

## Super D. S 4131

### Chapter 4131: Meteorology

In the half-day period when Ye Xuan entered Shennong Ding to prepare the 18th grade liquid and the 19th grade liquid, the entire Tianhe Star Field could be described as a meteorological...

Tianhe Star originally belonged to the immortal dynasty of the Terran Science and Technology camp, but now it has become the private territory of the main star of the Tianhe Star, including the Tianhe Star Field, a large area around this life planet.

This kind of thing is unprecedented. If Ye Xuan has been identified as the owner of the world's atmospheric transportation, and now the three major star planes are facing a crisis of destruction and destruction, this is absolutely impossible. Hold

There is a life planet that belongs to you, and a large star field around it. Everyone knows what it means. At the same time, countless people are envious, and their hearts are even more eager to move. They have sent out to Tianhe, the main star of Tianhe, to fight under their armpits. Future thoughts! when

However, more people actually look at it, or Ye Xuan's significance as the owner of the world's atmospheric transportation. Following him, it is very likely that he will be lucky to survive in the catastrophe that suddenly fell suddenly. Come down.

In fact, even if you don't mention this point, it is just the attraction of the Tianhe Star itself, which is enough to motivate countless star powers to go.

The planet here is the only life planet in the funeral star field. All the star-studded powerhouses that enter the funeral star field and mine the origin of the star nuclear will be in the foot of the Tianhe star and go back and forth. It is definitely the existence of rich oil.

Now Tianhe Star can be said that all the posts are empty, and the whole big star, in addition to the follow-up into the clean-up of the Triumphant Corps, is simply a living person.

The gap in human resources is too big, and there are all kinds of jobs. It is definitely a once-in-a-lifetime opportunity...

When Ye Xuan plunged in the sky and returned to the main land of the Tianhe River, where the main house of the Tianhe Star was located, it had already been woven, and there were many raw faces in addition to the squadrons from the Triumph City. He was born with doubts.

Tianhe Star is already his private star. You should not let the outside star strongman enter it. What is this situation?

Soon, Naples arrived and explained the situation to Ye Xuan. original

Come, just in the middle of the half-day period when he relocated the 18th-level liquid and the 19th-grade liquid, the two camps of the Terran and the Federal headquarters of the Vatican continued to send a large number of resources, all of which were the three of Ye Xuan. The supplies on the list. its

In it, it includes a normal-level star super brain sent from the immortal star. and

Today, this ordinary-level star-space super brain has been placed in the central control center of the Tianhe Star Network in the depths of the Tianhe Star Government. Therefore, the entire Tianhe Star's star network has been restored as usual, even in the Tianhe Star atmosphere. The star defense system has also been successfully restarted.

At the same time, during this half-day period, a large number of federal fans who had stayed in the universe beyond the atmosphere of the Tianhe Star, the star-studded strongmen, also asked for various positions inside and outside the Tianhe Star. Working for Ye Xingzhu, developing together, pushing the prosperity of Tianhe Star to a wider world...

Regarding this matter, Naples did not dare to call the Lord, saying that it was up to Ye Xuan to go out and personally decide after he left the customs, but one was that the mosquitoes and geeks took a nod and should nod.

On the other hand, the so-called think tanks of the loyalty Ye Xuan, who had been tossing in the Arc de Triomphe, have jumped up and down, and the meeting has been wave after wave. After the final

discussion, it was decided that the matter is feasible and chasing. Naples let him implement it immediately, but in desperation, Naples nodded and accepted it.

Immediately, the press conference platform outside the atmosphere of the Tianhe Star changed directly into a venue for the Star Trek Fair. Ye Xuan's 10,000 federal elites from the bottom of the Black Wind, Later, a group of old and small monsters in the Triumph City think tanks all took the initiative to ask for the application as an examiner.

The entire application will continue to be hot in the present. From any of the stars in the atmosphere of the Tianhe Star, you can see the scene of the distant universe in the sky.

The lucky ones who had successfully applied for the first step and who had been authenticated and registered all went through the stars channel of the Tianhe Star atmosphere and entered the Tianhe Star, and rushed to their new posts. press

According to the meaning of the think tank, after all the responsible personnel in all positions inside and outside the Tianhe Star are complete, the star passage of the atmosphere must be opened again, and the star-studded powerhouses who came to the funeral star field to enter the gold mine will enter. Here and go back and forth, and at the same time carry out various transactions. no

Then, if the Tianhe Star is really banned as a reserved place, its original strategy will disappear. This

A little Ye Xuan agrees that he did not ban the Tianhe Star Circle, and does not allow the non-minist star power to enter and leave. It was only because the stars were inside, the situation was special. but

Now all the positions will soon have new responsible personnel, and naturally there is no such problem. when

However, it is impossible for all the positions to be appointed to appoint the person in charge, and at most half of the appointments are not very important posts. its

Its key department still has to be held in its own hands. leaf

The talents of the Triumph Army under Xuanyuan are still no problem in this respect. There is no need for him to worry about it. Napoli can handle it well...

Therefore, Ye Xuan has two private planets in his hand. One is the Arc de Triomphe in the Death Star Field. There are too many mineral stars. What kind of materials do you want to use, as long as you are not afraid of trouble, you are mining. And the environment is quiet enough without any interruption.

The Kaixuanxing will continue to be built as the industrial rear of Ye Xuan's hands.

In addition to the Triumph, it is the Tianhe star that just arrived at the foot.

With this ordinary-level starry sky super-brain in place, Tianhexing's starry network has returned to normal operation, and even the Star Defense defensive array has been restarted. I believe there will be another one or two days. When all the positions are recruited to the staff, The entire Tianhe Star will completely restore the order of the past.

Even because its nature is different, it has become the private territory of Ye Xuan. The degree of freedom is higher, and various policies are bound to change. The prospects for development will obviously be more gratifying, and the speed of overall rise will also be Will be faster! Up

After solving these situations, Ye Xuan nodded and did not say anything more. The 10,000 people were released from the Beggars of the Begonia, and the members of the think tanks brought back to the Arc de Triomphe were not very reliable. However, everyone's talents are still there. They are good at different fields, but they can just stay in the Tianhe Star and host all aspects of affairs.

After telling the matter to Naples, Ye Xuan even rushed to the Tianhe Star Network General Control Center located deep underground in the Star House...

Chapter 4132: Take

After a short period of time, Ye Xuan came to the Tianhe Star Network, the central control center of the Tianhe Star's main capital. In the line of sight, there was a brand new star-space super in the culture tank of the mutated ordinary star-shaped super brain that had been swallowed. The brain is lying there quietly, and it is already connected to the starry network of the Tianhe Star...

Ye Xuan even issued a refining instruction to the body's phagocytic system.

"call out!"

In the next moment, a secluded manger emerged from his body and directly fell into the normal-level star-shaped super brain in the culture tank in the front line of sight. Make

It is the immortal starry sky super brain of Ye Xuan's personal starry communication system. Although he has swallowed the zombie variegated starry sky super brain, he is still sleeping and refining. The results are unknown. but

Just refining a normal-level starry sky super brain, using his body's phagocytic system to act as a shot, or no problem at all.

Refining and chemicalization ended in an instant. Since then, Ye Xuan's phagocytic system and this ordinary star-like super-brain like Tianhe's intelligent center have already had some unknown connection. which is

Ben Ye Xuan left the Tianhe Star, and through the distant distance, he could also connect with the starry sky and super brain at any time and anywhere. Finish

After all this, even when he left the underground control center of the satellite network, he just returned to the Tianhe Stars and Government House on the surface. There is a biography below, saying that it is like the fox and the dragon, Tang, Gonghua and San An immortal old monster is coming, visit the door... this

The three old guys, who had handed over the five-point top-quality treasures on the list of materials to Ye Xuan, had little trouble with the little eyes. At this moment, the news of Ye Xuan's exit was passed out, they immediately As for the visit, the fool knows what is going on.

Ye Xuan grinned, did not go to the heart, from the ground in the main hall of the main hall of the main seat of the main hall, while soaking the bubble, while let the following people to inform the three old guys into the door.

Nowadays, he is also a master of the stars. There are still some ostentations. Especially for these immortal old monsters, Ye Xuan has no intention of giving them too much diligent face!

As soon as the three old guys entered the door, they immediately piled up their faces and shook hands at Ye Xuan. In the words, they even started to ask questions...

"Ye Xingzhu, it's going out so quickly? It seems that everything is going well?"

"Right right, Ye Xing, the main name of the drug, is not a tube of nineteen-level liquid? What is it? Look at the color of Ye Xing, it must have been refining..."

What is the 19th grade liquid? According to the old man, Ye Xingzhu is so light and windy, I am afraid that even the formula of the 20-grade liquid has already been counted. "

"Oh, yeah 20 liquid? That's okay, Ye Xingzhu, you can scare the old man, but this can make the top genetic liquid of the immortal blame, it is impossible to push the formula so easily. ...."

Looking at the faces of these three old guys, Ye Xuan's heart was full of laughter. Obviously, when they came here, they came to the 20th grade liquid. Nowadays, the words are all tempted, and they want to hear some tone. Come.

This includes the same as the fox.

Although he has already voted for Ye Xuan, he is his own, but after all, the Ming Dynasty is still the immortal veteran of the Federal Senate of Wanluo, and now he is responsible for representing the Federation of Wanluo, here on the Tianhe Star, dealing with the new star Ye Xuan Between the business. Place

So, if there is any instruction from the top of the Federal Senate of the Vatican, he still has to be able to cross the cross even if he is coping with it. At this time, he will come to Longshan Tang and Gonghua and the two at the same time to inquire about the news of the 20th grade. The mind is not weak. two

Although the ten-level liquid and the nine-stage liquid are only one level difference, their meanings are completely different. It is said that it is a world apart.

The nineteenth-level liquid is made by the cosmic power, although it is strong enough, but for any of the top three ethnic groups and forces in the three major stars, the universe can only be regarded as the backbone of the power, but it is absolutely Not at the top end of the ethnic group. only

Immortality can be the indispensable top-level force of a ethnic group. where

I am afraid that it is just a common immortality, not an immortal seal, and the immortality of the king. For any top-level ethnic group, it is already a giant existence.

The 20th grade liquid is the top python! test

I think that some weak ethnic groups, even the source ancestors of the ethnic group, are just ordinary immortal, but if they get a 20-level liquid, let the universe in the ninth order of the universe be successful, once successful In an instant, the second immortal existence of this source ancestor can be made in the ethnic group... What is this concept? which is

It is the top camp of the Terran, or the top forces of the Federal Republic of Venezuela. Even if they are immortal or even immortal, their number of ordinary immortals cannot be too much.

A tube of 20-level liquid makes a person come out, it is simply shocking, even if the king is immortal, you have to be shocked and crazy...

For all of this and the stakes, Ye Xuan is well aware. "

By the good words, this time the retreat, finally fortunately not insulting, the nineteen-level liquid is easily formulated..."

Under the heart sneer, Ye Xuan turned over, took out a small jade box from the immortal world of the body, the jade box contained exactly one of the five tubes and nineteen levels of liquid he had previously prepared. This

A jade box was thrown out by him without hesitation. He was shocked and confronted with three immortal geeks such as Longshan Tang, Gonghua and three other immortal geeks. He quickly reached out and received the jade box. In the hands.

Then, the jade box was opened, and a liquid with a strong atmosphere of the universe was taken out by Longshan Tangzhen.

In the next moment, the three immortal grotesques were chilling, and even the voice of the words was a little trembled..."

Nineteenth grade liquid! That's right, it's it..."

The strong cosmic atmosphere is strong, the old man dares to conclude that even if the general world is full of nine-order consummation, as long as he does not have too many defects, he will be able to directly break into the universe if he takes it down..."

Hey, this is only a few hours, the 19th grade liquid will come out, then... Ye Xingzhu, 20 grade liquid? "

After the last sentence, the eyes of the three old guys once again looked at Ye Xuan, staring at him, screaming subconsciously. this

At this moment, the hearts of these three immortal grotesques are simply complicated to the extreme. I hope that I can hear from the mouth of Ye Xuan that the 20-level liquid has been successfully prepared, and I am worried that once this matter becomes a fact, my little heart I am afraid I will not be able to stand it. In case of sudden stop, I will be in trouble...

No way, it is really a matter of great importance. Even if the king is immortal, it will have to be cool, let alone three of them? also

At this time, Ye Xuan's next words have already been exported: "This 20-level liquid..."

Chapter 4133: Eight parties come to congratulate

"This 20-level liquid...oh!"

After saying a few words, the hearts of the three old monsters were hung to the eyes of the blind man. Ye Xuan suddenly turned around and sighed. After a long sigh, he said: "It was originally intended to be a sigh of gas after the configuration of the 19th grade liquid. Twenty grades of liquid are also formulated."

Unfortunately, although the formula has been completed 90%, but in the end there is always a treasure of precious treasures is not perfect, but the same level of treasures of the same level of treasure in the main hands of the star is limited, want to re-explore, It's also heartless and powerless. It's a pity! "

Upon hearing this, the three immortal grotesques like Hulu and Longshan Tang, Gonghua and so on were disappointed, and all the faces showed the color of loss. After a sigh, this continued to ask...

"Small friends, is it a bad medicinal material?"

Right, if so, I can help you! Among the treasure houses of the dynasty, there are still many of the same grades of treasures that have not appeared on the list of the previous three friends. If the friends need it, they will send one or two directly to each other. Participation is all right. ""

That's right, this is also the case in the treasure house of the Tianzheng Palace in my comprehension camp. It happened that there was a squad of Tiangong Su, who heard the impressive record of Ye Xingzhu, and was very pleased to say that it was not the day. When the advent, the old man can now report the needs of the younger friends to the past. At that time, all kinds of treasures of the same level will be able to send one or two to each..."

I don't have any problems with the Wanluo Federation. The 20-level liquid is not the same as the small one. Ye Xing's main medicine is both perfect. It is not easy to go to this day. Everyone is their own, and they should help each other! "light

After reading a few words, the three old guys will reveal the bottom of the high-level powers behind them. After Ye Xuan listened, he was very happy, and the formula of the 20-level liquid and the various precious treasures needed for preparation, he There are already five copies in the hands, and naturally there is no shortage.

But the next twenty-first liquid and twenty-second liquid, just the formula, he is now completely clueless, not to mention the introduction of the various top-quality treasures required after the formula is derived. ....can

Taking advantage of this opportunity, from the two camps of the Terran and the Federal headquarters of Varo, there are more treasures of the same class of treasures, in order to prepare for the unexpected, he will naturally not miss it. when

Next, after a few words of polite resignation, Ye Xuan moved his face and nodded the matter. four

After some deliberation, people quickly set the date for the new celebration of the Tianhe Stars, just three days later...

The news will be immediately spread in the name of the official Tianhe Star. I believe that in addition to the two camps of the Terran and the Federation of the Faro, the Second Universe and the First Universe will surely also have a ceremonial regiment. advent.

After all, Ye Xuan, now representing the affiliation of the world's atmospheric transportation, even if it is a group with old grievances, considering the overall situation, the only choice at the moment is to try to make good friends with him. And strive for a harmonious relationship...

On the day when the date of the code was confirmed, the news spread from Tianhe Star. During the day, countless strong masters of the three major stars in the world were known.

Whether it is the Alliance of Nations in the First Universe, or the Second Universe has already withdrawn from the former federal tribes of the Federation of the Vatican, or the two camps of the Terran technology and comprehension of the Third Universe, and the Federal headquarters of the Vatican.

After receiving this news, they immediately expressed their congratulations in official form. with

At the time, in addition to the three universes of the Terran technology and comprehension of the Third Universe and the Federal headquarters of the Vatican, because there is already an immortal old monster sitting in the Tianhe Star, so did not send a new ceremonial regiment to come, the second pre-universe

federal The ethnic group and the first group of the First Universe Alliance all sent a lineup of large or small rituals to the Tianhe Star of the Third Universe.

The three-day period is not long, and the short is not short. However, for a medium-sized executive star like Tianhe, it is enough to recruit staff from various departments and positions. whole

The recruitment work was completed in the evening of the next day. At this point, Tianhe Star finally fully restored the order of the past.

Those who have stayed outside the atmosphere of the Tianhe Star can also enter the Tianhe Star at any time.

However, due to the vacancy in the air, waiting for the celebration of the Tianhe Star celebrations tomorrow, the star powers and the federal people are too many, and the second pre-federal federal tribes and the first universe of the various ethnic groups in the alliance are also rushing On the way, I am about to arrive.

It's just a Tianhe star, obviously it can't fit everyone. Therefore, the current Tianhe Star is still subject to the restriction policy. There are hundreds of stars in the atmosphere, all of which are guarded by the sergeants of the Triumph.

Just in the empty position of the place where the Prince's press conference was held, a brand new celebration podium is also being built...

Tomorrow's Tianhe Star is destined to greet the unprecedented grand occasion of the eight parties, and once again let the three major stars of the world be the main planes, and jointly watch! ...

...

The celebration is actually a situation. If it is not like the fox and the dragon, the Tang, the palace and the three immortal blame, Ye Xuan is too lazy to get this imaginary thing. Do not

However, in order to get more top-grade treasures, although I feel that this is a bit boring, but Ye Xuan still resisted the temper, waiting for the arrival of the celebration day.

Before the official opening of the ceremony, both the representatives of the various ethnic groups in the First Universe Alliance and the representatives of the former communists of the Second Universe all arrived in the Tianhe Star Field and were temporarily settled in the void outside the atmosphere of the Tianhe Star. One area, the ceremony, and before the ceremony, Ye Xuan was never seen. very

Fast, the celebration officially started. This time, Ye Xuan can't hide anyway. He must sit on the podium. After all, he is now the private lord of Tianhe. In this case, no one can lose him.

In addition to Ye Xuan, there are several Ye Xuan's confidants on the rostrum, but the mosquitoes and old ghosts did not appear. He is not suitable for this occasion, and looks too cumbersome. this

In addition, it is like the Fox, Longshan Tang and Gonghua and these three old guys. whole

From the beginning to the end, it was almost the three old guys who were talking about the long story. He heard Ye Xuan sitting on the blanket, and finally it was his turn to speak to the private lord of Tianhe, and Ye Xuan said a few words and then panic. The ceremony was announced immediately, and the celebration ended! Do not

However, although the formal ceremony has been completed, it is obviously impossible for Ye Xuan to calm down immediately. Similar to this large-scale celebration, the formal ceremony is only a cut-off. The real highlight is the main ceremony. The friendly interaction between the party and the parties. With

The podium was removed, and the huge virtual platform was changed into a huge cocktail party. The representatives from the top three powers of the three major stars were immediately like a locust, and they came to Ye Xuan. ....

Chapter 4134: The second generation of ancestors came

The universe of the sky outside the atmosphere of the Tianhe Star, a huge platform of length and width is a thousand miles, quietly stand! This

It was originally the seat of the Tianhe Star celebrations, but now the podium has been removed. On this huge platform, there is a table banquet, a vast platform area of a thousand miles, only There are a thousand tables, and every round table can sit down to 100 people! table

Shanglin is full of all kinds of spirits, spirits and the like... Tianhe Star has always been rich, such a thousand tables of banquets, still fully affordable, almost even a cow and a hair are not counted.

This thousand tables of banquets are also graded. The most central table is surrounded by empty tables. It is clearly the main table. It is located here, except for Ye Xuan, the mosquitoes and the old ghosts, and the few confidants of Naples under Ye Xuan. In addition, the other nearly 100 people are all leading figures from the top three powers of the three major universes.

The first lap of the inner circumference closest to the main table is equally important. The other ones who are seated here are the other members of the top power group. from

On the first lap of the inner circle, the identity and status of the guests in the circle of banquets are successively decreasing, but they are eligible to sit on the huge platform of this miles, even if they are sitting on the outermost circle, their identity is worse. The strength is weaker and weaker. base

In this respect, except for some special cases, such as the distinguished person, if you only cultivate the strength, you will not be able to step into this huge platform without the great power of the fifteenth world. except

This huge platform of thousands of miles, there are more federal people and star-studded powers in the void, or directly set up in the void, or stay in a variety of warships that are densely congested in the void, far away Courtesy...

.....

This time, the Eight King Kong was also released by Ye Xuan from Shennong Ding. It was the first time that Ye Xuan's confidant was in the position to meet with the representatives of the major powers of the three major stars.

These eight guys are all younger generations of the second universe. Nowadays, the strength is soaring, all of them have become the mighty powers, sitting on the first circle of the inner circle outside the main table of the huge platform. The tables move back and forth, representing Ye Xuan, to entertain guests.

In this scene, the second generation of the pre-Federation, the genius of the genius, who was acquainted with them, was stunned, and then they were all envious.

In particular, the guys who had been with the eight of them at the beginning of the squad, but they were all redeemed by their own ethnic groups, now repented, and the twilight is full of resentment!

On the big table closest to the main table on the first circle of the inner circle, it has just entered the star's main territory, and has been recognized by all parties as Xuanyuan Zizhen, Duanmu Xiaocha and Zhao Qianru with one leg of Ye Xuan. .

There are also an old man next to each other. It is the home of Xuanyuan, Duanmu, and Zhao. The three old guys are full of excitement at this moment. Their granddaughter can have this height, it is their dream. I didn't think of anything, even if this granddaughter is who it is, I'm still not sure...

After seeing the three gimmicks, Da Jinang immediately ran all over the place, and waited diligently. The guests around the scene saw that the hearts of the guests were more determined. The eyes of the old man of Xuanyuan were all envious. Very incomparable.

This is the eight people around Ye Xing's main body, the presence of the head of the general manager, but so hot to the three gimmicks, it is completely bargaining, and the identity of the three people still use more?

As for the huge platform on the main table of the central domain, in addition to the top ten of the nearly ten main parties such as Ye Xuan, Mosquito and Ghost, and Naples, all the top forces in the three major star planes of the world have almost one or two ceremonies. The high-rises are sitting down, and a total of hundreds of people are sprinkling! First

The two camps of the three universes, the Senate of the Federal Government of Wanluo, are still the three immortal geeks like the fox scorpion and the Longshan Tang, Gonghua and so on. The position of sitting down is also on the top of the main table, next to each other. Ye Xuan and the mosquitoes and old ghosts are all the main people. this

In addition, the top ceremonies of the major ceremonies from the Second Universe and the First Universe sit at the table, on the left and right sides of the main table, and extend to the bottom. There are dozens of people. First

In addition to the \*\*\*\* clan, Qingpeng, war lion, silver sui, barbarian, golden eagle, Cailu, greedy wolf and tree spirits, Some of the dead turtles of the past few days have also sent an immortal family. except

In addition to the top ten, other powerful groups of the second universe are also represented. to

In the First Universe Alliance and the original four-family alliance headed by the devil, almost all of them arrived. Hell ants, space rats and giants all came to an immortal old monster. These three ethnic groups and Ye Xuan It is also a self-contained person who has secretly formed an unnamed alliance, and is also a gold member of the alliance. can

It is said that almost all the ethnic groups and forces of the three major star planes of today's world have arrived today. No matter whether they have been hostile or friendly with each other, or even how unhappy they have been with Ye Xuan, they arrived in Tianhe today. Star, now on the main platform of the giant platform, after sitting down on the main table, everyone's face, without exception, all are harmonious smiles! This

Everything is seen on the face of Ye Xuan's life, but otherwise, when a table is sitting together, there is no need to say anything, no waiting for the ass, it is a super chaos. The war broke out...

"Booming..."

Card! "

On the mega-platform outside the atmospheric atmosphere of the river, the members of the top-level ethnic groups and forces from the three major star planes and the top leaders of the various parties have just taken the seat and are waiting for each other.

In the distance from the depths of thousands of miles away from the depths of the funeral star, suddenly there was a huge thunderous sound, and then a crisp lightning bolt opened the position. The void of the universe, an old man's figure stepped out. He

However, it is the second generation of the ancestors of the demon group that Ye Xuan once fought alongside, one of whom has the supreme existence of the immortal horror. when

However, at this moment, the ancestors of the second generation of the devil, apparently not the real body, is too dangerous. After all, the devil and the Terran, the Federation of the Vatican have just ended a grand starry battle. and

The third universe is the territory of the Terran, and there are more than one or two kings who are immortal.

But at this time, it is only a projection, but there is not much risk, even if it is degraded, there will not be much damage. thing

In fact, it is only a fallen projection of his own, but in exchange for the evils of the world's air transport owner Ye Xuan, even the opposite, this account, how can not count, the two camps of the Terran and the federal headquarters of the Vanda The king of the court is immortal and will never make this choice.

So, the second generation of the devil's ancestors...coming!

Chapter 4135: Four seals

This time, the leaders of the delegations who came to Tianhe to participate in the celebrations, although not all immortal grotesque, many ethnic groups and forces, came to the ninth-order grand ancestor of the universe, that is, half-step immortality.

However, in addition to the two camps of the Terran and the Xiangluo, Longshan Tang and Gonghua of the Senate of the Federal Government of Wanluo, and the four immortal monsters who were originally here in the area, they arrived in yesterday. Among the top-level power spectators of the parties, there are also a number of top ethnic groups and forces that have come to the end of an immortal grotesque.

For example, the Hell ants of the First Universe, the Space Rats, the Giants, and the Immortality of the First Universe Alliance.

In addition, the top ten of the former communists of the second universe are all brought by an immortal old monster. forest

Together, Lin always has more than 30 people in this huge platform on the huge platform outside the atmosphere of the Tianhe Star!

It can be said that this kind of luxuriant scene has never been seen in the three universes, including the ultimate starry sky war that just ended in the first universe... The immortal grotesque body is just over ten! can

Even so, at the moment, with the projection of the second generation of the devil's ethnic group, the eyes of all the people in this star field are still gathered in the past without any suspense, including the nearly thirty immortal monsters. . Correct

Although the party is only a projection, but the deity is still immortal, the strength of such a projection is not weaker than the existence of the ordinary immortality! "

Ye Xiaoyou won the Tianhe Star, officially brightened the world's three major star planes, and will surely fly in the future. The old man is entangled in the family and cannot come in person..."

With the attention of the public, the second generation of the ancestors of the demon in the sky, thousands of miles away, turned to Ye Xuan's distant hand, and smiled and smiled: "Here, the old man represents the ally of the devil, and wishes the younger friend nine thousand Xinghai, Avenue refers to the date!"

Around the void, the moment is already dead, all the faces are weird, including the more than 20 immortal monsters.

Although they are immortal, they are just ordinary immortal, and compared with immortality, it is like the gap between the ordinary starry sky and the immortal monster! when

However, the mosquitoes and old ghosts are not counted. There is no abnormal expression on his face. Even the two generations of the ancestors of the devil are not seen. The deity of the mosquitoes and the old ghosts is another one of the source of the devil. The immediate descendants of the followers are the same as the generations of the Devils. true

To put it bluntly, the second generation of the ancestors of the devil, the ancestors of the second generation, had to scream the old man and scream a teacher! this

Engraved, countless people saw a seal of immortality, so polite to Ye Xuan, and the words also revealed some secrets, the original demon group and Ye Xuan had already personally formed an alliance, this suddenly let the surrounding void in a short silence After that, a whisper was heard soon.

However, when the seal is immortal, no one dares to speak out loud. Even the immortal blame is a slogan, and the voice of these arguments is naturally not far from being heard by others.

"boom!"

Card! "

"Booming..."

Card! "...

...positive

When Ye Xuan got up and arched his hand and smiled and wanted to return, the other three directions in the distance were in the moment, but at the same time, the thunder and thunder burst, followed by the familiar lightning bolt. The sound of snoring.

In addition to the direction of the second generation of the ancestors of the genius, the other three directions are far away, and the void is simultaneously opened by a flash of lightning, and each figure is taken from the crack of the crack. , all are human races! repair

The breath is also quite the same, just like the second generation of the ancestors of the devil, they are all immortal!

This immortal seal is obviously not in person, but is the same as the second generation of the devil's ancestors. It is a projection split, because they have a beam of light behind them when they step out of the void in their respective directions. Connected. three

Dao Ying, a middle-aged man, two old people, have no expression on their faces at this moment, and their eyes are coming to the second generation of the ancestors, and they are coming out...

"The old dynasty dynasty is waiting for the old, the dragon is warm!"

The palace is waiting for the elders, the palace is waiting! ""

The Federal Senate is waiting for the elders... Luo Jinhou! "

The three seals are immortal, from the two camps of the Terran and the Federal Senate of the Vatican, representing the master of this cosmic plane, and at the same time, and after the advent, the sights are all swept to the straddle. The second generation of the devil's ancestors...

This scene made all people face a slight change. Tens of millions of miles away from the atmosphere of the Tianhe Star, a huge universe of voids, was immediately cast a layer of sullen to the extreme depressing atmosphere.

Almost subconsciously, the federal people in the void and the star-studded powerhouses all held their breath, and the scalp twitched...

But the four seals are immortal, even if they are only four avatars with projections, but each one's combat power is at least in the late stage of immortality, and even the peak of this situation is said to be half-step, and it's not too much. It is.

If it is played on the spot, the countless federal people and star powers, which are located in the center of their four people, including the Tianhe Star in the void, are estimated to be the pool fish that are being smashed. No one can fall into the favor! although

It is said that most of the people here are the strong people of the human race and the federal people, and the star of the Tianhe Star, Ye Xuan, is also an ally of the Devils, but for this horrible existence of the seal level, the heart is really mad, obviously I will not take care of these things, saying that I want to fight, it is really possible to fight in the next moment!

In fact, in the face of this scene, even the nearly 30 top ethnic groups and forces on the giant platform of a thousand miles are coming to the immortal grotesque. At this moment, they are also very nervous, and their faces are filled with smiles. he

Although they are immortal, if these four immortal projections are smothered, even them, I am afraid they can only hold their heads and screams, let alone participate in the war, or pull the shelves, they are not even qualified to speak out.

Only the identity and generations of the deity are far higher than the four immortal mosquitoes and old ghosts. After the face sinks, the sneer is utterly sneer. Although he is only a avatar, the identity of the deity is high. Scary, it is the existence of the ancestors of the generation of the devil, but at least it must be the immortal cultivation of the king. This

If the four guys really want to fight, if the mosquitoes and old ghosts don't come out, once they show their identity, these four old guys are out of jealousy, and no one dares not to give face... no

However, he obviously did not have the opportunity to come forward. because

In order to become nervous with the atmosphere in the void, Ye Xuan, the owner of the Tianhe Star Field, has already stood up for the first time and sneered out loudly: "Hey, you are not waiting for the predecessors to be immortal. It's really a big pie. Looking at today's posture, is it because of the smashing of the field, to destroy the Tianhe domain that the Lord's Lord has just arrived..."

Chapter 4136: Hot hand

With the words of Ye Xuan, the tens of millions of miles outside the atmosphere of the Tianhe Star smashed into a vast void of the universe, once again plunged into a dead silence. Before that, a lot of whispers of whispers, the blink of an eye disappeared completely.

Originally sweeping into the four eyes of the four immortal seals that were immortalized across the vast void, all of them were moved again and gathered toward Ye Xuan. very

As for the projections of the second generation of the ancestors who are beginning to make eye contact, and the immortal projections, they have temporarily stopped the battle of their eyes, and they have cast their sights on Ye Xuan.

On the huge platform of a thousand miles, all the guests who sat down were all sitting on the blankets, and even the Xuanyuan Ziwei and Duanmu Xiaocha, Zhao Qianru, who were not afraid of the three days, were inexplicably nervous. .

As for the three old men beside them, they are even greener and full of sadness...

In their view, this silly granddaughter is a fierce life, but it is too difficult to see the situation too much, too impulsive, in this time to provoke the four seals immortal, and the tone is so unkind, who I heard that it is clear that this is ridiculous and provocative! I

Grandpa, this is still waiting for immortality. In private, it will be considered. Seeing that you are now hot, people are not counting on villains, but now hundreds of millions of people are watching, at the scene, you are asking people to seal the face of immortality. Where are you going?

This is the rhythm of a big disaster... The three old guys are depressed, and they have finally caught an unprecedented granddaughter. This has not waited for the door, but it is just aborted!

Only the mosquitoes and old ghosts sitting next to Ye Xuan, the face of the light, did not put all this in their eyes. Of course

However, all the people thought that these four people were secretly confronted, but they were disturbed by a small leader. They must be angry and angered, and they will be attacked by immortality. When the roaring starry sky, the jaw-dropping scene unexpectedly appeared. ....

The line of the four people who had been transferred by the words of Ye Xuan's bad words were immortal. The second generation of the ancestors of the Devils from the First Universe did not speak out and remained silent. After all, the words of Ye Xuan's talents, Basically, I went to the other three people and had little to do with him. and

Everyone knows that the three camps that were ridiculed by Ye Xuan in public were the immortal seals of the two camps of the Terran and the Senate of the Federal Government of Wanluo. They swept to Ye Xuan's face in sight. After a brief condensate, they actually twitched the dough at the same time. I squeezed out a smile. ratio

It's ugly to cry!

Even his words, there is no unexpected anger and reprimand, but rather a deliberate closeness... slightly blunt closeness!

"Where is Ye Xiaoyou saying this? The three old men are here to congratulate. How could the ruin of Xiaoyou's Tianhe Star Field be destroyed?"

Right, Xiaoyou is so humorous, the old man is amused, and the late generations are like this, the spirit is high, the spirit is vigorous, good, good..."

"That is, the three old men represent the two camps of the Terran, and the Federal Headquarters of Varo, all of them can be said to be friends of the small friends. How could it ruin the Tianhe star field of Xiaoyou? Xiaoyou is really funny this joke... .."

"Right, I heard that Xiaoyou had just refining a 19-stage liquid before, and in the subsequent push of the 20-level liquid formula, completed ninety-nine, the last medicine, but because of the similar There are not enough kinds of top treasures, so they can't be finished..."

"Right right, how come you don't say this early, everyone is your own, and then, Xiaoyou claims that the drug is a must in the world. Studying the 20th grade is also a benefit for my people and the federation. How can we make a small friend squatting when it is difficult? It should be shared by everyone!"

Hey, Ye Xiaoyou, inside this jade box, all are the top treasures of the treasures of the immortal strong, but the treasure house of the self dynasty, a total of one hundred and eighty, three hundred and sixty, each Two strains, the right to the dynasty to support the development of 20-level liquid for Xiaoyou! ""

And our Tiangong, oh, this is two hundred and two kinds of immortal treasures, also two for each, a total of four hundred and four! ”

"How can these major events reduce the Federal Senate? The small friends will receive it. There are 468 pieces of immortal treasures in this jade box, also two for each, for a total of three. One hundred and twenty four..."

"Hey, it's a small friend, the 19th grade liquid that I just prepared. I don't know... Can I borrow it? The three old men, just look at it!"...

...

As these words are spoken, the three seals, which are located in three different directions in the distance, are immortal, and they have already sent a jade box, which is filled with immortal treasures. It is the refining of the 20th grade liquid, and even the 20th grade liquid may have applicable resources. total

There are more than 600 kinds, more than 1,000 plants! This

Pen resources must be scared to death, and even Ye Xuan has jumped up! Such as

This big hand, in the three major stars of the world, I am afraid that the two universes of the third universe, and the Federation of Wanluo, can come together. change

It is a family, even if it is the first universe of the Alliance of Nations, or the former communists of the Second Universe, most of them can only make a seven-eighth-eight eighth. people

The foundation of the tribe is basically the first among the three major universes. when

However, the Tianji family may have to be an exception. After all, before the family migration disappeared, they claimed to be the first master of the three major stars.

"call out!"

"call out....."

As the sound of the break was approaching, the three small jade boxes spurred and steadily stopped in front of Ye Xuan's front, just in the height that he could touch with a little raise. this

At that time, countless gaze in the surrounding area had already all appeared in the oil and green light. If possible, these three jade boxes, everyone wants to take it for themselves... including Ye Xuan's scary mosquitoes and old ghosts. like

It's felt that there are countless roads in the sky and the myriad hot wolves. Ye Xuan almost didn't even think about it. He waved his hand directly and took the three jade boxes into the body for the first time. boundary. anti-

It's just white, don't be white! will

After the three jade boxes were put away, he suddenly sighed with a sigh of relief. The whole person was relaxed. Once again, he thought of the three words in the distance that were waiting for the immortality. This is clearly a refinement for him. There are still some things that are not completely certain, and I want to determine the rhythm on the spot. miss you

At this point, Ye Xuan suddenly pouted, and simply installed a ratio. Read

In the interim, he directly took out three identical jade boxes from the immortal world, each containing a tube of freshly refining nineteen-level liquid. Following

With a big hand, the three jade boxes went to the three ancestors. straight

At this time, Ye Xuan's light voice was heard: "Hey, these three boxes are all nineteen-level liquid. The previous configuration is not a tube, but five medicines... all five tubes!"

Chapter 4137: Toon

Five tubes of medicine... with five tubes? This

As soon as the sentence was exported, the surrounding air would be dead again in an instant, and then, the sizzling sound of the tide would rise up. When countless lines of sight turned to Ye Xuan again, the gaze had completely changed, and the small eyes were Look at the monsters.

This is not the first-stage liquid secondary liquid, but the nineteen-level liquid, creating the nineteen-level liquid of the strong universe, only a big realm, you can enter the immortal!

This level of gene culture fluid, the world's three major stars in the main plane, no one thought that it can be prepared now, and Ye Xuan is good here, not only quietly formulated successfully, but still zero failure rate In total, only five herbs were used, and five tubes and nineteen grades were prepared. This

What is the word of medicine? The degree of such enchantingness is almost angered by people...

"call out!"

Oh..."

In the midst of a vain discussion in the sky, with the three faint sounds of breaking the air, the three small jade boxes that were shot by Ye Xuan have already fallen into the immortal hands in three different directions. three

The look of an old guy suddenly became dignified. The first time he bowed his head and swept it into the small jade box in his hand. After opening it, all of them were removed from the inside with a double-necked thin tube and a five-inch crystal tube. It is clearly a liquid, colorful and colorful.

In the next moment, the cool air and the sound of the words with amazement are heard from the three immortal mouths that represent the two camps of the Terran and the Federation of the Venezue..."

hiss! This breath... It really is a nineteen-level liquid, and it is extremely pure! ”

"However, such a rich atmosphere of the universe, the old man has not seen it for many years, this tube of 19-grade liquid goes down, as long as it is not too big, too obvious defects, the world's nine-order great perfection, Will be able to successfully break through and enter the universe!"

"Ye Xiaoyou is really a ghost. Not only did he prepare a nineteen-grade liquid, but he also succeeded five times in five herbs. The nineteen-level liquid grades that were prepared were still so high, and basically no need to take the second tube. This matter is simply against the sky! So it seems that soon after... Xiaoyou will be able to smoothly prepare 20-level liquid, when there is no suspense!"

Oh..."...

...

The three words that have been sealed and immortal have just been finished. The imaginary airs around the distance are all like a frying pan. All the people are stunned. The tens of millions of miles outside the atmosphere of the Tianhe Star are full of cosmic voids. .

In the midst of an uproar, countless star powers have turned their sights on Ye Xuan all.

In particular, the top leaders of the delegations that represent the major groups and forces of the three major stars and stars came to the Tianhe Star ceremony, and they were all green.

The 19th grade liquid may not be too crazy for them, but the 20th grade liquid has to be said otherwise. After all, it is the top genetic material that can make the immortal blame, call it the \*\*\*\* level liquid, also It's no exaggeration. especially

It is among some ethnic groups, only one immortal old man sits in the town, even at the root of even an immortal old man sitting in the town, the value and meaning of a 20-level liquid for them is absolutely anything. Can not be compared. If

If you can get the most out of it, the overall strength of the entire community will change dramatically...

For the first cosmic space mouse, the \*\*\*\* ant, and the second top of the second universe, there are two major camps of the third universe, the federal headquarters of Varo, and so on, there are many immortal grotesque, even Even the seals are immortal, and the top three ethnic groups and forces in the three main stars of the king are immortal. The value and significance of the twenty-level liquid are equally unparalleled.

After all, the devil's star field of the first universe has already come to an end, and the whole world of the collapsed and ruined world has come to the world, almost at any time.

In the face of such a crisis of extinction, if there are as many immortal strongs as possible in the ethnic group, there is no doubt that the probability of survival of the entire ethnic group is a great improvement...

In other words, the fact that Ye Xuan prepared the nineteen-stage liquid was publicly confirmed, and even the successful preparation of the twenty-grade liquid was basically determined not to be far behind...

In the high-level eyes of all ethnic groups and forces in the three major star planes, he instantly became a non-replaceable incense with incomparable appeal!

"It turns out that Xiaoyou is currently researching genetic culture fluids..."

For Ye Xuan refining the production of the 19th-level liquid, it was previously known as the fox fox and the Longshan Tang, Gonghua and the three, and the three were able to inform the two camps behind the Terran and the Faro Federal Headquarters. senate.

If this is not the case, this time, the two camps of the Terran and the Federal Senate will not be so solemn, and each of them will send a seal to immortality, and specially sent such a number of immortal treasures for Ye Xuan. can

It is said that in addition to the Federal Senate of the two camps of the Terran, other forces do not know this at all, including the demon group that is allied with Ye Xuan. from

Since the last time the Magic Emperor changed, the entire demonic group was taken away by the second generation of his ancestors, and Ye Xuan has never had any contact with the devil. He does not know where his ancestral secrets are located. . this

On the day, the second generation of the Devils' ancestors originally came to congratulate Ye Xuan on the harvest of the Tianhe Star Field, and formally entered the core stage of the three stars in the world. but

At this moment, because Ye Xuan and the other three people have exchanged for immortal dialogue, he has also come to realize it for a moment. When he even said: "In today's world, all ethnic groups are facing an supreme crisis, and the time of the flood era is coming. All will come, Xiaoyou Dacai, even the 19th grade liquid has been prepared, the successful preparation of the 20th grade liquid, presumably has been just around the corner..."

This is the supreme resource for creating a strong and inferior. It is of great significance to all the people of the world who are facing the full-fledged world. The devil and the younger friend are allies. The younger friends have such great ambitions, the devils... Since the Dingli help! "

Having said that, the second generation of the genius of the devil has a slight finger, and immediately there is a touch of green and green glare: "In these years, my devil has also collected a lot of immortal treasures. As a second-generation ancestor, the old man has not much to carry with him, but he is still enough to talk about help, but it is enough..."

In this chalcedony box, there are a total of 1,677 kinds of precious treasures of immortality. The young friends are temporarily closed. If it is not enough, the old ones will go back and follow the same level. Will be sent over and over again..."

After that, the second generation of the Devils' ancestors sneered and glanced at the two camps of the Terran and the three headquarters of the Faroese Federal Headquarters. They turned and stepped into the void of the void behind them, and the figure disappeared. The sound is still in the ear: "Little friends, immortal treasures, the old man has not much to carry, once there is a need, the treasure trove of treasures, free to come to take it, the 20-level liquid is not the same, my devil will not Leave room...help you!"

Chapter 4138: Three sultry old men

The second generation of the devil's ethnic group went away, but before leaving, they expressed an attitude, one in the Ye Xuan research and preparation of the twentieth-level gene culture solution, and the two camps of the Terran and the Federal Republic of Varo The hospital is completely different and more detached! Correct

In this case, the two camps of the Terran and the Federal Senate of the Vatican have long known that it is well prepared, but these three super-level superpowers have only produced more than 2,000 pieces of immortal treasures.

The second generation of the ancestors of the devils, who had not known this before, still gave away nearly 2,000 kinds of treasures of all kinds of immortal treasures, watching the posture, everyone I know that this is definitely all of his treasures...

Moreover, before leaving, people still express their opinions clearly, and there are not many people on the body. If it is not enough, the treasure house of the devil's people will just take it!

This is simply a face-lifting, the second generation of the Devil's family is floating, but the detached attitude and plain words before leaving, it is tantamount to sealing the immortal face in the other three. Remember!

All of this is extremely subtle, and all the star-studded powers on the scene are well-informed, and then sneak at the three faces that represent the two camps of the Terran and the Federal Republic of Venezuela. Unconsciously, it becomes a little weird.

As for the three old guys, at this moment, the old face is reddish, and the line of sight sweeps toward the direction in which the second generation of the ancestors disappeared, and the sinister sorrows are hidden. although

Say, but the necessary explanation or disguise... is still necessary! "

Little friends don't want to care, I have a lot of immortal treasures in the dynasty treasure house of the immortal dynasty. This is just a batch of emergency response. If it is needed by a small friend, it is also free to take it... ""

Yes, the 20-level liquid is not the same as the small one. I have the same ten-day palace and Ye Xiaoyou as the human race. These great things are self-reliant and helpless. The follow-up immortal treasures of precious materials are completely unnecessary. I have to solve them for my friends."

"Right right, what is the matter of the demon, not my family, even if it is not the same, but on some big and big issues, it is necessary to keep more eyes, be careful!"

Although the Wanluo Federation is not all human, but the younger friends know that even the federal headquarters is rooted in the immortal star, this alone is enough to explain the attitude of the federation, absolutely and a small friend is a family, in the 20th grade liquid On the issue of big and big, the federation will always stand with the little friends, and will certainly help the small friends, deploy a large number of 20-level liquids, and benefit the human race..."

...

During the speech, the three tubes and nineteen levels of liquid were sent back to the three immortals, and he was again earned into the immortal world.

Although this kind of thing is considered to be the only one in the world, it can only create the cosmic grotesque. After all, it is obviously impossible to have any attraction for the three immortals. Unless it is a 20-grade liquid, it can still They have drawn attention from the consideration of the group behind them.

These words are said to be grand, but Ye Xuan is not a gimmick. There is still a title in the heart. Just compare the faces of these three old guys with the second generation ancestors of the Mozu, and feel free to On the chest. only

It is obvious that he can't easily reveal it. The three old guys are hypocritical. Ye Xuan will follow the virtual and the snakes. The rhetoric is all right and wrong. When it comes to key issues, it is never easy to express his position. it is good

In the three old guys, it is obvious that Ye Xuan has already deduced the formula of the 20-grade liquid. It is estimated that he needs a certain amount of time, so this time, but it has not been too entangled, After some time, they left, and the projections were retracted into the cracks of the cracked void, and they returned. With

With the departure of these three immortal grotesque, the universe under the atmosphere of the Tianhe Star, the tense and repressed atmosphere gradually dispersed, and the voice of discussion and chilling began to rise again, and the atmosphere slowly and enthusiastically warmed up.

Previously, only the foxes and dragons Tang, Gonghua and the three people knew that Ye Xuan had already produced a nineteen-level liquid, and even the formula of the twenty-level was already in the process of being completed. Only the last material is still uncertain. but

But now it is different. This matter is already open. All the large and small ethnic groups and forces of the three major stars are known. In this case, the high-ranking people of the major ethnic groups and the forces have once again looked at Ye Xuan. The eyes and mindset are completely different.

Even if it has a shallow grievance with Ye Xuan, this time can only be regarded as a half-push, it is entirely in the face of his life, and the three major star planes are indeed facing a major crisis. Only the second universe of all the people who came to the nose, and the alliance of the first universe, etc.

After I learned that Ye Xuan could vacate the 20th grade liquid in the near future, the feeling of not being twisted in my heart, all of them disappeared in no time, and the high-level people looked at Ye Xuan, even the blind ones. Hidden green, I can't wait to swallow him in the mouth, holding it in the palm of your hand!

Such a large group of cosmic grotesques and immortal grotesques all flocked around and flocked around, and Ye Xuan suddenly felt a headache. At this moment, the release was finally coming. "

[illegible]

Xuanyuan old man, still face? Holding the old man's grandson, what do you say about the good guys? Hurry and let go, a younger and more no face, no skin..."

"Zhao old man, you are not good at where to go, Ye Xiaoyou is my little tea girl. Didn't you see them before taking a bath together? The two of your family's hoes are the first to leave, it is to avoid suspicion, my family tea is Yuan match, so there is confidence, the last one comes out..."

These unspoken words sounded, and the three old men got up from the nearest table on the first lap of the inner circle, pulling the three gimmicks around them and directly squeezing them to the main table where Ye Xuan was.

A group of immortal grotesque stunned, all the time without words, although my heart is not pleasing, but know the relationship between Xuanyuan Ziyang's three gimmicks and Ye Xuan, it is not clear, but it is not good to offend, all of a sudden dumb Fire, face to face.

In this regard, although Ye Xuan is quite speechless, at least these three old guys have solved his encirclement. Otherwise, he is surrounded by a group of immortal grotesque at the moment, taking turns to harass one by one. positive

When he was ready to deal with a few words at random, and then took advantage of the empty space to leave, the three old guys exchanged a look, the words suddenly turned, just broke down each other, but immediately after the blink of an eye immediately unified. Wait

When the words in their mouths were spoken, Ye Xuan was suddenly realized. For a long time, these three old men were actually ill-conceived, secretly united, and came together to swear...

Chapter 4139: No face to see anyone

To put it bluntly, these three old men came over this time, that is to the leaf Xuanyuan gene culture solution!

Previously, Xuanyuan Zijing, Duanmu Xiaocha, and Zhao Qianru had three gimmicks for a period of time in Shennong Ding. Every day, they ate the treasures of the top wild and savage beasts, and they were trained to enter the country quickly. When the great environment was repaired, the old guys of their three grandfathers were already very embarrassed because they were also the strength of the cultivation of the universe.

Not long ago, these three gimmicks took a shower together with Ye Xuan, and all of them were soaring in strength. They directly crossed the two realms from the celestial light and became the star lord. this

Things even make them unable to hang on their faces as family owners.

It is not enough to repair the strength of even the granddaughter, but this is really embarrassing, but the three gimmicks have suddenly become a skyrocketing because of a great fortune, and this kind of creation is obviously unique. It's hard to come across again. Although the three old guys are depressed, they have no choice.

But this is only before, but now it is obviously not like this!

Now I have put on such a grandiose granddaughter, even the cosmic eccentrics can be created with only one tube of genetic culture solution. With their identity, it is still a problem to cultivate strength problems. band

With this kind of thinking, the three old guys don't have to negotiate with each other at all. One eye contact has reached a consensus. This will lead Ye Xuan to leave, and at the same time get up and get together at the main table here. .

At this moment, after a few disputes about the affiliation of this granddaughter, the three old guys slid their eyes and quickly exchanged a look, and immediately they made an appointment.

"I said that sage Sun Hao, not the old man said to you, our family is like a girl, she is really good, and the things that have been improved by bathing have not fallen, but you are really not kind to the old man here. After all, the old man is his grandfather, you look at the little girl, this is the star lord, the old man is the world of the universe, what is this system!"

"There is a performance, and the old man is the same. It is only the strength of the world. What do you mean by the stinky boy? Is it sincerely watching the old man's jokes, and wanting the old husband to manage his granddaughter as a predecessor?"

"This is a reasonable statement. The old man also has deep feelings. The main character of the star is not in a hurry, but your kid is even smashed out of the 19th grade. The little fifteenth level must be a big deal. In the words of the old man, it is not a matter of minutes to get out of the universe and into the ranks of Qiankun."

Without waiting for these words to be finished, the four weeks have already died. The eyes of all the guests in the nearby tables are eccentric, and some people are still shaking their heads and smiling.

However, there were some foggy waters. It was purely inexplicably pulled over by Xuanyuan Ziyang, Duanmu Xiaocha, and Zhao Qianru. After a slight glimpse, they were also angered at the same time. full

The color of the face is blushing, and the three old heads who have no face and no skin and are deceitful are playing straight..."

Oops, Grandpa, what are you talking about? Too shameful, do you do this? ""

This kind of thing actually brought this lady over, and I didn't know what it meant to be Miss Ben... I was mad at me, I was really mad at me! ""

Old man, you are too good. I have only heard of the potholes. You are good. Today, even my granddaughter is in the pit. Are you doing this, and are you not afraid of your grandmother's hair? Besides, isn't it a 15th grade liquid? I said it early, we have it all here, we have already given us long ago, anyway, we can't use it anymore, just take it..."

The latter one is Duanmu Xiaocha, or this Shantou is honest, while he said, he has already taken out a tube of fifteen grades of liquid, which Ye Xuan gave them before, used to complete the 9th order of the universe. When it breaks into the use of Qiankun. but

Now all three gimmicks are already the star lords. This tube of fifteen grades is obviously not used. Duanmu Xiaocha is taken out at this moment, and it is normal.

Seeing that the steamed buns fluttered out of a tube of fifteen grades of liquid, this represents a sneak peek, the guests present at the scene, a glimpse of the outside of the huge platform, and a large number of federal people and The stars and the strong are even more stunned, and their faces are full of envy.

On the side of the Xuanyuan old man and Zhao Laotou, after a slight glimpse, they also looked at Xuanyuan Ziyang and Zhao Qianru, respectively. The two women looked at the past, and the meaning

was clearly that the head of the family Duanmuja had the fifteen-level liquid sent by Ye Xuan. You What about the two? Two

A girl is speechless and has turned a blind eye. It is somewhat unwilling to be considered weak in front of people. It is not as good as Duanmu Xiaocha. Therefore, although the heart is resentful and shy, in the end, they have each taken out a level of fifteen. Liquid, angrily thrown into the hands of Xuanyuan old man and Zhao old man.

"Oh... dead girl, you are careful, this is the fifteenth grade liquid. It's really full of people who don't know how hungry the man is hungry. How much trouble does this stuff cause outside?"

It's played, that is, you are jealous, and Ye Xianzhen is his own person. If you don't take this kind of baby seriously, it's a priceless city..."

Oh, it's so good, it seems that the old man can jump into a great power soon after, and I know that you have it in your hands. What are we going to do, hey, but it's no wonder, who knows You and Ye Xiaoyou have already hooked up..."

The last sentence was said by Duanmu old man. He was so happy that he said that he had missed his mouth. After he finished speaking, he was shocked. When he saw all three gimmicks, he glared at him. He quickly narrowed his neck and transferred the war to Xuanyuan's old man. And Zhao Laotou made a look, three homes without face and skin, turned and looked at Ye Xuan again, continued extortion..."

This is the sage, the key is that you are not an outsider, the old man has nothing to open up, you see, we are old and old, and the fifteen-level liquid is only a tube, it may not be able to successfully break through. When you are old, you can't go up in the middle of the time. If you don't come over, don't you want to make a big deal? ""

Right, Yin Xian, you even have a nine-level liquid with one into one, what is the fifteen or six-level liquid, what more, a little bit out, there are some three aunts and six women at home, that is your future relatives! "

"The old man is also doing this. The fifteen-level liquid can only break through to the Qiankun environment. Is it better than this gimmick? How can you get the star's main territory? If there is one or

two tubes of 16-level liquid, the old man will go back and retreat. If you don't become a star, you won't come out!"

It's not as good as being a granddaughter, and it's no face to go out..."

.....surface

For this scene, the surrounding air has already died. on

Lian Yexuan was stunned and opened his mouth.

As for the three gimmicks of Xuanyuan Zijing, Duanmu Xiaocha, and Zhao Qianru, they were full of black hair and a painful voice in the throat. Like an appointment, they all raised their hands and covered their faces... They, It's really no face to see people!

Chapter 4140: Swallowing back

For the thick face of these three old guys, even Ye Xuan, now is also amazing.

There are no such things as extortion and swearing, but Ye Xuan does not do much, but every time he takes advantage of the situation, and no matter how embarrassing, swindling and fierce, at least superficial reasons and excuses, or not Or missing.

But these three old guys have done a good job, and they have saved this link directly. The first moment is still arguing about who Sun Xing is, and the key issues have not yet been clarified, but they are united and public. He was extorted and extorted, and he was so arrogant and undisguised...it was no one.

Fortunately, the fifteen-level liquid and the sixteen-level liquid in his hands also have several tubes. After they came out, they finally opened the eyes of the three old guys. They were satisfied for a while, holding those tubes. The five-level and sixteen-level liquids, like holding a golden mountain, greeted Ye Xuan with a mouthful, saying that it was a return, and then the fart turned away.

"Sorry, these three old men... too faceless and skinless!"

"The music is played, we promise, we will not take them out again in the future..."

"Oh, forget it, let's go first, we have to go back and look at the point. If they swallow the fifteen-level liquid and the sixteen-level liquid together, then it will be troublesome..."

When the three old men slipped away, Xuanyuan Zijing and Duanmu Xiaocha and Zhao Qianru's three gimmicks looked at Ye Xuan with a look of apology.

Just did not say a few words, Xuanyuan Ziyang suddenly thought of something, and finally said one sentence, the three gimmicks changed face, immediately hurriedly turned away.

Ye Xuan has been squatting for a few seconds, and this is the black line on his forehead. Don't say, the three old men who are doing this kind of thing are still doing it...

.....

The shameless blackmail of the three old men is just an episode, and it will soon end, but after they have been so troubled, the original atmosphere of the huge platform on the main table of the central domain has changed, and all the immortal geeks who are thinking and thinking are positive. I wondered how to get back the atmosphere before, so I would like to take this opportunity and Ye Xuan to take a look at the 20-level liquid.

In this regard, Ye Xuan actually saw it. Of course, he could not give such an opportunity again. Otherwise, it would be difficult and difficult to get away from it.

Just as he wants to get up, he will leave first and return to the Tianhe Star. Ye Xuan's heart is suddenly moving. The conditioned reflex is generally nowhere to look to the right side of the void. His face is full of surprises and his hand is facing in that direction. One stroke: "Come on!"

Come?

In an instant, all the guests from all sides of the huge platform on the huge platform were all stunned, subconsciously following the direction of his beckoning, and looking towards the void on the right.

As for the peripheral guests who were originally in the direction of the void, whether it is such a star-studded person in the universe, or a federal citizen in a variety of warships, after a slight glimpse, immediately They are all excited...

They remembered the encounters of Xuanyuan Ziyang, Duanmu Xiaocha and Zhao Qianru.

Although the facts have proved that Ye Xuan has long had a leg with these three gimmicks, but at the time, Ye Xuan was arbitrarily recruiting, and the three gimmicks got up and finally let them unexpectedly get a surprise. It jumped directly from the celestial light to become the star lord.

It was a consensus that hundreds of millions of people were watching at the time.

And how is this scene in front of the scene similar to the scene at the time?

Is there any great creation that will appear?

Could it be that the star owner once again looked at the gimmick?

At the thought of this, the empty sky is just in the far right direction of everyone, suddenly stood up, even if it is not a hoe, it does not matter, anyway, Ye Xingzhu did not bluntly say that you have to be a woman, 三管三七二Eleven, let's take advantage of the benefits in the past.

If Ye Xuan knows that this group of guys is actually thinking about this moment, I am afraid that I can find a piece of tofu on the spot.

The reason why his face showed a surprise, the reason why waving to the right side of the void, and telling a word, in fact, the reason is very simple, because at this moment, he clearly feels the devour of the scent .

That was originally his avatar. Although Ye Xuan's current cultivation is the strength, the distance between the mind and the heart will be broken from each other, but within 100 million miles, between this deity and the avatar The feelings of the world can be restored instantly.

Right now, there is such a feeling in his heart that the devour of the avatar has come. From the territory of the ten-day palace of the Terran camp, he returned to the territory of the dynasty of the science and technology camp, and is also coming to the Tianhe domain. He is only less than 100 million miles away...

The distance of 100 million miles is based on the cultivation of Ye Xuan and the current realm of the border. If it is under the full force, it will be able to arrive at the meal, and the cultivation of the devotees will be stronger than Ye Xuan. Unexpectedly, it is very likely that it is already a cosmic environment. After all, he is a congenital engulfing treasure. If you practice it and directly devour all kinds of energy, it is naturally faster than Ye Xuan.

In this case, at his speed, you can reach at most tea time!

In the cosmic void in the right direction, those excited, I think that a large number of star-studded powers who came to the fortune, soon rushed out after rushing out, because they found that Ye Xuan looked up in this direction. But the focus of the line of sight is clearly not on them, but at the end of the void farther behind them...

Depressed, these guys also turned around and looked around. Soon after, the universe in front of the sky, a figure coming from the sky, a white dress like snow, peerless and independent, face and star on the huge platform outside the atmosphere of the Tianhe Star The Lord... is exactly the same!

Seeing this figure appear, on behalf of the Terran cultivation camp, the immortal eccentric palace and the slight change of face, but soon shook his head and smiled.

He naturally recognizes who the person is at a glance, or is it the invincible \*\*\*\* of war that has been raging in the territory of the real-life camp that was controlled by the Ten Heavenly Palaces in the past?

In fact, as the figure got closer and closer, not only him, but many people also recognized it. In an instant, the exclamation sounded loudly in this void...

"This is... the invincible \*\*\*\* of war? The devour of Ye Xingzhuo? One of the seven deities of the world?"

"Yes, it is the invincible \*\*\*\* of war, one person alone to cultivate the true camp, stir up ten heavenly chickens and fly the dog, but the more the more the more brave, it is said that even the great power of the Qiankun is not, I did not expect that now is the world's nine-order grand perfection It!"

"The half-step universe is higher than the strength of the Ye Xing master. It really is worthy of engulfing, invincible, and deserved!"

"Just... can the temperament be more powerful than the deity? How do the old man feel that this is a bit confusing, it's unheard of..."
