill? Come, the big man will swallow it... one does not stay!"

"Hey..."

It was a sudden breakthrough, and now it is the fourth stage of the immortal environment. The war is soaring, and the enthusiasm is plunged. After the words, the hair screams and the body is swept away. The form is instantly transformed into a scorpio that is almost illusory.

This scorpio is full of giants, and the whole body is like a black mist. It floats in the blink of an eye, rushes into the encirclement, and faces a big fortress. It wants to sneak out more crazy plundering and devouring. !

This is clearly intended to pass this crazy devouring, so that it can be repaired as a strength to break through again, in one fell swoop to the end of the immortal, the peak and even the immortal posture.

If this is the case, I am afraid that I will stay with him anyway today...

"boom!"

"Booming..."

The sound of the tragic sound resounded through this corner of the sky. Some of the warships were firing, and the hull was retreating. It was clearly the commander in the battleship. They were all too jealous and dared not let this horrible scorpion too close! Look

In this scene, Ye Xuan finally took the shot, he could not sit and watch the extension of the wind in front of his own face, swallowing his own army, as if it is a food, grow himself! "

Heavenly magic blade? Unexpectedly, after falling from the back of the hollow giant turtle, it fell into your hands! "

"That's good, Yemou has a giant tortoise, suppressing this magic blade and doing it, this battle is for you and me, just like fate... It should come!"

Oh..."

In the whistling sound, Ye Xuan's body shape suddenly plucked out, and the tone of voice was not shocked, but it revealed a great fearlessness!

Chapter 4105: No battle

The devil's blade, the ancient treasures, the battlefield of the enemy's supreme powerhouse in the ancient times! this

In the battle of the ancient world, the blade was left behind by the sneak attacker in the sneak attack on the back of the virtual giant tortoise. and

Moreover, the demon seems to have had a fierce battle with the Void Giant Turtle, but now he does not know his own life and death, but the Void Giant Turtle has been hit hard.

Perhaps in that battle, the demon had also applied some special means, so that this enchanted blade, in the long years later, has been left on the back of the hollow giant turtle, like a sealed seal.

However, the void giant turtle is the existence of the ancient supreme level. Even if it is seriously injured, even if the demon has exerted other unknown methods of calculation, even if this enchanted blade has been left on his back, it has never been forced out...

But the Void Giant Turtle did not fall for it! although

However, because of the existence of the Devil's Blade, the recovery of the Void Giant Turtle has been delayed, and it has always been in a bad state of serious injury. However, in such a long period of stalemate between each other, the devil's blade, which was originally a waste of ancient treasures, actually hurts the roots. ! which is

Soon after the arrival of the hands of the extension, the devil's blade was slightly restored because of repeated devouring and plundering, but the comprehensive recovery was far from being achieved.

This point can be seen from the gap in its blade.

The devil's blade, after a few years of melting by Ye Xuan, today's grade is starry sky!

The magic weapon of the ancient times is different from the magic weapon of the refining of the world today.

In the era of the ancient times, the strongest is the ancient and the treasure, the second is the treasure of the ancients. when

However, there is another kind of eternal treasures of the era, such as Shennong Ding and the Furnace. The existence of this level is rare in the ancient times and treasures. and

In the real world, the strongest is the starry sky to the treasure, the second is the starry treasure. base

In fact, the strongest starry sky in the world, at most, can only be comparable to the ancient and ancient treasures of the era of the ancient times! complete

One is actually refining in the world, and the other is a distant old age. The former has less time to accumulate, while the latter has a long baptism! when

Compared with the ancient magic weapon, Shifabao is the same as the same grade, but it is normal!

That is to say, Ye Xuan's hands are refining in the starry sky to the treasure of the world, and compared with the wilderness's ancient treasures.

The power of the two is roughly the same!

It can be said that the battle between the extension of Linfeng and Ye Xuan is not only a fateful battle between the two of them, but also a battle between the two devils and the devil's blade. this

Engraved, with the face of the provocative general face-to-face shot, blinking damage to dozens of starry fortresses, Ye Xuan suddenly furious, turned over, the devil blood blade is already in hand!

"Hey!"

The sneer floated up, and as the extension of the wind and the right hand suddenly waved, the devil's blade, which was originally held in his right hand, rushed out in an instant, and a scream of endless and fierce breath sounded.

In the next moment, from the blazing blaze, a huge blade of the spirit roared out, the whole body was dark, and the person stood up, but his body looked like a bull, a huge head. There are double horns on the back, and there is a pair of sharp black wings with sharp edges! area

Outer Warcraft!

This domain outside World of Warcraft, is the evil spirit of the Devil's Blade. When it was smashed by the Devil, it was sealed in the Devil's Blade. Now, I don't know how many years existed. The ferocious breath poured out from the body and turned into black. The devil is suffocating, covering the whole body, as if it is the essence.

At this moment, this celestial spirit, which was refining the evil spirits of the World of Warcraft, appeared above the blade of the Devil's Blade and spurred at a remarkable speed of terror. Look

In this scene, Ye Xuan is not afraid, and his mouth is stunned, and there seems to be a slap in the face.

"And Ye Xuan's warrior's blade is more savage than it's right? Come..."

Cold smile, his body shape has not plucked, and like the extension of the wind, still standing, the two seem to have reached a certain tacit understanding, this battle, first than the war! words

At the time of the sound, Ye Xuan's right hand suddenly turned over, and he was already impatient in his hands. He was always in the sharp **** blade of the demon, and immediately rushed out of the monkey and spurted away.

"Hey..."

With the rushing out, the sound of the whistling sounded immediately, and it was turned into a smattering of the **** black blade.

This is clearly an extraterritorial murderer that has never been seen before. It is also a person who stands up. The body is covered with **** blue scales. The stock has a long tail, streamlined, very thick, and the root barbs look extremely awkward. . to

On the head, it looks like a wolf, with a pair of **** fangs, a single horn on the top of the head, reddish like blood, but without wings on the back, but full of sharp spurs, slightly curved It is amazing! Two

The beasts outside the head are all illusory of the state of energy, and they are clearly not in the world, at least in the three major star planes of the world, they have never seen it. which is

These are the indigenous beasts brought out by Ye Xuan from the source of the evil, or the caged beasts in the world of the cages that have now come to the first universe of the devil, and there is absolutely no such thing. presence. only

Look at the shape is amazing enough, more terrible than the beasts, definitely can be called the extraterrestrial devil!

The speed of these two extraterritorial fierceness is very fast. In the blink of an eye, they cross the million-mile void between Ye Xuan and Tuo Le Lin Feng. The rumbling bangs are constantly coming, and the blink of an eye is close to me. . war

On both sides of the field, Ye Xuan and Tuoyu Linfeng all stopped, and did not rush to participate in the battle. This battle belongs to the two tops, and it has risen from the beginning to the height of the battle of the Blade Spirit. It is extremely dangerous, and it is a once-in-a-lifetime opportunity.

Because of the existence of such a kind of blade spirit, it is possible to expand one's own body by mutual engulfing each other and achieve the purpose of evolutionary transformation.

Whether it is Ye Xuan or the extension of the wind, I hope that the blade spirit in my own army can win in this battle. If the demon wins, then Ye Xuan's **** blade will rise. . and

If the World of Warcraft wins, and the demon will be swallowed up, then, the extension of the hands of the wind in the hands of this hand is still not fully repaired, it is very likely that once again a large section, then the blade is in hand, will be able to Will skyrocket!

"Roar!"

"Hey..."

The sound of screaming and screaming stunned, with the escalation of the two-headed spirits, the emptiness of hundreds of thousands of miles in the central domain was shrouded in black scorpion scorpion and dark red **** scorpion. Even if Ye Xuan and Tuo Dian are in the wind, they cannot see the details inside the battle circle. This

The first battle was extraordinary. The two demons were killed and killed. It was rare to see on weekdays, but the duration was not very long. The short tea was not enough, and the result was already...

Chapter 4106: Bombing

"Roar!"

Hey! "

The screaming roar and the sound of screaming sounded, the front field of the central domain battlefield, the black scorpion that was originally shrouded in hundreds of thousands of emptiness, suddenly violently violently, and then quickly condensed inward, blinking between, blinking This piece of emptiness is left with only the dark red blood of the devil...

However, due to the existence of these evil spirits, everything in the battlefield of the central area is still not real, and it is impossible to know what happened inside. This

For a moment, whether it is Ye Xuan or the extension of the wind, I have mentioned my heart and I feel very embarrassed.

Because they simply don't know, the sudden condensing of the black scorpion scorpion disappeared, what it means, whether it's a World of Warcraft defeat, or a demon is swallowed! micro-

Uneasy, the final result quickly appeared. "

Oh..."

It was a screaming scream. This time, in front of the central domain of the battlefield, the emptiness of hundreds of thousands of miles of dark red blood, and now began to quickly condense inward. Virtual

The scene in the air appeared in an instant.

The two demons outside the field almost simultaneously reflected in the sight of Ye Xuan and Tuo Ling Linfeng. The only difference is that the demon of the first-born unicorn is still standing in the void, but the body is full of 狰狞The wound, but the breath is still strong and fierce. anti-

Watching the World of Warcraft, at this moment, there is no breath at all. The huge body of the tortoise has been torn into two halves, and the left and right hands of the demon have been squatting, and the mouth of the **** basin has been smashed.

After all, it is not the real flesh and blood, but the blade of the existence of energy form. Place

Therefore, although the body shape of the World of Warcraft seems to be full of giants, but now it was smashed into the mouth by the devil, and it was swallowed up in a flash, and half of the black hair could not stay.

"call out!"

It was also at this time that the Devil's Blade, which had been hovering over the land of the two beasts outside the field, was also spurred toward the open mouth of the open-minded Warcraft. In the belly, disappeared!

All this happened too fast, and there was no reaction to the reaction of the millions of miles away from the void. It was no longer seen by him as the magic blade of the supreme murderer! Such as

This scene, the extension of the wind and the shape of the violent shock, the face has changed, the scorpion is even more sturdy and resentful, and stare at the blade of the sky.

"When you squat, you dare to swallow the soldiers of the emperor. Have you digested it?"

The result of the battle made the extension unacceptable, and when it was angry, it roared on the spot, and when it was swayed, it rushed toward the front of the central domain. roar

When the roar began, within his eyes, he clearly flashed a greedy awn.

Actually, I have to personally shoot, crack down on the blade and the demon, and win the **** blade of Ye Xuan!

Obviously, this guy is moving greed, see Ye Xuan's demon blood blade even the ruined ancient treasures of the devil can be swallowed, intending to take advantage of Ye Xuan, shamelessly forcibly seize the treasure. "

Your opponent is Yemou. If you don't fight, you will take advantage of the black hand. Isn't it too shameful? "

Ye Xuan sneered, while he said, he had been urging the blade to sneak into the nest, and the savage demon spirit slammed into the **** blade of the emptiness above the head, and then he was one. Between the beckoning, the income is in the immortal world. versus

At the same time, Ye Xuan directly raised his left hand, pointing to the extension of the millions of miles away!

Nowadays, he only has the strength of the ninth-order grand perfection of the star's main territory. Even if he activates the three-headed and six-armed konjac, and transforms the blood of the konjac into the fifth, he can only reach the first level of the boundary. Only. versus

Nowadays, it is already the extension of the immortal grotesque, and the gap is still not small. Both

However, the activation of the konjac bloodline is of little significance, but it will expose several other enchanting identities, which is unwise.

Therefore, Ye Xuan decided to use the blood of the ancient night fork - the sky bow! which is

Then he is now only a star of the nine-step grand perfection, but this **** magical power is too much against the sky, consuming a lot of cultivation, spiritual strength, the power of the flesh and blood, even including vitality... all this, Condensed in a single blow, even if it is only the peak of the star, it can kill the immortal! this

Engraved, as his left hand lifted up, Ye Xuan's empty left hand palm slammed into the golden mans, and the golden bow of the energy form reappeared without suspense, the quaint and awkward bow ends, and the two formed a semi-arc The life of the bow body is wide and angry. One

The bow string formed by the roots is obviously twisted together by numerous fine gold threads. At the same time, it is extended from the wide mouth of the two roaring creatures, and it quickly condenses into a bowstring!

On the other hand, there is clearly a golden energy arrow that quietly appears...

"Take the wind and the wind has been lingering for so long, today, you should be in a hurry!"

The sound of the words in the mouth rang, and Ye Xuan's eyes screamed in the depths of the golden glow. The right hand smashed and pinched the tail of the energy arrow that had already been wounded, and suddenly pulled a full bow! "

Oh..." urgent

The sound of the trembling sounded, and the energy giant bow in Ye Xuan's hand suddenly burst into a fierce golden mang, and his eyes quickly condensed, and all of them poured into the arrow on the bowstring, whistling away. In an instant, across the endless void, with a horrible temperament that wants to destroy the earth and the earth, it has already reached the front of the extension.

"This is... 陨天弓?"

"Sure enough, all of you..."

Hey! ""

boom! "...

...This

At one moment, the eyes of the extension of the wind were instantly rounded, and the cold hairs of the whole body were erected. The figure was stopped in the void, and the mouth was filled with an unsettled scream.

At this moment, he finally confirmed the identity of Ye Xuan, both the Emperor Xuanzi, and the sorcerer who has always made him hate, and there are several other enchanting identities...

Unfortunately, everything is too late, accompanied by the unwilling roar of the extension, followed by a huge roar of heaven and earth, suddenly blasting without warning.

At this moment, the whole world seems to have shook a little, just as the end of the world is about to come, the earth is shaking, and it is falling apart!

With Ye Xuan's current cultivation as the strength, even if only the star of the ninth order is perfect. but

This golden energy arrow almost instantly captured the power of most of his body, including the power of cultivation, the power of the spirit, and the various blood vessels of the medullary crystals, black gold dragon scales, etc. force.

It can be said that except for Ye Xuan's vitality and the body's flesh and blood power is protected by the phagocytic system, although there are some defects, it is not too big, and all other forces and energies in his body that can be passively used have been condensed. In this arrow, and when the arrow is shot, it is consumed by the scorpion bow, and even if it is for the immortal blame... it is absolutely fatal!

Chapter 4107: Re-emergence

"Boom!" Giant

The loud roaring sound came, and the horror of the vast expanse of hundreds of thousands of miles in front of it was swept away.

In the void, even a large number of fine void cracks appear in looming, just as this piece of void was originally a wave of unsettled pools, but now it has been thrown into a huge rock, splashing, can no longer calm, and rises. Layers...

The strong sense of weakness of the stock hit the heart of Ye Xuan at this moment. This attack, the magical energy arrow of the bow of the sky, instantly took away nearly 70% of all the energy except his vitality in his body, even if it is him. The ninth-order grand perfection of the star's main body has been repaired as a strength, and this situation has been encountered in the cold, and it is also a stagnation of the footsteps.

But the price paid for this blow is not small, but for Ye Xuan, it is still within the scope of full tolerance.

Of course, more importantly, it is actually the result of this arrow! Extension

Although the wind has been immortal, and has the mysterious body of the demon, but the bow of the sky is the existence of the ancient supreme level, the only blood of the ancient night fork, the lethality is too amazing. this

Engraved Ye Xuan desperately blasted this arrow. When the golden energy arrow of the purple blasted on the body of the extension, even the body of his strange demon could not bear it. The situation is like a ruin, with a thick unwillingness and a resentment, completely turned into a fly ash...

After a breath, the current energy surges into a turbulent period, and the figure of the extension of the wind has completely disappeared. Even the half of the breath can no longer be found. Ye Xuan has been hanging in the eyes of the blind eye. I finally fell completely!

As a result of this arrow, he really cares. because

The dangers of the extension of the wind are too great. In less than a year, the pioneers who were arrogantly arrogant by Ye Xuan grew up to break through the immortal realm. Photo

If this speed of horror is allowed to continue to grow like this, according to Ye Xuan's estimate, at most two or three years, this person's cultivation is afraid that it will reach the immortality of the king, or even stronger. Now! This

Absolutely shocking, even Ye Xuan is jealous, and every time he thinks, he will have a cold back.

After all, even the entire Devil's group, in the current world, has lived for many years, and the entire ethnic group is only a generation of ancestors, and has achieved the immortal cultivation of the King. but

It is a great horror to expand into the wind but because of its terrible cosmic zombie bloodline, it is very likely that it will be promoted into this environment in just a few years! this

In addition, this guy also possesses the body of the demon, unpredictable, this time can only be regarded as an unexpected joy, blocked him in the lair's lair, and took advantage of it to force it out. If

If this is not the case, it is almost impossible to use Ye Xuan's means to get him out of the infinite three starry sky.

It can be said that if today missed the great opportunity to kill him, Ye Xuan must be remorseful, because next time I want to find it again, I dare not say that it is difficult to go to heaven, basically it is not much different. from

Since Ye Xuan entered the starry environment, there have been many opponents in two or three years, and even the immortal blame has killed more than a few. also

There is a state of detachment, and the headless baby corpse belongs to the same level of the existence of the heavenly green eye, Ye Xuan has indirectly played against it several times, but even so, the extension of the ranks of this guy is difficult to rank, in Ye Xuan's mind But still can be in the top three.

After all, when he was in the Emperor's Heavenly Battle Star of the Heavenly War Empire, he clearly determined that he had already killed this, but unexpectedly there have been so many changes, and now I want to come, it's awkward...

At this time, the extension of the wind is still in vain. This time, Ye Xuan is extremely determined. He has always had strong confidence in the overbearing power of Hao Tiangong, because he has never let him down. This

Absolutely Ye Xuan body, in addition to the headless baby body, the biggest foundation depends on, even more than Shennong Ding!

At this moment, with the zombie emperor's extension of the arrow of the wind, Ye Xuan hangs in the heart of the blind man's eyes, completely implemented, although today's Tianhe star is still not flat inside and outside, it is the universe of the universe outside the atmosphere, The battlefield has been stretched for millions of miles.

Although the Zombie Emperor's extension of the wind has been rampant, there are still hundreds of millions of low-ranking corpses, millions of black caves and zombies, thousands of thousands of Qiankun zombie warships, and nearly one hundred domain realms. The zombie commander and the four zombie behemoths in the midst of immortality are raging...

In Ye Xuan's view, these cosmic zombies are nothing at all. its

It is not necessary to say that its zombie soldiers, warlords and commanders are the four zombie behemoths in the midst of immortality, and they are not really in the heart!

At least, these guys are more powerful, not as good as the extension of the wind, with the real body of the demon, ever-changing, once you walk away, there is no trace at all, as long as you have been crouching, even looking for traces, there is nothing to do...

However, what he never expected was that the extension of the demise of the wind was completely degraded. For him, although he had a knot in his mind, at the same time, it also represented a real disaster. In an instant, without warning... suddenly came! "

Roar! ""

Roar! ""

Oh..."

Almost in the extension of the wind, the body of the demon is bombarded by the golden energy arrow of the scorpion bow, the next moment of complete ash and smoke, the emptiness of the corpse around the Tianhe star, the murderous corpse of the corpse, It's been a moment, suddenly! "

boom! "

"Booming..."

When Ye Xuan reacted, what happened to him, accompanied by the horror of this corpse, and then a lot of sounds like the tidal sound of the roaring sound.

All this happened too suddenly, even Ye Xuan was completely stunned, and then there was a flash of light in his brain, and his face suddenly changed. turn

When I first looked at it, the scene in the sight of the moment confirmed the speculation that his heart was floating. At this moment, a sense of crisis that was extremely strong to the extreme shrouded his heart, and he did not think much. Almost the subconscious movement of conditioned reflexes, directly waved the offering of Shennong Ding in the immortal world! burst

body! no

Endless explosion! Vision

The line sweeps through, from near to far, almost all over the sky.

Some cosmic zombies are so small that they can't even be the weak corpse slaves of the real cosmic zombies, and the zombies and beasts with the immortal mid-term horror repaired at that time, in this moment, without exception, all Blasted. One

In an instant, a vast expanse of millions of miles in the sky, numerous **** zombie blood and pus splash, this horrible scene, as if the entire Tianhe star domain, completely turned into evil drama Poisonous land in general...

Chapter 4108: Shennong Ding

"Hey..."

boom! ""

Hey! "

.....

With the madness of the cosmic zombies, the sound of the whistling whistle is immediately overwhelming, followed by the endless stream of humming sounds, such as the tides, the vastness of the universe beyond the atmosphere of millions of miles away. In an instant, it turned into a poisonous place of evil! This

The scene is too tragic, it is Ye Xuan, who has experienced many super-star wars in the past year, and has never seen such a terrible scene...

In this vast universe of millions of miles, there are still hundreds of millions of corpses, millions of black caves, and thousands of tens of thousands of corpse warriors. Up to nearly one hundred domain lords and zombies, and four zombie behemoths in the midst of immortality.

But at this moment, with the complete disappearance of the zombie kings, these corpses, zombies, warriors, commanders and even four immortal zombies. actually

Without exception, all of them were blasted, and the body's zombie venom and pus blood were sputtered and spread, spreading the whole piece of void. This

The scene of the scene, so that at the moment, Ye Xuan heart suddenly floated a strong self-blame.

He should have thought of this scene, because the entire army of the zombie army was born because of the extension of the wind. If the Cosmic Corps is compared to a special group, then as a zombie emperor In the wind, it is clearly the blood ancestor of this ethnic group! and

Moreover, the cosmic zombies, clearly have a very strict bloodline level, which leads to an unknown bloodline relationship between the zombies of the universe.

The simple point of saying is that one is honored and the other is damaged. when

However, it is absolutely unique to be able to influence the existence of the entire group's glory, and it is the extension of the blood of the cosmic zombies. its

All of its cosmic zombies, even if they include the four starry beasts that have evolved into the middle of immortality, the cosmic zombie toxins in their bodies are all from the top.

It can be said that any other existence of this ethnic group has no effect on the existence and bloodline maintenance of the entire ethnic group, even if the four immortal zombie beasts suddenly fall.

However, the extension of the wind is different. Once he is degraded and completely smouldering, it will wait until some self-destruction device exists in the blood of this ethnic group.

It is also for this reason that when the extension of the bloodstream of the cosmic zombies was shot down by Ye Xuan, the entire zombie group that evolved because of the zombie toxins in his body was completely broken. The source of the blood.

The scene that happened next is in front of you... Some self-destruction device in the blood is triggered, and all the cosmic zombies have no ability to resist independently, and they suddenly die! This

It turned out to be a good thing. All the cosmic zombies have disappeared. This difficult Star Wars can basically be said to have ended.

In particular, the explosion of the zombie behemoths in the middle of the four indecent periods is even more significant. Otherwise, even if there are mosquitoes, old ghosts, Gonghua and Longshan Tang, it will cost a lot of money. Power, even paying the huge price of a degrading monster...

But the same, such a scene, in fact, is also a disaster, a catastrophe with unpredictable consequences!

Although the hundreds of millions of all the zombies in the universe have exploded, the massive corpse and pus spattered from them are huge tumors.

Yes, the corpse of the corpse is indeed a smog, representing the complete demise of the blood of this cosmic zombie group. Some of the toxins in the toxins of this cosmic corpse in this group are not related to the extension of the wind. . but

The zombie poison did not disappear. As soon as these toxins infect other humans, or other flesh and blood, a new cosmic zombie group will soon be born again.

There may even be more than one!

Hundreds of millions of cosmic zombies, all bursting open, a large number of corpses and pus, covering the millions of miles of the universe void, just for a moment, I do not know how many body shape is not protected The star of the measure, under the precautions, was contaminated with these spattered corpses...

These people, even if Ye Xuan can't save, will soon have a horrible corpse.

If this situation is not immediately stopped, the final consequences will be unimaginable.

Such a large amount of zombie toxins and pus, the result will be the entire third universe of the human race, will face the crisis of life and death because of the rapid spread of zombie toxins...

However, Ye Xuan did not make a mistake. To expand the wind, it is necessary to kill, otherwise it will be endless.

Even the birth of his zombie emperor was not the responsibility of Ye Xuan, but the real deceased singer who was already degraded. He was from the second cosmic genie. I came to an undead pearl and crushed it in Shennong Ding, which led to all that happened later!

However, there is always a kind of self-blame in Ye Xuan's heart. He believes that whether it was the real singer and the singer's shot, it is still causing new disasters after killing the zombie emperor.

He may have lost his heart, but... he has a little responsibility! but

Now, obviously, it is not the time of self-blame, the time is too urgent, he must immediately find a way to solve all this, and control the spread of zombie toxins!

In order to make up for the fault, in order to prevent the spread of the zombie toxin, Ye Xuan did not hesitate to wave directly to Shennong Ding, so that his other identities will undoubtedly be exposed in an instant, but at this time, he has completely ignored Up. "

call out! "With

The sacrifice of Shennong Ding is swaying in the void, and if a superstar-like appearance appears, Ye Xuan's figure suddenly rises, and he has come to the Dingkou where the colorful fog is in his body. The fog rises and falls.

Then there was a wave of hand. In an instant, a canopy of the Shennong seven-color flame like a majestic river rushed out of the tripod. The blink of an eye split into four and spurred in four different directions. This

In the scene, it is like a colorful galaxy hanging for nine days, and is moving in four directions and quickly extending toward the surrounding area. God

The root of the farmer's flame is within the flame pool at the bottom of the volcano in the central space of Shennong Ding. As long as the source of the flame in the flame pool is not extinguished, the seven-color flame that flows from the tripod is constantly flowing.

Even as long as Ye Xuan's cultivation is sufficient, it is possible to spurt the infinite fire that will cover the entire universe of the third universe...all possible!

What he has to do now is to use the seven-color flame of Shennong Ding to spread the corpse of millions of miles away from the surrounding area, and then shrink it inward, until the end will be all The corpse poisons are all burned out, refining...

Chapter 4109: Burning the world

"what....."

"Hey!"

Roar! "...

...

In the void, all the slaves and zombies, warriors, commanders, etc. all exploded from the explosion, and the overwhelming zombie toxins were sprinkled with disgustingly splintered pus. First

At one time, some people have made a way, whether it is the inner war circle or the outer war circle. At this moment, in addition to a large number of star-ship battleships in the fierce battle, there are some star-studded powers who are fighting for the strength, and the flesh is exposed in the void. This

Some of the star-studded powers, some sacrificed a defensive magic weapon, surrounded by a light curtain outside the body shape, or placed in a nearly closed defensive trench. This

These exist, like those of the emperor fans, federal people, and star powers inside the starships, were temporarily spared and were not immediately infected with zombie toxins. but

There are also some that do not have such defensive measures at all. The result is obviously self-evident. When the zombies around their stature suddenly exploded, a large number of zombie toxins and pus were opened, and the first time was Infected.

The tragic sounds almost instantly, and there are all over the sky. Some of the zombies contaminated by the strong stars have been poisoned too much. Almost everyone has been poured into chickens, stinking, and almost no countermeasures have appeared. The corpse... also

Some of the infected people, due to the small amount of zombie toxins contaminated by the body, have not yet begun to corpse in a short time, but the body has obviously felt, and then see the companions who were fighting side by side, after the rapid corpse It has become such a person that no one is a ghost or a ghost.

The mind is really unbearable, and under desperation, it is actually taking full-scale corpse and still coming, but then heads up and screams, and directly launches a self-destruction...

strong!

It's too bad!

Although the cosmic zombie army that has been set aside by the wind has all died, accompanied by the body of the zombie, the source of this cosmic zombie is also dissipated.

But at this moment, with the explosion of zombie toxins, the new cosmic zombies, in a short period of time, once again discovered...

Moreover, these newly emerged cosmic zombies are different. They are all a generation of zombies, each of which belongs to the source of this blood, because they are all infected with pure, no other immortal poison!

If these cosmic zombies that have just been infected and corpse are rushed out of the encirclement, the third universe of the Terran, there will soon be a large number of cosmic zombie corps, one after another, even without blood heritage, want to clear and It's impossible to kill it. very

As for the peripheral war zone, there are still a few star-studded strongmen in the universe. After being overwhelmed by the overwhelming zombie toxins, the corpse has happened in the first time.

In the blink of an eye, the first generation of cosmic zombies in several universes appeared. This is definitely the biggest cancer. Because they were infected with corpse, the strength has been so strong, not far from immortality. If

It is not immediately killed. After this war, I am afraid that it will soon be transformed into an immortal environment. It will not take long to prove that it is impossible to seal the seal and seal the king. Look

In this scene, I think of the horrible consequences that the situation will bring. The eyes of Ye Xuan's eyes are suddenly condensed, even when the voice is loudly shouted: "Mosquitoes and old ghosts, you will immediately put those corpses in the universe. The change is smothered, once they are allowed to rush out, meet again next time, maybe it is a horrible corpse who is waiting for immortality!"

Hearing this discourse, the mosquitoes and the old ghosts have returned, and there is not much reaction. After all, his devotion is not weak, and conservative estimates must at least be immortal.

However, the three old guys, Gonghua and Longshan Tang and Xianghuyu, were scared and stunned on the spot. Take

Their understanding of these cosmic zombies naturally knows that Ye Xuan can't be sensational. The speed of this horrible creature's evolution is indeed horrifying. The corpse that was killed before was only a battle. A descendant of the Imperial Extension family, the Qiankun is not here. This

It took only half a year's work, but it has already risen to immortality.

In addition, the four zombie behemoths, through the mutual engulfment of each other, blink of an eye from the landlord became a scene of immortal behemoths, but they also saw it with their own eyes.

This is absolutely unacceptable. It is really necessary for these few starts to be the zombies of the universe to escape. It is definitely a long time before they will surely prove the rhythm of the seal...

In the look of the gods, the four immortal old lords have already started to work together, and they are scattered and scattered. They are hunting in the inner circle and the outer circle of war. They are

specially trained to be above the star's main territory, and they are already contaminated. The existence of zombie toxins begins. and

As long as you are eyeing a target, no matter who the other party is, from which force, even if it is the subordinate of your own, it will never be merciless. It must be directly smashed into pieces and completely eliminate the potential threats it represents...

"call....."

On this side, Ye Xuan's figure stands in the mouth of Shennong's Ding Ding, a super-star, and the nine-colored fog that floats in the sky rises and falls, and the scorpion smashes out from time to time, concentrating on the gods, controlling the dumping And the majestic seven-color flame spurred toward the edge of the whole void battlefield...

Faced with this almost uncontrollable horror situation and scene, Ye Xuan can only rely on it, and only the seven-color flame inside Shennong Ding. only

Whether or not the gods and peasants of different interests can refine all the zombie toxins, as if they had burned the world, all other means are useless to this situation. This

The general scene of catastrophe is no longer controlled by the strength of strength. It must rely on special treasures and provoke the power of its internal domain to control the effect. when

However, if there is a level of existence of the headless baby body, then it is a different matter!

At the same time, with Ye Xuan, Shennong Ding sacrificed, and directly waved a large piece of Shennong seven-color flame like a flame sea, and rushed to the square. war

Around the field, a large number of star-ship battleships, countless fans from all sides, federal citizens and star-studded powerhouses, after a moment of stunned stunned, quickly stunned and screamed, and then exclaimed... .."

God, what have I seen? I will not be blindfolded? Then... Is that the king of medicine? "

"What happened? Isn't this something that makes the fox less lord? No, it should be the devil's emperor Mo Zhenfeng... He had already personally acknowledged the fact that the five enchanting ones were integrated."

"Old man... The old man has a speculation that he is scared to death. He just came out of his mind. How can you not swear?" Do you say that I am crazy?"

Me too, I must be crazy, at the moment I think it is... seven big enchanting one? "

"We are not crazy, this thief is crazy, the facts are all, what are the doubts? The devil's emperor Mo Zhenfeng and Xuan Huangzi identity, the real deity, all are Ye Xuan..."

Chapter 4110: Supreme enchanting

With Shennong Ding being waved by Ye Xuan, the secret of his identity, all the details, at this moment, was completely unsuccessfully revealed! when

In the younger generation of the present world, there are now seven people who are known as the enchanting mortal beings.

Originally, all people thought that these seven deities were enchanting, belonging to the human and demonic groups.

The four enchanting identities of the fox lord, the sorcerer, the mechanical war **** Sha Baofeng, and the Taikoo konjac were attributed to the body of the devil's emperor Mo Zhenfeng, which gave him the reputation of the five enchanting ones. and

On the side of the third cosmic human race, the two enchanting identities of Xuan Huangzi and Invincible God of War were added to Ye Xuan's body. As a grassroots, he had no background, although he only won the title of two enchanting ones. However, the record of the two-time appearance of the Emperor Xuanzi was too amazing. Place

In comparison with the five demon scorpions, the devil's emperor Mo Zhenfeng, the aura of the human family Ye Xuan's head, its intensity, and even the anti-super.

Moreover, even the affiliation of the world's air transport, because of the existence of Ye Xuan, has been identified by the three major stars in the main plane, and has been attributed to the Terran...

And no one expected, the final truth is so shocking! original

Come, even the demon **** Modi Feng, who is known as the five enchanting ones, is also the same as Xuan Huangzi and the invincible **** of war. It is just another identity of Ye Xuan. Even

What are the five enchanting ones, what are the two enchanting ones, all are incomplete, the final truth is only six words---the seven enchanting one!

Linghu Shaozhu, Netherland, mechanical war **** Sha Baofeng, Taikoo Little Konjac, Devil's Emperor Mo Yufeng, Invincible God of War, Xuan Emperor...

These seven enchanting enchantments are all just a vain identity! it

There is only one common deity, that is, Ye Xuan! grass

Roots, no background strength behind him, even his identity as an interplanetary mercenary, was just registered two or three years ago.

At that time, Ye Xuan was only the lowest level monk in the star nuclear environment. but

Nowadays, in the past two or three years, more than a thousand days, it has grown to the ninth-order grand perfection of the star's main territory, and even with a jaw-dropping record, it has spelled out the supreme prestige of seven fascinating worlds. The three major star planes of the main plane, almost all of them were disturbed by him, almost all the way forward, sweeping and invincible!

It's so amazing that after discovering this terrible truth, Tianhe Star is a vast battlefield with millions of emptiness, countless federal people and star-studded powerhouses in countless starships. For a time, the crisis that was under the cover of the zombie toxins has been temporarily forgotten. Place

Some people are dull expressions, as if the breathing has been stagnant, and all of them have just been thundered. certain

In the Star Fortress, Xuanyuan Zijing, Duanmu Xiaocha and Zhao Qianru are also the same, but they already knew the secret. At this time, they felt that there was some accident. I didn't expect the matter to be fully exposed so soon. . "

Hey, this guy is completely famous. The three cosmic planes, no one knows, even if it is an immortal grotesque, when you mention him, the expression on his face must be high in the mountains! ""

Indeed, the seven enchanting ones are simply not human beings. Not only are they unprecedented, but they must be eliminated. I really don't know how he did it. It's too tossing..."

Hey, this guy won't be impetuous because of this? Sister Zi Zi, we can all be his people. This guy is famous, will not be abandoned, don't let our sisters smash it? "

The last sentence is said by Duanmu Xiaocha, the color of worry on the face, and the words of this shameful person. In a moment, Xuanyuan Ziyang and Zhao Qianru's faces were red, and they screamed and chased her. hit.

Here, the three gimmicks are once again frolicking, in a large fortress, and there are also strong men of the main level sitting in the town, they naturally do not fear the infestation of zombie toxins. versus

At the same time, countless federal citizens and star powers among the large number of starships in the entire battlefield, after a short period of sluggishness, returned one by one, and then they began to scream and resound.

"God, the seven enchanting ones, this is not alive, there is no history, no future, Ye Xuan is really against the sky!"

"Supreme enchanting! It is absolutely supreme enchanting. From ancient times to the present, it can be worthy of this supreme nickname, and only he is the only one..."

"Understood, I finally understood. It is no wonder that this time he returned as the king of Xuan's prince, he was able to make the first place in the federal points contribution list in an instant. Even the contribution points are more than 1800 billion. Everything is Tossed out in the first universe!"

"Let the fox less master, the Netherless, the Taikoo konjac, etc., which is not a fierce name? And almost all of this year has been tossed beyond the third universe of the Terran, even the Tianzu people are forced because of him. The family has moved, so if you can't get the 18,000 billion federal contribution points, then it's weird!"

Yes, there is the identity of the mechanical warrior Sha Baofeng. At the time, it was once the patriarch of the Tianji nationality, who was the leader of the Tianji nationality. This face was too loud, and the emperor had no face to see anyone. Items, at least billions of federal points can be counted! "

"So, there are not as many as 1.8 trillion yuan. In fact, the contribution points earned by others are far more than this. Don't forget that after the return of his king, the list data of Tianbang was once tempered. Ye Xuan's ranking is up and down. Floats countless times, and when I finally topped the list with 18,000 billion points, I don't know how many points have been deducted!"

"The money is self-willed, but there is no way. It is too tossing. Although the work is basically beneficial to the federation, it is counted!"

But there are also some that absolutely harm the interests of the federation. The insulting points are such a rationality. Don't forget that the immortal grotesque of the Federation of the Vultures have been killed by him. Don't mention the two camps of extorting the Terran. All of them are more than one or two times! "

"call....."

Just as numerous exclamations rang around the battlefield, Ye Xuan waved his hand, and the four sacred flames that had been dumped from Shennong Ding in his feet finally rushed to millions of miles. The outermost edge of the battlefield. and

Moreover, the first time it spreads out, just a dozen breaths, and the four seven-color flame seas reconverge at the edge of the battlefield. to

Therefore, the whole piece of the virtual battlefield of millions of miles round, on the periphery of its edge, has basically been surrounded by the seven-color flame sea inside Shennong Ding. tight

Then, as Ye Xuan's mind turned, the sound of the flames suddenly became louder. The layer of glare formed by the Shennong seven-color flame around the edge of the battlefield began a slow and continuous inward contraction.

"Hey..."

The momentary work, the vast void in the outer atmosphere of the Tianhe Star, immediately sounded a low humming sound, and continued...
