## **Super D. S 4141**

Chapter 4141: The ninth order of the world

The 9th order of the Lord is perfect!

This is the cultivation of strength that is swallowed up!

In less than two years, he has grown to such a height. Even Ye Xuan can't help but sigh. It really is the innate devour of the treasure. It grows fast, and does not need any practice at all. All kinds of energy can be swallowed and refined, and it is their own.

This is why he alone in the comprehension camp, while consuming the energy, but also have to be careful to guard against the killing of the Ten Heavenly Palace, otherwise, if you can open the arrogance without any scruples, it is estimated that Ye Xuan It's not a rare thing to have the innate devour of the treasures and the strength of the cultivation to reach the immortality!

As for the fact that the cultivation of the avatar is stronger than the deity, Ye Xuan is not worried at all.

His avatar is different from the one in the common sense of the world's cultivation system.

The three major star planes of today's world, whether it is human or other ethnic groups, even the Tianji and the mechanical family, basically have various restrictions on the avatar, and it is impossible to cultivate the strength to be stronger than the deity or even grow up. Space is limited by the talents and innate conditions of the deity.

However, Ye Xuan's innate engulfing treasure is completely different. Not only will the future growth space be limited by the conditions of Ye Xuan's deity, but even if it is stronger than the deity, there will be no problems. The deity is the deity, and the devotion is also the deity. It is simply one, just as Ye Xuan copied one copy and split it out.

Of course, if you can differentiate, you can naturally withdraw it at any time.

Now, when the devours are returned, the timing of this deity and avatar is clearly close to the eyes!
"You're back?"
"I am back!"
A few million miles away, Ye Xuan and the eyes of the engulfing treasures meet, the two have a heart, speak the same words, and then smile, while rushing to the sky above
"call out!"
"call out!"
The two figures are different in appearance, but the appearance is exactly the same. The strength is slightly different. One is the third order of the main body, and the other is the nine-order great consummation of the main boundary. At the same time, it is turned into two awns. The universe's void outside the atmosphere is violently blasted, and after a few whistling, it finally hits together and merges into one!
The image of the engulfing treasure and Ye Xuan overlaps. This scene is witnessed by countless federal people and star-studded powers in the surrounding air. The two figures become the only ones Invincible, finally returned!
"boom!"
"boom"
At the same moment of engulfing the return of the treasure, Ye Xuan's body, picked up the sky, the clear sound of thunder and blast, and the road came out!
With the return of the avatar, and the deity blended into one. Ye Xuan's body renaired breath, and

quickly began to climb!

This is originally what it should be. The avatar is also an integral part of the complete self. Even if the temperament is weaker than the deity, when the avatar returns, the cultivating strength of the deity will be enhanced.

What's more, the strength of repairing now is more than that of the deity. Once it returns, the impact of the cultivation of the deity is naturally greater.

This scene has been expected by many federal people and star-studded powers in the surrounding air, including Ye Xuan himself.

However, the extent to which this devotion that appears as a result of avatar return will eventually reach, but it is unexpected for everyone, and even Ye Xuan himself cannot guess.

But at this moment, the sound of the roaring sound of the body was heard, and his face changed instantly. The speed of cultivation was too fast.

At this point, he felt like a vast ocean, and he was screaming at the waves and screaming at himself.

Just the first wave of waves came, let Ye Xuan's repair as a direct strength to obtain a breakthrough, in his mind, the familiar system prompts sounded without suspense...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fourth level of the border!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the fourth level of the border!"

Then, the second wave of turbulent waves also shrouded Ye Xuan's body and mind between breaths. In the second half, the second familiar system sounded again...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fifth level of the border!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the fifth level of the border!"

This is not over yet. I haven't waited for Ye Xuan to come back. The third wave of turbulent waves has once again roared, and the familiar system sounds appeared for the third time in my mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth level of the border!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the sixth level of the border!"

In just three breaths, Ye Xuan's strength realm has broken through three small steps, and it is still a practice to repair the flesh and blood, and break through.

This scene is so amazing that it has been witnessed by countless federal people and star-studded powers in the surrounding air. For a time, countless words reveal the sound of exulting excitement, one after another, resounding one side...

"God, three breaths, breaking through three small steps in succession, and still a breakthrough in the realm of the border, which still makes people not live?"

"Others, I don't know, anyway, the old man is already in love, and compared with Ye Xingzhu, the old man has lived to the dog!"

"The avatar! Even the avatar can also drive the cultivation of the deity to break through. What is this avatar? How to refine it, it is a subversion of common sense..."

"It's amazing. In a short period of time, it has been a breakthrough in three small steps. How far is Ye Xingzhu going to open this time?"

"The treasure that is known as the invincible \*\*\*\* of war is a sacred body. It is the ninth order of the world. It is impossible for the lord to break through to this extent? It is also a blow to people. It must be like this. Laozi must also doubt life. !"

.....

At this time, Ye Xuan's whole mind has been thoroughly immersed in the thrill of rapid and continuous breakthrough in the realm of strength. It is simply unspeakable, and he is so fluttering.

Everything is still going on. The system sounds in Ye Xuan's mind are still ringing, and every breath is a small step breakthrough.

Finally, after the sixth breath, the last system prompt finally sounded...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ninth order of the main boundary!"

"Hey, congratulations to the host, the breakthrough of the physical body and blood! The current realm: the world's nine-order grand perfection!"

The 9th order of the Lord is perfect?

Is this not a half-step universe?

The thought flashed through my mind, and Ye Xuan's mind was like a thundering thunder, which made him almost travel to the sky. Not long ago, he was still in the domain, how long? Actually, it directly broke through the peak of the realm of the border, and became the super-old monster of the half-step universe.

All this is like being a dream, too unreal...

Chapter 4142: Under the mouth

With the return of the swallowing avatar, the realm of Ye Xuan's deity has risen in an instant, and in just six breathing hours, he has repeatedly broken through six small steps.

Nowadays, his cultivation is already from the third level of the previous boundary, and he has reached the ninth stage of the current world.

You must know that a few days ago, he was only the cultivation of the domain's main territory. It was already opened a few days ago. From the domain realm across a big realm, it rushed into the third-order of the landlord.

Now it is even more blinking and spanning more than half of the realm, directly rushing into the ninth-order great consummation of the world... In this scene, the numerous star-studded powerhouses in the emptiness around the world have begun to doubt their lives.

And Ye Xuan, but at this moment opened his eyes, the bottom of the bottom has a touch of excitement and excitement, and flashed past.

What is the ninth order of the border? It's really too fast, and now, his real combat power is far from it...

Previously, when he was in the third stage of the lord's main territory, the strength of the ancient konjac bloodline was the fourth order.

Now, the cultivation of the deity has once again broken through and finally entered the ninth-order great consummation of the realm of the border. Then, after the activation of the blood of the konjac, Ye Xuan's cultivation in the state of the three-headed six-armed Taikoo konjac can directly enter the universe. The environment reaches the first level of the universe and has the power to change across the realm.

Once you enter the fifth change of the konjac, its peak power will reach the sixth level of the universe.

This is the peak of the mid-term, and the distance is immortal, only four breakthroughs!

In fact, if you add the various treasures that Ye Xuan holds, and all kinds of Xeon's \*\*\*\* magical powers, he can even have the ability to fight the immortal battle. As for the immortal territory, he dare not say invincible. Silent Mo, but the general ordinary immortal grotesque, facing Ye Xuan's various strong blood and supernatural powers, can only escape from the wild, far from his opponent!

However, just this is the case, obviously it is not enough to make Ye Xuan satisfied!

In the next moment of the double-opening, he made a new decision: taking advantage of the return of the treasure, driving the deity to rise sharply, and now has not completely recovered the opportunity... and then break through a small step!

Now he, the deity of the cult is cultivated with the flesh and blood, all of them are the nine-order great consummation of the main territory, and it is already the level that can swallow the nineteen-level liquid.

If you swallow a tube of 19-level liquid, if you break through the success, you can repair your own exercises and flesh and blood, and push it further into the first step of the universe.

The ninth-order grand perfection of the world and the first level of the universe, although it is only a small difference, but because of the two different realms, once the breakthrough, the improvement of Ye Xuan's combat power is absolutely considerable. The meaning can be said to be significant!

Anyway, this level has already arrived. Sooner or later, I have to take a tube of 19-stage liquid to impact the bottleneck. It should not be late, it is now!

"call out!"

"Hey..."

After the decision, Ye Xuan did not hesitate, and with the faint sound of breaking the air, he took out a lot of cultivation resources from the immortal world, and any kind of release to the outside world could cause sensation and madness.

Congenital yin chilling liquid, smelting lotion, scorpion venom and \*\*\*\* ant liquid refining through Shennong's different flames, including two drops of evil source liquid, ten nine-level nine-color star nuclear source, a large number of under eight gossip瞳念晶等...

Finally, there is a tube...19th grade liquid!

All the cultivation resources of this forest, he decided to swallow up at the same time, absorb the energy, the only requirement is to ensure this breakthrough... must be successful!

Moreover, considering this breakthrough, it is a way to swallow a tube of genetic culture fluid after the peak of the big world, and to break through the potential of the body, it may take a long time, so in order to ensure safety, Ye Xuanluo After hesitating, he waved and sacrificed Shennong Ding.

"call out!"

When the sound of the air broke out, it turned into a manskin, and Shennong Ding rushed out from Ye Xuan's body, but it was not completely morphological, so it was too big, like a giant superstar.

Nowadays, everyone is eye-catching, surrounded by various types of starships in the sky, the gap area is not wide, Ye Xuan will control Shennong Ding in the diameter of about ten thousand feet, and then the body shape, and the blink of an eye has already reached the colorful fog At the mouth of Shennong Ding Ding, sitting cross-legged, his body is looming, and he is floating in the fog of Dingkou...

Subsequently, the previous step has been taken out of the immortal world, hanging in front of Ye Xuan, and along with him to the top resources of the Shennong Ding above the Dingkou, all under his wave, directly into a Mang, rushed into the mouth of Ye Xuan.

After doing all this, he waved his hand again. From the inside space of Shennong Ding under his body, a huge bird's leg with a hundred feet flew out and was held in the hands of Ye Xuan.

This poultry leg was made from a large number of ancient and noble ruins in the closed cave at the bottom of the volcano in the central area of the Ding Nei space. It has been roasted by the Shennong

seven-color flame, and it has already been golden oyster sauce. Exuding the colorful treasures, the smell is even more fragrant.

This is absolutely supremely delicious. Ye Xuan took it out at the moment and baked it, but it was not for the sake of taste, but for the purification of the pure energy of this ancient big-class poultry leg, so right now. His eating is indeed a little too flattering, saying that it is impossible to gorge himself. In just a dozen breaths, a whole golden leg of a hundred feet has already fallen.

This scene happened too fast. When the countless federal people and the star-studded powers in the sky were coming back, a whole golden bird's leg was swallowed by Ye Xuan and completely swallowed in the belly. There is no meat residue left!

Around the void, the sound of a slap in the mouth and the sound of the mouth suddenly sounded like a tide, one after another.

There are a lot of whispers coming from...

"Seeing no, the bird's leg in the hands of Ye Xing... It's really big, there is a huge giant in one leg. I don't know what the bird has cut down. It is golden and oily. It looks good. Eat it!"

"Is it delicious? And it's still very good! The old man has never heard such a fragrant thing so big, the locusts are out!"

"This Ye Xingzhu is also stingy. Let's come to Tianhe Star to observe the ceremony. All of them are guests. If there is such a good thing, we should share it with everyone. Ye Xingzhu is alone in the Dingkou of the giant tripod. What kind of ghost is it to eat a single food? It's like a fear of eating and eating, just don't be so irritating!"

In the end, even the three old men of Xuanyuan and Duanmujia and Zhao's family also came out and shouted.

"Xin Sun, you have a mouthful!"

"Right right, this thing is a good thing at first glance, the old man must have never eaten before!"
"How many do you want to stay a few"
"Oh"
Not far away, Xuanyuan Ziyan's three hoes slammed into the face again  Chapter 4143: First order of the universe
Seeing Ye Xuan gorging, a golden bird's leg with a hundred feet was completely swallowed into the abdomen during a dozen breathing hours. The sound of a slap in the mouth was sounding like a tide, one after another. It's a clear void.
This is the **** treasure of the ancient birds of the ancient ages, and it has been baked by the Shennong seven-color flame. It is said that it is hard to find the second one in the three major star planes of the world
The scent is too tempting, and even the old guys such as Xuanyuan's old man can't help but jump out and shouted for Ye Xuan's mouthfuls, how many stays
In the end, the resentful Xuanyuan Zizhen and Duanmu Xiaocha, and Zhao Qianru's three gimmicks, even pulled back and dragged them back into the starships of their respective families. It is estimated that they will not be released again in the near future. It's a shame.
After such a noisy, all the federal people and star powers in the vain air finally returned to the gods, and the attention was transferred from the scent of the seductive leg that was scattered in the corner of the corner to Ye Xuan.
Then, some of the enlightened existences turned pale, and the exclamations sounded again
"What is the situation? What is the main thing for Ye Xingzhu? In addition to the golden poultry legs full of pure energy, there are so many top-level cultivation resources, the old man can recognize the

congenital yin Liquid, scorpion venom and \*\*\*\* ant liquid... look at the breath, clearly all the top goods!"

"That is of course, with the main body of Ye Xing's body, can the general goods be used in the eyes? Behold, the ten stars are the source of this, all of them are nine grades and nine colors. I have never seen one in my life. Today, I saw ten pieces at a time, and I opened my eyes!"

"Miyamao, the top resources that Ye Xiaoyou took out... Is that a lottery lotion? God, there are still two drops of evil source, where did he get it, the furnace was copied by him. ?"

"If you remember correctly, just with these top resources, you are swallowed up by Ye Xingzhu. It seems that there is still a tube of 19-level liquid... Oh, no, you have to break through? Even the 19th-level liquid is swallowed. This is clearly to beat the rhythm of the universe on the spot!"

"Hey! The old man vomited blood, and abused the dog's abuse. This has just come from the third-order of the landlord to the nine-step of the world. It is immediately necessary to suddenly have a bottleneck in the realm of the realm.?"

.....

For the scene of the outside world that has already been smashed, Ye Xuan has not been aware of it at this moment.

After swallowing all the cultivation resources, he crossed his knees at the Dingkou of Shennong Ding, and his body shape and ups and downs in the mist of the nine colors, looming, has already entered the state of cultivation that I have forgotten!

In the body, the blood has been rolling at the moment, and with the horrible effects of the 19th-level liquid and all other top resources, Ye Xuan's body will boil for the first time, and the blood will flow like a river. The meridians are stirred up.

There is an unprecedented shackle chain that makes endless noises pass.

This time, his body once again showed a huge chain, the surface is still covered with various mysterious plaques, this huge chain is also an important potential chain on the evolution of the human body, like a pole Difficult to cross the gap between the sky and the sky.

If you successfully tear it, you can leap through this shackle and become a strong universe.

But if it fails, this huge potential chain will most likely become stronger. If you want to impact, it will be even harder... The evolution of gene culture fluid is the drawback, but it's worrying. Hurry, once it fails, it has bad side effects.

"Hey..."

"Oh la la!"

Time does not know how long it has passed. With the sound of the chain, the violent energy in Ye Xuan's body is like a tidal wave. The 19th-level liquid has been thoroughly removed, including other top resources such as the source of evil, and all of them have been Turn it apart.

Everything, gathered in Ye Xuan's body into an energy river, rolling away, but wherever you go, countless small human body shackles are all instantly torn.

Although painful, it also has an unspeakable sense of coolness, which is wonderful!

Time passed slowly, everything went on, and the energy that was called the majestic power finally rushed to the biggest chain of shackles that appeared this time, and immediately launched a crazy impact...

At this moment, Ye Xuan, who sits on the knees of Shennong Dingkou, is full of billions of pores, and all of them are shining in the infinite treasure. The whole person is like a god, and there are countless stars in the sky. And the federal people!

All the people have mentioned their hearts to the eyes of the blind at this moment. No one knows whether he will still succeed in this breakthrough!

Another time has passed, this huge chain of shackles has finally been completely smashed. At this moment, Ye Xuan feels suddenly and lightly, and the power and blood of the body are more rapid and wild.

Even the ocean that represents the power of cultivation in the brain, the area covered by its size has also skyrocketed.

When Ye Xuanyuan opened his eyes with great brilliance, the system prompt sound in anticipation also sounded in his mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first level of the universe!"

"Hey, congratulations to the host, the physical world of blood and blood breakthrough! The current realm: the first level of the universe!"

Breaked through!

After pouring all kinds of rare treasures, as well as the golden roasting legs of the ancient birds of the age of the wild, and the top-level cultivation resources such as a 19-stage liquid... This time, Ye Xuan finally succeeded in breaking through again. !

The deity of the deity is further developed with the flesh and blood, and is pushed into the first step of the universe without any suspense.

Between the ninth-order great consummation of the world and the first-order of the universe, although it is only a small-order gap, it is a successful breakthrough at the moment because it belongs to two different realms. For Ye Xuan's combat power, its improvement is absolutely absolute. Surprise, meaning is great!

Previously, when the strength of the deity was the final stage of the ninth order, he was eager to talk about the blood of the three-headed and six-armed Taikoo, and his strength soared again, climbing directly to the first level of the universe.

If you use the konjac and change the magical powers and reach the fifth change, you will be able to reach the sixth-order power of the universe in an instant, and each change will increase a small order.

Now, the cultivation of Ye Xuan's deity has once again broken through a small order and finally officially entered the realm of the universe!

Then, after the activation of the blood of the konjac, in the state of the Taikoo konjac, he will become the second order of the universe in the state of the supernatural konjac. Once he enters the fifth change of the konjac, his peak power will reach the seventh level of the universe.

This is the late stage of this situation. From the immortality, there are only three small-order breakthroughs left.

That is to say, with three breakthroughs in small steps, Ye Xuan can experience the terrorist power of the immortal level in advance...

Chapter 4144: Nine-level source core

This time, Ye Xuan used a lot of top-level cultivation resources, licking the return of the treasure body, hot iron, serving the next 19-stage liquid, wanting to break through the universe...

In the end, after a few hours of spiritual baptism and physical body tempering, everything was fortunate and never succeeded, and finally successfully broke through to the universe.

Nowadays, the deity is in the ordinary state, for the first step of the universe, and the practice is synchronized with the flesh and blood, and fellow practitioners.

Once the blood of the ancient konjac is activated, enter the three-armed and six-armed konjac body state, and the konjac will be transformed into the fifth change, and its realm will be upgraded to the seventh level of the universe, from the immortal old monster. They are only three different stages.

In a short period of time, such a big harvest, Ye Xuan has long been satisfied.

What surprised him, however, is that this time the creation is far from over.

Just as Ye Xuan opened his eyes and wanted to grow up in his heart, his mind came again with a familiar system prompt: "Hey, congratulations to the host, the magic level is improved! Level: Nine!"

Nine?

This time, even if I even know the spiritual core of the sea in my mind, I have also evolved together.

The thought flashed through my mind, and Ye Xuan's heart was even more delighted.

Recall that the spiritual core of the brain in his mind seems to have evolved into a ninth-level source nucleus a long time ago, and then there has been no movement, and it has never changed again, and evolved into a ninth-level source nucleus. sign.

But this time, under his unpreparedness, everything is as good as water, and it is inexplicable. It is simply speechless!

In the heart of the excitement, he suppressed the idea of immediately getting up and ending this breakthrough, but still squatting in the mouth of the Shennong Ding Ding, holding the colorful fog, returning to the inner view, the main consciousness entered the brain to know the sea.

Previously, Ye Xuan knew about the objects hanging in the sea, and there were already nine pieces!

At the center, it is Lei Diyin and Shennong Ding!

Surrounded by Lei Di Yin and Shen Nong Ding, there are seven small objects: the spiritual source nuclear, the hollow medullary crystal, the scorpion bow, the black gold dragon scale, the ghost claw, the Taikoo little konjac, and the quaint tortoise that just entered!

At the moment, with the return of the devour of the treasure body, there is one more thing in his mind to know the objects hanging in the sea, that is, the old-fashioned inheritance tower that was handed over to the engulfing treasure body.

A total of ten treasures, in his mind to understand the sea, formed two different circular rings.

The inner circle of the central part of the sea is an iron triangle. The three treasures are Lei Di Yin, Shen Nong Ding and the ancient heritage tower!

The outer circle of the edge of the sea is still the seven treasures, representing the various top blood and magic of Ye Xuan!

In addition to the ancient towers, when he swallowed away from the body, Ye Xuan handed him a emptiness of the first-level repair of the star master, and a shadow of the demon dragon of the ancient power level. It was in the early days of Ye Xuan's growth that he had greatly benefited him!

Right now, these three people exist, somehow, all of them have been swallowed up and received the towers of the ancient heritage.

Of course, although this tower is also the same as the Shennong Ding and the Molding Furnace, it has been completely refining, but Ye Xuan has completely refining it. Although it is because of the strength of cultivation, he can't completely reinvent the wild heritage. The full power of the tower.

However, the treasures and war pets in the tower can be summoned or sacrificed at any time.

Ye Xuan's consciousness was explored into the towers of the ancients, and soon there was a discovery.

The soul of the soul is still the same, but even Ye Xuan is now a cosmic eccentric, and the strength is far from comparable. But now when you see the blood corner again, there is still something that can't be smashed. a feeling of.

The \*\*\*\* soul of the year was the same level as the Void Giant Turtle, the Golden Dragon, and the Ancient Nightingale. The \*\*\*\* corner left by it was obviously not simple.

If there is no accident, most of them can let Ye Xuan always use the ancient and supreme!

As for Ye Xuan's personal reinvention of the real body, the previous repair was only the star of the star master, but now it has grown into an immortal, so Ye Xuan is quite surprised.

It's no wonder that swallowing avatars alone in the Terran camp of the Terran camp is so mixed with the wind, the former even sent immortal grotesque, have not been able to squat him, presumably at some crisis, the strength has been restored to immortality The emptiness of the environment will surely contribute a lot.

As for just a source of spiritual knowledge, it has not been able to reunite the true dragon's virtual shadow in the world. It was originally the strength of the ancient power, but because it was just a virtual shadow, every time it was shot, it was weak. At the end of the day, it was destined to be the end of the smoke.

However, before the phantom energy consumption was exhausted, it was sent to the tower of the ancient ruins. After being supplemented by the energy accumulated in the tower, it has now become alive again...

The main consciousness swept a circle in the tower of the ancients, and Ye Xuan quickly retired and turned to the spiritual source core suspended in the seven small objects outside the sea.

After this metamorphosis, it has evolved into a nine-level spiritual source core, which is small and small. It only refers to the size of the belly, the whole body is purple gold, and the color is very deep, as if there is a purple-gold vortex inside, it can be human. The mind is attracted to it.

Undoubtedly, the source nucleus has once again changed. The spiritual power of the devil contained in it has become the current nine-level spiritual power. Under the essence of transformation, Ye Xuan again spurred the magic core to display. When mental strength skills, secrets, and magical powers, power will surely rise.

And, with this time the source of the nuclear transformation, all the spiritual strength skills and secrets of the magical masters and the supernatural powers that Ye Xuan mastered have actually increased accordingly.

The aggressive spirit of the mystery of the annihilation of the spear and the ruin of the ruin, as well as the auxiliary spirit of the mystery of absolute shock and perfect shock, originally had a high level, this time has not changed.

Spiritual crushing and spiritual charm are also the same for the two spiritual power secrets. When the previous source nuclear metamorphosis to the eighth level, it is already a high-level secret surgery!

As for the spirit of lightning and mental reversal, it was an intermediate supernatural power. This time, it finally improved the grade and reached a high level!

Finally, it is the slavish skills that have changed unexpectedly not long ago. It was a primary mutation. In addition to the devil, it can also be used for most non-living objects. Of course, there are no ordinary humans and other ethnic groups who have cultivated strength. Even if there is no spiritual source in the brain, it can be affected by the primary mutated savvy skills and conquered as slaves.

This time, after Ye Xuan's spiritual nuclear evolution has evolved into a nine-level source nucleus, the primary variation of slain has also improved the grade, and now it is intermediate variation...

Chapter 4145: Spiritual black hole

The slavish of the intermediate variation, on the basis of the primary variation, the power has a huge milestone, and the significance is extraordinary!

In addition to the devil, primary mutating can also be applied to most non-living objects, including ordinary humans and other ethnic groups without any strength, even if there is no spiritual source in the brain, they can be slavished by primary mutations. Skills are affected and conquered as slaves.

The intermediate variation slaves, in addition to the devil, most of the non-living objects, can also be used as a slave to the non-devil life spirit that has been cultivated, not only limited to ordinary people who have not been repaired... ... Of course, the question of success rate must exist, and it is related to the cultivation of the exhibitor.

For example, Ye Xuan is now the first step of the universe. If the intermediate mutator is used, if the target object is the existence of the universe, it will be successful.

And if the other side's cultivation is immortal, even if it is immortal... There is no doubt that even if there is a possibility of success, it must be minimal, or if the other party's state is abnormal, such as a serious injury to death!

This kind of restriction is reasonable. Although there are some regrets, Ye Xuan is not disappointed.

At least, after the intermediate variation, the slavish skills, he will be able to perform again at a high frequency in the future, and think about everything that he experienced after entering the black mosquito mob to scout the fortress. If Ye Xuan got the slavish skills, there will be Today's winds start?

I was afraid that when I was imprisoned in the black mosquito, I fell early!

Previously, Ye Xuan's brains knew that the spiritual source of the sea had evolved once successfully, and it could open a new spiritual strength skill, secret technique or supernatural power.

The primary variation of his slavery was unexpected when the last nuclear evolution of the source evolved to the eighth level.

This time, with the eight-level source nucleus changing again and evolving into a ninth-level source nucleus, Ye Xuan once again got a new spiritual power.

At this moment, just as he looks at the mental power skills, mysteries and magical powers that have been mastered, such as spiritual lightning and mutated slave printing, this time, the newly acquired information about spiritual power and power has also been successfully used by his body's engulfing system. Comprehensive analysis, stored in the system's data repository.

There are some mysterious light spots that are self-suspended in the nine-level source nucleus in the outer sea of Ye Xuan's brain. They don't enter the sea below, so that Ye Xuan will be like a squatting moment, just a moment, Thoroughly realized all the essence of this spiritual power supernatural power that I just got...

This is a magical power that is spurred by spiritual power and is called a spiritual black hole!

When you listen to the name of this supernatural power, you can roughly analyze its power. This magical power is supported by the nine-level spiritual power contained in the nine-level source nucleus in the sea of Ye Xuan's brain. Once it is displayed, it can be In the outer space of the universe, a black hole-like terrorist attack surface is formed.

Compared with the spiritual power secrets such as the ruin vortex that Ye Xuan has already mastered, I don't know how much stronger.

Of course, the consumption is also very large. It is estimated that the total amount of spiritual power currently contained in the nine-level source nucleus in Ye Xuan's brain is only enough to be fully applied twice.

After two times, he will fall into the dilemma of the exhaustion of spiritual strength, the state is weak, and the headache is split!

Therefore, even if he is extremely expecting at the moment, he can even say that he is moving, and he wants to try its power on the spot and see the spirit of the black hole that he is fully exerted compared with the spirit war of the demonic group. Whether it is stronger or weaker.

However, considering the consumption is too large, he finally forced the impulse to be suppressed... Trying to make the nine-level source core in the brain lose half of it, this is too bad, just think about it!

After calming down the mood, Ye Xuan gradually calmed down from the excitement.

After the main consciousness withdraws from the sea, his eyes are opened, and the bottom of the scorpion is smashed with a sturdy sacred temperament. The temperament of the whole person is like experiencing an abortion, which is quite different from before.

This is also what it means!

This breakthrough, his realm of strength not only broke through the bottleneck of the big realm, but also entered the universe and became a cosmic monster.

The spiritual core of the brain is once again transformed into a nine-level source and degree.

The various spiritual strength skills, mysteries and magical powers that are mastered have also upgraded their ranks and powers...

With so many aspects of evolution and transformation, the intangible temperament will naturally change.

"call out!"

After growing up, Ye Xuan stepped into the room, the body shape has been from the Dingkou of Shennong Ding, drifting to the side of the universe in the void, and then, under the wave of a hand, Shennong Ding was earned by him in the immortal world.

At this point, this breakthrough is the perfect ending, everything is over!

The whole process was all in the eyes of countless federal people and star-studded people who looked around. At this moment, see Ye Xuan waved and put Shennong Ding away, ending this gorgeous breakthrough. The void is everywhere, and it will be heard again in an instant. A thrilling exclamation and sigh...

"Breakthrough! Actually and successfully broke through! Before a few hours, the world's nine-order grand perfection, now... but it is the first step of the universe!"

"When did the cosmic eccentric change so worthless? In just a few hours, one person was born in public, which is simply speechless!"

"People are really mad at people, and they are replaced by others. If you want to break through the bottleneck of the big world from the 9th order of the landlord, and successfully break through to the universe, you need at least a thousand years of precipitation and accumulation. Here he is here. It's good, it's easy to break through a few hours..."

"Before this, the key has just broken through six small steps. Oh, yes. A few days ago, it broke through a realm in one fell swoop. Under this breakthrough, I dared to attack the bottleneck of the big realm. And it's still successful! Hey, this time the old man really started to doubt life!"

"Ha ha ha... Ye Xingzhu, congratulations!"

"Ye Xiaoyou successfully broke through to the universe, and is far closer to the immortality. With the speed of your rise, the old man now has some doubts about the next time he sees you again. Is it a predecessor?"

"Not bad, Ye Xiaoyou's talent is strong, the old man only sees it. If it is really a year and a half, if you don't see it, you will be able to see you when you meet again. I don't know, hahaha..."

Accompanied by the resounding and sighing sounds of the surrounding, the Tianhe Star outside the atmosphere of two or three million miles away, the huge platform that serves as a banquet venue, such as Fox, Longshan Tang, Gonghua and so on. Nearly thirty immortal geeks, all set off.

Everyone's face was filled with a warm smile, and while holding a fist to congratulate, he laughed and greeted Ye Xuan.

Outside the atmosphere of the Tianhe Star, the entire vast universe of voids has once again become buzzing...

Chapter 4146: Tranquility before the storm

With the return of the swallowing avatar, Ye Xuan can be said that the harvest is huge, the deity's cultivation is the strength, first of all, it is synchronized with the swallowing avatar, reaching the ninth-

order great consummation of the border, and then swallowing a tube of 19-level liquid, and A large number of top resources such as the source of all evils have been successfully broken.

In one fell swoop, he entered the first step of the universe and became a cosmic monster. very

As for, even in his mind, he has known that the spiritual core of the sea has not been static for a long time, and because of this opportunity, coupled with the long-term precipitation and accumulation, it has evolved into a nine-level magic core.

Moreover, the primary mutated sprint is upgraded to intermediate variability, and even another powerful spiritual power supernatural power---spiritual black hole!

The return of a avatar brought such great benefits to the deity, which made Ye Xuan feel at the same time, and could not help but look forward to it.

Because he has two avatars, the devour of the avatar has returned, but another electronic avatar has not yet. If

If there is no accident, the electronic body is now in the home of the mechanical family's base camp. At that time, in the star of the evil, the patriarch of the mechanical family sent two mechanical behemoths to engulf the charm chain of the furnace. Ye Xuan is taking advantage of this opportunity to let electronic ones take one of them, and it has entered the home base of the mechanical family. from

After that, I lost contact, until now.

At that time, when I left, the electronic avatar's cultivation was in the first step of the Zhou dynasty. It has been going so far for a long time, and it is not the extent to which it has been upgraded to strength, and whether it is the same as the devour. Other adventures like...

These thoughts flashed through their minds, but they were quickly thrown away by Ye Xuan, because with the end of his retreat, he successfully entered the universe and became a brand new cosmic monster. The huge platform outside the atmosphere of the Tianhe Star. Many of the guests on the list have already got up and jumped into the void, and they all congratulated.

Ye Xuan's heart smiled and shook hands, and returned to the huge platform in the cold, and chilled with the cosmic monsters of the more than 20 immortal monsters and other forces like Xianghu, Longshan Tang and Gonghua. Fan, it is best to get out and leave, and hurriedly return to the interior of the Tianhe Star. Enter

After entering the main government of the mainland, he directly closed the door and hid it, hiding it...

The banquet in the void continued for three days and three nights. This was originally the celebration of the Tianhe Star, but at the end of the development, the Lord was hiding from the visitor. The top leaders of the major forces' delegations were helpless and could only retreat. In the end, they pushed each other and exchanged each other, and they were also happy.

Three days later, the countless starships outside the atmosphere of the Tianhe Star gradually dispersed, except for some small parts that remained, or entered the Tianhe Star, or went directly to the depths of the funeral star field to try to find the edge of the star. Most of the other starships, where are all coming and going, each went home.

Especially the Hell ants from the first universe, the space mouse, the giants and other ethnic groups, as well as the top ten ethnic groups from the Second Universe, etc. The relationship between these ethnic groups and the Terran and the Federation of the Faro was originally subtle. It is not suitable for a long time in the third universe...

Soon, the Tianhe Star Field once again restored the peace of the past.

And with the end of the Tianhe Star incident, all kinds of three major cosmic planes in the past two years have been smashed, and it seems that the dust has settled. First

The dispute between the various cosmos of the universe and the Federation of the Vulcan, because the owner of the air transport has been identified as the Ye Xuan of the human race, and is no longer mentioned by the people, both sides remain silent on this matter.

This is especially true of the two camps of the Terran, which have been slightly blamed for the recent major events. The relationship between the dynasty and the Tiangong has become more and more harmonious.

Even the Alliance of Nations of the First Universe is no longer clamoring to drive the four-member alliance headed by the devil to the first cosmic plane. magic

People have disappeared directly. Since the first time the magical emperor was shocked, it was taken away by the second generation of ancestors with a ray of light. This group has not publicly appeared, obviously crouching in the ancestral land of the devil's group. Among them, recharge your batteries.

The other three powerful ethnic groups in the four-nation alliance, the Hell ants, the Space Rats, and the Giants, are also the same. The three ethnic groups are firmly in groups and do not take the initiative to provoke the alliance of other ethnic groups. They are safe with each other.

Even when it was born not long ago, it suddenly came, replacing the entire cage of the magical star, although there were fierce roars and sounds of beasts from time to time, indicating that in the star field, the cage The battle between the beasts and the star-studded powerhouses who entered the area to visit and build is still fierce, but at least the storm has not spread to the outside world.

In addition, since the migration of the celestial family, the celestial family has never appeared again...

When I was cold, I saw that the three major stars in the world were all peaceful scenes at a time, as if they were peaceful and prosperous...

However, this seemingly peaceful and prosperous life is obviously just an illusion, just like the brief silence before the storm.

Among the three cosmic planes, almost all the top groups and the top leaders of the forces have recently fallen into silence, because at their level, the senses and premonitions have been extremely sharp, as long as they are immortal, all have recently Premonition in the dark...

It seems that there must be something shocking, it will happen!

It is not long ago that it was just born in the first universe of the devil's star field. Many people came to the suburbs, and many people subconsciously trembled, although they already knew the legendary flood in the distant world. The big world, most of the time, will appear again in the near future, and it will come to the world in an all-round way...

However, when the day is really coming, they are still in shock.

That is the legendary wild world, all kinds of wild animals, birds and beasts are all powerful, and they jump out of the existence of a wild big power level. If their cultivation is in full prosperity, they can directly sweep the three stars in the world. The main plane is gone. can

It is said that the comprehensive coming of the vast world of the wilderness is definitely a real disaster of extinction in the three major star-studded planes of today's world. The top top ethnic groups and forces do not even know how to survive. .....This

There are also worries, Ye Xuan also has, and is deeply affected.

In these few days, he has been staying at the Star House of Tianhe Star, trying to contact the corpse lamp tattoo on the left chest, trying to wake up the headless baby body and asking for some things, but unfortunately he has not received any response. heart

In the head squatting, time passed slowly. On the seventh day, Ye Xuan's heart suddenly felt a sense of extreme uneasiness. It was unclear whether it was a blessing or a bad omen. He knew that the three major stars in the world were the main planes. Somewhere, I am afraid there have been big changes happening...

Chapter 4147: Repairing the ancestral nest

The second universe, the sinister star!

The Yin Magic Star Field was originally the ethnic domain of the Second Cosmic Yin Devil. The location of the starry sky is relatively remote!

Since the Yinmo people are not in the second universe, they are not too much to be seen. When the former communists of the Second Universe have not yet withdrawn from the Federation of the Vulcan, the Yinmo is a group that is excluded by the Federation of the Varo. . positive

Because of this, in the vast territory of the Second Universe, the Yin and Devil's ethnic group has always had few people, and even other ethnic groups in the second universe have rarely traveled here.

Since the Yin Mozu was incarcerated by Ye Xuan's incarnation, even the ancestral yin nests of the ethnic group have been blown up into a sinusoidal vortex with a large area. This sinister star field is even more ugly. The emergence of human smoke has been almost like a remote and wild land this year.

Only after the yin nest of the Yin and Mozu ancestors exploded, the vortex that formed the void was always there, and slowly expanded outwards at a very slow speed...

As early as a few days ago, when the Tianhe Star held a grand celebration, the second universe of the Yin Demon, there were hundreds of large fortresses with a diameter of 100,000 meters.

It is not through this place, but after entering the sinister star field, it stops and looks at the posture. It seems that there is no plan to leave it in a short time. This

Within the hundred great fortresses, all are the people of the Yinmo! Yin

Although the ancestral nest of the Mozu was blown up, the Yin Mozu did not destroy it, except that the mad patriarch, Yin Di, was still alive, and he also tossed in the first cosmic plane this year. Beyond the movement, the Yin Mozu, and tens of thousands of people are wandering outside...

They were originally taken away from the yin nest by Ye Xuan in the name of Netherland, and finally arrived at the Turtle Star Field, because the identity of the Netherland is exposed, so that the Yin Mozu people separated from Ye Xuan .

Its leader is the elders of the Yin Mozu! although

It was said that the patriarch of the Yin Mozu was born and destroyed, and the cultivation was soaring. However, because the Yin Emperor was stunned at the last moment of the breakthrough, although the body of the Yin Devil was achieved, the brain was out. problem. in

After stunned by the actions of the Nethered Respect, not only hated the sky, but also hated the identity of Ye Xuan. Even the head of Yin Qi was taken away by the Nether, and he was carried by the big sedan. In the second universe, the tens of thousands of people who shouted in the slogan were also hated by the Yin Emperor. Say

They are shameful, and they have all defeated the face of the Yinmo people, and they have released their words. One day in the future, they must personally kill the tens of thousands of Yinmo ethnic groups and clean up the portal...

Since then, these tens of thousands of Yin Mozu people have become the stray dogs of the first universe. Some families can't go back. Some patriarchs can't recognize them. They have been wandering outside. They have already faded out of the main stage of the first universe. For half a year, it is no longer mentioned. but

Today, they are back. in

Under the leadership of the elders Yin Qi, he quietly returned to the Yin Magic Star!

When they were forced to wretched, the tens of thousands of people were all crowded into a large fortress of 100,000 meters in diameter. But now, after the return of the first half of the year, the Yin and the tens of thousands of Yin Mozu people brought it back. It is more than a hundred big fortresses. only

Yes, these hundreds of big fortresses seem to be somewhat damaged, and they are not a unified system. Although they are all large fortresses with a diameter of 100,000 meters, they are different in some subtle places.

Obviously, most of these big fortresses are not the right way to go, just like a miscellaneous army that has been pieced together. thing

It is true! This

For more than half a year, Yin Qi took the tens of thousands of Yin Mozu people who had left homeless. In fact, they did not do anything good. They were all good in the empty sky. It's hard to say that they are hard to hear.

This old guy led the tens of thousands of people who have left behind, and has been a star thief for half a year. Now he has returned to the sinister star field, and the hundreds of star-studded fortresses brought by him have all been grabbed in this half year... although

However, the road is not right, even the situation of the 100-star star fortress seems to be a bit embarrassing, and there are some damages. How can it be? This is also a hundred-star star fortress, and it is not a small diameter of 50,000 meters. The fortress is a star fortress with a diameter of 100,000 meters.

At the moment, they are gathered together, and the combat power is still quite impressive...

After entering the sinister star field, the more than 100 major fortresses ran straight to the whirlpool of turbulence formed after the vaginal nest exploded, and lined up on the right edge of this huge vortex! in

In the top-level master control room of the central flagship, Yinqi is standing in front of the stereo holographic image screen, and it appears in this screen that it is the whirlpool of the emptiness!

In the middle of the 精精精,,,,,精精精精精精精

"Hey!"

"Hey..."...

...with

With his one command, more than a hundred big fortresses were shocked at the same time, and then all of them heard the high-frequency buzzing sound.

This is clearly the movement that the space bridge is fully open. very

Obviously, the purpose of returning to the Yin Magic Star is to return to the Yin Magic Star. The purpose is to repair the whirlpool of this emptiness with the space anchors of the hundreds of stars. This

In it, it was originally the place where the yin nest of the Yin Mozu was located. Because of the big bang, it became what it is now. If it is repaired, it is still possible to reproduce the ancestral nest of the Yin Mozu. hundred

Although there are not many stars and strong fortresses, this vaginal whirlpool is not too wide, only a thousand miles.

If there is no accident, spend two or three months to carry out uninterrupted repairs. This vaginal whirlpool can basically be repaired.

Although it is a little bit harder, everything is worth it. Yin

The reason why the Seventh is doing this is that on the one hand, there are tens of thousands of people who are wandering outside, and indeed they are physically and mentally exhausted, and they want to have a stable foothold, another

On the one hand, it is hoped to obtain the understanding of the patriarch Yin Yin by repairing the Yin nest.

After all, now the identity of the Nethered Respect has been separated, but the seven enchanting ones are the ones that belong to the world, and even the top ten groups of the second universe, which were tormented by others in other identities, and A universe of all races, as well as the two camps of the Terran and the Federation of the Bandar, nowadays have a smile and enmity in the past, can the Yin Emperor still have something to open? in

Yin Qi seems that although the patriarch Yindi did not know where he was, he did not hear any news from the three major planes recently, saying that he heard the familiar roar of the Lesser Nether. The sound of roaring. This

It means that the patriarchs are very likely to figure out.

It is with such a beautiful expectation that Yin 7 will rush back to the Yin Magic Star Field, try to use this way of repairing the ancestral nest, get the forgiveness of the patriarch, let him return, and re-lead the entire ethnic group. Waves and waves...

Chapter 4148: Change of the vaginal nest

Three days passed by!

During these three days, more than a hundred star-studded fortresses brought by Yinqi did not stop for a moment. Day and night, the space-gathering device was fully open, and the vortex of the emptiness in front of the sky was unfolding.

This is a very boring thing. The constant high frequency and low humming sound is even more disturbing, but only three days have passed. It is necessary to completely repair the vortex of this prescription. It takes more than two months.

Still early!

Whether it is Yin 7, or the tens of thousands of Yin Mozu people in the more than 100 Star Fortresses, they are very patient and not in a hurry. he

They were different when they were taken from the ancestral nest by Ye Xuan in the name of Netherland.

In the past six months, after the demise of the ethnic group, the ancestral yin nest was destroyed, the patriarchs roared and said that they would kill all of them, clean up the portal... and so on. After a series of accidents, the tens of thousands of Yin Mozu people In terms of heart, it has already matured completely. very

Even the Yin seven, and the slightly impetuous before the half a year ago, has become a lot calmer!

In fact, nearly a year of wandering in the void, sneaking the experience of those star thieves, also let the tens of thousands of Yin Mozu people's cultivation of strength, has been greatly improved. star

Every attack by the Pirates must be a fierce battle. This was originally a way for the team to grow rapidly, but no one would make a similar choice if it was not forced to go to nowhere! this

At this moment, I watched more than a hundred starry fortresses in the sky and the sky, recalling the tens of thousands of people in these big fortresses, all kinds of tempering and struggling experienced in the past half year. Unparalleled confidence.

He believes that as long as he can repair the ancestral yin nest, as long as he can obtain the understanding of the patriarch of the patriarch, then once the patriarch returns, he will be able to let the former sinister family. Show the glory again...

"boom!"		
"Booming"		
positive		

At the time of Yin Qi's heart-felt feelings, the universe's virtual air outside the flagship fortress of the central domain suddenly came without any warning, and the sound of the earth-shattering roaring sounds, one after another. This

It is clear that there has been some big change, because even the void is confusing at this time, so that the 100,000-meter-diameter starry fortress under the Yinqi foot is such a giant, and now it's like a huge wave. a pointed boat, violently slamming...

In fact, it is not only the flagship fortress where Yinqi is located, but also the other hundred star-studded fortresses in the surrounding void. surface

For this sudden situation of the chaos of the void, more than a hundred star-studded shipyard spacecrafts have already stopped working automatically. that

The high-frequency low-pitched humming sound that lasted for three days disappeared completely. Instead, it continued, and the thunderous thunder of the endless...

"What happened? What happened..." short

After the temporary sluggishness, Yin 7 immediately snarled with his feet and snarled: "Just just use the space bridge to repair this vaginal whirlpool, how can such an accident occur?"

Such a big move is that this whole piece of void must be completely collapsed? What happened in the days of murder? what.....""

Rumble! ""

Bang..."

The roaring roar of the Yin 7 was heard, and the thunder that had been going on continued for a long time. The sudden sound was even worse. tight

Then, without the reaction of Yinqi, the flagship fortress where its figure is located is like a huge force that is irresistible to the inexplicable force, and rushes forward. Suffer

In the same state, there are more than a hundred star-studded fortresses. At this moment, without exception, all of them are involuntarily rushing to the vortex of the emptiness in front of them. The speed is faster than this 100,000-meter-diameter starry sky. The limit of the big fortress...even two or three times the limit speed that it can reach! this

At that time, if someone is standing in the void of endless distance and looking at the area, it will be able to bring this shocking scene into a clear and incomparable overall income...

Fang, the whirlpool of the emptiness that was originally only a thousand miles, somehow, in a moment of time, suddenly began to radiate a general outward expansion at a horrible speed! short

Shortly breathing time, this vaginal whirlpool was originally only a thousand miles, and it has expanded to a million miles. If you look at it, it will be like a whirlpool in the void. It is a mouth in the universe. Originally it was tightly closed, only a lip line, but now, this mouth suddenly suddenly angered...

The horror-sucking force that emerged from this moment directly puts Yin 7 and its tens of thousands of Yin Mozu people together with the hundreds of Star Fortresses into the deep hole of this black hole. Half a breath of work has disappeared completely! "

This is... God, what happened? "also

It was at this time that a lonely figure spurred from a distance, and the air that was dispersed in the body was breathed into the realm of the border! This

The figure is tall and embarrassing, and it is clearly the \*\*\*\* green sorrow of the Yin Mozu! quasi-

To be sure, this \*\*\*\* green, in fact, is the patriarch of the Yin Mozu!

The last appearance of the Yin Emperor was in the source of the evil. At that time, he almost fell, and at the last moment, in order to save his life, he was fully fit with the \*\*\*\* green body on his side. from

After that, he has always been the appearance of this, people are not human, ghosts are not ghosts, both the body of the demon, and the body of the devil, is simply a freak.

However, the full integration between this and the meditation has also caused his cultivation to rise sharply. After squatting and rehabilitating the injury, the present Yin Emperor is already a supreme powerhouse. It is.

The reason why this time suddenly returned to the second universe of the evil spirits, because he and Yin seven, also received news from the third universe Tianhe, knowing the true identity of the Nether.

At first thought of the other side is actually the seven enchanting one, and it is still the body of the world's air transport. on

Even the first few universes, the top ten universes of the second universe, and the top ethnic groups and forces such as the Terran and the Bandana, which were tossed by several other identities, are in the big

situation of the three major stars in the present day. Under the pressure, all of them have given up their past grievances, all trying to make good friends with Ye Xuan...

There is an incomparable sense of desolateness in the heart of the Yin Emperor.

With the current trend of the people, he is such a small landlord, not to mention revenge and venting anger. It is estimated that it will only happen once, and there is no need for people to personally take the shots. Those who are willing to please the knot and hope to repair the relationship with the top ethnic groups and forces Immortal grotesque, the first time will jump out of a few, and slap a slap to kill yourself...

This is really too embarrassing, so that he was disheartened, inadvertently, all the way lost the soul and wandering around, do not want to actually return to the ancestral home of the Yin Mozu, and also saw such an amazing scene!

Chapter 4149: Ancient void was born

"boom!"

"Booming..."

The earth-shattering roar was resounding. It was only a thousand miles away. Then, because of the sudden appearance of the accident, the radiation radiated outward instantly. A breath of imaginary turbulence reached a million-mile diameter. Now, still Continue to spread outward.

Just like a black hole is collapsing, the scope of the universe that is occupied is becoming more and more extensive.

However, compared with the violent violent violent increase of ten times the area before the initial breath, the outward spread of this turbulent whirlpool has continued, but the speed has slowed down too much... ...can

Even so, because the movement is too big, this whole piece of the universe's void is still affected by it. In the area of billions of miles, the void is slightly trembled! far

Beyond two or three million miles away, the Yin and Yin tribes, who have been fully integrated with the \*\*\*\* greens, are standing in the void of the universe, seemingly thinking, and even whispering in the mouth. Language: "It seems that this vaginal whirlpool will have new changes happening..."

How do you feel like the Devil's Star Field in the core of the First Universe's Devil's Star Field... It seems that there is a world and a world that does not belong here, is it coming to the general? "

"In addition, it has been clearly seen that there are more than a hundred starry fortresses here. Listening to the unique high-frequency buzzing sound, it should be the opening of the space cage on the big fortress. It is whirlwinding in this void... Expand Fix?"

Is it the idiot of Yingi?"

"Otherwise, the place where the Yin Nest is located is originally the remote and barren area of the first cosmic plane. Now even the Yin nest is not there. There is no value in this star field. Who else will be so laborious and laborious? Use hundreds of Star Fortresses to try to repair this vaginal whirlpool?"

Here, the Yin Emperor smashed in the glare, and the fierce gas in the body was instantly dispersed.

Hate the teeth and hate the sound: "Idiot! A group of idiots! With a space bridge to repair a whirlpool of only a thousand miles of emptiness, it can also toss out this big mess, not enough things, more than enough!"

Just..."咆

After snarling a few words, the anger of the Yin Emperor's heart seems to have dissipated, and the loneliness and loneliness since this time have once again come to my heart. short

After the temporary silence, he suddenly sighed and sighed: "But it happened. Although it didn't do anything well, it turned out to be awkward, but this little gangsters have a heart, if it is possible... it can't be ignored!"

"But it all depends on their own creation. If this vaginal whirlpool is really impossible to enter, this emperor... there is no way!"

At the end, the Yin Emperor once again flashed his brilliance, and looked up to the front and still expanded outwards. It was like a black hole in the emptiness of the whirlpool...

At this moment, because the width of the expansion is too fast and too wide, the original turbulent whirlpool has disappeared completely. What is in front of you is a dark void like a black hole, and the edge of the black hole is constantly moving toward External advancement seems to last forever, no end in general...

But this is obviously impossible. The largest cosmic black hole in the world's three major star planes is only tens of millions of miles in diameter. Just then, after tens of thousands of years of age, it is slowly formed!

This place is only formed by a sudden change of the turbulent turbulence. In a short period of time, the final size of the range is wide and there is also a spectrum. If there is no accident, it should be stabilized very quickly...

After some sinking, the Emperor Yin finally suppressed the thought of turning away and still stood in the distant sky, waiting quietly.

When I was stunned, I felt like a little bit of time. When he felt a little bit, he opened his eyes again in a meditation and looked at the distant universe in front of him. When he saw the scene, he immediately made him completely stupid and took a cold breath. gas! he

The perception is not wrong, the black hole that has been expanding outwards, and now it has stopped, no longer expands outward, and its interior is clearly stable.

However, for such a small half-day work, the black hole area in front of it has expanded to a level of 30 to 40 million in diameter. This can definitely be regarded as a large black hole, placed in the three major star planes of the world. This is true in any place. This

It's not a big deal. What really shocked the Emperor is that this vast black hole stopped expanding and was completely stabilized... inside, the ancient starry sky! No

Wrong, inside the black hole, it is clearly an ancient starry sky, revealing an endless and heavy ancient atmosphere. Milli

Undoubtedly, this ancient starry sky is the same as the world of the cage in the center of the first cosmic demon's star field. It is also a wasteland. It was not in this plane. I don't know where the chaos drifts, but now, This corner of the ancient world, because of the sudden change of the vaginal nest vortex, actually revealed a corner, and this piece of the second universe of the evil demon star... This

The scene is so amazing that the ancient wilderness of the corner suddenly emerges without warning. Although it is not like the first universe, the heavens and the earth are generally all-round, but it is tantamount to the constellation of the second universe. Opened a avenue leading to the ancient wilderness of this corner!

The Yin Emperor, in the close range, saw the whole process!

At this point, his whole person has long been completely sluggish.

The corner of the black hole in the front is obviously deep and deep, and you can't see the end, but even in the periphery of the close range, there are a lot of savage beasts that he has never seen before.

Such as the Golden Lion, the Golden Eagle! nine

The tail of the cockroach, the three-headed snake, the red phosphorus two-tailed snake!

Blood Moon Wolf, Purple Star Wolf, Yellow Electric Ray Wolf...

And Amethyst Bi Meng, five-color Shenniu, Jin Yuzhen, blood jade spider, six-winged demon worm, blue-golden beast, \*\*\*\* konjac, purgatory blood phoenix, purple gold dragon 蟒 ...... and so on, all kinds of strange, In the days when the world has long been invisible, the wild species, the savage birds and animals, have everything!

He even saw a slender silvery dragon with a narrow body and a hundred thousand feet. The slender tail looks like a long whip. The shiny head has a big, pointed nose and a long back. A pair of small corners that are bent forward, and a large pair of large angles behind the eyes, the wings of which can reflect the light as a mirror, and the texture of the metal is exposed...

There is another direction, it is a black dragon, the shape of the giant, and even more than the talented that 100,000-foot giant silver dragon.

It has more than 200,000 feet of body length, huge to the horrible dragon body, with black to opaque metal solid scales, and the same dark vertical almond-shaped pupil, but in the scales with a central radial protrusion On the dark black iris, there are countless gorgeous gold wires embedded in the hairline...

Chapter 4150: Life giant plug

Undoubtedly, this body is huge enough to have more than 200,000 feet of black dragons absolutely powerful!

The breath of blood is too strong, even if it has already fallen into endless years, but in the body, it still exudes a horror that makes the world shudder. especially

It is the same fine gold rim in the edge of its scales and iris, so that when the line of sight is projected, you can feel the golden sparkle flashing invisibly in the scorpion...

The black sturdy black scale body, coupled with the mysterious fine gold line around the pupil, is obviously a savvy black dragon with a strong body and a certain kind of supreme magic.

Its peak power of the year is even more likely to be as simple as the legendary ancient powers... It is very likely to be an ancient supreme! miss you

At this point, the entire body of the Yin Emperor trembled uncontrollably. Do not

It is fear, but excitement!

For him, the ancient wilderness of the corner connected by the black hole in front is simply a supreme treasure! only

It's just that the treasures of these vast wild birds and alien beasts that can be seen in sight are enough for him to enjoy for a few years... it's not enough! more

What's more, it's just in the sight of this moment, it's just the most fringe of the corner of this ancient world. From the depth of it to the singularity of the lord, you can't see the end of the range. In the deepest corner of this ancient world. It is very likely that there are other bigger and more amazing opportunities and creations! he

There is no doubt that with these ruined treasures of wild birds and beasts, it will take time to say nothing about the immortality. Even if it is sealed, sealed, or even immortal, he will definitely be able to step on it. Enter!

"Is the emperor immortal? I didn't even think about it, but now it seems... everything is possible!"

In the trembling, the Yin Emperor did not hesitate. At this moment, he had thrown away the tens of thousands of Yin Mozu people who had been inhaled into the ancient wilderness of this corner.

At this time, the only thing I thought in my mind was that I had not exposed it for the time being, and I was not found by more powerful stars and parties, and immediately rushed in, harvesting as much as possible in the void as waste, and everywhere. The treasure of the soul of the soul! This

These can all be the supreme cultivation resources that can be met! "

Oh..."Heart

In the excitement of the emotions, the huge shadow of the Yin Emperor instantly turned into a blood-green mang, and it quickly spread across the universe of more than 20 million miles, and plunged into the vast black hole in front...

Ye Xuan has been staying at the Star House of Tianhe Star for a few days. After many attempts to contact the corpse lamp tattoo at the left chest, she has been depressed after she has no hair and no hair.

These three days, the starry sky, the main plane is too quiet, and Ye Xuan has always had a bad premonition, and my heart is awkward. Until yesterday, this feeling of extreme uneasiness suddenly became strong, although it is still strong. It is unclear whether it is a blessing or a bad omen, but he knows that there is a big change in the place where the three major stars of the world are located.

Since then, Ye Xuan has been waiting, but unfortunately, no matter what the first universe or the second universe, there is no special news.

As for the third universe where the Terran is located, it is even more sloppy...

Just when he was suspicious and felt that it was not overlooked, from the second universe, a thundering thunder like a thunderous scream suddenly passed over without warning, and it was on the spot. Xuanyuan had a foreign Jiao Lien, standing with his mouth open, his mouth creaking, and the whole person was stunned...

The sinister star field of the second universe, that is, the turbulent vortex formed by the yin nest of the former yin demon ancestors was destroyed... It happened! Eliminate

The interest was transmitted by the \*\*\*\* people of the top ten ethnic groups in the second universe. blood

There is an immortal old monster in the Yi nationality, that is, the three-jawed dragon, who has already invested in Ye Xuan. This time, it is he who passed the news through some secret channel.

Because this matter is too great, the first ten ethnic groups in the second universe, after receiving the news, placed the army in the first place outside the two plane-level cosmic wormholes leading to the third universe and the first universe. This message is not allowed to pass from the second universe. when

However, the final paper must not be able to contain the fire, and the blockade will be stricter, and the news will one day leak out.

At this point, the top ten ethnic groups in the Second Universe are well-informed, but they still do it. They have not even taken into account the news leaks in the future. In the other two star-space main planes, all other top-level groups and forces will How to treat this matter.

Even Ye Xuan, who represents the idea of a person who belongs to the world, seems to be too lazy to pay attention... even a few days ago, the top ten ethnic groups in the second universe have also come to the third. The Tianhe Star of the universe tries to repair the relationship with Ye Xuan! One

Cut, it is because the benefits represented by this change have been amazing.

According to the news from the three-jawed dragonfly, the yin of the yin nest, which was only a thousand miles away, has become a tens of millions of diameter black holes, and within the black hole, it is a deep into the innocent The ancient world, just in the edge of the void, there are massive treasures of wild birds and aliens. no

Whether it is the quantity, or the quality of the treasures of these ancient ruins, is far beyond the former universe of the first universe! First

The top ten ethnic groups in the universe clearly knew that they wanted to eat alone. They did not want this cake to be divided by the two camps of the Terran and the first universe.

Even in order to protect this point, even the family of the tortoises that have already been sealed have been monitored by them to prevent the tortoises from leaking out the matter..."

by! It's going to be a big deal! The time when the Lord of the Stars once again went out...coming! "From

After returning to this shocking news, Ye Xuan waved his life fortress for the first time. After his body, he came directly to the bottom of the fortress. Here, there is a slime mother's nest. Every moment, every time, a lot of evil spirits slime are hatching!

In the next moment, a familiar system prompt sound came from my mind: "Hey, congratulations to the host, find the crystal of the elf!"

The Crystal of the Spirit is the crystallization of the power of the slime, one of the natural life energy that can be absorbed by the self-proliferation group of the world!

This kind of crystal is one of the important resources for the evolution of the life fortress, and it is the purpose of Ye Xuan to come to the bottom of the fortress at this moment! This

Once, he wants to quickly upgrade the level of life fortress, so Ye Xuan decided to collect a large number of crystals of the elves for the world's insects to self-report. he

After even the instructions for the collection, half an hour later, hundreds of thousands of crystals of the elves were brought together and turned into a mans, spurred into the hands of Ye Xuan.

The so-called Elf Crystal is just a small red crystal, and the head is very small, crystal clear, looks like a pomegranate grain, the biggest is smaller than the small fingernail.

Tens of thousands of pieces together, only a large bag, it is not very eye-catching, but for the life fortress, this is a chance to change... From the life fortress, to the major opportunity of life giant plug!
