Chapter 4111: Undead bioenergy

The vast extent of the whole battlefield of the void battlefield has reached a radius of three to four million miles, even if it is the strength of the nine-step grand perfection of Ye Xuan's present-day star territory, plus the internal domain power of Shennong Ding, because Shennong The different flames have evolved to the extent of the seven-color flame.

Therefore, the power has been greatly increased, and it can be more thoroughly promoted by Ye Xuan, but such a wide range of widths is also his limit. can

It is said that if this piece of void battlefield is wider and hundreds of thousands of miles away, then even if Ye Xuan is fully urging the power of Shennong Ding, I am afraid that it will not be able to sneak out the seven colors of the flames of Shennong Ding. The land is surrounded.

In fact, this piece of the virtual battlefield of millions of miles, nowadays, although the seven-color flame sea that has been vented by Shennong Ding, like a dumpling, forms a colorful light curtain on the periphery, and the whole circle is round.

But at this moment with this huge and horrible light curtain, slowly and continuously retreating inward, all the mutant zombies touched all the way, but without all exceptions are all suppressed! This

It is also understandable. After all, the scene paving is too big. The whole scene of the light curtain shrouded the vast void of millions of miles, which directly led to the power of this seven-color flame sea, which was greatly weakened.

Dealing with the void in the void because of the numerous cosmic corpses exploded in the past, and the scattered zombie toxins and the nausea and pus in the colorful, there is no pressure. With

With the constant shrinkage of this flame sea light curtain, these disgusting puss filled with zombie toxins were squeezed without any suspense, and they are moving toward the center of the light curtain where Shennong Ding is at the foot of Ye Xuan, slowly moving... ..but

A large number of new cosmic zombies who had just finished corpse because of the zombie venom, were repaired as weaker ones. Although they were immediately blasted by the approaching flames, the whole body was turned into zombie toxins and pus. , pushed towards the central area of the light curtain.

Some of the more powerful cosmic zombies, in the slowly retracted flames of the sea of light slowly pushed around before and after, although they were immediately burned, and even more than half of the body of the zombies melted, but in the end, due to the flame curtain Power can be greatly weakened, and these cosmic zombies, even if they only have one head, can continue to survive.

At this time, the light curtains of the flames that passed through the body have already reached the front of their figure. If these surviving cosmic zombies have already avoided the shroud of the flames of the flames, they will escape to the light curtain invisibly... ..

Seeing this scene, the mosquitoes and old ghosts and the four immortal old monsters such as the fox python, Gonghua and Longshan Tang are instantly changed, and then hesitate, even if they rush out of the flame curtain, the figure appears outside the light curtain. , respectively, guarding one party. and

Each of them exerts great powers, and all the fish that have slipped through the net are pushed forward without hesitation, and once again, they fall into the interior of the flame curtain.

In this scene, Ye Xuan, who had just hung his eyes to the eyes of the blind man, suddenly breathed a sigh of relief.

With these four immortal grotesques sitting around the flames of the sea, all the netted fish will be thrown into the huge net pocket formed by the Shennong seven-color flame. and

These cosmic zombies were basically seriously injured when the previous light curtains were crossed, and similar injuries were once again. They were obviously unstoppable.

Big or no two times, three times four times is always enough. In short, for this piece, Ye Xuan no longer has to worry. will

After the sight was retracted from the periphery of the flame sea curtain on the edge of the battlefield in the distance, Ye Xuan was not distracted, and he devoted himself to control the power of Shennong Ding Field.

Time passed slowly.

Unconsciously, more than one hour has passed. in

During this period, the flame curtain of the flames that had enveloped three to four million miles was slowly and continuously retracted. Nowadays, the flame curtain of a giant bead has been reduced by a small half. More than two million miles.

But all the zombie toxins and disgusting pus, but there is no trace of omission, all are enveloped in the light curtain, and continue to advance to the center of Shennong Ding...

At this time, a large number of starships, all of which were shrouded in the flame curtains of the flames, are now a little outside the light curtain. Take

After Ye Xuan's cultivation of strength and the growth of Shennong's flames into the seven-color flame, his control over Shennong Ding's field power, now Ye Xuan, has been able to arbitrarily spur the seven-color flame sea for a differentiated attack. With the effect.

For this reason, almost all of the starships that were thrown out of the light curtain because of the contraction of the flame curtain of the flames, almost none of them have been affected by the flame curtains, even if they are damaged, they are all in the previous chaotic stars. Caused by the war. and

Moreover, when the flame curtains crossed the surface of these starships, all the pus and zombie toxins that were retained on the hull were taken away, and were firmly confined inside the flame curtain. Depart from

In these starships, but at the foot of the various starships, but a large number of federal people outside the flames of the sea, the stars and stars, until now, they are truly safe. very

You can safely step out of the starship without worrying about the cosmic void in the sea of the sea of flames, and the remains of zombie viruses...

In fact, there are indeed some strong stars who came out of the starship under their feet. At this moment, they stood in the void of the universe outside the light curtain, squinting at the front line of sight, and still steadily shrinking inward. Every one of them is full of dullness and disappointment.

Everything that happens is just like a nightmare. when

When a large number of cosmic zombies were born, when all the zombies of the universe were demolished, the whole body exploded and exploded without any warning. It's a time when disgusting pus and zombie toxins are rampant... he

We really didn't think about it. I can still have this moment of the present, standing unscathed outside the flame curtain of this zombie virus, like a spectator, leisurely and far-sighted to see the thrilling ahead!

Time has been passing.

Unconsciously, it is more than one hour passed.

As the flame curtain of the flames continues to shrink, its power is obviously constantly improving. Therefore, the speed of the entire flame-light curtain inward is naturally getting faster and faster. only

It was only a long time, and there were still more than two million diameter flame sea curtains. Today, the diameter is only tens of thousands of miles.

At this time, all the various starships that had not been destroyed in the previous chaos wars have basically been thrown out of the flames of the sea of light, and they are scattered in the void, but all of them are like spectators, quietly standing on the far side. In the void of the place, silently and quietly.

This scene is really spectacular and... weird!

Also in this moment, Ye Xuan's mind, the familiar system prompts, sounds without warning: "Hey, congratulations to the host, and found that the biomass is not dead! Quantity: difficult to count! Whether to swallow immediately, expand the quenching?"

Chapter 4112: Come together

Undead biomass? Yes

Do you swallow it immediately and start the quenching? With

The familiar system prompts in my mind sounded without warning, and Ye Xuan stopped on the spot! Following

However, his gaze fell to the corpses that were surrounded by the huge light curtain of Shennongyanhai. It looked like a colorful flower. Because it was gathered together, the color was very deep, and it gave a back at a glance. The feeling of cold. This

Kinds of things, what is it called undead? Can actually swallow, play the role and effect of forging the body?

Is this not a zombie toxin and pus? open

What joke? With

With these thoughts flashing in my mind, Ye Xuan once had doubts about the body's phagocytic system. It is really too good for the content of this sound. He is extremely aware of these zombie toxins and nausea pus. Just now, I saw with my own eyes how many stars and strong people were infected, and then directly corpse?

In this case, let Ye Xuan choose to unconditionally believe that the teeth give a positive reply, let the system devour these disgusting things, the psychological obstacles are not small...

With this uncertain mentality, Ye Xuan continued to control the field power of Shennong Ding, and evolved and compressed the zombie toxins and nausea pus around the void.

Time has passed another hour. The original Shennong flame sea light curtain has been condensed to a level of about a hundred miles. In this hundred-mile void covered by the flame curtain, there is already a starship at this moment. Can't see it.

All the starships were squeezed out of the light curtain after the purification of the zombie toxins on the hull by the flame sea light curtain. The federal citizens and star powers in the starships were completely safe. thing

In fact, at this time, Ye Xuan and Shennong Ding under his feet have actually come to this flame sea curtain. Shennong Ding can now be revealed in a complete form, which is so large that it can compete with a superstar. and

Condensed to the current flame sea light curtain, its diameter is only a hundred miles, and now it is located in the universe of the side of Shennong Ding in the virtual void, compared with the huge Shennong Ding, it is simply an insignificant little point...

The surface of a sphere with a diameter of only one hundred miles is a layer of colorful translucent flames formed by a light curtain. The inside of the ball surrounded by the seven-color flame layer is like a lake. Spotted liquid, all are zombie toxins and disgusting pus!

Just as Ye Xuan hesitated to deal with this highly toxic liquid ball, there had been a system sound before, and at this moment, there was no sign of it...

"Hey, congratulations to the host, and found that the biomass can not die! Is it swallowed immediately, and the quenching?"

! Again?

Ye Xuan stunned, and his heart suddenly hesitated. swallow

He is still very well aware of the urinary properties of the phagocytic system. Although it encounters resources that are beneficial to the system itself or to the system host, the system will actively issue a system prompt tone to ask whether to devour.

But in general, this kind of prompt tone is only one time. If the host refuses, or does not give any response, a similar system prompt tone, in a short time, is unlikely to appear again. can

Now, in just one hour, I asked Ye Xuan whether the system sound of the so-called immortal biomass could be swallowed up twice. This

Only one problem can be explained, that is, the opportunity this time is extremely important.

Moreover, the effect of the object suggested by the system is to phagot the quenching body. This importance is obviously for Ye Xuan itself.

It is not the phagocytic system in his body.

Since this is the case, Ye Xuan has to take it seriously. When he even slammed his refusal, he directly searched the so-called undead biomass in the system's data repository. Inquire!

Related data information was not available before, but now, the system is exposed to this immortal biomass energy, the system database has apparently been updated. leaf

Xuan easily found it, and looked through it. After a few moments, I finally realized it... God

In the imaginary side of the Ning Ding, the seven-color flame ball with a diameter of a hundred miles, the massive liquid wrapped in it is indeed zombie toxin and nausea pus, but at the same time, they are also the undead biomass energy mentioned in the system. Semi-finished products. If

It is now swallowed up directly, and the result is obviously self-evident, and it will die very badly. Do not

However, if some of the harmful substances, such as a part of the toxins, are refining, its properties and essence will change. If it is used for engulfing, it is one of the best resources for forging and quenching the body. Do not

Dare to say that it can be compared with the evil source liquid, but after all, the victory is large, so this is definitely a huge opportunity like a creation! complete

In fact, these disgusting flowers and green liquids contain the horrible zombie toxins, but they are formed by a large number of cosmic zombie explosions. In some ways, they are actually an energy, but they are special. Only!

Undoubtedly, in the seven-color flame ball on the side of Shennong Ding, there is a huge amount of water that has reached a radius of 100 miles. If all of them are swallowed up, Ye Xuan's own cultivation is strength. This time, I will definitely get a big jump...

At this point, Ye Xuan was excited. This

The creation of the field is almost doomed to belong to him, because the immortal biomass energy is a good thing, but the diameter of a hundred miles is so large that there is no such thing as the age of the gods. How to refine?

But for Ye Xuan, this problem does not exist at all. Read

Between the movements, he even shook the power of the field of Shennong Ding at the foot, brushed the ground, and the more magnificent seven-color flame poured out from the tripod, and the light curtain formed by the seven-color flame on the right side was completely The liquid ball wrapped in the envelope is spurted away, and the refining of harmful toxins is carried out directly...

Today's Shennong Flame has grown to the height of the seven-color flame. The power is not as strong as it used to be. It is even powerful. Even the corpse of the bonnet is only ten minutes before and after, and it is harmful. The toxin has been completely refined. this

At the time, the canopy was originally filled with a liquid of a hundred miles. Not only was the volume reduced to only about half, but the color was no longer so disgusting. It was the same as the Shennong Flame, which exudes the brilliant brilliance of the seven colors. It looks like a dream. It seems like magic.

However, this kind of immortal biomass can not be placed for a long time. After the internal toxin refining, the faster the use, the better. After a long time, the effect will be weak. Place

Therefore, Ye Xuan did not intend to collect a part to save, but directly jumped into this huge sea-like liquid, while screaming around: "To come together..."

Chapter 4113: Different from each other

It's not that Ye Xuan is generous, even this rare resource is willing to come out and share it with others.

It is really this so-called immortal biomass that is too special, can not be saved for later use, and this gorgeous seven-color liquid sea in front of you, there are dozens of squares, according to Ye Xuan, the devouring system As a result, he can't use it at all, at most two-thirds.

In this case, in the principle of no waste, naturally, only the other people present can enjoy this creation.

However, this kind of big good thing, he will not rush to persuade what, so, just simply recruited, who wants to come, does not come does not matter! Say

After finishing this sentence, Ye Xuan did not pay attention to it anymore. The whole figure was immersed in it, and then it was invisible. It seemed that it was directly swallowed by this huge colorful liquid.

All this happened too fast. Among the large number of starships surrounded by the void, all of them thought that Ye Xuan was a zombie toxin compressed in the refining flame sea light. After all, Shennong Ding's seven-color flame It has long been seen, and if it is not this flame, these zombie toxins are full of this void. Of course

The reason for the change was so fast, the blink of an eye, Ye Xuan, who was refining these zombie toxins, jumped into the corpse toxin that was dozens of miles in diameter.

Even while still leaping down, I turned around and waved to the powerful people around the imaginary sky, saying something... want to come together? I

by!

Come to a fart, this special is a pool of venomous venom that can poison people, is it because you are out of heart? I suddenly jumped down and took a bath with corpse, actually invited my companions?

These thoughts flashed through my mind, and the numerous star-studded powerhouses in a starship around the sky were suddenly stupid. especially

It was after seeing Ye Xuan's leaping into the sea of corpse, a thump would no longer take the lead. It seemed to be an instant poison, sinking into the depths of the sea of corpse, and most people were shocked. Like the Thunder, the whole brain is banging and completely messed up...

However, no one has thought of it. In the face of such a strange and terrible situation, there is actually no fear of death... Perhaps it is accurate to say that it should be rushed to death!

What is even more surprising is that there are more than one, but three, and three women! Xuan

辕紫莺, Duanmu tea, and Zhao Qianru! This

The three gimmicks were originally in a large fortress from the Heavenly Empire, but at the same time they plucked the fortress at the same time and did not hesitate to pluck the giant liquid ball that had drowned Ye Xuan in front. It

So, it's really that the three of them know too much about Ye Xuan. If the liquid in the sphere of tens of miles in diameter is really disgusting pus and zombie toxin, Ye Xuan is absolutely impossible to jump into it. of.

What's more, he finally waved a word, which made the three gimmicks more stable. when

However, more importantly, because these liquids have been condensed by the ever-shrinking flame sea light curtains, the three of them had stayed in Shennong Ding for a while, and the magical effect on Shennong's flames was better than anyone else. Clear and confident. and

At that time, the Shennong Flame, from the current seven-color flame, was obviously worse than a little bit. that

At that time, Shennong's flames had such power. Now, do you still have more to say?

Even the highly poisonous zombie toxins and nausea pus can be refining in a short period of time. As a result, these colors have changed from colorful to now colorful and colorful. It is already another one. A variety of substances, toxicity, but turned into a good thing. on

Lian Xiu, who has reached the star's main position, has jumped in without hesitation, let alone the three of them... You know, the three of them are still not even in Qiankun. Encounter

Can you miss this opportunity?

"thump!"

"Plop..."

The road rang lightly, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three gimmicks before all the people reacted, a plop would jump into the huge liquid ball with a diameter of dozens of miles. and

Moreover, the first time, like Ye Xuan, who had jumped in before, the whole body shape was swallowed up by the colorful liquid of the colorful...

This scene happened too suddenly, surrounded by the void, a starry battleship, a lot of exclamations sounded instantly, many people were scared to look pale, because they did not understand Ye Xuan, but no contact The Shennong fire from Shennong Ding.

Seeing this scene at the moment, the only thought in my heart is that these three gimmicks are also crazy, and they are not tired of picking up a clean way. They jump into this disgusting zombie toxin and pus...

"God, what have I seen? Is this all crazy?"

Four! In a blink of an eye, four people jumped into the venom of the zombie in succession. This is definitely the rhythm of the old birthday star hanging, lively and tired..."

Uh... This lady suddenly wants to vomit. These are all zombie toxins and pus. I look at the quirks from this far, and they actually jump inside. Is it not disgusting? "

"Too scary, too crazy..."

When I am finished, my idol, I can't open it for a while, jump into the zombie pus and die, I am not alive! ""

unfortunately! It's a pity, three little handsome girls, but the brain is bad, hey, hey..."

.....

Dozens of diameters in the immortal biomass liquid ball! first

After the work, Ye Xuan, Xuanyuan Ziyang, Duanmu Xiaocha and Zhao Qianru, all of whom were sitting in the depths of the liquid sphere at the moment, closed their eyes and entered the state of cultivation. in

They jumped into the same moment when the body touched these colorful liquids, and they already knew the benefits of this kind of thing.

There is no need for them to take the initiative to absorb. In this colorful liquid, there is some mysterious ability to follow the one hundred and eighty million pores of their bodies and keep drilling...

Feeling quite wonderful, the whole body inside and outside the limbs, bones and blood, every inch of flesh and blood, every cell, thus suddenly alive, cheering and accepting the baptism of this mysterious energy. although

There are also stings, not even general tinglings, but almost every second, they can feel their own flesh and blood cells are constantly strong. This

The strength of the flesh, and even the spurt of the cultivation of the sea, is amazing.

As a monk, even if it is not a monk who walks the road of refining, in the process of growing up, the difficulties and obstacles encountered will never be less, so a little bit of quenching pain, for them, is simply insignificant.

In particular, Ye Xuan, the pain that he suffered at the moment, compared with the ingenuity of the infernal ant liquid, is a world of difference, completely different from the Japanese...

Chapter 4114: Across the border

At this moment, Ye Xuan is full of joy! This

The immortality of biomass can be too strong, not only can it automatically penetrate into the body through the pores of the body, but also forge and strengthen each inch of cells in the body, and play a rapid role in the cultivation of the exercises in the sea. , far more than the infernal ant liquid and other quenched things.

The side effects are still so soft, although there is a sense of pain, it is really insignificant, and is not directly proportional to the harvest, he even feels that the whole body is full of ocean. can

The strength of strength and the strength of the flesh, but in this feeling, is constantly and rapidly climbing ... is simply making a big profit!

Time passed slowly. In the void around, a starship did not leave. It was still onlookers. However, although some star powers were plucked from the starship, they were only far apart. The distance stood in the void, and no one continued to jump into this huge liquid sphere.

Of course, some of the star-studded powers from the Arc de Triomphe, such as Naples, don't believe in Ye Xuan. They all decided that this is a fortune, but now the Lord and the three future mothers are bathing inside... Cough, it is inconvenient to bother. Place

So, even if you have the heart, you will jump in and get some luck, and get some benefits. They will eventually hold back.

Four immortal monsters, such as the fox python, Gonghua and Longshan Tang, also squatted in the void. The former three people stared at the liquid sphere with a diameter of several tens of miles, and flashed from time to time. Obviously, the mood is not calm at the moment.

With the eyes of their immortal grotesque, it is natural to see the extraordinariness of this awning liquid ball, although I don't know what it is, but according to Ye Xuan's previous actions and words, it is obviously a good thing. eye

Next, like the fox and the palace and the Longshan Tang are hesitating, whether or not they jump into it, have a cup!

"You three old guys are best to be honest. If you can make some good things, don't make up your mind, leave it for the younger generations?"

The wretched mosquitoes next to it sounded a timely warning: "And this thing is also Xuan Xiaozi himself condensed with the Shennong flame, even this time the Tianhe star zombie crisis, he found and solved, even let him It is also the righteousness for one person to enjoy the fruit alone!"

What's more, although this thing is extraordinary, it can't stand your three immortal whales swallowing the sea. If you three really jump in, Xuan Xiaozi's creation will probably fly. "

"If that's the case... then, don't blame the old man!"

In the end, the mosquitoes and sneaks sneaked in the glamour, and the tone was also swayed. He and the three old guys were fighting side by side, but everyone is actually not their own, facing this kind of thing, which What kind of politeness.

Elephant fox and Gonghua and Longshan Tang are all only in the middle of the immortality, and the strength of the mosquitoes and old ghosts has reached the end of the immortality. If

It's the three of them who really didn't listen to the advice. They didn't get the hand of Ye Xuan's creation. Once the mosquitoes were shot and stopped the three of them, it's not too difficult! listen

To his words, like the fox and the Gonghua and the Longshan Tang three turned to each other, exchanged a look, and finally gave up, shaking his head and laughing, there is no more discomfort. but

People have not left here, still standing in the void in the surrounding, obviously curious in the heart, want to stay to see the results...

Soon, two or three hours passed. During this period, a group of Ye Xuan's original squad from the Arc de Triomphe, under the design of Naples, took the battle of a triumphant squadron with a million warships. Through the starry sky channel of the Tianhe Star atmosphere, enter the interior of the Tianhe Star!

There, there is a good chance that some fish will be caught and must be cleaned up.

In addition, this star has been the secret base camp of the cosmic zombie army that has been plunged into the air for some time. The ghost knows whether he has left anything behind him, and this needs to be investigated. This

The Triumphant Corps, which entered the Tianhe Star, will carry out a carpet-style search inside the stars. At the same time, the entire Tianhe Star will be disinfected to prevent residual cosmic zombies.

In the end, it is the starry sky that is the intelligent center of the Tianhe interstellar network. It has been known through Ye Xuan that this starry sky is super-brained, and now it has been corpse, although it can not move, it is still in the stars of Tianhe In the network hub, but this is, after all, an intelligent semi-living body. In order to prevent it from doing small things, it is necessary to send people to control it as soon as possible...when

When all this was carried out in a tense and orderly manner, Ye Xuan and Xuanyuan Ziyan, Duanmu Xiaocha, and Zhao Qianru, had already fallen into the thrill of being cultivated for improvement and physical strengthening. Bubbling is no exaggeration.

I don't know how long it took, when the slight tingling sensation inside and outside the body disappeared, and the body's soaring strength was finally stopped. Ye Xuan's consciousness gradually became clear and opened his eyes! This

For a moment, in his mind, the familiar system sounds, like the tide, sounded again..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! Current realm: the first level of the domain! "

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the domain of the first level!"...

...with

The familiar system in my mind prompted the sound, and Ye Xuan's face appeared to be awkward because of an accident, but then, a huge ecstasy poured into my heart.

For a whole minute, the system sounds that sounded in his mind never stopped. Until Ye Xuan listened to some sluggishness, the last sentence finally came..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the domain of the ninth order of the main perfection! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the domain of the ninth order of the main perfection! "

The ninth order of the domain's main territory is perfect?

I am dripping, it's going against the sky!

Previously, his cultivation was only the ninth-order grand perfection of the star's main territory, but nowadays, even the nine small steps of Jin, directly across a large realm, has reached the current stage of the ninth-order grand perfection. One

A leap in a big realm, this horrible cultivation is a great leap in strength. Ye Xuan only experienced it once in the ancient heritage tower of the imperial emperor's inner city. but

Even that time, it can't be compared with the present.

After all, Ye Xuanxiu at that time was still weak, but now, before this advent, this time he has already had the perfection of the nine-step grand perfection of the star. which is

They are all a leap in a big realm, but the foundation is different and the meaning is completely different. This

Once, his cultivation is a sudden strength across a large realm, and it is still happening after the star's main territory. He dare not say that there is no one after, but in the three worlds of the present world, the main plane of the stars is absolutely unprecedented.

If it is spread out, I am afraid that countless people will be mad, especially those who have the opportunity to jump into this liquid ball, but who have never had any action...

Chapter 4115: Owner

The main ninth order of the domain is perfect! short

In a few short hours, Ye Xuan's cultivation has unprecedentedly surged into a big realm, and it's still the same as the flesh and blood. This

Absolutely significant.

After all, this is just the cultivation of his deity in the usual state. Once the body's konjac blood is activated, it will be even stronger!

The thought flashed through his mind, and his heart moved. Even when he activated the blood of the konjac in his body, in an instant, with the blood in his body, a supernatural konjac with a height of ten feet was born. three

The first six arms, fierce days. "

Ok? Actually only improved a small order? Only the first step in the world? "

After feeling the strength of the three-headed six-armed Taikoo konjac state, Ye Xuan suddenly stopped on the spot, only a small-scale repair was soaring, and his expectations were big! this

Before, when he was in the ninth stage of the Lord's Star, the strength of the ancient konjac bloodline was the fifth order of the domain.

Once the magic 猿猿变,,,,,,,,,,,,,施施施施施施施施施施施施施施施施施and

Now the cultivation of the deity has once again broken through and reached the nine-order grand perfection of the domain. Then, after the activation of the blood of the konjac, according to the usual practice, Ye Xuan's cultivation in the state of the three-headed six-armed Taikoo konjac should now reach the five The order is right.

Once you enter the fifth change of the konjac, its peak strength will reach the first level of the universe! can

Now, it has clearly activated the blood of the three-headed and six-armed Taikoo konjac, which has been repaired as a soaring strength, but it has not been the five small steps that have been made before, but has been reduced to only one small step!

After a brief embarrassment, he roughly figured out the key, and could not help but smile.

"Activating the blood vessels of the three-headed and six-armed Taikoo konjac, the reason why the strength of the martial arts and the physical strength of the body is greatly improved, is because of the power-adding effect of the konjac bloodline..."

But it is clear that this effect, as its strength is getting stronger and stronger, although it will still exist, it is absolutely impossible to always be so obvious."

"When it is said that the strength is weak, the konjac blood has an obvious effect on the addition of its own strength, so after the activation, the strength of the cultivation is large..."

Now, I have entered the ninth-order grand perfection of the domain, which is much stronger than before. The effect of the konjac blood on its own power is naturally not as obvious as before. The direct influence is to activate the magic. After the blood, the improvement of strength is still the same, but the magnitude is far worse than before."

"Now, the activation of the ancient konjac blood, the cultivation of strength is only a small step of climbing ... then the konjac change the magical power? Is it still changing, can continue to enhance a small step?"

"If this is still the case, it is not too disappointing. After all, with the change of the konjac, when I need it, my own cultivation is the strength, at least it can suddenly rise to six small steps... In the back, the stronger the strength, the more often a small stage is of great significance, and the improvement of the instantaneous strength of the six small steps is extremely impressive!"

When I try, I will lightly drink in his mouth: "The konjac changes... the first change!"

With Ye Xuan's violent temper, the next moment, the Taigu konjac body of the ten-foot-high body suddenly surged, and an inexplicable blood force suddenly swelled in the body and gathered into a similar tide-like force. will

The ancient martial arts of the three great real knives have greatly increased their strength. In the blink of an eye, only the body shape of only ten feet high has directly risen to a hundred feet.

Cultivation for strength: the second level of the border! "

The konjac changed nine times... the second change! "No.

After the second violent drink, the familiar feeling came again. The blood in the three real bodies rolled again, and the amplitude exceeded the previous change. Before the first change, the konjac was a hundred feet. Now, it has skyrocketed to a thousand feet! repair

For strength: the third level of the border! test

At this point, there is no need to continue any more. He has already determined that the magical effect of the konjac has changed, and there has been no change. Every change can make his own cultivation, and he will soar a small step. !

Now, Ye Xuan has realized the fifth change of this magical scorpion, which is equivalent to the improvement of the strength of the five small steps, plus a small step that is promoted when the konjac blood is activated...

If he needs it, his own combat power will be able to complete the basic stage of the ninth stage of the lord's existing domain, and soar up to six small steps to reach the sixth stage of the Lord! "

In the strongest state, the sixth order of the main? This is the peak of the mid-term of the world. If so... then break through a small step! "do

After clearing all the problems, Ye Xuan's fine flash of a man's voice flashed his fist in the subconsciously: "There is only one small step breakthrough, then the magic will be activated in the state of the konjac blood. When the Nine Years of Changes will be extended to the fifth change, by then, my cultivation will reach the seventh level of the border!"

"The sixth order of the current world is only one step, but one is the medium term, and the other is the later stage. The combat power is completely different."

In addition, the current cultivation of the deity in the normal state is the perfection of the nine-order domain of the domain. "

"Just break through a small stage, you can once again cross a big realm, from the current domain of the main peak, to the realm of the landlord ... this point, the significance is greater!"

Any of these two points is worthy of my immediate breakthrough. Although I have just experienced a big leap in the whole world, I will cultivate the strength and reinforce it if I don't hesitate to invest and consume it. It is entirely possible to pile up a small step. "

"At least, for the battle of the realm... it's worth a try!"

Having said that, Ye Xuan did not hesitate, and immediately lifted the **** magical power of the second change of the konjac, and broke free from the blood state of the three-headed and six-armed Taikoo konjac, and restored the human body. It is still the same as before, and the knees are in this huge liquid circle. Sit down in the depths of the ball..."

call out! "

"Hey..."

With the faint sound of breaking the air, Ye Xuan took out a lot of cultivation resources from the immortal world, and any kind of release to the outside world can cause sensation and madness. but

Now, he almost took it out at any cost, but only for the purpose of breaking through a small order. this

If things are passed out, I don't know how many star-studded powers have to hammer their chests. first

Tianyin cold spirit liquid, smelting lotion, scorpion venom and **** ant liquid refining through Shennong's different flames, including ten drops of evil source liquid, hundreds of nine-color nine-color star nuclear source, a large number of gossip silver crystal. Take

And the highest level of refining in his hands, originally intended to break through to the domain's main territory when the ninth order of the star's main body is perfect, but now it is not enough to use the seventeen liquid...

All the cultivation resources of this forest have been thrown into his mouth by all his bones, and then he closed his eyes and started the final and most crucial refining and breakthrough...

Chapter 4116: Three gimmicks are crazy

For this time's impact bottleneck, Ye Xuan is very determined, but the heart is said to be no flaws, it is absolutely false. because

For him, he hasn't refined the 18th grade liquid yet! from

From the beginning of the interruption of the practice of the caves, he has always been the road to quenching through the genetic culture fluid. Although the follow-up exercises of the ancient caves have been obtained, the repair of the exercises is based on Comprehension, the speed of ascension is slow, and the evolutionary path of forging and quenching the body, as long as the physical strength is reached, the body's potential to tear in the body can break through.

Therefore, even after getting the follow-up exercises of the caves, Ye Xuan has always been a double-education, a realm of cultivation, and a realm of flesh and blood.

But in fact, after so many times, the practice of making breakthroughs in the practice of the law and driving the power of the flesh and blood has also broken through, but only once.

The rest are all through the forging and quenching of the flesh, to achieve the breakthrough of the realm of the body and blood, and to promote the breakthrough of the work.

For example, this time, the same is true. He broke through the retreat and tried to repair the bottleneck, but it was not through the way of enlightening the hole, but as usual, it was still starting from the flesh! but

Yes, the physical body breaks through the domain main territory to the boundary of the main territory, what is needed is the 18th grade liquid! ten

The sixth grade liquid can make the star master. ten

The seven-level liquid can create the domain lord. ten

The eight-level liquid and the nine-stage liquid are made by the lord and the universe. only

Yes, the sixteen-level liquid and the seventeen-level liquid Ye Xuan have been in hand, and have been formulated. Before the breakthrough from the ninth-order grand dynasty to the first-order star, the sixteen-level liquid has been used.

As for the seventeenth grade liquid, he has not yet had time to use it. He has crossed a big realm and changed directly from the ninth order of the star territory to the ninth order of the current domain. This

Originally unreasonable, since it is the way to strengthen the body, the gene culture fluid has always been used, then, from the 9th order of the star master to the first step of the domain master, the 17th grade liquid is necessary.

This special case may be related to the massive immortal biomass energy that Ye Xuan Shicai has collected.

But this special case is only once. At least, although he is still in the liquid ball of this canopy, but because the color of the liquid is already very light, basically can not absorb the mysterious undead biomass energy... and also

That is to say, from the current stage of the ninth-order grand perfection, to the boundary of the realm, Ye Xuan can no longer be as good as the appropriate, relying on the unexpected opportunity to break through, most of them need a tube to create the eighteen Grade liquid!

It's a pity that the 18th grade liquid and the 19th grade liquid are not in his hands. They have to prepare all kinds of top treasures of the top treasures. At least they have to think of ways from the hands of the old masters. He has not had time to make up. Qi!

There is no eighteen-level liquid. This time, the breakthrough is very likely to fail. It is for this reason that Ye Xuan will be stunned, and his teeth will take out a large amount of top resources that are terrifying in total from the immortal world...

In fact, even so, it can only be regarded as a right and a try, whether it can be successful, but now is still unknown! ...

...

I don't know how long it took, when the slight tingling sensation inside and outside the body disappeared, and the body's soaring strength was finally stopped. Ye Xuan's consciousness gradually became clear and opened his eyes! This

For a moment, in his mind, the familiar system prompts, unexpectedly sounded again..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first level of the border! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood; the current realm: the first level of the border!"

The first step! Finally... successfully broke through!

Ye Xuan gripped his fists tightly. At this moment, he had the urge to scream in the sky. From

The nuclear world has been repaired to the current lord of the world. His cultivation has spanned 18 major realms, and all of this has been completed in just two or three years.

If you put it in the past, even Ye Xuan himself will never believe it, even dare not think about it! and

Today, he can finally be regarded as a strong person, and the superficial leader is even far from his real strength! this

Before, when he was in the ninth order of the main domain of the Zun domain, the strength of the ancient konjac bloodline was the first step.

Once the magic

Now the revision of the deity is once again a breakthrough in strength, and finally enters the first level of the boundary of the realm. Then, after the activation of the blood of the konjac, Ye Xuan's cultivation in the state of the three-headed six-armed Taikoo konjac can reach the second level of the boundary.

Once you enter the fifth change of the konjac, its peak power will reach the seventh level of the border! boundary

The seventh stage of the Lord is already the combat power of this period, and it is completely different from the mid-term peak of the sixth stage of the previous landlord.

If you add Ye Xuan's various treasures, Xeon's **** magical powers, now he is completely confident that he will fight against the old monsters in the middle of the immortal and even later, and defeat the battle! although

However, it is still impossible to resist the immortality of the seal, and may even be slammed, but after all, from that level, it has taken another big step, close to too much...

It can be said that this time the harvest is absolutely unprecedented. In just a few moments, what Ye Xuan got is a gorgeous transformation that is almost reborn! on

In the heart of his heart, the tides of the ups and downs, the right side of the distance, suddenly came three incomparable joyful exclamations, not the voice of the true words, but the voice of God, after all, At this moment, he is still in the liquid sphere..."

Wow! Too comfortable, it is 10,000 times more comfortable than the bubble spring... No, even if all the spirits that Miss Ben has soaked together, and then 10,000 times, it is not comfortable this time! ""

What is it comfortable? The key is the benefit... What is this zombie toxin nausea pus? It's just the supreme treasure of heaven and earth. This lady has been practicing for so many years. I have never felt such a painful cultivation to improve the speed. It's like flying, brushing up..."

It's not just the strength of the practice of martial arts, but the strength of the young lady's body has also improved a lot. God, is this the legendary fellow practitioner? After taking a bath, our practice of repairing the power of the body and the blood of the flesh is actually synchronized. This is definitely the rhythm of the same level of existence..."

Obviously, this is the voice of the gods of Xuanyuan Ziyan, Duanmu Xiaocha, and Zhao Qianru. Listening to the meaning of this language, the three gimmicks are obviously benefiting from this, and there is a kind of happiness in the tone. The feeling of being crazy. brain

These thoughts flashed through the sea, and Ye Xuan subconsciously extended a glimpse of the past to explore the current cultivation of these three gimmicks.

In the next moment, when the results were fed back into my mind, Ye Xuan was almost stunned by the liquid in her mouth.

The repair of these three gimmicks is actually the first step of the star master!

Chapter 4117: The zombies are ending

I have to say that after seeing Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru's three gimmicks are now being repaired as strength, even Ye Xuan is scared.

Because the three of them had previously cultivated their strength in the 14th state, and now the main territory of the star is the 16th, and there is a fifteenth in the middle, which is directly Just jumped over.

Ye Xuan has also crossed a big realm, but all three gimmicks have spanned two big realms. Before that, the great powers were not, but now they are already the stars.

Moreover, the repair of the three gimmicks before the celestial glory was only a practice of the martial arts. They did not follow the path of quenching the body. Therefore, the realm of the blood and blood of the flesh did not even reach the state of the universe.

But now, not only has become the star lord, but it is still the master of the martial arts, and in the same level of the star lord, it is absolutely the existence of the crushing of the other side!

This creation is definitely bigger than that of Ye Xuan. However, this is also a very normal thing. After all, the three of them were originally weak in strength, but they almost jumped into the unbreakable biomass with Ye Xuan. Can be among the liquid giant balls.

Now all the special biomass can be completely absorbed, even if Ye Xuan can get more, but the Xuanyuan Ziyan three gimmicks absorb obviously nowhere.

In one fell swoop, the accomplishment of the main character of the star is actually understandable...

"Oh, it seems that there is a sense of God sweeping over, and the atmosphere is quite familiar, that is the big bad guy over there!"

"When it's over, let's peek at him. This guy is really bad. It's too anxious, it's all wearing clothes, he is coming over to peek, hungry!"

"But... Zi Yan sister, Qian Ru sister, we seem to be taking a bath with him, and the baths are soaked together. Is it really important to look at it?"

what....."

"I almost forgot, damn, how can we be here? It's cheaper for him. Actually, I dragged a bath with the bad guy, and I'm going to be shy, let's go..."

Xuan was just taking back the knowledge of the gods. The three gimmicks that were excited at that moment turned their attention to the environment and situation in which they are now. After two sentences, I thought it was a word from Duanmu Xiaocha. Did not remind, Xuanyuan Ziyan and Zhao Qianru actually burst the nest in an instant, the voice of God screams again and again!

"call out!"

Oh..."

Soon, the sound of the splashing sound sounded, the three gimmicks clearly dressed in clothes, but the reaction was like a bare bubble with Ye Xuan, screaming and escaping, the body spurt away, blink of an eye It rushed out of the big liquid ball that was no longer colorful.

Seeing this scene, Ye Xuan's face was black, indicating that he had suffered 10,000 points of damage, but in the face of these three gimmicks, he had no choice but to shake his head and smile, and his body swayed and then rushed out...

.....day

River star, the universe in the void outside the atmosphere!

In fact, now, this accident is coming, and the cosmic zombie turmoil that shocked the three major star planes today is completely over.

Because even the Neapolitan sentiment to the Tianhe Star for the final search, as well as the full-scale disinfection of the millions of warship-sized triumphant fleets, has now been out of the Tianhe Star, stopped in the universe near the atmosphere of the void.

Time, the distance from this clean-up fleet into the interior of the Tianhe Star has already passed two or three hours. and

At this time, all the star-shaped ships that have been waiting around the void, as well as the star-studded powers who have been in the universe with the flesh, have quietly started whispering again after a long time.

Of course, the object of discussion is still the liquid giant ball with a diameter of dozens of miles...

"The time has passed six or seven hours. Do we still have to wait like this? Why don't anyone go in and see, they are four... Are they still there?"

"What is still not there? Didn't you see four people sitting cross-legged in a liquid giant ball? After several hours, the original colorful liquid has become clear, and the four figures inside are clearly visible. Yes... I don't know if there is any gas!"

"It is estimated that the liquid giant ball with a diameter of several tens of miles has changed from the original colorful color to the current clear water. It is obvious that all the zombie toxins have been absorbed by them. Even if there is still gas, it is estimated that it is not People are... absolutely cosmic zombies!"

Not to mention, this is really the case. Look, the three gimmicks move..."

"The corpse has changed, this is definitely a corpse change!"

hiss! Star territory? When these three gimmicks entered, wasn't it just a matter of time? How many times broke through two big realms? How can this be? Absolutely a corpse change..."

"I rely on! Behind it is a bit more fierce. When I go in, I will be in the main position of the star. When I come out, I will come out again. This is the main thing... In addition to the corpse, who can repair the strength so fast?"

"Boom! Immediately killing..."

... with

The sound of these exclamations rang, and the imaginary air around them quickly became more and more lively. Some people even began to yell at Ye Xuan and three hoes. Do not

However, more star-studded strongmen still do not move, but the face is vigilant, with suspicion, obviously still some are not willing to accept such a reality, the first person who is so enchanting, actually for the cosmic universe zombies It is too horrified.

"Fart, who is the cosmic zombie? Then chaos, the old man banged him!"

The face of the fox scorpion was gloomy in an instant, and the force was spread out. The scorpion came down, the pressure of the immortal blame swayed the whole piece of the void, and the star-studded powers who were screaming to suppress Ye Xuan were immediately As if he had been licked his neck, the words in his mouth stopped.

At this time, after rushing out of the liquid giant ball, Ye Xuan had removed the layer of Shennong seven-color flame wrapped around the surface of the liquid giant ball and re-into the Shennong Ding.

Then, waved again, like a giant star, Shennong Ding, who was born into the immortal world.

"Oh la la..."

As the Shennong seven-color flame wrapped on the surface was removed, the liquid giant ball that lost its support force was dispersed in an instant, turning into a clear liquid of water, floating in the void of the universe. with

Compared with the state of the green **** pus and the seven-color spotted state after the refining of the Shennong fire, these liquids are already the purest water, not only without zombie toxins, but even directly.

Of course, the people who really do that are naturally not available. Although all the toxins have been refined, even the energy after the immortalization of biomass energy has been completely confiscated, but these waters are Not long ago, it was one of the elements of zombie pus. true

If you want to drink, think about the scene you saw before, the psychological barriers are too small, I am afraid that no one is so big...

Chapter 4118: Gas transportation belongs to

At this time, the star-studded powerhouses in the emptiness around the sky all reacted. It was found that Ye Xuan and Xuanyuan Ziyang, Duanmu Xiaocha and Zhao Qianru were not infected with any so-called zombie virus. fine

If you think about it, you can realize that when the liquid is still zombie toxin and nausea pus, the color is extremely obvious, and it looks like the scalp is numb.

But later, when Ye Xuan took out a mysterious fireworks of seven colors from Shennong Ding for the second time, after refining the liquid giant ball that had already condensed to a hundred miles diameter. This

The color of the liquid giant ball changed again, and the former flower and green became the color of the later colorful. Although it is still colorful, it is no longer the kind of disgusting color. A dreamy jewel-like feeling.

At that time, the original liquid giant ball with a diameter of 100 miles was once again refining a large part, and only the remaining thirty or forty diameters. This

The zombie toxins and pus in some of the liquids were clearly refining at that time.

If this is not the case, Ye Xuan will not jump into it without hesitation.

That is to say, when Ye Xuan jumped into the liquid giant ball, the giant ball was no longer a zombie toxin and a disgusting pus, but a kind of cultivation resource refining through that kind of thing.

And Ye Xuan and the three gimmicks that jumped into it later, the reason for the improvement in the short half-day, Ye Xuan itself directly from the previous star territory to the current realm. that

The three gimmicks broke through the former dynasty of the dynasty, and almost all of them crossed the two worlds. The real source is the colorful spots that exist in this liquid giant ball. Mysterious resources and material. can

Unfortunately, those resources and materials have long since disappeared, and it is precisely because of this, this huge liquid giant ball will be turned into pure water! meaning

Knowing all of this, the universe around the sky, there are countless people hammering their chests at a time..."

God killed, just now, I missed a chance to become a star lord in an instant..."

The playing is yes, the lucky woman... No, the lucky male **** has already called the old man, and he also kindly reminded me that he wants to come together... However, for a moment of hesitation, I finally missed it! ""

What are you doing? After all, you are still hesitating. I am Ye Xuan's diehard fan. Just now he summoned me, I have already taken a foot. The result is pulled by the guy, saying that the zombie toxin, let me not go... What about human guys? Come out, I promise not to kill you! ""

Hahaha... Star Lord! My Xuanyuan's purple skull has turned into a star lord, wow haha, or the two have a heart and soul, others are hesitating, but the old granddaughter's granddaughter rushed out without hesitation, even if it's a zombie venom. No fear, this is really more than Jin Jian, too touching..."

"Xuanyuan old man, do you still have to face? What are the two couples? What is better than Jin Jian? Ye Xiaoyou is obviously our little tea, that is the future granddaughter of the old man! Oh, Zhao old man, why are you giving me a beard?"

"The granddaughter's granddaughter, you have to grab, what is your aunt's beard? Didn't you see my family Qiantou also jumped in? She and Ye Xiaoyou are true love..."

"I rely on! Where are the three crazy old men? I haven't grabbed the fortune, and even the people have not let go. Is it even more shameless to recognize relatives on the spot?"...

...with

The screams of the surrounding screams began to scream, and Ye Xuan's face gradually darkened, especially when he saw the grandfather of Xuanyuan's sable and two other old men suspected of Duanmu Xiaocha and Zhao Qianru's grandfather. I am my granddaughter. From

In the face of countless star powers, after actually hitting it, Ye Xuan was shocked and stunned. The face that had just turned black was green. Look

Come here is really a place to stay, or to leave quickly, at least to avoid this scene, otherwise, in case the three old man who has no face and no skin can not argue, will run to face to face Proof, then it will be really troublesome.

It is estimated that no matter what kind of answer is given, it has to be hated by the three gimmicks of Xuanyuan Ziyang. to

Don't say anything, keep silent... Sorry, it's estimated worse! miss you

At this point, Ye Xuan was not calm, and quickly urged the body to repair the strength, said: "You, everything has come to an end, this matter, Ye Xuan also has to leave ..."

At the end of this, I would like to declare it again. Although this time the Prince's press conference was a blind man, the ultimate goal was to confuse the cosmic zombies in the Tianhe Star, to prepare them, to lay down heavy soldiers, and to annihilate them in one fell swoop. But everything that Ye Xuan said before is true, the name of Xuan Huangzi, please don't mention it later! ""

I am me, I am Ye Xuan! "

"Farewell!"

At the end, Ye Xuan did not stop, turned and rushed to the star channel of the Tianhe Star atmosphere behind him. The reason why he did not leave the star field directly, but went to Tianhe Star because there was a zombie starry sky super brain. Waiting for him to collect it. and

Today's Tianhe Star has been taken over by the triumphant squadron of Naples. The atmosphere's star passages are heavily guarded, so there is no fear that the star-studded powers behind them will swarm and follow.

As Ye Xuan's figure disappeared, he entered the star passage on the atmosphere of the Tianhe Star, and the numerous star-studded powerhouses in the emptiness around him stunned and then talked again.

Previously, because of the sudden arrival of the zombies in the universe, the elbows had changed, and they had already forgotten the news conference of the emperor. but

At this moment, I heard Ye Xuan reminded me again that all the talents recalled everything before the appearance of the zombies, including Ye Xuan's move in the process of fighting the zombie emperor's battle against the wind.

Time, almost all eyes, all looked at the three immortal geeks of Longshan Tang, Gonghua and Xianghuyu, with eccentricities and whispers. This

The arrival of the three old guys, representing the two camps of the Terran, and the Federal headquarters of the Vatican, was originally said to return to the immortal star. but

It seems now that people's Ye Xuan clearly does not have this meaning. Do not

But I didn't plan to return to the immortal star. I listened to his tone. It was clearly the identity of the Emperor Xuan, and I didn't plan to use it anymore. miss you

Thinking is also, people are the seven enchanting one, in addition to Xuan Huangzi, the other six identities can all be the existence of the enchanting level of the world, so the capital of the day, simply unprecedented, no one after the end, it is necessary to end the immortal dynasty? thing

In fact, on the contrary, from the current situation, the name Ye Xuan, now confirmed, represents the air transport of the three major star planes.

In this way, not only does he not need to go to the immortal dynasty, but he is afraid of being the two camps of the Terran and the Federation of the Bandar, and he has to turn his head to come to him.

Chapter 4119: The dynasty showed good

In the face of the whispering around, four of the immortal grotesque, the mosquitoes and the old ghosts are the most unresponsive ones. They looked at the other three people, and they snorted in the nose. When they were swaying, they also turned to the river behind them. The star passage of the star atmosphere rushed over.

The blink of an eye disappeared!

The remaining elephant foxes and Longshan Tang, Gonghua and the three face-to-face look, the face looks quite weird.

In the capacity of the three of them, and the purpose of coming to the Tianhe Star this time, the current situation... It's really awkward. Hall

When did you encounter this embarrassing situation?

In particular, there are countless Terran Stars and the federal people in the surrounding emptiness, almost all of them are looking at each other with strange eyes...

It's just that the three old guys are in the back, but they are not walking, and they are not staying. It's not like going into the Tianhe Star together. It's so depressed!

Of course, like the old fox, this old cargo is loaded. Do not

His clothes are only only six or seven points, and the other three or four points are actually true.

It's just that this kind of depression is not because of the embarrassing situation that he is facing now. He had already invested in Ye Xuan, and he is the own person of Ye Xuan's camp. He is also a member of the Wanluo Federation, and he has no relationship with him. he

The reason why I am depressed is because my heart is regretted and my intestines are almost green.

Appropriate, Ye Xuan jumped into the liquid giant ball and waved a sentence to come together. After such a discourse, he did move his mind and almost rushed out. can

The action is still a slow one. When the three hoes rush into the liquid giant ball, he is also preparing to move. The warning words of the mosquito-killing old ghost have already been said. It is impossible to share a piece with the past!

For him, this is definitely a loss of fortune. that

In the liquid sphere with a diameter of thirty or forty, the mysterious resource material is obviously massive. Although he has a medium of immortality, there is no possibility of directly crossing a big realm.

But even if it is just a small step, it is ok.

After all, under normal circumstances, he wants to cultivate from the middle of the immortal to the late stage of immortality, fearing that there will be no hundreds of thousands of years, it is impossible!

The practice of thousands of years of practice, lost in a moment of hesitation, whoever puts such things on, fears that they will have to repent for some good days...

In addition to the elephant fox, the other two immortal grotesque, representing the palace of the ten heavens and the palace, but also stunned, but at least barely able to pass.

And Longshan Tang, who represents the immortal dynasty, was shy and his face turned into a monkey. he

Can you not be ashamed?

Previously, when Ye Xuan was in the Devil's Star Field, he took the initiative to mention to him that he had to form an alliance with the Terran. The Terran included the two camps of the Immortal Dynasty and the Ten Heavenly Palace. But this alliance, Ye Xuan was with him. I am looking for an immortal dynasty, not a ten-day palace.

This alone shows that people still remember the unspeakable friendship between the dynasty and the dynasty. Even if the dynasty arrived at the immortal star, it would directly distribute the family to the death star...

However, in the face of the good intentions of others, he did not hesitate to reject it, and even uttered irony, saying that people are arrogant.

As a result, it didn't take long for people to change into a place where the current world's atmospheric transportation belongs, and it also directly shows the true identity, the seven enchanting ones... but with the immortal dynasty, there is no half-money relationship!

Is this just a face?

It was just a creaking sound, even if the face of Longshan Tang was thicker, I couldn't sit still at the moment. If

According to his temperament, such an embarrassing situation, fearing that he had already turned away with shame, but he came here this time, but the entire immortal dynasty represented, now things have evolved into such awkward situation, the imperial side is impossible Someone will be willing to come over and take over his mess to deal with this.

Therefore, even if he is ashamed, Longshan Tang can only recognize his nose and keep his scalp, and deal with everything afterwards!

At least, Ye Xuan's relationship must be repaired. People now represent the air transport of the three major star planes in the present, facing the looting of the coming world of imperialism. The attribution factor of air transportation is really too important. The survival of a family of relationships cannot be ignored by him.

Under the thoughts, the elephants, the dragons and the palaces, and the three immortal eccentrics all turned and returned to the flagship fortress in the fleet they brought.

Although the current Tianhe Star is controlled by the zombie starry sky super brain, there is no regional satellite network signal, but the star network signal of the small country in the upper level still envelopes

this star field, but the signal is weak. Something is gone, but at this level, it is linked to the imperial star of the imperial dynasty, and the Tenth Palace of the Tenth Palace in the comprehension camp, but there is no problem at all. three

The old guys are now rushing back to their flagship fortress, which is to ask for advice from their own high-ranking principals. when

However, everything that happened here, and this morning is already known as the three major stars in the world. It

The former Prince's conference was broadcast live to the three major stars. Later, although the cosmic zombies in the Tianhe Star were born, they caused great riots and terrible changes, but the stars and the sky were responsible for the live broadcast of the stars. The media fortress, but did not stop working, struggled on the front line, all the scenes, all passed out...

Not to mention the palace of the Ten Heavenly Palace and the elephant fox of the Federation of the Vulcan, the Longshan Tang, which represents the arrival of the immortal dynasty, entered the township's flagship fortress and passed through the layers at the first time. The speed was linked to the emperor's cabinet. This

The once-changing accident was too alarming. The entire emperor's cabinet had already been fully fry, and the holographic stereo image in front of him was in chaos. and

After receiving the communication signal from Longshan Tang over the past, as the holographic stereo image flashed, the close-up image appearing in the Longshan Tang line was a long-awaited imperial dynasty that was immortal and almost scared him. A glimpse, sit down on the ground.

"Little Tangzi, the old man over there has already known all the things. Now the whole old cabinet has been blown up. You have done a very ridiculous thing about this matter. Did you even receive a little wind beforehand?"

"A person who belongs to the world by the world has been pushed to the opposite side of the dynasty by you, are you... are you special?"

The white king of the black-haired black is still immortal, and he said that he didn't have two sentences but had no intention to directly blow his beard and blink his eyes. He was so scared that Longshan Tang's knees were soft. This time, he really fell down to the ground... "

Give you another chance, pass on the will of the king, Tianhe Star, and give it to Ye Xiaoyou. I hope that with this opportunity, I can seek the possibility of repairing it with you... you, let it be! "

Chapter 4120: Swallowing zombie super brain

After entering the interior of the Tianhe Star through the star channel of the atmosphere, the eye was bleak, and Ye Xuan was in the air. Looking at the familiar Tianhe Star, it was cold and clear at the moment, and it was rare to see several figures, and could not help but shake his head and smile. Correct

Yu Tianhe, he is still quite emotional. After entering the starry environment, Tianhe is the first life planet he touched, and even Ye Xuan's federal identity and interstellar mercenaries are registered here. package

He was born two times before and after, and shocked the three major star planes, all of them are here. This

Once, he came to the Tianhe Star and took the initiative to show his identity. Although the section of the Emperor Xuanzi had ended in the past, it did not mean that even such a special case of Tianhe Star was buried in the past... more

Business Panel, the space around the sky from the ninth of the stars, due to the extremely narrow angle of the celestial space, the very wide frigid space, the sag is covered, It has not been discovered until now. Do not

However, with the passing of the past, the world of the wilderness is coming soon, and the exposure of the Nine Stars is afraid of it sooner or later...

Standing at the height of the Tianhe Star, Ye Xuan lost his mind for a moment, and his thoughts flashed through his mind, inexplicably feeling!

After a long time, he shook his head with a wry smile, whether it was the Nine Stars, or the ancient planet he really came from, and now he can't recover and take care of it. Just know that they are safe for the time being.

Now what he needs to do is still stronger, stronger, and constantly stronger! surface

For the vast world of the world that does not know when it will come comprehensively, he is now only the strength of the main territory, it is still too weak and too weak! shake

After shaking his head and temporarily opening the feelings in his mind, Ye Xuan's body shape fell to the main mainland of the Tianhe Star below.

Here, Tianhe City stands on the edge of the main mainland, facing the sea, the original weather is tens of thousands, but now there are not a few figures, only the strong person who is responsible for taking over the Triumph Army here occasionally come and go!

With the arrival of Ye Xuan, Naples, which first entered the Tianhe Star, quickly rushed over: "The Lord, the entire Tianhe Star has been searched and cleaned up, and the zombie toxin has no residue, including the location. The zombie nest in the military base deep in the Tianhe Sea..."

Come, this short half-day time, under the carpet search of a large number of triumphant squadrons, the extension of the wind in the crouching place of the Tianhe Star, was finally found.

"This kid is really hiding. He actually hides in the military base deep in the sea. As the secret base of the Tianhe Star garrison, it is definitely a large-scale array of hidden atmosphere. It is the best place to crouch. Why didn't you think about it?"

To the words of Naples, Ye Xuan suddenly came to realize, and laughed. "

There was no other discovery in the secret base of the military. After all, the extension of the wind has decided to withdraw completely. Afterwards, the Tianhe Star must be fully searched, leaving behind any rear-hand layout, and it can't be hidden. It doesn't make any sense..."

After taking over the words, Naples answered: "At the moment, only the Tianhe Star's star network network master control room has been processed in the entire Tianhe Star. It has already been checked, and the starry sky super brain that is the intelligent center of the Tianhe Star Network is still Yes, it's indeed zombie, but I don't know why, but it's not dying because of the fuss, and now we're under control..."

"This is a bit strange!"

Listening to the reminder of Naples, Ye Xuan was shocked: "Take the wind as the source of the toxins of this cosmic zombie group. The entire cosmic zombie group is derived from his blood. Once he falls, all the zombies will be together. Explosion, the loss of one loss is the truth, this matter should be determined by the particularity of the cosmic zombie virus."

Before the extension of the wind, all the cosmic zombies exploded in a flash, even including the four zombie behemoths that had swallowed each other and evolved into the middle of immortality, but they left this one. The zombie starry sky is unscathed..."

"This is indeed a bit weird... take me to see it!"

Noah nodded, did not say anything, turned around and led the way, after a few moments, he brought Ye Xuan to the Tianhe Star Network's general control center under the star government. Vision

In the line, one is about the size of a human head. It looks like a soft-limbed animal, but it has no face and no face. It is more like a legendary old-aged thing, lying quietly in a training trough that has been set up forbidden.

This thing is slightly reddish in the blue, looking at some weirdness. At this time, it seems that someone is coming, shaking it slightly, causing the light blue gene culture solution to soak the whole body, and the waves are slightly raised.

This thing is the starry sky super brain as the intelligent center of the Tianhe Star and Sky Network. Of course, it is the ordinary level of the star brain, not the two like the immortal star and the heavenly city. It is the superstar of the top star of the immortal level. .

But this starry sky super brain level is ordinary, it is estimated that today's three major star planes, but can no longer find a second one, absolutely unique. because

For it has been zombie, and strangely not because of the fuss of the emperor of this cosmic zombie group, and then die out! or

Xu, this is due to the existence of the characteristics of the starry sky super brain.

Because the starry sky super brain is not even a real life, it is similar in some respects to the so-called too old, between the living matter and the non-living matter.

It may be that this factor has caused it to be zombie, but it has not been annihilated with the fuss of the emperor of this cosmic group. when

However, this is only a speculation of Ye Xuan. The specific truth is whether it needs to be studied and explored before it can be determined. Do not

However, this matter may be a headache for other people. It requires a variety of detailed research and analysis, and even deduction. But it is not a problem for Ye Xuan. His body's engulfment system solves such problems. It's just a hand.

At this time, just as Ye Xuan intends to contact the phagocytic system in the body, through the system to explore the corpse of the starry sky super brain, in the end, what is wrong, his mind is extremely abrupt, abrupt A familiar system sound was heard. "

Hey, congratulations to the host, and found the mutated starry sky super brain! Do you want to swallow immediately? "

"Hint: There is a certain risk of phagocytosis!"

"If successful, as the growth level of the system's affiliated personal star network communication control center, the immortal astrology is very likely to enter maturity!"

If it fails, the consequences are unknown! ”

"The system results are as follows: 60% chance of success! 40% chance of failure!"

"Is it going to swallow right away..."
