

Super D. S 4121

Chapter 4121: Take a chance

Variant starry sky super brain?

Devouring?

As the growth-level star of the system's affiliated star-space communication control center, it is very likely that it will enter maturity in one fell swoop.

These words flashed in my mind, and Ye Xuan's face instantly showed a shocking color!

How difficult it is to evolve such things as Starry Sky Super Brain, but he knows it very well. If this is not the case, the three major star planes of today's world will not develop such a long time. Until now, there are still only two. The immortal level of the mature body is super brain.

One of the intelligent centers of the immortal star, the immortal dynasty and the Venus Federal Star Network is it. One

In the Tianji City, it is the base camp of the Tianji Nationality. The intelligent center that has disappeared and I don't know where to go! and

In the hands of Ye Xuan, there was only one piece of immortal starry sky super brain, and it was because of this piece of immortal starry sky super brain that Ye Xuan was able to open the personal starry sky communication system attached to the body's engulfing system. open

After launching the personal star communication system, Ye Xuan is equivalent to carrying an interstellar network with him. Even without modern technology equipment such as warships, he can stand alone in the universe and through the personal interstellar communication system attached to the internal system. Refused to the internal star network of the nearby administrative star...

However, even Ye Xuan later invested in a vast amount of rare resources to help this immortal starry sky evolve into a brain, and now it is only from the previous fragment level, into the growth period.

From the final maturity period, it is nowhere in sight!

At the moment, let this immortal starry sky super brain that has just entered the growth stage, through the evolutionary transformation, break through, and the opportunity to advance to maturity is in front of us.

To say that Ye Xuan is not heart-warming, it is absolutely a ghost! he

In the hands of this starry sky super brain, although after the large amount of resources invested by Ye Xuan, it is not a piece of debris, but a complete immortal starry sky super brain. but

The same immortal level of stars and brains, the difference between the growth period and the maturity period, not to mention the difference between the heavens, in fact, can not be too much!

Give a very simple example!

Nowadays, Ye Xuan's immortal starry sky is a growth period. If Ye Xuan needs it, he now activates the personal star communication system attached to the body phagocytic system. The farthest distance can be silently connected. Refused to the Emperor's Star Network of the Heavenly Empire. This

It is already the limit, and it still has to take certain risks. In the event of a little jewel in the Emperor's network of the Emperor of Heaven, it caused the emperor's immortal star, the mature period of the immortal starry sky. The attention of the brain.

Once the other party follows the path of the bead, it is very likely that the final success will be successfully positioned. It is determined that this long-term immortal starry sky super brain is on Ye Xuan. it

Although he can't take it away, he can squat in the dark and pay close attention to it. Once next time, Ye Xuan will use the personal star communication system again and invade other star networks. that

What, the mature starry sky of the imperial star of the imperial star, can quickly move out, and the vines are generally recourse, and directly blaze Ye Xuan, a long-term immortal starry sky. very

As for this, the possibility of invading Ye Xuan's body phagocytic system and making some changes... can not be completely ruled out. and also

It is for this reason that in the third universe and the first universe, Ye Xuan rarely used the personal star communication system attached to the body's engulfment system.

The reason is that I was afraid of being discovered by the two mature stages of the immortal star and the heavenly city! can

If Ye Xuan's immortal starry sky is not in the growth stage, but it has reached maturity, then the situation is completely different. first

First, if Ye Xuan needs it, after he starts the personal starry communication system, the distance that can be connected to the incoming star network will be fully maximized. The Emperor of Heaven is estimated to be easy.

Even if I dare not cover the entire third cosmic plane, others in the Tianhe Star, but silently through the body's personal starry sky communication system, connected to the imperial star of the imperial main network, but it can definitely do. and

Moreover, even if this is done, Ye Xuan does not have to worry about being discovered by the immortal starry sky over the immortal star of the imperial star.

Everyone is in a mature period, and they are all star-level super brains of immortality. There is no question of who is going to devour anyone.

That is to say, in this case, even if Ye Xuan wants to find certain information and materials from the database of the immortal dynasty star network or the satellite network hub of the Federal Aviation Headquarters of the Faro, it does not have to be as empty as before and now. There are plans, but I dare not take action. straight

If you are invaded by the immortal star, you will see each other at the same time. As long as the level is the same, the other party can't swallow it, and it won't be! "

Nowadays, I only have to cultivate the strength of the main territory. Next, I have to break through to the universe. I have to collect a large amount of natural treasures and rare resources to refine the 19th-grade liquid. It is too much for the acquisition of information. Urgently needed, too important..."

There are various thoughts flashing in my mind. Ye Xuan whispers to himself, and the dawn in her eyes is gradually firming up: "In addition, the vast chaos of the world can come at all times at any time. The time left for me is not much, I must do my best. It may speed up the improvement of one's own strength, which also requires a strong information channel to support..."

"So, this time, the opportunity is really suitable. It is simply a sleepy pillow. If you miss it, you will not be willing!"

Here, Ye Xuan suddenly took a right fist and finally made a decision: "Although the consequences of the failure to swallow are unknown, this sentence is a little scary, but once it is successful, the harvest is also very shocking, and it is impossible to refuse. And, already, 60% of the success has been grasped, no matter how... fight!"

After that, he did not hesitate, even if he gave a positive reply to the body's phagocytic system, he immediately swallowed up the mutated ordinary starry sky super brain... "

call out! "

Just as Ye Xuan decided to take a risk and give instructions to the body's phagocytic system, with the first faint sound of breaking, the mutated ordinary starry sky super brain in the front culture tank disappeared instantly.

Obviously, this was forcibly swallowed by the phagocytic system in Ye Xuan's body and was collected into the body.

Then, in Ye Xuan's mind, there was a system prompt to read the progress of engulfing. At this moment, his whole heart instantly mentioned the eyes of the blind.

After all, after the failure of the genius system to say that the consequences of the devour, the consequences are unknown, it sounds scary enough. In today's increasingly urgent situation, Ye Xuan can't stand the toss of any accidental changes. If the phagocytosis fails, the phagocytic system in his body will have some unpredictable major changes, so it is really bad.

Chapter 4122: Tianhe Star Lord Ye Xuan

In the mind, the system sounds that read the progress of phagocytosis have been ringing all the time. Ye Xuan's heart is getting bigger and bigger as the system prompts, and gradually hangs to the blind eye...

The progress of phagocytosis is very slow to read. It can be seen that the leaf phagocytic system of Ye Xuan is not very easy to devour the ordinary starry sky super brain. This

In such a situation, suddenly let Ye Xuan's mood become even heavier, and the fear of an unpredictable accident! foot

After half an hour, the system sounds that read the progress of phagocytosis in my mind finally ended. What makes Ye Xuan dumbfounded is that the reading value of phagocytosis has reached 100, but the result of this devour is success or failure. However, there is still no fixed number.

Because he soon heard the next different system prompts, after completing the engulfing of this variant of the ordinary starry sky super brain, as the intelligent center of Ye Xuan's personal starry communication system, the growth period of the starry sky super brain , actually will go to sleep. to

If the result of phagocytosis is success or failure, you need to wait until it is dormant, and then wake up again before finalizing.

What is even more speechless is that this time the so-called dormancy, there is no time limit, the time estimate given by the system is still unknown...

That is to say, its dormancy may be just one night, and it is possible... ten years and eight years!

This time, Ye Xuan is dumbfounded.

He is not in a hurry to wait for the upgrade of the personal space communication system to do anything. The key thing is that this is a big deal. For this time, the result of the engulfing is success or failure. He has already hang his heart in the eyes of the blind man. Knot

After waiting for a long time, it was such a situation. The heart that hung to the eyes of the blind man would not fall back for a while, and it is estimated that it would not last long. This

It's just tossing people, let Ye Xuan have a feeling of madness!

It is a pity that this is the end of his life. He can't change anything with madness. However, in the bitter smile, Ye Xuan can only forcibly calm his mind. After a few moments, he will walk out of the underground control center.

Just back to the ground, Naples, who first left, came forward. The look on his face was a little weird. He did not wait for Ye Xuan to ask, he said, "The Lord, the star of the sky, the super brain has been zombies. It seems that we have to find a way to re-acquire one..."

"What do you mean?"

Xuanyi stunned and felt a little confused.

The meaning of the words of Naples is naturally understood. An administrative star like Tianhe Star needs a star-shaped super brain as the intelligent center of the total control of the star network, and this Tianhe star is obviously not able to be swallowed by Ye Xuan. Used, have been corpse, and have produced mutations, who can rest assured? leaf

Xuan's reason is because he didn't think that this should be a problem that he or Napoli should consider. day

The river star is an immortal dynasty. What does it cost to do? which is

It is necessary to acquire a new ordinary starry sky super brain, which is also the event of the immortal dynasty.

You have already helped them solve such a big tumor of the cosmic zombies that lie here. Can't you? Even the interior of the Tianhe Star has been cleaned up for them. Now even the stars that can no longer be used have to buy one for them to replace them... Who do they think of themselves? "

If the Tianhe star is not ours, naturally, there is no need to pay attention to such a broken thing. The starry sky and super brain are not ordinary things that can be encountered. In these years, the three major stars and the main forces of each power need an administrative star. Stars and stars are super brains. In the past few years, almost every one has been discovered, and it will be taken away by some forces..."

Blair apparently understands the reasons for Ye Xuanqi, even if he shakes his head and smiles: "But even so, each of the three major planes has more or less administrative stars, and there is no administration at all. The star-level internal star network, because... can't get the starry sky super brain as the center of the star network."

However, Tianhe Star has changed a new starry sky and super brain. We can't ignore it. "

"Because you are now the star of the Tianhe Star, to be precise, it is the owner of the privatization of the Tianhe Star, the star owner, the captain, or even the self-reliance, as long as you are willing, right With your toss..."

The news was even more unexpected. Ye Xuan's eyes were round and round: "Hey? What?"

I also just received the news..."

Burius continued to explain: "Just in the immortal dynasty of the immortal dynasty, the old dragon mountain Tang, in the universe of the sky outside the atmosphere of the Tianhe, the public issued a notice, on behalf of the immortal dynasty officially announced, in view of the young master you Humans and the Federation of the Vultures have solved the huge hidden danger of the zombies of the universe, and the stars of the sky are starry..."

Therefore, the dynasty's high-level officials unanimously decided to transfer the ownership of Tianhe to the name of the young master. This life star, from now on, is no longer one of the small country's administrative stars under the imperial dynasty. It has become a private company. Things, belonging to you personally..."

"So generous?"

As soon as I heard that I guessed it, Ye Xuan's eyes suddenly became more rounded. class

Things like this have never happened in the history of the immortal dynasty. in

In the starry territory of the immortal dynasty, the third universe of the Terran people, although there are countless stars of life, divided into three empire, each of the three empires, there are hundreds of thousands of big countries, each under the big country, there are more Small countries, under each small country, are the administrative stars. Do not

However, although these life planets belong to a small country, a big country or an empire administratively, they have no exception, and they belong to the immortal dynasty. which is

It was the dynasty's ancestors, the dynasty's high-level princes, and the old princes, and none of them owned a private planet of their own lives. This situation was strictly forbidden in the immortal dynasty. which is

It is the existence of the hand and the eye, even if it is immortal, at most, there are some mineral stars and abandoned planets that are not life planets.

But now, the immortal dynasty gave a life planet directly to Ye Xuan, and it is still a star-studded life planet, whether it is geographical location or richness.

Although the countertop is given in the name of reward, but anyone in the eye can see it, this is clearly a signal that the emperor is moving towards Ye Xuan to repair the relationship.

The dynasty dynasty of the immortal star at this moment estimated that the intestines were green, and it was estimated that the hammer was suddenly overwhelmed. Now I want to re-enter the relationship with Ye Xuan in this way. Honeymoon period...

"That's fine. Although we already have the Arc de Triomphe, it is an abandoned star, and it is still in the environment of the Death Star. It has many inconveniences!"

After some indulgence, Ye Xuan made a decision. The big hand took a wave and said: "In any case, this river star was originally hit by me. It is well deserved. Since they are generous, there is no need to be hypocritical. He dares to send it. I will dare to accept it!"

Chapter 4123: What kind of ghosts to feed

When Ye Xuan came out of the Star Channel of the Tianhe Star atmosphere, a new press conference outside the atmosphere, a new press conference, has begun...

Although the organizer of this press conference is no longer Ye Xuan, but the two camps of the Terran and the Federation of the Venezue, the presiding press conference is the three immortals of Longshan Tang, Gonghua and Xianghuyu. Old blame.

But in fact, everyone knows that although the organizer is not Ye Xuan, the real protagonist of this press conference is still him, because the theme of the press conference is always about Ye Xuan!

In the void, the federal people from all sides, the star powers did not leave.

They originally came from all directions to watch the Emperor Xuanzi, although now Xuan Huangzi is gone, but Ye Xuan is born, from the previous two enchanting one, has become the current seven enchanting one, even more against the sky Still, still idols, and the enthusiasm of fans is higher than before.

Previously, people who could rush to the Tianhe Star Field in this situation were not fans of fanaticism, but must also love to join in the fun.

Now, the Tianhe Star Field has just erupted with such an amazing and huge change. The three major star planes have attracted hundreds of millions of people, and now the crisis has been completely ruled out.

The next step is celebration... In this case, regardless of whether it is a fanatic fan or loves to join in the fun, obviously it is impossible to leave.

In fact, it's not just that they can't leave, the three major star planes at the moment, and I don't know how many strong people and federal people are going there.

Even including the second universe, and some of the Scattered Powers of the First Universe.

On the rostrum of the press conference, three immortal geeks like Hulu, Gonghua and Longshan Tang sit side by side, but at this moment, it is Longshan Tang.

In fact, almost all of the press conferences were performed by him.

Elephant fox is a representative of the Federation of Varo, and it is the representative of the Ten Heavenly Palace of the Terran cultivating camp. However, the Tianhe Star that was awarded to Ye Xuan by this conference was the immortal dynasty of the science and technology camp belonging to the Terran.

Therefore, the most suitable person to speak is originally Longshan Tang, who represents the immortal dynasty.

In fact, even if it is not, the old guy will probably take the initiative to jump up and down.

Because everything that happened before, especially forcing the occupants of the world's air transport, Ye Xuan to centrifuge the imperial dynasty, the dynasty's imperial family's immortality was alarmed, and it seems that this is not a black pot. , buckled to the head of Longshan Tang.

Now, the King of the King is immortal, and abandoning a geographically and strategically important Tianhe Star, presented it to Ye Xuan in the form of rewards. This is clearly an opportunity for Longshan Tang.

If this opportunity is not enough, he will not be able to take the punishment.

The king's immortal anger, he did not want to dare to bear it, but the brain was filled with tremors.

Therefore, Longshan Tang will not be so old-fashioned at this moment. One person is like a singer, and he is screaming on the rostrum of the press conference. The vain words are not the subject of Ye Xuan, but even sitting around Longshan Tang. Like the fox and the palace and these two immortal grotesque, have been sitting on the blanket, a look of constipation.

If it is not really eye-catching, it is estimated that it has long been shy to get up and go!

The purpose of Longshan Tang is actually very simple. If you are so arrogant, you can't say that you immediately let Ye Xuan change his mind and return to the embrace of the dynasty. At least he has to guarantee that there is no previous resistance and he is willing to interact with the dynasty. Otherwise, he will not be able to make a difference when he returns.

In order to achieve this effect, the church is immortal and has a thick face to make such things, and such an estimate of the fight is no one!

"He is like a fiery sun rising suddenly in a glacial universe, using strong temperatures to dispel the cold and melt the ice..."

"He is like a bright star that suddenly floats in the darkness of a dark space, with a strong light, drives away the darkness and brings light..."

"He is the hero of our heart forever. He is the savior of this universe. He has nurtured..."

.....

As this sentence overflows with emotions, the voice of words like lyrics is spoken from the mouth of Longshan Tang, and through the large star-borne sound system placed in front of the rostrum, the sound spreads thousands of miles and the surrounding universe In the void, and the federal people in a variety of warships, the stars of the sky heard...

In an instant, nearly a million miles away from the emptiness of the universe, it was completely immersed in the silence.

All the people, all with their mouths wide open, their faces are dull, their body shape is motionless, it seems to have just been thundered, the outer Jiao Li Nen, collective petrification.

"Is this old guy just kicked by the ant?"

Even Ye Xuan, at the moment, is full of stunned colors, and there are also deep confusions in the middle of the shackles. As if talking to himself, he turned to the body of the triumphant corps commander, Naples, and looked at the past. Uncertainly inquiring: "In addition, who is this person in his mouth? When is the world's three major star planes, when did such a god-like figure come out?"

"Little master, he... is talking about you!"

Napoli's face twitched, his face was eccentric, and he snorted back, looking at Ye Xuan's dawn, full of sympathy.

"Hey? This old thing is talking about the star master?"

Upon hearing this, Ye Xuan subconsciously stunned his body and his face was green.

Without hesitation, even when he jumped out, he raised his face with anger and anger and raised his finger to the front of the press conference. He screamed: "The light and the heat will be forgotten, and the Savior will endure it, but what kind of ghost is this feeding?" This star master doesn't have that function at all. Old things, you don't make this clear, today is not finished..."

As the roar of his roaring sounds, the chairman of the press conference is on the stage, and he has already said that he is already emotional, and he will almost tear down the immortal old monster Longshan Tang. The words of the mouth are also abruptly stopped, subconsciously turning heads. I saw it to Ye Xuan.

After a short sluggishness, the old guy seems to have caught something, and his face is instantly showing a ecstasy.

The figure was even more erected, and even the press conference did not open. He walked out of the position directly, and a rushed body rushed over to Ye Xuan. He was pleasantly questioned: "Ye Xiaoyou, what do you say?" ?"

"If you don't get it wrong, the old man seems to hear that you claim to be the owner of the star..."

"So, Tianhe Star, are you planning to accept the rhythm? Thank God, the old man's songs are a little bit of a day, and it's your words. It's finally settled..."

At the time of the fall of the voice, others have come to the front, and they are not waiting for Ye Xuan to refute and respond. They raise their hands and hold their fists directly, and they slap their hands at Ye Xuan. They say hello with the voice that everyone in the sky can hear: "Tianhe star main leaf Xiaoyou, the old man is polite!"

Chapter 4124: Multi-party

There is no doubt that Ye Xuan has been set aside!

It is said that Jiang is still old and spicy. This sentence is not wrong. Longshan Tang is not alive for at least tens of years of immortal grotesque, although this old face can not be saved, but at least, the immortal dynasty seals the king immortal, Finally, I can have a confession.

After all, Ye Xuan was forced to accept the Tianhe Star in public, even though it did not mean repairing the relationship with the immortal dynasty, but at least, in the future, the dynasty contacted Ye Xuan on public occasions with various grandiose reasons and excuses. He is really inconvenient to reject people thousands of miles away.

And this is obviously the top of the immortal dynasty, and now it is the next best thing to do.

As long as this is done, the old monsters have the means to repair the relationship with Ye Xuan step by step. They dare not say that they can return to the glory of the dynasty, but return to the honeymoon period. Still no problem at all.

After all, even the old guys of Longshan Tang have been so savage, not to mention the old **** in the emperor's side, the older **** than Longshan Tang, and more!

The imperial dynasty, known as immortal, is one of the two super-families of the Terran, standing in the third cosmic starry sky, occupying half of the first cosmic plane for tens of thousands of years, and all kinds of think tanks are just like a cow. If you can't even do this, That is too ridiculous.

The key is that Ye Xuan has given the opportunity, as long as there is a chance, Ye Xuan will be won by them sooner or later!

Of course, if other people, or other things, the immortal dynasty will not be able to do so for a younger generation who is only a master.

But now it is different, Ye Xuan represents the affiliation of the world's atmospheric transportation, and the three major star-space planes at the moment are facing an unprecedented huge crisis. All the top ethnic groups and forces are facing the test of life and death. .

In this case, no matter how solemnly it is, there is no exaggeration...

At this time, as the words of Longshan Tang's deliberate voice were heard by all the people in the distance around the sky, the voice of the star of the star was called, and soon it fell from zero to zero. A frenzy that resounded through the entire void outside the atmosphere of the Tianhe Star...

Undoubtedly, this matter is a foregone conclusion. Even if Ye Xuan refuses now, and explains it personally, it is useless!

Wood has become a boat!

This day, Hexing, he has to do it, don't want it... It doesn't matter, anyway, everyone thinks you have already!

"Old guy, are you yin me?"

In the face of such a scene, Ye Xuan's face was gloomy in an instant, and the twilight stared at the dragon mountain Tang in front of him.

Although he had already accepted in the heart the gift given by the immortal dynasty to reward the name on the countertop, or ... bribe!

But accepting in the heart is one thing, accepted on the official table, that is another matter.

Even if it is finally accepted, but before the officially confirmed the matter on the table, Ye Xuan originally intended to toss again, for example, from the dynasty treasure house of the immortal dynasty, and then deceive some treasures that are hard to find outside, as accepting this disguise. Subsidiary conditions such as rewards.

He has no psychological pressure on this kind of thing.

Tianhe Star is one of the administrative stars of the immortal dynasty. I really want to say it. This time, Ye Xuan solved the big tumor of the Tianhe Star Cosmic Zombie. No matter how it is calculated, the most beneficial thing is the immortal dynasty.

It can even be said that this kind of interest far exceeds the innumerable times of the value of Tianhexing's administrative planet itself...

Under this circumstance, Ye Xuan has more points on the current refining of the 19th-level liquid urgently needed, but the top-grade treasured medicine that can't be found outside is obviously not too much of corruption!

At least, from the treasure house of the immortal dynasty, it is always possible to get a common-level star-space super brain that is also urgently needed.

Although this kind of thing is always a tight commodity, there is no price in the market. If there is a market or black market, it will be bought by the headhunters of the three major forces, but the immortal dynasty as a human. One of the two super-campions, it is obviously impossible to say that there is no inventory in the dynasty treasure house.

Killing Ye Xuan does not believe it!

It's a pity that if he didn't wait for him to do it again, this matter was directly ruined. When he thought of the treasures and treasures that would be his own, and the ordinary starry sky, the blink of an eye would become a bubble. Ye Xuan was so angry that his roots were itchy, staring at Longshan Tang in front of him, his face was extremely bad!

"No, no... misunderstanding! Ye Xingzhu, this is definitely a misunderstanding!"

Seeing Ye Xuan's expression, Longshan Tang's face was stagnation, and he hurriedly waved his hand, and his head was put into a wave.

This guy really is an old fox. When he thinks about it, he immediately sees the problem from Ye Xuan's expression. He didn't wait for him to take the slogan. Even when he said: "Ye Xing is assured, except for the ownership of Tianhe Star. In addition, there are other rewards for the dynasty. After all, such a big life planet, and nowadays, the resources are extremely scarce. The dynasty has both adult beauty and where it is so stingy..."

"Returning to the head of the lord just need to list a list, all the resources needed, will be sent directly through the space wormhole as soon as possible..."

Listening to him, Ye Xuan's face was slightly slower. It seems that the immortal dynasty is still quite sincere. However, if he wants to return to the emperor's arms, it is absolutely impossible. In the future, everyone will at most It is also the relationship of a partner.

During the speech, the other two immortal geeks on the stage of the press conference, like the fox and the Gonghua and the two, have also swept to the front, thinking that they have heard between Ye Xuan and Longshan Tang. After the conversation and seeing Ye Xuan's statement, the look on his face was significantly eased.

Therefore, when the talents arrived, they also took over the words. Following the Longshan Tang, they all expressed their attitude...

"The right pair, Ye Xingzhu, the Tianhe Star is in a hurry, the demand for various resources is definitely very large. Although there are some supplies in the dynasty, some resources are only available on the side of our comprehension camp. , belonging to the Star Specialties."

"This time Ye Xingzhu smashed the cosmic zombie nest and solved a huge hidden danger for my human race. I am one of the two camps of the Terran, and it is naturally impossible to have no representation. Ye Xingzhu may wish to see what is needed. Resources, go back and list a copy to the old man, then you must send it back immediately, and send the resources on the list as soon as possible..."

"There is also the same for our Vatican Federation. Although the second universe has already withdrawn from the Confederacy, the Terran is still a member of the Commonwealth, not to mention the fact that Ye Xingzhu is now the top contributor to the high-level federal contribution list. More than 1.8 trillion, this contribution can no longer be encouraged with ordinary points redemption."

"Dan Fan Ye Xingzhu needs, just list the list, the top of the Federal Senate has already expressed its status, all the way green light, full supply..."

Chapter 4125: Stunned three immortal

"A green light all the way, full supply?"

Ye Xuan sneered, turned his head and glanced at the face like a fox, and faintly said: "Is the high-level veterans of the Federal Senate in Wanluo not too big?"

If you remember correctly, not long ago, in this plane-level star-studded battle of the first universe, the star master killed several immortal federal veterans... This is a great feud, is it so Yet? "

After that, he didn't wait for the fox to talk back. He turned to the side of the palace and looked at the past. The tone was still the same: "The same, there was an immortal monster in the hands of the comprehension camp last time. In addition, this star The Lord's swallowing of the avatar, some time ago in the comprehension camp is also noisy, these things, you should not forget it?"

Some words, Ye Xuan was deliberately mentioned, the meaning is also very simple, the ugly words first said in the head, these past grievances are now proposed, forced the other party's position, and this was revealed. no

Then, if there is a dispute and a split between the future cooperation with each other, it will be too disgusting to mention these things. three

The old guys obviously know the meaning of Ye Xuan. In fact, this point, the high-level power behind them, also thought of it, and obviously there have been private instructions for this. Place

Therefore, for Ye Xuan suddenly said such a discourse, the three old guys have no intention of being caught off guard. They are all a pair of expressions in the chest, and they laughed and expressed their attitude..."

In the past, Ye Xingzhu will not mention it any more. When those things happen, Ye Xingzhu is obviously involuntarily, and we all understand this! ""

Right, right, then, about these things, after Ye Xingzhu returned to the third cosmic plane this time, the intelligent center of the plane-level star network in the immortal star, has not been fully judged? If this is not the case, Ye Xingzhu's current federal contribution points can be far more than today's more than 1800 billion! ""

Since those past, the imperial star of the imperial star has been cleaned up, then we will never mention this matter again, Ye Xingzhu also please dispel the concerns, if necessary, directly list it by list That is, it must be fully supplied and delivered to Tianhe as soon as possible..."

Xuan wants these words. After all, the reception of the Tianhe Star now means that there is a fixed base camp in this third universe plane, and it is no longer the situation where the same person was everywhere. This

In this case, whether it is the two super camps of the Terran or the Federal Headquarters of the Vatican, they will come and harass him from time to time.

It's not a way to avoid it or not. After all, it's time to get together and eventually form an alliance. If

It is not clear that these pasts have been cleaned up, and these parties will be mentioned from time to time, which is really annoying. and

Now there is no problem. The three old guys in front of you can all be immortal. In the face of Ye Xuan, the forces behind him are on the table, and this matter is not afraid of them. Da

After arriving at the goal, Ye Xuan was in a good mood, and immediately began to count the three resource lists in his mind... Yes, it's three copies. Since everyone is so enthusiastic, it's not good to be so thin, it's always rainy. what! thing

In fact, the words of the Tianhe Star are a waste of words. day

The river star is the only life star on the edge of the funeral star field. For so many years, countless star-studded powerhouses who have explored the origin of the star nuclear in the funeral star field have already supplied the richness of the Tianhe star. although

It is said that the cosmic zombie legion of the extension of the wind must have consumed some of the resources in the library, but the cosmic zombies need to be flesh and blood, so the real loss is not big.

At the moment, the entire Tianhe star is empty, and most of the shortage is human resources. However, the various cultivation resources in the library, the treasures of precious materials are still there. For Ye Xuan who receives this star, not only What resources are needed to repair the Tianhe Star, which has never been damaged, and even he has made a fortune.

Tianhe Star is his, the treasures and resources in the star library, still use it? Do not

However, everyone knows this thing well. The two camps of the Terran and the Federation of the Bandar are just wanting to send gifts, and have a good relationship with Ye Xuan, who represents the world's air transport, to facilitate the closeness in the future... Place

Therefore, even if he does not need any resources to build this so-called Tianhe Star, but Ye Xuan is still not polite, directly issued instructions to the body's devouring system, so that the system according to Ye Xuan's current Need to properly list the three lists.

Among them, he also specifically confessed that, first of all, a starry sky is necessary.

Secondly, the various top-grade treasures required for the refining of the 18th-grade liquid, the 19th-grade liquid and the 20th-grade liquid, which are derived from the system, are also indispensable, and are distributed to these three lists.this

Before, he had already refined the sixteenth grade liquid and the seventeenth grade liquid. ten

Six-level liquid, let Ye Xuan break through to the star territory.

The seventeenth grade liquid has not yet had time to use it. Because of the relationship between biomass and energy, he has broken through to the domain of the domain.

If you break through to the border, you need 18 grades.

Before Ye Xuan took advantage of the inexhaustible biomass energy absorbed by the body, he also accumulated a large number of top-grade quenching treasures. Even the ten evil sources used ten drops, which has successfully repaired him. In order to be in the realm of the physical body, it has been pushed to the realm of the border. to

For him, the 18th grade liquid is really not needed. but

He still intends to refine. On the one hand, he does not need it, but other people around him still need it when they want to break through to the border. another

On the one hand, in order to refine the subsequent nineteen-level liquid, the eighteen-level liquid can not be avoided, one step at a time, steady and steady is the truth. to

In the nineteenth grade liquid, Ye Xuan can make a breakthrough from the current boundary to the universe. two

The tenth grade liquid is used to break through the universe to the immortal...

This is the universe and the immortality. It can be realized by a single tube of genetic culture solution. Only then can we find out how difficult it is to refine the various treasures of the two kinds of genetic culture fluids. . thing

In fact, these are only the auxiliary materials that have been prepared. The real main material for refining is the treasure of the ancient and ancient spirits that Ye Xuan has received in the Shennong Ding. can

Even so, these auxiliary materials are estimated to be only the two super-families of the Terran, such as the Wanda Federal Headquarters, which are the detached forces in the three major star planes. leaf

Xuan had been collecting for a long time, and it was only a few scattered ones. The difference was too far. very

Quickly, the three lists were listed after the devouring system in his body. leaf

Xuan did not hesitate and handed it out directly, like Fox and Longshan Tang, Gonghua and three immortal strangers.

At first glance, the three old guys turned pale, and took a sigh of relief, almost scaring on the spot...

Chapter 4126: Transaction

On the list of these three required resources, Ye Xuan, in addition to listing a large number of cultivation resources and a common-level star-space super brain required by Tianhe, the most crucial thing is to ask for the phagocytic system derived from him. All the top treasures needed to refine the 19th and 20th grades. This

What can be created by the two kinds of genetic culture fluids is the cosmic eccentricity and the immortal grotesque. Among the two prescriptions derived from the phagocytic system, any one of the precious treasures is not a trivial. Take

Ye Xuan's collection has been collected for so long, but there are only four types in his hands. There are only one less and two more, which shows the degree of preciousness and the difficulty of collection. positive

Because of this, even if it is facing the two super camps of the Terran and the rich Wanluo Federation, Ye Xuan only divides all the treasures of the two prescriptions into three batches and asks for them separately. when

However, although the Treasures of the Treasures are divided into three batches, they are supplied by the three giants, but each serving of the medicinal materials, Ye Xuan asked for the weight, all ten!

After all, the 16-level liquid refining system has a problem of success rate, not to mention the current 18-stage liquid and 19-stage liquid? many

It is always good to have a few servings. when

When these three lists of resources were handed out, even Ye Xuan himself was a little embarrassed. He squinted at his face and felt a little guilty. It was really something else. The key is the 19th grade liquid and the 20th grade liquid. The top treasures of the prescriptions are too eye-catching, fearing that they are immortal, they are all treasured! thing

In fact, there are more than half of the top treasures in the two prescriptions. Ye Xuan has never even heard of it before.

Containing Yuxiang Ganoderma Lucidum!

Dry Zen Van Gogh! star

Empty sun grass! pole

Cedar cedar rouge! Demon

煞厄藤根!

Radium robbery is extremely exquisite! Do not

The eternal moon and the beast nest eggs! ...

...

Everything is a cold-spoken thing, and even the names of the medicines are extremely gargon, which is to say other things. "

hiss! Starry sun grass... ten plants? God, this stuff is a special product of the comprehension camp, but the sun has a maturity of 100,000 years, and the headquarters of the Palace of Heaven has only saved 13 strains! "

"The sacred sacred sacred sorcerer? The enchanting Ertengen? All ten copies? God, this kind of thing is even thirsty for the old man, dreaming wants..."

Immortal level moon beast nest eggs? Uh... This is something that is only available on the immortal scorpion, and it must be a mother beast. After killing, you can get a nest egg. Ten are ten immortal eggs, even if we The federal headquarters, I can't get so much, I heard that there are eight in total! "...

...with

The three lists were handed out by Ye Xuan, such as the fox and the dragon mountain Tang, the palace and the three immortal grotesque. Even if they looked down, the initial expression on the face was normal.

Because Ye Xuan is listed on the list, it is a common cultivation resource and various consumables. Although it is a large amount, it is obviously not a big deal for the two super camps of the Terran and the Federal headquarters of the Faro. .

Even the ordinary-level starry sky that was asked by the immortal dynasty of the Terran Science and Technology camp was actually in the early days of Longshan Tang. complete

In fact, the Tianhe Star has been completely transformed into the nest of the zombies of the universe. The starry sky super brain as the intelligent center of the star network is no exception. Now Tianhe Star was bribed to Ye Xuan in disguise. The high level of the dynasty could not have thought of this. problem. No

There is a normal-level starry sky super brain. Although Tianhe Star can still operate, it is too elbowed. Many stars and seas cannot pass through the technology. Therefore, this starry sky is super brain, even if Ye Xuan does not mention it, they are also Will take the initiative to send it over.

However, the three immortal grotesque looked at them, and soon saw the top treasures of the treasures that Ye Xuan placed at the end of the three lists because of his guilty conscience. This

For a moment, the look of the faces of the three old guys was all stagnation, and they widened their eyes. After a short embarrassment, they all blew their breath and made an exclamation...

For this scene, Ye Xuan is even more embarrassed, but it is hard to resist and not shut up, shut up without saying anything, this is the best chance to get these top treasures, if you miss it, I don't know when to get it. It. and

At this point, the three old guys, such as the fox, and each of them exclaimed, and looked up at Ye Xuan with a look of shock, and asked for more...

"Little friends, what do you want these top treasures? Do you know that any one of them can be used by us? This is something that is useful for immortal grotesques. The four words are not enough to describe..."

"Playing is a game. From the point of view of the utility of these things, should a small friend want to quench the body? If so, would you like to change it? Change the point to suit the use of the main environment. After all, you are now doing this. Well, it's really a waste of using this kind of top-quality treasure medicine in the realm of the border..."

Of course, if the younger friends must insist on it, we will not be able to make it out, but the key ten is really scary. Some of these things do have more than ten in our hands, but some, It's only six or seven. But is it halved? Try five copies first? "

After all, the three old guys all looked at Ye Xuan with a look of hope, and finally, like the old fox, this old goods is not for himself, directly in the dark to help Ye Xuan, the other two old strangers Said to change a batch of medicinal materials, the direct draw board set a halved share. Do not

However, if these three super forces can only make up six or seven medicinal herbs, killing Ye Xuan is also unbelief. Five copies should be their bottom line, but if they really want to be hard, according to Ye Xuan's estimate, at least two Ten copies are still fine. only

Yes, you can't force people too tightly. Otherwise, the decision-makers behind the three old guys will hesitate and shrink back, then they will regret it.

If you have to see it, you will receive it. After all, this is not a normal thing. If you let Ye Xuan go to collect it, it is estimated that it will be an unknown number within a hundred years. Now

It's easy to get, and it's still five, and it's worth it!

"Five copies of five copies, deal!"

At this point, Ye Xuan nodded at the right time and made a direct decision to set this up: "However, other things will be counted. When will it be sent, but these top treasures can be brought up as soon as possible?" ""

Anyway, it is just some medicinal materials, and it doesn't occupy the place. It doesn't cost much to transfer directly from the wormhole in the plane level. I am rushing to get the 19th grade liquid quickly..."

19th grade liquid? "

"What? Didn't the old man get it wrong? Or are you friends, are you playing with the old man?"

"That is a nineteen-level liquid, a tube of liquid medicine, can directly create a starry sky in the universe, Ye Xingzhu, know that you are a drug, double, can the 19th grade liquid is too exaggerated order now....."

Chapter 4127: Nineteenth grade liquid

"Love letter does not believe, anyway, since you have already agreed, then quickly send all the top treasures listed in the list, the star master is really waiting for it..." See

These three old guys don't believe, Ye Xuan is too lazy to explain, and the white eye will be urged again. If

It is Ye Xuan who slaps the chest and swears. These three old guys may not really believe it. After all, the 19th grade liquid is not an ordinary thing. In the Terran technology camp, only the eleventh grade liquid can only be refined. This is still the credit of Ye Xuan.

Under this circumstance, Ye Xuan suddenly said that he had to refine the nineteen-level liquid. The difference was seven levels, that is, seven big realms. Even the scorpion gap was not enough to describe it. Naturally no one dared to believe it easily. Do not

However, now he doesn't explain it at all, but it's a totally indifferent expression, but he always urges to quickly send all the top treasures listed on the list... In this case, let the three old guys Born suspicious.

Unconsciously, they subconsciously have already favored Ye Xuan's words, but this is too amazing. If one thinks that this is true, then the meaning it represents...

With this in mind, the three immortal grotesques once again sighed, and did not dare to delay too much. After rushing to say hello to Ye Xuan, they returned to their flagship fortress, and they immediately turned the matter to the scene. The high-level decision-makers behind the situation made a report.

At the same time, whether it is the immortal star of the immortal dynasty, or the main palace of the Tenth Heaven Palace, or the Federal Court of the Vulture in the depths of the immortal star, there is a large smog in the vague. The sound came out.

Then, for whatever purpose, all the top treasures listed by Ye Xuan at the end of the three lists were delivered in a short half-day, at any cost, through the means of plane-level wormhole transmission. Tianhe Star.

And every kind of treasured medicine needed is all five. when

When these rare top resources were summed up in Ye Xuan's hands, he was happy to open his mouth directly, and after greeting the three immortal geeks such as Longshan Tang, who was nervous, Ye Xuan directly rushed into the Tianhe Star. In a remote area, he sacrificed the Shennong Ding in a reduced version and stepped into it. he

Decided to start refining immediately, starting with the 18th grade liquid, then the 19th grade liquid.....

...this

Before, he succeeded in the blood and flesh of a phoenix bird with a quasi-wild power. After the careful condensing of the four-color flame of Shennong, it turned into a ball, revealing the blue-red awn, and condensed into a fleshy pulp! that

A sphere that appears in the form of a slurry, although only a few feet in diameter, is a treasure of the body of a large and specific phoenix bird, breaking the order chain and refining it. in

Under the condensing of Shennong's four-color flame, the order chain in the flesh and blood of the phoenix bird collapsed completely, the body disappeared, and even a tiny flesh-and-blood black hole appeared and collapsed. only

It can be seen how terrible the energy contained in this slurry ball.

And this is only the first step in smelting blood and medicine. Ye Xuan only got half-finished products at that time, and it is not really a big flesh and blood!

Nowadays, in order to formulate a real big flesh and blood medicine, it is necessary to add various rare materials and resources such as Tiandi Dibao to the inside based on these flesh and blood medicines, and to complete the preparation again and again.

This process requires him to groping and deducing. After all, this is to open up a new road that has never been seen before, but Ye Xuan has already had experience in preparing sixteen-level liquid and seventeen-level liquid, so It's handy to do it at the moment. very

Fast, the 18th grade liquid was successfully remanufactured by the three tubes. The three tubes and 18th grade liquid liquid became the moment, the sky has a robbery cloud, although only one, but it is Lianxuan and his refining The eighteen levels of liquid are rubbed together.

But in the end, it was finally a surprise. The three tubes and eighteen grades all passed the liquid robbery. Even the repairs that Ye Xuan had just made a big breakthrough were completely solidified in the three waves of thunder. . ten

The eight-grade liquid is used to break through to the main boundary. He does not need it himself. It is enough to prepare three tubes for Xuanyuan Zijing, Duanmu Xiaocha and Zhao Qianru. Place

Therefore, after the three tubes and eighteen levels of liquid were collected, Ye Xuan even took a deep breath, he planned to make a bang, and then refining a few tubes of 19-stage liquid. press

According to the formula of the 19th grade liquid, the material in his hand is only five copies, one or two copies of himself, and the rest has to prepare three copies for the three hoes of Xuanyuan Zijing.

That is to say, these five refinings can not be defeated once. Otherwise, if Ye Xuan takes a tube of himself, then the three gimmicks will only have two tubes to divide. It is really necessary to see this situation. Ye Xuan was directly torn by their cockroaches...

After setting the gods, Ye Xuan is ready to configure the top-grade treasures of the nineteen-level liquid. Following

However, once again, a chalcedony crystal box was taken out from the immortal world, and a wave of diameter was floated from the inside, exuding the blood and flesh of Qi Baohui.

This canned flesh pulp is only slowly floating out of the egg-sized green and red flesh pulp. The surface is covered with a layer of mysterious halo, which is extremely smashed. There are countless tiny patterns on the surface, which are mysterious and extraordinary! deep

Taking a breath, Ye Xuan once again carefully reviewed the formula of the nineteen-stage liquid that was previously derived from the system...

Wan Zai Yu Lingzhi! Withered

Zen Van Gogh!

Starry sun grass!

Extreme day cedar velvet! Demon

radium

Robbery!

Immortal level cover the moon and beast eggs!

.....

These are the top scarce resources, even if Ye Xuan, the amount is not much, can not afford to toss him.

Therefore, at this moment, he seems very cautious. Although there are dozens of flesh and blood pastes, even the strengthening of the efficacy, the guarantee of the success rate of the evil source of liquid and other resources, he has more than one hundred in his hands, but These key natural treasures are far from being so much.

With a sly, Ye Xuan took a deep breath and waved a piece of heavenly treasure that had already been prepared according to the formula derived from the system. It was taken out from the immortal world, suspended in front of him, and then not far ahead. Among the volcanic flame pools, there is a sacred four-color flame from Shennong!

Just under one volume, all the treasures of the top treasures hanging in front of Ye Xuan are all wrapped in it, and the condensate purification is carried out!

Throughout the process, Ye Xuan was concentrating on the dedication, and half of the distraction was not dare to have it. Because every consumable was too precious, it was hard to hit a batch today, and it would be almost impossible to collect it in the future. thing.

After a short period of time, all the heavens and earth treasures are melted and turned into a group of egg-sized cyan liquids. Next, Ye Xuan needs to do two more steps.

One is to combine this cyan liquid with the same volume of flesh pulp.

Finally, it is to add a drop of the guaranteed source of the evil source, as well as the help of the effect of the liquid, until they fit together perfectly, and the 19th grade liquid, even if it is completely refining.

Chapter 4128: Liquid robbery second wave

Don't look at this is just a small two-step, but it is the key to the key, Ye Xuan is not sloppy!

Soon, a drop of evil source liquid and a drop of the liquid that has been condensed by Shennong four-color flame, was taken out by Ye Xuan from the immortal world, suspended in front of him, and then, as he read between the two drops The top-quality resources that are not worth the price of the market are slowly drifting away from the flesh-and-blood-sized flesh-and-blood medicine that has already been prepared, including the egg-sized cyan grass and wood essence!

At this moment, Ye Xuan's heart mentioned the eyes of the blind, the gods were pushed to the extreme, and the spiritual core of the brain was overloaded, and the gods, the spiritual power, and the double guarantees were all poured into the extreme. Control the mixture and carry out the final fusion!

"Zi La La!"

Nourish..."

In the next moment, with the convergence of these four substances, the surface of the newly formed fusion object will instantly burst into a gorgeous glory, too bright, and Ye Xuan will condense and subconsciously close. Eyes, my heart is moving! band

At the heart of the heart, Ye Xuan carefully manipulates the spirit and spirit of the mind, and controls the four resources that have gathered together to carry out the final perfect integration! will

Nearly one hour passed quickly. In the process, this canopy was formed by four top-level resources to form a compact ball. The surface layer always shook with the radiant energy glow, which made Ye Xuan's heart tremble. . "

Hey! "hold

After the continuous sizzling noise, this little ruined ball suddenly gave a whistling sound, and Ye Xuan's heart also gave birth to the realization at this time. If there is no accident, this tube of 19th grade liquid should be formulated successfully!

When he fixed his eyes, he found a void in the sky outside his body. At this moment, a ball of only the size of Zhuguo was suspended. this

The object is obviously liquid, the color is blue and blue, pure and incomparable, and the surface is a layer of blue and blue halo. It seems that there are countless crepe patterns in the disillusionment of life, and it is repeated...

However, the head is not too inconspicuous, but under the gaze of the gods, it can be found that there are countless energy patterns in the interior, which are flashing, appearing fast, disappearing faster, constantly living, and can pull people's minds. Go in general...

"Booming!"

"Boom..."

When Ye Xuan's eyes straightened and stared at the front of the canopy, only the size of the fruit of the pearl was lost. In the middle of the volcano's hill in the central area, a series of rumbling sounds suddenly came. Dull, like thunder.

Ye Xuan looked up and looked up. The Shennong Ding volcano had a view of the inner belly of the volcano. At this time, a large black thunder cloud was gathered. This is clearly the rhythm of the thunder and the future.

However, compared with the thunderstorms that occurred in the previous refinement of the 16th, 17th, and 18th grades, the cloud of clouds looming over the volcanoes of the central domain is not only vast but also invisibly The pressure of the pressure is clearer and more horrible. complete

Actually, the 19th-level liquid is made by the universe, which is not comparable to the landlord. very

Fast, this majestic robbery cloud is divided into two. In the sky above the volcano of the central domain, one left and one right are turned into two huge robbery clouds.

Seeing this scene, Ye Xuan's heart was a Grunden, and his face changed a little. Two

A robbery cloud vortex? by

! It

Isn't it a wave of liquid robbery before? But now it seems that the nineteen-level liquid is obviously different. It is clear that there are two waves of liquid robbery.

A wave of it is not bad, although it has been smashed, but at least it is no problem, but if it is two waves, it is difficult to say, after the first wave, it was almost smashed, not waiting to recover, the first The two waves are coming soon... This is definitely the rhythm of bad food!

Thinking of this, Ye Xuan suddenly hesitated. He wanted to try to get the 19-level liquid that had just been refining into the immortal world and see if he could temporarily avoid the thunder.

But if he really wants to do this, he will be unwilling.

Because the liquid robbery is a hurdle, once the treasury has failed, everything has to go to the east, and it has to start again, and once again succeed, it has to face the same looting test. but

If it succeeds, it will pass through the treasure of the thunderbolt. After the baptism and forging of the thunder, the power effect will definitely increase again. This is obvious. can

It is said that the so-called treasure robbery is both a test and a chance. fruit

Finally, after some hesitation, Ye Xuan still decided to bite his teeth and try hard. Anyway, there are still four herbs in the back. It is a big deal to test this.

"Card!"

At the same time as he decided to bite his teeth, a crisp explosion of the sound had already spread, and the black robbed cloud over the emptiness above the volcanic mountain pass of the central domain suddenly smashed a green and strange lightning bolt. Come here. with

Just like when refining the 18th grade liquid, the green lightning lock is not only the 19th grade liquid that has just been successfully refining, but Ye Xuan also included it.

At this moment, all the power in Ye Xuan's body was spurred up, and the squatting squatted out of the squat, looking up with the teeth, and with the nineteen-level liquid hanging over the head, facing the green lightning of the baby's arm. flash

Electricity, in an instant, at an incredibly fast speed, slammed down, and covered Ye Xuan and the group of green and green treasures hanging over his head. At this moment, Ye Xuan's heart mentioned the eyes of the blind, but In the end, the first lightning was the same as before. Although Ye Xuan was stunned, it did not hurt the root.

The same is true for the nineteen-level liquid that hangs over its head. It is not only non-destructive, but as the green lightning quickly disappears, the green-green treasure that has just been shrouded in

lightning, now after a baptism of green robbers There is also a hint of thunder in it, and there are some tiny lightning bolts like spider silk that are stretching and swallowing. And

Just like the thunderbolt lightning that had come before, the color is green and there is a deep sense of sorrow! through

After the baptism of a thunderbolt of lightning, the efficacy of this group of green and green treasures must be even more amazing, and it is also attached with a strange green lightning property, and the quenching effect is better...

Unfortunately, the robbery is not just a wave!

As the green lightning of the first baby's arm fell from the black robbery cloud, the whirlpool of the clouds on the left side of the sky disappeared instantly, but this represents only the first wave of thunder. .

"Card!"

When Ye Xuan made a slight adjustment, the sky above the sky was high, and there was another shocking sound. The whirlpool of the robbery cloud on the right side surged, and eventually all the robbers clouded together in a flash, turning into a color. A huge purple lightning, slammed down... look

In this scene, Ye Xuan's face was instantly green, and he lost his voice and said: "Rely! How is the second way so thick? In addition... What is the color of the golden color?"

"What is the rhythm of the surge in power? This is really a pothole..."

Chapter 4129: Second order

As the sky once again came a shocking sound, the whirlpool of the robbery cloud on the right side surged, and all the robbers clouded together in a flash, turning into a huge flash of gold and purple, slamming down. Ye Xuan's face is green, and the voice is exclaimed... though

However, it is still the same wave of liquid robbery, but the second lightning and the previous first gap are too big, more than a few times thicker, and the color has become the color of purple gold, with the experience of Ye Xuan, a look I know that the power must be amazing. deep

In the midst of meditation, he even had a kind of hunch. If he did not use some means, he would directly greet him with such a big thorn. If he resisted this second thunder, he would not only be able to protect the 19-stage liquid that had just been prepared. Even the oneself has to be injured, and it is definitely more than a minor injury...

Yes... This kind of thunder is both a test and the last baptismal level after the 19th grade liquid is in liquid form. If it is directly applied to the strong magical power, the lightning will be blasted, and the 19th grade liquid will be less than the baptism of the thunder. A lack of efficacy, when swallowed can not break through the universe, is it not busy? "

The owner does not have to worry, this Zijin robbery, own electric mother to share for you..."

Just as Ye Xuan was hesitant, the purple-golden thunder that looked as thick as the waist had already slammed into the top of his head. In his mind, a woman's voice suddenly came. Electricity

mother?

Ye Xuan stunned, but quickly reacted.

This voice can appear directly in his mind, apparently because of the connection with Ye Xuan, it is clear that the woman who claimed to be an electric mother should be awkward and heavy. With a thunder and a source of smashing the thunder and the real old electrician.

Yan Xuan has been thoroughly refining by Ye Xuan, and there are three waking sorrows in the ancient cultivating spirits. There have been three waking ups, and the two real bodies have been condensed. With the connection between Yan and Luo, the three of them Both can communicate directly with Ye Xuan. and

When the ancient monk condensed the second true body, the original use was a source of thunder. For thunder and lightning, she was completely fearless. when

However, Ye Xuan's Lei Diyin should be the same, but once Lei Diyin is sacrificed, it is estimated that the power of this horrible purple gold lightning will be absorbed directly, and the effect of the nineteen-stage liquid quenching will still not be achieved. .

Although Lei Di Yin has been a thunderbird as an instrumental spirit, but after all, it is not as smart as an absurd electric mother. If the latter is shot, it should be able to ensure that the nineteenth grade liquid gets the thunderbolt purple electric baptism, while ensuring the nineteenth level. Liquid and Ye Xuan are all innocent. One

With this in mind, Ye Xuan does not hesitate any more, and the wave has already been squandered from the infinity of the body. "

call out! "One

The road is faintly flashing. After rushing out of Ye Xuan's body, it instantly turns into a quaint Jinpa, which is slightly larger than the palm of the hand. It sways in the void, and the wind rises, and there is enough size in the blink of an eye. , suspended in the top of Ye Xuan's head, like a wave of ups and downs.

In the next moment, the two slender lengths, the long jade legs of the white jade, such as jade, took off from the undulating surface of the slab. After half a step, a pretty slender figure appeared, so that the bare feet stood in a undulating manner. On the surface of the Pa, the beauty that was completely different from that of the ancestral karst and the post-Qing dynasty, for a time, actually made Ye Xuan look a little dazed. "

Card! "

At this time, the purple gold lightning with the thickness of the adult's waist at the top of the head, with a majestic pressure to destroy everything, finally collapsed.

"Fu!"

Fang, on the surface of the waves, the bare-faced electric mother with a pair of pink jade feet suddenly screamed, and the figure instantly picked up. Within the Zijin Lightning, the figure was submerged and disappeared directly. but

This kind of action seems to be useless at all. The purple gold lightning of this waist is still squatting down, even the speed is not sluggish, and the pressure is still the same. on

As if the ancient and old electric mother, it was directly killed by the spike.

In the next moment, Ye Xuan's face has just changed, and this purple gold lightning has suddenly stagnate, and the undulating and voluptuous smoke of the Xuzhang surface has spread out and turned into a purple gold. The network of lightning, rushed into the surface of the Pala. tight

Then, what happened after Ye Xuan's reaction, from the lower side of the surface of the parade, there were countless fine purple silky lines that fell over the sky, directly hanging over him. The nineteen-level liquid cage. Are

Between the engravings, this dense purple gold ray directly penetrated into the nineteen-level liquid, and the bends flowed. At the same time, a large number of rays poured into the pores of Ye Xuan's body, and a feeling of crispness and numbness came. , both fascinating and comfortable, but without the thunder and arrogance of lightning... This

At the time, Ye Xuan finally realized it.

Obviously, the ancient and old electric mother rushed into this purple gold thunder and lightning, and merged with it. Then, through the savage and heavy weapons, the original was condensed into one, and the amount of lightning power that was strongly destroyed by the power was divided into Countless traces of the spider's web, then shrouded the nineteen-level liquid and Ye Xuan...

In this way, the power of this thunderbolt has not changed, but its power has been reduced to zero, and the effect of tempering and baptism is still there, but the arrogance of the hegemony is invisibly resolved. Want

To do this, only the ancestors of the old-fashioned electrician, who played the electricity, existed, and they changed to other people, fearing that even if they came to an immortal old monster, I am afraid that this perfect effect could not be achieved.

"Master, fortunately, not to be insulted!"

When Ye Xuan felt his heart, from his body, a long jade foot took a step forward, and it showed the figure of the old-fashioned electric mother, and somehow, her face was blushing. One piece, there is a blush: "Master, I have also gained a lot of this time. Some of the powers that are sleeping in the source of my knowledge are activated. Maybe I can break through this, from the current domain, to the landlord in one fell swoop... Xiaoqing went back to sleep!"

When I finished, I fled and turned like a red cheek and jumped into the smoke and disappeared. "

call out! "

In the next moment, the original desire of the smog, Luo, was reduced by itself, and turned into a mans, rushed into Ye Xuan. "

Hey... blushing? "leaf

Xuan Yi, then recalled that the other side is taking a step from his own body, coupled with the sorrowful sense of ecstasy... he

As if I realized what I was doing, I snorted and whispered softly: "This... shouldn't it fit?"

In my heart, as the numbness caused by the baptism of Reese in the body gradually disappeared, Ye Xuan's mind also came back with a familiar system sound..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the second level of the border! "

"Hey, congratulations to the host, the breakthrough of the physical body and blood! The current realm: the second level of the border!"

The second order of the landlord? Living

However, another breakthrough, Ye Xuan heart rejoicing, looked up to the top of the 19th grade liquid to see ...

Chapter 4130: Exit

In the line of sight, the nineteen-level liquid hanging above the top of the head is now quite different.

Inside, it is clear from time to time that there are some fine leis of purple gold color, which is the singularity of the two waves of baptism and baptism. Milli

Undoubtedly, after successfully resisting the baptism of two waves of liquid robbery, the effect of this 19-stage liquid is absolutely perfect. leaf

Xuan even has a kind of hunch in the midst of meditation. When his realm reaches the ninth order of the world, even if it is the 19th-level liquid that makes the universe eccentric, you should just take the tube in front of you. Successfully broke through, and since then I have been promoted to be a strong universe. band

With this kind of joy and satisfaction, this tube of nineteen-level liquid was collected by Ye Xuanzhen and placed in a chalcedony crystal bottle, properly placed in the body of immortality.

Immediately afterwards, he passed the knowledge of the gods, and he got in touch with the absurd electric mother in the wild and heavy treasures, so that she should not rush into the sleep and digest the appropriate income.

Because Ye Xuan has a total of five nineteen-grade liquid refining materials in his hand, it is now only a successful configuration of a 19-stage liquid, which is obviously early.

He intends to suffocate and exhaust all the other four materials. If it is fortunate, it should be able to reconfigure four tubes and nineteen liquids. very

Fast, the old-fashioned elders in the smog of the smoke came to respond, although it was promised, but the sound was as fine as a mosquito, and there was a touch of helplessness, and there was a shame...

Let Ye Xuan be more embarrassed, suitable, the ancient ancient electrician and the second purple gold lightning fusion, and then into a myriad of fine spider web into the body of Ye Xuan. Let

He gave birth to the feeling of sorrow and numbness. In the end, the old-fashioned electric mother took a step from his body... This is clearly the rhythm of the two people already combined. "

Accident, this is definitely an accident..."

Recalling the feeling of ecstasy of the talented person, Ye Xuan swallowed his throat and whispered himself. Then he quickly whispered the mourning in his mind and took out the second top-grade treasured medicine with the 19th-level liquid.

.....

After an hour has passed, the remaining fourteenth-grade liquid materials have all successfully passed through the liquid robbery and become four new nineteen-stage liquids.

During this period, the liquid robbery also came four times. At the end of each time, the ancient altar was barely hands out of Ye Xuan's body, and the blushing color on his cheeks became more and more intense. At the last time. Almost hooked on the chin, and escaped from the body of Ye Xuan. face

It's even more red that can squeeze out blood... because

For these four times, every time Ye Xuan in the countless fine Ruo nets, when they enter the body, they can feel the sensation of ecstasy. In fact, if viewed from a certain angle, these four times are thunder. Hey, in fact, he is equivalent to four times in disguise with the ancient mother. Rear

Although it is an old-fashioned and savvy, the existence of a power level, but it has never experienced such a thing, it has long been sorrowful.

But in the same way, after the four thunders of the latter, the power and memory sealed in the source of the ancient monk's spiritual knowledge should be awakened more. After the last thunder, she directly entered the smog. Fall into a deep sleep. phase

When the letter wakes up again in the near future, the degree of restoration of strength will be extremely gratifying! to

Yu Yexuan, in the four purple gold lightning baptisms, although each time the flesh was re-quenched, but not the same as the first time before, every baptism, broke through a small order. Rear

Four times, he only broke through a small order. This is also expected. The same way and strength of forging the body, in general, is the best when the first time.

Even so, his current deity is a strength, and it has finally broken through to the third-order of the landlord. Once again, it will be able to enter the middle of the world. It is not easy, so he is extremely satisfied!

Previously, when he was in the second stage of the lord's main territory, the strength of the ancient konjac bloodline was the third order of the border. One

Once the konjac is transformed into a magical power, and after reaching the fifth change, it will be able to reach the eighth order of the boundary, and each change will increase a small order. and

Now the cultivation of the deity has once again broken through and finally entered the third-order of the main boundary. Then, after the activation of the blood of the konjac, Ye Xuan's cultivation in the state of the three-headed six-armed Taikoo konjac can reach the fourth level of the boundary.

Once you enter the fifth change of the konjac, its peak strength will be able to reach the ninth order of the world! only

If you make a breakthrough, you can feel the power of the powerful universe in advance!

In fact, just now, if you add the various treasures that Ye Xuan holds, and all kinds of Xeon's **** magical powers, he is completely confident that he will fight against the old monsters in the late stage of immortality and even defeat them. Up...

At this time, it has been a long time since Ye Xuan entered Shennong Ding. During this time, in addition to the previous 18-stage liquid, he only prepared the five-tube and nine-stage liquid that had just finished. Of course

In the process of this, the cultivation of his own strength is once again refined, and broke through two small steps.

In addition to the five top-quality treasures in the nineteen-grade liquid formula, he has five precious treasures for the preparation of the twenty-grade liquid in his hands.

Twenty grade liquid is used to create immortal grotesque. its

The level of preciousness is undoubtedly far above the nineteenth grade liquid. Take

Ye Xuan is the basis for the success of all five tubes and nineteen grades. Now he is fully confident in formulating techniques and techniques.

Five of the top treasures used to prepare the 20th grade liquid will fail at least once or twice. According to conservative estimates, at least three tubes of 20 liquids can be successfully obtained.

Every time I think of it, Ye Xuan's heart is eager to move, and I can't wait to start the preparation immediately. As a result, the finished product of his genetic culture fluid will be enough to support him to cultivate into immortality and become an immortal grotesque. This

It's really exciting, and Ye Xuan is almost directly dry.

However, as soon as he thought that the ancient and old electric mother in the smog had already fallen into a deep sleep, he could not help but hesitate again. Even after the preparation of the nineteenth grade liquid, there will be two waves of horrible robbery in the liquid robbery. The electric descending, the 20th grade liquid as a taboo that can create immortal grotesque, once formulated successfully, the result is no doubt.

Once the liquid robbery comes, don't say two waves of horrible Zijin Thunderbolt, I am afraid that there will be three waves in succession, and it is very possible! miss you

At this point, Ye Xuan couldn't help but shake his head and smile. In the end, he still forced the impulse of his heart to be crushed. This level of top-class treasure medicine is really not to be wasted. Even if he is, he will be distressed and have no absolute grasp. Before, still don't just toss it. sigh

In the interest, he shook his head and smiled, and his body swayed directly into the sky above the space inside the Ding, and the blink of an eye disappeared from the space inside the Ding. again

When it appeared, it was already in a certain remote place in the inland of Tianhe, waving the Shennong Ding directly into the immortal world...
